Prior to the injured suspect running away from the scene, a second individual exited the suspect vehicle and ran towards SA [redacted] location. SA [redacted] fired four rounds through the front windshield of the Bureau vehicle, striking the second subject in the right hand. The injured subject, along with two additional individuals in the subject vehicle, ran from the scene. SA [redacted] fired at least three rounds from inside the Bureau vehicle; however, none of the rounds struck the subject. b6 b7C

After confirming that SA [redacted] was not injured, SA [redacted] advised other law enforcement personnel via radio of the incident. Agents in nearby vehicles immediately responded to the location as well as LAPD officers. An unloaded .25 caliber Baretta handgun was located on the sidewalk approximately fifteen feet away from the subject vehicle.

Investigation determined a juvenile by the name of [redacted] was located in a local emergency room with a gunshot wound to his right hand. During [redacted] interview, he admitted to having been at the location of the shooting and advised the driver of the vehicle was Cesar Ballesteros. [redacted] also identified the two additional individuals involved in the incident who were subsequently arrested.

On 12/19/2005, a declination of prosecution was received from the United States Department of Justice, Civil

Rights Division, regarding the actions of SAs [redacted] and [redacted] in this shooting incident.

On 05/05/2006, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Daniel Lee Cloyd, Inspection Division, chaired the meeting and was a non-voting member. The following voting members were in attendance: Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Attorney, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Kevin Favreau, Section Chief (SC), CD-4, Counterintelligence Division; [redacted] Assistant SC, Transnational Criminal Enterprise Section, Criminal Investigative Division; [redacted] Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD); UC [redacted] Defensive Systems Unit, TDD; Supervisory Special Agent (SSA) [redacted] Special Weapons and Tactics Operations Unit, Critical Incident Response Group; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted], Investigative Law Unit, Office of the General Counsel (OGC); and SSA [redacted], Washington Field Office. [redacted], Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division, a non-voting member, was also in attendance.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

The SIRG members unanimously concurred that the use of deadly force by SAs [redacted] and [redacted] was justified and in conformance with the FBI's deadly force policy.

SIRG members made two observations pertaining to the shooting incident report submitted by the Los Angeles Field Office. The first observation pertained to the operations plan provided to all participants. Members opined that any reference to the deadly force policy should contain language mirrored from the current deadly force policy which was approved by the Attorney General on 07/01/2004.

The second observation made by the SIRG was the fact that personal background information relating to the Agents

involved in the incident was included in the report which was not germane to the investigation. Members emphasized that this information is discoverable in the legal realm and should not be included in future reports. These observations will be discussed with the Assistant Director in Charge of the Los Angeles Field Office.

**Title:** SHOOTING INCIDENT
BOSTON DIVISION
03/24/2005

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 03/24/2005, involving Special Agent (SA) [redacted] During the attempted arrest of [redacted] an Armed Bank Robbery fugitive, SA [redacted] fired six rounds from his Bureau-issued Glock Model 22, .40 caliber pistol injuring the subject. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference report of Inspector-in-Place [redacted] dated 05/12/2005.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

**Details of the Shooting Incident**

[redacted] was the subject of a pending Boston Division bank robbery investigation after he was identified by the Bank Robbery Task Force (BRTF) as the individual responsible for a bank robbery that occurred on 03/01/2005, in the Boston area. [redacted] was developed as a suspect in the bank robbery following an episode of the television show, "Massachusetts Most Wanted." An individual called the program and provided information regarding [redacted] and warned the police that, [redacted] is your man...and he could have a gun." The caller also provided information about a possible location of [redacted] in Dorchester, Massachusetts.

b6
b7C

On 03/23/2005, local police detectives obtained an armed robbery arrest warrant for [redacted] SA [redacted]

assisted the detectives by writing the operations plan for [redacted] arrest. The operations plan was reviewed and approved by the BRTF Acting Supervisory Special Agent (A/SSA) [redacted] as well as Acting Assistant Special Agent in Charge (A/ASAC) [redacted] on the morning of 03/24/2005. Following the approval, SA [redacted] briefed the plan to participating members reading verbatim the Department of Justice Deadly Force Policy to all attendees and advised [redacted] was to be considered Armed and Dangerous. SA [redacted] provided an overview of [redacted] extensive criminal history, including the fact that [redacted] was previously arrested for assault and battery of a police officer and had attempted to run over several firemen and a policeman while fleeing the scene of a traffic stop in 2001. b6 b7C

On 03/24/2005, the BRTF which included members of the Boston Police Department (BPD), the Cambridge Police Department (CPD), the Malden Police Department (MPD), the Massachusetts State Police (MSP), as well as two FBI Agents, attempted to effect the arrest of [redacted]. The primary plan was to arrest [redacted] outside one of the two known residences frequented by him. If [redacted] was positively identified inside a residence, both surveillance/arrest teams would converge on the location prior to entry being made utilizing a tactical team from either the FBI or the BPD.

Law enforcement officers and Boston Division Agents set up surveillance/arrest teams in the vicinity of [redacted] girlfriend's residence as well as his mother's residence. At approximately 11:30 a.m., SA [redacted] provided information from the surveillance team located at [redacted] mother's residence. SA [redacted] transmitted over the radio that a person resembling [redacted] exited the residence and entered a late model silver Toyota Camry. As the subject vehicle passed Detective [redacted] of the BPD and A/SSA [redacted] both verified the driver looked like [redacted] and broadcast the information to other units involved in the arrest plan. As the subject vehicle turned left onto Blue Hill Avenue, the BRTF surveillance vehicles followed. As the vehicle moved toward Floyd Street, A/SSA [redacted] transmitted over the radio that the team should begin positioning their vehicles to effect a felony car stop if necessary. Once on Floyd Street, [redacted] momentarily stopped and slowly made a right turn onto Lucern Street. Two Agents were following directly behind [redacted] vehicle followed by a second unmarked police vehicle. Task Force members advised they believed [redacted] was aware of the vehicle surveillance because he continued down the street and made a right turn. As soon as he made the turn [redacted] pulled his car to the right side of the road, almost to a stop. A/SSA [redacted] instructed SAs [redacted] and [redacted] to cut [redacted] off. SAs [redacted] and [redacted] quickly passed [redacted] and cut off the travel lane positioning their vehicle 20-30 feet in front of [redacted] b6 b7C

The unmarked police vehicle also passed [redacted] vehicle and stopped at an angle within feet of [redacted] driver's side front bumper.

The BRTF members exited their vehicles with weapons drawn, identified themselves by yelling, "Police," "FBI," "hands up, get your hands up." [redacted] initially raise his hands. Detective [redacted] continued issuing commands for [redacted] to show his hands. He observed [redacted] raise his hands as SA [redacted] attempted to open the driver's side door of [redacted] vehicle. According to Detective [redacted] at that point he saw [redacted] eyes "get real big," and [redacted] suddenly lowered his hands. [redacted] vehicle immediately started moving forward and jumped a curb onto the sidewalk. Detective [redacted] jumped out of the path of the vehicle to avoid being hit or pinned between [redacted] vehicle and a parked law enforcement vehicle. b6 b7C

SA [redacted] was positioned on the passenger side of [redacted] vehicle attempting to open the car door and Detective [redacted] was approaching the subject vehicle from the rear passenger side. According to SA [redacted] vehicle began to move while his hands were raised and he observed [redacted] suddenly drop his hands. As SA [redacted] observed the car moving and [redacted] hands dropping toward his waist, he believed [redacted] was reaching for a weapon. Fearing for his safety, SA [redacted] fired six rounds from his weapon. The first two rounds were fired through the front passenger side window, two additional shots were fired through the rear passenger side window, and the last two shots were fired through the rear window. [redacted] vehicle continued to travel on the sidewalk eventually striking a fence and coming to a stop.

[redacted] opened his vehicle door and fell onto the ground. Detective [redacted] moved to the subject vehicle and reached inside to put the transmission in park. [redacted] asked, "Why did you shoot me? I'm not armed."

Boston Emergency Medical Services and the BPD were notified of the incident and immediately responded to the scene. [redacted] was transported to a nearby hospital for treatment. Medical records regarding [redacted] injuries were not available for review by the Shooting Incident Review Team (SIRT). b6 b7C

The SIRT identified two areas of concern during the investigation of this shooting incident. The first item noted tactics employed by the BRTF at the time of [redacted] stop contained significant variations from tactics taught by the Practical Applications Unit, Training and Development Division (TDD). It was noted that the BRTF executed a variation of the standard felony car stop utilizing a blocking vehicle.

The second observation made by the SIRT was the fact that SA [redacted] failed to utilize his ballistic vest during this operation.

On 10/03/2005, a declination of prosecution was received from the United States Department of Justice, Civil Rights Division, regarding the actions of SA [redacted] in this shooting incident. [redacted] Chief of Homicide, Suffolk County District Attorney's Office, declined to render a prosecutive opinion in this matter advising he would prefer to wait until the outcome of the internal FBI inquiry before reaching a prosecutive decision in this matter. b6 b7C

On 10/13/2005, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Daniel Lee Cloyd, Inspection Division, chaired the meeting and was a non-voting member. The following voting members were in attendance: Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, Criminal Section, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted] Assistant Section Chief, Violent Crimes Section, Criminal Investigative Division; [redacted] Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD); UC [redacted] National Firearms Program, TDD; Acting UC [redacted] Special Weapons and Tactics Operations Unit, Critical Incident Response Group; Acting UC [redacted] CD-6A, Counterintelligence Division; Supervisory Special Agent (SSA) [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Operational Skills Unit, TDD; SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); and SSA [redacted] Washington Field Office. [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division, a non-voting member, was also in attendance. b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

The SIRG members unanimously concurred that the use of deadly force by SA [redacted] was justified and in conformance with the FBI's deadly force policy.

In response to the first issue identified by the SIRT, members of the SIRG discussed training provided and/or received by Boston Division Agents and task force personnel regarding car stops. The TDD representative stated that all field offices were advised by EC dated 10/04/2004, of the Field Tactical Training Curriculum for FY 2005 which included the requirement for defensive tactics and tactical training as required elements of mandated firearms qualification sessions for SAs. Noting that task force officers work on a regular basis with SAs and are involved in a number of confrontational and arrest situations, SIRG members recommended that task force personnel train as a team with squad SAs on a regular basis. Members recognized task force officers may not receive the same level of in-depth training as FBI personnel in defensive tactics and tactical training, particularly in the area of high risk vehicle stops. b6 b7C

The last issue identified by the SIRT was the fact that SA [redacted] failed to utilize his ballistic vest during this operation. According to SA [redacted] he was not wearing his body armor because he arrived on the scene from court and did not have time to stop to put on his ballistic vest. SIRG members concluded that the Special Agent in Charge of the Boston Division should be advised to remind all Agents to utilize ballistic protective undergarments to ensure their personal safety when involved in this type of incident.

Title: SHOOTING INCIDENT
ATLANTA DIVISION
04/04/2005

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 04/04/2005, involving Special Agent (SA) [redacted] During the attempted arrest of a violent fugitive attempting to elude arrest, SA [redacted] fired one round from his Bureau-issued Glock, Model 22, .40 caliber pistol, killing the subject. SIRG members recommended that no action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference report of former Inspector [redacted] dated 04/05/2006.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

## Details of the Shooting Incident

On 03/31/2005, the Atlanta Division received information regarding the location of a fugitive identified as John Clifton Manyfield. The Sacramento Division advised Manyfield, who was wanted by the Sacramento, California, Police Department for murder, attempted murder, and weapons violations, was in Burke County, Georgia. Sacramento also advised Manyfield was a known gang member and specific information was provided by a source that he was located in Hephzibah, Georgia.

SSRA [redacted] and four additional Agents traveled to the Burke County Sheriff's Office (BCSO) to plan an arrest of Manyfield. An initial plan, telephonically briefed and approved by former ASAC Harry Bowen, called for law enforcement

personnel to establish a rally point near the subject's residence and a call would be placed directing him to come out.

Prior to their arrival at the BCSO, the Agents were telephonically notified that Georgia Bureau of Investigation (GBI) SA [redacted] was in foot pursuit of a bank robbery suspect approximately one half mile from their location. SSRA [redacted] decided to break off from the initial plan and provide needed assistance in locating the fleeing bank robbery suspect. After an unsuccessful four hour search for the bank robbery suspect, the group continued to the BCSO and briefed BCSO Deputies about Manyfield. During the briefing, it was determined BCSO personnel were involved in a missing juvenile investigation at the same address as Manyfield was purported to be located. BCSO personnel advised the Atlanta Agents they had spoken to residents at that location earlier in the day. The arrest plan was revised and a decision was made to conduct a ruse interview at the location in an attempt to determine if Manyfield was at the residence. SSRA [redacted] directed SA [redacted] to contact Sacramento and have the source contact Manyfield to determine if he was at the location. Information was received stating Manyfield had left the home for the night and the investigation was discontinued until the following day.

b6
b7C

On 04/01/2005, Atlanta Agents and BCSO personnel returned to facilitate the arrest plan. After numerous unsuccessful attempts by the Sacramento source to contact the fugitive, the operation was discontinued for that day and the weekend.

On 04/04/2005, SA [redacted] was notified by the Sacramento Division that the source had contacted Manyfield and he was located at the residence. SA [redacted] contacted SSRA [redacted] and relayed the details of his conversation with Sacramento and informed [redacted] that he was at least three hours away from the BCSO. SA [redacted] advised he would contact the BCSO and let them initiate the arrest. SSRA [redacted] who was on leave, agreed with SA [redacted] plan and advised him to use whatever resources were needed and to keep him informed of any significant developments.

Due to a change in plans, SAs [redacted] and [redacted], as well as law enforcement personnel from the Georgia State Police (GSP), the BCSO, and the GBI, met at an intersection in Burke County. SA [redacted] briefed the group on Manyfield, advised them he was armed and dangerous, and distributed wanted bulletins with color photographs. SA [redacted] also advised the teams they would proceed with the previously devised arrest plan where the front entry team, consisting of SA [redacted] and two BCSO Investigators, would use a ruse of seeking further information about the missing child from the suspect residence. The rear

b6
b7C

perimeter team was designated to cover the rear of the residence, and GSP Troopers [redacted] and [redacted] were instructed to set up a "road check."

As the two teams proceeded toward the residence, the GSP Troopers were notified by other officers to check an oncoming gray Jeep Cherokee which was approaching the "road check" location. Troopers [redacted] and [redacted] approached the vehicle on foot from the rear, with [redacted] approaching the driver's side of the car and [redacted] approaching the passenger side. The vehicle was driven by the fugitive's mother, identified as [redacted]. Trooper [redacted] noticed the passenger matched the description of Manyfield and asked him for identification. When the passenger claimed to have no identification with him, [redacted] asked for his name. The passenger gave his brother's first name and did not provide a last name. [redacted] immediately realized something was wrong and provided Manyfield's last name to the troopers.

b6
b7C

Trooper [redacted] returned to his patrol car to retrieve the fugitive's photograph. [redacted] returned to the passenger side of the front quarter panel of the vehicle, provided Trooper [redacted] the photograph, and informed him the passenger was the murder suspect. Trooper [redacted] walked back to the passenger side of the suspect vehicle as Trooper [redacted] drew his weapon. [redacted] instructed Manyfield to remove his seatbelt and exit the vehicle. Manyfield, who was agitated and nervous, moved his right hand slowly to remove his seatbelt. Simultaneously, Trooper [redacted] heard Manyfield whisper to the driver, "just go.". As Trooper [redacted] reached in the vehicle window and grabbed Manyfield's right arm, the suspect attempted to depress the accelerator with his left hand. Trooper [redacted] announced "taser" and shot Manyfield with the Taser gun lodging the probes in the right mid-back. Trooper [redacted] reholstered his weapon, returned to the driver's side door, pulled the driver out of the car, reached into the vehicle and turned the ignition off. Manyfield immediately restarted the vehicle and again depressed the accelerator revving the engine. The Taser was reactivated, however, Manyfield grabbed the wire leads and disconnected them from the Taser. Trooper [redacted] applied the Taser directly to Manyfield's body and pulled the trigger. Manyfield grabbed the Taser in one hand and Trooper [redacted]s left arm in the other hand attempting to pull him inside the vehicle. As Trooper [redacted] freed his left arm and attempted to free himself from the vehicle, both men were holding the Taser. As Trooper [redacted] produced his Taser gun, the suspect's mother grabbed him and pulled [redacted] to the back end of the vehicle.

b6
b7C

During the struggle, SA [redacted] and BCSO Investigator [redacted] approached the passenger side of the Jeep. Investigator [redacted] recognized the Taser had been fired and

observed the continuing struggle between Manyfield and Trooper [redacted] SA [redacted] and Investigator [redacted] drew their weapons and as Manyfield again revved the vehicle's engine, [redacted] proceeded to the driver's side of the Jeep to attempt to turn off the engine while SA [redacted] remained to the right of Trooper [redacted]

As Trooper [redacted] holstered his Taser and began to move toward the driver's door of the suspect vehicle, he heard a gunshot. It was determined that as Trooper [redacted] continued to attempt to pull himself away from Manyfield, SA [redacted] fired one round from his weapon into Manyfield's chest. Emergency medical assistance was immediately requested; however, his pulse stopped prior to arriving at the hospital. Manyfield was pronounced dead of a gunshot wound to the chest by the Medical Examiner. b6 b7C

On 09/07/2005, District Attorney [redacted] of the Augusta Judicial District was provided the GBI file for his review. Mr. [redacted] concluded no violations of the Georgia criminal law occurred and closed the file administratively.

On 06/13/2006, a declination of prosecution was received from the United States Department of Justice, Civil Rights Division, regarding the actions of SA [redacted] in this shooting incident.

On 09/21/2006, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Michael S. Clemens, Inspection Division, chaired the meeting and was a non-voting member. The following voting members were in attendance: former Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted], Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted], Attorney, Civil Rights Division, USDOJ; SC James Casey, Eurasian Section, CD-1, Counterintelligence Division; SC John V. Gillies, Violent Crimes Section, Criminal Investigative Division; Unit Chief (UC) [redacted] Firearms Training Unit, TDD; [redacted] Chief, Defensive Systems Unit, TDD; UC [redacted], Special Weapons and Tactics Operations Unit, Critical Incident Response Group; UC [redacted] Operational Skills Unit, TDD; SSA [redacted], Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted], Washington Field Office; and SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC). [redacted] Deputy General Counsel, Investigative Law Branch, OGC, and [redacted] General Attorney, Investigative Law Unit, OGC, as well as SSA [redacted], and [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division, non-voting members, were also in attendance. b6 b7C

To: Inspection From: Inspection
Re: 297-HQ-A1270919-D, 04/13/2007

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the current deadly force policy. Members recommended that no administrative action be taken again SA [redacted] as a result of his involvement in this shooting incident. b6 b7C

**Title:** SHOOTING INCIDENT
ATLANTA DIVISION
05/05/2005

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 05/05/2005, involving Special Agent (SA) [redacted] While executing a Federal Arrest Warrant on a bank robbery suspect, SA [redacted] fired eight rounds from his Springfield, Model 1911 pistol, killing the subject. SIRG members recommended that no action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference report of former Inspector [redacted] dated 01/19/2006.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

## Details of the Shooting Incident

On 05/02/2005, two black males robbed a bank in Phenix City, Alabama, with one subject discharging a weapon. On the same day, a champagne colored Mazda 626 sedan with a Georgia license plate of [redacted] which was associated with the robbery, was located at a mall in Columbus, Georgia.

Surveillance of the subject vehicle was initiated by the Columbus Police Department (CPD). During the surveillance, two groups of black males, consisting of six individuals, were observed in the vicinity of the vehicle. One group consisted of two individuals who fit the description of the subjects responsible for the Phenix City bank robbery. As the six subjects moved closer to the vehicle, police officers announced their presence and ordered all of the subjects on the ground.

One individual immediately engaged the officers in an exchange of gun fire, seriously wounding one officer. The two subjects were subsequently identified as Morgan Chigawa and [redacted] and further investigation determined Chigawa was the individual who shot the police officer.

Agents of the Atlanta Division, Columbus Resident Agency (CRA), and personnel from the CPD initiated an investigation into the shooting. Information was developed regarding the location of [redacted] and Chigawa, and it was also determined [redacted] had placed a phone call from a convenience store pay phone in Conyers, Georgia. b6 b7C

On 05/04/2005, SA [redacted] contacted the convenience store owner who recognized Chigawa from a photograph provided by SA [redacted] The store owner advised Chigawa was in the store the previous day and described the champagne colored Mazda associated with the subjects.

At approximately 6:15 a.m., on 05/04/2005, SA [redacted] received information that the subjects were going to arrive at the apartment of a former girlfriend of [redacted] at approximately 8:00 p.m., that evening. SA [redacted] notified his supervisor and approval to use the Atlanta Division's Special Weapons and Tactics (SWAT) Team to effect the subjects' arrest was approved by the Special Agent in Charge (SAC).

A rally point was established in the vicinity of the target apartment. SAs [redacted] and [redacted] conducted an oral briefing to arrest team members, as well as former Assistant Special Agent in Charge (ASAC) Arthur David Webster and SAC Gregory Jones. The SWAT teams remained in place until approximately 12:30 a.m.; however, the operation was suspended by SAC Jones when it became evident the subjects were not going to appear. b6 b7C

On 05/05/2005, at approximately 6:45 a.m., SA [redacted] received a phone call from the CPD advising they had located the subject vehicle at the Ramada Inn in Conyers, and the CPD had established surveillance on the vehicle. SA [redacted] and the CPD agreed that the CPD would arrest the subjects in the event they departed before SA [redacted] and the SWAT Team arrived.

While enroute to the Ramada Inn, SA [redacted] contacted his supervisor and discussed using the SWAT Team to conduct the arrest of the subjects. Arrest team members were contacted and told to meet at a rally point in a parking lot north of the hotel. ASAC Webster was contacted and he again obtained authority from the SAC to utilize the SWAT Team to effect the arrest. The SWAT Team Leader was advised of the scenario and notified his team members to meet at the rally point.

At approximately 8:00 a.m., SA [redacted] arrived at the rally point where he met with members of the CPD. Captain [redacted] told SA [redacted] he had spoken with the manager of the hotel who advised no guests were registered at the hotel under the names of Chigawa and [redacted] with a Georgia identification. SA [redacted] and Captain [redacted] returned to the hotel office and subsequently determined an individual by the name of Chigawa from Ohio had registered at the hotel the prior evening and was in room 226. The manager advised Chigawa paid cash for the room for one night and was due to checkout no later than 12:00 noon. He also positively identified Chigawa from the flyer and advised the subject appeared to be under the influence of alcohol when he checked in. b6 b7C

SA [redacted] requested a key to a room in order to view the layout and door structure in preparation for the arrest. SA [redacted] and Captain [redacted] entered room 106 and remained in the room to initiate surveillance of the subject vehicle.

Additional Agents began arriving at the rally point while SA [redacted] and Captain [redacted] remained inside the hotel room. SAs [redacted] and [redacted] were instructed to position their Toyota 4Runner approximately fifty yards across the street from the hotel to act as a blocking vehicle in the event the subjects attempted to leave through the north entrance of the hotel parking lot. CPD Detective [redacted] was positioned behind the 4Runner in an unmarked blue Crown Victoria. Georgia Bureau of Investigation (GBI) SA [redacted] and CPD Detective [redacted] were positioned in a Chevrolet Blazer at the south end of the parking lot.

At approximately 9:00 a.m., members of the SWAT team began arriving at the rally point where an oral briefing was planned to discuss the arrest scenario. Before the briefing occurred, SA [redacted] reported via radio that Chigawa had departed his room and was proceeding down the stairs. Additionally, he advised that SAs [redacted] and [redacted] were moving to block the subject's vehicle. SA [redacted] stopped his vehicle blocking the subject vehicle and SA [redacted] exited with his weapon drawn as the subject entered his vehicle. SA [redacted] positioned himself several feet away from the subject vehicle repeatedly shouting, "FBI, FBI." SA [redacted] and Captain [redacted] exited room 106 and ran to the subject vehicle. SA [redacted] arrived on the driver's side toward the rear of the vehicle as Chigawa drove around SA [redacted] vehicle and headed south in the parking lot. b6 b7C

The subject vehicle traveled approximately twenty yards when it was struck in the front driver's side by GBI SA [redacted] vehicle. SAs [redacted] and [redacted] as well as Captain [redacted] were in pursuit on foot. SA [redacted] positioned himself adjacent to Chigawa's passenger side front door while SA [redacted]

approached the rear passenger door, with Captain [redacted] positioned forward of the front passenger side of the vehicle. GBI SA [redacted] exited his vehicle and moved to a position of cover near a hotel column. Detective [redacted] remained behind the Blazer's passenger side front door. SA [redacted] moved his vehicle behind the subject vehicle and positioned himself behind the vehicle's front driver's side door.

SAs [redacted] and [redacted], as well as Captain [redacted] and Detective [redacted] issued verbal commands to the subject. SA [redacted] shouted, "FBI, do not move," while Captain [redacted] shouted, "Put your hands up." GBI SA [redacted] shouted several times for Chigawa to, "Show your hands." According to Detective [redacted], he also told the subject twice to, "Show your hands." Detective [redacted] also recalled hearing other law enforcement personnel giving similar commands. b6 b7C

As they were shouting commands to the subject, SA [redacted] Captain [redacted] Detective [redacted] and GBI SA [redacted] advised they observed Chigawa reach in the vicinity of his belt area. At that moment, SA [redacted] announced, "He has a gun, he has a gun." Immediately upon observing the subject's weapon, SA [redacted] Detective [redacted], and Captain [redacted] fired at the subject.

During the shooting event, SA [redacted] was struck in the thigh with a round that penetrated and exited his leg. Emergency Medical Services (EMS) arrived at the scene and provided medical attention to SA [redacted] who was subsequently transported to a local hospital where he was treated and released. The EMS pronounced Chigawa dead at the scene.

A .38 caliber five-shot revolver was recovered from the subject's vehicle between the driver's side front door and the seat. After the shooting, the SWAT Team executed the arrest of [redacted] b6 b7C

On 11/15/2005, District Attorney [redacted] of the Rockdale Judicial Circuit advised his office believed the shooting to be justified and would not present the matter to the Rockdale County Grand Jury. [redacted] further advised his office declined to initiate any type of criminal prosecution in the matter.

On 06/08/2006, a declination of prosecution was received from the United States Department of Justice, Civil Rights Division, regarding the actions of SA [redacted] in this shooting incident.

On 07/13/2006, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Michael S. Clemens, Inspection Division, chaired the meeting and was a

non-voting member. The following voting members were in attendance: former Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted] Attorney, Civil Rights Division, USDOJ; Richard A. McFeely, Section Chief (SC), Operational Support Section, Criminal Investigative Division; [redacted] Assistant SC, CD-1, Counterintelligence Division; [redacted] Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD); [redacted] Chief, Defensive Systems Unit, TDD; [redacted] UC, Special Weapons and Tactics Operations Unit, Critical Incident Response Group; [redacted] UC, Operational Skills Unit, TDD; Supervisory Special Agent (SSA) [redacted], Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted], Washington Field Office; and [redacted] General Attorney, Investigative Law Unit, Office of the General Counsel (OGC). [redacted] and [redacted], Management Program Analysts, Inspection Management Unit, Office of Inspections, Inspection Division, non-voting members, were also in attendance.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the current deadly force policy. Members recommended that no administrative action be taken again SA [redacted] as a result of his involvement in this shooting incident.

b6
b7C

During the discussion, SIRG members made two observations about the incident that will be discussed with the SAC of the Atlanta Division. The first observation pertained to the fact that several of the Agents, including SA [redacted] were not utilizing any type of protective vest/body armor which was not conducive to their personal safety. Members opined that all Agent personnel assigned to the Atlanta Division, should be reminded to utilize a ballistic protective undergarment in this type of situation.

Members also noted that differing instructions were simultaneously being voiced by law enforcement personnel on the scene. Members opined that training dictates that one individual should be the speaker and issue commands. One SIRG member

emphasized the fact that this was a joint operation with a vehicle surrounded by law enforcement personnel and that non-FBI personnel should be provided in-depth instructions on FBI protocol.

**Title:** SHOOTING INCIDENT
DALLAS DIVISION
01/21/2005

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 01/21/2005, involving Agents of the Dallas Division. During the arrest of a violent fugitive attempting to elude arrest, four Special Weapons and Tactics (SWAT) Team Agents fired multiple rounds from their Bureau-issued weapons resulting in injury to the subject. SIRG members recommended that no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in this shooting incident.

**Administrative:** Reference report of Inspector [redacted] (formerly Inspector-in-Place), dated 02/16/2005.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

## Details of the Shooting Incident

The Dallas Division had been investigating a series of violent "take over" bank and business robberies for approximately two years. Subjects involved in the robberies carried and used assault rifles and wore ballistic body armor. The participants were known to physically assault customers, employees, and law enforcement officers working in the banks.

In November 2004, after robbing a bank, the suspects were involved in a running gun battle with local police officers. The subjects used automatic weapons during the gun battle and subsequently attempted to carjack three vehicles. During their escape, the subjects drove one of the stolen vehicles into

another vehicle resulting in serious injury to a citizen. Several days after the bank robbery, investigation identified [redacted] as one of the perpetrators. [redacted] was subsequently arrested and a search of his residence revealed a ballistic vest, a manual on how to convert a semi-automatic rifle to fully automatic, and a hand grenade. During an interview, [redacted] identified [redacted] and [redacted] as his accomplices in the bank robbery and subsequent carjackings. Federal arrest warrants were issued charging [redacted] and [redacted] with carjacking and using a firearm in the commission of a crime of violence.

Based on information obtained during the interview with [redacted], the Dallas Division's Special Operations Group (SOG) was able to locate and begin surveillance of [redacted]. For a three-day period, the SOG was able to develop a pattern activity for [redacted] and learned that [redacted] wife and two children were residing with him in an apartment located in Mesquite, Texas. b6 b7C

On 01/21/2005, at 9:00 a.m., a briefing was held in the Dallas Division regarding the investigation. During the briefing, a case update was provided by Case Agent [redacted]. A written SWAT operations plan prepared by Acting SWAT Team Leader (TL) [redacted] was presented to the Special Agent in Charge. The plan called for a dynamic entry into [redacted] apartment in Mesquite; however, after discussing [redacted] propensity for violence and the high probability his children and wife would be in the apartment, SAC Gonzalez decided [redacted] arrest would be effected after he left his vehicle and before he reached his apartment. Acting SWAT TL [redacted] was instructed to formulate a tactical plan which would safely allow the SWAT Team to arrest [redacted] before he reached his apartment.

On 01/21/2005, at approximately 11:00 a.m., the SWAT Team responded and staged in a parking lot in close proximity to [redacted] apartment complex. Acting SWAT TL [redacted] telephonically briefed his assault plan to Acting Assistant Special Agent in Charge (A/ASAC) [redacted] who then briefed SAC Gonzalez. The SWAT arrest plan was approved by both Acting ASAC [redacted] and SAC Gonzalez. b6 b7C

The arrest plan directed the SOG to follow [redacted] to his apartment complex. After an arrest warrant was obtained, and with SWAT Team members in position, [redacted] would be allowed to park his vehicle at the apartment complex. Two SWAT vehicles would be used to block the vehicle from behind and additional SWAT vehicles would be placed at the parking lot exits to prevent any attempted escape by Gavina. A/ASAC [redacted] and Supervisory Special Agent (SSA) [redacted] departed Dallas and

proceeded to the Mesquite location where A/ASAC [redacted] assumed the role of On Scene Commander for the arrest.

At approximately 4:45 p.m., the SOG advised SWAT and command components that [redacted] was approaching his apartment. As [redacted] parked his vehicle approximately 25 yards away from his apartment, SA [redacted] called for blocking vehicles to move into position at the entrances of the apartment complex parking lot. SWAT Team personnel quickly blocked the subject vehicle into the parking space. With the blocking vehicle in position, SA [redacted] gave the order to execute the arrest plan. SA [redacted], who was in the blocking vehicle, rushed to [redacted] vehicle breaking the passenger side window in an attempt to distract him. SA [redacted] converged on the vehicle from the left side, opened the driver's door and placed his hands on [redacted] shoulder in an attempt to pull him from the vehicle. Simultaneously, an arrest team of seven SWAT Team members exited the SWAT van, verbally identified themselves as FBI Agents, and commanded [redacted] to exit the vehicle. [redacted] broke away from SA [redacted] and accelerated his vehicle forward jumping the curb onto a grass and sidewalk area. Agents standing on both sides of the vehicle had to step aside to avoid being hit. [redacted] vehicle swerved to the left while continuing to accelerate. As the vehicle accelerated, four SWAT Team members fired at [redacted] After traveling approximately 30 yards, [redacted] vehicle struck the side of the apartment complex wall. [redacted] was removed from the vehicle, provided immediate medical treatment for his wounds, and subsequently transported to a hospital where he was treated and released into the custody of law enforcement personnel.

A shooting scene investigation by the Dallas Response Team revealed SAs [redacted] and [redacted] fired numerous rounds from their Bureau-issued M-4 rifles and SA [redacted] fired two rounds from his .40 caliber Smith and Wesson pistol. A total of 22 rounds were fired of which 20 impacted the subject vehicle on the driver's side, one round struck [redacted] in the left shoulder and a second round struck him in the left hip.

b6
b7C

The Shooting Incident Review Team (SIRT) identified three areas of concern during the evaluation of this shooting incident. The first issue pertained to the fact that no notification was made to local or state law enforcement agencies regarding the FBI's presence in their jurisdiction or the fact that the FBI was attempting to arrest a violent fugitive; the four Agents firing their weapons on the day of the incident maintained custody of their respective weapons until the day following the shooting incident; and, SA [redacted] Bureau-issued Colt M-4 rifle was loaded with .223 caliber 62 grain Remington full metal jacket ammunition.

On 07/15/2005, a declination of prosecution was received from the United States Department of Justice, Civil Rights Division, regarding the actions of the four Agents involved in this shooting incident. Inspector [redacted] was telephonically advised by the Dallas Division that this matter was presented to a Dallas County Grand Jury and a No Bill was returned in June 2005.

On 10/13/2005, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Daniel Lee Cloyd, Inspection Division, chaired the meeting and was a non-voting member. The following voting members were in attendance: Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, Criminal Section, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted] Assistant Section Chief, Violent Crimes Section, Criminal Investigative Division; [redacted] Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD); UC [redacted] National Firearms Program, TDD; Acting UC [redacted] Special Weapons and Tactics Operations Unit, Critical Incident Response Group; Acting UC [redacted] CD-6A, Counterintelligence Division; Supervisory Special Agent (SSA) [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Operational Skills Unit, TDD; SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); and SSA [redacted] Washington Field Office. [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division, a non-voting member, was also in attendance. b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

The SIRG members unanimously concurred that the use of deadly force by SAs [redacted], and [redacted] was justified and in conformance with the FBI's deadly force policy.

The first observation made by the SIRG pertained to state and local authorities not receiving notification of the FBI's presence in the area. Although notification is not

mandatory, SIRG members found no information that would have precluded the notification to state or local officials regarding the FBI's presence in the area during this operation. It was noted that after the shooting incident local authorities were notified and responded to the scene. Members opined that the presence of marked police units and uniformed officers would have added a higher level of safety and security for the arrest.

The next area of discussion focused on the fact that the Agents who fired their weapons during the incident maintained those weapons in their possession until the following day. SIRG members unanimously concluded that Dallas Division management should have ensured the Agents' weapons were immediately secured and segregated for forensic review following the shooting incident and replacement weapons provided to the shooters.

The last area of discussion pertained to the presence of training ammunition in the weapon utilized by SA [redacted] b6 b7C Members stated that the Dallas Division SWAT TL or designee should ensure that all magazines are verified to contain only service ammunition prior to any operational deployment. These matters will be discussed with the SAC of the Dallas Division.

Report of: IIP [redacted] Office: CHICAGO
Date: 10/26/2004

Case ID #: 297-HQ-A1271285-D

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
CHICAGO DIVISION
OCTOBER 10. 2004

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident occurred on October 10, 2004 outside the residence of Special Agent [redacted], Chicago, Illinois. On October 10, 2004, at approximately 12:15 p.m., SA [redacted] was on her way to the residence of SA [redacted] to collect her mail while SA [redacted] was out of town. The front door of SA [redacted] apartment building sits in an outdoor vestibule which is located at the top of several concrete steps. While SA [redacted] was standing in the vestibule, she was approached from behind by a blck male, later identified as [redacted] who grabbed her, told her he was holding her up, that he had a gun, and hit her on the back of the head with a blunt object. A struggle ensued which resulted in SA [redacted] and [redacted] falling down the concrete steps and [redacted] biting SA [redacted] on the left calf while laying on top of her right leg, which held her personally-owned, Bureau-approved handgun. As [redacted] repositioned himself over SA [redacted], she drew her weapon and fired one shot into his chest. As [redacted] fled witnesses called 911. Both the Chicago Police Department and EMS responded within minutes. [redacted] was apprehended in his vehicle a short distance from the scene of the shooting. Both [redacted] and SA [redacted] were treated at Advocate Illinois Masonic Medical Center.

b6
b7C

DETAILS:

On 10/10/2004, at approximately 12:15 p.m., SA [redacted]

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

[redacted] was on her way to the residence of SA [redacted] at [redacted] Chicago, Illinois to collect her mail while SA [redacted] was out of town on temporary duty. The front door of SA [redacted] apartment building sits in an outdoor vestibule which is located at the top of several concrete steps. While SA [redacted] was standing in the vestibule, she was approached from behind by a black male, who was later identified as [redacted] grabbed SA [redacted] from behind, told her he was holding her up, that he had a gun, and then hit her on the back of the head with a blunt object. b6 b7C

After tussling for a few seconds on the landing, both SA [redacted] and [redacted] tumbled down the stairs to the sidewalk. After a few seconds of struggle, [redacted] pulled up SA [redacted] pants leg and bit her on the left calf, breaking the skin in the process. SA [redacted], who had her personally-owned, Bureau-approved weapon (a Glock 27 loaded with .40 caliber ammunition) in a holster on her right ankle, was fearful that her attacker would gain control of her weapon and use it against her. As [redacted] was repositioning himself over SA [redacted], she managed to draw her weapon and fire one round into the left side of [redacted] chest. After initially beginning to comply with SA [redacted] commands to get on the ground, [redacted] fled to his car and drove away.

Both the Chicago Police Department and EMS were summoned by one of several eyewitnesses, and arrived a few minutes later. One of the responding officers discovered [redacted] around the corner from site of the shooting, still in his vehicle, crashed into the side of a laundromat. [redacted] was placed under arrest at that time. [redacted] was then transported to Advocate Illinois Masonic Medical Center, where he was treated for a gunshot wound. SA [redacted] was also transported to Advocate Illinois Masonic Medical Center, where she was treated and released.

b6 b7C

FBI Chicago was immediately notified of the shooting, and notifications were made to SAC THOMAS J. KNEIR, ASAC JOSEPH C. WAYS, Sr., A/SSA [redacted] CDC JAMES KRUPKOWSKI, and the Chicago Media Representative. SAs [redacted] and [redacted] responded to the scene and provided peer support to SA [redacted] SA [redacted] took custody of SA [redacted] weapon. ASAC WAYS, CDC KRUPKOWKSKI, and A/SSA [redacted] also responded to the hospital. While at the hospital, CDC KRUPKOWSKI advised SA [redacted] of the availability of Department of Justice representation. SA [redacted] was also advised of the availability of the Employee Assistance Program. SA [redacted] advised CDC KRUPKOWSKI that she was going to contact the FBI Agents' Association (FBIAA) for representation before making her statement. Attorney [redacted] contacted

SA [redacted] on behalf of the FBIAA.

On his way to the hospital, ASAC WAYS directed Chicago Division Radio Room personnel to notify SIOC of the shooting. Several hours later, Chief Inspector ROBERT D. GRANT advised ASAC WAYS that Chicago should complete the shooting investigation.

The crime scene investigation was handled by the Chicago Police Department. A toy gun, broken in two, was recovered at the crime scene, along with one .40 caliber shell casing.

[redacted] has an extensive criminal history, including numerous arrests and convictions for armed robbery and aggravated assault. [redacted] was most recently released from jail earlier this year.

On October 12, 2004, SA [redacted] accompanied by Attorney [redacted] provided a statement to officials of the CHICAGO POLICE DEPARTMENT, the ILLINOIS STATE'S ATTORNEY'S OFFICE, and the FBI. An FD-927 was read and signed by SA [redacted] prior to the interview. A Signed, Sworn, Statement, reflecting that interview, was executed by SA [redacted] in the Chicago Office of the FBI the following day.

On 10/14/2004, Assistant State's Prosecutor [redacted] Office of Felony Review, advised that after reviewing the shooting incident, his office decided to decline prosecution against SA [redacted] b6 b7C

Several neighbors witnessed the incident. All those contacted provided accounts which matched SA [redacted] description of the attack and shooting. Furthermore, [redacted] was interviewed by CHICAGO POLICE DEPARTMENT officers both the day of and the day following the incident. [redacted] account is also consistent with that of SA [redacted] and the eyewitnesses.

The inspection determined that the deadly force utilized by SA [redacted] was justified and within the guidelines as set forth in the FBI's Deadly Force Policy. [redacted] attacked SA [redacted] from behind without warning, stated he had a gun, and hit SA [redacted] on the back of the head. After both individual fell down several concrete steps, [redacted] who at the time was within easy access of SA [redacted] s weapon, severely bit her on her leg. At no time was it feasible for SA [redacted] to identify herself, or command [redacted] to stop his attack. It was certainly reasonable for SA [redacted] to fear for her life. [redacted] appeared willing to stop at nothing in order to assault SA [redacted]

FD-204 (Rev. 12-1-95)

**Federal Bureau of Investigation**

Copy to:

Report of: SSA [redacted] Office: Miami b6 b7C
Date: 03/28/2005

Case ID #: 91A-MM-105404

Title: SHOOTING INQUIRY;
REPORT OF SHOOTING INCIDENT;
MIAMI DIVISION;
11/8/04

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident was a result of the attempted arrest of a bank robbery subject, [redacted]

DETAILS:

On 11/8/04, at approximately 11:40 a.m., [redacted] entered the Sterling Bank located at 1489 North Military Trail, West Palm Beach, Florida, approaching a teller with a demand note written on a manila envelope. The note demanded she place all the money in the envelope and that [redacted] had a gun. After handing the teller the demand note, [redacted] lifted up the front of his shirt exposing a handgun tucked in his waistband. The teller complied with [redacted] demand and provided him with money to include a "dye pack." As [redacted] exited the bank, he was observed by witnesses entering a gray Dodge Durango bearing Florida license plate [redacted]

Palm Beach County Resident Agency (PBCRA) Special Agent (SA) [redacted] was investigating a series of bank robberies occurring in the West Palm Beach vicinity dating back to August 4, 2004. It had been determined that the same individual had committed these four bank robberies and he was described as a Hispanic male, over six feet tall, who displayed a small silver handgun and utilized a manila envelope. A recent "Crime Stoppers" tip had identified the bank robbery subject as [redacted] aka [redacted] SA b6 b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

[redacted] conducted logical investigation and identified two former employers at University Dodge, 5455 South University Drive, [redacted], who positively identified [redacted] in a bank surveillance photograph. SA [redacted] had received verbal authorization from Assistant United States Attorney (AUSA) [redacted] to arrest [redacted] pending a review/search of [redacted] cell phone records.

It should be noted that investigation also revealed that a 2003 Dodge Durango bearing dealer license plate [redacted] was reported stolen in July 2003, however, an official report was not completed until November 2003 with the Broward County Sheriff's Office (case number 03-07-020). b6 b7C

On 11/8/04, SA [redacted] learned, from responding SA [redacted] of the bank robbery that had occurred at the Sterling Bank located at 1489 Military Trail in West Palm Beach, Florida. The description of the subject and his modus operandi were similar to the subject SA [redacted] had recently identified as being responsible for the four other bank robberies in West Palm Beach.

SA [redacted] proceeded to the scene and further learned from witnesses that the subject had fled the bank in a gray Dodge Durango bearing Florida license plate [redacted]

After learning of this information, SA [redacted] conducted logical follow up investigation at several addresses associated with [redacted] When SA [redacted] arrived at [redacted] West Palm Beach, Florida, she observed the Dodge Durango parked in front of the residence. SA [redacted] contacted her supervisor, SSA [redacted], along with PBCRA SAs to respond to her location. Approximately 10 minutes later, while the PBCRA SAs were enroute to her location, SA [redacted] observed a Hispanic male fitting the description of [redacted] at the Dodge Durango. The individual then entered the Durango and departed the area with SA [redacted] conducting a lone moving surveillance. SA [redacted] was the first agent to join SA [redacted] in the surveillance closely followed by SA [redacted], who was coordinating with PBCSO dispatched via cell phone for deputies to respond to his location. Eventually two marked PBCSO patrol units and one unmarked PBCSO unit joined the surveillance. It was at this time that the PBCSO units assumed the lead of the surveillance for the purpose of making a felony vehicular traffic stop on the Durango. b6 b7C

As the Durango approached the intersection of Southern Boulevard and Haverhill Road, the driver, later identified as

[redacted] pulled into a shopping plaza parking lot on the northeast corner of the intersection. The Durango was followed into the parking lot by Capt. [redacted] and Dep. [redacted] who were in separate vehicles. SA [redacted] had pulled into the shopping plaza parking lot from a southern entry/exit point and assumed a tactical position near where PBCSO Corp. [redacted] had positioned her vehicle. Deputy [redacted] began giving verbal commands over his "p. a. system" for [redacted] to exit his vehicle while Capt. [redacted] approached the Durango on foot giving verbal demands for the driver to exit his vehicle. It was at this time that SA [redacted] observed the driver [redacted] looking around as Capt. [redacted] approached the Durango. SA [redacted] remembered hearing someone yell "gun" and then observed the Durango backing up at a high rate of speed. As Capt. [redacted] was approaching the Durango on foot, [redacted] disregarded the verbal commands being given and began backing up his vehicle at a high rate of speed towards Capt. [redacted] Capt. [redacted] fired his department issued shotgun at the Durango. At this time, SA [redacted] discharged his Bureau issued firearm at the Durango in an effort to prevent the Durango from running over Capt. [redacted] The Durango then sped in an easterly direction towards Corp. [redacted] who was positioned near the south side of the shopping plaza parking lot. It was at this time that Corp. [redacted] fired her department issued Glock handgun at the Durango. The Durango sped off in an easterly direction and then made a U turn and again drove back towards SA [redacted] and Corp [redacted] again causing them to fire their weapons at the Durango. SA [redacted] had related that he overheard the vehicle engine revving up as the vehicle increased speed again towards Corp. [redacted] and his location. SA [redacted] then fired once again to protect himself and believed that he was in imminent danger from the vehicle driven by [redacted]

b6
b7C

The suspect vehicle kept fleeing and drove westerly along Southern Boulevard on a stretch of road under construction and not open to the public. Approximately one half mile from the shopping plaza, the Durango impacted a concrete barrier which disabled the Durango. PBCSO deputies approached the vehicle and observed [redacted] to be injured. PBCSO deputies also observed a silver pistol in the passenger compartment area that was later identified to be a "lighter" resembling a toy handgun.

b6
b7C

[redacted] was treated at the scene by emergency medical personnel and transported to the St. Mary's Hospital where it was determined that the only injuries sustained by [redacted] were from the traffic accident and that none of the rounds fired by Capt. [redacted] Corp. [redacted] or SA [redacted] had struck Sanchez.

Florida States's Attorney Office, Chief [redacted]

advised that his office would not initiate a shooting inquiry regarding this incident since [redacted] was not struck by any of the rounds fired by law enforcement officers and had only sustained injuries as a direct result of the traffic accident.

On 11/9/04, SA [redacted] obtained a federal search warrant and executed the same on the Dodge Durango driven by [redacted]. Assisting SA [redacted] in this endeavor was PBCSO Detective [redacted] It should be noted that were several rounds that had impacted the vehicle and that several fragments were removed from the vehicle as evidence.

b6
b7C

On 11/18/04, [redacted] was federally indicted for five counts of bank robbery and one count of Assault on a Federal Officer (AFO).

The civilian witnesses at the scene all gave similar accounts of the incident, observing that the Durango driven by [redacted] was driving at a high rate of speed in a parking lot in an attempt to run down uniform and undercover law enforcement officials and that those officials had no other choice but to fire their weapons at the vehicle in an attempt to stop it.

It should be noted that eleven Glock .40 caliber casings were retrieved at the scene along with one shotgun shell casing.

Re: 297-HQ-A1271970-D, 06/06/2005

**Details of the Shooting Incident**

On 07/08/2004, members of the WFO Safe Streets Task Force executed a search warrant at a Southeast residence in Washington, D. C. Source information and investigation determined the residence belonged to [redacted] a drug trafficker, who was also suspected of being involved in several acts of violence including homicides and assaults with intent to kill.

Prior to the execution of the search warrant, Case Agent [redacted] conducted a pre-operational briefing. Information was provided that there was a strong possibility of firearms inside the residence as well as the possibility of an aggressive and ferocious pit bull dog. SA [redacted] was tasked with carrying a shotgun for the purpose of engaging the pit bull dog if the need arose. b6 b7C

SA [redacted], SA [redacted] and Detective [redacted] were assigned as part of the entry team and designated to secure the residence. As soon as SA [redacted] began the "knock and announce", dogs inside the residence began barking. Once entry was made into the residence, a large, growling pit bull dog stood near the entrance and would not allow the law enforcement officers to proceed into the residence to execute the search warrant and secure the residence. The owners of the dog, who were inside the residence, were directed several times to take control of the dog; however, did not comply. The dog continued to hinder the entry of the law enforcement officers as well as rendering them unable to secure the residence. These circumstances, coupled with the information previously provided regarding the possibility of weapons being inside the residence, caused SA [redacted] to believe the team was in imminent danger of serious physical injury. As a result, SA [redacted] fired one round from his Remington 12 gauge shotgun, killing the dog.

Law enforcement officers continued through the residence and secured it without incident. District of Columbia personnel assumed control of the dog.

b6
b7C

On 11/17/2004, the SIRG met to discuss the above-captioned shooting incident. Former Chief Inspector Robert D. Grant, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Special Counsel, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; My Harrison, Former Section Chief (SC), Applicant Processing Section, Administrative Services Division; Jay C. Manning, SC, CD-6, Counterintelligence Division; Manuel E. Mora, SC, Operational Support Section, Criminal Investigative Division; [redacted] Acting Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD);

[redacted] Acting UC, National Firearms Program, TDD; Supervisory Special Agent (SSA) [redacted], Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted], Investigative Law Unit, Office of the General Counsel (OGC); and, SSA [redacted] Washington Field Office. The only non-voting member present was [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy. A recommendation was made that no administrative action should be taken against SA [redacted] as a result of his involvement in this shooting incident.

Title: ADMINISTRATIVE INQUIRY;
SHOOTING INCIDENT;
LOS ANGELES DIVISION
AUGUST 5, 2004

Character: INSPECTION DIVISION
SHOOTING INQUIRY

Synopsis: On 08/05/2005, SA [redacted] was involved in a shooting incident at 187 East Olive Street, San Bernardino, California. SA [redacted] and SA [redacted] were working on a gang investigation with Detective [redacted] from the San Bernardino Police Department (SBPD) and a member of the Riverside Resident Agency (RRA) Safe Street Task Force (SSTF), when they heard a police radio dispatch that the SBPD were going to attempt to arrest a subject involved in a recent shooting.

b6
b7C

**Details:** On 07/31/2004, at approximately 9:30 PM., an Assault with a Firearm occurred at 176 East 10th Street, San Bernardino, California. The SBPD conducted the investigation under case #2004-29569 and identified Nicholas Gilbert Fimbrez as the suspect. Investigation determined that Fimbrez utilized a .40 caliber pistol during the assault and the weapon and subject had not been located. Although no arrest warrant was issued, an All Points Bulletin teletype was submitted to area law enforcement agencies concerning the suspect and weapon. This investigation determined that Fimbrez was a known gang member, a shooter for a violent street gang, had a criminal record, and had fled from police on previous occasions.

On 08/05/2004, at approximately 7:08 PM, the SBPD Dispatch received an anonymous telephone call stating that Nicholas Fimbrez was currently at 176 East 10th Street. After this information was dispatched to officers covering that area, additional officers responded that they would assist, due to their knowledge of the previous incident and its related investigation. The SBPD Officers decided to meet at 9th Streetand Sierra Way for a briefing prior to responding to the scene and attempting the arrest.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

SA [redacted] and SA [redacted] were working with Detective [redacted] a member of the SSTF, conducting street enforcement actions. Their normal activities were to suppress gang activities in various area of San Bernardino. As part of their investigative responsibilities/strategies in connection with the SSTF they patrol gang areas in an effort to identify gang activity and make street level arrests with the intention of identifying and developing informants which could lead to further/future case development/initiation, locate and arrest gang members who are warranted for various charges, and take weapons and drugs off the street.

SA [redacted] and SA [redacted] were riding with Detective [redacted] in Detective [redacted] SBPD police vehicle, and were wearing their issued ballistic vest with FBI identification clearly visible on their outer clothing. Detective [redacted] SA [redacted] and SA [redacted] had just cleared an arrest scene in the 1400 block of North Genevieve Street when they heard over the SBPD radio that police units were being dispatched to 176 East 10th Street to attempt the arrest of the subject involved in a previous shooting at that address. Due to Detective [redacted] SA [redacted] and SA [redacted] being in the general area they decided to travel to the briefing location and assist with the possible arrest.

b6
b7C

Upon arrival at the briefing location, Sergeant [redacted] SBPD, took over the briefing and developed a tactical plan which was verbally discussed with all officers at the scene. The plan determined the weapons each officer/agent was to possess, officer position assignments, how they were to arrive at those positions, and potential cross fire/safety issues. A complete description of Nicholas Gilbert Fimbrez, Hispanic male, 5'11", 200 pounds, 27 years of age, shaved head with numerous tattoos, was provided. The officers and SAs then departed the briefing location and traveled to 176 East 10th Street. As they arrived at the location, [redacted] was observed watering the grass in the front yard. Ms. [redacted] an elderly female, was later identified as Nicholas Fimbrez's grandmother. The SBPD attempted to obtain information from Ms. [redacted] but she was uncooperative, other than providing the telephone number to the residence. Ms. [redacted] denied the fact that Nicholas Fimbrez was in the residence. Sergeant [redacted] then telephonically contacted the residence and after approximately two rings a male answered. Sergeant [redacted] identified himself and attempted, to no avail, to identify the person who answered the telephone. The male abruptly hung up. Sergeant [redacted] indicated to one of the other officers that if the male remained in the residence, it may turn into a full tactical callout and if so they would maintain their positions. Sergeant [redacted] then attempted a second telephone call into the residence and as the telephone was ringing, a police radio broadcast indicated that a Hispanic male wearing shorts was coming out the east side of the residence.

b6
b7C

Officer [redacted] then started giving the Hispanic male verbal commands but the Hispanic male did not comply and returned to the inside of the residence. The Hispanic male was then observed quickly looking out a window on the left (east) side of the residence. b6 b7C

The San Bernardino County Sheriff's Department's Aviation Unit, which was on-scene to provide aerial support, then observed a Hispanic male, fitting the description and later identified as Nicholas Gilbert Fimbrez, exit the rear (northeast) corner of the residence, go under some trees then run east and north through some back yards and over some fences. The Aviation Unit provided radio broadcast information concerning Fimbrez's description, direction of travel, and coordination for the ground pursuit units.

Numerous officers, who were in foot pursuit of Fimbrez, were giving verbal commands directing Fimbrez to stop and show his hands, but to no avail. Numerous officers observed Fimbrez running with his hands near the waist area of his pants.

Numerous officers were in foot pursuit and closing in on Fimbrez as he entered the rear yard of 187 East Olive Street by going over a wire fence. Fimbrez then ran north along the west side of the residence. SA [redacted] was also in foot pursuit and entered the rear yard of 187 East Olive and ran to the southwest corner (rear) of the residence as Fimbrez ran north along the west side of the residence with another officer in foot pursuit. Fimbrez then ran east across the front porch and then south on the driveway along the east side of the house toward the garage and backyard area and toward SA [redacted] and other pursuing officer's location. Additional officers were also pursuing Fimbrez south on the driveway. As several officers were near Fimbrez and giving him verbal commands to stop/show his hands and to no avail, Officer [redacted] released his K-9 [redacted] just as Officer [redacted] came north from the rear of the house and physically confronted Fimbrez. They were face to face and Officer [redacted] grabbed Fimbrez's shoulder and arm in an attempt to take Fimbrez to the ground. Within seconds of this physical confrontation, Fimbrez displayed a weapon and shot Officer [redacted] with one round from a Glock Model 23 .40 caliber pistol, serial number BAP249US. Officer [redacted] who was knocked to the ground by the shot, was then bitten by K-9 [redacted] as SA [redacted] and Officer [redacted] discharged their weapons striking Fimbrez and knocking him to the ground. SA [redacted] fired one round and Officer [redacted] fired one round. Fimbrez, who was now on the ground, still maintained possession of his handgun. Officers again attempted to provide verbal commands to Fimbrez to drop the weapon but Fimbrez attempted to raise and point the weapon toward the officers. Officers, knowing that Fimbrez had just shot Officer [redacted] and a civilian the previous week, and fearful for their lives and the safety of others, again b6 b7C

discharged their weapons to eliminate the threat. SA [redacted] discharged one additional round, Officer [redacted] discharged two additional rounds, Officer [redacted] discharged one round, and Officer [redacted] discharged four rounds. Following the shooting, an Officer Down/Officer Needs Assistance call was dispatched over a law enforcement common radio channel.

Officer [redacted] was provided with medical attention at the scene and then transported via police car to the Loma Linda University Medical Center by Detectives [redacted] and [redacted] and other officers. Emergency medical personnel arrived at the scene and began to administer medical attention to Fimbrez, however, he was pronounced dead at the scene. b6 b7C

SA [redacted] was carrying his bureau issued Glock Model 22 .40 caliber pistol. Officers [redacted] and [redacted] were carrying their department issued H&K USP .45 caliber pistols. SA [redacted] and all officers involved in the shooting were current on their firearms qualifications at the time of the shooting.

Following the shooting incident, SA [redacted] who was the senior FBI SA on-scene, telephonically contacted his supervisor, SSA [redacted] who then notified Executive Management of the Los Angeles Division. The SBPD took control of the crime scene and lead on the shooting investigation, since the initial matter was a SBPD case and the attempted arrest was a SBPD operation to which the FBI Agents were only providing tactical assistance.

During the course of the SBPD investigation, numerous persons were interviewed and provided statements of what they saw and heard. Numerous witness saw the foot pursuit, heard verbal commands being given, and heard shots being discharged, however, only a limited number could provide relevant information which could be reduced to a statement.

On 08/09/2004, an autopsy on Fimbrez was conducted by Dr. [redacted] with SBPD Forensic Specialist [redacted] taking photographs and collecting evidence. During the autopsy it was determined that Fimbrez was struck with ten bullets which was equivalent to the total number of rounds fired by officers during the incident. The cause of death was determined to be multiple gunshot wounds and death occurred within minutes of the incident. b6 b7C

SA [redacted] EOD 09/22/2002, had prior to the shooting incident, indicated his intent to resign from the FBI and return to his previous employment as a Police Officer with the Escondido Police Department. SA [redacted] resigned from the FBI effective 09/10/2004 and is now employed by the Escondido Police Department.

As previously noted, SAs [redacted] and [redacted] were working as part

of a SSTF initiative with the SBPD and a Memorandum of Understanding was prepared which established a Gang Impact Team (GIT). The mission of the GIT was to address the organized street gang problem, within and around the city of San Bernardino, by identifying and targeting the leaders and members of the various gangs throughout the area. At the time of the shooting incident there were three case initiatives being worked by the GIT. There is no Executive Board for the GIT, however SSA [redacted] of the RRA and Lieutenant [redacted] of the SBPD provide direct oversight of the GIT. One of the case initiations captioned "8-Ball" was opened in March 2004 to focus on several small gang groups that existed within the city of San Bernardino. As of 07/30/2004, this case had generated 51 state arrests and one state conviction. SA [redacted] the Principal Relief Supervisor for the Violent Crimes Squad in the RRA, was assigned as the Case Agent on the investigation and was allowed to make command decisions on the street. SSA [redacted] is briefed on a daily basis concerning the Agents' investigative activity. Although FBI SAs do not have Peace Officer status in the State of California, they can and do participate in local arrest when assistance is requested.

b6
b7C

As previously noted, the SBPD was the lead investigative agency on the criminal matter leading up to the shooting incident. Although no Operation Order/Arrest Plan was prepared, a verbal operational briefing was provided at the staging location by Sergeant [redacted] during which he identified each Officer/Agent's assignment, duties, weapons, and discussed safety issues. Both SA [redacted] and SA [redacted] were aware of the current FBI Deadly Force Policy.

A review of this matter by San Bernardino District Attorney's Office, has determined this to be a justified shooting incident.

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 08/12/2004, involving Special Agent (SA) [redacted] During the execution of a search warrant, SA [redacted] shot and killed an aggressive Rottweiler dog. SIRG members recommended that no action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference Electronic Communication of SA [redacted] dated 08/16/2004.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

**Details of the Shooting Incident**

On 08/12/2004, at approximately 7:45 a.m., FBI Agents assigned to the Connecticut Computer Crime Task Force were executing a search warrant in Bantam, Connecticut. Agents approached the front door of the residence and proceeded to "knock and announce" several times. After receiving no response, participants checked the door of the residence and found it unlocked. Announcing their presence as they entered, Agents began to clear the residence in order to locate the occupants and execute the search warrant.

Announcing his presence several times with no response, SA [redacted] proceeded to the bottom of the basement steps and again announced his presence. While observing the clutter of the basement, SA [redacted] saw a Rottweiler advance toward him in an aggressive manner from behind a sheet covering an entrance in the basement. Believing that his life was in imminent danger, SA [redacted] fired four shots at the charging dog. The dog fell down the steps and died.

On 10/13/2004, the SIRG met to discuss the above-captioned shooting incident. Chief Inspector Robert D. Grant, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted], Assistant Section Chief, Operational Support Section, Criminal Investigative Division; My Harrison, Section Chief, Applicant Processing Section, Administrative Services Division; [redacted] Unit Chief (UC), National Firearms Program, Training Division (TD); [redacted] UC, CD-6B, Counterintelligence Division; Supervisory Special Agent (SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Firearms Training Unit, Training Division (TD); SSA [redacted] Operational Skills Unit, TD; SSA [redacted] Firearms Training Unit, TD; SSA [redacted] National Firearms Program, TD; and SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC). The two non-voting members present were [redacted], Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division; and [redacted] Intern, Leadership Development Institute, Training and Development Division, Quantico.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy. Members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this incident. b6 b7C

Report of: IIC [redacted] Office: FBI Headquarters
Date: 09/08/2004

Case ID #: 297-HQ-A1271966-D

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
TAMPA DIVISION
AUGUST 19, 2004

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident resulted from an apparent accidental discharge of a single round from a Colt M4A1 Carbine by an FBI Tampa SWAT Team member while the team was effecting the arrest of a violent fugitive wanted by FBI Boston. The fugitive, [redacted] was shot once in the lower back while being handcuffed in the prone position. Mr. [redacted] sustained serious injuries, underwent surgery, and survived his wounds. b6 b7C

DETAILS:

On Thursday, 8/19/2004, at about 11:00 AM, FBI Tampa SA [redacted] received a call from his squad secretary advising that a priority EC was being faxed from the Springfield RA, Boston Division. The EC set a lead for Tampa to locate and arrest [redacted] for Unlawful Flight to Avoid Prosecution.

SA [redacted] returned to his office and reviewed the Boston EC which stated that [redacted] was armed and dangerous and a flight risk. An arrest warrant had been issued on 12/16/2003, by the Hampden County Superior Court, Massachusetts, charging [redacted] with one felony count of Malicious Destruction of Property over $250.00. [redacted] also had outstanding felony arrest warrants in Massachusetts for Failure to Appear to Probation Officer, Larceny From a Building, and Failure To Stop For Police. On 1/27/2004, a U.S. District Magistrate in Massachusetts

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

issued an arrest warrant for [redacted] for Unlawful Flight to Avoid Prosecution.

The EC further stated that [redacted] was wanted for questioning as a prime suspect in the 11/23/2003, murder of Adolfo Bruno, a "made" member of the Genovese crime family. The EC included a photograph of [redacted] described his various tattoos, and provided a detailed physical description, including the fact that he is 6'4" tall and weighs over 200 pounds. The EC cautioned that [redacted] was an "extreme fighter", known to "avoid apprehension", and "believed to be extremely violent and will engage officers". The EC noted that [redacted] "is always in possession of at least one handgun". b6 b7C

The EC explained that source information and grand jury subpoenas of telephone records revealed that [redacted] was staying in Florida and had been utilizing a telephone at a residence at [redacted] Tampa, Florida. The EC identified the owner of the residence by name (hereafter referred to as "the homeowner"). SA [redacted] telephonically spoke with the author of the Boston EC, a task force officer (TFO) assigned to the Springfield RA. The TFO advised that according to a source, [redacted] might be driving a rented Cadillac Escalade.

SA [redacted] then advised SA [redacted] the Acting SWAT Team Leader, of the details regarding [redacted] and suggested that a SWAT deployment might become necessary. The Senior SWAT Team Leader was out of town attending an in-service. SA [redacted] then departed the office, accompanied by a Hillsborough County Sheriff's Detective assigned to a Tampa Division task force, and traveled to the Wood Trail Boulevard vicinity to look for Cadillac Escalades. Their search met with negative results, but investigation at Enterprise Rental determined that the homeowner had rented an Escalade on August 12 and returned it on August 13, 2004. In a phone conversation with the Boston TFO, SA [redacted] was told the name of the company where the homeowner was employed, but not the address. b6 b7C

At about 11:40 AM, Acting SWAT Team leader [redacted] advised ASAC Kevin Ray Eaton and SSA [redacted] that a violent fugitive might be in the area and that SA [redacted] was attempting to confirm the fugitive's location. They discussed the fact that the SWAT Team should be utilized to arrest the fugitive. At 12:15 PM, ASAC Eaton called Acting SAC (A/SAC) David W. Welker and left him a message that a SWAT Team deployment might be needed to arrest a fugitive. Tampa SAC Carl Whitehead was out of the country on annual leave.

At about 2:00 PM, SA [redacted] was called by another police officer in Massachusetts who was directly handling the source who was reporting on [redacted] SA [redacted] learned that the source [redacted] earlier. SA [redacted] then called Acting SWAT Team leader [redacted] in Tampa as recently as that morning. SA [redacted] and his detective partner then began driving to nearby pool halls and bars in an attempt to spot [redacted] b6 b7C b7D

At about 2:30 PM, A/SAC Welker, ASAC Eaton, SSA [redacted] and SA [redacted] met in ASAC Eaton's office; SA [redacted] was on the speaker phone. They discussed pertinent details. SA [redacted] told ASAC Eaton that another SWAT agent was working on an Operations Plan. ASAC Eaton told SA [redacted] that the plan should focus on arresting [redacted] outside of or away from the residence. SA [redacted] advised that the SWAT Team was meeting at the Hillsborough County Sheriff's district office near the fugitive's suspected location.

At about 3:00 PM, ASAC Eaton and SSA [redacted] left the office en route to the Sheriff's office. As they left the office, a SWAT Team member handed ASAC Eaton a draft Operations Plan. ASAC Eaton reviewed the draft plan while riding in SSA [redacted] vehicle. The plan called for a "knock and announce" approach to the residence, and stated that the SAC had authorized compromise authority and flash bang devices if necessary. ASAC Eaton scratched out these portions and handwrote changes consistent with effecting arrest while the subject was approaching or departing the residence. ASAC Eaton also scratched out the SAC authorities that had never been requested nor granted. ASAC Eaton also edited the plan to indicate that he and SSA [redacted] would be on-scene during the arrest, as opposed to the command post being in the office. ASAC Eaton and SSA [redacted] arrived at the Sheriff's office at about 3:30 PM and awaited the arrival of remaining SWAT members and SA [redacted] who was the case agent and a SWAT team member. b6 b7C

Once SA [redacted] arrived, the SWAT Team entered the Sheriff's Office for a briefing. SA [redacted] explained all known information including the recent discovery that a new rental car was parked at the residence and that an individual matching [redacted] description was seen parking the vehicle and walking toward the residence.

ASAC Eaton and SSA [redacted] verbally discussed with the SWAT Team that the arrest plan would not include going up to or into the residence to arrest the fugitive. They discussed the

need to position the team close enough to the residence to apprehend [redacted] between the house and his car. Alternatively, they discussed that it might be necessary to let [redacted] leave the residence and get in his car, then effect the arrest when he exited the vehicle at another location. Lastly, they discussed the least desirable alternative of a felony car stop, aided by marked police units, in the event that [redacted] became aware that he was being followed. Acting SWAT Team Leader [redacted] did not attend this briefing because he remained at the FBI office attempting to revise the Operations Plan.

At about 4:15 PM, ASAC Eaton and SSA [redacted] drove past the target residence two times and around the neighborhood. They observed that the distance between the front door of the small townhouse residence and its assigned parking spaces was about ten yards. ASAC Eaton and SSA [redacted] returned to the Sheriff's Office parking lot where the SWAT Team was making final preparations. They advised the team that it would be difficult to get close enough to the residence to grab [redacted] between the front door and his vehicle. They advised the SWAT Team that the plan was still to arrest [redacted] outside of the residence or at another location. b6 b7C

SA [redacted] and another SWAT member arrived at the Sheriff's Office and boarded the SWAT truck. SA [redacted] sat in the front passenger seat. A total of eight SWAT members were seated in the truck. At approximately 4:45 PM, the SWAT truck departed the Sheriff's Office along with the car containing ASAC Eaton and SSA [redacted] SA [redacted] departed in a separate vehicle to continue surveillance. Once in the neighborhood of the target residence, the SWAT truck parked around the corner in a location affording an unobstructed view of the front of the house. For approximately the first 20 minutes, the air conditioning unit in the rear of the SWAT truck did not operate. According to an Internet weather website, the Tampa temperature at 4:53 PM was 91 degrees, with 61% humidity and no precipation. ASAC Eaton and SSA [redacted] parked their vehicle in a supermarket parking lot in the vicinity of the residence but without a view of the residence or the SWAT truck. b6 b7C

At about 4:55 PM, ASAC Eaton called A/SAC Welker and CDC Deanna Day and advised them of the plan and that everyone was in place. A/SAC Welker dispatched negotiators to join ASAC Eaton and SSA [redacted]. (Two negotiators arrived about 6:10 PM). A/SAC Welker also requested that someone begin preparing an affidavit for a search warrant in the event that an entry into the house became necessary. A/SSA [redacted] who oversees the VCMO Squad, and CDC Day began work on the affidavit.

SA [redacted] from his surveillance location observed small children entering and exiting the house next door, and other neighbors arriving home from work. At approximately 6:00 or 6:15 PM, SA [redacted] learned that the homeowner of the target residence might be coming home from work soon. CDC Day advised A/SSA [redacted] that in order to avoid a hostage situation, the homeowner should not be permitted to enter his house. The CDC's statement was conveyed to SA [redacted] and also to the SWAT members in the truck.

b6
b7C

At approximately 6:15 PM, ASAC Eaton and SSA [redacted] noticed a marked Sheriff's unit pulling out of the supermarket parking lot at their location, and moving in the general direction of the target residence. Thinking that this marked unit might somehow be involved in the SWAT operation, they moved their vehicle to a location where they could see the SWAT truck. The marked unit was not involved in the operation.

At about 6:35 PM, the homeowner arrived in his vehicle and parked in front of his residence. As he exited his vehicle, a task force officer identified himself and walked the homeowner to the back of his vehicle. SA [redacted] announced via hand-held radio that the homeowner had arrived. Concerned that [redacted] might be able to easily view these developments from the front bay window of the house, SA [redacted] radioed for the SWAT truck to move closer. Acting SWAT Team Leader [redacted] interpreted SA [redacted] request to mean that SA [redacted] was in trouble, or that the fugitive had appeared. The SWAT truck pulled to the front of the residence. SA [redacted] observed SA [redacted] talking to the homeowner. The homeowner confirmed that [redacted] was in the house alone. SA [redacted] radioed SA [redacted] to determine what was happening. SA [redacted] responded that he had acquired the house keys from the homeowner and obtained consent to enter the house. SA [redacted] advised the team to get ready.

SA [redacted] approached the SWAT truck with the house keys. SA [redacted] raised the back slide-up door of the truck and observed children in the yard next door. The six SWAT Team members in the rear of the truck, SA [redacted] SA [redacted] SA [redacted] SA [redacted] SA [redacted] and SA [redacted] exited the truck through the rear door and took positions of cover behind the truck. SA [redacted] arrived at the back of the truck with the house keys. Acting Team Leader [redacted] took cover behind the front wheel of another Bureau vehicle. The SWAT truck driver, SA [redacted] took a cover position north of the truck. Two additional SWAT members, SA [redacted] and SA [redacted] were also present, having arrived in separate vehicles. SA [redacted] and SA [redacted] moved to cover the north side of the rear of the

b6
b7C

house, while SA [redacted] and SA [redacted] ran to cover the back entrance of the house. A total of eleven SWAT Team members were present, including the case agent SA [redacted]

ASAC Eaton and SSA [redacted] with two negotiators in the rear seat, observed the SWAT truck move toward the residence. ASAC Eaton heard SA [redacted] radio for the SWAT Team, and assumed that [redacted] had exited the residence. ASAC Eaton heard SA [redacted] on the radio stating that he had obtained the homeowner's consent. He then saw the SWAT team exit the truck and approach the residence. b6 b7C

At approximately 6:37 PM, The entry team "stacked up" behind the SWAT truck and proceeded methodically and slowly toward the front door of the residence in the following order; SA [redacted] carrying a shield, SA [redacted] carrying the house keys, SA [redacted], SA [redacted] SA [redacted] carrying a shield, and SA [redacted] The entry team members were wearing SWAT gear including body armor, helmets, and prominent FBI markings, with the exception of SA [redacted] who had been conducting surveillance of the residence. He wore an undercover style bullet resistant vest and street clothes.

At the front door of the residence, SA [redacted] reached around the shield carried by SA [redacted] and began the process of unlocking both the door lock and deadbolt. During this process, the door pulled open and [redacted] was observed standing in the doorway. [redacted] attempted to close the door and the entry team forced their way into the narrow entrance foyer. Shouts of "FBI, FBI" were repeated, and commands were given for [redacted] to get down. [redacted] turned his back to the team and attempted to run, but he was forced down to the floor on his stomach. [redacted] struggled to lift himself off the floor while the entry team held him down. SA [redacted] shouted a request for handcuffs, and SA [redacted] responded that he would do the handcuffing. [redacted] was prone, his arms out to the side and struggling to move into a push-up position. SA [redacted] had one foot on [redacted] right arm, SA [redacted] had one foot on [redacted] left arm. b6 b7C

SA [redacted] carried a Bureau issued Colt M4A1 Carbine from a sling around his right shoulder. Just prior to handcuffing, SA [redacted] recalled moving his right thumb upward in a motion to manipulate the selector switch of his M4 to the "safe" mode. He then let the M4 hang on its sling and reached his right hand back to his right side for handcuffs. He staged the handcuffs in his right hand and kneeled down toward [redacted] with his knee in the small of [redacted] back. SA [redacted] grabbed [redacted] left wrist with his left hand and started pulling that

arm to the small of [redacted] back. SA [redacted] kept the handcuffs in his right hand. As he was placing a handcuff on [redacted] left wrist, a shot was heard.

Blood emitted from [redacted] back and SA [redacted] quickly completed the handcuffing process. SA [redacted] applied direct pressure to [redacted] wound. While SA [redacted] rendered aid to [redacted], SA [redacted] offered to take SA [redacted] M4. SA [redacted] raised his right arm to allow SA [redacted] to lift and remove the weapon and sling. SA [redacted] observed that SA [redacted] weapon was in the "safe" mode. SA [redacted] began speaking to [redacted] in an effort to calm him and keep him conscious. SA [redacted] approached with a towel and gloves and applied pressure to [redacted] wound. SA [redacted] exited the residence and walked to the SWAT truck. b6 b7C

At about 6:38 PM, ASAC Eaton and SSA [redacted] approached the residence and were told the subject was in custody and that there had been an accidental discharge. ASAC Eaton went to a marked Sheriff's unit and requested the deputy to call EMS. The EMS dispatcher received the request at 6:39 PM. ASAC Eaton then called A/SAC Welker who advised that he would respond to the scene. At about 6:50 PM, ASAC Eaton asked the deputy why EMS had not yet arrived. EMS arrived at the scene at approximately 6:53 PM, and transported [redacted] to the hospital at about 7:00 PM. The SWAT Team departed the location to return to the office.

On his way to the scene, A/SAC Welker notified SIOC of the shooting incident and spoke with various FBIHQ officials, including Acting AD Donald Thompson, INSD. ASAC Eaton called for the Tampa ERT to respond to the scene. A Hillsborough County Sheriff's Office corporal advised ASAC Eaton that his superiors had approved of the FBI conducting the shooting scene investigation. A/SAC Welker arrived at the scene and had discussions with senior officials from the Sheriff's Office who confirmed that the FBI could process the shooting scene.

A/SAC Welker ensured that two SAs responded to the scene to obtain a detailed interview of the homeowner, and that SA [redacted] weapon and clothing were secured.

Tampa SAs were posted at the hospital to maintain FBI custody of [redacted] was in critical condition when the SIRT arrived in Tampa to conduct the shooting inquiry. He had reportedly lost a large volume of blood and a portion of his small intestine. He underwent surgery while the SIRT was in Tampa. [redacted] attorney sent a letter to SAC Carl Whitehead advising that [redacted] was represented by counsel and that no law enforcement officer was to question [redacted] The physician b6 b7C

responsible for [redacted] care would not return calls from the SIRT regarding [redacted] medical condition and records. The head nurse responsible for [redacted] care telephonically advised that federal healthcare privacy laws precluded discussion or provision of [redacted] medical records.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INQUIRY
PHOENIX DIVISION
TUCSON DIVISION
SEPTEMBER 15, 2004

Character: INSPECTION DIVISION
SHOOTING INQUIRY

Synopsis: This shooting incident was a result of an attempted arrest of [redacted] A federal warrant issued 9/8/2004, in Tucson, Arizona, District of Arizona, was outstanding; charging [redacted] in violation of Title 18, USC, Section 115(a)(1)(B), Threatening a Federal Law Enforcement Officer. [redacted] was traveling with [redacted] at the time of the arrest. The Phoenix Division SWAT Team and Sierra Vista RA Agents had been coordinating efforts with the Douglas Police Department, Cochise County Sheriff's Department, and the U. S. Border Patrol to locate and apprehend [redacted]

b6
b7C

DETAILS: On 9/9/2004, the FBI initiated an investigation (89B-PX-75599) on [redacted] and [redacted] as a result of an encounter they had with U.S. Border Patrol Agents (BPA). More specifically, on 8/13/2004 at approximately 8:00pm, Douglas BPAs attempted to conduct a vehicle stop on a minivan suspected of smuggling. The driver, later identified as [redacted], refused to pull over even though marked Border Patrol units had their emergency lights and sirens activated. As the BPAs were attempting to conduct a vehicle stop, [redacted] led them to a compound in Douglas, Arizona, occupied by members of Ranch Rescue (RR). The BPAs were aware that members of RR were heavily armed and generally hostile to federal law enforcement officers. As [redacted] turned into the RR gated driveway, [redacted] who was armed with a rifle, was

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

observed just inside the gate. [redacted] got out of his vehicle and began yelling at the BPAs and then began instructing [redacted] and the surrounding area to "maintain your position and cover down on the Agents." The BPAs believed that [redacted] was ordering [redacted] and other RR members to maintain their tactical position and prepare to shoot at them. Fearing for their lives, the BPAs sought cover behind their vehicles and called for backup from the Border Patrol and Cochise County Sheriff's Office. Riddle eventually dropped his weapon and adhered to the instructions of the BPAs. Shortly after officers from Cochise County Sheriff's Office and Border Patrol arrived, the situation was defused without any shots being fired.

b6
b7C

The driver and registered owner of the minivan was [redacted] is one of the leaders of RR, a paramilitary, anti-government, neo-nazi group which patrols private property along the U.S./Mexican border in Texas, New Mexico, Arizona, and California. RR publicly proclaims to be "dedicated to defending and preserving the private property rights of individual citizens." Its members portray themselves as law abiding crusaders for private landowners whose properties are being invaded by undocumented aliens. However, intelligence reporting revealed that the group is willing to violate criminal laws and use force or violence to achieve their political and social goals. In addition, the group's actions may be motivated by racial hatred and anti-government sentiment. According to its internet site (ranchrescue.com), RR has chapters in Colorado, Washington, Virginia, Oklahoma, and South Africa. Whereas RR was founded and headquartered in Texas, the organization constructed a new headquarters and training facility in Douglas, Arizona. According to various law enforcement reporting, at its peak, there were between 15 and 20 militia members at the RR compound. [redacted] is the owner of the Douglas property which RR considers its headquarters and tactical training center.

b6
b7C
b7E

[redacted]

On or about 9/10/2004, SSRA [redacted] met with ASAC Roland Mignone to discuss plans to arrest [redacted] The issue was further discussed on Monday, 9/13/2004, with ASAC Mignone, ASAC Nate Gray, and the SWAT Team leader, SA [redacted] During this meeting, it was decided to utilize the SWAT Team to arrest [redacted] The group decided the arrest would not be

effected at the RR compound in order to avoid any type of standoff situation. Further, the determination was based on the location of the ranch; potential fortification of the compound; the number of buildings on the property; intelligence suggesting numerous weapons in some of the buildings on the compound; statements made by [redacted] suggesting a propensity for violence; a lack of certainty as to how many persons may be present at the ranch; [redacted] criminal history for acts of violence; and available alternatives with lower risks. Additionally, a vehicle stop was ruled out due to [redacted] history of refusing to stop for law enforcement and maintaining weapons in his vehicle.

b6
b7C

It was concluded that the SWAT Team would be housed at the Motel 6 in Douglas and immediately respond once they were notified that [redacted] had left the RR compound. FBI agents located at the Border Patrol station, were monitoring cameras overlooking the compound. They were to report directly to the SWAT Team when [redacted] left the compound. It was also decided during this meeting that a SWAT Team briefing would occur on Tuesday, 9/14/2004, and a full briefing for all law enforcement personnel on Wednesday, 9/15/2004.

On Tuesday, 9/14/2004, at 5:00pm, a SWAT Team briefing was conducted by SA [redacted] in Phoenix. All SWAT Team members were present at the Phoenix briefing except SAs [redacted], and [redacted] SA [redacted] was the only Agent scheduled for duty on the first day of the operation. SA [redacted] was present for the second briefing held at the Sierra Vista RA. Also present at the Phoenix briefing was the SWAT Team Coordinator, SSA [redacted] and hostage negotiator, [redacted] Earlier that day, SA [redacted] wrote the operation order after having received specifics from the case Agent, SA [redacted] SA [redacted] operations order was general without specific duty assignments as the team members would vary to be rotated in and out of Douglas every couple days. SA [redacted] went over the operations order with the team during the briefing in Phoenix. He also read the Sierra Vista operation order section which provided subject and case information. During this briefing, the team was shown photographs of the ranch compound, [redacted] and his associates. SA [redacted] read the Deadly Force Policy verbatim to the team, putting specific emphasis on it because a new revision was just implemented. ASAC Mignone briefed SAC Thornton on 9/13 and 9/14/2004 on the options available to effect the arrest of [redacted]

b6
b7C

The operation schedule included the assignment of a certified SWAT Team EMT with the team while stationed in Douglas.

The two certified SWAT EMTs, SA [redacted] and SA [redacted] were not available for deployment on Wednesday, 9/15/2004. SA [redacted] advised the team that he would act as the EMT as he was a certified EMT in college. However, SA [redacted] has not been re-certified as an EMT since that time.

On Wednesday, 9/15/2004, at 12:00pm, a second briefing was conducted at the Sierra Vista RA. Present at this briefing were representatives from the Douglas Police Department, Cochise County Sheriff's Department, U.S. Border Patrol, Sierra Vista RA Agents, and all SWAT Team members on the first rotation which included SA [redacted] ASAC Mignone presided over the briefing and SSRA [redacted] provided a case overview. SA [redacted] presented a tactical overview. The briefing covered specifics of the arrest warrant, to include photographs and criminal histories of [redacted] They were briefed on the fact that [redacted] was considered armed and extremely dangerous; was wanted for Assaulting a Federal Officer; and provided information relating to [redacted] previous felony convictions. Attendees were also provided the latest intelligence from the surveillance camera monitoring the compound. More specifically, it was discussed that [redacted] and his associates had conducted firearms training with long guns at the ranch and that it was believed they were in possession of grenades, weapons, and improvised explosive devices.

b6
b7C

Agents were designated from the Sierra Vista RA to station themselves at the Border Patrol station and provide real time information regarding the activities observed via the pole camera monitoring the ranch. These Agents were also directed to notify ASAC Mignone and the local authorities as soon as the SWAT Team executed the arrest. During the afternoon and evening of 9/15/2004, SAs [redacted] and [redacted] were monitoring the camera at the Border Patrol station. On four or five occasions, SA [redacted] observed [redacted] walking around the compound with a long gun. On at least one occasion, SA [redacted] observed [redacted] hand the long gun to [redacted] This information was reported directly to the SWAT Team.

b6
b7C

On 9/15/2004, at approximately 3:00pm, SA [redacted] held a briefing with the SWAT Team at the Motel 6 in a room that was designated the command post. During this briefing, team members were reminded to keep their ballistic vests and handguns on from 6:00am to 11:00pm each day while on station. These were the hours Walmart remained opened and intelligence indicated that this was [redacted] usual stop if he left the ranch. Also, team members were briefed on a plan devised by SA [redacted] to be effected as [redacted] was seen leaving his ranch compound. The

SWAT Team was assigned as follows:

Teams: Back Road into Walmart: (Silver Dodge)
SA
SA

Gas station next to Motel 6: (Black Chevy Suburban)
SA
SA

Arrest Team, Walmart parking lot: (SWAT VAN)
SA
SA
SA
SA
SA

The arrest plan was designed to utilize three SWAT vehicles. The plan would allow to enter whatever establishment he went to, set up SWAT vehicles around his vehicle, and arrest him after he exited the establishment.

At approximately 10:12pm, SA observed and get into their van and leave the compound. SA immediately notified the command post that the van had left the compound. SA who was at the command post, notified SA who then instructed SA to get the SWAT team together. After the team was assembled, SA instructed the driver of the SWAT van to proceed to the Safeway parking, instead of Walmart, as he did not want it to be the only van in the Walmart lot that time of night. SA then contacted the Sierra Vista RA Agents and instructed them to notify ASAC Mignone the subjects were moving.

According to SA all SWAT team members were in their pre-designated positions between 10:10pm and 10:25pm, with the exception of the SWAT van, which was now in the Safeway parking lot. At approximately 10:25pm, SA was advised by SA that and just pulled into the Safeway parking lot and parked within a couple of spaces of the SWAT van. SA advised all team members by radio that and were positively identified as they exited their van and walked into the Safeway store. SA then drove his vehicle to the Safeway lot and positioned it, front bumper to front bumper, with van, to block him from driving away. SA positioned his vehicle to the south of van and the SWAT van, which allowed him to maintain a clear view of the Safeway entrance. SA then directed

b6
b7C

b6
b7C

SA [redacted] to re-position the SWAT van so the sliding door on the passenger side was facing away from [redacted] van. SA [redacted] did this to allow the arrest team to exit the van out of the sight of [redacted] and [redacted] and approach them from behind. It would also position the arrest team so their weapons would be directed away from the Safeway entrance.

At approximately 10:55pm, the two Sierra Vista Agents, SAs [redacted] and [redacted] who were stationed at the Border Patrol station, advised SA [redacted] that they were observing the SWAT teams position from a safe location near the Walmart. As SA [redacted] did not have a direct line of sight to the Safeway entrance, he directed SA [redacted] to notify the team when [redacted] and [redacted] exited the store and to give the execute order when they passed behind the SWAT van. Just prior to [redacted] and [redacted] exiting the store, a silver sport utility vehicle pulled into the parking space just between the SWAT van and [redacted] van. The passenger entered the Safeway. b6 b7C

At approximately 11:15pm, SA [redacted] advised over the radio that [redacted] and [redacted] were exiting the store. As they proceeded behind the SWAT van, SA [redacted] gave the command to execute the arrest. SA [redacted] turned on the emergency lights of his vehicle. SAs [redacted] and [redacted] exited the back of the van. SAs [redacted] and [redacted] exited the side of the van through the double doors. SA [redacted] was the first out the rear door with SA [redacted] directly behind him. SA [redacted] weapon was focused on [redacted] who was left of [redacted] SA [redacted] yelled, "FBI - Get on the ground now!" SA [redacted] yelled, "FBI! FBI! Get down, get down, get down."

SA [redacted] stated that [redacted] and [redacted] immediately started to run for a tactical position to [redacted] van. He advised that he saw [redacted] push the shopping cart away from him and then turn and launch something to them with his left hand. It was later determined that [redacted] had an open water bottle that spewed liquid when he turned. SA [redacted] advised he thought [redacted] was making a tactical move to buy time to go for a sidearm. SA [redacted] stated, "I believed [redacted] wanted to shoot us." SA [redacted] advised he knew SA [redacted] was covering [redacted] and therefore turned his attention to [redacted] who was facing away from him and running toward the van. SA [redacted] observed SA [redacted] duck as [redacted] threw something at him. SA [redacted] stated, "I saw [redacted] reach down with his left hand to his left hip as if going for a gun from a holster. [redacted] turned to his left as he did this." Further, SA [redacted] explained, "I knew if [redacted] pulled a gun and fired, he would hit SA [redacted] point blank killing him. I thought I might be shot, as well as SA b6 b7C

[redacted] and SA [redacted] but I knew SA [redacted] would be killed. As [redacted] left hand went down and he turned, I fired one shot." SA [redacted] recalled he had his red laser sight on the left side of [redacted] rib cage below the armpit. After the shot, [redacted] continued to turn to his left and fell down out of SA [redacted] sight. SA [redacted] advised he believed the immediate threat from [redacted] was gone. He then reacquired his sight on [redacted] and covered him until SA [redacted] handcuffed him. SA [redacted] and other Agents heard [redacted] yell, "What did you guys shoot me with, a rubber bullet?" SA [redacted] stated that shortly thereafter, SA [redacted] asked him what happened to which he responded, "I shot." When asked how many times he responded, "One time." SA [redacted] advised SA [redacted] "The big guy made a movement like going for a gun. He turned toward us and I shot." SA [redacted] advised that SA [redacted] secured his weapon. SA [redacted] weapon was entered into evidence at the Phoenix Division. SA [redacted] stated he was wearing his ballistic vest underneath his shirt. His badge was clipped to the front of his shirt. b6 b7C

Within minutes of the shooting, the paramedics and members of the Douglas Police Department arrived at the scene. [redacted] was taken by paramedics to the hospital where he underwent surgery to remove the bullet. The Nurse at the University Medical Center advised it appeared [redacted] would survive his wounds. [redacted] was also transported to the hospital as he complained of a twisted ankle when he went to the ground during the arrest. The Douglas Police Department processed the crime shortly thereafter and took photographs of all SWAT members with their credential numbers over their faces. This is a normal procedure in Arizona as it protects the identity of police officers.

A search of [redacted] van revealed one loaded, silver and black Armi Tanfoglio Giuseppe pistol, serial number T 25084, with one magazine carrying .380 caliber ammunition. This weapon was completely visible in the center console area. There were seven rounds in the magazine and one round in the chamber. Also found during the search was one silver Waffenfabrik Mauser Pistol, 7.63 caliber, serial number 427299. It was located inside a brown holster which was attached to a black canvas belt. The black canvas belt contained two pouches. One pouch contained ten 12 gauge shotgun shells and the other contained four strips of 7.63mm ammunition. Each strip contained 10 rounds of ammunition. It was determined that neither [redacted] nor [redacted] had firearms on their person during the arrest. b6 b7C

The weather was clear, temperature was 71.1 °F, wind speed was 3.5mph traveling east, and visibility was 10 miles.

**Title:** SHOOTING INCIDENT
DALLAS DIVISION
04/21/2004

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 04/21/2004, involving Special Agent (SA) [redacted] During a required firearms training session, SA [redacted] inadvertently placed his left hand index finger in front of the barrel of an MP5-10/A prior to discharging the weapon. As he fired the weapon, SA [redacted] shot off the first two top sections of his finger. SIRG members recommended that SA [redacted] be censured, suspended from duty for a period of three days, and receive documented remedial firearms training for his neglect in practicing routine firearms safety procedures.

**Administrative:** Reference Electronic Communication of Assistant Special Agent in Charge Daniel D. Dubree, dated 05/21/2004.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

**Details of the Shooting Incident**

On 04/21/2004, the Dallas Division was conducting a required session of quarterly firearms qualifications. The session was entering it's third day which began with class instruction and the order of firearms qualification courses to be shot that day. Classroom instruction was followed by a defensive tactics class. At the conclusion of the class, Agents assembled at the pistol range and prepared for qualification.

Principal Firearms Instructor (PFI) [redacted] provided a weapons familiarization overview of the MP5/M16 weapons as well as the different functions between the MP5 nine millimeter and ten millimeter. PFI [redacted] also provided a lecture regarding the operation of the safety, magazine loading level, bolt action, and sighting system. The participants completed the qualifying course without incident.

Upon conclusion of the MP5/M16 qualification course, participants assembled in a group while PFI [redacted] provided an overview of the next course of fire, which was a combat course. The course consisted of two Agents firing simultaneously at separate targets. b6 b7C

SA [redacted] took a position at the right barrel operating the MP5 ten millimeter. As PFI [redacted] gave a verbal command, SA [redacted] began positioning himself in a kneeling shooting position. His right knee was on the ground with the weapon placed against his right shoulder. As SA [redacted] was attempting to get the correct shooting posture and sight picture, Instructor Marjorie [redacted] observed SA [redacted] s left hand grasping the weapon's forearm. He then suddenly moved his left hand index finger over the end of the weapon's barrel and fired the weapon. Instructor [redacted] recognized SA [redacted] error before he fired the weapon, however, she could not reach him before he discharged the weapon. The round impacted SA [redacted] index finger just above the first knuckle. Agents on the scene administered immediate first aid before the arrival of an ambulance.

SA [redacted] left hand index finger was partially amputated at the hospital.

On 10/13/2004, the SIRG met to discuss the above-captioned shooting incident. Chief Inspector Robert D. Grant, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted], Deputy Chief, Domestic Security Section, Criminal Division, USDOJ [redacted], Assistant Section

Chief, Operational Support Section, Criminal Investigative Division; My Harrison, Section Chief, Applicant Processing Section, Administrative Services Division; [redacted] Unit Chief (UC), National Firearms Program, Training Division (TD); [redacted], UC, CD-6B, Counterintelligence Division; Supervisory Special Agent (SSA) [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted], Firearms Training Unit, Training Division (TD); SSA [redacted], Operational Skills Unit, TD; SSA [redacted] Firearms Training Unit, TD; SSA [redacted] National Firearms Program, TD; and SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC). The two non-voting members present were [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division; and [redacted] Intern, Leadership Development Institute, Training and Development Division, Quantico.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that SA [redacted] did not adhere to routine firearms safety procedures. Members noted safety rules dictate that a firearm should be pointed down range or in a safe direction at all times and Agents should always be aware of potential dangers in any direction the weapon is pointed. This discussion resulted in a recommendation that SA [redacted] be censured, suspended from duty for a period of three days, and receive documented remedial firearms training for his neglect in practicing routine firearms safety procedures.

To: Inspection From: Inspection
Re: 297-HQ-A1271464-D, 10/21/2004

**LEAD(s):**

**Set Lead 1: (Action)**

DIRECTOR'S OFFICE

AT OPR FO, DC

That SA [redacted] be censured and suspended from duty for a period of three days for his failure to employ routine firearms safety procedures. Additionally, SA [redacted] should receive remedial firearms training regarding proper handling of firearms and this training should be properly documented.

**Set Lead 2: (Action)**

DIRECTOR'S OFFICE

AT OPR FO, DC

That the Adjudication Unit, OPR, include in the SAC's copy of the letter of suspension, the need for remedial firearms training for SA [redacted] regarding the proper handling of weapons. Additionally, the letter should advise that this remedial training should be properly documented and that a copy of the documentation should be forwarded to the SIRG Chairman upon completion.

Title: SHOOTING INQUIRY,
REPORT OF SHOOTING INCIDENT;
RICHMOND DIVISION
05/14/2004;
INSPECTION MATTER

Character: ADMINISTRATIVE INQUIRY

Synopsis: This Administrative Inquiry was initiated subsequent to a shooting incident which occurred in Richmond Division, Chesterfield County, Virginia, on 05/14/2004.

- P -

DETAILS:

The Richmond Division of the FBI was conducting an investigation into the drug trafficking activities of Glen Joseph Sweeting. The investigation was initiated after Glen Sweeting was identified through law enforcement and source information as a major supplier of heroin in the Richmond, Virginia, area. Probable cause was established and a court order obtained to initiate Title III coverage on [redacted] which began on [redacted] b3

This intelligence was in conjunction with information received that a relative of Sweeting was recently arrested with four kilos of cocaine and $400,000 in cash. In addition, the Drug Enforcement Agency (DEA) in Richmond targeted several associates of Sweeting and held in abeyance several arrests so as not to jeopardize the FBI investigation. Due to these factors, the decision was made to arrest Sweeting, at which time verbal authorization was obtained from Assistant United States Attorney (AUSA)

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

[redacted] Eastern District of Virginia, for violation of Title 21, U.S.C., Section 841(a)(1) and 846. Further, search warrants were obtained for Sweeting's residence and the residences of three close associates.

[redacted]

b3
b6
b7C

It was anticipated Sweeting would be arrested following this meeting, but upon returning to the Richmond area Sweeting stopped at a residence in Powhatan, Virginia, described as an isolated rural area. Surveillance was initiated on the location. However, information revealed the drug transaction with his associate would not occur until the next day, May 14, 2004. At this point the surveillance was terminated. A plan was then developed to reinitiate surveillance on Sweeting at the Powhatan location at 6:00 a.m. on May 14, 2004, and included a plan to conduct Sweeting's arrest and related search warrants. A meeting was scheduled for 5:00 a.m. on May 14, 2004, at the Chesterfield County Police Department (CCPD) substation to brief participants on the arrest and search plan. During the briefing, the Case Agent, Special Agent (SA) [redacted] who drafted the arrest and search plan, Special Agent in Charge (SAC) Donald W. Thompson, Jr., Assistant Special Agent in Charge (ASAC) Robert Gwaltney and Supervisory Special Agent (SSA) [redacted] all who reviewed and approved the plan, briefed the participants regarding the arrest of Sweeting and his associate and subsequent searches.

During the briefing, participants were advised Sweeting should be considered "Armed and Dangerous." This statement was based on Title III intercepted conversations regarding Sweeting's penchant for violence. For example, [redacted]

[redacted]

b3
b6
b7C

The surveillance of Sweeting at the Powhatan location was established at approximately 6:00 a.m. on May 14, 2004. Due to an interruption in ariel coverage, Sweeting's whereabouts were

unknown. Later that morning, Sweeting's vehicle was located at his residence on Queen Elizabeth Avenue, in Chesterfield County, Virginia, and information from the Title III revealed [redacted] b3

The initial operation plan was modified to conduct a traffic stop and arrest Sweeting after he left his residence prior to approaching the main road. The Special Weapons and Tactics (SWAT) Team Leader gave specific and detailed instructions to each SWAT team member. The plan included two SWAT vehicles to sit parallel on each side of the road with a CCPD-MARKED unit between them. Another vehicle, occupied by a SWAT team member, was to set up surveillance on Sweeting and notify his leaving the residence. After Sweeting passed, this vehicle was to pull behind Sweeting, and act as a blocking vehicle, boxing him in, in order for an Agent to call Sweeting out of his vehicle to be handcuffed and placed under arrest.

Once Sweeting's vehicle approached the anticipated arrest location, the CCPD marked unit pulled in front of the vehicle occupied by Sweeting, activated its lights and siren, and the two SWAT vehicles pulled along each side of Sweeting's vehicle and identified themselves as FBI and issued commands to place Sweeting under arrest. Sweeting's vehicle stopped momentarily, then backed up at a high rate of speed and steered around the blocking SWAT vehicle, turning 180 degrees, heading in the direction of his residence. One SWAT vehicle overtook Sweeting's vehicle and attempted to cut him off. Sweeting struck this SWAT vehicle. A second SWAT vehicle then engaged Sweeting's vehicle on the passenger side, causing both vehicles to become coupled at the front wheel well. Although forward progress of Sweeting's vehicle was impeded, it continued to push forward. Sweeting's vehicle then attempted to backup, with the engine revving and tires spinning. Interviews of Agents determined if Sweeting's vehicle disengaged, Agents and other law enforcement personnel were in imminent danger of serious bodily injury or death. Additionally, if Sweeting was successful in returning to his residence, there was the possibility of him retrieving a weapon and creating a hostage situation.

The vehicle that overtook Sweeting's vehicle was occupied by SA [redacted] who was located in the passenger seat. After Sweeting's vehicle rammed the vehicle occupied by SA [redacted] and its forward progress impeded, Sweeting attempted to back away. SA [redacted] had the passengers' window down and was looking directly at Sweeting, who was yelling and screaming in a state of rage. SA [redacted] did not know what Sweeting was saying, but he (SA b6 b7C

[redacted] was yelling at Sweeting to stop the car. During this time the other SWAT team SAs exited their vehicles. SA [redacted] observed another SWAT vehicle alongside the passenger's side of Sweeting's vehicle and the marked CCPD unit behind. SA [redacted] also observed SWAT team members on foot to the left and right of the vehicle he occupied. SA [redacted] believed Sweeting was attempting to back into the marked unit to create enough space and gain momentum and continue his escape. SA [redacted] believed Sweeting's vehicle was no longer contained and placed a direct threat of imminent danger of serious bodily injury or death to himself, the SWAT team members on foot, and other law enforcement personnel taking cover behind their respective vehicles. At that moment SA [redacted] fired one round from his MP-5, striking Sweeting in the chest. Immediately afterwards, he [redacted] observed Sweeting lean forward and put the vehicle in the park gear at which time it stopped moving. The subject looked at SA [redacted] and SA [redacted] continued issuing commands to "let me see your hands," while continuing to focus his weapon on the subject. As a SWAT team member approached the vehicle, SA [redacted] observed Sweeting convulse and the engine began revving again. The SWAT team member opened the door, turned the vehicle off and yelled for a medic. Sweeting was pronounced dead at the scene.

b6
b7C

During the course of the drug investigation of Sweeting, the Richmond Division employed Title III [redacted]

b3

While the audio does not confirm events in detail, it does support the facts that Sweeting was initially stopped by the arrest team, attempted to evade his arrest with the aid of his vehicle, and did not comply with the instructions of the arrest teams at the initial stop and subsequent second vehicle stop.

b3
b6
b7C

Noted in SA [redacted] statement was the fact he was wearing full tactical equipment, to include green jumpsuit, Bureau issued body armor, ballistic helmet, and safety glasses and was seated in his Bureau vehicle when he discharged his weapon. [redacted]

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
RICHMOND DIVISION
MAY 31, 2004

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident occurred while an FBI Agent and a Stafford County, Virginia Deputy Sheriff attempted to arrest Kelvin Jerrell Clark based on State of Tennessee arrest warrant charging Jerrell with bank robbery. Jerrell was also suspected of involvement in a homicide. The Medical Examiner has determined that Clark died of a self-inflicted gunshot wound.

DETAILS:

The Richmond Division's involvement in this matter was based on a lead from Memphis, dated 05/26/2004 in which Memphis described Clark's involvement in a Memphis bank robbery and possible involvement in a homicide. Clark was described as armed and dangerous with whereabouts unknown. Richmond's lead was to locate a certain black Mazda vehicle and conduct a consent search. Case Agent [redacted] shared this information with the SCSO attempting to locate the vehicle and locate Clark. [redacted] had prepared and distributed a wanted flier of Clark.

On 05/31/2004, at approximately 4:00 pm SA [redacted] learned that the Stafford County Sheriff's Office (SCSO) had stopped that Mazda vehicle and were "set up" at an apartment complex where Clark was believed to be located. [redacted]

b6
b7C
b7D

The SCSO was to arrest Clark as he left the building. Clark stated that he had seen police cars in the area and was not leaving.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

At 5:07 pm SA [redacted] contacted the Richmond Division and reported a barricaded subject situation, with no instruction to contact SSRA [redacted] or any Division management. SA [redacted] had also confirmed that there were no federal warrants for Clark, just a state arrest warrant.

SA [redacted] contacted SA [redacted] and advised SA [redacted] to go to the apartment where Clark was located and meet with SCSO personnel. SA [redacted] was later advised that SA [redacted] was in his vehicle with SCSO Deputy [redacted] watching another vehicle associated with Clark. Marked police cars were removed from the area to allow SA [redacted] and Deputy [redacted] maintain surveillance in SA [redacted] unmarked Bucar. SCSO intended to place a second ruse telephone call to lure Clark out of the apartment and arrest him via a tactical operation of the SWAT Team. While in SA [redacted] car, Deputy [redacted] and SA [redacted] discussed the various situations in which to confront Clark, if Clark appeared.

b6
b7C

At approximately 5:24 pm, prior to a ruse telephone call, Clark left the apartment building and entered the vehicle. SA [redacted] drove his Bucar to the rear of Clark, blocking him in as cars were parked to each side of Clark.

SA [redacted] exited the driver side and Deputy [redacted] exited the passenger side, rushing to Clark's car. SA [redacted] and Deputy [redacted] announced their identities. Deputy [redacted] was able to see a gun in Clark's hand and warned SA [redacted] SA [redacted] an opened the driver door of Clark's car, ordering him to show his hands. Clark continued to lift his right hand still holding a gun. SA [redacted] fired one round hitting Clark in the left arm which continued through and penetrated Clarks's upper torso. According to the Medical Examiner Report, Clark, just before, or simultaneous with SA [redacted] shot, shot himself through the head. The round exited through the vehicle roof and was not recovered. The cause of death was determined to be Clark's self-inflicted gun shot wound.

SCSO and FBI ERT responded to the scene. SCSO deferred investigation to the FBI. A neighborhood canvass was conducted and one eyewitness was identified. This witness is [redacted] whose statement is included in this report. The only other eyewitness is Deputy [redacted] whose statements are also included. SA [redacted] declined to give a voluntary statement. FBI ERT collected evidence and processed the crime scene. SCSO sketches were provided to the FBI and included in this report.

Title: ADMINISTRATIVE INQUIRY;
SHOOTING INCIDENT;
LOS ANGELES DIVISION;
JUNE 2, 2004

Character: ADMINISTRATIVE INQUIRY

Synopsis:

On June 2, 2004, Special Agent (SA) [redacted] credential number [redacted] assigned to the Los Angeles Division of the Federal Bureau of Investigation (FBI), was on duty in his capacity as a Los Angeles FBI SWAT team member. He and his partner, SA [redacted] credential number [redacted] also assigned to the Los Angeles FBI SWAT team, were together in a vehicle surveilling a bank in Buena Park, California. On this date both SA [redacted] and SA [redacted] were involved in a shooting incident at this location. The background of this case is as follows:

b3
b6
b7C

The Los Angeles FBI bank robbery squad was conducting an investigation involving a group of individuals associated with several takeover bank and business armed robberies. The file number of this case is 192C-LA-237071. A Title III was obtained to monitor [redacted]

Based on this information, the bank robbery squad solicited the assistance of the Los Angeles FBI SWAT team. The SWAT team was being asked to intervene and stop the subjects should they make an attempt to rob

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

the institution. The assistance of the Los Angeles Police Department (LAPD) was also obtained. They were being asked to surveil the main subjects who were living in the area of South Central Los Angeles. The surveillance of the main subjects by the LAPD and the bank itself by the FBI SWAT team was conducted on May 18th, 19th, 21st, 26th, and 28th. Due to a variety of reasons to include the robbery crew not being able to get a vehicle and a weapon(s), no attempt was made to rob the bank.

On June 2, 2004 at approximately 7:30 am the bank robbery squad once again asked for the assistance of the FBI SWAT team and the LAPD. A briefing was conducted at a park located near the Los Angeles National Bank in Buena Park. Photographs of some potential subjects and an update as to what was being stated on the Title III was given. It was reiterated from an earlier briefing that the subjects had "scouted" out the bank previously. The SWAT team agents were told the subjects were still attempting to obtain weapons to rob the bank as well as getting vehicles to use. It was mentioned the subjects had possibly gotten a .357 Magnum handgun but were looking for ammunition. The operational plan for the FBI SWAT team was to set up a perimeter around the bank. Their primary mission for the SWAT team was to intervene and prevent any robbery of the bank. Should they be unable to stop the robbery from taking place, the SWAT team was to conduct a felony stop on the subject vehicle following the robbery. They were to then arrest the subjects involved in the robbery. The FBI deadly force policy was also reiterated during this briefing.

The different SWAT team members were given their assignments on this date. SA [redacted] and SA [redacted] were working in their capacity as Los Angeles FBI SWAT team members. SA [redacted] was to be the driver of one of three vehicles to be positioned to the north of the bank's north side parking lot. SA [redacted] was to be in one of the other vehicles also assigned with SA [redacted] Should the subjects actually rob the bank these SWAT team members were to either block the subject vehicle from escaping or be the arrest team. This would depend on the direction the subject vehicle were to leave the scene. In addition, the SWAT team had a stationary white van parked in the north bank parking lot to observe the inside of the bank should the subjects rob the institution.

b6
b7C

Once SA [redacted] and SA [redacted] were in their assigned position, another FBI SWAT team member arrived. At

approximately 10:30 am SA [redacted] allowed this agent to take his location while he moved to SA [redacted] white Ford Explorer and took a position in the rear seat. The two of them discussed what they would do should the robbery take place. b6 Both agents were in possession of an FBI issued M-4 Carbine b7C rifle. Their vehicle was to be third in line of the three SWAT vehicles assigned to block the subject's vehicle or arrest the subjects. The other FBI SWAT vehicles were being driven by SA [redacted] and SA [redacted] respectively. The agents on site were monitoring the FBI SWAT Tactical Operations Command (TOC) which was providing updates via the tactical radio. The TOC provided both information from the Title III conversations as well as the LAPD who were physically monitoring the actions of the main subjects.

At approximately 11:00 am the TOC advised the subjects had obtained a weapon and ammunition (possibly one bullet). Additional information relayed was that the subjects had all the people and vehicles they felt they needed to commit the robbery. Sometime around 11:30 am the TOC stated the LAPD had observed the subjects leaving South Central Los Angeles headed in the general direction of where the bank was located. The subject's had a total of three vehicles and the LAPD was going to surveil them.

The plan agreed upon by the FBI and the LAPD was for the police department to surveil the subjects until they were to get close to the vicinity of the bank. At this point the surveillance was to be turned over to the FBI surveillance teams and FBI SWAT vehicles. When the subject vehicles reached the Knott Avenue exit from the 91 Freeway eastbound, the LAPD relinquished the surveillance and the FBI took over. Due to the number of subject vehicles involved, their location on the road, and the positioning of the FBI vehicles, a felony vehicle stop could not safely be conducted.

As FBI vehicles were making efforts to try and reposition themselves for vehicle stops, one of the subject vehicles drove past the south side of the bank on Orangethorpe Avenue traveling westbound. It then turned north on Knott Avenue, drove a few yards, and then made an immediate turn into the west exit of the bank's north parking lot. This vehicle was a grey colored Chevrolet Astro van.

The FBI SWAT vehicle which had been placed in the lot advised they had a clear visual on the actions of the subject van. They relayed via the radio that there were four

black males in the subject van. They stated the van had backed into a parking slot on the north side of the bank near an entrance. The SWAT agents also advised they had observed a silver colored revolver in the hand of one of the subjects when he exited the vehicle.

The SWAT agents in the parking lot then observed two of the subjects enter the bank, followed soon after by one other individual. The agents were able to see some of the actions of the robbers while inside the bank. One of the subjects stayed with the subject van during the robbery.

SA [redacted] and SA [redacted] followed the other two FBI SWAT vehicles which had been positioned on the north side of the bank behind an adjacent building. The three vehicles drove onto Knott Avenue and waited behind the building and out of the sight of the subject van. It was decided once the agents in the lot advised the subjects had finished the robbery and that the van was moving, the three SWAT vehicles would enter the west exit of the bank lot to block it from escaping. b6 b7C

The SWAT agents assigned to the parking lot stated they observed the subjects enter the van. They then reported the van was traveling westbound towards the west exit of the bank lot. The three SWAT vehicles drove onto the lot in an attempt to block the subject van from escaping. The subject van, upon seeing the SWAT vehicles with their emergency lights activated, began driving at a high rate of speed in the direction of the SWAT vehicles. The first SWAT vehicle being driven by SA [redacted] tried to swerve in front of the subject van as it too swerved to avoid being stopped. The two vehicle's collided causing damage to the left front of both vehicles. This collision caused the subject van to bounce sideways and strike a parked vehicle in the bank lot. In addition, the sudden stopping by the first SWAT vehicle caused the second SWAT vehicle to run into the rear of the first one.

The subject van was able to squeeze between the first SWAT vehicle and the parked vehicle which had just been struck. The subject van continued forward and began driving in a northwesterly direction which caused it to drive over a short wall which was adjacent to an alley which ran behind the bank's parking lot. After entering the alley it then struck a small pickup which had been parked in the alley. The subject van still continued westbound and struck yet another parked pickup which had been facing north on Knott Avenue.

As the subject van was attempting to escape, SA [redacted] began a pursuit of the van. SA [redacted] also drove over the short wall and began to follow the subject vehicle. He observed the subject van strike the two vehicles and then continue westbound where it collided with a median in the center of Knott Avenue. The subject van cleared the median and then make an immediate turn to the right causing it to land in the number one lane facing north in the southbound lane. The vehicle apparently sustained enough damage to cause it to come to a stop after traveling only a few more yards. b6 b7C

SA [redacted] who had been making an effort to catch up to the subject van, was now driving north in the northbound lanes on Knott Avenue. He planned on trying to parallel the vehicle if it continued northbound when it came to a sudden stop. SA [redacted] attempted to stop immediately but ended up just a few feet south of and almost parallel with the subject vehicle. The Knott Avenue median was between them.

As soon as SA [redacted] vehicle came to a stop he was able to observe three of the occupants of the van exiting their vehicle. He saw the passenger in the front seat begin to exit, but he could not see his hands. The interior of the vehicle was dark and there was a tree which caused enough shade to make it even more difficult to see clearly. SA [redacted] knew the subjects had assaulted other agents with their vehicle in an effort to escape. He also knew they had just robbed a bank using a weapon. SA [redacted] advised he was in fear for the life of his partner and himself due to the circumstances. The subject continued to exit the van with his hands hidden from SA [redacted] view. It was at this point SA [redacted] shooting through the open window of his vehicle, fired two rounds in the direction of the subject. He stated just before he fired he believed he heard other shot(s) but he was not certain if they were coming from the subject van or another location. He believes both of his rounds missed the subject and struck the right front of the subject's van. b6 b7C

SA [redacted] while sitting in the rear seat of the SWAT vehicle, observed the sliding door on the passenger side of the subject van opening as SA [redacted] brought their vehicle to a stop. He believed he saw something in one of the hands of a subject who was exiting the van. The item appeared to be a weapon as it was the approximate size and shape of a handgun. SA [redacted] knew the subjects in the van had just committed a bank robbery, had assaulted his fellow SWAT team members with their vehicle, and had used a weapon during the

bank robbery. They appeared to be willing to commit more violent acts in an effort to escape. Upon seeing what he believed to be a handgun, SA [redacted] felt the life of SA [redacted] and himself were in imminent danger so he made the decision to shoot at the subject. He fired one round through the SWAT vehicle's open window and in the direction of the subject who began falling forward just as SA [redacted] was pulling the trigger of his weapon. The round missed the subject and impacted on the right front fender of the subject vehicle. He did not fire again because after the first round SA [redacted] could not determine if the subject still had the weapon. He also could not see the subject clearly enough to take a safe shot. Both agents stated the reason they had fired was because they did not believe they had any other option other than that of deadly force.

b6
b7C

All four of the subjects had fled on foot from their van and were captured within a few moments by the FBI SWAT team. A .357 Magnum revolver was located behind the driver's seat of the subject's van on the floor. The Buena Park Police Department responded to the scene and assisted in perimeter control. Detective [redacted] was the on scene commander for the police department.

The Los Angeles FBI Agent Involved Shooting (AIS) team responded to the location to conduct the shooting investigation. Det. [redacted] from the Buena Park Police Department was consulted and agreed to let the FBI conduct both the bank robbery and shooting investigation. The department offered their assistance throughout the incident. The LAPD was present but did not conduct any investigation at the scene.

The Los Angeles FBI Evidence Response Team also responded and conducted the entire crime scene examination. This included evidence for both the bank robbery and the shooting incident. The Los Angeles FBI photography lab, along with the assistance of the Los Angeles FBI aviation unit from SOG, took aerial photographs of the crime scene. Interviews of the victims and witnesses were conducted by Los Angeles FBI agents.

FBI agents conducted an examination of the area to determine where the rounds that had been fired struck. Two of them were found to have impacted the subject's van (on the front fender and the mirror) and the third struck a parking sign on the west side of Knott Avenue. All three casings were

located in the SWAT Ford Explorer driven by SA [redacted] No area hospitals reported any type of injuries being sustained by the public following the shooting incident.

The FBI EAP responded to the location along with the Los Angeles Chief Division Counsel. None of the subjects were injured and no FBI agents were harmed during the shooting incident. All of the parked vehicles struck by the subject van were unoccupied. b6 b7C

The subjects involved in this matter are all currently in custody. Their weapon was retained as evidence by the Los Angeles FBI Bank Robbery squad. The Chevrolet Astro van was determined to have been stolen. The vehicle was transported from the crime scene and later processed by members of the Los Angeles ERT at the Los Angeles FBI facility.

Following the incident, Assistant United States Attorney [redacted] and Orange County District Attorney [redacted] were both notified. After obtaining the basic facts and circumstances concerning the shooting incident, both the U.S. Attorney's office and the Orange County District Attorney declined any criminal prosecution of SA [redacted] and SA [redacted]

**Title:** SHOOTING INCIDENT
NORFOLK DIVISION
06/17/2004

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 06/17/2004, involving Special Agent (SA) [redacted] During the execution of an arrest warrant, SA [redacted] fired six rounds from his Bureau-issued Glock Model 22, .40 caliber pistol killing two individuals attempting to elude arrest. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference report of former Inspector [redacted] dated 07/29/2004.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

## Details of the Shooting Incident

On 06/03/2004, a Task Force Officer (TFO) assigned to the Norfolk Division's Violent Crimes and Major Offenders Task Force advised that a Detective from the Virginia Beach Police Department (VBPD) requested the FBI's assistance in locating and arresting violent fugitive Calvin Alexander Baxter. Baxter was described as a violent gang member with outstanding warrants for murder and other crimes of violence as well as firearms violations.

A preliminary investigation revealed Baxter's extensive criminal history and his propensity for violence. Although not affiliated with the national Bloods gang, Baxter was a member of a neighborhood gang identifying themselves as the Bloods. Members of the local gang wore red to identify themselves and were involved in an ongoing gang war with another neighborhood

gang. The VBPD was in possession of eleven outstanding warrants for Baxter's arrest for crimes of violence, including discharging a weapon in an occupied building. A wanted poster disseminated for his arrest described Baxter as angry, violent, and probably armed. Additionally, the VBPD advised Baxter used a shotgun to shoot at a rival gang member in a busy commercial area resulting in return gun fire. No injuries were incurred as a result of the gun battle; however, vehicles belonging to bystanders were hit. Information was obtained by the VBPD that Baxter traded crack cocaine for weapons and places to stay, as well as using cellular telephones belonging to others. Investigation verified Baxter was a drug trafficker, was wanted by the police, and was aware that he had violent enemies.

On 06/16/2004, SA [redacted] met with his supervisor, SSA [redacted], to update him on the investigation regarding Baxter. SA [redacted] advised SSA [redacted] of his plans to locate, and if possible, arrest Baxter on 06/17/2004. SSA [redacted] ensured SA [redacted] had enough experienced SAs and officers to effect the arrest, a marked unit would be on scene to assist, and that everyone would be present at a briefing prior to attempting to locate and arrest Baxter. SSA [redacted] told SA [redacted] to continue with his plans to locate and arrest Baxter and to keep him advised of any developments in the investigation. After the meeting, SSA [redacted] advised the ASAC of the plan to attempt to locate and arrest Baxter on the following day.

b6
b7C

Based on office policy, no written Operations Plan was prepared for this incident. The Norfolk Division did not require a written Operations Plan for attempts to locate and arrest fugitives where the facts and circumstances were not sufficiently defined and were likely to quickly and substantially change during attempts to locate the fugitive. Instead of a written plan, SSA [redacted] ensured sufficient trained and experienced personnel were present, as well as the presence of a marked unit to provide maximum visibility and assistance if needed, and that the personnel met and orally reviewed general plans and tactics before leaving the office.

b6
b7C

On 06/17/2004, at 6:30 a.m., SA [redacted] met with, briefed, and discussed the investigation and the plans to locate and arrest Baxter with SAs [redacted] and [redacted], as well as detectives from the Chesapeake Police Department (CPD) and the VBPD. An agreement was made that a detective from the CPD would arrange for a uniformed patrol officer and patrol car to meet them for a briefing after they assumed positions around Baxter's location.

All participants agreed SA [redacted] would direct the operation and the first step would be to gather and set up on the

address of Baxter's location to observe the vehicles and activity at the address and brief the uniformed patrol officer. SAs [redacted] and [redacted] were assigned to be in one FBI vehicle, SA [redacted] and CPD Detective [redacted] were assigned to a second FBI vehicle, and VBPD Detective [redacted] and Officer [redacted] were assigned to be in an unmarked VBPD vehicle. They agreed that after everyone was set up and the patrol officer was briefed, the VBPD participants would attempt to contact their source to make a pretext telephone call to a cellular number listed on the subject apartment records for the individual renting the apartment to determine her location as well as the location of Baxter. If the plan was unsuccessful, a second option was to have Officer White make a pretext call to the apartment renter's cell phone. The third option discussed was the possibility of approaching the apartment and doing a knock and talk; however, participants were concerned about the risk of Baxter learning about his impending arrest if he was not inside the residence at the time of the knock and talk. A final decision was made that the participants would decide whether to approach the apartment, conduct interviews, walk away and return on another day, or effect an arrest, based on their surveillance observations. b6 b7C

SA [redacted] advised all participants if it was determined Baxter was inside the apartment, he would direct team members on how to effect the entry and arrest. The Norfolk Division standard operations required a perimeter team to secure the residence and an arrest team to knock and announce and then enter and clear the residence. During the briefing, SA [redacted] advised if they had to approach the apartment, SA [redacted] and Detective [redacted] would cover the rear of the apartment, and he would lead the approach and/or entry and arrest team from the front of the apartment. b6 b7C

All of the participants departed the Norfolk FBI office together at approximately 7:10 a.m., notifying the office by radio of their departure to the Fireside Road location. They arrived at the location approximately ten minutes later and were in position by 7:30 a.m. SAs [redacted] and [redacted] set up in the parking lot of another apartment complex across the street where they could view apartment #2 at Fireside Road. SA [redacted] and Detective [redacted] set up farther down the street in another parking lot with a view of the rear of the apartment building of apartment #2, and Detective [redacted] and Officer [redacted] set up in the parking lot immediately behind the building where the subject apartment was located.

SA [redacted] established radio communication with the other units, determined their locations, determined they had a view of the rear of the subject apartment, and asked the detectives to call for the marked unit and reach out for the

source to make the pretext call. The detectives completed the instructions issued by SA [redacted] and were waiting for the source to call back.

Approximately fifteen minutes after the SAs and local law enforcement personnel arrived on the scene, Officer [redacted] arrived in a patrol car and contacted Detective [redacted] and SA [redacted] As Officer [redacted] made contact, SAs [redacted] and [redacted] observed a gray Jeep Cherokee pull into the parking space in front of apartment #2 and a light skinned male who appeared to be in his 40s exit the vehicle and enter the subject apartment. SA [redacted] radioed, "clear the net, we've got a gray Jeep pulled in front of number 2. The individual in the gray Jeep has entered apartment #2." Officer [redacted] was directed to meet with Detective [redacted] and Officer [redacted] to receive further information and to view a photograph of Baxter. While Officer [redacted] was being briefed, SAs [redacted] and [redacted] saw the same individual exit the apartment accompanied by a second individual who matched the physical height, weight, and general description of Baxter. SA [redacted] told SA [redacted] he believed the second person was Baxter. SA [redacted] confirmed the individual matched the description of Baxter and SA [redacted] via radio, advised other units, "we've got subjects coming out, but they're moving." SA [redacted] responded, "let me know what you want to do, [redacted] and SA [redacted] radioed, "to move in."

b6
b7C

SAs [redacted] and [redacted] immediately drove across the street and into the parking lot where the Jeep was parked, moving into a position at an angle to the rear of the Jeep, blocking its exit. As they approached the vehicle and got a better look at the second black male, both of the Agents were sure it was Baxter. As the Agents came to a stop, both individuals were seated inside the Jeep with the light skinned male positioned in the driver's seat and the individual believed to be Baxter positioned in the front passenger seat. SAs [redacted] and [redacted] exited their vehicle, with guns drawn, shouting FBI and told the individuals in the Jeep, "don't move, get out of the car." SA [redacted] approached the driver's side of the subject vehicle and SA [redacted] approached the passenger's side.

b6
b7C

SA [redacted] and Detective [redacted] pulled into the parking lot to the rear passenger side of the other Bureau vehicle, and exited the vehicle. Detective [redacted] observed an individual, believed to be Baxter, in the passenger seat of the Jeep, attempting to flee out of the driver's side of the vehicle. Detective [redacted] shouted, "Police, let me see your hands." He approached the driver's side of the Jeep with his gun drawn to prevent Baxter from escaping. SA [redacted] exited his vehicle and approached the passenger side of the Jeep, while identifying himself and shouting commands. SA [redacted] unsuccessfully attempted to open the passenger side door of the vehicle.

Officer [redacted] pulled into the parking lot behind SA [redacted] vehicle, observed SA [redacted] pulling on the passenger door handle in an attempt to open the passenger door, exited his vehicle with his weapon drawn, and proceeded to assist Detective [redacted] on the driver's side of the Jeep. Detective [redacted] and Officer [redacted] drove to the side of the building and Detective [redacted] ran to the front to assist the SAs and officers while Officer [redacted] covered the rear of the apartment.

It appeared Baxter, who was in the front passenger seat, initially attempted to crawl out of the open driver's side window of the Jeep. Detective [redacted] with his gun drawn, grabbed Baxter with his free hand in an attempt to pull him from the vehicle. Baxter grabbed Detective [redacted] and appeared to attempt to pull him into the Jeep. As Baxter and Detective [redacted] struggled through the window, Officer [redacted] holstered his weapon and drew his pepper spray, spraying both subjects. When Officer [redacted] sprayed Baxter, Detective [redacted] was able to holster his weapon and continued to struggle with Baxter with both hands. Baxter then pulled Detective [redacted] farther inside the Jeep's window.

b6
b7C

Throughout the approach and confrontation with Baxter, Agents and police officers continuously issued commands which were ignored by both subjects. At some point during the incident, the Jeep's engine was started and the Jeep moved forward. In order to prevent the subject vehicle from backing up, SA [redacted] returned to his vehicle and moved into a position immediately behind the Jeep. The Jeep moved forward, onto and over the sidewalk, with only the rear wheels in the parking lot. Although the subject vehicle was blocked from the rear, there was enough room remaining for the vehicle to move forward, to the right, or to the left, and drive away. Law enforcement personnel heard the Jeep's engine revving, the transmission being engaged, the tires spinning, and observed the Jeep moving and/or rocking, while Detective [redacted] was still partially inside the vehicle engaged in a struggle with Baxter. Participants feared the Jeep would drive away with Detective [redacted] still hanging inside the driver's window and also were aware law enforcement personnel were in the path of the vehicle.

SA [redacted] observed Detective [redacted] continuing to struggle with Baxter and heard someone yell gun, reaching for a gun, or something about a gun. SA [redacted] hearing the comments about a gun, immediately yelled out to watch for crossfire. A second after yelling to watch for crossfire, and as Detective [redacted] still wrestled with Baxter, SA [redacted] heard shots fired.

b6
b7C

As Officer [redacted] sprayed Baxter a second time with pepper spray, he heard shots fired, the passenger side window of

the subject vehicle shattered, and something hit him in the face. Officer [redacted] took cover, immediately notified his department, and requested medical assistance. Additionally, as the shots were fired, Detective [redacted] was able to free himself from Baxter. As Detective [redacted] backed away from the Jeep, he observed SA [redacted] firing his weapon. b6 b7C

Ensuring all law enforcement personnel were safe, participants determined Baxter and the driver of the Jeep were injured and not moving. It was also determined that SA [redacted] was the only person who fired a weapon. SA [redacted] who had prior training as an Emergency Medical Technician, rendered initial care to the subjects prior to the arrival of the Chesapeake Emergency Medical Services. Both subjects died as a result of their wounds.

Although no weapons were located inside the subject vehicle, a security sweep was conducted in apartment #2 where a bag of crack cocaine in a clear plastic bag was located. During the subsequent execution of a search warrant of the apartment, cocaine, drug paraphernalia, and a nine millimeter Norinco T54 pistol were seized.

The medical examiner advised one bullet struck the driver of the vehicle in the chest and two bullets struck Baxter from behind, with one bullet lodging in his hip and the other lodging in his chest. A fourth bullet was located inside Baxter's clothing.

On 02/28/2005, [redacted] Commonwealth's Attorney, Office of the Commonwealth's Attorney, City of Chesapeake, provided a declination of prosecution by the Commonwealth of Virginia. On 05/06/2005, a declination of prosecution was received from the United States Department of Justice, Civil Rights Division, regarding SA [redacted] actions in this shooting incident.

On 07/05/2005, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director (DAD) Andrew R. Bland III, Inspection Division, chaired the meeting and was a non-voting member. The following voting members of the SIRG were in attendance: Chief Inspector Kimberly K. Mertz, Office of Inspections, Inspection Division; [redacted] Special Legal Counsel, Civil Rights Division, Criminal Section, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Charles J. Cunningham, Section Chief (SC), Transnational Criminal Enterprise Section, Criminal Investigative Division; Acting Unit Chief (UC) [redacted], Firearms Training Unit, Training and Development Division (TDD); UC [redacted], SWAT Operations Unit, Critical Incident Response Group; UC [redacted], CD-6, b6 b7C

Counterintelligence Division; UC [redacted] National Firearms Program, TDD; Supervisory Special Agent (SSA) [redacted] Investigative Law Unit, Office of the General Counsel (OGC); SSA [redacted], Program Manager, Operational Skills Unit, TDD; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and SSA [redacted] Washington Field Office. [redacted] Rettberg, Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division, a non-voting member, was also in attendance.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

The SIRG Chairman voiced concern with the number of law enforcement officers on the scene and the fact that only one individual decided the use of deadly force was required. After a lengthy discussion of this shooting incident, and although several members voiced concerns that SA [redacted] may not have been prudent in the firing of his weapon, the SIRG unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the FBI's deadly force policy. This discussion resulted in the recommendation that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Specific concerns addressed by the SIRG members pertained to the possibility of a crossfire situation, noting the fact that the Agent was positioned in front of the vehicle and fired shots which put other law enforcement personnel in danger.

b6
b7C

In response to the crossfire issue, the Special Weapons and Tactics (SWAT) Operations Unit representative opined that the shootings were safe and reasonable when weighing the totality of the incident. The CID representative advised that although the shooter may have been out of position, he viewed the struggle inside the vehicle as a life and death situation and took appropriate action. The WFO representative opined that the law enforcement officers on the scene were clearly marked with insignia, both subjects were clearly non-compliant, and further noted that after the first shot was fired Baxter continued to be non-compliant with law enforcement commands. All of these actions resulted in the use of deadly force by SA [redacted]

Additionally, one TDD member noted that two of the officers holstered their weapons and if the situation called for them to employ deadly force, they may not have had time to gain access to their weapons.

The second issue discussed related to tactical irregularities in the pre-planning of the incident. Although one member believed the operation was adequately covered in a briefing, the majority of the SIRG noted that absent exigent circumstances and in conformance with policy, participants had time to write a basic Operations Plan and conduct comprehensive briefings. SIRG members unanimously concurred that this operation should have involved the SWAT team, particularly noting Baxter's propensity for violence and the possible Armed and Dangerous situation dictated the use of SWAT personnel. This matter will be discussed with the Special Agent in Charge of the Norfolk Division.

**Case ID #:** 297-HQ-A1272704-D

**Title:** SHOOTING INCIDENT
BUENOS AIRES LEGAL ATTACHE
03/21/2004

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 03/21/2004, involving former Assistant Legal Attache (ALAT) [redacted] ALAT [redacted] discharged one round from his Glock Model 27, .40 caliber pistol at two subjects fleeing the scene of an attempted robbery. SIRG members recommended that no administrative action be taken against ALAT [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference Electronic Communication of Legal Attache Agustine Rodriguez, dated 04/19/2004.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

**Details of the Shooting Incident**

On 03/21/2004, as ALAT [redacted] was driving his personal vehicle in Buenos Aires, he observed a motorcycle with two individuals stopped ahead of him. He observed the passenger of the motorcycle get off with a weapon in his hand, which was allegedly pointed at the driver of a vehicle.

ALAT [redacted] observed a robbery in progress and retrieved his personally-owned, Bureau approved, Glock pistol. ALAT [redacted] advised he could not remember if he attempted to open his vehicle door or if he displayed his weapon and pointed at the assailants from inside his vehicle. The suspects became alerted and conducted a u-turn in an attempt to flee. As ALAT [redacted] also conducted a u-turn in an attempt to pursue the subjects, the passenger on the motorcycle fired one shot towards ALAT [redacted] vehicle. ALAT [redacted] fired one round from inside his vehicle before jumping a curb and striking a fence. The subjects fled the scene and were never located. Due to damages to his vehicle, ALAT [redacted] remained at the scene of the accident until the Provincial Police arrived. The Argentine Federal Police also responded to the scene of the accident due to ALAT [redacted] status as diplomatic personnel.

On 10/13/2004, the SIRG met to discuss the above-captioned shooting incident. Chief Inspector Robert D. Grant, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted] Assistant Section Chief, Operational Support Section, Criminal Investigative Division; My Harrison, Section Chief, Applicant Processing Section, Administrative Services Division; [redacted] Unit Chief (UC), National Firearms Program, Training Division (TD); [redacted] UC, CD-6B, Counterintelligence Division; Supervisory Special Agent (SSA) [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Firearms Training Unit, Training Division (TD); SSA [redacted] Operational Skills Unit, TD; SSA [redacted] Firearms Training Unit, TD; SSA [redacted] National Firearms Program, TD; and SSA [redacted], Investigative Law Unit, Office of the General Counsel (OGC). The two non-voting members present were [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division; and [redacted] Intern, Leadership Development Institute, Training and Development Division, Quantico.

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members opined that, based on the current policy with the Argentine Government, ALAT [redacted] actions were appropriate and his use of deadly force was justified. Members held a lengthy discussion regarding the current policy regarding the use and/or carrying of firearms by FBI personnel outside the United States (US). SIRG members unanimously agreed that the Training Division and the Office of International Operations should jointly review, clarify, and promulgate FBI policy regarding the carrying of weapons by FBI personnel outside the US. b6 b7C

Case ID #: 297-HQ-A1271285-D

Title: SHOOTING INCIDENT
CHICAGO DIVISION
10/10/2004

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 10/10/2004, involving Special Agent (SA) [redacted] SA [redacted] fired one round from her Bureau-approved, personally-owned Glock, Model 27 pistol, striking the subject of an attempted robbery in the left side of his chest. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of her involvement in this shooting incident.

**Administrative:** Reference report of Assistant Special Agent in Charge David Cuthbertson, dated 10/18/2004.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271285-D, 04/21/2005

## Details of the Shooting Incident

On 10/10/2004, at approximately 12:15 p.m., SA [redacted] was on her way to the residence of SA [redacted] also assigned to the Chicago Division. SA [redacted] was collecting SA [redacted] mail while she was out of town. While SA [redacted] was standing in the vestibule of SA [redacted] apartment, she was approached from behind by a black male who grabbed her, told her he was holding her up, stated he had a gun, and hit her on the back of the head with a blunt object.

After struggling for a few seconds on the landing, both SA [redacted] and her attacker tumbled down the stairs to the sidewalk. While SA [redacted] continued to struggle with the suspect on the sidewalk, the suspect bit her on the left calf, breaking the skin. SA [redacted] who had her personally-owned, Bureau-approved Glock, Model 27 pistol in a holster on her right ankle, and fearing the attacker would gain control of her weapon and use it against her, drew her weapon as her attacker positioned himself over her. SA [redacted] fired one round into the left side of the subject's chest. The suspect initially began to comply with SA [redacted] commands to get on the ground, however, stood, fled to his car and drove away. b6 b7C

The Chicago Police Department and Emergency Medical Staff were summoned by an eyewitness and arrived moments later. One of the responding officers discovered the suspect in his vehicle around the corner from the site of the attack. He had crashed the vehicle into the wall of a laundromat, and was still inside the vehicle. The suspect was arrested at the scene and transported to the Advocate Illinois Masonic Medical Center for medical treatment. SA [redacted] was also transported to the Medical Center for treatment of cuts, scrapes, and a bite wound and was subsequently released later that day.

A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, on 12/08/2004, regarding SA [redacted] actions in this shooting incident. On 10/13/2004, Assistant State's Prosecutor [redacted] Office of Felony Review, advised that after reviewing the shooting incident, his office decided to decline prosecution against SA [redacted] b6 b7C

On 03/08/2005, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director (DAD) Andrew R. Bland, III, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance:

[redacted] Deputy Chief, Civil Rights Division, Criminal Section, USDOJ; [redacted], Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; Charles J. Rooney, Section Chief (SC), Operational Support Section, Criminal Investigative Division [redacted] Acting Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD); UC [redacted], CD-6A, Counterintelligence Division; UC [redacted] National Firearms Program, TDD; UC [redacted] Special Inquiry and General Background Investigations Unit, Administrative Services Division; Supervisory Special Agent (SSA) [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); and SSA [redacted] Operational Skills Unit, TDD. The two non-voting attendees present were SSA [redacted] Hostage Rescue Team, Critical Incident Response Group; and [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy. Therefore, a recommendation was made that no administrative action be taken against SA [redacted] as a result of her involvement in this shooting incident.

**Title:** SHOOTING INCIDENT
MIAMI DIVISION
11/08/2004

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 11/08/2004, involving Special Agent (SA) [redacted] While attempting to arrest a fleeing bank robbery suspect, SA [redacted] fired ten rounds from his Bureau-issued Glock, Model 22, .40 caliber pistol. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference report of Supervisory Special Agent (SSA) [redacted], dated 03/28/2005.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

## Details of the Shooting Incident

On 11/08/2004, a Hispanic male entered the Sterling Bank in West Palm Beach, Florida, and provided the teller with a demand note. The subject also raised the front of his shirt exposing a handgun tucked inside his waistband. After the robbery, the suspect exited the bank and entered a gray Dodge Durango with a Florida license plate of [redacted] b6 b7C

SA [redacted] of the Palm Beach County Resident Agency (PBCRA) was investigating a series of bank robberies occurring in the West Palm Beach vicinity dating back to August 2004. In all of the robberies, the subject was described as a Hispanic male fitting the description of the 11/08/2004 bank robbery suspect.

Information was developed that a possible suspect in the bank robberies was [redacted] and it was determined that the gray Dodge Durango had been stolen from a car dealership in Davie, Florida, in 2003.

After being advised of the 11/08/2004 bank robbery, SA [redacted] conducted further investigation at several addresses associated with [redacted]. As she arrived at a residence located on [redacted] SA [redacted] observed the Dodge Durango parked in front of the residence. SA [redacted] notified her supervisor and other Agents of the situation and waited for additional Agents to assist her. While waiting for assistance, SA [redacted] observed a Hispanic male at the suspect vehicle. The male subject entered the vehicle and departed the area with SA [redacted] conducting a lone moving surveillance as other Agents responded. SA [redacted] was the first Agent to join the surveillance, closely followed by SA [redacted] who was coordinating with the Palm Beach County Sheriff's Office (PBCSO) dispatcher via a cell phone. Within a short period, the Agents were joined by marked PBCSO units as well as one unmarked unit. The local officers assumed the lead of the surveillance for the purpose of making a felony vehicle traffic stop.

b6
b7C

As the subject vehicle approached the intersection, the driver, later identified as [redacted] pulled into a shopping plaza parking lot followed by two PBCSO officers. SA [redacted] pulled into the parking lot on the southern entry/exit to the parking lot and assumed a tactical position near a third PBCSO officer. SA [redacted] observed the driver of the suspect vehicle looking around as two of the PBCSO officers positioned their vehicles in a tactical manner behind him.

PBCSO Captain [redacted] exited his vehicle with a shotgun and as he approached the Durango, gave verbal commands identifying himself and asking the driver to exit his vehicle. Additionally, a PBCSO Deputy also gave commands over the "p.a. system" instructing the subject to exit his vehicle. SA [redacted] heard someone yell "gun" and observed the suspect vehicle backing up at a high rate of speed toward Captain [redacted] Both Captain [redacted] and SA [redacted] fired at the suspect in an attempt to prevent [redacted] from running over local law enforcement authorities. The suspect vehicle sped off in an easterly direction toward another PBCSO Corporal, who fired her handgun at the vehicle. The driver of the subject vehicle made a U-turn and drove toward SA [redacted] and Corporal [redacted]. Fearing for their safety, both SA [redacted] and Corporal [redacted] fired multiple rounds at the driver of the approaching vehicle.

b6
b7C

As the suspect attempted to flee on a stretch of road under construction and not open to the public, he hit a concrete

barrier disabling the subject vehicle. PBCSO officers approached the vehicle and observed the suspect injured. Officers also observed a silver pistol in the passenger compartment which was later determined to be a "lighter" resembling a handgun.

[redacted] was treated at the scene by emergency medical personnel and subsequently transported to St. Mary's Hospital where it was determined all of his injuries were sustained as a result of the traffic accident. b6 b7C

The Florida State Attorney's Office opined that a shooting inquiry would not be initiated since none of the rounds fired by law enforcement personnel impacted the suspect. [redacted] was subsequently indicted on five counts of Bank Robbery and one count of Assault on a Federal Officer.

On 12/01/2005, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Daniel Lee Cloyd, Inspection Division, chaired the meeting and was a non-voting member. The following voting members were in attendance: former Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, Criminal Section, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted] Assistant Section Chief (ASC), Operational Support Section, Criminal Investigative Division; [redacted], Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD); UC [redacted] National Firearms Program, TDD; Acting UC [redacted] Special Weapons and Tactics Operations Unit, Critical Incident Response Group; [redacted] ASC, CD-6, Counterintelligence Division; Supervisory Special Agent (SSA) [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Program Manager, Operational Skills Unit, TDD; and SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC). [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division, a non-voting member, was also in attendance. b6 b7C

One of the USDOJ representatives advised additional information was needed before discussing the incident. On 03/09/2006, the Miami Division was asked to obtain any additional documents, i.e., diagrams, officer statements, and laboratory reports regarding each weapon fired during the incident. Discussion of this incident was held in abeyance until additional information was obtained by the Miami Division.

On 01/25/2007, after receiving additional documents provided by the Palm Beach County Sheriff's Office, the SIRG met again to fully discuss the incident. Deputy Assistant Director

[redacted] Inspection Division, chaired the meeting and was a non-voting member. The following voting members were in attendance: Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Trial Attorney, Domestic Security Section, Criminal Division, USDOJ; [redacted] Special Legal Counsel, Civil Rights Division, USDOJ; Section Chief (SC) John V. Gillies, Violent Crimes Section, Criminal Investigative Division; Assistant SC Richard W. Kollmar, Eurasian Section, CD-1, Counterintelligence Division; Unit Chief (UC) [redacted] Firearms Training Unit, Training and Development Division (TDD); UC [redacted] Defensive Systems Unit, TDD; UC [redacted] Special Weapons and Tactics Operations Unit, Critical Incident Response Group; UC [redacted] Practical Applications Unit, TDD; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and UC [redacted] Investigative Law Unit, Office of the General Counsel (OGC). SSA [redacted] Management Program Analyst (MPA) [redacted] and MPA [redacted] Inspection Management Unit, Office of Inspections, Inspection Division, non-voting members, were also in attendance.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy. This discussion led to the recommendation that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Title: SHOOTING INCIDENT
LOS ANGELES DIVISION
08/05/2004

b2
b6
b7C

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 08/05/2004, involving former Special Agent (SA) [redacted] SA [redacted] fired two rounds from his Glock, .40 caliber pistol, at a subject who was attempting to elude police and had shot a police officer. SIRG members recommended that no administrative action be taken against former SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference report of Assistant Special Agent in Charge Sharrell Gene Slone, dated 01/04/2005.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

## Details of the Shooting Incident

SAs [redacted] and [redacted] were working a gang investigation with Detective [redacted] of the San Bernardino Police Department (SBPD), who was a member of the Riverside Resident Agency (RRA) Safe Streets Task Force (SSTF). In connection with the SSTF, SAs [redacted] and [redacted] along with Detective [redacted] patrolled gang areas in an effort to identify gang activity, make street level arrests with the intention of developing informants, arrest wanted gang members, and take weapons and drugs off the street.

b6
b7C

On 08/05/2004, the SBPD received an anonymous telephone call stating shooting subject Nicholas Gilbert Fimbrez was currently located at 176 East 10th Street. The information was communicated to officers covering the area, with additional officers responding to assist. The SBPD officers decided to meet at 9th Street and Sierra Way for a briefing prior to attempting the arrest of Fimbrez.

As SAs [redacted] and [redacted] along with Detective [redacted] were clearing an arrest scene, they heard the SBPD radio broadcast regarding the location of Fimbrez. Due to their presence in the general area, they decided to travel to the briefing location and assist with the possible arrest of the subject. b6 b7C

[redacted] Upon their arrival at the briefing scene, SBPD Sergeant developed a tactical plan which was verbally discussed with all personnel. Discussion included the weapons each officer would possess, position assignments, arrival positions, and potential cross fire/safety issues. After a complete description of the subject was provided, law enforcement personnel departed the briefing location and proceeded to the address where the subject was allegedly located.

As law enforcement authorities arrived at the residence they observed an elderly female, later identified as the subject's grandmother. SBPD officers attempted to obtain information from her; however, she was uncooperative, only providing the telephone number to the residence. Sergeant [redacted] telephonically contacted the residence and after approximately two rings a male answered. The Sergeant identified himself and attempted to identify the person on the phone, who immediately hung up. Sergeant [redacted] indicated to one of the other officers that if the male remained in the residence, the situation could turn into a full tactical callout and law enforcement officers should maintain their positions. Sergeant [redacted] attempted a second telephone call to the residence and as the telephone was ringing, a police radio broadcast advised that a Hispanic male wearing shorts was coming out of the east side of the residence.

Officer [redacted] began giving the subject verbal commands; however, the subject was noncompliant and re-entered the residence. b6 b7C

The San Bernardino County Sheriff's Department's Aviation Unit was providing aerial support and observed a Hispanic male fitting the description of the subject, and later identified as Nicholas Gilbert Fimbrez, exit the rear corner of the residence and run. Numerous officers who pursued Fimbrez and

gave verbal commands directing him to stop and show his hands, observed him running with his hands near the waist area of his pants.

As law enforcement officers pursued Fimbrez, continually giving verbal commands to stop and show his hands, an officer released his K-9 just as Officer [redacted] physically confronted Fimbrez face-to-face. Officer [redacted] grabbed the suspect's shoulder and arm in an attempt to take him to the ground and within seconds Fimbrez shot Officer [redacted] who was knocked to the ground and subsequently bitten by the K-9. SA [redacted] and Officer [redacted] discharged their weapons striking Fimbrez and knocking him to the ground while he maintained possession of his handgun. As officers again attempted to provide verbal commands to Fimbrez to drop the weapon, he attempted to raise and point the weapon toward other officers. Knowing Fimbrez had just shot Officer [redacted] and knowing he had shot a civilian the previous week, law enforcement personnel fearing for their lives as well as the safety of others, discharged their weapons to eliminate the threat. SA [redacted] discharged one additional round while local law enforcement personnel fired a total of seven rounds.

Officer [redacted] was provided medical attention at the scene and subsequently transported via police vehicle to the Loma Linda University Medical Center. Emergency medical personnel arrived at the scene and administered medical attention to Fimbrez who was pronounced dead at the scene.

SA [redacted] resigned from the FBI effective 09/10/2004, to return to his previous employment as a Police Officer with the Escondido Police Department.

By memorandum dated 02/10/2005, the San Bernardino District Attorney's Office determined the shooting to be justified and took no action on the matter. A declination of prosecution dated 05/03/2005 was received from the United States Department of Justice, Civil Rights Division, in December 2005, regarding former SA [redacted] actions in this shooting incident.

On 03/08/2006, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Daniel Lee Cloyd, Inspection Division, chaired the meeting and was a non-voting member. The following voting members were in attendance: Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, Criminal Section, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Charles J. Cunningham, Section Chief (SC), Transnational Criminal Enterprise Section, Criminal Investigative Division;

b6
b7C

b6
b7C

SC Jay C. Manning, CD-6, Counterintelligence Division; [redacted] Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD); UC [redacted] National Firearms Program, TDD; UC [redacted] SWAT Operations Unit, Critical Incident Response Group; SSA [redacted] Program Manager, Operational Skills Unit, TDD; SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); and SSA [redacted] Washington Field Office. [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division, a non-voting member, was also in attendance. Additionally, the following two observers were present during this meeting: [redacted] Deputy General Counsel, OGC; and UC [redacted] Operational Skills Unit, TDD.

With the exception of [redacted] and SSA [redacted] who abstained from voting, members opined that based on the circumstances of the incident and information provided in the shooting report, the use of deadly force by Former SA [redacted] appeared to be justified and in conformance with the deadly force policy. Members noted the absence of a Signed Sworn Statement from the shooter; however, were aware that he had resigned from the FBI prior to a declination of prosecution being issued by the Department of Justice. The totality of the circumstances resulted in a recommendation that no administrative action be taken against former SA [redacted]

**Title:** SHOOTING INCIDENT
TAMPA DIVISION
08/19/2004

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 08/19/2004, involving Special Agent (SA) [redacted] During an arrest, SA [redacted] accidentally discharged his Bureau-issued Colt M4A1 Carbine into the back of a fugitive, resulting in serious injury. SIRG members unanimously agreed that SA [redacted] should be censured, suspended from duty for a period of three days, and receive documented remedial firearms training for his neglect in practicing routine firearms safety procedures.

**Administrative:** Reference report of Inspector [redacted] dated 10/25/2004.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

## Details of the Shooting Incident

At the request of the Boston Division, Tampa Division Agents were requested to attempt to locate and execute an arrest warrant for subject [redacted] who was wanted for Unlawful Flight to Avoid Prosecution. Information was received advising [redacted] was also wanted for questioning as a prime suspect in the murder of a member of the Genovese crime family. Additionally, it was noted [redacted] was an "extreme fighter," known to "avoid apprehension," and "believed to be extremely violent and will engage police officers," as well as "always in possession of at least one handgun."

To: Director's Office From: Inspection
Re: 297-HQ-A1271966-D, 10/25/2005

Investigation determined [redacted] was apparently residing on [redacted] in Tampa, Florida, and was believed to be driving a rented Cadillac Escalade.

SA [redacted] advised the Acting Special Weapons and Tactics (A/SWAT) Team Leader (TL) [redacted] of the details regarding [redacted] and suggested that a SWAT deployment may be necessary. SA [redacted] departed the office, accompanied by a Task Force member from the Hillsborough County Sheriff's Office, and traveled to the Wood Trail Boulevard vicinity to search for Cadillac Escalades. Although the search proved negative, SA [redacted] determined the owner of the house had rented an Escalade on 08/12/2004 and returned it on 08/13/2004. b6 b7C

At approximately 11:40 a.m, A/SWAT TL [redacted] advised ASAC [redacted] and SSA [redacted] that a violent fugitive might be in the Tampa area and SA [redacted] was attempting to confirm the fugitive's location. The discussion included the fact that the SWAT Team should be utilized to arrest [redacted]

On the afternoon of 08/19/2004, SA [redacted] learned [redacted] was placed in the Tampa area within the last three hours. SA [redacted] contacted A/SWAT TL [redacted] and advised him of the latest information regarding [redacted]

At approximately 2:30 p.m., Acting Special Agent in Charge (A/SAC) [redacted], ASAC Eaton, SSA [redacted] and SA [redacted] met and discussed the situation with SA [redacted] via speaker phone. SA [redacted] advised an Operations Plan was being prepared by another SWAT Agent. ASAC Eaton told SA [redacted] that the plan should focus on arresting [redacted] outside of or away from the residence. SA [redacted] also advised the SWAT Team was meeting at the Hillsborough County Sheriff's district office near the fugitive's suspected location.

At approximately 3:00 p.m., ASAC Eaton and SSA [redacted] proceeded to the Sheriff's Office. As they were leaving the office, a SWAT Team member provided ASAC Eaton with a draft Operations Plan. The plan called for a "knock and announce" approach to the residence and stated that the SAC had authorized compromise authority and flash bang devices, if necessary. ASAC Eaton scratched through these portions and handwrote changes consistent with effecting the arrest while the subject was approaching or departing the residence. Additionally, ASAC Eaton scratched through the portions regarding the SAC authorizing compromise authority and the use of flash bang devices since those items were never requested nor granted. ASAC Eaton edited the plan indicating that he and SSA [redacted] would be on-scene during the arrest as opposed to the command post in the office. b6 b7C

During the briefing, SA [redacted] provided attendees all known information including the recent discovery that a new rental car was parked at the residence and that an individual matching the description of [redacted] was seen parking the vehicle and walking toward the residence. ASAC Eaton and SSA [redacted] discussed with attendees the fact that the arrest plan would not include approaching or entering the residence to arrest [redacted] Participants were advised to position the team close enough to the residence to apprehend [redacted] between the house and his vehicle. Conversely, they discussed that it may be necessary to let [redacted] leave the residence and get in his car and effect the arrest when he exited the vehicle at another location. Lastly, ASAC Eaton and SSA [redacted] discussed the least desirable alternative of a felony car stop, aided by marked police units, in the event [redacted] became aware he was being followed. It should be noted that A/SWAT TL [redacted] did not attend this briefing due to his presence in the office attempting to revise the Operations Plan. b6 b7C

At approximately 4:15 p.m., ASAC Eaton and SSA [redacted] drove past the residence and around the neighborhood where they observed the distance between the front door of the residence and its assigned parking spaces was about ten yards. ASAC Eaton and SSA [redacted] returned to the Sheriff's Office where the SWAT Team was making final preparations and advised it would be difficult to get close enough to the residence to grab [redacted] between the front door and his vehicle. They advised the SWAT Team that the plan was still to arrest [redacted] outside of the residence or at another location.

At approximately 4:45 p.m., eight members of the SWAT Team departed the Sheriff's Office in the SWAT truck along with ASAC Eaton and SSA [redacted] in a Bureau car. SA [redacted] departed in a separate vehicle to continue surveillance. Upon arrival in the neighborhood of the target residence, the SWAT truck parked around the corner which afforded an unobstructed view of the front of the house. ASAC Eaton and SSA [redacted] parked in a supermarket parking lot in the vicinity; however, they were unable to view the residence or the SWAT truck. b6 b7C

SA [redacted] observed small children entering and exiting the house next door to the target residence as well as other neighbors arriving home from work. Between 6:00 and 6:15 p.m., SA [redacted] was advised that the homeowner of the target residence might be coming home from work and was advised by the Chief Division Counsel (CDC) that in order to avoid a hostage situation, the homeowner should not be permitted to enter his house. This information was conveyed to the SWAT members inside the truck.

At approximately 6:15 p.m., ASAC Eaton and SSA [redacted] relocated to a position where they could observe the SWAT truck. The homeowner arrived at the residence at approximately 6:35 p.m. and parked in front of the residence. As he exited his vehicle, a task force officer approached him, identified himself as law enforcement, and walked the homeowner to the back of his vehicle. Concerned that subject [redacted] could easily view the developments from the front bay window of the house, SA [redacted] radioed for the SWAT truck to mover closer. Upon hearing the radio message, A/SWAT TL [redacted] interpreted the request to mean SA [redacted] was in trouble or that [redacted] had appeared. The SWAT truck pulled to the front of the residence where SA [redacted] observed SA [redacted] talking to the homeowner. SA [redacted] radioed SA [redacted] to determine the status of the operation and was advised that SA [redacted] acquired the house keys from the homeowner and obtained consent to enter the house. SA [redacted] then advised the team to get ready. SA [redacted] possessing the house keys, approached the SWAT truck. SA [redacted] raised the back door of the truck and observed children in the yard next door. The remaining team members located in the rear of the truck exited the vehicle and took positions of cover behind the truck.

At approximately 6:37 p.m., the entry team "stacked up" behind the SWAT truck and proceeded to the front door of the residence. Upon approaching the front door, SA [redacted] began to unlock both the door lock and deadbolt. During the process, the door pulled open and [redacted] was observed standing in the doorway. [redacted] attempted to close the door; however, the entry team forced their way into the foyer shouting, "FBI, FBI" and issuing commands for [redacted] to get down. [redacted] turned his back to the team in an attempt to run resulting in him being forced to the floor on his stomach. [redacted] was struggling to get off of the floor while being held down. SA [redacted] requested handcuffs and SA [redacted] responded he would handcuff the subject. [redacted] was prone, his arms out to the side and continued to struggle in an attempt to get in a push-up position. SA [redacted] had one foot on [redacted] right arm and SA [redacted] had one foot on [redacted] left arm.

SA [redacted] was carrying a Bureau-issued Colt M4A1 Carbine from a sling around his right shoulder. Prior to handcuffing [redacted] SA [redacted] recalled moving his right thumb upward in a motion to manipulate the selector switch of his weapon to the "safe" mode. He let the weapon hang on its sling and reached his right hand back to his right side for handcuffs. He held the handcuffs in his right hand and kneeled down toward [redacted] with his knee in the small of [redacted] back. SA [redacted] grabbed [redacted] left wrist with his left hand and started pulling the arm to the small of [redacted] back. As he was placing a handcuff on [redacted] left wrist, a shot was heard. As blood flowed from [redacted] back, SA [redacted] completed the handcuffing process and applied direct pressure to the wound. Another Agent

b6
b7C

b6
b7C

on the scene offered to take SA [redacted] weapon, and after removing the weapon and sling from SA [redacted] stated he observed the weapon in the "safe" mode.

At approximately 6:38 p.m., ASAC Eaton and SSA [redacted] approached the residence and were advised the subject was in custody and that an accidental discharge had occurred. ASAC Eaton requested Emergency Medical Services (EMS) be contacted for assistance. EMS personnel arrived on the scene at approximately 6:53 p.m., and transported [redacted] to the hospital in critical condition. Surgery was performed; however, no further information was received regarding [redacted] condition or prognosis. b6 b7C

On 04/19/2005, a declination of prosecution was received from the United States Department of Justice, Civil Rights Division, regarding SA [redacted] actions in this shooting incident. By letter dated 10/06/2004, State Attorney [redacted] 13th Judicial District, Tampa, Florida, advised no criminal statutes of the State of Florida were violated as a result of SA [redacted] accidental discharge.

On 06/02/2005, the SIRG met to discuss the above-captioned shooting incident. Chief Inspector [redacted] Office of Inspections, Inspection Division, chaired the meeting and was a non-voting member. The following voting members of the SIRG were in attendance: [redacted] Deputy Chief, Civil Rights Division, Criminal Section, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Charles J. Rooney, Section Chief (SC), Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD); UC [redacted] Special Weapons and Tactics Operations Unit, Critical Incident Response Group; UC [redacted] CD-6A, Counterintelligence Division; UC [redacted] National Firearms Program, TDD; SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); SSA [redacted] Program Manager, Operational Skills Unit, TDD; and SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division. The two non-voting attendees present were Inspector [redacted] Office of Inspections, Inspection Division; and [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational

standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

The use of deadly force in this incident was not evaluated by SIRG members due to the subject's injuries being sustained as a result of an accidental discharge. Members discussed the possibility that SA [redacted] did not fully engage the safety on his weapon. While conducting the investigation, members of the Shooting Incident Response Team were provided a demonstration to show the ease with which the selector switch of the M4 can be inadvertently moved from "safe" to "fire." The Critical Incident Response Group representative advised that it is the user's responsibility to know and be in charge of the selective safety switch of a weapon. It was also noted by members that an analysis of the weapon determined the weapon functioned properly. This discussion resulted in the recommendation that SA [redacted] be censured, suspended from duty for a period of three days, and receive documented remedial firearms training for his neglect in practicing routine firearms safety procedures. b6 b7C

During the lengthy discussion of this incident, several observations were made regarding the actions of the A/SWAT TL, the independent decision making by participants in the incident in deviating from the arrest plan, and the lack of assertiveness on the part of Executive Management (EM). Additionally, comments were made regarding the use of a "canned" Operations Plan which contained language that was not included in the FBI's current deadly force policy. Members also observed that it may be more operationally desirable for the SAC to assign the SWAT TL to Headquarters City.

Members discussed the fact that A/SWAT TL [redacted] was advised by ASAC Eaton during the initial meeting regarding the SWAT operation that he did not want the SWAT Team approaching or entering the residence in an attempt to arrest the fugitive. ASAC Eaton emphasized to the attendees that the plan needed to concentrate on arresting the fugitive outside or away from the residence. Additionally, during his review of the initial Operations Plan provided, ASAC Eaton made significant changes including removing a statement that the SAC had authorized additional SWAT techniques such as compromise authority and flash bang devices in the event of a hostage rescue since no authority had been requested or approved. During the pre-brief meeting, ASAC Eaton and SSA [redacted] verbally reiterated to the SWAT Team that plans did not include going up to or into the residence to arrest the fugitive. ASAC Eaton also stated that he did not specifically delegate an execute order to a specific individual; however, it was understood that spotting the subject leaving the residence would serve as a green light for the SWAT Team to

effect [redacted] arrest. Additionally, although not specifically conveyed to A/SWAT TL [redacted] or the SWAT Team, ASAC Eaton expected A/TL [redacted] to give the "go order" to the SWAT Team upon hearing from either SA [redacted] or SA [redacted] that the subject was outside of the residence.

ASAC Eaton then heard a radio transmission by SA [redacted] calling for the SWAT Team to move in because he obtained consent from the owner to enter the house and that the owner confirmed [redacted] was inside the residence alone. This transmission led to ASAC Eaton believing the fugitive was out of the residence; however, upon arriving at the development, he viewed the SWAT Team getting out of the truck and approaching the residence. ASAC Eaton commented to SSA [redacted] that what they were viewing was not part of the Operational Plan. b6 b7C

According to A/SWAT TL [redacted] Signed Sworn Statement, during the meeting with EM regarding the operation, the plan was to block the subject's vehicle in its parking place and grab the subject between the vehicle and the house. He advised that there may have been discussion of making the arrest by entering the house, but that was not the preferred means of effecting the arrest. SA [redacted] advised that he did not recall specific directions from any EM personnel regarding entering the residence. He also stated normal procedure was to attempt to grab a subject outside, then attempt to call him out, then enter the premises only as a last resort. SA [redacted] further stated that upon being informed that the owner of the house was not to be allowed to enter the residence prior to the subject's arrest based on direction provided by the Chief Division Counsel, he believed the restriction complicated the arrest plan. SA [redacted] advised that he was concerned [redacted] would see the owner being detained by police and realize police were in the area and would shoot at law enforcement personnel on the scene through the window or attempt to escape through the back of the house. With this edict in mind, SA [redacted] felt he needed to develop a way to continue the operation. He instructed the team members inside the SWAT truck to develop a plan for entering the subject residence in case the plan of detaining the subject on the way to his vehicle had to be abandoned. SA [redacted] eventually instructed the team to get ready to go in the house without contacting ASAC Eaton or SSA [redacted] b6 b7C

These actions resulted in the observation by SIRG members that no individual had control of the situation, the ASAC's instructions were not followed, and some of the participants were making independent decisions. Members also opined that the ASAC was not sufficiently assertive with his instructions and the A/SWAT TL acted outside the scope of his

duties. These comments and concerns will be discussed with the SAC of the Tampa Division.

SIRG members unanimously agreed that SA [redacted] should be censured, suspended from duty for a period of three days, and receive documented remedial firearms training for his neglect in practicing routine firearms safety procedures.

INSPECTION DIVISION

AT IPU

That SA [redacted] be censured and suspended from duty for a period of three days for his failure to employ routine firearms safety procedures. Additionally, SA [redacted] should receive remedial firearms training regarding proper handling of firearms and this training should be properly documented.

**Set Lead 2: (Action)**

DIRECTOR'S OFFICE

AT OPR FO, DC

That the Adjudication Unit, OPR, include in the SAC's copy of the letter of suspension, the need for remedial firearms training for SA [redacted] regarding the proper handling of weapons. Additionally, the letter should advise that this remedial training should be properly documented and that a copy of the documentation should be forwarded to the SIRG Chairman upon completion.

Title: SHOOTING INCIDENT
PHOENIX DIVISION
09/15/2004

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 09/15/2004, involving Special Agent (SA) [redacted] During the execution of an arrest warrant, SA [redacted] fired one round from his Bureau-issued Colt Model M4LE, 223 caliber carbine injuring a subject attempting to flee. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference report of Assistant Special Agent in Charge (ASAC) Paul S. White of the New Haven Division, dated 09/19/2004.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271898-D, 07/08/2005

**Details of the Shooting Incident**

On 09/09/2004, the Phoenix Division initiated an investigation on [redacted] and [redacted] Both individuals were members of the Ranch Rescue, a paramilitary, anti-government, neo-nazi group who patrols private property along the United States/Mexican border in Texas, New Mexico, Arizona, and California. Law enforcement personnel were aware of the fact that members of the Ranch Rescue were heavily armed and hostile toward Federal law enforcement officers. b6 b7C

The case was initiated as a result of an encounter between members of the Ranch Rescue and the United States Border Patrol (USBP). On 08/13/2004, USBP Agents initiated a vehicle stop involving a minivan suspected of smuggling. The driver of the van, later identified as [redacted] refused to pull over although marked USBP units had their emergency lights and sirens activated. As the USBP Agents attempted the vehicle stop, [redacted] led them to a compound in Douglas, Arizona, which was occupied by members of the Ranch Rescue. As [redacted] turned into the Ranch Rescue gated driveway, [redacted] armed with a rifle, was observed inside the gate. [redacted] exited his vehicle and began yelling at the USBP Agents and instructed [redacted] and others in the surrounding area to, "maintain your position and cover down on the Agents." The USBP Agents believed [redacted] was ordering Ranch Rescue members to maintain their tactical position and prepare to shoot at the agents. Fearing for their lives, the USBP Agents sought cover behind their vehicles and called for backup from the USBP and the Cochise County Sheriff's Office. Before the arrival of assistance, [redacted] dropped his weapon and adhered to instructions issued by the USBP Agents. As a result of this incident, an arrest warrant was issued for [redacted] b6 b7C b7E

[redacted] Several meetings were held with Agents of the Sierra Vista RA, the Tucson RA, and Executive Management to discuss plans for the arrest of [redacted] In a 09/13/2004 meeting, a decision was made to utilize the Special Weapons and Tactics (SWAT) Team to conduct the arrest. Furthermore, it was decided that the arrest would not be effected at the Ranch Rescue compound in order to avoid a standoff situation.

A decision was made that the SWAT Team would locate to the Motel 6 in Douglas, and immediately respond when they were notified [redacted] had left the compound. FBI Agents monitoring

the compound were to report directly to the SWAT Team upon [redacted] departure from the compound. It was also decided at the meeting that a SWAT Team briefing would be held on Tuesday, 09/14/2004, and a full briefing would be held for all law enforcement personnel involved in the situation on 09/15/2004.

On 09/14/2004, a SWAT Team briefing was conducted by SA [redacted] Of the four participating Agents not present at the meeting, only one, SA [redacted] was scheduled for duty on the first day of the operation. An operations order was written which was general in nature without specific duty assignments as team members would vary and would be rotated in and out after several days. SA [redacted] reviewed the operations order with the team during the Phoenix briefing, and also read the Sierra Vista operations order section which provided subject and case information. Team members were shown photographs of the ranch compound and [redacted] as well as [redacted] associates. SA [redacted] also read the recently revised Deadly Force Policy to all attendees. It should also be noted the operation schedule included the assignment of a certified SWAT Team Emergency Medical Technician (EMT) with the team while stationed in Douglas. However, due to the unavailability of two certified SWAT EMTs on 09/15/2004, SA [redacted] advised the team he would act as the EMT since he was a certified EMT while attending college, although not recertified since that time.

b6
b7C

On 09/15/2004, a second briefing was conducted at the Sierra Vista RA where a case overview and a tactical overview were provided to participants. The briefing covered specifics of the arrest warrant, including photographs and the criminal history of [redacted] Participants were advised [redacted] was considered armed and extremely dangerous and was wanted for Assaulting a Federal Officer. Information was provided regarding [redacted] previous felony convictions and attendees were provided the latest intelligence as a result of the monitoring of the compound. Specific information provided included the fact that [redacted] and his associates had conducted firearms training with long guns at the ranch and it was believed they were in possession of grenades, weapons, and improvised explosive devices.

b6
b7C

At approximately 3:00 p.m., SA [redacted] held a briefing with the SWAT Team at the Motel 6. During the briefing, team members were reminded to wear their ballistic vests and handguns from 6:00 a.m. until 11:00 p.m., each day while on station. The arrest plan was designed to utilize three SWAT vehicles, and would allow [redacted] to enter whatever establishment he went to, set up SWAT vehicles around his vehicle, and effect the arrest after [redacted] exited the establishment.

At approximately 10:12 p.m., the Command Post was notified that [redacted] and [redacted] were observed getting into a van and leaving the compound. SA [redacted] was also advised of the information and instructed another Agent to get the SWAT Team together. As the SWAT Team assembled, SA [redacted] instructed the driver of the SWAT van to proceed to the Safeway parking area and he also contacted ASAC Roland J. Mignone of the subjects' movement. As [redacted] and [redacted] parked in the Safeway parking lot near the position of the SWAT van, a positive identification was made of both subjects. SA [redacted] drove his vehicle to the parking lot and positioned it, front bumper to front bumper, with [redacted] van. Another Bureau vehicle was positioned to the south of [redacted] van. SA [redacted] was instructed to re-position the SWAT van so the sliding door on the passenger side was facing away from the subject vehicle to allow the arrest team to exit the van out of the sight of the subjects and approach them from behind. b6 b7C

At approximately 11:15 p.m., participants were advised the subjects were exiting the store. As they proceeded behind the SWAT van, a command was given to execute the arrest of [redacted] and [redacted] SA [redacted] activated his vehicle emergency lights while additional agents exited the back and side of the van. SA [redacted] was the first out of the rear door with SA [redacted] directly behind him. SA [redacted] had his weapon focused on [redacted], who was standing to the left of [redacted]. SA [redacted] yelled, "FBI - Get on the ground now!" SA [redacted] yelled, "FBI! FBI! Get down, get down, get down." As SA [redacted] observed both suspects starting to run toward [redacted] van, he saw [redacted] push a shopping cart away from himself, turned, and launched something toward the Agents with his left hand. SA [redacted] advised he believed [redacted] was making a tactical move to buy time to go for a sidearm. According to SA [redacted] he observed SA [redacted] duck as [redacted] threw something at him and also observed [redacted] reach down with his left hand to his left hip as if going for a gun from a holster. Fearing for his safety, as well as the safety of other Agents, SA [redacted] fired one shot resulting in an injury to [redacted] was subsequently handcuffed and provided immediate medical attention by paramedics. [redacted] was transported to the University Medical Center where he underwent surgery to remove the bullet. b6 b7C

[redacted] Cochise County Attorney, advised no investigation was conducted by the Douglas Police Department regarding the shooting incident, and he had no intention of initiating an investigation into the incident. Therefore, his office would not provide a prosecutive opinion unless he was presented with a case. On 03/02/2005, a declination of prosecution was received from the United States Department of

Justice, Civil Rights Division, regarding SA [redacted] discharge of his weapon in this incident.

On 04/25/2005, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director (DAD) Andrew R. Bland, III, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Civil Rights Division, Criminal Section, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; Charles J. Rooney, Section Chief (SC), Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD); UC [redacted] National Firearms Program, TDD; Acting SC [redacted] Special Inquiry and General Background Investigations Unit, Administrative Services Division; Supervisory Special Agent (SSA) [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); and SSA [redacted] Washington Field Office. The only non-voting attendee present was [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

b6
b7C

Members made several observations regarding the incident in the areas of pre-brief meeting attendance and the presence of certified EMT personnel on the scene.

According to SA [redacted] Signed Sworn Statement, he did not attend the Tuesday briefing regarding the potential arrest of the subjects. SA [redacted] provided no reason for his absence at the first briefing; however, he advised he reviewed the operational order on his e-mail and knew he would be able to hear the final briefing in Sierra Vista. Members opined attendance should be mandatory in all pre-briefings for

participants in SWAT operations. Discussion with the SWAT Operations Unit, Critical Incident Response Group, disclosed standard operating procedures call for participants to attend all pre-operational briefings to ensure personnel are aware of any changes or modifications to the original operations plan.

The second observation of the SIRG related to the absence of certified EMT personnel on the scene. Members opined that current certified EMT personnel should have been mandatory especially considering the subjects' propensity for violence. These observations will be brought to the attention of the Special Agent in Charge of the Phoenix Division to ensure this type of situation does not recur.

**Title:** SHOOTING INCIDENT
RICHMOND DIVISION
05/14/2004

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 05/14/2004, involving Special Agent (SA) [redacted] SA [redacted] fired one round from his Bureau-issued 10 millimeter MP-5 carbine killing Glen Joseph Sweeting who was identified as a major supplier of heroin in the Richmond area. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference report of Inspector [redacted] dated 05/28/2004.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

## Details of the Shooting Incident

Agents of the Richmond Division were conducting an investigation into the drug trafficking activities of Glen Joseph Sweeting, who had been identified as a major supplier of heroin in the Richmond, Virginia, area. [redacted] b3

Additionally, investigation determined a relative of Sweeting had been recently arrested with four kilos of cocaine and $400,000 in currency. The Drug Enforcement Agency (DEA) in Richmond targeted several associates of Sweeting and held in abeyance several arrests of these individuals to ensure the FBI investigation of Sweeting was not jeopardized. Based on the totality of these circumstances, and with verbal authorization from the Assistant United States Attorney from the

Eastern District of Virginia, a decision was made to arrest Sweeting for violation of Title 21, United States Code, Section 841(a)(1, and 846. Search warrants were also obtained for Sweeting's residence as well as the residences of three close associates.

Investigation revealed Sweeting returned to the Richmond area from New York on 05/13/2004, where he obtained a shipment of heroin and planned to conduct a drug transaction with one of his associates. Based on this information, it was anticipated Sweeting would be arrested following this meeting with his associate; however, upon returning to the Richmond area, he stopped at a residence in Powhatan, Virginia, which was described as an isolated rural area. Surveillance was initiated on the Powhatan residence where it was determined the drug transaction with his associate would not occur until the following day, 05/14/2004. Upon receipt of this information, surveillance was terminated and a plan was developed to re-initiate surveillance on Sweeting at the Powhatan location at 6:00 a.m. on 05/14/2004. A determination was made that Sweeting would be arrested and related search warrants would be effected.

A meeting was scheduled for 5:00 a.m. on 05/14/2004, at the Chesterfield County Police Department (CCPD) substation to brief participants on the arrest and search plan. During the briefing, participants were advised Sweeting should be considered "Armed and Dangerous" due to his known propensity for violence.

Due to an interruption in aerial coverage during the surveillance of Sweeting at the Powhatan residence, his location was unknown. Later in the morning Sweeting's vehicle was located at his residence in Chesterfield County, Virginia, and investigation determined Sweeting would be leaving his residence to conduct the drug transaction with his associate.

In order to avoid a barricade situation, the initial operation plan was modified to conduct a traffic stop and arrest Sweeting after he departed his residence and prior to his approaching the main road. The Special Weapons and Tactics (SWAT) Team Leader provided specific and detailed instructions to each SWAT team member. The plan included the use of two SWAT vehicles to set parallel on each side of the road with a CCPD marked unit between them. Another Bureau vehicle, occupied by a SWAT team member, was tasked with establishing surveillance on Sweeting and notifying the two SWAT vehicles when he left his residence. Additionally, this vehicle was to pull behind Sweeting once he had passed and act as a blocking vehicle. The plan called for Sweeting to be "boxed in" in order for law enforcement personnel to call him out of his vehicle, handcuff him and place him under arrest.

Once Sweeting approached the anticipated arrest location, the CCPD marked unit pulled in front of him, activated its lights and siren, and the two SWAT vehicles pulled along each side of the subject vehicle. The SWAT vehicles identified themselves as FBI and issued commands to place Sweeting under arrest. Sweeting stopped his vehicle for a moment, began backing up at a high rate of speed steering around the blocking SWAT vehicle, and completed a 180 degree turn heading in the direction of his residence. One of the SWAT vehicles overtook Sweeting's vehicle in an attempt to cut him off resulting in Sweeting striking the SWAT vehicle. A second SWAT vehicle engaged Sweeting's vehicle on the passenger side causing both vehicles to become entwined at the front wheel well. Although forward progress of Sweeting's vehicle was impeded, it continued to push forward. Sweeting then attempted to back his vehicle with the engine revving and tires spinning. SA [redacted] was located in the passenger seat of the vehicle that overtook the subject vehicle. After Sweeting's vehicle rammed the Bureau vehicle, SA [redacted] had the passenger side window down and was looking directly at Sweeting, who was yelling and screaming in a state of rage. SA [redacted] who was yelling for Sweeting to stop the car, was not aware of what Sweeting was saying. During this time other SWAT team Agents exited their vehicles. SA [redacted] observed another SWAT vehicle alongside the passenger's side of the subject vehicle and the marked CCPD unit behind Sweeting's vehicle. SA [redacted] also observed team members on foot to the left and right of his Bureau vehicle. SA [redacted] believed Sweeting's vehicle was no longer contained and placed a direct threat of imminent danger to himself as well as the SWAT team members on foot and other law enforcement personnel taking cover behind their respective vehicles. With this in mind, SA [redacted] fired one round from his MP-5 striking Sweeting in the chest. Immediately after firing the shot, SA [redacted] observed Sweeting lean forward and put the vehicle in park. Sweeting looked at SA [redacted] who continued to issue the command, "let me see your hands," while continuing to focus his weapon on the subject. As a SWAT team member approached the vehicle, SA [redacted] observed Sweeting convulse and the vehicle engine began revving again. The SWAT team member opened the subject vehicle door, turned the engine off, and requested a medic. Sweeting was pronounced dead at the scene.

b6
b7C

It should be noted that law enforcement personnel at the scene were not aware of the presence of Sweeting's 4-year old son, who was in the back seat of the subject vehicle, until after the subject had been shot.

On 05/06/2005, a declination of prosecution was received from the United States Department of Justice, Civil Rights Division, regarding SA [redacted] actions in this shooting incident. On 06/16/2004, this incident was presented to a local

grand jury and a No True Bill was returned with no criminal charges being filed.

On 06/02/2005, the SIRG met to discuss the above-captioned shooting incident. Chief Inspector [redacted] Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted], Deputy Chief, Civil Rights Division, Criminal Section, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Charles J. Rooney, Section Chief (SC), Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD); UC [redacted] Special Weapons and Tactics Operations Unit, Critical Incident Response Group; UC [redacted] CD-6A, Counterintelligence Division; UC [redacted] National Firearms Program, TDD; Supervisory Special Agent (SSA) [redacted] Investigative Law Unit, Office of the General Counsel (OGC); SSA [redacted] Program Manager, Operational Skills Unit, TDD; and SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division. The two non-voting attendees present were Inspector [redacted] Office of Inspections, Inspection Division; and [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

During the discussion of this shooting incident, one member opined his concerns regarding the use of deadly force by SA [redacted] One DOJ representative advised that it did not appear the subject intentionally rammed his vehicle and that no furtive movements were made by the suspect. However, after a lengthy discussion and emphasis placed on the fact that personnel on the scene believed if Sweeting's vehicle became disengaged from the SWAT vehicle lives would be in imminent danger of serious bodily injury or death, the SIRG reached a unanimous conclusion that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy. This discussion resulted in a recommendation by SIRG members that no administrative action should be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Title:** SHOOTING INCIDENT
LOS ANGELES DIVISION
06/02/2004

b2
b6
b7C

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 06/02/2004, involving Special Agents (SAs) [redacted] and [redacted] SA [redacted] fired two shots and SA [redacted] fired one shot from their Bureau-issued Colt M-4, A-1 Carbines at four subjects who robbed a bank. SIRG members recommended that no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in this shooting incident.

**Administrative:** Reference report of Assistant Special Agent in Charge Herbert M. Brown, dated 07/15/2004.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

## Details of the Shooting Incident

The Los Angeles Field Office (LAFO) bank robbery squad was conducting an investigation involving a group of individuals associated with several takeover bank and business armed robberies. Investigation determined the crew was planning a robbery of the Los Angeles National Bank located in Buena Park, California.

The bank robbery squad solicited the assistance of the Special Weapons and Tactics (SWAT) Team as well as the Los Angeles Police Department (LAPD). The SWAT team was asked to intervene and stop the subjects should they make an attempt to rob the bank and officers of the LAPD were asked to surveil

the main subjects who were living in the area of South Central Los Angeles. Surveillance by the SWAT Team and the LAPD was conducted on five occasions, however, no attempts were made to rob the bank.

On 06/02/2004, the bank robbery squad requested assistance from both entities. A briefing was conducted at a park located near the bank where photographs of potential subjects and investigative updates were provided. The SWAT Team Agents were advised the subjects were attempting to obtain weapons and vehicles to commit the bank robbery. The operational plan for the SWAT Team was to intervene and prevent a robbery of the bank. Additionally, if the team failed to stop the robbery, the SWAT Team was to conduct a felony stop on the subject vehicle and arrest the perpetrators.

SAs [redacted] and [redacted] were together in a vehicle surveilling the bank. At approximately 11:00 a.m., the Agents received information that the subjects had obtained a weapon, ammunition, and all of the people and vehicles they needed to commit the robbery. Additionally, the LAPD observed the subjects leaving South Central Los Angeles in three vehicles heading in the direction of the bank. b6 b7C

As efforts were being made to reposition the FBI vehicles for vehicle stops, one of the subject vehicles drove past and proceeded into the west exit of the bank's north parking lot. A SWAT vehicle which was placed in the parking lot advised they had a clear visual on the actions of the subject van. Information was relayed that there were four black males in the subject van which had been backed into a parking slot on the north side of the bank near the entrance. SWAT Agents also advised they observed a silver colored revolver in the hand of one of the subjects when he exited the vehicle.

SWAT Agents located in the parking lot observed two subjects enter the bank, followed by one other individual. The fourth subject stayed with the van during the robbery.

SAs [redacted] and [redacted] followed two additional SWAT vehicles which were positioned on the north side of the bank behind an adjacent building. The three vehicles waited behind the building and out of sight of the subject van. A decision was made that once the subjects finished the robbery and the subject van was moving, the three SWAT vehicles would enter the west exit of the bank lot to block the subjects from escaping. Agents observed the suspects enter the van which

traveled westbound towards the west exit of the lot. The three SWAT vehicles drove onto the lot in an attempt to block the subject van from escaping. Upon seeing the SWAT vehicles with emergency lights activated, the subject van began driving at a high rate of speed in the direction of the SWAT vehicles. The first SWAT vehicle swerved in front of the subject van as the van swerved to avoid being stopped. The vehicles collided causing damage to the left front of both vehicles. The impact caused the subject van to bounce sideways and strike a parked vehicle in the bank lot. Additionally, as the first SWAT vehicle suddenly stopped, it was rear-ended by the second SWAT vehicle.

The subject van was able to squeeze between the first SWAT vehicle and the damaged parked vehicle. The van was driven in a northwesterly direction which caused it to go over a short wall adjacent to an alley where the van struck several other vehicles. SA [redacted] began a pursuit of the subject van and observed the vehicle stop after hitting several other vehicles and a median in the street. As soon as SA [redacted] vehicle stopped, he observed three of the occupants exiting the vehicle. He saw the passenger in the front seat begin to exit but could not see his hands. Knowing the individuals had used a weapon while robbing the bank and unable to see the subject's hands, SA [redacted] fearing for his as well as his partner's safety, fired two rounds through the open window of his vehicle in the direction of the subject.

Simultaneously, SA [redacted] observed the sliding door on the passenger side of the subject van opening as the SWAT vehicle stopped. He believed he saw something in one of the hands of a subject who was exiting the van. Upon seeing what he believed to be a handgun, SA [redacted] fired one round through the SWAT vehicle's open window in the direction of the subject who began falling forward just as SA [redacted] pulled the trigger of his weapon. The rounds fired by both Agents impacted the subject vehicle.

b6
b7C

The four subjects fled on foot, however, were captured within a few minutes by members of the SWAT Team.

On 10/13/2004, the SIRG met to discuss the above-captioned shooting incident. Chief Inspector [redacted] Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted] Assistant Section Chief, Operational Support Section, Criminal

Investigative Division; My Harrison, Section Chief, Applicant Processing Section, Administrative Services Division; [redacted], Unit Chief (UC), National Firearms Program, Training and Development Division (TDD); UC [redacted], CD-6B, Counterintelligence Division; SSA [redacted], Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted], Firearms Training Unit, TDD; SSA [redacted], Operational Skills Unit, TDD; SSA [redacted], Firearms Training Unit, TDD; SSA [redacted], National Firearms Program, TDD; and SSA [redacted], Investigative Law Unit, Office of the General Counsel (OGC). The two non-voting members present were [redacted], Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division; and [redacted], Intern, Leadership Development Institute, Training and Development Division, Quantico. b6 b7C

During the initial discussion of this shooting incident, SIRG members unanimously agreed that the use of deadly force by SAs [redacted] and [redacted] was justified and in conformance with the deadly force policy.

Further discussion identified three areas of concern regarding the incident which were not addressed in the initial report. A request was made to the LAFO to provide additional information in the following three areas: 1) it appeared there was probable cause to arrest the subjects prior to the attempted bank robbery. Members wanted to know the position of the United States Attorney's Office (USAO) with respect to the probable cause and the guidance, if any, given regarding when the arrest of the subjects was authorized; 2) if there was probable cause to arrest the individuals, why were they allowed to get inside the bank before any action was taken by law enforcement authorities; and 3) why were two distinctly different surveillance teams, one FBI and one LAPD, utilized instead of one, if a surveillance/communication problem existed between the two teams, were the teams "cross assigned" with members of the LAPD and the FBI, who had on-site command of the operation, and how was this effected during the surveillance/arrest, and lastly, what was the LAFO's post-incident evaluation of the surveillance/arrest situation? b6 b7C

On 11/17/2004, the SIRG met to resume discussion of the above-captioned shooting incident. Former Chief Inspector [redacted], Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted], Special Counsel, Civil Rights Division, USDOJ; [redacted], Deputy Chief,

Domestic Security Section, Criminal Division, USDOJ; My Harrison, Former Section Chief (SC), Applicant Processing Section, Administrative Services Division; Jay C. Manning, SC, CD-6, Counterintelligence Division; Manuel E. Mora, SC, Operational Support Section, Criminal Investigative Division; [redacted] Acting Unit Chief (UC), Firearms Training Unit, TDD; [redacted] Acting UC, National Firearms Program, TDD; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); and, SSA [redacted] Washington Field Office. The only non-voting member present was [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

During this meeting of the SIRG, copies of an e-mail from the LAFO were circulated to members containing responses to each of the questions raised.

The LAFO advised the SIRG Chairman that the USAO made an investigative/prosecutorial decision that not enough probable cause existed to warrant arrest of the subjects. The LAFO was instructed to continue to monitor the Title III, continue surveillance of the subjects, and if, possible, arrest the subjects just prior to committing a bank robbery. Additionally, there was not sufficient probable cause to arrest the subjects prior to their arrival at the bank and probable cause was not sufficient until it was known that the subjects possessed the tools, weapons, and vehicles to commit the robbery.

Several contingencies were discussed at the SWAT brief. The first option was to do a felony car stop prior to the subjects arrival at the bank. The second contingency was to attempt to arrest the subjects outside of the bank if it could be done safely. Just prior to the robbery it was determined that seven subjects were driving five vehicles and were located in five locations. According to the LAFO, at no time was it possible to effect an arrest during the staging period of the robbery.

Investigation determined that the subjects were to drive around the bank once prior to the robbery. However, unexpectedly, the subjects inside the van immediately entered the parking lot through an exit only driveway and parked next to the back door of the bank. Based on the positioning of the subject van, it was impossible for a team to effect an arrest prior to the subjects entering the bank. Rather than risking a hostage situation, the SWAT operators were told to prepare

to enter the bank immediately if an emergency arose, but otherwise attempt to stop the vehicle prior to it leaving the parking lot.

Regarding the use of one FBI surveillance team and one LAPD surveillance team, the LAFO advised the LAPD surveillance team had successfully surveilled the subjects for months and since they were familiar with the subjects and subject vehicles, it was better that they continue to monitor the subjects. It was also necessary to have the FBI Special Operations Group (SOG) involved due to the number of subjects and vehicles, and to better coordinate the arrests once the subjects were in the vicinity of the bank. The LAFO also advised that there was not a lack of communication between the various entities and that all of the participating departments had representatives at the FBI Tactical Operations Center who was in continuous communication with the LAPD surveillance team, the FBI surveillance team, the FBI SWAT team, and FBI air units. Additionally, the SIRG was advised that LAFO Executive Management had complete oversight and control over the operations.

Lastly, the LAFO's post-incident analysis determined that based upon the totality of the circumstances (the number of subjects, the number of vehicles, the erratic behavior of the subjects, the location of the subject vehicle to the bank entrance, and absent approval from the USAO to effect the arrest earlier), the decision to arrest the subjects after the robbery was the most viable option to ensure the safety of the public and law enforcement personnel.

SIRG members opined that the LAFO sufficiently addressed the areas of concern and no further discussion was held on the matter.

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

Again, SIRG members unanimously agreed that the use of deadly force by SAs [redacted] and [redacted] was justified and in conformance with the deadly force policy.

Title: SHOOTING INQUIRY,
REPORT OF SHOOTING INCIDENT;
OKLAHOMA CITY DIVISION;
12/08/2003;
INSPECTION MATTER

Character: ADMINISTRATIVE INQUIRY

Synopsis: This Administrative Inquiry was initiated subsequent to a shooting incident which occurred in Marietta, Oklahoma, on the afternoon of 12/08/2003.

DETAILS:

b6
b7C
b7D

On the morning of December 08, 2003, the Marietta, Oklahoma Police Department (MPD) was contacted by [redacted] a local resident, who advised that [redacted] aka, [redacted] was a convicted felon and subject of an outstanding warrant issued in California for a parole violation. [redacted]

[redacted] was contacting the MPD with this information as [redacted] had recently purchased a pistol and ammunition. [redacted]

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Should law enforcement confront him, [redacted] stated he would not surrender peacefully but go out in a "blaze of glory."

Based upon this information, [redacted] Supervisor (Chief), MPD, conducted an inquiry to confirm the outstanding warrant. Thereafter, he telephonically contacted the Ardmore Resident Agency (RA) to set up a meeting to formulate a plan to locate and apprehend [redacted] b6 b7C

Upon receipt of the telephone call from Supervisor [redacted] SA [redacted] Ardmore RA, queried the FBI's Automated Case System regarding [redacted] which disclosed that [redacted] had previously been convicted of armed bank robbery. An NCIC inquiry was then conducted which confirmed that a Federal warrant, issued to the United States Marshal Service out of the Central District of California, was outstanding for violations of his Probation. The inquiry disclosed that [redacted] was considered Armed & Dangerous and had violent tendencies. SA [redacted] then telephonically contacted [redacted] parole officer in California who confirmed the warrant for the probation violation. SA [redacted] subsequently contacted SSRA [redacted] to apprise him of the information regarding [redacted] and that they would later be traveling to Marietta to meet with [redacted]

SA [redacted] and SA [redacted], Ardmore RA, subsequently met with Supervisor [redacted] and Sheriff Joe Russell, Love County, at a pre-determined service station in Marietta, OK, to further exchange information and develop a practical plan. During this meeting, Supervisor [redacted] was apprised by his department that [redacted] son [redacted] who also lives with his father, had been observed in town and had been stopped for questioning. [redacted] advised that he had left [redacted] at home and that [redacted] was last seen in the front living room watching the video monitor. b6 b7C

Following this information, SA [redacted] re-contacted SSRA [redacted] to update him regarding the discussion with the local law enforcement and their progress with locating [redacted] SSRA [redacted] advised that the agents should consider a tactical team in apprehending [redacted] should he be located.

Upon receipt of this information and after conferring with the other representatives, Supervisor [redacted] contacted the Ardmore Police Department requesting assistance from their Special Weapons and Tactical Team (SWAT) to effect the arrest should [redacted] be located. [redacted] advised that he was aware that [redacted] had made statements in the past that he would not be taken alive. Supervisor [redacted] felt it prudent to have a

tactical team apprehend [redacted] once located, to minimize the risk of danger to other law enforcement officers.

While continuing to confer at the service station awaiting the arrival of the Ardmore SWAT, a 911 call was received by the Love County Sheriff's Office and MPD dispatch from the residence of [redacted], whose home is located down the street from [redacted] residence. The emergency call was placed by [redacted] who advised that [redacted] was outside of [redacted] home, inquiring as to [redacted] whereabouts. [redacted] expressed that he felt threaten by [redacted] and that his life was in danger. Following the emergency call, the officers and agents assembled at the service station responded to the [redacted] residence along with other law enforcement officers in the immediate area. MPD officers were the first to arrive at the [redacted] residence. During their questioning of [redacted] she observed [redacted] in his vehicle and identified him to the officers at the scene. A broadcast of [redacted] whereabouts was announced over the radio at which time a search of the surrounding neighborhood was initiated by officers and agents. Shortly thereafter, [redacted] was observed by officers on the street who commanded him to stop. [redacted] ignored their commands and began fleeing in his vehicle at an increased rate of speed.

b6
b7C

Believing that [redacted] now posed a public threat, SA [redacted] and [redacted] began searching for [redacted] in their separate vehicles. They subsequently located and observed [redacted] traveling at a high rate of speed, jumping curbs, and traveling erratically through residences' yards. During this pursuit through several neighborhoods, SA [redacted] became positioned directly behind [redacted]'s vehicle which subsequently crashed into a residence. SA [redacted] exited his bureau vehicle, and was observed by Love County Undersheriff [redacted] identifying himself to [redacted] who was attempting to flee. SA [redacted] ordered [redacted] to stop and get on the ground several times. [redacted] then reached for his pistol located in his waistband and attempted to remove it from his person. SA [redacted] believing that his life was now in imminent danger with [redacted] ignoring his commands, fired one round from his service pistol, striking [redacted] in the left side of the neck at which time [redacted] collapsed to the ground. As officers reached [redacted] SA [redacted] was overheard acknowledging that he had shot [redacted]

b6
b7C

As the officers went to secure [redacted] lying on the ground, [redacted] began struggling and was observed to forcefully push his right hand underneath himself as though reaching for something. An officer announced [redacted] actions at which time he was brought under control and handcuffed. Thereafter, [redacted]

was turned over and raised off of the ground. A pistol was immediately observed lying on the ground in the area of [redacted] waist. The pistol was picked up by an MPD officer and handed to SA [redacted] for safety.

b6
b7C

Following the shooting incident, [redacted] was afforded medical treatment by the officers on the scene until emergency medical services arrived. [redacted] was subsequently transported by ambulance to the Mercy Memorial Hospital located in Ardmore, OK, where he underwent medical treatment. Upon his release from the hospital, [redacted] was subsequently booked into the Carter County Detention Center for the outstanding parole violation.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
02/24/2003
NEWARK DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 02/24/2003, involving Special Agent (SA) [redacted] SA [redacted] shot and injured a pitbull dog attempting to attack an individual. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference Electronic Communication of Supervisory Special Agent (SSA) [redacted] dated 03/05/2003.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271781-D, 06/12/2003

Details of the Shooting Incident

On 02/24/2003, at approximately 7:40 a.m., Agents assigned to the Special Operations Group were meeting in a parking lot to discuss a surveillance operation. As the Agents were involved in the discussion, they observed a pitbull dog attempting to attack a young male who was walking to a nearby high school. SA [redacted] moved towards the male, yelling at the dog, in an attempt to scare it away. The dog retreated but quickly returned with another pitbull and began advancing directly towards the young male victim, growling and snapping its teeth.

SA [redacted] again approached the dog attempting to scare it away, however, the dog lunged at the young male's face and neck. SA [redacted] ran towards the victim, pushed him out of the way, and placed himself between the victim and dog. Believing that either he or the young male was in imminent danger, SA [redacted] fired one round from his Bureau-issued Glock Model 22 .40 caliber handgun striking the dog. The injured pitbull retreated and collapsed and the second dog fled the scene.

b6
b7C

Officials of the Trenton Police Department and the Bureau of Animal Control responded and removed the dog from the scene.

On 05/08/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Glenn Powell, Investigations Division, Office of Inspector General, USDOJ; Michael S. Clemens, Chief Inspector, Office of Inspections, Inspection Division; Robert K. Cromwell, Section Chief, Applicant Processing Section, Administrative Services Division; Jay C. Manning, Section Chief, CD-6, Counterintelligence Division; [redacted] Acting Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Operational Skills Unit, Training Division; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Investigative Law Unit, Office of the General Counsel; SSA [redacted] Washington Field Office; and SSA [redacted] Firearms Training Unit, Training

b6
b7C

Division. The only non-voting member present was [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the actions of SA [redacted] were justified and in conformance with the deadly force policy. SIRG members recommended that no action be taken against him as a result of his involvement in this shooting incident.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
01/03/2003
PHOENIX DIVISION

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 01/03/2003, involving Special Agent (SA) [redacted]. During the execution of a search warrant, SA [redacted] shot and injured a dog charging toward SA [redacted] who was kneeling on the ground. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference Electronic Communication of Assistant Special Agent in Charge Ray P. Churay, dated 01/09/2003.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271898-D, 06/12/2003

Details of the Shooting Incident

On 01/03/2003, the Phoenix Division Special Weapons and Tactics (SWAT) Team was conducting a search warrant at a residence whose residents were purported to be involved in the theft of computer hard drives from a facility that administrates medical records of current and retired United States Military members.

An investigation determined the residents had equipment to create false identification and wash checks. Additionally, information was received that the residents were in some way associated with the Hells Angels motorcycle club, wore weapons while in the residence, had a long gun taped to the underside of a coffee table, and were methamphetamine users.

Surveillance revealed a seven foot high wooden fence protecting the rear view of the residence and a concrete block privacy wall protecting much of the front of the residence. Additionally, the residence was most active, and was most frequented by visitors in the evening, late night, and early morning hours. It was decided that the late morning hours would be the best time to execute the search warrant.

Upon the initial breach of the residence by SWAT Team members, they encountered a single female resident attempting to restrain a mixed breed Shepard dog. The female was non-compliant and became irate, shouting at the entry team. The dog was released as the female was placed under physical control and ran into another area of the residence.

As the female was being removed from the residence, she advised there was another individual in one of the bedrooms. As members of the SWAT Team were covering the kitchen and hallway area leading to the bedroom, SA [redacted] warned SA [redacted] to remain down on one knee to enable him to cover SA [redacted] back should the dog reappear and attack. The dog subsequently reappeared and charged at SA [redacted] back and left side. SA [redacted] quickly fired two rounds at the charging dog, hitting the animal in the shoulder area, causing the dog to veer past SA [redacted] and proceed down the hall. The dog returned toward SA [redacted] however, verbal commands resulted in the dog retreating into an empty bedroom.

b6
b7C

A male subject was subsequently located in another bedroom and secured. The injured dog remained in the bedroom until removed by a Phoenix Police Department animal control officer.

On 05/08/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted], Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Glenn Powell, Investigations Division, Office of Inspector General, USDOJ; Michael S. Clemens, Chief Inspector, Office of Inspections, Inspection Division; Robert K. Cromwell, Section Chief, Applicant Processing Section, Administrative Services Division; Jay C. Manning, Section Chief, CD-6, Counterintelligence Division; [redacted] Acting Section Chief, Operational Support Section, Criminal Investigative Division; [redacted], Unit Chief, Operational Skills Unit, Training Division; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Investigative Law Unit, Office of the General Counsel; SSA [redacted] Washington Field Office; and SSA [redacted], Firearms Training Unit, Training Division. The only non-voting member present was [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the actions of SA [redacted] were justified and in conformance with the deadly force policy. SIRG members recommended that no action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Report of: ASAC [redacted] Office: Los Angeles
Date: 07/31/2003

Case ID #: 66F-LA-234326

Title: ADMINISTRATIVE INQUIRY;
SHOOTING INCIDENT;
LOS ANGELES DIVISION;
05/29/2003

Character: ADMINISTRATIVE INQUIRY

Synopsis: On May 29, 2003 at approximately 7:00 p.m., members of Los Angeles Squad CE-1 prepared to conduct a buy/bust arrest of subject [redacted] in West Hollywood, California. Subject [redacted] was to meet with a [redacted] in the parking lot of a fast food restaurant called "Carl's Jr." [redacted] was to sell a large amount of the drug MDMA also known as "Ecstasy". [redacted]

At about 7:20 p.m. on this same date, subject [redacted] arrived at the restaurant, parked his vehicle, and met the [redacted] inside the restaurant. The subject's vehicle was a black Chevrolet Avalanche which is a large heavy-duty pickup. The subject returned to his vehicle accompanied by the [redacted]

b6
b7C
b7D

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

[redacted] a surveillance van holding five FBI agents drove towards [redacted] vehicle to block it from trying to exit.

As the FBI vehicle approached subject [redacted] pick-up, he apparently realized he was about to be arrested. He drove forward in an attempt to drive around the van and the two vehicles collided with both left front corners making contact. Subject [redacted] continued driving forward and struck the driver's side door as SA [redacted], the driver of the van, attempted to exit the vehicle. The door slammed back against SA [redacted] causing an injury to his left arm.

Subject [redacted] continued driving forward at a high rate of speed in the parking lot. At this time, SA [redacted] had driven forward in his vehicle to assist the members of his squad. Subject [redacted] collided head on into SA [redacted] vehicle causing such severe damage to the vehicle it was totaled out. The large pick-up being driven by subject [redacted] bounced to the right and landed atop a sidewalk which runs adjacent to the restaurant's building. SSA [redacted] had been inside the restaurant surveilling the drug buy. As SSA [redacted] opened the exit door of the restaurant to assist in the arrest, he noticed subject [redacted] vehicle coming towards him, atop the sidewalk, and at a high rate of speed. SSA [redacted] stepped back just in time to avoid being injured as subject [redacted] vehicle slammed into and destroyed the door.

Subject [redacted] continued driving forward in an effort to escape from the scene. SA [redacted] who was now on foot and walking towards the area where the arrest was to take place, was standing in the path where the subject's vehicle was now headed. As the vehicle approached him, SA [redacted] saw the subject he knew as [redacted] and fired two rounds at him. One of the rounds struck the vehicle on the front passenger door while the other missed the vehicle causing no damage. The subject's vehicle continued out of the parking lot, drove west and then north from the area. SA [redacted] was not harmed during the incident. At this time it was unknown whether or not subject [redacted] had been shot.

Members of Squad CE-1 chased subject [redacted] in their vehicles as he fled from the area. [redacted] drove about a mile and then abandoned his vehicle in a residential neighborhood. The FBI, the Los Angeles Police Department (LAPD) and the Los Angeles Sheriff's Department (LASD) set up a perimeter at the location. They searched for subject [redacted] but were unable to locate him.

b6
b7C

b6
b7C

Subject [redacted] was eventually arrested on May 30, 2003 at approximately 3:00 a.m. in downtown Los Angeles by the FBI. During the arrest, there was another shooting incident. See 66F-LA-234327 and 89B-LA-234329 for the facts and circumstances behind this incident. Subject [redacted] along with the already pending drug distribution charges, will be charged with several counts of Assault on a Federal Officer.

b6
b7C

The Los Angeles FBI Agent Involved Shooting (AIS) team responded to the area to conduct an administrative inquiry following the incident. The team conducted interviews of the agents involved as well as witnesses to the incident. The neighborhood, which is all businesses, was canvassed for any other witnesses but none were located. The AIS team coordinated the investigative requirements from the LASD and the LAPD at the scene. Neither the LAPD or the LASD generated any reports for this incident. SA [redacted] after providing information as to public safety issues concerning the rounds he fired and being given an EAP contact, was released from the scene. His weapon used during the incident was retrieved by the AIS prior to his departure and he was provided another Bureau issued weapon of the same make and model.

The Los Angeles FBI Evidence Response Team (ERT) responded to the location and processed the scene at the restaurant parking lot. They retrieved shell casings fired from SA [redacted] weapon as well as other items of evidence at the crime scene. They made sketches and took photographs of the scene to include the injury to SA [redacted] One of the rounds fired by SA [redacted] was located inside the passenger compartment of subject [redacted] vehicle on the floorboard on the driver's side. The round appears to have struck the passenger side door and then ricocheted off the vehicle's mirror before finally coming to a rest inside the vehicle. Efforts to locate where the other round struck were made, but the round could not be found. Area hospitals were checked with negative results as to ensure the random round had not struck anyone.

b6
b7C

SA [redacted] received medical attention two days after the incident, but was not injured to the extent he needed to miss work. No other agents assaulted during this incident received any medical treatment.

- P -

66F-LA-234326

DETAILS:

This case was predicated upon information that SA [redacted] assigned to the Los Angeles Division of the Federal Bureau of Investigation (FBI), had been involved in a shooting incident at approximately 7:30 pm, on May 29, 2003. SA [redacted] was involved in this incident when he was in the process of apprehending drug dealer [redacted]

Re: 297-HQ-A1271699-D, 08/19/2003

Details of the Shooting Incident

The Training Division, FBIHQ, conducted an in-service for FBI CPAs on Monday, 05/12/2003, through Friday, 05/16/2003, at the Flamingo Casino and Hotel in Las Vegas, Nevada. The in-service was a training opportunity for the FBI's CPAs to receive training and information in the latest trends and techniques regarding professional accounting.

On Thursday, 05/15/2003, an employee at the Barbary Coast Casino and Hotel was about to exit the rear door of the kitchen onto the loading dock area of the hotel when he heard two gun shots. The employee observed an individual wearing a blue shirt and blue pants replacing a pistol into a holster on his right hip. The employee immediately called security to respond to the area. The subject was observed walking through the kitchen area towards the front of the kitchen. The hotel employee returned to the loading dock area and observed two bullet holes in the front of a large walk-in refrigerator located on the loading dock.

Hotel security officers reported that a white male subject matching the description of the shooter was observed walking towards the valet area at the front of the Barbary Coast Casino. The supervisor for Security responded to the valet area and confronted the male subject. A security guard arrived, approached the subject, and handcuffed him for the safety of officers due to the nature of the incident. Although compliant, the subject was reportedly extremely confused and intoxicated. Upon patting the subject down, a handgun was discovered on the right hip of the subject as well as two loaded magazines on his left hip. The subject was escorted to the security offices where security officers notified the Las Vegas Metropolitan Police Department (LVMPD) who responded to the scene. Upon arrival of the LVMPD officers, the subject was identified as SSA [redacted]

Officers of the LVMPD cited SSA [redacted] with a misdemeanor of unlawful discharge of a firearm in a prohibited area and took possession of his Glock 21 pistol. SSA [redacted] was released to Unit Chief [redacted] of the Investigative Training Unit. b6 b7C

According to SSA [redacted] earlier in the afternoon he consumed approximately four beers and subsequently consumed several additional beers and a glass of Scotch before going to dinner. During dinner SSA [redacted] consumed a glass of wine. After dinner, SSA [redacted] advised that his next memory was that of an acquaintance playing craps at an unknown location and remembered nothing until he was in the security office with several uniformed people. SSA [redacted]

advised that he knew he was being detained and remembered someone telling him that he shot a refrigerator. He recalled being briefly handcuffed and being read his Miranda Warnings as the uniformed personnel viewed a video of the shooting incident. SSA [redacted] advised that he had no recollection of how he got to the security office.

After being released to Unit Chief [redacted], SSA [redacted] went to his hotel room where he remained until he left Las Vegas.

On 08/14/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Jeff Vasey, Investigations Division, Office of Inspector General, USDOJ; Michael S. Clemens, Chief Inspector, Office of Inspections, Inspection Division; Charles D. Elder, Section Chief, Operational Support Section, Criminal Investigative Division; Jay C. Manning, Section Chief, CD-6, Counterintelligence Division; [redacted], Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Transfer Unit; Administrative Services Division; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Firearms Training Unit, Training Division; SSA [redacted] Operational Skills Unit, Training Division; and SSA [redacted], Washington Field Office. The two non-voting members present were [redacted] and [redacted] Management/Program Analysts, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members held a brief discussion regarding the actions of SSA [redacted] however made no recommendations regarding this matter due to the matter being previously referred to the OPR.

Report of: ASAC LARRY R. KUHL Office: DETROIT
Date: 07/22/2003

Case ID #: 297-HQ-A1271480-D

Title: SHOOTING INQUIRY;
REPORT OF SHOOTING INCIDENT
DETROIT DIVISION
May 14, 2003

Character: ADMINISTRATIVE INQUIRY/CIVIL RIGHTS

Synopsis: Captioned matter relates to a shooting incident which was predicated upon the attempted apprehension of a subject of an Unlawful Flight to Avoid Prosecution (UFAP) investigation. While law enforcement personnel were attempting to arrest the subject, he fled and fired at an Agent. The Agent returned fire. Neither the shots fired by the Agent or subject caused any injury. The subject then shot himself in the head, causing a fatal injury.

- P -

DETAILS:

On 05/13/2003, Eric Carpenter became an FBI subject based on the anticipation of the initiation of a UFAP process being issued regarding Carpenter. Carpenter was wanted on two separate homicide warrants and implicated in a third homicide, all emanating from investigations conducted within the city of Detroit by the DPD. Carpenter was known to carry two handguns and also possessed two AK47 assault rifles. On the evening of 05/13/2003, the Wayne County Prosecutors Office requested Unlawful Flight assistance in locating subject Carpenter by making the request to the Metropolitan Violent Crimes Street Gangs and Alliance Fugitive Task Force.

On 05/14/2003, at approximately 12:00 p.m., a confidential source advised VCTF members that the subject

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

was in Detroit driving a Chevrolet Corvette bearing a temporary North Carolina license certificate. Further, the subject had been seen within the hour in the vicinity of 3332 Clements Street, Detroit, Michigan.

VCTF units were dispatched to the area of 3332 Clements in an effort to find the vehicle.

On 05/14/2003, at approximately 1:00 p.m., Carpenter was observed while driving the Corvette bearing the North Carolina temporary registration. The vehicle was observed in the area of Davison and Santa Rosa (which is near the address of 3332 Clements). The vehicle was subsequently lost in traffic.

The vehicle was spotted again at approximately 3:00 p.m., at which time officers and Agents conducting surveillance observed the subject driving at a high rate of speed, again in the Corvette. The subject was followed to a school where he picked up a young child. Communication between the surveillance team during this period of time resulted in the collective concurrence that no attempts would be made to arrest him while he was near the school or in possession of the child. At the same time, Carpenter was in the accompaniment of a black female passenger, who had gotten out of the Corvette and gone into the school. When Carpenter departed the school he, in the company of the female companion and the child, was again followed but lost in the area of Interstate 96 and Davison. Approximately 10 to 15 minutes later, task force units observed the Corvette in a McDonalds Restaurant on Livernois near I-96. After it departed, the Corvette was briefly lost again until the vehicle was again observed traveling in the vicinity of Dexter and Davison. The Corvette was followed to the vicinity of 3352 Clements. The adult female and child were observed getting out of the Corvette and Carpenter was observed first getting out of the Corvette and then returning to it. After Carpenter returned to the car, the adult female also returned to the vehicle.

At this time, SA [redacted] along with task force officers [redacted] and [redacted], all in separate vehicles, collectively formulated a plan to box in the vehicle in an effort to prevent Carpenter from escaping when the attempted arrest would be made. The four participants agreed to attempt to effect the arrest of Carpenter after the police vehicles negotiated down Clements Street and effectively "boxing it" in. Task Force Officer (TFO) [redacted] drove past the Corvette and then blocked the front of the vehicle in order to prevent Carpenter from driving forward. SA [redacted] angled his vehicle also in front

b6
b7C

of the passenger side of the Corvette in an effort to further block the vehicle. SA [redacted] approached the passenger side of the Corvette, identified himself as law enforcement at least three times, according to SA [redacted] statement. He further issued commands to Carpenter consistent with arrest procedures. Carpenter exited the Corvette and ran. SA [redacted] reported that he informed the others that Carpenter was running. The Corvette, apparently in gear, rolled forward, hitting SA [redacted] car. Carpenter ran up a driveway and SA [redacted] pursued, repeatedly shouting, "Police, police, stop, let me see your hands." b6 b7C

Carpenter was at the end of the driveway when he reached his right hand into the waist band and pulled out a handgun, firing three to four shots at SA [redacted] SA [redacted] communicated the fact that the gun had been fired at him to the others and he took cover behind some garbage bags and returned approximately six rounds at Carpenter. Neither the shots fired by Carpenter or the shots fired by SA [redacted] inflicted any damage to each other or to other individuals. There were no other individuals in the immediate vicinity of the shooting path at the time. SA [redacted] lost his sight of Carpenter when Carpenter disappeared into the backyard adjacent to the driveway. When SA [redacted] ran to the end of the driveway, he observed Carpenter proceed from a backyard down an alley. SA [redacted] continued to issue instructions to Carpenter, telling him to drop his gun. He observed Carpenter take his handgun, point it to his head and discharge one shot to his own head, thereafter dropping to the ground. When SA [redacted] and other officers approached the subject, SA [redacted] noted a hole in the right side of Carpenter's head. Officer [redacted] secured Carpenter's handgun and a magazine which was located underneath Carpenter's body. Subsequent to the shooting, notification was made to the FBI office and to appropriate individuals within the DPD. At the onset of the on-scene investigation, SA [redacted] turned over his weapon to SAC Hulon, where it was eventually provided to the DPD for appropriate testing. A subsequent ballistics examination, as well as on-scene homicide investigation and autopsy, demonstrated substantial amounts of evidence that subject Carpenter had taken his own life. A review of statements provided by numerous other task force personnel, as well as bystander witnesses, provides substantial amounts of corroboration to the version provided by SA [redacted] as well as other individuals involved in the attempted arrest. b6 b7C

The interview statements of SA [redacted] TFO [redacted] and citizen witness [redacted] are the most pertinent with regard to the issue of appropriateness of use of force by SA [redacted] Each of these individuals represent various facets of eye witness

statements. A review of information provided by them shows consistency of observations. The subject initiated fire after fleeing the arrest attempt and after being instructed to drop his gun. SA [redacted] returned fire after he was fired upon.

b6
b7C

The crime scene shows casings and bullet hole locations to be consistent with the statements provided by witnesses.

The Medical Examiner's office ruled Carpenter's death a suicide, noting the soot residue on the scalp and the upward trajectory of the bullet, from right to left.

Report of: SSA [redacted] Office: ST. LOUIS
Date: 06/06/2003

Case ID #: 297-HQ-A1271906-D

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
ST. LOUIS DIVISION
MAY 12, 2003

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident occurred on May 12, 2003, at approximately 7:10 a.m. (CST) as a Special Agent of the Federal Bureau of Investigation (FBI), St. Louis Division, and two Special Federal Officers (SFOs) assigned to the St. Louis Division's Violent Crimes Fugitive Task Force (VCFTF) attempted to arrest [redacted] on a St. Louis County felony warrant for Trafficking in Drugs 2nd Degree, Unlawful Use of a Weapon, Resisting Arrest and Possession of a Controlled Substance. While attempting to arrest [redacted] he "rammed" his vehicle into a Bureau vehicle which was positioned to block [redacted] escape. After ramming the Bureau vehicle, the vehicle driven by [redacted] backed up and then proceeded forward directly at SA [redacted]. In fear of his life and for the safety of others, SA [redacted] discharged his personally owned Glock Model 22, .40 S&W caliber semi-automatic handgun twice through the driver's side window at the driver of the vehicle. The vehicle proceeded through several lawns at a high rate of speed and down the street where it navigated a dead end barricade. An attempt was made to surveil the vehicle by a member of the VCFTF until it was observed parked near a Taco Bell Restaurant. [redacted] was located in the parking lot of the Taco Bell on foot. [redacted] was subsequently arrested without further incident. [redacted] was injured and was taken to a hospital where he underwent surgery for a shattered elbow and a laceration in the general area of the right shoulder blade. As a result of [redacted] conduct on May 12, 2003, felony warrants were issued by the Circuit

Court of St. Louis County for Assault First Degree on a Law Enforcement Officer, Armed Criminal Action and Resisting Arrest.

DETAILS:

By way of background, the St. Louis Division of the FBI sponsors the St. Louis Violent Crimes Fugitive Task Force (VCFTF). The purpose of the VCFTF is to locate and arrest individuals with outstanding warrants for acts of violence. The VCFTF has a standard arrest protocol that is followed when making arrests.

b6
b7C

On May 12, 2003, FBI Special Agent (SA) [redacted] Detective [redacted] St. Louis County Police Department, and Detective [redacted] St. Louis Metropolitan Police Department, were assigned to the VCFTF. At approximately 6:40 a.m., Detective [redacted] Detective [redacted] and SA [redacted] met in the vicinity of [redacted] Pagedale, Missouri, to discuss the possible arrest of [redacted] The last known address for [redacted] was [redacted] Pagedale, Missouri. Detective [redacted] provided a briefing regarding [redacted] which included name, description, photograph and the fact that [redacted] was wanted by St. Louis County for outstanding warrants for Trafficking in Drugs 2nd Degree, Unlawful Use of a Weapon, Resisting Arrest and Possession of a Controlled Substance. An operational plan for the surveillance and arrest of [redacted] was developed. The operational plan was consistent with the arrest protocol on file. The operational plan included wearing ballistic vests with a patch bearing the word "POLICE" across it.

SA [redacted] and Detective [redacted] initiated surveillance on the front of [redacted] in two separate vehicles. Detective [redacted] positioned himself and his vehicle at [redacted] Avenue to surveil the rear exit of the residence. SA [redacted] and Detective [redacted] observed a black female later identified as [redacted] exit [redacted] and head in an easterly direction across the street. The black female made contact with a black male sitting in the drivers' seat of a burgundy Pontiac Bonneville which was backed into the driveway and parked at [redacted] After a brief conversation, the female left the car and, as if returning to [redacted] passed the vehicles where Detective [redacted] and SA [redacted] are parked. After observing the law enforcement officers, the black female returned to the burgundy Pontiac Bonneville and had a second conversation with the same black male in the driver's seat. After a second brief conversation, the black female returned to [redacted]

b6
b7C

Detective placed a pretext telephone call to to determine if was present. A female answered the call and stated that was not present.

Believing that the black male in the burgundy Pontiac Bonneville may be SA and Detective decided to approach the male to determine his identity. Detective initiated a U-turn and approached while SA pulled forward to block the driveway at As SA positioned his vehicle, the unidentified male in the driver's seat ducked down behind the dashboard. As SA exited his vehicle, the driver re-appeared and the burgundy Pontiac Bonneville attempted to move forward. SA identified the driver as SA drew his weapon. Despite verbal instructions to "Stop," the vehicle continued forward. SA continued to yell "Stop. Police." and attempted to open the driver's door. did not comply with the commands and the vehicle struck SA Bureau vehicle.

b6
b7C

Meanwhile, Detective had exited his vehicle and approached the Bonneville from the passenger's side. Detective pointed his weapon at the driver and yelled "Police" and "Put your hands in the air and exit the vehicle." looked directly at Detective then put the vehicle in reverse, backed up, put the vehicle in drive and turned sharply to the left. The vehicle pulled forward quickly with dirt spinning from the tires and the engine running fast. The vehicle was proceeding directly at SA and in an attempt to run over SA In fear of his life and for the safety of others, SA discharged his personally owned Glock Model 22, .40 S&W caliber, semi-automatic handgun, serial number DWF336US, twice through the driver's side window at SA was able to leap away from the vehicle and avoid being struck.

The vehicle proceeded through several lawns at a high rate of speed. The vehicle then entered the street and proceeded south on Griefield. Detective initiated surveillance of the vehicle after ensuring the well-being of SA and Detective The street dead ends with a steel barricade. The vehicle navigated the barricade and fled the scene. Detective attempted to stay in visual contact with the vehicle while providing directions to SA and Detective After a short time, Detective observed the vehicle parked in the 6100 block of Rosedale with on foot approximately 75 yards from the vehicle. Detective observed removing articles of clothing and placing

b6
b7C

them in a trash can located at the rear of a Taco Bell Restaurant, 851 North Skinker. SA [redacted] and Detective [redacted] arrived, and together with Detective [redacted] placed [redacted] in custody without further incident. [redacted] was noted to be injured and was immediately transported by ambulance to Barnes-Jewish Hospital. [redacted] underwent surgery for a shattered elbow and received stitches for a laceration in the general area of the right shoulder blade.

After the incident, SA [redacted] telephonically notified Acting Assistant Special Agent in Charge (A/ASAC) Thomas B. Noble. A/ASAC [redacted] responded to the scene and took possession of SA [redacted] personally issued Glock 22, .40 S&W caliber semi-automatic handgun. The handgun was placed in a sealed bag and transferred to Relief Supervisory Special Agent [redacted] A/SSA [redacted] transported the handgun to the St. Louis County Crime Lab where it was test fired and returned to A/SSA [redacted] A/SSA [redacted] then returned the handgun to SA [redacted] The handgun was a Glock Model 22, .40 S&W caliber semi-automatic pistol, serial number DWF336US.

b6
b7C

[redacted] was interviewed at Barnes-Jewish Hospital by Agents of the FBI. [redacted] was advised of his Miranda Rights. [redacted] stated that he was approached by two armed white males in ballistic vests with gold lettering while sitting in his vehicle at [redacted] The two males ordered him from his vehicle. [redacted] did not recall if the individuals identified themselves as law enforcement officers. Thinking he was being robbed, [redacted] attempted to drive away. [redacted] heard one of the men order him to "Stop" but he did not comply. He heard two or three gunshots and was struck once in the elbow and grazed by another across the back. [redacted] escaped by driving over some grass and around the vehicle that was parked in front of him. [redacted] advised that at no time did his vehicle make contact with any other vehicle. [redacted] declined to provide any further information.

b6
b7C

The St. Louis County Police Department conducted an investigation of the incident and formalized their investigative report (refer to complaint number 03-0042019). One person who was interviewed was [redacted] who resides at [redacted] Pagedale, MO. [redacted] is familiar with [redacted] and witnessed the events of May 12, 2003, from her apartment window. [redacted] was drawn to the window at approximately 7:30 a.m., when she heard yelling outside. Upon looking out, she observed [redacted] in his car and a police detective ordering [redacted] not to move his car. [redacted] stated that the detective had the word "police" on a jacket he was wearing. [redacted] stated that

there was an unmarked car blocking the exit path of [redacted] car. [redacted] advised [redacted] car was not backed into her driveway. [redacted] observed [redacted] car move forward while the detective was yelling for him to stop the car and exit it immediately. A few seconds later, [redacted] heard what sounded like two cars hitting. [redacted] looked back out and observed [redacted] move the vehicle to a position so that it was facing directly at the detective. The detective took several steps out of the path of the car. [redacted] then observed the car change directions so that it was again pointed directly at the detective. [redacted] heard tires squealing and the car drove forward at the detective. The detective jumped to his right to avoid the car and while doing so, [redacted] observed the detective fire two shots at the vehicle. [redacted] observed the vehicle continue across the lawn and down the street until it was lost from sight. [redacted] stated that if the detective had not jumped to the side, he would have been struck by the car.

b6
b7C

[redacted] was interviewed. [redacted] is the son of [redacted] and resides at [redacted], Pagedale, MO. [redacted] is readily familiar with [redacted] and his vehicle. [redacted] advised that after being awoken by his mother to get ready for school, he heard someone yelling outside of his window. When he looked out, he observed someone being ordered to get out of a car. [redacted] advised that [redacted] car was moving back and forth in the driveway. [redacted] observed what he believed to be a police detective by the car with his gun drawn. [redacted] stepped away from the window and heard a loud noise "like two cars had collided." A second or two later, [redacted] heard at least two shots fired from the front of the house. [redacted] did not look back out of the window and did not see who had fired the shots.

[redacted] was also interviewed. [redacted] resides at [redacted], Pagedale, MO, and is the mother of [redacted] advised that sometime between 7:00 a.m and 7:15 a.m., on May 12, 2003, she last saw her son. She was leaving her residence when she observed her son in a red vehicle parked in the 1200 block of Griefield. She spoke briefly with him and departed giving him a hug. She walked a short distance and remembered she had forgotten to give her mother a message. She turned around and walked back to her residence. Upon stepping inside, she heard what sounded like several gunshots nearby. She continued talking with her mother and thought nothing more of the shots. [redacted] declined to provide any further information.

b6
b7C

[redacted] was also interviewed. [redacted]

resides at [redacted] Pagedale, MO, with her daughter, [redacted] and [redacted] two children. Early in the morning of May 12, 2003, she received a phone call from someone asking for [redacted] advised the caller that [redacted] was not home. Shortly after the phone call and while getting [redacted] children ready for school, she heard what sounded like gunshots. She went to the front door and observed [redacted] standing in the street. [redacted] observed a car drive by her son towards the dead end of the street. b6 b7C

The crime scene was processed by the St. Louis County Police Department Crime Scene Unit (CSU). Photographs and sketches were made. One bullet was recovered from the passenger front seat of the Pontiac Bonneville. One bullet was recovered from [redacted] at the hospital. Two shell casings were recovered from the scene. At the rear of the Taco Bell Restaurant, 851 North Skinker, was located a trash barrel. Inside the trash barrel were a cell phone, two keys, a pack of cigarettes and a face plate for a Clarion automobile radio.

The St. Louis County Police Department Crime Lab assigned Lab Number 099-2003-42019 to their report. The Lab compared the bullet test fired from SA [redacted] handgun with the bullet recovered from the Pontiac Bonneville. The lab stated that "there are insufficient individual identifiable characteristics to make a positive identification." The Lab compared the bullet test fired from SA [redacted] handgun with the bullet recovered from [redacted] at the hospital. The Lab stated that "there are insufficient individual identifiable characteristics to make a positive identification." The test shell casing was compared to the two shell casing recovered from the scene. The Lab concluded that the recovered shell casings were "definitely fired" from SA [redacted] handgun. b6 b7C

A Missouri Uniform Accident Report number 03-45526 documenting the collision between the vehicle driven by [redacted] and SA [redacted] Bureau assigned vehicle was completed.

Special Agent [redacted] was interviewed pursuant to the investigation. SA [redacted] is the Principal Firearms Instructor for the St. Louis Division. SA [redacted] advised that SA [redacted] was authorized to carry a personally owned semi-automatic Glock Model 22, .40 S&W caliber pistol, serial number DWF336US. SA [redacted] last qualified on the Pistol Qualifications Course (PQC) with the Glock serial number DWF336US on April 15, 2003. SA [redacted] scored a 98 on the PQC. It was

also noted that SA [redacted] is a certified FBI Firearms Instructor and was last certified on February 24-28, 2003, at the FBI Academy. SA [redacted] is a certified Tactical Instructor and Defensive Tactics Instructor and is currently the Tactical Coordinator and the Defensive Tactics Coordinator for the St. Louis Division. SA [redacted] last underwent judgmental/decision-making scenario-based firearms training using the Firearms Advanced Training System (FATS II) on April 1, 2003. SA [redacted] has had several years of experience and training while serving on the SWAT team, St. Louis Division. SA [redacted] was afforded deadly force related training as well as other legal training updates by the St. Louis Division Chief Division Counsel (CDC) Peter J. Krusing during each firearms session. b6 b7C

On Tuesday, May 13, 2003, Detectives from the St. Louis County Police Department met with Chief Warrant Officer [redacted] of the St. Louis County Prosecuting Attorney's Office. Mr [redacted] prepared warrants charging [redacted] with Assault First Degree on a Law Enforcement Officer, Armed Criminal Action and Resisting Arrest. The warrants were presented to the Honorable Joseph A. Goeke, Judge, Circuit Court of St. Louis County who issued the warrants for [redacted]

On May 22, 2003, Mr. [redacted] St. Louis County Prosecuting Attorney, St. Louis County Justice Center, Clayton, Missouri, advised that he did not intend to seek prosecution against SA [redacted] regarding his actions on May 12, 2003.

Re: 297-HQ-A1271970-D, 08/18/2003

b6
b7C

Details of the Shooting Incident

On 04/17/2003, members of the Washington Field Office Safe Streets Task Force executed a search warrant at a Southeast Washington, D.C., residence known to be a drug distribution site. Investigation also determined that the residence was a stash location for numerous firearms, including long arms.

Several pre-operational briefings were conducted prior to the execution of the search warrant emphasizing the strong possibility of firearms on or around the premises which could pose a threat to the search team. A discussion was also held regarding the possibility of an aggressive and ferocious pit bull dog being at the location. SA [redacted] was tasked with carrying a shotgun for the purpose of engaging the dog if the need arose.

Members of the entry and search teams arrived at the search location at approximately 4:00 p.m., and observed the dog roaming freely in the front yard. As soon as SA [redacted] exited his vehicle, the pit bull charged; however no contact was made because the dog got caught on top of a fence and fell. As the Agent pulled his firearm to neutralize the dog, he noticed an individual running from the back of the residence towards the search team. As SA [redacted] focused his attention on the approaching individual, the dog continued to prohibit the entry team from passing through the front gate. SA [redacted] believing the search team was in imminent danger of serious physical injury, fired once striking the dog. The gunshot failed to slow the dog's attack resulting in both SAs [redacted] and [redacted] firing additional rounds, killing the dog. Entry team members secured the residence without further incident and requested that District of Columbia personnel dispose of the dead animal.

On 08/14/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Jeff Vasey, Investigations Division, Office of Inspector General, USDOJ; Michael S. Clemens, Chief Inspector, Office of Inspections, Inspection Division; Charles D. Elder, Section Chief, Operational Support Section, Criminal Investigative Division; Jay C. Manning, Section Chief, CD-6, Counterintelligence Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted], Unit Chief, Transfer Unit; Administrative Services Division;

SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Firearms Training Unit, Training Division; SSA [redacted] Operational Skills Unit, Training Division; and SSA [redacted] Washington Field Office. The two non-voting members present were [redacted] and [redacted] Management/Program Analysts, Inspection Management Unit, Office of Inspections, Inspection Division.

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary. b6 b7C

SIRG members unanimously agreed that the actions of SAs [redacted] and [redacted] were justified and that no action should be taken against them as a result of their involvement in this shooting incident.

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 09/04/2003, involving Special Agent (SA) [redacted] SA [redacted] shot and killed an injured deer that had been struck by his bureau vehicle. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference Electronic Communication of SA [redacted], dated 09/15/2003.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271749-D, 10/20/2003

**Details of the Shooting Incident**

On 09/04/2003, at approximately 9:50 a.m., SA [redacted] struck a deer while driving his Bureau vehicle. Upon striking the deer, SA [redacted] immediately stopped and exited his vehicle and observed the deer attempting to get up as it lay next to the road. SA [redacted] notified the Sawyer County Sheriff's Department about the accident and the injured deer. A Sheriff's Department investigator advised SA [redacted] that no county officers were immediately available to respond to the incident and asked if he could shoot the deer. SA [redacted] discharged one round from his Bureau-assigned Glock Model 22, 40 caliber pistol, killing the deer. b6 b7C

On 10/15/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Steven C. McCraw, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Jeff Vasey, Investigations Division, Office of Inspector General, USDOJ; Michael S. Clemens, Chief Inspector, Office of Inspections, Inspection Division; [redacted] Assistant Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief (UC), Physical Surveillance Unit, Counterintelligence Division; [redacted] UC, National Firearms Program, Training Division (TD); [redacted] UC, Investigative Law Unit, Office of the General Counsel (OGC); [redacted] UC, Firearms Training Unit, Training Division; [redacted] Program Manager, Practical Applications Unit, TD; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Investigative Law Unit, OGC; and SSA [redacted] Washington Field Office. The three non-voting members present were SSA [redacted] Operational Skills Unit, TD; [redacted] and [redacted] Management/Program Analysts, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to; (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and

(4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the actions of SA [redacted] were justified and that no action should be taken against him as a result of this shooting incident.

**Title:** ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
07/22/2003
PHOENIX DIVISION

b6
b7C

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 07/22/2003, involving Special Agent (SA) [redacted] SA [redacted] shot and killed a deer that was severely injured by a vehicle. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference Electronic Communication (EC) of Assistant Special Agent in Charge Ray P. Churay, dated 08/04/2003.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

**Details of the Shooting Incident**

On 07/22/2003, while on official duty, SA [redacted] stopped to render assistance at the scene of a vehicle-deer accident. The deer was alive but off the highway, posing no threat to anyone's safety. SA [redacted] decided to wait for the arrival of Department of Public Safety (DPS) officers to handle the injured deer; however, the deer began to drag itself towards the highway. SA [redacted], concerned for the safety of individuals traveling on the highway, fired two shots with his Glock Model 22, .40 caliber pistol, killing the deer.

On 08/14/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Jeff Vasey, Investigations Division, Office of Inspector General, USDOJ; Michael S. Clemens, Chief Inspector, Office of Inspections, Inspection Division; Charles D. Elder, Section Chief, Operational Support Section, Criminal Investigative Division; Jay C. Manning, Section Chief, CD-6, Counterintelligence Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Transfer Unit; Administrative Services Division; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Firearms Training Unit, Training Division; SSA [redacted] Operational Skills Unit, Training Division; and SSA [redacted], Washington Field Office. The two non-voting members present were [redacted] and [redacted] Management/Program Analysts, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and

(4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in compliance with the deadly force policy and that no administrative action should be taken against him as a result of his involvement in this shooting incident. b6 b7C

Report of: ASAC HERBERT M. BROWN Office: Los Angeles
Date: 07/24/2003

Case ID #: 66F-LA-234327

Title: ADMINISTRATIVE INQUIRY;
SHOOTING INCIDENT;
LOS ANGELES DIVISION;
05/30/2003

Character: ADMINISTRATIVE INQUIRY

Synopsis: On May 30, 2003 at approximately 3:00 am, members of Los Angeles Division Squad CE-1 were involved in the apprehension of a drug dealer, subject [redacted]. During the arrest of subject [redacted] a shooting incident occurred involving three members of the Squad CE-1. Prior to this incident, on May 29, 2003, another shooting incident involving another member of Squad CE-1 happened during an effort to apprehend subject [redacted].

The initial shooting incident of May 29, 2003 played an integral part in what occurred during the May 30, 2003 incident. The facts behind this incident will be provided prior to outlining what happened on May 30, 2003.

On May 29, 2003 at approximately 7:00 p.m., members of Los Angeles Squad CE-1 prepared to conduct a buy/bust arrest of subject [redacted] in West Hollywood.

b6
b7C
b7D

[redacted]

[redacted]

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

[redacted] a surveillance van holding five FBI agents drove towards [redacted] vehicle to block it from trying to exit. b6 b7C b7D

As the FBI vehicle approached subject [redacted] pick-up, he apparently realized he was about to be arrested. He drove forward in an attempt to drive around the van and the two vehicles collided, both left front corners making contact. Subject [redacted] continued driving forward and struck the driver's side door as SA [redacted] the driver of the van, attempted to exit the vehicle. The door slammed back against SA [redacted] causing an injury to his left arm.

Subject [redacted] continued driving forward at a high rate of speed in the parking lot. At this time, SA [redacted] had driven forward in his vehicle to assist the members of his squad. Subject [redacted] collided head on into SA [redacted] vehicle causing severe damage to the vehicle. The large pick-up being driven by subject [redacted] bounced to the right and landed atop a sidewalk which runs adjacent to the restaurant's building. As SSA [redacted] opened the exit door of the restaurant to assist in the arrest, he noticed subject [redacted] vehicle coming towards him, atop the sidewalk, and at a high rate of speed. SSA [redacted] stepped back just in time to avoid being injured as subject [redacted] vehicle slammed into and destroyed the door.

Subject [redacted] continued driving forward in an effort to escape from the scene. SA [redacted] who was now on foot and walking towards the area where the arrest was to take place, was standing in the path where the subject's vehicle was now headed. As the vehicle passed near him, SA [redacted] saw the subject he knew as [redacted] and fired two rounds at him. One of the rounds struck the vehicle on the front passenger door while the other missed the vehicle causing no damage. The subject's vehicle continued out of the parking lot and drove west and then north from the area. SA [redacted] was not harmed during the incident. At this time it was unknown whether or not subject b6 b7C

[redacted] had been shot.

Members of Squad CE-1 chased subject [redacted] in their vehicles as he fled from the area. [redacted] drove a few blocks and then abandoned his vehicle in a residential neighborhood. The FBI, the Los Angeles Police Department (LAPD) and the Los Angeles Sheriff's Department (LASD) set up a perimeter at the location. The Los Angeles FBI SWAT team also responded to the area to assist in the matter. They searched for subject [redacted] but were unable to locate him. b6 b7C

Subject [redacted] was eventually arrested on May 30, 2003 at approximately 3:00 a.m. in downtown Los Angeles by the FBI. During the arrest, there was another shooting incident. See 66F-LA-234327 and 89B-LA-234329 for the facts and circumstances behind this incident. Subject [redacted] along with the already pending drug dealing charges, will be charged with several counts of Assault on a Federal Officer.

The Los Angeles FBI Agent Involved Shooting (AIS) team responded to the area to conduct an administrative inquiry following the incident. The team conducted interviews of the agents involved as well as witnesses to the incident. The neighborhood, which is all businesses, was canvassed for any other witnesses but none were located. The AIS team coordinated the investigative requirements from the LASD and the LAPD at the scene. Neither the LAPD or the LASD generated any reports for this incident. SA [redacted] after providing information as to public safety issues concerning the rounds he fired and being provided an EAP contact, was released from the scene. His weapon used during the incident was retrieved by the AIS prior to his departure and he was provided another Bureau issued weapon of the same make and model.

The Los Angeles FBI Evidence Response Team (ERT) responded to the location and processed the scene at the restaurant parking lot. They retrieved shell casings fired from SA [redacted] weapon as well as other items of evidence at the crime scene. They made sketches and took photographs of the scene to include the injury to SA [redacted] One of the rounds fired by SA [redacted] was located inside the passenger compartment of subject [redacted] vehicle on the floorboard on the driver's side. The round appears to have struck the passenger side door and then ricocheted off the vehicle's mirror before finally coming to a rest inside the vehicle. Efforts to locate where the other round struck were made, but the round could not be found. b6 b7C

SA [redacted] received medical attention two days after

the incident, but was not injured to the extent he needed to miss work. No other agents assaulted during this incident received any or claimed to require any medical treatment.

Following this incident, members of Squad CE-1 conducted further investigation to determine subject [redacted]s location. The squad located an associate of subject [redacted] who advised he had a white van registered to him. In addition, the associate advised [redacted] was probably staying at [redacted] Street in Los Angeles, California. The Los Angeles FBI SWAT team was asked to respond to this general area while members of Squad CE-1 set up a surveillance at the residence.

b6
b7C

It was approximately 2:15 am on May 30, 2003 when surveillance units from Squad CE-1 arrived [redacted] A white van registered to subject [redacted] was located parked near the residence on Colyton Avenue. A surveillance team made up of SA [redacted] and SA [redacted] parked in the area to watch the van which appeared unoccupied. Another surveillance team made up of SA [redacted] and SA [redacted] also parked near this area.

While watching the white van, SA [redacted] and SA [redacted] noticed a newer SUV driving by the residence at [redacted] on two occasions. The second time it drove by they decided to follow it to get a look at the occupant(s). SA [redacted] and SA [redacted] followed the first surveillance team should they conduct a traffic stop and would need back up assistance. SA [redacted] and SA [redacted] followed the SUV a short ways and then drove past the vehicle's left side to get a look at the driver. They were able to determine this was not subject [redacted] and then continued on to return to their original position to watch the white van registered to subject [redacted]

SA [redacted] and SA [redacted] decided to continue following the SUV in case the occupants were possibly associated with subject [redacted] About three blocks from the [redacted] address, they decided to conduct a traffic stop. They activated their emergency lights and the SUV came to a stop near the southeast corner at the intersection of 4th Street and Alameda Avenue.

b6
b7C

SA [redacted] and SA [redacted] were in the process of contacting the driver of the SUV via the public address (PA) system of the Bureau vehicle. They were giving the driver commands through the PA system. SA [redacted] had exited the Bureau vehicle and was in the process of approaching the SUV when SA [redacted] heard someone on the Bureau radio communicate that the

white van belonging to subject [redacted] was now moving.

After having seen the driver of the SUV and determining it was not subject [redacted] SA [redacted] and SA [redacted] had returned to the area of [redacted] At approximately 3:00 am they observed the backup lights of the white van illuminated and the vehicle began backing. It was at this time they advised the other surveillance units at the location the van was moving and this is what SA [redacted] heard as SA [redacted] was approaching the SUV three blocks away. SA [redacted] tried to advise SA [redacted] what was happening but SA [redacted] did not hear his communication. b6 b7C

As the white van was backing up it positioned itself to turn north on Colyton Avenue. SA [redacted] drove north past the van as he and SA [redacted] tried to determine if the driver was subject [redacted] After driving past the white van and slowing down, SA [redacted] stated he could clearly see the driver who matched the description of subject [redacted] He was now certain this was subject [redacted] SA [redacted] had turned his vehicle to the right which made it somewhat perpendicular to the white van. SA [redacted] whose passenger side window was open exposed his upper torso to subject [redacted] SA [redacted] had the letters "FBI" clearly showing on his person. In addition, he was holding his handgun in his right hand while waving for subject [redacted] to stop the white van. He was also yelling the words, "FBI stop!"

Subject [redacted] suddenly turned the van to the left in the middle of the street and appeared to be trying to make a U-turn in the middle of the street. SA [redacted] also began a U-turn thinking the subject was attempting to travel south on Colyton Avenue. It was at this time when the white van being driven by subject [redacted] accelerated in reverse directly towards the passenger side of the Bureau vehicle occupied by SA [redacted] and SA [redacted] SA [redacted] yelled for SA [redacted] to drive forward to avoid the collision. The van was only a few feet from striking the area where SA [redacted] was seated when SA [redacted] was able to move the Bureau vehicle. The two vehicles barely missed colliding in the street.

Subject [redacted] continued driving in reverse at a high rate of speed north on Colyton Avenue. SA [redacted] turned his vehicle to drive forward while pursuing the subject. The two vehicles reached the intersection of 4th Street and Colyton Avenue and turned west on 4th Street. Subject [redacted] was still driving in reverse and was approximately 100 feet from Alameda Avenue when SA [redacted] fired one round at the white van. The round struck the left front corner of the vehicle's windshield. b6 b7C

SA [redacted] and SA [redacted] had exited their vehicle as they were still in the process of contacting the driver of the SUV at 4th Street and Alameda Avenue. At this time they heard a gunshot(s) around the corner on 4th Street. Both FBI agents had moved forward to see what was occurring.

Subject [redacted] was still traveling in reverse at a high rate of speed as he came to Alameda Avenue. At this time he turned the vehicle to travel south onto Alameda Avenue but he cut the corner to close. Subject [redacted] drove atop the sidewalk and struck a traffic lightpole on the southeast corner of 4th Street and Alameda Avenue. As he was about to strike the traffic lightpole, he almost struck both SAs [redacted] and [redacted] who each had to quickly move to avoid being injured.

b6
b7C

Subject [redacted] vehicle, after striking the traffic lightpole came to a stop. SA [redacted] and SA [redacted] were now on the passenger side of the white van. Subject [redacted] exited the vehicle and began to run westbound in the intersection. SA [redacted] yelled for the subject to stop but he kept on running. SA [redacted] had moved out into the intersection and to the front of the van to begin chasing subject [redacted] At this same time, SA [redacted] began to fire three rounds at subject [redacted] SA [redacted] stopped and also fired one round at the subject.

Subject [redacted] once the rounds had been fired, came to a stop a few yards west of the intersection on 4th Street. He fell prone onto the ground as SA [redacted] and SA [redacted] were now able to drive to him and place him under arrest. Subject [redacted] told the agents he was not injured and had not been struck by any rounds either during the incident on May 29, 2003 or the one on May 30, 2003.

Subject [redacted] after being taken into custody, was taken to the Los Angeles Metropolitan Detention Center (MDC). He refused to make a statement to arresting agents. As noted earlier, subject [redacted] will not only be facing the drug dealing charges but also several counts of an Assault on a Federal Officer. See 89B-LA-234329 concerning the assault charges.

b6
b7C

The Los Angeles FBI AIS team responded to the scene to conduct an investigation and an administrative inquiry of what had occurred. The team conducted an interview of the one witness located at the scene. This was the driver of the SUV that had been stopped by SAs [redacted] and [redacted] The LAPD responded to the location and conducted a traffic accident investigation due to the traffic lightpole having been damaged by subject [redacted] vehicle. The FBI AIS team spoke with Lt. [redacted] of the

LAPD concerning the shooting incident. It was decided the LAPD would conduct no further investigation into the incident other than the traffic accident. The LAPD provided perimeter control while the FBI AIS team finished obtaining information at the crime scene. They also provided a copy of the accident report to the FBI.

The Los Angeles ERT was asked to respond to the location to process evidence at the site. They retrieved four (4) shell casings located near or in the intersection of 4th Street and Alameda Avenue. They also located another round located on 4th Street several hundred feet east of Alameda Avenue. They also located several other items at the location belonging to subject [redacted] This is to include a broken garage door opener found near the area where subject [redacted] finally stopped and was apprehended. The Los Angeles ERT, under the instruction of the Los Angeles AIS team, also made sketches and took photographs of the crime scene.

Efforts were made to locate where the five rounds that had been fired during the incident had struck. One round, as noted above, struck the left front corner of the subject vehicle's windshield. The other rounds were fired in a westerly direction down 4th Street. This is an older "rundown" business area where there are mostly large industrial type buildings. The area was canvassed but no other rounds could be definitively shown to have struck a particular location. Area hospitals were checked with negative results as to ensure no random rounds had struck anyone. b6 b7C

Subject [redacted] is currently incarcerated at the MDC in Los Angeles. There was no handgun associated with subject [redacted] located at the crime scene.

None of the FBI agents assaulted during this incident received any injuries.

- P -

66F-LA-234327

DETAILS:

This case is predicated upon information that SAs [redacted], and SA [redacted] assigned to the Los Angeles Division of the Federal Bureau of Investigation (FBI), had been involved in a shooting incident at approximately 3:00 am on May 30, 2003., The FBI agents, while on official duty, had been in the process of arresting subject [redacted] when the shooting incident occurred.

Report of: ASAC HERBERT M. BROWN Office: Los Angeles
Date: 12/20/2003

Case ID #: 66F-LA-235822

Title: ADMINISTRATIVE INQUIRY;
SHOOTING INCIDENT;
LOS ANGELES DIVISION;
OCTOBER 26, 2003

Character: ADMINISTRATIVE INQUIRY

Synopsis: On October 26, 2003, Special Agent (SA) [redacted] credential number [redacted] assigned to the Los Angeles Division of the Federal Bureau of Investigation (FBI), was off-duty when he was involved in a shooting incident. He was carrying his off-duty weapon along with his FBI badge in a fanny pack.

At approximately 11:15 am on this date, SA [redacted] was in a rental truck parked near a "Home Depot" home center in Marina Del Rey, California. He was being accompanied by his girlfriend who was parked behind him in a separate vehicle. The two of them had rented the truck and planned on moving their belongings to a new residence. It was SA [redacted] intention to hire two day laborers who had gathered near the home center looking for work to assist him in moving his furniture. b6 b7C

SA [redacted] picked out two individuals he intended to hire indicated to them to get into his rental truck. Before they could enter the truck two other day laborers, [redacted] and [redacted] entered his truck on the passenger side. [redacted] told them both to exit his vehicle as he did not want to hire them. The three of them were having a verbal argument, the subjects speaking primarily what SA [redacted] presumed was Spanish while the agent spoke in English.

Subject [redacted] was closest to the passenger door when he grabbed a plastic drinking bottle belonging to SA

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

[redacted] He exited the vehicle while the agent was still yelling for [redacted] to get out of his truck. [redacted] then leaned back into the vehicle and, while yelling back at SA [redacted] threw the plastic bottle at the agent. The bottle did not strike SA [redacted] but landed on the steering column of the vehicle.

At this time SA [redacted] verbally identified himself as a police officer while continually telling both subjects to get out of his vehicle. [redacted] then lunged over the lap of [redacted] and with his right hand struck the right side of SA [redacted] face. The strike did not have much of an impact because the agent moved his head. [redacted] then grabbed the agent's fanny pack which contained his off-duty weapon. It was lying on the agent's lap and unattached to his person at the time. SA [redacted] was able to wrestle the fanny pack away from [redacted] who then exited the vehicle. As he was leaving the vehicle [redacted] twice said the word "pistola" to [redacted]

b6
b7C

SA [redacted] took the keys from the vehicle and exited the driver's side door. At this time [redacted] came around the front of the truck and once again lunged toward and tried to strike the agent who avoided the assault by moving out of the way. He continually told the subjects he was a police officer and did not want any trouble from them.

SA [redacted] tried to put some space between himself and the subjects by backing away from them, but they kept trying to get closer to him. He pulled his FBI badge out of his fanny pack and displayed it to them in hopes it would convince them to stop.

SA [redacted] reached the area behind his rental truck and then noticed a third male approaching him also. This male was identified as [redacted] The three males formed a circle around the agent as he tried to move away from them. While displaying his FBI badge, he was still yelling for them to back away from him and that he was a police officer.

b6
b7C

SA [redacted] believed his actions were not having an effect as all three subjects were becoming more aggressive. He placed his hand on his off-duty weapon which was still in his fanny pack. The three continued to grab and lunge toward the agent as he attempted to move away from them. At this time he decided to pull his weapon out of his fanny pack. He pointed the weapon at each of the subject's chests while still yelling for them to back away and that he was with the police. This caused the subject's to back up two or three yards.

SA [redacted] stated he was addressing both [redacted] and [redacted] as they continued to circle him. The agent then noticed [redacted] had moved to the sidewalk adjacent to the road and was now four or five yards away from him. [redacted] had picked up a large shopping cart and was holding it over his head. SA [redacted] turned and pointed his weapon at [redacted] chest. He then threw the cart at the agent who was forced to move or the cart would have struck him.

SA [redacted] then moved onto the sidewalk to avoid both [redacted] and [redacted] who still were trying to grab him. He was still being confronted by [redacted] who was yelling at the agent and attempting to grab him. At this time SA [redacted] observed approximately ten more day laborers walking towards his location. The agent said he feared if he were to shoot and harm or kill [redacted] it could start a riot amongst the crowd of day laborers. b6 b7C

SA [redacted] advised [redacted] was now getting more agitated. He was using hand gestures with his fists. When the agent tried to move away from the three subjects, they moved into his path. SA [redacted] felt he could not leave his girlfriend in harm's way as she was about twenty-five feet away in her vehicle. The agent wanted to get far enough away to make a cellular telephone call to ask for assistance. Considering all of the above, SA [redacted] felt he had no option left other than to fire a round in order to disperse the subjects and the crowd.

SA [redacted] stated he pointed his weapon to the area where there was an empty lot and some new construction. He did not observe anyone that could be harmed if he were to fire a round in the direction of the construction area. At this time he fired one round.

SA [redacted] said after the round was fired, the three subjects, [redacted] and [redacted] continued to encircle and lunge towards him. The agent moved into the Home Depot home center parking lot. At this time a bystander intervened and grabbed [redacted] and took him to the ground and held him. Once [redacted] was on the ground, [redacted] and [redacted] slowly backed away from the area. This gave SA [redacted] time to telephone for assistance. The LAPD responded to the scene and all three subjects were taken into custody and transported from the scene. All three of them were booked for attempted armed robbery. b6 b7C

The FBI Los Angeles Agent Involved Shooting (AIS) team responded to the scene to conduct an administrative inquiry of the shooting incident. The team met with the detectives from the LAPD concerning jurisdictional issues. It was determined SA

[redacted] was off duty at the time he was assaulted and the shooting incident occurred. FBI Los Angeles advised the LAPD it would conduct an administrative inquiry separate from the LAPD's assault case. (See administrative matters on cover page E of this report for details).

FBI Los Angeles conducted a search of the area where SA [redacted] round was directed towards. No one was found to have been injured and there was no damage to any property located. Checks of medical facilities following the shooting did not reveal anyone having been shot or harmed. The round itself was not found.

b6
b7C

Subjects [redacted] and [redacted] were subsequently released by the Los Angeles District Attorney as they had not physically struck SA [redacted] Subject [redacted] was charged with and convicted of assault with a deadly weapon and battery. He was sentenced to five months incarceration and is subject to deportation from the U.S. to El Salvador upon his release.

SA [redacted] did not require any medical attention following the assault. No one else at the scene was harmed.

DETAILS:

This case was predicated upon information that SA [redacted] assigned to the Los Angeles Division of the Federal Bureau of Investigation (FBI), had been involved in a shooting incident at approximately 11:15 a.m. on October 26, 2003. SA [redacted] was off-duty at the time of the incident. b6 b7C

**Title:** ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
10/03/2003
SAN FRANCISCO DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 10/03/2003, involving Special Agent (SA) [redacted] SA [redacted] fired one shot from her Bureau-issued Sig Sauer, Model 228, nine millimeter, pistol at a charging pit bull dog during the execution of a search warrant. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of her involvement in this shooting incident.

**Administrative:** Reference report of Supervisory Special Agent (SSA) [redacted] dated 10/07/2003.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271917-D, 02/26/2004

**Details of the Shooting Incident**

As part of an ongoing investigation, Agents of the San Francisco Division were assisting in the service of approximately 26 Federal arrest warrants and 29 Federal search warrants. SA [redacted] was assigned to assist in the service of a search warrant at a residence located in Brentwood, California.

On 10/03/2003, a briefing was conducted at the FBI-directed Command Post. At the conclusion of the overall briefing, secondary briefings were held with individual teams where a discussion was held regarding the possible presence of an aggressive pit bull dog at the Brentwood address.

At approximately 6:05 a.m., members of the Brentwood Police Department Special Weapons and Tactics (SWAT) Team arrived at the Brentwood address, knocked, announced their presence and their intention of serving the search warrant. An individual from within the residence initially refused to open the door, however, a short time later partially opened it. SWAT personnel observed a pit bull dog growling inside the residence, while a resident restrained the dog by holding its collar. The resident then released hold of the dog's collar resulting in the dog running out the front door towards the officers. A Brentwood Police Officer fired four shots at the animal without injuring the dog. b6 b7C

Positioned outside the residence, SA [redacted] heard the gunfire and turned to see the dog charging down the pathway toward herself and SA [redacted] SA [redacted] concerned for her safety as well as the safety of other law enforcement personnel on the scene, fired one shot at the dog. Although not injured, the dog turned and ran away upon hearing the gunshot. The dog was eventually controlled by one of the occupants from inside the home.

No personal injuries or property damage were incurred as a result of SA [redacted] discharged round.

On 02/13/2004, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Steven C. McCraw, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Jeff Vasey, Investigations Division, Office of Inspector General, USDOJ;

Michael S. Clemens, Chief Inspector, Office of Inspections, Inspection Division; Manuel E. Mora, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted], Acting Section Chief, Applicant Processing Section, Administrative Services Division; [redacted] Unit Chief (UC), Counterproliferation Unit, Counterintelligence Division; SSA [redacted] Firearms Training Unit, Training Division (TD); SSA [redacted], Firearms Training Unit, TD; SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); SSA [redacted] National Firearms Program, TD; [redacted] Program Manager, Operational Skills Unit, TD; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and SSA [redacted] Washington Field Office. The only non-voting member present was [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy. Members recommended that no administrative action should be taken against her as a result of her involvement in this shooting incident.

Date: 11/14/2003

Case ID #: 297-HQ-A1271466-D

Title: SHOOTING INQUIRY
DENVER DIVISION
10/25/2003

Character: INSPECTION DIVISION
SHOOTING INQUIRY

Synopsis: On 10/25/2003, SA [redacted] was involved in a shooting incident at 4110 E. Hale Parkway, Denver, CO. SA [redacted] was conducting spot checks of locations in regards to a 52B investigation (Theft of Government Property - Weapon).

Details: On 08/25/2003, SA [redacted] Glock Model 22, 40 caliber pistol was stolen out of his locked and alarmed bureau vehicle. The weapon was stolen out of SA [redacted] vehicle while watching his son's football practice at his high school which is in the most direct route from the office to SA [redacted] home. A 52B case, Theft of Government Property-Weapon was opened in the Denver Division and was assigned to SA [redacted] Squad 3. b6 b7C b7D

In addition to the FBI investigation, Denver Police Department (DPD) developed source information that the stolen weapon was in the possession of [redacted] and [redacted] and [redacted] and [redacted] arrived at the meeting location and saw the [redacted] to a DPD officer, so they fled the scene, leading police on a high speed chase. The [redacted] indicated that SA [redacted] stolen weapon had been in the car occupied by [redacted] and [redacted] They were not apprehended.

Approximately, one week prior to the shooting,

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

SA [redacted] was keeping SA [redacted] apprized of the status of DPD's drug investigation as it pertained to [redacted] and [redacted] and provided him with several addresses which they were known to frequent. SA [redacted] had no involvement with the investigation prior to 10/17/2003, when he was contacted by SA [redacted] to provide details of items stolen from his bureau vehicle. The information was needed for search warrants that DPD was going to be conducting on 10/17/2003 on [redacted] and [redacted] for possible drug violations. DPD conducted arrests of the two subjects on drug related charges, however, the Glock was not located.

b6
b7C

SA [redacted] indicated on 10/24/2003, he told Acting ASAC [redacted] and SA [redacted] Applicant Coordinator assigned to Squad 3, in separate conversations, that he was going to do spot checks at several addresses that DPD had developed in regards to the case. SA [redacted] conducted spot checks of the identified locations during the early evening of 10/24/2003.

Acting ASAC [redacted] indicated he and SA [redacted] have had several conversations concerning the stolen weapon as SA [redacted] is responsible for the OPR investigation on that matter. Acting ASAC [redacted] can not recall with specificity a conversation regarding the spot checks. However, SSA [redacted] indicated he had no authority to authorize nor did he authorize SA [redacted] to conduct these checks. SA [redacted] indicated SA [redacted] mentioned the spot checks on the day before the shooting and was asked if he would be available to do some surveillance on Saturday, however, SA [redacted] told SA [redacted] he was unavailable. SA [redacted] is the Principal Firearms Instructor and directly reports to ASAC Raul E. Carballido.

ASAC Carballido indicated he did not authorize SA [redacted] participation in the 52B case and had no conversations regarding him conducting spot checks. ASAC Carballido indicated he had been out of the office for the majority of several weeks prior to the shooting, although he had been in the office the four days immediately prior to the shooting. SSA [redacted] supervises Squad 3 which was responsible for the 52B case. He was out of the office the week immediately preceding the shooting and he did not authorize or have knowledge of SA [redacted] involvement in the case. Acting SSA [redacted], Squad 3, indicated he had no knowledge of SA [redacted] intentions to conduct spot checks on the case.

b6
b7C

The Case Agent [redacted] stated he had no knowledge of SA [redacted] intentions of conducting spot checks in regards to the case. SA [redacted] indicated he had conversations with SA [redacted] on 10/24/2003, when SA [redacted] asked SA [redacted]

to make a phone call to a cable company regarding possible information one of their installers may have had concerning [redacted] showing off an FBI Agents gun during the installation of cable at a Denver residence. SA [redacted] said no crime scene diagrams were prepared by FBI Evidence Response Team after the shooting as DPD was handling that part of the investigation.

On 10/25/2003, SA [redacted] went into service at 6:45 AM for the purpose of conducting spot checks at the locations identified by DPD. At approximately 8AM, SA [redacted] observed a green Ford Expedition in the vicinity of 4110 E. Hale Parkway, which he believed to be stolen and in the possession of [redacted] He contacted SSA [redacted] who indicated he would come to the site when his wife returned home. SSA [redacted] indicated he was called by SA [redacted] at approximately 8:20AM and he told SA [redacted] he needed to contact DPD as they had jurisdiction regarding the stolen vehicle. SA [redacted] contacted Officer [redacted] DPD, at home. Officer [redacted] was involved in the stolen weapon investigation. He told SA [redacted] that the vehicle was stolen and that he was en route to SA [redacted] location. SA [redacted] was unaware Officer [redacted] lived in Strasburg, CO and he had to drive approximately 30 miles to arrive at his location. DPD uniformed officers were not contacted at this point by SA [redacted] or Officer [redacted]

At approximately 9AM and prior to Officer [redacted] arriving, [redacted] exited a residence and approached the Expedition. SA [redacted] contacted Officer [redacted] who indicated he was close to the location, however he did not give an exact location, and SA [redacted] told him he was going to effect a stop on the vehicle. SA [redacted] heard Officer [redacted] calling on the radio for uniformed officers for assistance.

SA [redacted] was in a parking lot south of the Expedition and drove out of the parking lot and had his vehicle positioned in the street facing north. (See DPD Crime Scene Diagram on Page 75 of this report). [redacted] got into the parked, southbound facing Expedition on Albion Street, but did not immediately close the door. SA [redacted] was now sitting in his bureau Ford Expedition facing north on Albion Street. About one minute later, when [redacted] closed the door, SA [redacted] drove his vehicle to where [redacted] was parked. There were two vehicles parked in front of [redacted] vehicle. SA [redacted] hoping to block [redacted] in, stopped his vehicle at the front bumper of [redacted] Expedition. [redacted] vehicle was still in the parallel parking spot and SA [redacted] vehicle was facing north in the southbound traffic lane. SA [redacted] who was not wearing any law enforcement identifying insignia rolled down his driver's side

b6
b7C

b6
b7C

window to identify himself. According to SA [redacted] pointed a handgun through his front windshield at SA [redacted] and SA [redacted] jumped out of the front driver's side of the bureau vehicle verbally identifying himself as a police officer. SA [redacted] was now on foot, adjacent to the front driver's side bumper of [redacted] vehicle.

The bureau vehicle had not been placed in park and it proceeded down the street where it came to rest against a brick wall. [redacted] began to drive his vehicle out of the parking spot and at SA [redacted] who jumped out of the way to avoid being hit. SA [redacted] feared for his life and began shooting at [redacted] while the Expedition was passing by him. SA [redacted] shot six rounds at [redacted] before determining his aim could no longer be accurate due to the distance of the fleeing vehicle. [redacted] was not hit, however, the Expedition was hit five times. [redacted] drove away from the scene at a high rate of speed. SA [redacted] retrieved the bureau vehicle and attempted to locate [redacted] and the Expedition, but was unsuccessful. Within one to two minutes, [redacted] returned to the scene to meet the DPD uniformed officers who were responding to the scene. [redacted] was arrested later that day by the FBI and DPD.

After the arrest, [redacted] told DPD Detective [redacted] that he left his apartment to make a phone call and saw a vehicle pull to a stop in the street in front of him. The vehicle came closer and a man with a mean look on his face exited the vehicle. [redacted] stated he was into a lot of things and there are people out to get him, so he was scared and he drove away. Then he heard gun shots and bullets flying by his head. He denied having a gun and firing a gun at an FBI Agent.

In a second interview with DPD, [redacted] indicated he did not have a weapon in the Expedition. After thinking about it, [redacted] said maybe when he was putting the Expedition in gear, that the Agent may have thought he had a gun. [redacted] was unsure if SA [redacted] identified himself as a law enforcement officer due to all the noise. [redacted] stated he did not have a gun and did not shoot at the Agent.

[redacted] Date of Birth [redacted] was arrested on 12/31/2001 and 10/03/2002 for vehicle theft. He was also arrested for possession of dangerous drugs on 10/03/2002 and 04/13/2003. On 10/17/2003, he was arrested for motor vehicle theft. On 10/25/2003, the day of the FBI shooting involving SA [redacted] and [redacted] he was arrested for first degree felony assault by DPD and FBI at approximately 2000 hours.

Neither SA [redacted] or [redacted] were injured at the time of the shooting incident. There was damage to the bureau vehicle driven by SA [redacted] the stolen Ford Expedition, and a blue Mazda which was parked on the street. After SA [redacted] exited his vehicle and failed to put the vehicle in park, it came to rest against a retaining wall which had visible scrapes. A blue Mazda, license plate Wyoming [redacted] which had been parked on the street, had damage to the driver's side rear quarter panel which occurred after SA [redacted] retrieved his vehicle. SA [redacted] vehicle had damage to the front which was consistent with striking the retaining wall and damage to the left front was consistent with the damage to the blue Mazda. There was [redacted] extensive damage to the stolen Ford Expedition driven by [redacted] at the time of the shooting. The vehicle was found abandoned at 1600 Colorado Boulevard and had been hit by several bullets and the rear window had been shot out.

b6
b7C

There was no conflict in the evidence collected, or unresolved issues. There were no witnesses to the shooting. Per discussions with the Assistant District Attorney, there was no, nor did he expect there to be a Grand Jury convened on the shooting incident and no charges will be filed against SA [redacted]

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
10/01/2003
MINNEAPOLIS DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 10/01/2003, involving Special Agent (SA) [redacted] SA [redacted] fired three shots from his Bureau-issued Glock, Model 23, .40 caliber, semi-automatic handgun, killing a horse that had been hit by a Bureau vehicle. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

b6
b7C

Administrative: Reference report of Supervisory Special Agent (SSA) [redacted] dated 12/02/2003.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271777-D, 02/19/2004

Details of the Shooting Incident

On 10/01/2003, SAs [redacted] and [redacted] were on official Bureau business in South Dakota. As SA [redacted] was driving down a very dark highway, a horse suddenly appeared and attempted to cross the road. SA [redacted] immediately applied the vehicle brakes; however, hit the horse broadside. The horse hit the top of the vehicle's grill, slid along the hood, hit the windshield, and landed on the ground. b6 b7C

After determining there were no personal injuries as a result of the impact, SA [redacted] observed the horse laying on its side in the middle of the road kicking frantically. Due to the serious injuries of the horse, SA [redacted] fired three rounds into the horse's head.

The animal was subsequently removed from the roadway by a citizen possessing the proper equipment. State authorities, as well as the owner of the horse, were notified of the incident.

On 02/13/2004, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Steven C. McCraw, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Jeff Vasey, Investigations Division, Office of Inspector General, USDOJ; Michael S. CLEVELAND DIVISION
12/23/2003

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 12/23/2003, involving Special Agents (SAs) [redacted] and [redacted] During the attempted arrest of subjects involved in the kidnaping of a [redacted], SA [redacted] fired one round from his Bureau-issued H & K MP-5, 10 millimeter carbine, and SA [redacted] fired two rounds from his Bureau-issued Colt Model M-4, .223 gauge carbine. SIRG members recommended that no administrative action be taken against either Agent as a result of their involvement in this shooting incident.

**Administrative:** Reference report of former Inspector [redacted] dated 12/25/2003.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

**Details of the Shooting Incident**

b6
b7C
b7D

On 12/22/2003, between 9:00 p.m., and 9:20 p.m., SA [redacted] of the New York Field Office was telephonically contacted by [redacted] Darnell Lester. Lester seemed frightened and SA [redacted] believed he had been kidnaped during an unauthorized narcotic transaction. At one point Lester stated "Get the stuff together, the mans are here." Lester indicated that he was being held against his will by five or six armed men in a house in Cleveland, Ohio. Lester told SA [redacted] to call a male at telephone number [redacted] to rectify the situation.

At approximately 9:42 p.m., SA [redacted] spoke to Cleveland Division Duty Agent [redacted] SA [redacted] began obtaining subscriber information for the telephone number of Lester's original call to SA [redacted] It was determined the number belonged to a pre-pay cellular telephone, with no subscriber listed.

At approximately 9:58 p.m., Cleveland Division Supervisory Special Agent (SSA) [redacted] spoke to SA [redacted] and also called SA [redacted] advised SA [redacted] that the telephone number provided by Lester was the cellular telephone number of Cleveland Division SA [redacted] Based on the information received from SSA [redacted] SA [redacted] believed Lester had given [redacted] communication that he needed FBI Cleveland to urgently help him. b6 b7C b7D

SSA [redacted] called SA [redacted] and instructed him to contact Cleveland Division Technically Trained Agents (TTAs) to obtain cellular tracking equipment and to obtain cell tower information to assist in tracking efforts. SA [redacted] determined the cell phone was "hitting" off of a tower at East 105th and Carnegie Streets in Cleveland. SSA [redacted] then contacted Cleveland Division Executive Management (EM) to advise of the situation.

At approximately 10:30 p.m., Lester called SA [redacted] and stated, "the dudes" (suspected kidnapers) would be at East 83rd and Euclid driving a green 4-door Jimmy in 15 minutes (to collect ransom). While Cleveland Agents were discussing a course of action, SA [redacted] received a call from SA [redacted] advising Lester would not be in the Jimmy. ASAC John G. Kavanagh was briefed on the situation and utilization of the Special Weapons and Tactics (SWAT) Team was discussed.

Fearing that Lester would be harmed if the occupants of the subject vehicle escaped, made a phone call, or failed to cooperate with law enforcement, SSA [redacted] requested that SA [redacted] contact SA [redacted] and request that he call Lester and delay the meeting. b6 b7C

At approximately 10:52 p.m., SA [redacted] called Lester and advised him Agents needed one and one half hour to get it (ransom) together. Lester stated, "you'll have to tell him." SA [redacted] repeated the information to an unknown male who then hung up. SSA [redacted] contacted Assistant United States Attorney (AUSA) [redacted] and briefed him on the situation. AUSA [redacted] advised if a house was located, exigent circumstances existed to make entry into the house without a warrant. Cleveland Division EM was again briefed on the situation, and SA [redacted], SWAT Team Leader, initiated a call out to other SWAT Team members. Two TTAs departed the scene to

initiate the tracking of the signal from the cellular phone used by Lester.

Between 11:20 p.m. and 11:30 p.m., Cleveland Police Department (CPD) Lieutenant (Lt.) [redacted] and Detective [redacted] a hostage negotiator, were contacted. Lt. [redacted] arrived at the Command Post at 12:20 a.m. Between 12:15 a.m and 12:50 a.m, on 12/23/2003, SA [redacted] met with fourteen SWAT operators and briefed them on the facts of the case and disseminated a photograph of [redacted] SA [redacted] advised SWAT members the operation could take place at a building location, a residence, or during a felony vehicle stop once [redacted] location was determined. b6 b7C b7D

Prior to the departure of the SWAT teams, assignments were made for five vehicles. The first four vehicles responded to the east side of Cleveland where the most recent electronic cell phone data from [redacted] was being received. As the SWAT teams deployed, information was relayed by SSA [redacted] advising the felony vehicle stop plan was the most likely scenario to occur. The briefing point was a strip shopping mall near East 81st and Euclid Streets on the east side of Cleveland where all of the SWAT vehicles were together and a briefing was provided by SAs [redacted] and [redacted] with updated information. At approximately 1:15 a.m., the SWAT operators were advised that the subject vehicle was to meet [redacted] associates, who were Cleveland Undercover Agents assigned to the drug squad, at the parking lot of the Rally's Restaurant located at East 81st and Euclid Streets to exchange drugs and/or money for [redacted] After viewing the restaurant parking lot it was determined that subject containment, as well as precision coordination of the five SWAT vehicles, was of concern along with the fact this was to be a felony vehicle stop/box-in situation. SA [redacted] advised the SWAT operators the plan was to box in the subject vehicle and block all escape routes in and around the restaurant. During the assignments SA [redacted] emphasized the fact that with one SWAT operator on foot and with the potential of others going on foot during the execution of the felony vehicle stop, the use of a vehicle as a weapon posed a great risk to those operators. A vehicle could be considered a weapon if it started to move toward the operators on foot, putting them in a life and death situation. b6 b7C b7D

TTA [redacted] advised participants that Lester's cellular phone was two to four miles northeast at a 45 degree angle from the cellular tower at East 105th and Carnegie Streets.

At 12:30 a.m., Lester called SA [redacted] who was able to stall for another hour by agreeing with Lester's assertion that SA [redacted] was in Akron, Ohio. When SA [redacted] asked Lester how much to bring, Lester replied "three."

At 1:00 a.m., SSA [redacted] contacted SA [redacted] and advised him the cellular tracking was not working well and the TTAs needed additional time. At 1:07 and 1:10 a.m., Lester placed calls to SA [redacted] from two different telephone numbers. Lester advised SA [redacted] to meet at Rally's, East 81st and Euclid. SA [redacted] and SSA [redacted] discussed the fact that based on the tenor of the calls, time was running out. SWAT members proceeded to the East 81st and Euclid area. A basic take down plan was formulated by SSA [redacted] which called for SAs [redacted] and [redacted] to go to Rally's and when they sighted Lester in the subject vehicle, call for a SWAT takedown. SSA [redacted] told SA [redacted] to advise Lester to be in the car - "make sure we need to see his face." Get vehicle description and tell him we're in a black Denali. b6 b7C

At 1:42 a.m., Lester called SA [redacted] SA [redacted] stated the kidnapers were "all over Lester" and that he couldn't talk. SA [redacted] could no longer obtain information or stall the kidnapers and described the situation as desperate. Lester told SA [redacted] to meet at Rally's in fifteen to twenty minutes.

As the events unfolded and it was determined that Cleveland could not successfully triangulate Lester's cell phone, a new meeting/exchange was set for the vicinity of Rally's on 81st and Euclid Streets. It was determined that the SWAT team would box-in the subject vehicle at the meeting site, and once arrests were made, they would attempt to determine Lester's location from the arrested individuals.

At 1:50 a.m., TTAs [redacted] and [redacted] observed a Jimmy at 90th and Euclid Streets headed eastbound. Cellular tracking equipment also hit on Lester's cell phone in the area just prior to the sighting of the subject vehicle.

SA [redacted] had placed the SWAT vehicles just as the subject vehicle was observed and verified in the area of the meet. Information was received from several SWAT operators regarding the location of the subject vehicle and the fact that the subject vehicle was in the parking lot backing into a space against a brick wall. SA [redacted] team assumed control of the operation and SA [redacted] gave the order for all SWAT units to execute the felony vehicle stop plan previously discussed by saying, "Go, Go, Go" over the radio. b6 b7C

SWAT vehicle #1 moved in with blue emergency lights activated and SWAT vehicle #2, operated by SA [redacted] pulled out and into a "T-bone" position to the subject vehicle, stopping short of hitting it. The driver looked at SA [redacted] and began driving forward. SA [redacted] accelerated and rammed his Tahoe SUV into the rear driver's side door of the subject vehicle.

SA [redacted] exited the second SWAT vehicle and noticed the subject vehicle facing him. The subject vehicle, attempting to get out, lurched forward, picked up speed, and was turning and headed towards SA [redacted] SA [redacted] observed a bright flash from inside the vehicle, made eye contact with the driver, and fired one shot from his Colt M-4 carbine at the driver as the vehicle was coming towards him. After firing the first shot, SA [redacted] was moving backwards and to the side in an attempt to get out of the vehicle's path when he immediately fired a second round.

SAs [redacted] and [redacted] were assigned to set up a block or two away from the scene in order to prevent any escape by the subject vehicle should it break free from the original containment area. SA [redacted] observed the subject vehicle escaping the parking lot and turning away from SA [redacted] vehicle. SA [redacted] believed a vehicle chase was about to take place; however, the subject vehicle crashed between a fence and telephone pole and stopped. SA [redacted] observed the rear driver's side door of the subject vehicle open and the rear passenger stick his hand out of the open door pointing a handgun in their direction. SA [redacted] then saw a muzzle flash from the weapon and heard several rounds fired, causing him to fire one shot from his H & K MP-5 submachine gun through the windshield of the Bureau vehicle toward the subject who fired. SAs on the scene were outside of their vehicles, repeatedly giving loud verbal commands to the subjects, "FBI, Police, Hands Up, Don't Move." The subject in the rear seat exited the subject vehicle and was handcuffed. Agents removed the subject from the scene, conducted a high-risk search, and asked the subject questions regarding the location of Lester. SA [redacted] observed the driver and front passenger of the subject vehicle with their hands up. SA [redacted] observing the driver's hand bloody, concluded that both front seat passengers had been shot. SAs [redacted] and [redacted] pulled the driver threw the window of the car and proned him out on the street. SA [redacted] heard other Agents yell to call the Emergency Medical Service and recalled the subject on the ground tell him he had a bullet in his mouth. SA [redacted] approached the driver and asked about Lester's location. The driver told SA [redacted] that Darrell was in the front passenger seat. Although SA [redacted] did not believe the individual in the front passenger seat was Lester because the passenger looked much heavier than Lester appeared in a photograph provided during one of the briefings, the passenger in the subject vehicle confirmed Lester was occupying the front passenger seat. SA [redacted] approached Lester who appeared to have been shot, raised his shirt and discovered what appeared to be a bullet wound in Lester's torso. SA [redacted] attempted to render first aid; however, Lester died within a few minutes.

b6
b7C

b6
b7C

The bullet recovered from Lester's body was determined to have been fired from the Colt, Model M-4, 223 caliber rifle in the possession of SA [redacted]

On 12/01/2005, a declination of prosecution dated 05/03/2005, was received from the United States Department of Justice, Civil Rights Division, regarding the actions of SAs [redacted] and [redacted] in this shooting incident. b6 b7C

On 03/08/2006, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Daniel Lee Cloyd, Inspection Division, chaired the meeting and was a non-voting member. The following voting members were in attendance: Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, Criminal Section, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Charles J. Cunningham, Section Chief (SC), Transnational Criminal Enterprise Section, Criminal Investigative Division; SC Jay C. Manning, CD-6, Counterintelligence Division; [redacted] Unit Chief (UC), Firearms Training Unit, Training and Development Division (TDD); UC [redacted] National Firearms Program, TDD; UC [redacted] SWAT Operations Unit, Critical Incident Response Group; SSA [redacted] Program Manager, Operational Skills Unit, TDD; SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); and SSA [redacted] Washington Field Office. [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division, a non-voting member, was also in attendance. Additionally, the following two observers were present during this meeting: [redacted] Deputy General Counsel, OGC; and UC [redacted] Operational Skills Unit, TDD.

b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that the use of deadly force by SAs [redacted] and [redacted] was justified and in conformance with the FBI's deadly force policy. Members opined that although a tragic incident, the Agents' actions were appropriate. The SIRG also discussed the fact that this was a

fluid situation and Cleveland management responded appropriately by utilizing the SWAT Team.

Although no official recommendations were issued, one member commented regarding Agents positioning themselves in front of vehicles and stated training should emphasize this should not happen unless extreme circumstances exist. The Operational Skills Unit, TDD, representative advised members that current training is conducted to that effect.

Other areas of discussion pertained to the necessity of law enforcement personnel ensuring vehicles are immobilized before approaching them and the fact that contingency plans should be discussed in pre-briefings including proper "locking down" of boxed-in vehicles and personnel staying behind cover.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
07/03/2002
PHILADELPHIA DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 07/03/2002, involving Special Agent (SA [redacted]. During the arrest of a drug gang subject, SA [redacted] having no cover and fearing that he was going to be run over, fired five shots from his Bureau-issued Colt M16A1 rifle. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference report of Supervisory Special Agent (SSA) [redacted] dated 08/27/2002, and submitted to Inspection Division in April, 2003.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271895-D, 06/12/2003

Details of the Shooting Incident

On 07/03/2002, Agents assigned to the Allentown Resident Agency, along with members of the FBI led Reading Area Violent Crime Task Force (RAVCTF) were involved in a shooting incident during the arrest of drug gang subject [redacted]

Task Force members had been investigating a violent drug trafficking gang based in the Reading, Pennsylvania, area. Information was developed that [redacted] was believed to be a mid-level distributor for a gang who supervised drug distribution houses and re-supplied them with crack cocaine. The gang was also believed to be responsible for several drug related shootings and homicides. County and local authorities working with the task force had executed several search warrants in connection with the investigation where drugs, body armor, and weapons had been recovered. b6 b7C

The investigation of [redacted] began in approximately March, 2002, when an undercover detective from the Burks County District Attorney's Office had contact with [redacted] and discussions ensued where [redacted] agreed to supply the detective with whatever drugs were needed. The detective and [redacted] met several times resulting in the exchange of money for cocaine.

On 07/03/2002, SA [redacted] obtained a Federal Complaint and Warrant charging [redacted] with drug violations as well as possession of a firearm. He developed a plan to arrest [redacted] when he met with the undercover detective again to receive payment for previous drugs as well as deliver additional cocaine. SA [redacted] and Lieutenant (Lt.) [redacted] conducted an arrest briefing with task force members and other officers assisting in the arrest where specific assignments were made. b6 b7C

At approximately 3:04 p.m., the undercover detective, accompanied by a second detective, arrived in their vehicle and parked in an open area of the parking lot of the Fairgrounds Square Mall awaiting the arrival of [redacted]

At approximately 3:40 p.m. [redacted] drove into the parking lot area with an unknown female in the passenger seat of his vehicle. As planned, Corporal [redacted] drove an undercover pickup truck into the parking lot and parked it directly behind [redacted] vehicle with the truck's front bumper a

few feet away from the rear bumper of [redacted] vehicle. Corporal [redacted] exited the truck and proceeded towards the mall's stores.

At that time, Lt. [redacted] gave the command over the police radio for the arrest van to move in and execute the arrest of [redacted]. At approximately 3:42 p.m., the arrest van, occupied by SA [redacted] pulled directly in front of [redacted] vehicle with the complete arrest team exiting. SA [redacted] exited the passenger side front of the van bringing his Colt M16A1 up to his shoulder while yelling commands to [redacted] to put his hands up. [redacted] vehicle immediately went into reverse and crashed into the undercover truck, then accelerated forward towards SA [redacted] SA [redacted] having no cover and fearing that he was going to be run over, fired five shots from his rifle. The subject vehicle veered to the left, traveling 25 to 30 yards and crashed into a large unoccupied delivery truck.

Emergency Medical Services were notified and a Med-evac helicopter was utilized to transport [redacted] from the scene to the Lehigh Valley Hospital where it was determined that wounds to one of [redacted] hands and his chest were non-life threatening.

On 05/08/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Glenn Powell, Investigations Division, Office of Inspector General, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; Robert K. Cromwell, Section Chief, Applicant Processing Section, Administrative Services Division; Jay C. Manning, Section Chief, CD-6, Counterintelligence Division; [redacted] Acting Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Operational Skills Unit, Training Division; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Investigative Law Unit, Office of the General Counsel; SSA [redacted] Washington Field Office; and SSA [redacted] Firearms Training Unit, Training Division. The only non-voting member present was [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

Title: SHOOTING INCIDENT
OKLAHOMA CITY DIVISION
12/08/2003

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 12/08/2003, involving Special Agent (SA) [redacted] During the arrest of a fugitive, SA [redacted] fired one round from his Glock Model 22, .40 caliber pistol, striking the subject in the left side of the neck. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his discharge of his weapon in this shooting incident. However, the incident was referred to the Office of Professional Responsibility (OPR) regarding comments made to the subject by SA [redacted] after the shooting.

Administrative: Reference report of Supervisory Special Agent (SSA) [redacted] dated 01/09/2004.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

Details of the Shooting Incident

On 12/08/2003, the Marietta, Oklahoma, Police Department (PD) received a telephone call regarding the location of convicted felon [redacted] also known as [redacted] The PD was advised [redacted] was the subject of an outstanding warrant issued in California for parole violation. Information was provided that the subject had recently confided that he had robbed a bank in Ardmore, Oklahoma. Additionally, the subject's wife suspected he also robbed a bank in Yucca Valley, California, prior to the couple moving to Oklahoma. b6 b7C

The caller advised [redacted] was becoming increasingly paranoid, and displaying violent tendencies towards the caller and the subject's wife. The caller also stated [redacted] had purchased a pistol and ammunition, installed a surveillance camera in his home, and made statements regarding plans for the use of his gun. [redacted] reportedly said if law enforcement confronted him, he would not surrender peacefully but go out in a "blaze of glory."

Based on the information received from the caller, a PD supervisor conducted an inquiry to confirm the outstanding warrant. He also telephonically contacted the Ardmore Resident Agency (ARA) to set up a meeting to formulate a plan to locate and apprehend [redacted]

Investigation by the ARA disclosed [redacted] had previously been convicted of armed bank robbery and confirmation was obtained that a federal warrant was outstanding for violation of probation. The inquiry also disclosed [redacted] was considered Armed and Dangerous and had violent tendencies.

SAs [redacted] and [redacted] of the ARA met with local authorities to exchange additional information and develop a practical plan. Information was obtained that an individual who resided with [redacted] was observed in town, stopped for questioning, and advised that [redacted] was last seen in his living room watching the video monitor. After acquiring this information, SA [redacted] notified Supervisory Senior Resident Agent (SSRA) [redacted] regarding the updated information received from the local authorities as well as their progress locating the subject. SSRA [redacted] suggested that the Agents consider a tactical team during the apprehension of the subject. b6 b7C

The Ardmore PD was contacted regarding assistance from the SWAT Team to effect [redacted] arrest when he was located. While SAs [redacted] and [redacted] along with the local authorities, were awaiting the arrival of the SWAT Team, a 911 call was

received by the Love County Sheriff's Office from a resident who resided down the street from [redacted] The caller, [redacted] advised [redacted] was outside of the residence inquiring about his [redacted] location. [redacted] advised the Sheriff's Office he felt threatened by [redacted] and believed his life was in danger. Following the 911 call, the local officers and Agents who were assembled at a gas station, along with additional local enforcement officers, responded to the location of [redacted] During the questioning of a female resident, she observed [redacted] in his vehicle and identified him to the officers at the scene. A broadcast of [redacted] location was announced over the radio at which time a search of the surrounding neighborhood was initiated by the officers and Agents. Street officers observed [redacted] and issued a command for him to stop. [redacted] ignored the commands and began fleeing in his vehicle. b6 b7C

Believing [redacted] posed a public threat, SAs [redacted] and [redacted] began searching for him in separate vehicles. They subsequently located and observed [redacted] traveling at a high rate of speed, jumping curbs, and traveling erratically through residential yards. During the pursuit through several neighborhoods, SA [redacted] became positioned directly behind [redacted] vehicle which subsequently crashed into a residence. SA [redacted] exited his vehicle and identified himself to [redacted] who was attempting to flee. Several times SA [redacted] ordered [redacted] to stop and get on the ground. [redacted] reached for and attempted to remove his pistol located in the waistband of his pants. Believing that his life was in imminent danger, SA [redacted] fired one round from his Glock Model 22, .40 caliber pistol, striking [redacted] in the left side of the neck.

[redacted] collapsed to the ground and as officers went to secure him began struggling and was observed forcefully pushing his right hand underneath himself as though reaching for something. [redacted] was brought under control, handcuffed and afforded medical treatment by officers on the scene. [redacted] was transported by ambulance to the Mercy Memorial Hospital in Ardmore, where he received medical treatment. b6 b7C

By letter dated 01/14/2004, District Attorney [redacted], 20th Judicial District, Ardmore, Oklahoma, advised his office would take no action relative to the shooting incident. On 05/18/2004, a declination of prosecution was received from the United States Department of Justice, Civil Rights Division, regarding SA [redacted] discharge of his weapon in this incident.

On 10/13/2004, the SIRG met to discuss the above-captioned shooting incident. Chief Inspector [redacted]

Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted] Assistant Section Chief, Operational Support Section, Criminal Investigative Division; My Harrison, Section Chief, Applicant Processing Section, Administrative Services Division; [redacted] Unit Chief (UC), National Firearms Program, Training Division (TD); [redacted] UC, CD-6B, Counterintelligence Division; Supervisory Special Agent (SSA) [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Firearms Training Unit, Training Division (TD); SSA [redacted] Operational Skills Unit, TD; SSA [redacted] Firearms Training Unit, TD; SSA [redacted] National Firearms Program, TD; and SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC). The two non-voting members present were [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division; and [redacted] Intern, Leadership Development Institute, Training and Development Division, Quantico.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

Members discussed the fact that subsequent to the subject being shot, a Police Officer observed SA [redacted] kneel down by the subject and ask, "do you know Christ is your personal savior? Will you take him as your savior?". As the subject stated, "yes", SA [redacted] said, "praise Jesus," and walked away from the area. SIRG members opined that the comments made by SA [redacted] could have been construed as a violation of the subject's First Amendment rights and unanimously concurred that the matter should be referred to the OPR to determine if any violations occurred as a result of SA [redacted] statements.

SHOOTING INCIDENTS
05/29/2003 and 05/30/2003
LOS ANGELES DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed two shooting incidents that occurred on 05/29/2003 and 05/30/2003, involving Special Agents (SAs) [redacted] and [redacted] On 05/29/2003, SA [redacted] fired two shots from his Glock, Model 22, .40 caliber pistol, striking the vehicle of a subject attempting to hit him with the vehicle while eluding arrest. On 05/30/2003, SAs [redacted] and [redacted] fired multiple shots at the same subject who was again attempting to elude arrest. SA [redacted] fired one round from his Glock, Model 23, .40 caliber pistol; SA [redacted] fired three rounds from his Glock, Model 22, .40 caliber pistol; and SA [redacted] fired one round from his Glock, Model 22, .40 caliber pistol. None of the shots resulted in physical injury. SIRG members recommended that no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in these shooting incidents.

To: Inspection From: Inspection
Re: 297-HQ-A1271741-D, 04/29/2004

**Details of the Shooting Incident**

On 05/29/2003, Agents of the Los Angeles Division prepared to conduct a buy/bust arrest of [redacted] who was to sell a large amount of the drug "Ecstasy" [redacted] The plan called for [redacted] to meet with [redacted] in the parking lot of a fast food restaurant and once [redacted] viewed the drugs, he would then contact the "buyer".

At approximately 7:20 p.m. [redacted] arrived at the restaurant, parked his black Chevrolet Avalanche vehicle, and met [redacted] inside. The subject and [redacted] returned to the subject's vehicle where he showed [redacted] pills he identified as being "Ecstasy". Agents were observing the transaction while sitting in vehicles parked in the restaurant parking lot. b6 b7C b7D

[redacted]

As the van approached the subject vehicle, [redacted] drove forward in an attempt to drive around the van and the two vehicles collided. [redacted] continued driving forward and struck the driver's side door of the surveillance vehicle as one of the Agents was attempting to exit the van. The door slammed back against SA [redacted] causing an injury to his left arm. [redacted] continued driving forward at a high rate of speed in the parking lot and collided head on with another Bureau vehicle driven by SA [redacted] causing severe damage to [redacted] vehicle. [redacted] vehicle bounced to the right and landed on the sidewalk adjacent to the restaurant's building. SSA [redacted] who was inside the restaurant surveilling the drug buy, opened the door of the restaurant to assist in the arrest. As he opened the door, he noticed [redacted] vehicle coming towards him at a high rate of speed. SSA [redacted] stepped back to avoid being injured as [redacted] vehicle slammed into and destroyed the door. b6 b7C

[redacted] continued driving forward in an effort to escape. SA [redacted] who was on foot and walking towards the area where the arrest was to take place, was standing in the path of [redacted] vehicle. As the vehicle approached, SA [redacted] saw the driver and fired two rounds at him. One of the rounds struck the

vehicle on the front passenger door. [redacted] continued out of the parking lot and away from the area while Agents pursued him. [redacted] drove approximately one mile from the scene and abandoned his vehicle in a residential neighborhood. A search of the area by law enforcement officers failed to locate the subject.

Following the shooting incident, squad members conducted further investigation to determine [redacted] location. An acquaintance of the suspect advised [redacted] had a white van registered to him and he was probably staying at a Fifth Street location in Los Angeles. The Special Weapons and Tactics (SWAT) Team was requested to respond to the Fifth Street area while squad members initiated surveillance at the residence.

b6
b7C

Members of the surveillance team located a white van, which was registered to [redacted] parked near the Fifth Street address. Two Agents parked in a position to surveil the white van while another team parked nearby. While watching the white van, Agents observed a newer Sports Utility Vehicle (SUV) drive by the residence twice and decided to follow the vehicle to view the occupants. Both surveillance vehicles followed the SUV and determined that the driver was not [redacted] SAs [redacted] and [redacted] returned to the original surveillance area to continue watching the van while SAs [redacted] and [redacted] continued to follow the SUV.

The SUV was about three blocks from the Fifth Street address when SAs [redacted] and [redacted] decided to conduct a traffic stop. They activated their emergency lights and the SUV came to a stop. The driver of the SUV was given commands through the public address system and as SA [redacted] exited the Bureau vehicle to approach the SUV, SA [redacted] heard a radio transmission advising that the white van belonging to [redacted] was moving.

At approximately 3:00 a.m., SAs [redacted] and [redacted] observed the backup lights of the white van illuminate, the vehicle began moving backwards and was positioned to turn north on Colyton Avenue. SA [redacted] along with SA [redacted] as a passenger, drove past the van in an attempt to determine if the driver was [redacted] After passing the van, SA [redacted] stated he could clearly see the driver and he matched the description of [redacted]

b6
b7C

SA [redacted] turned his vehicle to the right making it somewhat perpendicular to the white van. SA [redacted] whose passenger side window was open, exposed his upper torso to [redacted] with the letters "FBI" clearly showing. Additionally, he was holding his handgun in his right hand while waving for [redacted] to stop the van. He was also yelling, "FBI stop"!

[redacted] suddenly turned the van to the left in the middle of the street and appeared to be attempting a U-turn. SA [redacted] also began a U-turn; however, the van accelerated in reverse directly towards the passenger side of the Bureau vehicle. SA [redacted] yelled for SA [redacted] to drive forward to avoid the collision. [redacted] continued driving in reverse at a high rate of speed while SA [redacted] turned his vehicle to drive forward during his pursuit of [redacted] Both the subject vehicle and Bureau vehicle reached the intersection and turned on to 4th Street. [redacted] continued driving in reverse and was approximately one hundred feet from Alameda Avenue when SA [redacted] fired one round at the white van, striking the left front corner of the windshield. b6 b7C

SAs [redacted] and [redacted] were attempting to make contact with the individual in the SUV located at 4th Street and Alameda Avenue, when they heard the gunshot. Both Agents moved forward in an attempt to see what happened. [redacted] was still traveling in reverse at a high rate of speed when he approached Alameda Avenue. He turned the vehicle to travel south onto Alameda Avenue; however, cut the corner too close, drove onto the sidewalk and struck a traffic lightpole. [redacted] van came to a stop and SAs [redacted] and Vargas approached the passenger side. [redacted] exited the vehicle and began running into the intersection. [redacted] ignored SA [redacted] commands to stop, resulting in SA [redacted] beginning a foot chase. SA [redacted] fired three rounds at [redacted] and SA [redacted] stopped and fired one round.

When the shots were fired, [redacted] came to a stop and fell prone onto the ground where he was arrested.

On 02/13/2004, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Steven C. McCraw, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: b6 b7C [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Jeff Vasey, Investigations Division, Office of Inspector General, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; Manuel E. Mora, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Acting Section Chief, Applicant Processing Section, Administrative Services Division; [redacted] Unit Chief (UC), Counterproliferation Unit, Counterintelligence Division; SSA [redacted] Firearms Training Unit, Training Division (TD); SSA [redacted] Firearms Training Unit, TD; SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC);

SSA [redacted] National Firearms Program, TD; [redacted] Program Manager, Operational Skills Unit, TD; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and SSA [redacted] Washington Field Office. The only non-voting member present was [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

b6
b7C

SIRG members unanimously agreed that the use of deadly force by SAs [redacted] and [redacted] was justified and in conformance with the deadly force policy. Members recommended that no administrative action be taken against any Agent involved in these shooting incidents.

SHOOTING INCIDENT
05/14/2003
DETROIT DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 05/14/2003, involving Special Agent (SA) [redacted] During the attempted apprehension of an individual wanted for two homicides, SA [redacted] exchanged gunfire with the subject. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference report of Assistant Special Agent in Charge Larry R. Kuhl, dated 07/07/2003.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271480-D, 08/19/2003

Details of the Shooting Incident

On 05/13/2003, Eric Carpenter became an FBI subject based on the anticipation of the initiation of an Unlawful Flight to Avoid Prosecution process stemming from two separate homicide warrants in Detroit. A request was made by the Wayne County Prosecutor's Office for the Metropolitan Violent Crimes Street Gangs and Alliance Fugitive Task Force to assist in locating the subject.

On 05/14/2003, at approximately 12:00 p.m., a source advised Task Force members that the subject was in Detroit and was driving a Chevrolet Corvette bearing a North Carolina license certificate. Further information was received that Carpenter had been seen in the Clements Street area of Detroit less than one hour before Task Force members were contacted. Task Force units were dispatched to the area in an effort to locate the subject vehicle.

At approximately 1:00 p.m., Carpenter was observed driving the subject vehicle, however, sight of the vehicle was lost in traffic. The vehicle, driven by Carpenter with a female passenger, was spotted a second time at approximately 3:00 p.m., traveling at a high rate of speed. Surveillance team members followed Carpenter to a school where he picked up a young child. A decision was made that no attempt would be made to arrest Carpenter while he was near the school or in possession of the child. Surveillance continued, however sight of the vehicle was again lost for approximately fifteen minutes. Further surveillance located the vehicle traveling in the vicinity of Dexter and Davison Streets and was followed to the Clements Street address. The adult female and child were observed exiting the vehicle along with Carpenter. Carpenter immediately returned to the vehicle followed by the adult female.

b6
b7C

SA [redacted] along with task force officers, formulated a plan to "box in" Carpenter's vehicle in an effort to prevent him from escaping when the arrest was attempted. One task force officer drove past the Corvette and blocked the front of the vehicle in order to prevent Carpenter from driving forward while SA [redacted] angled his vehicle in front of the passenger side of the vehicle. SA [redacted] approached the passenger side of the Corvette, identified himself as law enforcement, and issued commands to Carpenter. The subject exited the vehicle and ran up a driveway with SA [redacted] in

pursuit repeatedly shouting, "Police, police, stop, let me see your hands."

Carpenter was at the end of the driveway when he reached his right hand into the waist band of his pants and pulled out a handgun, firing three to four shots at SA [redacted] SA [redacted] advised other participants that the subject had fired at him and he took cover behind several garbage cans and returned fire. SA [redacted] lost sight of Carpenter as he disappeared into a backyard down an alley. SA [redacted] continued issuing instructions for Carpenter to drop his gun. At that point, SA [redacted] observed Carpenter take his handgun, point it to his head and fire one shot. Carpenter dropped to the ground. b6 b7C

A subsequent ballistics examination, an on-scene homicide investigation and an autopsy, indicated that Carpenter had taken his own life. The Medical Examiner's Office ruled Carpenter's death a suicide. No other personal injuries or property damage were incurred as a result of the shots fired by SA [redacted] and Carpenter.

On 08/14/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Jeff Vasey, Investigations Division, Office of Inspector General, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; Charles D. Elder, Section Chief, Operational Support Section, Criminal Investigative Division; Jay C. Manning, Section Chief, CD-6, Counterintelligence Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Transfer Unit; Administrative Services Division; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Firearms Training Unit, Training Division; SSA [redacted] Operational Skills Unit, Training Division; and SSA [redacted] Washington Field Office. The two non-voting members present were [redacted] and [redacted] Management/Program Analysts, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
05/12/2003
ST. LOUIS DIVISION

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 05/12/2003, involving Special Agent (SA) [redacted] SA [redacted] fired two shots from his personally owned, Bureau-approved, Glock Model 22, .40 caliber, semi-automatic handgun, hitting a subject attempting to injure him with a vehicle. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference report of Supervisory Special Agent (SSA) [redacted] dated 06/06/2003.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

Details of the Shooting Incident

On 05/12/2003, SA [redacted] along with two members of the Violent Crimes Fugitive Task Force (VCFTF), met to discuss the possible arrest of [redacted] was wanted by St. Louis County authorities for Trafficking in Drugs 2nd Degree, Unlawful Use of a Weapon, Resisting Arrest, and Possession of a Controlled Substance. During the meeting, an operational plan was developed for the surveillance and arrest of [redacted] b6 b7C

SA [redacted] and Detective [redacted] in separate vehicles, initiated surveillance on the front of a Griefield residence in Pagedale, Missouri, which was the last known address for the suspect. Detective [redacted] positioned himself for surveillance at the rear exit of the residence.

SA [redacted] and Detective [redacted] observed a black female, later identified as [redacted] the subject's mother, exit the Griefield address and make contact with a black male sitting in the driver's seat of a burgundy Pontiac Bonneville which was backed into the driveway and parked at [redacted] After a brief conversation with the male, [redacted] left the car and proceeded in the direction of SA [redacted] and Detective [redacted] As she passed the law enforcement officers in their vehicles, [redacted] returned to the burgundy Pontiac and had a second conversation with the black male. After a brief conversation, [redacted] returned to the Griefield residence.

Detective [redacted] placed a phone call to the residence to determine if [redacted] was inside. A female answered the phone and advised that [redacted] was not present.

Believing the black male in the burgundy vehicle was [redacted] SA [redacted] and Detective [redacted] decided to approach the individual to determine his identity. Detective [redacted] initiated a U-turn and approached the Griefield address while SA [redacted] pulled forward to block the driveway. As SA [redacted] positioned his vehicle, the male in the driver's seat of the Pontiac ducked down behind the dashboard. As SA [redacted] exited his vehicle, the subject re-appeared and the burgundy vehicle attempted to move forward. SA [redacted] identified the driver of the vehicle as [redacted] drew his weapon, and issued verbal instructions to "Stop"; however, the vehicle continued forward. SA [redacted] continued to yell "Stop. Police", and attempted to

b6 b7C

open the driver's door. [redacted] did not comply with SA [redacted] commands and the subject vehicle struck his Bureau vehicle.

Detective [redacted] approached the Pontiac from the passenger's side, pointed his weapon at the driver and yelled, "Police, put your hands in the air and exit the vehicle". [redacted] looked at Detective [redacted] put the vehicle in reverse, backed up, put the vehicle in drive and turned sharply to the left. The vehicle pulled forward quickly and proceeded toward SA [redacted] In fear of his life as well as the safety of others, SA [redacted] fired two shots at the subject through the driver's side window of the vehicle. b6 b7C

The vehicle proceeded through several lawns at a high rate of speed, entered the street and proceeded south. Knowing that both SA [redacted] and Detective [redacted] were not injured, Detective [redacted] initiated surveillance of the vehicle and after a short period of time, observed it parked on another street. Detective [redacted] observed [redacted] on foot approximately 75 yards from the vehicle removing articles of clothing and placing them in a trash can. SA [redacted] and Detective [redacted] arrived on the scene with Detective [redacted] and placed [redacted] under arrest without further incident. It was determined that [redacted] was injured and he was immediately transported by ambulance to a hospital where he underwent surgery for a shattered elbow and received stitches for a laceration in the area of his right shoulder blade.

Subsequent investigation determined that the shots fired by SA [redacted] resulted in the injuries sustained by [redacted]

On 05/22/2003, the St. Louis County Prosecuting Attorney advised that he did not intend to seek prosecution against SA [redacted] as a result of his involvement in this shooting incident. A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, on 10/24/2003, regarding SA [redacted] actions in this shooting incident.

b6
b7C

On 02/13/2004, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Steven C. McCraw, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Jeff Vasey, Investigations Division, Office of Inspector General, USDOJ; [redacted] Chief Inspector, Office of

Inspections, Inspection Division; Manuel E. Mora, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Acting Section Chief, Applicant Processing Section, Administrative Services Division; [redacted] Unit Chief (UC), Counterproliferation Unit, Counterintelligence Division; SSA [redacted] Firearms Training Unit, Training Division (TD); SSA [redacted] Firearms Training Unit, TD; SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); SSA [redacted] National Firearms Program, TD; [redacted] Program Manager, Operational Skills Unit, TD; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and SSA [redacted] Washington Field Office. The only non-voting member present was [redacted] Management Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy. Members recommended that no administrative action should be taken against him as a result of his involvement in this shooting incident. b6 b7C

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
10/26/2003
LOS ANGELES DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 10/26/2003, involving Special Agent (SA) [redacted] SA [redacted] fired one round from his Glock Model 27, .40 caliber, off duty pistol during an altercation with several individuals in a parking lot. SIRG members recommended that SA [redacted] be censured, suspended from duty for a period of three days, and receive documented legal training as well as remedial firearms training for his neglect in practicing routine firearms safety procedures.

Administrative: Reference report of Assistant Special Agent in Charge Herbert M. Brown, dated 12/20/2003.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

Details of the Shooting Incident

On 10/26/2003, while off duty, SA [redacted] was in a rental truck parked near a Home Depot store in Marina Del Rey. SA [redacted] was accompanied by his girlfriend who was in a second vehicle parked behind his rental truck. In anticipation of moving to his new residence, SA [redacted] intended to hire two day laborers to assist in the move.

SA [redacted] selected two individuals he intended to hire and indicated to them to enter his rental truck. Before they could enter, two other day laborers, identified as [redacted] and [redacted] entered his truck on the passenger side. SA [redacted] instructed [redacted] and [redacted] to get out of the truck because he was not going to hire them, resulting in a verbal altercation that turned physical. [redacted] grabbed a plastic drinking bottle belonging to SA [redacted] exited the vehicle, leaned back into the vehicle, and threw the bottle at him. SA [redacted] identified himself as a police officer while continually telling the individuals to get out of the vehicle. [redacted] lunged over the lap of [redacted] and struck SA [redacted] in the face. [redacted] grabbed for SA [redacted] fanny pack containing his off duty weapon; however, SA [redacted] was able to get the fanny pack away from [redacted] who then exited the vehicle.

SA [redacted] removed the keys from his vehicle and exited the driver's side door. [redacted] came around the front of the truck and lunged toward SA [redacted] in an attempt to hit him. SA [redacted] continued to advise the day laborers that he was a law enforcement officer and did not want any trouble.

While attempting to back away from the subjects, SA [redacted] displayed his FBI badge hoping it would convince the subjects to stop. As he reached the area behind his rental truck SA [redacted] observed a third subject approaching, subsequently identified as [redacted] The three subjects formed a circle around SA [redacted] while he continued to state that he was a law enforcement officer and told the individuals to back away from him. b6 b7C

With the subjects becoming more aggressive, SA [redacted] placed his hand on his off duty weapon located in his fanny pack. The three individuals continued to grab and lunge toward him as he attempted to move away. He pointed his weapon at the chest of the individuals while simultaneously yelling for them to back away continuing to tell them he was the police. SA [redacted] was addressing [redacted] and [redacted] as they continued to circle around him. SA [redacted] then noticed subject [redacted] had moved to the sidewalk

and was four or five yards away from him. [redacted] then picked up a large shopping cart and was holding it over his head. SA [redacted] turned and pointed his weapon at [redacted] chest resulting in [redacted] throwing the cart at him.

According to SA [redacted] was getting more agitated and when he tried to move away, the three subjects moved into his path. Concerned for the safety of his girlfriend and himself, SA [redacted] believed he had no other alternative than to fire a round in order to attempt to disperse the crowd. SA [redacted] pointed his weapon toward the area of an empty lot with ongoing construction, and observing no one in the line of fire, discharged one round from his pistol. b6 b7C

The individuals continued to circle around and lunge towards SA [redacted] as he moved into the Home Depot parking lot. A bystander intervened and grabbed subject [redacted] and held him on the ground. Subjects [redacted] and [redacted] slowly backed away from the area allowing SA [redacted] time to telephone for assistance. The Los Angeles Police Department responded to the scene, arrested the three perpetrators, and transported them from the scene.

No personal or property damage was incurred as a result of SA [redacted] discharge of his weapon.

On 05/12/2004, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Michael S. Clemens, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted] Acting Section Chief, Operational Support Section, Criminal Investigative Division; My Harrison, Section Chief, Applicant Processing Section, Administrative Services Division; [redacted] Unit Chief (UC), CD-6B, Counterintelligence Division; UC [redacted] Firearms Training Unit, Training Division (TD); SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); SSA [redacted] National Firearms Program, TD; SSA [redacted] Operational Skills Unit, TD; and SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division. The two non-voting members present were [redacted] and [redacted] Management Program Analysts, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

To: Director's Office From: Inspection
Re: 297-HQ-A1271741-D, 05/19/2004

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members discussed the fact that, although the situation was successfully handled, the discharge of SA [redacted] weapon could have incited other individuals in the area. Additionally, members opined that SA [redacted] could have placed innocent third parties in harms way by discharging his weapon into a parking lot. SIRG members reiterated the fact that policy dictates no warning shots are to be fired. This discussion resulted in the recommendation by a majority of SIRG members that SA [redacted] should be censured, suspended from duty for three days, and receive documented legal training as well as remedial firearms training, for his neglect in practicing routine firearms safety procedures. b6 b7C

To: Director's Office From: Inspection
Re: 297-HQ-A1271741-D, 05/19/2004

LEAD (s):

Set Lead 1:

DIRECTOR'S OFFICE

AT OPR

That SA [redacted] be censured and suspended from duty for a period of three days for his failure to employ routine firearms safety procedures. Additionally, SA [redacted] should receive additional legal training as well as remedial firearms training regarding proper handling of firearms and this training should be properly documented.

Set Lead 2:

That the Adjudication Unit, OPR, include in the ADIC's copy of the letter of suspension, the need for legal training as well as remedial firearms training for SA [redacted] regarding the proper handling of weapons. Additionally, the letter should advise that this training should be properly documented and that a copy of the documentation should be forwarded to the SIRG Chairman upon completion.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
10/25/2003
DENVER DIVISION

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 10/25/2003, involving Special Agent (SA) [redacted] While conducting an investigation regarding the theft of his Glock Model 22, 40 caliber pistol from his Bureau vehicle, SA [redacted] fired six rounds at a subject who was driving a vehicle towards him. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference report of Supervisory Special Agent (SSA) [redacted] dated 11/25/2003.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

Details of the Shooting Incident

On 08/25/2003, SA [redacted] Bureau-issued pistol was stolen from his locked and alarmed Bureau vehicle, while he was attending his son's football practice at a high school. A Theft of Government Property-Weapon investigation was opened and assigned to SA [redacted] of the Denver Division.

In addition to the FBI investigation regarding the stolen weapon, the Denver Police Department (DPD) developed source information that the weapon was in the possession of two individuals identified as [redacted] and [redacted] Information obtained by the DPD indicated that a [redacted] the two suspects. Upon their arrival at the arranged meeting location, the two suspects observed the source talking to a DPD officer and fled the scene resulting in a high speed chase. Although the suspects were not apprehended during the chase, the source advised authorities that SA [redacted] stolen weapon was in the vehicle. b6 b7C b7D

Further investigation by the DPD resulted in search warrants being obtained for the two individuals on drug related charges. On 10/17/2003, the search warrants were executed by DPD officers with both [redacted] and [redacted] being arrested, however, SA [redacted] stolen weapon was not located.

SA [redacted] kept SA [redacted] advised of the status of the local drug investigation relating to the suspects, and provided him with several addresses which they were known to frequent.

SA [redacted] advised that on 10/24/2003, during separate conversations, he advised Acting Assistant Special Agent in Charge [redacted] and SA [redacted] that he was going to initiate spot checks at several addresses regarding the investigation. SA [redacted] conducted the spot checks during the early evening on 10/24/2003. Case Agent [redacted] advised that he had no knowledge of SA [redacted] intention to conduct the spot checks. However, during a conversation between the two on 10/24/2003, SA [redacted] asked SA [redacted] to make a phone call to a cable company regarding the possibility of a cable installer having information concerning subject [redacted] showing off an FBI Agent's gun during the installation of cable at a Denver residence. b6 b7C

On 10/25/2003, SA [redacted] went into service at 6:45 a.m., for the purpose of conducting spot checks at the locations provided by the DPD. At approximately 8:00 a.m., SA [redacted] observed a green Ford Expedition parked in the vicinity where he was conducting a spot check. Believing the vehicle to be stolen and in the possession of subject [redacted] SA [redacted] contacted

SSA [redacted] who, according to SA [redacted] indicated he would come to the site when his wife returned home. According to SSA [redacted] he was contacted by SA [redacted] regarding the situation and advised SA [redacted] to contact the DPD since they had jurisdiction regarding the stolen vehicle. SA [redacted] contacted DPD Officer [redacted] who was involved in the stolen weapon investigation and provided him information regarding the vehicle. Officer [redacted] advised SA [redacted] that the vehicle was indeed stolen and further stated he was en route to SA [redacted] location. Uniformed DPD officers were not contacted about the situation. b6 b7C

Prior to the arrival of Officer [redacted] SA [redacted] observed subject [redacted] exit a residence and approach the stolen vehicle. He re-contacted Officer [redacted] who indicated he was close to SA [redacted] location. SA [redacted] advised Officer [redacted] he was going to effect a stop on the vehicle. SA [redacted] heard Officer [redacted] call out on the radio for uniformed officer assistance.

SA [redacted] drove out of the parking lot and positioned his vehicle in the street. Subject [redacted] entered the Expedition but did not immediately close the vehicle door. As [redacted] closed the door to his vehicle, SA [redacted] drove his vehicle to the area where [redacted] was parked, and hoping to block [redacted] vehicle, stopped his vehicle at the front bumper of the suspect vehicle. Although not wearing any law enforcement identifying insignia, SA [redacted] rolled down his window to identify himself. According to SA [redacted] pointed a handgun through his front windshield at him causing SA [redacted] to jump out of his Bureau vehicle verbally identifying himself as a police officer. [redacted] began to drive his vehicle out of the parking space and toward SA [redacted] who jumped out of the way to avoid being hit by the suspect vehicle. Fearing for his life, SA [redacted] began shooting at [redacted] while the Expedition was passing him. The suspect drove away from the scene at a high rate of speed. SA [redacted] retrieved his Bureau vehicle and unsuccessfully attempted to locate the suspect. The suspect was arrested later in the day by the FBI and the DPD.

On 02/13/2004, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Steven C. McCraw, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: b6 b7C [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Jeff Vasey, Investigations Division, Office of Inspector General, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; Manuel E. Mora, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Acting Section Chief, Applicant Processing Section, Administrative Services Division;

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

b6
b7C

The only observation made by the SIRG was the fact that SA [redacted] was in the area alone and did not wait for assistance to arrive. However, members opined that Denver Division management had already recognized the situation and proactively handled the issue.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
01/31/2002
JACKSON DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 01/31/2002, involving Special Agent (SA) [redacted] SA [redacted] shot and injured an attacking pit bull dog during the execution of a search warrant. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

b6
b7C

**Administrative:** Reference Electronic Communication of Supervisory Senior Resident Agent [redacted], dated 02/08/2002.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271615-D, 04/23/2002

Details of the Shooting Incident

On 01/30/2002, SA [redacted] was present at a briefing regarding several search and arrest warrants that were to be executed at a local area on 01/31/2002. SA [redacted] was assigned to a search warrant team who was responsible for conducting a search warrant in Vancleave, Mississippi. During the briefing, a point was made that numerous pit bull dogs were known to be located at the property.

b6
b7C

At approximately 6:40 a.m., on 01/31/2002, the team arrived at the Vancleave property and observed several dogs in the yard. Two small dogs began to run towards the car and upon the exit of a Sheriff's Department Deputy and his canine, the dogs turned and began chasing them. SA [redacted] exited his vehicle and began running to the front door of the residence. As he ran up the sidewalk in front of the residence, SA [redacted] noticed something in his peripheral vision running towards the team. As he turned, SA [redacted] observed a pit bull dog attacking the team and, believing that team members were in imminent danger of serious physical injury, fired a two round burst from his MP-5 shoulder weapon. The animal yelped once, fell to the ground and appeared to be mortally wounded.

SA [redacted] and team members entered the home and cleared the residence. Upon completion of the search warrant, SA [redacted] exited the residence and returned to the area where the dog was last seen. The dog was no longer in the spot where he had fallen and a search of the area failed to locate him.

On 02/12/2002, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted], Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; William P. O'Hanlon, Section Chief, Facilities Management Section, Administrative Services Division; William Q. Doherty, Section Chief, Global Section - NS-2, National Security Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Washington Field Office; and SSA [redacted] Program Manager, Practical Applications

b6
b7C

Unit, Training Division. The only nonvoting member present was [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary. b6 b7C

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the current deadly force policy. Therefore, a recommendation was made that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
08/02/2002
CRITICAL INCIDENT RESPONSE GROUP (CIRG)

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 08/02/2002, involving Supervisory Special Agent (SSA) [redacted] SSA [redacted] discharged his Bureau-issued Glock Model 22, 40 caliber pistol at a fox that attacked him as he attempted to enter his Bureau vehicle. SIRG members recommended that no action be taken against SSA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference Electronic Communication of SSA [redacted] dated 08/14/2002.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271971-D, 12/05/2002

Details of the Shooting Incident

On 08/02/2002, SSA [redacted] was entering his Bureau vehicle in his driveway when he noticed a fox attacking his left ankle. SSA [redacted] kicked the fox several times, however, it repeatedly attacked him and eventually hid under his car. After putting his dog inside his residence, SSA [redacted] observed the fox biting, growling and pulling at a fence. As the fox again charged at SSA [redacted], he shot the animal in the right flank. As the animal charged at SSA [redacted] a third time, he fired two shots into its chest, killing the fox. b6 b7C

Animal Control retrieved the fox and determined that it was rabid.

On 12/03/2002, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Michael S. Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
EL PASO DIVISION
SEPTEMBER 12, 2002

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident occurred while Federal Agents conducted a Special Weapons and Tactics (SWAT) mission in support of the Union Pacific Railroad Police Department (UPRRP) and the United States Border Patrol's (USBP) operations against railroad robberies and burglaries.

On September 12, 2002, members of the FBI SWAT Team, United States Customs Service (USCS) Agents, UPRRP, and USBP were involved in an operation whereby they were attempting to apprehend train robbers and train wreckers. (Train wreckers are defined as individuals who attempt to interdict or interrupt a moving train.) The trains travel along the United States-Mexico International border in Sunland Park, New Mexico, contiguous with Colonia Anapra, Ciudad Juarez, Chihuahua, Mexico. The law enforcement officers were staged within and around the train, identified as Union Pacific train ILBDA 10, in the vicinity of the Sunland Park, New Mexico railroad siding, in anticipation of a train burglary. Officials from the Republic of Mexico (ROM) Customs and the Juarez Municipal Police agreed to provide assistance to the U.S. officials in the apprehension of the train robbers and train wreckers by apprehending any Mexican Nationals fleeing from U.S. officials as they attempted to illegally re-enter Mexico.

The International border of the U.S. and Mexico in the Sunland Park, N.M. area is separated by a chain link fence,

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

approximately 12 feet in height, which is erected completely on U.S. soil. The area north of the fence is United States territory, as is the area immediately adjacent to the fence on the south side. The width of U.S. soil, and the actual International boundary, in relation to the southern side of the fence varies throughout the length of the fence. The actual U.S.-Mexico land boundaries are marked with "monuments" at various points along the border. There are two such monuments in the Sunland Park area, approximately 1½ to 2 miles apart. The location where the train wreckers and train robbers enter the U.S. is approximately 1 mile West of monument number 2 and 1 mile East of monument number 3, through a large opening cut through the chain link fence. Immediately south of the fence at the opening is an arroyo or draw approximately 20 feet deep, the south bank of which is in Mexico. No monument exists near the opening in the fence. This area is not designated as a lawful port of entry into the United States by immigration officials.

In support of the operation, both the FBI El Paso and Albuquerque SWAT teams, numerous USBP personnel, USCS, UPRRPD personnel and over 70 law enforcement officers from the ROM participated. Officers and Agents were prepositioned throughout the area, including positions on the train cars. Train ILBDA 10 stretched approximately one and half miles, with over one hundred cars. Teams one through six, comprised of FBI El Paso SWAT Team members, occupied the train cars near the point of the incident. The teams were spread out on various cars approximately 500 yards apart. SA [redacted], who discharged his weapon, was on Team 2.

At approximately 8:24 p.m., Train ILBDA 10, heading East on the Union Pacific Railroad tracks, stopped at the siding. As the train was stopping, according to SSA [redacted] of the UPRRP, seven unidentified individuals were seen, with the assistance of night vision goggles (NVG), running from the south side of the arroyo in single file and illegally crossing into the United States through the hole in the fence that separates the U.S. and Mexico. Additional individuals headed toward the fence, some from houses in Colonia Anapra, ROM and some from within the arroyo itself. After crossing into the U.S., the individuals approached the stopped train. Several individuals boarded the train, while others walked down the length of the train to other train cars. Additional individuals continued to approach the fence from Mexico.

b6
b7C

Almost immediately after the train stopped, a male, later identified as [redacted] boarded the top part of the well of the train car that contained SAs [redacted] and [redacted] known as Team 1 for the operation. As [redacted] walked north across the top portion

of the train car he was pulled into the well of the train car where he was apprehended by SA [redacted]. According to the SWAT Log, at approximately 08:25 p.m., SA [redacted] advised "1 in custody Team 1." Immediately following the arrest, SAs [redacted] and [redacted] heard individuals speaking in the Spanish language on the south side of the train. They also heard rocks striking the south side of the train.

As the train stopped, SAs [redacted] and [redacted] known as Team 2, heard voices originating from the south side of the train. SA [redacted] was responsible for operating the ballistic shield, SA [redacted] was responsible for radio communications, and SA [redacted] was responsible for carrying a shoulder weapon. According to SA [redacted] statement, shortly after the train came to a stop, a male, later identified as [redacted] a juvenile, boarded the train car. SA [redacted] attempted to apprehend [redacted] while still in his initial position, however, [redacted] jumped off the train and ran toward the fence opening. According to SA [redacted] he instantly jumped off the train, chased [redacted] and took him to the ground. According to the SWAT Log, SAs [redacted] and [redacted] advised via radio they were compromised. SAs [redacted] and [redacted] also disembarked from the train. (Note: There was no indication from the SWAT Log or any individual's statements, that any other party was aware that SAs [redacted] and [redacted] were off the train at this time.) SA [redacted] apprehended [redacted] near the fence opening on the north side of the fence. A struggle ensued, during which [redacted] kept his hands under his chest in order to prevent SA [redacted] from handcuffing him. After SA [redacted] placed [redacted] in handcuffs, a second unidentified male approached him. The man fled through the hole in the fence when SA [redacted] gestured to him.

According to SA [redacted] as she disembarked from the train, she saw and pursued a male, later identified as [redacted] a.k.a [redacted] toward the hole in the fence. SA [redacted] grabbed [redacted] as he approached the fence, but [redacted] was able to escape her hold. SA [redacted] was able to apprehend [redacted] again on the south side of the fence. As SA [redacted] handcuffed [redacted] they slid down the north side of the arroyo. According to the SWAT log, at approximately 08:26 p.m., SA [redacted] reported via radio "Got 2" and at 08:30 p.m. an agent from Team 2 believed to be SA [redacted] advised via radio that she had "one in custody". (Note: There is no evidence to suggest anyone other then Team 2 was aware that SA [redacted] was on the South side of the fence at the bottom of the arroyo at this time. According to the SWAT Log, at approximately 08:28 p.m. the 'vamanos' or execute order was given to the entire group.) According to SA [redacted] a large group of people had

b6
b7C

b6
b7C

gathered at the top of the south side of the arroyo at this time. The group was throwing large rocks, sticks and bricks at SA [redacted] and yelling to others to help free subject [redacted]. The group was yelling and encouraging others to throw rocks and bricks at "La Migra", meaning immigration officials. SA [redacted] was struck by numerous rocks and sticks. As SA [redacted] was attempting to move [redacted] up the north side of the arroyo, she was struck in the head by a brick that had been thrown by someone in the group on the south side of the arroyo, causing significant head trauma to SA [redacted]

SA [redacted] having seen SA [redacted] apprehending [redacted] proceeded to her location in the arroyo to provide assistance. Seeing SA [redacted] bleeding profusely and in need of assistance, SA [redacted] moved to her location in the arroyo and attempted to help her drag [redacted] up the north side of the arroyo. As SA [redacted] arrived at SA [redacted]s location, he was struck in the head by a large rock or brick thrown from the group of individuals atop the south side of the arroyo. SA [redacted] and SA [redacted] proceeded up the arroyo to the fence. As they moved toward the fence, an unidentified individual struck SA [redacted] in the back of the head with a club. SA [redacted] sustained a fracture to his skull, in addition to other injuries, which required emergency surgery and hospitalization.

b6
b7C

SA [redacted] recalled at the same time, observing a silhouette of an individual approach the hole in the fence from the South side. When the individual reached the opening in the fence, SA [redacted] recognized the individual as SA [redacted] and blood was flowing down his face. As SA [redacted] made his way to the north side of the fence, SA [redacted] instructed him to crouch down behind the same bush where he and his detainee, [redacted], were concealed.

b6
b7C

Meanwhile, [redacted] resisted SA [redacted] attempts to move him. As SA [redacted] struggled with [redacted], a male, later identified as FNU LNU, a.k.a. [redacted] struck SA [redacted] repeatedly on the right leg with a baseball bat. [redacted] then kicked SA [redacted] repeatedly in the torso, and then resumed striking her with the baseball bat. During the assault by [redacted] SA [redacted] was also struck in the left orbital region of the face with an unknown object. The group at the top of the arroyo continued throwing rocks and shouting in Spanish. SA [redacted] released [redacted] and both [redacted] and [redacted] fled. SA [redacted] then crawled to the top of the arroyo and through the fence. SA [redacted] suffered severe injuries to her head and the orbital region of her face, requiring hospitalization and surgery. SA [redacted] also suffered several additional injuries to her legs and torso region. At approximately 08:30 p.m., SA [redacted] advised via radio, "Team 2 compromised, needs assitance." Also at 08:30 p.m., SA [redacted] from

Team 1 advised via radio, "Team 2 needs help."

At approximately this time, SA [redacted] stated he saw SA [redacted] crawl through the opening in the fence, also severely injured and bleeding profusely from the head. As SA [redacted] rose to his knees to communicate with SA [redacted] escaped from his custody and ran towards the fence opening. Both SA [redacted] and SA [redacted] appeared to be incapacitated. When SA [redacted] regained control of [redacted] they were situated directly in front of the fence opening. At this same moment, SA [redacted] was struck in the back by a large rock originating from the south side of the fence. b6 b7C

After a few seconds, SA [redacted] saw approximately one dozen unidentified people approaching the fence opening from the south side. The group was yelling in Spanish, and throwing softball-size rocks and sand at SA [redacted] began kicking SA [redacted] in an attempt to escape SA [redacted] custody. SA [redacted] was hit in the eyes with sand and in the hand by a rock, thrown by the group. [redacted] yelled repeatedly in Spanish to the group approaching the fence opening. Fearing for his life and that of his incapacitated team members, SA [redacted] drew his pistol and aimed it at the group outside the opening in the fence. The group continued to throw rocks and sand at SA [redacted] Seeing a male about to throw a soft ball size rock at him, SA [redacted] aimed his pistol at the man and fired one round. Due to the sand in his eyes and the low ambient light, SA [redacted] was unable to get a clear sight picture prior to firing and therefore, was unsure if his round hit the subject. After the shot rang out, the group immediately fled from the fence opening to the south side of the arroyo. SA [redacted] sustained injures to his eyes, back, legs and finger as a result of [redacted] kicks and the rocks and sand being thrown by unidentified individuals.

As the group of unidentified individuals attempted to return to Mexico, Mexican officials took custody of several subjects. As members of the Disaster Medical Assistance Team (DMAT) evacuated the injured agents from the area, members of the SWAT Team, agents from USCS and USBP, and UPRR Police met the Mexican officials on the U.S. side of the Anapra Arroyo and took custody of and arrested at least ten individuals. Four additional subjects were apprehended by USBP while fleeing Northward. In total, 16 individuals were arrested, including the original two subjects apprehended by SAs [redacted] and [redacted] b6 b7C

The crime scene was immediately secured and preserved by the SWAT team members. Members of the El Paso ERT team searched the area at

daylight. ERT documented, diagramed and photographed the area. Numerous evidentiary items were recovered including but not limited to, a homemade hammer, bolt cutters, rocks wrapped in rags, sticks, blood stained rocks, and other improvised devices/weapons.

Interviews of law enforcement personnel, confidential informants, subjects, and media accounts failed to indicate any injuries or property damage resulting from the gun shot fired by SA [redacted] SA [redacted] weapon was submitted into evidence and reflected on the evidence log. The ERT search was unable to locate either a shell casing or bullet fragment at the scene. b6 b7C

Case ID #: 297-HQ-A1271921 SUB D

Title: SA [redacted]
SA [redacted]
SA [redacted] - VICTIM;
SHOOTING INCIDENT/ACCIDENT, CAMP SANTIAGO, PUERTO RICO
07/26/2002

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident occurred on 07/26/2002, while FBI Special Agents were conducting a Special Weapons And Tactic (SWAT) Team, Close Quarter Battle (CQB) training exercise within the Shoot House range at Camp Santiago, Salinas, Puerto Rico. The Camp Santiago range was under the control of the Puerto Rico National Guard. The Shoot House utilized for the training exercise was built for and is used primarily by Company C, 3rd Battalion, 7th Special Forces Group (Airborne) (3/7 SFG), Naval Station Roosevelt Roads, Puerto Rico. The Shoot House is a covered, open air, concrete structure with elevated catwalks for observation.

During the course of training for a two man entry training exercise involving a room within the Shoot House, FBI Special Agents [redacted] and [redacted] entered the room after the introduction of a flash-bang device and discharged H&K MP-5 weapons at a stationary target trap. The target trap was partially concealed by a wooden desk. The discharge of these weapons resulted in the ricochet of several rounds off the desk top, which also appear to have missed the target trap and ricocheted off the concrete wall immediately behind the target trap. One of these rounds ricocheted upwards toward the catwalk where SA [redacted] was observing and struck him in the right eye.

DETAILS:

1. THE SHOOT HOUSE, CAMP SANTIAGO:

The Camp Santiago Shoot House is located in a remote area on the eastern portion of the Camp Santiago National Guard Base, which is located in the town of Salinas, Puerto Rico. The structure was built, utilized, and maintained by Company C, 3/7th Special Forces Group, U.S. Army stationed at the Naval Station Roosevelt Roads. It has been utilized to practice, achieve proficiency, and maintain currency in breaching techniques and room clearance operations. Construction of the Shoot House was completed in March to May 2000. It is a concrete structure with a raised corrugated fiberglass roof supported by steel columns. On the second level of the structure a series of elevated catwalks which are positioned along and above the interior concrete walls and allow observation into the roofless interior rooms. The first floor is divided into multiple rooms utilizing existing concrete walls and plywood dividers stabilized by 2" X 4" studs.

- Company C, 3/7th Special Forces Group (SFG) (Airborne), U.S. Army, Naval Station Roosevelt Roads completed a risk assessment of the Shoot House, dated May 5, 1999, for: "Live Fire Close Quarter Combat (CQC) and Demolitions Breach, Multi-Team, Multi-Entry" training. In addition, the C 3/7th SFG also completed Standard Operating Procedures (SOP) for use of the Shoot House.

2. SHOOTING SCENE EVIDENCE COLLECTED:

The details of the incident reported in the San Juan Division post shooting investigation report, dated 07/30/2002, submitted to FBIHQ were generally confirmed by this SIRG investigation.

The incident occurred at approximately 11:58 a.m., 07/26/2002, in Room 2 in the interior of the east-southeast portion of the Shoot House. The San Juan report incorrectly identified this room as Room 1. The corners of the room were oriented in the cardinal directions with the entrance to the room being north. The northeast and northwest walls were temporary structures constructed of plywood and measured 8'1" in height and 12' in length. The southeast and southwest walls were constructed of concrete and rise 9'6" in height. The southeast

wall was 15.83' long and the southwest wall was 11.16' long. These walls are joined in the southern corner by a 8" section of concrete wall at roughly 45 degree angles. The concrete walls are topped by catwalks made of plywood and reinforced with 2" X 4" studs. The catwalks are enclosed by metal railings which rise to waist level. These catwalks extend over the concrete walls and protrude into the room.

At the time of the incident, the room contained a targeted bullet trap (l=3', w=2.2', h=3') propped in the southern corner of the room. The trap rested on the floor and contained a paper subject target pointing a pistol from the shoulder position. The target contained 4 bullet holes. Three of the holes were grouped in the right shoulder and the right hand, where the pistol was located. The fourth hole was located in the center mass, chest, region.

Approximately 2.83' in front of the trap was positioned an executive style wooden laminate desk (l=4', w=2', h=2.4'). This desk was placed between the trap and the shooters and obstructed approximately half the target. The top of the desk contained two gouges on the western side and one on the eastern side. The gouge on the eastern side appeared to have resulted in a larger laminate chip being displaced and subsequently located at the base of the trap. These gouges measured approximately 3", 3.25" and 2.5" respectively. All gouges were oriented toward the trap. A review of the video tape recorded of the training confirmed these gouges were the result of the shooting by SAs [redacted] and [redacted]

Above the trap, located on the concrete wall were marks that appeared to be impact marks from rounds. These marks appeared to investigators to be relatively fresh and showed striations indicating a ricochet. These marks were consistent with probable trajectories from the desk top. There were no rounds found imbedded in the concrete wall. The investigation was not able to conclusively determine these marks were the result of the shooting by SAs [redacted] and [redacted] The concrete walls contained numerous marks, the origin of which was inconclusive.

b6
b7C

The SIRG on-site review of the marks with San Juan Division SSRA [redacted] who conducted the initial post shooting review, confirmed the marks originally identified in the San Juan review as the probable marks resulting from the 07/26/2002 shooting. However, the incident scene had not been secured after the San Juan review and there was evidence the

scene had been contaminated. Specifically, two temporary plywood walls had been removed and the furniture repositioned within the Shoot House. No other contaminations were readily identifiable.

The San Juan review identified several .223 bullet casings on the floor which were discarded at the time of the review since only 10mm caliber rounds had been employed on 07/26/2002 by SAs [redacted] and [redacted] No other FBI shooters had used the Shoot House that day. Six shell casings for 10 mm rounds were found on the floor of the room as well as an expended MK-141 flash-bang diversionary device simulator and spoon. Also located along the northeastern wall was an empty two drawer filing cabinet.

All evidence collected from the room was photographed, measured and collected in accordance with FBI standards for evidence collection. In addition, the locations of all items in the room were identified in the scene diagram prepared during the San Juan review.

In the room adjacent to and located northwest of the shooting room, one 10mm shell casing was found and similarly processed and collected. b6 b7C

In the room adjacent to and located southwest of Room 2 (Room 4), a right sunglass eye lens was recovered during an immediate sweep of the area after the incident by SWAT Team personnel attempting to locate SA [redacted] injured eye. The San Juan Report incorrectly identified these as Room 1 and Room 3. The location was marked at the time of the recovery and later photographed and measured. The lens was similarly processed and collected.

The catwalk above the southwestern wall contained a dark red stain near the northern most steel support column which was subsequently identified as SA [redacted] blood from the eye injury. This area had been cleaned after the incident to prevent injury. This area was photographed during the San Juan investigation. Also located to the west of this stain on an adjoining catwalk was a pair of Bolle sunglasses, missing a right eye lens, which was later identified belonging to SA [redacted] The glasses were recovered during the immediate sweep of the area after the incident and the location marked for subsequent measurement and photographing. The glasses were similarly processed and collected.

During the San Juan review it was noted that the catwalks along both the southwest and southeast walls of Room 2 contained numerous small particles of concrete matter.

Additional evidence collected by San Juan was a 8 mm HG Maxell videotape of the room entry and shooting filmed by SSRA [redacted] and the bullet slug that penetrated SA [redacted] eye collected by FBI Philadelphia from the pathology lab at the Wills Eye Hospital in Philadelphia, Pennsylvania subsequent to its removal. The slug was photographed and measured during the SIRG investigation.

b6
b7C

Subsequent to the shooting, the San Juan Division conducted a review which resulted in the collection of the evidence noted above. In addition, a scene reconstruction was prepared to identify the probable bullet trajectory based upon available evidence. The SIRG investigation, performed subsequent to the scene contamination, concluded the bullet trajectory identified by San Juan was the most probable path of the bullets fired by SAs [redacted] and [redacted] A subsequent graphic depiction of the post-shooting evidence collection sites was prepared by the Investigative and Prosecutive Graphics Unit, FBI Laboratory Division and is made a part of this report.

3. INCIDENT RECONSTRUCTION

On Thursday, 07/25/2002, members of the FBI San Juan SWAT Team participated in a firearms training session at the Isla de Cabras firing range. This training was intended to prepare the team to conduct a Close Quarter Battle (CQB) live fire training exercise at the Camp Santiago Shoot House the following day. The training consisted of firing 2 Personal Qualification Courses (PQCs) with assigned sidearms and several "move and shoot" drills utilizing Heckler and Koch MP-5 submachine guns and assigned sidearms. Transition drills from the MP-5 to the sidearm were conducted. Additionally, door entries were discussed and rehearsed utilizing a mock door frame and no ammunition. Also, use and deployment of the flash-bang distraction device was discussed and demonstrated. This training was conducted without incident.

Based on the physical evidence found and obtained at the scene, eyewitness accounts and interviews the following is what is believed to have occurred on 07/26/2002 at the Camp Santiago Shoot House:

Arrangements for use of the Shoot House were made prior to 07/26/2002 through Major [redacted] and Sergeant [redacted] Company C, 3rd Battalion, 7th Special Forces Group (C3/7 SFG), Naval Station Roosevelt Roads, Puerto Rico. Major [redacted] was new to command of the 3/7 SFG, having recently replaced Major [redacted] Sgt. [redacted] had been the point of contact for the FBI San Juan SWAT Team Leader (STL) SA [redacted] since approximately August 2001, subsequent to a meeting with Major [redacted] Warrant Officer [redacted] and Sgt. [redacted] regarding use of the Shoot House range.

b6
b7C

Sometime between 8:30 a.m. and 9:00 a.m. members of the FBI San Juan SWAT Team arrived at the Camp Santiago Shoot House. There was no contact by any member of the FBI SWAT Team with the Puerto Rico National Guard (PRNG) Range Control to advise them of the FBI's use of the Shoot House. Although aware of the use of the Shoot House, no C3/7 SFG personnel were on site at the Shoot House on 07/26/2002.

The lack of contact with the PRNG Range Control was consistent with several prior uses of the Shoot House by the FBI SWAT Team under the leadership of STL [redacted] On most previous occasions C3/7 SFG personnel were on site either before and/or during the conduct of FBI SWAT Team training at the Shoot House.

In his interview, STL [redacted] advised he did not contact PRNG Range Control on 07/26/2002 despite a specific request by Sgt [redacted] that he do so. STL [redacted] explained that he did not think it was his responsibility to contact PRNG Range Control. STL [redacted] explained that by refusing to notify PRNG Range Control he was ensuring C3/7 SFG would be present whenever the FBI utilized the Shoot House. STL [redacted] unsuccessfully attempted to contact Sgt. [redacted] when he discovered he was not at the site. After the unsuccessful attempt, STL [redacted] authorized the initiation of training at the Shoot House. No range flags were hoisted at the site to identify a live range.

b6
b7C

After arrival, at approximately 9:00 a.m. the SWAT Team received detailed "talk through" and "walk through" training related to two and four man room entries and clearing techniques. This training was led by STL [redacted] who provided new operators copies of the SWAT Training Manual pertaining to CQB training. During the "walk through" training in the Shoot House the importance of shot placement, weapon discipline, safety and shot accuracy were emphasized to minimize the potential for ricochet dangers. During this training, STL [redacted] advised

operators to fully load their MP-5 weapons consisting of 25 rounds of 10mm, Full Metal Jacket (FMJ), "ball" type, ammunition.

During his interview, STL [redacted] advised he was aware of the potential dangers associated with ricochet rounds in the Shoot House but determined the risks were reasonable and acceptable given his assessment of the critical need for this type of training. b6 b7C

The SWAT Team utilized MP-5 weapons and 10mm, FMJ, ammunition during these and previous training exercises at the Shoot House. Attached to the weapons were a mixture of Aimpoint and C-More sights. These sights were calibrated at 25 to 35 yards and in CQB scenarios required compensation in the form of a two to three inch drop from sight picture to shot placement. Compensation for the sights during the Shoot House CQB training was verbally emphasized during training.

The interviews conducted by the SIRG determined training at the Shoot House consistently stressed the importance of accuracy to minimize ricochet. One Operator, SA [redacted] advised he recalled four prior instances when shooters had missed the targets and rounds had struck either the ground or the concrete wall. There was also one instance reported wherein a fragment had ricocheted and inflicted a minor injury to another member of the SWAT Team observing the activity. Additionally, C3/7 SFG personnel had observed the agents during previous training exercises miss the target trap and subsequently chastised them. In each instance after a miss, the training was suspended immediately and a discussion ensued to stress the importance of accuracy. In some instances the training pace was slowed in order to assist the shooter's accuracy. The awareness of potential ricochet risks and the emphasis on accurate shooting was consistent with the statements of other SWAT Team members. b6 b7C

After the "walk through" training exercises, a detailed safety briefing was also conducted by SA [redacted] the designated Safety Officer (SO). This safety briefing concentrated on identifying the designated ambulance in the event of an injury, EMT personnel, location of the Aid Bag, and air and ground MedEvac plans were coordinated and confirmed. The quality of this briefing and pre-incident coordination was evident in the excellent post injury response of the San Juan SWAT Team. This coordination and emergency response was specifically commended by Colonel Wilson Torres, Chief of Staff, Office of the Adjutant General, Puerto Rico National Guard.

After the safety briefing conducted by SA [redacted] at approximately 11:30 a.m., Assistant SWAT Team Leader (ASTL) SA [redacted] who is also a Certified Firearms Instructor, provided another safety briefing regarding the use of live ammunition in the Shoot House and again cautioned the team about potential ricochet danger. All team members were then instructed to put on their SWAT gear consisting of helmet, vest and hearing and eye protection.

b6
b7C

A final instruction and demonstration regarding the use and safe deployment of a flash-bang device was provided by STL [redacted] This included demonstration of a live flash-bang device. Afterwards, operators were instructed to leave the Shoot House so he could prepare the training room. He also instructed ASTL [redacted] to pair experienced and inexperienced operators together for the two man entry exercise.

The room utilized in the Shoot House contained two newly constructed plywood walls. The FBI did not build these walls and, therefore, it is presumed they were built by C3/7 SFG. The configuration of this room was not anticipated by the SOP, which discloses no such room in identifying approved areas of live fire. The effect of this new, temporary, room was to place the only available catwalks "down range" of the shooters. The permanent Shoot House rooms are carefully configured to enable observers to view from catwalk locations behind the shooters. The only catwalks available in this temporary structure were the southeast and southwest walls, with the target placed in the south corner. As a result, use of the available catwalks to view this temporary room would reasonably be considered to be of an unacceptable risk, except at the most extreme locations away from the target.

After the operators departed the Shoot House, STL [redacted] designed, participated and supervised the arrangement of the room to be used during the exercise. This included target/trap placement and the placement of an empty metal file cabinet and an executive style wood desk. The target/trap was placed in the extreme south corner of the room opposite the entry doorway. The file cabinet was placed in proximity to the northeast wall and east corner. The desk was placed in a position approximately 3'4" directly in front of the target/trap. The placement of the desk obscured at least half the target from view of the shooters.

b6
b7C

Although both ASTL [redacted] and SA [redacted] are both Certified Firearms Instructors, it appears that SSRA [redacted] (SWAT Advisor), ASTL [redacted] and SA [redacted] either participated

in the room arrangement and/or observed the room arrangement without objection to the placement of objects prior to the initiation of the first exercise. Nor was there any apparent discussion regarding the dangerous location of the available catwalks.

SSRA [redacted] was asked by STL [redacted] to videotape the exercise from a position on the catwalk to be determined by SSRA [redacted] The SIRG investigation did not determine exactly who provided what instructions on the specific training roles of ASTL [redacted] and SA [redacted] for the initial live fire exercise.

b6
b7C

For example, in an FD-302 report, dated 07/29/2002, prepared by STL [redacted] pursuant to the San Juan review he asked SA [redacted] to act as the range safety officer in an "over watch" position on the catwalk and further asked ASTL [redacted] to act as a second ground safety officer with STL [redacted]. This recollection is consistent with STL [redacted] SIRG interview, FD-302 report dated 08/20/2002, wherein he advised he appointed ASTL [redacted] as ground safety officer and SA [redacted] was instructed to maintain a position on the catwalk to watch for unsafe conditions such as a trip or unsafe movement.

However, according to a FD-302 report, dated 08/03/2002, prepared by San Juan SSRA [redacted] pursuant to an interview of SA [redacted] he reported that STL [redacted] assigned Range Safety Officer duties to SA [redacted] and SA [redacted] and left it up to them as to positioning....SA [redacted] and SA [redacted] discussed this and it was agreed that SA [redacted] would go up on the catwalk and fulfill his duties there while SA [redacted] would remain on the ground and observe the entry team from that vantage point. In his subsequent interview conducted by the SIRG, reflected in FD-302 report dated 08/20/2002, SA [redacted] advised he and SA [redacted] were assigned by STL [redacted] as alternating safety officers and evaluators, whereupon SA [redacted] agreed to take a position above the shooting area on the catwalk.

b6
b7C

In FD-302 reports, dated 07/26/2002 and 08/20/2002, ASTL [redacted] advised, SA [redacted] made the suggestion that he should observe the training from the catwalk, while ASTL [redacted] should observe the training from the floor.

Based upon these interviews it is not clear whether STL [redacted] instructed SA [redacted] to maintain a position during the exercise on the catwalk; whether this was a suggestion he made and agreed upon; or, whether this was an independent decision of SA [redacted] subsequently agreed to by ASTL [redacted]

during a reconciliation of their respective roles during the first exercise. STL [redacted], ASTL [redacted] and SA [redacted] were each interviewed regarding their respective roles, the directions they were given and the decisions they made that resulted in placing SA [redacted] on the catwalk. Each of their interviews provided results which, taken comparatively, indicates their recollections and perceptions are in conflict. STL [redacted] in an FD-302 prepared by him subsequent to the shooting and during his SIRG interview, indicates that he requested SA [redacted] to take a position on the catwalk. However, in the interviews of SA [redacted] and ASTL [redacted] they indicate the position of SA [redacted] during the exercise was determined through agreement between them and was not at the direction of STL [redacted] ASTL [redacted] even stated that the suggestion that SA [redacted] take the position on the catwalk was originated by SA [redacted] Therefore, given the statements of ASTL [redacted] and SA [redacted] it is possible but not probable that STL [redacted] specifically assigned SA [redacted] to the catwalk position. It is more probable that STL [redacted] suggested someone take a position on the catwalk and that, acting upon that suggestion and prior practice, ASTL [redacted] and SA [redacted] made a joint agreement on their respective positions. b6 b7C

- It also appears in the absence of specific instructions otherwise that overall range safety was the responsibility of STL [redacted] who, importantly, is not a Certified Firearms Instructor.

At approximately 11:45 a.m., ASTL [redacted] selected SA [redacted] and SA [redacted] as the first team to perform a two man entry exercise using live ammunition. ASTL [redacted] selected an experienced operator (SA [redacted] and an inexperienced operator (SA [redacted]. Both operators wore complete SWAT gear which included vest, helmet and ear and eye protection. Both were armed with H&K MP-5 weapons, loaded with 10mm Full Metal Jacket (FMJ), "ball" type, ammunition and fully loaded sidearms. The sidearms, although available, were not employed during this exercise. b6 b7C

Prior to commencement of the exercise, SA [redacted] did not adorn his helmet or protective goggles. He covered his eyes with Bolle sunglasses, which reportedly had some ballistic protective capabilities but were not of the quality of his goggles. SA [redacted] was challenged in this decision by ASTL [redacted] After noticing SA [redacted] without his protective helmet, ASTL [redacted] instructed him to put his helmet on. SA [redacted] explained his concern that ricochet rounds would come from a trajectory below his position and up from the range area.

He was concerned having read literature and studies regarding head wounds where the round was not able to exit due to the helmet. SA [redacted] preferred a clean exit wound and thereafter rationalized his helmet presented a liability given the probable trajectory of any ricochet dangers.

SA [redacted] had high quality, double pane, protective goggles which were adjusted to his protective helmet. He chose not to remove the goggles when he made the decision not to wear his helmet. Instead, he placed the Bolle sunglasses over his eyes. b6 b7C

SA [redacted] was not wearing either his protective helmet or his protective goggles at the time of the shooting. He substituted Bolle sunglasses with some undetermined, but lesser, protective capabilities for eye protection. In addition, SSRA [redacted] also did not wear a protective helmet, although he was wearing a protective vest as well as eye and ear protection.

During his SIRG interview, reported in FD-302 dated 08/20/2002, STL [redacted] advised he thought everyone, including safety officers/instructors, had on full protective gear. He was not aware SA [redacted] was not wearing a helmet. This statement is not consistent with a prior FD-302, dated 07/29/2002, prepared by STL [redacted] pursuant to the San Juan review which states:

> "After observing the room to be used for the training exercise SA [redacted] was verbally asked if he was ready for live exercises to begin. Upon receiving a thumbs up status from SA [redacted] in the catwalk and a verbal ready from TL [redacted] on the ground STL [redacted] advised SAs [redacted] and [redacted] that the live fire exercise was ready to begin."

According to ASTL [redacted] STL [redacted] checked to make sure that everyone was in place prior to giving the command to begin the exercise. It appears that STL [redacted] physically observed all personnel prior to commencement of the exercise and, therefore, should have noticed that SA [redacted] was wearing neither his helmet nor appropriate eye protection. b6 b7C

At approximately 11:58 a.m., all non-participants of the SWAT Team were located outside the Shoot House. The SIRG investigation identified the remaining involved individuals positioned as follows:

1. SSRA [redacted] - Located above the east corner on the catwalk.

2. SA [redacted] - Located above the west corner on the catwalk near the intersection of the southwest concrete wall and northwest wooden wall. (This starting position is different from the starting position reported in the San Juan review which placed him midway between the south and west corners.)

3. SA [redacted] - Located on the ground floor outside the north entrance to the room along the northwest wall. Positioned as the #1 man in the stack position or room entry. b6 b7C

4. SA [redacted] - Located on the ground floor outside the north entrance to the room along the northwest wall. Positioned as the #2 man in the stack position for room entry.

5. ASTL [redacted] - Located on the ground floor outside the north entrance to the room.

6. STL [redacted] - Located on the ground floor outside the north entrance to the room.

After being advised that observers, safety officers and evaluators were ready, STL [redacted] informed SA [redacted] and SA [redacted] that the live fire exercise was ready to begin. He provided each with a practice flash bang device and instructed them to prepare for room entry. Both were asked if they had any questions and both answered that they did not. Neither shooter was reminded at this time to adjust their point of aim to compensate for the calibration of their sights. STL [redacted] then informed them that on the count down, as previously rehearsed, they were to execute a two man single room live dynamic entry using the practice flash bang provided.

After the countdown was completed without incident, SAs [redacted] and [redacted] executed the two man entry. SA [redacted] being the number 2 man, successfully deployed the practice flash bang device he had removed from SA [redacted] vest into the room to initiate entry and retreated back to his number 2 position. b6 b7C

Just prior to the commencing of the live fire drill, SA [redacted] walked south on the catwalk toward the target corner to get a better view of the participants as they delivered

the flash bang device. Immediately after the flash bang device was delivered, SA [redacted] turned his head away from the room in order to protect his face and body from the detonation. After detonation, SA [redacted] turned back around to evaluate the participants.

After the device detonated, SA [redacted] entered the room to the left side followed by SA [redacted] who entered the room to the right side. Both began discharging their H&K MP-5 weapons shortly after entering the room. The discharge of the flash bang device and the subsequent discharge of weapons by SAs [redacted] and [redacted] were captured on videotape, a copy of which is enclosed with this report. b6 b7C

After SA [redacted] cleared the doorway STL [redacted] moved through the doorway. ASTL [redacted] had his observation momentarily obscured by the movement of STL [redacted] Prior to his view being obstructed, ASTL [redacted] believed he witnessed a puff of dust or a ricochet strike the concrete wall above the target trap. When SA [redacted] entered the room, SAs [redacted] and [redacted] had ceased firing.

SA [redacted] believed he was straddling the wide and narrow portions of the catwalk between the south and west corners near the target end when the shooting began. He recalled looking into the room at the shooters as they were firing and heard two or three shots before being struck in the eye by an object. The force of the impact spun him around forcing him to land in a prone position on his stomach. He realized he had been hit in the right eye, noted the missing right eye piece to his sunglasses and could feel blood running down his face. He removed his sunglasses and inspected his head with his fingers for exit wounds and ultimately concluded the object was lodged in his head. After a few seconds, SA [redacted] turned him over on his back and began to administer first aid.

A review of the videotape indicates SA [redacted] fired the first shot. SA [redacted] then fired the second and third shots, both of which appear to have struck the desktop, skipped the bullet, and probably went outside the target trap. The videotape does not disclose the target trap, thereby rendering the sequence of target hits impossible. SA [redacted] then fired the fourth shot, which stuck the desktop, skipped the bullet and probably went outside the target trap. Additional shots were fired and are believed to have struck the target. b6 b7C

A review of the target indicates four direct hits. The desktop indicates three bullet strikes, one from SA

[redacted] and two from SA [redacted] Post shooting evidence collection recovered a total of seven 10mm casings in the vicinity of the room. Six were located within the room and the seventh was located outside the room adjacent to the northwest wooden wall. This would indicate the probability of seven shots fired with three missing the target trap and probably ricochets. One of these undoubtedly ricocheted off the concrete wall behind the target trap and struck SA [redacted] in the right eye. b6 b7C

A review of the object removed from SA [redacted] eye during surgery, a photo of which is included with this report, indicates the object was not a fragment from a bullet or the concrete wall. The object removed from his eye was a partially flattened round, indicating an unfragmented ricochet.

4. FBI USE OF THE SHOOT HOUSE, CAMP SANTIAGO

The SIRG, after reviewing the initial shooting incident report by the San Juan Division, determined the inquiry needed to determine if a risk assessment had been conducted on the Shoot House, what standard operating procedures were in effect for the Shoot House and what the FBI personnel involved in training at the facility knew of the risks and operating procedures and when they knew it.

SHOOT HOUSE LIMITATIONS

An FBI interview was conducted of Colonel Josefina Cruz, Safety and Operational Health Manager, Puerto Rico National Guard (PRNG), Camp Santiago, Salinas, Puerto Rico. Col. Cruz presently serves as the Safety and Occupational Health Manager at Camp Santiago and is responsible for accident prevention, health promotion, and firearm range safety at Camp Santiago. b6 b7C

Col. Cruz advised that by a letter dated 06/28/2000, Major [redacted] Commanding Officer of Company C, 3rd Battalion, 7th Special Forces Group (3/7 SFG) requested the Adjutant General of the PRNG to grant 3/7 SFG a range waiver to conduct close quarter combat training at the new shoot house at Camp Santiago. In particular, the 3/7 SFG requested authority to shoot 9mm frangible ammunition, 9mm simunition ammunition, 5.56 frangible ammunition, 5.56 simunition, and 5.56 blue bolt (plastic) ammunition.

In consideration of that request, Col. Cruz ordered a trajectory analysis for the ammunition specified.

Thereafter, in a letter dated 08/01/2000, PRNG Adjutant General Emilo Diaz-Colon approved a one-year range waiver for 3/7 SFG, exclusively, conditioned on the following:

> "a. The only ammunition authorized for use is the 5.56mm simunition, 5.56mm plastic, 5.56mm frangible, 9mm frangible, and 9mm simunition. The waiver approval does not provide for use of standard ball munitions. If standard ball ammunition is proposed in the future, a separate safety assessment by TACOM-ARDEC must be conducted and the results of that assessment provided for analysis by this Command."

In addition, the PRNG's approval letter indicated that all operations conducted at the Shoot House must be coordinated with the Range Control Office at Camp Santiago. The Adjutant General of the PRNG renewed the 3/7 SFG's range waiver in October 2001 for a second one-year period.

Col. Cruz further advised sometime during November 2001, Captain [redacted] Executive Officer for the 3/7 SFG, sent an e-mail to the U.S. Army's Engineering and Research Center (ERC) at the Picatinny Arsenal, in New Jersey, to inquire about the safety implications of shooting 5.56 ball ammunition inside the shoot house at Camp Santiago. In a response e-mail to Capt. [redacted] that was copy counted to Col. Cruz, the ERC advised that a 3100' feet radius test would be required prior to the granting of authority to use 5.56 ball ammunition at the shoot house. Further, Col. Cruz informed Capt. [redacted] that the community of Sabana Llama was located approximately 2100' southeast of the shoot house, well within the maximum range of the 5.56 ball ammunition. Notwithstanding, Col. Cruz indicated that a waiver for use of that ammunition could be granted if the shoot house was appropriately modified to preclude projectile escapement on the structure's southeast side. According to Col. Cruz, the 3/7 SFG never pursued the matter further.

b6
b7C

Therefore, the use of "ball type" munitions in the shoot house has not been approved and is specifically prohibited.

A review of the enclosed Shoot House SOP, prepared by 3/7 SFG, indicates standard "ball type" ammunition is not approved nor is the placement of furniture permitted to

obstruct targets in the shoot house. This SOP further indicates the permitted target placement areas within each room of the shoot house and requires users to be equipped with appropriate body armor, helmet and eye and ear protection. It does not indicate permissible catwalk areas to be utilized for each shoot house location. Based upon the interviews conducted by SIRG it may be concluded that FBI personnel had not reviewed nor were they aware of the Shoot House SOP.

A review of the enclosed Shoot House Risk Assessment, prepared by 3/7 SFG, indicates the level of risk associated with the use of the shoot house under the approved conditions is "HIGH". It is logical to assume use of the shoot house using "ball type" munitions; locating furniture to obstruct targets; not adhering to personal protection requirements; and/or failing to notify PRNG Range Control, as specified in the SOP, would elevate risk to "VERY HIGH" and to an unacceptable level.

HISTORY OF FBI USE OF THE SHOOT HOUSE

The FBI, with the generous approval of the Puerto Rico National Guard, has utilized a number or ranges at Camp Santiago over the years. Some of the ranges and facilities are used and managed almost exclusively by Special Forces Group personnel. As a result, liaison between the FBI and SFG personnel is also required. The Shoot House range is such a facility and the FBI has been permitted to practice there due to the high quality of the FBI and Special Forces Group relationship.

The earliest known FBI use of the Shoot House range was May 2001. This use was coordinated by former SWAT Team Leader and Coordinator (STL/C) SA [redacted] In addition to his duties as the former STL/C during the period 1992 to 2001, SA [redacted] also served as the Principal Firearms Instructor (PFI) for five years, has served as a Firearms Instructor for twelve years, is a FBI Bomb Technician, Principal Tactical Instructor, Defensive Tactics Instructor and was a member of the San Juan Division SWAT team from 1986 until his resignation in 2001. b6 b7C

To arrange the use of the Shoot House during a week long SWAT Training session, along with other range facilities at Camp Santiago, SA [redacted] coordinated approval through both the Puerto Rico National Guard and the 3/7 Special Forces Group (3/7 SFG). The use of the Shoot House was confirmed by letter from SAC MARELENE M. HUNTER to both the PRNG and the SFG and is documented in FBI files. In addition, PRNG advised

the FBI of the cost of using various range facilities during this training session which include the cost of using the Shoot House.

In his interview, SA [redacted] advised that after securing PRNG and 3/7 SFG approval he always coordinated with the Camp Santiago S-3 Officer who was in charge of all training exercises conducted on the base. It was standard practice for the SWAT Team, when using a range, to stop at Range Control, leave an FBI radio to facilitate constant communication and obtain a "red flag" that would be raised at the specific range flag pole indicating training with live fire scenarios. Range Control would be informed, via radio, when the range became live and when it ended. At the conclusion of the exercise, the red flag would be returned and the FBI radio retrieved upon exit from the base. This standard practice was employed when the Shoot House was used for the first and only time under STL [redacted]. b6 b7C

When the FBI used the Shoot House in May 2001, 10mm and 9mm "ball type" ammunition was used. SA [redacted] advised he could not recall whether Range Control knew what specific type of ammunition was being used at the Shoot House. He further advised he was never informed by Range Control or Special Forces personnel that 9mm or 10 mm "ball type" ammunition could not be used.

STL [redacted] made no attempt to obtain frangible ammunition for use in the Shoot House, although he was aware it was more appropriate for that environment. He ensured safety by deliberately slowing down the exercises. He also ensured that the observers were situated on the catwalk overlooking the exercise behind the shooters. He emphasized the need for deliberation to his team members reiterating at all times to take as much time as needed to successfully hit the target and bullet trap. SA [redacted] recalled one occasion during an entry exercise where an assistant Team Leader placed as an observer situated on the catwalk, above and behind the entry, felt a ricochet of what he described as a piece of metal that grazed his hand. b6 b7C

The Shoot House was utilized on at least three other occasions. Specifically, 07/30/01, 10/26/01 and 01/25/02 the Shoot House was used by FBI SWAT Team personnel. Another training date, 04/26/2002, was scheduled but unused due to the STL [redacted] TDY assignment to Pakistan. The SIRT investigation determined 10mm "ball type" ammunition was regularly employed on each of the prior occasions. It is probable that sidearms weapons were utilized in transition scenarios and also utilized, although the investigation did not focus on this aspect of the training. Each of these training

scenarios were designed, arranged and supervised by STL [redacted]

RANGE CONTROL NOTIFICATION

It appears from interviews conducted that no effort was made by FBI SWAT Team leadership to arrange or notify Range Control of the use of the Shoot House after SA [redacted] took over as STL and Coordinator. STL [redacted] in his interview, advised he did not think it was his responsibility or the responsibility of the FBI to notify Range Control. All use of the Shoot House after STL [redacted] took control of the SWAT Team was arranged exclusively through 3/7 SFG. According to SA [redacted], by refusing to directly notify Range Control he was ensuring 3/7 SFG attendance during SWAT Team training at the Shoot House. In addition, SA [redacted] subsequently also advised as follows:

b6
b7C

> [redacted] advised he remembered another reason he did not check in with Range Control prior to using the house. He recalled he did check in with Range Control on a prior occasion and they asked him where C 3/7 was. He told them C 3/7 were at the Shoot House which wasn't true. He did not want to have to lie for C 3/7 so he refused to check in with Range Control. He acknowledged his failure to notify Range Control was a safety issue since no flag was raised indicating live fire at the location. Given the remote location of the Shoot House, he thought the risk of injury to a bystander was low."

Inasmuch as no 3/7 SFG personnel were in attendance at the Shoot House on 7/26/2002 and no effort was made by STL [redacted] to notify Range Control or to obtain a red flag to indicate a live range, it must be concluded that STL [redacted] either: (1) did not understand the responsibility to ensure Range Control was notified; or, (2) deliberately chose to ignore that responsibility.

Interviews of Range Control personnel indicated they were not aware of the FBI presence at the Shoot House on 7/26/2002 or their intended use of the facility. Documentation in the form of Camp Santiago Range Control Log (enclosed) for that day and correspondence between 3/7 SFG and PRNG (enclosed) regarding use of the Shoot House on that date also fail to reflect an FBI presence or intention to utilize the facility.

SHOOT HOUSE STANDARD OPERATING PROCEDURES

The initial San Juan Division shooting review indicated, via interview of Captain [redacted] 3/7 SFG, that Standard Operating Procedures (SOP) were in effect on 7/26/2002, which the FBI SWAT Team violated.

The SIRT investigation did confirm numerous FBI SWAT Team violations of the Shoot House SOP. The investigation interviewed 19 Special Agents who participated or used to participate (SA [redacted] in the San Juan SWAT Team. However, none acknowledged they were aware of or familiar with the Shoot House SOP provided by Capt. [redacted] In addition, none acknowledged they were aware of the limitations of ammunition which prohibited the use of 10mm "ball type" ammunition or the prohibition against placing furniture to obstruct targets in the Shoot House. b6 b7C

Although at least one SWAT Team member (Assistant Team Leader [redacted] recalled receiving a briefing from SFG personnel on one prior occasion regarding the use of the Shoot House, he did not recall ever receiving a briefing from SFG personnel on the limitations or restrictions of the facility. He was also unaware of the SOP, the limitations of ammunition which prohibited the use of 10mm "ball type" ammunition or the prohibition against placing furniture to obstruct targets in the Shoot House.

The majority of SWAT Team personnel interviewed indicated that SFG personnel were present on most occasions when the FBI utilized the Shoot House. Oftentimes SFG personnel took positions on the catwalk and served as safety observers during SWAT Training when 10mm "ball type" ammunition was utilized. On no occasion did anyone object to the use of 10mm "ball type" ammunition in the Shoot House.

Major [redacted] 3/7 SFG, in his interview, dated 08/20/2002, pursuant to the SIRG investigation, advised in a meeting with STL [redacted] which occurred the week before the shooting incident and which was also attended by SA [redacted] and Sgt. [redacted] that he specifically advised STL [redacted] that the FBI was not permitted to engage in live fire exercises at the Shoot House. b6 b7C

In their interviews, both STL [redacted] and SA [redacted] denied they were advised by Majo [redacted], or anyone else, that they were not permitted to use the Shoot House for live fire exercises or that they were not permitted to use 10mm "ball type" ammunition. Both denied that they were informed in this meeting with Maj. [redacted] that he specifically forbid them

from shooting live ammunition.

POST SHOOTING ACTIVITY

According to Lieutenant Colonel DANIEL MANGUAL, Operations Officer, Puerto Rico National Guard, Camp Santiago, Salinas, Puerto Rico, the following occurred after the shooting incident:

"On 07/26/2002, at approximately 12:10 p.m., the range control office at Camp Santiago received radio notification from C Company, 3rd Battalion, 7th Special Forces Group (3/7 SFG) that an accidental shooting resulting in a serious injury just occurred at the shoot house. The injured party was transported to the helicopter pad near the camp clinic. [redacted] and [redacted], assigned to the Training, Plans and Operations Division, immediately responded to the helicopter pad where they met a few men attired in BDU military clothing. They asked one of the men the whereabouts of the members of the 3/7 SFG. One of the men, unidentified, said the SFG personnel were back at the shoot house where the accidental shooting occurred. Thereupon, [redacted] and [redacted] drove to the shoot house six kilometers away where they found a group of men dressed similarly to those at the helicopter pad. [redacted] asked them if anyone from 3/7 SFG was present. The men, who did not volunteer their identities, replied that no SFG personnel were present."

b6
b7C

It is unclear who made the initial contact with Range Control after the shooting incident, but it must be presumed to have been someone from the FBI SWAT Team since no 3/7 SFG personnel were reportedly present at the scene. STL [redacted] in his interview dated 08/20/2002, advised the following:

"Following the shooting, Range Control showed up outside the house. [redacted] told them to call C 3/7 but he is not sure they understood him as his Spanish is weak... [redacted] ran into Range Control again and they asked him where C 3/7 was. He advised no C 3/7 personnel were present."

On 7/26/2002, ASAC JOSE FIGUEROA specifically instructed members of the San Juan SWAT Team, including STL [redacted], not to discuss the shooting until they had provided statements to the FBI pursuant to a shooting inquiry. Despite these instructions, STL [redacted] agreed to meet with Major [redacted] and Colonel CRUZ on 7/29/2002 to discuss the shooting.

He asked SA [redacted] to accompany him to this meeting. When SA [redacted] inquired about the ASAC's instructions he was reportedly informed by STL [redacted] that permission had been obtained from ASAC FIGUEROA.

In his interview, dated 08/22/2002, ASAC FIGUEROA denied having been asked or giving permission for STL [redacted] or any other personnel to meet or discuss the shooting incident with either Puerto Rico National Guard or Special Forces Group personnel.

b6
b7C

On 7/29/2002, a private meeting was held between STL [redacted], SA [redacted] and Major [redacted]. During that meeting a discussion ensued regarding the use of "ball type" ammunition and the events of 7/26/2002. A subsequent meeting was held which also included Col. CRUZ wherein the FBI's use of the Shoot House was discussed. The details of those meetings are reflected in the reports of interview (FD-302s) of STL [redacted] and SA [redacted]

5. CONCLUSIONS/INSPECTORS OBSERVATIONS

The events at the Camp Santiago Shoot House on 7/26/2002, which resulted in injury to SA [redacted] were the result of an accident. No specific individual responsibility for the accident can be attributed. The following decisions and actions contributed to the accident:

(1) The use of 10mm "ball type" ammunition in a Shoot House constructed of concrete results in an inherently high risk situation for injury resulting from ricochet to any shooter or bystander. Use of this ammunition, or any other "ball type" ammunition, is not presently authorized by either the Puerto Rico National Guard or the Special Forces Group. Leadership of the SWAT Team was aware of the risks of ricochet and took deliberate actions to emphasize the importance of accurate shot placement in the shooting traps and, when necessary, reportedly slowed the pace of training to accommodate the skills of the shooters. However, these precautions were not sufficient in this situation.

(2) FBI SWAT Team Leadership did not fully consider the risks associated with the use of "ball type" ammunition in the Shoot House when the training exercise and environment were developed. Although efforts were taken to ensure shooters were properly attired, shot placement emphasized and shooter pace matched to skill level, there was little

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
12/18/2002
DENVER DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 12/18/2002, involving Special Agent (SA) [redacted] SA [redacted] shot and killed a struggling deer that had been struck by a vehicle. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference Electronic Communication of Supervisory Special Agent (SSA) [redacted] dated 12/19/2002.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271466-D, 06/12/2003

**Details of the Shooting Incident**

On 12/18/2002, at 11:20 a.m., SAs [redacted] and [redacted] were traveling on a highway in Colorado when they approached a work van occupied by two males who had just struck and injured a large mule deer buck. The deer's rear legs were broken and it was struggling and thrashing on the side of the road. The driver of the van advised the Agents that the deer had run into the road in front of his vehicle and he struck the deer causing damage to the front of his vehicle. The driver had unsuccessfully attempted to contact law enforcement authorities.

b6
b7C

While SA [redacted] attempted to contact the Colorado State Police via his radio, SA [redacted] decided to euthanize the deer due to the fact it was suffering and posed a potential threat to other motorists if it managed to get into the roadway. SA [redacted] advised the individuals to return to their van, waited until there were no other vehicles present and shot the deer in the chest and head, killing the animal.

SA [redacted] successfully contacted the State Police who dispatched a trooper to handle the details of the incident.

On 05/08/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Glenn Powell, Investigations Division, Office of Inspector General, USDOJ; Michael S. Clemens, Chief Inspector, Office of Inspections, Inspection Division; Robert K. Cromwell, Section Chief, Applicant Processing Section, Administrative Services Division; Jay C. Manning, Section Chief, CD-6, Counterintelligence Division; [redacted] Acting Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Operational Skills Unit, Training Division; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Investigative Law Unit, Office of the General Counsel; SSA [redacted] Washington Field Office; and SSA [redacted], Firearms Training Unit, Training Division. The only non-voting member present was [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

To: Inspection From: Inspection
Re: 297-HQ-A1271466-D, 06/12/2003

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the actions of SA [redacted] were justified and that no action should be taken against him as a result of this shooting incident. b6 b7C

Report of: IIP [redacted] Office: CHICAGO
Date: 12/20/2002

Case ID #: 297-HQ-A1271285-D

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
CHICAGO DIVISION
DECEMBER 3, 2002

Character: ADMINISTRATIVE INQUIRY

Synopsis:

This shooting incident occurred on December 3, 2002 at the residence of FBI Special Agent (SA) [redacted] Berwyn, Illinois. On December 3, 2002, at approximately 11:50 pm, SA [redacted] was awakened by his spouse who was awakened by the barking of their dog. The barking was followed by a loud crashing noise. SA [redacted] grabbed his Bureau issued pistol and proceeded downstairs to investigate the noise. Upon arrival at the first landing of the staircase, SA [redacted] heard another loud noise. SA [redacted] shouted out, "FBI, get your hands up." He repeated the command six or seven times. Each time the intruder, JOHN FLAHIVE, replied, "No way. You gotta be kidding. No fucking way." When FLAHIVE failed to comply with SA [redacted] commands and took a step towards the staircase on which SA [redacted] was standing, SA [redacted] fired one shot through FLAHIVE's torso. When FLAHIVE fell to the floor, SA [redacted] asked his spouse, [redacted] to call 911. Both the Berwyn police and the EMS arrived within two minutes of the telephone call. Although he was initially expected to survive the shooting, FLAHIVE died at MacNeal Hospital on Friday, December 6, 2002.

b6
b7C

DETAILS:

On 12/03/2002, at approximately 11:50 PM, SA [redacted] and his spouse, [redacted] were sleeping in

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

their master bedroom in the upstairs portion of their residence at [redacted] Berwyn, Illinois. [redacted] was first awakened by the barking of their dog. The barking was followed by a loud banging noise downstairs. [redacted] awoke SA [redacted] who then heard a loud banging noise coming from the ground floor of the residence.

SA [redacted] retrieved his service weapon (Glock Model 22, .40 caliber pistol) and a flashlight, both of which were always kept on top of the night stand and proceeded downstairs to investigate. Upon arriving at the first of two landings of the staircase, SA [redacted] heard another loud banging noise. SA [redacted] shouted, "Who's there?" SA [redacted] then saw an unknown male entering his living room. SA [redacted] saw a white male with blonde hair, wearing eyeglasses, and dressed in dark clothes. SA [redacted] also noticed the intruder was carrying a knapsack.

b6
b7C

SA [redacted] identified himself as an FBI Agent and began to give a verbal command, "FBI, federal agent, I have a gun. Put your hands up." The intruder replied, "No way. You gotta be kidding. No fucking way." SA [redacted] repeated the same command five or six more times. The intruder kept repeating, "No way. You gotta be kidding. No fucking way."

To prove that he actually possessed a handgun, SA [redacted] took his flashlight and shone the light on his weapon. Again, FLAHIVE failed to comply and repeated the statement, "No way. You gotta be kidding."

When FLAHIVE took a step towards the staircase on which SA [redacted] was standing, SA [redacted] fired a single shot to the torso of FLAHIVE. FLAHIVE fell to the floor on his stomach. FLAHIVE then attempted to move his left hand towards his waistband, at which time SA [redacted] pointed his weapon and yelled out, "Let me see your hands." This time FLAHIVE complied with the command.

b6
b7C

SA [redacted] immediately asked his spouse, [redacted] to call 911. Within two minutes, the Berwyn police arrived on the scene, with the EMS following closely behind.

The intruder, previously known to the BERWYN PD Commander on the scene, was identified as JOHN R. FLAHIVE, white male, date of birth 08/27/1964, FBI #492557KA1. FLAHIVE was transported to MacNeal Hospital, Berwyn, Illinois, where he underwent surgery for his gunshot wound.

After the initial surgery, it was believed that FLAHIVE would survive the shooting. FLAHIVE underwent another surgery in the evening of 12/04/2002. On 12/05/2002, two additional surgeries were performed as a result of fracturing of the spleen.

On the afternoon of 12/06/2002, the BERWYN PD was notified that FLAHIVE had died at the hospital. An autopsy report would not be available from the Cook County Medical Examiner's Office for several weeks.

FBI Chicago was immediately notified of the shooting and notifications were made to SAC THOMAS KNEIR, ASAC DAVID CUTHBERTSON, CDC JAMES KRUPKOWSKI, SSA [redacted] ERT Team Leader [redacted] and the Media Coordinator [redacted] ASAC CUTHBERTSON, CDC KRUPKOWSKI, and SSA [redacted] proceeded to the scene.

Evidence recovery was conducted jointly between the FBI ERT and the BERWYN PD. A thorough search of SA [redacted] living room area failed to produce the round which passed through FLAHIVE. A fresh indentation was made in the hardwood floor in the vicinity of where FLAHIVE had been shot. A painstaking check for signs of entry of the round into a nearby sofa produced negative results. It was speculated that the round may have entered the large grill of a heater which was directly in line with the trajectory of the round. Forcible entry into the rear of SA [redacted] residence was evident. No weapon was recovered from FLAHIVE.

b6
b7C

FLAHIVE had a lengthy record containing previous arrests (**SEE ENCLOSURES**): obstructing and resisting a police officer, retail theft, disorderly conduct, controlled substance possession, domestic battery, and violation of a protection order. Commander [redacted] of the BERWYN PD advised that JOHN FLAHIVE and his brothers were known as "troublemakers" for many years. The FLAHIVE family was well-known to the BERWYN PD and the community for "many years of trouble."

After initially being declined by the Department of Justice for representation, on 12/05/2002 SA [redacted] was granted "Emergency Interim Legal Representation Authorized by the Department of Justice" regarding the incident. On 12/06/2002, SA [redacted] represented by [redacted] agreed to provide a voluntary statement regarding the shooting incident to officials of the BERWYN PD, the State Attorney's Office, and the FBI. An FD-927 was read and signed by SA [redacted] prior to the interview.

b6
b7C

On 12/13/2002, Assistant State's Attorney [redacted] Office of Professional Standards, advised that after reviewing the shooting incident, her office decided to decline prosecution. [redacted] also saw no reason for BERWYN PD to retain custody of SA [redacted] weapon. On 12/14/2002, the BERWYN PD released the weapon to SA [redacted]

The Inspection determined that the deadly force utilized by SA [redacted] was justified and within the guidelines

as set forth in the FBI's Deadly Force Policy. When the intruder ignored commands to show his hands on at least six occasions, and took a step towards where SA [redacted] standing, SA [redacted] felt that the intruder posed an imminent danger of death or serious physical injury to himself and/or his spouse.

Prior to firing the shot, SA [redacted] also gave FLAHIVE ample verbal warnings to submit to his authority. SA [redacted] took the additional step of shining the flashlight on his weapon when the intruder stated, "No way. You gotta be kidding. No fucking way." At no time did the intruder exhibit compliance to the commands.

b6
b7C

The Inspection also determined that SA [redacted] had no safe alternative to the use of deadly force since the intruder made no effort to flee once he was caught in the burglary act. In fact, the intruder failed to expose his hands when commanded to do so on several occasions and took a step towards where SA [redacted] was standing.

Title: SHOOTING INQUIRY,
REPORT OF SHOOTING INCIDENT;
DENVER DIVISION;
11/30/2002;
INSPECTION MATTERS

Character: ADMINISTRATIVE INQUIRY

Synopsis: This inquiry was initiated subsequent to a shooting incident which occurred in Colorado Springs, Colorado during the night of 11/30/2002.

b6
b7C

DETAILS:

At approximately 11:00PM on 11/30/2002, SA [redacted], EOD: 8/3/1997, Colorado Springs Resident Agency (RA), Denver Division, was en route to his residence from the RA in his personally owned vehicle (POV). SA [redacted] was in the RA from approximately 9:00PM to 10:45PM. SA [redacted] was eastbound in the 4300 block of Austin Bluffs Parkway and turned left (north) into the entry drive adjacent to a gas station located in the Grocery Warehouse parking lot, intent on buying gasoline for his POV.

While turning left, SA [redacted] saw a man and woman, later identified as [redacted] and [redacted], apparently arguing and physically struggling with each other behind a white Jeep Grand Cherokee. The vehicle was parked in a position facing north into the oncoming traffic lane of the parking lot entry drive. As he drove closer to the man and woman, SA [redacted] lowered his driver's side front window in an attempt to determine the nature of the problem. At that time the woman yelled to SA [redacted] "Help me, help me!" SA [redacted] then stopped his car, got out and walked toward the man and woman. As SA [redacted] approached, the man grabbed the woman and forced her to the driver's side of the vehicle, out of SA [redacted] sight.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

SA [redacted] continued to approach the man and woman and drew his personally owned, FBI approved Glock 27,.40 caliber pistol from in his right front pants pocket, chambered a round and held the pistol close to his side. The man then grabbed the woman around the neck, apparently holding her between himself and SA [redacted] as a shield. SA [redacted] told the man that he was an FBI Agent and told the man and woman to calm down and tell him what was going on, at which time the man demanded proof of SA [redacted] identity. SA [redacted] then showed the man his FBI credentials which seemed to further agitate the man.

b6
b7C

SA [redacted] removed his cellular telephone from his left side waistband and called 911. He told the dispatcher that he was an FBI Agent and needed backup at the Grocery Warehouse. As he did so, the man advanced on SA [redacted] while still holding the woman as a shield and stated, "Shoot me, shoot me." The man also told SA [redacted] that he would not be able to shoot the man because he was holding the woman as a shield. The man and woman advanced close enough to SA [redacted] that he was forced to back away, hold his pistol closer to his body and extend his left arm to keep them away from him.

Witnesses reported seeing the man pull the woman toward the Jeep at which time, according to SA [redacted], the woman said, "Help me. Don't let him take me." SA [redacted] returned his cellular telephone to its holder and again advanced toward the man and woman. Witnesses reported the man then put the woman into the Jeep through the driver's side back door. SA [redacted] observed that the woman was either lying down on the back seat or was sitting on the passenger side of the back seat, still pleading for help. SA [redacted] then tried to stop the man from getting into the vehicle and driving away, fearing that the woman was being kidnaped or was the victim of a car jacking. SA [redacted] physically engaged the man while still holding his pistol, again in an attempt to keep the man from kidnaping the woman. In a further attempt to keep the man from fleeing with the woman, SA [redacted] kicked the man in the hip which caused the man to stumble into the side of the Jeep but did not keep him from getting into the Jeep's driver's position. Witnesses recalled that the man attempted to, or actually, punched SA [redacted] before entering the Jeep.

b6
b7C

SA [redacted] then attempted to stop the man from driving away by struggling with the man and trying to keep the man from putting the keys into the ignition. The man then drove forward and SA [redacted] backed away to avoid being struck by the passing vehicle.

As the Jeep drove away, SA [redacted] made the decision that he would be unable to safely and effectively give chase in his POV. SA [redacted] then made the decision to shoot the man in an attempt to stop the man from fleeing with the woman, who SA [redacted] believed was in imminent danger of grievous bodily harm or death as the victim of a kidnaping. SA [redacted] reported that at this point he believed the woman was exhibiting fear and terror based on the man's actions. From a range of between 10 and 25 yards, SA [redacted] aimed and fired five rounds at the driver's position through the tinted rear window of the Jeep, through which he could see the shape of the driver's head. SA [redacted] could clearly see that the female victim was not in his line of fire. b6 b7C

The Jeep then stopped and the man got out of the driver's door and fell to the ground. SA [redacted] then received a call on his cellular telephone from the 911 dispatcher. SA [redacted] told the dispatcher that shots had been fired, one person was hit and he needed an ambulance at his location. SA [redacted] then gave the telephone to a bystander who talked to the 911 dispatcher as SA [redacted] administered first aid to the injured man.

When officers of the Colorado Springs Police Department (CSPD) arrived at the scene, SA [redacted] surrendered his pistol to an officer at the officer's request. SA [redacted] provided a formal statement to a CSPD Detective, in the presence of a SIRT member, on 12/2/2002 at the CSPD.

The CSPD initiated a 2nd Degree Kidnaping investigation of this incident. It should be noted that [redacted] has a history of domestic violence-related arrests.

DETAILS OF THE EVENTS OF 11/30/2002 LEADING UP TO THE ABOVE-DESCRIBED SHOOTING INCIDENT, AS DESCRIBED BY WITNESSES AND IN POLICE REPORTS:

b6 b7C

On the evening of 11/30/2002, [redacted] and [redacted] were celebrating their 8th wedding anniversary in Colorado Springs, Colorado. They ate dinner at an Outback Steakhouse where they consumed approximately four beers. They then went to a pool hall and a strip club, consuming approximately one beer each at these establishments.

At some point in the evening, [redacted] and [redacted] engaged in an argument while riding in their white Jeep Grand Cherokee which [redacted] was driving. They stopped at a Burger King restaurant located on Austin Bluffs Parkway approximately one-quarter of a mile west of the eventual shooting scene in the Grocery Warehouse parking lot entry driveway.

[redacted] got out of the vehicle to call a friend to pick her up because she decided she did not want to ride home with [redacted]

After calling her friend, [redacted] began walking away from the Burger King. [redacted] did not leave the area, but instead followed behind [redacted] who was walking along Austin Bluffs Parkway toward the Grocery Warehouse. While between the Burger King and the Grocery Warehouse, a number of witnesses observed [redacted] and [redacted] physically fighting with each other along the roadway and in the entry driveway where the shooting incident eventually took place. Additionally, a number of witnesses saw [redacted] who was on foot, being chased by the Jeep. b6 b7C

[redacted] eventually ran from south to north across Austin Bluffs Parkway and [redacted] cut her off in the Jeep, stopping in the entry driveway to the Grocery Warehouse where their physical confrontation continued. Some of the witnesses passed [redacted] and [redacted] while they were fighting with each other and were so concerned with what they observed that they turned around, returning to where [redacted] and [redacted] were located, to determine if [redacted] needed assistance. A number of these witnesses also observed the shooting incident as described above.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
ATLANTA DIVISION
OCTOBER 23, 2002

Character: ADMINISTRATIVE INQUIRY

b6
b7C

Synopsis: This shooting incident occurred as Agents of the Atlanta Division attempted to arrest [redacted] aka, on an Unlawful Flight to Avoid Prosecution (UFAP) warrant originating in the Detroit Division. In this regard, [redacted] had been the subject of a felony complaint charging him in Kalamazoo, Michigan, for Assault with Intent to Murder and Malicious Destruction of Personal Property. The Michigan State warrant charging [redacted] was issued on 09/25/2002. On 10/02/2002, the Kalamazoo Prosecuting Attorney requested the UNITED STATES ATTORNEY'S OFFICE for the Western District of Michigan to issue an Unlawful Flight to Avoid Prosecution Warrant for [redacted] Thereafter, the Detroit Division under file number 88A-DE-93279, initiated an UFAP investigation to locate [redacted] As the result of [redacted] criminal conduct on 10/23/2002, at the time of his attempted arrest by Atlanta Division Agents, a criminal complaint was filed in the UNITED STATES DISTRICT COURT, Northern District of Georgia, charging [redacted] with Assault on a Federal Officer in that [redacted] did "attempt to kill an officer/employee of the United States or any other agency of the United States Government..."

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

DETAILS:

This shooting incident occurred on October 23, 2002, as FBI Agents assigned to the Atlanta Division Squad 7 attempted to arrest [redacted] aka, who was the subject of a Detroit Unlawful Flight to Avoid Prosecution (UFAP) warrant. While attempting to effect the arrest of [redacted] on October 23, 2002, at approximately 11:00 a.m., [redacted] "rammed" a Bureau vehicle which was positioned to block [redacted] escape, which endangered the lives of Agents and, in turn, resulted in two Agents discharging their weapons at [redacted] who was the operator of a stolen 2000 Chevrolet Tahoe. Resultantly, [redacted] a passenger in the Chevrolet Tahoe suffered a non-life threatening bullet wound to his left shoulder. [redacted] managed to escape the arrest. b6 b7C

By way of background, on September 25, 2002, the Kalamazoo, Michigan, DEPARTMENT OF PUBLIC SAFETY, law enforcement personnel (detectives) attempted to arrest [redacted] aka, for Burglary and Theft. During that arrest, [redacted] attempted to "run over" two detectives with his vehicle and was not apprehended. Resultantly, the City of Kalamazoo Prosecuting Attorney charged [redacted] with two felonies, Assault with Intent to Commit Murder and Malicious Destruction of Property. By letter dated October 2, 2002, the Kalamazoo prosecuting attorney requested the United States Attorney's Office for the Western District of Michigan to issue an Unlawful Flight to Avoid Prosecution Warrant for [redacted]. Thereafter, the Detroit Division, under Detroit file number 88A-DE-93279, conducted an UFAP investigation to locate and arrest [redacted]. Through a Detroit symboled source, a telephone number of a residence in Atlanta, Georgia, was developed where [redacted] possibly was residing.

On October 22, 2002, Atlanta Division Squad 7 Acting Supervisory Special Agent (A/SSA) [redacted] received a call in the morning hours from SA [redacted] of the Detroit Division. SA [redacted] advised A/SSA [redacted] of background information concerning Detroit's UFAP investigation and informed A/SSA [redacted] that Squad 7 would be receiving a FedEx package, most probably later that morning, containing an Electronic Communication (EC), photographs of the fugitive, an arrest warrant and related affidavit. Subsequently, A/SSA [redacted] received that FedEx package later in the morning of October 22, 2002, and assigned the investigation in the afternoon hours of October 22, 2002, to SA [redacted] SA [redacted] was provided with all of the documentary information and the possibility, according to SA [redacted] that [redacted] could be staying at an address located at [redacted] Atlanta, Georgia. b6 b7C

After receiving this information and assignment, SA [redacted] determined that the address was the RIVERWOOD CLUB APARTMENTS and discovered the telephone number which was provided by the Detroit source was not listed. Thereafter, SAs [redacted] and [redacted] also assigned to Squad 7, conducted a surveillance at the RIVERWOOD CLUB APARTMENTS in the afternoon hours of October 22, 2002, and located two vehicles, both with Michigan plates. These vehicles were identified as a blue Ford pickup and an Oldsmobile Delta 88. Also parked next to the two vehicles with Michigan license plates was a 2000 Chevrolet Tahoe, which displayed an Indiana State license plate. The vehicles were parked near apartment C-3 of the RIVERWOOD CLUB APARTMENTS. An NCIC check regarding the Indiana registration did not identify it as being stolen.

b6
b7C

Attempts by SAs [redacted] and [redacted] to enlist the apartment manager to assist in the identification of the out-of-state cars were not productive. The manager, after being shown the picture of the UFAP subject, could not identify him as being a resident of the apartment complex. Notwithstanding, at the request of SA [redacted] the manager of the apartment complex provided the access code to operate an electronic gate to allow Agents' access into the apartment complex the next morning.

In the late afternoon hours of October 22, 2002, SA [redacted] returned to the Atlanta office to coordinate a surveillance for the next morning at the [redacted] location. At that time, SA [redacted] requested the assistance of five other Agents to assist him and SA [redacted] Those Agents were SAs [redacted] and [redacted] The Agents discussed the details of the investigation, and decided to meet the next morning at a PETRO service station at approximately 6:00 a.m. to assimilate a briefing plan.

b6
b7C

On October 23, 2002, at approximately 5:15 a.m., SA [redacted] checked the code for the electronic gate at the RIVERWOOD CLUB APARTMENTS to ensure its operation and, thereafter, drove to the PETRO service station for the briefing. All of the Agents involved in the surveillance viewed photographs of the subject, the arrest warrant and the affidavit for his arrest. The layout of the complex was discussed, and the particular apartment in question, C3, was also highlighted. Information regarding the location, make and color of vehicles which displayed the Michigan plates and the Chevrolet Tahoe with Indiana registration was also discussed.

There were two scenarios discussed at this early

morning briefing at the PETRO service station. The first plan called for the arrest of the subject in apartment C3. The second plan called for the subject, should he exit the apartment and get into a vehicle, to be taken down as the vehicle stopped at the electronic gate. The second plan, which was subsequently implemented, resulted in the vehicle occupied by SAs [redacted] and [redacted] which was parked on the west side of South Bolton Road, to act as a blocking vehicle when the subject departed through the electronic gate exiting the apartment complex. A second vehicle, occupied by SAs [redacted] and [redacted] was to be positioned behind the subject's vehicle to block the subject's vehicle from the rear. The Bureau vehicle operated by SAs [redacted] and [redacted] was to be angled to the left side of the subject's vehicle to secure the operator's side. The third Bureau vehicle operated by SAs [redacted] and [redacted] was to position itself in an offset fashion to the right side and secure the passenger side of the subject's vehicle. b6 b7C

In the briefing session, the Agents discussed the various scenarios, the closest trauma center, the use of body armor, weapons, deadly force, and communications as they had done many times in the past regarding car stops, arrests, and tactical operations. In fact, during the shooting inquiry, Atlanta Division's Senior SWAT team leader described the law enforcement and tactical abilities of the Agents assigned to Squad 7 as being very high, and further stated the squad was involved in more high-risk situations than any other squad in the Atlanta Division. SA [redacted] the Senior SWAT Team Leader, related that Squad 7 Agents were frequently involved in situations where they had to use police officer tactics, knowledge of firearms and arrest techniques, and implementation of arrest plans. SA [redacted] described SA [redacted], who is presently the Assistant Team Leader of Atlanta SWAT, as being exceptionally well versed in tactics and arrest situations. SA [redacted] opined that SA [redacted] abilities are such that SA [redacted] could easily be the Senior SWAT team leader of the Atlanta Division. Moreover, SA [redacted] related that at the request of then-SSA [redacted] he provided enhanced training to members of Squad 7 on October 28-29, 2000, regarding entries and advanced shooting techniques; on February 8, 2001, regarding the use of shields in making arrests, and on July 10, 2001, regarding tactical operations involving car stops.

After the Agents had a thorough briefing at the PETRO service station, they drove to the apartment complex and assumed their assigned duties. As related, one vehicle, operated by SAs [redacted] and [redacted] was located on the west side of South b6 b7C

Bolton Road. A second vehicle, operated by SAs [redacted] and [redacted], assumed a position near a mailbox pickup on the south side of the parking lot. The third vehicle, operated by SAs [redacted] and [redacted] assumed a position on the north side of the apartment complex where they could observe persons entering and exiting [redacted]

The surveillance began at approximately 6:30 a.m. on October 23, 2002. At approximately 9:30 a.m., a pretext telephone call was made to [redacted] which was the apartment of [redacted] No answer was received to this pretext telephone call. Thereafter, SA [redacted] requested that all of the arrest team Agents depart the area while SA [redacted] "checked a few more leads." At this time, SAs [redacted] and [redacted] traveled to another location at the MAPLE CREEK APARTMENTS[1]. At the MAPLE CREEK APARTMENTS, [redacted] photograph was identified as being the subject seen in the company of [redacted] b6 b7C

Resultantly, the Agents resumed their original positions. At approximately 10:55 a.m., a person matching [redacted] description was observed on the first/ground floor area outside of [redacted] talking on a cell phone. The source who made contact with SA [redacted] was requested to go to the vicinity of [redacted] and determine if, in fact, [redacted] was staying with [redacted] in [redacted] The plan called for the source to remove his baseball cap if the man seen talking on the cell phone closely resembled the UFAP subject.

The source entered the area and quickly removed his baseball cap providing the signal that a person meeting the UFAP's description was at that location. Shortly thereafter, the subject came out of the area and walked to the Chevrolet Tahoe and entered the operator's side. [redacted] came out behind the subject and entered the passenger seat. The Chevrolet Tahoe with the UFAP driving and [redacted] as a passenger drove toward the electronic exit gate. As the electronic gate slowly opened, the Bureau vehicle which was parked across South Bolton Road activated its visor lights and "wig-wag" lights, and pulled up to b6 b7C b7D

---

[1]A cooperating source approached SA [redacted] and SA [redacted] while they were parked on the west side of South Bolton Road. This source informed the Agents that [redacted] resided at the MAPLE CREEK APARTMENTS. While at the MAPLE CREEK APARTMENTS, SA [redacted] learned that the wanted photograph of [redacted] closely resembled the person who was staying at [redacted] with [redacted]

the front of the Chevrolet Tahoe in a blocking fashion. SAs [redacted] and [redacted] immediately pulled their vehicle to the back of the Chevrolet Tahoe thus blocking its ability to back up and/or change directions. The third Bureau vehicle operated by SAs [redacted] and [redacted] positioned their vehicle to the right rear of the Chevrolet Tahoe. All of the Agents on the arrest team displayed FBI raid jackets and other FBI insignia clearly identifying themselves as FBI. Commands were made by Agents for the occupants of the Chevrolet Tahoe[2] to get out of the vehicle with their hands up. When the occupants did not comply, attempts were made to shatter the passenger window with the butt of SA [redacted] M-4. At this time, the vehicle started moving forward, striking the Bureau vehicle that had been positioned as a blocking vehicle to the front of the Chevrolet Tahoe. A number of the Agents observed SA [redacted] fall backward as if he had been shot or hit by the car or was attempting to get out of the way. Collaterally, SA [redacted] s feet were underneath the running boards of the Chevrolet Tahoe and he had to quickly move out of the way or the Tahoe would have passed over his feet. SAs [redacted] and [redacted] positioned on the left side of the vehicle, discharged their weapons[3]. SAs [redacted] and [redacted] discharged their Glock model 22 .40 caliber pistols in an attempt to stop the operator from endangering SA [redacted] and/or other Agents at the scene. The Agents were hampered by the Chevrolet Tahoe's heavily-tinted windows and their inability to see within the vehicle. After the Chevrolet Tahoe rammed the Bureau vehicle, it was successful in pushing the Bureau vehicle out of the way approximately 35 feet backwards, thus allowing [redacted] to flee the scene.

b6
b7C

Thereafter, the Agents gave chase, but they were unable to apprehend [redacted]. A short time later, [redacted] was discovered at a AMOCO service station less that one-half mile from the scene of this incident. [redacted] had a gunshot wound to his left shoulder and was conveyed to the trauma unit at GRADY HOSPITAL. [redacted] was treated for a gunshot to the left shoulder and released the same day.

b6
b7C

The ATLANTA POLICE DEPARTMENT (APD) was conducting a homicide investigation nearby and immediately responded to this

---

[2]The windows of the Chevrolet Tahoe were darkly tinted making it very difficult to see within the vehicle.

[3]SA [redacted] discharged his Glock Model 22 .40 caliber pistol six times, SA [redacted] fired one shot from his Glock Model 22 .40 caliber pistol.

incident. The APD completed a number of investigative reports which included interviewing passenger [redacted] at GRADY HOSPITAL. [redacted] was also interviewed on the same date by Atlanta Division Agents. In both statements, [redacted] indicated he was unaware that [redacted], who he described as a relative, was wanted. [redacted] indicated that when the FBI attempted to stop him and his cousin, [redacted] the FBI Agents identified themselves as FBI Agents, had weapons drawn and demanded the doors be unlocked, and that both he and his cousin, [redacted], raise their hands. [redacted] related that as Agents attempted to break out the window of the vehicle, his cousin looked him "strangely in the eye" and put the Tahoe in reverse, then went forward, and rammed the FBI vehicle. b6 b7C

Another witness interviewed by the APD was [redacted] who resides in [redacted] RIVERWOOD CLUB APARTMENTS, [redacted] Northwest. [redacted] provided similar information as [redacted] had indicated, describing the blocking attempts by the FBI vehicle, the fact the FBI Agents had FBI "vests" on, and that there was absolutely no doubt that they were "feds." [redacted] related the Agents attempted to open the doors, attempted to break out the window, and then the Chevrolet Tahoe rammed the vehicle in front of it. [redacted] indicated the Agents had to jump out of the way, and he believed that possibly an Agent may have been hit by the Chevrolet Tahoe. [redacted] advised there was no doubt in his mind that the FBI Agents were in danger. b6 b7C

The crime scene was processed by the Atlanta Division's Emergency Response Team (ERT) in conjunction with APD personnel. The Atlanta ERT also took photographs and prepared a sketch of the shooting scene. The Investigative and Prosecutive Graphics Unit prepared diagrams of the shooting scene and worked in conjunction with the Firearms and Toolmarks Unit which undertook a ballistic/projectory analysis. The weapon discharged by SAs [redacted] and [redacted] will be examined by the Laboratory Division, Firearms Unit.[4] It should be noted that during the

---

[4]The Bureau issued weapons of SAs [redacted] and [redacted] were never examined by the SIRT. After this shooting, the weapons were immediately provided to SA [redacted] an Atlanta Division Firearms Instructor. SA [redacted] cleared the weapons and counted the rounds remaining in each magazine which had been contained in the weapons at the time of this shooting. In SA [redacted] magazine there remained 10 rounds of ammunition; in SA [redacted] weapon there were 13 rounds of ammunition. At the scene, APD Detective [redacted] collected six .40 caliber casings and one .380 caliber casing. The weapons, magazines, live ammunition and casings were then packaged and submitted into the Atlanta

ballistics/projectory analysis an "air gun" (pellet) .24 caliber Powerline/Airstrike weapon was found in the 2000 Chevrolet Tahoe (see attachments). None of the Agents involved in the attempted arrest of [redacted] reported seeing [redacted] or his passenger, [redacted], in possession of any weapon. b6 b7C

Division's Evidence Control Room.

Report of: IIP [redacted] Office: Chicago
Date: 10/23/2002

Case ID #: 297-HQ-A1271285-D

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
CHICAGO DIVISION
MAY 9, 2002

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident occurred on October 9, 2002, during the execution of an arrest warrant for [redacted] FBI Special Agents (SAs) and Federally Deputized Task Force Officers (TFOs) assigned to the CHICAGO DIVISION JOINT TASK FORCE ON GANGS participated in this arrest. In addition, a uniformed CHICAGO POLICE officer was also involved in the operation. At approximately 12:30 a.m. on October 9, 2002, [redacted] STATES on behalf of the FEDERAL BUREAU OF INVESTIGATION (FBI). The purpose of this call was to confirm [redacted] location in a third floor apartment located at [redacted] Chicago, Illinois. This information was relayed to members of the arrest entry team already positioned in the hallway outside of [redacted] apartment. After receiving confirmation [redacted] was located within the apartment, arrest entry team members, including SA [redacted] SA [redacted] TFO [redacted], TFO [redacted] and uniformed CHICAGO POLICE Officer [redacted] knocked on the apartment door and announced their identities. After [redacted] did not answer the door, TFO [redacted] began striking the door with a sledgehammer in attempt to open the door. After [redacted] struck the door approximately six to eight times, several shots were fired through the door from within the apartment. TFO [redacted] was struck in the index finger of his left hand. Arrest team members returned fire and removed TFO [redacted] from the path of the bullets emanating from the apartment doorway. At this point in time, the firing ceased. SA [redacted] situated on the perimeter

b6
b7C
b7D

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

outside the apartment building, observed several weapons, including a tech 9 semi-automatic machine pistol and a .9 millimeter RUGER, being thrown from [redacted] apartment window. SA [redacted] provided this information to members of the arrest entry team within the apartment building. Communication was established with [redacted] who elected to surrender.

b6
b7C

DETAILS:

On 05/07/2002, an arrest warrant for [redacted] was issued by UNITED STATES MAGISTRATE JUDGE MICHAEL T. MASON, NORTHERN DISTRICT OF ILLINOIS (NDI). The warrant was issued after the filing of a complaint charging [redacted] with violations of Title 21, United States Code (USC), Section 846, that is Conspiracy to Distribute a Controlled Substance.

During the evening of 10/08/2002, members of the JTFG, including Chicago Division Special Agents and Task Force Officers from the CHICAGO POLICE DEPARTMENT were conducting surveillance activities in an attempt to locate and to apprehend [redacted] in or around the Humboldt Park area on the west side of Chicago. A vehicle [redacted] was believed to have been utilizing,

b6
b7C
b7D

[redacted]

An arrest plan was formulated and all JTFG members participating in the arrest were provided with a detailed verbal briefing given by the arrest team leader SA [redacted] SA [redacted] disseminated information with the arrest team members concerning [redacted] background and also information concerning the location of the arrest. Specifically, SA [redacted] informed everyone about [redacted] criminal history including the fact that [redacted] had numerous drug and weapons arrests. SA [redacted] also advised that he had reason to believe that [redacted] was involved in a drug related kidnaping wherein the victim was tortured. Consequently, SA [redacted] told everyone that [redacted] should be considered armed and dangerous. SA [redacted] also provided everyone on the arrest team with information concerning the description of the

apartment building and the actual apartment where [redacted] was now residing. SA [redacted] obtained this information from sketches that [redacted] helped prepare and a discrete survey conducted by FBI SAs of the apartment building. The sketches were circulated among arrest team members and included such details as the direction [redacted] apartment door opened and the specific location of the door knob. SA [redacted] also gave everyone the description of the clothing that [redacted] was wearing earlier in the day when he was with [redacted] SA [redacted] also contacted his Supervisor, SSA [redacted] to brief him on the situation and provide him with details of the arrest plan. SSA [redacted] subsequently concurred in the execution of the arrest plan. This inquiry determined that every one of the arrest team members were told and understood the plan and their specific assignment. b6 b7C

[redacted] was located within the third floor apartment building as previously described by [redacted] This information was relayed to members of the arrest entry team already positioned in the apartment building. SA [redacted] then led the arrest entry team down a long hallway toward [redacted] apartment. In addition to the team leader, SA [redacted] four other people were included on the entry arrest team. The four other individuals were SAs [redacted] TFO [redacted], TFO [redacted] and uniformed CPD Officer [redacted] Just prior to knocking on [redacted] door, entry arrest team members were all placed behind SA [redacted], to the right of the door, The layout of the apartment building did not allow for any arrest team members to be to the left of the entry door. The entry arrest team members then began loudly knocking on the door and they shouted out their identities. Specifically, the SAs and CPD TFOs identified themselves as "FBI" and "Police." The door did not open and just as according to the plan, TFO [redacted] began striking the door with a sledgehammer within seconds after the entry arrest team members identified themselves. As TFO [redacted] was striking the door other arrest team members continued to yell out "Police." The door was very sturdy and continued to hold after TFO [redacted] struck it approximately six to eight times. At this point, numerous shots were fired from inside the apartment and through the door that TFO [redacted] was striking with the sledgehammer. SAs [redacted] and [redacted] as well as uniformed CPD Officer [redacted] immediately returned fire. TFO [redacted] yelled that an officer was hit and down. The officer was later identified as TFO [redacted] The exchange of gunfire ended within seconds. Entry arrest team members continued to yell "Police" and [redacted] replied b6 b7C b7D

to the effect, "I want to give up." During the entire exchange of gunfire, the apartment's entry door was never opened. The entry arrest team members instructed [redacted] to open the apartment door and come out. [redacted] attempted to open the door; however, the door was jammed, possibly as a result of being struck earlier with the sledgehammer. SA [redacted] subsequently used the sledgehammer to un-jam the door. [redacted] then opened the door and was arrested without further incident. Also inside the apartment and taken into custody was a woman identified as [redacted] b6 b7C

TFO [redacted] was immediately taken to the hospital to have his gunshot wound treated. Specifically, TFO [redacted] was treated for a shattered index finger on his left hand. TFO [redacted] was released later that day.

After being advised of and waiving his Miranda Rights, [redacted] was interviewed by CHICAGO DIVISION SAs and CPD Detectives. [redacted] claimed he thought his apartment was being broken into by home invaders and was not aware law enforcement officers were outside his door. [redacted] stated that he began to shoot into the hallway of the apartment building in response to what he thought was a home invasion. Non-law enforcement witnesses, specifically, other apartment building residents, provided statements that they heard arrest team members announce themselves as law enforcement officers prior to shots being fired from [redacted] apartment.

It is the conclusion of the inspector that the use of deadly force was within the Deadly Force Policy. The imminent danger element of the policy requires that SAs [redacted] and [redacted] must have had knowledge of facts and circumstances that would have caused a reasonable officer to conclude, amid the very rapidly evolving sequence of events at the scene, that [redacted] either a) possessed a weapon under circumstances indicating an intention to use it against the Agents or others, or b) was armed and running to gain the tactical advantage of cover. b6 b7C

As to the imminent danger element, the SAs and TFOs were fired upon during their attempted arrest of [redacted] after identifying themselves as law enforcement officers. The SAs and TFOs repeatedly shouted out their identities and, in addition, a uniformed CPD officer was present on the entry arrest team. As was in the this case, the Inspector cannot think of any other instance that satisfies the "imminent danger" element of the Deadly Force Policy than to be fired upon by a subject and have an officer hit and go down as a result of the subject's gunfire directed at the arresting law enforcement officers.

It is also reasonable to conclude that the "absence of a safe alternative" element of the Deadly Force Policy is also satisfied. [redacted] repeatedly fired shots at arresting officers, one officer was struck by this gunfire, and other law enforcement officers were not in a position of good cover. Given these circumstances, SA [redacted] SA [redacted] TFO [redacted] and uniformed CPD Officer [redacted] acted in an appropriate manner in attempt to neutralize the threat, specifically, the gunshots being fired by [redacted]

b6
b7C

The Inspector finds that the attempted arrest of [redacted] was a spontaneous event that did not allow for the preparation of a standard written operations order. The Inspector also finds that adequate verbal briefings with all participants were properly conducted. In addition, the supervisor of the Task Force, SSA [redacted] was provided a detailed briefing of the operations plan telephonically and he subsequently approved the operations plan. The operations plan included such details as the potential armed and dangerous nature of the subject and also included detailed drawings and sketches of the location of the arrest. In addition, the entry arrest team leader ensured that every member of the arrest team knew their specific role in the arrest. The team leader also ensured that all individuals in the arrest were wearing appropriate body armor. Lastly, adequate personnel were included in the operations plan to include five law enforcement officers on the entry arrest team as well as an additional four law enforcement officers to cover the perimeter of the apartment building. The fluid nature of this type of investigation coupled with the need to quickly act on the information received precluded the formalized recording of the operations plan.

kidnaped [redacted] and who were threatening to harm [redacted] if the ransom was not delivered in a short period of time to a Rally's restaurant at 81st and Euclid Avenue, Cleveland, Ohio. When SWAT Team observed the subject vehicle in the parking lot of Rally's restaurant and attempted to block its exit from four sides, the driver of the subject vehicle began to flee the parking lot by crashing into several of the SWAT vehicles. In an effort to now stop the fleeing subject vehicle, a SWAT vehicle collided with the subject vehicle; at which time, SWAT Team member SA [redacted] exited the vehicle. SA [redacted] noticed the subject vehicle jockeying around attempting to flee and then noticed it lurch directly toward him at an increased speed. SA [redacted] approximately five feet from the oncoming vehicle and moving backwards, fired two shots at the driver of the subject vehicle and observed it continue pass him out onto East 81st street. SA [redacted], a SWAT Team member driving a SWAT vehicle occupied by team members [redacted] and [redacted] observed the subject escaping and anticipated a chase; however, the subject vehicle crashed to a stop between a fence and a telephone pole on East 81st Street. The rear driver's door of the subject vehicle opened; at which time, a passenger stuck his hand out of the door holding a handgun and fired several rounds in the direction of the SWAT vehicle occupied by SAs [redacted] and [redacted] SA [redacted] responded by firing one shot from his MP-5 through the windshield of the SWAT vehicle he occupied, at the subject who fired from the rear seat of the subject vehicle. The subject then moved from the rear driver's side to the rear passenger side of the subject vehicle. Several SWAT team members approached the subject vehicle, while shouting commands to the occupants to put their hands up and surrender. The rear seat passenger raised his hands but was not holding the weapon he fired. He exited the subject vehicle, was restrained, and placed under arrest. The driver of the subject vehicle was then extracted from the vehicle, restrained, and placed under arrest. The driver appeared to have sustained injury to one hand and his face. The driver was asked for the location of DARNELL [redacted]. The driver advised that DARNELL was the front seat passenger. The suspect who was the rear passenger then confirmed the front seat passenger was DARNELL. One of the SWAT team members approached DARNELL, who appeared to have been shot, lifted DARNELL's shirt, and noticed he had been shot in the torso. The SWAT Team member attempted first aid but DARNELL appeared to have died within a few minutes. Emergency Medical System personnel arrived on the scene in approximately 10-15 minutes and confirmed the passenger, DARNELL LESTER had expired.

DETAILS

On December 22, 2003, between 9:00 pm and 9:20 pm, Special Agent (SA) [redacted] FBI, New York Division, telephone number [redacted] was telephonically contacted by [redacted] DARNELL LESTER from telephone number [redacted] During the calls, LESTER

seemed frightened, and [redacted] believed LESTER had been kidnaped during an [redacted] At one point, LESTER stated "Get the stuff together, the mans are here." LESTER indicated he was being held against his will by five or six armed men in a house in Cleveland, Ohio, (not his house on Cedar). LESTER told [redacted] to call a male at telephone number [redacted] to rectify the situation.

b6
b7C
b7D

At approximately 9:42 pm, SA [redacted] spoke to SA [redacted] CV, Duty Agent in the CV Terrorism Command Post. SA [redacted] began obtaining subscriber information for telephone number [redacted] and initiated liaison with Verison Wireless. SA [redacted] determined that telephone number [redacted] was a pre-pay cellular telephone, with no subscriber listed (reseller).

At approximately 9:58 pm, Supervisory Special Agent (SSA) [redacted] spoke to SA [redacted] SSA [redacted] then called SA [redacted] at telephone number [redacted] SA [redacted] relayed the information from his previous conversation with LESTER. SSA [redacted] advised [redacted] that telephone number [redacted] was the cellular telephone number of FBI Cleveland Field Office SA [redacted] who [redacted] LESTER in the past. After learning this, SA [redacted] believed [redacted] FBI Cleveland to [redacted] SSA [redacted] called SA [redacted] and instructed him to contact CV Technically Trained Agents (TTAs) to get cellular tracking equipment. SSA [redacted] also instructed SA [redacted] to obtain cell tower information to help tracking efforts. SA [redacted] determined the cell phone was "hitting" off a tower at East 105th and Carnegie streets, Cleveland, Ohio. SA [redacted] contacted TTAs [redacted] and [redacted] TTAs [redacted] and [redacted] were en route. SSA [redacted] contacted Assistant Special Agent in Charge (ASAC) JOHN G. KAVANAGH who immediately proceeded to the FBI Cleveland Field Office. ASAC KAVANAGH subsequently notified Special Agent in Charge (SAC) GERALD L. MACK and kept him apprized throughout the investigation.

b6
b7C
b7D

At approximately 10:30 pm, LESTER called [redacted] from cellular telephone number [redacted] LESTER stated "the dudes" (suspected kidnappers) would be at East 83rd and Euclid driving a green 4-door Jimmy in 15 minutes (to collect ransom). SSA [redacted] met SA [redacted] in the FBI Cleveland basement. SAs [redacted] and [redacted] arrived in the basement. SSA [redacted] considered an emergency car stop of the unknown subjects' Jimmy. SA [redacted] received a call from SA [redacted] notifying SA [redacted] that LESTER would not be in the Jimmy. ASAC KAVANAGH was briefed, and SWAT discussed.

b6
b7C
b7D

At approximately 10:48 pm, SA [redacted], at SSA [redacted] request, called SA [redacted] and instructed him to call [redacted] A Command

Post (CP) was then established at FBI Cleveland Emergency Operations Center (EOC).

At approximately 10:52 pm, SA [redacted] called LESTER at cellular telephone number [redacted] SA [redacted] told LESTER we need one and one-half hours to get it (ransom) together. LESTER stated "you'll have to tell him." [redacted] repeated the information to an unknown male who then hung up. Assistant United States Attorney (AUSA) [redacted] was briefed. AUSA [redacted] advised SSA [redacted] that if a house was located, exigent circumstances existed to make a warrant less entry. ASAC KAVANAGH arrived at the EOC and was briefed. SAC MACK was briefed by ASAC KAVANAGH. b6 b7C

At approximately 11:11 pm, SA [redacted] CV Special Weapons and Tactics (SWAT) Team Leader (TL), initiated a call out by pager to the CV SWAT Team members.

At approximately 11:47 pm, TTAs [redacted] and [redacted] departed to initiate tracking the signal from the cellular telephone used by LESTER.

SSA [redacted] and ASAC KAVANAGH briefed TL [redacted] and Assistant Team Leader [redacted] at CP.

At 11:20 pm - 11:30 pm, Lieutenant (LT) [redacted] [redacted] Cleveland Police Department (CPD), Detective [redacted] (CPD Hostage Negotiator) were contacted. LT [redacted] arrived at the FBI Command Post at 12:20 am.

Between approximately 12:15 am and 12:50 am, on Tuesday, December 23, 2003, SA [redacted] met with the 14 SWAT operators who rallied at the FBI Cleveland Field Office headquarters building and briefed them on the situation. He briefed the SWAT operators on the facts received to date and passed around a photograph of [redacted] Based on his experience and information at hand, SA [redacted] advised the SWAT operation could take place at a building location, possibly a residence, or during a felony vehicle stop, once the location of [redacted] was determined. The SWAT operators geared up in their black SWAT uniforms, .45 caliber sidearms, ballistic vests, and some with HK MP 5 10mm long weapons or Colt M4 223 caliber long weapons. The three SWAT operators, who had not yet arrived, were told to meet their colleagues on the street at a predesignated briefing location. b6 b7C b7D

Prior to the SWAT Teams departure from the office, the following group assignments were made by SA [redacted]

Vehicle 1) SWAT Van - SAs [redacted], and [redacted]

Vehicle 2) SWAT Tahoe - SAs [redacted] (Assistant SWAT Team Leader), [redacted] and [redacted]

Vehicle 3) SWAT Tahoe - SAs [redacted]

Vehicle 4) SWAT Suburban - SAs [redacted] and SA [redacted]

b6
b7C
b7D

Vehicle 5) SWAT Tahoe - containing the SWAT operators that did not make the office briefing. SAs [redacted] and [redacted]

The first four SWAT vehicles responded to the east side of Cleveland where the most recent electronic cell phone data from [redacted] was being received. As the SWAT vehicles deployed, updated information was being relayed to them by SSA [redacted] indicating the felony vehicle stop plan was the most likely scenario to occur. The rally/briefing point was a strip shopping mall near East 81st and Euclid Streets, on the east side of Cleveland. At this point all of the SWAT vehicles were together, including #5, and a briefing was given by SAs [redacted] and [redacted] with the updated intelligence received.

At about 1:15 am, the SWAT operators were advised the subject vehicle (green Jimmy) was to meet [redacted] associates, (undercover (UC) FBI Agents from the FBI Cleveland Field Office Drug Squad driving a black Denali (SUV), at the parking lot of the Rally's Restaurant, located at East 81st and Euclid Streets, to exchange drugs/and/or money for [redacted] After a reconnaissance mission of the Rally's parking lot by SAs [redacted] and [redacted] it was determined that subject containment and precision coordination of the five SWAT vehicles were concerns, along with the fact this was to be a felony vehicle stop/box-in situation in the parking lot. The following plan was formulated and briefed to all participants.

1) The SWAT Van, vehicle #1, was deployed to the north side of Euclid Street, behind the strip mall, (SAs [redacted] and [redacted]

b6
b7C
b7D

2) The SWAT Tahoe, vehicle #2, was deployed to near the intersection of Carnegie Street and East 81st Street, (SAs [redacted] and [redacted]

3) The SWAT Tahoe, vehicle #3, was to be deployed east of Rally's off of 82nd Street, however this vehicle eventually moved forward to a location near Carnegie and East 81st near vehicle #2, (SAs [redacted] and [redacted]

4) The SWAT Suburban, vehicle #4, was deployed off of East 82nd and Euclid by the Kentucky Fried Chicken Restaurant, (SAs [redacted] and [redacted]

5) The SWAT Tahoe, vehicle #5, was deployed near Euclid and East 81st Streets, (SAs [redacted] and [redacted]

6) The black Denali SUV driven by the UC FBI Agents was to park in the Rally's parking lot along East 81st Street, prior to the subject vehicle arriving;

7) One SWAT Agent, SA [redacted] was assigned a foot post as the "eye", across from the Rally's parking lot, on the west side of East 81st Street, between Euclid Street on the north and Carnegie Street on the south;

SA [redacted] told the SWAT operators the plan was to box in the subject vehicle and block all of its escape routes in and around the Rally's Restaurant. During the briefing and deployment assignments, SA [redacted] stated that SA [redacted] told the operators that with one SWAT operator on foot and with the potential of others going on foot during the execution of the felony vehicle stop, the use of a vehicle as a weapon poses a great risk to those operators and a vehicle can be considered a weapon if it starts moving towards these operators on foot, putting them in a life and death situation. SA [redacted] stated that weather conditions were rainy and misty during the evening. The lighting was from the restaurant's parking lot lights. The lighting of the back parking lot where the meet was to occur was limited. b6 b7C

TTA [redacted] advised that LESTER's cellular telephone was two to four miles northeast at a 45 degree angle from the cellular tower at East 105th and Carnegie. SWAT deployed to the general vicinity of the cell tower. At 12:30 am, LESTER called SA [redacted] SA [redacted] was able to stall for more time (1 hour) by agreeing with LESTER's assertion that SA [redacted] was in Akron, Ohio. When SA [redacted] asked LESTER how much to bring, LESTER replied "three."

At 1:00 am, now 12/23/2003, SSA [redacted] contacted SA [redacted] and advised SA [redacted] the cellular tracker was not working well and the TTAs needed more time.

At 1:07 am to 1:10 am, LESTER called SA [redacted] from telephone number [redacted] then telephone number [redacted] LESTER told SA [redacted] meet at Rally's, East 81st and Euclid. SA [redacted] stalled for more time. LESTER couldn't talk much. SA [redacted] and SSA [redacted] discussed the fact that based on tenor of the calls, time was running out. SWAT was sent to East 81st and Euclid area. A basic take down plan was formulated by SSA [redacted] SAs [redacted] and [redacted] were to go to Rally's in the Yukon Denali and when they sighted LESTER in the Jimmy, call for SWAT takedown. SAs [redacted] and [redacted] met SWAT to brief. TTA [redacted] obtained subscriber information for telephone number [redacted] It was a Sprint cellular telephone, subscribed to by [redacted], Cleveland, Ohio. SSA [redacted] told SA [redacted] to tell LESTER to be in the car - "make sure we need to see his face." Get vehicle description, and tell him we're in a black Denali. b2 b6 b7C

At 1:42am, LESTER called SA [redacted] from cellular

telephone [redacted] SA [redacted] stated the kidnapers were "all over LESTER" and that LESTER couldn't talk. SA [redacted] could no longer obtain information or stall LESTER'S kidnapers and described the situation as desperate. LESTER told SA [redacted] to meet at Rally's in 15-20 minutes. b2 b6 b7C

As the events unfolded and it was determined that FBI Cleveland Field Office was not able to successfully triangulate LESTER's cell phone, a new meeting/exchange was set for the vicinity of the Rally's on 81st and Euclid streets. It was determined that Cleveland SWAT would box-in the subject vehicle at the meeting site, and once arrests were made, they would attempt to determine the whereabouts of LESTER from those arrested.

At 1:50 am, TTAs [redacted] and [redacted] observed a Jimmy at 90th and Euclid, east bound on Euclid. Cellular tracking equipment hit on LESTER's cell phone in the area just prior to this. SA [redacted] advised that within minutes of their arrival at the cell tower, he had received a telephone call from SSA [redacted] who instructed him and his partner to meet up with the SWAT team in the vicinity of East 81st and Euclid Ave. While en route to the location, their machine hit on the signal of [redacted] cell phone, which told them the subjects were within the immediate area of East 81st and Euclid. They immediately put that information out over the air. As they headed toward the Rally's restaurant, which was the designated meet location, they believed they observed the green Jimmy in the area of 90th and Euclid Ave. b6 b7C b7D

SA [redacted] had placed the SWAT team vehicles, just as the subject vehicle was observed and verified in the area of the meet. SWAT vehicle #4 reported the subject vehicle just passed their location. The SWAT operator on foot reported the subject vehicle is in the parking lot backing into a space against a brick wall. The UC FBI Denali SUV reported the same information. ASAC KAVANAGH allowed SA [redacted] to transition his team from yellow to green and assume control. ASAC KAVANAGH stated this decision was based on the fact that SA [redacted] had "eyes on" the target, and was in the best position geographically to control both his team and the assault.

SA [redacted] gave the order for all SWAT units to execute the felony vehicle stop plan previously discussed by saying "GO, GO, GO" on the radio.

SWAT vehicle #1 moved in from the north through the Rally's "pick-up drive-way" with its blue emergency lights flashing. SA [redacted] in vehicle #2, noticed the subject vehicle was partially backed in, with the rear bumper in the position at which the front bumper would have been had the subject backed in completely. SA [redacted] pulled out and into a "T-bone" position to the subject vehicle, stopping just short of hitting it. The driver looked at SA [redacted] and then started to drive forward. SA [redacted] accelerated and rammed his Tahoe into the rear driver side door. SA

[redacted] exited vehicle #2 and noticed the subject vehicle was facing him. The subject vehicle was jockeying around trying to get out. It lurched forward, picked up speed and was turning and coming towards SA [redacted] SA [redacted] saw a bright flash inside the vehicle. SA [redacted] made eye contact with the driver and fired one shot from his Colt M4 .223 caliber carbine at the driver as the vehicle was coming towards him. SA [redacted] was approximately five feet from the vehicle at that time. After SA [redacted] fired the first shot he was moving backwards and to the side trying to get out of the way of the vehicle. SA [redacted] fired another shot immediately after the first shot.

b6
b7C

SAs [redacted] driver; [redacted] front passenger; and [redacted] rear passenger in vehicle five had the assignment of setting up a block or two away from the scene and act to prevent the escape of the subject vehicle should it break free from the original containment area. After turning on to East 81st Street, SA [redacted] saw the subject vehicle was escaping the parking lot and turning away from SA [redacted] vehicle. SA [redacted] thought a vehicle chase was about to ensue; however, the subject's crashed between a fence and a telephone pole on East 81st Street and stopped. SA [redacted] observed the rear driver's side door of the subject vehicle open and the rear passenger stick his hand out of the open door pointing a handgun in their direction. SA [redacted] saw a muzzle flash from the weapon and heard several rounds fired. SA [redacted] fired one shot from his H&K MP-5 10mm submachine gun, through vehicle five's front windshield, at the rear passenger who fired from the subject vehicle.

b6
b7C

The SAs on-scene were out of their vehicles, giving loud verbal commands to the subjects "FBI, POLICE, HANDS UP, DON'T MOVE", over and over again. The subject in the rear seat exited the GMC Jimmy while being covered by SA [redacted] SA [redacted] handcuffed the rear seat subject. SAs [redacted] and [redacted] took the subject away from the scene, conducted a high-risk search, and began to ask the subject questions regarding the location of [redacted] SA [redacted] assisted by covering the front seat passenger. SA [redacted] observed the driver and front passenger with their hands up. According to SA [redacted] "the driver's hand was a bloody mess." SA [redacted] visually surmised that both front seat passengers had been shot. SA [redacted] and SA [redacted] pulled the front seat driver threw the window of the car, which was the most expedient manner to extract a threat from a vehicle with a damaged door, and proned him out on the street. SA [redacted] heard other Special Agents yell to call the EMS. SA [redacted] recalled the subject on the ground say to him that he had a bullet in his mouth.

b6
b7C
b7D

SA [redacted] approached the driver and asked him, "Where's DARNELL?", [redacted] The driver told [redacted] that DARNELL was in the front passenger seat. SA [redacted] did not believe the passenger was DARNELL because the passenger seemed to be much heavier than DARNELL appeared in a photograph that SA [redacted] saw during one of the two briefings given by SA [redacted]

However, the passenger in the rear seat of the Jimmy confirmed that DARNELL was in fact the occupant in the front passenger seat. SA [redacted] said the subject was talking and at no time did they handcuff him, which was primarily because of the gun shot wound to subject's hand. SA [redacted] approached DARNELL, who appeared to have been shot. SA [redacted] lifted DARNELL's shirt and discovered what appeared to be a bullet wound in DARNELL's torso. SA [redacted] attempted to administer first aid, but DARNELL died within a few minutes. SA [redacted] asked one of the Emergency Medical Technicians (EMT) to determine if DARNELL had died. The EMT confirmed DARNELL LESTER had expired. b6 b7C

ASAC KAVANAGH, SSA [redacted] and Lieutenant [redacted] arrive on the scene (81st Street next to the Rally's parking lot).

ASAC KAVANAGH was then briefed by SWAT Team Leader [redacted] who advised that as the FBI SWAT vehicles approached the subjects' vehicle with their "police lights," the subjects attempted to escape arrest by ramming their vehicle into the arresting SAs' vehicles. The subjects were able to break the containment in the Rally's parking lot and drove their vehicle toward SA [redacted] The rear passenger subject, later identified as [redacted] also attempted to kill the arresting SAs by shooting at the arresting SAs. SA [redacted] and SA [redacted] in adherence with FBI Deadly Force Policy, fired their weapons in self-defense at the subjects who posed an imminent danger of death or serious physical injury to the SAs and others.

ASAC KAVANAGH notified SAC GERALD L. MACK and had the FBI Evidence Response Team (ERT) placed on stand-by. SWAT Coordinator SSRA [redacted] was also notified and requested to report to the FBI Cleveland Field Office. EMT personnel arrived on the scene and verified that LESTER was deceased and died of an apparent gunshot wound to his chest. [redacted] was transported to the hospital while under guard. [redacted] was also taken into custody. SA [redacted] reported from the hospital that he seized two cellular telephones from [redacted] A subsequent check revealed these were the two cellular telephones utilized during "ransom" discussions with SA [redacted] b6 b7C

The crime scene was secured and taped off by responding Cleveland uniformed police officers. The Cleveland Police Department's Homicide Unit led by Commander [redacted] processed the scene and collected all evidence. FBI ERT Supervisor SSA [redacted] and SSA [redacted] arrived on scene and were assigned as liaison to assist the Cleveland Police Department's Homicide Unit.

Also responding to the crime scene that evening were SAC MACK, ASAC GARY KLEIN, Acting CDC [redacted] and Deputy Chief [redacted] Special Operations Division, Cleveland Police Department (CPD).

At approximately 5:30am, FBI personnel returned to the FBI Cleveland Field Office. SAs [redacted] and [redacted] met with Cleveland Detectives at their office to provide a sworn statement.

Involved FBI personnel were secured and pursuant to FBI procedures, advised to report back to the office later that afternoon to provide statements to FBIHQ, Inspection Division personnel who were traveling to the FBI Cleveland Field Office.

SSA [redacted] subsequently prepared an affidavit and arrest warrants with the United States Attorney's Office, charging [redacted] and [redacted] with attempting to kill a Special Agent of the FBI in violation of Title 18, USC, Section 1114 and 924(c)(1)(A). b6 b7C

SA [redacted] Principle Firearms Instructor, SWAT Team Leader, Cleveland Division, provided the Cleveland Division firearms training records for SAs [redacted] and [redacted]

The CV firearms training records for SA [redacted] indicated SA [redacted] is a certified firearms instructor, a SWAT Team member, and is qualified and authorized to carry and provide instruction on the following weapons: Glock model 27, .40 caliber semi-automatic pistol; Glock model 22, .40 caliber semi-automatic pistol; Springfield model 1911, .45 caliber semi-automatic pistol; Remington model 870 shotgun; H&K model MP5, 9mm automatic rifle; H&K model MP5, 10mm automatic rifle; and Colt model M4, .223 semi-automatic carbine rifle. The records also indicated qualification scores on all weapons were current.

The CV firearms training records for SA [redacted] indicated SA [redacted] is a certified firearms instructor, a SWAT Team member, and is qualified and authorized to carry and provide instruction on the following weapons: Glock model 22, .40 caliber semi-automatic pistol; Springfield model 1911, .45 caliber semi-automatic pistol; Remington model 870 shotgun; H&K model MP5, 9mm automatic rifle; H&K model MP5, .10mm automatic rifle; and Colt model M4, .223 caliber semi-automatic carbine rifle. The records also indicated qualification scores on all weapons were current.

The Cleveland Plain Dealer newspaper printed three articles related to the shooting death of DARNELL LESTER. The first article was in the December 24, 2004 edition and entitled, "FBI Informant killed in shootout after call for help." The second article was in the December 25, 2004 edition and entitled, "Suspect in FBI shooting had been in jail." The third article was in the February 25, 2004 edition and entitled, "Trio charged with death of FBI informant during shootout."

The Cuyahoga County Coroner's Office, Cuyahoga County, Ohio, listed in its "Coroner's Verdict" the cause

of DARNELL LESTER's death as "a gunshot wound to the left chest, during legal intervention, and in a homicidal nature." The Coroner's Report listed the bullet recovered from LESTER as a small caliber, long, jacketed bullet. The report listed the course and direction of the bullet recovered from LESTER as left to right, anterior to posterior and horizontally. The bullet was marked by the Coroner's Office with a "41," placed in an envelope and given to the Coroner's Office Property Department.

The CPD Forensic Laboratory performed ballistic test fire comparisons on the following three weapons involved in the shooting on December 23, 2003: Bryco handgun, Jennings Nine model, serial number 1411563, 9mm caliber, and obtained from the rear compartment of the subject vehicle on December 23, 2003; H&K rifle, MP5 model, 10mm caliber, serial number 68-929, and obtained from SA [redacted] on scene December 23, 2003; Springfield handgun, .45 caliber, serial number CRG783, and obtained from SA [redacted] on scene December 23, 2003; Colt rifle, M-4 model, .223 caliber, serial number W326503, and obtained from SA [redacted] on scene December 23, 2003; Glock handgun, .40 caliber, serial number DFV981, and obtained from SA [redacted] on scene December 23, 2003. b6 b7C

CPD crime scene investigators recovered the following spent shell casings on the night of December 23, 2003: three (3) .223 caliber Remington found in the southwest driveway apron behind 8108 Euclid Avenue; one (1) Geco 9mm Luger found in the street adjacent to 2023 East 81st; one (1) Winchester 9mm, and found in the street adjacent to 2023 East 81st; and one (1) 10mm Auto, found on the front-right passenger area of FBI Cleveland 2002 dark blue Chevrolet Tahoe occupied by SA [redacted] on December 23, 2003.

The CPD Forensic Laboratory analysis of the shell casings recovered from the crime scene on December 23, 2004, indicated the following:

(1) The two 9mm casings were fired from the Bryco handgun, Jennings Nine model, serial number 1411563, 9mm caliber, and obtained from the rear compartment of the subject vehicle b6 b7C

(2) The one 10mm casing was fired from the H&K rifle, MP5 model, 10mm caliber, serial number 68-929, and obtained from SA [redacted] on scene December 23, 2003

(3) The three .223 caliber casings and the bullet recovered by the Coroner's Office from the corpse of LESTER, indicates the casings and the bullet were fired from the Colt rifle, model M-4, 223 caliber, serial #W326503, obtained from SA [redacted] on scene December 23, 2003.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
01/03/2002
BALTIMORE DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 01/03/2002, involving Special Agents (SAs) [redacted] and [redacted] Both Agents fired their weapons during the execution of an arrest in order to eliminate the threat of two Rottweiler dogs. SIRG members recommended that no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in this incident.

Administrative: Reference Electronic Communication of SA [redacted], dated 01/22/2002.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1270951-D, 03/21/2002

Details of the Shooting Incident

On 01/03/2002, SA [redacted] a member of the Special Weapons and Tactics (SWAT) Team, was serving bench warrants as part of a joint investigation with the Department of Education. SA [redacted] attended an Operations Plan briefing on 01/02/2002, when information was disseminated that both subjects, as well as others associated with them, were considered to be Armed and Dangerous. The individuals were known to carry weapons and had been charged with numerous robberies with weapons involved. The briefing included information that fifteen people were present in the residence, as well as drugs and several Rottweiler dogs, during a previous search and arrest. b6 b7C

On the morning of the planned arrests, SA [redacted] was assigned as the first member in line to clear the first floor and basement area of the location. Upon the initial knock and announce at the front door of the residence, a large Rottweiler dog, acting in an aggressive manner, peered out the front window of the residence. Upon entry into the residence, SA [redacted] proceeded down a hall on the first floor to a bedroom located at the front of the house. Upon approaching the bedroom, SA [redacted] was immediately confronted with two large Rottweiler dogs, who were inside the bedroom. Both dogs moved in an aggressive and violent manner toward SA [redacted] resulting in him firing two rounds at each dog from his Springfield .45 caliber handgun. Both dogs were struck and momentarily bit at each other. One dog fell to the floor and appeared to be fatally injured while the second dog fell to the floor and appeared to be injured but not incapacitated. As SA [redacted] attempted to complete the clearing of the bedroom, one dog continued biting at the air in his direction. Fearing the dog would attack, SA [redacted] fired a fifth round believing that he fatally injured the animal. Subsequent to SA [redacted] shots; SA [redacted] fired two rounds from his M-4 automatic rifle, killing both dogs.

On 02/12/2002, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: Willie T. Hulon, Chief Inspector, Inspection Division, Office of Inspections; [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted], Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; William R. Falls, Section Chief, Operational Support Section, Administrative Services Division; William Q. Doherty, Section Chief, Global Section - NS-2, National Security Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, b6 b7C

To: Inspection From: Inspection
Re: 297-HQ-A1270951-D, 03/21/2002

Firearms Training Unit, Training Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Washington Field Office; and SSA [redacted] Practical Applications Unit, Training Division. Nonvoting members present were Inspector-in-Place [redacted] Phoenix Division; SSA [redacted] Firearms Training Unit, Training Division; SSA [redacted] and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SAs [redacted] and [redacted] was justified and in conformance with the deadly force policy.

Title: SHOOTING INQUIRY,
REPORT OF SHOOTING INCIDENT,
READING, PA.
PHILADELPHIA DIVISION
JULY 3, 2002

b6
b7C

Character: SHOOTING INQUIRY

Synopsis: This shooting incident involved a Special Agent (SA) of the FBI assigned to the Philadelphia Division, Allentown Resident Agency. The incident occurred during the successful arrest of a drug gang subject by the FBI led Reading Area Violent Crime Task Force (RAVCTF) following a meeting with undercover detectives. The incident occurred on July 3, 2002, at approximately 3:40 p.m., in the parking lot o the Fairgrounds Square Mall, Reading, PA.

- P -

DETAILS:

This shooting incident occurred during the arrest of [redacted] a violent drug gang member for whom the FBI had obtained a Federal Arrest Warrant charging drug and weapons violations.

At the time of the shooting incident, the SAs were working on the FBI led Reading Area Violent Crimes Task Force (RAVCTF) and were assigned to the Allentown Resident Agency (ARA) of the Philadelphia Division. The RAVCTF is coordinated by SAs of the ARA and in addition to the FBI, is staffed by SAs of the Bureau of Alcohol, Tobacco and Firearms, as well as other county and local law enforcement agencies. The primary mission of the RAVCTF is the investigation of violent drug trafficking

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

organizations/gangs in the city of Reading, PA., and the surrounding Burkes County area.

The City of Reading, PA., is located approximately 50 miles northwest of Philadelphia and 35 miles southwest of the ARA.

The SAs involved in this shooting incident were acting as members of the RAVCTF which had been investigating a violent drug trafficking gang based in the Reading, PA., area. This investigation was being conducted as a Safe Streets/Gang case under FBI file [redacted] b7A

Investigation prior to the incident developed information that subject [redacted] shot during the arrest, was believed to be a mid-level distributor for this gang who supervised drug distribution houses and re-supplied them with crack cocaine.

The drug gang being investigated was believed responsible for several drug related shootings and homicides. County and local authorities working with the RAVCTF had executed several search warrants in connection with this investigation where drugs, body armor and weapons had been recovered.

The aspect of the case involving [redacted] began in approximately March, 2002, when a female undercover detective (UCD) from the Burks County District Attorney's Office (BCDAO) had contact with [redacted] and discussions ensued where [redacted] had agreed to supply the UCD with whatever drugs she wanted. The BCDAO informed members of the RAVCTF of this development and that [redacted] was known to be associated with the violent drug gang under investigation.

The UCD in March, 2002, met with [redacted] and during a consensually recorded meeting received from him one-eighth of an ounce of powder cocaine with payment to be made at a later date. b6 b7C

Following the initial transaction, a second meeting between the UCD and [redacted] occurred for the purpose of paying off the drug debt, as well as receiving additional cocaine. This transaction took place in the parking lot of the Fairgrounds Square Mall. [redacted] provided the UCD with one bundle of cocaine consisting of 25 $10 bags and the UCD paid for the cocaine received in March. It was agreed that the UCD would pay [redacted] at a later date for this cocaine. During the cocaine transaction, [redacted] displayed to the UCD a semi-automatic pistol which he was carrying.

On Monday, July 1, 2002, the UCD again met [redacted] in the parking lot of the Fairgrounds Square Mall and paid off the outstanding drug debt and at that time received two bundles of crack cocaine, with each bundle containing 25 $10 bags. Though the UCD did not observe [redacted] weapon at this time, he did mention that he used guns to solve his problems.

The RAVCTF decided to arrest [redacted] on July 3, 2002, during a meeting with the UCD where she would be paying for cocaine previously received and also would be supplied with additional cocaine. b6 b7C

On July 3, 2002, Case Agent SA [redacted] obtained a Federal Complaint and Warrant charging [redacted] with violations of Title 21, Section 841(a)(1) (3 Counts), Distribution of Cocaine and Title 18, Section 924(c)(1)(A), Possession of a Firearm During an Illegal Drug Transaction.

SA [redacted] developed a plan to arrest [redacted] when he meets with the UCD for the purpose of collecting an outstanding drug debt and delivering more cocaine. SA [redacted] developed two arrest scenarios, one of which called for [redacted] arrest when he arrived at an apartment building in Kutztown, PA., and an alternate scenario should [redacted] refuse to come to the apartment. The alternate arrest scenario planned for [redacted] arrest in the parking lot of the Fairgrounds Square Mall, where he on several occasions had met the UCD in the past and conducted drug deals.

SA [redacted] documented his arrest plans on FBI form FD-888, which was presented to Senior Supervisory Resident Agent (SSRA) [redacted] ARA, who in turn approved it and sent it on to Philadelphia Headquarters City where ASAC Rosanne Russo also approved the plan.

At approximately 2:00 p.m. on July 3, 2002, an arrest briefing was conducted by SA [redacted] and Lieutenant (Lt.) [redacted] (BCDA) in the conference room of the Burks County District Attorney's Office. Approximately 15 members of the RAVCTF and other officers who would be assisting in the arrest attended the meeting. SA [redacted] handed out a copy of the FBI arrest plans and he, along with Lt. [redacted] began briefing the officers. Most of those in attendance were familiar with Sylvester Thomas, having previously been involved in surveillances during the earlier undercover drug transactions. SA [redacted] and Lt. [redacted] during the briefing were assigning various law enforcement officers specific tasks which included surveillance, arrest team and perimeter responsibilities. b6 b7C

During this briefing by SA [redacted] which was also attended by SA [redacted] of the ARA, the UCD had been notified by [redacted] that he did not want to meet at the Kutztown, PA., apartment complex, but would meet her in the Fairgrounds Square Mall where they had met several times in the past. During the UCD's phone conversation with [redacted], he indicated that he had to be at the Burks County Prison by 4:00 p.m. for what Task Force members believed to be visiting or putting money on the prison accounts for members of the drug gang who are currently incarcerated. Also during that conversation, [redacted] agreed to supply four additional bundles of crack cocaine to the UCD. b6 b7C

Based on the information supplied by the UCD, SA [redacted] and Lt. [redacted] went on to brief the arrest team on the second scenario which called for the arrest of [redacted] at the time of his meeting with the UCD in the Fairgrounds Square Mall.

Also at this time, SA [redacted] telephonically contacted Muhlenberg Township police officers to request that they stand by in the vicinity of the mall and provide outer perimeter security.

The briefing took approximately a half hour and SA [redacted] stressed at that time both the violent nature of the drug gang and the fact that [redacted] had been observed with a weapon during one of the drug deals and also had made a comment to the UCD concerning him taking care of his problems with a firearm.

As the arrest team departed the District Attorney's Office en route to an isolated parking area of the Fairgrounds Square Mall, SA [redacted] was assigned to be in the arrest van and participate in the arrest acting as front cover for the team which would be in a blocking van and contained not only SA [redacted] but five other officers. In addition to SA [redacted] Officer [redacted] would assist with the front cover while three other officers would make the actual arrest and the last officer would act as the driver. b6 b7C

SA [redacted] was assigned to ride in the Command and Control vehicle with Lt. [redacted] and Officer [redacted] from the Reading Police Department. The Command and Control vehicle was located approximately 60-70 yards away in a slightly elevated area of the parking lot, allowing for visual observation of the entire area. SA [redacted] was keeping the surveillance log while Lt. [redacted] was giving commands over the police radio and Officer [redacted] was the vehicle driver and also operated the video

recording equipment. The operation was conducted on the Reading police radio frequency with an FBI radio channel used only to monitor the transmitter which had been provided to the UCD by SA [redacted] along with a recording device.

At approximately 3:04 p.m., the UCD accompanied by a second female UCD arrived in their vehicle and parked in an open area of the parking lot, Fairgrounds Square Mall, to await the arrival of subject [redacted]

At approximately 3:40 p.m., subject [redacted] drove in to the parking lot area in a Chrysler Sebring, black in color, with an unknown female riding in the passenger seat. [redacted] parked next to the UCD's with his vehicle parked parallel next to the UCD's. Both the UCD's vehicle and [redacted] were pointed in the same direction with [redacted] driver's side next to the UCD's passenger side. The female riding with [redacted] was later identified after the incident as [redacted] b6 b7C

At approximately 3:41 p.m., Corporal [redacted] BCDAO, according to the arrest plan, drove an undercover pickup truck into the parking lot and parked it directly behind [redacted] vehicle with the pickup truck's front bumper just a few feet away from the rear bumper of subject's vehicle. Corporal [redacted] then exited the pickup truck and walked towards the mall's stores.

Once the pickup truck had been parked blocking the rear of subject [redacted] vehicle, Lt. [redacted] gave the command over the police radio for the arrest van to move in and execute the arrest.

SA [redacted], riding in the arrest van, was armed with his FBI issued Colt M16A1, which had been modified by the FBI to only fire in semi-automatic mode. SA [redacted] carried this weapon because previous arrests and search warrants involving members of this drug gang recovered and/or developed information that members had access to ballistic vests. SA [redacted] weapon was loaded with 28 rounds of ammunition. He was also carrying his FBI issued Browning, Model 88 semi-automatic pistol, which he never drew from his holster. He was wearing an FBI issued ballistic vest and a RAVCTF jacket with the words "POLICE" displayed on the back and front and on the left front there was an embroidered over-sized FBI badge. b6 b7C

At approximately 3:42 p.m., the arrest van pulled directly in front of Thomas' vehicle with the arrest team exiting and SA [redacted] exiting the passenger's side front of the van,

bringing his Colt M16A1 up to his shoulder and yelling commands to [redacted] to put his hands up. The UCD's vehicle immediately pulls away as the arrest van pulls in to block [redacted] vehicle.

As the arrest van stopped to block [redacted] vehicle from the front and SA [redacted] and the arrest team are exiting the vehicle, [redacted] vehicle immediately drives in reverse and crashes into the undercover pickup truck, then accelerates forward towards SA [redacted] b6 b7C

As [redacted] drove directly towards SA [redacted] who at this point had no cover, SA [redacted] fearing that he was going to be run over, fired five shots from his rifle. [redacted] vehicle veered off to the left, traveling approximately 25-30 yards and then crashing into a large unoccupied delivery truck. The law enforcement personnel on the scene then set up a crime scene perimeter and SA [redacted] notified Sergeant (Sgt.) [redacted] of the Muhlenberg Township Police Department who was participating as a uniformed officer on perimeter security for this arrest. Sgt. [redacted] then notified Emergency Medical Services (EMS) and requested a Med-evac helicopter be on standby pursuant to SA [redacted] request and then drove down to the site of the shooting.

Upon arriving at the shooting scene, SA [redacted] turned over to Sgt. [redacted] his Colt M16A1 rifle which Sgt. [redacted] secured in his vehicle. Sgt. [redacted] cleared the M16 by removing the clip which contained 22 live rounds and also removed 1 live round from the chamber, for a total of 23 unexpended rounds recovered.

The Med-evac helicopter was subsequently utilized to transport [redacted] from the scene to the Lehigh Valley Hospital where it was later determined that his wounds to a hand and chest were non-life threatening.

SA [redacted] subsequently took possession of the original video tape made by Officer [redacted] as well as the original consensual recording made by UCD [redacted] b6 b7C

The initial crime scene investigation was handled by the Pennsylvania State Police (PSP) who responded immediately to the crime scene with the FBI Evidence Response Team (ERT) playing a support role in that they were not on scene until approximately two hours after the shooting.

A search of [redacted] vehicle following the shooting located cocaine, a bulletproof vest, one live .40 caliber round, but no weapon.

Since the shooting incident, subject [redacted] accompanied by his attorney, has submitted to several proffer sessions with Agents of the FBI and, to date, has admitted to the cocaine transactions with the UCD, as well as the firearms violations. [redacted] has not been questioned concerning his attempt to run over SA [redacted] at the time of his arrest. b6 b7C

b7C

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271900-D, 09/06/2002

Details of the Shooting Incident

On 06/11/2002, SAs [redacted] and [redacted] went to a residence located in Oregon City to interview an individual regarding an investigation.

Upon arrival at the location, the Agents noticed two houses, along with other structures, within the confines of the property. SA [redacted] parked his Bureau vehicle in front of one residence and rang the door bell. After waiting for several minutes with no response, SAs [redacted] and [redacted] walked toward the storage area/barn and announced their presence. After receiving no response, the Agents approached a second home where they encountered two dogs showing signs of aggression. One of the dogs charged at SA [redacted] and sensing imminent danger, as detailed in his FD 302, he pulled his weapon and discharged one round into the ground to scare both dogs. As the dogs backed off, the owner exited the house and restrained the aggressive dog. b6 b7C

There were no personal injuries or property damage incurred as a result of SA [redacted] discharging his weapon.

On 07/30/2002, the SIRG met to discuss the above-captioned shooting incident. Former Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; Willie T. Hulon, Chief Inspector, Office of Inspections, Inspection Division; Ralph Stanley Harris, Section Chief, Personnel Resources Section, Administrative Services Division; William Q. Doherty, Section Chief, Global Section - NS-2, National Security Division; [redacted] Acting Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Washington Field Office; and SSA [redacted] Program Manager, Practical Applications Unit, Training Division. The two nonvoting members present were SSA [redacted] and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and

recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

The only observation made by SIRG members pertained to the fact that SA [redacted] fired a warning shot at the animal, which is not an accepted practice. This observation will be brought to the attention of the Special Agent in Charge.

Re: 297-HQ-A1271895-D, 02/14/2003

**Details of the Shooting Incident**

On 06/06/2002, SA [redacted] was assisting in the execution of a search warrant of a subject described as a lieutenant in a heroin distribution organization located in Philadelphia, Pennsylvania. b6 b7C

At 6:30 p.m., SA [redacted] along with five Agents and two Philadelphia Police Officers surrounded the residence, knocked and announced their presence and the existence of a search warrant. As law enforcement personnel approached the front door of the residence, the sound of large dogs barking emanated from inside. Agents knocked several times on the front door and observed a male, later identified as [redacted] look out of an upstairs window. [redacted] was advised to come downstairs and open the front door. After waiting for several minutes with no response, a decision was made to forcibly enter the residence.

SA [redacted] using a one-man battering ram, forced open the front door of the residence and stepped aside. SA [redacted] carrying a ballistic shield and with weapon drawn, was the first Agent to enter the residence when he was immediately attacked by two large dogs. SA [redacted] fearing for his safety as well as that of the entry team, fired three rounds from his handgun wounding one of the dogs resulting in both dogs retreating. The occupant of the residence came down to the first floor and placed the dogs into a fenced backyard.

The Pennsylvania Chapter of the Society of Prevention of Cruelty to Animals (SPCA) was contacted to deal with the wounded dog. Upon the arrival of the SPCA, the subject requested that his brother be allowed to take the dog to a veterinarian for treatment. There were no other physical injuries incurred as a result of this shooting incident.

On 01/22/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Glenn Powell, Investigations Division, Office of Inspector General, USDOJ; Michael S. Clemens, Chief Inspector, Office of Inspections, Inspection Division; Robert K. Cromwell, Section Chief, Applicant Processing

Section, Administrative Services Division; [redacted] Acting Section Chief, CD-2, Counterintelligence Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Firearms Training Unit, Training Division; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; SSA [redacted] Washington Field Office; and SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division. The two non-voting members present were SSA [redacted] Assistant Inspector, Office of Inspections, Inspection Division, and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

Re: 297-HQ-A1271970-D, 09/09/2002

Details of the Shooting Incident

At approximately 6:30 a.m., on 05/23/2002, Agents of the Washington Field Office, in concert with officers of the Metropolitan Police Department (MPD), were preparing to conduct an authorized search of a residence in Washington, D.C.

Upon their arrival at the residence at approximately 7:15 a.m., an MPD Detective pounded on the front door several times and shouted, "Police, search warrant, police, search warrant, open the door." The entry team heard a female voice saying "I'm coming, I'm coming." Within a few seconds, the female opened the door of the residence.

SA [redacted] was the first to enter, followed by SA [redacted] who yelled out "dog, dog, dog..." The dog ran under SA [redacted] legs, bit his ankle and would not release his hold. According to SA [redacted] he started to drag the dog around in order to make the dog release his hold when SA [redacted] began shooting the dog. As SA [redacted] and SA [redacted] proceeded to the upstairs portion of the residence, SAs [redacted] and [redacted] realizing that the animal was a danger, fired additional rounds which resulted in the dog's death at the scene. b6 b7C

SA [redacted] was transported to the hospital where he received medical treatment as a result of the dog bite.

On 07/30/2002, the SIRG met to discuss the above-captioned shooting incident. BALTIMORE DIVISION
MARCH 1, 2002

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident occurred on 03/01/2002, at approximately 6:10 p.m., in Anne Arundel County, Maryland, while Federal Agents and Anne Arundel County Police Department (AACPD) Officers attempted to arrest an individual they believed to be an armed and dangerous bank robbery subject named [redacted] is described on his Maryland drivers license as a white male, 5'8", 180 lbs, DOB; [redacted] FBI number [redacted] The individual who was shot was not the subject and was identified as [redacted] is described on his Maryland drivers license as a white male, 5'11, 160 lbs, DOB; [redacted]

DETAILS:

On Wednesday, 02/20/2002, at approximately 9:42 a.m., a lone, unidentified, white male entered the Allfirst Bank, located at 8493 Ft. Smallwood Road, Pasadena, Maryland 21122. This bank is insured under the provisions of the Federal Deposit Insurance Corporation (FDIC). This individual walked up to a bank teller and yelled words to the effect "Get down on the floor." The bank teller and all others in the bank complied and got down. The bank teller complied with the bank robber's demands and began to furnish him money from her teller drawer. As the bank teller gave the money to the bank robber, the bank robber pointed a silver or nickel and black pistol in the teller's face. The bank robber then proceeded to the next teller and shouted words to the effect " Give me your

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

money. You've got ten seconds or I'll blow your fuckin' brains out." This teller complied with the robber's demands and described seeing a silver semiautomatic pistol pointed at her. The bank robber grabbed $26,324.00 in U.S. currency and immediately exited the front door of the bank. Witnesses described the bank robber as a white male; 5' 7" to 5' 10"; medium to large build; wearing a blue or black ski mask covering his face, except for cuts for his eyes; a dark green sweatshirt; black gloves; carrying a silver/nickel and black handgun. Witnesses saw the bank robber jump into the passenger seat of a dark green, Ford Ranger pickup truck with lettering "Bonded and insured [redacted] on the side. The pickup was later recovered by the AACPD. b6 b7C

SA [redacted] of the Annapolis Resident Agency (ARA), of the Baltimore Division was assigned as the case agent for this bank robbery. On 02/20/2002 SA [redacted] interviewed [redacted] the owner of the dark green Ford Ranger pickup, and determined that [redacted] had loaned the pickup truck to his neighbor, [redacted] on the evening of 02/19/2002. [redacted] on the morning of 02/20/2002 could not find his pickup truck and contacted [redacted] to find out where he had parked the truck. [redacted] showed [redacted] where he had parked the vehicle and they both realized that it was missing. SA [redacted] interviewed [redacted] on 02/20/2002, and [redacted] denied any involvement in the Allfirst Bank robbery.

On 02/26/2002, SA [redacted] was contacted by Detective [redacted] AACPD, and advised that an individual who requested anonymity had called him and told him that [redacted] had recently robbed a bank in the Pasadena, Maryland area. The caller also advised that [redacted] was a crack and heroin addict and had recently gotten out of jail. The caller also stated that a [redacted] LAST NAME UNKNOWN (LNU) was also involved.

SA [redacted] obtained a picture of [redacted] and the bank surveillance photographs and showed them to four different individuals. All four believed the subject in the bank surveillance photographs to be [redacted] advised that [redacted] resided in the basement of [redacted] residence. [redacted] advised SA [redacted] that [redacted] had not worked 02/20/2002 and he was not home the evening of 02/19/2002. [redacted] b6 b7C b7D

On 03/01/2002, at approximately 12:07 a.m., [redacted] contacted SA [redacted] and advised him that [redacted] had [redacted] (LNU). [redacted] and [redacted] went to a bar across from the residence to talk and [redacted] told [redacted] that he had committed a felony. [redacted] asked [redacted] whether or not he had robbed a bank? [redacted] responded [redacted] Whereupon [redacted] told [redacted] he had to turn himself in. [redacted] said [redacted] told [redacted] house. [redacted] became very emotional and tearful. [redacted] allowed [redacted] to come into [redacted] While in the house [redacted] received a telephone call from [redacted] who told [redacted] that the FBI was looking for him. [redacted] advised SA [redacted] that as [redacted] and [redacted] (LNU) were leaving the residence, [redacted] (LNU) drove up and seemed paranoid, asking what [redacted] had told [redacted] told [redacted] to leave and never return. [redacted] advised SA [redacted] he heard [redacted] ask [redacted] (LNU) if he had the money. [redacted] (LNU) replied "Yes."

b6
b7C
b7D

On 03/01/2002, shortly after [redacted] departed from [redacted] residence, [redacted] proceed to look through the common area of her home. [redacted] SA [redacted] and Officer [redacted] from the Baltimore City Police Department each received a call from [redacted] at approximately 1:45 a.m. about the pistols and responded to [redacted] residence. At approximately 2:07 a.m. Officer [redacted] turned the air pistols over to SA [redacted] SA [redacted] received consent to search the common area of the basement. He recovered [redacted] green NIKE sweatshirt and grey sweatpants (clothing worn by the bank robber depicted in bank surveillance videotape).

On 03/01/2002, at sometime between 8:15 a.m. to 9:00 a.m., [redacted] (LNU) contacted SA [redacted] and [redacted] recognized the caller's voice as [redacted] who SA [redacted] had previously arrested for bank robbery a few years earlier. [redacted] admitted knowing [redacted] but he did not know what kind of trouble [redacted] was in. [redacted] denied any involvement in any crimes with [redacted] declined to say anything else and stated he would contact SA [redacted] later, possibly with an attorney.

b6
b7C

Following the conversation SA [redacted] contacted AUSA [redacted] He advised him of the evidence he had recovered and his conversations with [redacted] and [redacted] AUSA [redacted] granted verbal authority to arrest [redacted] and told SA [redacted] that he was assigning the case to AUSA [redacted] SA [redacted] contacted AUSA [redacted] provided a verbal overview of the events, drafted and faxed a copy of an affidavit for the arrest of [redacted] charging him with robbery of the Allfirst Bank, Pasadena, Maryland, on 02/20/2002. AUSA [redacted] advised SA [redacted] they would have an arrest warrant for [redacted] signed later that afternoon. b6 b7C

On 03/01/2002, at approximately 1:45 p.m., [redacted] contacted SA [redacted] and advised him that [redacted] had telephonically contacted [redacted] and requested a meeting with [redacted] asked [redacted] to bring [redacted] s personnel belongings, including items located in the washing machine, to the meeting because he "heard the FBI was looking for him" and he was going to flee. [redacted] and [redacted] agreed that [redacted] would call again at 4:00 p.m., and meet after, possibly in the Glen Burnie, Maryland area.

[redacted] described [redacted] to SA [redacted] as sounding hysterical, crying and heaving, and an emotional mess. [redacted] told SA [redacted] he had spoken to [redacted] mother and they both agreed that [redacted] may be suicidal. [redacted] had told them he would not go back to prison. From 02/28/2002 through 03/01/2002, [redacted] had several conversations with [redacted] as well as [redacted] mother, [redacted] As a result of those conversations, [redacted] felt that [redacted] was very depressed and heavily using drugs. [redacted] also felt [redacted] was depressed because 03/01 was the anniversary of [redacted] s father's death. From [redacted] discussions with [redacted] learned that [redacted] felt strongly that this arrest situation with [redacted] would end in some type of murder/suicide situation. [redacted] told [redacted] that [redacted] did not want to return to jail and that he was desperate. b6 b7C

SA [redacted] telephonically contacted AUSA [redacted] and related the conversation he had earlier with [redacted] AUSA [redacted] agreed on the exigent circumstances and authorized the arrest of [redacted] at the planned meeting with [redacted] later that day. The actual arrest warrant had not yet been signed.

SA [redacted] then spoke with Acting Supervisory Special Resident Agent (A/SSRA) [redacted] regarding the exigency of the situation and the need to execute an arrest. SA [redacted]

noted that AUSA [redacted] had concurred with this decision. SA [redacted] told A/SSRA [redacted] that based upon review of an NCIC printout and source information, [redacted] was believed to be Armed and Dangerous (A&D), a crack head and heroin addict, and there was strong evidence that he might flee the area.

b6
b7C

A/SSRA [redacted] agreed to go ahead with the arrest. On 03/01/2002 at approximately 2:15 p.m., A/SSRA [redacted] attempted to contact Assistant Special Agent in Charge (ASAC) PETER BRUST, however, BRUST was not in the office. A/SSRA [redacted] telephonically contacted Acting/Assistant Special Agent in Charge (A/ASAC) [redacted] and verbally advised him of the situation. On 03/01/2002, SSA [redacted] was the Acting ASAC of the Calverton Resident Agency. SSA [redacted] was the A/ASAC from 02/18/2002 to 03/01/2002 because ASAC BRUST was out of the Baltimore Division.

A/SSRA [redacted] and SA [redacted] called A/ASAC [redacted] from the ARA, on a speaker phone.. A/SSRA [redacted] advised A/ASAC [redacted] that SA [redacted] was working on a bank robbery investigation and a suspect had been developed. A/SSRA [redacted] requested several agents from the Calverton RA to assist with the arrest. SA [redacted] advised A/ASAC [redacted] that he received oral authorization from the USA's Office to make a probable cause arrest and that he had completed the affidavit. SA [redacted] advised A/ASAC [redacted] that he had conducted a consent search at the suspect's residence and two air pistols had been recovered from the house. SA [redacted] believed that one of the air pistols recovered was the same pistol used in the bank robbery.

During this conversation, A/ASAC [redacted] asked A/SSRA [redacted] if an Operational Plan (OPS) had been written. A/SSRA [redacted] told A/ASAC [redacted] that there was no written plan. A/ASAC [redacted] instructed A/SSRA [redacted] to fax him an OPS plan, as well as the affidavit. A/ASAC [redacted] told A/SSRA [redacted] that he would send five SAs from the Calverton RA to attend the briefing at the ARA. A/ASAC [redacted] specifically instructed A/SSRA [redacted] to ensure that all the SAs participating in the arrest get a complete briefing. A/SSRA [redacted] advised A/ASAC [redacted] an OPS plan would be prepared and faxed to him.

b6
b7C

A short time later, A/ASAC [redacted] received another call from A/SSRA [redacted] and SA [redacted] SA [redacted] provided more details to A/ASAC [redacted] SA [redacted] advised that [redacted] would be talking to [redacted] around 4:00 p.m., and there was a good possibility that [redacted] could lead the FBI to [redacted] A/ASAC [redacted] advised A/SSRA [redacted] that he had not received the faxed copy of the OPS plan. A/ASAC [redacted] told A/SSRA [redacted] that he had verbal approval for the operation, but that he needed

him to fax the OPS plan prior to going out.

SSA [redacted] contacted SAs [redacted] and instructed them to attend an arrest briefing at the ARA at 3:00 p.m.

SA [redacted] prepared a hand written information sheet for distribution to the SAs participating in the surveillance/arrest. The sheet included a photograph of [redacted] a brief physical description, and a description of vehicles used by him. SA [redacted] also prepared a handwritten OPS plan, and attached the arrest affidavit, and an NCIC report he received on 02/26/2002. These items, and a copy of the affidavit were given to A/SSRA [redacted] b6 b7C

The arrest was planned to be a static event when [redacted] met [redacted] at the Days Inn parking lot. In order to protect the relationship between the FBI and [redacted] both [redacted] SA [redacted] then left the building. Outside the RA, SA [redacted] conducted a radio check with the RA while in his Bureau car. The radio operator advised he was being heard "5 by 5" on both the FBI radio and hand-held radio. The radio check was conducted in the private mode.

On 03/01/2002, at approximately 3:00 p.m. an arrest briefing was conducted at the ARA. The briefing was lead by A/SSRA [redacted] and SA [redacted] Also present at the briefing were: SAs [redacted] and ARA secretary [redacted] The case agent, SA [redacted] did not attend the briefing. SA [redacted] provided information during the briefing via his Nextel telephone, while he was taking care of logistical matters and talking to the cooperating witness [redacted]

Prior to the briefing, SA [redacted] reviewed the OPS plan and suggested to A/SSRA [redacted] that he attach a photograph of [redacted] which he agreed to do. The OPS plan was passed around the table but each SA did not receive a copy. SA [redacted] briefed that the anticipated location where [redacted] and [redacted] were to meet was the Days Inn, located across from the Motor Vehicle Administration building, Route 2, Glen Burnie, Maryland. (This was approximately 30 to 40 minutes driving time from the ARA. The SAs stated they felt they were pressed for time to complete the briefing and other preparations in order to be at the motel by 4:00 p.m.) b6 b7C b7D

As a long time member of the SWAT team, SA [redacted] was experienced in giving tactical briefings. He did not use the handwritten Ops plan to make the briefing. SA [redacted] began the briefing by thanking the SAs for their assistance and provided the background on the investigation. SA [redacted] provided the following information: Based upon the bank surveillance photograph and witness descriptions provided by SA [redacted] the bank robber suspect was a white male, 5'8", wearing a ski mask, age estimated between mid-20's and early 30's, using a handgun and a stolen pickup truck. [redacted] had been in recent communication with the suspect, [redacted] and appeared to be in a position to help locate him. [redacted] would be driving a 1991, green, Ford Ranger pickup truck. b6 b7C

At the time of the briefing, SA [redacted] did not have [redacted] physical or clothing description, but obtained it after the briefing and relayed it to the arresting team by FBI radio. SA [redacted] "Xerox" copies of a 1998 arrest photo of the [redacted] which were passed out to every SA. The picture in the copies measured approximately 4" x 5" or 5" x 7" and was suitable for identification purposes. [redacted] was also characterized as possibly suicidal. The suicidal characterization was based on [redacted] (mother) and [redacted] description of [redacted] during several conversations he had with him on 03/01/2002. [redacted] criminal history was also passed around. The criminal history showed that [redacted] had been arrested for assault and attempted murder. SA [redacted] told the group that [redacted] had stated to [redacted] and [redacted] (mother) that he would not go back to jail. (The latter statement had been conveyed to SA [redacted] by SA [redacted] earlier in the day.)

SA [redacted] continued the briefing by telling the arrest team that [redacted] wanted to meet [redacted] at approximately 4:00 p.m. and SA [redacted] was setting up the meeting. The meeting was expected to take place in Glen Burnie, Maryland. Staging for the operation would take place at the Days Inn, across from the Motor Vehicle Administration building, Route 2. The FBI communications frequency would be repeater channel F-3, which covers the southern portion of the ARA territory. The alternate communications medium was to be Nextel cellular telephones. No alternate FBI radio frequency was designated. The situation on the street could be expected to be dynamic and fluid and it was uncertain whether [redacted] would in fact meet with [redacted] SA [redacted] advised the SAs that SA [redacted] had retrieved from [redacted] residence a sweat shirt and pellet guns, which were subsequently determined through a review of the bank robbery tapes, to be similar to the clothing and weapon used b6 b7C

by the bank robber. SA [redacted] described the behavior of the bank robber in the bank, which included waving a gun and using profanity, and told the team that he should be considered armed and dangerous (based upon use of the handgun during the commission of the bank robbery).

The possibility of a stationary vehicle arrest was addressed during the briefing. The plan was: In the event a positive identification was made of [redacted] the team would come in, block his vehicle, and effect the arrest. Specific duties of arrest team members were not made due to the uncertainty of the situation. No specific positive identification signal, on the part of [redacted] or an SA, was established. No person, including [redacted], was designated with the responsibility of positively identifying [redacted] Protocol regarding positive identification of [redacted] was not addressed. Although SA [redacted] did not brief this detail, he expected SA [redacted] would make the positive identification of [redacted] and call it out to the arrest team. b6 b7C

SA [redacted] told the group he needed logical surveillance points covered including north and south of the meet location on both sides of the divided highway. SA [redacted] advised that AACPD detectives would be at this location providing assistance in the operation. Someone asked the description of [redacted] vehicle. SA [redacted] responded that it was unknown. Another person asked whether he was still armed. SA [redacted] responded that he did not know but that he should be considered armed and dangerous due to the nature of the crime charged.

Although there was no formal designation, SA [redacted] assumed the role of team leader. The Principal Relief Supervisor, SA [redacted], was present in his role as A/SSRA, since the ARA supervisor was on leave.

SA [redacted] took additional copies of the "Xerox" pictures of [redacted] called AACPD Detective [redacted] and advised him they were en route to the operational meeting location where they would rendezvous with him. SA [redacted] volunteered to position the arrest team personnel at the meeting location. b6 b7C

For communication, the SAs and police involved used Nextel cellular telephone, an AACPD handheld radio (trunked system that only SA [redacted] possessed), and a FBI radio set on simplex frequency channel D-4. SA [redacted] directed the arrest team to keep radio communications to a minimum. During the

entire operation, significant communication problems on the FBI radio were encountered. These problems were characterized as transmissions apparently not being received and team members not always receiving acknowledgment of their transmissions. According to the SAs statements it was unusual for so many transmissions not to be acknowledged.

The Calverton RA SAs paired into the following vehicles; SA [redacted] in his vehicle; SA [redacted] and SA [redacted] in SA [redacted] vehicle; SA [redacted] and SA [redacted] in SA [redacted] vehicle until they changed to SA [redacted] vehicle when he left to handle a personal matter. The ARA SAs used their assigned RA vehicles; SA [redacted] which had an AACPD radio, SA [redacted] and SA [redacted] in their own vehicles, and later SA [redacted] joined SA [redacted] to help him communicate, and A/SSRA [redacted]. Two AACPD Detectives, [redacted] and [redacted] were together in an unmarked AACPD vehicle, a blue Ford Mustang. There were no marked police vehicles participating in the operation. b6 b7C

Some time after 3:00 p.m., A/ASAC [redacted] called the Baltimore Field Office looking for SAC LYNNE A. HUNT. A/ASAC [redacted] spoke with the SAC Secretary, [redacted] Ms. [redacted] advised that SAC HUNT was attending a police graduation ceremony in Westminster. A/ASAC [redacted] asked Ms. [redacted] if SAC HUNT needed to approve single arrest OPS plans. Ms. [redacted] indicated that SAC HUNT did not require single arrest plans be approved by her.

A/SSRA [redacted] advised that the arrest team departed the ARA at approximately 3:40 p.m. A/SSRA [redacted] stayed behind to pencil in additional information onto the OPS plan, have it typed, and then faxed to A/ASAC [redacted] in the Calverton RA for his review and approval. The OPS plan utilized during the arrest briefing was faxed to A/ASAC [redacted] at 3:40 p.m. A/SSRA [redacted] noted that he kept the original OPS plan and made modifications to it regarding radio call signs and additional information concerning changes in personnel, rendevous points and vehicles. He further noted the modified OPS plan was never provided to A/ASAC [redacted] however, A/ASAC [redacted] later saw a copy of the OPS plan with [redacted] hand written notes on it. A/SSRA [redacted] maintained the modified OPS plan in order to forward the original to the case file. b6 b7C

At 3:46 p.m., A/ASAC [redacted] received a fax from the ARA that contained an arrest OPS plan and an affidavit for a complaint. A/ASAC [redacted] reviewed the OPS plan and saw that the plan did not have any SAs assigned to specific duties. He could not remember if he instructed A/SSRA [redacted] to make specific assignments.

En route to the meeting location, SA [redacted] realized that repeater frequency channel F-3 would not work and started calling the SAs to switch to the main ARA repeater, channel F-1. It was determined that channel F-1 would not work either and resorted to simplex channel D-4, once everyone arrived at the meeting location. One of the SA's radio dropped its privacy code and everyone switched to the clear mode. Everyone had a Nextel cellular telephone with the exception of the AACPD detectives, who had another type of cellular telephone. A Nextel group was not established for the arrest team, however SA [redacted] had direct connect capability of all SAs on the arrest team. A communications check was effectively made of all personnel at the meeting location, including the AACPD detectives. SA [redacted] used a handheld AACPD radio in his vehicle to communicate with the AACPD detectives. b6 b7C

The group was having a difficult time communicating with SA [redacted] on channel D-4 since he was in the Curtis Bay area approximately 10 miles away. At the time, SA [redacted] was covering [redacted] in anticipation of the meeting with [redacted] There was a hill between SA [redacted] and the arrest team, so SA [redacted] and SA [redacted] traveled separately towards SA [redacted] location in order to better be able to communicate with him. SA [redacted] actually traveled to SA [redacted] location.

SA [redacted] learned from SA [redacted] and relayed to the team, that the meeting would likely take place in the vicinity of the Sun Valley Shopping Center, Highway 648 and Mountain Road. No specific time was provided for the meeting. SA [redacted] was alone in his vehicle, alongside of AACPD Detectives [redacted] and [redacted] who were in an unmarked AACPD vehicle. SA [redacted] directed SAs [redacted] and [redacted] to go to the Sun Valley Shopping Center to get familiarized with the area. Detectives [redacted] and SA [redacted] also relocated to the shopping center. There were ongoing communication updates between SAs [redacted] A/SSRA [redacted] and the rest of the team.

Sometime around 4:00 p.m., [redacted] contacted SA [redacted] on his Nextel and advised that [redacted] had called and would send his girlfriend to pick-up the duffel bag filled with his clothes. b6 b7C

Following this conversation, [redacted] contacted SA [redacted] on the Nextel phone to ask what was going on. [redacted] was an associate of [redacted] who SA [redacted] had arrested for bank robbery a few years earlier. [redacted] was also suspected of being involved in the Allfirst bank robbery with [redacted]. SA [redacted] believed [redacted] was in contact with

[redacted] so he told him "nothing" and that he was going home. SA [redacted] then called [redacted] and instructed him to call [redacted] back in order to convince him to come in person for his clothes, money, and to say good-bye.

Shortly after this conversation [redacted] called again and advised [redacted] would meet him. [redacted] said he would be driven in a car by a girlfriend. [redacted] advised the person could be [redacted] (LNU), who was with [redacted] the night before. [redacted] (LNU) was described by [redacted] as having short, red hair. [redacted] did not divulge the make and model of the car he would be driving in. b6 b7C

SA [redacted] then contacted SA [redacted] via Nextel Direct-Connect and advised of the intended location for the meeting. SA [redacted] transmitted the meeting location information over the FBI radio. For those of the team who did not acknowledge, he contacted them via Nextel Direct-Connect. He advised them that [redacted] was being driven in a car by a possible redheaded, white female. [redacted] advised that [redacted] could be wearing a white baseball cap, as was his custom. The make and model of the vehicle [redacted] would be in was unknown. SA [redacted] was relaying information he received from SA [redacted] while SA [redacted] spoke to [redacted] on his Nextel phone.

At approximately 5:15 - 5:30 p.m., SA [redacted] reported that [redacted] had started driving from the Curtis Bay area, where [redacted] lived, to meet his "boss" and was planning to then meet with [redacted] at the 7-11 store. SA [redacted] who was riding with SA [redacted] provided a further description of the pickup [redacted] was in, and a description of the clothes worn by [redacted] which SA [redacted] relayed to the rest of the team. (During this general time frame, SA [redacted] received the following basic description of [redacted] which he relayed to the team by FBI radio: White male, mid-20's, 5'8" - 5'9". SA [redacted] was talking to the AACPD detectives, who were parked next to him, and they heard the description.) SA [redacted] reported that he was surveilling [redacted] pickup and that [redacted] was going to meet [redacted] at the 7-11 store on Route 648, at the intersection of Marley Neck Boulevard, in the vicinity of Glen Burnie. b6 b7C

SA [redacted] SA [redacted] and SA [redacted] followed [redacted] to the First Union Bank located on South Route 2 and Ordnance Road, where he met his boss, and picked-up his pay. [redacted] left the bank and drove to the 7-11 store where he and [redacted] had agreed to meet. The other SAs proceeded to the area of the 7-11 store.

At approximately 5:45 P.M., [redacted] arrived in the area of the 7-11 store. As [redacted] was pulling up to the intersection of Route 648 and Marley Neck Road, and preparing to make a left turn onto Marley Neck Road, [redacted] observed [redacted] in a red Honda, Civic being driven by [redacted] sister, [redacted] was sure that [redacted] had seen him as well. [redacted] proceeded into the 7-11 store parking lot. [redacted] tried to notify SA [redacted] by phone, but [redacted] cell phone went dead. [redacted] vehicle did not return to the 7-11 store. b6 b7C

At approximately 5:45 p.m. SA [redacted] observed [redacted] drive into the 7-11 store parking lot in the Ford Ranger pickup truck. SA [redacted] further observed [redacted] exit his vehicle and enter the 7-11 store. About 5:50 p.m., SA [redacted] and SA [redacted] observed a late model, red vehicle (later identified as a Pontiac Grand Am) drive into the 7-11 store parking lot. SA [redacted] called out over the radio that a red vehicle had just pulled up to the 7-11 store and parked next to [redacted] truck. SA [redacted] observed a white male wearing a white baseball cap exit the passenger side front seat of the vehicle and enter the 7-11 store. The white male who had exited the red vehicle, stayed in the 7-11 store for two to three minutes and appeared to meet briefly with [redacted] before exiting the 7-11 store and re-entering the red vehicle. SA [redacted] came to the conclusion that the subject had possibly interacted with [redacted], as he could clearly observe that they stood in close proximity to each other within the 7-11 store and appeared to have contact.

[redacted] had gone inside of the 7-11 store in order to use the phone. [redacted] asked the clerk if he could use the phone. The clerk told him to use the pay phone, however, the pay phone was being used by someone. [redacted] told the clerk he needed to call 911 and the clerk allowed him to use the phone.

SAs [redacted] and [redacted] indicated that they could see the red vehicle. From their vantage point across the street, it appeared to SAs [redacted] and [redacted] as though the white male passenger fit the physical description of [redacted] SA [redacted] advised they made this assessment because the passenger appeared to be a white male, approximately the same height, weight and age as [redacted], and was wearing a baseball cap, as was [redacted]'s habit according to the briefing. SA [redacted] and SA [redacted] could not see the driver of the vehicle, as their line of sight was obstructed by [redacted] truck. They advised SA [redacted] of the presence of the vehicle and its occupants, and requested he make an attempt to observe the driver. As SAs [redacted] and [redacted] began to move in the direction of the 7-11 store, they heard on the FBI radio that the subject was in a "red car." b6 b7C

They observed a red car and its occupants exiting the west entrance/exit of the 7-11 store parking lot. This vehicle was driven by a red-haired, white female. The passenger was a white male wearing a white baseball cap. SA [redacted] didn't know who called out over the radio, but heard instructions to "Follow the red car . . . don't loose it."

[redacted] called 911 and spoke with a dispatcher. [redacted] told the 911 dispatcher he was working with the FBI and he was helping them catch [redacted] told the dispatcher to notify the FBI and tell them that [redacted] was a passenger in a red Honda in the vicinity of the 7-11 store located at Ro 648 and Marley Neck Road. [redacted] hung-up with the dispatcher, picked-up a soda, and waited inside the store. A minute or two later [redacted] observed several unmarked police vehicles with their emergency lights flashing and sirens activated. The vehicles were traveling north on Marley Neck Road. [redacted] was sure this was related to the arrest of [redacted]

b6 b7C

AACPD Detective [redacted] reported that he and Detective [redacted] received a call on channel E on their AACPD radio, from the county dispatcher, that a [redacted] or [redacted] had called 911 and advised he was working with the FBI, and a subject they were looking for was driving around a 7-11 store in a small red car. Detective [redacted] immediately telephonically called the dispatcher to obtain more information. The dispatcher informed him that she had received a 911 call from a male who said that he was working for the FBI and "the bad guy...the one you're looking for, just drove by the 7-11 in a red Honda driven by his sister." While [redacted] was on the telephone with the dispatcher, SA [redacted] contacted them over the AACPD radio and told them the subject was in a red car traveling north on 648.

Due to radio transmission difficulties, A/SSRA [redacted] called SA [redacted] on his Nextel and told him to communicate in the clear on channel D-4.

SA [redacted] subsequently advised that the driver was a red-headed white female. Although SA [redacted] is certain SA [redacted] provided the team with the description of the red headed female, SA [redacted] did not know whether the information was conveyed over the Nextel or the FBI radio.

b6 b7C

SAs [redacted] and [redacted] stated in their Sign Sworn Statements that they firmly believed that [redacted] was in the red vehicle to which SA [redacted] was referring. SA [redacted] believed he heard SA [redacted] broadcast over the FBI radio to the team, "That's the car." SA [redacted] did not report any positive

contact with [redacted] nor did he receive any positive confirmation that [redacted] had been at the 7-11 store. However, there was no question in SA [redacted] mind that [redacted] was probably in the red car which had been parked adjacent to [redacted] pickup truck at the 7-11 store; that this vehicle was now moving on Highway 648 northbound; and that it needed to be followed. This conclusion was based on the following: [redacted] had reported that [redacted] would be at the 7-11 store, in a vehicle, with a female with red hair; a vehicle was observed driven by a female parked next to [redacted] pickup truck at the 7-11 tore; and the white male got into the passenger side of this vehicle. He did not remember anyone saying that the white male had a ball cap on. b6 b7C

SA [redacted] broadcasted that the red vehicle was exiting the 7-11 store parking lot and was turning right on Marley Neck Boulevard. SAs [redacted] and [redacted] alled SA [redacted] via the Nextel and told him to follow the red vehicle. SA [redacted] said he advised them they did not know who was in the car. SA [redacted] heard SA [redacted] on the radio say that he did not know if the passenger was the subject, meaning [redacted] but to just follow the car. Inasmuch as [redacted] remained missing from his parked car, SA [redacted] remained circling the area around the 7-11 store location, waiting for [redacted] to return to his vehicle.

SAs [redacted] and [redacted] were temporarily prevented from following the red vehicle. They were parked in a lot on the opposite side of the street and were unable to safely enter the roadway and negotiate a right turn onto Marley Neck Boulevard. Upon entering the roadway and making the turn onto Marley Neck Boulevard, SAs [redacted] and [redacted] joined the lead FBI vehicle, which was ahead of them, following the red vehicle. SA [redacted] was the driver of [redacted] s vehicle and SA [redacted] was his only passenger, positioned in the front passenger seat. The lead FBI vehicle, SA [redacted] vehicle, contained, SAs [redacted] and [redacted] SA [redacted] was not in the car as he had left earlier to attend to a personal commitment. SA [redacted] was the driver of SA [redacted] vehicle, and SA [redacted] was in the front passenger seat. b6 b7C

SA [redacted] broadcasted that the red vehicle was traveling north on Marley Neck Boulevard. SA [redacted] continued broadcasting various reference points including calling out a marked police patrol car which had made a traffic stop on Marley Neck Boulevard. SA [redacted] came up on SA [redacted] vehicle, which was behind SA [redacted] vehicle. Neither vehicle were broadcasting any radio traffic. SA [redacted] had his emergency lights activated.

A/SSRA [redacted] advised that once the red vehicle began moving, he attempted to catch up to the other vehicles, as he was further away than the others. Once A/SSRA [redacted] arrived at the intersection of Route 648 and Marley Neck Boulevard, he saw SA [redacted] vehicle, a Crown Victoria, in front of his with his lights and sirens on. A/SSRA [redacted] assessed from the radio traffic that the occupants of the subject vehicle were not pulling over.

b6
b7C

SA [redacted] broadcasted on the FBI radio that they were approaching a red light at the intersection of Marley Neck Boulevard and Ft. Smallwood Road. SA [redacted] then broadcasted on the FBI radio, "They are at the red light. Do you want us to initiate a vehicle stop?" SA [redacted] paused, waiting for SA [redacted] to respond. (SA [redacted] could not remember SA [redacted] making any radio transmissions after the departure from the 7-11 store.) When SA [redacted] did not respond, SA [redacted] answered, "Yes, go ahead if you think you can."

A/SSRA [redacted] advised that he heard the request for instructions on whether or not a traffic stop should be made on the red vehicle. A/SSRA [redacted] advised he could hear traffic over the radio relating to how the stop was going to be made, however, he was too far away to have any visual contact with any of the agents pursuing the subject vehicle.

The red vehicle was stopped at the red light, with its brake lights on. SA [redacted] pulled up behind the red vehicle, placed the red and blue visor emergency light into the down position, and turned on the emergency lights. When he turned on the emergency lights and reached for the siren, the driver of the red vehicle appeared to respond by releasing the car brakes, as indicated by the brake lights turning off, and turning right on the red traffic light. SA [redacted] told SA [redacted] to turn on the emergency lights and hit the siren. The FBI vehicle was equipped with Wig Wag headlights and a visor strobe which were activated by SA [redacted] SA [redacted] gave the siren several short blasts. At this time the red vehicle turned right on red and accelerated rapidly.

b6
b7C

Immediately after a stop of the vehicle was authorized, SA [redacted] driver of the second FBI vehicle, noted the lead FBI vehicle, driven by SA [redacted] had its emergency tail strobes on to effect the traffic stop. At approximately the same time, SA [redacted] turned on his emergency lighting system which consisted of a visor light containing red and blue alternating strobes located on the passenger side visor, Wig-Wag headlight beams which alternated right and left, and tail lights that strobe. As the

second FBI vehicle, SA [redacted] did not turn on his siren, nor could he tell from behind whether or not the lead FBI vehicle, driven by SA [redacted] had its siren operating.

After the emergency lighting systems on both SA [redacted] and SA [redacted] vehicles were engaged, the red vehicle made a right turn against the light onto Maryland Route 173 and began to accelerate. SA [redacted] believed at that time, the red vehicle's driver was intending to run. SA [redacted] then broadcasted, "He's hooking." SA [redacted] interpreted this comment to mean that [redacted] was on foot and running from his vehicle. SA [redacted] slowed down and started looking into the woods adjacent to the highway. b6 b7C

SA [redacted] turned right and through the red light at the corner, while trying to pull up along the driver's side of the red vehicle. The red vehicle was accelerating out of the right turn, so SA [redacted] did the same. Based on communications between SA [redacted] vehicle and the lead FBI vehicle, driven by SA [redacted] via the FBI car radio, all SAs in pursuit of the red vehicle believed the red vehicle was attempting to evade the stop.

SA [redacted] the driver of the lead FBI vehicle, positioned his vehicle along the left side of the red vehicle. SA [redacted] positioned his FBI vehicle behind and slightly to the left of the red vehicle. SA [redacted] then attempted to force the red vehicle off to the side of the road in order to effect the felony traffic stop. At this time it was still light outside, turning to dusk. SA [redacted] the passenger in the lead FBI vehicle driven by SA [redacted] made eye contact with the female driver and motioned her to pull over. SA [redacted] was motioning and yelling for the driver of the red car to pull over. SA [redacted] was yelling "Police. Pull over." over and over again through his closed window. He was not wearing any visible insignias the driver could have seen while he was in the car. The female driver of the red vehicle, then pulled off the road on to the shoulder. SA [redacted] told SA [redacted] to stop in front of the red vehicle. SAs [redacted] and [redacted] vehicle stopped just ahead of the red vehicle on the driver's side. The red vehicle was successfully forced to the side of the road and brought to a stop without making any physical contact with it. The location of the stop was Fort Smallwood Road, near its intersection with Marley Neck Blvd. b6 b7C

Immediately after the stop was made, SA [redacted] exited from the front passenger side of the lead FBI vehicle and moved to the front of the red vehicle with his MP-5 rifle pointed at the occupants of the red vehicle. SA [redacted] placed his car in

park, shut off the engine, opened the door, grabbed his MP-5 rifle, and ran behind his car and over to the red vehicle's driver's side door. SA [redacted] attempted to open the driver's door and found it locked. He pounded with his fist on the driver's window, and called out, "FBI . . . Open the door." SA [redacted] heard several SAs on the passenger's side yelling, "Show me your hands." He did not know who was yelling because he did not look up and away from the female driver. SA [redacted] was looking at and concentrating on the female driver, trying to verbally direct her to open the door and come out of the car, when he heard a "pop" sound. He did not know exactly how many seconds transpired between his leaving his car and the "pop" sound. The female screamed and opened her door. As she exited the vehicle, SA [redacted] pushed her in the middle of her back, with the palm of his hand, down on the ground. He instructed her to put her hands above her head.

b6
b7C

SA [redacted] jumped out of the passenger side of the lead FBI vehicle driven by SA [redacted] moving rapidly around the front of the red vehicle and going to the passenger side of the suspect vehicle. He could not recall if the occupants were wearing their seat belts. SA [redacted] was wearing his soft body armor, and was not wearing a raid jacket. He had his FBI badge affixed on the right side of his belt and believed the badge was visible. He was armed with his MP-5 rifle and was focused first on the female driver. SA [redacted] then directed his attention to the male passenger, because he was the most serious threat. SA [redacted] was shouting, "Police! Police! Show me your hands!" from the time he got out of the car to the time he moved around to the passenger side. SA [redacted] never saw either person in the red vehicle raise their hands. SA [redacted] got to the passenger side door and tried opening it utilizing his left hand, but the door was locked. At the time he was attempting to open the door, SA [redacted] was next to him, yelling "show me your hands". SA [redacted] arrived at the passenger door a few seconds after SA [redacted] SA [redacted] took a step to the right and made eye contact with the driver, through the passenger side window. The reason he turned his attention to the driver was because, he did not want the passenger to make any sudden moves. SA [redacted] also knew that SA [redacted] was in position to cover the passenger. SA [redacted] felt the driver was in a better position to unlock the doors. SA [redacted] yelled for her to "unlock the door." SA [redacted] saw the driver's left hand move towards the door. As SA [redacted] was yelling again to the driver to "unlock the door", the passenger window exploded. SA [redacted] saw the passenger move over to the left and his face was covered with glass and blood. The passenger was screaming.

b6
b7C

SA [redacted] looked at SA [redacted] and asked him if he knocked out the window. SA [redacted] did not respond. A short time later it occurred to SA [redacted] that SA [redacted] had shot out the window. From the time SA [redacted] exited his vehicle, to the time SA [redacted] discharged his shoulder weapon, only about five seconds had elapsed. SA [redacted] initially thought the passenger was hit by glass and that he was not shot.

Immediately following the shooting, SA [redacted] opened the passenger door and pulled out the passenger putting him face down on the ground and placing him in handcuffs. SA [redacted] stated he never observed any threat that would have caused him personally, to shoot his weapon. SA [redacted] did not see the passenger make any movements prior to being shot, but at the time the window exploded he was watching the driver. SA [redacted] looked into the passenger side of the car looking for a possible weapon. The only thing he saw was some rolled up clothing on the floor. No other search of the car was made by him. b6 b7C

SA [redacted] was driving the FBI vehicle immediately behind the red vehicle. SA [redacted] was in the passenger seat next to SA [redacted]. Once SA [redacted] stopped his vehicle behind the red vehicle, SA [redacted] observed SA [redacted] exit from the passenger side of SA [redacted] vehicle with his M-4 rifle. SA [redacted] ensured his vehicle was safely stopped by placing the transmission in "Park" and engaging the emergency brake. SA [redacted] began to exit the vehicle through the driver's side door with his M-4 rifle. As SA [redacted] turned momentarily to his left to get out of the car, he heard SA [redacted] identify himself as the "FBI" and SA [redacted] identifying himself as the "Police". Both SAs were yelling at the red vehicle's occupants to "show their hands." SA [redacted] could clearly distinguish between the SA's voices, as SA [redacted] is from North Carolina, and SA [redacted] is from Boston.

While SA [redacted] turned momentarily to his left to exit his vehicle, he heard what he perceived to be the sound of a rifle shot. SA [redacted] estimated the time between his stopping the vehicle and hearing the gunshot was between three and five seconds. SA [redacted] suspected the shot was fired by one of the SAs because he knew they were carrying shoulder weapons. Both SAs [redacted] and [redacted] had their shoulder weapons in positions covering the occupants of the red vehicle. SA [redacted] noted blood in the red vehicle, and observed the white male individual inside moving around and screaming. According to SA [redacted] he had an excellent, unobstructed view of everything in front of him, as his car was parked to the rear of both vehicles. The sun was beginning to set, however, there remained more than adequate natural lighting to see clearly. As SA [redacted] came out of his b6 b7C

vehicle he rounded his driver's door and stood at a slight angle to the left rear of the subject vehicle looking over the front of his vehicle's hood.

After realizing that the subject was injured, SA [redacted] moved to the front of his car, between it and the red vehicle, and instructed SA [redacted] to call 911 to request the dispatch of a medic unit to the scene.

SA [redacted] returned to his FBI vehicle, proceeded to make his M-4 rifle safe, and stowed it in the foot well of the front passenger seat of his FBI vehicle. SA [redacted] retrieved one of his medical bags, and as SA [redacted] turned around to face the red vehicle, noticed SA [redacted] handcuffing the white male who had been in the passenger seat of the red vehicle, and laying him on the ground on his back and left side. b6 b7C

SA [redacted] is a Nationally Registered Emergency Medical Technician - Paramedic (NREMT-P), which is the highest level of certification for pre-hospital health care providers.

SA [redacted] dialed 911 and advised the operator of the emergency situation, and of the fact that they needed EMS. SA [redacted] was providing medical treatment to the male passenger as SA [redacted] spoke to the 911 operator. She asked what was the nature of the injuries. He was unable to answer because he did not know what had happened to the passenger. SA [redacted] did not know if the passenger had been injured by the car glass shattering. He thought the SAs may have broken the window and pulled him out of the car. She agreed to send an ambulance.

While SA [redacted] was on the phone with the 911 operator, Detective [redacted] AACPD, handcuffed the female driver from the red vehicle, while she was laying on the ground. SA [redacted] stated he had no question in his mind that the male laying on the ground was the subject, [redacted] SA [redacted] continued to attend to the female who was crying hysterically. She remained handcuffed and standing near the trunk of the red car. He tried verbally to calm her down. Detective [redacted] took control of the female and removed her from the scene while she remained handcuffed. SA [redacted] returned to his FBI vehicle and unloaded his MP-5 rifle and secured it in the car. It was at that time that SA [redacted] learned from someone, possibly SA [redacted] that the male passenger in the red vehicle was not [redacted] b6 b7C

SA [redacted] approached the injured subject to assess his injuries and render care. SA [redacted] asked SA [redacted] what had happened, in an attempt to determine what type of injury the

individual had sustained. SA [redacted] response to SA [redacted] was "I shot him in the head." SA [redacted] did not ask any additional questions at that time, as SA [redacted] was concentrating on providing the victim with the best possible medical care. b6 b7C

Upon assessing the victim, SA [redacted] discovered he had a gun shot wound to the right side of his face in the area of his cheek. SA [redacted] determined the victim was capable of breathing on his own, and was coherent and talking. During the course of providing care to the victim, SA [redacted] asked him his name. The victim advised his name was [redacted] SA [redacted] was later advised by one of the SAs on the scene that the victim was indeed not identical to bank robbery subject, [redacted] SA [redacted] did not recall which SA provided this information, as his focus was the treatment of the victim. Upon confirmation of the aforementioned fact, SA [redacted] instructed that the victim be uncuffed.

At approximately 6:08 - 6:10 p.m., SA [redacted] arrived at the intersection of Marley Neck Boulevard and Ft. Smallwood Road, and saw SAs [redacted] and [redacted] vehicles stationary on the side of the road. Both FBI vehicles had their emergency lights on. SA [redacted] did not recall whether their sirens were on. The passenger side window of the red vehicle was broken. SA [redacted] did not recall seeing anything else which caught his attention in the interior of the vehicle or whether the radio was on in this vehicle. SA [redacted] saw a female "proned out" (hands and arms extended) on the ground adjacent to the driver's door with SA [redacted] controlling her (He was standing approximately three feet from her right side looking over her). She was silent and appeared frightened. SA [redacted] saw a male laying on his back in the grassy area adjacent to the car and SA [redacted] who had his back towards him, attending and talking to him. The male had blood on his face and when SA [redacted] asked him his name, he responded, "(something) [redacted]" He complained of not being able to breathe through his nose. SA [redacted] told him that it was because he had blood in his nose and advised him to breathe through his mouth. SA [redacted] was unaware that a shot had been fired. b6 b7C

SA [redacted] saw SA [redacted] securing his M-4 rifle (rendering it safe) and placing it in SA [redacted] FBI vehicle. Within moments, Detectives [redacted] and [redacted] SAs [redacted] and [redacted] arrived on the scene. SA [redacted] walked back to his vehicle and one of the detectives asked him whether he wanted them to "start" an ambulance. SA [redacted] and SA [redacted] both told him "yes." Detective [redacted] called the AACPD and requested an ambulance.

Sometime after 6:10 p.m., A/SSRA [redacted] located the red vehicle approximately 100 yards from the intersection of Marley Neck Boulevard and Fort Smallwood Road. He observed the right front passenger window of the subject vehicle was broken and SA [redacted] over the white male subject believed to be [redacted] laying on the ground. A/SSRA [redacted] also observed AACPD Detective [redacted] at the scene.

A/SSRA [redacted] advised that a few minutes after his arrival at the scene, [redacted] pulled up to the scene also. [redacted] saw SA [redacted] at the scene and asked if everything was okay. [redacted] asked SA [redacted] if they had arrested [redacted] SA [redacted] asked [redacted] to come and look at the man who was lying on the ground next to the red vehicle. [redacted] looked at the red vehicle and knew it was not the red HONDA that he had seen [redacted] in earlier. SA [redacted] asked [redacted] if the man on ground was [redacted] informed SA [redacted] that the man was not [redacted] SA [redacted] asked [redacted] if he knew where [redacted] could be located at this time. [redacted] told SA [redacted] to check at [redacted] aunt's home.

b6
b7C

A/SSRA [redacted] advised that he was not aware of the nature or extent of the individual's injuries, therefore, he began to ask questions of the SAs on the scene. He initially went to SA [redacted] who advised A/SSRA [redacted] that he was calling A/ASAC LAYTON to advise him what had happened. He then went over to SA [redacted] and asked him what happened. A/SSRA [redacted] advised that SA [redacted] replied "I shot him." A/SSRA [redacted] asked SA [redacted] once more, What happened?, whereupon SA [redacted] advised that he ordered the subject to get out of the vehicle and he was not compliant. He also noted that the subject was reaching down into the seat and "I shot him." A/SSRA [redacted] then asked SA [redacted] if he was alright, whereupon SA [redacted] did not respond, and was clearly dejected.

A/SSRA [redacted] advised that after he spoke to SA [redacted] he immediately made notification of the shooting to SA [redacted] the Baltimore Division Media Representative.

b6
b7C

Shortly thereafter, uniformed officers from AACPD arrived on the scene. The scene was secured with police tape and someone called the main Baltimore FBI office. There was no contact during the operation with the FBI dispatcher and A/SSRA [redacted] was unaware whether anyone was keeping a log.

Sometimo between 6:10 and 6:15 p.m., EMS arrived at the scene, however they were not advanced life support providers. SA [redacted] inquired whether a medic unit had been dispatched, and was

advised that one was en route to the scene. SA [redacted] care of the victim continued for an additional two to three minutes, after which an Anne Arundel County Paramedic Unit arrived. SA [redacted] advised them of the patient's injuries and condition, and continued to provide care in association with the Anne Arundel County paramedics until the patient was ultimately transferred to the care of a Maryland State Police Helicopter Medivac Unit which transported him to the Maryland Shock Trauma Center.

After the patient was evacuated, SA [redacted] asked SA [redacted] about what had transpired. He advised that the subject had not complied with SA [redacted] and his verbal commands to show his hands, and had instead reached toward his waist on several occasions. SA [redacted] said this action put him in fear for his life as well as that of SA [redacted]. According to SA [redacted] SA [redacted] stated he could see that SA [redacted] was directly in the subject's line of fire, as he, SA [redacted] was positioned in front of SA [redacted]. Therefore, SA [redacted] stated he shot the subject in an attempt to eliminate the threat. b6 b7C

SAs [redacted] and [redacted] went into SA [redacted] car. They went to the car because it was cold and a female detective from AACPD started to ask them questions about what had happened. They each told her who they were and where they were from. SA [redacted] told the detective they did not want to be rude, but wanted to wait until their leadership came on the scene. She said she understood and walked away.

A/ASAC [redacted] was the first member of FBI management to arrive at the shooting incident. A/ASAC [redacted] observed three of the Calverton Agents sitting in a car and he checked on their well-being and informed them not to make any statements or discuss this matter with anyone at this time.

A/ASAC [redacted] asked that SA [redacted] brief him as to what happened. SA [redacted] briefed as follows; SA [redacted] told A/ASAC [redacted] that they had been waiting for a suspect to arrive at a 7-11 store to meet with [redacted]. A man and women matching the description that [redacted] had provided came to the 7-11 store. Based upon the information that [redacted] had provided, SA [redacted] believed that he had located the suspect in a red car as the car was leaving the 7-11 store. SA [redacted] started following the car and eventually got instructions to stop the car. They stopped the car and they were attempting to effect the arrest of the subjects and he heard a shot fired. The passenger was hit by a bullet that SA [redacted] had fired. They got the subject out of the car and SA [redacted] was there to give first aid and they called 911. b6 b7C

A/ASAC [redacted] spoke briefly with SA [redacted] SA [redacted] acknowledged that he fired his weapon and that he shot the subject. A/ASAC [redacted] instructed SA [redacted] not to speak about the shooting.

SAC HUNT arrived at the scene and was briefed by A/ASAC [redacted] A/ASAC [redacted] suggested to SAC HUNT that they allow the AACPD to process the shooting scene and take the vehicle. SAC HUNT met with CAPTAIN [redacted] AACPD, who was in charge of the scene to introduce herself. She then went over to the SAs involved and checked on them to make sure they were okay. b6 b7C

SAC HUNT after determining all the facts available at that time, and walking the crime scene, contacted DAD THOMAS LOCKE, Inspection Division. She again met with CAPTAIN [redacted] and they agreed how the crime scene would be processed. It was agreed that AACPD would take possession of SA [redacted] weapon.

SAC HUNT then discussed with her media representative a statement that the FBI would make to the press. A large number of press had now showed up at the scene.

SAC HUNT then contacted Chief THOMAS SHANNON, AACPD, to touch base with him and to ensure he was comfortable with the plan that had been developed.

SAC HUNT again met with the SAs involved and reemphasized the EAP program and to personally assess each SA's condition. She advised the SAs they would be interviewed in the morning and released them from the scene.

AACPD processed the scene and Baltimore ERT Team Leader, SA [redacted] coordinated with their crime scene team. AACPD maintained possession of all evidence found at the crime scene, including SA [redacted] weapon.

[redacted] the driver of the red vehicle, provided AACPD Detective [redacted] a written statement immediately after the shooting incident. In [redacted] statement to AACPD Detective [redacted] she stated that she and her boyfriend, [redacted] b6 b7C [redacted] were coming from the Marley Station Mall, when they stopped at the 7-11 store at the end of Marley Neck Boulevard for a slurpee and a mountain dew. She was the driver and [redacted] was the passenger. [redacted] went into the 7-11 store and she stayed in her car. They left the 7-11 store and drove down Marley Neck Boulevard to Fort Smallwood Road. At Fort Smallwood Road she turned right. She stated she did not see any cars behind her and did not hear any police sirens or see any police lights.

After turning onto Fort Smallwood Road she saw two men in a cream colored car beside her car. The men were motioning her to pull over. They had guns in their hands so she pulled over. She then saw the men get out of their car and one came over to her window yelling "put your hands up". The other man ran in front of her car and went to the passenger side and pointed his gun at the window towards [redacted] face. She could not remember if she saw anything on the men that identified them as the police or FBI.

She put the car in park and then heard a gunshot and the window shattered. She looked over at [redacted] and saw him holding his face screaming. Prior to hearing the gunshot she heard the men yelling "put your hands up", and she thinks one said "get out of the car". [redacted] had his seat belt on. She then opened the door and two men were yelling for her to get on the ground and pulled her out of the car to the ground. b6 b7C

On 03/02/2002 SAC Lynne Hunt advised IIP [redacted] that SA [redacted] the SA who shot and wounded [redacted], on 03/01/2002, was represented by counsel, and upon the advise of his counsel, would not be giving a voluntary statement at this time.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
07/26/2002
SAN JUAN DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 07/26/2002, involving Special Agents (SAs) [redacted] and [redacted] During a Special Weapons and Tactic (SWAT) Team, Close Quarter Battle (CQB) training exercise, SAs [redacted] and [redacted] were firing shots when a bullet ricocheted and seriously injured SA [redacted] SIRG members recommended that no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in this incident. However, SIRG members had numerous observations and issued numerous recommendations for corrective actions to prevent reoccurrence of this type of incident.

Administrative: [redacted] Reference report of Inspector-in-Place dated 08/28/2002.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

Details of the Shooting Incident

On 07/26/2002, Agents of the San Juan Division were conducting a SWAT Team, CQB training exercise within a Shoot House range at Camp Santiago, Salinas, Puerto Rico.

During the course of training for a two-man entry exercise, SAs [redacted] and [redacted] entered the room after the introduction of a flash-bang device and discharged H&K MP-5 weapons at a stationary target trap. The discharge of the weapons resulted in the ricochet of several rounds off of a desk top, which also appeared to have missed the target trap and ricocheted off the concrete wall immediately behind the target trap. One of the rounds ricocheted upwards toward the catwalk where SA [redacted] was observing and struck him in the right eye. b5 b7C

Sometime between 8:30 a.m. and 9:00 a.m., members of the SWAT Team arrived at the Camp Santiago Shoot House. The team received detailed "talk through" and "walk through" training related to two and four man room entries and clearing techniques. The training was led by SWAT Team Leader (TL) SA [redacted], who provided new operators copies of the SWAT Training Manual pertaining to CQB training. During the "walk through" training the importance of shot placement, weapon discipline, safety and shot accuracy were emphasized to minimize the potential for ricochet dangers. During the training, TL [redacted] advised operators to fully load their MP-5 weapons consisting of 25 rounds of 10mm, Full metal Jacket, "ball" type, ammunition.

After the "walk through" training exercises, a detailed safety briefing was conducted by SA [redacted] the designated Safety Officer. The safety briefing concentrated on identifying the designated ambulance in the event of an injury, EMT personnel, location of the Aid Bag, and air and ground MedEvac plans were coordinated and confirmed. b6 b7C

After the safety briefing conducted by SA [redacted] Assistant SWAT TL SA [redacted] a Certified Firearms Instructor, provided a second briefing regarding the use of live ammunition in the Shoot House and again cautioned participants about potential ricochet danger. All members were instructed to utilize their SWAT gear consisting of a helmet and vest as well as hearing and eye protection.

A final instruction and demonstration regarding the use and safe deployment of a flash-bang device was provided by TL [redacted]. Operators were instructed to leave the Shoot House to allow TL [redacted] to prepare the training room. SA [redacted] designed, participated in, and supervised the arrangement of the room to be used during the exercise which included target/trap placement and the placement of an empty metal file cabinet and an executive style wood desk.

At approximately 11:45 a.m., SA [redacted] selected SAs [redacted] and [redacted] as the first team to perform a two-man entry exercise using live ammunition. Both Agents wore complete SWAT gear and were armed with H&K MP-5 weapons, loaded with 10mm Full Metal Jacket, "ball" type, ammunition and fully loaded sidearms. b6 b7C

After being advised that observers, safety officers, and evaluators were ready, SA [redacted] informed SAs [redacted] and [redacted] that the live fire exercise was ready to begin. He provided each with a practice flash bang device and instructed them to prepare for room entry. Both Agents were asked if they had any questions and both responded in a negative manner. TL [redacted] informed the Agents that on the count down, as previously rehearsed, they were to execute a two-man single room live dynamic entry using the practice flash bang provided.

After the countdown was completed without incident, SAs [redacted] and [redacted] executed the two-man entry. Just prior to the commencing of the live fire drill, SA [redacted] walked south on the catwalk toward the target corner to get a better view of the participants as they delivered the flash bang device. Immediately after the flash bang device was delivered, SA [redacted] turned his head away from the room in order to protect his face and body from the detonation. After the detonation, SA [redacted] turned back around to evaluate the participants.

SAs [redacted] and [redacted] entered the room and began discharging their H&K MP-5 weapons. According to SA [redacted], he recalled looking into the room at the shooters as they were firing and heard two or three shots before being struck in the eye by an object. The force of the impact spun SA [redacted] around forcing him to land in a prone position on his stomach. He realized he had been hit in the right eye, noted the missing right eye piece to his sunglasses and could feel blood running down his face. After a few seconds, SA [redacted] turned SA [redacted] on his back and began to administer first aid and was quickly transported to the first aid station at Camp Santiago. SA [redacted] was carried down to the b6 b7C

evacuation vehicle for transport to the base helicopter pad and evacuated to the Centro Medico Trauma Center.

On 12/03/2002, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Acting Section Chief, Applicant Processing Section, Administrative Services Division; Charles D. Elder, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Firearms Training Unit, Training Division; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; SSA [redacted] Washington Field Office; and SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division. The only nonvoting member present was [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members held a lengthy discussion regarding this incident and unanimously concurred that the injury to SA [redacted] was the result of a myriad of unsafe actions and inattention to rules and regulations by individuals participating in the exercise. These actions include, but are not limited to, no contact by the FBI with the National Guard regarding the use of the shoot house; no red flag hoisted indicating that the shoot house was in use; observers were located in the line of fire; furniture was placed in the room in direct violation of Standard Operating Procedures

(SOPs) established by the military, as well as the neglect of SA [redacted] to utilize appropriate helmet and goggles during the exercise. These issues resulted in the issuance of numerous recommendations by SIRG members.

Arrangements for use of the shoot house were made prior to the day of the incident through Major [redacted] and Sergeant [redacted] of Company C, 3rd Battalion, 7th Special Forces Group. The Puerto Rico Army National Guard has responsibility for the ranges at Camp Santiago and utilize SOPs prepared by the Special Forces Group. According to an individual of the Puerto Rico National Guard, use of the shooting house required contact with the National Guard Range Control. Once approval is granted for use of a facility, users are required to get a safety briefing at Range Control who subsequently provide a flag to be displayed at the range being utilized. Additionally, the entity utilizing the range would be required to have a person present at Range Control with radio communication capability to facilitate communication between Range Control and the users at the range. b6 b7C

Although TL [redacted] consulted with the Special Forces Group regarding the use of the shooting house, proper coordination with the National Guard was not accomplished. Therefore, no red flag was hoisted indicating that the shoot house was in use.

TL [redacted] designed, participated and supervised the arrangement of the room to be used during the exercise. The arrangement included target/trap placement and the placement of an empty metal file cabinet and an executive style wood desk. The placement of the desk obscured at least half the target from the view of the shooters. b6 b7C

It should be noted that a review of the SOPs for using the shoot house regarding CQB Safety specifically address required safety equipment as well as the instruction that no furniture will be positioned where it may mask an assaulter. Additionally, SA [redacted] admitted that prior to 07/26/2002, he had never seen a copy of the SOPs for the shoot house nor had he requested information regarding a risk assessment on the shooting house. According to SA [redacted] it never occurred to him to do his own risk assessment. He also advised that the Special Forces Group never advised him to avoid using furniture to obstruct targets and that the

prohibition against placing furniture in front of targets would have been important information and would have influenced his decisions regarding the use of the house.

This discussion led to the issuance of three recommendations for the Critical Incident Response Group (CIRG). Members opined that the CIRG should review established protocols for shoot houses and reiterate to all offices proper procedures for using shoot houses; conduct an onsite review of the San Juan SWAT Program and report lessons learned to all offices to prevent this type of occurrence in the future; and that the role and responsibility of the SWAT Coordinator and SWAT Advisor be clarified and documented.

The next area of discussion pertained to TL [redacted] SIRG members discussed the possibility of a candor issue as well as SA [redacted] disobeying a direct order made by Assistant Special Agent in Charge Jose E. Figueroa.

According to SA [redacted] the Friday before the shooting incident, he and SA [redacted] met with [redacted] and [redacted] Initially SA [redacted] advised that he asked Major [redacted] if the FBI could use the range the following Friday. He then advised that he couldn't recall whether he asked about using the range. Later in the conversation, SA [redacted] advised that he did recall asking the Major if they could use the range but could not remember Major [redacted] response, if anything. When advised by the interviewing Agents that Major [redacted] said he informed SA [redacted] that he could use the range but not for live fire, SA [redacted] denied that was the case. When asked what was said regarding the use of the shooting house and live fire, SA [redacted] could not recall. SIRG members recommended that further inquiry of this incident be conducted by the Office of Professional Responsibility (OPR) to confirm that this incident occurred as described by SA [redacted]

b6
b7C

Another issue related to SA [redacted] disobeying an order of ASAC Figueroa. According to ASAC Figueroa, on the afternoon of the incident, while at the hospital with SA [redacted] he told the SWAT members present, including SA [redacted] not to discuss the shooting until they had provided statements to the Bureau pursuant to shooting inquiry policy.

According to SA [redacted] on the Tuesday after the incident, he and SA [redacted] met with Major [redacted] and Colonel Cruz at Camp Santiago to discuss the incident.

According to SA [redacted] on the Monday after the shooting, SA [redacted] asked him to accompany him to a meeting at Camp Santiago because the Camp Safety Officer wanted to know what happened. SA [redacted] explained to SA [redacted] that FBI management wanted to protect the relationship with the military.

ASAC Figueroa advised that SA [redacted] did not ask him for authority to talk to Army National Guard or Special Forces personnel about the shooting. When confronted with the information provided by ASAC Figueroa, SA [redacted] stated that he told ASAC Figueroa the Army wanted to talk to him about the shooting and that the ASAC had given him authority to meet with them.

At the conclusion of the interview with SA [redacted] on 08/20/2002, he was directed to refrain from discussing any of the matters with anyone involved until the inquiry was concluded. Upon questioning, SA [redacted] admitted he had already talked to SA [redacted] about how to respond to questions regarding a meeting previously held with [redacted] He acknowledged he was purportedly taking a break from the interview to use the restroom. SA [redacted] further admitted that he asked to take the break in order to contact SA [redacted] who had just been interviewed by Inspectors and wanted to advise SA [redacted] that there was an issue with [redacted]

b6
b7C

Additionally, a review of SA [redacted] FD-302 dated 08/20/2002, identified several areas in which there existed a perceived lack of candor on his part. These issues dealt with him not being told that he should not place furniture in front of a target, an issue with the safety of using the shooting house, and, although not intentional, a deceptive response when advised by [redacted] that they could use the house as long as he had a copy of the SOP and a medical evacuation plan. All of these issues in totality resulted in the recommendation that further inquiry of this incident be conducted by the OPR regarding possible lack of candor on SA [redacted] part as well as his neglect in complying with ASAC Figueroa's instruction regarding further discussion of the incident.

The next area of discussion by SIRG members pertained to the performance of Supervisory Special Agent (SSA) [redacted] in his role as the SWAT Advisor for the San Juan Division. SSA [redacted] was appointed as the SWAT Advisor on 04/22/2002 by then SAC Marlene Hunter.

b6
b7C

On the day of the incident, SSA [redacted] observed the SWAT training conducted at the shooting house. After the safety briefing, the order to "gear up" was given. Both SSA [redacted] and

SA [redacted] were positioned on the cat walks above the target room in order to observe the exercise. Neither was wearing appropriate head gear and this was brought to the attention of SA [redacted] who elected not to wear his helmet. These actions resulted in the belief by SIRG members that as the SWAT Advisor, SSA [redacted] did not use good judgement regarding his safety and well as that of SA [redacted]

According to SSA [redacted] no duties or responsibilities of the SWAT Advisor had been articulated or documented. SSRA [redacted] advised that he had discussed his role on several occasions with former SAC Hunter to clarify what was expected of him and felt that the expectations were vague and non-specific. SSA [redacted] advised that since his assignment as SWAT Advisor he was advised by TL [redacted] when and what type of training is scheduled. It was SSA [redacted] belief that his role with the SWAT Team was not to be a supervisory role with attendant responsibilities based upon his review of the MIOG and his communication with the SAC. This discussion resulted in the recommendation that the SAC of CIRG clarify and document the role and responsibilities of the SWAT Coordinator and SWAT Advisor positions and advise all offices.

b6
b7C

The last issue discussed regarding the incident evolved around SA [redacted] decision not to utilize a Kevlar helmet or appropriate eye protection as required by the SOPs regarding CQB activities.

According to SA [redacted] he was wearing Bolle sunglasses at the time of the accident. He stated that he had purchased high quality, double pane, goggles but did not elect to wear them at the session. Additionally, SA [redacted] decided to not wear his helmet because he feared errant rounds traveling up from the shooting area could be trapped in his helmet and cause additional damage to his head. As stated previously, an Agent specifically addressed the issue of SA [redacted] not wearing his kevlar helmet with him. Again, SA [redacted] responded that in the event of a bullet strike he preferred if the bullet exited clean without striking the inside of the helmet and possibly ricocheting back into his head. This discussion led to the recommendation that the SAC of the San Juan Division remind all Special Agents to utilize available protective gear when appropriate. This matter will be brought to the attention of the SAC.

b6
b7C

LEAD(s):

Set Lead 1:

INSPECTION

AT WASHINGTON, DC

That no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in this shooting incident.

b6
b7C

Set Lead 2:

CRITICAL INCIDENT RESPONSE GROUP

AT QUANTICO, VA

That the SAC, CIRG, review established protocol regarding the use of shoot houses and reiterate this protocol to all field offices.

Set Lead 3:

CRITICAL INCIDENT RESPONSE GROUP

AT QUANTICO, VA

That SAC, CIRG, conduct an onsite review of the San Juan Division SWAT Program.

Set Lead 4:

CRITICAL INCIDENT RESPONSE GROUP

AT QUANTICO, VA

That SAC, CIRG, clarify and document the role and responsibilities of the SWAT Coordinator and SWAT Advisor positions and advise all offices.

Re: 297-HQ-A1270951-D, 12/04/2003

**Details of the Shooting Incident**

On Wednesday, 02/20/2002, at approximately 9:42 a.m., a lone, unidentified white male entered the Allfirst Bank in Pasadena, Maryland, approached a bank teller and yelled words to the effect, "Get down on the floor". All bank employees complied with the robber's commands. As the bank robber displayed a pistol to one bank teller's face, she complied with his command to give money. The bank robber, continuing to display the pistol, moved to another teller and shouted words to the effect, "Give me your money. You've got ten seconds or I'll blow your fuckin' brains out". The second teller also complied with the robber's demand for money. After obtaining money from both tellers, the armed robber exited the front door of the bank. Witnesses observed the robber get into the passenger seat of a dark green, Ford Ranger, truck with lettering, "Bonded and insured [redacted]" on the side. The truck was subsequently recovered by officers of the Anne Arundel County Police Department (AACPD).

SA [redacted] of the Annapolis Resident Agency (ARA) was assigned as the case Agent for the bank robbery. On 02/20/2002, SA [redacted] interviewed the owner of the truck used by the bank robber, and was advised that he loaned the truck to his neighbor on the evening of 02/19/2002. It was subsequently determined that someone had removed the truck from its parking place.

On 02/26/2002, SA [redacted] was contacted by a Detective of the AACPD who advised that he received information that [redacted] had recently robbed a bank in Pasadena. The Detective also advised that [redacted] was a crack and heroin addict who had recently been released from jail. Information was also received that an individual known as [redacted] (last name unknown) was involved in the bank robbery. b6 b7C

Based on the information received by SA [redacted] he obtained a photograph of [redacted] as well as the bank surveillance photographs. SA [redacted] showed the photographs to four individuals and all of them believed that the subject in the bank surveillance photographs was indeed [redacted] SA [redacted] also received information regarding [redacted] current residence, the fact that he had not worked on 02/20/2002, and he was not home on the evening of 02/19/2002. Additionally, SA [redacted] was advised that a [redacted] b6 b7C b7D

On 03/01/2002, at approximately 12:07 a.m., SA [redacted] was advised that [redacted] had returned to his room with a girlfriend. Information was also received that [redacted] admitted to an acquaintance that he had committed a felony. When asked if he had robbed a bank, [redacted] stated, "No, [redacted] did. I drove the getaway car". [redacted] subsequently received a phone call and was advised the FBI was looking for him.

Between 8:15 a.m. and 9:00 a.m., SA [redacted] received a phone call from [redacted] the individual previously identified as being the bank robber. SA [redacted] recognized the caller's voice as belonging to an individual known as [redacted] who he previously arrested for bank robbery. During his conversation with SA [redacted] admitted knowing [redacted] but denied any involvement in any crimes with him. [redacted] advised SA [redacted] that he was not going to say anything else and stated that he would contact SA [redacted] later, possibly with an attorney. b6 b7C

SA [redacted] contacted an Assistant United States Attorney (AUSA) and described the events that had taken place. The AUSA advised an arrest warrant for [redacted] would be signed later that afternoon.

Later that day, SA [redacted] received additional information from an acquaintance of [redacted] (hereafter referred to as source). [redacted] He also advised [redacted] had heard that the FBI was looking for him and he was going to flee. The source also stated [redacted] was sounding hysterical, crying and heaving, and was an emotional mess. It was also believed that [redacted] might be suicidal because he had previously stated that he would not go back to prison.

SA [redacted] placed another telephone call to the AUSA handling the case, conveying the earlier conversation he had with the source. The AUSA agreed on the exigent circumstances and authorized the arrest of [redacted] at the planned meeting later that day.

SA [redacted] contacted Acting Supervisory Special Resident Agent (A/SSRA) [redacted] regarding the exigency of the situation and the need to execute an arrest. He also advised of his conversation with the AUSA and the fact that based upon review of an NCIC printout and source information, [redacted] was believed to be Armed and Dangerous, a crack head and heroin addict, and there was strong evidence that he might flee the area. b6 b7C b7D

A/SSRA [redacted] agreed to go ahead with the arrest and contacted Acting Assistant Special Agent in Charge (A/ASAC) [redacted] advising him of the situation and requested additional Agents to assist with the arrest. A/ASAC [redacted] requested that an Operations Plan be facsimiled to him as well as his completed affidavit. A/ASAC [redacted] advised A/SSRA [redacted] that he would send five additional Agents to assist and to attend the briefing at the ARA. A/SSRA [redacted] received specific instructions to ensure that all Agents participating in the operation received a complete briefing. A/SSRA [redacted] also advised A/ASAC [redacted] that an Operations Plan would be prepared and forwarded to him via facsimile. b6 b7C

A short time later, A/ASAC [redacted] received another telephone call from A/SSRA [redacted] and SA [redacted] who provided additional details regarding the operation. SA [redacted] advised that the source would be talking to [redacted] around 4:00 p.m., and that there was a good possibility that he would lead the Agents to [redacted]. A/ASAC [redacted] advised A/SSRA [redacted] that he had verbal approval for the operation, however, he needed a copy of the Operations Plan facsimiled to him prior to the Agents going out.

Five Agents were notified and instructed to attend the 3:00 p.m., arrest briefing in the ARA. SA [redacted] prepared a handwritten information sheet for distribution to the Agents participating in the surveillance/arrest. The sheet included a photograph of [redacted] a brief physical description, and a description of vehicles used by him. SA [redacted] also prepared a handwritten Operations Plan attaching the arrest affidavit as well as an NCIC report regarding [redacted] These documents were also provided to A/SSRA [redacted]

The arrest was planned to be a static event when the [redacted] the plan called for both individuals to be arrested. SA [redacted] left the building and conducted a radio check with the ARA while in his Bureau vehicle. b6 b7C b7D

During the arrest briefing, participants were advised [redacted] in Glen Burnie, Maryland. Also discussed at the briefing was the possibility of a stationary vehicle arrest. The plan noted that in the event a positive identification of [redacted] was made, the team would block his vehicle and effect the arrest. Specific duties of arrest team members, including the identification of a specific signal once a positive identification

was made of [redacted] were not made due to the uncertainty of the situation. No specific individual was designated the responsibility of positively identifying the suspect and no formal designation of a team leader was made. Arrest team members were advised that AACPD Detectives would be assisting in the operation.

Arrest team members were subsequently notified that the meeting would likely take place in the vicinity of the Sun Valley Shopping Center. At approximately 4:00 p.m., the source contacted SA [redacted] and advised that [redacted] Immediately following his conversation with the source, SA [redacted] received a phone call from [redacted] asking what was going on. [redacted] advised him that nothing was going on and he was going home. SA [redacted]

b6
b7C
b7D

The source again called SA [redacted] and advised that [redacted] Information was provided that the driver of the vehicle could be [redacted] who was with [redacted] the night before. [redacted] was described as having short, red hair. Additionally, information was provided that [redacted] usually wore a white baseball cap.

SA [redacted] contacted SA [redacted] via Nextel and advised of the intended location for the meeting with [redacted] SA [redacted] then transmitted the meeting location information over the FBI radio. SA [redacted] advised participants that [redacted] was being driven in a car by a possible redheaded, white female.

b6
b7C
b7D

Between 5:15 and 5:30 p.m., SA [redacted] reported that the [redacted] in the vicinity of Glen Burnie.

[redacted] As he pulled up to the [redacted] he observed [redacted] in a red Honda Civic being driven by the subject's sister. [redacted] SA [redacted] by phone, however his cell phone went dead. [redacted] vehicle did not return to the convenience store.

SA [redacted] observed the [redacted] At approximately 5:50 p.m., SAs [redacted] and [redacted] observed a late model, red vehicle (subsequently identified as a Pontiac Grand Am) drive into the 7-11 store parking lot. SA [redacted] radioed that a red vehicle had just [redacted] SA [redacted] observed a white male wearing a white baseball cap exit the passenger side front seat of the vehicle and enter the store. The subject stayed in the store for two to three minutes and appeared to meet [redacted] before exiting the store and re-entering the red vehicle. SA [redacted] concluded that the subject had possibly [redacted] due to his observing them in close proximity to each other within the store and appearing to have had contact. b6 b7C b7D

SAs [redacted] and [redacted] indicated they could see the red vehicle and from their vantage point across the street, it appeared as though the white male passenger fit the physical description of [redacted] According to SA [redacted] this assumption was made because the passenger appeared to be a white male, approximately the same height, weight, and age as [redacted] and was wearing a baseball cap, as was his habit. The Agents could not see the driver of the vehicle, however, advised SA [redacted] of the presence of the vehicle and its occupants and requested that he make an attempt to observe the driver. As SAs [redacted] and [redacted] began to move in the direction of the 7-11, they heard over the radio that the subject was in a "red car". They observed a red car and its occupants exiting the west entrance/exit of the store parking lot. The vehicle was driven by a red-haired, white female. The passenger was a white male wearing a white baseball cap. SA [redacted] heard someone call out over the radio, "Follow the red car...don't loose it".

[redacted] notify the FBI and tell them [redacted] was a passenger in a red Honda located in the vicinity of the 7-11 store at Route 648 and Marley Neck Road. Two AACPD Detectives received a call on the radio that [redacted] and a subject they were looking for was driving around a 7-11 store in a small red car. One of the detectives immediately phoned the dispatcher to obtain additional information about the caller. The dispatcher advised that she had received a 911 call [redacted] and "the bad guy...the one you're looking for, just drove by the 7-11 in a red b6 b7C b7D

Honda driven by his sister." While the detective was on the phone with the dispatcher, SA [redacted] contacted the detectives over the radio and told them the subject was in a red car traveling north on 648.

SA [redacted] did not report any positive contact with the source nor did he receive positive confirmation that [redacted] had been at the 7-11 store. However, SA [redacted] was convinced that [redacted] was probably in the red car which had been parked adjacent to the source's truck at the 7-11 store, that the vehicle was moving on Highway 648 northbound, and that it needed to be followed.

b6
b7C

SA [redacted] advised the red vehicle was exiting the 7-11 store parking lot and was turning right on Marley Neck Boulevard. SAs [redacted] and [redacted] advised SA [redacted] via Nextel to follow the red vehicle. According to SA [redacted] he also advised they did not know who was in the car.

SAs [redacted] and [redacted] were temporarily prevented from following the red vehicle due to traffic, however, a short time later joined the lead FBI vehicle who was following the red car. SA [redacted] radioed that the subject vehicle was approaching a red light and moments later advised that the vehicle was at the red light. He also asked if a vehicle stop should be initiated. SA [redacted] responded, "Yes, go ahead if you think you can".

The subject vehicle was stopped at the red light with its brake lights on. SA [redacted] pulled up behind the vehicle, placed the red and blue visor emergency light into the down position, and activated the emergency lights. As the emergency lights were activated and SA [redacted] reached for his siren, it appeared the driver of the vehicle was responding by releasing the car brakes and turning right on the red traffic light. SA [redacted] advised SA [redacted] to activate the Wig Wag headlights, the visor strobe and the siren. As SA [redacted] gave the siren several short blasts, the red vehicle turned right on red and rapidly accelerated. Believing the subject vehicle was attempting to evade the stop, SA [redacted] positioned his vehicle along the left side of the vehicle while SA [redacted] positioned his vehicle behind and slightly to the left of the subject vehicle. SA [redacted] attempted to force the red vehicle to the side of the road in order to effect the traffic stop. SA [redacted] made eye contact with the female driver of the subject vehicle and motioned for her to pull over. He yelled, "Police. Pull over", several times through his closed window. The female pulled onto the shoulder of the road. SA [redacted] exited from the front passenger side of the lead FBI vehicle and

b6
b7C

moved to the front of the red vehicle with his MP-5 rifle pointed at the occupants of the subject vehicle. SA [redacted] retrieved his MP-5 rifle and ran to the driver's side door of the subject vehicle and attempted to open the locked driver's door. He pounded on the driver's window and called out, "FBI... Open the door". He also heard several Agents on the passenger's side yelling, "Show me your hands". SA [redacted] was concentrating on the driver, attempting to verbally direct her to open the door and exit the vehicle, when he heard a "pop" sound. The female screamed and opened her door. As she exited the vehicle, SA [redacted] using the palm of his hand, pushed her in the middle of the back down on the ground and instructed her to put her hands above her head. b6 b7C

SA [redacted] exited his vehicle and proceeded around the front of the subject vehicle to the passenger side. SA [redacted] was shouting, "Police! Police! Show me your hands!" from the time he exited his vehicle until he reached the passenger side of the vehicle. According to SA [redacted] he never saw either person in the red vehicle raise their hands. He attempted to open the passenger side door, however, it was locked. As his attempt to open the door failed, SA [redacted] heard SA [redacted] yelling, "show me your hands".

Prior to SA [redacted] making contact with the female driver, SA [redacted] stepped to the right and made eye contact with her through the passenger side window. SA [redacted] was aware that SA [redacted] was in position to cover the passenger and believed the driver was in a better position to unlock the vehicle doors. SA [redacted] yelled for her to "unlock the door". As he saw the driver's left hand move towards the door, SA [redacted] again yelled to the driver to unlock the door. As he was yelling for the driver to unlock the door, the passenger window exploded. SA [redacted] saw the passenger move over to the left and his face was covered with glass and blood.

Immediately following the shooting, SA [redacted] opened the passenger door, pulled out the passenger, put him face down on the ground, and placed him in handcuffs. SA [redacted] a Nationally Registered Emergency Medical Technician - Paramedic, provided medical treatment to the male passenger while awaiting the arrival of an ambulance. During the course of providing care to the victim, SA [redacted] asked him his name. The victim advised his name was [redacted] SA [redacted] was advised by one of the Agents on the scene that the victim was not identical to bank robbery subject [redacted] Upon confirmation of this information, SA [redacted] instructed that the victim be uncuffed. b6 b7C

After the patient was evacuated, SA [redacted] asked SA [redacted] what had transpired. According to SA [redacted] the subject did not comply with his and SA [redacted] verbal commands to show his hands and had reached toward his waist on several occasions. SA [redacted] advised that these actions put him in fear for his life as well as that of SA [redacted] therefore he shot the subject in an attempt to eliminate the threat.

b6
b7C

A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, on 06/11/2003, regarding SA [redacted] actions in this shooting incident. On 07/02/2002, a grand jury decided not to indict SA [redacted] regarding his actions during this shooting incident.

On 10/15/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Steven C. McCraw, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge [redacted] Investigations Division, Office of Inspector General, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Assistant Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief (UC), Physical Surveillance Unit, Counterintelligence Division; [redacted] UC, National Firearms Program, Training Division (TD); [redacted] UC, Investigative Law Unit, Office of the General Counsel (OGC); [redacted] UC, Firearms Training Unit, Training Division; [redacted] Program Manager, Operational Skills Unit, TD; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Investigative Law Unit, OGC; and SSA [redacted] Washington Field Office. The three non-voting members present were SSA [redacted] Operational Skills Unit, TD; [redacted] and [redacted] Management/Program Analysts, Inspection Management Unit, Office of Inspections, Inspection Division.

To: Inspection From: Inspection
Re: 297-HQ-A1270951-D, 12/04/2003

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

The first area of discussion by the SIRG pertained to the use of deadly force by SA [redacted] Members discussed the fact that the incident involved a high risk vehicle stop and that the totality of circumstances surrounding the incident resulted in the use of deadly force by SA [redacted] With the exception of one attendee who stated that after reviewing the information provided, he could not visualize the presence of "imminent danger" to law enforcement officers, members concurred that the use of deadly force was justified. The final decision by the majority of the SIRG members was that SA [redacted] was justified in his use of deadly force and that no administrative action should be taken against him as a result of his involvement in this shooting incident. b6 b7C

The next area of discussion centered around the operations plan, management oversight and training or safety issues. Members unanimously opined that the operations plan as well as management oversight provided was adequate in this incident. However, members held a lengthy discussion regarding felony car stops.

Areas of discussion included the actual execution of a felony car stop as being a "high risk" action. The following should be considered when conducting a high risk car stop: 1) Attempt to make a compliant stop with contingencies in place if the compliant stop fails and 2) Agents should maximize the use of cover at the initiation of the stop and should only leave cover in the most extreme circumstances. SIRG members noted that Agents participating in the car stop did not utilize cover electing instead to run towards the subject vehicle. Participants recognized that Agents must assess each situation and determine the proper tactical response, bearing in mind that safety is paramount. The attendee representing the Operational Skills Unit of the Training Division advised SIRG members that tactical training is required for Agents (MIOG Part 2, Section 12, 10.8-10.12);

however, felony car stops are not specifically required as part of the training. This discussion resulted in a recommendation that the Training Division mandate that felony car stops are a portion of required tactical training.

Members also noted that differing instructions were simultaneously being voiced by Agents on the scene. Members opined that training dictates that one individual should be the speaker and issue commands. The Training Division representative advised that this is a part of the current tactical training.

The SIRG opined that through training and the re-enforcement of established tactical principles, the needless risk of exposure to injury may be reduced.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
09/12/2002
EL PASO DIVISION

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 09/12/2002, involving Special Agent (SA) [redacted] SA [redacted] discharged one round from his Bureau issued Glock Model 23, 40 caliber pistol at an individual who was about to throw a large rock at him and who was part of a large group of individuals that assaulted and severely wounded two other El Paso Division Agents. SIRG members recommended that no action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference report of Supervisory Special Agent (SSA) [redacted] dated 11/08/2002.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

Details of the Shooting Incident

On 09/12/2002, members of the FBI Special Weapons and Tactics (SWAT) Team, United States Customs Service, Union Pacific Railroad Police Department and the United States Border Patrol were involved in an operation to attempt to apprehend train robbers and train wreckers. As part of the operation, officials from the Republic of Mexico Customs and the Juarez Municipal Police agreed to provide assistance to law enforcement officials by apprehending any Mexican Nationals fleeing from U.S. law enforcement officials as they attempted to illegally re-enter Mexico.

Officers and Agents were positioned throughout the area, including positions on the train cars approximately 500 yards apart. At approximately 8:24 p.m., an eastbound train on the Union Pacific Railroad tracks began stopping and seven unidentified individuals were seen running from the south side in single file and illegally crossing into the U.S. through a hole in the fence separating the U.S. from Mexico. Additional individuals were also observed heading toward the fence and after crossing into the U.S., the individuals approached the stopped train. Several individuals boarded the train, while others walked down the length of the train to other cars.

As the train stopped, an individual boarded the top part of a train car containing three Agents. As the subject walked across the top portion of the train car, he was pulled into the well by SA [redacted] and apprehended. As additional individuals attempted to board the train and Agents attempted to effect arrests, the individuals as well as two of the Agents disembarked from the train.

As SA [redacted] disembarked from the train, she observed and pursued a male toward the hole in the fence. She grabbed the subject as he approached the fence, however he escaped her hold. SA [redacted] apprehended the subject again on the south side of the fence and as she handcuffed the subject they slid down the north side of the arroyo. SA [redacted] advised that a large group of people had gathered at the top of the south side of the arroyo and were throwing large rocks, sticks and bricks at her in an attempt to free the subject in her custody. SA [redacted] was struck by numerous rocks and sticks and as she was attempting to move the subject up the north side of the arroyo, she was struck in the head by a brick causing significant head trauma. As SA [redacted] attempted to reach SA [redacted] and provide assistance in the arrest, he was struck in the head by a large rock or brick. As both Agents moved the subject toward the fence, SA [redacted] was struck in the back of the head with a club. b6 b7C

As SA [redacted] straddled a subject he had arrested and was maintaining a crouching position in order to prevent the subject's escape and to minimize his profile behind a bush, he

observed the silhouette of an individual and gestured for the individual to come to his location. The individual stopped then fled through the opening in the fence. Shortly thereafter, while in the same position, SA [redacted] observed the silhouette of another individual approach the hole in the fence from the South side and recognized the individual as SA [redacted] who was bleeding from the face area.

Simultaneously, as SA [redacted] struggled with her subject, she was repeatedly struck with a baseball bat and severely beaten. As two of the subjects escaped, SA [redacted] crawled to the top of the arroyo and through the fence. As SA [redacted] rose to his knees to communicate with SA [redacted] the subject in SA [redacted] custody escaped and ran towards the fence opening. As SA [redacted] regained control of the subject he was struck in the back by a large rock. SA [redacted] observed approximately one dozen individuals approaching the fence opening who were yelling and throwing rocks and sand. Fearing for his life and that of his two incapacitated team members, SA [redacted] drew his pistol and aimed in at the group outside the fence opening. Observing a male subject preparing to throw a rock at him, SA [redacted] aimed his pistol at the man and fired one round. As the shot was fired, the group immediately fled the fence opening in an attempt to return to Mexico. Mexican officials arrested several of the subjects as the injured Agents were evacuated from the scene for medical assistance.

b6
b7C

Interviews of individuals on the scene failed to indicate any injuries or property damage resulting from the shot fired by SA [redacted]

On 12/03/2002, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Acting Section Chief, Applicant Processing Section, Administrative Services Division; Charles D. Elder, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted], Unit Chief, Firearms Training Unit, Training Division; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; SSA [redacted] Washington Field Office; and SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division. The only nonvoting member present was [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

The SIRG Chairperson emphasized to SIRG members that the focus of the discussion would strictly pertain to the shot fired by SA [redacted] and no other issues related to the planning or actions of individuals during the incident. It was explained to the group that an investigation had been conducted by the Criminal Investigative Division, FBIHQ, regarding all other aspects of the incident and no further review was appropriate. b6 b7C

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

SHOOTING INCIDENT
12/03/2002
CHICAGO DIVISION

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 12/03/2002, involving Special Agent (SA) [redacted] SA [redacted] shot and killed a subject who entered his home and was non-compliant when instructed to surrender. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: [redacted] Reference report of Inspector-in-Place dated 12/20/2002.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271285-D, 06/12/2003

Details of the Shooting Incident

On 12/03/2002, at approximately 11:50 p.m., SA [redacted] and his spouse were asleep in an upstairs bedroom of their residence when they were awakened by the barking of their dog and loud banging noises originating from the first floor.

SA [redacted] retrieved his Bureau-issued Glock Model 22, .40 caliber pistol and a flashlight and proceeded to a landing of the staircase. As he observed an intruder, later identified as John Flahive, in the downstairs living room, SA [redacted] focused his flashlight on the intruder and yelled out, "FBI, get your hands up". Flahive turned to face SA [redacted] holding a knapsack in one hand while his other hand remained out of sight. b6 b7C

SA [redacted] repeated his command to the subject several times to raise his hands, but Flahive remained non-compliant. SA [redacted] shined his flashlight on his handgun to show the subject that he was armed; however, Flahive ignored SA [redacted] and took a step towards the staircase where SA [redacted] was standing. SA [redacted] quickly repeated twice, "Get your hands up". When the subject refused to comply, SA [redacted] fired one shot striking Flahive in the torso, causing him to fall on his stomach. Flahive moved his left hand toward his stomach prompting SA [redacted] to yell, "Get your hands where I can see them". The suspect complied with SA [redacted] command.

Police and Emergency Medical Service were called and Flahive was transported to a Berwyn, Illinois, hospital where four surgeries were performed prior to his death on 12/06/2002.

On 12/18/2002, the Berwyn Police Department issued a report outlining a declination of prosecution by the State's Attorney. On 04/21/2003, a declination of prosecution was issued by the United States Department of Justice, Civil Rights Division.

On 05/08/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Glenn Powell, Investigations Division, Office of Inspector General, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; b6 b7C

Robert K. Cromwell, Section Chief, Applicant Processing Section, Administrative Services Division; Jay C. Manning, Section Chief, CD-6, Counterintelligence Division; [redacted], Acting Section Chief, Operational Support Section, Criminal Investigative Division [redacted] Unit Chief, Operational Skills Unit, Training Division; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Investigative Law Unit, Office of the General Counsel; SSA [redacted] Washington Field Office; and SSA [redacted] Firearms Training Unit, Training Division. The only non-voting member present was [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in compliance with the deadly force policy.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
11/30/2002
DENVER DIVISION

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 11/30/2002, involving Special Agent (SA) [redacted] SA [redacted] fired five rounds from his personally owned, Bureau approved, Glock Model 27, 40 caliber pistol, injuring an individual believed to be involved in a kidnaping. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference report of Inspector-in-Place [redacted] dated 12/05/2002.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

Details of the Shooting Incident

At approximately 11:00 p.m., on 11/30/2002, SA [redacted] assigned to the Colorado Springs Resident Agency, was en route to his residence in his personally owned vehicle. Deciding to purchase gas for his vehicle, SA [redacted] turned into an entry drive adjacent to a gas station. As he was making the turn, SA [redacted] observed a male and female arguing and physically struggling with each other behind a parked vehicle. As he approached their location, SA [redacted] lowered the window of his vehicle in an attempt to determine the nature of the problem. The woman yelled to SA [redacted] "Help me, help me!" SA [redacted] stopped and exited his vehicle and approached the individuals. As he approached, the male grabbed the female and forced her to the driver's side of a parked vehicle, out of SA [redacted] sight. SA [redacted] continued to approach the individuals and drew his pistol, chambered a round and held the pistol close to his side. The male subject grabbed the female around the neck and held her between himself and SA [redacted] SA [redacted] stated he was an FBI Agent and told both individuals to calm down and tell him what was going on. The male subject demanded proof of SA [redacted] identity and when SA [redacted] displayed his FBI credentials, the subject seemed to become further agitated.

b6
b7C

SA [redacted] removed his cellular telephone from his waistband and called 911. He advised the dispatcher that he was an FBI Agent and needed backup at his location. The male suspect advanced on SA [redacted] while still holding the female as a shield and stated, "Shoot me, shoot me". The subject also stated that SA [redacted] would not be able to shoot him because he was holding the woman as a shield. Both individuals advanced closer to SA [redacted] forcing him to back away while holding his pistol closer to his body and extending his left arm to keep the two individuals away from him.

At that time, according to witnesses on the scene, the male pulled the woman toward the parked vehicle. SA [redacted] stated that the female said, "Help me. Don't let him take me". The male subject put the woman into the vehicle through the driver's side back door and SA [redacted] advised that the female continued pleading for help. Believing that the woman was being kidnaped or the victim of a carjacking, SA [redacted] attempted to stop the male subject from getting into the vehicle by engaging in a physical altercation. The subject eventually entered the driver's seat of the vehicle with SA [redacted] continuing to struggle with him in an attempt to prevent him from inserting the keys in the ignition of the vehicle. The subject began driving forward and SA [redacted] backed away to avoid being struck by the vehicle. Deciding that he was unable to give chase in his personal vehicle, SA [redacted] decided to shoot the subject in an attempt to stop him from fleeing with the victim. Seeing the shape of the driver's head through the tinted

b6
b7C

rear window of the vehicle, SA [redacted] aimed and fired five rounds at the driver's position. The vehicle stopped and the male subject exited the driver's door and fell to the ground. In response to a call from the 911 dispatcher, SA [redacted] advised that shots were fired, one person was shot, and requested an ambulance at his location. SA [redacted] administered first aid to the suspect until assistance arrived.

The subject was transported to a local hospital where he recovered from a wound to the neck. b6 b7C

The Civil Rights Division, United States Department of Justice, issued a declination of prosecution on 10/22/2003, regarding SA [redacted] actions in this shooting incident. On 12/19/2002, a grand jury unanimously decided not to indict SA [redacted] finding that the shooting was justified.

On 05/12/2004, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Michael S. Clemens, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; [redacted] Acting Section Chief, Operational Support Section, Criminal Investigative Division; My Harrison, Section Chief, Applicant Processing Section, Administrative Services Division; [redacted] Unit Chief (UC), CD-6B, Counterintelligence Division; UC [redacted] Firearms Training Unit, Training Division (TD); SSA [redacted] Investigative Law Unit, Office of the General Counsel (OGC); SSA [redacted] National Firearms Program, TD; SSA [redacted] Operational Skills Unit, TD; and SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division. The two non-voting members present were [redacted] and [redacted] Management Program Analysts, Inspection Management Unit, Office of Inspections, Inspection Division.

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

To: Inspection From: Inspection
Re: 297-HQ-A1271466-D, 05/17/2004

After a lengthy discussion, SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy. A recommendation was made that no administrative action be taken against him as a result of his involvement in this shooting incident.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
10/23/2002
ATLANTA DIVISION

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 10/23/2002, involving Special Agents (SAs) [redacted] and [redacted] Both Agents discharged their weapons while attempting to arrest a fugitive resulting in an injury to a passenger in the subject's vehicle. SIRG members recommended that no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in this shooting incident.

Administrative: Reference report of Inspector-in-Place [redacted], dated 11/12/2002.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1270919-D, 07/21/2003

Details of the Shooting Incident

On 09/25/2002, during the attempted arrest of [redacted] in the Kalamazoo, Michigan, area on burglary and theft charges, [redacted] attempted to "run over" two law enforcement detectives with his vehicle. As a result of [redacted] escape from arrest that day, and his attempt to injure the law enforcement officers, he was charged with two felonies, Assault With Intent to Commit Murder and Malicious Destruction of Property. A warrant was issued in Michigan charging [redacted] with Unlawful Flight to Avoid Prosecution. b6 b7C

Investigation conducted by the Detroit Division revealed a telephone number of a residence in Atlanta, Georgia, where [redacted] was possibly residing. Further investigation by the Atlanta Division determined that the possible address provided for [redacted] was the Riverwood Club Apartments and a surveillance of the immediate area conducted by SAs [redacted] and [redacted] identified two vehicles with Michigan license plates. Parked next to the two vehicles was a 2000 Chevrolet Tahoe displaying an Indiana license plate.

SAs [redacted] and [redacted] contacted the manager of the apartment building and showed him a photograph of [redacted] however, he could not identify him as being a resident of the complex. At the request of SA [redacted] the manager provided the Agents with an access code to operate an electronic gate to allow them access into the apartment complex the next morning.

In the late afternoon of 10/22/2002, SA [redacted] returned to the Atlanta Division to coordinate a surveillance for the next morning at the apartment complex location. At his request, five Agents were assigned to assist SA [redacted] and himself with the surveillance. The Agents discussed the details of the investigation and agreed to meet the next morning at 6:00 a.m., to assimilate a briefing plan. b6 b7C

On 10/23/2002, at approximately 5:15 a.m., SA [redacted] checked the code for the electronic gate to the apartment complex to ensure its operation and proceeded to the briefing site. All Agents involved in the surveillance viewed photographs of the subject, the arrest warrant and the affidavit for [redacted] arrest. Two scenarios were discussed during the briefing, one calling for the arrest of [redacted] inside an apartment and the second calling for him to be taken down as his vehicle stopped at the electronic gate. At the conclusion of the briefing, the seven Agents proceeded to the apartment complex and assumed their assigned duties.

After approximately three hours of surveillance and an unsuccessful attempt to contact the apartment [redacted] was believed to occupy, SA [redacted] requested that the Agents depart the area while he "checked a few more leads." Based on information provided by a cooperating source, SAs [redacted] and [redacted] traveled to another location. The source advised that the sister of [redacted] the occupant of the apartment being surveilled, resided at that location. Upon their arrival at the residence, a photograph of [redacted] was shown and verification was obtained that the photograph was that of an individual seen in the company of [redacted] Once the identification was verified, the Agents resumed their original positions.

b6
b7C

At approximately 10:55 a.m., an individual matching the description of [redacted] was observed on the ground floor area outside of the apartment talking on a cell phone. The source who contacted SA [redacted] was requested to go to the area and determine if, in fact, [redacted] was staying in the apartment. The plan called for the source to remove his baseball cap if the man talking on the cell phone closely resembled the [redacted]

The source entered the area and quickly removed his baseball cap, providing the signal that a person meeting [redacted] description was at his location. Shortly thereafter, the subject came out of the area and walked to the Chevrolet Tahoe and entered the operator's side. [redacted] exited the area behind [redacted] and entered the passenger seat of the vehicle. The vehicle proceeded toward the electronic exit gate. As the gate slowly opened, a Bureau vehicle parked across South Bolton Road activated its visor and "wig-wag" lights and pulled up to the front of the Tahoe in a blocking fashion. SAs [redacted] and [redacted] immediately pulled their vehicle to the back of the Tahoe, blocking its ability to back up and/or change directions. The third Bureau vehicle operated by SAs [redacted] and [redacted] positioned their vehicle to the right rear of the subject's vehicle. Agents on the arrest team, displaying FBI raid jackets and other insignia identifying themselves as FBI, issued commands for the occupants of the vehicle to exit with their hands up. When the occupants did not comply, attempts were made to shatter the passenger window with the butt of an M-4. As the Agents were attempting to shatter the vehicle window, the vehicle started moving forward, striking the Bureau vehicle positioned as the blocking vehicle. Several of the Agents observed SA [redacted] fall backward as if he had been shot or hit by the car or was attempting to get out of the way. SA [redacted] s feet were underneath the running boards of the subject's vehicle, requiring him to quickly move out of the way or be injured. SAs [redacted] and [redacted] positioned on the left side of the vehicle, discharged their weapons in an attempt to stop the

b6
b7C

driver from endangering SA [redacted] as well as other Agents on the scene. As the Bureau vehicle was rammed by the subject's vehicle, it was pushed approximately 35 feet backwards, allowing the suspect to flee the scene.

The Agents gave chase but were unable to apprehend [redacted] However, a short time later [redacted] the passenger in the vehicle, was located at a service station approximately one-half mile from the scene of the incident with a gunshot wound to his left shoulder. Medical personnel were requested and [redacted] was transported to the trauma unit at Grady Hospital where he was treated for the gunshot wound and released the same day. b6 b7C

On 03/31/2003, a declination of prosecution was issued by the United States Department of Justice, Civil Rights Division, regarding this shooting incident.

On 05/08/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Glenn Powell, Investigations Division, Office of Inspector General, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; Robert K. Cromwell, Section Chief, Applicant Processing Section, Administrative Services Division; Jay C. Manning, Section Chief, CD-6, Counterintelligence Division; [redacted] Acting Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Operational Skills Unit, Training Division; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Investigative Law Unit, Office of the General Counsel; SSA [redacted] Washington Field Office; and SSA [redacted] Firearms Training Unit, Training Division. The only non-voting member present was [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis,

observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by the Agents discharging their weapons was justified and in compliance with the deadly force policy. However, several observations were made by SIRG members regarding the arrest plans and conduct of the vehicle stop during this incident.

The first observation made by members was the fact that although the oral operations plan was adequate, the situation called for optimum planning including a written operations plan. The SIRG concluded that Agents involved in the incident had adequate time to complete a written operations plan with approval obtained by Atlanta Division management.

The second observation pertained to actions taken by the Agents conducting the car stop and attempted arrest of the subject. Members noted that the Agents were aware that a large Sports Utility Vehicle (SUV) was possibly being utilized by the subject. Prior planning for this arrest included utilizing blocking vehicles to "fence in" the subject vehicle. Members opined that when time, planning and vehicle availability permit, blocking vehicles should be larger and heavier than subject vehicles.

Members also noted that the Agents approached the vehicle which had heavily tinted windows, unnecessarily putting themselves in harms way. SIRG members believed it more prudent to call the individuals out of the car rather than rushing towards the vehicle. The consensus of the SIRG was that training dictates for law enforcement personnel to get and stay behind cover unless exigent circumstances occur, thereby, maintaining their safety. Additionally, one attendee noted fourteen shots were fired into the vehicle while Agents had the vehicle surrounded. Although no law enforcement personnel were injured during the incident, emphasis was placed on the fact that the Agents should have approached the subject vehicle from one side without the existence of exigent circumstances.

The last observation made by the group was the fact that, although not adversely affecting the outcome of this incident, multiple Agents were giving commands to the subject.

To: Inspection From: Inspection
Re: 297-HQ-A1270919-D, 07/21/2003

These observations will be brought to the attention of the SAC to ensure the future safety of all Atlanta Agents. Additionally, a recommendation was made that the Training Division re-emphasize proper methods for conducting car stops and defensive tactical training procedures to all SACs.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
08/02/2002
CRITICAL INCIDENT RESPONSE GROUP (CIRG)

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 08/02/2002, involving Supervisory Special Agent (SSA) [redacted] SSA [redacted] discharged his Bureau-issued Glock Model 22, 40 caliber pistol at a fox that attacked him as he attempted to enter his Bureau vehicle. SIRG members recommended that no action be taken against SSA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference Electronic Communication of SSA [redacted] dated 08/14/2002.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271971-D, 12/05/2002

Details of the Shooting Incident

On 08/02/2002, SSA [redacted] was entering his Bureau vehicle in his driveway when he noticed a fox attacking his left ankle. SSA [redacted] kicked the fox several times, however, it repeatedly attacked him and eventually hid under his car. After putting his dog inside his residence, SSA [redacted] observed the fox biting, growling and pulling at a fence. As the fox again charged at SSA [redacted], he shot the animal in the right flank. As the animal charged at SSA [redacted] a third time, he fired two shots into its chest, killing the fox. b6 b7C

Animal Control retrieved the fox and determined that it was rabid.

On 12/03/2002, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Acting Section Chief, Applicant Processing Section, Administrative Services Division; Charles D. Elder, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted], Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted], Unit Chief, Firearms Training Unit, Training Division; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; SSA [redacted] Washington Field Office; and SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division. The only nonvoting member present was [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

To: Inspection From: Inspection
Re: 297-HQ-A1271971-D, 12/05/2002

SIRG members unanimously agreed that the use of deadly force by SSA [redacted] was justified and in conformance with the deadly force policy.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
10/09/2002
CHICAGO DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 10/09/2002, involving Special Agents (SAs) [redacted] and [redacted] Both Agents, as well as Chicago Police Department (CPD) Officer [redacted] returned fire after a subject fired shots through a door prior to his arrest. SIRG members recommended that no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in this shooting incident.

Administrative: [redacted] Reference report of Inspector-in-Place dated 10/25/2002.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271285-D, 02/24/2003

**Details of the Shooting Incident**

On 05/07/2002, a Federal arrest warrant was issued for [redacted] who was wanted for Conspiracy to Distribute a Controlled Substance. On 10/08/2002, members of the Joint Task Force on Gangs (JTFG), including Chicago Division SAs and Officers from the CPD were conducting surveillance activities in an attempt to locate and apprehend [redacted]. A vehicle that officers believed [redacted] was utilizing was located and stopped. During the course of the vehicle stop, [redacted] assist JTFG members in locating and apprehending him.

The individual was driven to a location on East 79th Street in Chicago, where he identified a third floor apartment as being the location where [redacted] was residing. An arrest plan was formulated and all JTFG members participating in the arrest were provided a detailed verbal briefing given by arrest Team Leader SA [redacted]. Information was disseminated regarding [redacted] background, a description of the clothing worn by him earlier that day, as well as information concerning the location of the arrest. SA [redacted] advised all participants that [redacted] should be considered armed and dangerous and then telephonically briefed his supervisor on the situation and obtained his concurrence regarding details of the arrest plan. b6 b7C b7D

On 10/09/2002, at approximately 12:30 a.m., a phone call was placed to [redacted] residence where it was learned that he was in an apartment on the third floor of the building and preparing to go to bed. This information was relayed to arrest entry team members positioned inside the apartment building. Arrest team members, all wearing body armor and law enforcement markings, were led by SA [redacted] down a long hallway toward [redacted] apartment. Prior to knocking on the apartment door, team members were all placed behind SA [redacted] to the right of the door. Participants began loudly knocking on the door and shouted their identities as law enforcement personnel. Receiving no response, and in accordance with the plan, Task Force Officer [redacted] began striking the door with a sledgehammer. As Officer [redacted] continued striking the door, numerous shots were fired from inside the apartment and through the door. SAs [redacted] and [redacted] as well as Officer [redacted] immediately returned fire. b6 b7C

Task Force Officer [redacted] yelled that an officer, later identified as Officer [redacted] was hit and down. Arrest team members continued to yell "Police" and [redacted] replied to the effect, "I want to give up". Law enforcement

personnel instructed States to open the door and come out. [redacted] attempted to open the door; however, the door was jammed. A sledgehammer was used to un-jam the door and States opened the door and was immediately arrested without further incident.

Officer [redacted] determined to have a shattered index finger, was transported to the hospital for treatment. Investigation determined that SA [redacted] fired three shots from his H&K MP-5, SA [redacted] fired four shots from his Springfield Armory .45 caliber semiautomatic pistol, and Officer [redacted] fired five shots from his nine millimeter pistol.

During interview with [redacted], he advised that he began to shoot into the hallway in response to what he thought was a home invasion. [redacted] advised that he did not know law enforcement authorities were outside his door. However, witnesses provided statements that they heard arrest team members announce their presence prior to shots being fired from [redacted] apartment. b6 b7C

On 01/22/2003, the SIRG met to discuss the above-captioned shooting incident. Assistant Director Lynne A. Hunt, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Deputy Chief, Domestic Security Section, Criminal Division, USDOJ; Assistant Special Agent in Charge Glenn Powell, Investigations Division, Office of Inspector General, USDOJ; [redacted] Chief Inspector, Office of Inspections, Inspection Division; Robert K. Cromwell, Section Chief, Applicant Processing Section, Administrative Services Division; [redacted] Acting Section Chief, CD-2, Counterintelligence Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Firearms Training Unit, Training Division; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; SSA [redacted] Washington Field Office; and SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division. The two non-voting members present were SSA [redacted] Assistant Inspector, Office of Inspections, Inspection Division, and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

To: Inspection From: Inspection
Re: 297-HQ-A1271285-D, 02/24/2003

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SAs [redacted] and [redacted] as well as that of Officer [redacted] was justified and in compliance with the deadly force policy. b6 b7C

Members noted that this was a fast evolving incident that did not allow for the preparation of a standard written operations order. However, a representative from the Training Division advised that a planning guide booklet is available for Agents which contains framework for immediate planning that can be utilized in this type of incident. Additionally, members noted that although not an issue in this incident, there was no documented evidence that inquiries were made regarding the presence of innocent third parties inside or near the residence of the fugitive. SIRG members recommended that this question be included in all arrest plans to reduce the chances of injury to innocent third parties and that all offices be reminded to address this issue in arrest planning. Additionally, members recommended that the Training Division reiterate policy to all field division Firearms Instructors regarding shooting into residences and vehicles, absent visible subjects, and ensure regularly scheduled firearms training includes discussion of this issue. Chief Division Counsels and field Firearms Instructors should coordinate any such training to ensure that the training amplifies and supports FBI deadly force policy. These observations will be discussed with the Special Agent in Charge of the Chicago Division.

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 08/09/2001, involving Special Agent (SA) [redacted] Believing that a subject identified in a string of armed robberies was aiming a gun in his direction during an attempted escape, SA [redacted] fired one shot from a Bureau-issued MP-5 submachine gun hitting the passenger side window of the subject's vehicle. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference report of Supervisory Special Agent (SSA) [redacted] dated 08/22/2001.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271905-D, 11/15/2001

**Details of the Shooting Incident**

On 08/09/2001, members of the FBI-led Stockton Violent Crime Task Force (SVCTF) were working in concert with the Stockton Police Department to locate and arrest gang member [redacted] was identified in a string of armed robberies, including one that occurred on Wednesday, 08/08/2001.

Acting on information developed, the Stockton Police Department was conducting surveillance of room 211 of a Motel 6 located in Stockton. Members of the SVCTF relieved Stockton Police Officers of surveillance of the subject at approximately 8:30 a.m., on 08/09/2001. b6 b7C

At approximately 10:40 a.m., the subject quickly left his second story room and rapidly entered his stolen Toyota Corolla. [redacted] entered the vehicle before law enforcement personnel had the opportunity to effect his arrest. As [redacted] was attempting to leave the motel parking area, SA [redacted] and a Stockton Police Department Task Force Officer blocked his escape. The subject sped around the motel with an officer following in an unmarked police vehicle with lights and siren activated. With the driver side of his Bureau vehicle facing the direction of [redacted] SA [redacted] parked his car at a corner of the motel to prevent the subject's attempted escape. SA [redacted] wearing body armor and an FBI raid jacket, exited the vehicle and stood by the passenger door with an MP-5 deployed. The subject approached SA [redacted] blocking position as if he was going to hit the vehicle. SA [redacted] observed the subject lean towards the passenger side of his car at which time he observed a dark object in the subject's hand. As the subject drove past his position, SA [redacted] believed that the subject was pointing a gun in his direction and was steadying the gun against the vehicle dashboard. Fearing for his safety, SA [redacted] fired one shot from his MP-5, breaking the front passenger window. [redacted] continued driving through a large chain link fence, down a curb into a field for approximately 100 yards before becoming stuck in soft dirt. Law enforcement personnel conducted a felony-style approach to the subject vehicle at which time [redacted] surrendered. b6 b7C

Investigation revealed that the round fired by SA [redacted] went through the passenger window, between the steering wheel and dashboard and lodged in the driver's door. At the time of the subject's arrest, a .22 caliber six-shot revolver containing three live rounds was located on the passenger seat of his vehicle.

No personal injuries were incurred as a result of the shot fired by SA [redacted]

UNITED STATES DEPARTMENT OF JUSTICE
Federal Bureau of Investigation

Copy to:

Report of: ASAC Robert O. Laughlin Office: Newark
Date: 07/26/2001

Case ID #: 66F-NK-105245

Title: "Shooting Inquiry"
Report of Shooting Incident, Newark Division
07/13/2001, Administrative Matter

Character: ADMINISTRATIVE INQUIRY

Synopsis: This inquiry was initiated subsequent to a shooting incident which occurred in East Orange, New Jersey during the afternoon of Friday, July 13, 2001. SA [redacted] (EOD: 07/05/98), accompanied by United States Customs Service (USCS) SA [redacted] who is assigned to a Newark Division Task Force, were investigating a potential stolen car ring based upon information provided to the Newark Division by the New Jersey State Police. Using a pretext of delivering license plates to the operator of a leased Mercedes-Benz E430, SAs [redacted] and [redacted] had arranged to meet the operator in the parking lot of a Rite Aid Pharmacy located at 543 Central Avenue, East Orange, New Jersey. The purpose of the meeting was to attempt to interview the vehicle's operator regarding the facts and circumstances of the vehicle lease. The NJSP had determined that the Drivers' Licenses used to effect the lease of the vehicles were fictitious and the Newark Division was investigating a Nigerian group engaged in similar activities which resulted in vehicles being fraudulently leased and eventually shipped out of the United States. There was no intention to effect either an arrest or seizure at this meeting. Two other vehicles, leased from the same Ohio dealership were recovered without incident on Thursday, 07/12/01 and during the morning of Friday, 07/13/01. Arriving first, SAs [redacted] and [redacted] waited for the vehicle operator at the Rite Aid parking lot, a location selected by the driver, later identified as [redacted], who arrived accompanied by a

b6
b7C

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

passenger. Subsequent to arriving, the passenger, who has since been identified as [redacted] exited the Mercedes-Benz. [redacted] remained in his vehicle with the driver's side front door open. As SAs [redacted] and [redacted] approached, [redacted] began to flee the scene and [redacted] placed the car in reverse, striking SA [redacted] with the door. Placing the car in forward, [redacted] struck SA [redacted] who landed on the hood of the car. While holding on, and continuing to identify himself, SA [redacted] drew his weapon, firing multiple shots into the vehicle's front windshield. As a result, [redacted] was struck in the arm and the Mercedes-Benz crashed into a parked car. [redacted] was apprehended, following a struggle, by SAs [redacted] and [redacted] with the assistance of two off-duty East Orange police officers. b6 b7C

During the investigation period, interviews were conducted with SA [redacted] Police Officers [redacted], and [redacted] as well as Rite Aid Pharmacy manager [redacted] all of whom are witnesses to the events leading to this inquiry. As a decision is pending whether or not to present this matter to the Essex County, New Jersey Grand Jury, SA [redacted] has declined an interview at this time on the advice of counsel.

Details:

1. SSA [redacted] provided a signed sworn statement on 07/23/01. SSA [redacted] stated that he had been contacted by the NJSP regarding the fraudulent lease of four luxury vehicles from an Ohio automobile dealership. In order to assist the NJSP and determine whether or not the lessees of these vehicles were connected to a Nigerian group being investigated by the Newark Division for similar activities, SSA [redacted] assigned SA [redacted] and USCS SA [redacted] to follow up on the information provided by the NJSP. Between Thursday, 07/12/01 and the morning hours of Friday, 07/13/01, SA [redacted] and [redacted] had located and recovered two of the vehicles. During the afternoon of Friday, 07/13/01 SA [redacted] and [redacted] arranged to meet with the operator of a third vehicle using the pretext of delivering the permanent license plates the vehicle operator was seeking to acquire. SAs [redacted] and [redacted] were attempting to conduct an interview only; no arrest or seizure was planned. Subsequent to arriving at the pre-arranged meeting place, SA [redacted] became involved in a shooting incident after the vehicle operator struck SA [redacted] and SA [redacted] with the vehicle. b6 b7C

2. SA [redacted] United States Customs Service, was interviewed and advised that he and SA [redacted] were assigned an investigation regarding the fraudulent lease of some motor vehicles. One of the lessees, who was cooperating, assisted in

the recovery of two vehicles. SAs [redacted] and [redacted] subsequently learned that the dealership where the vehicles were obtained had been receiving calls about permanent license plates for one of the vehicles. SAs [redacted] and [redacted] arrange a meeting with this individual on the pretext of delivering the license plates. It was their intention to interview the operator about the facts and circumstances of the lease. No arrest or seizure was planned or anticipated. Arriving at a pre-determined meeting site, SAs [redacted] and [redacted] approached the driver of a Mercedes-Benz E430. They asked if they might speak to him, at which time the driver placed the car in reverse, backing up at high rate of speed. SA [redacted] was struck by the open front driver's side door. As SAs [redacted] and [redacted] continued to identify themselves, the driver placed the car in drive, eventually striking SA [redacted] who landed on the hood of the vehicle. SA [redacted] then drew his weapon, firing from the hood until the Mercedes-Benz crashed into two parked cars, resulting in SA [redacted] being thrown from the vehicle's hood. SA [redacted] and SA [redacted] then attempted to subdue the driver, who was attempting to flee. This was eventually accomplished with the assistance of two off duty police officer. The passenger in the Mercedes-Benz fled the scene prior to the shooting incident.

b6
b7C

3. Police Officer [redacted], East Orange Police Department, was interviewed and advised that on the afternoon of 07/13/01 he was off duty in front of a supermarket located at the corner of Cambridge Street and Central Avenue in East Orange. [redacted] heard between four and five gunshots coming from the vicinity of the Rite Aid Pharmacy. He immediately took notice of a black male running from the area. He then saw a silver Mercedes-Benz crash into two parked cars in the Rite Aid parking lot. [redacted] then saw a white male, wearing a police badge get up from the ground between the cars and another law enforcement officer wrestling with the Mercedes Benz driver. Leaving his position to offer assistance, [redacted] noted that the person wrestling with the driver was identifying himself as a law enforcement officer. [redacted] joined in the effort and with the aid of another off duty police officer, the suspect was restrained.

4. Police officer [redacted] East Orange Police Department was interviewed and advised that he had been talking with off duty Police Officer [redacted] Following the conversation, [redacted] was walking towards his residence on Cambridge Street in East Orange, approximately one block from the Rite Aid Pharmacy. He heard four or five shots and headed back towards Central Avenue, where he thought the shots originated. [redacted] saw a black male on the ground near a vehicle crash scene in the parking lot of a Rite Aid Pharmacy. [redacted] observed two white males attempting to handcuff the suspect. The

b6
b7C

suspect continued resisting and it appeared to [redacted] that additional handcuffs would be needed given the suspect's size.

5. [redacted] the operator of the Mercedes-Benz involved in the shooting incident was interviewed and advised that he had spoken with [redacted] Wagner Lincoln-Mercury during the morning of 07/13/01 about license plates for a Mercedes-Benz E430 he had just leased. During the afternoon of 07/13/01, during the course of a three way conversation, [redacted] arranged to meet with [redacted] representatives (SAs [redacted] and [redacted] in the parking lot of the Rite Aid Pharmacy on Central Avenue in East Orange, NJ. [redacted] accompanied by another male, parked in the lot, next to the vehicle SAs [redacted] and [redacted] were in. [redacted] passenger, whom he identifies only by the first name [redacted] ran when SAs [redacted] and [redacted] asked him [redacted] to step out of the car. [redacted] put the car in reverse in an effort to flee. [redacted] then places the car in forward, continuing his attempt to flee the scene. [redacted] states that both men (SAs [redacted] and [redacted] are talking to him, but he can't hear them as his windows are up. Hearing gunshots, [redacted] ducks, losing control of his car, which crashes. [redacted] states he falls as he attempts to run. When "the agents" [redacted] words) ask him to get on the ground he complies and is handcuffed, but only on one hand, until an ambulance arrives.

b6
b7C

6. [redacted] manager of the Rite Aid Pharmacy, 543 Central Avenue, East Orange, NJ, was interviewed and advised that she had been standing in front of the store, conversing with a customer. [redacted] was facing that portion of the parking lot which faced a supermarket across the street. [redacted] stated that she saw two officers instruct the driver of a Mercedes-Benz to stop. The driver was non-compliant and an officer in a blue shirt grabbed the door handle. The driver placed the car in reverse, resulting in the officer in the blue shirt being dragged. Both officers called for the driver to stop but the driver moved forward, striking the second officer, who landed on the car's hood. The Mercedes-Benz continued moving forward, with the second officer on the car's hood. As the vehicle moved, [redacted] heard four or five gunshots. The Mercedes Benz then struck several parked cars, with [redacted] thinking the officer on the hood had been crushed between the cars. The driver then exited the Mercedes-Benz, refusing the officers' directions to get on the ground. The officers put the driver on the ground, attempting to place him in handcuffs. The suspect continued to struggle, with two East Orange police officers arriving to assist.

Report of: [redacted] Office: HOUSTON
Date: 07/26/2001

Case ID #: 297-HQ-A1271511-D

Title: SHOOTING INCIDENT
HOUSTON DIVISION

Character: SHOOTING INCIDENT

Synopsis: This communication provides the Inspection Division with the results of Houston Division investigation concerning captioned matter.

- Lead Covered-

DETAILS: 1. This investigation was predicated on a 7/10/2001 telephone call of Deputy Assistant Director Thomas B. Locke, Inspection Division and ASAC Brian R. Loader, Houston Division and information reported in a Houston FD-418 dated 7/16/2001 to the Training Division. The FD-418 reported that during a Houston Division SOG surveillance on 7/5/01, a team member became a victim of an attempted car jacking by several individuals, one of which was carrying a pistol. The surveillance was in support of an ongoing drug investigation. Shortly thereafter, members of the SOG team became involved in pursuit of the car jacking suspects. SA [redacted] as a member of this SOG team, confronted four individuals believed to be the suspects and commanded them to stop. Two of these suspects stopped and turned toward SA [redacted] in an aggressive and threatening manner. SA [redacted] fired one round. No one was hit. The suspects were not related to the ongoing drug investigation. b6 b7C

2. Appropriate Houston supervisory personnel interviewed SA [redacted] on 7/24/2001 and obtained his Signed Sworn Statement (SSS). His SSS was

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

largely consistent with information developed independently during this inquiry. SA [redacted] advised that on 7/5/2001, SOG Team 1, which he was a member, was conducting a drug surveillance in Houston, Texas. At approximately 1:30 p.m., SA [redacted] advised via the Bureau radio several cars had approached his stationary surveillance position, parked behind his vehicle and walked toward his car. One of these individuals was observed carrying a pistol. SA [redacted] immediately departed the scene, believing he was the victim of an attempted carjacking. The drug surveillance ceased and the SOG team began a light pursuit of these vehicles and suspects. With SOG Aviation support and HPD marked units, the suspects were located near an apartment complex. SA [redacted] advised via Bureau radio the suspects had been driving in a dangerous fashion and were seen running from the scene holding their sides as if to cradle a weapon, so as to keep it from falling from their waistbands. The surveillance continued to a school yard area where SA [redacted] observed four black males running across the school grounds. After his pursuit in his vehicle ceased, he exited his vehicle, drawing his weapon and shouted a command "Police, Stop." Two of the four individuals stopped and turned in a bladed stance and in a manner in which SA [redacted] considered threatening. Believing the individuals to be armed, and fearing for his safety, SA [redacted] fired one round from his Glock pistol, Model 22. These two individuals turned and ran. SA [redacted] did not continue on a foot pursuit. SA [redacted] provided a copy of a statement he provided to the Houston Police Department on 7/5/01.

b6
b7C

3. In an interview on 7/19/2001, SA [redacted] stated on 7/5/2001, he was assigned as a team leader of an SOG component responsible for conducting a surveillance on subjects of a pending drug investigation. During the surveillance, SA [redacted] a SOG team member, advised via Bureau radio, several black males approached his vehicle from the rear, one of whom was carrying a hand gun by his side. SA [redacted] immediately put his vehicle in gear and departed the area. SA [redacted] instructed SA [redacted] to call 911 and inform the Houston Police Department of the attempted car jacking. The drug surveillance terminated and with SOG aircraft assistance, a light pursuit of these vehicles and suspects was initiated. Shortly thereafter, six black males were observed in a school parking lot where their movements had been continuously followed by SOG aircraft. As several units approached, SA's [redacted] and SA [redacted] pursued four of these suspects to a Houston public school ground. SA [redacted] continued his pursuit across a grassy field of approximately a hundred yards. Shortly thereafter, SA [redacted] heard a single gunshot. The SOG aircraft repeated a broadcast message over the Bureau radio,

b6
b7C

"shots fired." SA [redacted] was unaware of who had fired the shot.

4. In an interview on 7/24/2001, SA [redacted] stated on 7/5/2001, he was part of a surveillance team conducting a drug surveillance in the northeast area of Houston, Texas. The other members of the surveillance team included SA [redacted] SA [redacted] and SA [redacted] At approximately 1:30 p.m., he was parked at the intersection of Wippercht and Caplin. While parked, SA [redacted] observed three vehicles stop behind him. Approximately six black males exited the vehicles and approached SA [redacted] car from the rear. He observed one of these individuals carrying a pistol. At that point, SA [redacted] immediately placed his vehicle in gear and sped away. After calling 911 and reporting the attempted car jacking, SA [redacted] remained in the vicinity awaiting the arrival of the Houston Police Officers. SA [redacted] later observed three of these vehicles at an apartment complex. All three of the vehicles were confirmed stolen. Two pistols were recovered from two of the vehicles. Several minutes later, HPD officers reported arresting a black male in the vicinity of a shooting. SA [redacted] was not a party to nor witness of this shooting incident.

b6
b7C

5. Houston Police Department incident report dated 7/5/01 was obtained and is consistent with the statement provided by SA's [redacted] and [redacted] One suspect was arrested on a pending burglary/theft warrant and three stolen vehicles were recovered.

6. Review of SA [redacted] Houston Division Personnel File revealed his EOD 05/05/1975 (Support) and EOD 08/11/1985 (Agent). His FBI employment began as a Photographer assigned to the New York Division. After his successful completion of New Agent Training, SA [redacted] was assigned to the Houston Division. Effective 07/07/1996, he was assigned to the Special Operations Group where he currently serves as the principal relief supervisor. [redacted] On 5/29/01, he was reinstated as a Firearms Instructor and was certified by the Firearms Training Unit during July, 2001. SA [redacted] received a "Superior" rating on his 1999 Performance Appraisal Report (PAR), an "Exceptional" rating on

b6
b7C

his 2000 PAR, and "Meets Expectation" on his 2001 PAR.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
12/11/2001
CHICAGO DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 12/11/2001, involving Special Agent (SA) [redacted] SA [redacted] fired one shot from his Special Weapons and Tactics (SWAT)-issued 45 caliber semi-automatic pistol, severely injuring a charging dog during the execution of an arrest warrant. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this incident.

Administrative: Reference Electronic Communication of Supervisory Special Agent (SSA) [redacted] dated 12/18/2001.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271285-D, 02/18/2002

Details of the Shooting Incident

On 12/11/2001, the Chicago Division was contacted by the Grand Rapids, Michigan, Resident Agency (GRRA), indicating that an individual who was wanted for attempted murder by the Grand Rapids, Michigan, Police Department had fled the State of Michigan. An Agent of the GRRA advised that source information indicated the subject, identified as [redacted] was currently residing at [redacted] in Harvey, Illinois. b6 b7C

Based on the information received, members of the Violent Crime/Fugitive Task Force (VC/FTF) surveilled the location. A telephone call was made to the residence verifying that [redacted] was inside the residence. Members of the VC/FTF surrounded the house and SA [redacted] and SA [redacted] were instructed by SSA [redacted] to proceed to the back door of the residence. As the Agents approached the area, they were "attacked" by a large dog of a German Shepherd-Great Dane mix. Fearing for their safety, SA [redacted] fired one shot causing the dog to collapse.

The subject was arrested without incident and the Harvey, Illinois, Police Department, was summoned to the scene where an Animal Control Officer terminated the dog's life.

On 02/12/2002, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: Willie T. Hulon, Chief Inspector, Inspection Division, Office of Inspections; [redacted], Deputy Chief, Civil Rights Division, USDOJ; [redacted], Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; William R. Falls, Section Chief, Operational Support Section, Administrative Services Division; William Q. Doherty, Section Chief, Global Section - NS-2, National Security Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted], Washington Field Office; and SSA [redacted], Practical Applications Unit, Training Division. Nonvoting members present were Inspector-in-Place [redacted] Phoenix Division; SSA [redacted] Firearms Training Unit, Training Division; SSA [redacted] and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

To: Inspection From: Inspection
Re: 297-HQ-A1271285-D, 02/18/2002

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

b6
b7C

The only observation made by members of the SIRG pertained to the report submitted by the Chicago Division. It was noted that the SSA who wrote the report also approved the report without further review by a member of the Chicago Division Executive Management. Members opined that official reports should not contain gratuitous comments such as those made regarding the dog's death. This matter will be brought to the attention of the Special Agent in Charge.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
11/14/2001
BUFFALO DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 11/14/2001, involving Special Agent (SA) [redacted] SA [redacted] and a Buffalo Police officer, shot and killed a pitbull dog who lunged at them while attempting to effect the arrest of a Federal fugitive. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this incident. b6 b7C

Administrative: Reference Electronic Communication of Supervisory Special Agent (SSA) [redacted] dated 11/15/2001.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

## Details of the Shooting Incident

On 11/14/2001, SA [redacted] along with ten uniformed Buffalo Police Department officers were effecting the arrest of a Federal fugitive identified as [redacted]

Upon approaching the residence of the subject, SA [redacted] and Officer [redacted] proceeded to the front door. [redacted] appeared in a front window and was asked by law enforcement personnel to unlock the outside storm door and the inside door of his residence. Instead of opening the doors as requested, [redacted] entered an alcove behind the locked doors through an interior apartment door. Law enforcement officers observed a large pitbull dog with the subject. [redacted] was ordered to put the dog inside the apartment and open the outer doors to surrender to SA [redacted] and Officer [redacted] As [redacted] opened the doors, the barking pitbull dog lunged from inside the doorway towards the law enforcement officers. SA [redacted] and Officer [redacted] fired shots from their weapons killing the dog. b6 b7C

The subject was arrested and taken into custody by Buffalo Police officers and the Buffalo Police Dog Control Unit arrived and removed the dog.

On 01/08/2002, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted], Unit Chief, Asia, Middle East and Africa Unit, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Undercover and Sensitive Operations Unit, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; SSA [redacted], Program Manager, Practical Applications Unit, Training Division; and SSA [redacted] Washington Field Office. The only nonvoting member present was SSA [redacted] Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational

standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

Case ID #: 297-HQ-A1271741 SUB D

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
LOS ANGELES DIVISION
11/15/2001

Character: ADMINISTRATIVE INQUIRY/CIVIL RIGHTS,

Synopsis: Captioned matter relates to a shooting incident which was substantively predicated upon locating and attempting to detain a subject who was believed to be responsible for the armed, take-over style robbery of the Union Bank branch located at 1900 North Grand Avenue, Santa Ana, California, on 11/15/2001.

DETAILS:

At approximately 10:56 AM on 11/15/2001, a lone Hispanic male, later identified as [redacted], aka [redacted], entered the outer lobby of the Union Bank, which is situated just inside the main entrance of the "Food 4 Less" supermarket located at 1900 North Grand Avenue, Santa Ana, California, and proceeded to jump over the teller counter. After landing on the other side of the counter, [redacted] brandished a black semiautomatic handgun, pointed it at the bank tellers and other bank employees and yelled, "Put the money in the bag and nobody will be hurt! I'm sorry, but nobody will be hurt!". After acquiring currency totaling $50,779.00 from two tellers, who placed the funds in a brown paper bag, [redacted] jumped back over the counter and exited the supermarket. Witnesses subsequently observed the bank robber depart the store, proceed north on foot, enter a blue Toyota Corolla vehicle possessing California license plate number [redacted] and drive away from the immediate area. This information, as well as a description of the bank robber,

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

was conveyed to SAPD patrol officers who responded to the scene of the bank robbery.

At approximately 11:05 AM, Investigator [redacted] OCSD, who is assigned full time to the SARA's Bank Robbery Apprehension Team (BRAT) as a task force member, was working in the SARA when he was notified of the robbery of the Union Bank by the SARA's switchboard operator. Investigator [redacted] responded to the site of the bank robbery and was immediately briefed by the SAPD officers who were already at the scene. After being apprised of the circumstances of the bank robbery, Investigator [redacted] commenced with his preliminary investigation of the incident, which included obtaining witness statements, taking custody of the surveillance camera film, determining if bait bills were provided to the bank robber, and canvassing the adjacent neighborhood for lead information. During Investigator [redacted] interview of one of the victimized bank tellers, she advised that the bank robber had been armed with a weapon and as a result, she had been in fear for her life. b6 b7C

In the midst of conducting this investigation, Investigator [redacted] was informed that the bank robber had been observed entering a vehicle in the supermarket parking lot and that the license plate number had been recorded. After obtaining this information, Investigator [redacted] contacted his agency and requested three additional investigators to assist him with the rapidly evolving investigation. At this juncture, Investigator [redacted] was contacted on his Nextel phone by a BRAT colleague, SA [redacted] who was covering a lead relating to the FBI's PENTTBOM investigation in conjunction with his fellow squadmate, SA [redacted] After Investigator [redacted] provided a brief summary of the ongoing bank robbery investigation and requested their assistance, both SAs agreed to rendezvous with him in the vicinity the supermarket. While awaiting the arrival of SAs [redacted] and [redacted] Investigator [redacted] met with the three other OCSD investigators who had responded to the supermarket to render assistance. He directed these individuals to travel to [redacted] Santa Ana, California, the address which corresponded to the registered owner of the bank robbery getaway vehicle, and to monitor the ingress into or egress out of the residence by anyone.

SA [redacted] and SA [redacted] subsequently arrived at the agreed upon meeting location and were briefed by Investigator [redacted] regarding the details of the bank robbery, to include a subject description; his modus operandi; the fact that he had been armed and had brandished the weapon; and the description/license plate number of the getaway vehicle. After

obtaining this information, both SAs then proceeded to assist Investigator [redacted] with continuation of the investigation. In the meantime, the OCSD investigators at the Adrin Way address contacted Investigator [redacted] and advised that a male and female had departed the residence on foot and had been detained by a SAPD patrol officer, [redacted] at a location adjacent to the intersection of McFadden Avenue and South Sullivan Street in Santa Ana. Investigator [redacted] departed the area of the supermarket at approximately 12:50 PM, leaving the FBI SAs to finish up with a canvass and search of the surrounding neighborhood, and traveled to the location where the two individuals had been stopped.

After his arrival at the site and subsequent query of both detainees, Investigator [redacted] ascertained that the registered owners of the blue getaway vehicle, [redacted] and his wife, [redacted] did not live at the Adrin Way address; instead, according to the female detainee, who is [redacted] sister, they resided at an apartment complex located on South Lyon Street in Santa Ana. Although [redacted] could not recall the specific address, she and her male companion agreed to accompany Investigator [redacted] and the other law enforcement personnel to the area of the apartment complex in order to pinpoint its exact location. At this juncture, SAs [redacted] and [redacted] arrived at the interview location, were updated by Investigator [redacted] with respect to the new developments, and were advised of the plan to travel to the South Lyon Street area in an effort to locate and question [redacted] regarding his knowledge of the bank robbery. b6 b7C

The FBI SAs, who were traveling together in a dark blue Ford Crown Victoria Bureau vehicle, departed the area enroute to the apartment complex, along with Investigator [redacted] who was driving in his own vehicle; two OCSD investigators, who were riding together in a single vehicle with [redacted] and her male companion in the back seat; and Officer [redacted], who was traveling in a marked SAPD patrol car. Another OCSD investigator remained at the Adrin Way address to continue to monitor activity at that location. At approximately 1:15 PM, with the assistance of [redacted], the specific domicile for [redacted] and his wife was determined to be the Saddleback Park Villas apartment complex located at [redacted] in Santa Ana. Inasmuch as [redacted] could not recall the exact number of the apartment where [redacted] and [redacted] resided, Investigator [redacted] requested that the two FBI SAs conduct a visual search of the parking lot, which was located in the rear of the apartment complex, in order to determine if the blue getaway vehicle was situated there. The other three law enforcement vehicles then

parked at a location in front of the apartment complex, and Investigator [redacted] used this opportunity to sit in Officer [redacted] vehicle and utilize the officer's Mobile Data Terminal in an attempt to independently ascertain the apartment number for [redacted]

b6
b7C

After determining that the vehicular access gate to the walled-in parking lot was closed, SA [redacted] and SA [redacted] parked on the street outside of parking lot, dismounted their vehicle and entered the parking lot area through the unlocked pedestrian gate. Once inside, the SAs conducted a visual search of the entire area, to no avail; however, as they walked back towards the entrance of the parking lot, they observed a vehicle entering through the drive-in gate which was similar in appearance to the blue car they were attempting to locate. The driver of the vehicle, which also contained a female passenger and a small child in a car seat, was a Hispanic male who matched the description of the individual who had committed the bank robbery earlier that day. As the vehicle drew closer to where the SAs were standing, they observed that the license plate on the car was identical to that which had been affixed to the blue bank robbery getaway vehicle. Certain that they had been seen by the driver of the vehicle, whom they now believed to be [redacted] and having discreetly notified Investigator [redacted] via Nextel phone about locating the subject vehicle, the SAs fully intended to detain and interview [redacted] regarding any knowledge he might possess relative to the bank robbery, as was previously planned. However, as the SAs continued to walk toward the blue vehicle, it suddenly stopped at a point approximately 25 feet away from the SAs, backed up to the gate entrance, drove out of the parking lot and proceeded away from the apartment complex in a northbound direction.

b6
b7C

In reaction to this elusive maneuver on the part of [redacted] the SAs contacted Investigator [redacted] via the Nextel phone, advised him of the blue vehicle's sudden departure and ran to their Bureau vehicle in anticipation of following the subject vehicle. As the SAs departed the area of the parking lot and proceeded northbound, they observed that the subject vehicle was stopped at a red light at an intersection in the distance. Simultaneously, the three other law enforcement vehicles, led by the SAPD unit, also departed the area of the apartment complex and joined in the pursuit of the subject vehicle. When the light at the intersection turned green, [redacted] turned left and continued to travel along at an escalating rate of speed, followed closely from behind by the Bureau vehicle, which had not activated any sirens or emergency lights and was being driven by SA [redacted] As the pursuit continued, SA [redacted] maintained

contact via Nextel radio with Investigator [redacted] who advised that while he and the other investigators were currently underway and attempting to join the pursuit, the SAPD marked unit was rapidly closing in on their location and would be available to render assistance in stopping [redacted] vehicle.

At this juncture, the SAs noted that the SAPD vehicle was situated directly behind their vehicle and that Officer [redacted] had activated both its emergency lights and siren. SA [redacted] slowed the Bureau vehicle and allowed the SAPD unit to pass on their left and pull in behind the subject vehicle. As the SAPD vehicle and Bureau vehicle followed in pursuit, [redacted] vehicle slowed perceptibly, turned right onto Grand Avenue and continued northbound along the thoroughfare. After traveling along Grand Avenue for approximately one city block, [redacted] suddenly executed an abrupt right turn on East 2nd Avenue and rapidly exited his vehicle through the driver's side door while the vehicle was still moving forward. The vehicle, which was still occupied by [redacted] wife and son, collided with the rear of another vehicle which was parked next to the curb on the right hand side of the street.

b6
b7C

At that same instant, as the SAPD vehicle came to a stop behind the blue vehicle, [redacted] began to run eastbound down East 2nd Avenue, either inadvertently losing or intentionally discarding his wallet in the process. The Bureau vehicle followed behind [redacted] and when it pulled up to his left side, SA [redacted] swerved the vehicle to the right in an effort to cut him off. [redacted] ran into the Bureau vehicle, struck the right side of the hood and was deflected towards the right side of the road, where he resumed his running in an easterly direction. Despite this collision, SA [redacted] was still unable to view any part of [redacted]s front torso or waistband area. SA [redacted] stopped the Bureau vehicle, and both he and SA [redacted] exited with their weapons drawn. At this point, the SAs noted that Officer [redacted] had passed by their current position, in pursuit on foot and yelling at [redacted] to stop and show his hands. Both SAs also gave chase and repeatedly issued verbal commands for [redacted] to halt and put his hands in the air. [redacted] refused to comply with these instructions and continued to run with his back to the SAs and Officer [redacted] in a crouched manner, in which he leaned forward at the waist, glanced over his right shoulder on occasion, and hid his hands from view by his pursuers in the midsection of his body as if he had something in his waistband. SA [redacted] admitted to experiencing a high level of anxiety at this point, particularly since [redacted] was not obeying any of the commands to stop and display his hands; and because a strong likelihood existed that he was the

b6
b7C

b6
b7C

bank robber who had brandished a semiautomatic weapon earlier that day.

Shortly thereafter, [redacted] suddenly stopped, with his hands still occluded from view, and began to raise his hands and pivot around to the right. SA [redacted] who was now standing in a two handed shooting position off to the right and in front of Officer [redacted], noted that as [redacted] continued his rotation to the right, he had adopted a two-hand shooter's grip as if he were drawing a weapon from his waistband. SA [redacted] yelled a warning to his colleagues that [redacted] was raising his hands and thought that the subject had a weapon. As [redacted] hands swept past the position where SA [redacted] was standing and continued towards Officer Beilby, the SA could not see a weapon from his particular angle and elected to not shoot. At this time, however, SA [redacted] heard three to five shots fired from behind him and to his left and had the impression that Officer [redacted] who likely did not have the same unobstructed view of [redacted] hands that SA [redacted] had due to his position, had fired his weapon at [redacted] faced the SAs and Officer [redacted] for a second or two, seemingly undeterred and uninjured after having been fired at, turned his back to them again, placed his hands in his waistband area and took a couple of steps forward, stating, "Fuck it! I'm not going out like this-or that."

b6
b7C

[redacted] stopped and repeated his previous motions, raising his clenched hands from his lower waistband area and pivoting around to the right as if he were going to shoot a weapon. SA [redacted] who had moved forward a couple of steps and consequently had a better angle of observation than his colleagues, noted that [redacted] right index finger was red and was again unable to detect any objects in [redacted] hands. However, as SA [redacted] was making this observation, he heard another two or three shots from his left rear and ultimately surmised that SA [redacted] had fired his weapon at [redacted] on this particular occasion. [redacted] crumpled to the ground after the last series of shots, having been struck a total of four times during the course of his encounter with the two SAs and Officer [redacted] While [redacted] was lying in a supine position in the street, he was subjected to a high-risk weapons search by responding SAPD officer [redacted] who recovered a silver cellular phone from [redacted] left front pants pocket and placed this item on the street beside [redacted] No weapon associated with [redacted] has been recovered to date.

Santa Ana Fire Department paramedic personnel responded to the scene of the shooting, provided Adult Life Support (ALS) treatment to [redacted] and transported him to the Western Medical

b6
b7C

Center, 1001 North Tustin Avenue, Santa Ana. Subsequent investigation and consultation with [redacted] attending physician, Dr. [redacted] determined that [redacted] had sustained a gunshot wound to his left index finger; a gunshot wound to his right hand which entered between his thumb and forefinger and exited six inches above his wrist; a gunshot wound to his left side which had entered and exited through his oblique area; and a gunshot wound to the upper right side of his chest. Dr. [redacted] further opined that it was highly unlikely that the one bullet which remained deeply imbedded under [redacted] left clavicle would ever be removed.

On 11/20/2001, although still hospitalized at the Western Medical Center, [redacted] agreed to provide a recorded statement to investigators regarding his knowledge of the activities on 11/15/2001. However, after being advised of his Miranda rights, he only provided general identification and background information, stating that although he could remember injecting himself with a quantity of heroin that morning, he had no independent recollection of having been involved in a bank robbery or a shooting incident.

[redacted] spouse, [redacted] and his son, [redacted], who were left behind in his vehicle when the initial foot chase ensued, were uninjured. [redacted] subsequently provided Investigator [redacted] who had arrived on the scene after the shooting had occurred, with consent to search her blue 1988 Honda Civic, California license plate number [redacted] which had been driven by her husband before he exited the vehicle at East 2nd Street and fled on foot. The search of this vehicle yielded [redacted] including [redacted] which were stolen during the earlier robbery of the Union Bank on North Grand Avenue. An additional four bait bills, also associated with the same robbery, were recovered from [redacted] wallet at the shooting site. b7E

SA [redacted] maintained custody of his weapon until a replacement weapon was provided by ADIC Iden, who had traveled to the SARA from Headquarters City in order to check on the welfare of SA [redacted] and SA [redacted] in the wake of the shooting incident. SA [redacted] Springfield Model 1911 .45 caliber pistol, serial number CRG 500, was provided to SA [redacted] LA [redacted] who examined the weapon and transferred custody of the weapon to OCSD Lead Forensic Specialist [redacted] for ballistics comparison purposes. b6 b7C

The shooting incident crime scene was processed, photographed and diagramed in its entirety by the OCSD's Forensic

Science Service Unit. Reports reflecting forensic examinations, as well as other data, was forwarded upon request to the FBI Laboratory for review, extrapolation and incorporation into the final Shooting Incident Report. Evidence collected at the scene included nine expended cartridge cases and three jacketed bullets, and it should be noted that forensic analysis determined that two of the expended cartridge cases were fired from SA [redacted] weapon, while the remaining seven cases were fired from Officer [redacted] handgun.

Investigation conducted immediately after the shooting by the three-person interview teams comprised of OCDAO, FBI and SAPD personnel resulted in the interviews of several potential witnesses; however, of all of the interviews which were conducted, only one individual [redacted] admitted to actually observing the shooting incident as it took place. The majority of the other respondents, to include [redacted] professed to having only heard gunshots; observing only a limited aspect of the foot chase sequence; or neither. [redacted] a transient who advised that he had been drinking a vodka and tomato juice mix in a Styrofoam cup at the time of the shooting, observed some police officers shouting commands to stop at a man who was running away from them. [redacted] then saw the man suddenly stop, turn around and start shooting at the police officers, who returned fire at the man. [redacted] then observed the man briefly turn away from the police officers, turn back toward them and then shoot at them again. The police officers returned fire once again, and after taking a couple of steps, the man fell down in the street.

b6
b7C

Another interviewee, [redacted] was standing in front of a business office located adjacent to East 2nd Street and North Grand Avenue when he heard police sirens and observed a blue vehicle collide with the back of a black vehicle which was parked on 2nd Street. He then observed a police vehicle park behind the blue vehicle, at which time the driver of the blue vehicle exited his vehicle and ran east on 2nd Street while being pursued on foot by the police officer. [redacted] advised that he heard the police officer yell several times at the driver as he ran, and while [redacted] could not be absolutely certain of what the officer was saying, he believed that it was possibly "Stop!" He lost sight of both individuals as they ran east along East 2nd Street, but later heard seven to eight shots being fired.

b6
b7C

Although the above interviews are somewhat limited and lacking in specific detail, they provide independentcorroboration of the accounts of the shooting which are enumerated herein.

Report of: SSA [redacted] Office: HONOLULU b6 b7C
Date: 12/04/2001

Case ID #: 297-HQ-A1271508-D

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
HONOLULU DIVISION
10/12/2001

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident occurred while Federal Agents attempted to make the arrest of [redacted] on the evening of 10/12/2001. b2 b7A

**DETAILS:**

The following is a chronology of the events leading up to the attempted arrest of [redacted] and the discharge of a weapon by SA [redacted]

[redacted] was a subject of a Honolulu Division OCDETF case, [redacted] S11. [redacted] was one subject of this ongoing investigation. At the time of the attempted arrest the FBI had obtained an arrest warrant for [redacted] on drug and firearms related charges. The arrest warrant was obtained at approximately 3:04 p.m. on 10/12/2001. (Enclosed elsewhere in this report is a more detailed summary of the subject's criminal history and a photocopy of his arrest photo.) b6 b7C b7D

[redacted]

[redacted]

[redacted]

On October 4, 2001, SA [redacted] obtained search warrants for a residence at [redacted]

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

[redacted] Avenue and three storage lockers, [redacted] and [redacted] at Self Storage 1, located at 438 Kamakee Street. The three storage lockers were utilized by [redacted]. The [redacted] address was where [redacted] was currently residing. (It should be noted, based on their investigation, that agents interviewed advised of [redacted] transient nature and frequent moving from location to location.)

On October 5, 2001, SA [redacted] scheduled a half-pound methamphetamine buy/bust drug deal with [redacted] did not show and SA [redacted] did not execute the search warrants. An "Operational Plan" was prepared for this drug deal that included SAs [redacted] and [redacted]. The Ops Plan had all the appropriate warnings, i.e., FBI Deadly Force Policy and administrative admonishments, i.e., identifying clothing and body armor. The Ops Plan also had a "Caution Statement," which stated: [redacted] criminal history indicates his propensity to carry firearms." b6 b7C

On October 8, 2001, Honolulu Police Department (HPD) notified the FBI that [redacted] was arrested on $35,000 worth of outstanding state warrants. SA [redacted] was advised by SSA [redacted] of [redacted] arrest. Two weapons, a shotgun and a Ruger .223 with a collapsible stock, were recovered at the time of his arrest. Also recovered was drug paraphernalia, consistent with manufacturing and processing of crystal methamphetamine, and distribution quantities of methamphetamine, heroin and cocaine.

On October 9, 2001, SA [redacted] executed the search warrant at the storage facility and seized three weapons, drugs and drug paraphernalia. Copies of the search warrant and receipt of items seized were left in the storage lockers.

On October 11, 2001, [redacted] made bail with $3,500 and got out of jail at approximately 9:30 p.m.

On October 12, 2001, SA [redacted] obtained an arrest warrant, at approximately 3:04 p.m., for [redacted] based on the September 25, 2001 drug deal and Alcohol Tobacco Firearms (ATF) felon in possession of a weapon charge. SA [redacted] did not obtain the warrant earlier because the AUSA assigned the case wanted the crime lab results of the drugs purchased. (The methamphetamine is still at the HPD crime lab.) Prior to obtaining the warrant on October 12, 2001, SA [redacted] had contacted the Department of Public Safety - Intake Services Division, to determine the status of [redacted] It was at this time that SA [redacted] learned that [redacted] was bonded out the previous evening at approximately 9:30 p.m. It was SA [redacted] original intent to place a hold on [redacted] with the Department of Public Safety so that when [redacted] was to be released it would be to the custody of the FBI.

On October 12, 2001, at approximately 5:20 p.m., SA [redacted] received a telephone call from the [redacted] 1, 438 Kamakee Street, Honolulu, Hawaii [redacted] had left a voice mail for SA [redacted] that [redacted] was at the self storage facility. SA [redacted] returned [redacted] advised SA [redacted] that [redacted] was currently at the storage facility. SA [redacted] advised SAs [redacted] and [redacted] that [redacted] was at the storage facility and they agreed to assist on the arrest. It should be noted that the storage facility is less than a five-minute drive from the Honolulu FBI office. b6 b7C

SAs [redacted] and [redacted] traveled to the storage facility to affect the arrest of [redacted]. After arriving at the storage facility the agents learned that [redacted] had left within the last five

minutes. They also learned that [redacted] was upset that his storage lockers had been searched. They obtained a description and the license plate number of the vehicle that [redacted] was driving from the [redacted] conducted a record check, and confirmed that the vehicle was registered to [redacted] It was decided that they would search for [redacted] at two possible locations [redacted] was known to frequent. This was determined by the location of the previous drug deal and surveillance of a co-subject. While proceeding to one of the locations, the agents suddenly found themselves several vehicles behind [redacted] vehicle. After [redacted] vehicle turned, they followed him. A telephone call was placed by SA [redacted] to 911 in an effort to obtain assistance from HPD to assist on the arrest of [redacted] The 911 Operator placed SA [redacted] on hold. The agent's vehicle was then directly behind [redacted] vehicle. The traffic came to a stop at a red light. [redacted] vehicle had cars in front, behind and on either side of him. The agent's vehicle was situated on the driver's side of [redacted] vehicle. [redacted] was in the drivers seat with an unknown individual, believed to be a female, was in the passenger seat. A decision was made to arrest [redacted] at this point. The agents got out of the car and identified themselves as FBI in an effort to affect the arrest. SA [redacted] was in the rear of [redacted] vehicle on the passenger's side. SA [redacted] was in front of [redacted] vehicle on the driver's side. [redacted] vehicle moved forward. SA [redacted] knocked on the back of the car and told [redacted] to stop and get out of the car. [redacted] moved his vehicle forward again, ignoring SA [redacted] commands. SA [redacted] continued to knock on the window. [redacted] vehicle moved forward for a third time at which point SA [redacted] while banging on the back window, broke the rear window. SA [redacted] found it odd that the window broke at the top even though he was knocking at the bottom of the window. Through the back window, SA [redacted] advised that he saw something shiny in [redacted] partially raised right hand. Taking careful aim not to hurt any bystanders or the other occupant in [redacted] vehicle, SA [redacted] fired one shot at [redacted] then sped away.

The agents reentered their vehicle and attempted to locate [redacted] without success. The agents then returned to the office where SA [redacted] turned over his weapon to SSA [redacted]

SAC Daniel R. Dzwilewski, ASAC Kimberly K. Mertz, SSA [redacted] A/CDC [redacted] Media Coordinator SSA [redacted] and the ERT team were notified of the shooting.

Subsequent to the shooting, several teams of FBI Agents were formed for the purpose of conducting witness interviews. ERT was alerted to assist with the collection of crime scene evidence.

On October 12, 2001 at approximately 7:36 p.m., ERT agents arrived at the scene to collect available evidence. Agents waited for HPD Officers to temporarily block traffic so that the scene of the shooting could be examined. The scene was processed by FBI ERT assisted by HPD Detective [redacted] All crime scene evidence was collected by Honolulu FBI ERT.

On October 12, 2001, HPD received 911 calls from citizens regarding a shot fired at the corner of Kapiolani and Atkinson Drive, Honolulu, Hawaii. HPD dispatched an officer and nothing was found by the responding officer.

b6
b7C

On October 12, 2001, at approximately 8:00 p.m., [redacted] vehicle was found abandoned by HPD and was towed. FBI Honolulu was advised at 11:30 p.m. and ERT was dispatched to process the vehicle. The vehicle was towed to HPD for storage in a secure garage

b6
b7C

bay pending the issuance of a Federal Search Warrant for the vehicle.

On October 13, 2001, a federal search warrant was issued by Federal Magistrate Kevin S. C. Chang.

On October 14, 2001, the search warrant was executed on the vehicle belonging to [redacted] b6 b7C The vehicle was described as a 1988 blue Chevrolet two door Camaro, bearing Hawaii license plate [redacted] and vehicle identification number [redacted] FBI ERT processed the vehicle and collected the evidence.

On October 16, 2001, at approximately 3:05 p.m., [redacted] was arrested without incident by agents of the FBI. [redacted] was in the company of [redacted] identified [redacted] as his girlfriend. At the time of his arrest [redacted] was in the possession of a Glock .40 caliber pistol and approximately four ounces of crystal methamphetamine. [redacted] consented to an interview. [redacted] denied that he had a weapon the evening of October 12, 2001. He claimed the weapon that was in his possession at the time of his arrest was purchased after the shooting incident, but would not provide any further details.

[redacted] consented to an interview. [redacted] acknowledged being the passenger in [redacted] vehicle on the evening of 10/12/2001. [redacted] claimed that she did not know [redacted] was involved in drugs and denied that he had a weapon in his possession on the evening of October 12, 2001. [redacted] stated that she thought the two males who approached [redacted] vehicle were either "robbers or car-jackers." The individuals were knocking and banging on the windows but because she and [redacted] were arguing, the windows were up and the music was on, she could not hear what they were saying. [redacted] saw the man's mouth moving but could not hear what he was saying. [redacted] was advised that her story conflicted with that of her mother. [redacted] mother, who was personally interviewed by FBI Agents, stated that her daughter advised her that [redacted] had a weapon and that the cops shot at them. [redacted] recalled telling her mother that she thought maybe the men who shot [redacted] car were cops, but denied telling her mother that [redacted] had a gun. After a moment [redacted] advised that she told her mother that after the shooting incident that [redacted] asked her, "babe, what would you do if I had a gun?" (It should be noted that [redacted] smokes crystal methamphetamine).

The three non law enforcement witnesses, whose statements are enclosed with this report, are identified as follows: b6 b7C

[redacted]

[redacted] advised that he was on his way to work when he observed three men exit a light green four door car as traffic was stopped. All three of these men drew hand guns from their waist area and approached another car stopped directly in front of their car. The three men approached the vehicle and two of them began banging on the windows one on each side of the vehicle. [redacted] did not hear anything that was said. As traffic began to move the car in front began to drive away, the man standing behind the vehicle moved with the vehicle banging on the car and rear window. [redacted] then heard a popping sound and saw that the rear window had shattered. [redacted] assumed the popping sound was a gun shot but was unsure if the shot came from inside the vehicle or from one of three men. [redacted] heard one shot. [redacted] opined that the three men were undercover law enforcement officers.

[redacted] was traveling west bound on Kapiolani Boulevard, by the Honolulu Convention Center, with her son when she heard a loud pop, which she believed was a gun shot. [redacted] saw a man with a gun in the road. Behind this man was a green sedan stopped in the road. [redacted] observed a second man with a gun standing near the sedan. Both of these men got into the sedan and drove away. [redacted] could not hear any conversations because the windows in her vehicle her up. [redacted] only heard one shot.

b6
b7C

[redacted] was traveling west bound on Kapiolani Boulevard, by the Honolulu Convention Center, with his mom when he heard a loud popping sound. His mother told him that she believed it was a gun shot. [redacted] saw a man approximately 25 yards ahead in the road holding a hand gun. The windows on [redacted] vehicle were up but he could hear shouting, although he could not determine what was being said, or who was shouting. As [redacted] vehicle approached the man he turned and ran to a green sedan. Next to the green sedan was a second man also holding a hand gun. [redacted] memorized the license plate number of the green sedan and his mother telephoned 911. [redacted] only heard one shot.

Arrest Team Statements:

SA [redacted]

b7A

SA [redacted] is the case agent for the [redacted] portion of [redacted]. SA [redacted] advised that he received a telephone call from [redacted] that [redacted] was at the facility. SA [redacted] assembled an arrest team of SA [redacted] SA [redacted] and himself.

SAs [redacted] and [redacted] departed the FBI office en route to the self storage facility. SA [redacted] had a copy of the arrest warrant and showed a copy to SAs [redacted] and [redacted]. At approximately 5:33 p.m. the agents arrived at Self Storage 1. Several attempts were made to contact SSA [redacted] as the arrest team was en route. SA [redacted] believed a voicemail message was ultimately left on the desk phone of SSA [redacted]. SA [redacted] advised SAs [redacted] and [redacted] what their respective roles were. SA [redacted] was familiar with the storage facility because he had executed a search warrant on October 9, 2001, for [redacted] storage lockers. SAs [redacted] and [redacted] began to enter the storage facility when the manager came out from the office. The manager said that [redacted] had left approximately five minutes ago. The agents continued a quick search of the storage facility to confirm that [redacted] had departed.

SA [redacted] spoke with the manager. The manager said that [redacted] was "really pissed" that the FBI searched his lockers. [redacted] had questioned the manager as to why they let the FBI search the lockers. The manager stated that [redacted] had seen the search warrant paperwork and was visibly upset the FBI had entered his storage lockers. The manager also provided a description of the vehicle that [redacted] was driving and the license plate. She described the car as a blue IROC Camaro with Hawaii license plate number [redacted]

b6
b7C

SA [redacted] advised SA [redacted] to call the FBI office and get the registered owner information of the license plate. The registered owner was identified as [redacted] The agents

departed the storage facility. SA stated that they should check out the Pagoda Hotel because that was where the September 25 drug deal took place. At Hobron Lane, SA did a U-turn and headed in a westerly direction on Ala Moana Boulevard. At Ala Moana Boulevard and Atkinson Drive, SA stopped at the traffic light. Approximately three to four vehicles in front of his vehicle, in the right-hand lane, was a vehicle matching the description of vehicle. A positive identification could not be made of the vehicle because the license plate was obstructed. The vehicle also had dark tinted windows. As the blue Camaro turned from Ala Moana Boulevard onto Atkinson Drive, all the agents could see the license plate. They identified the license plate and the vehicle as belonging to

b6
b7C

SA placed a call to 911 to have HPD assist in pulling over vehicle. SA advised that the operator attempted to find an emergency line. The vehicles continued driving down Atkinson Drive heading toward the Hawaii Convention Center and Kapiolani Boulevard. SA pulled behind vehicle. SA was still on hold with the 911 Operator. The 911 Operator came on again and informed that an emergency line was still unavailable. SA stated that he told SA "We are going to take him now." SA pulled next to on the left-hand side. was in the second from the left-hand lane. The front passenger side of the Bureau vehicle was next to the driver's side door of vehicle. SA identified as the driver of the vehicle and it appeared that he had a female passenger in the front passenger seat. SA stopped the vehicle at a slight angle but close enough to vehicle that SA could not get out the front passenger side door. The windows were up on both vehicles. SA got out of the car and approached from the front of vehicle. SA had his weapon drawn. As he was going out of the car, SA saw SA addressing through the window and heard SA saying, "FBI, FBI, get out of the car." SA identified himself as the FBI and instructed to get out of the car. Ahu turned toward SA and his eyes were "really big." There was traffic in front of the car that was stopped at a red traffic light. The suspect vehicle was blocked on all four sides. The stop took place at approximately 5:48 p.m. The light changed and the traffic in front started to move, moved his vehicle forward and stopped, pulled away again and SA observed SA move forward with car. SA heard three "bashing" sounds and then the sound of glass cracking as he turned to reenter the Bureau vehicle. SA then heard glass break. He then heard one shot fired and Ahu's vehicle sped away. The agents reentered their vehicle and attempted to locate

SA attempted to call SSA at approximately 5:50 p.m. SSA did not respond. SA told the Night Clerk to get SSA on the phone. SA talked to SSA and advised him that they attempted to arrest and a shot was fired. As the agents were returning to the office, SA telephoned HPD. SA advised he was with the FBI and provided his license plate number to determine if an All Points Bulletin (APB) was placed on the Bureau vehicle. The HPD dispatcher advised there was no APB. SAs and then returned to the Honolulu FBI office.

b6
b7C

SA

On October 12, 2001, at approximately 4:30 p.m., SA was advised by SA that "we" have to go make an arrest. The arrest was one of SA subjects, SA learned from SA that was at his storage facility. The

agents left the Federal Building and drove to the storage facility. On the way to the storage facility SA attempted to contact SSA via the Nextel without success. SA left a message for SSA as to the details of the anticipated arrest of including the time, the event and parties involved. SAs and also attempted to contact SSA on the Nextel without success.

b6
b7C

The agents drove directly from the Federal Building to the storage facility. A woman from the storage facility came out of the office and advised that Ahu had just left. She provided the license plate number of the vehicle. SAs and went inside the storage area to verify had left.

SAs and returned to the vehicle with SA and a decision was made to drive around to find SA telephoned the office to get the registered owner's information on the vehicle. The vehicle was a 2-door blue Chevrolet registered to

SA said, "why don't we check Cleghorn Street." Cleghorn is located between Ala Wai and Kuhio Avenue. As the agents were driving toward Cleghorn, SA stated that he did not believe would be at that location. SA turned around at Hobron Lane, by the Red Lobster restaurant. They were now heading westbound on Ala Moana Boulevard. As they approached Atkinson Drive on Ala Moana Boulevard, they stopped at the traffic light. SA observed a blue vehicle similar to the one they were looking for in the far-right hand lane. The vehicle was three to four cars in front of the Bureau vehicle. SA asked SA if he could see the license plate. SA could not see the license plate because of the angle of the vehicles. When the light changed, the blue colored vehicle turned right onto Atkinson Drive. SAs and identified the license plate and confirmed that it was the vehicle registered to It appeared that two people were in the vehicle but vehicle had a dark tint on the windows. SA stated they should follow the vehicle. SA telephoned 911 to have the Honolulu Police Department (HPD) assist in pulling over vehicle. SA could hear the 911 Operator come on and ask, "fire or police emergency?" SA said, "police emergency" and was put on hold. The vehicles continued down Atkinson Drive and approached Kapiolani Boulevard.

b6
b7C

SA vehicle was directly behind vehicle as they turned from Atkinson Drive onto Kapiolani Boulevard by the Hawaii Convention Center. SA advised that he was going to pull up next to vehicle. SA stopped his vehicle on the driver's side of vehicle. SA could observe that was the driver. SA vehicle was so close to vehicle that SA could not open the passenger side door. SA from inside the vehicle, said, "FBI, don't move." SA got out of the driver's side, SA got out the rear passenger side and SA got out the driver's side. All SAs had their weapons drawn. SA was on the front driver's side of the vehicle. SA was on the passenger's side of vehicle knocking on the window. vehicle started to move. vehicle stopped and went forward several times. SA and gave chase on foot. SA grabbed onto the rear spoiler of vehicle. SA was telling to "Stop, Stop, Stop!" As vehicle approached the next light, SA was knocking on the back window when the window broke. SA heard one gun shot but did not know who fired the shot. vehicle then sped away.

When he reentered the Bureau vehicle SA informed them that he fired one shot into the vehicle because when the window broke, he saw either reaching for something

or something was in his hand. They drove down Kapiolani Boulevard a short distance to look for [redacted] SA [redacted] contacted SSA [redacted] and advised him of what had happened. They proceeded directly back to the office. When they arrived at the office, SA [redacted] gave SSA [redacted] his weapon.

SA [redacted] advised that he wore his badge on his belt during the arrest operation. SA [redacted] had observed [redacted] photo from previous preparations involving the case. Operation Plans (Ops plans) had been prepared on previous drug deals involving [redacted] SA [redacted] read these Ops plans. At the briefings, they spoke of the possibility of Ahu being armed and dangerous. b6 b7C

SA [redacted] (Agent who fired his weapon)

SA [redacted] voluntarily provided the following information. On October 12, 2001, at approximately 5:00 p.m., SA [redacted] was working at his desk in the office when he received a telephone call from SA [redacted] advising him that subject [redacted] was currently at his storage locker facility in the vicinity of Kamakee Street in Honolulu, several blocks from the field office. By way of background, SA [redacted] is the Case Agent on a drug investigation entitled [redacted] in which [redacted] is one of the targets (Honolulu file number [redacted] Sub S11). During the last two weeks of September, the investigation began focusing on [redacted] and another subject [redacted] SA [redacted] was assisted by SA [redacted] as Case Agent in this aspect of the investigation. [redacted] b2 b6 b7A b7C b7D

On October 8, 2001, SSA [redacted] supervisor of Squad 3, received a call from the Honolulu Police Department (HPD) advising that [redacted] had been arrested by HPD. SSA [redacted] was also advised that two weapons, chemicals, and other precursors for meth had been seized at the time of [redacted] arrest. One of these weapons was a sawed-off or modified shotgun. On October 9, 2001, SA [redacted] and other SAs from Squad 3 conducted a search of [redacted] three storage lockers pursuant to the search warrant issued on October 4, 2001. SA [redacted] was not present for this search but was advised by SA [redacted] that drugs and weapons had been seized.

On the morning of October 12, 2001, SA [redacted] was advised by SA [redacted] that [redacted] had bonded out of jail the previous night, Thursday, October 11, 2001. [redacted] whereabouts were unknown at the time, and he is known to be very transient in nature. At approximately 5:00 p.m., SA [redacted] advised he had received a call from the caretaker of the storage facility who stated [redacted] was at the storage facility at the time. SA [redacted] asked SA [redacted] to assist him in locating and apprehending [redacted] SA [redacted] agreed and asked SA [redacted] to assist them. SA [redacted] advised SA [redacted] to grab all of his gear and they proceeded out of the office. b6 b7C b7D

As they drove to the storage facility, SA [redacted] explained the layout of the storage facility to SAs [redacted] and [redacted] SA [redacted] also advised that he and SA [redacted] would approach [redacted] directly and make the arrest, and SA [redacted] was to cover the exit in case [redacted] went around one of the back aisles and attempted to run. Safety issues and concerns were emphasized by SA [redacted]

They arrived at the storage facility and reemphasized the arrest plan and stated that safety was their number one concern. The caretaker of the storage facility came out of her

office and advised SA [redacted] that [redacted] had already left. SAs [redacted] and [redacted] checked the storage facility to clear the area and ensure Ahu was not there. The caretaker advised [redacted] was with another individual and was "hysterical" when leaving the facility. She had written down his Hawaii license plate number, [redacted], which she provided along with the vehicle's description, a blue IROC Camaro.

SA [redacted] phoned in the vehicle plate information and received confirmation that the vehicle was registered to [redacted] with a Kaneohe address. They decided to attempt to locate [redacted] They discussed possible whereabouts for [redacted] and decided he might be on Cleghorn Street in Waikiki, or at the Pagoda Hotel on Rycroft Street in Honolulu. It was decided that [redacted] would most likely not be on Cleghorn Street due to his recent conflicts/disputes with [redacted] As they stopped for a red light at the intersection of Ala Moana Boulevard and Atkinson Drive, they noticed a blue Camaro stopped four cars in front, in the far right-hand turn lane. b6 b7C

As the blue Camaro moved forward and prior to its turning right onto Atkinson Drive, they confirmed the license plate was that of [redacted]. SA [redacted] advised SA [redacted] to follow [redacted] and see where he took them. They followed [redacted] vehicle. SA [redacted] told SA [redacted] to call HPD to get a police car to assist them in affecting the arrest. SA [redacted] called 911. SA [redacted] tried to contact SSA [redacted] to advise him of the situation.

[redacted] vehicle turned right from Atkinson Drive onto Kapiolani, near the Convention Center. At this point the agents were right behind [redacted] vehicle, and both vehicles were in the second to far left lane. They identified [redacted] as the driver of the vehicle through the tinted windows and also observed an occupant in the front passenger seat.

The traffic was stopped as the agents approached Kalakaua Avenue, causing [redacted] vehicle to stop as well. At this time SA [redacted] pulled next to [redacted] vehicle, on the left, at a slight angle. SA [redacted] stated that he was unaware that SA [redacted] was contemplating either pulling next to [redacted] vehicle or getting out of the Bureau car and approaching [redacted] in his vehicle at this time. SA [redacted] vehicle was close enough that SA [redacted] could not get out the passenger door. SA [redacted] suddenly jumped out the driver's side and proceeded to the front of [redacted] vehicle. As he exited the car, he drew his weapon. SA [redacted] instinctively reacted and exited the Bureau vehicle as there was a narrow opening that permitted him to get out the rear passenger side. SA [redacted] proceeded around in back of [redacted] vehicle, taking up a position in the rear of the vehicle on the passenger side. As he exited the vehicle, he drew his weapon from his holster. SA [redacted] shouted, "FBI, stop the car, you are under arrest!" SA [redacted] began pounding on the rear spoiler with his left hand as his weapon was in his right hand. SA [redacted] heard SA [redacted] shouting "FBI, FBI, stop the vehicle!" or "FBI, FBI, get out of the vehicle!" The traffic began to move in front of the car and [redacted] vehicle lunged forward and stopped. SA [redacted] had to step away from [redacted] vehicle when the car lunged. SA [redacted] began pounding on the lower portion of the back window with his left hand, all the time shouting "FBI" and telling [redacted] to stop, he was under arrest. [redacted] vehicle lunged forward again and stopped. SA [redacted] grabbed hold of the rear spoiler for balance with his left hand, and began hitting the lower part of the back window with his weapon. [redacted] vehicle lunged forward for a third time and stopped. While holding on to the spoiler for balance, SA [redacted] hit the lower part of the back window one more time. Suddenly the top part of the back window shattered. This startled SA [redacted] for a second. b6 b7C

SA [redacted] advised that he could see light from the inside of the vehicle. He clearly

saw [redacted] turned around and facing him from the driver's seat with his right hand partially raised. SA [redacted] observed a silver, shiny object in his right hand and was fearful for his life. SA [redacted] raised his weapon, focused on the driver and fired one round through the lower portion of the back window into the vehicle. The vehicle may have begun to roll forward as he fired the one shot. SA [redacted] advised that he was careful not to cause injury to the passenger or any bystanders, and kept his muzzle suppressed. He estimated that his weapon was approximately four to six inches from the rear window when he fired. He could see a bullet hole through the intact lower portion of the tinted back window. [redacted] immediately sped away at this point. SA [redacted] advised that he did not fire any more shots out of safety concerns for the surrounding traffic and bystanders. He estimated that it was only 30-40 seconds from the time he exited SA [redacted] vehicle to the time his weapon was discharged and [redacted] vehicle sped away. b6 b7C

SA [redacted] reentered the vehicle and together with SA [redacted] and SA [redacted] proceeded to look for [redacted] without success. They then started to head back toward the office. At this time, SA [redacted] telephoned SSA [redacted] and explained to him what had occurred involving the shooting incident. When they had returned to the office, SA [redacted] immediately surrendered his personally-owned, Bureau-approved weapon to SSA [redacted]

## OBSERVATIONS

### ISSUES EXAMINED:

In conducting this inquiry, two issues were examined. The first issue was whether the use of deadly force was justified. The second issue was whether sufficient preplanning was undertaken prior to attempting the arrest.

Regarding the deadly force issue, witness statements as well as interviews of the Arrest Team Agents and the Agent that fired his weapon, indicated that [redacted] did not comply with Agent commands to stop and get out of his vehicle. [redacted] known to carry a weapon capable of inflicting death or serious bodily harm, was observed by SA [redacted] to have something shiny in his partially raised right hand. At the time of his subsequent arrest [redacted] had a Glock .40 caliber pistol in his possession.

As pertains to the preplanning issue, arrest team members were either informed or aware that SA [redacted] had obtained an arrest warrant for [redacted] on drug and firearm charges and that [redacted] should be considered armed and dangerous. Arrest team members were involved in previous drug deals with [redacted] and the scheduled buy/bust on October 5, 2001. A previous written Ops plan stated that [redacted] criminal history indicates his propensity to carry firearms.* Arrest team members were aware of a recent arrest of [redacted] in which two weapons were taken from him and a search of his storage lockers in which weapons were seized. Additionally, the arrest team was aware of [redacted] criminal past and his alleged current involvement with the selling of crystal methamphetamine. b6 b7C

En route to apprehend [redacted] the Case Agent, SA [redacted] orally communicated an arrest plan to team members. Later, when the subject was not located at the storage facility, SA [redacted] updated the plan to conduct a felony car stop. SA [redacted] attempted a 911 call to seek the assistance of HPD in affecting the arrest. The exact timing of when the felony car stop would take place was vague.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
CHICAGO DIVISION
AUGUST 28, 2001

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident occurred while FBI Agents and FBI Violent Crime Task Force Officers attempted to arrest a bank robbery subject, [redacted] on Tuesday morning August 28, 2001, in Chicago, Illinois.

DETAILS:

[redacted] Black male, DOB [redacted] was identified as the perpetrator of two bank robberies at the same branch of the Charter One Bank at 3250 W. 87th Street, on the south side of Chicago. [redacted] displayed a chrome-plated handgun at the second robbery. These robberies occurred on successive Fridays, August 17 and 24, preceding the shooting on August 28. Enclosed in this report is a more detailed summary of the subject's background and criminal history.

On August 17, 2001, the Charter One Bank noted above was robbed by a lone Black male who stated he had a gun but did not display one. Upon exiting the bank, he stated, "Tell President Bush to kiss my ass." He escaped on foot with $17,319.72. The following Friday, 08/24/2001, this same gunman, later identified positively as [redacted] robbed the same branch, this time displaying a "large, silver" handgun. He vaulted the tellers' counter and stole [redacted] from the bank's vault. A bank

b7E

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

employee watched [redacted] leave the bank in a Ford Expedition with dealer plates. Bank employees identified the robber as the same person who had robbed them the previous week. Bank security cameras captured [redacted] robbing the bank the second time. The robber again made a reference to President Bush, telling employees they could thank Bush for the robbery, and, "Like I said last time, tell President Bush to kiss my ass!"

Investigation at the Webb Ford dealership, 2601 West 95th St., Chicago, revealed that [redacted] had taken the Expedition used in the robbery for a test drive the morning of the first robbery. Bank surveillance film was shown to Ford employees who identified [redacted] as the customer who took the Expedition for a test drive. He had provided identification in his true name with address of his mother [redacted] Chicago, which was near the dealership. Physical surveillance was established at the [redacted] location that Friday evening and Saturday, August 24 and 25, with negative results. A federal criminal complaint and arrest warrant were also obtained for [redacted] on Saturday, August 25. On Sunday and Monday, the 26th and 27th of August, case agent [redacted] prepared an operations plan to approach the single family residence at [redacted] and arrest [redacted] if he was there.

On Monday, August 27, SA [redacted] and others continued the surveillance at the mother's house. He finalized the arrest plan and discussed it with his supervisor, SSA [redacted] SSA [redacted] discussed it with his ASAC, J.P. Weis, who approved using six SAs to approach the house and arrest [redacted] the following morning, Tuesday, August 28. ASAC Weis mentioned the plan to SAC McChesney on Monday, but did not go into great detail as it was seen as a routine VCTF arrest.

On Tuesday morning, at approximately 7:00 a.m., SA [redacted] and five other SAs approached the residence at [redacted] They spoke with [redacted] and [redacted] who invited them in and told the SAs that [redacted] had in fact lived there for a while, but had not been there since August 17. She also advised that [redacted] had not been himself lately, acting very moody and emotional. She allowed the SAs to search throughout her house, including the room [redacted] had stayed in and his personal effects he had left behind.

During this search, SAs found several evidentiary items and items of lead value on his possible whereabouts. Among these items was a letter addressed to [redacted] at [redacted], Chicago, IL. [redacted] identified [redacted] as her son's current girlfriend. The SAs also found receipts for ammunition

commonly used in AK-47 assault rifles and 30.06 rifles. Also observed was an empty soft cover for a long weapon and military camouflage shirts and a hat similar to the one worn by the bank robbery suspect during the robberies. The search concluded at approximately 8:00 a.m.

At this point, SA [redacted] contacted his supervisor, SSA [redacted] and advised him of the results of the search and that he and SA [redacted] were going to drive by the girlfriend's apartment to look for the Expedition [redacted] had stolen. At approximately 9:00 a.m., SAs [redacted] and [redacted] obtained permission from the building manager to look inside the parking garage at [redacted] and found the Ford Expedition which [redacted] had taken for a test drive and not returned. SA [redacted] looked through the windows of the vehicle and saw a black duffel bag similar to the one used in the bank robberies, a camouflage shirt, along with a hard case for a long weapon partially covered by a blanket. Also observed were two cell phone chargers and a half bottle of water, which indicated to SA [redacted] that the vehicle had not been abandoned. b6 b7C

SA [redacted] again contacted SSA [redacted] and told him about finding the Expedition and requested additional Agents/TFOs to respond for a possible arrest. SSA [redacted] sent his available SAs and asked SSA [redacted] the Fugitive Task Force supervisor, for three bodies. SSA [redacted] provided one SA and two TFOs including TFO [redacted] SSA [redacted] also responded to a staging area one block from the apartment building, and then briefed the others on what he knew. TFO [redacted] and SA [redacted] drove into the garage in TFO [redacted] police vehicle and blocked the Expedition.

Between 9:30 and 9:45 a.m, all Agents/TFOs walked to the parking garage at [redacted] where SSA [redacted] and SA [redacted] briefed everyone on [redacted] background, including arrest record and known violent tendencies. SA [redacted] also passed around an arrest photo of [redacted] ensuring everyone's familiarity with the subject's appearance. Present for this briefing were the following law enforcement personnel: SSA [redacted], SA [redacted] SA [redacted] TFO [redacted] SA [redacted] SA [redacted] SA [redacted] SA [redacted] TFO [redacted] SA [redacted] SA [redacted], TFO [redacted] and TFO [redacted] b6 b7C

During this briefing in the garage of [redacted] SSA [redacted] and SA [redacted] discussed with team members various options and scenarios for arresting [redacted] if in fact he was in the apartment. SSA [redacted] advised the SIRT that it was his

belief that [redacted] had in all likelihood fled the area and simply parked the Expedition in the enclosed parking garage. However, SA [redacted] observations about the Expedition's contents indicated [redacted] may actually be present.

SSA [redacted] then made assignments of personnel, deploying them as follows: SA [redacted] and TFO [redacted] to watch the garage and the stolen Expedition. TFO [redacted] and SA [redacted] were assigned to watch the front of the building. SAs [redacted] and [redacted] and TFO [redacted] were assigned to two positions in the alley way behind the apartment building. SSA [redacted] SAs [redacted] and [redacted] along with TFO [redacted] were designated as the entry team. Before dividing up, SA [redacted] and TFO [redacted] suggested a ruse whereby TFO [redacted] who is black, would pose as a neighbor of apartment 301 who had erroneously received a package for that apartment. This ruse was adopted as the safest, most direct means of ascertaining [redacted] presence and effecting his arrest if so. SSA [redacted] believed that all personnel had their protective vest on. However, other SAs stated that everyone with the exception of TFO [redacted] wore vests.

At approximately 10:00 a.m., the entire arrest team got into position and checked radio communications on both FBI Nextels and CPD radios. After everyone was confirmed in position, SSA [redacted] gave TFO [redacted] the thumbs up sign to knock on the door of apartment 301. TFO [redacted] had a package in his hand that he had picked up from the mail box area in the lobby. The other four SAs were lined up along the wall out of sight of the occupants of 301, all with weapons drawn. TFO [redacted] who was casually dressed with slacks and a sport coat, did not have his gun drawn as he stood with the package. He knocked and there came a muffled response followed by a male asking "What do you want?" TFO [redacted] said he was a neighbor with a package for 301. SA [redacted] recalls hearing children's voices, which TFO [redacted] also heard according to [redacted] as [redacted] signaled to the others with hand signals. After a brief pause, the door to apartment 301 partially opened. TFO [redacted] placed his foot in the door and told the occupant, "Mr. [redacted] I have a package for you." [redacted] responded, "No, no, I don't think so." [redacted] then attempted to close the door. TFO [redacted] SSA [redacted] and SA [redacted] began pushing on the door and announced they were the police, seeing [redacted] now for the first time.

[redacted] then ran from the door toward the rear of the apartment. TFO [redacted] SSA [redacted] and SA [redacted] were in direct pursuit. [redacted] saw [redacted] carrying a chrome-plated

b6
b7C

b6
b7C

handgun as he ran, generally pointing it at the Agents/TFO. [redacted] rounded a corner closely followed by TFO [redacted] and [redacted] both heard TFO [redacted] say, "No, you don't want to do that." Almost contemporaneous with this statement, the Agents heard a single gunshot. SSA [redacted] who had now also rounded the corner, saw TFO [redacted] fall face forward away from him. He saw [redacted] with a handgun in both hands turning from TFO [redacted] and pointing and firing both guns at him, all while [redacted] was falling or lunging for cover. SSA [redacted] and SA [redacted] both returned fire, estimating they each fired four to five rounds. They looked for any available cover and decided to try to round the corner and apprehend [redacted] As SSA [redacted] started toward the corner, he saw two hands with a gun in each, come around the corner low to the floor and start firing again at him and the other Agents. Realizing they had no cover, SSA [redacted] and SA [redacted] then moved to the closest available cover, which was the doorway to the apartment. SSA [redacted] and SA [redacted] instructed SAs [redacted] and [redacted] to call 911.

b6
b7C

SSA [redacted] then began calling into the apartment for TFO [redacted] to determine if he could answer. Hearing no response, he called out for [redacted] or the children, and finally got a response from [redacted] "What do you want?" SSA [redacted] who is trained as a hostage negotiator and is the Division's Hostage Negotiation Coordinator, began dialogue with [redacted] attempting to get immediate medical care to TFO [redacted] would not allow this and eventually asked to speak to his girlfriend, [redacted] During these negotiations, Chicago FBI and CPD SWAT arrived and other tenants near apartment 301 were evacuated. A command post and crisis negotiation center were established in the building and telephonic contact was established with [redacted]

[redacted] girlfriend was brought to the building and allowed to speak with [redacted] on the phone. After further negotiations, [redacted] advised he would allow FBI and CPD personnel to enter the apartment to arrest him and provide medical care to TFO [redacted] and [redacted] First, however, [redacted] wanted to speak with a reporter so he could tell his story. FBI Chicago agreed to allow a reporter two minutes to speak telephonically with [redacted] which he did. Following this discussion, [redacted] agreed to surrender. FBI SWAT in full gear with shields entered the apartment, handcuffed [redacted] and provided security while emergency medical personnel provided care to TFO [redacted] TFO [redacted] was rushed to Northwestern Memorial Hospital in critical condition with a .45 caliber gunshot wound to the left temple. [redacted] was taken to the Cook County Hospital where he was treated for four gunshot wounds, the most serious of which entered his leg and fractured his femur. A grazing chest wound did virtually

b6
b7C

no damage.

There were no civilian eyewitnesses to these events, although three tenants from other apartments called 911 when they heard the gunshots. These tenants were interviewed but none could provide any details other than hearing noises, possibly gunshots.

Crime scene evidence was collected primarily by FBI Chicago Evidence Response Team (ERT) members. They secured the weapons and turned them over to SAC McChesney, who reached an agreement to have the Illinois State Crime Lab conduct ballistics testing on the guns. All other forensic work, including crime scene analysis of bullet paths and trajectories, and special photographic analysis was conducted by FBI Laboratory Division personnel under the direction of [redacted] from the Firearms Unit.

Medical records describing [redacted] initial treatment and assessment were obtained from the Cook County Hospital. Although requested, TFO [redacted] medical records were not obtained with Northwestern Memorial Hospital citing privacy concerns. On Tuesday, September 4, [redacted] was moved from the Cook County Hospital to the medical ward of the Metropolitan Correction Center in Chicago.

SHOOTING INCIDENT
01/12/2001
SALT LAKE CITY DIVISION

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 01/12/2001. Special Agent (SA) [redacted] fired two shots at a fleeing subject during an attempted arrest. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference report of Supervisory Senior Resident Agent [redacted] dated 01/31/2001.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271908-D, 02/26/2001

Details of the Shooting Incident

On the afternoon of Thursday, 01/11/2001, a Salt Lake City Police Department (SLCPD) officer assigned to the FBI sponsored Violent Crimes Task Force (VCTF), received a request from a SLCPD Detective. The request asked for FBI assistance to locate and identify an unknown subject who was responsible for ten armed robberies of commercial establishments in the Salt Lake City area during the past month. After discussing the request with a supervisor and notifying FBI Headquarters of the initiation of the investigation, an Operations Order was prepared for a surveillance operation that same evening.

The operations plan called for law enforcement personnel to surveil various commercial establishments previously robbed by the unknown subject as well as other potential targets. Additional law enforcement personnel would act as roving units to immediately respond to particular locations where unusual activity was observed.

The unknown subject's method of operation in some of the robberies was to steal a vehicle and use the stolen vehicle to commit the robbery. Following the robbery, the subject would return the stolen vehicle to the vicinity where it was stolen.

While conducting surveillance that evening, SLCPD provided surveillance units a list of vehicles stolen that day from the general area of previous robberies and stolen vehicle recoveries. Officer [redacted] and SA [redacted] located an abandoned stolen vehicle in a townhouse parking area near Riverside Drive and Northwood Avenue at approximately 7:00 p.m. Surveillance units set up north and south of the vehicle hoping that the unknown robbery subject would return to the vehicle. Acting Supervisory Special Agent (A/SSA) [redacted] and SA [redacted] were in a Bureau vehicle located north of the stolen vehicle and other SLCPD units were south of the stolen vehicle.

b6
b7C

At approximately 8:00 p.m., SA [redacted] reported to the surveillance scene and parked his Bureau vehicle in an adjacent parking lot next to SA [redacted] vehicle. A/SSA [redacted] who was a passenger in SA [redacted] vehicle, provided SA [redacted] with an update on the surveillance.

Shortly before 9:40 p.m., after discussion among the surveillance units, A/SSA [redacted] decided to have SA [redacted] place a tire spike under the right front tire of the stolen vehicle. This action would deflate the tire if someone attempted to drive away and would hopefully prevent a high speed pursuit if the robbery subject attempted to flee in the stolen car.

As SA [redacted] returned to his Bureau vehicle, SA [redacted] observed an unknown male, whose clothing and physical appearance was similar to the unknown robbery subject, walking in a southern direction toward the stolen vehicle. SA [redacted] notified units in the area of the actions taking place via radio. The unknown subject entered the stolen vehicle and began to drive away. As the vehicle drove toward Redwood Road, SA [redacted] and A/SSA [redacted] began driving in a westerly direction paralleling the stolen vehicle on the north side. SA [redacted] repositioned his vehicle by moving it to a parking location across the street and exited his vehicle.

b6
b7C

As the subject was driving in a westerly direction through the parking area, surveillance units attempted to stop the vehicle. The subject attempted to back up and turn the vehicle to flee. He backed the vehicle on a curb and abandoned the vehicle, fleeing on foot in the direction of SA [redacted] A/SSA [redacted] exited SA [redacted] vehicle and began to run toward SA [redacted] when he heard SA [redacted] shout "He's got a gun." A/SSA [redacted] observed SA [redacted] with his weapon drawn, tracking the subject. Other law enforcement officers heard SA [redacted] yell "Stop." SA [redacted] advised that he repeatedly identified himself to the subject and ordered him to stop. As the subject continued to flee, SA [redacted] fired two shots. After the subject successfully eluded capture, a perimeter was established around the apartment building and a nearby command post was established. A search of the area failed to locate the subject.

A follow-up investigation identified the subject as [redacted] who was subsequently arrested by FBI and SLCPD personnel on 01/17/2001, without incident.

On 02/20/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; William Q. Doherty, Section Chief, Global Counterintelligence Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; and

b6
b7C

To: Inspection From: Inspection
Re: 297-HQ-A1271908-D, 02/26/2001

SSA [redacted] Washington Field Office. Nonvoting members present were SSA [redacted], and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

b6
b7C

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

The only observation made by SIRG members was the fact that SA [redacted] exited his vehicle and left the vehicle running, unlocked and unsecured allowing access to the vehicle as well as his MP-5 shoulder weapon. This matter will be brought to the attention of the Special Agent in Charge of the Salt Lake City Division.

b6
b7C

To: Inspection From: Inspection
Re: 297-HQ-A1271781-D, 06/21/2002

Details of the Shooting Incident

SSA [redacted] had been contacted by the New Jersey State Police (NJSP) regarding the fraudulent lease of four luxury vehicles from an Ohio automobile dealership. In order to assist the NJSP and determine whether or not the lessees of the vehicles were connected to a Nigerian group being investigated by the Newark Division for similar activities, SSA [redacted] assigned SA [redacted] and United States Customs Service SA [redacted] to follow up on information provided by the NJSP. The Agents located and recovered two of the vehicles prior to this shooting incident. b6 b7C

Using a pretext of delivering license plates to the operator of a leased Mercedes-Benz, SAs [redacted] and [redacted] arranged to meet the operator of the vehicle in a parking lot in East Orange, New Jersey. The purpose of the meeting was to attempt to interview the vehicle's operator regarding the facts and circumstances of the vehicle lease. New Jersey State Police officers had determined that the driver's licenses used to effect the lease of the vehicles were fictitious.

Upon their arrival into the parking lot, SAs [redacted] and [redacted] waited for the vehicle operator in the pre-arranged parking area. The subject vehicle, driven by an individual later identified as [redacted] arrived accompanied by a passenger who was later determined to be [redacted] Subsequent to the arrival of the subject vehicle, the passenger exited the car while [redacted] remained inside the vehicle with the driver's side front door open. As SAs [redacted] and [redacted] approached, [redacted] began to flee the scene and [redacted] placed the vehicle in reverse, striking SA [redacted] with the door. Placing the car in forward, [redacted] also struck SA [redacted] who landed on the hood of the vehicle. While holding on to the hood of the car, SA [redacted] continually identified himself as a law enforcement officer; however, the subject did not respond and continued to drive the vehicle with the driver's side door open. SA [redacted] drew his weapon and fired five shots into the vehicle's front windshield. Four of the shots entered the front windshield of the subject's vehicle, while the fifth shot ricocheted off of the vehicle's hood vent. The driver of the subject vehicle was struck in the arm and the Mercedes-Benz crashed into a parked car. Following a struggle, [redacted] was apprehended by the Agents and two off-duty police officers. b6 b7C

[redacted] was treated at University Hospital, released and detained in the county jail.

A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, dated

Savage-1762

08/14/2001, regarding SA [redacted] actions in this shooting incident. Subsequent to the subject's trial in the United States District Court, District of New Jersey, where the subject was convicted on two counts of Assault on a Federal Officer and two counts of Mail Fraud, SA [redacted] provided a signed sworn statement regarding his involvement in the shooting incident.

On 08/14/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Inspection Division, Office of Inspections; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Deputy Chief, Civil Rights Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; William Q. Doherty, Section Chief, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; [redacted], Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted], Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and SSA [redacted] Washington Field Office. The only nonvoting member present was SSA [redacted] Inspection Management Unit, Office of Inspections, Inspection Division.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

SHOOTING INCIDENT
07/05/2001
HOUSTON DIVISION

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 07/05/2001, involving Special Agent (SA) [redacted] SA [redacted] confronted four individuals believed to be suspects in a probable carjacking when two of the individuals stopped and turned toward him in an aggressive and threatening manner. Fearing for his safety, SA [redacted] fired one round from his .40 caliber Glock, model 22 pistol. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference report of Supervisory Special Agent (SSA) [redacted] dated 07/26/2001.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271511-D, 10/16/2001

Details of the Shooting Incident

On 07/05/2001, members of the Special Operations Group (SOG), augmented with aerial support, were conducting a drug surveillance in northeast Houston. At approximately 1:30 p.m., SA [redacted] was parked at an intersection when he observed three vehicles approaching. The vehicles drove past SA [redacted] vehicle, then stopped. In his driver's side mirror, SA [redacted] observed four to six black males exit the vehicles and approach his vehicle. When the individuals were approximately 10 to 12 feet from SA [redacted] vehicle, he observed one of the males carrying a pistol. SA [redacted] immediately placed his vehicle in gear and sped away from the area. SA [redacted] contacted Team Leader [redacted] and informed him of what had transpired. SA [redacted] was instructed to dial 911 and notify the Houston Police Department (HPD) of the incident.

b6
b7C

SA [redacted] and members of the drug surveillance team, including the surveillance aircraft, attempted to locate the three vehicles. SA [redacted] remained in the area pending arrival of HPD marked units. Upon the arrival of HPD officers, SA [redacted] advised the officers that the SOG surveillance units observed the males drive to an apartment complex at 5500 Collingsworth. When the HPD marked units approached the apartment complex, six to eight black males began running. SA [redacted] drove to the apartment complex and observed three red vehicles, two of which he believed were the ones he previously observed near his vehicle.

SA [redacted] advised via radio that at least two of the fleeing individuals were wearing red shirts and holding their sides as if to cradle a weapon, to keep it from falling out of their waistbands. Another Agent advised the fleeing individuals crossed a street and were cutting through the parking lot of another apartment towards a public school. SA [redacted] drove through the open gates of the school entrance, and upon seeing him, four individuals ran in the opposite direction. SA [redacted] drove his Bureau vehicle to the southeast corner of the school building, exited the vehicle, and proceeded to a covered concrete walkway. Viewing the four black males running along the east side of the school, SA [redacted] shouted, "Police, Stop". Two of the individuals stopped and faced SA [redacted] with their hands at their sides, in a bladed stance. According to SA [redacted] although the two individuals stopped as commanded, the manner in which they stopped was threatening. Fearing for his safety, SA [redacted] fired one round from his .40 caliber Glock, model 22. All of the subjects scaled a cyclone fence into a wooded area. SA [redacted] returned to his vehicle and departed the school grounds in an attempt to locate the

b6
b7C

subjects. Several minutes later, SA [redacted] stated that a black male wearing a red shirt hopped over a fence located on the east side of the school and was walking towards the north side of the school. SA [redacted] returned to the school's north parking lot and detained the individual until HPD assistance arrived.

No injuries were sustained as a result of this shooting incident.

On 08/14/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Inspection Division, Office of Inspections; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Deputy Chief, Civil Rights Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; William Q. Doherty, Section Chief, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; [redacted], Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and SSA [redacted] Washington Field Office. The only nonvoting member present was SSA [redacted] Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary. b6 b7C

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

**Title:** ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
10/12/2001
HONOLULU DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred 10/12/2001, involving Special Agent (SA) [redacted] SA [redacted] fired one shot from his Bureau-approved Glock .40 caliber pistol during the attempted arrest of an individual wanted on drug and firearm related charges. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference report of Supervisory Special Agent (SSA) [redacted] dated 12/04/2001.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271508-D, 02/13/2002

Details of the Shooting Incident

On 10/12/2001, at approximately 5:00 p.m., SA received a telephone call from SA advising he had received information that an individual identified as currently wanted by the FBI on drug and firearm related charges, was at a storage locker facility several blocks from the Honolulu Division office space. SA requested SA assistance in locating and apprehending SA also accompanied SAs and in an effort to locate and arrest the fugitive. b6 b7C

As SAs and departed the office for the storage facility, SA explained the layout of the building. SA also advised that he and SA would approach the subject directly and make the arrest while SA covered the exit in case attempted to run.

Upon their arrival at the storage facility, SA re-emphasized the arrest plan to SAs and and stated that safety was the number one concern. The Agents entered through a locked electronic door for which SA had the combination. of the storage facility exited and explained to SA that the subject had left the building prior to their arrival. advised that was with a second individual and was "hysterical" as the two departed the building. She provided the Agents with a Hawaii license plate number and a description of the vehicle used by the subject.

Further investigation determined that the license plate number provided by belonged to a vehicle registered to with a Kaneohe address. The Agents decided to attempt to locate discussing several possible locations of where he may have went. As the Agents stopped for a red light at the intersection of Ala Moana Boulevard and Atkinson Drive, they saw a blue Camaro stopped four cars in front of them, in the far right turn lane. As the blue Camaro moved forward and prior to turning right onto Atkinson Drive, the Agents confirmed the license plate as that of confirmed that the driver of the vehicle was and determined that a passenger was in the vehicle with him. SA instructed SA to follow and place a call to the Honolulu Police Department for a police vehicle to assist in the apprehension. b6 b7C

The Bureau vehicle and the suspect's vehicle were in the second to far left lane. As both cars stopped due to traffic, SA suddenly pulled to the left at a slight angle next to s vehicle. SA was close to the subject's vehicle rendering SA incapable of exiting the passenger side front door. SA suddenly jumped out of the driver's side door of

the Bureau vehicle and proceeded to the front of [redacted] vehicle with his weapon drawn. SA [redacted] reacted and exited the Bureau vehicle through a narrow opening at the rear passenger door. As SA [redacted] exited the Bureau car and proceeded to the back of [redacted] vehicle, he drew his weapon and shouted, "FBI, stop the car, you are under arrest!" SA [redacted] also heard SA [redacted] shouting commands for [redacted] to stop the vehicle. As traffic began to move, [redacted] vehicle lunged forward and stopped several times. SA [redacted] grabbed the rear spoiler of [redacted]'s vehicle for balance and for the second time hit the lower part of the back window with his weapon. As he hit the window a third time, the top part of the back window of the subject's vehicle shattered. SA [redacted] could see light from inside the vehicle and observed [redacted] turn around and face him from the driver's seat with his right hand partially raised. SA [redacted] observed a silver, shiny object in [redacted] right hand. Fearing for his safety, SA [redacted] raised his weapon, focused on [redacted] and fired one round through the lower portion of the back window into the vehicle. [redacted] immediately sped away. The Agents returned to their office space after an unsuccessful search for [redacted]

b6
b7C

On 01/08/2002, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Unit Chief, Asia, Middle East and Africa Unit, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Undercover and Sensitive Operations Unit, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; and SSA [redacted] Washington Field Office. The only nonvoting member present was SSA [redacted] Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

Members of the SIRG made several observations regarding this incident including the fact that the Agents did not utilize protective armor although this was not a spontaneous arrest. Members also noted that the participating Agents had no visible identification other than a belt badge.

The second observation pertained to participants having no contingency plan for a car stop. Members noted the Bureau vehicle pulled close enough to the subject's vehicle that one Agent could not exit and assist the other Agents on the scene. Members opined that vehicle stops should be used as a last resort and discussed the fact that this stop took place in a densely populated area with many innocent bystanders in the area. b6 b7C

SIRG members noted that SA [redacted] used his weapon as a club in order the break the subject vehicle's window and that the Agents improperly abandoned the scene of the shooting. It was also noted that, due to the positions taken by SAs [redacted] and [redacted] they could have been subject to cross fire resulting in serious injury. Based on these observations, members recommended that the Agents receive additional training in properly conducting vehicle stops. These observations will be addressed with the Special Agent in Charge of the Honolulu Division.

**Title:** ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
08/28/2001
CHICAGO DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 08/28/2001, involving Supervisory Special Agent (SSA) [redacted] and Special Agent (SA) [redacted] Both Agents fired shots injuring a subject who shot a Task Force Officer (TFO) in the head during his attempted arrest. SIRG members recommended that no administrative action be taken against SSA [redacted] and SA [redacted] as a result of their involvement in this shooting incident. b6 b7C

**Administrative:** Reference report of Inspector [redacted] dated 09/05/2001.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

**Details of the Shooting Incident**

On 08/17/2001, a Charter One Bank located in Chicago was robbed by a lone black male who stated that he had a gun; however, never displayed the weapon during the robbery. On 08/24/2001, this same gunman, later identified as [redacted], again robbed the Charter One Bank. On the second occasion, the subject displayed a "large, silver" handgun. An employee of the bank watched the subject leave the area in a Ford Expedition with dealer plates. Investigation revealed that [redacted] had taken the Expedition used in the robbery for a test drive the morning of 08/17/2001, and provided his true name and an address of [redacted] in Chicago.

On the evenings of 08/24 and 08/25, physical surveillance was established at the Dauphin Street address, however, [redacted] was not observed in the area. A federal criminal complaint and arrest warrant were obtained for [redacted] on 08/25/2001.

After preparing an operations plan to approach the [redacted] Street address and arrest [redacted] if he was there, surveillance continued on 08/27/2001. An arrest plan was finalized and approved using six SAs to approach the residence and arrest [redacted] on the following morning.

At approximately 7:00 a.m., on 08/28/2001, SA [redacted] and five additional SAs approached the [redacted] Street address and spoke with [redacted] and [redacted]. Both advised the Agents that [redacted] had lived at the address for a while, but had not been there since 08/17/2001. The occupants allowed Agents to search the house, including the room [redacted] had stayed in and the personal effects that he had left behind.

During the search, several items were located regarding [redacted] possible whereabouts. Among the items found was a letter addressed to [redacted] at a South Wabash Street address, [redacted] identified [redacted] as [redacted]. Additionally, receipts for ammunition commonly used in AK-47 assault rifles and 30.06 rifles were located as well as an empty soft cover for a long weapon and military camouflage shirts and a hat similar to the one worn by the bank robbery suspect in both Charter One Bank robberies.

Based on the items located, SA [redacted] advised his supervisor that he and SA [redacted] were going to drive by the South Wabash Street address to look for the stolen Expedition. Upon their arrival, SAs [redacted] and [redacted] obtained permission from the building manager to look inside the parking garage at the building and located the vehicle. SA [redacted] looked

b6
b7C

b6
b7C

through the windows of the vehicle and observed a black duffel bag similar to one used in the bank robberies, a camouflage shirt and a hard case for a long weapon which was partially covered by a blanket. SA [redacted] saw several other items in the vehicle indicating that it had not been abandoned.

SA [redacted] contacted SSA [redacted] advising that he had located the Expedition and requested additional Agents/TFOs to respond to his location for a possible arrest. Available SAs were sent to the scene and a request was made to the Fugitive Task Force supervisor for an additional three bodies. The Task Force supervisor provided one SA and two TFOs. SSA [redacted] also responded to a staging area one block from the apartment building and briefed other participants on the information received from SA [redacted] TFO [redacted] and SA [redacted], drove into the garage in a police vehicle and blocked the Expedition. b6 b7C

Between 9:30 and 9:45 a.m., all Agents and TFOs walked to the parking garage on South Wabash where SSA [redacted] and SA [redacted] briefed participants on [redacted] background including his known violent tendencies and disseminated an arrest photograph of him. During the briefing, both Agents discussed various options and scenarios to effect [redacted] arrest if he was in the apartment.

Assignments were made by SSA [redacted] with SA [redacted] and TFO [redacted] assigned to watch the garage and the Expedition; TFO [redacted] and SA [redacted] assigned to watch the front of the building, and three SAs and one TFO assigned to positions in the alleyway behind the apartment building. SSA [redacted] along with SAs [redacted] and [redacted] and TFO [redacted] were designated as the entry team. Prior to deploying to their respective assignments, SA [redacted] and TFO [redacted] suggested a ruse where TFO [redacted] a black officer, would pose as a neighbor of [redacted] (possibly housing [redacted] who had erroneously received a package intended for [redacted]

At approximately 10:00 a.m., the entire arrest team proceeded into position and checked radio communications on both FBI Nextels and Chicago Police Department radios. After everyone was in position, SSA [redacted] gave TFO [redacted] the signal to knock on the door of [redacted] TFO [redacted] was carrying a package and the four SAs were lined up along the wall, out of sight of the occupants of the apartment, with weapons drawn. As TFO [redacted] knocked there was a muffled response followed by a male asking "What do you want?" TFO [redacted] stated that he was a neighbor with a package for the apartment. SA [redacted] and TFO [redacted] heard children's voices in the apartment. After a brief pause, the door was partially opened and TFO [redacted] placed b6 b7C

his foot in the door and said, "Mr [redacted], I have a package for you." [redacted] responded, "No, no. I don't think so." As [redacted] attempted to close the door TFO [redacted] SSA [redacted] and SA [redacted] began pushing on the door announcing they were the police.

[redacted] ran from the door toward the rear of the apartment with the three law enforcement officers in pursuit. SSA [redacted] saw [redacted] carrying a chrome-plated handgun as he ran, pointing it at them. As [redacted] rounded a corner closely followed by TFO [redacted] SSA [redacted] and SA [redacted] heard TFO [redacted] say, "No, you don't want to do that." Almost simultaneously with the statement, the Agents heard a single gunshot. SSA [redacted] who had rounded the corner, observed TFO [redacted] fall face forward away from him. Seeing [redacted] with a handgun in both hands turning from TFO [redacted] and pointing and firing both guns at him, SSA [redacted] and SA [redacted] returned fire. Searching for available cover, both Agents decided to attempt to round the corner and apprehend [redacted] As SSA [redacted] started toward the corner, he saw two hands, with a gun in each, come around the corner low to the floor and began firing again. SSA [redacted] and SA [redacted] moved to the closest available cover which was the doorway to the apartment where they instructed SAs [redacted] and [redacted] to call 911.

SSA [redacted] began calling into the apartment for TFO [redacted] to determine if he could answer. Hearing no response, SSA [redacted] called out for [redacted] or the children in the apartment, finally getting a response from [redacted] SSA [redacted] a trained hostage negotiator and the Chicago Division's Hostage Negotiation Coordinator, began dialogue with [redacted] attempting to obtain immediate medical care for TFO [redacted] [redacted] would not allow medical attention to be provided to TFO [redacted] and eventually asked to speak with his girlfriend. [redacted] girlfriend was brought to the building and allowed to speak with [redacted] telephonically. After further negotiations, [redacted] advised that he would allow FBI and Chicago Police Department personnel into the apartment to arrest him and provide medical care to TFO [redacted] and himself after he spoke with a reporter. Law enforcement personnel allowed [redacted] to have a two minute conversation with a reporter before he surrendered. FBI Special Weapons and Tactics (SWAT) Team members, in full gear with shields, entered the apartment, handcuffed [redacted] and provided security while emergency medical personnel provided care to TFO [redacted] TFO [redacted] was transported to the Northwestern Memorial Hospital in critical condition with a .45 caliber gunshot wound to the left temple. [redacted] was transported to the Cook County Hospital where he was treated for four gunshot wounds.

b6
b7C

b6
b7C

As of 11/15/2001, TFO [redacted] had emerged from a coma and was scheduled to be transferred to the Rehabilitation Institute of Chicago.

A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, dated 09/21/2001, regarding SSA [redacted] and SA [redacted] actions in this shooting incident. By letter dated 09/06/2001, Supervisor [redacted] Felony Review Unit, Office of the State Attorney, Cook County, Illinois, advised that his office would recommend that there be no filing of criminal charges in this matter. b6 b7C

On 11/13/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Inspection Division, Office of Inspections; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; [redacted] Unit Chief, Asia, Middle East and Africa Unit, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and SSA [redacted] Washington Field Office. Nonvoting members present were SSA [redacted] and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary. b6 b7C

SIRG members unanimously agreed that the use of deadly force by SSA [redacted] and SA [redacted] was justified and in conformance with the deadly force policy.

SIRG members expressed several concerns about the shooting incident including the fact that TFO [redacted] the first law enforcement officer to enter the apartment, was not utilizing

a ballistic protective undergarment. Additionally, members noted that SA [redacted] was wearing personally owned body armor on the day of the incident, not a Bureau-issued vest.

The second observation made by SIRG members pertained to the lack of details contained in the arrest plan including the fact that participants were not overtly identified as law enforcement officers; no use of SWAT personnel or shields during the apartment entry and the use of a dynamic entry knowing that children were present in the apartment.

Members noted that SA [redacted] weapon contained fourteen rounds, however, he had no extra magazines in his possession on the day of the shooting incident. Although not critical in the final phase of this incident, this action could prove problematic in future situations. b6 b7C

Lastly, the SIRG recognized that SSA [redacted] had received no deadly force training in the past year.

These observations will be provided to the Special Agent in Charge of the Chicago Division to ensure they do not recur.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
08/31/2001
MIAMI DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 08/31/2001, involving Special Agent (SA) [redacted] SA [redacted] fired four shots from a Bureau-issued M4 rifle, injuring a subject involved in a law enforcement planned attempted hijacking of a tractor trailer purported to contain computer parts. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference report of Inspector-in-Place [redacted], dated 09/14/2001.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271748-D, 11/30/2001

Details of the Shooting Incident

On 08/10/2001, the Miami Cargo Theft Task Force (CTTF) received information from a [redacted] that he was approached by [redacted] inquiring about any known robbery targets of which he knew. [redacted] advised that he had two associates, one identified as [redacted] who were willing to assist him in conducting armed robberies and that he had a fully automatic AK-47 assault rifle and law enforcement paraphernalia in which to carry out these crimes. [redacted] that he might have some work for him in the near future and subsequently advised the CTTF of [redacted] inquiry.

b6
b7C
b7D

[redacted]

[redacted] that he had knowledge of a shipment of computer parts valued at approximately two million dollars. The UCO asked [redacted] if he was interested in committing an armed hijacking and if he and his associates were capable of doing the job. [redacted] replied yes, and continued to explain that this was his type of work which he had done many times. [redacted] also advised the UCO that he had several shirts labeled "FBI" and equipment to execute the robbery. The UCO asked [redacted] if he was willing to kill the truck driver to which [redacted] responded, "Don't worry about the driver, I'll take care of him." [redacted] at a later meeting that he would kill the driver if necessary, however, his plan was to place the driver in the trunk of his car.

b6
b7C
b7D

[redacted] who reiterated his desire to commit the robbery. [redacted] stated that, on the evening of the hijacking, he would drive a Ford Taurus equipped with a blue flashing police light, wear a shirt labeled "FBI" and would be armed with a Glock .40 caliber semi-automatic pistol. The UCO told [redacted] that he would direct him to the location of the tractor trailer containing the computer parts where [redacted] and his associates would commit the armed hijacking.

[redacted]

black shirts with white "FBI" lettering, a tactical holster, a

semi-automatic pistol, ballistic vests, baseball style caps labeled "FBI", a Military Armament Corporation, a MAC-10 machine gun pistol which [redacted] claimed to be fully automatic and an AK-47 assault rifle.

On the same date, SA [redacted] prepared an Operations Plan to arrest the subjects of the proposed hijacking which was approved by ASAC Ricardo Martinez and the Assistant Director of the MDPD. b6 b7C b7D

[redacted] to finalize the logistics for the armed hijacking which was planned for 08/30/2001. [redacted] stated to them that he was ready and willing to commit the hijacking.

On 08/30/2001, at approximately 10:30 a.m., a briefing was held by the CTTF to review the Operation Plan, which included background and photographs of the subjects, their criminal histories and propensity for violence, a description of the clothing that the individuals may be wearing and possible weapons being used, as well as the Bureau's Deadly Force Policy.

Several Special Weapons and Tactics (SWAT) members conducted a site survey of the target location, identified as an [redacted] b7E

Subsequent to placing an empty tractor trailer at the warehouse site and holding additional briefings which included FBI and MDPD personnel, the SWAT Team traveled to the commercial warehouse park where they assumed positions on the rooftops of the east and west buildings, behind the north wall and at the entrance to the warehouse. The team rehearsed approximately four arrest scenarios encompassing a variety of possible situations that may be encountered. Included in the rehearsals were the responsibilities of each tactical member and negotiators as well as the order of commands and by whom they would be given. At the conclusion of the rehearsals, SWAT members repositioned themselves at their designated locations. b6 b7C b7D

[redacted] in the vicinity of the warehouse. [redacted] and a second black male, later identified as [redacted] discussed the

hijacking with the [redacted] and [redacted] left the area for approximately fifteen minutes and returned to the Mobil station where they displayed the MAC-10 machine gun pistol, their "FBI" shirts and other paraphernalia. [redacted] drove to the warehouse location with [redacted] and [redacted] following, where they identified the location of the tractor trailer to be hijacked. The UCO advised [redacted] that the driver of the tractor trailer would be asleep in the truck and that he could not participate in the hijacking for fear of being recognized by the driver.

b6
b7C

At approximately 3:15 a.m., [redacted] and [redacted] traveled to the warehouse complex, parked the vehicle on the southeast side of the facility and entered the warehouse lot approaching the target tractor trailer, which was idling. SWAT members observed [redacted] carrying the MAC-10 in his right hand. SA [redacted] observed the subjects knock on the truck cab announcing they were the FBI. As participants received the word to execute the arrest plan, a Miami Division negotiator announced the presence of law enforcement personnel over a bullhorn and commanded the subjects to surrender. Simultaneous with the announcement, SWAT members located on the building rooftops raised over the building's parapet, addressing their lanes of responsibility. As the subjects turned in the direction of the negotiator's voice, SA [redacted] observed [redacted] exposing the muzzle of his weapon toward positions of other SWAT members. SA [redacted] believing that [redacted] was possibly going to fire his weapon at one of the team members, fired his shoulder weapon four times, striking [redacted] Both subjects went to the ground and were taken into custody. SWAT medical personnel responded to [redacted] to provide medical attention. [redacted] was later airlifted to Jackson Memorial Hospital where he underwent two surgical procedures and was listed in critical condition.

The MDPD Homicide Unit responded to the scene and conducted the shooting investigation with the assistance of members of the Miami Division's Shooting Response Team.

b6
b7C

A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, dated 11/01/2001, regarding SA [redacted] actions in this shooting incident. On 09/19/2001, the Miami-Dade Assistant State Attorney advised that, based on details provided to him by the MDPD about the shooting incident, he would decline any criminal charges on SA [redacted]

On 11/13/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director

Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Inspection Division, Office of Inspections; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; [redacted], Unit Chief, Asia, Middle East and Africa Unit, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and SSA [redacted] Washington Field Office. Nonvoting members present were SSA [redacted] and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

SIRG members made several observations about this shooting incident, the most notable pertaining to the serious administrative deficiencies exhibited by the Executive Management of the Miami Division prior to the arrival of the Shooting Incident Review Team dispatched by FBIHQ.

The first area of concern involved the FBI surrendering the crime scene to the MDPD due to an agreement made in advance regarding scene processing. Instructions were issued by the Special Agent in Charge (SAC) for Agents involved in the incident to pair up with a Miami Shooting Incident Review Team member and be interviewed by MDPD members. SIRG members emphasized the fact that local law enforcement agencies are not familiar with FBI policies and procedures and that any interviews should have been conducted in the presence of MDPD members as well as FBI personnel. Conducting joint interviews eliminates the necessity

for multiple statements. Members emphasized the need for the Miami Division to revisit any Memorandum of Understanding with local law enforcement to ensure these issues are immediately addressed. It was also noted that the SAC did not instruct Agents involved in the incident to remain in the Division to be interviewed by the Inspection Division Shooting Incident Review Team because he did not think it was necessary for FBIHQ to dispatch a team to the Miami Division.

The second area of discussion by the SIRG revolved around the lack of documentation of SWAT personnel qualification scores as well as the lack of documented deadly force training. The Miami Division Principal Firearms Instructor (PFI) provided firearms qualification scores for SA [redacted] for the period of 01/01/2000 through 09/04/2001. There was no official record of any qualification scores for SA [redacted] regarding the weapon involved in the shooting. However, the Senior SWAT Team Leader produced a document indicating that SA [redacted] qualified (scored 90 or better) with an M-4 during a SWAT firearms qualification held 06/10/2001 to 06/13/2001. SIRG members opined that all qualification scores should be submitted to the PFI for inclusion into the computer system to ensure the accuracy and completeness of official firearms records.

b6
b7C

The last documented Annual Mandatory Deadly Force Training occurred during the period of 07/06/2000 - 08/03/2000. Records indicated that SA [redacted] participated in that scheduled deadly force training; however, SIRG members noted the absence of documented SWAT deadly force training. The Senior SWAT Team Leader indicated in an interview that he provided instruction on deadly force policy during SWAT team firearms sessions, however, the training was not documented. Members opined that the SAC of the Miami Division must ensure that each Agent receives the Annual Mandatory Deadly Force Training and that this training is properly documented by the Chief Division Counsel, as required.

The Training Division representative noted that the FD-302 pertaining to SA [redacted] included information that the weapon (MAC-10) of the injured subject was kicked away. He explained to SIRG members that a MAC-10 fires from open bolt and could have fired if loaded.

These observations will be provided to the SAC of the Miami Division to ensure they do not recur.

To: Inspection From: Inspection
Re: 297-HQ-A1271480-D, 05/07/2002

Details of the Shooting Incident

Local and state law enforcement officials had been investigating Grover Thomas Crosslin and his Rainbow Farm Campground for a lengthy period of time. Crosslin, a long time advocate of the legalization of marijuana, frequently hosted weekend "concerts" on the property. He advertised his farm as an alternative campground and concert arena.

The investigation culminated in the execution of a search warrant in May 2001, arresting Crosslin. At that time, Crosslin and his homosexual partner, Rollin Eugene Rohm, were charged with multiple drug violations. Crosslin was specifically charged with manufacturing marijuana, more than 200 plants; maintaining a drug house; felony firearms possession during the commission of a crime; and firearms possession by a felon. The initial charges for Rohm included manufacturing marijuana, more than 200 plants; maintaining a drug house and felony firearms charges, the last two being dismissed in June 2001. This incident also resulted in the removal of Rohm's son from the residence shared by Rohm and Crosslin.

Local prosecutors initiated asset forfeiture actions against Rainbow Farm and sought and received a restraining order prohibiting Crosslin from hosting any "festivals" at the farm. In violation of the court order, Crosslin hosted a festival on 08/17 and 08/18/2001. This incident resulted in Crosslin being ordered to appear in court on 08/31/2001, to show cause why he should not be held in contempt of court for violating the restraining order.

On 08/31/2001, at approximately 12:00 p.m., a report was received by the Cass County Sheriff's Office (CCSO) that a building at the Rainbow Farm was on fire. As fire, ambulance and law enforcement personnel began to respond to the fire, the CCSO received a telephone call advising that Crosslin may be setting up an ambush for the first responders. The caller advised that one half hour earlier, Crosslin was seen dressed in camouflage attire, was allegedly armed, and told a neighbor to get out of the area because "there's going to be trouble". According to the caller, Crosslin allegedly stated "They weren't going to take them alive". With this knowledge and for personal safety, units responded to the area but staged down the road away from Rainbow Farm.

Unknown to officers at the time, on 08/29/2001, Crosslin had posted a notice on the Rainbow Farm website that the Labor Day weekend campout had been called off due to "bad government" intervening and closed the campground. During the preceding 24 hours, Crosslin had also told a few neighbors not to

be around over the weekend because "all shit's going to break loose". Additionally, reports advised that Crosslin contacted individuals on the evening of 08/30/2001, telling them goodbye and saying that they would probably never see him again.

At approximately 1:30 p.m., on 08/31/2001, a helicopter belonging to WNDU television studio in South Bend, Indiana, was flying over Rainbow Farm filming two fires burning on the property. Officers in the staging area heard gun fire and believed that Crosslin and/or Rohm may be firing at the helicopter. Officers located a WNDU ground crew who notified the helicopter pilot to immediately depart the area. When the helicopter landed in South Bend, an examination of the aircraft revealed that it had been hit with one bullet hole in the right side, horizontal stabilizer. Upon confirmation that the helicopter had been hit, and in view of the federal jurisdiction connected with the destruction of aircraft, the CCSO notified the St. Joseph, Michigan, Resident Agency (RA) and requested assistance from the Michigan State Police (MSP).

MSP personnel responded to the scene, as well as SA [redacted] of the St. Joseph RA, to monitor the situation. SA [redacted] also advised Senior Supervisory Resident Agent (SSRA) [redacted] in Grand Rapids of the situation, who in turn notified Executive Management in Detroit.

b6
b7C

On 09/01/2001, the MSP was primarily responsible for maintaining a perimeter around Rainbow Farm with resources including a fixed-wing aircraft and light armored vehicles. SSRA [redacted] arrived on the scene and was requested to provide assistance to the MSP at the site. After consultation with Detroit Executive Management, a decision was made to put Detroit's Special Weapons and Tactics (SWAT) personnel on standby until additional information could be obtained regarding FBI jurisdiction prior to authorizing SWAT deployment. Consultation with an Assistant United States Attorney in the Western District of Michigan disclosed federal jurisdiction existed for Destruction of Aircraft charges against Crosslin.

On 09/01/2001, gun shots were heard when an MSP airplane flew over the Rainbow Farm and similar gun shots were heard when a civilian aircraft flew near the area. Efforts by MSP personnel to initiate telephonic contact with Crosslin or Rohm had proven unsuccessful and loud speakers were placed in the woods near the property in order to speak to Crosslin. Crosslin responded by shooting in the area of the speakers.

On the morning of 09/02/2001, Detroit Executive Management arrived on the scene, and following discussions with

the MSP District Commander, his SWAT Team Leader, SWAT Coordinator, Chief Division Counsel and SSRA [redacted] SAC John E. Bell, Jr., committed FBI resources to assist the MSP. An agreement was reached that the FBI would assume control of the tactical situation at approximately 7:00 p.m., on 09/02/2001, for a 24-hour period, relieving the MSP who had been on the scene since 08/31/2001. Efforts to establish communication with Crosslin and Rohm throughout the evening were unproductive. b6 b7C

An acquaintance of Crosslin's, who had been in the residence multiple times while law enforcement authorities were on the scene, agreed to act as an intermediary between the subjects and law enforcement. The acquaintance again entered the residence on 09/03/2001, and subsequently advised law enforcement personnel that Crosslin and Rohm were becoming frustrated because they wanted to talk to "their son" [redacted] The individual also advised that both subjects were carrying around rifles inside the residence and that he saw several boxes of ammunition in the house.

During the early afternoon of 09/03/2001, another young acquaintance of Crosslin's decided on his own to go to the farm and try to talk Crosslin into either giving up or running away. As he arrived, he was invited into the home by Crosslin and Rohm. Subsequent to the shooting incident, this individual also advised law enforcement personnel that Crosslin had shown him a wire inside the residence that was rigged to blow up or burn the house down. Crosslin also stated that the yard was mined and he had done that in preparation of a police stand off. Crosslin also stated to the acquaintance that he and Rohm would like to take a couple of them (indicating police) with them.

At approximately 2:30 p.m., one of the acquaintances, who had advised that the residence had no operational phone on the property, re-entered the residence and spoke to Crosslin about accepting a phone from the FBI to which Crosslin agreed.

At approximately 3:30 p.m., Crosslin and one of the acquaintances departed Crosslin's residence to go to a neighbor's residence to get food and supplies. Both individuals traveled down a path passing by the position of three Agents. SA [redacted] observed Crosslin carrying a Mini 14 rifle. As SA [redacted] retreated from the path as quietly as possible, gaining the cover of a tree, both individuals stopped momentarily beside the campsite; however, did not spot the Agents. They proceeded to the neighbor's residence where Crosslin forced his way in, removing a number of items and walking back to the farm. b6 b7C

At approximately 4:30 p.m., the acquaintance that had convinced Crosslin to accept the phone from the FBI, re-entered the residence with the phone. He initiated a call from inside the residence to the negotiation operations center and advised that Crosslin wanted him to talk to the FBI on his behalf and tell them that Crosslin wanted to talk to his son. Crosslin refused to talk to the negotiators directly and indicated that he would not talk to them until he talked to his son. After several failed attempts to initiate conversation with Crosslin, the acquaintance left the residence taking the telephone with him.

Shortly after 5:00 p.m., Crosslin realized that when he and his friend got the coffee maker from the neighbor's house, he forgot to get the coffee pot. Crosslin asked the friend to return to the neighbor's residence for the pot; however, he refused telling Crosslin that he was not sure of the way and he was concerned about the trip wires and buried mines that Crosslin claimed to have placed along the trails. Crosslin eventually agreed to go with the individual to obtain the coffee pot and advised that upon their return he would walk him off the property. Approximately halfway back to his residence, Crosslin wanted to stop and rest. As they were resting, Crosslin suddenly said, "Did you hear that?" Crosslin stood up, turned around and radioed on a handy talkie to Rohm, "Incoming." Crosslin began walking, stopped briefly, looked in a trash can in the campsite, then continued walking through the campsite area. SA [redacted] observed the movements of Crosslin, realizing that if Crosslin continued walking in the direction he was going, he would run into SA [redacted] SA [redacted] observed Crosslin suddenly stop with a startled look on his face, looking directly at SA [redacted] position. Crosslin raised the Mini 14 to his shoulder and leaned forward in a shooting position with his finger in the trigger guard. Believing that Crosslin was going to fire at SA [redacted] SA [redacted] began squeezing the trigger on his M-16. Before he could fire, SA [redacted] heard two shots and Crosslin dropped. SAs [redacted] and [redacted] confirmed to SA [redacted] that each of them fired one shot from their weapons. b6 b7C

Medics responded to the scene and confirmed that the individual accompanying Crosslin had not been shot and was not injured beyond minor scratches.

The Medical Examiner was contacted, arrived on the scene and pronounced Crosslin dead. It was subsequently determined that the shot fired by SA [redacted] was a fatal gunshot wound to the head and the shot fired by SA [redacted] passed through a small tree with fragments causing the other injuries incurred by Crosslin.

It should also be noted that the MSP assumed the sniper/observer positions as well as perimeter responsibilities later that evening continuing active negotiations with Rohm. However, in a confrontation with the MSP the following morning, Rohm was also shot and killed by MSP snipers.

A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, dated 12/11/2001, regarding the actions of the two Agents involved in the shooting. Contact with the Prosecuting Attorney of Cass County, Michigan, revealed that his office would not conduct an independent investigation concerning the shooting incident nor would he convene a grand jury to hear evidence in the matter. The State of Michigan Attorney General's Office also concurred with the declination.

By Electronic Communication dated 03/25/2002, received in the Inspection Division on 04/02/2002, signed sworn statements for SAs [redacted] and [redacted] were provided regarding the incident.

On 11/13/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Inspection Division, Office of Inspections; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; [redacted], Unit Chief, Asia, Middle East and Africa Unit, National Security Division; [redacted], Unit Chief, Firearms Training Unit, Training Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and SSA [redacted], Washington Field Office. Nonvoting members present were SSA [redacted] and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning

training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SAs [redacted] and [redacted] was justified and in conformance with the deadly force policy. b6 b7C

The only observation made regarding this incident pertained to the large number of SWAT personnel within the Detroit Division hitting below the 90% qualification level during firearms training. The Training Division representative emphasized the fact that the SWAT marksmanship standard is 90% on all courses of fire. This concern will be addressed with the Special Agent in Charge of the Detroit Division.

SHOOTING INCIDENT
05/11/2001
NEW YORK DIVISION

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 05/11/2001. Special Agent (SA) [redacted] shot and killed Top Ten Most Wanted Fugitive Khalid Ahmad Mansoor while attempting his arrest. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference report of Inspector-in-Place [redacted] dated 05/24/2001.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271788-D, 08/08/2001

Details of the Shooting Incident

On 01/02/2001, the Las Vegas Division obtained a warrant for Khalid Ahmad Mansoor for Unlawful Flight To Avoid Prosecution stemming from first degree kidnapping and sexual assault with a deadly weapon charges. On 01/09/2001, Mansoor committed carjacking and second degree murder offenses in New Orleans, Louisiana, as he fled from police who approached him at the New Orleans International Airport. Additionally, on 05/10/2001, Mansoor was captured on videotape in Atlantic City, New Jersey, committing an armed robbery of a jewelry store, taking Rolex watches valued between $300,000 and $500,000.

After the New Jersey armed robbery, Agents of Atlantic City, Las Vegas, Philadelphia and New York, joined by Fugitive Task Force personnel in New York, began an intensive manhunt for Mansoor. On 05/10/2001, at approximately 9:45 p.m., SA [redacted] of the Atlantic City Resident Agency received notification that Mansoor had robbed a jewelry store located inside the Taj Mahal Casino in Atlantic City, New Jersey. After conducting further investigation, SA [redacted] developed lead information to assist in the reconstruction of Mansoor's trail in and out of Atlantic City on 05/10/2001.

On 05/11/2001, SA [redacted] paged a New York Agent to share information in an effort to cover leads and pick up the trail for Mansoor in New York. SA [redacted] discovered the identities of two cab drivers who were believed to be acquainted with Mansoor. One of the drivers was interviewed on the evening of 05/10/2001, and advised that he drove Mansoor from Midtown New York to Atlantic City earlier that evening. The cab driver also provided SA [redacted] with a cell phone number for another cab driver in New York who was originally responsible for transporting Mansoor to Atlantic City; however, was unable to keep the appointment. SA [redacted] provided this information to SA [redacted] of the New York Office.

b6
b7C

SA [redacted] located and met with the cab driver who provided additional cellular telephone numbers including the telephone number from which Mansoor had placed a call on 05/10/2001, while attempting to acquire a ride to Atlantic City. Using the information furnished, SA [redacted] traced the earlier call placed by Mansoor to the Hampshire Hotel and Suites in Midtown Manhattan.

SA [redacted] along with SA [redacted] met at the Hampshire Hotel and approached hotel staff with a description and photographs of Mansoor. Although hotel employees denied seeing Mansoor and guest records were negative for him, SAs [redacted] and [redacted] determined that the phone call to the cab driver was placed

from room 921 of the hotel. A determination was also made that the occupant of room 921 had not checked out of the hotel. Upon establishing these facts, SA [redacted] re-contacted a New York Police Department Lieutenant who agreed to send additional officers and Agents from the High Intensity Drug Trafficking Area (HIDTA) Task Force to assist SAs [redacted] and [redacted]. A surveillance was established in and around the vicinity of the hotel by SAs [redacted] Lieutenant [redacted] and additional NYPD officers who were briefed on the investigation.

Further investigation determined that Mansoor was not inside the hotel room, however, law enforcement personnel located a passport photograph of Mansoor, together with laminating equipment, indicative of possible false identification being prepared. b6 b7C

SA [redacted] requested Deputy United States Marshal (DUSM) [redacted] and Detective [redacted] to assist SA [redacted] with a loose surveillance at the hotel until noon (hotel checkout time) in the event that Mansoor was seen in or around the hotel. After briefing [redacted] and [redacted] regarding the status of the investigation, SA [redacted] displayed the passport photograph of Mansoor. At approximately 9:40 a.m., the three officers observed an individual matching Mansoor's description approach the Hampshire Hotel on foot and enter the hotel lobby.

SA [redacted], DUSM [redacted] and Detective [redacted] followed the individual into the front door of the hotel, and as they approached him standing at the elevator doors, became convinced that the individual was indeed Mansoor. As they made eye contact with the individual, they also believed that he recognized them as law enforcement officers. Aware of Mansoor's propensity for violence and escape, the officers drew closer to Mansoor to initiate his arrest. SA [redacted] announced "Police, we need to speak to you." Mansoor immediately dropped both hands to his waistband and SA [redacted] grabbed Mansoor's right hand, arm and shoulder. DUSM [redacted] grabbed at Mansoor's left arm and while the struggle escalated, Detective [redacted] attempted to tackle Mansoor from the waist and legs to get him on the floor. During the struggle, SA [redacted] observed Mansoor holding a handgun in his right hand attempting to point it at Detective [redacted] and DUSM [redacted]. Fearing for the lives of the officers, as well as his own, SA [redacted] drew his pistol and fired three shots at close range causing Mansoor to fall to the floor and lose control of his gun. b6 b7C

SA [redacted] requested hotel personnel to call emergency medical personnel and notified SA [redacted] of the shooting incident. Mansoor died from his injuries while being transported to a hospital.

Re: 297-HQ-A1271788-D, 08/08/2001

A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, by facsimile on 08/07/2001, regarding SA [redacted] actions in this shooting incident. Additionally, by letter dated 07/09/2001, the District Attorney for the County of New York advised that no criminal charges would be filed regarding this matter.

On 07/03/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Inspection Division; Office of Inspections; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; William Q. Doherty, Section Chief, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; SSA [redacted] Practical Applications Unit, Training Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and SSA [redacted] Washington Field Office. Nonvoting members present were SSA [redacted] and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

SHOOTING INCIDENT
05/23/2001
CHICAGO DIVISION

b6
b7C

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 05/23/2001, involving Special Agent (SA) [redacted] SA [redacted] shot and wounded a subject making ransom demands in a kidnapping investigation. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Administrative: Reference report of Inspector-in-Place [redacted] dated 06/14/2001.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271285-D, 08/01/2001

Details of the Shooting Incident

On 05/23/2001, the Violent Crimes Task Force (VCTF) of the Chicago Division received information from the Chicago Police Department (CPD) that [redacted], was the victim of a home invasion/kidnapping and was forcibly removed from the family's residence by several unknown subjects. [redacted] father, a Chicago city employee, received several ransom demand phone calls demanding that payment for the victim be made in an unspecified amount of cocaine and/or marijuana. However, during the afternoon of the same day, the demand for payment changed from cocaine/marijuana to $150,000 in cash in exchange for the safe return of the victim. b6 b7C

Following a series of consensually monitored telephone calls between the subject(s) and the victim's father, a demand was made to drop the ransom package in the vicinity of [redacted] which was known as an area controlled by a street gang known as the Gangster Disciples. Law enforcement authorities determined that this location did not provide adequate safety and security and knew that it provided numerous escape routes for the perpetrator(s) of the kidnapping. At the instruction of law enforcement personnel, the victim's father provided the subject(s) with an appropriate location to drop the ransom package contained inside a canvass bag. The kidnappers advised the victim's father that someone would be sent to the vicinity of Garfield Boulevard and South Carpenter Street to retrieve the ransom money.

At approximately 10:00 p.m., a vehicle driven by CPD Officer [redacted] with the victim's father in the front passenger seat and SAs [redacted] and [redacted] in the rear seat, arrived at the specified location. While parked, an individual, later identified as [redacted] was observed in the area. After a prearranged signal was given by Officer [redacted] acknowledged the signal and approached the vehicle. The victim's father alerted law enforcement officers that [redacted] appeared to be reaching under his jacket with his left hand and believed the subject had a gun. As [redacted] approached the vehicle, he ordered the victim's father to drop the package from the vehicle. [redacted] approached the package, ordered the vehicle to "drive off" and attempted to pick up the package. After traveling several feet, Officer [redacted] stopped the car and SAs [redacted] and [redacted] and Detective [redacted] exited the vehicle and ordered [redacted] to halt. [redacted] began to run from the scene while again being ordered to halt. [redacted] stopped and turned toward SA [redacted] with his hands underneath his jacket. The subject's actions resulted in SA [redacted] firing two rounds from his .45 caliber pistol hitting [redacted] in the left hip and wrist. [redacted] stumbled several steps and fell b6 b7C

to the pavement. Upon approaching the subject, SAs [redacted] and [redacted] ordered him to show his hands to which he did not comply. The Agents rolled [redacted] over and observed a semi-automatic pistol in the area of his midsection. The subject was handcuffed and his weapon was removed. [redacted] was transported from the scene to a local hospital by emergency medical services where he was treated for his gunshot wounds.

The victim was released unharmed approximately thirty minutes following the shooting incident. b6 b7C

A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, dated 07/02/2001, regarding SA [redacted] actions in this shooting incident. The CPD advised that the Police Department would not seek filing charges in connection with the shooting incident, deferring to the Assault on Federal Officer investigation. The matter was not referred to the Cook County State's Attorney's Office for consideration.

On 07/03/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted], Chief Inspector, Inspection Division, Office of Inspections; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; William Q. Doherty, Section Chief, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; SSA [redacted] Practical Applications Unit, Training Division; [redacted], Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted], Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and SSA [redacted] Washington Field Office. Nonvoting members present were SSA [redacted] and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational

standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

The SIRG made one observation regarding this incident. All law enforcement officers in the vehicle wore ballistic armor. However, the victim's father was not afforded the same protection despite his position in the front passenger seat of the vehicle. This matter will be brought to the attention of the Special Agent in Charge of the Chicago Division.

Re: 297-HQ-A1271292-D, 01/30/2001

## Details of the Shooting Incident

On 11/28/2000, at approximately 4:30 p.m., Agents of the Youngstown Resident Agency obtained information about fugitive [redacted] Subsequent investigation and a surveillance operation determined that the fugitive was located at [redacted] Avenue. An arrest plan was initiated and a security perimeter was placed around the residence. As SA [redacted] was attempting to take a position of cover near the detached garage of the residence, he ran into and tripped over a wire fence. As SA [redacted] fell to the ground, he was immediately attacked by a large Rottweiler dog. SA [redacted] physically defended himself against the animal's first and second attacks, however, on the third attack, SA [redacted] was forced to shoot the animal. SA [redacted] fired four shots with an H & K MP5 killing the dog. b6 b7C

On 01/09/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Civil Rights Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Donald J. **Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1271292-D, 03/22/2001

Details of the Shooting Incident

On 11/20/2000, a surveillance was initiated at an address in Youngstown, Ohio, which was a known prior address for a subject known as [redacted] had been charged with two counts of aggravated burglary with a weapon and an Unlawful Flight to Avoid Prosecution preliminary inquiry was initiated on 11/17/2000. Intelligence information gathered by the Fugitive Task Force (FTF) indicated that [redacted] was involved in crack cocaine trafficking and he purchased products from out-of-state suppliers. b6 b7C

[redacted] was not located at his prior known address and the surveillance moved to the residence of [redacted] brother. [redacted] was not located at his brother's residence; however, further investigation led law enforcement personnel to a third residence. An individual located at the residence advised law enforcement authorities that [redacted] and his girlfriend were believed to be at the Bureau of Motor Vehicles (BMV) in Youngstown.

Task Force Officer [redacted] drove to the BMV building and located the vehicle in which [redacted] was allegedly being transported. Officer [redacted] advised other Task Force personnel of this information via radio. Additional FTF personnel immediately responded to the BMV area and established a perimeter while surveilling the subject vehicle.

SA [redacted] orally communicated an arrest plan via radio which called for SA [redacted] to bumper-lock the subject vehicle in the rear to prevent an escape attempt. Task Force officers were to drive their three vehicles in front of the subject vehicle to prevent any escape. The plan called for the arrest effort to be initiated after the subject entered the vehicle and the subject would be called out of the vehicle using the felony car stop arrest technique.

[redacted] and three other individuals were observed exiting the BMV building and entering the subject vehicle. As the individuals began entering the subject vehicle, the arrest plan was initiated. As SA [redacted] drove toward the subject vehicle, he observed the individuals standing in the rear of and coming back out of the vehicle. Due to [redacted] and one other individual standing at the rear bumper of the vehicle, SA [redacted] could not bumper-lock as planned and drove further beyond the desired stopping point for his vehicle. Additionally, a civilian was in a vehicle parked in close proximity to the subject vehicle and a door used to enter/exit the BMV was within 20 feet of the subject vehicle. b6 b7C

In addition to wearing protective vests and raid jackets, law enforcement personnel on the scene yelled to [redacted] to further identify themselves and advise of their intent to place him under arrest. [redacted] three associates complied with the orders given by the officers while [redacted] ran to the passenger side of the subject vehicle with a nine millimeter pistol in his hand. As [redacted] approached FTF officers, Officer [redacted] fired one shot at him while [redacted] was running in the area in front of the subject vehicle. [redacted] turned back towards the subject vehicle running along the passenger side toward SA [redacted] with his weapon drawn. SA [redacted] fired four shots resulting in [redacted] falling to the ground and subsequently being handcuffed. [redacted]'s weapon fell to the ground next to where he lay wounded. Emergency medical service personnel responded to the scene, stabilized the subject and transported him to Saint Elizabeth Medical Center. [redacted] was subsequently transferred to the Akron City Hospital and was released to the Mahoning County Jail on 11/20/2000.

A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, dated 02/14/2001, for the law enforcement officers involved in this shooting incident.

On 03/14/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: Kenneth W. Kaiser, Chief Inspector, Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; William Q. Doherty, Section Chief, Global Counterintelligence Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted], Unit Chief, Investigative Law Unit, Office of the General Counsel; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; and SSA [redacted] Washington Field Office. Nonvoting members present were SSA [redacted] and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

Re: 297-HQ-A1271292-D, 03/22/2001

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

b6
b7C

Representatives of the Training Division advised SIRG members that this FTF was the best organized and trained task force in the country and applauded the training efforts of its members.

SIRG members recognized that law enforcement personnel on the scene were drawn into a cross fire situation; however, due to experience and training, adjustments were made to bring the situation to a successful conclusion. Members opined that this experience should be shared with others in law enforcement for lessons learned.

**Title:** ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
12/18/2000
BALTIMORE DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 12/18/2000. Special Agent (SA) [redacted] fired one round into the left side of a bank robbery suspect, resulting in the subject's death. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Administrative:** Reference Electronic Communication of Inspector [redacted] dated 12/19/2000.

b6
b7C

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

Details of the Shooting Incident

During December 2000, two banks located in Gambrills and Annapolis, Maryland, were robbed by a white male. In the Gambrills robbery, the robber threatened the bank teller by stating that he had a gun. During the Annapolis bank robbery the suspect brandished a weapon which was described by the bank teller as a black pistol.

Subsequent investigation positively identified the bank robber of both institutions as Peter Jerome Gebbia, and a federal arrest warrant was issued for him on 12/15/2000.

On 12/18/2000, the Annapolis Resident Agency (ARA), Baltimore Division, received a telephone call from the Anne Arundel County Police (AACP) regarding a suspected bank robber. According to the AACP, the agency had received an anonymous telephone call advising that bank robbery suspect Peter Jerome Gebbia was located in a motel in Grasonville, Maryland. Further investigation determined that Gebbia was located in a room at the Chesapeake Motel.

Supervisory Senior Resident Agent (SSRA) [redacted] as well as SAs [redacted] and [redacted] responded to the information and arrived at the motel at approximately 1:00 p.m. SA [redacted] telephonically contacted the Queen Anne's County Sheriff's Office for assistance and requested a canine unit. The canine unit was unavailable, however, four officers of the Sheriff's Office responded as backup assistance for the arrest. Additionally, SSRA [redacted] observed a Maryland State Police trooper at a restaurant next to the motel and solicited his assistance.

SSRA [redacted] diagramed and orally articulated an arrest plan to arrest team members. During the briefing, SA [redacted] provided participants with descriptive data and two photographs of the subject. The plan called for the motel manager to place a telephone call to Gebbia's room and request that he come to the front desk. After the phone call was made, the manager would be removed from the lobby to ensure citizen safety. SA [redacted] and two detectives would remain in the lobby and make the arrest as Gebbia entered, while other participants would set up a perimeter to ensure isolation of the arrest.

b6
b7C

The first two calls made to Gebbia's room were unanswered, however, the suspect answered the phone on the third call. As Gebbia entered the lobby of the motel, arrest team members confronted him. During the confrontation, a struggle ensued between the suspect and SA [redacted] SA [redacted] pushed Gebbia away from him, at which time Gebbia pulled a weapon from

his waist area. SA [redacted] responded and fired one round into the left side of the subject, immediately disabling him. The spent round was recovered inside the shirt of the subject. Upon examination, it was determined that Gebbia's weapon was a pellet gun which resembled a large caliber, semi-automatic pistol. Gebbia was pronounced dead at the scene. b6 b7C

A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, dated 02/27/2001, regarding SA [redacted] actions in this shooting incident. By letter dated 01/31/2001, the Queen Anne's County State's Attorney advised that his office would recommend that there should be no filing of criminal charges in this matter.

On 03/14/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: Kenneth W. Kaiser, Chief Inspector, Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; William Q. Doherty, Section Chief, Global Counterintelligence Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; and SSA [redacted] Washington Field Office. Nonvoting members present were SSA [redacted] and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division. b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance

with the deadly force policy. Attendees acknowledged that senior management of the Baltimore Division should be credited for the excellent training and actions of the participating agents.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
08/16/2000
SAN FRANCISCO DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred in the San Francisco Division on 08/16/2000. Special Agent (SA) [redacted] shot and killed an attacking pit bull dog during the execution of a Drug Enforcement Administration (DEA) search warrant. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this incident.

Re: 297-HQ-A1271917-D, 09/19/2000

Details of the Shooting Incident

On 08/16/2000, at approximately 3:00 p.m., SA [redacted] of the San Jose Resident Agency (SJRA), fatally shot an attacking pit bull dog during the execution of a DEA search warrant. SA [redacted] was serving as an active member of the DEA Heroin Task Force assigned to the SJRA of the DEA, San Francisco Division. b6 b7C

Upon execution of the search warrant, occupants of the residence refused to comply with the DEA "Knock and Announce" protocol and initiated conversation from within the residence. The occupants also ignored repeated commands from a DEA supervisor to control the barking pit bull dog, which was visible to task force Agents from an exterior window.

As a result of the occupants' refusal to open the door, and believing that drug evidence might be destroyed, Agents forced open the front door and immediately encountered an unrestrained and viciously barking dog. Efforts to contain the dog with a ballistic shield were unsuccessful and SA [redacted] who believed he and another Agent faced imminent attack, fired one shot from his Glock Model 22, 40 caliber pistol hitting the dog. The dog briefly halted, however continued to advance in a threatening manner. SA [redacted] fired two additional shots, killing the dog.

On 09/12/2000, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Civil Rights Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Assistant Section Chief, East Asia Section - NS-3, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; SSA [redacted] Practical Applications Unit, Training Division; and, SSA [redacted] Washington Field Office. The only nonvoting member present was [redacted] Management/Program Analyst, Office of Inspections, Inspection Division. b6 b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations,

and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously opined that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy. The SIRG recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident. b6 b7C

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
DETROIT DIVISION
FEBRUARY 1, 2000

Character: CIVIL RIGHTS

Synopsis: On February 1, 2000, Special Agents (SA) of the FBI and Officers from the Southgate, Michigan, Police Department arrested JOHN MELL CAMACHO for his involvement in an armed bank robbery earlier that day. During the arrest procedure, CAMACHO refused to comply with audible commands provided by arresting officers, exhibited the use of deadly force against the Agent and Officers, and thereafter was mortally wounded by multiple rounds fired from the arresting Agent and Officers.

DETAILS:

At approximately 4:45 p.m. on the afternoon of Tuesday, February 1, 2000, the Standard Federal Bank located at 13628 Eureka Road, Southgate, Michigan, was robbed at gunpoint by a lone white male. This subject fled the bank with an undetermined amount of cash, entered an automobile and departed the area. A witness outside of the bank had observed this subject acting suspiciously outside of the bank moments before the bank robbery. The subject's actions caused this witness to continue observation of this subject. This witness observed the subject enter the bank, pull a ski mask down over his face, and immediately following the subject's departure from the bank was able to record a license plate and description of the subject's vehicle as he fled the area. The witness provided a description of the subject (as viewed by the witness without the ski mask in place), the

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

license plate and vehicle description to police officers who subsequently responded to the bank. The identification of the license plate set in motion of series of events which were promptly and effectively addressed by SAs, and led to the apprehension of the subject responsible for the bank robbery.

At approximately 4:30 - 4:45 p.m., 2/1/00, SAs [redacted] and [redacted] were dispatched from the Detroit FBI office to the Standard Federal Bank and thereafter initiated an investigation of the bank robbery. During their investigation at the bank, the license plate number provided by the aforementioned witness was obtained. This license number was queried through state motor vehicle records and determined to be registered to [redacted] Thereafter, a driver's license inquiry on this name determined a last known address for Ms. [redacted] of [redacted] Apartment [redacted] Riverview, Michigan. This same record indicated that Ms. [redacted] was 22 years of age. The Agents departed the bank and proceeded to the Fort Street address and determined that address to be an apartment complex. The Agents made contact with the apartment complex manager who thereafter provided the Agents access to a file containing information relative to Ms. [redacted] They determined from a review of this file that Ms. [redacted] had yet to complete her move into the apartment complex, had listed a previous address of [redacted] Lincoln Park, Michigan; and had left behind for the file a recent photograph of herself.

b6
b7C

SAs [redacted] and [redacted] proceeded to [redacted] and upon arrival observed Ms. [redacted] enter an automobile matching the description of the getaway vehicle, and which bore the same plate as was reported to investigators by a witness at the bank earlier in the day. Ms. [redacted] departed the area in the car and drove to a local gas station. At this point in the investigation, SAs [redacted] and [redacted] conferred telephonically and via the car radio with SA [redacted] SA [redacted] is a senior Agent on the same squad, is the division's Bank Robbery Coordinator, and was on the street at this time with SA [redacted] conducting investigation associated with another bank robbery. Upon the direction of SA [redacted] SAs [redacted] and [redacted] confronted Ms. [redacted] at the gas station. An interview ensued followed by a consensual search of her automobile. At this juncture of the investigation, SAs [redacted] and [redacted] joined SAs [redacted] and [redacted] The search resulted in the discovery of two photographs of a white male who Ms. [redacted] identified as her ex-boyfriend JONATHON MILLER, and a document on which the name BRENT J. BURGHART had been written several times. Ms. [redacted] identified the alias BURCHART as a name used by the subject. Ms. [redacted] was shown a bank surveillance photograph of

b6
b7C

the subject responsible for the Standard Federal Bank robbery earlier that day. She believed her ex-boyfriend MILLER to be the person depicted in the photograph. She recognized the coat and the handgun depicted in the photograph as those belonging to Ms. [redacted] told the interviewing SAs that she had loaned her automobile to her ex-boyfriend (MILLER) earlier in the day.

All four SAs and Ms. [redacted] departed the gas station and returned to [redacted] Inside, SAs met with Ms. [redacted] parents in the company of [redacted] It was learned at this point that the subject, using the identity JONATHAN MILLER, had been at this residence earlier in the evening. He had called a cab company from the residence earlier in the evening and thereafter departed. SAs determined the identity of the cab company, made contact with a company representative, and determined that MILLER had been taken to the Suburban Motel, 12269 Dix Road, Southgate, Michigan, where he was dropped off at room #4. b6 b7C

Investigating SAs thereafter departed for the Suburban Motel. Upon arrival, two of the four SAs interviewed the motel manager whereupon it was determined that an individual who identified himself as BRENT BURCHART had checked into room #4. During the course of this interview, the motel manager was shown a photograph depicting Ms. [redacted] ex-boyfriend, the same photograph which was found in the earlier consensual search of Ms. [redacted] car. The motel manager identified the individual depicted in this photograph as the same individual who had used the name BRENT BURCHART to check into room #4.

Upon arrival at the motel, investigating SAs observed a light on in room #4. It was also at this time that investigating Agents contacted the Southgate Police Department to request assistance. The accumulation of information up to that point allowed the investigating Agents to believe that the bank robbery subject was in room #4. All four Agents and six Southgate Police Officers, in a group setting adjacent to the motel, discussed the options available to them to effect the arrest of the bank robbery subject. Upon consideration of the available options, it was agreed that the Agents and Officers present would attempt to effect the arrest of the subject at that time, and do so by performing a surprise and rapid entry through the door of room #4. The arrest plan was based upon the element of surprise, speed, and the tactical use of multiple Agents and Officers to enter room #4 to apprehend the subject. b6 b7C

In the earlier interview of the motel manager, SA [redacted]

obtained a pass key to room #4. Following specific arrest procedure assignments made to those SAs and officers present, each team member was instructed to obtain body armor, raid jackets, and procure appropriate weapons. When all arrest team members were ready, the pass key was utilized to gain access to room #4. SA [redacted] Officers [redacted] and Officer [redacted] were the first individuals to gain access to the interior of room #4. The Agent and Officers gave immediate, audible, and simple commands to the subject inside clearly establishing themselves as the Police and or FBI, and that the subject was to drop the firearm he had in his hand at the time of entry. Additionally, SA [redacted] was wearing body armor which clearly exhibited the letters FBI, and the Officers were each wearing their uniforms. The subject had his weapon trained on the law enforcement officers who had entered the room. The subject failed to comply with the audible commands to drop his weapon. Interviews of Agents and Officers present at the time of the arrest reported that the subject fired his weapon once at the law enforcement officers who had established their presence at the doorway to his motel room. SA [redacted] Officer [redacted] and Officer [redacted] simultaneously, or nearly simultaneously, returned fire from their respective weapons disabling the subject. The arrest team immediately entered into the room and restrained the subject with a set of handcuffs. A call for emergency medical support was made and within minutes the Southgate Fire Department arrived followed thereafter by Emergency Medical Technicians. Care for the crime scene was instituted immediately by Agents on the scene. None of the arresting SAs or Officers sustained any physical injuries during the course of this arrest. One loaded 9mm Luger pistol was recovered from the subject at the time of his arrest.

b6
b7C

The initial crime scene examination was conducted by the Detroit Division Evidence Response Team, and a secondary examination was conducted by Laboratory Division representatives associated with the shooting incident review team. These examinations did not recover a 9mm shell casing or a spent bullet fired from the handgun in possession of the subject at the time of his arrest. Proceeds from the bank robbery committed by the subject earlier that day were recovered.

At approximately 11:55 p.m., February 1, 2000, subject JOHN MELL CAMACHO died from the multiple gunshot wounds received during his arrest.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
BALTIMORE DIVISION
FEBRUARY 3, 2000

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident was the result of an Unlawful Flight to Avoid Prosecution (UFAP) investigation regarding subject DONALD LEE WILLIAMS, Jr., aka Donald Thompson (FBI #651 634 WA2).

- P -

DETAILS:

The Maryland Joint Violent Crimes Fugitive Task Force (MJVCFTF) of the Baltimore Division became involved in the WILLIAMS UFAP investigation on 01/21/2000, at the request of Special Agent (SA [redacted] of the Beckley, WV Resident Agency (RA) of the Pittsburgh Division. On that date, the Beckley RA sent the Baltimore MJVCFTF facsimile copies of the federal Criminal Complaint and Affidavit, and the federal Warrant for Arrest on file regarding WILLIAMS. The Complaint and Warrant were signed and dated 01/21/2000 by United States Magistrate Judge Mary S. Feinberg, United States District Court, Southern District of West Virginia, charging WILLIAMS with violation of Title 18, United States Code, Section 1073 (Unlawful Flight ot Avoid Prosecution). WILLIAMS' criminal history reveals that in 1994 he was convicted and sentenced in West Virginia to two to ten years' confinement for Malicious Wounding with use of a firearm and two years, six months confinement for Wanton Endangerment involving a firearm, to run consecutively.

b6 b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Baltimore Division also received other supporting documentation from the Pittsburgh Division regarding WILLIAMS, to include copies of a color photograph, fingerprints/palm print, West Virginia drivers license, and social security card. The Pittsburgh Division also forwarded a copy of the underlying state warrant for WILLIAMS' arrest. The state warrant, dated 01/18/2000, resulted from a Beckley Police Department, West Virginia (WV) investigation, Case #2000577, (NCIC #W160447826), for Homicide. WILLIAMS was also charged with Malicious Wounding, Kidnaping (two counts) and Aggravated Robbery on other local warrants stemming from the same incident on 01/17/2000 in Beckley, West Virginia.

The West Virginia state charges were filed because WILLIAMS' shot to death a former co-worker and seriously wounded that individual's girlfriend, another former co-worker, on 01/17/2000. WILLIAMS had bound and gagged each in separate rooms of their residence prior to shooting them. Earlier, he had taken the male at gunpoint to an ATM machine to rob the couples' bank accounts, while leaving the female bound and gagged at the residence. Based upon the above information, WILLIAMS was designated an "Armed and Dangerous" subject of an FBI fugitive investigation, with "Office of Origin" in the Beckley, West Virginia RA of the Pittsburgh Division.

FBI investigation revealed that WILLIAMS obtained transportation on 01/18/2000 to the metropolitan Washington, D.C. area. He allegedly stopped at a former acquaintance's residence in Washington, D.C., but was not permitted to stay. He then allegedly traveled to Maryland in order to meet a friend with whom he was previously incarcerated at the Huttonsville, WV Correctional Center (HCC). Over the next several days, FBI Baltimore investigation/surveillance in suburban Maryland identified individuals who were known associates of WILLIAMS during his period of incarceration at the Huttonsville Correctional Center.

On 02/01/2000, FBI Baltimore received information from FBI Pittsburgh that a Hyattsville, Maryland resident called the Beckley, WV Police Department to determine whether there was a reward for information leading to WILLIAMS' arrest. The caller was an individual named [redacted] with whom WILLIAMS had been incarcerated at HCC. That same day, a Baltimore FBI Agent attempted to contact [redacted] in an effort to gain his cooperation. However, the FBI Agent was not able to talk to [redacted]

b6
b7C

On 02/02/2000, MJVCFTF members prepared to conduct an investigation and possibly make an arrest of the fugitive at [redacted] residence, Apartment [redacted] Hyattsville, Maryland. The Baltimore FBI case agent, SA [redacted] gave a verbal briefing to his supervisor and other task force members on the fugitive investigation to date. At approximately 6:15 a.m., SA [redacted] made telephonic contact with an individual at [redacted] apartment, who consented to an FBI entry into the residence. However, WILLIAMS was not located.

Later that same day, an FBI source of unknown reliability provided SA [redacted] information regarding a possible location for the fugitive. SA [redacted] obtained detailed information from the source and corroborated several details. The source advised SA [redacted] that WILLIAMS was residing with a [redacted] "Last Name Unknown" (LNU) in Laurel, Maryland. Although the source did not know [redacted] (LNU's) specific address, the source knew how to find the location. The source also provided SA [redacted] a cellular telephone number [redacted] for [redacted] (LNU) and advised that WILLIAMS was utilizing that cell phone. SA [redacted] instructed the source to find the [redacted] (LNU's) Laurel apartment and provide him the street address. b6 b7C

The source recontacted SA [redacted] at about 6:30 p.m. and provided a street number, 903½, for the Laurel apartment, but could not provide a street name. The source provided SA [redacted] accurate directions to the location, specifically describing the outside and inside of the basement apartment and the outside of the duplex apartment building. The source provided SA [redacted] [redacted] (LNU's) name [redacted] and advised that WILLIAMS had stayed with [redacted] for several days. The source described the interior layout of [redacted] apartment (903½), including an interior stairwell leading upstairs to the interior of apartment 903, the residence of [redacted] The source advised there had been crack cocaine on the kitchen table at apartment 903½ in the recent past. The source also stated that WILLIAMS recently indicated he did not have a gun, but was going to get one.

The following morning, 02/03/2000, SA [redacted] and three other Baltimore FBI Agents drove to the location, based upon accurate directions provided by the source. SA [redacted] confirmed through surveillance that [redacted] was the basement apartment in a duplex apartment building at [redacted] Laurel, Maryland. The location appeared to be a garden-style square building with six separate apartments in a cul de sac. Facing the front of the building, the entrance to the upstairs apartment, [redacted] is on the left the building and b6 b7C

the entrance to the basement apartment, [redacted] is in the rear left side of the building. SA [redacted] recontacted the source to confirm the address by physical description and location. SA [redacted] also confirmed with the telephone company the telephone numbers and subscribers names for both [redacted]

At that point, SA [redacted] decided to attempt to locate and arrest the subject, WILLIAMS, at the [redacted] apartment in the basement. Approximately 10:15 a.m., SA [redacted] telephonically contacted MJVCFTF SSA [redacted] and advised him of an arrest plan. SSA [redacted] concurred and additional task force members were deployed to assist in the possible fugitive arrest. The plan called for a perimeter to be established around the duplex, with a five-man entry team at [redacted] A perimeter team was designated to surveil the back yard, the front window area, and side entrance to the upstairs apartment at [redacted] Street. b6 b7C

The task force personnel staged near the Laurel address and SA [redacted] provided the second briefing in two days on WILLIAMS. SA [redacted] updated them on the previous day's investigative developments and the surveillance/arrest plan. At this briefing, SA [redacted] showed all MJVCFTF personnel a color photograph of the subject and a hand-drawn sketch of the apartment and the cul de sac where the duplex was located. He advised that the two relevant apartments were connected via an interior stairwell. SA [redacted] gave each team member a specific assignment during the perimeter surveillance and arrest plan, taking into account each apartment. He reviewed the outstanding warrants and the subject's recent violent activity. SA [redacted] also relayed the source information on recent drug activity at [redacted] and the subject's recent statement that he wanted to get a gun.

On 02/03/2000, while the arrest team was staged near the 903½ Seventh Street, [redacted] WILLIAMS was presently inside the target apartment. At approximately 11:25 A.M., with the arrest team at their designated locations, SA [redacted] gave the order to proceed with the arrest plan. All task force personnel wore body armor. Additionally, all personnel displayed the appropriate law enforcement markings, such as badges, police insignia, and/or FBI insignia. b6 b7C b7D

Immediately prior to entry, an FBI Agent made a telephone call to the apartment in an effort to notify WILLIAMS of their intentions. However, the answering machine engaged and

the FBI Agent did not leave a message. SA [redacted] knocked at least three times at the door to [redacted] and announced he was a law enforcement officer serving a warrant. His actions were confirmed by both law enforcement and non-law enforcement witnesses. There was no response to the "knock and announce." SA [redacted] gave the order and a ram was used to force open the door. The arrest team entered the dimly lit [redacted] apartment and methodically began to clear rooms, using flashlights to enhance visibility. However, the entry team was almost immediately advised by other MJVCFTF members that WILLIAMS had fled upstairs via the interior stairwell to the [redacted] Street apartment. The entry team secured the downstairs apartment [redacted] leaving two members inside, while the other three went back outside to the side entrance to the upstairs apartment [redacted] to join task force members at that location. b6 b7C

According to [redacted] who was the babysitter at [redacted] WILLIAMS then gained access to the upstairs apartment at [redacted] by knocking on the locked door at the top of the interior stairwell between the two apartments. [redacted] answered the door because she believed that [redacted] the downstairs neighbor, had knocked. [redacted] a white male, was known to [redacted] as her sister-in-law's brother. Instead, an unknown black male burst through the doorway. He ran to the front picture window and looked out, and also ran to the bedroom in the back left area of the apartment. With [redacted] inside the apartment, [redacted] heard task force personnel knocking on the door and opened it. She told them that the black male was inside the upstairs apartment but that a small child was still there. [redacted] exited the apartment as task force personnel successfully coaxed the child out.

As MJVCFTF members took up positions inside the upstairs apartment and at the side entrance, an FBI Agent moved [redacted] to safety and interviewed her. He showed her a picture of the fugitive, whom she indicated was possibly, but not positively, the black male who entered from the downstairs apartment. This information was relayed via radio both to the entry team inside the [redacted] apartment and to SA [redacted] who had run to his FBI vehicle in the cul de sac to retrieve an MK-141 Mod 0 diversionary device, commonly referred to as a "flash bang." SA [redacted] had decided to retrieve the flash bang because he heard MJVCFTF personnel ordering WILLIAMS to show his hands and advising each other that WILLIAMS was not complying with their demands. From the time he left the downstairs apartment, it took SA [redacted] two to three minutes to retrieve the item from the padlocked trunk in his FBI vehicle. b6 b7C

During an approximate four-to-five minute stand off inside the apartment, WILLIAMS was ordered to comply with numerous law enforcement commands to show his hands and surrender. However, WILLIAMS did not comply with any commands and warnings. Instead, he searched the closet near the bedroom. There was no closet door. A bed sheet served as a closet curtain. He continually moved his hands in and out of different areas of the closet. During this period, WILLIAMS was often bent over and partially covered by the closet curtain. He was pulling items out of the closet. On many occasions, his hands were not visible to the entry team. At no time during this incident did WILLIAMS verbally acknowledge the commands or warnings directed toward him.

MJVCFTF personnel in position to see WILLIAMS' movements behind the sheet all indicated they were concerned that he was "fishing" or searching for a weapon in the closet. Because of the open configuration of the apartment, they had little to no cover or concealment. [redacted] the movement of WILLIAMS' arms and hands, several entry team members thought he was reaching for a gun or other weapon. His failure to comply with or acknowledge lawful demands heightened their concerns, as did their frequent inability to see his hands.

[redacted] The first round was fired by FBI SA [redacted] approximately four minutes into the stand off. SA [redacted] told SA [redacted] that he was concerned WILLIAMS was reaching for a gun and could shoot more quickly than they could react. Both SA [redacted] and FBI SA [redacted] were observing WILLIAMS' furtive movements and talking about his actions. SA [redacted] fired one round. SA [redacted] who did not have a clear line of sight, told him to take the shot. After SA [redacted] fired the shot, WILLIAMS appeared momentarily to go down. However, WILLIAMS kept reaching into the closet, even as task force personnel yelled at him to comply and show his hands. SA [redacted] then discharged his weapon until it emptied. While SA [redacted] reloaded, FBI SA [redacted] stepped in front of him and fired several rounds at WILLIAMS. It is noted SAs [redacted] and [redacted] upon advice of counsel, have not to date provided statements for this inquiry.

WILLIAMS continued to search in the closet and failed to comply with commands. SA [redacted] had entered the apartment and moved forward by this point. SA [redacted] could see WILLIAMS near the floor, including partial views of his head, arms, and shoulders. WILLIAMS continued to move. SA [redacted] could not see his hands. Believing that WILLIAMS was searching for something in the closet, SA [redacted] decided to use the flash bang. He first

b6
b7C

warned the other task force members and threw the flash bang toward WILLIAMS, in an effort to disorient him and halt his attempts to reach for a weapon.

After SA [redacted] deployed the flash bang, it is probable that more rounds were immediately fired. It is possible that Prince George's County Deputy Sheriff [redacted] fired one of those rounds. However, the recollections of task force witnesses at the scene differ on whether more rounds were fired after the flash bang was deployed or whether Deputy Sheriff [redacted] fired at that time. Upon advise of counsel, Deputy Sheriff [redacted] has not provided a statement to this inquiry. b6 b7C

At that point, WILLIAMS was lying on the floor near the closet. SA [redacted] could see WILLIAMS' hands, and moved forward after a few seconds to handcuff him. SA [redacted] and SA [redacted] assisted in the handcuffing. After WILLIAMS was handcuffed, SA [redacted] pulled him away from the closet area toward the living room.

Emergency medical services (EMS) personnel were summoned and immediate notification was made to FBI Baltimore management, the Laurel Police Department, and the Prince George's County Police Department (PGCPD). Prince George's County communications records show telephonic 911 notification of the incident was made at 11:41 a.m.

At the scene, SA [redacted] asked the shooters to identify themselves. SA [redacted] SA [redacted] and Deputy Sheriff [redacted] did so. SA [redacted] and SA [redacted] were using Bureau weapons and Bureau ammunition, which appeared to function properly. Deputy Sheriff [redacted] weapon and ammunition also appeared to function properly. Pending the final forensic firearms analysis, it is believed a total of 22 rounds were fired. It is believed that SA [redacted] fired 16 rounds, Deputy Sheriff [redacted] fired one round, and SA [redacted] fired five rounds.

According to county Fire/EMS Department logs, EMS personnel were dispatched at 11:47 a.m. to [redacted] Laurel, Maryland. They arrived approximately 10 to 15 minutes after the incident ended. They declared WILLIAMS to be deceased at the scene. Dr [redacted] Forensic Fellow, the State of Maryland, Office of the Chief Medical Examiner, conducted the WILLIAMS autopsy. Dr [redacted] advised that her examination revealed the manner of death was homicide, resulting from five gunshot wounds to the body of WILLIAMS. b6 b7C

The incident scene was taken over by PGCPD, which

conducted evidence collection and forensic analysis. PGCPD seized a loaded 30.06 high-powered rifle from the bedroom. The rifle was found behind the bedroom door, near a bedroom closet. WILLIAMS was in the living room, not the bedroom, as he searched the hallway closet during the incident. At that point, he was approximately four feet away from the rifle. Although [redacted] knew the loaded rifle was kept in the upstairs apartment, this inquiry could not determine whether WILLIAMS also knew about the rifle. To date, [redacted] has not been available for FBI interview.

The PGCPD firearms examination report indicated that a total of three semiautomatic pistols were fired by law enforcement personnel. The pistols included one .40 caliber Beretta brand, model 96 and two 9MM, Sig Sauer brand, model P228. The .40 caliber Beretta was assigned to Detective [redacted] and was fired one time. The 9MM Sig Sauers were assigned to SAs [redacted] and [redacted] and fired sixteen and five rounds, respectively. The report also indicated that a five inch concentric pattern of gunpowder residue was noted on the shorts of Williams around a hole consistent with the passage of a bullet in the upper right thigh, four inches down from his waistband. Range testing using a Sig Sauer pistol showed this pattern could be reproduced at a distance between 20 and 30 inches. Furthermore, one 9MM cartridge case was found in the hall closet near the body of Williams. All other pistol cartridge casings were located several feet away in the living room area where MJVCFTF members took up their positions. An interview of SA [redacted] revealed that about two weeks after the shooting incident, he was told by SA [redacted] that he had accidentally discharged his weapon while effecting the arrest of Williams.

b6
b7C

The Maryland State Medical Examiners autopsy report indicated that the cause of death was multiple gunshot wounds. The report further indicated a total of five gunshot wounds had penetrated the body of Williams. The drug test of Williams' urine revealed traces (unspecified) of cocaine. The drug test of William's blood was negative.

PGCPD has initiated a homicide investigation for presentation to the local Grand Jury. In addition, this summary was provided to PGCPD and to the Department of Justice, Civil Rights Section. No local or federal prosecutive determinations has been made at this time.

Still pending are interviews with law enforcement personnel who discharged weapons, and prosecutive opinions from state and federal authorities.

scene, [redacted] to [redacted] interview by an FBI SA at the scene, and [redacted] then subsequently interviewed at her residence by members of the Shoot Team. The information [redacted] provided in each of the interviews remained very consistent.

[redacted] told [redacted] at the scene that she, [redacted] the Texaco [redacted] son, and her [redacted] pulled [redacted] They were in [redacted] to get gas [redacted] pulled up next to the [redacted] but of [redacted] identified himself as another agent [redacted] told [redacted] to get out of the truck, and told [redacted] [redacted] suspect wanted for murder [redacted] got out [redacted] truck [redacted] came up and she [redacted] [redacted] told [redacted] [redacted] and [redacted] [redacted] the gun [redacted]

[redacted] an interview [redacted] SA [redacted] stated she had known [redacted] since [redacted] and [redacted] [redacted] Texaco [redacted] [redacted] about [redacted] [redacted] Motel across the [redacted] [redacted] to pick her [redacted] [redacted] in a few [redacted] [redacted] across the [redacted] [redacted] immediately [redacted] [redacted] agent, [redacted] that [redacted] had [redacted] weapon, [redacted] that he [redacted] [redacted] the corner of [redacted] building [redacted] ing for [redacted] [redacted] down to turn [redacted] He was [redacted] her sights [redacted] the [redacted] shoot [redacted]

[redacted] third [redacted] [redacted] action [redacted] [redacted] looking [redacted] [redacted] had [redacted] [redacted] was [redacted] again not [redacted] [redacted] [redacted] [redacted] was getting [redacted] [redacted] [redacted] advised [redacted] [redacted] his name, [redacted] [redacted] [redacted] asked by the agent to raise [redacted] [redacted] aggressively pushed the [redacted] backward, and [redacted] the [redacted] [redacted] the building. She got out of the [redacted] [redacted] [redacted] on, and [redacted] reach [redacted] [redacted] see [redacted] in rapid succession. [redacted] [redacted] agent [redacted] to the corner and [redacted] [redacted] on the [redacted] side, [redacted] to turn him over.

Two interviews of [redacted], the Aunt of [redacted], did not provide any additional or conflicting information. She confirmed the agent identified himself as FBI, and asked [redacted] to lift his shirt. After [redacted] ran, she could only see the agent from the rear window of the truck, and saw him pull his gun and fire two shots. The Texaco mini mart was blocking her view of [redacted]. She had not seen the weapon on [redacted], who she knew only as [redacted], four year old son, [redacted], was in her lap at the time of the shooting, and [redacted] was out of the truck. b6 b7C

The first Police Officer to arrive at the scene, OKCPD Officer [redacted] noted in his report that upon arrival at the scene at 10:52, SA [redacted] immediately identified himself as an FBI Agent, and stated the wounded subject was a murder suspect wanted out of Texas. SA [redacted] also told Officer [redacted] the subject pulled a semi automatic pistol out while running away, and was turning to point it at him when he shot the subject twice. The Officer observed the subject lying on the ground, handcuffed. A semi automatic pistol was laying on the ground approximately three feet from the subject. Officer [redacted] then secured the scene and facilitated EMS treatment of the subject.

Officer [redacted] also spoke to [redacted], a store clerk from the Texaco station. [redacted] advised she saw SA [redacted] and [redacted] talking, then saw the subject shove SA [redacted] with both hands before running out of her sight between the station and the adjacent building, a motel. [redacted] saw SA [redacted] fire two shots, but could not see the subject when it happened.

Officer [redacted] OKCPD, also reported that he arrived on the scene at 10:52, and assisted securing the scene as well as searching the subject for additional weapons prior to EMS transportation of the subject. [redacted] report indicates he found a box of .22 ammunition in the subject's right front pocket. Photographs taken of the scene reveal that Officer [redacted] placed the box of ammunition on the ground near the location where the subject fell.

b6
b7C

Witness [redacted] advised he was sitting in the front room of his residence when he heard two gunshots. He went outside and saw a man standing over another man lying on the ground. He saw the standing man kick an object away from the man on the ground. [redacted] believed this object to be a gun. He then saw the standing man kneel and handcuff the man on the ground while saying "You didn't have to pull a gun on me!" When this man saw [redacted] he showed him a gold badge and said "Call 911!" [redacted] ran back into his house to call 911. He thought the man was an undercover Police Officer, and the wounded man had

robbed the Texaco gas station. [redacted] was shown a photograph of SA [redacted] and confirmed this was the man who he observed handcuffing the injured suspect, and making the statements. [redacted] position as indicated was approximately 60 yards from the location [redacted] fell after being shot.

b6
b7C

Witness [redacted] advised he was sitting in his house when he heard someone yell "FBI!", and then heard two "pops." He looked out the window to see a man walk approximately three steps around the corner of the Texaco station, and then collapse. He then saw a man come and check the fallen man's pulse, and then go to a telephone to call for help.

Witness [redacted] advised he and his wife were eating at Michelle's Restaurant across the street from the Texaco station. He was seated facing the South window and could see the Texaco lot where the shooting had occurred. He could not hear any conversation, and was not close enough to describe the dress of either individual involved until he crossed the street after the shooting. [redacted] saw one man chasing another across the lot. He then saw the man chasing slow down, pull a pistol, and shoot twice toward the other man. He observed the other man fall down immediately, and the one chasing go directly to the fallen man, then show his badge to another individual who was out of [redacted] view. [redacted] thought he heard two shots. He could not see if the other man had a weapon, and did not see the man turn toward the officer.

No other witnesses identified and interviewed in the restaurant, in the neighborhood, or at the Texaco station could provid information to support or refute the statements of the [redacted] or SA [redacted] statement to the Police Officer to first arrive.

b6
b7C

A VCR format video surveillance system was being utilized by the Texaco station, and the VCR tape that was in the system was taken immediately after the shooting. A review of this tape reveals date stamps indicating the tape recording from 03/27/2000, to 03/28/2000, ending at 2:50 pm. An interview of the store manager revealed the system was new, and employee error was probably responsible for the missing time on the tape. A review of the other VCR tape that was place in the recorder after the shooting revealed it begins on March 29th, at 11:18 am. The tape depicts some of the actions of the Police Officers and FBI SAs who arrived at the scene after the shooting, but no footage of the actual shooting event. It is apparent from the review of this tape that it was placed in the VCR unit and started after

the FBI requested the tape that was in the VCR at the time of the shooting.

On 04/11/2000, attending physicians declared subject [redacted] was healthy enough to be interviewed. [redacted] agreed to an interview and provided the following information to OKC SA [redacted] and Task Force Officer [redacted] admitted stealing a vehicle in Oklahoma City with accomplice [redacted] and traveling to a rest stop where they abandoned the car and began hitch hiking toward Shreveport, Louisiana. They were picked up by a man known to them only as "Bo", or "Jimbo" who was driving a truck. Bo drove them to a small town in Texas, where they continued to try to hitch hike to Shreveport. They were unsuccessful getting a ride, and later in the day, Bo, with his half brother in the truck, picked them up again. Bo hired them for a local plastering job, paid them $25.00, and took them to a party with other people at Bo's half brother's house that evening. Bo later took them to his house, then later went drinking with [redacted] in town. An argument ensued between Bo and [redacted] which escalated to Bo threatening to kill [redacted] and [redacted] wrestled a shotgun from Bo, then [redacted] struck Bo in the head with it. They robbed and hog tied Bo who seemed to be alive when they stole his truck. They traveled to Florida, where they separated, and [redacted] was eventually arrested for fighting in a bar. He spent a month in the Broward County jail and returned to Oklahoma City in February, 2000. [redacted] learned of the death of Bo in Oklahoma City from people the FBI had talked to. He decided not to turn himself in, and bought a .22 semi automatic pistol on the street. [redacted] had spent 10 years in jail, and did not want to go back. After spending the night with his girlfriend [redacted] on the 29th of March [redacted] was confronted by an FBI agent at the Texaco gas station. [redacted] and her son, and [redacted] aunt, were in the truck when the FBI agent spotted [redacted]

b6
b7C

When confronted by the FBI agent, [redacted] refused to confirm his identity. When the FBI agent tried to lift up his shirt to look for tattoos, [redacted] shoved the agent and began to run away. The gun that he had began to slip from his waistband, so he reached for it as he ran. As soon as he grabbed the gun, he was shot by the agent and fell to the ground.

b6
b7C

On 04/11/2000, Subject [redacted] was arraigned in Federal Court, District of Oklahoma, on charges of Assault of a Federal Officer with a Deadly Weapon, and being a Felon in the Possession of a Firearm.

This report suggests that the following salient factors be specifically considered in the decision regarding SA [redacted] use of deadly force:

Subject [redacted] has a lengthy criminal record that includes Assault with a Deadly Weapon, and he was wanted for Capitol Murder charges. SA [redacted] was very familiar with his background, and had received specific information regarding the violent death of victim Mesker.

[redacted] when advised by associates that the FBI was looking for him for the murder of Mesker, decided to purchase a pistol rather than turn himself in. b6 b7C

[redacted] was given an opportunity by SA [redacted] to surrender. SA [redacted] clearly identified himself as an FBI agent, and gave [redacted] clear directions in the Texaco parking lot. [redacted] chose not to comply and strenuously shoved SA [redacted] in an attempt to escape and/or gain a position of advantage.

As [redacted] ran toward the space between the Texaco station and the adjacent motel, he was reaching, and successfully grabbed a gun that was in his back waistband. SA [redacted] would have had an excellent view of this inasmuch as [redacted] was directly behind [redacted] as he ran.

The distance and depth of the passageway between the two buildings [redacted] was running to was 18.5 feet wide by 29.11 feet long. He had grabbed the weapon in his waistband, and was very near the northeastern corner of the brick Texaco building, and a short distance away from the two building corners at the southern end of the passageway. Although SA [redacted] could possibly have eliminated the northeastern corner of the Texaco building as cover for [redacted] by adjusting his pursuit to the west, had [redacted] successfully traversed the passageway, the two southern corners of the buildings would have given [redacted] far superior cover over SA [redacted] who was in an open station lot with no immediate cover. b6 b7C

It is suggested SA [redacted] actions be considered vis-a-vis the IMMINENT DANGER clause of the DOJ Deadly Force Policy and defined in the Manual of Investigative Operations Guidelines (MIOG) Part II, Section 12-2.1.(2)(b), 1. through 1.b:

"1. Imminent Danger: "Imminent" does not mean "immediate" or "instantaneous," but an action is pending. Thus, a subject may pose an imminent danger even if he/she is not at that very moment pointing a weapon at the Agent. For example,

imminent danger may exist if Agents have probable cause to believe any of the following:

a. The subject possesses a weapon, or is attempting to gain access to a weapon, under circumstances indicating an intention to use it against the Agents or others; or

b. The subject is armed and running to gain the tactical advantage of cover; or...."

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
PHOENIX DIVISION
JANUARY 13, 2000

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident was the result of an attempted arrest of Fugitive [redacted]

On approximately January 6 or 7, 2000, Task Force Coordinator SA [redacted] was notified by Deputy [redacted] a member of the Fugitive Task Force, that [redacted] was going to initiate a fugitive preliminary inquiry for [redacted] was wanted for attempted murder on a police officer after he used a rock to crack a park ranger's skull and had unsuccessfully attempted to take the ranger's firearm. Deputy [redacted] indicated that [redacted] had a criminal history involving violence and that he was a member of the Aryan Brotherhood.

On January 10, 2000, Deputy [redacted] and Deputy [redacted] met with a source who stated that [redacted] was using heroin and was also doing "speed balls", a mixture of heroin and cocaine. The source stated [redacted] had a revolver and always carried the weapon with him in his pants or in an athletic bag. The source further stated [redacted] made the comment that if the police approached him they would be forced to kill him.

On January 11, 2000, Deputy [redacted] contacted [redacted] Adult Probation Officer, [redacted] who advised that [redacted] would not go back to prison because of her knowledge that [redacted] had aligned himself with the Aryan Brotherhood, and when he was released from prison,

positive identification by radio.

Deputy requested the manager to recontact and explain to that the vehicle needed to be moved outside of the motel parking area. The manager complied and again apparently misunderstood and moved his vehicle a few parking spaces and did not leave the motel parking lot as instructed. Deputy then requested SA to contact the manager and have the manager contact a third time to again request that move his vehicle out of the motel parking lot and onto 24th Drive, which is immediately adjacent to the approximately 5-foot tall concrete block wall that surrounds the E-Z Inn Motel. This time it appears understood the request and began to drive out of the parking lot. Detective who was parked inside the parking lot, called out this movement on his radio and began following out of the parking lot. After moved out of view, Agents and exited Room 111 and walked in the direction that was traveling. As approached the exit to the motel parking lot, he stopped his vehicle and began looking around. It was not known if had observed the surveillance or if he was just confused as to where to park his vehicle. At that time Deputy announced via radio the command to initiate a car stop. Detective pulled his vehicle in behind and bumped the rear of vehicle. Detective and Lieutenant then drove their vehicles into the parking lot through the northern entrance and both stopped their vehicles behind vehicle and on the passenger side of Detective vehicle. accelerated toward the southern exit, at which time SA entered the southern exit and collided with the front end of vehicle. Detective then drove forward and again tapped vehicle from the rear. SA vehicle was followed by SA vehicle through the southern entrance. During this time frame, SAs and had taken up protective positions behind the corner of a motel room and then moved to the rear of Detective vehicle as the car stop was being executed. All members of the task force immediately exited their vehicles with weapons drawn and were clearly identified by police markings on their clothing.

b6
b7C

b6
b7C

The task force members began shouting at advising that they were FBI/police officers and for him to keep his hands in plain view. SA saw first look directly at him and then look around at the other law enforcement officers surrounding him . At that time, made a

lunging/reaching motion into the passenger area of his vehicle, at which time SA believed was reaching for a weapon, and shouted words to the effect, "He's going for it". During this same time frame, SA left his position of cover and took up a position approximately ten feet from and very slightly to the rear of the driver's side door of vehicle. Immediately after statement that appeared to be lunging for a weapon, SA Detective Deputy and Investigator opened fire on SA did not fire as he felt he was in a crossfire with the agents/officers at the rear of the vehicle and moved to a vehicle occupied by a civilian who was about to back up his vehicle into the line of fire. Investigator , who was in vehicle, fired two rounds at the front windshield of vehicle and then took up a position of cover. SA did not fire due to a possible crossfire situation and assisted SA in protecting the civilian. SA fired six rounds from his weapon while Deputy fired one rifle slug from his shotgun and one round of 00 buck pellets. Detective fired two rounds at SA remained in a position of cover and was not in a position to safely fire at

b6
b7C

After the shots were fired, it was determined that was no longer mobile and an immediate request was made for medical assistance. The Phoenix Fire Department paramedics were dispatched to the shooting incident at 1:33 p.m. They determined that was dead at the scene, at which time the Phoenix Police Department took over the investigation. All agents/officers at the scene were wearing body armor with the exception of SAs and

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
01/14/2000
BALTIMORE DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred in the Baltimore Division on 01/14/2000. While executing a search warrant, Special Agents (SAs) [redacted] and [redacted] shot and killed a pit bull dog behaving in an aggressive manner. SIRG members recommended that no administrative action be taken against either Agent as a result of their involvement in this incident.

Reference: [redacted] Reference report of Supervisory Special Agent [redacted] dated 02/09/2000.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

## Details of the Shooting Incident

On 01/14/2000, members of the Baltimore Special Weapons and Tactics (SWAT) Team and the Safe Streets Gang Squad were executing a search warrant in conjunction with a joint investigation with the Baltimore City Police Department, Homicide Unit. The search warrant called for a no-knock entry of a residence in Baltimore which was believed to be the headquarters of a violent drug organization.

Upon entry, SWAT Agents began clearing the residence. SAs [redacted] and [redacted] entered the basement and noticed a large chained pitbull terrier dog acting in an aggressive manner, straining against the chain on it's collar. The chain appeared to be secured to an article of furniture in the middle of the basement. The Agents initially thought that the chain was short enough to allow them to conduct securing operations without being in danger of contact with the dog.

Two additional Agents entered the basement and located an adult male hiding in the front area of the basement. The subject was non-compliant with commands given to him and was subsequently restrained while the clearing of the basement proceeded. As SA [redacted] returned to the stairwell, the dog lunged in an extremely aggressive and violent manner. The chain unraveled from the furniture and the dog continued towards SA [redacted] resulting in SA [redacted] firing two rounds from his MP-9 shoulder weapon killing the dog. SA [redacted] also fired one round from his nine millimeter Sig Sauer semi-automatic pistol, striking the animal. The Bureau of Animal Control was notified and responded to remove the dead dog.

On 04/11/2000, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Civil Rights Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; William Q. Doherty, Section Chief, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Legal Advice and Training, Legal Policy, Office of the General Counsel; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; [redacted] Unit Chief, Asset Forfeiture Unit, Operational Support Section, Criminal Investigative Division; SSA [redacted] Practical Applications Unit, Training Division; and, [redacted] Supervisor, Washington Field Office. The only non-voting member

b6
b7C

present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division.

## Observations and Recommendations of the SIRG

b6
b7C

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SAs [redacted] and [redacted] was justified and in conformance with the deadly force policy. The SIRG recommended that no administrative action be taken against the SAs as a result of their involvement in this shooting incident.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
02/01/2000
DETROIT DIVISION

b6
b7C

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred in the Detroit Division on 02/01/2000. Special Agent (SA) [redacted] and two members of the Southgate, Michigan, Police Department shot and killed a bank robbery suspect after being fired upon when entering a motel room to execute his arrest. SIRG members unanimously agreed that no administrative action should be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Reference:** Reference report of Inspector-in-Place [redacted] dated 02/11/2000.

Details of the Shooting Incident

At approximately 4:45 p.m., on 02/01/2000, the Standard Federal Bank in Southgate, Michigan, was robbed at gunpoint. The lone subject fled the bank with an undetermined amount of cash, entered an automobile and departed the area. A witness on the outside of the bank who observed the robbery recorded a license plate and description of the subject's vehicle as he fled the scene.

SAs [redacted] and [redacted] were dispatched to the bank and initiated a bank robbery investigation. Upon receipt of the license tag number, a query was made through the state motor vehicle records and it was determined that the tag was registered to [redacted] Due to Ms. [redacted] not having completed her move to the address listed in the motor vehicle records, the Agents proceeded to a previous address listed for her. The Agents obtained a photograph of Ms. [redacted] from her file at the apartment complex office and upon their arrival at the residence, observed Ms. [redacted] enter an automobile matching the description of the getaway vehicle and which bore the license plate that was reported by the witness at the bank robbery. Ms. [redacted] departed the area and went to a gas station. Based on a conversation with the Detroit Division's Bank Robbery Coordinator, the two Agents approached Ms. [redacted] at the gas station. During the interview with her, she permitted the Agents to search her vehicle. Additional Agents joined SAs [redacted] and [redacted] during the vehicle search. Two photographs of a white male were found in the car who Ms [redacted] identified as her ex-boyfriend Jonathon Miller. It was also determined that he used an alias name of Brent J. Burchart. The Agents had Ms. [redacted] review a surveillance photograph obtained from the bank robbery scene. Ms. [redacted] advised the Agents that she believed that the person depicted in the photograph was in fact her ex-boyfriend. She advised that she recognized the coat and the handgun in the photograph as belonging to Miller, and also verified that she had loaned her car to him earlier in the day.

b6
b7C

b6
b7C

Based on the information gathered from Ms [redacted], the Agents and Ms. [redacted] returned to Ms. [redacted] residence. They met with Ms. [redacted] parents and learned that Miller had been at the residence earlier in the evening, had called a cab company and departed the residence. Subsequent conversation with a cab company representative revealed that Miller had been taken to the Suburban Motel in Southgate, where he was dropped off at Room #4.

Agents responded to the Suburban Motel and determined that an individual who identified himself as Brent Burchart had checked into Room #4 of the motel. The motel manager was shown a photograph of the subject previously found in Ms. [redacted] car, and he verified the photograph as the same person who had checked into Room 4.

Investigating Agents observed a light on in Room 4 and contacted the Southgate Police Department for assistance. The four Agents and six Southgate Police Officers discussed the options available to effect the arrest of the suspect. An agreement was reached that the law enforcement personnel on the scene would attempt to effect the arrest of the subject by performing a surprise and rapid entry through the motel room door. b6 b7C

A pass key to the motel room had been received earlier and following specific assignments being made, the key was utilized to gain access to the room. According to members of the arrest team, SA [redacted] placed the key in the door knob and pushed the door quickly open, immediately followed by other officers on the scene. Commands of "police" and "FBI" were made several times before members of the entry team yelled "Drop the gun." A single gunshot was heard from the room causing law enforcement personnel to return fire.

The subject was handcuffed, and although injured by gunfire, was conscious and combative. An ambulance was called and the subject was placed on a gurney and put into the ambulance for transporting to a hospital. The subject subsequently died and an autopsy confirmed that 14 of the wounds incurred were inflicted by a shotgun and two wounds were made by a handgun.

Examination of the crime scene verified that the subject was in possession of a nine millimeter Luger, having one round in the chamber and several additional rounds in the magazine.

A declination of prosecution was received from the United States Department of Justice, Civil Rights Division, dated 04/28/2000, for law enforcement personnel involved in this shooting incident.

On 05/09/2000, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Office of b6 b7C

Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; Charles H. Middleton, Section Chief, Global Section - NS-2, National Security Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Legal Advice and Training, Legal Policy, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; and, SSA [redacted] Washington Field Office. The only nonvoting member present was [redacted] Management/Program Analyst, Office of Inspections, Inspection Division.

b6
b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members held a lengthy discussion of this shooting incident and unanimously agreed that the use of deadly force by SA [redacted] and other law enforcement personnel was justified and in conformance with the current deadly force policy. Members recommended that no administrative action be taken against him as a result of his involvement in this shooting incident.

Members made several observations and discussed numerous events that took place during this incident.

The first observation made by the group was the fact that although briefly discussed during the planning, participants did not place enough thought into the wall structure of the motel and the well-being of the individuals located in adjacent rooms. Members opined that at a minimum, law enforcement personnel should have removed all individuals from rooms located on each side of the subject's room.

The Training Division representative expressed his concern that there was not enough communication between Agents on

the scene and the supervisor at any time during this incident. Information contained in the administrative inquiry report stated that all members of the squad were cognizant of the fact that communication must be maintained with the communications center and that prior to any arrest scenario the supervisor is to be notified. However, it appeared that Agents did not follow through with these requirements during this incident.

Members noted that after the subject's apprehension, an arrest team member saw a long-barreled handgun on an end table. He was advised by SA [redacted] that the gun had been removed from under the subject and placed on the table for safety reasons during the apprehension. SIRG members opined that the action of placing a loaded firearm on a table approximately three feet away from a combative, handcuffed prisoner is not conducive to a safe environment.

The next observation made by the SIRG involved the firearms qualification records of two Agents involved in the incident. The Training Division representative advised that records indicated that SA [redacted] had last qualified on an MP-5 shoulder weapon in 1998 and that SA [redacted] possessed a weapon that he had not shot since 1997. It was also recognized that participants in the incident did not utilize shields.

b6
b7C

The last observation made by SIRG members pertained to participants not attending "deadly force" instruction training sessions. Although legal instruction training was recently provided three times by the Chief Division Counsel (CDC) of the Detroit Division, records indicated that neither SA [redacted] nor SA [redacted] attended any of these sessions. SIRG members unanimously agreed that all Agents of the Detroit Division should be reminded of the necessity to attend mandated deadly force training and that the CDC ensure that the session includes a legal refresher on exigent circumstances.

All of the observations made by the SIRG will be discussed with the Special Agent in Charge of the Detroit Division.

**Title:** ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
02/03/2000
BALTIMORE DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred on 02/03/2000. Special Agents (SAs) [redacted] and Corporal [redacted] of the Prince George's County Sheriff's Office shot and killed a subject wanted for homicide. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this incident; however, a recommendation was made that SA [redacted] be censured, suspended from duty for three days, and receive documented remedial firearms training for his neglect in practicing routine firearms safety procedures. This recommendation was based on an accidental discharge of SA [redacted] weapon during the incident, not shots fired to incapacitate the subject.

**Administrative:** Reference report of Inspector-in-Place [redacted], dated 02/16/2000.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection From: Inspection
Re: 297-HQ-A1270951-D, 04/19/2001

**Details of the Shooting Incident**

The Maryland Joint Violent Crimes Fugitive Task Force became involved in the Unlawful Flight to Avoid Prosecution case regarding Donald Lee Williams, Jr., at the request of the Beckley, West Virginia (WVA), Resident Agency. Williams was wanted for shooting to death a former co-worker and seriously wounding the co-worker's girlfriend as well as a second co-worker.

Investigation revealed that Williams obtained transportation on 01/18/2000, to the Washington, D.C., area. He allegedly stopped at a former acquaintance's residence in Washington and subsequently traveled to Maryland to meet a friend with whom he was previously incarcerated in New York. Surveillance in suburban Maryland identified individuals who were known associates of Williams during his period of incarceration in New York.

On 02/01/2000, the Baltimore Division received information from Pittsburgh stating that a Maryland resident called the Beckley, WVA, Police Department to determine if there was a reward for information leading to Williams' arrest. The caller was an individual named [redacted] with whom Williams had been incarcerated in New York. An Agent of the Baltimore Division attempted to contact [redacted] to gain his cooperation; however, contact was never made.

On 02/02/2000, task force members prepared to conduct an investigation and possibly make an arrest of Williams at the residence of [redacted] in Hyattsville, Maryland. SA [redacted] the Baltimore case Agent, gave a verbal briefing to his supervisor and other task force members regarding the fugitive investigation. At approximately 6:15 a.m., SA [redacted] made telephonic contact with an individual at [redacted] residence who consented to an FBI entry into the residence; however, Williams was not located.

Further investigation revealed that Williams could be residing with an individual known as [redacted] later identified as [redacted] in Laurel, Maryland. Although SA [redacted] was provided with only a partial address for [redacted] accurate directions to the location, specifically describing the outside and inside of the basement apartment and the outside of the duplex apartment building, were given. The individual also described the interior layout of [redacted] apartment including an interior stairwell leading upstairs to the interior of [redacted] residence. Information was provided to SA [redacted] that crack cocaine had been on the kitchen table in the

b6
b7C

past and that Williams recently indicated that he did not have a gun but was going to get one.

On the morning of 02/03/2000, SA [redacted] and three other Baltimore Agents drove to the location provided and confirmed the address of the apartment by physical description and location. SA [redacted] also confirmed the telephone numbers and subscribers names for both [redacted] and [redacted] b6 b7C

At that point, SA [redacted] decided to attempt to locate and arrest Williams at the basement apartment of [redacted] SA [redacted] telephonically contacted Supervisory Special Agent (SSA) [redacted] and advised him of an arrest plan. SSA [redacted] concurred with the plan and additional task force members were deployed to assist in the possible arrest of Williams. SA [redacted] provided all task force personnel a briefing on the previous day's investigative developments and the surveillance/arrest plan. All attendees were shown a photograph of the subject and a hand-drawn sketch of the apartment and the cul-de-sac where the duplex apartment was located. Specific information was provided regarding the layout of the apartments as well as details about recent drug activity and the subject's statement that he wanted to get a gun. SA [redacted] gave each team member a specific assignment during the perimeter surveillance and during the arrest plan.

On 02/03/2000, confirmation was made that Williams was inside the target apartment and at approximately 11:25 a.m., SA [redacted] gave the order to proceed with the arrest plan. After failing to contact Williams via phone to advise of their intentions, SA [redacted] knocked at least three times on the door of [redacted] and announced that he was a law enforcement officer serving a warrant. With no response to the "knock and announce", a ram was used to force open the door. The arrest team entered the apartment and began clearing rooms. Task Force members on the scene advised that Williams fled upstairs via the interior stairwell to the [redacted] b6 b7C

The babysitter in [redacted] heard task force personnel knocking on the door and opened it. She advised the officers that a black male was inside the upstairs apartment but that a small child was also there. The babysitter exited the apartment as task force personnel successfully coaxed the child out.

As officers took positions inside the upstairs apartment and at the side entrance, an Agent interviewed the babysitter. She was shown a picture of the fugitive whom she indicated was possibly, but not positively, the black male inside the apartment. This information was relayed via radio to members

of the entry team inside the apartment and to SA [redacted] who had returned to his vehicle to retrieve a diversionary device due to the subject's noncompliance with law enforcement demands. b6 b7C

Williams was ordered to comply with commands to show his hands and surrender, however, he refused. Williams searched a closet near a bedroom, continually moving his hands in and out of different areas of the closet. Williams was often bent over and partially covered by the closet curtain. The subject continued pulling items out of the closet and at no time during the incident did he verbally acknowledge the commands of warning by law enforcement personnel.

The law enforcement officers viewing Williams' movements behind the sheet indicated they were concerned that he was searching for a weapon in the closet. Due to the open configuration of the apartment, they had little or no cover and due to the subject's lack of compliance with commands, officers were concerned for their safety.

Due to these safety concerns, SA [redacted] fired one round and Williams appeared to momentarily go down. Williams continued reaching into the closet and failed to comply with commands to surrender. SA [redacted] discharged his weapon until it emptied. While SA [redacted] reloaded his weapon, SA [redacted] stepped in front of him and fired several rounds at Williams. Williams continued to search in the closet and failed to comply with commands. SA [redacted] entered the apartment and moved forward observing Williams moving and unable to see his hands. SA [redacted] believed that Williams was searching for a possible weapon inside the closet area and decided to use a flash bang in an effort to disorient him and halt his search attempts. b6 b7C

Subsequent to the deployment of the flash bang, it was believed that more rounds were immediately fired; however, this could not be proven. Williams was lying on the floor near the closet and SAs [redacted] and [redacted] proceeded to handcuff him. After Williams was handcuffed, SA [redacted] pulled him away from the closet area toward the living room. Emergency medical service personnel were summoned and immediate notification of the shooting was made to pertinent local law enforcement agencies. Williams was declared deceased at the scene. A subsequent autopsy revealed that Williams died from five gunshot wounds to the body.

During evidence collection, a loaded 30.06 high powered rifle was seized from behind the bedroom door, near a closet. Additionally, a firearms examination report indicated that a total of three semiautomatic pistols were fired by law

enforcement personnel on the scene. It was determined that the pistols belonged to Detective [redacted] SA [redacted] and SA [redacted]

It was subsequently determined that SA [redacted] accidentally discharged his weapon while effecting the arrest of Williams. The accidental discharge resulted in a non-life threatening injury to the subject's right thigh.

After a lengthy review, a declination of prosecution was received from the United States Department of Justice, Civil Rights Division, on 04/02/2001, regarding the actions of law enforcement personnel involved in the shooting incident.

On 04/10/2001, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Trial Attorney, Civil Rights Division, USDOJ; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; [redacted] Unit Chief, Asia, Middle East and Africa Unit, National Security Division; [redacted], Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted], Firearms Training Unit, Training Division; SSA [redacted] Operational Support Section, Undercover and Sensitive Operations Unit, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; and SSA [redacted] Washington Field Office. Nonvoting members present were SSA [redacted], and [redacted] Management/Program Analyst, Inspection Management Unit, Office of Inspections, Inspection Division.

b6
b7C

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to: (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by law enforcement personnel was justified and in conformance with the deadly force policy.

As a result of the accidental discharge of SA [redacted] weapon, members opined that he should be censured, suspended from duty for three days, and receive documented remedial firearms training for his neglect in practicing routine firearms safety procedures. b6 b7C

Re: 297-HQ-A1271801-D, 08/15/2000

**Details of the Shooting Incident**

On 03/29/2000, SA [redacted] shot and seriously wounded [redacted] who was being sought on a Federal Unlawful Flight to Avoid Prosecution warrant out of the Eastern District of Texas. [redacted] and an accomplice were suspected of murdering Gerald Lee Mesker who had picked them up while hitchhiking. [redacted] had an extensive criminal history involving crimes of violence.

After stealing a vehicle in Oklahoma city and abandoning it at a rest stop in Texas on 12/29/1999, [redacted] and an accomplice known as [redacted] were picked up by Mesker. The three reportedly went to Mesker's residence. Mesker was subsequently found dead at his residence with his hands and feet bound behind his back with electric extension cords. The cause of death was determined to be blunt force trauma to the back of the head and neck. [redacted] and [redacted] reportedly stole Mesker's vehicle and abandoned it in Shreveport, Louisiana. The two individuals then purchased Greyhound bus tickets to Pensacola, Florida, and subsequently proceeded to Miami via bus. b6 b7C

Due to the subject's extensive criminal history in Oklahoma City, as well as an Oklahoma address provided by [redacted] when he stayed at the Salvation Army in Pensacola, the Dallas Division initiated a lead to Oklahoma City which was subsequently assigned to SA [redacted]

Through the utilization of a composite sketch provided by the Dallas Division, SA [redacted] was able to identify [redacted] as well as his previous girlfriend, [redacted] also developed information regarding locations [redacted] frequented, including an apartment complex.

On 03/28/2000, [redacted] provided SA [redacted] with a license plate for a truck reportedly associated with [redacted] Through vehicle identification records, SA [redacted] located an address for the truck and on the morning of 03/29/2000, SA [redacted] was surveilling the truck. SA [redacted] noticed a woman with a small child driving the truck and followed the vehicle to the Bel Air Motel in Oklahoma City. SA [redacted] waited in his b6 b7C

vehicle across the street from the motel and at 10:53 a.m., he broadcast a radio request for any Squad 5 Agents to respond to him. At 10:58 a.m., SA [redacted] radioed for assistance advising he had shot a subject.

A subsequent interview with the subject's girlfriend determined that she, [redacted] her four year old son and her aunt pulled into a Texaco station to get gas. A man pulled up next to the truck, exited his vehicle and identified himself as an FBI Agent. According to the girlfriend, [redacted] was advised by SA [redacted] to get out of the truck. As [redacted] exited the truck, his shirt came up and she saw a gun in his pants. When the Agent told [redacted] to put his hands on the truck, [redacted] shoved SA [redacted] and ran. As [redacted] ran away, he was reaching for the gun in his waistband. She heard the Agent fire two shots. The injured subject was handcuffed and transported for medical attention. The subject recovered from his wounds and is currently on trial for Assault on a Federal Officer.

b6
b7C

On 08/08/2000, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted], Chief Inspector, Office of Inspections, Inspection Division; [redacted], Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Deputy Chief, Civil Rights Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; [redacted], Unit Chief, NS-2B, National Security Division, SSA [redacted] Undercover and Sensitive Operations Unit, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted], Unit Chief, Firearms Training Unit, Training Division; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; and, SSA [redacted] Washington Field Office. The only nonvoting member present was [redacted] Management/Program Analyst, Office of Inspections, Inspection Division.

**Details of the Shooting Incident**

SA [redacted] was notified in early January by Deputy [redacted] a member of the Fugitive Task Force (FTF), that he was going to initiate a fugitive preliminary inquiry for subject Donald Dean Compton. Compton was wanted for attempted murder on a police officer and had a criminal history involving violence. Information also indicated that Compton was a member of the Aryan Brotherhood. b6 b7C

On 01/10/2000, Deputy [redacted] and Deputy [redacted] met with a source who stated that Compton was using heroin and was also doing "speed balls", a mixture of heroin and cocaine. The source advised that Compton possessed a revolver and always carried the weapon either with him, in his pants, or in an athletic bag. According to the source, Compton had stated that if the police approached him, they would have to kill him.

On the evening of 01/11/2000, several members of the FTF conducted a surveillance at Compton's ex-girlfriend's residence; however, Compton was not sited.

On 01/12/2000, the source contacted Deputies [redacted] and [redacted] a second time and advised that Compton was driving a bluish-gray colored Plymouth Colt. Later that evening, the Deputies located the vehicle at the E-Z Inn Motel in Phoenix. After confirming the vehicle identification number as the vehicle belonging to Compton, Deputy [redacted] requested that the task force attempt to arrest Compton that evening. SA [redacted] determined that it would be more feasible to effect Compton's arrest in the early morning hours of 01/13/2000, and to take the time to formulate a plan for the arrest. b6 b7C

At approximately 4:30 a.m., on 01/13/2000, task force members met to formulate an arrest plan. Information was provided that Compton's vehicle had been surveilled the entire evening of 01/12/2000. Attendees were also briefed about Compton's criminal history and the fact that he should be considered armed and dangerous. Photographs of Compton were disseminated and information regarding Compton's vehicle and license plate was discussed.

The initial arrest plan called for the surveillance of Compton after he left the motel and for officers to allow him to arrive at a destination and effect Compton's arrest as he was exiting his vehicle. At the briefing, SA [redacted] ensured that all task force members were wearing ballistic vests and that an adequate number of shoulder weapons was available.

Detective [redacted] took up a surveillance position in the parking lot of the E-Z Inn Motel with the other units remaining on the perimeter. As it began to get daylight, Detective [redacted] moved his vehicle to avoid drawing undue attention to himself. At approximately 10:00 a.m., Deputies [redacted] and [redacted] went to the office of the motel to speak with the manager and noticed that Compton's vehicle was no longer in the parking lot. Task Force members began checking Compton's associates' addresses in an attempt to locate his vehicle. b6 b7C

During this same time, SAs [redacted] and [redacted] were returning to the Phoenix Division after conducting early morning leads. SA [redacted] a Training Agent, had obtained previous permission from his supervisor to assist in arrests on other squads in order for SA [redacted] a Probationary Agent (PA), to obtain appropriate experience during her PA training period. SAs [redacted] and [redacted] were given a location to surveil in an attempt to locate Compton's vehicle. Compton's vehicle subsequently returned to the motel and all task force members along with SAs [redacted] and [redacted] reported to SA [redacted] on the perimeter of the motel for an updated briefing. b6 b7C

Deputies [redacted] and [redacted] recontacted the manager of the motel and learned that Compton was in Room 118. Detective [redacted] briefed all members of the task force regarding a proposed felony car stop arrest scenario if Compton left the motel parking lot again. Each task force member was given a specific location and job assignment during this radio briefing. SAs [redacted] and [redacted] were given the assignment of physical surveillance of Compton's motel room and vehicle from Room 111, which was located immediately across the parking area from Compton's room. In order to covertly enter Room 111, both Agents removed their ballistic vests to avoid alerting Compton to law enforcement presence.

At approximately 12:45 p.m., Deputies [redacted] and [redacted] recontacted the hotel manager requesting that he contact Compton and advise him that the motel parking lot was to be resurfaced and request that Compton move his vehicle from it's current location. The location that Compton was to park his car was immediately adjacent to an approximately five foot tall concrete block wall. According to the plan, this was the location in which Compton's vehicle would be stopped and his arrest executed. The manager made contact with Compton; however, Compton did not understand the manager's instructions correctly and moved his vehicle only a few spaces within the parking lot. This movement was observed by SA [redacted] and SA [redacted] who positively identified Compton while he moved his vehicle and advised task force members of the positive identification by radio.

b6
b7C

Deputy [redacted] requested that the motel manager recontact Compton and explain to him that his vehicle needed to be moved outside of the motel parking area. The manager complied with the request; however, again Compton moved his vehicle a few parking spaces but did not leave the motel parking lot as instructed. Deputy [redacted] then requested that SA [redacted] contact the manager and have him contact Compton a third time to request that he move his vehicle out of the motel parking lot and onto 24th Drive. It appeared that Compton understood the instructions as he entered his vehicle and began to drive out of the parking lot. Via radio, Detective [redacted] advised other task force members of Compton's actions and he began following Compton out of the parking lot. After Compton moved out of view, SAs [redacted] and [redacted] exited Room 111 and walked in the direction that Compton was traveling. As Compton approached the exit to the motel parking lot, he stopped his vehicle and began looking around. At that time Deputy [redacted] announced via radio the command to initiate a car stop. Detective [redacted] pulled his vehicle in behind Compton's while Detective [redacted] and Lieutenant [redacted] drove their vehicles into the parking lot and stopped behind Compton's vehicle and to the side of Detective [redacted] vehicle. Compton accelerated toward the southern exit, at which time SA [redacted] entered the southern exit and collided with Compton's vehicle. During this time, SAs [redacted] and [redacted] took protective positions behind the corner of a motel room and then moved to the rear of Detective [redacted]

b6
b7C

vehicle as the car stop was executed. All task force members immediately exited their vehicles with weapons drawn.

Task force members began shouting at Compton advising they were law enforcement officers and for him to keep his hands in plain view. SA [redacted] saw Compton look directly at him and then look at the other officers surrounding him. At that time, Compton made a lunging/reaching motion into the passenger area of his vehicle. Believing that Compton was reaching for a weapon, SA [redacted] shouted words to the effect, "He's going for it". Immediately after SA [redacted] statement, SA [redacted] as well as three task force members opened fire on Compton. b6 b7C

When the gunfire ceased, a determination was made that Compton was no longer mobile and an immediate request was made for medical assistance. Paramedics of the Phoenix Fire Department determined that Compton was dead at which time the Phoenix Police Department took over the investigation.

On 08/08/2000, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted], Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Deputy Chief, Civil Rights Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; [redacted] Unit Chief, NS-2B, National Security Division, SSA [redacted], Undercover and Sensitive Operations Unit, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Office of the General Counsel; [redacted] Jr., Unit Chief, Firearms Training Unit, Training Division; SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; and, SSA [redacted], Washington Field Office. The only nonvoting member present was [redacted] Management/Program Analyst, Office of Inspections, Inspection Division. b6 b7C

Re: 297-HQ-A1271898-D, 08/14/2000

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

During the discussion of this shooting incident, SIRG members unanimously opined that the use of deadly force by law enforcement officers was justified and in conformance with the deadly force policy. By letter dated 04/26/2000, a declination of prosecution was issued by [redacted] Special Assistant County Attorney, Office of the Maricopa County Attorney in Phoenix, Arizona. Additionally, by letter dated 07/10/2000, the U.S. Department of Justice, Civil Rights Division, provided a declination of prosecution regarding this shooting incident. b6 b7C

Observations made by members of the SIRG was the fact that neither SA [redacted] or SA [redacted] were wearing body armor during this incident and that no FBI Supervisor was present on the scene during the arrest of a subject prone to violence. These observations will be brought to the attention of the Special Agent in Charge of the Phoenix Division.

Re: 297-HQ-A1271781-D, 09/13/1999

**Details of the Shooting Incident**

This incident was predicated on a phone call received by Donald L. Perusi, the Acting ASAC (A/ASAC) for the New York Office (NYO), on the afternoon of 01/27/1999. SA [redacted] of the NYO's Special Operations Group (SOG) Aviation Unit located at the Lakehurst, New Jersey (NJ), Naval Air Station advised A/ASAC Perusi that he had received a request from the Jackson, NJ, Township Police Department (JTPD) for aerial assistance in a search for a tiger that had been sighted roaming free in the area bordering Six Flags Great Adventure Safari Theme Park in NJ. A/ASAC Perusi advised SA [redacted] to provide the requested aerial assistance to the JTPD and to also request that a liaison officer from the JTPD ride with the SOG contingent to facilitate communications between each agency. He also advised SA [redacted] to notify the Red Bank Resident Agency, Newark Division, that the New York Division would have an aircraft working on this matter in the vicinity of Great Adventure. b6 b7C

A/ASAC Perusi inquired about the availability of the Forward Looking Infrared (FLIR) equipped aircraft and after being advised that it had not returned from maintenance, he instructed that a helicopter be used until the FLIR became available.

At approximately 6:00 p.m., that evening, the helicopter returned to the Lakehurst facility at the same time the FLIR aircraft returned from maintenance. Patrolman [redacted] of the JTPD and SA [redacted] entered the FLIR aircraft and returned to the search site. SA [redacted] also volunteered to drive to the search site with a Bureau radio in case ground communication problems were incurred with the aircraft. This was later determined to be an excellent decision because SA [redacted] provided a vital communications link when the JTPD radio went out approximately one hour after their arrival on site. b6 b7C

SA [redacted] was the Pilot in Command (PIC) of the FLIR aircraft and was assisted by SA [redacted] and Investigative Specialist-Aviation (ISA) [redacted] in trying to ascertain the location of the tiger. Ground observation was very difficult due to the area under observation being a combination industrial and residential area interspersed with heavy thicket. Almost immediately upon arriving at the site, ISA [redacted] verified the tiger's location via the FLIR. This information was relayed to law enforcement officers at the command post on the ground which was being used to position the various ground units at the scene. Ground communications

established by the JTPD ceased functioning and an alternate ground communication link was established using SA [redacted] who assumed the role of ground coordinator with local authorities.

With the tiger's location being ascertained, the local authorities attempted to tranquilize the animal without success on several occasions. Fearing that the animal would move into a nearby heavily populated residential area, the local authorities decided to euthanize the tiger. This decision was facilitated with the onset of fog moving into this location. A plan was devised whereby various elements of the available ground personnel would flush the tiger out of the wooded area toward an open space where shooters perched atop woodpiles could fire toward the animal as he exited the woods.

SA [redacted] entered the woods with the team that would flush the tiger toward the open space. His primary function was to provide radio communications for the team and to ensure that this contingent did not walk into a crossfire situation with those "shooters on the woodpiles." SA [redacted] was provided with an 870 Remington shotgun with rifle slug for his own protection by a member of the Fish and Wildlife Department who was present. After one pass through the woods, and while he was standing in an open space, SA [redacted] observed the tiger to walk out of the woods directly toward himself and one New Jersey State Trooper. Realizing that he had a clear shot at the animal, SA [redacted] squeezed off one round and the tiger fell to the ground. SA [redacted] fired a second and third round at the tiger which quickly scampered back into the woods. SA [redacted] was certain that he hit the tiger with his first and third rounds. b6 b7C

The FLIR-equipped aircraft located the tiger in a stationary position in the woods and SA [redacted] directed the ground personnel toward the tiger's location. SA [redacted] entered the wooded area as part of the entry team which would verify whether the tiger was dead or alive. With the use of night vision goggles being utilized by a fellow FBI Agent, the tiger was located from a distance. Fearing that he might still be alive, a decision was made to fire several shots into the tiger to ensure the safety of law enforcement personnel. Inasmuch as he was in a position to fire at the animal's spinal column, SA [redacted] fired one round of slug into this area of the tiger with a second weapon, a Remington 1100 which had been provided to him. At 10:45 p.m., that evening, it was determined that the tiger was dead and his remains were removed from the woods.

On 08/03/1999, the SIRG met to discuss the above-captioned shooting incident. Acting Chief Inspector Robert J. Cordier, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: Dana D. Biehl, Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Assistance Section, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The only nonvoting member present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

The SIRG members unanimously agreed that the escaped tiger represented a serious danger to society in general, and particularly to the law enforcement authorities attempting his capture. The SIRG determined that SA [redacted] use of deadly force was justified.

From a safety and training perspective, however, it was determined that there were inadequate precautionary safety measures employed upon the assignment of personnel to this situation. The SIRG determined that the SAs who responded to this search scene should have arrived in possession of the appropriate weapons which would have provided for their welfare considering the imminent danger presented by the tiger. The SIRG believed that SA [redacted] participation in this event, armed with only his Glock 27 firearm, was problematic. His need to borrow shotguns from other agencies to provide for his safety was

evidence of inadequate planning and preparation on his part, and it raised concerns of management oversight of this situation once acquiescing to the request for assistance from the Jackson Township Police Department.

For the information of all managers and supervisors within the NYO, it should be emphasized that prior to the commitment of manpower and resources toward situations which lack any discernible federal law enforcement nexus, there is a need for the division to obtain FBIHQ approval for the commitment of these resources and expenditure of appropriated funds toward these non-Federal matters. This approval process can be facilitated through telephone calls to the appropriate substantive investigative unit at FBIHQ which will coordinate the request with the Office of General Counsel (OGC) to ensure proper use of appropriated funds.

To expedite this approval process, the SIRG recommended that the Administrative Law Unit, OGC, establish a process and form by which this approval can be expedited, and where appropriate, can be coordinated with the Department of Justice.

(1 - Ms. [redacted]
1 - Mr. [redacted] Quantico
1 - Mr. [redacted] WFO
1 - Mrs [redacted] Room 7861

Details of the Shooting Incident

The underlying substantive investigation was predicated on source information received by the Miami Division which resulted in SAs [redacted] and [redacted] conducting a preliminary investigation at a residence located in Miami, Florida. The SAs were accompanied by three representatives from the Florida Power and Light (FPL) Utility Company. Source information indicated that the residence was being utilized as a "Grow House" to harvest illegal drugs. The FPL representatives were conducting a lawful, cursory investigation involving the theft of power from their company by the resident at the same Miami address.

While the foregoing investigators discussed their initial findings across the street from the residence, an unknown white male exited from this house and walked toward SAs [redacted] and [redacted] As the white male walked towards them, the SAs identified themselves and the individual immediately began to retreat back toward his house. As he did so, he indicated that if the SAs did not remove themselves from his property he would "sic" his dog on them.

b6
b7C

The man opened the gate to a large privacy fence surrounding the property and a large pit bull dog emerged and instantly charged at the SAs, who were standing near the front sidewalk area. SA [redacted] attempted to dissuade the dog by yelling commands; however, the dog continued to charge. Fearing for his safety as well as the safety of SA [redacted] SA [redacted] produced his Bureau-issued handgun and fired two rounds at the charging dog. The dog immediately retreated and the subject re-entered the residence. Subsequent investigation revealed that the dog was hit by one round from SA [redacted] weapon and died from the wound.

The area was immediately flooded by additional FBI SAs, as well as other law enforcement personnel and a perimeter was established. The United States Attorney's Office (USAO), Southern District of Florida, gave oral authorization for law enforcement personnel to arrest the occupant of the house who was identified as [redacted] Additional contact with the USAO resulted in a search warrant being issued for the residence which confirmed that the house was being utilized in the manufacturing and distribution of controlled substances.

On 09/14/1999, the SIRG met to discuss the above-captioned shooting incident. Acting Chief Inspector

Re: 297-HQ-A1271748-D, 09/17/1999

Robert J. Cordier, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted], Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted], Trial Attorney, Civil Rights Division, USDOJ; [redacted], Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted], Legal Advice and Training, Legal Policy, Office of the General Counsel; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted], Unit Chief, Firearms Training Unit, Training Division; [redacted], Unit Chief, NS-2A Unit, Global Section - NS-2, National Security Division; and, [redacted], Supervisor, Washington Field Office. The only nonvoting member present was [redacted], Program and Management Analyst, Office of Inspections, Inspection Division.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

The SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the current deadly force policy.

The only observation regarding this incident involved comments by the Training Division representative who advised that firearms records indicated that SA [redacted] had only qualified twice with his issued weapon during Fiscal Year 1998, as opposed to the required quarterly qualification. This matter will be brought to the attention of the SAC of the Miami Division.

To: Inspection Division From: Inspection Division
Re: 297-HQ-A1271699-D, 08/17/1999

Details of the Shooting Incident

Special Agent (SA) [redacted] was assigned to the Reactive Squad in the Las Vegas Division. His duties consisted of periodically assisting the Criminal Apprehension Team (CATS), a multi-jurisdictional task force comprised of FBI Agents and local officers from the Las Vegas Metropolitan Police Department, the North Las Vegas Police Department and the Henderson Police Department, with fugitive apprehensions.

In the early evening of 02/17/1999, SA [redacted] and Sergeant [redacted] were conducting a spot surveillance of the residence of the spouse of local fugitive, [redacted] was wanted for Parole Violation for Robbery as well as having outstanding warrants for the charges of Burglary and Grand Theft. It should be noted that the subject's National Crime Information Center wanted persons notice indicated that he was "an escape risk" and Sergeant [redacted] had been advised by California authorities that [redacted] should be considered "Armed and Dangerous".

During the course of the investigation, information was obtained that [redacted] may be located in an apartment in Las Vegas. Sergeant [redacted] who had acquainted himself with the past criminal record of the subject, had been making periodic checks at the Las Vegas residence. [redacted] wife, who resided at this apartment, had been contacted by Sergeant [redacted] to enlist her cooperation in the capture of her husband, however, she declined to assist law enforcement authorities in this manner. b6 b7C

As SA [redacted] and Sergeant [redacted] were conducting the spot surveillance of the residence, the subject and his spouse arrived at the residence which resulted in the formulation of an oral arrest plan. Sergeant [redacted] and SA [redacted] drove to the north alley behind this residence when they noticed another vehicle behind them also entering the alley. The vehicle was a 1979 Ford Fairmont, gray in color, with no license plates. As Sergeant [redacted] pulled his unmarked vehicle into the parking area, he noticed the other vehicle was backing into the parking space next to his. The occupants of the car were observed to be a Hispanic male and female with several small children. Both [redacted] and [redacted] noted that the male closely resembled the fugitive [redacted] as he exited the vehicle and walked toward the previously identified apartment residence and entered with [redacted] following shortly afterwards. Not locating him in the apartment, [redacted] alerted SA [redacted] that [redacted] had exited

through the back door of the residence and both investigators began to search for him in the darkness to the rear of this location. From a distance, SA [redacted] spotted [redacted] crouched down behind a junk pile, noting that he was discernable because of the light-colored clothing he was wearing. The investigators decided to approach [redacted] from separate directions in an attempt to corner him in to his location.

As SA [redacted] hurried around to the south side of the apartment complex, he heard what he thought were three gunshots, as well as [redacted] yelling several commands for [redacted] to stop. SA [redacted] held his position and upon peering into the darkness on the south side of the complex, he suddenly saw [redacted] hurriedly moving out of the darkened alley in a crouched position, not wearing his light-colored shirt, and continue to move toward his position. Not being able to see [redacted] hands because of the darkness, cognizant of his armed and dangerous reputation and the likelihood of his carrying a weapon, and fearing for his life because of the three gunshots which he previously heard, SA [redacted] ordered [redacted] to stop. [redacted] ignored these commands and SA [redacted] believing he posed an imminent danger, fired one round from his weapon at [redacted] who continued to run past him and toward the front of his residence.

[redacted] heard SA [redacted] commands and his gunshot and he quickly joined with him and radioed for additional police assistance. [redacted] was subsequently located within his apartment residence, hiding himself within a closet area. He was not injured as a result of SA [redacted] shot at him.

On 08/03/1999, the SIRG met to discuss the above captioned shooting incident. Acting Chief Inspector Robert J. Cordier, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: Dana D. Biehl, Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Assistance Section, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted], Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and [redacted] Supervisor, Washington Field Office. The

b6
b7C

b6
b7C

only non-voting member present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division.

Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary. b6 b7C

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the FBI's deadly force policy.

The observations made by members of the SIRG pertained to the use of probationary agents on certain task forces such as CATS. Members commented that the FBI, as well as other law enforcement agencies, incurs difficulty in getting experienced agents and officers to participate in task forces and this results in the use of inexperienced agents in some instances. As part of this observation, members noted that neither SA [redacted] or Sergeant [redacted] utilized their ballistic protective vests. Members opined that both officers should have treated this situation as more than a routine surveillance. Additionally, the officers should not have separated from each other during their approach upon [redacted] since a one-on-one scenario is not conducive to officer safety. SIRG members emphasized the need for all task force personnel to be provided with basic street survival training, if this had not already been done.

Re: 297-HQ-A1271748-D, 09/28/1999

**Details of the Shooting Incident**

Subsequent to a bank robbery that occurred on 02/17/1999, bank surveillance photographs were obtained and aired on a local television station's crime stopper program. An anonymous tip was received identifying [redacted] as the individual depicted in these photographs. Based on this tip and a follow-up investigation, a Federal arrest warrant was issued for [redacted] on 02/23/1999.

[redacted] West Palm Beach Resident Agency Case Agent [redacted] was contacted by an attorney who put him in contact with an individual who indicated that he would possibly be able to assist in the apprehension of [redacted] According to the source, he and [redacted] had resided at the same residence in the past but had remained telephonically in contact with each other. The source also advised that [redacted] was extremely paranoid, believed his phone was bugged, and did not want to meet with anyone since he knew he was wanted for bank robbery. b6 b7C

On 02/26/1999, the source contacted SA [redacted] numerous times to report his telephone contacts with the subject. SA [redacted] briefed his supervisor [redacted], and requested that several Agents remain in the Resident Agency on standby to assist with the possible arrest of [redacted] At approximately 7:00 p.m., SA [redacted] advised the source not to contact him again unless he could establish a personal meeting with [redacted] He then alerted his supervisor of his actions and told his fellow SAs to stand down for the evening.

At approximately 7:15 p.m., while en route to his residence, SA [redacted] was paged by the source who stated that he had been advised by [redacted] to go to the Publix Shopping Center in West Palm Beach, Florida, and to call him from a pay phone. SA [redacted] contacted the SAs originally briefed on the matter and who had remained on standby earlier that evening. He advised these SAs and his Supervisor to meet him at a Mobile Gas Station located near the shopping center to develop an arrest plan should the meeting occur between the source and the subject. SA [redacted] also notified the Palm Beach County Sheriff's Office about the situation and requested that they respond to the area for back-up purposes. b6 b7C

Upon the arrival of the arrest team members, SA [redacted] advised them of the location of the possible meeting and also advised them that the subject was armed and dangerous. He provided photographs of [redacted] and a description of the

vehicle that [redacted] was believed to be operating. The six Agents orally developed a plan for the subject's arrest. It was later determined that this oral plan was misunderstood by several of the Agents involved in the shooting incident. Three of the Agents stated that the arrest was to take place outside a nearby McDonald's Restaurant, while three others believed that the arrest should occur within the restaurant. b6 b7C

At approximately 9:00 p.m. after waiting for [redacted] for a considerable period, the source unexpectedly departed the McDonald's Restaurant and was observed using a nearby pay phone. Shortly thereafter, the source walked down Military Trail and entered a green Nissan Maxima. SA [redacted] who had a view of the vehicle, identified the driver as [redacted] He advised the other units of the identification and advised them to follow the subject's vehicle.

Two Agents followed the individuals as they proceeded north on Military Trail and subsequently turned into the Cotton Bay Apartment Complex where the source was known to reside. As they arrived at the source's residence, the source exited the vehicle and the subject proceeded through the complex. It became apparent to the Agents that the subject was aware of their surveillance. [redacted] began to drive erratically as the Agents followed him into a rectangular shaped parking area within the apartment complex. The subject's vehicle proceeded around the parking area and stopped. Two other Agents stopped their vehicle in a position behind the subject's vehicle and took positions of cover. SA [redacted] who was driving his vehicle with SA [redacted] as a passenger, stopped his vehicle in a position which blocked the forward progress of the subject's vehicle.

Both SAs [redacted] and [redacted] exited their Bureau vehicle, shouting verbal commands to the subject when they observed [redacted] pointing a handgun, first at SA [redacted] and then at SA [redacted]. After SA [redacted] shouted that [redacted] had a gun, both Agents fired their weapons at the subject. The subject reversed his vehicle toward SAs [redacted] and [redacted], which prompted SSA [redacted] to fire one round of buckshot from his shotgun from his position on the passenger side of the subject's vehicle. SA [redacted] from his position of cover behind a tree, also fired one round at the subject. [redacted] quickly stopped his vehicle and started forward toward SAs [redacted] and [redacted]. As he proceeded towards them, both SAs fired their handguns. As the subject sped out of the parking area, he drove directly at SA [redacted] who fired an b6 b7C

additional round at the subject. [redacted] sped out of the apartment complex.

Following a brief search for the subject with negative results, the Agents returned to the scene of the shooting and secured the area for the local Sheriff's Office.

It was subsequently learned that the subject had been apprehended on 03/01/1999, by members of the West Palm Beach Police Department, following a shooting incident with that agency.

This incident was originally discussed by the SIRG on 08/03/1999, with the following members present: Acting Chief Inspector Robert J. Cordier, Office of Inspections, Inspection Division; Dana D. Biehl, Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Assistance Section, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division.

b6
b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations; and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

The SIRG members unanimously agreed that the use of deadly force by all of the SAs involved in this incident was justified and in conformance with the current deadly force policy.

SIRG members expressed certain reservations about the lack of a written operational plan, noting that the oral discussion of the arrest scenario resulted in certain confusion among several of the Agents involved. SIRG members noted that the oral briefing did not provide for any alternative arrest scenario if it were not to occur within/near the aforementioned McDonald's Restaurant. The SIRG also raised certain issues regarding the failure of any of the involved SAs or SSA to telephonically alert executive management of the Miami Division as to their possible arrest of a violent subject that evening. The SIRG members decided to table this matter until the recommendations of the SAC, Miami, could be obtained regarding this shooting incident.

On 09/14/1999, the SIRG held final discussions regarding this incident. Acting Chief Inspector Robert J. Cordier, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Division, USDOJ; [redacted] Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, NS-2A Unit, Global Section - NS-2, National Security Division; and, [redacted] Supervisor, Washington Field Office. The only nonvoting member present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division.

b6
b7C

Based upon the review of an EC dated 06/25/1999 wherein the SAC, Miami advised that he had counseled SSA [redacted] regarding proper notification procedures and the necessity for written and comprehensive operations plans for all arrest scenarios within the division, the SIRG Board determined that all pertinent issues had been appropriately raised and resolved. As such, the Board confirmed its previous decision that the foregoing shooting was an appropriate employment of the FBI's deadly force policy by all Agents involved in this incident.

Report of: IIP [redacted] AIIP [redacted] Office: New York
Date: March 26, 1999

Case ID #: 297-HQ-A1271781 SUB D

Title: SHOOTING INCIDENT
2/28/99
NEWARK DIVISION

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting occurred during the arrest of [redacted] b6 b7C a forty-two year old male who operated Mark I Video Productions from his home, [redacted] New Milford, New Jersey. [redacted] was the subject of an Innocent Images Task Force assigned to the Newark Division, Franklin Township Resident Agency (FTRA), located in Somerset, New Jersey. Members of the arrest team included four Special Agents of the Newark Division, one investigator from the Middlesex County Prosecutor's Office, one Sergeant and one Detective from the Somerset County Prosecutor's Office and two officers from the Bridgewater Police Department.

By way of background, Special Agent (SA) [redacted] acting in an undercover capacity, logged onto America Online as [redacted] (herein referred too as [redacted], a 14 year old girl from New Jersey. While in the "barely legal 14 older M" chat room, an individual using the screen name [redacted] initiated chat with [redacted] subsequently identified as [redacted] indicated an interest in meeting [redacted] for the purpose of engaging in sexual activities. During subsequent chat sessions, [redacted] described in detail what he intended to do stating that he had a black Ford van with a fold down bed. [redacted] sent pictures of the black Ford van and of himself which showed him holding his penis. During these sessions, [redacted] agreed to meet [redacted] on Sunday 2/28/98, 11:00 am at the Bridgewater Sports Arena (BSA), Bridgewater, New

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Jersey.

In anticipation of the 2/28/99 meeting with [redacted] and arrest of [redacted] SA [redacted] prepared an operation order, in the form of an electronic communication (EC), dated 2/25/99. This EC was reviewed and approved by Supervisory Senior Resident Agent (SSRA) [redacted] FTRA, and Assistant Special Agent in Charge (ASAC) GARRY S. CHIN, of the Newark Division. All participants in the anticipated arrest of [redacted] were present during a 9:00am briefing on 2/28/99 at the FTRA. A copy of the 2/25/98 EC was provided to each participating member of the arrest team and individual assignments in conjunction with the execution of the arrest plan were discussed. Members of the arrest team received photographs of [redacted] and his vehicle, a black conversion van.

b6
b7C

At approximately 10:15 a.m., the arrest team arrived at the BSA and assumed positions in their vehicles as discussed during the 9:00 a.m. briefing. It was raining on this day with intermittent periods of drizzle and heavy rain. At approximately 11:35 a.m., a van fitting the description of the vehicle [redacted] indicated he would be driving, entered the one-way drive entrance to the BSA. SA [redacted] notified the other units by radio that the van was approaching the BSA. As [redacted] vehicle approached the BSA, vehicles with arrest team members moved in to block [redacted] vehicle from escape. A vehicle driven by SA [redacted] with SA [redacted] as passenger, was placed perpendicular and angled in front of [redacted] vehicle. Sergeant (Sgt.) [redacted] positioned the vehicle he was driving with Detective (Det.) [redacted] as passenger, behind SA [redacted] vehicle, facing [redacted] vehicle. A vehicle driven by Investigator (Inv.) [redacted] with no passenger, was positioned to the driver's side rear of [redacted] vehicle. SA [redacted] driving with SA [redacted] as passenger, positioned his vehicle to the passenger side rear of [redacted] vehicle.

Inv. [redacted] exited his vehicle and approached [redacted] at the driver's side window. Inv [redacted] displayed his Middlesex County Prosecutor's Office badge, worn on a chain around his neck. Inv. [redacted] confirmed the driver was [redacted] who had both hands on the steering wheel and was looking out the windshield toward the right side of the vehicle. Inv. [redacted] knocked on the window and opened the driver's door, placing one foot on the running board of the vehicle. Inv. [redacted] said [redacted], at which time [redacted] grabbed the gear shift as [redacted] yelled "put it in park, put it in park." [redacted] vehicle lunged backwards, then forward. The forward motion forced the driver's door to close as Inv. [redacted] fell off the running board and away from the vehicle. While this was

b6
b7C

occurring, other members of the arrest team exited their vehicles to take assigned positions around [redacted] vehicle. SA [redacted] exited his vehicle and positioned himself at the rear driver's side of [redacted] vehicle. SA [redacted] observed Inv. [redacted] at the driver's side door of [redacted] vehicle and heard Inv. [redacted] tell [redacted] to put the car in park. SA [redacted] also heard a female SA yell, "FBI, show me your hands." The pavement was wet and [redacted] vehicle had difficulty in gaining traction, causing the tires to spin. As [redacted] vehicle lunged backwards, SA [redacted] had to move out of the way to avoid being hit by the vehicle. b6 b7C

SA [redacted] positioned herself to the rear passenger side of [redacted] vehicle. Upon exiting her vehicle on the passenger side, SA [redacted] went to the passenger side rear, then moved up the side of [redacted] vehicle to determine if there were passengers. The windows on [redacted] vehicle were slightly tinted with shades and it was raining. As [redacted] vehicle gained traction and moved forward rapidly, SA [redacted] had to jump backward to keep from being hit by the side of the vehicle. Knowing that SA [redacted] was in front of [redacted] vehicle, SA [redacted] was concerned that [redacted] vehicle was going to hit and kill [redacted]

SA [redacted] exited her vehicle which was parked in front of [redacted] vehicle by approximately two vehicle lengths, perpendicular and angled, facing the BSA. SA [redacted] wearing her bullet proof vest with FBI displayed on the upper left chest area, moved around the front of the vehicle as SA [redacted] exited on the passenger side. In accordance with her assignment, SA [redacted] intended to move to the passenger side window of [redacted] vehicle. As SA [redacted] moved around the front of her vehicle, she observed Inv. [redacted] at [redacted] drivers side window and heard Inv. [redacted] issue commands to [redacted] to exit the vehicle and [redacted] refusal to do so. Due to [redacted] defiance of Inv. [redacted] commands, SA [redacted] continued around the front towards the passenger side of her vehicle in anticipation of going to assist Inv. [redacted] This placed SA [redacted] in front of and not at the passenger side window of [redacted] vehicle. SA [redacted] was in front of [redacted] vehicle, between the center of the vehicle and the passenger side of the vehicle. While moving into this position, SA [redacted] observed SA [redacted] as he went behind [redacted] vehicle. SA [redacted] heard [redacted] vehicle trying to get traction on the wet pavement and observed [redacted] vehicle lunge backwards. SA [redacted] was concerned that the vehicle hit SA [redacted] who she lost sight of when he went behind [redacted] vehicle. [redacted] vehicle then moved forward rapidly after again trying to get traction on the wet b6 b7C

pavement. SA [redacted] observed distance between Inv. [redacted] and [redacted] vehicle, which was the result of the vehicle's rapid forward motion causing the driver's side door to close as Inv. [redacted] fell off the running board of the vehicle. [redacted] vehicle moved forward rapidly in the direction of SA [redacted] Fearing that [redacted] vehicle may have just backed up and hit SA [redacted] defiance of Inv. [redacted] commands and the vehicle now coming at her, SA [redacted] drew her weapon. While drawing her weapon from her holster, SA [redacted] moved backwards and to the left side of [redacted] vehicle to get out of the way as she believed her life was in imminent danger and the vehicle was going to hit her. As [redacted] vehicle moved rapidly toward her, SA [redacted] took aim at [redacted] who she viewed through the windshield and fired a shot. [redacted] vehicle quickly veered left causing SA [redacted] shot to impact the passengers side window and exit the drivers side window. As a result, both front windows were shattered. The vehicle continued into a jug handle turn in the roadway. This jug handle turn provided the means of escape for [redacted] vehicle.

b6
b7C

[redacted] vehicle exited the driveway to the BSA, making a right turn onto Frontier Road, and headed west. Frontier Road is a dead end at the western most end and parallels Route 22. The arrest team pursued [redacted] vehicle. The first vehicle out of the BSA parking lot was a vehicle driven by Sgt. [redacted] with Det. [redacted] Sgt. [redacted] asked over the radio who fired the shot; however, no one answered him. Sgt. [redacted] activated his red police light on the dashboard of his vehicle. SA [redacted] vehicle was being driven by SA [redacted] with SAs [redacted] and SA [redacted] as passengers. SA [redacted] turned right out of the BSA parking lot and headed west behind Sgt. [redacted] vehicle.

At the end of Frontier Road, [redacted] turned his vehicle around and headed back east towards the vehicle being driven by Sgt. [redacted] Sgt. [redacted] advised that when [redacted] vehicle passed him in the opposite direction, [redacted] raised both of his hands and shook his head as if he was asking what was going on. Sgt. [redacted] turned his vehicle around and started to follow [redacted] vehicle which was travelling east at a high rate of speed.

b6
b7C

Realizing that [redacted] was coming east after turning around at the dead end, SA [redacted] turned left through the median from the west bound lane into the east bound lane to partially block [redacted] vehicle. SA [redacted] travelling west in the east bound lane, observed SA [redacted] vehicle in front of her attempting to block [redacted] vehicle. SA [redacted] positioned her vehicle to also partially block the path of [redacted] vehicle.

Travelling at a high rate of speed, [redacted] vehicle did not slow down and went around the SA [redacted] and SA [redacted] vehicle's. SA [redacted] notified the Bridgewater Police by radio of the situation and gave a description of [redacted] vehicle, license plate, and direction of travel. [redacted] vehicle continued eastbound to the end of Frontier Road. [redacted] began to turn left at the end of Frontier Road so that he would be going east on Route 22 in the westbound lanes. However, [redacted] vehicle turned sharply to the right and went west on Route 22. [redacted] vehicle continued for a short distance on Route 22 then made a right onto Route 287 North. After travelling about one-half mile, [redacted] vehicle pulled over to the right shoulder. [redacted] put his hands outside the driver's window. Sgt. [redacted] vehicle pulled next to [redacted] vehicle while in the right travel lane. Det. [redacted] got out of Sgt. [redacted] vehicle as Sgt. [redacted] pulled the car in front of [redacted] vehicle to block him in and prevent [redacted] from going forward. Sgt. [redacted] got out of his vehicle and along with Det. [redacted] ordered [redacted] out of his vehicle. [redacted] got out of his vehicle, was searched, and handcuffed by other members of the arrest team who had arrived at the scene. [redacted] was placed in a Bridgewater Police Department vehicle and taken to Bridgewater Police Headquarters, where he was subsequently processed and interviewed.

Federal Bureau of Investigation

Copy to: Assistant Director, Inspection Division
Shooting Incident Review Group (SIRG)

Report of: SSA [redacted]/SSA [redacted] Office: Salt Lake City
Date: 03/26/1999

Case ID #: 66F-SU-A50456
89B-SU-50443

Title: SHOOTING INQUIRY;
REPORT OF SHOOTING INCIDENT;
SALT LAKE CITY DIVISION
3/8/1999

Character: ADMINISTRATIVE INQUIRY
AFO/KFO

Synopsis: To report to the Inspection Division, Shooting Incident Review Group (SIRG), a shooting incident which took place on 3/8/1999, in Salt Lake City, Utah, during a surveillance to apprehend a bank robbery suspect.

- P -

b6
b7C

As reported in referenced EC dated 3/10/1999, on the evening of 3/8/1999, police officers and FBI Special Agents, all members of the Violent Crimes Task Force (VCTF), set up surveillance on a residence located at 1204 South 400 West, Salt Lake City, Utah, where bank robbery subject, [redacted] had been observed. A federal arrest warrant had been issued for [redacted] on 3/5/1999. While agents and officers were establishing a perimeter around subject [redacted] residence [redacted] shots were reportedly fired out of the back door of a residence directly to the north of [redacted] location. These shots were allegedly fired at Detectives [redacted] and [redacted] Salt Lake City Police Department (SLCPD), who were assigned to the rear perimeter of the target location. It was also reported that numerous rounds were fired out of the front door of this residence at SA [redacted] FBI, and Department of Corrections (DOC) Agent [redacted] Agent [redacted] was struck twice, once in the head and once in the chest. Agent [redacted] was wearing a protective vest and a kevlar helmet and his only injury was a bruise to his chest. Agent [redacted] helmet deflected the shot to his head. No other law enforcement

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

officers were injured in this incident. SA [redacted] and Agent [redacted] were the only law enforcement officers to return fire at the subjects in the residence. No subjects were injured. Subjects [redacted] and [redacted] were taken into custody. There is no apparent connection between [redacted] and the other two subjects. [redacted] did not shoot at any law enforcement officers. SAC David M. Tubbs, ASAC James F. Jarboe, and SSA [redacted] the VCMO squad supervisor, responded to the scene subsequent to the shooting incident and directed the investigation. The Salt Lake City Division Evidence Response Team (ERT) conducted searches of pertinent locations. b6 b7C

In a telephone conversation between ASAC Jarboe and Chief Inspector Mershon, on 3/9/1999, Chief Inspector Mershon concurred with the Salt Lake City Division's request to conduct a shooting inquiry under the direction of SAC Tubbs. Therefore, the Salt Lake City Division conducted a shooting inquiry per the Manual of Investigative Operations and Guidelines (MIOG) and the Manual of Administrative Operations and Procedures (MAOP) regarding this matter. On 3/10/1999, the Salt Lake City Division initiated a shooting inquiry into this matter.

On 3/16/1999, the Salt Lake City Division forwarded to the Firearms Training Unit (FTU), Training Division, the necessary FD-418s as required per MIOG.

SA [redacted] FBI, was interviewed regarding this matter on 3/11/1999. SA [redacted] was the case agent on the bank robbery investigations in which [redacted] was suspected of robbing the banks. SA [redacted] stated that on 3/5/1999, he obtained a federal arrest warrant for [redacted] and on 3/8/1999, he prepared an "Arrest Plan Form" detailing an arrest scenario for the apprehension of [redacted] This arrest plan was approved by ASAC Jarboe and SSA [redacted] SA [redacted] stated that the scenario outlined in the arrest plan was not successful in that [redacted] did not want to meet with his girlfriend for fear of being arrested. [redacted] According to SA [redacted] even though [redacted] would not meet with his girlfriend, he did continue to keep in telephonic contact with her. SA [redacted] stated that a trap and trace resulted in identifying the location of the telephone which [redacted] was utilizing to keep in contact with his girlfriend. SA [redacted] stated that he and Deputy U.S. Marshal [redacted] with SSA [redacted] concurrence, called out members of the VCTF and set up a surveillance on the location identified by the trap and trace [redacted]. During the surveillance of this location, [redacted] was positively identified as being present in a brick house which was two houses to the south of a commercial business on 400 b6 b7C b7D

West. According to SA [redacted] the positive identification of [redacted] was made by SA [redacted] and Agent [redacted] who had an eye on the house occupied by [redacted] SA [redacted] stated that he and Deputy [redacted] called the other perimeter officers/agents back to a briefing point in a parking lot off of 1300 South. In addition to SA [redacted] and Agent [redacted] who were in the same vehicle, Detectives [redacted] and [redacted] had an eye on the rear of the house occupied by [redacted] SA [redacted] stated that while at the briefing point, he and the other agents/officers heard gunfire then heard someone on the Bureau radio say that shots had been fired. SA [redacted] stated that he and the other officers/agents responded to near the location of the shooting on 400 West.

b6
b7C

SA [redacted] and Agent [redacted] were interviewed separately, however, both provided information that was similar and corroborative. According to SA [redacted] and Agent [redacted] both were sitting in Agent [redacted] brown Chevrolet Blazer keeping an eye on a brick house in which they positively identified [redacted] This brick house was located two houses to the south of a commercial business on 400 West. While watching this house, SA [redacted] and Agent [redacted] heard two gunshots that were fired from the rear of the subject's location. SA [redacted] broadcast on the Bureau radio that shots had been fired. Subsequently, both SA [redacted] and Agent [redacted] heard gunfire and saw muzzle flashes coming from the yellow/white house that was just north of the subject's location. Both SA [redacted] and Agent [redacted] quickly realized that they were being shot at by an unknown individual in the yellow/white house. Agent [redacted] quickly exited the vehicle from the driver's seat and began returning fire taking cover behind the left front of his vehicle. SA [redacted] exited the vehicle from the passenger seat and took cover behind the rear of the vehicle behind the right rear wheel. SA [redacted] also returned fire at the front door of the white/yellow house. Agent [redacted] called out to SA [redacted] that he had been hit in the chest. Subsequently, Agent [redacted] said that he had been hit in the head. Both SA [redacted] and Agent [redacted] left their position behind Agent [redacted] vehicle and retreated to a position of cover at a warehouse to the east of their location. SA [redacted] believes that he fired a total of two, and possibly three rounds. Agent [redacted] believes that he fired approximately thirteen (13) rounds. SA [redacted] and Agent [redacted] believe that approximately fifteen (15) rounds were fired at them. SA [redacted] and Agent [redacted] exited their vehicle so quickly that they did not have the time necessary to take a hand held radio with them which prevented them from communicating with the other agents/officers.

b6
b7C

SA [redacted] was interviewed and he stated that he and two SLCPD officers were the first ones to reach the location of SA [redacted] and Agent [redacted] SA [redacted] had a hand held radio with him and was able to provide information to the other agents/officers about the situation and the condition of SA [redacted] and Agent [redacted] SA [redacted] and the two SLCPD officers arranged for Agent [redacted] to be transported from the scene and to a hospital. SA [redacted] SA [redacted] and the two SLCPD officers briefed SLCPD SWAT Team members on the location from where the shots were being fired. Thereafter, the SLCPD SWAT Team assumed tactical control of the situation. At approximately 7:00 a.m., on 3/9/1999, [redacted] and the two subjects that occupied the house next to [redacted] were taken into custody and transported to the FBI Office.

b6
b7C

Also interviewed during this shooting inquiry were: SSA [redacted] SA [redacted] SA [redacted] SA [redacted] and SA [redacted] all of the FBI, and Deputy [redacted] United States Marshals Service (USMS). Detectives [redacted] and [redacted] were interviewed by the SLCPD. All of these individuals provided similar and corroborative information.

The FBI's Evidence Response Team (ERT), responded to the location of the shooting incident and conducted the necessary and relevant searches in support of the AFO/KFO investigation.

[redacted] who was present in the brick house during the shooting incident, was not involved in shooting at SA [redacted] Agent [redacted] and Detectives [redacted] and [redacted] The investigation determined that two individuals, [redacted] and [redacted] were present in the white/yellow house from where the shots were being fired.

b6
b7C

On 3/17/1999, [redacted] was indicted by a Federal Grand Jury for violating Title 18, United States Code Section 1114(3) - Protection of officers and employees of the United States, and Section 922(g)(5) - Illegal alien in possession of a handgun. [redacted] is being held indefinitely on a material witness warrant.

SAC'S COMMENTS:

SAC Tubbs has thoroughly reviewed the facts and circumstances surrounding the shooting incident which occurred on 3/8/1999. The members of the Salt Lake City Division's VCTF had a written arrest plan for the apprehension of [redacted] which had been reviewed and approved by ASAC Jarboe and SSA

[redacted] This written plan was verbally modified upon credible information obtained from a trap and trace which placed [redacted] at a residence located at [redacted] Salt Lake City, Utah. A federal arrest warrant was issued for [redacted] on 3/5/1999. The members of the VCTF that were present at or near the location of [redacted] at the time of the shooting, were lawfully present. The members of the VCTF did nothing to provoke the actions of the subjects in the residence next to the residence occupied by [redacted]. The members of the VCTF were fired upon without warning or notice by [redacted] SA [redacted] and Agent [redacted] responded appropriately when they discharged their weapons in an attempt to eliminate the threat against their lives and the lives of others. In this incident, there is no issue of questionable judgement by SA [redacted] or Agent [redacted] under the deadly force policy. SA [redacted] and Agent [redacted] acted courageously and should be commended for their quick actions and bravery during this incident.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
WASHINGTON FIELD OFFICE
MARCH 17, 1999

Character: ADMINISTRATIVE INQUIRY

Synopsis:

- P -

DETAILS:

On 6/26/98 SA [redacted] was assigned 88A-WF-212471 captioned, [redacted] FUGITIVE (A); UFAP - HOMICIDE/MURDER 1 WHILE ARMED; OO:WFO. SA [redacted] is assigned to the Squad C-10 Joint Fugitive Task Force (JFTF) Baker Team which is headed by MPD Sergeant [redacted] had a lengthy criminal history which included charges for weapons, drugs, assault, explosives, robbery and murder offenses. SA [redacted] also had information that [redacted] may have been involved in a car dealer shooting as well as shooting at MPD and Montgomery County Police Department officers. SA [redacted] conducted numerous surveillances and turn-up operations from June, 1998 to March 14, 1999 in an effort to locate and apprehend [redacted] During this period, SA [redacted] provided oral briefings and handed out photographs with [redacted] criminal history to members of the Baker Team as well as to representatives of the Montgomery County Police Department (MCPD) Repeat Offenders Unit with which he was working cooperatively to locate [redacted] During the course of his fugitive investigation, SA [redacted] advised he generally kept the Baltimore Division apprised of his efforts.

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

On 3/14/1999 MCPD executed a search warrant on an apartment of an associate of [redacted] which led to the issuance of an arrest warrant for [redacted] On [redacted] SA [redacted] arrested [redacted] in Washington, D.C. under a Maryland Fugitive From Justice warrant. [redacted] provided information to SA [redacted] which identified the apartment of [redacted] girlfriend, [redacted] at [redacted] Greenbelt, Maryland. On 3/16/1999 a surveillance involving the MCPD Repeat Offenders Unit and SA [redacted] was conducted with no success. b6 b7C b7D

On 3/17/1999 SA [redacted] and DUSM [redacted] conducted investigation at the apartment complex which resulted in obtaining a positive identification of [redacted] and an associate [redacted] by two neighbors. SA [redacted] subsequently arranged for a maintenance man at the apartment complex to perform a maintenance check at both the Breezewood Court Apartment and a close by apartment occupied by a [redacted] who had been making numerous telephone calls to [redacted] The maintenance man positively identified [redacted] as being located in [redacted] apartment at that time.

Based on the above two identifications and exigent circumstances, SA [redacted] led a team which entered [redacted] apartment and determined no one was present. After checking out three leads which were obtained from the caller ID located in the apartment, SA [redacted] reinstituted surveillance at [redacted] apartment. Shortly thereafter, [redacted] was observed in the parking lot driving a gray Oldsmobile sedan. SA [redacted] (driver) and DUSM [redacted] (passenger) followed [redacted] out of the parking lot at which time [redacted] realized he was being followed. SA [redacted] activated his emergency equipment and pursued [redacted] for approximately twenty miles. No effective communication method, other than two cellular telephones, existed during the pursuit. The pursuit began in Prince George's County, proceeded onto the Capital Beltway (495W) and ended in Montgomery County. During the pursuit, both SA [redacted] and DUSM [redacted] advised that [redacted] fired at them. Two witnesses were located at the Woodmoor Plaza Shopping Center which corroborate to some degree that [redacted] fired at SA [redacted] and DUSM [redacted] also drove on two occasions against the flow of traffic in an effort to elude his pursuers. After approximately fifteen minutes, [redacted] arrived at the intersection of Knowles Avenue and Parkwood Drive, Kensington, Maryland. To elude capture, [redacted] turned left on the left side of a school bus, struck the right side of the school bus and then struck the right front of a Volvo being driven by [redacted] with SA [redacted] close by, then passed the Volvo. SA [redacted] stated that [redacted] then fired one round which he believed may have struck [redacted] At this time, SA [redacted] decided to use deadly force because [redacted] had just shot at him, he believed [redacted] may have shot [redacted] b6 b7C

and for the first time, he had a clear shot. SA [redacted] three rounds struck the Oldsmobile without injuring [redacted] then pulled away and struck a telephone pole which disabled his vehicle. [redacted] was then arrested without further incident. The crash into the telephone pole caused smoke and a small fire in the engine compartment of the Oldsmobile. After the arrest SA [redacted] heard crying sounds in the rear of the vehicle and discovered two young children in the passenger compartment. While removing both children to safety, SA [redacted] cut his thumb which required surgery. b6 b7C

Interviews of the principal witnesses provided the following information:

[redacted] - school bus driver - heard approximately four (4) gunshots.

[redacted] - school bus attendant - saw [redacted] use his left hand to steer and had a dark object in his right hand in a raised position.

[redacted] - Volvo driver - FBI interview: stated she saw SA [redacted] extend his leg out of the driver's side door and point a pistol at the gray sedan, heard one gunshot, then heard several more shots. Believes she heard more than three (3) gunshots. MCPD statement: saw SA [redacted] put his leg out of car and raise a gun which seamed to be pointed at her but was actually pointed at gray car. SA [redacted] fired more than twice and she put her head down.

Nine other witnesses recalled hearing from two to five gunshots, with the majority hearing from three to four.

A crime scene examination conducted by the Montgomery County Police Department located two shell casings from SA [redacted] weapon, one at the intersection of Knowles Avenue and Parkwood Drive and the other on the bottom area of SA [redacted] vehicle windshield. No shell casings from [redacted] weapon were located. b6 b7C

Details of this incident are reported as delineated in the table of contents.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
NEW HAVEN DIVISION
BRIDGEPORT RESIDENT AGENCY
OCTOBER 6, 1999

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident was a result of an attempted arrest of HECTOR COLON. A federal warrant issued January 28, 1998, in White Plains, New York, Southern District of New York, was outstanding; charging Colon in violation of Title 18, USC, Section 1959, Interstate Transportation in Aide of Racketeering-Murder. The Connecticut Violent Crimes Fugitive Task Force (CVCFTF), under the auspices of the New Haven Division had been coordinating efforts with the New York Division to locate and apprehend Colon.

b6
b7C

DETAILS: As early as April, 1999, information was obtained indicating that Hector Colon might be frequenting locations within the New Haven Division's territory. SSA [redacted] initiated contact with SSRA [redacted] of the New York Division, to coordinate efforts to locate and apprehend Colon. Several attempts to conduct surveillance of Colon, or his wife, were made with limited results. On 09/28/99 SA [redacted] displayed an identification order (I.O.) to a source who recognized Colon as someone known to the source as "Jose". The following day, 09/29/99, the source observed "Jose" with a black .38 six-shot revolver. Thereafter, the source provided information that establish the basis to conduct a surveillance on potential locations frequented by Colon.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

On Monday afternoon, 10/04/99, SSA [redacted] met with SAs [redacted], and [redacted] Det. [redacted] Trpr. Pavlik, and other task force members to discuss the developments in the Colon case. SSA [redacted] instructed SAs [redacted] and [redacted] to prepare an operational plan utilizing an FD-888 form (Arrest Plan Form). They were to conduct a surveillance to corroborate the source information and determine the whereabouts of Colon in order to formulate an arrest plan and affect an arrest of Colon. The FD-888 was used to document the plans for the surveillance. b6 b7C

On Tuesday, 10/05/99, at 6:30 a.m. a briefing was conducted at the Bridgeport Police Department for all the individuals assigned to participate in that day's surveillance activity. Present at the meeting were SAs [redacted] Det [redacted] DUSM [redacted] Det [redacted] Det. [redacted] and Trpr. [redacted] Det. [redacted] Det. [redacted] and Offr. [redacted] All of these individuals attended the briefing the following day with the exception of Offr. [redacted] who was replaced by Offr. [redacted] on that day. Each attendee was given a copy of the I.O. and a photograph of Colon. They were briefed on the fact that Colon was considered armed and dangerous; he was extremely surveillance conscious; and provided specific information to emphasize that Colon was considered extremely dangerous. Thereafter, a surveillance was conducted until noon at which time it was terminated. The participants were instructed to be at the Bridgeport Police Department at 9:00 a.m. the next morning to be briefed on that days surveillance plans.

On Wednesday, 10/06/99, at 9:00 a.m. they reconvened, some cautionary statements were reiterated for the benefit of Offr. [redacted] who had not attended the day before. The primary purpose was to ensure everyone knew their assignments. The plan was to have two stationary surveillance locations and two roving vehicles. The teams were assigned as follows:

b6
b7C

At approximately 10:20 a.m. the units were in their assigned locations. At approximately 10:45 a.m. DUSM [redacted] and SA [redacted] observe an individual, thought to be Colon, exit 1491 Central Avenue and depart the area in a blue Honda Prelude. SA [redacted] radioed a description of the clothing worn by the individual, believed to be Colon, and a vehicle description. At approximately 11:02 a.m. an individual, wearing clothing fitting the description reported by SA [redacted] was sighted on foot at 72 Maple Street. At approximately 11:15 a.m. Detective [redacted] relays over the radio that the person believed to be Colon had a gun. Shortly thereafter, Det. [redacted] qualifies that statement advising they can't be certain. (Note: a copy of the surveillance video tape depicting what the officers saw is included with this report. There are four segments wherein a black object, on the waist of the subject, is visible.) Thereafter, the source is visited by Colon. Upon Colon's departure; the source advised that the subject left the location in a blue, two door, Honda.

During this time frame, Det. [redacted] had been sent into the Tower II apartment building to get the lay-out and to locate apartment #213. She was in the building at the time of the shooting incident. The surveillance team now believed they had a positive identification of the subject based on eight of the team member's observations and corroboration by the source. SA [redacted] contacted SAs [redacted] and [redacted] and proposed attempting an arrest should the subject return and park adjacent to them as before and they concurred. At 12:25 p.m. SA [redacted] advises that the subject has returned to 1491 Central Avenue. SA [redacted] and DUSM [redacted] had formulated a plan, in the interim, and attempted the arrest. At 12:32 p.m. SA [redacted] radioed that shots had been fired and someone was down.

b6
b7C

SA [redacted] exited the right side of the van utilizing the left hinged door. In order to do this he had switched his weapon to his weak hand (right hand). He was wearing body armor with his identification visibly suspended from a chain around his neck. He had his weapon drawn from the time he exited the van until after the subject was down and he and DUSM [redacted]

proceeded to handcuff him. He had waited to exit the van until after the subject cleared his vehicle. Upon exiting the van, he commanded "FBI, stop" and other words he could not specifically recall. SA [redacted] stated that Colon moved his left hand quickly toward his waist area in a grabbing motion, which caused SA [redacted] to fire one shot at the subject. SA [redacted] stated the subject pivoted and ran in front of the van in the direction of Central Avenue, causing him to temporarily loose sight of the subject. SA [redacted] stated he moved forward and re-established visual contact with the subject. He stated the subject was about a car length away moving toward Central Avenue with his upper torso twisted back toward SA [redacted]. SA [redacted] stated the subjects left arm was cocked, with his elbow bent and his left hand in the area of his waist, not visible to SA [redacted] at that time. Further, the subject's left arm/elbow was moving back and forth. SA [redacted] stated he saw the subject's left arm and body tense which caused him to believe the subject had a gun in his waistband and that he was reaching for the gun. SA [redacted] stated he then dropped low and fired two rounds at the subject using his left hand. The subject moved toward Central Avenue a little further, then turned toward SA [redacted] and raised both of his hands over his head. SA [redacted] stated he told the subject to stop and get down at that time.

b6
b7C

DUSM [redacted] stated that upon exiting the rear of the van he heard the warning given by SA [redacted] and at least two shots, more than likely three shots. DUSM [redacted] stated he did not see who fired the shots or if anyone had been hit, because he was still behind the van. He briefly looked around the right side of the van and saw SA [redacted] and the subject moving toward the front of the van, with the subject in front of SA [redacted]. He then went to the left rear corner (drivers side) and looked around before moving up the left side of the van. DUSM [redacted] stated at that time he saw the subject moving toward the street. He then ran up the left side of the van toward the subject ordering "police, get down" The subject looked at him and then dropped to the pavement spreading himself out, face down. DUSM [redacted] stated he held him down in that position while SA [redacted] handcuffed the subject. DUSM [redacted] then began a search for weapons or contraband. DUSM [redacted] advised that, in the interim, SA [redacted] had radioed the others that shots were fired. DUSM [redacted] stated that Det. [redacted] arrived on the scene and assisted him in rolling the subject over onto his back in order to continue the search. That is when DUSM [redacted] noticed blood on his hands and then told SA [redacted] to call for paramedics.

b6
b7C

DUSM [redacted] stated he was also in body armor with his badge displayed on a chain around his neck. Further, that he had his weapon drawn from the time of exiting the van until kneeling to handcuff the subject. Within minutes the remainder of the surveillance team arrived on scene, as did the paramedics. Colon was taken to the hospital where he underwent surgery unsuccessfully and was pronounced dead at 2:17 p.m.

Members of the surveillance team and the paramedics observed one cell phone and two pagers on the subject's waist immediately after the shooting. As a result of the autopsy it was determined that one bullet entered the subjects body from the rear approximately three inches to the left of the spine and exited the front of the torso at center sternum. The coroner stated this indicated an upward angle of travel from entry to exit. No weapon was recovered from the crime scene. With the concurrence of SAC Michael J. Wolf, the crime scene was turned over to the Bridgeport Police Department for processing with assistance from the New Haven ERT and the State Crime Laboratory. The Bridgeport Police Department took custody of all evidence, to include SA [redacted] weapon. All subsequent laboratory examinations and analysis are being done at the request of the Bridgeport Police Department through the State Crime Laboratory. b6 b7C

The police, assisted by FBI personnel, conducted a neighborhood search for potential witnesses to the shooting incident. All identified individuals representing to have information concerning the shooting incident were interviewed either by them and/or subsequently by members of the SIRT. The Lacey Manufacturing Corporation was having a picnic in the lot adjacent to 1491 Central Avenue at the time of the shooting which resulted in identifying several civilian witnesses to the event. As would be expected, their attention was drawn after hearing a shot or loud noise coming from the parking lot. The day was clear and in the 60's at the time of the shooting incident.

Re: 297-HQ-A1271970-D, 03/28/2000

Details of the Shooting Incident

On 11/08/1999, at approximately 9:10 p.m., after completing his shift and en route to his residence, SA [redacted] observed two individuals in the center grass median of Route 610. SA [redacted] thinking there might be an accident or some type of altercation, stopped his bureau vehicle and activated his emergency lights.

SA [redacted] exited his vehicle and was approached by the individuals in the median who advised him that a deer had been struck by a vehicle and was laying in the center of the median. Based on the fact that the large "eight point" buck was violently struggling to regain it's footing and the heavy volume of traffic in the area, SA [redacted] believed that the deer posed an imminent danger to the public safety if it was allowed to stray into traffic. SA [redacted] contacted the Stafford County Sheriff's Office, however, due to his concern that the deer would regain it's footing or struggle into traffic, he believed his only safe alternative was to euthanize the deer. b6 b7C

Once SA [redacted] decided to kill the deer, he directed an off duty Prince William County Officer to stop eastbound traffic. After addressing all safety concerns, SA [redacted] illuminated the deer with a weapon mounted flashlight and fired one slug round into the rear of the deer's skull. After observing the deer move, he fired a second round of buck shot into the deer's head, successfully killing the deer.

On 02/08/2000, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Division, USDOJ; William R. Falls, Section Chief, Operational Support Section, Administrative Services Division; Charles H. Middleton, Section Chief, Global Section - NS-2, National Security Division; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Legal Advice and Training, Legal Policy, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Firearms Training Unit, Training Division; SSA [redacted] Practical Applications Unit, Training Division; and, SSA [redacted] Washington Field Office. Two nonvoting members present were Unit Chief

## Details of the Shooting Incident

On 10/16/1999, SA [redacted] and his wife attended a party at a residence in Stafford, Virginia. While driving to their residence in Spotsylvania, SA [redacted] observed a vehicle on the side of the road with its hazard lights flashing. As SA [redacted] approached the vehicle, the vehicle left the scene and SA [redacted] observed an injured deer on the side of the road. As the deer was attempting to regain its footing, SA [redacted] determined that the animal posed an immediate danger to the traffic on the road. Due to this fact, and the absence of any nearby pedestrians, vehicles, or dwellings, SA [redacted] fired one round from his Bureau issued Sig Sauer P-228 nine millimeter pistol into the deer's neck as well as two additional shots into the animal's chest. The deer died a short time later.

b6
b7C

On 05/09/2000, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: Kenneth W. Re: 297-HQ-A1271285-D, 04/07/2000

Details of the Shooting Incident

On 12/04/1999, Agents of the Rockford Resident Agency (RA), along with Drug Enforcement Administration and local officers attached to the Metro Narcotics Unit, were executing a gang/drug-related search warrant at a residence in Rockford, Illinois. During the execution of the warrant, a pitbull dog repeatedly charged the officers resulting in SA [redacted] firing two rounds from a Remington 870 shotgun, killing the dog.

It should be noted that a completed, approved operations plan contained information regarding the presence of dogs at the residence. Participants had discussed the use of pepper spray to discourage the dogs from attacking. However, due to the inclement weather, a decision was made that a pepper fogger would be used by the entry team for use inside the house and that SA [redacted] would use his shotgun loaded with 00 buck to protect the entry team while outside the house. b6 b7C

The search team arrived at the residence and executed the search warrant at approximately 6:50 p.m. The front of the residence was well-lit with flood lights and according to one Agent on the scene, a dog charged him as he exited his van. The Agent attempted to subdue the dog by swinging his flashlight.

As they approached the house, SA [redacted] heard dogs barking and observed two dogs charge him. SA [redacted] charged toward the dogs to place himself between the dogs and the entry team. Both dogs were identified as pitbulls with one being chained and one not chained. According to SA [redacted] he pointed his shotgun at the dog and attempted to scare the dog by yelling loudly. The dog initially backed off a few feet but continued to face SA [redacted] in an aggressive manner. Within a short period, the dog charged again with SA [redacted] successfully making the dog retreat for a second time by yelling. The dog continued to bark and growl and subsequently charged at SA [redacted] a third time. SA [redacted] believing that the dog was going to bite him, fired two shots. The first round hit the dog in the face and the second round entered the chest. The dog was removed from the scene by members of the Animal Control Center.

On 02/08/2000, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the current deadly force policy. Members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
08/13/1999
ALBUQUERQUE DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred in the Albuquerque Division on 08/13/1999. Special Agents (SAs) [redacted] and [redacted] returned gunfire after a bank robbery suspect fired shots at them inside of an apartment. SIRG members recommended that no administrative action be taken against these SAs as a result of their involvement in this shooting incident.

Details of the Shooting Incident

Albuquerque Division's Violent Crimes and Major Offenders Squad had been investigating a series of bank robberies occurring in the Albuquerque area. These robberies had been committed, for the most part, by a lone, unidentified male who implied to victims that he possessed a firearm. Evidence had also been developed indicating an accomplice or accomplices assisted him outside of these banks with his getaway. It was also determined that in two of the robberies, the subject was assisted by another unidentified accomplice inside the victim banks. The local media and Albuquerque Police Department (APD) personnel had dubbed the unidentified bank robber as "Robin the Hood." This was a reference to the robber's politeness and his usual apology to victims where he attempted to excuse his actions by advising that the proceeds from the robbery were to help poor, hungry kids. b6 b7C b7D

During the two days prior to the shooting incident, SAs [redacted] and [redacted] were developing independent information indicating that an individual identified as [redacted] was possibly identical with the bank robber. Information was developed indicating that [redacted] was en route to the St. Louis, Missouri, area. It had also been determined that [redacted] had not been at his Albuquerque residence since 08/10/1999.

On 08/13/1999, SAs [redacted] and [redacted] after ensuring that [redacted] was not at his residence, initiated a pre-arranged interview with [redacted] inside the apartment. During the interview, [redacted] positively identified [redacted] in a number of bank surveillance photographs as "Robin the Hood". [redacted] that [redacted] possessed firearms and that he was a heavy drug user, using crack, heroin, cocaine and marijuana. While the interview was being conducted, all three of the individuals heard a vehicle parking at the residence. [redacted] looked outside and advised the Agents that [redacted] had arrived. [redacted] quickly walked behind the apartment, leaving the engine of his vehicle running, and entered the apartment's back door. SAs [redacted] and [redacted] gathered their materials and went into the bedroom to attempt to be outside of [redacted] vision should he enter the apartment. Immediately after entering the apartment, [redacted] initiated gunfire by shooting into the apartment bedroom where the Agents had concealed themselves. b6 b7C

According to SA [redacted], SA [redacted] had entered the bedroom, and prior to his [redacted] entering the bedroom, he observed [redacted] in a discussion with [redacted] after he entered the rear entrance of the apartment. SA [redacted] observed her gesturing with her head to the part of the apartment where the Agents had relocated. At that point, SA [redacted] observed a stainless steel revolver being pointed at him around the open door frame. As SA [redacted] deflected the weapon away from his body, a round discharged. He also observed rounds entering through the wall dividing the bedroom from the kitchen. b6 b7C

Both Agents returned fire, firing their weapons through an interior wall of the apartment. Immediately after [redacted] and SA [redacted] had fired shots, SA [redacted] barely missed shooting [redacted] with a single gunshot, when she suddenly appeared around the open bedroom door frame from the area of the apartment where the subject had been firing.

Based on radio calls for assistance by the Agents on the scene, law enforcement personnel from the Albuquerque Division, as well as the APD responded to the scene. [redacted] was arrested approximately two and one half hours later, as he tried to escape from a nearby apartment where he had hid from responding Special Weapons and Tactics Teams and other law enforcement officers.

On 09/14/1999, the SIRG met to discuss the above-captioned shooting incident. Acting Chief Inspector Robert J. Cordier, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Division, USDOJ; [redacted] Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, NS-2A Unit, Global Section - NS-2, National Security Division; and, [redacted] Supervisor, Washington Field Office. The only nonvoting member present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division. b6 b7C

To: Inspection Division From: Inspection Division
Re: 297-HQ-A1270914-D, 10/26/1999

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SAs [redacted] and [redacted] was justified and in conformance with the current deadly force policy. SIRG members unanimously agreed that [redacted] repeated gunfire constituted a direct threat upon their lives, and provided adequate justification for their employment of deadly force throughout this instance. b6 b7C

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT;
LOS ANGELES DIVISION
MARCH 29, 1999

Character: ADMINISTRATIVE INQUIRY

Synopsis:

On March 29, 1999, Special Agents of the Federal Bureau of Investigation (FBI) assigned to the Los Angeles Division responded to a call for assistance from Federal Agents with the Defense Criminal Investigative Service (DCIS). DCIS Federal Agents [redacted] and [redacted] were surveilling a residence in Studio City, California where they had source information that federal fugitive [redacted] was currently located. Subject [redacted] had a federal warrant issued from the District of Arizona charging him with False Identification Cards, Falsely Pretending to be an employee of the United States, Fraud and Related Activity in Connection with Access Devices, Mail Fraud, Wire Fraud, and False Statements in Application for a Passport. Subject [redacted] had a criminal history which included receiving stolen property, carrying a concealed weapon, resisting arrest, forgery, and burglary.

b6
b7C

On March 29, 1999, at approximately 5:04 pm, DCIS agent [redacted] using a hand held FBI radio which he was issued while working on an FBI task force, contacted Los Angeles FBI radio control. He requested assistance in the arrest of a fugitive "ASAP" from FBI agents who were in the area of Moorpark and Coldwater Canyon in Studio City, California. He also asked FBI control to contact the Los Angeles Police Department (LAPD) to respond to the area for backup. Special Agent (SA) [redacted] advised control he would be responding as did Special Agents [redacted] and [redacted] who were in a two man unit. Both SA [redacted] and the two man unit were fifteen to twenty minutes away from agent [redacted] location when he first called for assistance. The area was still in daylight, the weather was clear, and there were no wind conditions.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

When SA [redacted] arrived at the intersection he requested a specific location where he could find the DCIS agent. Agent [redacted] advised SA [redacted] he was in the northwest corner of the intersection in a parking lot next to a market. SA [redacted] was able to see Agent [redacted] who was near a vehicle in the parking lot. He drove to Agent [redacted] vehicle and the two of them began discussing subject [redacted] SA [redacted] had never met Agent [redacted] prior to this incident. He told SA [redacted] he worked with a couple of FBI squads and at this time he thought Agent [redacted] was an FBI agent since he had been using an FBI radio. b6 b7C

Agent [redacted] advised SA [redacted] that subject [redacted] was a fugitive who was wanted for mail fraud, false identification and impersonating a DOD agent. He also told SA [redacted] he wanted him, along with the other FBI agents who would be arriving soon, to watch the rear of an apartment where he believed subject [redacted] was now located. He added when LAPD units he had requested arrived, he would have them assist him in making contact with the subject at the apartment. He told SA [redacted] that subject [redacted] had a black Jeep Cherokee that was now parked about thirty feet north of where they were now parked.

While the two of them were discussing Agent [redacted] plan, SA [redacted] noticed a white male wearing a T-shirt and slacks walking south in the alley behind the apartment. The male was walking towards them as SA [redacted] was sitting in his vehicle in the parking lot. Agent [redacted] was crouched down by SA [redacted] driver's door in the parking lot. Agent [redacted] did not initially see the male and had observed an LAPD patrol unit drive by their location. Agent [redacted] notified FBI control to contact the LAPD officers and give his exact location.

Once he was finished on the radio, SA [redacted] asked Agent [redacted] if the male walking towards them was his subject. At first Agent [redacted] advised him that it could be but he was not certain. Once the male had walked a few feet closer, Agent [redacted] told SA [redacted] that it was definitely his fugitive. SA [redacted] asked Agent [redacted] what he wanted to do. He asked if Agent [redacted] was going to arrest the subject or wait for backup. Agent [redacted] suddenly stated he was going to arrest him now. He stood up and started walking to the rear of the black Jeep Cherokee which is where the subject appeared to be walking. b6 b7C

SA [redacted] immediately exited his vehicle and began approaching the Jeep Cherokee from the south. He was not aware if any other FBI units or LAPD units were in the parking lot yet. Since Agent [redacted] had decided to approach the subject he realized he needed to assist him without delay. He had observed Agent [redacted] going towards the driver's side rear of the Jeep with his handgun already drawn. SA [redacted] also drew his handgun as he moved to a position of cover behind a vehicle's engine block which was parked adjacent to and just south of the Jeep. SA [redacted] weapon was a personally owned Bureau approved .40 Caliber semi-automatic, Glock Model 27, serial number CNF655.

SA [redacted] was able to observe the subject who had already opened the door of the Jeep and was standing outside in the "V" of the door of the vehicle. Through the glass of the passenger side window he could see the subject's head down to his mid-pelvic area. At this time he was about five to ten yards from the subject. He could see Agent [redacted] with his weapon pointed at subject [redacted] while he was standing to the rear of the Jeep's driver's side.

Once he was in position behind the cover vehicle, SA [redacted] could hear Agent [redacted] identify himself as a federal agent to subject [redacted] and advise him he was under arrest. He recalls hearing Agent [redacted] repeat this more than once. He observed subject [redacted] put his hands up to the height of his shoulders, and then place them down to his waistline. SA [redacted] heard Agent [redacted] yelling for subject [redacted] to show him his hands. He also observed Agent [redacted] speaking on his hand held radio and asking for FBI control to have the LAPD units respond to assist them.

b6
b7C

SA [redacted] was able to see subject [redacted] turn his head in his direction and look towards him. Subject [redacted] had on a pair of sunglasses but they were down on the bridge of his nose and SA [redacted] could see his eyes. SA [redacted] yelled at the subject to get his hands up. When he did not respond, he yelled that he was with the police and that he wanted him to put up his hands. Rather than comply with his commands, the subject placed his right hand into his right front pocket area. At this point, SA [redacted] believed the male might be going for some type of weapon. He continued to yell at subject [redacted] to put up his hands. The subject removed his hand and SA [redacted] could see it was empty.

SA [redacted] observed subject [redacted] then lean into the interior of his vehicle and reach towards the center console area. He believed at this time the subject may again be reaching for a weapon. The male then returned his hands to his side and once again they were empty. The subject then sat down in the driver's seat, shut the door, and locked it. SA [redacted] could see Agent [redacted] go to the driver's side door and attempt to open the locked door. He could hear Agent [redacted] giving subject [redacted] commands but again the subject was non-compliant.

b6
b7C

With his weapon still pointed at the subject, SA [redacted] pounded on the passenger side window of the Jeep with his left hand and yelled at subject [redacted] to open the locked door. Subject [redacted] placed his right hand into his right front pocket of his pants. SA [redacted] once again thought the subject was reaching for some type of weapon. When the subject removed his hand the male had an open pack of cigarettes in his hand. Subject [redacted] then placed his left hand in his left pocket and yet again SA [redacted] believed the subject may be going for a weapon. When subject [redacted] s hand came into view it appeared to be holding a lighter.

SA [redacted] noticed at this time that Agent [redacted] had now moved into a position directly in front of the black Jeep. He also realized at this time the Jeep was now running. His immediate concern was the subject driving forward and striking Agent [redacted] who was in the vehicle's path. Once again SA [redacted] pounded on the passenger side window and yelled to the subject that if he drove forward he would shoot. He repeated this command once again as loud as he could to ensure the subject could hear him. He also confirmed at this time that Agent [redacted] was still in the vehicle's pathway.

An LAPD officer had come along side the passenger side of the vehicle next to SA [redacted] position. He told SA [redacted] he had a baton and told SA [redacted] to take a step back. At this time the LAPD officer struck the passenger side window causing a portion of it to break out.

b6
b7C

As the glass broke, SA [redacted] blinked for a moment. He then observed subject [redacted] take his right hand and grab the vehicle's steering wheel. The vehicle then proceeded forward towards Agent [redacted] who SA [redacted] knew was still in the path of the vehicle. SA [redacted] believed subject [redacted] posed an imminent danger of death or serious physical injury to Agent [redacted] by using the vehicle as a deadly weapon. SA [redacted] did not feel there were any safe alternatives to the use of deadly force. He did not shoot to disable the moving vehicle or to prevent the escape of the subject. His intent was to stop the threat posed by the subject driving the vehicle towards Agent [redacted]

SA [redacted] fired two shots in rapid succession at the subject. Immediately after the second shot, the vehicle came to a momentary halt and then immediately accelerated at a high rate of speed north through the alley. As subject [redacted] left the parking lot area towards the alley he sped towards DCIS Agent [redacted] who was standing outside of his vehicle. The vehicle had its driver's side door open as subject [redacted] vehicle approached. The subject's vehicle struck the open door of Agent [redacted] vehicle causing it to slam shut. As subject [redacted] vehicle continued north it narrowly missed striking Agent [redacted] who had to throw himself up against his own vehicle to avoid being struck.

Subject [redacted] then led FBI and LAPD units on an approximately twenty-five minute pursuit through the Los Angeles area. SAs [redacted] and [redacted] who were witnesses to the shooting, were involved in the pursuit of the subject. During the pursuit, the subject on two separate occasions attempted to strike LAPD units who were in pursuit of him. Subject [redacted] eventually was stopped when he rammed the Jeep into an unoccupied LAPD unit which was parked at the end of an alley way in a storage facility.

b6
b7C

Subject [redacted] was taken into custody at this point and medical aid was requested at the site where the pursuit ended. Paramedics arrived at the scene within a few minutes of being called. They provided subject [redacted] initial first aid and then transported him to Valley Presbyterian Hospital in Van Nuys, California for further medical care. It was determined the subject received a through and through bullet wound in his right arm, just above his elbow in his humerus bone. The second round was found in the vehicle pillar next to the passenger side window. All rounds fired were accounted for following the incident.

Subject [redacted] is further identified as [redacted] and [redacted] He uses several dates of birth and social security numbers. His FBI number is [redacted] He was found to also have a no bail warrant for felony forgery in Los Angeles County.

b6
b7C

Neither SA [redacted] or Agent [redacted] were injured during the incident. In addition, no one else was injured to include all law enforcement personnel and citizens.

It was determined the vehicle being driven by subject [redacted] was stolen. The theft of the vehicle was reported on January 4, 1999.

The Los Angeles FBI Agent Involved Shooting Team and the LAPD North Hollywood Shooting Team both responded to the scene. A joint investigation was conducted.

Neighborhood investigations were conducted at the shooting scene, along with witness interviews.

Photographs were taken of the crime scene area by the Los Angeles FBI photographers as well as the Los Angeles FBI Evidence Response Team (ERT).

The LAPD furnished the FBI their written reports regarding the shooting incident and the pursuit which followed.

Recovered at the shooting scene were two expended shell casings from SA [redacted] weapon. Recovered from the subject's vehicle were two expended rounds, one of which appears to have been the one which struck subject [redacted]

b6
b7C

On April 5, 1999, a Federal Complaint was filed against subject [redacted] charging him with one count of Title 18, U.S. Code, Section 111, Assaulting a Federal Officer.

Subject [redacted] had been incarcerated at the Los Angeles County University of Southern California Medical Jail Ward. His patient file number was [redacted] is medical records were subpoenaed as of April 5, 1999. The subpoenaed medical records were obtained on April 12, 1999. They will be maintained at Los Angeles pending the prosecution of subject [redacted] concerning the Assault on a Federal Officer (AFO) charge.

Subject [redacted] was released from the Los Angeles County USC Medical Center's Jail ward on April 7, 1999. He is currently in the custody of the U.S. Marshals pending his prosecution for the AFO charge.

Re: 297-HQ-A1271908-D, 09/22/1999

Details of the Shooting Incident

In the late afternoon of 06/03/1999, members of the Salt Lake City Division's Violent Crimes Task Force (VCTF) and police officers of the Salt Lake City metropolitan area were engaged in search and apprehension attempts of subjects who were being sought in connection with the shooting of a police officer from the Murray City (Utah) Police Department who had been investigating allegations of a forgery at a local bank.

Information was developed that the subject of the shooting, [redacted] who was apprehended at the rear of a local restaurant on the afternoon of 06/03/1999, had been accompanied by an unknown female when he engaged in the shooting of the aforementioned police officer. The information also indicated that the female may be located at a specific duplex residence in Salt Lake City.

A briefing was held to provide available information to involved law enforcement personnel on the scene. A perimeter was established at the target residence and SA [redacted] along with other law enforcement officers, was tasked with securing the rear and the south side areas of this residence. As investigators entered the rear yard of this duplex residence, a large canine exited a rear door and charged in the direction of SA [redacted] SA [redacted] discharged his Bureau-issued shotgun in the direction of the canine, striking the ground near the dog. The dog retreated to the residence and no longer posed a threat to investigative personnel.

b6
b7C

On 09/14/1999, the SIRG met to discuss the above-captioned shooting incident. Acting Chief Inspector Robert J. Cordier, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Division, USDOJ; [redacted] Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, NS-2A Unit, Global Section - NS-2, National Security Division; and, [redacted] Supervisor, Washington Field Office. The only nonvoting member present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division.

Report of: ASAC Kevin L. Perkins Office: Philadelphia
Date: June 22, 1999

Case ID #: 66F-PH-86520

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
PHILADELPHIA DIVISION
JUNE 4, 1999

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident involved a Special Agent (SA) of the FBI assigned to the Philadelphia Division. The incident occurred during the successful apprehension of a wanted federal fugitive by members of Philadelphia Division Squad 2.

DETAILS:

This shooting incident came about when FBI SAs, acting in a surveillance role, came in contact with [redacted] a known violent fugitive with a history of using high speed chases as a mode of escape.

The FBI SAs involved in this incident were all assigned to the Philadelphia Division's Violent Traffickers Project (VTP), Squad 2. The VTP is tasked with developing investigations focusing on the communities most violent drug trafficking organizations. b6 b7C

[redacted] was originally known to the VTP as a subject of an OCDETF matter (245F-PH-81831). This particular OCDETF investigation was divided between FBI and ATF contingents with [redacted] falling under the ATF portion of the case.

As a result of the intelligence base developed

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

by the VTP, information was obtained on 6/2/99 concerning the whereabouts of [redacted] described as a black male, date of birth [redacted] FBI [redacted] was believed to be a wanted fugitive. The initial information received noted that [redacted] boasted he was wanted by the "feds" and that he had no intention of being captured. [redacted] told associates that with his prior felony convictions he would most likely receive a life sentence should he ever be caught.

The intelligence information indicated that [redacted] had been recently known to frequent the 4600 block of Westminster Avenue, Philadelphia, Pennsylvania. Acting upon the information, members of the VTP began to conduct various records checks to determine the validity of the intelligence. It was determined that [redacted] was indeed a federal fugitive wanted by ATF based upon an arrest warrant issued in the Eastern District of Pennsylvania. [redacted] was charged in a complaint with being a felon in possession of a firearm. Criminal record checks revealed [redacted] had an extensive arrest record for drug distribution, aggravated assault, murder, and carrying a firearm without a license. The record checks also noted that [redacted] had twice been convicted on felony drug charges within the city of Philadelphia. The criminal checks were confirmed with both the U.S. Marshals Service and ATF. The ATF case Agent was identified and contact was established.

b7C

The ATF case Agent confirmed that the warrant was active and that ATF was seeking [redacted] He noted that a December 1998, attempted car stop of [redacted] by the Philadelphia Police Department resulted in [redacted] successfully avoiding capture following a high speed car chase through the streets of west Philadelphia. The ATF SA also warned that [redacted] was wanted for felon in possession of a firearm and that [redacted] was known to carry a gun.

On 6/3/99 Supervisory Special Agent (SSA) [redacted] Squad 2-VTP SSA, was briefed by SA [redacted] regarding the information concerning [redacted] SSA [redacted] directed SA [redacted] to develop and prepare an operations plan for the arrest of [redacted]

b6
b7C

On 6/4/99 at approximately 1:00 p.m. SA [redacted] received additional information that indicated [redacted] had just been seen entering a residence in the 4600 block of Westminster Avenue. SA [redacted] learned that [redacted] had driven to the area in a late model red Pontiac Grand Am with New Jersey license plates. SA [redacted] immediately notified both SSA [redacted] and the ATF case Agent of the sighting. The ATF case Agent told SA [redacted] that he was on leave but would attempt to respond to the location. With the ability of ATF to respond in a timely manner in question, SSA [redacted] decided Squad 2-VTP should prepare for and make the arrest.

SSA [redacted] gathered members of Squad 2-VTP for a briefing. Utilizing the operations plan prepared the previous day SA [redacted] briefed members of the squad. Each person present was provided a copy of the operations plan which included a color photograph of [redacted] At the conclusion of the briefing, members of the squad departed the office in route to the 4600 block of Westminster Avenue.

SSA [redacted] and SA [redacted] were the first to arrive in the vicinity of 4600 Westminster. Upon arriving in the area they immediately observed a red late model Pontiac Grand Am with New Jersey license plates. The subject vehicle was parked facing east on the south side of Westminster Avenue. SSA [redacted] broadcasted the information over the Bureau radio to other responding units. A second Bureau car containing SAs [redacted] and [redacted] was second to arrive in the area. SSA [redacted] directed them not to pass the Grand Am and to take a surveillance position east of the subject vehicle. SSA [redacted] and SA [redacted] took a surveillance position approximately one block to the west of the subject's vehicle.

b6
b7C

Immediately upon initiating the surveillance SA [redacted] contacted the ATF case Agent by cell phone. The ATF Agent advised he was approximately five blocks from the surveillance location and had approximately six ATF SAs in route to the scene. Upon receiving this information SSA [redacted] determined that upon ATF's arrival the FBI would assume an outer perimeter position and ATF would effect the arrest of [redacted]

While speaking to the ATF Agent on the cell phone, SA [redacted] observed additional VTP members, Detective [redacted] and Narcotics Agent [redacted] arrive on the scene and circle the block while attempting to obtain a surveillance position.

As SA [redacted] was completing his conversation with the ATF case Agent, FBI SA [redacted] radioed that he observed [redacted] exit a residence on Westminster Avenue and move toward the red Grand Am as if to enter the vehicle. With this information, and based upon the subjects history of high speed chases, SSA [redacted] gave the order to execute the arrest. SSA [redacted] directed SA [redacted] to move his vehicle into a blocking position to the rear of the subjects vehicle. He further directed SAs [redacted] and [redacted] to block the subject's vehicle from the front.

b6
b7C

SA [redacted] immediately moved his vehicle toward the red Grand Am stopping at the left rear of the car in a blocking position. At this point, [redacted] was already in the driver's seat of the Grand Am. SA [redacted] noted that the Grand Am's reverse lights were on. The Grand Am was positioned between two other legally parked vehicles. Having brought his vehicle to a stop, SA [redacted] exited his vehicle, drew his 9mm semi-automatic pistol, moved to the left of his car, and shouted several times "FBI,

hands up." looked directly at SA through the open driver's side window but did not comply with his commands. Instead, the Grand Am quickly accelerate forward out of the parking spot. As he entered the driving lane went straight toward SAs and who had positioned their vehicle in such a way as to block escape route to the east. made an hard left turn to avoid the blocking vehicle. continued his hard left turn and, with tires screeching, drove his vehicle across Westminster Avenue (a two lane street) and onto the sidewalk. He continued driving the car on the sidewalk passing between a utility pole and a hedge. SA continued to shout "FBI, stop the car, hands up". continued around the utility pole until he was facing southwest and, with the car's tires still screeching, drove off the sidewalk back onto the street and accelerated directly toward SA SA fearing was going to run over him, aimed his pistol at and fired. car passed by SA on its driver's side missing him by one or two feet.

b6
b7C

After passing SA vehicle glanced off another car parked at the curb on Westminster Avenue and continued onto the sidewalk until finally colliding with a building. The impact of the collision was such that car bounced backwards before it came to a stop. Although the car had stopped, the engine was still racing. At this point, SA ran to the passenger side of car while SAs and approached from the driver's side. SSA immediately radioed the office, reported the shooting and requested medical assistance. Within moments, other SAs, both FBI and ATF, as well as the Philadelphia Police began to arrive on the scene.

was transported to the Hospital of the University of Pennsylvania (HUP) via Philadelphia Fire/Rescue ambulance where he was treated for a bullet wound to the upper left portion of his back. Following treatment of the wound, was released from HUP and immediately detained based upon his fugitive status.

SHOOTING INCIDENT
06/19/1999
TRAINING DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred in the Training Division on 06/19/1999. Supervisory Special Agent (SSA) [redacted] fired three shots from his Bureau-issued Glock Model 22 pistol injuring a dog which threatened him and his wife while outside their residence in Virginia. SIRG members opined that the use of deadly force by SSA [redacted] was appropriate and in conformance with the deadly force policy. The SIRG recommended that no administrative action be taken against SSA [redacted] as a result of his involvement in this shooting incident.

Re: 297-HQ-A1271984-D, 01/12/2000

Details of the Shooting Incident

On 06/16/1999, at approximately 8:30 p.m., SSA [redacted] heard his wife screaming for help from the garage area of their home located in Fredericksburg, Virginia. Upon hearing the screams, SSA [redacted] retrieved his weapon and exited the house into the garage area. His wife advised that a vicious dog had attempted to attack her and SSA [redacted] proceeded to the area where the dog was last seen. Upon seeing two dogs, SSA [redacted] yelled and one dog immediately ran from the area. The second dog noticed SSA [redacted] and turned toward him growling and began moving toward him at a fast pace. SSA [redacted] fired his weapon three times and the dog fell to the ground. The dog subsequently got up and retreated into the woods.

SSA [redacted] contacted the police who responded to the residence to take a report of the incident. b6 b7C

On 11/04/1999, the SIRG met to discuss the above-captioned shooting incident. Acting Chief Inspector Robert J. Cordier, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Civil Rights Division, USDOJ; William R. Falls, Section Chief, Operational Support Section, Administrative Services Division; Charles H. Middleton, Section Chief, Global Section - NS-2, National Security Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; [redacted] Unit Chief, Asset Forfeiture Unit, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division.

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an

operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SSA [redacted] was justified.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
INDIANAPOLIS DIVISION
JULY 12, 1999

Character: ADMINISTRATIVE INQUIRY

Synopsis: On July 12, 1999, at approximately 12:15 p.m., SA [redacted] Indianapolis Division, was involved in a shooting incident that occurred in a parking garage near 20 North Pennsylvania Street, Indianapolis Indiana. While driving in downtown Indianapolis on official business, SA [redacted] heard shots in near proximity to his vehicle. SA [redacted] observed an individual apparently fleeing the scene of the shooting, after which SA [redacted] immediately gave chase, following the individual into a nearby parking garage. SA [redacted] observed the individual point a weapon at him, and he then identified himself as a police officer, and ordered the individual to drop the weapon. The individual turned away and then again pointed the weapon at SA [redacted] after which SA [redacted] fired one shot, striking the individual in the upper left leg. The individual was shortly thereafter taken into custody. The individual's wound was not life threatening, and he has been charged locally with Attempted Murder, Criminal Recklessness and Theft, and federally with Assaulting a Federal Officer.

b6
b7C

- P -

DETAILS:

At approximately 12:15 p.m. on July 12, 1999, Loss Prevention Officer [redacted] employed by the Parisian department store located at East Washington and

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Meridian Streets, Indianapolis, Indiana, observed an individual, later determined to be [redacted] placing a pair of "Johnston and Murphy" shoes in a bag, and then attempt to leave the store without paying for them. Security personnel at Parisian attempted to lock the doors to prevent [redacted] departure, but he broke through the doors and began running northbound on Meridian Street. He was confronted outside the store by Loss Prevention Officer [redacted] and a scuffle ensued with both falling to the ground. [redacted] subsequently drew a weapon, according to Martin, and fired several shots at him, striking him once in the upper left shoulder. [redacted] disengaged himself from [redacted] began to walk or run away, and then turned back toward [redacted] firing one more shot. This shot struck passerby [redacted] in the leg. At approximately the same time, SA [redacted] who was traveling in his FBI vehicle, westbound on Washington Street, a one-way westbound street, heard several gunshots and saw an individual later determined to be [redacted], running from the vicinity of the shots fired. At least six witnesses observed the scuffle and subsequent shooting of [redacted] by [redacted] and his attempted escape into a nearby parking garage. Most stated they observed [redacted] carrying a pair of shoes and what appeared to be a gun tucked under one of his arms. These witnesses also observed an individual they later learned to be SA [redacted] exit his car and follow the escaping [redacted] into a nearby parking garage. No witnesses saw the shooting inside the parking garage, although some heard SA [redacted] yell at the escaping [redacted] to "Stop."

b6
b7C

Upon voluntary interview, SA [redacted] advised that at approximately 12:15 p.m., on Monday July 12, 1999, he was traveling westbound on East Washington Street stopped in traffic between Pennsylvania and Meridian Streets. He heard what he believed to be two or three gunshots, which immediately focused his attention. He observed several people diving for cover with the appearance that those individuals were being threatened. He then observed a young, medium built, black male hurriedly crossing Washington Street in the middle of the block, past parked vehicles. This individual, according to [redacted] was moving rapidly away from the area of what he believed was the shooting scene, and [redacted] further stated he believed this individual was involved in that shooting. SA [redacted] advised that he did notice the individual carrying something tightly to his chest, although he did not see a weapon at this point. SA [redacted] immediately placed the Bureau vehicle in park, obtained his Bureau weapon, and gave chase. SA [redacted] followed the individual northbound in an alley located between Pennsylvania and Meridian Streets. SA [redacted] followed the individual, who was still carrying several items in his arms, into a parking garage entrance. As he

approached the doorway entrance, he observed this individual crouched near a corner of that parking garage facility approximately 10 yards from his position. At this time, the individual began placing the items he was carrying on the ground. The individual turned and looked at SA [redacted] SA [redacted] immediately observed a weapon in his hand, and that the weapon was pointed at him. SA [redacted] advised that he instantaneously stated, "Police. Drop the gun." The individual did not drop the gun, turned away from SA [redacted] and then began to turn and leave his crouched position, again pointing the weapon directly at SA [redacted] SA [redacted] fired one round at the individual, which he believed hit him, because the individual stopped and dropped to one knee, still holding on to the weapon. SA [redacted] again ordered the individual to drop the gun, which the individual did, after which SA [redacted] ordered him to slide the weapon away from him. Again, the subject complied. SA [redacted] approached the individual, did a cursory pat down search, and noticed that in fact the individual had been shot in the upper left leg. SA [redacted] yelled to witnesses and a garage attendant to notify the police and send an ambulance. One arrived shortly thereafter and a police officer placed [redacted] in handcuffs. SA [redacted] then returned to his vehicle to move it nearer the shooting scene and radioed the Indianapolis Office advising them of the incident. Indianapolis personnel then responded to the scene.

[redacted] was interviewed by Indianapolis Police Department officers and voluntarily waived his right to remain silent. [redacted] 22 page statement is largely incoherent and contradictory. He states that he was shopping in the Parisian department store, and as he left, two men jumped on him as he left the building. He alleges the individuals that jumped him were attempting to rob him and that they fired several shots at him. [redacted] stated that it was after these individuals began to shoot at him, that he fired a shot at them, believing they were going to kill him. He advised he then tried to escape the scene in an attempt to locate his vehicle and leave. He advised as he left the scene he heard several more shots, including some fired by individuals in a van coming down the street. As he turned into the parking lot where his "ride" was located, a guy stepped around the corner, "pulled out his arm but he said drop it," "drop it," "drop it." He stated SA [redacted] shot him at least two times, after which SA [redacted] came up to him and said, "Give me what you got man, give me what you got," implying that he believed that SA [redacted] was attempting to rob him. [redacted] denied shoplifting any items from the Parisian department store.

b6
b7C

Investigation by FBI Indianapolis ERT personnel and IPD officers revealed no other shells recovered from any weapon other

than [redacted] .40 caliber semi-automatic pistol, and no other witnesses observed any other individuals carrying or firing weapons during the initial scuffle.

SA [redacted] gun was recovered and determined to have one round chambered and eight rounds in the magazine. ERT's crime scene search and examination of SA [redacted] weapon determined that he fired only one round. [redacted] weapon was recovered at the scene and was determined to have one round in the chamber and one round in the magazine.

On July 16, 1999, Marion County, Indiana Prosecutor [redacted] advised that his office would not empanel a Grand Jury investigation into the police action shooting, inasmuch as it was apparent that SA [redacted] actions in shooting [redacted] were justified. b6 b7C

On July 14, 1999, [redacted] was charged on a Complaint issued out of the Southern District of Indiana with Assaulting a Federal Officer. [redacted] continues to be held in the Marion County Jail on these charges.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
SALT LAKE CITY DIVISION
JULY 15, 1999

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident was a result of the escape by Foster from the Promontory Correctional Facility and two subsequent bank robberies at First Security Bank of Murray, 4730 South 900 East, Salt Lake City, Utah, and the Zions Bank at 4500 South 845 East, Salt Lake City, Utah, on July 8, 1999.

DETAILS:

On the morning of July 8, 1999, Foster walked away from a work release program at the Promontory Correctional Facility. An arrest warrant was issued by the State of Utah the next day. Between the hours of 9:00 a.m. and 11:00 a.m., a white 1998 Lincoln was stolen in Murray, Utah. At approximately 12:10 p.m., a lone white male entered the First Security Bank of Murray, Utah, displayed a handgun and robbed the bank. Upon entering the bank, the robber said, "Everybody down. This is a robbery." The robber then exited the bank and fled in a stolen vehicle, which was recovered later in the day. Total loss to the bank was $11,850. The bank surveillance cameras were activated during the robbery. Later that day the Zions Bank in Salt Lake City was robbed by a lone white male who entered the bank and stated he had a gun. Although a gun was not shown, he kept his hand in his pocket and indicated that he had a gun. Total loss to the bank in this robbery was $7,480. Physical description and modus operandi were similar in both robberies. Stanley

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Foster was later identified through a photo spread by the victim teller in the First Security Bank of Murray robbery where the weapon was displayed. Foster's name had come up through a Department of Corrections source who identified Foster as performing the robbery.

On 07/15/1999, the FBI Violent Crime Task Force (VCTF) was working a separate fugitive case in addition to the Stanley Foster investigation. The VCTF was surveilling a location where a fugitive was believed to be residing. Earlier in the day, the VCTF had developed information through [redacted] that indicated that Foster was using drugs and frequented gay bars in Salt Lake City. Specifically, he had been in a bar called "Bricks" the night before. Additionally, a possible vehicle for Foster had been determined. b6 b7C b7D

At approximately 9:00 p.m., the surveillance on the other fugitive investigation was terminated due to the fact that the VCTF believed they had been compromised. All surveillance personnel returned to a staging area near the surveillance scene. At that time volunteers were asked to stay to assist on the Foster investigation. SA [redacted] then provided a briefing to the individuals who were staging about Foster. Present at this briefing were SA [redacted] SA [redacted] SA [redacted] and Deputy U. S. Marshal (DUSM) [redacted] SA [redacted] detailed that Foster was a prison escapee who had been identified in at least one bank robbery. Additionally, SA [redacted] relayed that a weapon had been displayed in one robbery and Foster should be considered Armed and Dangerous. [redacted] showed both the bank robbery surveillance photo and an arrest photo of Foster. The briefing started about 9:15 p.m. and lasted approximately 10 to 15 minutes. b6 b7C

The personnel involved in the briefing departed with the objective of locating Foster's vehicle and possibly making contact with "Bricks" management to determine whether Foster frequented there in the past.

SA [redacted] departed the briefing location to begin spot checks. SA [redacted] drove past "Bricks" and spotted an individual he believed to be Foster next to a pickup truck. SA [redacted] turned around and made a second pass by the vehicle to obtain the license plate number. SA [redacted] called the plate number into the FBI office for a license check. The license plate came back negative and [redacted] made a third pass by "Bricks" and observed the same individual. SA [redacted] notified the other surveillance units by radio that this might be Foster. SA [redacted] then proceeded down the street from "Bricks" where he

observed Police Officer [redacted] who was making issuing a ticket to an individual. At this point SA [redacted] exited his vehicle and began talking to Police Officer [redacted] He advised that several Agents would be responding to the "Bricks Bar" to arrest an Armed and Dangerous bank robbery suspect and prison escapee. While SA [redacted] was out of his car, DUSM [redacted] and SA [redacted] arrived at "Bricks." DUSM [redacted] had attempted to contact [redacted] via the radio on two occasions, but received no response. b6 b7C

At this point, DUSM [redacted] who was designated the task force coordinator, believed that there were good circumstances to effect the arrest. DUSM [redacted] assessed the fact that there were few bystanders, the area was well lit, and Foster was out of his vehicle. Other considerations were the fact that he had been unable to raise other task force members via the radio and the concern that the subject might have recognized or "made" law enforcement passes by "Bricks Bar" and flee.

DUSM [redacted] and SA [redacted] parked their vehicles south of the subject's vehicle and began walking towards him. DUSM [redacted] and SA [redacted] approached Foster from the back of the vehicles that were parked facing "Bricks." As they approached, Foster opened his driver's side door, possibly with his left hand. DUSM [redacted] took a position of cover near the passenger side rear wheel of Foster's truck. SA [redacted] went to a position of cover at the back of the vehicle parked north of Foster's truck. DUSM [redacted] drew his weapon, pointed it at Foster, and yelled, "Police. Get your hands up." SA [redacted] also drew his weapon, pointed it at Foster, and yelled, "FBI. Get your hands up." Foster looked at SA [redacted] and put his hands in the air. As Foster was looking at SA [redacted] SA [redacted] commanded Foster to "go down on the ground." Foster, without receiving a command, turned away from DUSM [redacted] and SA [redacted] At this point, Foster's back was facing SA [redacted] and DUSM [redacted] Foster then, slowly and deliberately, lowered his right hand toward his waist. Both SA [redacted] and DUSM [redacted] began yelling, "Get your hands up." This command was repeated at least three times. At this point DUSM [redacted] repositioned himself toward the driver's side of the rear of Foster's pickup truck in order to obtain a better angle from which to fire on Foster if necessary. DUSM [redacted] was concerned about possible angles of fire and possible stray shots or ricochets. DUSM [redacted] believed at this time that Foster was not responding normally to law enforcement commands. Foster was standing next to his open vehicle door and DUSM [redacted] believed that he and SA [redacted] were in imminent danger from a clear potential threat posed by the furtive movement of Foster's hand. SA [redacted] then fired two rounds from his handgun and b6 b7C

struck Foster twice, once in the wrist and once in the left chest area.

Emergency Medical Services responded to the scene and attempted to revive Foster. Foster was transported to a hospital and pronounced DOA.

Non-law enforcement witness interviews at the scene verify the statement given by DUSM [redacted] relative to the attempted arrest and shooting of Foster. Autopsy results also indicate that Foster's posture was probably moderately bent at the time of the bullet's entry. A crime scene search at the shooting scene produced the following items. In Foster's left hand was a plastic baggie filled with a white powder. This substance was field tested and found to be cocaine. Additionally, inside Foster's pickup truck were eight syringes filled with an unknown liquid. These syringes have been sent to the State of Utah Labs for testing. Once SSA [redacted] (Squad Supervisor) arrived on the scene, he coordinated with the Salt Lake City Police Department relative to the collection of evidence. SSA [redacted] also located SA [redacted] and DUSM [redacted] to assess their situation and to separate them from the others at the shooting scene. Additionally, he brought a second weapon to SA [redacted] whose weapon was provided to the Salt Lake City Police Department for ballistic testing. Upon the arrival of ASAC James Jarboe, J. Stephen Tidwell, and SAC David Tubbs, the crime scene investigation was coordinated with Salt Lake City officials on the scene. Appropriate Employee Assistance Program (EAP) counseling was provided to SA [redacted] and DUSM [redacted]

To: Inspection Division From: Inspection Division
Re: 297-HQ-A1271781-D, 09/20/1999

Details of the Shooting Incident

SA [redacted] acting in an undercover capacity for the INNOCENT IMAGES Task Force, logged onto America Online as a 14 year old girl from New Jersey. While in the chat room, an individual using the screen name of [redacted] initiated a chat with her. [redacted] who later identified himself as [redacted] indicated an interest in meeting the 14-year old for the purpose of engaging in sexual activities. During subsequent chat sessions [redacted] described in detail events that would take place between the female and himself. [redacted] agreed to meet the 14-year old female on Sunday 02/28/1999, at the Bridgewater Sports Arena (BSA). b6 b7C

In anticipation of the meeting with the subject, as well as to prepare for his arrest, SA [redacted] prepared an operation order which was approved by a supervisor and an Assistant Special Agent in Charge of the Newark Division. On 02/28/1999, a meeting was held with all participants of the proposed arrest and individual assignments were made in conjunction with the execution of the arrest.

At approximately 10:15 a.m., the arrest team arrived at the BSA and assumed positions in their vehicles. [redacted] arrived, entering the one-way drive entrance, at the proposed meeting place driving a van fitting the description that he had previously provided. SA [redacted] notified the other units by radio that the van was approaching the BSA. As [redacted] vehicle approached the BSA, vehicles with arrest team members moved in to block his vehicle from escape. SA [redacted] with SA [redacted] as a passenger, drove her Bureau vehicle toward [redacted] and positioned it perpendicularly in front of his vehicle. Other arrest participants placed their vehicles in designated areas in an attempt to block any escape route. b6 b7C

Investigator [redacted] who was alone in his vehicle, exited and approached the subject at the driver's side window of the van. [redacted] displayed his Middlesex County Prosecutor's Office badge to [redacted] who had both hands on the steering wheel and was looking out the windshield toward the right side of the vehicle. Investigator [redacted] knocked on the window and opened the driver's door, placing one foot on the running board of the vehicle. As [redacted] said [redacted] grabbed the gear shift while he was being told to "put it in park, put it in park." [redacted] vehicle lunged backwards, then forward. The forward motion forced the driver's door to close and Investigator [redacted] fell off the running board and away from

the vehicle. As this was happening, other members of the arrest team exited their vehicles to take positions around the subject's vehicle. SA [redacted] who had observed the actions between the subject and Investigator [redacted] had to move out of the way to avoid being hit by the subject's vehicle.

SA [redacted] positioned herself to the rear passenger side of [redacted] vehicle. Upon exiting her vehicle on the passenger side, SA [redacted] went to the passenger side rear and moved up the side of [redacted] vehicle to determine if there were any passengers inside. As [redacted] vehicle gained traction and moved forward rapidly, SA [redacted] had to jump backward to keep from being hit by the side of the vehicle. Knowing that SA [redacted] was in front of the subject's vehicle, SA [redacted] was concerned that [redacted] vehicle was going to hit and kill SA [redacted]

b6
b7C

As the arrest participants watched the movement of the subject's van, and knowing the positions of the law enforcement personnel around the subject, SA [redacted] drew her weapon as she was moving from the van's path. Believing that the rapidly moving vehicle was going to hit her, she took aim at [redacted] and fired a shot through the vehicle's passenger side window. The subject's vehicle veered left and around the blockade of cars before him. [redacted] continued toward a jug handle turn in the roadway which provided a means of escape.

[redacted] exited the driveway to the BSA making a right turn onto Frontier Road, with the arrest team in pursuit. As he reached the dead end of the road, [redacted] turned his vehicle around and headed back towards an arrest team member's vehicle. Realizing that the subject was coming in their direction, SAs [redacted] and [redacted] positioned their vehicles in an attempt to block the subject's vehicle as it approached. Traveling at a high rate of speed, [redacted] vehicle went around the Agents' vehicles continuing eastbound. After traveling approximately one-half mile, [redacted] pulled his vehicle over to the right shoulder of the road ending his escape attempt. Arrest team personnel blocked the vehicle and ordered [redacted] to exit the van. The subject was searched and handcuffed and taken to the Bridgewater Police Headquarters where he was processed and interviewed.

b6
b7C

On 09/14/1999, the SIRG met to discuss the above-captioned shooting incident. Acting Chief Inspector [redacted] Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG

in attendance: [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Division, USDOJ; [redacted] Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, NS-2A Unit, Global Section - NS-2, National Security Division; and, [redacted] Supervisor, Washington Field Office. The only nonvoting member present was [redacted] Program and Management Analyst,. Office of Inspections, Inspection Division.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

Based on their review of this incident, SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy.

b6
b7C

Several observations were made by SIRG members regarding this arrest situation. The first observation pertained to the difficulty of employing vehicle stops. Members opined that vehicle stops are usually difficult and in this particular incident, the positioning of the Bureau vehicles did not preclude the subject's escape.

The SIRG recommended that the Special Agent in Charge (SAC), Newark, ensure that felony vehicle stops be emphasized within the firearms training curriculum for the division. In particular, it was suggested that this INNOCENT IMAGES investigative team receive specific training together in this discipline to provide for their effective engagement in this technique should similar circumstances arise in future arrest situations. Members agreed that although acceptable, the arrest plan did not assign specific duties for the law enforcement

individuals on the scene. In addition, the plan did not address potential contingencies such as the subject's noncompliance or an eventual vehicle pursuit. Emphasis was placed on the fact that there is always a need for contingency planning in the event that the proposed arrest plan does not materialize due to unforeseen circumstances. It was further noted that no investigative personnel remained at the scene of the shooting to preserve that location or to verify that no personal injuries had been sustained to arrest team members.

The final criticism made about this incident pertained to the contents of the shooting report. Members noted that this report contained information that was not pertinent for the SIRG's review, specifically an entire Group I Undercover Operation proposal for the Newark Division's INNOCENT IMAGES initiative. SIRG members noted that the inclusion of these documents into shooting reports could result in their being subject to discovery if these incidents move to the prosecutive realm. It was determined that this issue would be addressed with the SAC, Newark, and that it would be also addressed in the future training of IIPs regarding shooting incident investigations.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
03/08/1999
SALT LAKE CITY DIVISION

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred in the Salt Lake City Division on 03/08/1999. During a surveillance at the location of a suspected bank robber, Special Agent (SA) [redacted] fired his weapon in response to shots being fired from unknown individuals. SA [redacted] was accompanied by another officer who had been hit twice by gunfire. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident. His discharge of his weapon was determined to be appropriate and justified, and in conformance with the FBI's deadly force policy.

Reference: Report of Supervisory Special Agents (SSAs) [redacted] and [redacted] dated 03/26/1999.

Details: This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

To: Inspection Division From: Inspection Division
Re: 297-HQ-A1271908-D, 09/20/1999

Details of the Shooting Incident

On the evening of 03/08/1999, police officers and FBI SAs, assigned to the Violent Crimes Task Force (VCTF), set up surveillance on a residence in Salt Lake City, where bank robbery subject, [redacted] had been observed. SA [redacted] and Department of Corrections Agent [redacted] maintained a location where they could view the front of the house while Detectives [redacted] and [redacted] of the Salt Lake City Police Department (SLCPD) were located at the rear of the residence.

According to SA [redacted] while sitting in Agent [redacted] car, he heard two gun shots which sounded as if they came from the rear of the residence. He broadcast "shots fired" over the Bureau radio and then saw four to five muzzle flashes to his right. SA [redacted] ducked down in the car, quickly realizing that he and Agent [redacted] were being fired on. b6 b7C

SA [redacted] exited the vehicle from the passenger side while Agent [redacted] exited from the driver's side. As he was exiting the vehicle, SA [redacted] saw three or four muzzle flashes coming from a house just north of the residence under surveillance. As SA [redacted] ran from the vehicle, he fired one shot in the direction of the muzzle flashes and took a position at the rear of the vehicle behind the right rear wheel. Agent [redacted] was also returning fire in the direction of the muzzle flashes. Neither SA [redacted] or Agent [redacted] possessed a hand held radio which resulted in other officers losing radio contact with them when they exited the vehicle.

Agent [redacted] yelled that he had been hit which SA [redacted] understood to mean that he had been shot. Thinking that Agent [redacted] was seriously injured, SA [redacted] reached into [redacted] vehicle and grabbed the Bureau radio mike and broadcast that they were under heavy fire and needed help. SA [redacted] heard a bullet hit something and saw Agent [redacted] go down again. [redacted] stated that he had been hit in the head. It was subsequently determined that Agent [redacted] was struck twice, once in the head and once in the chest. His helmet deflected the shot to his head and due to the fact that he was wearing a protective vest, his only injury was a bruise to his chest. b6 b7C

SA [redacted] and Agent [redacted] left their positions behind the vehicle and retreated to a position of cover at a warehouse to the east of their location. Shortly thereafter, another FBI SA and two SLCPD officers came to assist SA [redacted] and Agent

[redacted] wounds were checked and he was subsequently transported from the scene in the back seat of a police vehicle.

A subsequent investigation determined that subject [redacted] who was present in the brick house originally being surveilled, was not involved in shooting at the law enforcement officers on the scene. Two individuals, identified as [redacted] and [redacted] were present in the house from where the shots were being fired. [redacted] was indicted by a Federal Grand Jury and [redacted] is being held indefinitely on a material witness warrant. b6 b7C

On 09/14/1999, the SIRG met to discuss the above-captioned shooting incident. Acting Chief Inspector [redacted] Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Division, USDOJ; [redacted] Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, NS-2A Unit, Global Section - NS-2, National Security Division; and, [redacted] Supervisor, Washington Field Office. The only nonvoting member present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary. b6 b7C

The SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the FBI's deadly force policy.

To: Inspection Division From: Inspection Division
Re: 297-HQ-A1271970-D, 09/21/1999

Details of the Shooting Incident

On 06/26/1998, SA [redacted] was assigned an investigation pertaining to [redacted] who was wanted for Unlawful Flight to Avoid Prosecution for an armed murder. SA [redacted] was a member of the WFO's Joint Fugitive Task Force (JFTF) which was headed by Metropolitan Police Department (MPD) Sergeant [redacted]

[redacted] had a lengthy criminal history including charges involving weapons, drugs, assault, explosives, robbery, and murder. SA [redacted] had information that [redacted] may have been involved in the shooting of a car dealer, as well as shooting at MPD and Montgomery County Police Department (MCPD) officers. SA [redacted] conducted numerous surveillances and "turn-up" operations from June 1998 to 03/14/1999, in an effort to locate and apprehend the subject. Throughout his fugitive investigation, SA [redacted] kept his fellow task force members apprised of his information regarding [redacted] and he had passed out photographs of this fugitive as they became available to him. SA [redacted] also maintained appropriate liaison with the Baltimore Office of the FBI and representatives of the MCPD who were also actively looking for [redacted]

b6
b7C

On 03/14/1999, MCPD executed a search warrant on the apartment of an associate of [redacted] which led to the issuance of an arrest warrant for [redacted] for drug possession. On [redacted] arrested [redacted] in the District of Columbia (DC). [redacted]

b6
b7C
b7D

Surveillance began on the apartment of [redacted] on 03/16/1999, with no success. On 03/17/1999, SA [redacted] and Deputy United States Marshal (DUSM) [redacted] conducted an investigation at [redacted] apartment complex which resulted in a positive identification of [redacted] and an associate identified as [redacted] SA [redacted] arranged for a maintenance man at the apartment complex to perform a maintenance check on [redacted] apartment, as well as a close-by apartment occupied by [redacted] who had been making numerous telephone calls to the [redacted] apartment. The maintenance worker positively identified [redacted] as being located in [redacted] apartment and advised that the subject was hiding in the bathroom.

At approximately 12:00 noon, SA [redacted] called SA [redacted] and asked her to mobilize all available task force members and alerted her to advise Sergeant [redacted] not to use MPD radios because [redacted] had a police scanner in the apartment. SA [redacted] also called on his Bureau radio for any units in the area and received a response from SA [redacted] who positioned herself at the front of [redacted] apartment complex. SA [redacted] and DUSM [redacted] stayed at the side of the complex and at approximately 12:05 p.m., individuals fitting the description of [redacted] and [redacted] exited the building and departed the area. SA [redacted] had responding task force members check several known locations where [redacted] may have gone but without success. Not being able to surface [redacted] at any of these locations, SA [redacted] called off the search for [redacted] and most task force members returned to the WFO. SA [redacted] and DUSM [redacted] however, returned to the [redacted] apartment complex where they established a surveillance with the assistance of SA [redacted]

Shortly thereafter, [redacted] was observed in the parking lot of [redacted] apartment building, driving a gray Oldsmobile. The vehicle made a U-turn and drove out of the complex with SA [redacted] and DUSM [redacted] following. Realizing that [redacted] had made their surveillance, DUSM [redacted] called 911 and reported that [redacted] was engaging in a high-speed effort to elude capture. SA [redacted] called the WFO radio dispatcher and advised of the situation. SA [redacted] was advised that the U.S. Park Police helicopter would call them to assist. Within a few moments, the helicopter called and DUSM [redacted] advised them of their status. As they were leaving the apartment complex behind [redacted] SA [redacted] activated his siren and wig-wag headlights, and the blue flashing lights inside his Bureau vehicle, all of which [redacted] ignored.

[redacted] began driving erratically in an attempt to elude SA [redacted] and DUSM [redacted] firing three or four shots at them during the pursuit. [redacted] crossed the center median and drove against the traffic twice during the pursuit, which continued on the Capitol Beltway with [redacted] exiting at Route 193. [redacted] arrived at the intersection of Knowles Avenue and Parkwood Drive in Kensington, Maryland. Several vehicles were stopped at this intersection causing [redacted] to slow down. SA [redacted] attempted to trap [redacted] vehicle at this intersection; however, [redacted] immediately turned left on Parkwood Drive. [redacted] wound up escaping to the left side of a Volvo sedan while SA [redacted] and DUSM [redacted] paralleled him on the opposite side of this same vehicle. [redacted] fired across the Volvo sedan at SA [redacted] vehicle whereupon SA [redacted] saw the

b6
b7C

b6
b7C

driver of this sedan bend down on the front seat of her vehicle. Believing that [redacted] had shot the driver of the Volvo, and realizing that he had a clear shot for the first time, SA [redacted] fired three rounds at the subject, one of which shattered [redacted] rear windshield. [redacted] was seen to crouch down in the vehicle at this point as it crashed into a utility pole, causing flames to erupt from this automobile. Observing [redacted] hit this pole, SA [redacted] and DUSM [redacted] exited their vehicle and they immediately extricated a now groggy [redacted] through the passenger door, upon which he was handcuffed and arrested. SA [redacted] then heard several cries from inside the vehicle and upon checking therein, he located two young children who were not previously noticed in the vehicle. SA [redacted] pulled both children from the burning vehicle. He severely injured his thumb upon cutting the one child out of its infant car seat to avoid the flames which consumed [redacted] vehicle.

b6
b7C

On 09/14/1999, the SIRG met to discuss the above-captioned shooting incident. Acting Chief Inspector [redacted] Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Division, USDOJ; [redacted] Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, NS-2A Unit, Global Section - NS-2, National Security Division; and, [redacted] Supervisor, Washington Field Office. The only nonvoting member present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

The SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the current deadly force policy. Members opined that SA [redacted] actions were most commendable, noting that his actions not only prevented the escape of a dangerous fugitive, but that he also risked serious injury upon his successful efforts to free the children from the flaming automobile. b6 b7C

SIRG members also addressed two additional issues. The first pertained to the need for a standard general operations plan by which WFO's various task forces should operate in the absence of a case-specific operational plan for each arrest situation. It was determined that the Violent Crimes Section, Criminal Investigative Division, should discuss this issue directly with the Criminal SAC at WFO to ensure that appropriate planning and safeguards were built into the numerous potentially violent arrest situations in which this division's task forces engage.

It was further decided that the Chief Division Counsel in the WFO would be contacted to ensure that these task forces were provided additional legal training in the area of third-party search warrants to preclude any future concerns in this regard. The Office of General Counsel's representative to the SIRG agreed to address this issue with WFO.

To: Inspection Division From: Inspection Division
Re: 297-HQ-A1271741-D, 09/22/1999

Details of the Shooting Incident

On 03/29/1999, SAs assigned to the Los Angeles Division responded to a call for assistance from Agents of the Defense Criminal Investigative Service (DCIS). DCIS Agents were surveilling a residence in Studio City, California, where they had source information that a federal fugitive, identified as [redacted] was located. [redacted] had a federal warrant issued from the District of Arizona charging him with numerous fraud violations. SAs [redacted] and [redacted] alerted the division's radio operator that they would respond to assist the DCIS Agents. b6 b7C

The first Agent to arrive at the scene was [redacted] who was advised by DCIS Agent [redacted] that he and the other FBI Agents would be assigned to watch the rear of an apartment where it was believed the subject was located.

While the two Agents were discussing the arrest plan, SA [redacted] saw a white male wearing a T-shirt and slacks walking in the alley behind the apartment towards them. SA [redacted] asked Agent [redacted] if the male walking towards them was his subject. As this individual came closer, Agent [redacted] identified the male as his fugitive and advised SA [redacted] that he was going to arrest him before additional backup units arrived. SA [redacted] walked to the rear of a black Jeep Cherokee into which [redacted] was about to enter. SA [redacted] exited his vehicle and began approaching the Jeep from another direction with his personally owned and Bureau-approved .40 caliber semi-automatic, Glock Model 27, weapon drawn.

SA [redacted] observed the subject who had opened the driver's side door of the Jeep as SA [redacted] identified himself as a Federal Agent and ordered his compliance. The subject put his hands up to the height of his shoulders and subsequently placed them down to his waistline. SA [redacted] heard SA [redacted] yell for the subject to show his hands and also observed SA [redacted] speaking on his hand held radio asking for the FBI Office to have additional police units respond to assist. b6 b7C

SA [redacted] saw the subject turn his head toward him and look as he advised [redacted] to get his hands up. The subject did not respond to the command and SA [redacted] advised the subject that he was with the police and he should put his hands up. Rather than comply with SA [redacted] commands, the subject placed his

right hand into his right front pocket area. SA believed that the subject was reaching for some type of weapon and continued to tell the subject to put his hands in the air. eventually removed his hand from his pocket area and leaned into the interior of his vehicle. He then reached towards the center console area and returned his hands to his side. suddenly sat down in the driver's seat of the Jeep, shut the door and locked it. SA went to the driver's side of the Jeep attempting to open the door and giving verbal commands to who continued to be noncompliant and remained somewhat stoic and seated therein. b6 b7C

With his weapon pointed at the subject, SA pounded on the passenger side window of the Jeep yelling at to open the locked door. placed his right hand into the right front pocket of his pants retrieving a cigarette and a lighter. At that point, SA noticed that Agent had moved into a position directly in front of the Jeep and also realized that the Jeep was running. Concerned that the subject would drive forward and strike Agent SA pounded on the passenger side window and yelled to the subject that if he drove forward he would shoot. A Los Angeles Police Department (LAPD) Officer arrived on the scene and with his baton smashed the Jeep's rear passenger window in an attempt to reach In response to this action immediately placed the vehicle in gear, and fully cognizant that SA was standing immediately in front of him, accelerated the vehicle forward in an effort to escape. Fearing for SA life, SA fired two shots at through the passenger side windows, however, continued his escape without striking SA He crashed into the driver's side door of another DCIS Agent as he successfully eluded investigators at this location.

thereafter led the FBI and LAPD units on a pursuit lasting approximately 25 minutes, attempting several times to strike units who were in pursuit. was eventually arrested when he rammed his Jeep into an unoccupied LAPD unit parked at the end of an alley near a storage facility. was taken into custody and provided initial medical treatment at the scene. He was subsequently transported to the Valley Presbyterian Hospital in Van Nuys where it was determined that he had received a through and through bullet wound in his right arm from the shot fired by SA b6 b7C

On 09/14/1999, the SIRG met to discuss the above-captioned shooting incident. Acting Chief Inspector

**Title:** ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
06/04/1999
PHILADELPHIA DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred in the Philadelphia Division on 06/04/1999. Special Agent (SA) [redacted] fired seven rounds from his nine millimeter semi-automatic pistol, injuring a fugitive attempting to evade arrest. SIRG members recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident. The discharge of his weapon was determined to be appropriate and justified, and in conformance with the FBI's deadly force policy.

**Reference:** Report of Assistant Special Agent in Charge Kevin L. Perkins, dated 07/09/1999.

**Details:** This communication was prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

b6 b7C

**Details of the Shooting Incident**

SA [redacted] a member of the Philadelphia Division's Violent Traffickers Project (VTP), received information on 06/02/1999, concerning the location of a subject identified as [redacted] and the fact that he was believed to be a wanted fugitive. [redacted] boasted to associates that he was wanted by the "feds" and that he had no intention of being captured. Information also indicated that [redacted] had been recently known to frequent Westminster Avenue in Philadelphia. Acting upon the information, members of the VTP began to conduct various records checks to determine the validity of the intelligence. It was determined that [redacted] was a federal fugitive, wanted by the Bureau of Alcohol, Tobacco and Firearms (BATF) based on an arrest warrant issued in the Eastern District of Pennsylvania. A BATF Agent confirmed that the warrant was active and advised that [redacted] was wanted for the possession of a firearm by a convicted felon and that [redacted] was known to carry a gun. b6 b7C

On 06/04/1999, at approximately 1:00 p.m., SA [redacted] received information indicating that [redacted] had just been seen entering a residence on Westminster Avenue. After learning that [redacted] had driven to the area in a late-model, red Pontiac Grand Am with New Jersey license plates, SA [redacted] immediately notified his supervisor and the BATF case Agent of the sighting. After being advised by the BATF Agent that he was on leave but would attempt to respond to the location, SA [redacted] supervisor decided the VTP Squad should prepare for and make the arrest. Supervisory Special Agent (SSA) [redacted] gathered members of the VTP Squad for a briefing regarding the operations plan and they were provided a photograph of the subject. At the conclusion of the meeting, members of the squad departed the office en route to Westminster Avenue. b6 b7C

SSA [redacted] and SA [redacted] were the first to arrive in the vicinity of the location. They immediately observed a red, late-model Pontiac Grand Am with New Jersey license plates parked facing east. SSA [redacted] advised other responding units of this information via his Bureau radio and directed a second car arriving in the area to take a surveillance position east of the subject vehicle.

Immediately upon initiating the surveillance of [redacted] vehicle, SA [redacted] again contacted the BATF case Agent and he advised that he was approximately five blocks from the surveillance location and that six other BATF Agents were en route to the scene. SSA [redacted] advised participants that upon

the arrival of the BATF Agents, the FBI would assume an outer perimeter position and the BATF would effect the arrest of [redacted] inasmuch as he was the subject of a BATF-led investigation.

As SA [redacted] completed his conversation with the BATF case Agent, another SA radioed that he observed [redacted] exit a residence on Westminster Avenue and move toward the red Grand Am as if he was going to enter the vehicle. With this information, and based on the subject's history of high-speed chases, SSA [redacted] gave the order to execute the arrest. SSA [redacted] directed SA [redacted] to move his vehicle into a blocking position to the rear of the subject's vehicle and directed two other SAs to block the subject's vehicle from the front. b6 b7C

SA [redacted] immediately moved his vehicle toward the subject's vehicle, stopping at the left rear of the car in a blocking position. He noted that [redacted] was already in the driver's seat and the reverse lights were on. SA [redacted] exited his vehicle, drew his nine millimeter semi-automatic pistol, moved to the left of his car, and shouted several times, "FBI, hands up." [redacted] looked directly at SA [redacted] through the open driver's side window but did not comply with the commands. The subject's vehicle quickly accelerated forward out of the parking space. As he entered the driving lane, [redacted] drove directly toward SAs [redacted] and [redacted] made a hard left turn to avoid their attempt to block his escape, driving his vehicle across Westminster Avenue and onto the sidewalk. He continued driving his car on the sidewalk, passing between a utility pole and a hedge. SA [redacted] continued to shout "FBI, stop the car, hands up." [redacted] continued around the utility pole until he was facing southwest and drove off the sidewalk back into the middle of the street where he accelerated directly at SA [redacted] who was still standing in that location. SA [redacted] fearing for his safety, aimed his pistol at the subject and fired seven shots as [redacted] car sped past him. b6 b7C

After passing SA [redacted] vehicle glanced off another car parked at the curb and continued onto the sidewalk where he collided into a building. The impact of the collision was such that [redacted] car bounced backwards before it came to a stop. [redacted] was transported to the University of Pennsylvania Hospital where he was treated for a bullet wound to the upper left portion of his back. Following treatment for this wound, [redacted] was immediately detained based upon his fugitive status.

On 09/14/1999, the SIRG met to discuss the above-captioned shooting incident. Acting Chief Inspector

[redacted] Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Division, USDOJ; [redacted] Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Herbert Cousins, Jr., Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, NS-2A Unit, Global Section - NS-2, National Security Division; and, [redacted] Supervisor, Washington Field Office. The only nonvoting member present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

b6
b7C

The SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the FBI's deadly force policy.

Synopsis: The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred in the Indianapolis Division on 07/12/1999. Special Agent (SA) [redacted] fired one round from his Smith and Wesson, ten millimeter pistol, injuring a subject who was pointing a gun at him as he was attempting to evade arrest. Subsequent investigation determined that the subject had shot and injured two other individuals prior to his encounter with SA [redacted] SIRG members determined that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy. It was recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Re: 297-HQ-A1271510-D, 09/24/1999

Details of the Shooting Incident

On 07/12/1999, while on official duty in his Bureau vehicle, SA [redacted] was traveling westbound on East Washington Street in Indianapolis, when he heard several gunshots. SA [redacted] observed several individuals running for cover near an intersection at the location of a major shopping mall. He observed a young Black male, later identified as [redacted] running from the vicinity. Believing that [redacted] was fleeing from the scene of a crime, SA [redacted] immediately began a foot pursuit, chasing [redacted] through an alley into a nearby parking garage. b6 b7C

Upon entering the parking garage, SA [redacted] observed [redacted] crouched down approximately ten yards from him. He observed [redacted] placing several items on the ground, and as the subject turned and saw SA [redacted] he was holding a weapon in his hand. [redacted] pointed the weapon at SA [redacted] who stated, "Police, drop the gun." The subject did not comply with SA [redacted] commands, turned away from him and then began to turn his body toward SA [redacted] leaving his crouched position again pointing his weapon in the direction of the Agent. SA [redacted] fired one round at [redacted], hitting him in the upper left leg. Commands were repeated to [redacted] advising him to drop the gun and he did so by placing the gun on the concrete floor. After obeying SA [redacted] order to slide the weapon away from him, SA [redacted] approached the subject, conducted a cursory pat down for other weapons and noticed that [redacted] had been shot in the leg. SA [redacted] advised witnesses and a garage attendant to notify the police and send for an ambulance, which arrived approximately two minutes later. [redacted] was handcuffed and subsequently charged by local authorities with attempted murder, criminal recklessness, and theft, and by Federal authorities with Assaulting a Federal Officer. b6 b7C

A subsequent investigation determined that the subject had shoplifted a pair of shoes and as he attempted to leave the store, he was confronted by store employees. [redacted] fired several shots at Loss Prevention Officer [redacted] who suffered a gunshot wound in the upper left shoulder. After disengaging himself from the officer [redacted] began to walk away, turned back toward [redacted] and fired another shot which struck a passerby in the leg.

On 09/14/1999, the SIRG met to discuss the above-captioned shooting incident. Acting Chief Inspector

Re: 297-HQ-A1271908-D, 06/14/2000

**Details of the Shooting Incident**

On 07/08/1999, Stan Lee foster walked away from a work release program at the Promontory Correctional Facility, resulting in an arrest warrant being issued the following day by the State of Utah. On the day of his escape, two banks in the Salt Lake City area were robbed by a lone white male subject.

SA [redacted] received information from a confidential informant that Stan Foster committed at least one of the bank robberies on 07/08/1999. The informant advised SA [redacted] that Foster was armed and routinely carried a weapon. SA [redacted] also received information from a Murray Police Department Detective that a teller at the First Security Bank of Murray had positively identified Foster from a photo spread as the bank robber.

b6
b7C

Subsequent information revealed that Foster was using drugs and frequented gay bars in the Salt Lake City area. Specific information had been received that Foster had been in a bar called "Bricks" the previous night and also identified a vehicle that Foster may be using.

On 07/15/1999, the FBI Violent Crimes Task Force (VCTF) was working an unrelated fugitive case in addition to the Foster investigation. At approximately 9:00 p.m., surveillance on the unrelated fugitive investigation was terminated due to the fact that members of the VCTF believed they had been compromised. Surveillance personnel returned to a staging area near the surveillance scene and volunteers were requested to stay to assist on the Foster investigation. SA [redacted] provided the volunteers a briefing regarding Foster detailing that the subject was a prison escapee who had been identified in at least one bank robbery. SA [redacted] advised that Foster had displayed a weapon in one robbery and that VCTF members should consider him "Armed and Dangerous." Bank robbery surveillance photographs and arrest photographs of Foster were shown to the VCTF members.

At the conclusion of the briefing, personnel departed with the objective of locating Foster's vehicle and possibly

making contact with the "Bricks" bar management to determine if Foster had patronized the bar.

SA [redacted] departed the briefing location and as he drove past "Bricks", spotted an individual he believed to be Foster next to a pickup truck. As he passed the bar a second time, SA [redacted] obtained the license plate number of the truck and called for a license check. Receiving a negative response on the license plate, [redacted] drove by the bar a third time observing the same individual. He radioed other surveillance units and advised that the subject in the area of the bar might be Foster.

b6
b7C

Upon the arrival of SA [redacted] and Deputy United States Marshal (DUSM [redacted] at the scene, a determination was made that the individual was indeed Foster and his arrest should be effected. This determination was based on the fact that there were few bystanders, the area was well lit, and Foster was out of his vehicle. Additionally, a concern existed that Foster may have recognized the law enforcement officials and would attempt to flee.

DUSM [redacted] and SA [redacted] parked their vehicles south of the subject's vehicle and began approaching Foster. As they approached, Foster opened his driver's side door. DUSM [redacted] took a position of cover near the passenger side rear wheel of Foster's truck while SA [redacted] took cover at the back of a vehicle parked north of the subject's truck. DUSM [redacted] drew his weapon, pointed it at Foster, and yelled, "Police. Get your hands up." SA [redacted] drew his weapon, pointed it at Foster, and yelled, "FBI. Get your hands up." Foster looked at SA [redacted] and put his hands in the air. SA [redacted] also commanded Foster to "go down on the ground." Foster turned away from both officers with his back facing them. Foster slowly and deliberately lowered his right hand toward his waist. DUSM [redacted] and SA [redacted] yelled at Foster to, "Get your hands up." Both officers repeated the command at least three times, however,

b6
b7C

Foster ignored all commands. Believing that he and DUSM [redacted] were in imminent danger, SA [redacted] fired two rounds from his handgun.

Emergency Medical Services were requested and attempted to revive Foster at the scene. He was transported to a local hospital where he was pronounced dead on arrival.

b6
b7C

Several witnesses to the incident verified the actions of SA [redacted] and DUSM [redacted] commenting that the law enforcement officers had no other alternative but to shoot due to the noncompliance of the subject to law enforcement commands.

Declinations of prosecution were received from the Salt Lake County District Attorney's Office and the USDOJ, Civil Rights Division, by letters dated 11/26/1999 and 03/13/2000, respectively.

On 06/13/2000, the SIRG met to discuss the above-captioned shooting incident. Deputy Assistant Director Thomas Bernard Locke, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Deputy Chief, Civil Rights Division, USDOJ; Donald J. Bartnik, Section Chief, Personnel Assistance Section, Administrative Services Division; Charles H. Middleton, Section Chief, East Asia Section - NS-3, National Security Division; [redacted] Unit Chief, Undercover Safeguard Unit, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Legal Advice and Training, Legal Policy, Office of the General Counsel; Supervisory Special Agent (SSA) [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; SSA [redacted] Program Manager, Practical Applications Unit, Training Division; and, SSA [redacted] Washington Field Office. The only

b6
b7C

nonvoting member present was [redacted]
Management/Program Analyst, Office of Inspections, Inspection Division. b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

SIRG members thoroughly discussed this shooting incident and unanimously agreed that the use of deadly force by SA [redacted] was justified and in conformance with the current deadly force policy. Members recommended that no administrative action be taken against him as a result of his involvement in this shooting incident.

Re: 297-HQ-A1271786-D, 04/28/2000

Details of the Shooting Incident

A Federal warrant was issued on 01/28/1999, in the Southern District of New York, charging Hector Colon with Interstate Transportation in Aide of Racketeering-Murder. The Connecticut Violent Crimes Fugitive Task Force (CVCFTF), under the auspices of the New Haven Division, had been coordinating efforts with the New York Division to locate and apprehend Colon.

On 09/28/1999, SA [redacted] displayed an identification order (IO) to a source who recognized Colon as someone known as "Jose". On 09/29/1999, the source observed "Jose" with a black .38 six-shot revolver and subsequently provided information that established the basis to conduct a surveillance on potential locations frequented by Colon. b6 b7C

On 10/04/1999, Supervisory Special Agent (SSA) [redacted] met with SAs as well as other task force members to discuss the developments in the Colon case. SSA [redacted] instructed the SAs to prepare an operational plan. The task force members were instructed to conduct a surveillance to corroborate the source information and determine the location of Colon in order to formulate an arrest plan and affect his arrest.

On 10/05/1999, a briefing was conducted at the Bridgeport Police Department for all the individuals assigned to participate in that day's surveillance activity. Each individual attending the briefing was provided with a copy of the IO and a photograph of the subject. They were advised that the subject was considered armed and dangerous; he was extremely surveillance conscious; and provided specific information to emphasize that Colon was considered extremely dangerous. A surveillance was conducted until 12:00 p.m., at which time it was terminated for the day.

On 10/06/1999, members reconvened at the Bridgeport Police Department where statements were reiterated for the benefit of one officer who had not attended the briefing the previous day. At approximately 10:20 a.m., the units were in their assigned locations, and at approximately 10:45 a.m., SA [redacted] and Deputy United States Marshal (DUSM) [redacted] observed an individual, thought to be Colon, exit a Central Avenue address and depart the area in a blue Honda Prelude. SA [redacted] radioed a description of the clothing worn by the individual as well as a vehicle description. A radio transmission indicated that the individual believed to be Colon had been seen and it was believed that he was in possession of a b6 b7C

gun. During this time, the source was visited by Colon and upon his departure, the source advised that Colon left the location in a blue, two door, Honda.

The surveillance team, believing they had a positive identification of the subject, discussed attempting an arrest should the subject return and park adjacent to them as he had before. At 12:25 p.m., SA [redacted] advised that the subject had returned to the Central Avenue location. SA [redacted] and DUSM [redacted] decided to attempt the arrest. SA [redacted] waited to exit the van until the subject cleared his vehicle. Upon exiting the van, SA [redacted] commanded "FBI, stop" and other words that he could not recall. According to SA [redacted] the subject moved his left hand quickly toward his waist area in a grabbing motion, causing SA [redacted] to fire one shot. The subject pivoted and ran in front of the van toward Central Avenue, causing [redacted] to temporarily lose sight of him. As the Agent reestablished visual contact with [redacted] the subject was about a car length away moving toward Central Avenue with his upper torso twisted toward SA [redacted] The subject's left arm was cocked, with his elbow bent and his left hand in the area of his waist, not visible to SA [redacted] The subject's left arm/elbow was moving back and forth and SA [redacted] observed the subject's left arm and body tense causing him to believe the subject had a gun in his waistband and that he was reaching for the gun. At that point, SA [redacted] fired two additional rounds at the subject. Colon moved toward Central Avenue a little further, then turned toward SA [redacted] and raised both of his hands over his head. SA [redacted] advised the subject to stop and get down. DUSM [redacted] exited the van, ran towards the subject, and issued the command of "police, get down". The subject looked at DUSM [redacted] and dropped to the pavement spreading himself face down. The subject was handcuffed and searched for weapons or contraband while still face down on the pavement. Based on a radio transmission from SA [redacted] additional units had arrived on the scene and assisted in rolling the subject onto his back in order to complete the search. Law enforcement officers noticed blood and called paramedics. Paramedics transported the subject to the hospital where he underwent surgery; however, Colon was pronounced dead at 2:17 p.m. Members of the surveillance team and the paramedics observed a cell phone and two pagers on the subject's waist immediately after the shooting. No weapon was recovered from the crime scene.

b6
b7C

b6
b7C

An autopsy determined that one bullet entered the subject's body from the rear, approximately three inches to the left of the spine and exited the front of the torso at center sternum.

The only non-voting member present was [redacted] Program and Management Analyst, Office of Inspections, Inspection Division. b6 b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above-synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues; and (4) provide recommendations for administrative action if deemed necessary.

During the discussion of this shooting incident, SIRG members unanimously opined that the use of deadly force by SA [redacted] was justified and in conformance with the deadly force policy. By letter dated 12/27/1999, a declination of prosecution was issued by [redacted] State's Attorney, Office of the State's Attorney, Bridgeport, Connecticut. Additionally, by letter dated 03/02/2000, the U.S. Department of Justice, Civil Rights Division, provided a declination of prosecution regarding SA [redacted] shooting incident. b6 b7C

The only observation made regarding the shooting incident pertained to the fact that SA [redacted] created a one-on-one arrest situation when he exited the van alone, leaving DUSM [redacted] inside the van. Members emphasized that this action was not conducive to the Agent's safety.

SHOOTING INCIDENT
11/16/98
NEW YORK DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred in the New York Division on 11/16/98. Special Agent (SA) [redacted] shot and injured a pit bull dog who was attacking a ten year old child and his Rottweiler. The SIRG recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

b6
b7C

**Details:** Reference report of Special Agent in Charge (SAC) Carson J. Dunbar, Jr., dated 1/5/99.

This communication is prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

1 - Mr [redacted] Quantico
1 - Mrs [redacted] Rm. 7861

**Details of the Shooting Incident**

On 11/16/98, SAs [redacted] and [redacted] were conducting an investigation in Brooklyn. After contacting an individual regarding the investigation, both agents exited an apartment building and entered a Bureau vehicle that was parked across the street. SA [redacted] saw a woman standing with a pit bull on a leash with a collar. He also noticed a young male walking a Rottweiler on a leash with a collar. The young male walked past the pit bull and stopped further down the block. At that time, SA [redacted] saw the pit bull get out of his collar and run toward the child. The pit bull jumped up in an extremely aggressive manner and pinned the child against a brick wall and the two dogs began to fight. At that point, SA [redacted] exited his Bureau vehicle and proceeded toward the child and the dogs. In an attempt to stop the attack, SA [redacted] sprayed both dogs several times with a can of pepper spray. Neither dog was affected by the pepper spray and continued to fight while SA [redacted] ordered the owner of the pit bull to get her dog under control; however, the owner refused. SA [redacted] turned his attention back to the dogs and saw the child attempting to control the pit bull by hitting it with a leash. As the pit bull knocked the child to the ground and began attacking him, the Rottweiler attempted to aid his owner. This caused the pit bull to again attack the Rottweiler. Concerned that the pit bull was controlling the attack and fearing for the safety of himself and others watching the event, SA [redacted] drew his pistol and fired one round into the upper chest area of the pit bull. Upon being shot, the pit bull immediately ceased the attack and retreated toward the front of an apartment building. SA [redacted] then convinced the owner of the pit bull to leash the dog and return him to the sidewalk area.

b6
b7C

A determination was made that, although he was in good condition, the young male had incurred wounds to his hands and was taken to the hospital by his mother.

b6
b7C

On 3/9/99, the SIRG met to discuss the above captioned shooting incident. Deputy Assistant Director Thomas Lusby, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: Dana D. Biehl, Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Assistance Section, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Thomas W. Richardson, Section Chief, Administrative Section, Criminal Investigative Division;

Title: SHOOTING INQUIRY;
REPORT OF SHOOTING INCIDENT;
MEMPHIS DIVISION;
NOVEMBER 6, 1998;

Character: ADMINISTRATIVE INQUIRY

Synopsis:

During March 1998, the cities of Memphis and Nashville, Tennessee, began to experience a series of bank robberies. By September 1998, it became apparent to the Violent Crimes Task Force (VCTF) in Nashville that the robberies were being perpetrated by the same individuals since the modus operandi (MO) was very similar in all the incidents. Prior to September, six banks in Memphis and two banks in Nashville had been robbed. The MO involved two black males driving to the banks, usually in a vehicle which was stolen within 24 hours prior to the robberies. The subjects wore ski masks and flannel shirts and were armed with handguns. One subject entered the banks and the other acted as the getaway driver. The VCTF decided to initiate fixed surveillances at two area banks, both of which were located near the SunTrust Bank, 4604 Charlotte Avenue, which had been robbed in July and August 1998. A surveillance/arrest plan was prepared prior to the operation. These surveillances were conducted over several days in late September but were discontinued. On October 15, 1998, the same SunTrust Bank was once again robbed. During two of the three SunTrust robberies, the subject fired shots into the ceiling and briefly took a bank guard hostage during the October robbery. In addition, on some occasions the subjects assaulted employees and customers.

Due to the continuing pattern of robberies and escalating violence during the incidents, the Nashville

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

and Memphis VCTFs began another series of surveillances on October 19, 1998. Unlike the September surveillances in Nashville, these surveillances involved officers from the Nashville Metropolitan Police Department (NMPD) as well as members of the VCTF. Again, a surveillance/arrest plan was prepared prior to the operation. At approximately 8:30 a.m. on Friday, November 6, 1998, a morning briefing was held at the Pep Boys parking lot, located in the general area in which the surveillances were to take place. This briefing was led by Task Force Officer [redacted] who provided pertinent information and made assignments for the surveillances. It was noted during the briefing that the previous day NMPD Officer [redacted] was working at NationsBank, 6616 Charlotte Avenue, as a security guard. Officer [redacted] reported seeing two suspicious black males drive through the parking lot in a gold automobile. The briefing ended at approximately 8:45 a.m. and team members were dispatched to their respective locations. The surveillance was scheduled to terminate around 11:00 a.m. since the previous robberies were before this time.

b6
b7C

Eleven law enforcement officers participated in the surveillances on November 6. Two are FBI Agents not assigned to the VCTF (Special Agents [SAs] [redacted] and [redacted]). Two are deputized VCTF members (Tennessee Highway Patrol Officer [redacted] and NMPD Officer [redacted]). The remaining seven are assigned to the NMPD's Armed Robbery Division (Detectives [redacted] and [redacted] Sergeant [redacted] and Officer [redacted]). It is noted that each FBI SA is a member of the Memphis Division's SWAT Team and SA [redacted] is a Bureau Firearms Instructor.

One of the banks under surveillance on November 6 was the NationsBank noted above. SAs [redacted] and [redacted] were in a Bureau vehicle located in a parking lot just east of the bank. SA [redacted] was the driver. Each SA was equipped with a bullet proof vest, a handgun and an MP-5 submachine gun (10 millimeter). Detective [redacted] was in his NMPD car in the parking lot near the FBI vehicle. He was armed with a .40 caliber Glock pistol. Detective [redacted] was parked behind the McDonald's, located immediately to the west of the bank. He had a .40 caliber Glock pistol and also had a shotgun in his car. In addition to these SAs and detectives who were participating in the NationsBank surveillance, an off-duty NMPD officer, [redacted] was working as a security officer inside the bank. Officer [redacted] was also armed with a .40 caliber Glock pistol. It is noted that Officer [redacted] was aware of the series of robberies

b6
b7C

in Memphis and Nashville and was specifically aware of the surveillance outside the bank that morning.

At just before 10:00 a.m., members of the NationsBank surveillance team observed a blue Oldsmobile with a broken rear vent window pull into the bank parking lot and pass between the bank and the FBI vehicle located just to the east. A check of the license plate by the surveillance team revealed that the vehicle was one of the stolen cars team members had been briefed about earlier that morning. SA [redacted] determined the driver was a black male. The Oldsmobile took a circuitous route through an adjacent parking lot and eventually reentered the bank parking lot from Charlotte Avenue. The vehicle pulled up directly in front of the bank and faced toward the front door. A black male wearing a ski mask and flannel shirt was observed exiting the passenger door of the car and running into the bank. SA [redacted] and Detective [redacted] also noticed that the man was carrying a handgun. This subject was later identified as Raymond Augustine Hawkins. At this point SA [redacted] and Detective [redacted] notified the other units that a bank robbery was in progress. b6 b7C

As noted above, Officer [redacted] was inside the bank. He saw Hawkins run into the bank through the front door. He observed him with a gun in his left hand. As he was moving away from a desk to confront Hawkins, he tripped and fell on his back facing the front door. While Officer [redacted] was still on the ground, Hawkins grabbed the front of his shirt, placed the gun to his chest/shoulder area, and fired. Officer [redacted], who drew his own weapon as he was falling, then shot Hawkins three times in the chest area. The subject ran back toward the front door and Officer [redacted], thinking he might reach the parking lot and hurt someone else, fired at him again. Hawkins ran out of the bank and SA [redacted] observed him collapse "like a sack of bricks" on the walkway leading to the front door. As the car windows were up in the Bureau vehicle, neither SA [redacted] nor SA [redacted] heard the gunshots inside the bank. However, Detective [redacted] did hear the gunshots.

When Hawkins collapsed in front of the bank, Detective [redacted] who had already taken cover behind a light pole, turned his attention toward the driver of the Oldsmobile. As the car was backing away from the bank, Detective [redacted] left his position of cover and moved toward the vehicle, shouting "police, police, freeze, show me your hands, police." It is noted that several witnesses heard the detective giving similar commands. The driver continued to back up, ducked down in his seat and raised up. Detective [redacted] who heard the gunshots inside b6 b7C

the bank and knew of the escalating violence in the previous robberies, believed the driver had a weapon and was going to shoot him as he raised up. He therefore fired one round through the driver's window at the subject, later identified as [redacted] The Oldsmobile was then moving forward toward McDonald's. Detective [redacted] again shouted "police" but [redacted] instead of stopping, ducked back down inside the vehicle. He then fired several more shots into the car. He also noticed the FBI car behind [redacted] vehicle and heard one of the SAs fire a shot.

b6
b7C

After SA [redacted] saw Hawkins fall down in front of the bank, he observed [redacted] car backing up. He saw Detective [redacted] running to intercept the vehicle and heard him issue a series of commands to the driver. He then saw the car go slowly forward toward McDonald's with the detective still chasing it. At this point the FBI vehicle moved into position directly behind [redacted] car. SA [redacted] observed [redacted] "twisting in his seat" and felt he was doing something "out of the ordinary." He heard gunfire and knew Detective [redacted] was shooting at the driver. He also thought [redacted] was shooting at the detective from the way he was twisting in his seat. The fact that [redacted] car was moving slowly made him think [redacted] was trying to shoot the detective rather than get away. SA [redacted] also realized that Detective [redacted] had no cover and was totally exposed to the driver. With both cars still moving, SA [redacted] opened the passenger door and placed his MP-5 submachine gun between the door post and the door. In order to protect Detective [redacted] he fired a two-shot burst from the MP-5 at [redacted] through the rear window of the Oldsmobile. [redacted] car stopped and SA [redacted] saw SA [redacted] and Detective [redacted] securing [redacted] No weapon was found on [redacted] or in his vehicle. SA [redacted] then ran to Hawkins, who was lying face down with a gun in his hand. He pushed the gun away and handcuffed him. He noted that other officers were by then on the scene and were caring for Officer [redacted] outside the bank.

b6
b7C

Neither SA [redacted] nor Detective [redacted] fired their weapons during the incident. SA [redacted] remained in the driver's seat of the FBI vehicle until getting out to secure [redacted] following the shooting. Detective [redacted] upon learning that the robbery was occurring, drove his vehicle to a point on the west side of the bank where he could observe the parking lot in front of the bank. He placed his shotgun over the door of his car but did not shoot since Detective [redacted] was in his line of fire.

During an interview at the jail, [redacted] stated he did participate in the bank robbery with Hawkins. [redacted] advised he [redacted] stayed up all night before the robbery smoking crack cocaine and drinking gin. Upon hearing the shots inside the bank, he "freaked out" and did not know what he did inside the car. As he was driving the getaway car away from the bank, he recalled being shot at through the windows of his vehicle and being arrested after his car came to a stop. b6 b7C

Officer [redacted] was hospitalized with one gunshot wound to the shoulder from a .22 caliber revolver. He was released after a short stay in the hospital and is expected to make a full recovery. [redacted] was also hospitalized for a short time with a gunshot wound to the face. The bullet was removed and ballistics tests revealed that he was shot by a .40 caliber rather than a .10 millimeter projectile. Hawkins was pronounced dead at the scene.

Both Hawkins and [redacted] have lengthy criminal histories, including crimes of violence. For example, in 1987 Hawkins was sentenced to 15 years confinement for Robbery With a Deadly Weapon. [redacted] was convicted of Aggravated Assault and Carrying a Deadly Weapon in 1985.

[redacted] was initially arrested on local charges pertaining to the NationsBank robbery. On November 12, 1998, a federal complaint was filed and an arrest warrant was issued by U.S. Magistrate Judge William J. Haynes, Jr., Middle District of Tennessee, Nashville, Tennessee, charging [redacted] with bank robbery.

The bank robbery investigation is being conducted by the VCTF. The shooting incident is being handled at the local level by Detective [redacted] of the NMPD's Homicide Division. Memphis Division Acting Supervisory Special Agent [redacted] notified FBIHQ of the shooting incident shortly after it occurred. On November 6, 1998, the FBI's Inspection Division assembled and dispatched a Shooting Incident Review Team under the direction of Inspector-in-Place [redacted] of the Little Rock Division. b6 b7C

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
PHOENIX DIVISION
JULY 4, 1998

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis:

On 7/4/98, FBI agents and officers from the Phoenix Police Department (PPD) who were assigned to the Phoenix Fugitive Task Force (PFTF) shot and killed William John Sershon, DOB 2/17/67, while they were attempting to arrest him. Sershon was being sought on a warrant charging him with murder and burglary. The warrant was issued on 7/1/98 in Flagstaff, Arizona for a homicide which occurred in connection with a 6/23/98 carjacking which was being jointly investigated by the FBI's Flagstaff Resident Agency (RA) and the Flagstaff Police Department. Sershon, who had a lengthy criminal record going back to 1986, was also being sought on felony drug and weapons charges brought by Phoenix Police Department (PPD).

The PPD had recently attempted to arrest Sershon, but he had eluded them and fled to an apartment complex where he broke into an apartment and hid. When the female occupant of the apartment returned home, Sershon assaulted her at gun point, then fled the apartment and left the area in a highjacked vehicle. On 6/23/98, Sershon and an accomplice/girlfriend, [redacted] highjacked a motor home belonging to Melvin Dean Radtke in the vicinity of Flagstaff, Arizona. Radtke either was pushed or jumped from the vehicle and was run over by the vehicle and killed.

[redacted] turned herself in and on 7/2/98 was

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

debriefed by FBI agents and police officers. [redacted] advised that Sershon would return to Phoenix over the weekend. She also advised that Sershon was armed with a .357 magnum revolver and a fully automatic AK-47 style assault rifle. [redacted] also advised that Sershon told her that he would not be taken alive and would not be sent back to prison. She also advised that Sershon would shoot it out with anyone who attempted to arrest him. Interviewing agents and officers noted that it was believed that a Smith and Wesson Model 686 ,357 magnum was taken from the carjacking victim. All of the information provided by [redacted] was provided to members of the PFTF who had been asked to assist in the location and apprehension of Sershon. b6 b7C b7D

[redacted] and members of the PFTF were able to trace a telephone number. The number came back to a Glendale, Arizona trailer park. Initially, three members of the PFTF, PPD Lt. [redacted] and Detectives [redacted] and [redacted] responded to the trailer park. At some time after 4:30 AM, they saw an individual they believed to be Sershon. They were joined by FBI SAs [redacted] and [redacted] and PPD Detective [redacted] PFTF personnel blocked off the front entrance to the trailer park and called the Glendale Police Department (GPD) and requested that marked units respond to the scene. Additional FBI agents were also requested to respond.

At approximately 5:45 AM, while PFTF personnel were finalizing an arrest plan and preparing to set up, Sershon was observed exiting the trailer where he was staying and getting into a blue 1998 Pontiac Sunfire. He was observed carrying a black bag which was about the size of a shaving kit. [redacted] who was staying at the trailer, later advised that Sershon was carrying a .357 magnum revolver next to the bag. Sershon drove through the trailer park and, as he was approaching the front entrance, was cut off by vehicles driven by PFTF personnel. Vehicles driven by FBI SA [redacted] and PPD Det. [redacted] (accompanied by FBI SA [redacted] blocked Sershon's escape route from the front; a vehicle driven by PPD Det. [redacted] blocked Sershon from the rear. Sershon attempted to escape by rapidly making a U-turn to his right. He ran into a nearby trailer. He quickly backed up and attempted to ram through a fence that marked the perimeter of the trailer park. His vehicle was unable to penetrate the fence and came to rest as it struck a storage shed on the other side of the fence. b6 b7C

Several of the PFTF personnel approached Sershon's

vehicle. The PFTF members were all wearing clothing that identified them as law enforcement personnel. Several shouted surrender commands. In response to the surrender commands, Sershon stated that he would not be taken alive and crouched down as if to reach into the floorboard area of his vehicle. PFTF members also heard Sershon make a statement to the effect that if they did not kill him, he would kill himself. When PPD Det. [redacted] observed Sershon come up with a weapon in his hand, he fired his Glock .40 caliber semi-automatic pistol. FBI SA [redacted] fired his Heckler and Koch MP-5 10mm carbine and FBI SA [redacted] fired his Colt M-4 A1 .223 caliber carbine. Several rounds struck Sershon, who was pronounced dead at the scene by Glendale Emergency Response personnel.

Glendale PD and Phoenix PD responded to the scene along with Phoenix FBI personnel including Acting SAC Mark Bullock and ASAC Ray Churay. Glendale PD conducted the crime scene assisted by FBI Evidence Response Team Coordinator [redacted]. A Smith and Wesson Model 686, .357 magnum, Serial #AYY9803, was recovered form the passenger compartment of Sershon's vehicle. The weapon's serial number was run through NCIC and determined to be stolen from Melvin Dean Radtke, the victim of the 6/23/98 carjacking/homicide that Sershon was charged with.

b6
b7C

The Inspection Division assembled and dispatched a Shooting Incident Review Team under the direction of IIP [redacted] of the Las Vegas Division.

To: Inspection Division From: Inspection Division
Re: 66-19157-03, 11/18/1998

Details of the Shooting Incident

SA [redacted] was at his residence on 8/22/98, when he noticed his neighbor, SA [redacted] of the Washington Field Office, staring into his back yard. SA [redacted] exited his residence and was advised by SA [redacted] that he had noticed a raccoon traversing his back yard and then entering SA [redacted] yard.

b6
b7C

Noting that it was midday, SAs [redacted] and [redacted] observed the raccoon stagger through SA [redacted] yard en route to the front yard where several children were playing. SA [redacted] attempted to delay the raccoon from going to the front yard while SA [redacted] placed a phone call to Anne Arundel County, Maryland, Animal Control Officers. During the phone call, SA [redacted] was advised that there was only one animal control officer on duty in the county and it would be an extended period of time before he would be able to respond to SA [redacted] residence.

SA [redacted] and SA [redacted] attempted to trap the raccoon in a box to prevent it from coming into contact with neighborhood children or domestic animals. After several failed attempts, the raccoon became more aggressive. While the Agents followed the raccoon, a neighbor placed another call to the Animal Control Officers with negative results. When containment of the raccoon proved to be impossible, SAs [redacted] and Watt forced the raccoon into a safe location. SA [redacted] shot and killed the raccoon by firing four rounds from his P228 nine millimeter pistol.

b6
b7C

SA [redacted] immediately contacted the Anne Arundel Police Department and advised the dispatcher of his identity and the purpose of the call. He was advised that no police would be dispatched to his residence and that no report would be taken.

The Agents placed the carcass of the raccoon in a box and delivered it to the Animal Control Center for rabies testing. The Baltimore Division was subsequently advised that the raccoon was infected with the rabies virus.

On 10/14/98, the SIRG met to discuss the above captioned shooting incident. Deputy Assistant Director Thomas

Lusby, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: Mark J. Mershon, Chief Inspector, Office of Inspections, Inspection Division; [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Personnel Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, NS-2B, National Security Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The two non-voting members present were [redacted] Unit Chief, Investigative Law Unit, Office of General Counsel, and [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that this shooting incident involved an intentional discharge of SA [redacted] weapon. There were no issues related to this incident and SIRG members unanimously concurred that no action should be taken against SA [redacted] as a result of his involvement in this shooting incident.

Title: SHOOTING INCIDENT
PHILADELPHIA DIVISION
PHILADELPHIA, PA
SEPTEMBER 1, 1998

Character: SHOOTING INCIDENT

Synopsis: Summary of shooting incident on 9/1/98 at Walt Whitman Rest Area pursuant to the arrest of [redacted] and [redacted]

- P -

DETAILS:

On 2/12/97, Camden County Parks Police Officer [redacted] was shot while in his patrol vehicle as he responded to the sound of gunfire on Fremont Street at Camden, New Jersey (NJ). Subsequent investigation by the Camden County Prosecutor's Office (CCPO) determined that [redacted] also known as (aka) [redacted] and [redacted] shot Officer [redacted] as they fled from the scene of the attempted robbery and murder of Carlos Rosario in Camden, NJ. [redacted] and [redacted] were indicted by a Camden County Grand Jury in the shooting and [redacted] was arrested by county authorities. [redacted] later admitted to being present at the scene when [redacted] shot Officer [redacted] An Unlawful Flight to Avoid Prosecution (UFAP) warrant was subsequently obtained in the District of New Jersey and an investigation initiated by the SJRA to locate and arrest [redacted] was profiled twice on "America's Most Wanted" and was Camden County's most wanted fugitive.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

During the period of 7/19/97 to 5/23/98, the SJRA initiated several investigations relating to a series of armed bank robberies committed at the CoreStates Bank, Woodlynne, NJ, the Commerce Bank, Cherry Hill, NJ and the Commerce Bank, Moorsetown, NJ. The suspects, believed to be Hispanic males, wore ski masks, gloves, and what appeared to be bulletproof vests during the robberies. They also carried automatic assault type weapons. [redacted] and [redacted] and [redacted] were identified as the primary suspects in the CoreStates Bank robbery and it is believed they are responsible for the other two robberies.

A review of the New Jersey Criminal History records for [redacted] and [redacted] and [redacted] reflect numerous arrests and charges relating to homicide, aggravated assault, possession of firearms and drug possession and distribution. Both [redacted] and [redacted] were convicted in separate felony homicide matters. In addition to the charges relating to the shooting of Camden County Parks Officer [redacted] was convicted for carrying a prohibited weapon and possession of a weapon. Further, he has numerous aggravated assault and homicide arrests. Clearly, the propensity for violence by these subjects, to include significant armed hostility directed at law enforcement officers by [redacted] has been well documented.

b6
b7C

During August 1998, a confidential source who was willing to provide information regarding the whereabouts of [redacted] was developed through law enforcement contacts by SA [redacted] Initial information provided by the source regarding [redacted] background and family members was accurate. The source was directed to contact [redacted] to develop further information regarding the location of [redacted]

Based upon information obtained during debriefings of the source, SA [redacted] learned that [redacted] was attempting to identify a target for a six figure robbery. SA [redacted]

[redacted]

b6
b7C
b7D

Further, [redacted] planned to accompany [redacted] Rodriguez stated that he had access to several fully automatic shoulder weapons to include an AK-47 and body armor.

On 8/25/98, SA [redacted] drafted an operations plan to arrest [redacted] and [redacted] and [redacted] SA [redacted] engaged in extensive coordination and planning with Philadelphia Division Management, the SJRA, SWAT, SOG, NJSP and the CHPD. The operations plan detailed the utilization of FBI SWAT to effect the apprehension of the [redacted] brothers and [redacted] On the morning of 8/27/98, SA [redacted] learned from the source that the armored car robbery was postponed by [redacted]

b6
b7C
b7D

On 8/30/98, [redacted] Pursuant to this information, SA [redacted] revised his operations plan and coordinated with the participating entities to effect the arrest.

[redacted] Within moments SWAT Team Leader [redacted] gave the command to arrest the subjects. The tow truck and pickup truck being utilized as blocking vehicles by SWAT as well as a cube van containing a SWAT arrest team began their approach to block the subject vehicle and effect the arrest. The subjects who had already become suspicious of the lack of activity in the rest area parking lot and lack of traffic on the NJTP observed the vehicles moving toward them and again ordered the [redacted] to move. As the subject vehicle began to accelerate south along the front of the rest area, the cube van swerved to the left to block its exit. At about the same moment, SA [redacted] who was driving north in the SWAT pickup passed the cube van and struck the subject vehicle on the left side and drove it up on the

b6
b7C
b7D

sidewalk of the rest area. As the collision occurred, SSA [redacted] and SAs [redacted] and [redacted] exited the cube van. The subject vehicle passed the cube van at that time and all three SWAT members reported seeing a rifle being raised by one of the subjects in the rear of the vehicle. Each member fired once at the subjects inside the vehicle as the vehicle moved south away from them.

The subject vehicle accelerated and continued south on the sidewalk in front of the rest area building. [redacted] the subject vehicle off of the sidewalk it was momentarily traveling at a high rate of speed directly at another SWAT vehicle occupied by SAs [redacted] and [redacted] SAs [redacted] and [redacted] had taken up a position at a small parking island which was located adjacent to the southern end of the rest area building. As the vehicle sped toward them, SA [redacted] reported that he heard someone yell "gun." SA [redacted] specifically recalled seeing a gun in the rear of the subject vehicle. Accordingly, SAs [redacted] and [redacted] considering the speeding vehicle moving in their direction and the weapon observed in the back seat fired their weapons at the subjects. SA [redacted] recalled firing twice before his 10 millimeter pistol jammed and he was forced to clear the weapon. SA [redacted] reported that he fired approximately three two-round bursts from his MP-5 at the subject seated in the rear on the driver's side.

As the subject vehicle reached the curve at the south end of the rest area building, it slowed down to make the corner leading to the rear employee parking lot. At that moment the subject vehicle was struck by the SWAT tow truck driven by SA [redacted] The tow truck hit the subject vehicle on the right rear side and literally drove over the trunk of the car, crushing the left rear quarter panel. The collision completely disabled the subject vehicle. [redacted] who was in the front passenger seat exited the vehicle and ran to the side entrance of the rest area building. Both SAs [redacted] and [redacted] reported that as [redacted] reached the entrance they observed him reaching for a weapon holstered on his right side. SA [redacted] reported that he fired three shots at [redacted] and SA [redacted] fired his weapon but could not recall how many times he fired. [redacted] was hit in his right hip and fell to the ground.

Additionally, as the subject vehicle came to a halt as a result of the collision with the tow truck, SA [redacted] who was positioned at the south corner of the rest area service station observed a subject in the back seat holding a weapon. SA [redacted] subsequently fired one shot from his M-4 carbine rifle at that passenger. There were no further shots fired and [redacted] and [redacted] surrendered without further incident.

The NJSP "Crime Scene Report," dated 9/1/98, reflects that a total of 31 shots were fired during the shooting incident. All 31 shots were fired by six members of the Philadelphia Division SWAT involved in the arrest of [redacted] and [redacted] and [redacted]. The NJSP "Crime Scene Report" further reflects that SSA [redacted] SAs [redacted] and [redacted] each fired one shot from the area of the cube van. Twenty-seven shots were fired from the area around the vehicle occupied by SAs [redacted] and [redacted] and a single shot was fired by SA [redacted] from the entrance area to the garage at the south end of the rest area building. b6 b7C

An accounting of the 27 shots fired from positions occupied by SAs [redacted] and Stone would indicate that SA [redacted] fired six shots while SA [redacted] fired 21 shots during the shooting incident. This reconciliation is based upon the NJSP "Crime Scene Report," the statements obtained from SAs [redacted] and [redacted] and the FD-302 report prepared by SA [redacted] acknowledging receipt of the weapons and ammunition from each Agent that fired a weapon during the shooting incident.

| NAME | WEAPON | CALIBER | NUMBER OF ROUND(S) FIRED |
|---|---|---|---|
| SSA [redacted] | Colt M-16A2 | .223 | 1 |
| SA [redacted] | Heckler & Koch M4A1 | .223 | 1 |
| SA [redacted] | Smith & Wesson 1076 | .10 | 6 |
| SA [redacted] | Heckler & Koch MP5 | .10 | 1 |
| SA [redacted] | Colt M4A1 | .223 | 1 |
| SA [redacted] | Heckler & Koch MP5 | .10 | 21 |

b6 b7C

As a result of the shots fired by the above Agents, [redacted] sustained a graze wound to his left thigh and [redacted] received two wounds to his right hip. [redacted] was treated at the Cooper Medical Center, Camden, NJ and released immediately. [redacted] was treated at the West Jersey Hospital, Voorhees, NJ and also released immediately. NJSP [redacted] received a cut on her neck by flying glass when a window in the rest area was blown out during the shooting. She was subsequently treated at the Garden State

Hospital, West Jersey Health System, Marlton, NJ and released. No FBI personnel sustained any injuries.

Dr. [redacted] West Jersey Hospital, removed a metal fragment from the right hip of [redacted] The metal fragment was subsequently given to SA [redacted] who later provided the fragment to the NJSP for forensic examination.

b6
b7C

On 9/1/98, a complaint was filed in U.S. District Court, District of New Jersey, charging the [redacted] brothers and [redacted] of violation of Title 18, Section 922G, for felony possession of a weapon.

Details of this incident will be reported as delineated in the Table of Contents.

**Title:** ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
9/13/98
LAS VEGAS DIVISION

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident that occurred in the Las Vegas Division on 9/13/98, during the arrest of a fugitive. Believing that his life and the life of Sergeant [redacted] of the Las Vegas Metropolitan Police Department was in jeopardy, SA [redacted] fired four shots at a subject located in a fleeing vehicle. Members of the SIRG recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Details:** Reference report of Supervisory Special Agent (SSA) [redacted] dated 9/30/98.

This communication is prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

1 - Mrs. [redacted] Room 7861

**Details of the Shooting Incident**

On 9/12/98, at approximately 4:30 p.m., SSA [redacted] was telephonically contacted by Sergeant [redacted] of the Las Vegas Metropolitan Police Department. Sergeant [redacted] assigned to the Las Vegas Safe Streets Task Force, also known as the Criminal Apprehension Teams (CATS), advised that the CATS were in the process of responding to a possible location of a fugitive for which they had a warrant. b6 b7C

Pursuant to information provided by an informant, a possible location of fugitive [redacted] was determined to be an apartment located at Extended Stay America in Las Vegas. Intelligence information also indicated that [redacted] may be associating with other individuals who were suspected in ongoing robbery investigations.

At approximately 12:57 a.m., 9/13/98, CATS members observed [redacted] exit an apartment. According to a plan, three team members confronted [redacted] notified him of their identity, and placed him in custody. Throughout the arrest, the subject continued to resist and called out for help from other individuals located inside the apartment. Several subjects exited the apartment and one of them, later identified as [redacted] approached the arrest team in a threatening manner. [redacted] was ordered back into the apartment, however, exited moments later. Based on his actions, coupled with the fact that [redacted] was believed to be associated with subjects involved in robberies, SA [redacted] confronted [redacted] in an attempt to determine his identity. [redacted] immediately ran from the area with SA [redacted] and Sergeant [redacted] in pursuit.

According to SA [redacted] when he located [redacted] the subject was seated in the driver's seat of a vehicle with the driver's door open. As SA [redacted] reached inside the vehicle to detain [redacted] the subject made a remark to the effect that "I'm going to shoot you". SA [redacted] stepped backwards, drew his weapon and ordered [redacted] out of the vehicle. At that time, the vehicle suddenly backed up causing the open door to knock SA [redacted] to the ground. Sergeant [redacted] who had just arrived at the vehicle, was also knocked down by the force of the open door and the left front tire of the vehicle ran over his legs. As the vehicle continued backing to the highway, the subject stopped the vehicle, revved its engine and accelerated the car forward directly towards Sergeant [redacted] who was laying in the driveway. Sergeant [redacted] fired two shots at the vehicle as it approached and SA [redacted] fired four shots from b6 b7C

his location. The vehicle continued to the rear of the complex and exited the area from another driveway.

On 1/6/99, the SIRG met to discuss the above captioned shooting incident. Chief Inspector Mark J. Mershon, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: Dana D. Biehl, Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Jim U. Oliver, Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; [redacted] Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that the use of deadly force in this shooting incident by SA [redacted] was justified and in conformance with the current deadly force policy. This discussion resulted in the recommendation that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

b6
b7C

The only observation made by the SIRG members evolved around the fact that this shooting incident and follow-up report involved an administrative inquiry. Members opined that interviews of the individuals involved should have been conducted by FBI personnel. SIRG members recommended that Executive Management and the Chief Division Counsel readdress established protocol with officials of the Las Vegas Metropolitan Police

To: Inspection Division From: Inspection Division
Re: 297-HQ-A1271699-D, 06/03/1999

Department to ensure that FBI interests are covered during shooting incident investigations. This issue will be addressed in a letter to the Special Agent in Charge of the Las Vegas Division.

**LEAD(s):**

**Set Lead 1:**

INSPECTION DIVISION

AT WASHINGTON, D. C.

That no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Report of: IIP [redacted] Office: Buffalo Field Office
Date: March 27, 1998

Case ID #: 66F-HQ-19157-11

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
CLEVELAND DIVISION
MARCH 4, 1998

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident was the result of an investigation of [redacted] and [redacted] two suspected armored car robbers operating in the Cleveland, Ohio area.

[redacted] and [redacted] were identified in 1995 by the Cleveland Division as suspects in three (3) armored car robberies occurring in Cleveland, Ohio in 1993, 1994 and 1995. The Cleveland Division developed information that these robberies involved unprovoked shootings and the use of ballistic vests and armor-piercing ammunition by the subjects. In 1995 the Cleveland Division SOG began periodic surveillances and spot checks of both subjects.

On February 12, 1998, the SOG located the subjects together casing a Brinks armored car route. Based upon information developed from the surveillances, the Cleveland Division believed that the subjects were in the planning stage of another armored car robbery. SAC HARP instructed the SOG to begin daily surveillances of both [redacted] and [redacted] In addition, SAC HARP, along with other Cleveland Division management and SWAT Team Leader SA [redacted] began nightly meetings to discuss the activities of the subjects and a possible arrest plan.

b6
b7C

During the two weeks prior to March 4, 1998, the SOG was augmented by the Violent Crimes and Major Offenders (VCMO) Squad and members of the Cleveland SWAT

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Team. In addition, Title III coverage was planned. A specific operational plan was not documented at this juncture because the subjects continued to use their personally-owned vehicles and their history reflected they used stolen vehicles for the robberies, and because no specific target location for the robbery or a switch site for vehicles had been identified. In conjunction with these briefings, Assistant U. S. Attorney [redacted] was briefed and he developed a checklist of events which, when satisfied, would amount to probable cause for the Agents to arrest [redacted] and [redacted] From February 23, 1998 on, SWAT Team Leader [redacted] conducted daily briefings with SWAT members at their staging area regarding conducting a high risk car stop. The briefings also included discussions on the use of deadly force and crossfire situations.

b6
b7C

At approximately 9:00 A.M. on March 4, 1998, [redacted] and [redacted] were observed departing [redacted] residence in [redacted] personally-owned Chevrolet van. [redacted] and [redacted] were surveilled to an apartment complex on Cleveland's Southwest side. The subjects departed the apartment complex in separate vehicles with [redacted] driving a Ford minivan which was determined to be stolen. SAC HARP was advised of this information and dispatched ASAC ALLEN to the area.

The subjects were then surveilled to a gas station where they were observed transferring baggage from [redacted] van to [redacted] stolen van. SOG observed [redacted] and [redacted] travel to a K-mart parking lot where [redacted] parks his vehicle and departs with [redacted] in the stolen van. SAC HARP was advised of this information and departed the office for the scene. Sometime later [redacted] stolen van was observed in the parking lot at the Star Bank, one of several locations identified as potential armored car robbery sites due to previous surveillance. At this point SA [redacted] contacted the Brinks Armored Car Company and had the Brink's armored car intercepted in order to prevent it from making its usual stop at the bank. An operational plan had been discussed earlier whereby the Brinks armored car servicing the potential robbery site would be diverted by Bureau Agents, thus making the subjects abort the robbery and return to the switch vehicle where their guard would be at its lowest. Agents on the scene believed that at this point enough probable cause had been developed to arrest the subjects for the attempted armored car robbery.

The shooting incident occurred when the Cleveland SWAT Team effected a felony car stop at approximately 11:30 A.M. on March 4, 1998 as [redacted] and [redacted] returned to the switch site in the K-mart parking lot. [redacted] exited the stolen van and [redacted] began to turn the van around as if to exit the parking lot. At the same time, three (3) SWAT vehicles simultaneously approached [redacted] vehicle and blocked it from exiting the parking lot. Specifically, a SWAT sedan approached from the driver's side and

b6
b7C

rammed that door. The second SWAT vehicle, a Suburban, approached from the passenger side of the stolen van and rammed the passenger's door. The third SWAT vehicle, a van, blocked [redacted] vehicle from the rear. [redacted] van was facing a chain-link fence which enclosed one side of the parking lot. [redacted], who had just exited [redacted] van, was quickly apprehended near his vehicle. SWAT Agents exited their vehicles and identified themselves to [redacted] was non-compliant and immediately put his van in reverse and rammed the SWAT van blocking his rear. He then went forward at an angle, ramming the SWAT vehicle to his left. [redacted] was reversing his van again when SA [redacted] who was located at the front passenger side of [redacted] vehicle, fired a shot at [redacted] SA [redacted] who had taken up a position behind [redacted] van, stated that he also fired into the rear window of [redacted] van as it was accelerating towards him in reverse for the second time. SAs [redacted] and [redacted] stated they fired at [redacted] when he accelerated forward for the second time. SA [redacted] was located to the rear driver's side of [redacted] van and SA [redacted] was located on the driver's side of [redacted] van near the front. Each Agent stated he fired in order to protect himself and/or other Agents.

b6
b7C

[redacted] van broke through the chain link fence and came to rest a few feet from a brick wall. The van traveled approximately 100 feet. [redacted] was ordered out of the van and placed under arrest by SWAT Agents and SA [redacted] suffered multiple gunshot wounds to the face, arms, and shoulder. He was transported to the emergency room of the Metro Health Medical Center, Cleveland, Ohio by Cleveland Emergency Medical Services. He is recovering from his wounds.

SAC HARP, who had taken up a position with other Agents a few blocks from the K-mart parking lot, was monitoring the situation. He arrived as [redacted] was placed under arrest and immediately made appropriate notifications or directed Agent personnel to do so. The Cleveland Police Department, Homicide Unit, was notified and processed the scene.

b6
b7C

Search warrants were executed for all vehicles and the residences of [redacted] and [redacted] The searches recovered a large amount of weapons, ammunition, maps, detailed surveillance notes, disguises and clothing.

Both [redacted] and [redacted] were charged with one count each of Conspiracy to Obstruct Commerce by Robbery, Attempted Bank Robbery, and Using and/or Carrying Firearms during a Crime of Violence.

Details:

ISSUE NUMBER ONE: USE OF DEADLY FORCE

The issue of the use of deadly force was specifically examined during the shooting inquiry involving [redacted] an armored car robbery suspect. A review of the substantive investigation, interviews of all participants, and other facts obtained during the shooting inquiry were analyzed in order to determine if the use of deadly force was justified. The current deadly force policy, as set forth in the Electronic Reference Library, Manual of Investigative Operations and Guidelines, was used to determine deadly force justification. b6 b7C

This shooting inquiry determined that the issue of deadly force was discussed by SWAT Team Leader SA [redacted] with all SWAT team personnel on a daily basis beginning 2/23/98 until the shooting on 3/4/98. In addition, as stated previously, CDC [redacted] provided records indicating that all SAs in the Cleveland Division were provided copies of the New Deadly Force Policy and had discussed the issue of deadly force in November, 1997, at a mandatory legal training session given to all Cleveland SAs.

The Cleveland Division SWAT team was called out beginning 2/23/98 after the Cleveland SOG observed [redacted] and [redacted] casing armored car routes and possible locations for a switch car. Briefings were given to the SWAT team every morning at a staging area on the West side of Cleveland.

The SWAT briefings included review of the Deadly Force Policy and conducting vehicle stops. SA [redacted] was very familiar with the activities of [redacted] and [redacted] having participated in nightly meetings with SAC HARP and other management staff involved in the investigation. These briefings included information that the subjects were well armed with AK-47 assault rifles, with armor-piercing ammunition, and Sig Sauer semi-automatic 9MM Model 226 pistols and used ballistic vests. They had fired weapons unprovoked in two (2) of the three (3) armored car robberies they were suspected of committing, wounding a Brinks' employee. In addition, SA [redacted] specifically advised the SWAT personnel that if the driver of the subject's vehicle tried to ram his way out of containment or attempted to use his vehicle as a weapon, the immediate use of deadly force was justified. b6 b7C

During all briefings, Cleveland management ensured that the SOG, the VCMO Squad, and SWAT personnel involved in the operation

were aware of the violent nature of the subjects, the potential for them to be non-compliant, and DOJ policy regarding the use of deadly force. During interviews, the SWAT team stated they knew of the subjects' violent natures, their use of dangerous weapons, and the potential for use of deadly force. The Agents felt comfortable with the briefings. They were given all available intelligence, and it was updated on a daily basis. All SWAT personnel interviewed stated they were briefed in the use of deadly force.

Based upon the information that the subjects would be using a stolen van, SA [redacted] developed four (4) possible arrest scenarios. These will be discussed in detail in Issue Number Two: Adequacy of Planning.

Scenario number four was the preferred option and the one actually used. This plan involved allowing the subjects to go to the robbery site and have FBI Agents intercept the Brinks' truck, and then arrest the subjects when they returned to the switch car location.

On the morning of 3/4/98, the subjects are observed by the SOG meeting at [redacted] residence. The subjects leave together in [redacted] van and are surveilled to an apartment complex. [redacted] departs alone in his van and [redacted] is observed departing in a vehicle not previously known to the SOG. [redacted] license plate was run through NCIC and the vehicle is determined to be stolen. [redacted] and [redacted] are then surveilled to a gas station where they transfer baggage from [redacted] van to [redacted] stolen van. They depart the gas station separately and are observed a short time later arriving at the K-mart parking lot at 3250 W. 65th Street. [redacted] parks his van and then joins [redacted] in the stolen van and they depart. b6 b7C

SAC HARP dispatched ASAC ALLEN to the scene after being advised that [redacted] and [redacted] were together. ASAC ALLEN drove to a lot at 65th and Clark, approximately 2 to 3 blocks from the K-mart parking lot. ASAC ALLEN and other Cleveland management staff monitored the surveillance of [redacted] and [redacted] from this location and kept SAC HARP advised of the subjects' activities. When SAC HARP was advised that [redacted] and [redacted] were together in a stolen van, he realized that enough probable cause existed to arrest the subjects. He immediately proceeded to the area where ASAC ALLEN was located and proceeded to monitor the situation waiting for an opportune time to effect the arrest.

During the surveillance of [redacted] and [redacted], after they departed the K-mart parking lot, the SOG lost contact with the subjects for a period of time. SOG found the subjects in the parking lot of the Star Bank. In keeping with the plan discussed at the nightly briefings, Agents intercepted the Brinks' truck at its stop prior to the Star Bank and diverted it to a safe

location. The operational plan in effect was to arrest the subjects at the switch site in the K-mart parking lot. It was apparent from all interviews conducted with both SOG and SWAT personnel that everyone knew and understood the plan.

After waiting a short period of time, [redacted] and [redacted] left the Star Bank parking lot and were observed re-tracing the Brinks' truck route. After apparently realizing the Brinks' truck was nowhere to be found, they returned to the K-mart parking lot. The SWAT team had already traveled to the K-mart parking lot and set up at the rear of the K-mart building to effect the arrests of the subjects. The SWAT Team Leader was concerned that the subjects would make the surveillance and therefore be at a heightened state of readiness. He instructed SA [redacted] to accompany SA [redacted] in the SWAT sedan; locate themselves in the parking lot, and approach the subjects from an angle opposite the other two (2) SWAT vehicles. The SWAT Team Leader also advised all SWAT personnel not to assume that there were only two (2) subjects in the van since SOG had lost sight of the vehicle for a period of time. b6 b7C

As the subjects' van approached the K-mart parking lot, SOG called out that SWAT had control. SA [redacted] radioed that the subjects were coming into the parking lot. The other SWAT vehicles, with the SWAT Suburban in the lead, came around from the back of the building and waited on the side of the building. SA [redacted] radioed that [redacted] was out of the van and the SWAT vehicles moved in.

As the SWAT vehicles approached, [redacted] was walking to his van and [redacted] turned his van to the left, either to turn around or to park. The subjects' van was facing a chain-link fence. SA [redacted] and SA [redacted] in the SWAT sedan rammed [redacted] van at the driver's door. SA [redacted] exited the SWAT sedan and immediately took [redacted] into custody. SA [redacted] driving the SWAT Suburban with SAs [redacted] and [redacted] inside, rammed the front passenger side of the subjects' van. The SWAT van, driven by SA [redacted] with SAs [redacted] and [redacted] inside, blocked the subjects' van at the rear. SA [redacted] identified himself and gave commands not to move to [redacted] A number of the SWAT Agents were identifying themselves and giving [redacted] commands to "freeze," "stop," or "hands up." [redacted] was immediately non-compliant, threw the van into reverse and struck the SWAT van, narrowly missing SAs [redacted] and [redacted] then went forward, striking the SWAT sedan. [redacted] then reversed the van again and started backwards. At this point, SAs [redacted] fired. SA [redacted] stated he fired one shot at [redacted] head. SA [redacted] stated he fired two (2) to three (3) rounds at the driver. SA [redacted] stated he fired two (2) shots into the rear window of the van. SA [redacted] stated that black curtains hung across the side and rear of the van preventing him from seeing the driver; however, b6 b7C

he fired at a position where he knew the driver was, in order to stop him.

It appears that SA [redacted] actions are within the deadly force policy inasmuch as he fired to stop a threat to his life and not to disable a motor vehicle. Although SA [redacted] advises in his statement that he fired into a position where he believed the driver was located, SA [redacted] basis of knowledge for his belief is supportable inasmuch he knew there was a driver of the van located in the driver's seat because the vehicle was presently moving towards him and because the SWAT members at the scene were issuing commands to the drivers location. b6 b7C

[redacted] then went forward with the van, narrowly missing SA [redacted] as he went by him. SA [redacted] fired at him. SAs [redacted] and [redacted] also continued firing at the subject of the van. [redacted] van, at this point, jumped the 6-inch curbset parking stop and went through the chain-link fence. The van appeared to slide to the side, coming to a stop in front of a brick wall. SA [redacted] ordered a cease fire believing that [redacted] had been disabled and that bullets might ricochet off the brick wall behind the van and into the public street. All Agents advised they fired because the van was coming at them or other Agents and they were in fear of their lives, or feared for the lives of their fellow SWAT team members.

A review of the statements of all arrest team personnel indicates that SA [redacted] appears to have fired first, followed almost instantly by SAs [redacted] and [redacted] The passage of time from when [redacted] was given the command to put his hands up and freeze until his van came to a stop in front of the brick wall cannot be exactly determined but is estimated at only a matter of seconds.

[redacted] was then ordered to put his hands out of the van window. The Agents exhibited extreme caution in approaching the van. Some Agents had concern that there may be another suspect in the rear of the van. [redacted] was taken out of the van and handcuffed. [redacted] van was cautiously cleared. [redacted] had received a number of non-fatal wounds. He was wearing a bulletproof vest and had a fully-loaded Sig Sauer Model 226, 9 MM semi-automatic pistol on his person. Agents cleared the van and observed a blue gym bag in the van containing a 12-gauge shotgun (streetsweeper style), a fully-loaded Glock 9 MM pistol in a shoulder holster with two (2) extra magazines, an AK-47 semi-automatic rifle with a sawed-off stock, two magazines for an AK-47 taped together, a fully-loaded Glock 45 caliber pistol, a fully loaded Glock 45 caliber magazine, a barrel-drum magazine, blue bulletproof vest, a can of mace, and handcuffs. Also located in the back of the van was a 12 gauge shotgun, a fully-loaded AK-47 with two magazines, a Sig Sauer 9 MM pistol with two b6 b7C

magazines, a blue plastic bag with a Sylvester Stallone full-head rubber mask, and a black duffle bag containing a double magazine for an AK-47 rifle, a loaded barrel drum magazine, binoculars, and various clothing and masks.

All Agents participating in the arrests of [redacted] and [redacted] were wearing Bureau-issued tactical body armor SWAT vests with a shock plate inset which displayed FBI on front and back.

This investigation determined that [redacted] did not fire any weapons in his possession. There is no physical evidence that any of his weapons were fired.

Analyses of this incident leads to the conclusion that the Agents' decision to fire their weapons was precipitated by the actions of [redacted] and was justified under the Deadly Force Policy.

FBI Deadly Force Policy allows Agents to use deadly force when they "have probable cause to believe that the subject of such force poses an imminent danger of death or serious physical injury to the Agents or another person." MIOG, Part II, 12-2.1(1)(a). The series of events rapidly unfolding beginning with SA [redacted] commands to [redacted] to surrender, create the probable cause prerequisite under the Deadly Force Policy. When [redacted] failed to comply with the Agents' instructions and reversed the van directly into the location of the Agents behind him, the Agents exercised remarkable self restraint by not firing at that point. [redacted] then drove forward toward SA [redacted] who also showed admirable self control in continuing to attempt to gain [redacted] compliance through the use of verbal warnings. It wasn't until the van reversed toward the position of SA's [redacted] and [redacted] for the second time that these Agents fired, and it wasn't until the van accelerated towards SA [redacted] for the second time that he fired. The actions of [redacted] in driving his vehicle toward the Agents, provides the necessary probable cause to fire when examined alone, and certainly when combined with the information the arrest team had regarding [redacted] and [redacted] violent activities at previous robberies.

b6
b7C

The Agents were also in compliance with the section of the Deadly Force Policy concerning verbal warnings as is evidenced in the signed sworn statements of the SWAT members who advised [redacted] was repeatedly ordered to submit to the authority of the Agents. MIOG, Part II, 12-2.1(1)(c) addresses verbal warnings by dictating "VERBAL WARNINGS - IF FEASIBLE, and if to do so would not increase the danger to the Agent or others, a verbal warning to submit to the authority of the Agent shall be given prior to the use of deadly force." Agents continued to give [redacted] verbal commands to surrender until they believed to do so would place them in greater danger.

No warning shots were fired and no one shot in an attempt to disable [redacted] van. All of the rounds discharged were fired in an attempt to stop the driver from ramming the Agents at the scene. In this regard, the Agents are also in compliance with the Deadly Force Policy sections on the use of warning shots and vehicles. MIOG, Part II, 12-2.1(1)(d) states "WARNING SHOTS - No warning shots are to be fired by Agents.", and (e) states "VEHICLES - Weapons may not be fired solely to disable moving vehicles. Weapons may be fired at the driver or other occupant of a moving vehicle only when the Agents have probable cause to believe that the subject poses an imminent danger of death or serious physical injury to the Agents or others, and the use of deadly force does not create a danger to the public that outweighs the likely benefits of its use." b6 b7C

Finally, the agents were in compliance with the Deadly Force Policy when they continued to fire for a very short time as the subject drove thru the chain-link fence because the subject remained imminently dangerous during that time. In this regard, the subject was not considered a fleeing felon. As used in the Deadly Force Policy, the concept of 'imminent' "does not mean 'immediate' or 'instantaneous,' but that an action is pending." This elastic concept is defined by the circumstances, in this case the shooting inquiry disclosed no information to show that [redacted] was any less of a threat as he drove towards the chain link fence than he was seconds before. As the agents had a reasonable belief that the subject posed an imminent danger to them as he reversed his van into the agents position in an attempt to inflict death or serious physical injury, the imminent danger continued while the subject continued to maneuver his vehicle and ended up driving through the chain-link fence. This fact situation is closely analogous to Deadly Force Policy Scenario #2, in which it should be noted that the "Discussion" portion of the scenario states that "Agents would not be required to permit the suspects to escape from the vicinity of a violent confrontation in which they have just attempted to inflict death or serious physical injury on the Agents."

The absence of a safe alternative to the use of deadly force is, in addition to the presence of imminent danger, a precondition to the use of deadly force. The 12/01/1995 Instructional Outline states that response to commands, availability of cover, and time constraints are among the relevant factors to consider when making a "safe alternative" determination. In this fact situation, the subject was non-compliant to the commands of the agents. Further, the agents were not safely behind cover that would protect them from the subject's vehicle; if the subject had rammed the SWAT van and the SWAT sedan that the agents were behind, he easily could have pushed it into them with sufficient force to kill or seriously injure them. Finally, the agents were under serious time constraints to assess the nature and imminence of the threat

posed by the subject's vehicle given the short distance that the subject needed to drive to strike the agents.

Title: SHOOTING INQUIRY;
REPORT OF SHOOTING INCIDENT;
SPRINGFIELD DIVISION;
MARCH 14, 1998;
ADMINISTRATIVE INQUIRY

Character: SHOOTING INQUIRY

Synopsis: This shooting incident occurred during the executive of a federal search and seizure warrant by the Springfield, Division, Carbondale RA Safe Streets Task Force, on 3/14/98, at [redacted] Colp, Illinois. b6 b7C

- P -

DETAILS:

On 3/12/98, SA [redacted] Springfield Division, Carbondale RA, obtained a federal search warrant for the residence of [redacted] Colp, Illinois. This search warrant was for crack cocaine, U.S. currency, and other drug related materials in violation of Title 21, USC, Sections 841(a)(1) and 846. The warrant was signed by U.S. Magistrate Judge Philip M. Frazier on 3/12/98 at 2:02 pm in Benton, Illinois. The warrant also allowed a search at any time in the day or night and that the Magistrate Judge was satisfied that there was probable cause such that a no-announced entry should be authorized.

A second search warrant was issued in this matter for the residence of [redacted] Colp, Illinois. No unusual incidents occurred during the execution of this warrant on 3/14/98.

On 3/14/98, at 4:30 am, SSRA [redacted] conducted a briefing at the Carbondale RA with the members of the search

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

team. That meeting was a general meeting regarding the case and the planned searches for the morning. At approximately 5:00 am, the officers and agents broke into two separate groups based on their target search. The group of officers and agents who were to conduct the search at [redacted] Colp, Illinois, moved into SSRA [redacted] office. This group included SSRA [redacted] SA [redacted] SA [redacted] SA [redacted] Special Federal Officer (SFO) [redacted] SFO [redacted] SFO [redacted] SFO [redacted] and SFO [redacted] At that meeting, SSRA [redacted] made available a packet of information regarding the search at 200 Doctor Springs Drive. This packet included a copy of the search warrant, hand drawn map of the residence, photographs of [redacted] criminal history of [redacted] photograph of [redacted] a copy of the affidavit in support of the search warrant, and an assignment sheet. Detailed discussions were conducted regarding the fact that [redacted] was known to keep a gun in his bedroom. Detailed entry plans were discussed and assignments were made by SSRA [redacted] based on the experience level of the officers and agents. SSRA [redacted] ensured that two officers or agents were assigned to each room of the dwelling to be searched. He also planned to have uniformed officers present from the local sheriff's office outside with an additional agent.

b6
b7C

The residence to be searched was a single floor framed dwelling with the front door on the south side. Immediately inside this door, towards the north, was a room used as a bedroom with a second bedroom further to the north. To the right of the entry door into the residence was a living room and to the north of the living room was a kitchen. There were closets and a bathroom at the extreme north end of the residence. SSRA [redacted] ensured that two officers or agents were assigned to each of the rooms and affixed the officers' or agents' initials to the sketch of the floor plan, ensuring that all personnel knew the assignments of themselves and other officers searching the residence.

After conducting this briefing, the search teams staged at the Carterville PD where vests and raid jackets were donned. Williamson County SO Deputy [redacted] met with the entry team at the Carterville PD. At that time, SSRA [redacted] ensured that he was aware of his role in this matter.

At approximately 6:00 am, the search team arrived at the residence and the front door was forced open by SA [redacted] using a ram. Thereafter, officers, announcing police and FBI, began entry into the premises.

b6
b7C

Officer [redacted] was the first officer through the door, followed by Officer [redacted] These two officers proceeded to the back bedroom and forced the partially ajar door open. Upon entering the room, [redacted] was moving in an easterly direction towards the side kitchen door, holding a .22 caliber silver

[redacted] handgun in his hand. Officer [redacted] yelled gun and dropped to his knees along side the bed, just inside the back bedroom. [redacted] aimed at Officer [redacted] and fired one round. This round was retrieved from the bed mattress adjacent to where Officer [redacted] was crouched. At this time, Officer [redacted] fired four rounds at [redacted] who was near the doorway to the kitchen from the north bedroom. Officer [redacted] who entered the rear bedroom behind Officer [redacted] fired four rounds in the direction of [redacted] At this point, SSRA [redacted] was in the living room, approaching the entrance to the kitchen, and observed [redacted] backing from the bedroom into the kitchen with his gun in his right hand and a magazine in his left hand. Officers were yelling at [redacted] to drop the gun and get down. [redacted] did not obey the command and as he was backing into the kitchen, turned toward the area SSRA [redacted] was in. At this point, SSRA [redacted] fired one round at [redacted] Officer [redacted] was just to the right of SSRA [redacted] and fired one shot at [redacted] [redacted] fell to the floor and his gun slid away on the floor further into the kitchen.

b6
b7C

At this point, [redacted] was handcuffed. SA [redacted] applied pressure to the wound in [redacted] stomach with a sock he obtained from inside the residence.

An ambulance was called, which transported [redacted] to the Herrin Hospital located approximately six miles away.

At the time of the shooting, SA [redacted] was in the first bedroom, immediately inside the exterior door that was forced open. Officer [redacted] had not entered the house at the time of the shooting and took cover beneath a window on the south side of the front of the house. Det. [redacted] observed a male in a bed immediately to the left in the first room entered and ordered that individual not to move. SA [redacted] and SA [redacted] took the individual in the first bedroom into custody, who was later identified as [redacted] black male, date of birth 6/10/60.

It was determined that [redacted] was wanted by the Department of Corrections, Division of Community Correction, Wisconsin, for parole violation based on an underlying conviction for sexual assault on a child in the first degree.

b6
b7C

Other officers at the scene included SA [redacted] and Williamson County SO Deputy [redacted] who maintained a position outside the residence throughout the incident.

After the incident, Officers [redacted] and SSRA [redacted] were administered a breathalyser by Sgt. [redacted] of the Carbondale PD. The results indicated a blood alcohol content of .00 for each. The weapons and magazines of all shooters were surrendered to the Illinois State Police, Division of Forensic

Services, who conducted the crime scene investigation under Crime Scene Investigator [redacted]

SSRA [redacted] was using a 10 mm Smith & Wesson, model 1076, SN THC9929, which had eight rounds in the magazine and one in the chamber of Federal JHP ammunition after the shooting. The weapon was functional and loaded with FBI ammunition.

Officer [redacted] discharged his .40 caliber Glock, model 23, SN BBU970US. It was loaded with six rounds in the magazine and one in the chamber with Federal Hydra-shok ammunition after the shooting.

Officer [redacted] discharged his 9 mm Sig Sauer, model P229, SN AE21664. The weapon contained eight rounds in the magazine and one in the chamber of Winchester Black Talon ammunition after the shooting. b6 b7C

Officer [redacted] discharged his .40 caliber Smith & Wesson, model SW40F, SN PAM8073. The weapon had 14 rounds in the magazine and one in the chamber of Winchester Black Talon ammunition after the shooting.

The State Police Laboratory recovered cartridge casings and bullets consistent with the above-mentioned shots except that two rounds fired from the rear bedroom exited a back window in a north-easterly direction and were not recovered. Also, one round, which entered [redacted] left front abdomen area and rested in his lower pelvis near a nerve, was not removed by medical personnel. A bullet was removed from the upper buttock region of [redacted] which entered from his left side. That cartridge was matched to the weapon of Officer [redacted] who fired one round. The .22 caliber cartridge recovered from the mattress, adjacent to where Officer [redacted] had crouched, was matched to the weapon in possession of [redacted] The weapon used by [redacted] was a .22 long rifle caliber Jennings pistol, model J22, SN 1010769, which contained a magazine and six cartridges with one round partially seated in the chamber. An extra magazine was found behind the stove in the kitchen, containing six cartridges. This weapon apparently jammed after [redacted] fired the first round at Officer [redacted]. Upon test firing at the State Police Laboratory, the weapon again jammed after firing the initial chambered round.

[redacted] signed a consent to release his medical records at Herrin Hospital. A review of those records indicated that an initial drug abuse screen was positive for cocaine above the linearity of the measuring device, which was 5,000 nanograms per milliliter. The blood chemistry report indicated 217.7 milligrams per deciliter ethanol content. These results indicate [redacted] had excessive amounts of alcohol and cocaine in his system at the time he reported to the hospital.

[redacted] suffered from three gunshot wounds. The first entered his left upper arm, entering the outer side above the elbow and exiting above the tricep. The second entered the left abdomen and remained in the iliac wing. The third entered the left hip, struck bony matter and redirected to the buttock area from where it was removed. [redacted] fully recovered from these injuries.

The bullet removed from [redacted] buttock was fired from the weapon used by SFO [redacted]. It appears that one of the bullets fired by SFO [redacted] went through [redacted] upper left arm and continued out the rear window of the residence. It also appears that the bullet remaining in [redacted] hip was fired by SSRA [redacted] All other bullets recovered from the walls had no traces of blood on them. b6 b7C

Interview of [redacted] reported that prior to his weapon discharging at the officers, he observed raid jackets indicating police and FBI. [redacted] stated his weapon went off by accident as he was trying to get the gun out of his hand. [redacted] admitted to using alcohol and cocaine prior to this incident.

It is noted that immediately after the shooting of [redacted] he began making statements that the officers did not identify themselves. Interviews of several of the officers disclosed that there was an announcement of their identity upon entry into the premises. Interview of [redacted] indicated that he observed FBI and police markings on the jackets of the officers prior to the discharge of his weapon at the officers. There was ample light from the rising sun and clear weather. A television was on in the back bedroom where [redacted] was shot, providing additional lighting. Interviews of the officers indicated sufficient lighting to conduct their operation. Interview of [redacted] indicated there was sufficient light for him to observe police and FBI on the raid jackets.

On 3/18/98, [redacted] was indicted by a federal grand jury sitting in East St. Louis, Illinois, in an eight count indictment charging him with distribution of crack cocaine, use of a firearm during a drug trafficking crime, attempted murder, and assault on a federal officer. Counts one, two and three charge [redacted] with distribution of crack cocaine on 3/3/98, 3/6/98 and 3/11/98, respectfully. Count four charges [redacted] with using and carrying a firearm during a drug trafficking crime on 3/11/98. Counts five and six charge [redacted] with attempted murder for firing a gun at agents who were executing a federal search warrant at [redacted] residence on 3/14/98. Counts seven and eight charge [redacted] with assaulting federal agents for firing a gun at them during the search warrant execution on 3/14/98. All of the violations took place at [redacted], Colp, Illinois. b6 b7C

Re: 66-19157-3, 06/22/1998

Details of the Shooting Incident

The Baltimore Division was conducting an investigation regarding the armed robbery of the State Employees Credit Union of Maryland located in College Park. Investigation revealed that a teller employed by the Credit Union, identified as [redacted] arranged to have [redacted] and [redacted] rob the bank while [redacted] was on duty. A consensual phone call was made to [redacted] residence during the evening hours of 5/1/98, verifying that he was at his residence. b6 b7C

An arrest plan was formulated under the supervision of Assistant Special Agent in Charge (ASAC) Donald J. Bartnik and Supervisory Special Agent (SSA) [redacted] of the Maryland Metropolitan Office at Calverton, to affect the arrest of [redacted] All participants responded to 3704 Springdale Avenue in Baltimore to execute the arrest of the subject. Shortly after 10:00 p.m., arrest team participants approached the Springdale Avenue address and observed the front door open. As Agents assumed positions around the residence as well as the front door, a large German Shepherd appeared at the front door in an attack mode and lunged at them. Fearing that the arresting Agents were in imminent danger of serious bodily injury, SA [redacted] fired one round from his Bureau issued Sig Sauer, Model P226, nine millimeter pistol, injuring a second, smaller mixed breed dog that was with the German Shepherd. The dog was struck in the right foreleg which was treated and the dog recovered from the wound. No other injuries were sustained as a result of this shooting incident.

Although not taken into custody during the shooting incident, [redacted] subsequently surrendered to Agents of the Baltimore Division.

On 6/15/98, the SIRG met to discuss the above captioned shooting incident. Chief Inspector Mark J. Mershon, Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Administrative Services Division; Dana D. Biehl, Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, b6 b7C

To: Inspection Division From: Inspection Division

NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that this incident involved an intentional discharge of SA [redacted] weapon and that the use of deadly force was in conformance with the current deadly force policy. Members recommended that no action be taken against SA [redacted] as a result of his involvement in this shooting incident.

LEAD(s):

Set Lead 1:

INSPECTION DIVISION

AT WASHINGTON, D. C.

That no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Report of: SSRA [redacted] Office: Salt Lake City
Date: June 15, 1998

Case ID #: 66F-SU-A48789

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INQUIRY
SALT LAKE CITY DIVISION
MAY 6, 1998

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident was the result of a preliminary inquiry (PI) fugitive investigation regarding subject [redacted]

The Salt Lake City Division Violent Crimes Task Force (VCTF) became involved in the fugitive investigation of [redacted] on March 06, 1998, based upon a request for assistance from the Utah Department of Corrections (UDOC). UDOC requested assistance under the provisions of the Unlawful Flight statue. UDOC had obtained a state felony warrant charging subject with Absconding Parole Supervision and Failure to Complete Community Correctional Center Program. Subject's incarceration was for theft and his criminal record reflects an extensive arrest record including Assault on a Peace Officer charge where he was shot by a Salt Lake County Sheriff's Deputy on July 14, 1994. According to UDOC, subject was a known gang member affiliated with the Aryan Brotherhood and Skinheads. Initial information provided by UDOC was insufficient to immediately obtain a UFAC warrant; therefore, a PI was initiated.

b6
b7C

On April 30, 1998, local authorities made an arrest of [redacted] at [redacted] Salt Lake City, Utah and at this same location, a single gun shot was fired by an unknown person. Subsequent local investigation determined that subject [redacted] was the

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

individual responsible for firing the gun shot. As a result of this incident and the specific request of the UDOC, efforts to locate the subject were intensified by the Salt Lake City VCTF. VCTF Supervisor [redacted] had a squad meeting on May 01, 1998, with the entire squad, including local, state and federal officers assigned to the VCTF, during which the background and known violence of [redacted] was fully discussed. SSA [redacted] instructed that the investigation concerning [redacted] be conducted utilizing two six-member teams made up of VCTF personnel and that protective body armor was to be worn during any contacts made in an effort to locate this subject. SSA [redacted] briefed AASAC BRADFORD on this investigation and provided him updates on the investigation between May 01, 1998 and May 06, 1998. Numerous leads were developed concerning subject's location which were investigated without locating subject or developing sufficient information to indicate out-of-state flight to obtain the UFAC warrant. b6 b7C

On May 01, 1998, [redacted] told the VCTF that [redacted] was staying in Magna, Utah and was in possession of a firearm. [redacted] was interviewed in Magna, Utah and told VCTF members that [redacted] was at her residence the night before (April 30, 1998) with [redacted] a.k.a. [redacted] gave the VCTF the names and addresses of [redacted] and [redacted] both in Magna, as associates of [redacted] was interviewed and advised she had not seen [redacted] for a couple of days but indicated [redacted] was with [redacted] or [redacted] in West Valley City, Utah. [redacted] also stated that [redacted] was not in a very "stable state of mind." [redacted] advised she had not seen [redacted] for about one week, but had heard he was with [redacted] or [redacted] The address given for [redacted] West Valley City, Utah was investigated with negative results. [redacted] in Magna, Utah, stated that she had heard [redacted] was with [redacted] and staying at the residence of [redacted] in West Valley City, Utah. [redacted] also said [redacted] may be staying at the residence of [redacted] also in West Valley City, Utah. [redacted] told the VCTF that she had given [redacted] and [redacted] a ride from her residence to an unknown address in an area known as the Avenues in Salt Lake City. [redacted] saw [redacted] with a handgun and he seemed very unstable. [redacted] believed that [redacted] was with [redacted] or [redacted] an associate of [redacted] stated that [redacted] and [redacted] had called him early that morning, approximately 2:00 A.M., asking [redacted] to get some clothes together for [redacted] so he could get out of town. [redacted] did not do that because he felt that [redacted] was very unstable. b6 b7C

On May 02, 1998, [redacted] stated that [redacted] was with her in Layton, Utah, in possession of a nine-millimeter handgun. [redacted] said she would call back with a location, but did not.

On May 06, 1998, [redacted] stated that her sister, [redacted] and [redacted] had slept at her house on April 01 and 02, 1998, but had not seen them since that time. [redacted] called from the residence of [redacted] advising that [redacted] was in her residence located at [redacted] Layton, Utah. [redacted] said [redacted] was asleep in a back bedroom of her trailer when she left at approximately 12:30 p.m. and [redacted] had a "silver colored handgun." [redacted] indicated that her sixteen year old son was in her trailer with another four year old child. b6 b7C

Following this receipt of positive information concerning subject's location on May 6, 1998, VCTF personnel met with Ogden Resident Agency and the Ogden Violent Crime Task Force, Northern Utah Criminal Apprehension Team (NUCAT) personnel along with LAYTON POLICE DEPARTMENT officers, during which all personnel were briefed on the subject's background, to include the April 30, 1998, shooting information. The decision was made at that time to request LAYTON POLICE DEPARTMENT SWAT for assistance. A plan was formulated for a perimeter to be established around the trailer by two, three man teams, and then occupants of nearby trailers would be evacuated to a safe location away from the scene. Following this evacuation, contact would be made with the subject, and he would be told to come out of the trailer and submit to arrest. The Agents and task force officers were appropriately dressed in either raid jackets with the words "POLICE" clearly written on the front and back or in ballistic vests which clearly identified them as either police officers or FBI Agents. Several of the ballistic vests had the letters "FBI" in large block print on the front of the vest. All on-scene personnel were wearing body armor. As the two teams of three members each were moving to their predetermined locations on opposite sides of the trailer, the subject appeared in the doorway, and looked in the direction of the team located northwest of his trailer. VCTF Officer [redacted] yelled commands to the subject that "This is the police, step out and put your hands in the air." The subject quickly disappeared back into the trailer, then immediately reappeared with a pistol in his left hand, and fired at the team members as they were continuing to position themselves. The subject then quickly ducked back into the trailer and within seconds reappeared with the gun still in his hand, and pointed it directly at VCTF Officer [redacted] VCTF Officer [redacted] fired one slug round from b6 b7C

his shotgun, and the subject appeared to fall back into the trailer. Simultaneous to this, the southeast side perimeter team was arriving at their location, observed the subject's movements, and heard VCTF Officer [redacted] shouts to the subject. VCTF Officer [redacted] and Special Agent (SA) [redacted] both observed subject with a handgun pointed in the direction of the northwest perimeter team, and observe him fire two shots in the direction of the other team. Both VCTF Officer [redacted] and SA [redacted] fired one round each, and the subject ducked back into his trailer. VCTF Officer [redacted] fired one round from his AR 15, 9 millimeter rifle, and SA [redacted] fired one round of 00 buck from a Remington 870 shotgun. Within moments, the subject threw a handgun out of the doorway which landed on the driveway in front of the trailer, and then he walked out of the trailer. The subject did not comply with commands given to him to submit to arrest, and for the next 40 plus minutes yelled obscenities and acted in an irrational fashion all the time refusing to comply with verbal commands from various officers and SAs who attempted to convince him to lie on the ground and submit to arrest. Officers and SAs who were closest to him at various times during this time period attempted unsuccessfully to convince him to comply. The subject continually moved around the area in front of his trailer, walking around and standing close to the handgun on the driveway. During the times that he stood close to and over the handgun, he made numerous movements with his body and hands as though he were going to pick up the handgun. VCTF SA [redacted] a member of the northwest perimeter team, took up a position where he had a clear view of the subject, observed his movements, and overheard his yells at the various law enforcement personnel. VCTF SA [redacted] observed the subject make several squatting motions with his hands directed to the handgun as though he were going to pick it up. SA [redacted] became concerned for the safety of everyone involved in this incident should the subject did pick up the handgun, and, as the subject made one of his movements in the direction of the handgun, he fired one slug round from a Remington 870 shotgun. This round hit the weapon causing it to spin around on the pavement. The subject reacted by jumping back from the weapon at this time; however, did not give up or comply with continued verbal commands. After an additional 10 to 15 minutes, the LAYTON POLICE DEPARTMENT SWAT Team arrived on the scene, and, as they were approaching the trailer from the north side, the accompanying police dog barked. The dog's bark immediately gained the subject's attention, and, as the SWAT Team approached utilizing a protective shield, the subject asked them not to sic the dog on him. He immediately complied with commands to lie on the ground, and was placed under arrest.

Salt Lake City Acting SAC GREGORY D. MEACHAM, Acting ASAC JOHN S. BRADFORD and SSA [redacted] immediately responded to the scene upon notification of the incident at approximately 5:15 p.m. on May 6, 1998. Acting SAC MEACHAM directed that the Salt Lake City Division EAP Counselor [redacted] report to the scene.

On May 7, 1998, subject [redacted] was formally charged by complaint in U.S. District Court, District of Utah, Salt Lake City, Utah, with Attempted Homicide of a Federal Agent (Title 18, U.S. Code Section 1114) and Possession of a Firearm by a Restricted Person, (Title 18, U.S. Code Sections 922(g) and 924(a)(2). On May 13, 1998, subject [redacted] was indicted by a Federal Grand Jury, District of Utah, charging him with Attempted Homicide of a Federal Agent, Title 18, USC, Section 1114; Use of a Firearm during the course of a Felony, Title 18, USC, Section 924(c); Assaulting or Impeding Federal Officers, Title 18, USC, Section 111; and Restricted Person in Possession of a Firearm, Title 18, USC, Sections 922(g) and 924(a)(2). Subject remains incarcerated.

Two Special Agents, SA [redacted] and SA [redacted] each fired one round during this shooting incident. Two task force officers, [redacted] Salt Lake City Police Department and [redacted] Salt Lake County Sheriff's Office, each fired one round during this shooting incident. The weapons and type of round fired are:

SA [redacted] Remington 870 Shotgun slug

| | | |
|---|---|---|
| SA [redacted] | Remington 870 Shotgun | 00 Buck |
| Detective [redacted] | Colt AR-15, 9mm | hydroshock |
| Detective [redacted] | Remington 870 Shotgun | slug |

SA [redacted] and [redacted] were using Bureau weapons and Bureau ammunition, all of which functioned properly. Detectives [redacted] and [redacted] weapons and ammunition functioned properly. SA [redacted] is a member of the Salt Lake City Enhanced SWAT Team and a Firearms Instructor.

Deputy [redacted] Davis County Sheriff's Office processed the evidence collected at the scene and recovered one 9mm Hydroshock which was embedded in the storage shed. Preliminary test indicated the presence of blood. Subject [redacted] T-shirt was examined and indicated the bullet entered from the rear and exited the front. Further testing and examinations in process.

Details of the Shooting Incident

Based on a request for assistance from the Drug Enforcement Administration (DEA) in the investigation of an incident involving the shooting of a DEA informant, agents of the Richmond Division became involved in a shooting incident on 5/10/98. In connection with the investigation, the Richmond Division deployed Special Weapons and Tactical (SWAT) Team members for the execution of search and arrest warrants. During this exercise, two SAs were involved in a shooting incident resulting in the death of a pit bull dog.

During the execution of the search warrant, SWAT Team Agents attempted to secure two occupants of a residence. As the agents were handcuffing the second subject, a pit bull dog belonging to one of the subject's charged at the arresting agents. Although the owner made several vocal commands to control the animal, as SA [redacted] placed a hand on the subject to handcuff him, the dog lunged forward in the direction of two SAs. The agents were forced to fire upon the dog to prevent being attacked. The dog was incapacitated without harm to the agents or the subjects.

Subsequent investigation determined that approximately 17 rounds were fired at the dog by the two SAs with 16 of the rounds making contact with the animal.

On 8/11/98, the SIRG met to discuss the above captioned shooting incident. Deputy Assistant Director Thomas Lusby, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The two non-voting members present were [redacted] Program Manager, Law Enforcement Training for Safety and

Survival, Practical Applications Unit, Training Division, and [redacted] Inspection Analyst, Office of Inspections, Inspection Division. b6 b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that the use of deadly force by SAs [redacted] and [redacted] was justified and in accordance with the current deadly force policy.

The only observation made by SIRG members pertained to a comment in SA [redacted] signed, sworn statement. According to him, the dog was in a lying position in front of the doorway and he fired a final round into the head of the dog to prevent further suffering. Members opined that the final shot by SA [redacted] was not necessary since other authorities could have been called to handle the situation. This issue will be emphasized to the SAC of the Richmond Division.

DETAILS:

In July, 1997, the Cincinnati Division, Columbus Resident Agency (CRA) began the investigation of an international marijuana trafficking ring captioned, [redacted] MDTO; Case #281C-CI-67770. This investigation was predicated on information received from a New Haven Division investigation which had identified the two Ohio subjects as buyers. In the fall of

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

1997, a Miami Division investigation had also identified subject [redacted] as a buyer of marijuana from the subjects of the Miami case. [redacted] was arrested by CRA in May, 1998. Further investigation from Miami identified additional subjects [redacted] Delaware, Ohio (CRA territory), [redacted] aka [redacted] Akron, Ohio, [redacted] Briarcliff Manor, New York, and [redacted] all of whom were primary customers of a [redacted] was originally from Ohio and historically the majority of the transactions between [redacted] and the subjects occurred in the Columbus, Ohio area. Between 1994 and 1997, the [redacted] The largest percentage of the marijuana was sold to [redacted] and [redacted] who then distributed the marijuana to points throughout Ohio.

b6
b7C
b7D

In April, 1998, Miami Division's [redacted] in a series of consensually recorded telephone conversations with the above listed subjects. During these conversations [redacted] advised he [redacted]

By EC dated 6/2/98, Miami Division requested Cincinnati Division to assist with arranging four separate reverse undercover operations to sell 500 pounds of marijuana to [redacted] 500 pounds of marijuana and 5 kilograms of cocaine to [redacted] 10-20 kilograms of cocaine to [redacted] and 400 pounds to [redacted] who, prior to the finalization of the plan, withdrew his request. SAC, Cincinnati approved the CRA to assist Miami with this request contingent upon review and approval of specific detailed plans of how each reverse would be conducted.

By EC dated 6/5/98, Senior Supervisory Resident Agent (SSRA) [redacted] submitted a draft Operations Plan to Assistant Special Agent in Charge (ASAC) Henry E. Ragle, III for review and approval detailing how each reverse would be carried out. On 6/8/98, the Operations Plan was discussed at a meeting which included Cincinnati SAC, ASAC Ragle, SWAT Team Leader SA [redacted] and SWAT Team members SAs [redacted] and [redacted] Supervisory Special Agent (SSA) [redacted] who is the Cincinnati Drug Program Coordinator, and Technically Trained Agent (TTA) [redacted] Contingent upon certain minor changes and additions to the plan, the overall plan was orally approved by the SAC.

b6
b7C
b7D

The Miami Agents [redacted] traveled to Columbus, Ohio on 6/8/98 and [redacted]

On 6/10/98, arrangements were made for [redacted] to [redacted] sampled the cocaine and put a small amount in a small plastic bag to take with him to test. At that time [redacted] had still not completely committed to purchasing any cocaine, advising that he had just purchased cocaine in Cleveland and didn't really need anymore. [redacted] that he would test the cocaine and get back to the [redacted] was under constant surveillance from the time he left his residence for the 1:00 p.m. meeting until he returned to the hotel at approximately 3:40 p.m. to complete the transaction. b6 b7C b7D

After [redacted] departure from the hotel following the 1:00 p.m. meeting, the plan to arrest [redacted] was again reviewed and the SWAT Team members who were to participate in the arrest [redacted]

[redacted] shortly before 3:30 p.m. and advised that he would purchase five kilograms of cocaine for $110,000. [redacted] immediately left his residence and, under surveillance, returned to the Hampton Inn. [redacted] entered [redacted] room carrying a duffel bag. He handed the bag to [redacted] who was standing at the foot of the bed as he was directed to do in accordance with the plan. As [redacted] took the money out of the bag, [redacted] examined the five bricks of cocaine. He indicated he wanted to take the cocaine out in the same bag he had carried into the hotel as it had his name on it. [redacted] emptied the money from the bag and returned it to [redacted] who packed the cocaine into the bag. As he closed the bag, the arrest team entered the room with SA [redacted] the first of the four SWAT members to enter. (The aforementioned activities were all monitored and recorded by video equipment in the adjacent hotel room. The recorder was turned off as soon as the SWAT Team entered the hotel room, however the video camera continued to run enabling personnel in the adjacent room to monitor the arrest.) The first three SWAT Team members to enter the room did so with their weapons drawn. The SWAT Team announced "FBI" and [redacted] was instructed to "freeze." [redacted] did not immediately comply and backed up to the bed, leaning or falling back on it and beginning to slide away from SA [redacted] who was attempting to gain control of him. As SA [redacted] was exerting pressure with his left hand on [redacted] right shoulder to forcefully pull [redacted] toward him, SA [redacted] accidentally discharged his weapon which was in his right hand. The bullet struck [redacted] in the left arm. b6 b7C b7D

One of the SWAT Team members who is a certified Emergency Medical Technician (EMT) began rendering immediate medical attention to [redacted] and an ambulance was immediately summoned. He was transported to Riverside Hospital where he underwent surgery to remove the bullet and was subsequently listed in stable condition.

The Dublin Police Department responded to the scene and the Ohio Bureau of Criminal Identification and Investigation was summoned to conduct the crime scene investigation. At that time, neither agency expressed a desire to interview SA [redacted] or any of the other SWAT personnel. b6 b7C

On the morning of 6/11/98, after being advised by the chief trauma team doctor that [redacted] was coherent and could be interviewed [redacted] was advised of his rights utilizing an "Interrogation; Advise of Rights" form. He refused to sign the form or orally waive his rights. He expressed his desire to talk with an attorney therefore no interview was conducted.

[redacted] initial appearance took place on 6/11/98 in the hospital at which time he was charged on a criminal complaint charging him with one count of possession of cocaine with intent to distribute. He was subsequently discharged from the hospital that afternoon and placed in the Franklin County Jail. At a detention hearing on 6/16/98, U.S. Magistrate Judge Norah M. King ordered that he be held without bond.

At the request of the Department of Justice, Civil Rights Division, several follow-up interviews were conducted. These interviews did not reveal additional information concerning the shooting incident.

Title:

ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
LOS ANGELES DIVISION
7/3/98

Character: ADMINISTRATIVE INQUIRY

Synopsis: On July 3, 1998, Special Agents (SAs) assigned to the Santa Ana Resident Agency of the Los Angeles Division of the FBI, and a Sheriff's Deputy from the Orange County Sheriff's Department (OCSD), were assigned to conduct a "stakeout" at three banks in Orange County, California. The FBI and the OCSD had formed a bank robbery task force called B.R.A.T. (Bank Robbery Apprehension Team) to conduct investigations of bank robberies in Orange County.

On July 3, 1998, at approximately 8:00 am, SA [redacted], assigned to B.R.A.T., held a briefing in San Clemente, California attended by SAs [redacted] and Det. [redacted] OCSD. During the briefing, SA [redacted] furnished the bank robber's description, the available bank surveillance photographs of the robber and his clothing attire, normally a suit and tie, which earned him the nickname of "accountant bandit." SA [redacted] informed the involved personnel that the robber should be considered armed and dangerous. This was due to the nature of the offense and the fact that the robber in the past had carried a chrome colored handgun in his waistband. SA [redacted] made surveillance assignments for personnel at three Union Banks which were identified in his operational plan and approved by Supervisory Special Agent [redacted]

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

SA [redacted] operational plan was to have three two man teams staked out at three Union Banks either at or near San Clemente, Califorina. SA [redacted] and Det. [redacted] were to be set up at the Union Bank located at 810 Avienda Pico in San Clemente. All three of the banks had been robbed by the same robber on prior occasions.

At approximately 9:00 am, SA [redacted] and Det. [redacted] commenced their surveillance of Union Bank. It had previously been determined that SA [redacted] would be inside the bank to observe customers. He maintained contact with Det. [redacted], who was observing the bank from a vehicle west of the building, through a hand held radio. SA [redacted] had also notified personnel at the bank of his presence. Several of the bank employees knew the description of the robber, as he had robbed that Union Bank branch three prior times. b6 b7C

At about 11:55 am, a bank employee told SA [redacted] that a person matching the description of the robber was standing in the customer service line. A moment later, the bank manager also signaled to SA [redacted] the subject was inside the bank. SA [redacted] immediately notified Det. [redacted] the subject may be in the bank.

SA [redacted] was not certain if the person in the bank was the same as the serial robber they were looking to arrest. He watched as the person walked up to a teller window carrying a small briefcase. At this time, he observed the teller take a large bundle of U.S. currency and place it on the counter. In addition, a closer look at the person convinced him this was the robber they were searching for. SA [redacted] believed he had just witnessed a bank robbery and he also believed the robber was in fact the accountant bandit.

As the robber turned to leave, SA [redacted] observed the briefcase in one of his hands and a large bundle of cash in the other. SA [redacted] decided this would be the safest time to apprehend the robber since both of his hands were occupied and he knew Det. [redacted] would be there momentairily. b6 b7C

SA [redacted] drew his hand gun and pointed it at the robber. SA [redacted] weapon was a personally owned Bureau approved .45 Caliber semi-automatic, Sig Sauer Model P220, serial number G218365. He told the robber he was with the FBI and that he was under arrest. SA [redacted] had positioned himself so his weapon was pointed at the robber and away from any bank employees or

customers. SA [redacted] used his left hand in an attempt to guide the robber to the ground. Initially the robber complied, but then suddenly stood up. The robber dropped the cash and the briefcase while SA [redacted] continued to try to control him with his left hand.

SA [redacted] attempted to pull the robber outside the bank to get assistance from Det. [redacted] who he knew to be coming towards the bank. As the two of them approached the exit door, the robber broke free from SA [redacted] grasp and turned away from him. The robber placed both of his hands near his waist and out of sight of SA [redacted]. The robber then began to quickly turn around towards him. SA [redacted] believed the robber had retrieved a weapon and was about to make an attempt to kill him. SA [redacted] fired one round towards the robber who was approximately 7 to 10 feet from him. The round missed the robber and struck the deposit/withdrawal counter inside the bank.

b6
b7C

After the shot, the robber ran back towards the center of the lobby. At that point SA [redacted] was able to see that the robber did not have a weapon in his hands. He ran to the robber and once again attempted to control him with his left hand while still holding his weapon in his right hand. As the two of them struggled, the robber once again bent over reaching for something on his person. This time he stood up holding what appeared to be a small cannister, later determined to be pepper spray. The robber began spraying SA [redacted] face to include his eyes. SA [redacted] began experiencing a burning sensation in his eyes. He once again felt threatened as he believed he may become disoriented and the robber would have an opportunity to take his gun and either shoot him or others.

SA [redacted] began to strike the robber with his right hand while still holding his weapon. He struck the robber three or four times in the area of the robber's head. During the entire time, the robber continued to spray SA [redacted] in the face with pepper spray. Using his left hand, SA [redacted] was finally able to get the robber to the exit door where they were met by Det. [redacted] The three of them exited the bank and fell on the ground near the front of the bank's door.

Once outside the bank, the robber continued to struggle with both SA [redacted] and Det [redacted] Within a few moments assistance arrived from OCSD patrol units in the area. The robber ws handcuffed and paramedics were requested. The paramedics arrived at the scene within a few minutes of being called. They provided the robber initial first aid and then transported him in custody to the Mission Hospital Regional Medical Center for further medical care. The robber sustained injuries to his head following the struggle.

b6
b7C

The robber was identified as [redacted] using the alias of [redacted] He was found to be on parole in the State of California.

SA [redacted] and Det. [redacted] also received abrasions from the struggle. They both were treated and released from Mission Hospital Regional Medical Center in Mission Viejo, California. b6 b7C

OCSD Homicide-Officer Involved Shooting Team and the Los Angeles Agent Involved Shooting Team responded to the scene. A joint investigation was conducted.

Neighborhood investigations were conducted at the shooting scene, along with witness interviews.

Photographs were taken of the crime scene area by both the FBI and OCSD. OCSD conducted the crime scene investigation.

OCSD furnished the FBI their written reports regarding the shooting incident.

Recovered at the scene was a replica of a chrome colored semi-automatic handgun which was determined to be a BB gun. Also recovered was the canister of pepper spray, along with the recovered bank money and [redacted] briefcase.

On July 15, 1998, a true bill indictment was returned by Federal Grand Jury, Los Angeles charging [redacted] with violations of Title 18, U.S. Code, Section 2113 (a) and 111; Bank Robbery and Assaulting a Federal Officer, respectively.

[redacted] is currently incarcerated in the Metropolitan Detention Center (MDC) in Los Angeles, California, pending further trial.

- P -

DETAILS:

This case is predicated upon information that SA [redacted] assigned to the Santa Ana Resident Agency of the Los Angeles Division of the Federal Bureau of Investigation (FBI), had been involved in a shooting incident at approximately 11:55 am, July 3, 1998, during the apprehension of [redacted] who had just committed a bank robbery at a Union Bank in San Clemente, California.

Re: 66-19157-22, 11/23/1998

Details of the Shooting Incident

On 2/4/98, SA [redacted] arrived on the scene of an accident where a motorist had collided with a moose. SA [redacted] was driving his personally owned vehicle on a paved, four lane, divided highway, with a 20 foot wide ditch separating the north and southbound lanes of traffic with moderate but sporadic traffic. It was dark with no street lights and the temperature was approximately 32 degrees with wet and icy roads.

The vehicle in front of SA [redacted] began braking rapidly and came to an almost complete stop in the roadway. SA [redacted] slowed his vehicle to a near stop. After a few seconds, the vehicle pulled into the right lane and continued southbound. SA [redacted] saw a large moose lying in the southbound passing lane. The animal's midsection was bloody and it appeared to have been hit by a car that had stopped about 90 feet further down the road.

SA [redacted] stopped his vehicle approximately 25 feet from the moose with his emergency flashers activated to alert approaching motorists. SA [redacted] did not have a phone in his possession nor did he have emergency flares or equipment. He exited his vehicle to assess the situation, identify and aid possible victims and to find a way to notify the appropriate emergency agencies.

Another motorist had stopped at the victim driver's car door to ensure the safety of everyone and SA [redacted] approached the moose. He noted that although the moose was severely injured, it was still alive and conscious. The animal's midsection was bloody and its right back leg was badly broken. Suddenly, the moose began moving its left leg and rocking back and forth in an attempt to stand. As SA [redacted] and another individual approached, the moose became agitated and increased its efforts to stand.

In the interest of public safety, SA [redacted] felt compelled to dispatch the animal before anyone was injured. SA [redacted] advised the other bystander of his identity and requested that he return to his vehicle. The motorist advised that he would leave the scene and attempt to notify the Anchorage Police Department.

SA [redacted] determined the safest course of action would be to approach the right side of the moose's head and fire several shots into the animal's right eye socket. SA [redacted] fired four rounds from his FBI issued Sig Sauer P228 nine millimeter

b6
b7C

b6
b7C

pistol into the animal's right eye socket. After waiting approximately 30 seconds to verify that the animal was immobilized and dying, SA [redacted] holstered his weapon and proceeded to the victim driver's vehicle. He determined that the driver of the vehicle was not injured.

Another motorist stopped at the scene and advised that he was an Emergency Trauma Technician and offered his help. At that time, SA [redacted] noticed that the moose was moving around and struggling to stand again. SA [redacted] returned to the moose and after ensuring that all bystanders were out of the line of fire, fired four additional rounds into the moose's left eye socket. The moose began struggling to move its head and forebody causing SA [redacted] to fire four additional rounds into the moose's forehead. After several seconds, the moose's breathing became shallow and sporadic. Although not dead, the moose made no further attempts to stand.

Once it was apparent that the moose no longer posed a danger to anyone's safety, SA [redacted] holstered his weapon and began to flag down passing motorists in an attempt to locate someone with a cellular phone.

b6
b7C

A motorist stopped and SA [redacted] used his phone to report the accident. Within a few minutes, an Anchorage Police Department squad car arrived and checked the condition of the moose. The officer advised SA [redacted] that another unit would arrive and probably shoot the animal one last time with a shotgun slug. Upon the arrival of the second squad car, an officer approached the moose and fired a single shotgun slug into the moose's head.

On 10/14/98, the SIRG met to discuss the above captioned shooting incident. Deputy Assistant Director Thomas Lusby, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: Mark J. Mershon, Chief Inspector, Office of Inspections, Inspection Division; [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Personnel Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, NS-2B, National Security Division; [redacted], Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section,

Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The two non-voting members present were [redacted] Unit Chief, Investigative Law Unit, Office of General Counsel, and [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that this shooting incident involved an intentional discharge of SA [redacted] weapon. The only issue discussed by SIRG members was the fact that SA [redacted] should have realized that a nine millimeter pistol would not kill a moose and that he should have resolved the matter by contacting animal control to secure the moose. This matter will be discussed with the SAC. Members unanimously concurred that no administrative action should be taken against SA [redacted] as a result of his involvement in this shooting incident.

Re: 66-19157-11 06/23/1998

Details of the Shooting Incident

This shooting incident was a result of an investigation of [redacted] and [redacted] two suspected armored car robbers operating in the Cleveland, Ohio, area. These individuals were identified in 1995 as suspects in three armored car robberies. Information was developed that these robberies involved unprovoked shootings and the use of ballistic vests and armor-piercing ammunition. The Cleveland Division conducted periodic surveillances and spot checks of both subjects beginning in 1995. b6 b7C

On 2/12/98, the Special Operations Group (SOG) located both subjects together casing a Brinks armored car route. Based upon information developed from the surveillances, it was believed that the subjects were in the planning stage of another armored car robbery. Executive Management of the Cleveland Division instructed the SOG to begin daily surveillance of both individuals. Additionally, Cleveland Division management and a Special Weapons and Tactics Team (SWAT) Team Leader began nightly meetings to discuss the activities of the subjects and a possible arrest plan.

At approximately 9:00 a.m., on 3/4/98, the subjects were observed departing [redacted] residence in [redacted] personally owned Chevrolet van. Both subjects were surveilled to an apartment complex on the southwest side of Cleveland. The subjects departed the apartment complex in separate vehicles with [redacted] driving a Ford minivan which was determined to be stolen. Special Agent in Charge (SAC) Van A. Harp was notified of this information and dispatched Assistant Special Agent in Charge Louis Frederick Allen to the area.

The subjects were surveilled to a gas station where they were observed transferring baggage from [redacted] van to [redacted] stolen van. The subjects were observed traveling to a K-Mart parking lot where [redacted] parked his vehicle and departed with [redacted] in the stolen van. [redacted] stolen van was later observed in the parking lot at the Star Bank which was one of several locations identified as potential armored car robbery sites based on previous surveillance. SA [redacted] contacted the Brinks Armored Car Company and had the armored car intercepted in order to prevent it from making its usual stop at the bank. An operational plan had been discussed whereby the Brinks armored car servicing the potential robbery site would be diverted by agents, making the subjects abort the robbery and return to the switch vehicle where their guard would be at its b6 b7C

lowest. Agents on the scene believed that at this point enough probable cause existed to arrest the subjects for the attempted armored car robbery.

At approximately 11:30 a.m., the Cleveland SWAT Team effected a felony car stop as [redacted] and [redacted] returned to the switch site in the K-Mart parking lot. [redacted] exited the stolen van and [redacted] began to turn the van around as if to exit the parking lot. Three SWAT vehicles simultaneously approached [redacted] vehicle from both sides and the rear blocking it from exiting the parking lot. [redacted] who had exited [redacted] van, was quickly apprehended near his own vehicle. SWAT agents exited their vehicles and identified themselves to [redacted] who was non-compliant and immediately put his van in reverse and rammed the SWAT van blocking his rear. He then went forward at an angle, ramming the SWAT vehicle to his left. He was reversing his van again when SA [redacted] who was located at the front passenger side of [redacted] vehicle, fired at the subject. SA [redacted] who had taken up a position behind the subject's van, also fired into the rear window of the van as it was accelerating toward him in reverse for the second time. SAs [redacted] and [redacted] stated that they fired at [redacted] when he accelerated forward for the second time in order to protect themselves and other agents. b6 b7C

[redacted] van broke through the chain link fence and came to rest a few feet from a brick wall. He was ordered out of the van and placed under arrest by agents on the scene. Agents discovered that the subject was wearing a bulletproof vest and carrying a fully-loaded Sig Sauer Model 226, nine millimeter semi-automatic pistol. Agents clearing the van observed a blue gym bag which contained a 12-gauge shotgun, a fully loaded Glock nine millimeter pistol with two extra magazines, an AK 47 semi-automatic rifle with a sawed-off stock, two magazines for an AK 47 taped together, a fully loaded Glock 45 caliber pistol, a fully loaded Glock 45 caliber magazine, a barrel-drum magazine, a bulletproof vest, a can of mace and handcuffs. [redacted] suffered multiple gunshot wounds to the face, arm and shoulder. He was transported to the emergency room of the Metro Health Medical Center in Cleveland by emergency medical services and is recovering from his wounds. b6 b7C

On 6/15/98, the SIRG met to discuss the above captioned shooting incident. Chief Inspector [redacted] Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Civil Rights Section, Criminal Division,

USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Administrative Services Division; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; SSA [redacted], Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that this incident involved the intentional discharge of the weapons of the four agents who fired. Members also unanimously concurred that the use of deadly force in this incident was justified and in conformance with the current deadly force policy. This discussion resulted in the recommendation that no administrative action be taken against any employee involved in this shooting incident.

All members opined that, although not written, the Cleveland Division had developed extensive plans regarding the arrest of the subjects prior to the incident. Consideration was given to the fact that the subjects were known to use vests as well as armor piercing ammunition. Attendees commended the division for its outstanding coordination among all entities at the scene and also voiced the opinion that this task force could be used as a model for other Bureau offices. In particular, one member defined the task force as "doing the job right" and ensuring that "everything was covered."

A short discussion ensued regarding two issues raised by attendees. The first was the fact that an agent shot through

a curtained window in the van. Members discussed the fact that although the agent shot through the window, he knew no passengers were in the vehicle, therefore, third party injuries were not a concern in this instance.

The second issue related to the fact that, although thoroughly coordinated between the Cleveland Division and FBIHQ, and based on a previous agreement between the FBI and the Cleveland Police Department, members of the Police Department had conducted interviews after the incident. Although this is acceptable, members opined that SAC Harp may want to consider having an SA present when police are conducting interviews since the use of joint statements is preferable.

Re: 66-19157-52, 06/22/1998

**Details of the Shooting Incident**

On 3/12/98, SA [redacted] of the Carbondale Resident Agency (RA), Springfield Division, obtained a federal search warrant for the residence of [redacted] in Colp, Illinois. The search warrant was for crack cocaine, United States currency, and other drug related materials.

On 3/14/98, at 4:30 a.m., SSRA [redacted] b6 b7C conducted a briefing at the Carbondale RA with members of the search team regarding the case and the planned searches for the morning. At approximately 5:00 a.m., the officers and agents broke into two groups based on their target search. The individuals responsible for conducting the search of the [redacted] residence went into SSRA [redacted] office where he provided a packet of information regarding the search. The packet included a copy of the search warrant, hand drawn map of the residence, photographs of the subject as well as his criminal history, a photograph of the residence, a copy of the affidavit supporting the search warrant, and an assignment sheet. Detailed discussions were conducted regarding the fact that [redacted] was known to keep a gun in his bedroom. Additionally, the group discussed in detail entry plans and assignments were made by SSRA [redacted] based on the experience level of the officers and agents present.

At approximately 6:00 a.m., the search team arrived at the residence and the front door was forced open by SA [redacted] using a ram. Officers, announcing police and FBI, began entry into the premises.

Sergeant [redacted] was the first officer through the door, followed by Special Federal Officer [redacted] b6 [redacted] These officers proceeded to the back bedroom and forced b7C the partially ajar door open. Upon entering the room, the subject was moving in an easterly direction towards the side kitchen door, holding a .22 caliber silver [redacted] handgun in his hand. Officer [redacted] yelled gun and dropped to his knees along side of the bed. [redacted] aimed at Officer [redacted] and fired one round which was subsequently retrieved from the bed mattress adjacent to where Officer [redacted] was crouched. Officer [redacted] fired four rounds at the subject who was near the doorway to the kitchen from the north bedroom. Officer [redacted] who had entered the rear bedroom behind Officer [redacted] fired four rounds in the direction of [redacted] At this point, SSRA [redacted] was in the living room and approaching the entrance to the kitchen. He observed

the subject backing from the bedroom into the kitchen with his gun in his right hand and a magazine in his left hand. Officers were yelling at [redacted] to drop the gun and get down but [redacted] did not obey the command. As he was backing into the kitchen, [redacted] turned toward the area where SSRA [redacted] was located, resulting in SSRA [redacted] firing one round. Officer [redacted] who was to the right of SSRA [redacted] also fired one shot at [redacted] fell to the floor and his gun slid away on the floor further into the kitchen.

[redacted] was then handcuffed and SA [redacted] applied pressure to the wound in his stomach with a sock obtained from the residence. An ambulance was called and transported the subject to the Herrin Hospital. [redacted] suffered from three gunshot wounds identified as one in his left upper arm, the left abdomen and the left hip. The subject fully recovered from these injuries.

b6
b7C

After the shooting incident, all individuals firing their weapons were administered a breathalyser by a member of the Carbondale Police Department. The weapons and magazines of all shooters were surrendered to the Illinois State Police, Division of Forensic Services, who conducted the crime scene investigation.

It was subsequently determined that the weapon used by [redacted] was a .22 long rifle caliber Jennings pistol, which contained a magazine and six cartridges with one round partially seated in the chamber. An extra magazine was found behind the stove in the kitchen which contained six cartridges. The weapon apparently jammed after [redacted] fired the first round at Officer [redacted]

On 6/15/98, the SIRG met to discuss the above captioned shooting incident. Chief Inspector [redacted] Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted], Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Administrative Services Division; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted], Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted], Unit Chief, Firearms Training Unit, Training

b6
b7C

Division (TD); and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that this incident involved an intentional discharge of the weapons of SSRA [redacted] and other law enforcement participants. Members also unanimously concurred that the use of deadly force was in conformance with the current deadly force policy and that no action should be taken against SSRA [redacted] as a result of his involvement in this shooting incident.

b6
b7C

**Details of the Shooting Incident**

The Salt Lake City Division Violent Crimes Task Force (VCTF) became involved in this investigation on 3/6/98, based on a request for assistance from the Utah Department of Corrections (UDOC). Authorities of the UDOC requested assistance under the provisions of the Unlawful Flight statute. The UDOC had obtained a state felony warrant charging the subject with Absconding Parole Supervision and Failure to Complete Community Correctional Center Program. The subject's original incarceration was for theft; however, his criminal record reflected an extensive arrest record including assault on a peace officer where he was shot by a Salt Lake County Sheriff's Deputy on 7/14/94. The subject was a known gang member affiliated with the Aryan Brotherhood and Skinheads.

On 4/30/98, local authorities arrested [redacted] in Salt Lake City. During this arrest, a single gun shot was fired by an unknown person. A subsequent local investigation determined that [redacted] was the individual responsible for firing the gun shot. As a result of this incident and the specific request from the UDOC, efforts to locate [redacted] were intensified by the VCTF. On 5/1/98, VCTF Supervisory Special Agent (SSA) [redacted] had a squad meeting which included local, state and federal officers assigned to the task force. The background and known violence of [redacted] was discussed during this meeting. SSA [redacted] instructed that the investigation concerning [redacted] be conducted utilizing two six-member teams consisting of VCTF personnel and that protective body armor was to be worn during any contacts made in an effort to locate the subject.

b6
b7C

On 5/1/98, information was developed that [redacted] was staying in Magna, Utah, and that he was in possession of a firearm. Information was also received that [redacted] had been in the area with a female companion on 4/30/98, and that he appeared not to be in a very stable state of mind. Another individual stated that she had seen [redacted] with a handgun. Information was also gathered that [redacted] had called an acquaintance asking for some clothes so he could get out of town.

Information was received on 5/6/98, that [redacted] was in a residence located in Layton, sleeping in a back bedroom of a trailer and that he was in possession of a "silver colored handgun". It was reported that a 16 year old and a four year old were also occupants of the trailer.

Following receipt of this information, personnel of the VCTF, the Ogden Resident Agency (RA), the Ogden VCTF, Northern Utah Criminal Apprehension Team and Layton Police Department (LPD) met and were briefed on the subject's background, including information about the 4/30/98 shooting.

A decision was made during the meeting to request the LPD SWAT Team for assistance. A plan was formulated for a perimeter to be established around the trailer by two three-man teams, and occupants of nearby trailers would be evacuated to a safe location away from the scene.

As members of the two teams were moving to their predetermined locations on opposite sides of the trailer, the subject appeared in the doorway, and looked in the direction of the team located northwest of the trailer. Task Force Officer [redacted] yelled commands to the subject "This is the police, step out and put your hands in the air." The subject quickly disappeared back into the trailer, immediately reappeared with a pistol in his left hand, and fired at the team members. The subject quickly ducked back into the trailer and within seconds reappeared with the gun still in his hand, and pointed it directly at Officer [redacted] Officer [redacted] fired one slug round from his shotgun, and the subject appeared to fall back into the trailer. Simultaneously, the southeast side perimeter team was arriving at their location, observed the subject's movements, and heard Officer [redacted] shouts to the subject. VCTF Officer [redacted] and SA [redacted] fired one round each and the subject ducked back into his trailer. Within moments, the subject threw a handgun out of doorway landing on the driveway in front of the trailer and exited the trailer with his hands in the air. Although officers could see that the subject was bleeding, he would not comply with commands given to him to submit to arrest and for the next 40 minutes yelled obscenities and acted in an irrational fashion. He continued to fail to comply with verbal commands from various officers and agents attempting to convince him to lie on the ground and submit to arrest. The subject continually moved around the area in front of his trailer, walking around and standing close to the handgun on the driveway. He made numerous movements with his body and hands as though he was going to retrieve the handgun. SA [redacted] who observed the subject's movements and overheard the subject's yells at the various law enforcement officers became concerned for the safety of everyone involved in this incident. As the subject made one of his movements in the direction of the handgun, SA [redacted] fired one slug round from a Remington 870 shotgun. The round hit the weapon causing it to spin around on

b6
b7C

the pavement. The subject reacted by jumping back from the weapon, however, did not give up or comply with any verbal commands. The LPD SWAT Team arrived on the scene and as they were approaching the trailer a police dog barked. The dog's bark immediately gained the subject's attention, and as the SWAT Team was approaching the trailer the subject asked them not to use the dog and immediately complied with commands to lie on the ground and was placed under arrest.

[redacted] was transported to the University of Utah Medical Center where he received medical attention for his gunshot wound.

On 8/11/98, the SIRG met to discuss the above captioned shooting incident. Deputy Assistant Director Thomas Lusby, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted], Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The two non-voting members present were [redacted] Program Manager, Law Enforcement Training for Safety and Survival, Practical Applications Unit, Training Division, and [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

A lengthy discussion ensued regarding the use of deadly force by the agents involved in this shooting incident. Members

unanimously concurred that the use of deadly force in this incident was justified and that shots fired by SA [redacted] as well as the task force officers were in conformance with the current deadly force policy. However, members questioned the shot taken by SA [redacted] Participants discussed the fact that although the current deadly force policy specifically addresses warning shots and the disabling of vehicles, it does not technically address the disabling of weapons. The OGC representative verified that the "imminent danger" aspect continued to be in place during this entire incident when the subject was attempting to gain access to his weapon. Additionally, based on the subject's previous history and his actions that day, he had the intent to use the weapon if access was gained. Members emphasized the fact that the discharge of SA [redacted] weapon was not intended to neutralize the subject and, therefore, could technically be considered a violation of the current deadly force policy. This resulted in the recommendation that SA [redacted] be censured for his lack of good judgment in attempting to neutralize the subject's weapon instead of the subject. Members opined that he should have considered potential injuries to third parties before shooting at the subject's weapon and unanimously agreed that SA [redacted] should receive remedial training regarding the current deadly force policy. b6 b7C

Although no recommendations were made, members made the following observations about the shooting incident: 1) the arrest plan contained deficiencies allowing a "cross fire" situation which could have resulted in officer safety issues as well as potential danger to the public and that this could have been eliminated if SA [redacted] had advised that he was going to fire a shot; 2) there was no management, direction or control provided on the scene due to the failure of the acting supervisor to advise office management of the situation until after the shooting incident; and, 3) the acting supervisor failed to provide proper leadership. Additionally, members noted the fact that the acting supervisor deployed SWAT Teams without the required notification, concurrence and onsite presence of an SAC or ASAC. Based on this discussion, the SAC will be advised to ensure that Acting SSA [redacted] is provided guidance regarding the duties of a supervisor. b6 b7C

Re: 66-19157-10, 09/15/1998

Details of the Shooting Incident

On 6/10/98, at approximately 3:45 p.m., SA [redacted] accidentally discharged his firearm as a four member Special Weapons and Tactics (SWAT) Team was effecting the arrest of a subject following a reverse drug transaction. This accidental discharge resulted in the personal injury of [redacted] a subject in the investigation. b6 b7C

In July 1997, the Cincinnati Division began the investigation of an international marijuana trafficking ring. In April 1998, the Miami Division engaged in a series of consensually recorded telephone conversations. Based on information gained from these activities, the Miami Division requested that the Cincinnati Division assist with arranging four reverse undercover operations. The SAC of the Cincinnati Division approved the request contingent upon review and approval of specific detailed plans of how each operation would be conducted. A draft copy of the Operations Plan was submitted to the Cincinnati Division management for review and approval detailing how each operation would be carried out. Contingent on certain minor changes and additions to the plan, the overall plan was orally approved by the SAC.

[redacted] b6 b7C b7D

After the subject's departure from the hotel following the 1:00 p.m., meeting, the plan to arrest the subject was again reviewed and the SWAT Team members participating in the arrest did a walk through [redacted] to ensure everyone involved was familiar with how the arrest would take place.

[redacted]

as he closed the bag, the arrest team entered the room with SA [redacted] being the first member of the SWAT Team to enter. The recorder was turned off as soon as the SWAT Team entered the hotel room, however the video camera continued to run enabling personnel in the adjacent room to monitor the arrest. The SWAT Team announced "FBI" and the subject was instructed to "freeze". The subject did not immediately comply and backed up to the bed, leaning or falling back on it and began to slide away from SA [redacted] who was attempting to gain control of him. As SA [redacted] was exerting pressure with his left hand on the subject's right shoulder to forcefully pull the subject toward him, SA [redacted] accidentally discharged his weapon striking the subject in the left arm.

A SWAT Team member who was a certified Emergency Medical Technician began rendering immediate medical attention to the subject and an ambulance was summoned. The subject was transported to Riverside Hospital where he underwent surgery to remove the bullet and was subsequently listed in stable condition.

Local and state investigative agencies were summoned to conduct the crime scene investigation.

On the morning of 6/11/98, after the subject was coherent and could be interviewed according to the doctors, he was advised of his rights. The subject refused to sign the form or orally waive his rights expressing his desire to talk with an attorney therefore no interview was conducted. The subject was subsequently discharged from the hospital that afternoon and placed in the Franklin County Jail.

On 8/11/98, the SIRG met to discuss the above captioned shooting incident. Deputy Assistant Director Thomas Lusby, Inspection Division, chaired the meeting with the following [redacted] Trial voting members of the SIRG in attendance:

Attorney, Civil Rights Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The two non-voting members present were [redacted] Program Manager, Law Enforcement Training for Safety and Survival, Practical Applications Unit, Training Division, and [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

The only issue discussed by SIRG members involving SA [redacted] regarded the fact that during the arrest of [redacted] he began to reach for the subject with his left hand, still holding his weapon in his right hand. Members reiterated the fact that proper training dictates that weapons should be secured prior to physically handling subjects. Participants unanimously concurred that SA [redacted] violated a second safety rule by having his finger inside the trigger guard. Members opined that SA [redacted] disregarded both of these rules which resulted in the accidental discharge of his weapon. This discussion resulted in the recommendation that SA [redacted] be censured and suspended from duty for a period of three days.

b6
b7C

The last issue in this shooting incident involved the weapon being used by SA [redacted] According to his signed sworn statement, SA [redacted] was carrying his Les Baer 45 caliber pistol, which is a Hostage Rescue Team (HRT) exclusive "program" weapon which non-HRT SAs have no authority to carry. The TD representative advised that since the TD is the sole

approving authority for weapons used by the general agent population, this issue will be handled by TD management.

Re: 66-19157-26, 11/23/1998

**Details of the Shooting Incident**

On 7/3/98, SAs assigned to the Santa Ana Resident Agency and a Sheriff's Deputy from the Orange County Sheriff's Department (OCSD) were assigned to conduct a "stakeout" at three banks in the Orange County area. These individuals were assigned to the Bank Robbery Apprehension Team (BRAT) Task Force to conduct investigations of bank robberies in Orange County. b6 b7C

At approximately 8:00 a.m., on 7/3/98, SA [redacted] held a briefing in San Clemente with other agents and local officers. During the briefing, SA [redacted] furnished a description of the bank robber, the available bank surveillance photographs of the robber and his clothing attire, normally a suit and tie. This attire earned him the nickname of "accountant bandit". SA [redacted] informed the participants of the meeting that the robber should be considered armed and dangerous due to the nature of the offense and the fact that the robber had previously carried a chrome colored handgun in his waistband. SA [redacted] made surveillance assignments for personnel at three Union Banks which were identified in his operational plan and approved by Supervisory Special Agent (SSA) [redacted] The plan called for three two-man teams staked out at three banks in the San Clemente area. SA [redacted] and Detective [redacted] were to be located at the Union Bank located at 810 Avienda Pico in San Clemente. It should be noted that all three banks involved in the "stakeout" had been robbed by the same robber on prior occasions.

At approximately 9:00 a.m., SA [redacted] and Detective [redacted] began their surveillance of the bank. A previous determination had been made that SA [redacted] would be inside the bank to observe customers. He maintained contact with Detective [redacted] who was observing the bank from a vehicle west of the building using a hand held radio. Bank employees were notified of SA [redacted] presence and several employees knew the description of the robber.

A bank employee advised SA [redacted] at approximately 11:55 a.m., that a person matching the description of the robber was standing in the customer service line. Moments later, the bank manager also signaled to SA [redacted] that the subject was inside the bank. SA [redacted] immediately notified Detective [redacted] that the subject was possibly in the bank. b6 b7C

Since SA [redacted] was not certain if the person in the bank was the same individual as the serial robber they were

anticipating to arrest, he watched as the person walked up to a teller window carrying a small briefcase. He observed the teller take a large bundle of money and place it on the counter. Additionally, a closer look at the person convinced him that this was the robber they were searching for. SA [redacted] believed that he had just witnessed a bank robbery and he also believed that the robber was the "accountant bandit".

As the robber turned to leave, SA [redacted] observed the briefcase in one of his hands and a large bundle of cash in the other. SA [redacted] decided this would be the safest time to apprehend the subject since both of his hands were occupied and he knew Detective [redacted] would be there momentarily. b6 b7C

SA [redacted] drew his personally owned Bureau approved .45 caliber semi-automatic, Sig Sauer Model P220, and pointed it at the robber. He told the robber that he was with the FBI and that he was under arrest. SA [redacted] had positioned himself so his weapon was pointed at the robber and away from any bank employees or customers. SA [redacted] used his left hand in an attempt to guide the robber to the ground. Initially the robber complied with SA [redacted] commands then suddenly stood up. The robber dropped the cash and the briefcase while SA [redacted] continued to try to control him with his left hand.

SA [redacted] attempted to pull the robber outside the bank to get assistance from Detective [redacted] who he knew to be coming towards the bank. As the two of them approached the exit door, the robber broke free from SA [redacted] grasp and turned away from him. The robber placed both of his hands near his waist and out of SA [redacted] sight. The robber then began to quickly turn around towards SA [redacted] SA [redacted] believing the robber had retrieved a weapon and was going to attempt to kill him, fired one round towards the robber who was approximately seven to 10 feet from him. The round missed the robber and struck the deposit/withdrawal counter inside the bank.

After the shot, the robber ran back towards the center of the lobby and SA [redacted] was able to see that the robber did not have a weapon in his hands. He ran to the robber and again attempted to control him with his left hand while still holding his weapon in his right hand. As they struggled, the robber bent over reaching for something. When he stood, he was holding what appeared to be a small canister, later determined to be pepper spray. The robber began spraying SA [redacted] face including his eyes. Feeling threatened and believing that he may become disoriented giving the robber an opportunity to take his gun and b6 b7C

either shoot him or others, SA [redacted] began striking the robber with his right hand while still holding his weapon. He struck the robber three or four times in the head. During the entire time, the robber continued to spray SA [redacted] in the face with the pepper spray. Using his left hand, SA [redacted] was finally able to get the robber to the exit door where they met Detective [redacted] The three of them exited the bank and fell on the ground near the front of the bank's door.

Once outside the bank, the robber continued to struggle with both SA [redacted] and Detective [redacted] Within a few moments, additional assistance arrived from the OCSD patrol units in the area. The subject was handcuffed and paramedics were requested. They provided the robber initial first aid and transported him in custody to the Mission Hospital Regional Medical Center for further medical care where he was treated for head injuries. SA [redacted] and Detective [redacted] also received abrasions from the struggle and were treated and released from the Mission Hospital Regional Medical Center. b6 b7C

Subsequent to the shooting incident, a replica of a chrome colored semi-automatic handgun which was determined to be a BB gun was recovered along with the canister of pepper spray, the recovered bank money and the subject's briefcase.

On 10/14/98, the SIRG met to discuss the above captioned shooting incident. Deputy Assistant Director Thomas Lusby, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Personnel Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, NS-2B, National Security Division; [redacted], Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The two non-voting members present were [redacted] Unit Chief, Investigative Law Unit, Office of General Counsel, and [redacted] Inspection Analyst, Office of Inspections, Inspection Division. b6 b7C

To: Inspection Division From: Inspection Division
Re: 66-19157-26, 11/23/1998

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members held a lengthy discussion regarding this shooting incident. All members agreed that the use of deadly force was justified and in conformance with the current deadly force policy.

The first comment made by a SIRG member was the fact that this "stakeout" called for two-man teams; however, technically this incident involved a one man stakeout at the bank. Operational, training and safety issues relating to this incident included the fact that the participants had a non-existent operational plan, had vague or no communication with each other and that SA [redacted] apparently had no backup. Members also noted that although SA [redacted] believed the subject to be armed, he was in the bank alone with no assistance. Additionally, members discussed the fact that SA [redacted] never attempted to neutralize the subject when he had many reasons to do so, and questioned why he shot towards a counter where people were located. These issues will be brought to the attention of the Assistant Director in Charge of the Los Angeles Division.

Observations made by the SIRG included the fact that there was very little management control provided in construction of the "proposed" operational plan; there was no supervisor on the scene or management oversight provided; and, that bank employees and bank users were unnecessarily subjected to danger. Members agreed that SA [redacted] should not have confronted the subject inside the bank and emphasized that he should have waited until the suspect exited the bank before the confrontation began. Standard operating procedures dictate that you either get the subject before entering the bank or wait until the subject leaves the bank to take action. This discussion resulted in the recommendation that SA [redacted] receive a letter of censure for his lack of judgement in confronting the subject inside the bank. b6 b7C

SIRG members noted that pistol whipping with a cocked weapon with a floating muzzle in the air puts people in jeopardy.

The SIRG unanimously agreed that under this circumstance, the weapon should either be used or holstered.

Re: 297-HQ-A1271898-D, 03/04/1999

Details of the Shooting Incident

On 7/4/98, agents and officers from the PFTF shot and killed a subject who was being sought on a warrant for murder and burglary. The warrant was issued on 7/1/98, for a homicide which occurred in connection with a carjacking. The subject, William John Sershon, was also being sought on felony drug and weapons charges brought by the PPD.

The PPD had recently attempted to arrest Sershon; however, he had eluded them and fled to an apartment complex where he broke into an apartment and hid. When the female occupant of the apartment returned home, Sershon assaulted her at gun point, fled the apartment and left the area in a highjacked vehicle. On 6/23/98, Sershon and a female accomplice, [redacted], highjacked a motor home belonging to Melvin Dean Radtke in the vicinity of Flagstaff, Arizona. Radtke was either pushed or jumped from the vehicle and was run over by the vehicle and killed.

[redacted] turned herself in on 7/2/98, and was debriefed by agents and police officers. She advised that Sershon would return to Phoenix over the weekend and also advised that he was armed with a .357 magnum revolver and a fully automatic AK-47 style assault rifle. [redacted] also stated that Sershon had told her that he would not be taken alive and would not be sent back to prison. According to [redacted] Sershon would shoot it out with anyone who attempted to arrest him. All information provided by [redacted] was provided to members of the PFTF who had been asked to assist in the location and apprehension of Sershon. b6 b7C

[redacted]

members of the task force were able to trace a telephone number. The number came back to a Glendale, Arizona trailer park. Initially, three task force members identified as Lieutenant [redacted] and Detectives [redacted] and [redacted] of the PPD, responded to the trailer park. Sometime after 4:30 a.m., the officers saw an individual they believed to be Sershon. The three officers were subsequently joined by FBI SAs [redacted], and [redacted] as well as PPD Detective [redacted] Task force personnel blocked the front entrance to the trailer park and called the Glendale Police Department and requested that marked units respond to the scene. Additional FBI Agents were also requested to respond. b6 b7C b7D

At approximately 5:45 a.m., while PFTF personnel were finalizing an arrest plan and preparing to set up, Sershon was observed exiting the trailer where he was staying and getting into a blue 1998 Pontiac. He was observed carrying a black bag which was about the size of a shaving kit. [redacted], who was staying at the trailer, later advised that Sershon was carrying a .357 magnum revolver next to the bag. Sershon drove through the trailer park and as he was approaching the front entrance, was cut off by vehicles driven by task force personnel. Vehicles driven by FBI SA [redacted] and PPD Detective [redacted] who was accompanied by FBI SA [redacted] blocked the subject's escape route from the front and a vehicle driven by PPD Detective [redacted] blocked the subject from the rear. Sershon attempted to escape by rapidly making a U-turn to his right; however, he ran into a nearby trailer. Sershon quickly reversed the car and attempted to ram through a fence that marked the perimeter of the trailer park. His vehicle was unable to penetrate the fence and came to rest as it struck a storage shed on the other side of the fence. b6 b7C

Several of the PFTF personnel, who were wearing clothing that identified them as law enforcement personnel, approached the subject's vehicle. Several of them shouted surrender commands; however, Sershon stated that he would not be taken alive and crouched down as if to reach into the floorboard area of his vehicle. The task force personnel members also heard Sershon make a statement to the effect that if they did not kill him, he would kill himself. When Detective [redacted] observed Sershon come up with a weapon in his hand, he fired his Glock .40 caliber semi-automatic pistol. SA [redacted] fired his Colt M-4 A1 .223 caliber carbine. Several rounds struck Sershon, who was pronounced dead at the scene by Glendale Emergency Response personnel.

The Glendale Police Department conducted the crime scene assisted by FBI Evidence Response Team Coordinator [redacted] A Smith and Wesson Model 686, .357 magnum, was recovered from the passenger compartment of the subject's vehicle. The weapon's serial number was run through the National Crime Information Center and determined to be stolen from the victim of the 6/23/98, carjacking/homicide that Sershon was charged with. b6 b7C

On 1/6/99, the SIRG met to discuss the above captioned shooting incident. Chief Inspector [redacted] Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ;

[redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; [redacted] Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD) [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division. b6 b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that this shooting incident involved an intentional discharge of the weapons of SAs [redacted] and [redacted] as well as PPD Officer [redacted]. Members also unanimously concurred that the use of deadly force by these law enforcement officers was justified and in compliance with the current deadly force policy. This resulted in the recommendation that no administrative action be taken against anyone involved in this shooting incident.

The first issue discussed by the SIRG pertained to the absence of a written arrest plan in this incident. However, all members concurred that the absence of a thorough written arrest plan was a non-issue due to the fluid movements of the situation. b6 b7C

The only other issue discussed by the SIRG was the fact that SA [redacted] advised in his written statement that he knew he fired at least seven rounds due to counting seven shell casings on the ground. SA [redacted] further advised that he was not certain if the magazine in his weapon had been loaded with 25 or 30 rounds because another agent loaded the weapon for him. Members of the SIRG unanimously concurred that all SAs should

always know basic information such as the amount of ammunition in their possession during any situation. This issue did not result in any recommendation since the Firearms Training Unit representative advised that his unit would handle this matter.

b6
b7C

Details of the Shooting Incident

On 2/12/97, Camden County Park Police Officer [redacted] was shot while in his patrol vehicle as he responded to the sound of gunfire on Fremont Street in Camden, New Jersey. A subsequent investigation determined that [redacted] and [redacted] shot Officer [redacted] as they fled from the scene of the attempted robbery and murder of Carlos Rosario. Both subjects were indicted by a Camden County Grand Jury and [redacted] was subsequently arrested by county authorities. He admitted to being present at the scene when Officer [redacted] was shot by [redacted] An Unlawful Flight to Avoid Prosecution warrant was obtained in the District of New Jersey and an investigation was initiated to locate and arrest [redacted] who was profiled twice on "America's Most Wanted". b6 b7C

From 7/19/97 to 5/23/98, the South Jersey Resident Agency (SJRA) initiated several investigations relating to a series of armed bank robberies committed in New Jersey. The suspects in the bank robberies were believed to be Hispanic and wore ski masks, gloves, and what appeared to be bulletproof vests during the robberies. They also carried automatic assault type weapons. [redacted] and [redacted] and [redacted] were identified as the primary suspects in one bank robbery and it was believed that they were also responsible for the two other robberies.

A review of the New Jersey Criminal History records for [redacted] and [redacted] and [redacted] reflected numerous arrests and charges relating to homicide, aggravated assault, possession of firearms and drug possession and distribution. [redacted] and [redacted] were convicted in separate felony homicide matters and [redacted] had been convicted for carrying a prohibited weapon and possession of a weapon, as well as having numerous aggravated assault and homicide arrests. b6 b7C b7D

[redacted]

[redacted]

[redacted] b6 b7C b7D

[redacted] he had access to several fully automatic shoulder weapons, including an AK-47 and body armor.

On 8/25/98, SA [redacted] drafted an operations plan to arrest [redacted] and [redacted] and [redacted]. The plan detailed the utilization of a Special Weapons and Tactics (SWAT) Team to effect the apprehension. However, on the morning of 8/27/98, [redacted] advised SA [redacted] that the robbery had been postponed by [redacted]

[redacted]. Based on this information, SA [redacted] revised his operations plan and coordinated with the participating entities to effect the arrest.

[redacted] b6 b7C b7D

Within moments, SWAT Team Leader [redacted], gave the command to arrest the subjects. The tow truck and pickup truck being utilized as blocking vehicles by the SWAT as well as a cube van containing a SWAT arrest team began their approach to block the subject vehicle and effect the arrest. The subjects, who had become suspicious of the lack of activity in the rest area parking lot and lack of traffic on the New Jersey Turnpike,

observed the vehicles moving toward them and again ordered [redacted] to move. As the subject vehicle began to accelerate south along the front of the rest area, the cube van swerved to the left to block its exit. Simultaneously, SA [redacted] who was driving north in the SWAT pickup passed the cube van and struck the subject vehicle on the left side and drove it up on the sidewalk of the rest area.

b6
b7C
b7D

As the collision occurred, Supervisory Special Agent (SSA) [redacted] and SAs [redacted] and [redacted] exited the cube van. The subject vehicle passed the van at that time and all three SWAT members reported seeing a rifle being raised by one of the subjects in the rear of the vehicle. Each of the SWAT members fired once at the subjects inside the vehicle and the vehicle moved away from them.

The subject vehicle accelerated and continued south on the sidewalk in front of the rest area building. As [redacted] drove the vehicle off of the sidewalk, it was momentarily traveling at a high rate of speed directly at another SWAT vehicle occupied by SAs [redacted] and [redacted] Both SAs had taken a position at a small parking island which was located adjacent to the southern end of the rest area building. As the vehicle sped toward them, SA [redacted] reported that he heard someone yell "gun". SA [redacted] recalled seeing a gun in the rear of the subject vehicle. Seeing the speeding vehicle moving in their direction and the weapon observed in the back seat, the agents fired their weapons at the subjects. SA [redacted] recalled firing twice before his 10 millimeter pistol jammed and SA [redacted] advised that he fired approximately three two-round bursts from his MP-5 at the subject seated in the rear on the driver's side.

The subject vehicle slowed when reaching a curve at the south end of the rest area building in order to make the corner leading to the rear employee parking lot. At that moment, the subject vehicle was struck by the SWAT tow truck driven by SA [redacted] The tow truck hit the vehicle on the right rear side and drove over the trunk of the car, crushing the left rear quarter panel, completely disabling the subject vehicle. [redacted] who was in the front passenger seat exited the vehicle and ran to the side entrance of the rest area building. SAs [redacted] and [redacted] advised that as [redacted] reached the entrance they observed him reaching for a weapon holstered on his right side. SAs [redacted] and [redacted] fired their weapons hitting [redacted] in his right hip causing him to fall to the ground.

b6
b7C

As the subject vehicle came to a halt due to the collision with the tow truck, SWAT Team Leader [redacted] observed a subject in the back seat holding a weapon. SA [redacted] fired one shot from his M-4 carbine rifle at the passenger. At this point, [redacted] and [redacted] surrendered without further incident.

As a result of the shots fired, [redacted] sustained a graze wound to his left thigh and [redacted] received two wounds to his right hip. Both subjects were treated at local hospitals and released.

On 1/6/99, the SIRG met to discuss the above captioned shooting incident. Chief Inspector [redacted] Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; [redacted] Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that the use of deadly force in this shooting incident by all law enforcement personnel was justified and in conformance with the current deadly force policy. This decision was based on the subjects' proven propensity for violence and the fact that they were armed.

This discussion resulted in the recommendation that no administrative action be taken against any law enforcement personnel involved in this shooting incident.

The second issue discussed by SIRG members evolved around the profoundly flawed arrest plan. Areas of concern to members were the choice of location, containment of the subjects, field of fire, and the fact that [redacted] was in the car and no consideration was given to third parties involved in this incident. Members discussed the fact that the subjects could have been alerted to the situation earlier due to the lack of activity at the rest stop, the types of vehicles located in the area and the absence of turnpike traffic.

**Synopsis:** The Shooting Incident Review Group (SIRG) reviewed a shooting incident in the Memphis Division on 11/6/98, where one subject was killed and another wounded during an attempted bank robbery. Believing that his life and the lives of other participants in the incident could be jeopardized, SA [redacted] fired shots at the driver of the vehicle. Members of the SIRG recommended that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Details:** Reference report of Assistant Special Agent in Charge William C. Temple dated 11/30/98.

This communication is prepared to furnish the analysis, comments, and recommendations of the SIRG with reference to the captioned shooting.

Re: 297-HQ-A1271747-D, 03/15/1999

**Details of the Shooting Incident**

During the month of March 1998, a series of bank robberies began to occur in the Memphis and Nashville, Tennessee, areas. By 9/98, it became apparent to the Nashville Violent Crimes Task Force (VCTF) that the robberies were being perpetrated by the same individuals since the bank robberies involved similar methods of operation. Prior to 9/98, six banks in the Memphis area and two banks in Nashville had been robbed. Each robbery involved two black males driving to the banks, usually in a vehicle which was stolen within 24 hours prior to the robberies. The subjects wore ski masks and flannel shirts and were armed with handguns. One subject entered the banks and the other acted as the getaway driver.

The Nashville VCTF decided to initiate fixed surveillances at two area banks, both of which were located near the SunTrust Bank. The SunTrust Bank had been robbed in July and August. A surveillance/arrest plan was prepared prior to the operation and the surveillances were conducted over several days in late September and then discontinued. On 10/15/98, the SunTrust Bank was robbed again. During two of the three robberies, the subject fired shots into the ceiling and briefly took a bank guard hostage during the October robbery. Additionally, on some occasions the subjects assaulted employees and customers.

Due to the continuing pattern of robberies and the escalating violence during the incidents, the Nashville and Memphis VCTFs began another series of surveillances on 10/19/98. These surveillances involved officers from the Nashville Metropolitan Police Department (NMPD) as well as members of the VCTF. b6 b7C

On 11/6/98, a morning briefing was held at the Pep Boys parking lot, located in the general area in which the surveillances were to take place. The briefing was led by Task Force Officer [redacted] who provided pertinent information and made assignments for the surveillances. It was noted during the briefing that on the previous day an NMPD Officer was working at NationsBank as a security guard which was located in the general area. The officer reported seeing two suspicious black males drive through the parking lot in a gold automobile. The briefing ended at approximately 8:45 a.m., and team members were dispatched to their respective locations. The surveillance was scheduled to terminate at approximately 11:00 a.m., since the previous robberies occurred before this time.

Eleven law enforcement officers participated in the surveillances. Two of the participants were FBI Agents not assigned to the VCTF. One of the banks under surveillance was the NationsBank who had reportedly observed the suspicious individuals the previous day. SAs [redacted] and [redacted] were in a Bureau vehicle located in a parking lot east of the bank. SA [redacted] was driving the car and each of them were equipped with a bullet proof vest, a handgun and an MP-5 submachine gun. Detective [redacted] who was armed with a .40 caliber Glock pistol, was in his NMPD car in the parking lot near the FBI vehicle. Additional armed law enforcement personnel were also in the nearby vicinity. Additionally, an armed, off-duty NMPD officer was working as a security officer inside the bank. The officer was aware of the series of robberies in Memphis and Nashville and was also aware of the surveillance outside the bank. b6 b7C

At approximately 10:00 a.m., members of the NationsBank surveillance team observed a blue Oldsmobile with a broken rear vent window pull into the bank parking lot and pass between the bank and the FBI vehicle located to the east. A check of the license plates revealed that the vehicle was stolen. Team members had been briefed on this specific vehicle earlier in the morning. Officers determined that the driver of the vehicle was a black male. The driver of the car drove through an adjacent parking lot and eventually reentered the bank parking lot from Charlotte Avenue. The vehicle stopped directly in front of the bank and faced toward the front door. A black male wearing a ski mask and flannel shirt was observed exiting the passenger door of the car and running into the bank. SA [redacted] and Detective [redacted] noticed that the individual entering the bank, subsequently identified as Raymond Augustine Hawkins, was carrying a handgun. SA [redacted] and Detective [redacted] notified the other units in the area that a bank robbery was in progress.

Officer [redacted] who was the security guard inside the bank, saw Hawkins run into the bank through the front door and observed him with a gun in his left hand. As he was moving away from a desk to confront the subject, he tripped and fell on his back facing the front door. While Officer [redacted] was still on the floor, Hawkins grabbed the front of his shirt, placed the gun to his chest/shoulder area, and fired. Officer [redacted], who drew his weapon as he was falling, shot Hawkins three times in the chest area. The subject ran toward the front door. Officer [redacted], thinking that the subject might reach the parking lot and hurt someone else, fired another shot at the subject. b6 b7C

Hawkins continued to run out of the bank and SA observed him collapse on the walkway leading to the front door.

When Hawkins collapsed in front of the bank, Detective who had heard the gunshots and taken cover behind a light pole, turned his attention toward the driver of the car. As the car was backing away from the bank, Detective left his position of cover and moved toward the vehicle, shouting "police, police, freeze, show me your hands, police". The driver continued to back up, ducked down in his seat and raised up. Based on his knowledge of shots being fired inside the bank and the fact that previous robberies had a history of escalating violence, Detective believed that the driver had a weapon and was going to shoot him. He fired one round through the driver's window at the subject, who was later identified as . After the shot was fired by Detective the vehicle was moving forward toward a McDonald's. Detective again shouted "police" but instead of stopping, ducked back down inside the vehicle. Detective fired several more shots into the car while noticing an FBI car behind vehicle and heard one of the SAs fire a shot.

b6
b7C

Based on these events, SA had moved into a position directly behind the subject's car. SA observed "twisting in the seat" and felt he was doing something "out of the ordinary". He heard gunfire and knew that Detective was shooting at the driver. He also thought that the subject was shooting at the detective. Realizing that Detective had no cover and was totally exposed to the driver, and with both cars continuing to move, SA opened the passenger door and placed his MP-5 submachine gun between the door post and the door. He fired a two-shot burst from his MP-5 at the subject through the rear window of the subject's vehicle. car stopped and SA saw SA and Detective securing No weapon was found on the subject or in his vehicle. At that time, SA ran to the first subject who had exited the bank and was lying face down with a gun in his hand. SA pushed the gun away and handcuffed Hawkins.

b6
b7C

Officer was hospitalized with one gunshot wound to the shoulder. was also hospitalized with a gunshot wound to the face. Hawkins was pronounced dead at the scene of the attempted bank robbery.

To: Inspection Division From: Inspection Division
Re: 297-HQ-A1271747-D, 03/15/1999

On 1/6/99, the SIRG met to discuss the above captioned shooting incident. Chief Inspector [redacted] Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; [redacted] Unit Chief, Transfer Unit, Administrative Services Division; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division. b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that the use of deadly force in this shooting incident by SA [redacted] was justified and in conformance with the current deadly force policy. This discussion resulted in the recommendation that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident. b6 b7C

The only other issue discussed by the SIRG members evolved around the fact that a lack of coordination and communication between the Nashville VCTF and Memphis Division Executive Management (EM) existed. Specifically, this lack of communication resulted in the formulation of an inadequate arrest plan. Although the Special Agent in Charge (SAC) and the ASAC knew of the Memphis and Nashville bank robberies and were specifically aware of surveillances being conducted in Memphis, neither knew of the Nashville surveillances which began in October 1998. According to the SAC, he knew nothing of the

surveillances in Nashville until he was informed by another Supervisory Special Agent of the shooting incident. SAC Locke advised that the Memphis Division has a policy which requires an operational plan when a high probability of danger exists in an upcoming arrest or search. He also advised that, subsequent to the shooting incident, he reviewed the 10/15/98 Nashville arrest plan and emphasized that he never would have approved the plan due to its lack of detail.

Acting SSRA (A/SSRA) [redacted] advised that he assumed supervisory responsibility of the Nashville RA on 10/5/98, and assumed that the former SSRA had discussed the arrest plan formed in September with EM. Based on this assumption, he did not believe it necessary to send the October plan which he viewed as an update to the plan formulated in September. A/SSRA [redacted] also advised that former SSRA [redacted] approved the September plan and advised him that he would speak with the SAC and/or the ASAC about it. Additionally, A/SSRA [redacted] stated that he occasionally briefed ASAC Robert M. Burnham about the bank robbery surveillances in Nashville and recalled that he mentioned the surveillances at a 10/6/98, supervisor's conference in the presence of the SAC and the ASAC. Since no comments were forthcoming during the meeting, he assumed that he had approval. During an October management retreat, A/SSRA [redacted] again spoke with ASAC Burnham about the surveillances and the ASAC advised him to coordinate with the Memphis SWAT team leader since SWAT members were being used in the Memphis surveillances. b6 b7C

The discussion was concluded with the unanimous agreement that the arrest plan for the Nashville incident was inadequate and that a lack of communication existed between the participants and the EM of the Memphis Division. However, members also opined that the SAC of the Memphis Division recognized the problem and had taken steps to ensure that this type of incident does not recur in the future.

Case ID #: 66-19157-38

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
PHOENIX DIVISION
MAY 19, 1997

Character: ADMINISTRATIVE INQUIRY

Synopsis: On 5/19/97, FBI agents and officers from the Phoenix Police Department (PPD) and the Arizona Department of Public Safety (DPS) who were assigned to the Phoenix Fugitive Task Force (FTF) shot and killed Todd William Staskal while they were attempting to effect his arrest on Federal Bank Robbery charges. Staskal had been charged along with an accomplice, [redacted] with the violation of 18 U.S.C., Section 2113 (a) and 924 (c) in connection with the 4/18/97 robbery of the Bank of America, 5065 East Elliot Road, Phoenix, Arizona. [redacted] was captured following the 4/18/97 robbery. Staskal, who escaped, was believed to have committed three robberies on 4/19/97 and thought to be involved in as many as twelve bank robberies in the Phoenix area.

b6
b7C

While Staskal was attempting to elude authorities after the 4/18/97 robbery, he kidnapped one of his girl friends, [redacted] She later told the Phoenix case agent, [redacted] that Staskal told her that he was not going back to prison and would not be taken alive. [redacted] also told SA [redacted] that Staskal was armed with a 9 mm pistol. During the robberies of 4/19/97 bank surveillance photos reflect that Staskal did display a weapon. Following the three robberies on 4/19/97, Staskal was believed to have left the Phoenix area.

SA [redacted] sought the assistance of the Fugitive Task force to assist him in locating and

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

apprehending Staskal. On 5/16/97, one of the FTF members, Phoenix Police Officer [redacted] developed information that the fifteen-year-old daughter of [redacted] who is identified as Staskal's wife or girl friend, was back in the Phoenix area. Subsequently, [redacted] advised that Staskal had called her and her Caller I.D. indicated the call originated locally.

Officer [redacted] located [redacted] daughter, [redacted] who told him that Staskal was in the area and gave him addresses where Staskal might be staying. [redacted] also told [redacted] that Staskal was always armed and that he carried a weapon in a fanny pack and another behind his back. This information was confirmed by [redacted] boyfriend who also advised that Staskal had said he would not be taken alive. Staskal had said that he would either force the police to kill him or kill himself rather than be captured. [redacted] was also told that Staskal was attempting to obtain an automatic weapon and had discussed the possibility of attempting to break his accomplice, [redacted] out of jail.

b6
b7C

On 5/19/97, while spot checking one of the residences, FTF members observed a stolen white Mercury Sable that Staskal was supposedly driving. Shortly after the Sable was observed, an individual fitting Staskal's description came out of the residence and got into the vehicle. It was observed that the individual was wearing a fanny pack. This information was provided via radio communication to the other task force members.

A moving surveillance was instituted during which several task force members were able to get a clear look at the driver of the white Sable and confirm that it was, in fact, Staskal.

As the surveillance proceeded, Staskal turned into the parking lot of a shopping center at 75th Avenue and Bell Road in Glendale, a suburb of Phoenix. Several of the FTF members later commented that they believed that Staskal was looking for a bank to rob.

When Staskal exited the shopping center parking lot, he turned east on Bell Road heading toward downtown Phoenix. At that time, a decision was made to effect a non-compliant felony car stop which the FTF members referred to as a "street jump." It should be noted that all FTF members interviewed advised that they trained extensively on this type of car stop.

Several factors led to the decision to effect the car stop at that particular time. First, it was apparent to the FTF

members that Staskal was armed since he was observed wearing a fanny pack that the intelligence described as always containing a weapon. Second, the FTF members believed that Staskal was looking for a bank to rob. Third, he made an eastbound turn which was toward downtown Phoenix which was an even more populated area than they were in. Fourth, at the time the decision was made, all the FTF vehicles were in the immediate vicinity and configured in a way so that Staskal's vehicle was nearly surrounded. Finally, the risk of the surveillance being detected increased as it continued which would allow Staskal to prepare for a violent confrontation that the intelligence predicted.

Near the intersection of 67th Avenue and Bell Road, Staskal's vehicle and the FTF vehicles were stopped a red light. Lt. [redacted] of Phoenix P. D., the senior FTF member on the scene, gave the command to effect the arrest. Lt. [redacted] and Phoenix P. D. Officer [redacted] had Staskal's vehicle blocked at the passenger side, Arizona DPS Officer [redacted] was directly in front of Staskal's vehicle and the vehicles of FBI agents [redacted] and [redacted] were behind civilian vehicles directly to the rear and to the left of Staskal. Several of the FTF members exited their vehicles with guns drawn and surrounded Staskal's vehicle. All witnesses interviewed, law enforcement and civilian alike, reported seeing clear markings reflecting the law enforcement status of the FTF members. All witnesses close to the incident also stated that they heard voice commands to the effect, "Police, put your hands up," shouted repeatedly. This is consistent with the statements of the FTF members who attempted to effect the arrest of Staskal. b6 b7C

All of the FTF members surrounding Staskal's vehicle gave similar accounts of what transpired next. All related that Staskal raised his hands, then looked around as if surveying the situation. Staskal then dropped his hands, placed his vehicle in reverse, rammed into the Toyota Land Cruiser behind him and lurched forward until he struck a pick up truck traveling westbound at the intersection of 67th Avenue and Bell Road. The witnessing FTF members all stated that at some point during this brief sequence of events, Staskal's hands went out of view and it appeared that he was reaching for the fanny pack he was observed wearing. The fanny pack was subsequently determined to contain a fully loaded Wyoming Arms 10 mm semi-automatic pistol.

FBI agents [redacted] and [redacted] who had positioned themselves at the driver's side of Staskal's vehicle near the front door, fired 17 rounds between them, six from [redacted] Sig Sauer Model 226 and eleven from [redacted] Smith and Wesson .40

caliber. Arizona DPS Officer [redacted] who remained positioned near the driver's side door of his vehicle which was in front of Staskal's, fired one round of rifle slug from a Remington Model 870 shotgun. Staskal was struck by four .40 caliber rounds in the left side of the chest and abdomen and by the rifle slug in the left thigh. He was pulled from his vehicle unconscious after the vehicle collided with the truck and was described by the officers at the scene as apparently dead. Staskal was taken from the scene by paramedics to J. C. Lincoln Hospital where he was officially pronounced dead. b6 b7C

Officers from the Glendale P. D. arrived at the scene and conducted the immediate investigation under the direction of Sgt. [redacted] Detective [redacted] was assigned the case. A crime scene search was conducted and all pertinent evidence was secured. Witnesses including non-FBI FTF members were interviewed. A check was conducted of all weapons carried by FTF members to determine which weapons were fired. All weapons which were fired were secured by the Glendale P. D.

Phoenix SAC Bruce Gebhardt responded to the scene. SSA [redacted] notified FBIHQ of the incident. The Inspection Division assembled and dispatched a Shooting Incident Review Team under the direction of IIP [redacted] of the Las Vegas Division.

Title: SHOOTING INCIDENT
DALLAS DIVISION
MAY 22, 1997

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis:

This shooting incident was a result of a bank robbery occurring at Fidelity Bank, 7215 Skillman, Dallas, Texas on May 22, 1997.

At approximately 3:13 p.m. on 5/22/1997, a white male suspect, approximately 40-50 years old, 5'10"-6', entered the Fidelity Bank, 7215 Skillman, Dallas, Texas. The white male has been subsequently identified as DARRELL CLEO HOLMES. HOLMES was dressed in business attire, leading bank employees to believe he was a commercial vendor making a late deposit. Therefore, they buzzed HOLMES into the bank lobby. Once he entered the bank, HOLMES positioned himself with his back to the bank cameras and put on a hat and sunglasses. At 3:14 p.m., HOLMES approached the victim teller and displayed a large black frame pistol. After demanding money, the teller gave HOLMES $2,200.00, which included two electronic tracking system (ETS) devices. At 3:14 p.m., HOLMES exited the bank with the money and the activated tracking devices.

Once the tracking devices were activated, the signals were picked up by a DPD helicopter. DPD marked units responded and followed HOLMES in the direction of I-635 westbound. Prior to entering onto I-635, HOLMES stopped and threw one tracking device into a dumpster.

At approximately 3:15 p.m., FBI Dallas was

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

telephonically advised of the Fidelity Bank robbery, including the robber's description, armed status and presence of ETS tracking devices. Special Agents (SA) assigned to the Violent Crime (VC) squad responded. SAs [redacted] and [redacted] departed the office in SA [redacted] FBI vehicle. SA [redacted] and SA [redacted] individually departed in their assigned FBI vehicles.

All Dallas Division VC squad members have received joint training with DPD with the ETS tracking system utilized in area bank robberies. SA [redacted] is the Dallas FBI division's bank robbery coordinator. SA [redacted] FBI vehicle is equipped with an ETS receiver and he has received specialized training in its utilization. The VC squad members' vehicles are all equipped with Dallas Police Department (DPD) radios. b6 b7C

SA [redacted] recalled a previous bank robbery at the same branch two weeks earlier. SA [redacted] stated he recalled the previous robbery was conducted by a subject matching the 5/22/1997, robbery subject's description. He specifically recalled the first robber also being armed with a large-frame black pistol.

All three FBI vehicles proceeded northbound on US Route 75 toward the Fidelity bank location. While in route, DPD radio transmissions indicated that the ETS signal was in the vicinity of US Route 75 and Interstate 635 (I-635). SA [redacted] ETS tracking receiver began picking up the signal. DPD units, including a DPD helicopter, advised that the signal was westbound on I-635. All three FBI vehicles proceeded onto westbound I-635 from US Route 75. b6 b7C

Based on the ETS signal, the initial DPD units and DPD helicopter made the assessment that the ETS device was in a westbound vehicle that appeared to be a burgundy two-door Buick. At this time, no law enforcement vehicles, including the three FBI vehicles, were operating emergency equipment (emergency lights and sirens). The initial DPD marked unit broadcast its intention to commence a felony traffic stop on the Buick. SA [redacted] stated that he was following a DPD unit in the High Occupancy Vehicle lane and had activated his vehicle's emergency equipment. At that time , the initial DPD officer announced, via car radio, that the Buick was exiting I-635 onto a one way frontage road that paralleled the freeway. The frontage road serves as an access to exiting vehicles and is a two-lane road going one-way. The exit was for Marsh Lane and Webbs Chapel Road. Several DPD units continued behind the Buick onto the frontage road. Those DPD units commenced a traffic stop and the

Buick stopped on the frontage road.

The freeway is separated from the frontage road by a grassy median, approximately 15 yards wide. The first DPD unit stopped directly behind the Buick, slightly offset, in a felony traffic stop position. The second DPD unit stopped behind the first. The third DPD unit had not exited onto the frontage road and pulled onto the grassy median at a position that was toward the rear of the Buick. As the traffic stop was initiated, the FBI vehicles pulled onto the shoulder of I-635 parallel to the frontage road. SA [redacted] stopped his vehicle on the shoulder of I-635, approximately 3/4 of a car length ahead of the Buick. The second FBI vehicle driven by SA [redacted] stopped behind SA [redacted] vehicle parallel to, and directly across the median from the Buick. SA [redacted] pulled onto the grassy median at a slight angle behind SA [redacted] vehicle, next to the third DPD unit. The FBI vehicles were positioned in a line, across from the Buick, facing the same direction, at a distance ranging from 25-35 yards. b6 b7C

As the FBI vehicles were stopping, the SAs observed a white male, later identified as DARRELL CLEO HOLMES, exit the Buick. Simultaneously, the first DPD officer exited his vehicle and took cover behind his vehicle's door. The second DPD officer had established herself at the right rear of the first DPD vehicle with her weapon drawn. HOLMES displayed a black pistol in his right hand, waving it around while gesturing with his left hand. There was a verbal exchange between HOLMES and the first DPD officer. The DPD officers heard HOLMES screaming, "I'm going to kill you."

SAs [redacted] and [redacted] exited their vehicle, drawing their weapons, and took up positions of cover behind their vehicle. SA [redacted] stated he took a position of cover at the rear of the driver's side of the vehicle. SA [redacted] stated she assumed a position of cover behind the open, right front passenger door. SA [redacted] stated he exited his vehicle, drew his weapon and assumed a position of cover at the rear of the driver's side of his vehicle. SA [redacted] stated he exited his vehicle, drew his weapon, and assumed a position of cover at the front of the driver's side of his vehicle. b6 b7C

All FBI SAs stated that they were aware that shouting took place between HOLMES and the DPD officers, but, due to the numerous sirens and freeway traffic noise, the words were unintelligible. All four FBI SAs were aware that HOLMES was waving what appeared to be a black semi-automatic pistol, in his right hand. HOLMES took several steps toward the first DPD

vehicle and pointed the pistol at the first DPD officer. At this point, the first DPD officer ducked down behind the door of his vehicle. Each SA stated that from their individual points of view it appeared that the first DPD officer had been shot or gone down. Then, believing that the first DPD officer had been shot, the SAs and other DPD officers began firing on HOLMES.

SA [redacted] stated he believed he had observed a puff of smoke come from the barrel of HOLMES' weapon as HOLMES pointed the weapon. After hearing SA [redacted] and others fire, SA [redacted] stated he fired twice at HOLMES.

b6
b7C

SA [redacted] stated she believed she observed something come off the barrel of HOLMES' weapon at the same time she heard a gun shot. SA [redacted] fearing for the DPD officers in HOLMES line of fire, shot twice at HOLMES. She stated that it appeared HOLMES was moving toward his vehicle for cover and she fired once more.

SA [redacted] stated that from his position of cover he saw HOLMES thrust his pistol toward the DPD officer. At the same time, it appeared to SA [redacted] that the first DPD officer had been hit. SA [redacted] stated he fired once at HOLMES. Upon observing HOLMES go to a sitting position on the ground in the doorway of his vehicle, SA [redacted] fired two additional rounds, fearing for the DPD officers.

SA [redacted] stated that, upon exiting his vehicle, he observed HOLMES point his pistol toward the first DPD officers and it appeared the pistol jerked. SA [redacted] saw the first DPD officer appear to go down. SA [redacted] stated he feared for his own life and the lives of the responding DPD officer. SA [redacted] fired once at HOLMES. It appeared to SA [redacted] that HOLMES turned toward his vehicle in an attempt to gain cover. SA [redacted] fired two more times at HOLMES.

After being fired upon, HOLMES slumped to the ground with his upper torso leaning onto the driver's side floor board. DPD officers cautiously approached HOLMES and determined no further threat existed. Once HOLMES was disabled, and the approaching DPD officers appeared to be in control, the SAs holstered their weapons and both SA [redacted] and SA [redacted] advised FBI Dallas of the shooting incident via their vehicle radios. Emergency aid was called for HOLMES. As HOLMES was being secured, agents observed that the weapon being utilized by HOLMES appeared to be a BB gun. The gun had been removed from HOLMES' hand by a DPD officer and placed on the pavement. It was observed by the SAs that HOLMES experienced numerous wounds to

b6
b7C

his legs and buttocks area. He was bleeding from these areas in addition to his head. His eyes were open and staring, with a gray paleness to his skin. A private ambulance company arrived shortly after the incident and began treatment on HOLMES. Following the arrival of a Dallas Fire Department Paramedic unit, HOLMES was transported to a close-by hospital where he was pronounced dead.

SA [redacted] retrieved evidence tape from his vehicle and he and the other SAs marked the location of their shell casings for evidence. The SAs separated themselves and agreed not to talk among themselves. SSA [redacted] arrived and took control of the scene and separated all of the SAs. Acting SAC JAMES F. ADAMS arrived and toook command of the scene and ensured the well-being of each SA. With the assistance of SSA [redacted] Chief Division Counsel SSA [redacted] and ASAC HOWARD B. [redacted] Acting SAC ADAMS coordinated the crime scene investigation with DPD officials on the scene. Weapons were taken from all of the SAs by SSA [redacted] Following consultation between Acting SAC ADAMS and DPD officials, the SAs' pistols were provided to DPD investigators for forensics testing. Administrative leave was offered to each SA and replacement weapons were provided by SA [redacted] Dallas FBI Principal Firearms Instructor. The crime scene was handled jointly by the FBI Dallas Evidence Response Team and the DPD Physical Evidence Section.

Report of: IIP [redacted] Office: FBIHQ
Date: April 10, 1997

Field Office File #:
Bureau File #: 66-HQ-1915767

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
SACRAMENTO FIELD OFFICE
JANUARY 29, 1997

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident was precipitated as a result of a fugitive investigation to locate PETER SCOTT RICHARDS, who was charged with armed robbery in an indictment issued on November 7, 1996, by the state of Hawaii, Honolulu, Hawaii.

On January 28, 1997, Honolulu Police Department (HPD) contacted the South Lake Tahoe Police Department (SLTPD) and requested SLTPD's assistance in locating and apprehending RICHARDS who was believed to be in South Lake Tahoe, California. The HPD advised that if located, they would extradite RICHARDS.

b6
b7C

On January 28, 1997, at approximately 5:30 p.m., officers located RICHARDS, his girl friend [redacted] and their four children at [redacted] South Lake Tahoe. RICHARDS refused to surrender and barricaded himself and family in the residence. RICHARDS later allowed [redacted] and the children to leave the residence and apparently in the confusion of the movement of his family, he escaped undetected.

During the early morning hours of January 29, 1997, members of the SLTPD Special Enforcement Team entered the residence. Although RICHARDS was not located, officers found explosives, black powder, ammunition, military handbooks on weapons and explosives, an SKS assault rifle, an M1 carbine rifle, a Rugar carbine rifle, a sawed-off .22 caliber rifle, military daggers, bayonets, knives, radio receiver, gas mask, loaded rifle magazines, black powder detonation cord, and other military and survival equipment.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Shortly after noon on January 29, 1997, SA [redacted] who was assigned as the sole Agent in the South Lake Tahoe, California Resident Agency (SLTRA), received a telephone call from the SLTPD informing him of the fugitive investigation. He was requested to provide assistance in determining whether RICHARDS was involved with violation of Federal law involving militia or terrorist activities. SA [redacted] responded to the SLTPD, viewed the seized evidence, and prepared to assist SLTPD detectives in locating RICHARDS.

SA [redacted] and several detectives were preparing to depart the SLTPD to conduct interviews when they learned that RICHARDS' stepfather had telephoned to inform the Police that RICHARDS had telephoned his mother and given her instructions to meet him. SA [redacted] joined four SLTPD detectives and established surveillance along the main road in South Lake Tahoe. SA [redacted] who was accompanied in his Bureau Ford Bronco by SLTPD Detective [redacted] learned that other SLTPD detectives had located RICHARDS' Mother operating her Mazda pick-up on the main road in town. A surveillance of the vehicle was established with [redacted] and [redacted] in one vehicle, two SLTPD detectives in a second vehicle and SLTPD Detective [redacted] in a third vehicle. Each of these investigators observed a passenger in the Mazda pick-up, but could not positively identify the passenger as the subject. While continuing with a moving surveillance, investigators felt they had been identified by the occupants of the Mazda pick-up and a SLTPD investigator called for a marked police unit to make a traffic stop. Prior to the arrival of the marked units, the Mazda pick-up slowed to a stop in the traffic lane of a two lane road. SA [redacted] stopped behind the Mazda pick-up, he and Detective [redacted] exited the Bureau vehicle, and began to approach the Mazda pick-up. Upon observing a struggle and hearing loud voices from the Mazda pick-up, they retreated to the cover of the Bureau vehicle. Detective [redacted] then joined SA [redacted] and Detective [redacted] RICHARDS suddenly exited the passenger side of the Mazda pick-up and pointed a .25 caliber pistol towards [redacted] and [redacted] Investigation established that RICHARDS fired at least once, striking the front drivers side window of SA [redacted] vehicle. Seeing only RICHARDS' head and the hand which was holding the .25 caliber pistol pointed towards him and [redacted] fired four rounds from his MP-5 rifle. One of SA [redacted] rounds fatally struck RICHARDS in the head. Detective [redacted] fired nine rounds from his .45 caliber pistol and Detective [redacted] fired two rounds from his .45 caliber pistol. RICHARDS, who was wearing a protective vest, was shot five times including; #1 head wound (9mm); #2 left forearm (no bullet recovered); #3 right buttock (.45 caliber); #4 right buttock (.45 Caliber); and #5 right calf (no bullet recovered).

b6
b7C

b6
b7C

A physical examination of RICHARDS after the shooting resulted in the location of a .22 caliber pistol and four loaded magazines in his pants pocket, in addition to the .25 caliber pistol he held. RICHARDS was wearing a protective vest and there was evidence that one bullet was stopped by the protective vest.

A search of the Mazda pick-up revealed a spent.25 caliber casing on the window of the Mazda (laboratory confirmed this casing was fired by RICHARD'S .25 pistol), a 12 gauge shotgun loaded with five rounds and 11 rounds on the gun strap, a fully loaded and charged SKS 7.62 X39 assault rifle, and additional ammunition for those weapons.

Subsequent investigation established that RICHARDS, who was suffering from Acquired Immune Deficiency Syndrome (AIDS), had told [redacted] and his mother that he was going to die and that he would take a police officer with him. RICHARDS' mother confirmed that on January 29, 1997, while driving with RICHARDS, they observed SA [redacted] and the SLTPD Detectives and that RICHARDS knew they were law enforcement. Knowing that RICHARDS was going to create an armed confrontation, she chose a place to stop which would not endanger innocent third parties. Prior to RICHARDS exiting the Mazda pick-up his mother struggled with him in an attempt to keep him from exiting with the pistol. He told her "I'm dead, I won't go to jail," prior to exiting. b6 b7C

SA [redacted] was armed with his Bureau approved personally owned Sig Sauer, Model 226, 9mm pistol and a Bureau issued Heckler and Koch (H&K) MP-5 (9mm) single fire shoulder weapon and was wearing his Bureau issued protective vest. SA [redacted] fired four rounds from the H&K MP-5. He used Bureau issued Hydro-Shock ammunition and the weapon functioned properly.

Subsequent to the shooting, SA [redacted] surrendered both weapons to SLTPD Officers at their request. He spoke by telephone with his supervisor in Sacramento, SSA [redacted] and advised him of the circumstance of the shooting. A shooting inquiry team comprised of investigators from the SLTPD, the El Dorado County District Attorney's Office, and the El Dorado County Sheriff's Department responded to the scene.

Investigators were to take taped recorded statements from Detectives [redacted] and [redacted] and requested the same from SA [redacted] After conferring with SSA [redacted] SA [redacted] consented to the interview. He also allowed a blood sample to be taken for blood/alcohol content (the laboratory results revealed no alcohol in SA [redacted] blood). b6 b7C

During the course of this shooting investigation, members of the SIRT and SA [redacted] reviewed the typed transcript of the statement he provided to local investigators. A decision was to be made by the FBI Shooting Incident Review Team (SIRT)

whether SA [redacted] should stand on his recorded statement, incorporate it as part of a signed sworn statement, or provide a separate signed sworn statement. After both IIP [redacted] and SA [redacted] conferred with the Sacramento Field Office's Division Counsel, SA [redacted] SA [redacted] stated that his preference was to provide a statement which chronicled the events in a more logical sequence than which the transcript related. SA [redacted] stated that the facts contained in his interview with local investigators and in his signed statement were consistent. Divisional Counsel [redacted] was in concurrence with SA [redacted] preference.

b6
b7C

On February 6, 1997 an arrest warrant was issued by the County of El Dorado, charging [redacted] with being an accessory in RICHARD'S fugitive status. It was also determined that she had outstanding arrest warrants being held by the El Dorado Sheriff's Department since 9/22/92 for Failure to Appear, Battery, Resisting Arrest, and for refusing to leave land upon lawful owner/agent's request.

In a letter dated 3/20/97 and addressed to the Chief of Police, SLTPD, the El Dorado County Sheriff's Department, and the El Dorado County District Attorney's Office, the task force of local investigators assigned to the shooting inquiry made the following conclusions as a result of the inquiry:

"Based on the investigation, it is the opinion of the Protocol Task Force that Detective [redacted] Detective [redacted] and Special Agent [redacted] fired their weapons at PETER SCOTT RICHARDS JR., only after being fired upon and in defense of their lives. It is our further opinion that the officers involved acted without negligence and did not commit any crime as described in the Penal Code for the state of California."

Report of: SSA [redacted] Office: MEMPHIS
Date: January 21, 1997

Case ID #: 62A-ME-51032

Title: SHOOTING INCIDENT,
SA [redacted] VICTIM;
JANUARY 2, 1997,
MEMPHIS DIVISION

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis: At approximately 12:55 p.m., on January 2, 1997, SA [redacted] and Task Force Officer (TFO) Sgt. [redacted] SHELBY COUNTY SHERIFF'S OFFICE conducted a spot check at [redacted] Memphis, Tennessee, as a result of information provided by a Confidential Informant (CI) that an individual living at this residence, [redacted] was a member of the Gangster Disciple street gang and was dealing in stolen vehicles. When SA [redacted] and TFO [redacted] passed the [redacted] address they noticed a red Volvo 940 Turbo in the driveway. A check of the license on the Volvo with NCIC determined the Volvo was listed as stolen. SA [redacted] and TFO [redacted] initiated surveillance on the Volvo and contacted SA [redacted] who is the case agent on an on-going Group II UCO being worked jointly by the Memphis Division and Memphis Police Department Auto Theft Unit. SA [redacted] and members of the Group II UCO were apprised of the Volvo's location and were en route to [redacted]

During the time SA [redacted] and TFO [redacted] first saw the Volvo in the driveway and initiated surveillance on the Volvo, approximately 20 minutes had passed due to a computer problem in running the Volvo's license plate and obtaining a response that the vehicle was stolen. Sometime during this 20 minute time frame a White Chevrolet Caprice had pulled into the driveway behind the

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Volvo and was located in that position when SA [redacted] and TFO [redacted] initiated surveillance on the stolen Volvo. Approximately 30 minutes after surveillance was initiated and prior to arrival of the Group II UCO personnel, SA [redacted] and TFO [redacted] observed two male blacks exit [redacted] with one individual getting in the Volvo and the other getting in the Caprice.

b6
b7C

When it became evident the two individuals were starting the two vehicles in preparation to leave [redacted] SA [redacted] moved his bureau vehicle immediately behind the Caprice which would block its exit from the driveway and also block the Volvo's exit from the driveway. The driver of the Volvo immediately exited that vehicle and ran to the back of the residence followed in close pursuit by TFO [redacted]. SA [redacted] was out of his bureau vehicle and identified himself verbally to the driver of the Caprice and had his Remington 870 shotgun in his hands. The driver of the Caprice failed to heed SA [redacted] commands and SA [redacted] then moved to a position adjacent to the driver side of the Caprice, all the while identifying himself and commanding the driver to exit the Caprice. The Caprice driver continued to jockey the car forward and backward in an attempt to exit the location. As soon as the Caprice driver was able to clear the back end of the Volvo, he rapidly accelerated and made a sharp turn which had the side of the Caprice heading directly toward SA [redacted] SA [redacted] fired one round of double OO buck at the driver in an attempt to keep the driver from striking SA [redacted] with the vehicle. Immediately following SA [redacted] s discharge of the shotgun, the direction of the vehicle changed and the driver struck a utility pole and then departed the area at a high rate of speed. No evidence was obtained at the crime scene to indicate the driver had been struck by any of the shotgun pellets.

b6
b7C

Investigation subsequent to the shooting attempted to identify the driver of the vehicle. The individual to whom the license on the Caprice was registered was contacted and stated that the license had been on an old Caprice he had owned and had totaled in a wreck. That particular Caprice had been forfeited to a salvage yard since the owner could not afford to pay the towing fee or repair the vehicle. Contact with the salvage yard indicated that the vehicle had been turned over to a scrap yard and it was unknown if the license

plate was on the vehicle when it was transferred to the scrap yard. Contact with the scrap yard indicated that the vehicle the license plate belonged to had been crushed and sold for scrap. The scrap yard did not know if the vehicle did nor did not have a license plate on it when it was crushed.

The owner of [redacted] was interviewed by MPD officers concerning the identity of the two individuals who had exited the house and attempted to leave in the Volvo and Caprice. No information of value regarding the identity of either individual was obtained. b6 b7C

Title: SHOOTING INQUIRY,
REPORT OF SHOOTING INCIDENT,
KANSAS CITY DIVISION;
1/30/97;
ADMINISTRATIVE MATTER

Character: SHOOTING INQUIRY

b6
b7C
b7D

Synopsis: On 1/30/97, while conducting a reverse undercover operation (RUO), an attempted narcotics sale between a reliable Kansas City Division (KCD) [redacted] and subject, Joseph S. Riley, resulted in the attempted homicide of [redacted] by Riley and Riley's death from an SA involved shooting. At approximately 5:53pm, Riley arrived at [redacted] motel room to supposedly conclude a narcotics purchase. Kansas City SAs and local officers were in an adjacent motel room ready to arrest Riley. Upon entering [redacted] motel room, Riley immediately drew a revolver and shot [redacted] in the chest with the bullet exiting his shoulder. [redacted] fell to the floor, whereupon Riley fired a second time at [redacted] missing him. Prior to this second shot, SA [redacted] of the KCD arrest team had unlocked his interior door and negotiated through two closed doors to gain entry into [redacted] room. After Riley's second shot missed, [redacted] began to get up causing Riley to move backwards and attempt a third shot. At this point, SA [redacted] challenged the subject and fired four rounds from his .45 Sig Sauer into Riley's upper torso. Upon being hit by the first of SA [redacted] rounds, Riley fired his weapon a third time striking [redacted] superficially in the left hand. The entire episode lasted only eleven (11) seconds and was captured on CCTV videotape. Riley was pronounced dead at the scene. [redacted] was transported to the hospital, treated, discharged on 1/31/97, and is recovering from his wounds. Two other individuals, [redacted] and

b6
b7C
b7D

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

[redacted] were arrested by officers of the Kansas City, Missouri Police Department and FBI SAs. [redacted] has been charged by the state with felony murder while [redacted] has had his federal parole revoked.

- P -

DETAILS:

b6
b7C
b7D

PLANNING AND EXECUTION

This operation emanated from information obtained by [redacted] that Riley was attempting to sell forfeited assets of his father and step-mother, in connection with an insurance fraud conviction.

[redacted] and Riley had several consensually recorded conversations between the period of 1/17-22/97. On 1/22/97, [redacted] was confronted by Riley unexpectedly at a gas station in Kansas City, and Riley advised that his contact had $100,000 to invest in the purchase of cocaine. Riley requested that [redacted] find out from his guy in Chicago how much cocaine he could get for $70,000. Riley could not sell the previously discussed bronze statue and grand piano at that time because he was under subpoena to testify at a Federal Grand Jury concerning the forfeiture order issued on 1/6/97.

As the topic of conversation changed from insurance fraud to cocaine trafficking during the period of 1/22-30/97, the KCD began the process of evaluating the feasibility and desirability of utilizing the RUO which occurred on 1/30/97.

For the purposes of this inquiry, ten (10) consensually monitored conversations between [redacted] and Riley from 1/17-30/97 were reviewed. They revealed no hostility between the two, and nothing in the conversations indicated a likely violent act occurring by Riley toward [redacted] Prior investigation of Riley had determined he had the financial means to purchase a large quantity of cocaine.

b6
b7C
b7D

On 1/28/97, an EC was prepared by SA [redacted] which outlined the background of the investigation, including a synopsis of pertinent recorded conversations, and requested approval to conduct a RUO against Riley. The scenario described delivery of a measured amount of cocaine to Riley in a hotel room. Once this delivery was made, Riley would be arrested immediately.

This EC articulated the controlled actions which were to be taken concerning the security of the cocaine and safety of [redacted] and all participants. An adjacent room in the hotel was secured for the Agents and police officers to be located. This plan was discussed with Supervisor [redacted] ASAC Joseph S. Bross, and SAC David M. Tubbs in a meeting held on 1/28/97. Several changes were made to enhance this operation, and an arrest plan was drafted and approved on 1/30/97. b6 b7C b7D

On 1/30/97, at approximately 10:00 a.m., a briefing was held for all personnel involved in this operation. During this meeting, all personnel were given a copy of the arrest plan to review, and the operation was orally discussed. The division articulated the dangers inherent in this operation, to include that Riley was considered Armed and Dangerous, that charges were pending against him for stabbing a bail bondsman, and he was known to own two handguns.

All personnel were advised of their roles in the operation, to include surveillance of Riley prior to arriving at the hotel, outside arrest teams, if needed, and interior arrest and evidence teams. Specific assignments were given to agents assigned to the arrest and evidence teams, to include the installation and monitoring of the CCTV, which was installed to record this RUO. Assignments were again discussed at the hotel prior to the RUO taking place.

Safety issues were thoroughly addressed for [redacted] and agent personnel, and all arrest team Agents were wearing protective body armor. The security of the drugs involved in this RUO was also addressed through CCTV coverage. A separate evidence team was assigned to the adjacent hotel room. Adequate lighting to observe the number of subjects was accomplished by the hotel exterior lighting and twilight.

Management oversight and control was established and maintained throughout the planning and execution of this operation, through discussions with the SAC, ASAC, SSA's, and Case Agents. The formulation, review, and approval of the arrest plan by the ASAC on 1/28-30/97, and the presence of two SSA's at the scene of the RUO further established the division's command and control.

PARTICIPATION OF [redacted]

On 1/22/97, Riley unexpectedly contacted [redacted] to ask if [redacted] would sell cocaine to a friend of his. [redacted] was the [redacted] of Riley and had a long social relationship with him. [redacted] was aware that Riley was involved in a variety of criminal activities, including drugs. [redacted] had on numerous occasions informed Riley that he had a guy in Chicago who could supply cocaine. Some of Riley's known associates were significant drug traffickers in the Kansas City area. b6 b7C b7D

In the substantive fraud investigation [redacted] was first utilized to obtain evidence of Riley and others' involvement in the insurance fraud. [redacted] role changed when it became evident that Riley was interested in buying drugs. The RUO was developed in response to Riley's desire to traffic in cocaine and in the belief that he might be cooperative if confronted with a potential five kilo drug charge.

During the period 1/17-30/97, [redacted] recorded numerous conversations with Riley and negotiated the RUO with Riley. On 1/30/97, [redacted] spoke telephonically, and met with Riley at Motel 6 earlier in the day to make the final arrangements for the RUO. During the first meeting at the motel, a CCTV recording was attempted, but the tape malfunctioned. However, a voice recording was obtained. [redacted] and Riley searched each others' bodies for weapons and the SAs at the scene observed no indication of Riley taking the actions he took in the subsequent meeting later that evening. Riley advised [redacted] that he would return in approximately 40 minutes, but after one hour [redacted] paged Riley and asked where he was. Riley stated he would return by 5:00 p.m. and when he did not arrive at that time, Riley was again paged by [redacted] and stated he would be there by 6:15 p.m. A review of the consensual telephone recordings provided no hints of Riley's violent intentions, and in two of those conversations, Riley requested [redacted] to travel to his own home to deliver the cocaine. b6 b7C b7D

At 5:53 p.m., Riley arrived at the motel. The video did successfully operate and recorded [redacted] actions. [redacted] allowed Riley to enter Room 231, they shook hands, and Riley drew a gun and began to fire at [redacted] (See still photos of 8mm video Tab V 1-13).

[redacted] was taken to the North Kansas City Hospital and treated for a gunshot wound. It was determined that this gunshot entered the left upper chest and exited the left shoulder. He was also slightly wounded in the left hand. [redacted] was released from the hospital on 2/1/97.

ACTIONS OF SA [redacted]

b6
b7C
b7D

Prior to the shooting, SA [redacted] was involved in the preplanning and preparation for the RUO and arrest of subject Riley. On the morning of the shooting, 1/30/97, at 10:00AM, SA [redacted] attended a pre-operation briefing in the SAC's conference room. SA [redacted] was assigned as the arrest team leader and would be positioned in the motel room adjoining the room occupied by [redacted] During the briefing, all personnel were advised of the arrest plan and their assignments.

At approximately 12:30PM, SA [redacted] arrived at the motel room where he, the other BuAgents and police officers were to stage. Subject Riley and [redacted] had talked on the telephone and made arrangements to meet about 3:00PM in [redacted] motel room where the drug deal would be completed. [redacted] had five kilos of cocaine which the FBI furnished. This was in his room to show to subject Riley.

Prior to the 3:00PM meeting and during their wait, Officer [redacted] and SA [redacted] simulated entry into [redacted] room and discussed the plan at length with him. When the arrest was to occur, [redacted] was told to dive over the bed and get against the wall when he heard the arrest team coming through the door. In the event [redacted] felt threatened or had a problem, he was told to call out, "Mickey Mouse", and throw his hat into the air. [redacted] was instructed that he was not to let anyone except subject Riley into his room and that if more than one person came to his room he was not to let them in. [redacted] was instructed to go to the bathroom and get down and that an Agent would go in with him for protection. Also during this time, SA [redacted] rehearsed opening the doors to [redacted] room and repeatedly practiced turning the locking knob from the locked to the open position. SA [redacted] and Officer [redacted] discussed the plan for entry into [redacted] room; SA [redacted] would be the first through the doorway in the event of trouble or to affect the arrest of subject Riley.

b6
b7C
b7D

The Technically Trained Agents (TTAs) had placed a concealed closed circuit television camera in [redacted] room with a monitor in the Agents' room. It was checked repeatedly because of an earlier malfunction during this investigation. One of the TTAs would be listening to the conversations in [redacted] room through a headset and SA [redacted] would rely on listening for audible sounds both through the wall and around the door frame.

The surveillance team provided all the involved personnel with updates as to the subject's location and shortly before 3:00PM, the surveillance team reported that the subject was arriving at the motel. [redacted] was told that the subject was on his way to the room and SA [redacted] had [redacted] close and lock the adjoining door. SA [redacted] then positioned himself in front of this door in preparation of making an entry if needed. This meeting between [redacted] and the subject lasted only nine minutes and was without incident. [redacted] was debriefed and they anticipated that the subject would return later in the afternoon with the money for the cocaine.

b6
b7C

Following this meeting, the surveillance team observed the subject pick up two other white males and they went to Applebee's Restaurant near the motel. SA [redacted] had a heightened sense of awareness now that subject Riley was not alone and it was getting later in the day. The subject and his two associates left the restaurant and headed for the motel around 6:00PM in Riley's Lincoln Town Car. The surveillance team advised that subject Riley was the only one getting out of the car at the motel and that he was carrying a bag. It was interpreted as possibly containing the money for the cocaine deal. SA [redacted] had told [redacted] not to lock his door to the adjoining room until he (SA [redacted] definitely told him how many subjects were coming. SA [redacted] knew that subject Riley had seen the five kilos of cocaine in [redacted] room earlier that afternoon and that [redacted] was not armed.

After SA [redacted] learned that subject Riley was approaching the room alone, he told [redacted] to 'button up' meaning to lock his door. [redacted] then closed the door and tapped twice to let SA [redacted] know the lock was on. SA [redacted] took his position at the door, which was the door to the adjoining room. SA [redacted] heard a knock, some noise of movements inside the room and then heard a gunshot. SA [redacted] immediately unlocked the door and drew his weapon as he entered [redacted] room. His first observation was seeing subject Riley holding a gun in his right hand and pointing it in the direction of movement which was either on the bed or on the floor between the two beds. A haze of something in the air further confirmed to SA [redacted] that a

b6
b7C

weapon had just been fired. SA [redacted] yelled, "freeze" but the subject did not respond and continued to point his weapon in the direction of [redacted] SA [redacted] took aim and fired one round. The subject turned toward SA [redacted] with his weapon still in his hand and SA [redacted] fired three additional rounds and the subject fell to the floor and against the wall next to the door which SA [redacted] had just entered. After SA [redacted] determined that the subject was no longer a threat, he holstered his weapon and then assisted Officer [redacted] in handcuffing the subject. [redacted] during this time, had gotten up from the floor and was yelling that he had been shot. b6 b7C

Within moments, SA [redacted] determined that the situation was under control and he walked out onto the walkway in front of the motel room where he was met by SSA [redacted] SA [redacted] released his weapon, a Bureau issued .45 Sig Sauer, to SSA [redacted] and was then driven to the Kansas City FBI Office. SA [redacted] was wearing his protective vest during this RUO.

ACTIONS OF PATROLMAN [redacted]

In preparation for the proposed arrest, [redacted] attended a briefing in the FBI conference room on 1/30/97 regarding a reverse undercover operation involving Riley and the arrest of Riley. [redacted] received a written arrest plan and reviewed the plan.

In the written arrest plan, [redacted] was originally assigned to the outside arrest team and Detective [redacted] was originally scheduled to be part of the inside arrest team. After the typed arrest plan was prepared, a change was made regarding [redacted] position. [redacted] radio had the same frequency as the Kansas City, Missouri Tactical Unit which was assigned to cover the outside perimeter, so [redacted] was moved to the outside arrest team and [redacted] was moved to the inside arrest team. Both [redacted] and [redacted] were fully briefed and aware of their new roles prior to the shooting incident. [redacted] new assignment was to be the second man into [redacted] room behind SA [redacted] to arrest Riley once the drug deal had been consummated. b6 b7C

While in position in the room next to [redacted] heard a knock at [redacted] door. He then heard a popping sound and SA [redacted] opened the door connecting to [redacted] room. [redacted] entered [redacted] room right behind SA [redacted] with his weapon drawn. [redacted] heard SA [redacted] shooting, but he did not see the subject because SA [redacted] was partially blocking [redacted] view. Riley then fell to the floor by [redacted] and SA [redacted] feet. [redacted] yelled at Riley to let [redacted] see his hands. [redacted] got on

top of Riley who was lying on his back and placed his one hand on the subject's hands and held his own gun with the other pointing at the subject. SA [redacted] and [redacted] then rolled the subject onto his stomach and handcuffed him. As [redacted] looked at the subject's face, the subject "gurgled" from his mouth. [redacted] believes the subject died at that moment.

During the operation, [redacted] wore a protective vest and had in his possession two weapons, a .40 caliber semi-automatic pistol and a .38 caliber revolver which he carried in an ankle holster. A check of both weapons following the incident indicated that the weapons had not recently been fired. b6 b7C

OTHER PARTICIPANTS LOCATED IN ROOM 230

Located in Room 230, the room adjoining [redacted] room were ten law enforcement officers assigned as members of the inside arrest and evidence teams. Included in the ten were two technically trained agents, SAs [redacted] and [redacted]. The inside arrest team consisted of the team leader SA [redacted] Patrolman [redacted], SA [redacted] and Detective [redacted]. The evidence team consisted of SAs [redacted] and [redacted] and SA [redacted] of IRS/CID. SA [redacted] was also present. Statements are consistent that a detailed briefing was held at 10:00 AM in the FBI Office's conference room on 1/30/97 regarding a reverse undercover operation involving Joseph Riley and the arrest of subject Riley. Written arrest plans were also received and reviewed.

In compliance with the arrest plan, the participants were all in place in Room 230 at the Motel 6 by 1:00 PM on 1/30/97. To provide protection for [redacted] Room 231 was wired with closed circuit television. Although there had been no previous indication that [redacted] would be harmed, his safety was paramount. At approximately 3:00 PM, an initial meeting was held between [redacted] and Riley in [redacted] room. Riley was shown the kilos of cocaine by [redacted]. It was agreed that Riley would return later in the afternoon with the money to purchase the cocaine. b6 b7C b7D

Shortly before 6:00 PM, the participants in Room 230 learned the subject had returned to the motel and was on his way to [redacted] room. The participants were aware of the entrance of Riley into [redacted] room either through the monitoring of the closed circuit television in Room 230 or by listening at the door which connected with [redacted] room. Several of the participants heard the knock at [redacted] door which prompted [redacted] to open the door for Riley to enter Room 231. While watching the closed circuit monitor, five of the participants specifically stated

they observed Riley enter [redacted] room and pull a concealed weapon from his waistband firing one shot at [redacted] Three participants were not watching the closed circuit monitor, but statements reflect they heard the knock at [redacted] door and then heard one shot.

Shortly after the shot was fired at [redacted] by Riley, participants' statements reflect an awareness that the door connecting Room 230 with [redacted] room was being opened by the arrest team, with an additional several shots being fired immediately thereafter. Two of the participants specifically stated they heard four shots. SA [redacted] observed SA [redacted] and Patrolman [redacted] make entry into the adjoining room of [redacted] and then heard someone shout, "freeze," followed by several more shots. b6 b7C b7D

Following the shots, SA [redacted] and Detective [redacted] observed subject Riley lying in the doorway of the adjoining rooms. SA [redacted] heard [redacted] ask for handcuffs in order to secure the subject and [redacted] observed [redacted] place the handcuffs on Riley.

All members of the arrest team wore badges and tactical vests which were clearly marked with "FBI". Other than SA [redacted] no other participants from Room 230 fired their weapons.

## SURVEILLANCE

The Kansas City SOG team was assigned to conduct physical surveillance of Riley. Ten Special Agents and a Bureau aircraft were assigned to this surveillance.

This surveillance began at 8:15 a.m. on 1/30/97, at the residence of Riley, 7408 West 99th Street, Overland Park, Kansas. Riley was driving a silver 1986 Lincoln Town Car bearing Texas license plate JYP-96H. After traveling to his known place of employment, Webb Communications, Riley picked up [redacted] at his residence in Kansas City. For the next two hours they rode together and met an unknown black female for a short time at a diner in Kansas City. b6 b7C b7D

Riley dropped [redacted] off at a McDonald's Restaurant and met [redacted] for the first time at the Motel 6 from 2:33 p.m. until 2:42 p.m. After this meeting, Riley returned to McDonald's to pick up [redacted]

After drinking beer at a local bar, Riley and [redacted] picked up [redacted] in Kansas City. They picked up a white bag (later determined to contain food items) and all traveled to the Motel 6, where Riley was observed entering Room 231. [redacted] and [redacted] remained in Riley's Lincoln Town Car.

b6
b7C

ARREST OF SUBJECTS AND PROSECUTIVE STATUS

Following the shooting, an investigation was initiated by the Kansas City, Missouri Police Department's Homicide Unit of a dead body which was the result of the discharge of a firearm by an agent of the FBI. The victim was identified in the investigative report as Joseph Riley. Following an examination by Dr. [redacted] of the Jackson County Medical Examiner's Office, Riley was transported to the Truman Medical Center Morgue by Funeral Director's Service.

The two individuals who remained in subject Riley's car outside the motel, [redacted] and [redacted] were arrested by officers of the Kansas City, Missouri Police Department (KCMOPD).

On 1/31/97 [redacted] Platte County Prosecutor, Platte County, Missouri filed a criminal complaint against [redacted] alleging a violation of Section 565.021 of the Missouri Revised Statutes (Mo. Rev. Stat.), i.e. felony murder in the second degree. A conviction for violation of this statute subjects the offender to a wide range of penalties which consist of 10 years to life imprisonment. See e.g. Section 558.011, Mo. Rev. Stat.

Thereafter, on the same day, an arrest warrant was issued and executed while [redacted] remained in the custody of the Kansas City, Missouri Police Department on a "20 hour hold" for his involvement in the 1/30/97 incident. Bond for [redacted] has been set at $500,000.

b6
b7C

Subsequent contact with [redacted] Assistant Prosecuting Attorney, Platte County, Missouri has determined that a Platte County Grand Jury is scheduled to review this entire incident, to include SA [redacted] actions, on 2/26-27/97. Information is still being gathered by the District Attorney's Office in preparation of possible indictments of [redacted] and [redacted] According to [redacted] the possibility of any criminal charges being filed against SA [redacted] is remote.

[redacted] is a convicted felon who is currently on unsupervised federal probation for the illegal distribution of cocaine. Based upon [redacted] involvement in the 1/30/97 shooting incident, [redacted] Probation Officer, United States Probation and Parole, Western District of Missouri, requested and obtained an arrest warrant revoking [redacted] parole. The arrest warrant was predicated on [redacted] violating the terms of his probation by associating with individuals engaged in a criminal act and with a convicted felon, [redacted] b6 b7C

The requested arrest warrant was issued by the Honorable Howard F. Sachs, United States District Judge, Western District of Missouri on 1/31/97, and immediately executed as [redacted] was at the United States Probation Office waiting to report his involvement in the 1/30/97 incident to [redacted] his Probation Officer.

CRIME SCENE INVESTIGATION

On the evening of 1/30/97, due to the possible state felony murder charges against [redacted] and [redacted] the Kansas City, Missouri Police Department (KCMOPD) processed and collected evidence from Room 231 as well as from a 1986 Lincoln Town Car, license JYP-96H (Texas), utilized by Riley and accomplices parked in the motel lot.

An apparent bullet hole was observed in the curtain, window, and exterior screen on the south wall of Room 231 (Photo 6). The hole in the window is large, possibly indicating a tumbling bullet (Photo 30). An extensive search of the motel parking lot, pool area, and surrounding areas was conducted via visual observation and metal detectors with negative results. A review of the surveillance video within Room 231 reveals that this damage was likely caused by subject Joseph Riley's first fired round. This first shot struck [redacted] in the upper chest at an oblique angle and exited from [redacted] upper left arm and continued in a southerly direction. b6 b7C

A spent bullet was also recovered on the floor along the west wall just north of the southern most bed (Photos 8, 12, 33). Firearms Examiner (FE) [redacted] Kansas City, Missouri Police Department (KCMOPD), advised a preliminary examination of the bullet is consistent with those from Riley's .38 Colt. A review of the surveillance video indicates this bullet to likely be Riley's second fired round.

The surveillance video also shows that upon being struck by SA [redacted] first fired round, Riley fired his weapon a third time in a downward, and generally, a southwesterly direction. This bullet was not located during the initial crime scene search. However, on 1/31/97, the following day, a further search was conducted by KCMOPD for the third bullet. It was located in the interior of a box spring mattress along the south wall of Room 231 (Photo 32). FE [redacted] advised this fired bullet is also consistent with those from Riley's .38 Colt. b6 b7C

A .38 Colt, six shot revolver, Serial Number 12637, was found lying on the floor east of the northern bed. (Photo 4). Three (3) spent casings head stamped "RP 38 S&W" and three (3) live bullets head stamped "RP 38 S&W" were in the cylinder. (Photo 9).

The following .45 spent shell casings were located in various locations in Room 231:

One (1) shell casing head stamped "RP 45 Auto" located under the northeast corner of the southern most bed (Photo 7).

One (1) shell casing head stamped "RP 45 Auto" located under the east end of the northern most bed (No photo).

One (1) shell casing head stamped "RP 45 Auto" located on the bathroom floor (Photo 5).

One (1) shell casing head stamped "RP 45 Auto" behind the bathroom toilet (Photo 13).

A spent bullet and copper jacket were collected from beneath Riley's shirt. (Photo 11). Three (3) additional spent bullets were removed from Riley's body during the autopsy. FE [redacted] advised these four (4) spent bullets were consistent with those from SA [redacted] weapon (Photos 23-25).

Apparent gunshot wounds were observed by crime scene technicians and reported in the following areas of subject Riley's body: b6 b7C

Two on the back, below the right shoulder.

Two on the left side of the chest beneath the right arm pit.

Subsequent review of autopsy photos reveals first on-scene examination of Riley's body by crime scene technicians was in error. Entry wound is also located on right side below armpit. One wound on chest is an exit wound (Photos 16-22).

Examination of the 1986 Lincoln Town Car, pursuant to a search warrant, revealed nothing apparently related to the shooting (Photos 14, 15).

## WEAPONS INVOLVED

During the shooting of [redacted] by Joseph S. Riley and the subsequent shooting of Riley by SA [redacted] the following weapons were discharged:

Joseph S. Riley's weapon:

.38 Colt, six-shot revolver, Serial #12637, with RP .38 Smith and Wesson ammunition.

b6
b7C
b7D

SA [redacted] weapon:

.45 Sig Sauer pistol, P220, Serial #G181620 with RP .45 auto Remington, 230 grain ammunition. A seven round magazine was utilized in SA [redacted] weapon.

Investigation by Kansas City, Missouri Police Department (KCMOPD) and FBI revealed the following number of spent casings and live rounds located at the crime scene:

Three (3) spent casings head stamped "RP 38 S&W" and three (3) live rounds head stamped "RP 38 S&W" were located in the cylinder of Joseph S. Riley's revolver. (See KCMOPD cylinder diagram in their Physical Evidence/Property Inventory Report #97-010890).

Subject Joseph S. Riley's weapon was found lying on the floor of Room 231, east of the northern most bed. The barrel was pointing east.

Four (4) spent casings head stamped "RP 45 Auto" located within Room 231.

Following the shooting, SA [redacted] weapon was examined and found to contain one (1) .45 round in the chamber and three (3) .45 live rounds in the seven (7) round magazine. These four (4) rounds in addition to the four (4) .45 shell casings found in Room 231 total eight (8) rounds.

Riley's weapon, unfired cartridges and shell casings are being maintained by the KCMOPD. SA [redacted] weapon was test fired by KCMOPD and returned to him the next day. b6 b7C

FIREARMS TRAINING

Following is the firearms training schedule conducted by the Kansas City Division, Headquarters City, calendar year 1996:

6/3-5/96

7/22-23/96

8/1/96

9/9-10/96

9/26-27/96

10/21-22/96

10/28-29/96

Review of FD-40 Field Firearms Training Record for SA [redacted] revealed that he qualified in a Pistol Qualification Course (PQC) five times during calendar year 1996. SA [redacted] attended firearms on the following days and attained the following scores:

6/5/96 (94)

7/29/96 (98/100)

10/30/96 (96/98)

SA [redacted] is a current member of the Kansas City SWAT Team. His scores obtained on 7/29/96 and 10/30/96, represent SWAT qualifications.

MEDIA COVERAGE

Local television stations covered the above described shooting during the evenings of 1/30-31/97. The major city newspaper, THE KANSAS CITY STAR, published articles on the mornings of 1/31/97 and 2/1/97.

A review of all media coverage revealed generally positive comments with no issues raised and overall factual reporting.

Title:

Character: ADMINISTRATIVE INQUIRY

Synopsis: INQUIRY OBSERVATIONS

The Newark Division VC/FTF was alerted to subject Michael Byrd's whereabouts approximately one week prior to the incident by a source who believed Byrd to be wanted. A preliminary inquiry initiated at that time revealed he had been previously arrested for murder and later captured by police in West Virginia. Byrd was extradited to New Jersey and set free on bond. Subsequently, he failed to appear and an arrest warrant was issued. On the morning of January 30, 1997, the Newark VC/FTF planned to locate and arrest Michael Byrd.

SA [redacted]

SA [redacted] EOD 3/7/88, was assigned in San Antonio from 6/88 - 9/90 where he worked on a Violent Crimes and the surveillance squad. In 1990, he was transferred to the Newark Division where he worked exclusively on Violent Crimes cases. He is a certified Firearms Instructor, b6 Tactical Instructor and member of Newark's SWAT Team, b7C serving as assistant team leader. Prior to his FBI service, SA [redacted] spent five years with INS as a Border Patrol Agent. He is Principal Relief Supervisor for Squad C-1 and the Coordinator of the VC/FTF.

Per normal routine, the VC/FTF on days they were planning arrests, met in the FBI garage to set out the

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

general plans for the morning. On 1/30/97, SA [redacted] placed the arrest of Michael Byrd second on the squad's agenda. After the first arrest came up negative, SA [redacted] briefed the squad on Michael Byrd and the fact that they would first attempt to contact [redacted] for information as to his location. At her residence, an elderly man [redacted] answered the door and identified Byrd as [redacted] was staying in Elizabeth, New Jersey, advising that he probably would be armed.

SA [redacted] initiated plans for a tactical entry, naming SA [redacted] to enter the residence with a protective shield and SA [redacted] to follow with an MP-5. The remainder of the entry team consisted of SAs [redacted] and [redacted] ECPO Detectives [redacted] and [redacted] NPD Detective [redacted] Essex County Department of Public Service (ECDPS) Sergeant [redacted], and [redacted] US Marshal's Service.

b6
b7C

Approximately one block from Byrd's suspected location, SA [redacted] provided a final briefing. The Task Force proceeded to the residence where Detective Contreras and SA [redacted] followed SAS [redacted] and [redacted] up the front steps where [redacted] rang the doorbell. Radio traffic indicated someone on the top floor was trying to throw a bag out of the back window and a short time later, jump out of the window. A woman answered the door indicating Byrd was in the upstairs apartment. The four climbed the stairs, SA [redacted] announced their presence and subsequently kicked in the door. SAs [redacted] and [redacted] began clearing the apartment, proceeding down the hall shouting commands for any residents to come out. A man and woman came out, the former indicating Byrd was in the back room. SAs [redacted] and [redacted] entered the back bedroom where they began a systematic search. SA [redacted] checked under the bed once and SA [redacted] heard him say he needed to do so again. SA [redacted] who was in the closet, heard SA [redacted] say "let me see your hands." He shouted this for 10-15 seconds at which time an individual (Byrd) jumped up from under the bed, holding his left hand up and out in front of him. SA [redacted] could not see the right hand because his body was bladed away from him, however it appeared to be in his waistband. For about 15-30 seconds SAs [redacted] and [redacted] shouted for Byrd to show his other hand. Byrd did not comply. He then spun his body around to face SA [redacted] SA [redacted] stated he heard two "pops" which he thought came from a small caliber weapon, and then a puff of smoke about two feet in front of Byrd at waist height. SA [redacted] began to fire his weapon, emptying it. He holstered the pistol after he saw Byrd slump against the wall and because he saw that SAs [redacted] and [redacted] each had Byrd covered.

b6
b7C

Following the shooting, SA began attending to necessary issues such as notifying outside individuals of the results, calling for Elizabeth Police assistance, EMS assistance and the FBI Evidence Response Team. Shortly afterward, SA became aware of the other Agents who had fired their weapons, namely SAS and NPD Detective SA did not recall during the incident that any of those individuals had fired.

SA

SA EOD 2/5/90, has served in the Newark Division on the Applicant Squad and in his present assignment on the Violent Crimes Squad for approximately seven years. He is a certified Firearms Instructor and a member of the SWAT Team, where he serves as a sniper.

b6
b7C

On January 30, 1997, Squad C-1 was preparing to conduct several arrests and as was normal procedure personnel met in the FBI garage at approximately 5:00 a.m. SA recalled that SA briefly provided the identities of the fugitives to be worked that day. The first was an armed robbery fugitive and the second case was to be Michael Byrd, wanted by New Jersey authorities for homicide.

Following a unsuccessful attempt at locating the first fugitive, squad members remained at this location where SA provided more in depth detail about Michael Byrd. Discussion dealt with how to approach the residence in Montclair, New Jersey where Byrd might be located. At this location SA was assigned to cover the rear of the house. This search also was negative so Agents and local officers moved to a staging area in Elizabeth, NJ, near another location thought to be where Byrd was staying based on information
Again, discussions about how to approach this residence were formulated and SA and SA were to enter the door first, utilizing body bunker and a MP-5 shoulder weapon, immediately followed by SA and ECPO

b6
b7C

SA arrived at the address at approximately 7:00 a.m. and when perimeter Agents and officers were in place, he and SA approached the door. Officer rang the bell and at just about that time, SA heard a radio transmission indicating individuals had appeared at the upper window. A woman answered the door indicating Byrd was located upstairs. At that time, another radio transmission indicated someone was kicking the screen out of the upper window. SA knocked and announced at the upstairs door and after one to two minutes, SA

kicked in the door. Both SAs [redacted] and [redacted] began to clear the rooms beginning with the kitchen and living room, which were empty. SA [redacted] was repeatedly calling to the occupants "FBI come out with your hands up." A man (not Byrd) and woman exited from the inner rooms and were handcuffed in the living room by other members of the arrest team. SA [redacted] continued to call out commands to come out. SA [redacted] was using the body bunker and SA [redacted] was directly in back of him. They cleared the bathroom and a closet and the decision was made to enter the back right bedroom. SA [redacted] cleared the bedroom closet while SA [redacted] advised he would look under the right side of the bed. Seeing nothing, he proceeded to the left side at which time he backed away from the bed shouting repeatedly "let me see your hands." The subject stood up abruptly, causing the mattress/box spring to thrust to SA [redacted] right side. He moved to his left and stood shoulder to shoulder with SA [redacted] with his MP-5 trained on Byrd. The subject stood in a bladed position with his right hand located near his mid-thigh area. His left hand was positioned in a defensive stance at approximate chest height. It was SA [redacted] belief that Byrd had a weapon in his pants. He also appeared to be scanning the room quickly with his eyes. Byrd did not comply with the Agents' commands to show his hands during about a 25-30 second time period. At this time, Byrd made a quick, threatening move in which he spun to face the two Agents directly. Simultaneous to this, SA [redacted] heard a "pop" coming from Byrd which he thought was a gunshot and at this point he began firing his MP-5. He indicated he didn't recall how many rounds he fired but he does remember shooting two round bursts until he observed the subject falling to the ground.

b6
b7C

SA [redacted] stated he believed Byrd possessed a weapon and as such, he was in fear for his life during the entire encounter.

b6
b7C

SA [redacted]

SA [redacted] EOD 9/8/91, has had investigative assignments in the Applicant, Civil Rights, White Collar Crime, Interstate Theft and as of 1/6/97, the VC/FTF areas. He is a Firearms and Tactical Instructor and a member of the SWAT Team where he serves as Team Leader. Previous to the FBI, he served four years in the US Army Infantry.

At approximately 4:45 a.m., on 1/30/97, Task Force members gathered in the FBI garage for a briefing on the first scheduled arrest attempt for that day. This effort proving unsuccessful, Task Force members were then briefed on the Michael Byrd case and proceeded to the

Montclair, NJ [redacted]

residence, informing SA [redacted] that Byrd was probably armed.

b6
b7C

The Task Force regrouped outside the [redacted] for a briefing on the next move. SA [redacted] was assigned to carry the shield and together with SA [redacted] who was carrying the MP-5, would enter the apartment first. SA [redacted] was the team leader.

At approximately 6:30 a.m., SAs [redacted] and [redacted] and Detective [redacted] climbed the outside stairs of the residence while other members of the TF took up other assigned positions. SA [redacted] knocked at the door and a woman answered stating that Byrd was in the upstairs apartment. At about the same time, one of the TF members saw someone appear at an upstairs window, where Byrd was supposedly staying.

When the four Agents/officer reached the second floor, SA [redacted] announced their presence and contemporaneously, another Agent observed an individual try and remove a screen from an upper window. For several minutes he continued knocking and at some point, SA [redacted] ordered that the door be kicked open. SA [redacted] accomplished this task.

SAs [redacted] and [redacted] entered the apartment and began to methodically clear the rooms, beginning with the living room. At the same time, SA [redacted] was calling for any occupants to come out. A male individual eventually came out and was handcuffed. SA [redacted] became aware that there was a woman in the apartment and he called out to her to come out as well. She exited the back left bedroom and was handcuffed.

b6
b7C

SA [redacted] instructed SA [redacted] to clear the rest of the space as Byrd was still thought to be present. SAs [redacted] and [redacted] with the assistance at one point of Detective [redacted] cleared the bathroom, closet, a — bedroom on the right and a back left bedroom which was illuminated and appeared empty.

SA [redacted] instructed them to clear the back right bedroom at this point. SA [redacted] entered the room behind the shield while SA [redacted] remained in the hallway. SA [redacted] directed SA [redacted] to enter and proceed to the right while SA [redacted] went to the left. SA [redacted] looked under the bed with his flashlight and saw no one. SA [redacted] cleared the closet and left the room to thoroughly clear the right bedroom. SA [redacted] entered the

room while SA [redacted] began to look under the left side of the bed. At this time, he saw an individual and jumped back shouting that Byrd was there. He called repeatedly to Byrd to come out and show his hands. There were four Agents/Officers (SAs [redacted] and Det. [redacted] in the room positioned around the room at this point. Byrd emerged, first in a kneeling position with the mattress on top of him and his body bladed so the right side was not visible but his left hand was directly outstretched. He quickly moved to an upright position, throwing the mattress to the left side and moving back towards the corner. His body was still bladed so his right side wasn't visible but SA [redacted] could tell that his right hand was in his sweatpants. We ordered him to remove his hand but Byrd did not comply. SA [redacted] began firing his weapon at Byrd when the latter quickly swung his body around toward him. He emptied his weapon and reloaded, however, the shooting had stopped by that time as Byrd was sliding down against the wall. SA [redacted] stayed in the room until emergency personnel arrived at the scene.

b6
b7C

SA [redacted]

SA [redacted] EOD 10/29/95, was assigned to the Applicant/Civil Rights Squad upon reporting to Newark from New Agents Class and spent approximately five months there. He has been on the VC/FTF since 7/96. Prior experience includes three years as a police officer.

On the morning of 1/30/97, the Task Force met in the Bureau garage as was the usual pattern prior to attempting a series of arrests. SA [redacted] briefed everyone on the first subject and the approximate 16 TF members took up assigned posts at the first location. Because the fugitive was not present, SA [redacted] gathered TF members together for a second briefing regarding Michael Byrd. The next location in Montclair, NJ, was that of Byrd's girlfriend. SA [redacted] and Investigator [redacted] were assigned to approach the front door while other members formed a perimeter around the house. Newark PO [redacted] and SA [redacted] were to follow SA [redacted] and [redacted] to the door. An elderly man let us in the house where [redacted] and SA [redacted] along with other personnel present conducted a protective sweep. [redacted] Once the residence was secure, SA [redacted] exited the apartment.

b6
b7C

[redacted] Prior to departing, SA [redacted] again provided instruction regarding assignments. SAs [redacted] and [redacted] were to enter the location first, closely followed by SA [redacted] and

Investigator [redacted] SA [redacted] and Detective [redacted] were to follow. When the team reached the staging point, SA [redacted] The TF then proceeded to the location where the above individuals climbed the steps of the residence. SA [redacted] observed the curtains move in an upstairs window after the doorbell was rung and heard over the radio that a side window was open. At this point, a woman came to the door and indicated Byrd was in the upstairs apartment.

The Agents and Investigator [redacted] went up the stairs where SA [redacted] announced their presence. SA [redacted] was among the individuals who followed the four up the stairs. During the several moments that SA [redacted] was announcing the presence of law enforcement, I heard another transmission indicating someone was opening a back window. On SA [redacted] order, the door was forced and SA [redacted] participated with other Agents in clearing the living room. SA [redacted] observed SAs [redacted] and [redacted] yelling commands for the occupants to come out and after a couple of minutes, SA [redacted] observed an individual coming from the back. This person wasn't totally cooperative, however, he was brought under control and searched. Next a woman came down the hall and was handcuffed and questioned by SA [redacted]

b6
b7C

SAs [redacted] and [redacted] continued to clear the apartment eventually reaching the back right bedroom. SA [redacted] and Investigator [redacted] were behind them and SA [redacted] stated he used a closet opening off the hallway to provide himself cover. SA [redacted] heard SAs [redacted] and [redacted] yelling "let me see your hands!" SA [redacted] went to the door and observed Byrd in a defensive position with his right hand near his waistband. He was bladed away and SA [redacted] was unable to actually see his right hand. SAs [redacted] shouted for Byrd to show his hidden hand, however, Byrd did not do so. He scanned the room looking at each individual in turn. Byrd then made a very quick turning movement towards SAs [redacted] and [redacted] and I heard three shots. SA [redacted] believed Byrd had fired at the Agents and began firing back. It didn't appear that Byrd was falling but SA [redacted] indicated he thought he was being hit. In all, SA [redacted] estimated he fired seven rounds. When the shooting ceased, SA [redacted] left the room and the apartment to await further instructions.

b6
b7C

## INQUIRY OBSERVATION/RECOMMENDATION

Each of the SAs interviewed by the Inspection Team were cooperative and eager to recount individual recollections of the January 30, 1997, shooting incident. those recollections are in substantial conformance with one another, although all statements contain what could be termed understandable differences in terms of the amount of detail each was able to summon regarding each aspect of that morning's events. In the seminal portion of the day's events, however, all four Agents could readily explain the reasons they believed their use of deadly force was justified and necessary and each one recounted the details of their use of it in substantially the same way.

It is recommended that this inquiry be closed with no further action.

Synopsis: Subject of 91A-MP-46869 involved in FBI shooting incident on 1/31/97, following subject's robbing of CHANHASSEN BANK, Chanhassen, Minnesota, hostage taking, and firing upon officers in pursuit.

b6
b7C

DETAILS:

On 1/31/97, at approximately 7:35 p.m., subject [redacted] (91A-MP-46869) entered the CHANHASSEN BANK, 600 West 78th Street, Chanhassen, Minnesota, displayed a handgun, made oral demands for money, and ordered employees and customers into a back room within the bank.

After taking control of the bank, subject ordered the bank manager at gunpoint to remove money from numerous teller stations and provided a green plastic newspaper bag for secreting the monies. Subject then took as a hostage one [redacted] white female, dob [redacted] and departed the scene in her vehicle with [redacted] as driver.

Due to the timely activation of the bank's alarm system and a call placed by [redacted] to the 911 operator at the initiation of the robbery, Chaska, Minnesota, Police Department and Carver County Sheriff's Office personnel identified the vehicle and initiated surveillance.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

During the surveillance, hostage [redacted] executed a 180 degree turn of the vehicle. As the vehicle came to a stop, subject [redacted] exited, fired two shots in the direction of the police vehicles, and fled on foot with [redacted] toward a wooded area. [redacted] was able to free herself after a short distance and was rescued by responding law enforcement. Subject [redacted] fled into a wooded area adjacent to several housing developments in the vicinity of Rice Marsh Lake, Chanhassen, Minnesota.

b6
b7C

Law enforcement agencies throughout the area responded to the scene, to include Minneapolis Division SAC Roger H. Wheeler, Assistant Special Agent in Charge Michael J. Waldner, Violent Crimes Supervisor [redacted] and various SA personnel, to include Minneapolis SWAT Team Leader [redacted] and other SWAT Team members. An FBI hostage negotiator was present as well.

A command post was established at Rosemount Engineering Company on Highway 5 in Chanhassen, Minnesota, and a search was instituted for the subject. With the assistance of a Minnesota State Patrol helicopter and tactical teams of the FBI, the Minnesota State Patrol and the Eden Prairie, Minnesota, Police Department, the subject was located and surrounded in a wooded area adjacent to Rice Marsh Lake.

FBI SWAT personnel were briefed by the SWAT Team Leader and the FBI policy on deadly force was reiterated.

A single exchange of gunfire occurred during the next several hours which did not involve FBI personnel and which resulted in no injuries to the subject or to law enforcement.

When, at approximately 11:10 p.m., the subject began a verbal exchange with officers, ASAC WALDNER dispatched SA [redacted] a hostage negotiator, to the scene with Carver County Sheriff's Officer Deputy [redacted] a Bureau-trained negotiator, in support. During this verbal exchange, the subject repeatedly refused to surrender and stated officers would have to "come and get me."

b6
b7C

At approximately 11:40 p.m., SA [redacted] a member of the Minneapolis Division SWAT Team on perimeter, observed the subject walking from the wooded area into the residential development. SA [redacted] could clearly view the subject's silver handgun as he walked. SA [redacted] ordered the subject to freeze and drop his weapon. After pausing, the subject dropped to his knees and then into a prone position, still holding his handgun. SA [redacted]

moved toward the subject with SAs [redacted] and [redacted] fellow SWAT Team members, in support. The subject then stood and began walking into the residential area. SA [redacted] again ordered the subject to drop his weapon, at which time he responded, "Fuck you, come and get me." As the subject moved through the clearing toward the residential area, SA [redacted] prepared to shoot but refrained from doing so due to concerns for the safety of persons inside nearby houses. A foot chase ensued with SAs [redacted] and [redacted] in pursuit. They were jointed shortly thereafter by Eden Prairie Police Officer [redacted] After turning from a series of residential streets into a cul de sac, the subject paused in front of a driveway on the left side of the street, raised his handgun to shoulder level, and turned toward the SAs and officer, who had taken stationary positions at the entrance of the cul de sac. SAs [redacted] and [redacted] again ordered the subject to freeze and when he did not comply, they and the Eden Prairie Police Officer discharged their weapons with SA [redacted] firing first and SA [redacted] firing several seconds thereafter. The subject fell to the ground behind a snow bank along the driveway's edge, was apprehended, handcuffed and his weapon, a Taurus Model P-22 pistol, was retrieved and rendered safe.

b6
b7C

A wound was identified in the subject's lower left wrist for which he was immediately transported to the Hennepin County Medical Center for treatment.

Inasmuch as the Minneapolis Bureau of Criminal Apprehension (BCA) was to process the initial two shooting scenes, it was agreed that BCA would do the FBI scene as well.

The 10mm MP-5 weapons of SA [redacted] and [redacted] were taken into custody by the SWAT Team leader and subsequently provided to BCA for examination. Two rounds had been discharged from each. Officer [redacted] had fired four rounds from a 12-gauge shotgun.

b6
b7C

Subject [redacted] was interviewed on 2/3/97, wherein he admitted to the bank robbery, stating it was his intention to be "killed by the police during the robbery." [redacted] has been charged with three counts of bank robbery; Title 18, USC, Section 2113(a), (d), e; one count of Use of a Firearm, Title 18, USC, Section 924(c)(1); and state charges as follows: Attempted Murder in the First Degree (six counts); Second Degree Assault (four counts); Terroristic Threats (one count); Kidnapping (one count).

SAC COMMENTS AND OBSERVATIONS:

On the evening of January 31, 1997, I was on-scene at the victim bank and the command post during the sequence of events which is recorded herein. It is important to recall that this incident started late on a Friday evening at approximately 7:30 PM, and was concluded within four hours. All local police departments, sheriffs' departments and state agencies, both the Minnesota State Patrol and the Minnesota Bureau of Criminal Apprehension, cooperated entirely with each other and with the FBI in all aspects of this investigation. There was never a hint of anyone attempting to take control beyond their jurisdictions or abilities. Carver County Sheriff Allen J. Wallin and I were at the Command Post at the time the subject of the bank robbery investigation was apprehended. There was complete cooperation between the two agencies in dealing with all the investigative agencies involved. In addition, I would like to note that SA [redacted] head of the Minneapolis SWAT Team, took control as the on-scene Tactical Leader, through his demeanor and expertise, and provided guidance and assistance to each of the three Tactical Teams or partial teams that arrived and were utilized throughout the evening. Those three teams were from the Eden Prairie Police Department, Minnesota State Patrol, as well as the Minneapolis FBI Swat Team. From the beginning, this bank robbery, hostage taking, manhunt was extremely fast moving with little or no time to plan and prepare. It simply was four hours of rapid fire reaction to various situations.

b6
b7C

At the conclusion it was decided by the ranking member of each agency on-scene that the Bureau of Criminal Apprehension (BCA) would conduct the shooting scene investigation and review, except as it specifically related to each involved agency, such as interviewing of personnel. The reason for this was simple. The Bureau of Criminal Apprehension conducts reviews within the state of Minnesota for all state and local agencies so that an independent review is provided. This is the first time they had been involved with the FBI in the metro area. They are extremely well equipped and professional in everything they do. There were three separate shooting scenes, only one of which involved FBI personnel. Only one item of minor contention came out of BCA conducting their shooting review. Their standard operating procedure is to obtain blood and urine samples from involved officers. I advised them early on that the involved FBI Agents had already been released from the area and sent home and these Agents would not be providing blood and urine samples to them. I have agreed to meet with Nicholas V. O'Hara, Superintendent, BCA, (former Minneapolis SAC), to discuss this in more detail in the upcoming weeks. While we did provide the involved weapons to them for review at a later date, we did not, as the other agencies do as a matter of routine, turn weapons over to them immediately.

Being forwarded as part of this report are three video tapes. The first video is a "Home Video Shot" by a neighbor,

which contains footage of the officers involved in the shooting and involved in the subsequent investigation, milling around outside this neighbor's home after the actual incident and provides, in my opinion, no information of value.

The second video captioned, "Total Footage W/Time Code," is a video prepared by the BCA of the three various shooting scenes, in support of the still photography that was done. This video was prepared after the fact and provides usefulness to the viewer in developing references as to distances involved, etc.

The third video captioned, "MSP Flir Tape," is approximately one and one-half hours of film taken from the Minnesota State Patrol (MSP) helicopter, which was instrumental in locating and keeping the suspect under observation through the use of heat-sensitive equipment. In addition, it is an audio tape which records some of the conversation between the air and ground units and in a more limited way, ground to ground units. This video actually records the location of the subject, the one and one-half hours that he was holed up in the woods, and the subsequent foot chase through the neighborhood. (Using the Zulu time in the lower right corner, the foot chase begins at approximately 0605.)

In reviewing our report and the BCA report, it is noted there are minor inconsistencies as to time, number of shots fired, etc., between the various witnesses, both law enforcement and non-law enforcement. This is to be expected and was not of a substantial nature.

I think it is also important for the reader to understand that prior to SA [redacted] dispatching the first half of the Minneapolis Swat Team to their assignments, he met with them, reviewed the facts with them, gave them their assignments, and reviewed with them the Bureau's Standard Rules of Engagement, which is customary. It is noted during a review of the report that a number of other SWAT Team members were not present during this discussion and did not receive any instructions or Rules of Engagement. These SWAT Team members were never dispatched to the scene. b6 b7C

In reviewing this report, the one item that stands out most in my mind, beyond the obvious cooperation among everyone, was the remarkable restraint employed by all the officers involved. This subject had robbed a bank, taken a hostage, threatened the hostage, and fired shots at two police officers within the first fifteen minutes of this incident. Subsequently, he was again located and fired shots at or around police officers. In listening to the audio comments on the MSP Flir Tape, one local officer comments numerous times that he can see the subject. This officer never fires his gun. Once the subject breaks free from his hiding place and begins his run to escape, a number of police officers, including FBI Agents, could have shot at the subject. None of them did until there was no alternative left.

In discussion with the involved Agents after the incident occurred, both of them indicated that because of their training by SA [redacted] in particular, they are keenly aware that they are responsible for each and every shot fired. They have been well trained in knowing when to shoot, but more importantly, when to shoot safely. It is unfortunate that two of the shots taken did enter an occupied residence however, it is clear to me that the Agents and Officers involved had no choice but to shoot at the time they did.

b6
b7C

All things considered, the subject is in custody with a minor injury, he confessed to his crimes and his desire to commit suicide by cop, no law enforcement officers or civilians were injured and minimal property damage occurred, I believe this incident was resolved in the most effective and efficient manner possible.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
OMAHA DIVISION
OCTOBER 3, 1997

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident occurred during a buy-bust drug scenario in Alda, Nebraska, on the night of 10/3/97.

The investigation into the drug activities of Mario H. Velez (281C-OM-43272) was opened 11/4/96 and assigned to SA [redacted] Omaha Division, North Platte Resident Agency. According to the opening communication, Velez had long been believed to be the main source of methamphetamine in Lexington and North Platte, Nebraska. Velez was described as a Mexican citizen currently living in Lexington, but moving from hotel to hotel. SA [redacted] had recently developed a source who advised that Velez routinely imported multi-pound quantities of methamphetamine, cocaine and marijuana from Mexico to Nebraska, via Garden City, Kansas. Source believed Velez was clearing about $15,000/week in profit.

Velez' criminal history record and contact with INS at Omaha, Nebraska, showed the following criminal history for Velez. He was arrested by the INS and deported in 1980. He was subsequently arrested by the North Platte Police Department in 1989 on a charge of possession of a controlled substance with intent to distribute. This charge was later dismissed. He was convicted on a felony drug charge pursuant to a 1990 arrest. He was sentenced on three different counts for periods ranging from one to three years and five to ten

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

years. He was arrested for deportation by INS in 1991 while in custody and a detainer was placed on him at that time. He was paroled in May, 1993, and then subsequently deported by INS in June, 1993. He was arrested again by INS in January, 1994, and in February, 1994, his parole status was revoked. He was paroled again in January, 1995, and pursuant to an INS detainer from his January, 1994, arrest was deported at that time.

Based on the above source information and Velez' criminal history, SA [redacted] discussed this case with SA [redacted] Grand Island Resident Agency, who advised he had a good undercover police officer to deal with Velez. b6 b7C b7D

During November 1996, two drug purchases were made from Velez. On 11/8/96, [redacted] Grand Island Police Department undercover officer [redacted] who purchased one ounce of methamphetamine (although when tested, the substance proved to be amphetamine). On 11/21/96, officer [redacted] again acting in an undercover capacity, purchased one ounce of methamphetamine from Velez in Lexington.

In December 1996, Velez abruptly moved from Nebraska to Kansas. SA [redacted] source advised that Velez fled because he believed a warrant had been issued for his arrest. At about the time he left Nebraska, Velez [redacted] During another [redacted] Velez again advised of his suspicions about [redacted] claiming [redacted] had wanted to buy too much too soon. [redacted] Velez did not return to Nebraska until September 1997.

On 9/24/97, the source advised SA [redacted] that Velez had moved back to Nebraska and wanted to reestablish contact with [redacted] On 9/26/97, Velez delivered to officer [redacted] again acting undercover as [redacted] samples of cocaine and heroin. Velez agreed to deliver to [redacted] 17 ounces of black tar heroin and 35 ounces of cocaine. SAs [redacted] and [redacted] along with other members of the Tri-City Federal Drug Task Force (TCTF), began planning a scenario intended to result in a buy-bust arrest of Velez on Friday 10/3/97. b6 b7C b7D

The arrest scenario developed for 10/3/97 was a cooperative effort by the members of the TCTF, which was headquartered in the federal building in Grand Island, Nebraska. All law enforcement agencies that were to participate in the

attempted arrest of Velez, including the FBI, are members of the task force. The Memorandum of Understanding (MOU) which sets forth the policies and procedures of the TCTF was most recently signed by the ten participating agencies (except the Immigration and Naturalization Service) in late 1996 and early 1997. The mission of this task force is to "identify, investigate and prepare for prosecution cases against major drug trafficking organizations that affect central Nebraska." Although the FBI is an active participant in the task force, it has no supervisory authority over the participating officers. The MOU clearly states that each participating agency will continue to supervise its officers and that officers "will adhere to all policies and procedures of their parent agency."

One of the TCTF's first steps in preparing for Velez' arrest was to rent, on 9/29/97, a small single-family home in Alda, Nebraska, about five miles from Grand Island. Renting this home provided the task force with complete control over the arrest scene and ensured it was at least a reasonable distance from other structures.

Also on 9/29/97, SA [redacted] tried to contact Omaha ASAC Thomas W. Richardson. ASAC Richardson was not in, so SA [redacted] left a message that he needed approval for both aviation support and technical coverage of the arrest of Velez.

ASAC Richardson supervises the Omaha Division pilots and the primary technically trained agent (TTA). ASAC Richardson contacted pilot SA [redacted] and TTA [redacted] and directed them to be available to assist SA [redacted] as necessary. ASAC Richardson then contacted Omaha SSAs [redacted] and [redacted] and advised them that an operational plan would need to be developed for the arrest. b6 b7C

SSA [redacted] has administrative responsibility for the North Platte and Grand Island RAs and is the rating official for SAs assigned there. As far as case supervision in the RAs is concerned, however, SSA [redacted] oversees investigations only in those programs which are supervised off of his squad in Omaha, i.e., VCMO, Domestic Terrorism and Applicants. SSA [redacted] the Omaha Division OC/Drug program coordinator, is responsible for day-to-day supervision of drug investigations in those RAs.

On 9/30/97, SA [redacted] dictated over the phone to Omaha an operational plan for the anticipated arrest of Velez. The two-page plan, prepared on a form developed for use within the Omaha Division, anticipated the arrest would occur at 9:30pm on 10/3/97 at the house rented earlier by the task force. The plan

noted that the FBI's Deadly Force Policy would be followed, body armor and law enforcement identification would be worn and that arresting officers would be using agency-issued handguns and shotguns. The planned arrest team included seven law enforcement officers, including SAs [redacted] and [redacted]. The plan was typed in Omaha and reviewed by both SSA [redacted] and ASAC Richardson. ASAC Richardson signed off on the plan 10/1/97 and advised later during interview that it appeared sufficient. He did request that SA [redacted], be available in case Spanish language assistance was necessary. Although this plan was typed up and approved, it was never returned to SA [redacted] and was not later used as briefing material for the arrest. The information contained in the plan, however, was provided to those taking part in the arrest and was used to formulate the final arrest order. b6 b7C

At the same time he dictated the arrest plan, SA [redacted] also dictated an operational plan for a search of Velez' drug stash house. It was anticipated that during the course of his dealings with officer [redacted] on 10/3/97, Velez would lead surveillance units to his drug storage location. The search was to be conducted immediately following the arrest of Velez. This plan was also approved by ASAC Richardson.

On 10/1/97, Omaha TTAs [redacted] and [redacted] traveled to Alda to install electronic monitoring equipment in the house to support the arrest. They installed in the living room a wireless RF camera and a hard-wire microphone which both recorded on a VCR secreted inside the house. Camera controls, a monitor and listening equipment were also set up so the arrest team outside could monitor what was going on inside the house. One member of the arrest team, Analyst [redacted] received instruction from TTA [redacted] on how to operate the monitoring equipment. This monitoring equipment was later installed by the arrest team in the sleeper area of a truck which was parked beside the house. The TTAs also installed a NAGRA in the house to serve as a back-up voice recording device. This electronic monitoring equipment all functioned properly during the arrest. b6 b7C

The first briefing to prepare task force members for the 10/3/97 arrest was held 10/1/97 at the task force office in Grand Island. At least seven of the 11 agents/officers who would make up the final arrest team attended this meeting. As determined by interview, those known to have attended are:

FBI SA [redacted] (Case agent, but not on the arrest team)
FBI SA [redacted]
Police Officer [redacted]

Grand Island, NE, Police Department
Intelligence Analyst [redacted]
HIDTA
Police Officer [redacted]
Grand Island, NE, Police Department
Police Officer [redacted]
Grand Island, NE, Police Department
Deputy [redacted]
Adams County, NE, Sheriffs Office
Deputy [redacted]
Hall County, NE, Sheriff's Office

Those members of the arrest team who did not attend on 10/1/97 are:

Police Officer [redacted]
Grand Island, NE, Police Department
Police Officer [redacted]
Grand Island, NE, Police Department
SA [redacted]
Internal Revenue Service
Deputy [redacted]
Hall County, NE, Sheriff's Office

According to the interview of SA [redacted] during this meeting "the goals were discussed, the manpower needed, how they would approach Velez, how they would provide a logical story related to [redacted] being in town, putting together a surveillance team, as well as an arrest team, and the goals for each team." Deputy [redacted] during his interview, explained that during this meeting attendees were provided background on the case and an outline of the basic arrest plan. Officer [redacted] said this meeting was held to discuss preliminary arrest and surveillance plans. They discussed how many officers they would need and how the operation would be played out.

A final briefing was held on Thursday 10/2/97 at about 3:00pm at the task force office. This meeting was attended by all 11 members of the arrest team, as well as SA [redacted] and other members of the surveillance teams. According to interviews with the attendees, this 10/2/97 briefing was more detailed than the one the day before.

SA [redacted] advised the meeting covered the layout of the residence and how the arrest was to take place. Code words were developed to be used by officer [redacted] when he viewed the drugs and when the arrest was to occur. [redacted] was to say "That's a lot of shit" when he viewed the drugs and "Bingo" when the deal was

done. SA [redacted] advised all present at that meeting that Velez had been in possession of a weapon when he was arrested in 1990. Velez had not previously been considered armed and dangerous, so this was emphasized to the arrest team. The attendees were advised to have access to their weapons and wear ballistic garments.

Among the others attending this meeting, Officer [redacted] advised that individual assignments were listed on a board along with a diagram of the house. Photographs of Velez were provided, as were photographs of vehicles he may be driving. Officer [redacted] confirmed that SA [redacted] advised all those present that Velez might be armed. Officer [redacted] recalled that he was warned Velez might be armed and to wear his bulletproof vest. Officer [redacted] according to her interview, said she believed "the operation was very well planned and everyone involved knew exactly what their role was to be." b6 b7C

There were no supervisory special agents from the FBI present at either the 10/2 or 10/3 briefings. SSA [redacted] was on annual leave both those days. SSA [redacted] was in Omaha until the evening of 10/3 when he traveled to Philadelphia, PA. Knowing both supervisors were unavailable, ASAC Richardson made himself available to SA [redacted] as the point of contact for the night of the arrest.

The final arrest plan, developed at this briefing, was as follows:

Undercover Officer [redacted] would be inside the house meeting with Velez. The arrest team would be waiting in two locations outside the house.

Three people, Officer [redacted] Deputy [redacted] and Analyst [redacted] would be in the sleeper cab of the truck tractor parked immediately adjacent to the house. [redacted] had claimed to Velez that he was an over-the-road trucker, so it was natural for the truck to be there. [redacted] job was to tilt and pan the camera as necessary, monitor the conversations going on in the house and notify everyone when the arrest signal was given. He was not to leave the cab during the arrest. When the signal to arrest was given, Officer [redacted] was to leave the truck and cover the northwest corner of the house. Deputy [redacted] was to immediately cover the southeast corner of the house. b6 b7C

The remaining seven members of the arrest team would be in a van parked a short distance from the house. When [redacted]

gave the signal that he had seen the drugs, the van was to move close to the house. When the arrest signal was given, the occupants were to exit the vehicle. Officers [redacted] and [redacted] were to immediately move to the vehicle in which Velez had arrived and secure any persons who might be inside. If there were none, Officer [redacted] was to cover the northwest corner of the house and Officer [redacted] the southwest. Officer [redacted] was to hold the screen door open so that Deputy [redacted] could kick open the front door. Once the door was open, the remaining arrest team members, SA [redacted] IRS SA [redacted] and Deputy [redacted] were to effect the arrest of Velez. SA [redacted] was appointed arrest team leader.

b6
b7C

Case agent SA [redacted] was not a member of the arrest team. He was to be the surveillance team leader and to oversee the search of Velez' drug stash house.

At 8:00am on Friday 10/3/97, Officer [redacted] tried to contact Velez by telephone. [redacted] spoke to a female who instructed him to call back between 2:30 and 3:00pm. [redacted] made his call at about 3:00pm and was told to call back at 5:00pm. When [redacted] called at 5:00pm he spoke with Velez who agreed to meet [redacted] at the Alda house at 9:00pm. SA [redacted] made a telephone call to ASAC Richardson and advised him the drugs had been ordered.

The arrest team was in place when Velez arrived at 9:00pm. Velez entered the house, observed the $50,000 "flash" money Officer [redacted] showed him, then said he did not have the drugs. He said he would get them and be back in about three hours.

Surveillance units, led by SA [redacted] followed Velez to a location in Sutton, Nebraska. When Velez left [redacted] to return to Alda, SA [redacted] and other surveillance units remained behind to search that location after the arrest.

b6
b7C

Velez returned to Alda just before midnight. The arrest team was already in place. [redacted] let Velez inside. Velez looked around the house, then went back to his car and retrieved a white plastic sack. When he entered the house the second time, Velez paused to lock the door, setting the deadbolt. Officer [redacted] saw Velez lock the door and commented on it, intending to notify the arrest team that the door had been locked.

Analyst [redacted] said later that the monitoring crew in the truck notified the officers waiting in the van that the door

was locked. Officer [redacted] likewise confirmed that the team in the van was notified that the door was locked. Officer [redacted] who was in the van, advised during interview that "everyone in the van knew Velez had locked the door."

Officer [redacted] observed the drugs brought by Velez and exclaimed, "That's a lot of shit." As planned, the arrest team van moved close to the front door. [redacted] said "Bingo," and the arrest began.

As the arrest team came out of the van, Officer [redacted] pulled the screen door open and Deputy [redacted] began to kick at the door. The door would not give way. b6 b7C

When interviewed, [redacted] said he kicked the door about five times before injuring his leg. IRS SA [redacted] later said [redacted] kicked the door five or six times. SA [redacted] thought it was six or seven times. [redacted] eventually gave up and SA [redacted] began kicking. SA [redacted] said he kicked the door but could not open it until Officer [redacted] assisted. The exact number of times SA [redacted] and Officer [redacted] kicked the door is unknown. Officer [redacted] later said, however, that SA [redacted] kicked it "a few times," she kicked it "a couple times," then they kicked it together "about two or three times" before it finally opened. Others on the arrest team confirmed that the front door failed to yield to the initial barrage of kicks. Almost simultaneously with the opening of the door, shots were heard coming from inside the house.

Officer [redacted] during his interview, said he gave the signal to arrest and waited for the officers to enter. While he and Velez were sitting on the couch, he heard the first kick at the door. He looked at the door and saw it give "a little bit" after the second kick. He got up, hoping to move closer to the door. [redacted] looked at Velez and saw that he had pulled a gun and was pointing it at the door. Thinking Velez was going to shoot through the door [redacted] said "No, don't do that." [redacted] began moving toward the bedroom keeping his eye on Velez. Velez caught up to [redacted] just outside the bedroom door, grabbed him by the shirt collar with his left hand and said, "No, it's you." Velez pushed [redacted] through the bedroom doorway, bringing the gun up to his face. [redacted] grabbed the barrel of the gun with his left hand, pushing Velez toward the bedroom closet. [redacted] stated Velez kept pulling the gun out of [redacted] hand and pointing it at his head. [redacted] pushed Velez up against the wall, then reached into his waistband for his service revolver. He raised his weapon and shot Velez once in the back. When Velez did not drop the weapon and fall down, [redacted] shot him again. Velez fell to the floor and [redacted] ran from the house just as the b6 b7C

door opened.

Officer [redacted] description of his struggle with Velez was confirmed during interviews of arrest team members. Officer [redacted] as the front door was being kicked, looked through the front window of the house and observed Velez looking at the front door. On the fourth or fifth kick, [redacted] looked again and saw Velez and [redacted] together in the bedroom door. Velez had his left arm across [redacted] chest and appeared to be pushing him back into the bedroom. Officer [redacted] explained that while the door-kicking was going on, he looked in a window on the west side of the house and saw [redacted] and Velez in the bedroom doorway "going backwards." Officer [redacted] looked in a window on the north side of the house and observed Velez move in a "hurried state" toward the west side of the house. As he moved to the northwest corner of the house, [redacted] heard "wrestling noises" coming from inside. b6 b7C

Not one of those interviewed after this incident, according to reports prepared, stated that the arrest team members announced themselves as law enforcement as they tried to enter the house. Deputy [redacted] did state that as he entered the house, he yelled "Police." In addition, Officer [redacted] did state, during his confrontation with Velez, that he was "a cop."

Officers entered the house and found Velez on the floor in the bedroom. His legs were underneath him and he was partially in the closet. Deputies [redacted] and [redacted] were the first to reach Velez and they tried to pull him flat on the floor. Deputy [redacted] stated that Velez was still alive and said, "Help me, I'm dying," but already had brown and reddish foam coming from his nose and mouth.

Paramedics were called immediately. When they arrived, they declared Velez dead and did not remove his body from the house. b6 b7C

SA [redacted] telephoned SA [redacted] a few minutes after the shooting. SA [redacted] immediately called ASAC Richardson and advised him that a shooting had occurred. ASAC Richardson immediately notified SAC George H. Andrew.

Title: SHOOTING INCIDENT
10/21/1997
BIRMINGHAM DIVISION

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis: On 10/21/1997, Special Agents (SAs) and Police Officers of the Birmingham Division Violent Crimes/Fugitive Task Force were attempting to serve an arrest warrant upon [redacted] at [redacted] Birmingham, Alabama, when [redacted] observing the SAs and Officers, fired shots from his residence at the law enforcement officials. Two SAs, SA [redacted] and SA [redacted] returned fire. No SAs were injured, and [redacted] who was also uninjured, surrendered.

Enclosed for the Bureau are the memoranda that have been prepared regarding this matter.

- P -

DETAILS:

On 10/21/97, at approximately 6:00 a.m., Birmingham Division FBI Agents and members of the Birmingham Division Violent Crime/Fugitive Task Force (VCFTF) were attempting to execute an arrest warrant on [redacted] at [redacted], Birmingham, Alabama. All members of the VCFTF were wearing their body armor with "FBI" clearly marked on the front of the armor. Additionally, the team had a local uniform officer, Patrolman [redacted] Birmingham Police Department, wearing his official police uniform, body armor, and his marked Police patrol car parked in front of the residence.

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

All members of the arrest team had been briefed on 10/20/97 regarding the arrest plan, and were re-briefed at approximately 5:45 a.m. on 10/21/97. A written arrest plan was prepared by VCFTF member [redacted] Case Agent of the arrest under Bureau file 88C-BH-46143.

As the arrest team members, SA [redacted] SA [redacted] SA [redacted] SA [redacted] VCFTF member Russell Steen, Jefferson County, Alabama Sheriffs Department; VCFTF member [redacted] Birmingham, Alabama Police Department; and VCFTF member [redacted] Jefferson County, Alabama Sheriffs Department, were attempting to execute their arrest plan, [redacted] fired gunshots at the arrest team. The shots were fired from a window on the left-hand side of the residence. SAs [redacted] and [redacted] returned fire as all team members sought cover. SA [redacted] fired two shots from a Bureau MP-5, on which he was fully qualified, and SA [redacted] fired two shots from his Bureau issued 10mm Smith and Wesson model 1076. From a position of cover, VCFTF member [redacted] utilized a vehicle PA system to call the occupant of the building outside. [redacted] exited the residence unarmed and was placed under arrest. No one was injured in the exchange of gunfire.

b6
b7C

The residence was searched, and inside of a bedroom, a Baretta 9MM semi-automatic handgun was found which was jammed with a live round preventing further firing without first clearing the jam. Four 9MM casings were on the bedroom floor. Also located were an AK-47 style weapon and an UZI style weapon. [redacted] stated to Investigators from the Jefferson County, Alabama Sheriffs Office that he had fired at the VCFTF members, but he did so not realizing that they were law enforcement officers.

[redacted] NCIC record indicates previous arrests for Assault, Possession of Dangerous Drugs, and carrying a firearm without a valid permit. [redacted] has been charged by the State of Alabama with attempted murder of law enforcement officials, and he has been indicted for Assault of a Federal Officer in the Northern District of Alabama, on October 29, 1997.

**Details of the Shooting Incident**

This shooting incident was a result of an ongoing investigation into a series of related bank robberies that occurred in Westchester County, New York.

Beginning in October 1997, a series of armed bank robberies occurred and were believed to have been committed by a gang of approximately four to seven individuals who used similar methods in each robbery. Investigation revealed the identity of [redacted] as a member and prime suspect in the robberies. [redacted] was also identified as the supplier of the weapons used in the robberies which were allegedly stolen from military bases in the southeastern United States. [redacted] was described as very dangerous, carrying a Tec 9 pistol in a shoulder holster, and had a pitbull dog that he often walked in his neighborhood. b6 b7C

Based on this information, agents obtained an arrest warrant for [redacted] in November 1997. The initial strategy called for an informant to draw [redacted] into a public place where he could be more easily apprehended; however, due to the difficulty in maintaining steady contact with [redacted] this plan never came to fruition.

Due to numerous complications in the original plan, a determination was made to use a New York FBI Special Weapons and Tactics (SWAT) team to conduct a tactical entry either inside or outside [redacted] residence.

The date for the SWAT entry and arrest was slated for 12/18/97; however, his suspected involvement in a bank robbery on 12/15/97, created the need for an expeditious arrest. Surveillance commenced in the vicinity of the subject's apartment from 7:00 a.m., to 11:00 p.m., each day with the knowledge that once [redacted] was physically located a 24-hour coverage would begin.

On the evening of 12/16/97, a surveillance team led by NYCPD Detective [redacted] reported that an individual fitting the description of [redacted] was walking a pitbull dog on Park Avenue near [redacted] apartment building. Detective [redacted] notified surveillance personnel that he had a possible suspect and was exiting his vehicle to get a closer look. An agent and another detective sitting in another vehicle responded that they would exit their vehicle and cover Detective [redacted] As they proceeded south on Park Avenue, they observed the subject on the corner of Park Avenue and 158th Street. Although directed by b6 b7C

Detective [redacted] to turn around, they did not for fear of giving away the surveillance. After crossing to the east side of Park Avenue, the subject became suspicious after glancing at a parked surveillance vehicle and then directly at the law enforcement officers. Fearing that the surveillance was no longer covert, SA [redacted] broadcast on the radio that the subject was definitely [redacted] and that he was about to confront her and Detective [redacted] As [redacted] proceeded to walk directly toward SA [redacted] and Detective [redacted] they drew their weapons and ordered him to stop. [redacted] failed to stop when hearing the verbal commands and both investigators attempted to grab him. [redacted] resisted, turned and fled.

A foot chase ensued with [redacted] and the pitbull racing through the sidewalks that connected an adjacent apartment building. Other surveillance teams joined SA [redacted] and Detective [redacted] in the pursuit of [redacted] who had dropped the dog's leash and was running ahead of the animal. [redacted] proceeded to run through a playground area and entered a 16 story apartment building containing 128 family-size apartments. He closed the door before any of the investigators could apprehend him leaving the pitbull on the outside.

Additional surveillance team members assumed positions in and around the area, covering both the rear and front entrances to the building. The subject could be observed through a small window in the door.

Detective [redacted] who was located in the rear of the building was joined by SAs [redacted] and [redacted] Commands were shouted for [redacted] to come out with negative results. The pitbull continued to scratch on the door until [redacted] opened the door and pulled the dog inside. Within seconds, the door opened a second time and a woman was pushed out, apparently by [redacted] The investigators yelled to the woman to get out of the way and she complied. Seconds later, the rear door opened again and the pitbull exited and charged directly toward SA [redacted] and Detective [redacted] Fearing attack by the dog, both investigators fired their weapons at the pitbull. The dog did not stop charging and continued to advance toward Detective [redacted] and SA [redacted] They, along with SA [redacted] continued to fire until the dog was killed.

[redacted] fled into the apartment building where he eluded capture for several hours. He was arrested inside the building by NYCPD Emergency Service Unit personnel several hours later.

b6
b7C

b6
b7C

During a protective search of [redacted] apartment and a subsequent search, several weapons were recovered as well as bulletproof vests and camouflage clothing. A crime scene search was conducted by the NYCPD Crime Scene Unit, which restricted access to the area for several hours. All shell casings fired by FBI personnel were found. However, the NYCPD Crime Scene Unit did not locate any of the shell casings from Detective [redacted] weapon. This remains a topic of discussion between FBI, New York, and the NYCPD, but will not be pursued by the SIRG.

On 6/15/98, the SIRG met to discuss the above captioned shooting incident. Chief Inspector [redacted] Office of Inspections, Inspection Division, chaired the meeting with the following voting members of the SIRG in attendance: [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Administrative Services Division; Dana D. Biehl, Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that the use of deadly force by the participants in this incident was justified and in concurrence with the current deadly force policy. This resulted in the recommendation that no administrative action be taken against any agent involved in the shooting incident.

To: Inspection Division From: Inspection Division
Re: 66-19157-34, 06/26/1998

Members voiced concern about the number of rounds fired during the incident. Attendees unanimously concurred that although the use of deadly force was justified, the use of 35 shots seemed to be extreme. Members opined that the law enforcement personnel did not consider third party injuries nor the possibility of ricochets which could result in potential injury to others. The absence of a shooting scene diagram contributed to the concerns.

The last part of the discussion pertained to information contained in the shooting report. Members noted that crime scene sketches were not made a part of the report and that the name of a Cooperating Witness was included in the report. These issues will be communicated to New York Division management.

**LEAD(s):**

**Set Lead 1:**

INSPECTION DIVISION

AT WASHINGTON, D. C.

b6
b7C

That no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in this shooting incident.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
NEW ORLEANS DIVISION
DECEMBER 22, 1997

b6
b7C
b7D

Character: ADMINISTRATIVE INQUIRY

Synopsis: On December 22, 1997, the New Orleans Division SWAT Team executed a federal drug search warrant at [redacted] New Orleans, Louisiana. This residence was known to be occupied by [redacted] (281F-NO-62284) and several other individuals. [redacted] confirmed by investigation and observation, disclosed that [redacted] and other were distributing large quantities of cocaine, methamphetamine, and marijuana from this location.

On December 12, 1997, a federal search warrant was obtained from U.S. Magistrate Alma L. Chasez, Eastern District of Louisiana. Verbal authority was obtained from AUSA [redacted] on December 19, 1997, for the arrest of [redacted] his brother [redacted] and a third subject at the residence.

b6
b7C

Due to information that residents at the house had been observed with weapons, the number of persons at the residence, and the complexity of the floor plan, SAC New Orleans authorized utilization of SWAT to effect entry and to secure the residence.

On December 18, 1997, a written drug search plan and SWAT Operations Order were provided to, reviewed, and approved by New Orleans SAC Charles Mathews and ASAC George H. Burttram.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

On December 19, 1997, SWAT members used a regularly scheduled SWAT training day to rehearse the entry of this residence.

On December 22, 1997, all participating personnel were verbally briefed by the on-scene commander, SSA [redacted] and SWAT Team Leader [redacted]

At approximately 6:30 a.m., on December 22, 1997, the New Orleans SWAT Team entered the residence. Immediately after the entry, a male subject was apprehended in possession of a weapon as he attempted to flee the residence. b6 b7C

Upon entry, SWAT observed several weapons including shotguns in plain view. While clearing a rear bedroom, after making repeated announcements of identity and purpose, SWAT member [redacted] observed what he considered a furtive, threatening movement in a side bathroom. SA [redacted] fired one round from a Sig Sauer 228 at the threat. SWAT members subsequently forcibly removed two occupants from behind a shower curtain in the bathroom. No injury was sustained by FBI or civilian personnel. A total of nine (9) persons were detained at the residence and five (5) weapons seized. Drugs, records, and drug paraphernalia were also seized.

Per division policy, SAC Mathews and ASAC Burttram were present at the scene during the deployment of the SWAT personnel.

New Orleans Evidence Response Team responded to the residence and collected evidence regarding the discharge.

- C -

DETAILS:

In September, 1997, the New Orleans Division received information from the Calcasieu Parish Sheriff's Department regarding their interception of one hundred pounds of marijuana being driven from Houston, Texas to New Orleans, Louisiana. A drug investigation was opened and assigned to SAs [redacted] and [redacted] b6 b7C b7D

[redacted] provided information that subject [redacted] and others were involved in transferring one hundred pounds of marijuana a week in addition to distributing crystal methamphetamine and cocaine.

A federal search warrant was applied for on December 12, 1997, for [redacted] residence located at [redacted] New Orleans. [redacted]

residence. Verbal authority was obtained from Assistant United States Attorney [redacted] for the arrest of [redacted] his brother [redacted] and a third subject.

On December 18, 1997, SAC authority was obtained to use SWAT to enter and secure the residence. The decision to use SWAT was based on the following factors: (1) at least nine people could be in the residence; (2) there were methamphetamine users who, because of the drug's stimulant properties, could be confrontational; (3) the size and complexity of the floor plan; and (4) information was received that at least two weapons were in the residence. b6 b7C

On December 19, 1997 the SWAT Team used their monthly training day to prepare for the search. SWAT Team Leader SA [redacted] gave each SWAT member a copy of the Operations Order. The SWAT Team viewed a video tape of the residence taken at a site survey that was conducted by SAs [redacted] and [redacted]

The New Orleans SWAT Team is divided into two teams, the Blue Team and the Gold Team. The Blue Team was made up of Team Leader SA [redacted] Blue Bunker Team One: SAs [redacted] and [redacted] Blue Bunker Team Two: SAs [redacted] and [redacted] and SA [redacted] Breacher. The Blue Team's mission was to enter and secure the first floor of the residence.

The Gold Team was made up of Team Leader SA [redacted] Gold Bunker Team One: SAs [redacted] and [redacted] and Gold Bunker Team Two: SAs [redacted] and [redacted] The Gold Team's mission was to secure the breach points and to enter and secure the second floor of the residence.

The SWAT Team practiced entering and securing the residence using a floor plan that was taped on the ground [redacted] Each SWAT Team member gave a brief-back in which they discussed their role and position.

On Monday, December 22, 1997, at 5:00 a.m., a briefing was held in the field office conference room. Present at this meeting were SAC Mathews, ASAC Burttram, the SWAT Team, SSA [redacted] members of the Drug Squad participating in the perimeter and search, three Agents from other squads to assist in the perimeter, one New Orleans Police Department (NOPD) Detective, and two Deputies from the St. Bernard Parish Sheriff's Department. (Hostage Negotiator SA [redacted] was briefed after this meeting.) b6 b7C b7D

At the briefing, there was an overview of the investigation during which the presence of weapons at the residence was mentioned in addition to the presence of one dog. The deadly

force policy was reviewed and perimeter assignments were made. All participants were told to wear their body armor. SWAT Team Leader [redacted] gave an overview of the SWAT operation.

The briefing adjourned at 5:30 a.m. The SWAT Team suited up and conducted an equipment check. All search participants lined up in their vehicles at approximately 6:15 a.m., outside of the office parking garage. After waiting for more daylight, the group caravanned over to the residence, arriving at approximately 6:30 a.m.

After securing the back perimeter with two Agents and one NOPD Officer, the SWAT Team lined up along the brick wall to the left of the residence. SA [redacted] made a call to the residence and ordered that the door be opened. When the door was not opened after 30 seconds, it was breached by SA [redacted]

b6
b7C

As the Gold Team guarded the front of the residence, the Blue Team entered Bedroom Number One. (See drawing following this section.) Blue Team Leader [redacted] announced that the FBI was executing a federal search warrant. In this room, SAs [redacted] and [redacted] observed a shotgun.

The Blue Team then entered the kitchen and living room area. There were two unarmed male subjects and one German Shepard in this area. SA [redacted] ordered one of the subjects to place the dog outside. SA [redacted] then hand-cuffed both subjects. SA [redacted] then announced his name and purpose and ordered anyone else present in the residence to come out. A female subject came out from Bedroom Number Two.

Blue Bunker Team One cleared the hall bathroom as Blue Bunker Team Two cleaned Bedroom Number Two. In Bedroom Number Two, SA [redacted] observed a shotgun laying in the floor, next to the bed. After reconvening in the hallway, Blue Bunker Team One entered Bedroom Number Three as Blue Bunker Team Two entered Bedroom Number Four.

b6
b7C

As Blue Bunker Team Two entered Bedroom Number Four, SA [redacted] carried an MP5, in addition to his pistol. SA [redacted] carried the Bunker, in addition to his pistol. The room was dark. The drapes were closed and the wall switch did not work. There were numerous pieces of clothing and bedding on the floor.

After clearing the corners of the room, SA [redacted] returned to the center and looked into the adjoining bathroom. There was no door to the bathroom, but rather draperies hanging as a partition. SA [redacted] was standing to the left of SA [redacted] SA [redacted] perceived a figure with a handgun behind the drapes. He fired one 9 millimeter round with his Bureau-issued Sig Sauer 228. SA [redacted] believed his and SA [redacted] lives were in danger.

After firing one round, SA [redacted] asked SA [redacted] what happened to which SA [redacted] advised he saw movement in the bathroom. SAs [redacted] and [redacted] then entered the bedroom. SA [redacted] advised that he had seen a figure with a gun in the bathroom. SA [redacted] told SA [redacted] to holster his pistol and instructed SA [redacted] to search the bathroom. SA [redacted] found two unarmed females hiding in the bathtub. They admitted to hearing SA [redacted] announcements but were too scared to come out of hiding. SA [redacted] instructed the Blue Team to re-sweep the first floor as the Gold Team secured the upstairs, where there were three additional adults and one child. b6 b7C

At the time the SWAT Team was entering the residence, two subjects escaped out the back. This fact was known by several of the SWAT Team members, but not by SA [redacted] It is noted that one of the subjects who attempted to escape was caught by the NOPD Officer at the rear perimeter. This subject was armed with a handgun. The other subject escaped. After the house was secured the SWAT Team did a neighborhood sweep to search for the missing subject. This search was negative. The SWAT Team returned to the office and held a critique session. The residence was searched pursuant to the federal warrant.

After securing the residence, SAC Mathews and ASAC Burttram were notified of the shooting. The ERT was notified and requested to take photographs, draw appropriate sketches, and retrieve the bullet from the wall. No injury was sustained. A total of nine persons were detained at the residence. Two of the subjects were arrested. Five weapons were seized in addition to drugs and drug paraphernalia.

Title: ADMINISTRATIVE INQUIRY;
SHOOTING INCIDENT;
LOS ANGELES DIVISION
8/29/97

Character: ADMINISTRATIVE INQUIRY

Synopsis: On August 29, 1997, SA [redacted] and SA [redacted] assigned to the Los Angeles Field Office of the Federal Bureau of Investigation (FBI), were on duty and conducting a security background investigation in the 600 block of N. Roxbury Drive, Beverly Hills, California.

b6
b7C

At approximately 2:40 p.m., after completing their neighborhood investigation, SAs [redacted] and [redacted] were returning to the Bureau vehicle parked north bound in front of 614 N. Roxbury. At that time, both SAs observed a Hispanic male, approximately 25 years of age, 5'5" tall, walking south on the sidewalk towards them. When the SAs were approximately seven feet from the passenger door, the Hispanic male walked past them and was to their rear. At that point, the Hispanic male yelled and demanded their wallets. As they both turned around, the Hispanic male held a black colored small semi-automatic pistol. The robber demanded the SAs' wallets and other property and stated that he would blow off their heads if they failed to comply. Throughout the entire robbery, the robber continually pointed his weapon at the SAs and threatened that he would kill them. During the robbery incident, both SAs eventually gave up their wallets. SA [redacted] also surrendered the Bureau car keys and his gold chain necklace. The robber after looking at the necklace threw it towards the front of the Bureau vehicle.

During the incident, both SAs continually talked to the robber in an effort to calm him down. Both moved slowly in different directions from the robber. SA [redacted] moved toward the

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

rear passenger side of the Bureau vehicle, while SA [redacted] slowly moved around the front of the Bureau vehicle. The robber generally followed SA [redacted] The robber would continually swing his weapon back and forth between the two SAs and continued to threaten and demand their property. While SA [redacted] slowly moved around the front of the Bureau vehicle, the robber demanded SA [redacted] fanny pack. SA [redacted] carried his Bureau issued 9 mm Sig Sauer in his fanny pack and did not want to give it up. SA [redacted] continued backing up moving around the Bureau vehicle until he was near the front driver's door. The robber followed SA [redacted] and moved to the front fender, driver's side. The robber again demanded SA [redacted] fanny pack which was worn on SA [redacted] right hip. At that time, neither SA believed that the robber knew that they were federal law enforcement officers. SA [redacted] realized that once the robber got his fanny pack which held his weapon, the robber would know that they were law enforcement officers. SA [redacted] believed that the robber would shoot him. At that point, SA [redacted] who was in fear for his life, drew his Bureau issued weapon when the robber's attention was momentarily diverted. SA [redacted] identified himself as the FBI and when the robber turned with his weapon in his hand, SA [redacted] fired one round at the robber.

b6
b7C

Immediately after SA [redacted] fired his weapon, the robber turned and ran north on N. Roxbury Drive. Apparently, SA [redacted] had missed. Both SA [redacted] and SA [redacted] weapons in hand, pursued the robber. After a short chase, the robber disappeared. No additional rounds were fired. There were no apparent injuries.

Both SAs returned to the area of the Bureau vehicle and, with citizen assistance, a limited search by citizen's vehicle was conducted, the 911 operator was contacted, as well as the BHPD and the Los Angeles, FBI Office.

Officers from the Beverly Hills Police Department responded and conducted a robbery investigation.

The Los Angeles FBI Office, Agent Involved Shooting Team responded to the scene.

A neighborhood investigation was conducted in the vicinity of 614 N. Roxbury, Beverly Hills, California and the area where the robber disappeared.

A crime scene investigation was conducted which included a sketch of the area and securing photographs of the shooting area.

BHPD provided their report under number 9707980.

Los Angeles FBI is conducting an AFO investigation in conjunction with a robbery investigation by BHPD.

- P -

DETAILS

This case is predicated upon information that SA [redacted] assigned to the Los Angeles Field Office of the Federal Bureau of Investigation (FBI) had been involved in a shooting incident, when he became a victim during a street armed robbery while on official duty, at approximately 2:40 p.m., 8/29/97, in Beverly Hills, California. b6 b7C

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
BALTIMORE DIVISION
JUNE 6, 1997

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident involved a Special Agent (SA) of the FBI assigned to the Baltimore Division, Wilmington Resident Agency (RA). The incident occurred during the successful apprehension of a wanted felon by members of the Delaware Joint Violent Crime Fugitive Task Force (VCFTF).

DETAILS:

Baltimore file number 88A-BA-91197 was initiated based upon a warrant for the arrest of [redacted] a white male, date of birth [redacted] was wanted by Delaware authorities for 1st Degree Robbery, Possession of Narcotics and 2nd Degree Forgery. He was also wanted for several other misdemeanor offenses charged by multiple municipalities within the State of Delaware. This investigation was conducted by the FBI led VCFTF.

b6
b7C

[redacted] was arrested by VCFTF members on 3/5/97 at [redacted] Wilmington, Delaware, the residence of his parents. [redacted] unsuccessfully attempted to flee from the rear of the house during the arrest.

Having posted bond, [redacted] was released following this arrest. He then failed to appear for his

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

court date thus again causing a warrant to be issued for his arrest, and the reinitiation of a UFAP-PI.

Officer [redacted] the Delaware Department of Corrections, Probation and Parole Division representative to the VCPTF, originally arrested [redacted] on 3/5/97. Upon learning of his failure to appear, Officer [redacted] once again began to develop leads in an effort to locate and apprehend [redacted]

On 6/6/97, at approximately 1:00 p.m., Officer [redacted] and FBI SA [redacted] set out in a Bureau car to follow up on leads in an effort to locate [redacted] Earlier in the week Officer [redacted] obtained search warrants for the [redacted] Street address as well as for [redacted] himself. b6 b7C

At approximately 1:15 p.m. Officer [redacted] and SA [redacted] drove past [redacted] and attempted to determine if anyone was home. Unable to do so, Officer [redacted] made a pretext call to the residence. The call was answered by a woman who Officer [redacted] believed to be the subject's mother. At this point, Officer [redacted] contacted the Wilmington Police Department via police radio and requested backup assistance prior to approaching the residence. The police dispatcher advised that no units were available to assist at that time.

Officer [redacted] and SA [redacted] then decided to attempt an interview of [redacted] parents. They left their Bureau car and approached the residence. Officer [redacted] took up a position at the front door of the house while directing SA [redacted] to the rear. As noted above, [redacted] had previously been arrested while attempting to escape through the rear of this residence. Officer [redacted] identified himself to [redacted] father and was invited into the residence. Officer [redacted] then advised SA [redacted] via radio to come to the front of the house where he then joined Officer [redacted] inside. b6 b7C

SA [redacted] and Officer [redacted] searched the residence for [redacted] and failed to locate him. They interviewed [redacted] parents for additional information of lead value. [redacted] parents said that they had not seen their son in over a week. During their last contact, [redacted] told his parents he would not turn himself in to authorities. The parents also said that [redacted] had been seen with a female of Asian decent. She was known only to [redacted] parents as [redacted] They also noted that [redacted] drove a green Ford Explorer type vehicle. Completing the interview, SA [redacted] and Officer [redacted] left the residence. b6 b7C

Upon returning to the Bureau car both discussed possible leads to follow in their effort to locate [redacted] Officer [redacted] and SA [redacted] then departed in the Bureau car

with Officer [redacted] driving.

Several minutes after leaving the residence and while still driving in the general vicinity, Officer [redacted] provided SA [redacted] with a photograph of [redacted] Officer [redacted] had previously told SA [redacted] that he had arrested [redacted] on 3/5/97 and that [redacted] was both a drug user and was mentally ill.

At approximately 1:40 p.m., while driving in the same vicinity, Officer Cronin observed a white male pedestrian who he believed was [redacted] SA [redacted] noticed a green Chevrolet Blazer driven by a white female parked at the curb facing the Bureau car with its passenger door open. [redacted] was walking toward the vehicle as if he were going to enter the Blazer on the passenger side. b6 b7C

At the point Officer [redacted] had positively identified [redacted] he had driven past the Blazer. Without commenting to SA [redacted] Officer [redacted] immediately attempted turn the Bureau car around, however the residential street was not wide enough. Instead, Officer [redacted] stopped the Bureau car at a diagonal angle behind the Blazer.

It appeared to Officer [redacted] that [redacted] was going to enter the right front passenger seat of the parked Blazer. He thought it necessary to apprehend [redacted] before he got into the Blazer so as to avoid a car chase. When Officer [redacted] first saw [redacted] on the sidewalk [redacted] was approximately 35 feet from the Blazer. Officer [redacted] immediately exited the Bureau car, approached [redacted] shouted [redacted] name and said "your under arrest". At the time he exited the vehicle Officer [redacted] was wearing a ballistic vest with his badge displayed on the front. Officer [redacted] attempted to physically restrain [redacted] at the open passenger door of the Blazer. A struggle ensued and [redacted] fell into the front seat of the Blazer pulling Officer [redacted] with him.

[redacted] shouted "go, go, go" to the driver of the Blazer. Officer [redacted] shouted "stop police, stop police". The driver then began to accelerate with the lower half of Officer [redacted] body hanging out of the vehicle with his feet dragging on the ground. Officer [redacted] said that as the vehicle accelerated he tried to pull himself inside to stop the driver. He held onto [redacted] for fear that if he fell onto the pavement he would be run over by the Blazer's rear wheels. Officer [redacted] said he was in great fear for his life and the most important thing to him at that point was to stop the vehicle. b6 b7C

When Officer [redacted] exited the Bureau car to pursue [redacted] SA [redacted] also exited the vehicle taking a path

around the rear of the Bureau car and moving toward the driver's side of the Blazer. SA [redacted] who was wearing his tan ballistic vest with FBI placards displayed, saw Officer [redacted] and [redacted] begin to struggle in the grassy area next to the sidewalk and in the Blazer's open passenger doorway. SA [redacted] got within three or four feet of the driver's side door of the Blazer and saw the female driver looking frantically from side to side. SA [redacted] shouted some type of command to the driver but, cannot remember what he said. Witnesses at the scene said that SA [redacted] shouted "Stop FBI". SA [redacted] said that at this point he heard screaming from inside the vehicle. The driver then "floored" the vehicle and accelerated away from the curb.

b6
b7C

As the Blazer began to move away SA [redacted] could hear Officer [redacted] yelling "stop police, stop police, stop the car". As the Blazer moved away SA [redacted] looked to where he believed Officer [redacted] would be standing and he was not there. Instead, from SA [redacted] position, he could see under the Blazer and saw two legs from approximately the knees down flailing around and being dragged down the street. SA [redacted] realized this was Officer [redacted] and that he was either hanging on to or stuck in the vehicle.

SA [redacted] believed Officer [redacted] was in serious danger. Four years earlier, while employed with the New Jersey State Police, SA [redacted] was dragged by a vehicle in a similar manner for approximately 150 feet before crashing into a building and suffering injuries. SA [redacted] said he feared for Officer [redacted] life in that he was in the immediate threat of being run over by the rear wheels of the Blazer should he have broken free.

As the vehicle accelerated SA [redacted] immediately began a foot chase. In a signed sworn statement SA [redacted] said "I knew at that point that I had to make the Blazer stop to save (Officer) [redacted] life. The only way I was going to stop the Blazer was by shooting the driver."

SA [redacted] drew his Bureau issued Sig Sauer P-226 and fired three shots at the driver of the vehicle. SA [redacted] remembered seeing the rear window glass in the Blazer shatter. He noted that his focus was on the driver of the vehicle. He said he knew that he shot three times but does not remember hearing the rounds fire. Immediately following the third shot the vehicle came to a stop. At this point SA [redacted] believed he had shot the driver.

b6
b7C

While approaching the car SA [redacted] saw Officer [redacted] stand up and remove [redacted] from the car and put him on the ground. SA [redacted] immediately approached the drivers side of the car and saw that the female driver had not been shot. SA

[redacted] ordered her out of the vehicle and placed her on the ground. No physical injuries were incurred as a result of SA [redacted] firing his weapon.

Upon securing both [redacted] and the driver Officer [redacted] contacted the Wilmington Police Department via police radio, notified them of the shooting incident and requested assistance. Officer [redacted] also used his cellular telephone to contact the Wilmington RA and notify them of the incident. b6 b7C

Officer [redacted] spoke with Acting SSRA [redacted] and advised him of the situation. Acting SSRA [redacted] immediately notified SAC Knowlton of the incident and advised that no one had been hit by the rounds fired. Acting SSRA [redacted] then went to the scene.

SAC Knowlton, upon learning of the incident, activated the Baltimore Division Evidence Response Team and directed that three Supervisory Special Agents depart for the Wilmington RA in order to conduct the shooting inquiry. SAC Knowlton also briefed the Baltimore Division EAP Coordinator as to the situation. SAC Knowlton then departed Baltimore for the Wilmington RA where he made contact with SA [redacted] and personally supervised the shooting inquiry.

## Details of the Shooting Incident

On 3/19/97, at approximately 7:50 a.m., three FBI Special Agents (SAs) and three Fairfield County Sheriff's Deputies attempted to locate and apprehend [redacted] at the trailer home of [redacted] in Ridgeway, South Carolina. [redacted] was an "Armed and Dangerous" fugitive who had a previous arrest for assault with intent to kill.

[redacted] was not located at the trailer home of [redacted] however, during the arrest procedure, SA [redacted] encountered a mixed breed terrier dog that advanced on him, barking and snarling, attempting to bite SA [redacted] eg. SA [redacted] who judged that he did not have sufficient time to remove his pepper spray which was attached to his protective armor, fired three shots, hitting the dog twice. The dog died from the gunshot wounds.

On 7/9/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; Francis A. Gallagher, Chief Inspector, Office of Inspections, Inspection Division; Peggy Kuo, Acting Deputy Chief, Civil Rights Division, USDOJ; Dana D. Biehl, Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Supervisory Special Agent (SSA), Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] SSA, Firearms Training Unit, Training Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; [redacted] Unit Chief, Transfer Unit, Personnel Division; and, [redacted] Supervisor, Baltimore Division. The two non-voting members present were [redacted] Program Manager, Law Enforcement Training for Safety and Survival, Practical Applications Unit, Training Division; and [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2)

provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that the actions of SA [redacted] were appropriate and that the use of deadly force was in accordance with the current deadly force policy. Therefore, it was recommended that no action be taken against SA [redacted] as a result of his involvement in this shooting incident. One SIRG member voiced the opinion that pepper spray is a better weapon to use for animals since bullets are not always effective. The member also noted that, although not viable in this particular incident, the use of fire extinguishers is another alternative to use on charging animals. This observation resulted in the recommendation that the Training Division discuss and consider viable options to be used by SAs during incidents involving charging animals. These comments and applicable procedures should be made known to all SAs.

b6
b7C

LEAD(s):

Set Lead 1:

That no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Set Lead 2:

That the Training Division discuss and consider viable options that can be used by SAs involved in incidents with charging animals and make comments and applicable procedures known to all SAs.

**Details of the Shooting Incident**

On 3/12/97, SA [redacted] accompanied by New Orleans Police Department (NOPD) detectives and members of the FBI/NOPD Fugitive Task Force (FTF), responded to an address in New Orleans, in an effort to locate and apprehend [redacted] had been arrested by NOPD officers on 3/7/97, at this same location for drugs and weapons violations.

SA [redacted] and other FTF members from the FBI established an outer-perimeter around the residence while NOPD officers knocked and gained entrance into the residence. After being advised by the detectives that the residence was secure, SA [redacted] approached the side entrance of the residence to enter and determine if the subject had been located. As he was attempting to enter the residence, a German short-haired dog suddenly appeared at the door and confronted SA [redacted] The dog was growling and acting in an aggressive manner and then lunged at SA [redacted]. SA [redacted] discharged seven rounds from his service pistol causing the death of the dog.

On 5/14/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; Albert N. Moskowitz, Deputy Chief, Civil Rights Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; James M. FD-204 (Rev. 12-1-95)

UNITED STATES DEPARTMENT OF JUSTICE
Federal Bureau of Investigation

Copy to: AD, INSD, ROOM 7129, ATTN: SIRG; FTU

Report of: AIIP [redacted] Office: HOUSTON
Date: June 9, 1997

Case ID #: 66-19157-19

Title: SHOOTING INQUIRY,
REPORT OF SHOOTING INCIDENT,
HOUSTON DIVISION;
5/15/97;
ADMINISTRATIVE MATTER

b6
b7C

Character: SHOOTING INQUIRY

Synopsis: On May 15, 1997, at approximately 11:40 a.m. the International Bank of Commerce (IBC), Angleton, Texas, was robbed at gunpoint by three black males, later identified as [redacted] and [redacted] aka [redacted] The modus operandi of this robbery was similar to a pending May 7, 1997, armed robbery of the Community State Bank (CSB), Boling, Texas which was assigned to SA [redacted] and [redacted] fled from Angleton, Texas, subsequent to the IBC robbery, but [redacted] the brother of subject [redacted] was apprehended by the Angleton Police Department (APD). [redacted] subsequently confessed to the robbery and implicated [redacted] and [redacted] as the other two robbery subjects. During this confession [redacted] advised that his brother [redacted] and [redacted] were armed and dangerous. Local authorities obtained arrest warrants for aggravated robbery for subjects [redacted] and [redacted] then agreed to cooperate with law enforcement by luring his brother [redacted] back to Angleton, Texas, to pick him up believing that [redacted] had been successful in eluding law enforcement. Local authorities planned an arrest scenario utilizing a SWAT team consisting of various local law enforcement. SA [redacted] was not involved in the planning or execution of this arrest scenario, but was in the general area awaiting the arrest of [redacted] so that he might participate in a future interview regarding the unsolved bank robbery assigned to him. SA [redacted] had been previously

b6
b7C

directed by Acting Supervisory Senior Resident Agent (A/SSRA), Texas City Resident Agency (TCRA), [redacted] not to participate in the local action which SA [redacted] acknowledged and understood. [redacted] contacted his brother [redacted] and arranged for a rendezvous in a deserted area on County Road 49 (CR49) near the intersections of State Highway 288 (S288) and Business Route 288 (B288) in Angleton, Brazoria County, Texas. During this conversation [redacted] warned [redacted] that he was bringing his "Uzi" and would use it against law enforcement as well as [redacted] if this was a setup. At approximately 11:00 p.m., 5/15/97, an individual identified by [redacted] as his brother [redacted] was driving a vehicle identified by [redacted] as his brother's [redacted] vehicle, was observed traveling in the predetermined pickup area which previously had been surrounded by the aforementioned local SWAT team. SA [redacted] was a passenger in an unmarked APD unit driven by APD Officer [redacted] which was also occupied by [redacted] who was riding in the rear seat. Shots were fired at the subject's vehicle by the local SWAT team. SA [redacted] heard the shots while observing a series of flashes. Subsequently, law enforcement radio traffic overheard by SA [redacted] confirmed this action and that the subject was fleeing the area. The exact location of the subject vehicle was unclear to SA [redacted] and Officer [redacted] however, by chance, the subject vehicle quickly entered a northbound lane of B288 which SA [redacted] vehicle was occupying. SA [redacted] suddenly found his vehicle adjacent to the subject vehicle believing it had just engaged in a firefight with the aforementioned SWAT team. The UNSUB driver of the suspect vehicle began to purposely brake his vehicle in an apparent effort to get SA [redacted] vehicle to pull up adjacent to it thus exposing SA [redacted] vehicle to a feared broadside attack of automatic weapon fire. During this braking action, [redacted] was lying prone in the backseat, stating that his brother, [redacted] was about to shoot. Concurrent with this activity, the driver's side window of the suspect vehicle lowered approximately three inches causing SA [redacted] to believe that the driver was about to shoot. SA [redacted] then fired his weapon 14 times. Eleven rounds fired by SA [redacted] struck the subject vehicle in the general area of the driver's side without striking the intended target. The remaining three rounds, which were not recovered, are presumed to have striken the pavement or embankment in the vicinity of the vehicle. Subsequently, the subject vehicle stopped and the occupant, later identified as [redacted] the [redacted] brothers' uncle, emerged from the suspect vehicle and was placed under arrest for the local equivalent of Obstruction of Justice. [redacted] has since admitted he had foreknowledge that [redacted] and [redacted] aka [redacted] went to Angleton, Texas, with the

b6
b7C

b6
b7C

intent to rob a bank.

On 5/20/97, [redacted] was arrested following a chase and violent shootout with local authorities, and has since admitted to six bank robberies spanning five Texas counties. [redacted] was the primary subject in the 5/15/97 bank robbery at the IBC, the crime from which this shooting incident developed and occurred during the late evening hours on 5/15/97. In total, three adult subjects and one juvenile have been arrested on armed bank robbery charges. b6 b7C

DETAILS:

Background

On May 15, 1997, at approximately 11:51 a.m. the Angelton Police Department (APD) was notified that two black males had entered the International Bank of Commerce (IBC), 200 East Mulberry Street, Angleton, Brazoria County, Texas, and robbed it. One black male, who was armed with a .38 caliber revolver, walked up to the teller line and placed a white envelope on the counter and ordered the teller to place all the money into a plastic bag which he had handed to her. This black male then vaulted the counter and physically took the first teller to a second teller's space and took the money from that teller's drawer. The suspect then jumped over the new accounts teller's desk and he and the other black male, who was waiting in the foyer area, ran from the bank.

During the early afternoon of May 15, 1997, SA [redacted] was in the office of the Texas City Resident Agency (TCRA), Houston Division when he was informed that a bank robbery had just occurred at the IBC. SA [redacted] volunteered to assist in interviews at the IBC and then left the TCRA in his Bureau assigned vehicle. In his vehicle was his Bureau issued body armor. Upon arrival at the IBC, SA [redacted] observed SA [redacted] TCRA, inside the bank conducting an interview on one of the tellers. SA [redacted] then entered the bank and began an interview of another teller while personnel from the APD and the Brazoria County Sheriff's Office (BCSO) were processing the crime scene. b6 b7C

While law enforcement was at the IBC conducting logical investigation, the APD received a call from a resident of the Tanglewood Apartments, 1210 N. Chenango Drive, Angleton, Brazoria County, Texas, and stated that a black male was in the apartment complex and was acting suspiciously in trying to obtain money in

order to get a taxi to take him to Houston. Subsequently, officers of the APD located this black male and escorted him the offices of the APD. The black male was identified as [redacted] who voluntarily confessed that he, his brother [redacted] and another black male known to him only as [redacted] drove from Houston to Angleton, Texas in a red and grey Mustang to commit a bank robbery. [redacted] stated that he stood in the lobby area of the IBC while [redacted] went inside the bank and held the tellers up at gunpoint. [redacted] further stated that [redacted] had the money placed in a plastic bag and they both left running from the bank. [redacted] also stated that [redacted] ran to the red Mustang driven by his brother, [redacted] while he, [redacted] fled the area on foot. b6 b7C

SA [redacted] and [redacted] were finishing their respective interviews at the IBC when a detective of the APD informed them that the APD may have apprehended one of the suspects of the IBC bank robbery and that the APD was going to transport the IBC bank tellers to the APD station in an effort to positively identify the suspects. SA [redacted] decided to go the APD station given that if this suspect was involved in the IBC robbery, he may be able to shed some information regarding an unsolved bank robbery assigned to SA [redacted]

Upon arrival at the APD station, SA [redacted] learned that the suspect in custody was named [redacted] and that he had identified his brother, [redacted] an associate [redacted] and himself as those who robbed the IBC. [redacted] also identified [redacted] as having a weapon who used it during the commission of the bank robbery while his brother [redacted] remained outside to drive the getaway car.

SA [redacted] observed the District Attorney and the Assistant District Attorney, Brazoria County, processing arrest warrants for [redacted] and [redacted]. A decision was made by A/SSRA [redacted] that this investigation was to be handled locally and that the FBI would not participate in any arrest plan or arrest until Federal Process was obtained. A/SSRA [redacted] advised SA [redacted] that he was not to participate in any arrest plan and/or arrest relating to this bank robbery which SA [redacted] acknowledged as understood. b6 b7C

Initial Arrest Plan By Local Authorities:

During the time frame that the conversations between SA [redacted] and A/SSRA [redacted] were transpiring, members of the APD and the BCSO agreed on a plan to lure [redacted] back to the Angleton area given that [redacted] had indicated his willingness

to fully cooperate with law enforcement. SA [redacted] was not aware of the particulars of this plan but wanted to remain on the periphery of this activity in an effort to glean any information from a potential interview of [redacted] relative to the unsolved May 7, 1997, bank robbery assigned to him.

Execution of Arrest Plan:

At about dusk, a tactical unit made up of Officers from the APD, the Clute Police Department (CPD), and the BCSO left the APD station to take up their respective positions at a remote location on CR 49 in support of the aforementioned arrest plan. The plan entailed [redacted] paging his brother, [redacted] When [redacted] returned the page, [redacted] would inform him that he was successful in eluding law enforcement, that he was secreted by an abandoned concrete plant on CR 49 and that he needed a ride from the area. SA [redacted] was invited by APD to ride with APD Officer [redacted] in an unmarked APD unit to transport [redacted] to a Chevron station located near CR 49 where [redacted] would make this contact from a pay telephone bank. SA [redacted] and Officer [redacted] agreed that, short of the pretext call to be made by [redacted] their role in the arrest scenario would be administrative, and that they were not to be involved in the arrest or other overt actions relating to the arrest. b6 b7C

Upon arrival at the Chevron service station, Officer [redacted] and SA [redacted] determined that the pay phones at the station would not accept incoming calls. A decision was made to let [redacted] use the cellular telephone assigned to SA [redacted] and, at 8:51 p.m., [redacted] paged his brother [redacted] immediately returned [redacted] page. After [redacted] related to his brother that he had eluded police and he was waiting to be picked up, [redacted] apparently agreed to pick up his brother. When [redacted] ended this call, he advised Officer [redacted] and SA [redacted] that [redacted] told him that he, [redacted] was bringing his "Uzi" and that if this was a setup, he was going to shoot law enforcement as well as [redacted] was asked if his brother [redacted] had access to these types of weapons and if he would use them, to which [redacted] answered in the affirmative. This information was then broadcast by Officer [redacted] over the radio to all law enforcement personnel involved in the arrest scenario. b6 b7C

Nothing transpired for approximately one and one half hours when it was decided by the APD On-site Command that [redacted] needed to recontact his brother, [redacted] and inquire as to his location. As Officer [redacted] and SA [redacted] drove north

on B288 with [redacted] toward the aforementioned Chevron station, a silver four door sedan came into view. [redacted] then stated to Officer [redacted] and SA [redacted] that the silver four door sedan was [redacted] vehicle and that [redacted] was driving it.

Officer [redacted] and SA [redacted] then drove their vehicle southbound on B288, ahead of and in the same direction of the suspect silver four door sedan. As Officer [redacted] vehicle was driving past CR49, Officer [redacted] observed in his rear view mirror the silver four door sedan exit B288 and proceed down CR49 which he immediately broadcast to law enforcement. Members of a local SWAT team who were charged with effecting the arrest of [redacted] were secreted along CR49. The silver four door sedan proceeded eastbound on CR49 and turned and came back in a westbound direction. The vehicle then slowed in front of the abandoned concrete business and then proceeded to drive back and forth on CR49.

b6
b7C

Action by Local SWAT Team:

The local SWAT team, secreted on CR49, had received orders from their command, that if the suspect vehicle did not comply with commands to stop, an attempt should be made to incapacitate the vehicle by shooting the tires and engine block. A component of the local SWAT team was charged with taking the occupants of the suspect vehicle into custody as the vehicle entered the parking lot of an abandoned concrete plant. Other members of the local SWAT team, to include officers of the Clute Police Department (CPD), were ordered if the initial assault failed and the suspect vehicle attempted to flee the scene, they were to attempt to disable the vehicle with gunfire, aiming at the engine block and/or tires, thus preventing the suspect vehicle from reentering B288. As the vehicle proceeded eastbound on CR49, the local SWAT team was further instructed by radio that, if the vehicle did not stop at the aforementioned parking lot, stun grenades would be tossed towards the vehicle and that it should be disabled if it attempted to flee. Subsequently, three CPD officers of the SWAT team observed a flash and explosion while the suspect vehicle accelerated rapidly westward heading towards the CPD SWAT components position. These law enforcement officers of the CPD fired on the suspect vehicle in an unsuccessful attempt to disable it. The vehicle immediately fled the scene westward on CR49.

Officer [redacted] vehicle was parked on B288 facing northbound, south of CR49, when gunfire was heard in the vicinity of CR49. Subsequently, it was broadcast over the radio that

shots had been fired and the vehicle was fleeing the scene. Officer [redacted] then began driving northbound on B288 in an effort to identify the direction of travel of the suspect vehicle for the arrest team. As Officer [redacted] vehicle approached the point where CR49 joined B288, the suspect vehicle entered B288 from CR49 at a high rate of speed.

As both vehicles proceeded northbound on B288, the suspect vehicle which was just ahead of [redacted] vehicle began a series of braking actions. SA [redacted] Officer [redacted] and [redacted] believed that the suspect vehicle had just engaged in a firefight with local law enforcement. SA [redacted] further believed that the suspect vehicle knew it was being pursued by law enforcement and that the braking action of the suspect vehicle was an effort to position the suspect vehicle broadside to SA [redacted] vehicle. The intent of this positioning was to maximize damage from gunfire to SA [redacted] and the other occupants of his vehicle. [redacted] who was secreted in the rear seat, told SA [redacted] and [redacted] that his brother was about to shoot.

b6
b7C

Action by SA [redacted]

At this point, SA [redacted] fired his Bureau issued Sig Sauer 228 at the driver's side of the suspect vehicle. The suspect vehicle traveled approximately 100 feet from the time SA [redacted] fired his first round until the suspect vehicle came to a complete stop. SA [redacted] then exited Officer [redacted] vehicle and took up a defensive position behind this vehicle, given he had no additional ammunition nor body armor. Officer [redacted] exited the drivers side of his vehicle and trained his weapon on the suspect vehicle. Sergeant [redacted] BCSO, who was positioned on the median directly north of Officer [redacted] vehicle, had exited his vehicle and had his weapon also trained on the suspect vehicle. Subsequently, upon commands from Officer [redacted] a suspect driver exited the vehicle and was placed under arrest. SA [redacted] immediately contacted his superior and informed her that he had just been involved in a shooting incident. There were no injuries.

b6
b7C

Search Incident to the Shooting:

As noted above, inasmuch as the APD and BCSO had a local bank robbery investigation, the evidence collection components of the APD and the BCSO took the lead and processed the crime scene on B288. All that was collected during the late evening and early morning hours of May 15 - 16, 1997, with the exception of SA [redacted] Sig Sauer P228, is in the possession

of those local law enforcement agencies.

An inspection of the crime scene by responding FBI personnel as well as a review of the crime scene sketches and photographs taken by the APD/BCSO, copies of which are in the possession of the FBI, identify the location of fourteen spent 9mm casings in close proximity to the vehicle occupied by SA [redacted] It is noted that the crime scene photographs depict fifteen markers. Fourteen of these markers identify the location of SA [redacted] spent .9mm cartridges while the fifteenth (identified as #11) identifies the location of the decal "Eighty", knocked from the suspect vehicle due to the impact of one of SA [redacted] rounds. b6 b7C

Physical observation of the suspect vehicle revealed twelve visible points of bullet entry. It is possible, but unlikely, that more than one round entered through the same point of entry. Eleven of the twelve points of bullet entry are consistent with the trajectory of shots fired from the direction of the vehicle SA [redacted] was riding in. The twelfth point of bullet entry appeared to be a shot fired from a position perpendicular to the suspect vehicle which was located in the front quarter panel close to the front left tire. This twelfth point of entry most probably occurred during the local SWAT engagement on CR49.

Due to the fact that the vehicles were moving as the shooting took place, investigators were unable to determine the exact impact location of any errant shots. It was apparent to investigators that the bullets fired which missed the subject vehicle would have most likely impacted the concrete and dirt embankment, or the ground in front of the embankment. Because of the worn condition and pitting and weathering of the embankment, investigators could not determine with certainty if chips in the concrete were caused by round impact or natural causes.

Vehicle Damage:

During this shooting incident, the following vehicle was damaged by the local SWAT team and/or SA [redacted]

A 1990 Oldsmobile Eighty Eight Royale Brougham, Texas temporary licence [redacted] Vehicle Identification Number (VIN) [redacted] purchased by [redacted] on May 8, 1997. b6 b7C

Physical observation of the above vehicle revealed twelve visible points of bullet entry. Eleven of the twelve points of bullet entry are consistent with the trajectory of

shots fired from the direction of the vehicle SA [redacted] was riding in. The twelfth point of bullet entry appeared to be a shot fired perpendicular to the automobile consistent with the original local SWAT engagement. (see E-5 through E-8).

Weapon Involved:

During this shooting incident, SA [redacted] discharged the following weapon:

.9mm Sig Sauer, Model P228, Serial #B178055, with Federal Premium brand, .9mm Luger 147 grain Hydro-Shok jacketed hollow point ammunition. Magazine capacity of thirteen rounds.

b6
b7C

Crime scene investigation by the APD, BCSO and the FBI located fourteen fired 9mm casings on B288 in close proximity to the vehicle occupied by SA [redacted] (See E-3 through E-6). A distance of approximately 90 feet separated the first .9mm shell casing (identified by marker #1) and the last .9mm shell casing (identified by marker #15).

Following the shooting, SA [redacted] weapon was empty. SA [redacted] advised that he fired fourteen rounds at the suspect vehicle, thirteen from the clip and one already chambered in his weapon.

Media Coverage:

A review of all local media outlets failed to surface any information relative to this shooting incident.

Criminal Liability of SA [redacted]

On May 20, 1997, [redacted] Brazoria County District Attorney advised that there would be no Grand Jury investigation or any criminal charges filed against SA [redacted] or any of the other officers involved in this shooting incident.

Training:

b6
b7C

SA [redacted] is fully aware of the Bureau policy relative to the importance and use of protective body armor and the importance and need for backup ammunition. This awareness was demonstrated when SA [redacted] reiterated his role to APD Officer [redacted] and Officer [redacted] reconfirming SA [redacted] role, i.e. that SA [redacted] would not participate in any arrest or related overt action to this arrest. Subsequently,

SA [redacted] left his protective body armor and backup ammunition in his Bureau vehicle which was parked at the APD station and departed in Officer [redacted] unmarked unit.

b6
b7C

SA [redacted] qualified at firearms as recently as March 24, 1997, and is not delinquent in any scheduled firearms training.

To: Inspection Division From: Inspection Division
Re: 66-19157-38, 03/06/1998

SIRG members unanimously concurred that this incident involved the intentional discharge of all weapons fired by law enforcement personnel. Additionally, members agreed that the use of deadly force was justified and within the scope of the current deadly force policy.

Two observations made by Chairman Lusby involved the actions of task force members during the car stop. The first observation was the fact that participants left Staskal an avenue of escape by not having blocked his car on all sides. Secondly, SAs [redacted] and [redacted] and Officer [redacted] placed themselves in a precarious position since the subject could have opened fire through the vehicle windows resulting in injury and a potential "cross fire" event. This discussion resulted in the recommendation that the Practical Applications Unit of the Training Division review current car blocking procedures and determine if they adequately address "cross fire" issues. b6 b7C

**LEAD (s):**

**Set Lead 1:**

INSPECTION DIVISION

AT WASHINGTON, DC

That no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in this shooting incident.

**Set Lead 2:**

TRAINING DIVISION

AT QUANTICO

That the Practical Applications Unit review current car blocking procedures to determine if they adequately address "cross fire" issues.

Re: 66-19157-12, 09/12/97

**Details of the Shooting Incident**

At approximately 3:13 p.m., on 5/22/97, a subject entered the Fidelity Bank in Dallas, Texas. The subject, who was later identified as Darrell Cleo Holmes, was dressed in business attire, leading bank employees to believe that he was a commercial vendor making a late deposit. Holmes was buzzed into the bank lobby and once he entered the bank, he positioned himself with his back to the bank cameras and put on a hat and sunglasses. Holmes approached a teller and displayed a large black frame pistol and demanded money. The teller gave Holmes $2,200 which included two electronic tracking system (ETS) devices. The subject exited the bank with the money and the activated ETS devices.

Once the devices were activated, the signals were picked up by a Dallas Police Department (DPD) helicopter. DPD marked units responded and followed the subject in the direction of Interstate 635 (I-635) westbound. Prior to entering I-635, Holmes stopped and threw one tracking device into a dumpster.

At approximately 3:15 p.m., the Dallas Division was telephonically advised of the bank robbery. Dallas was advised of the robber's description, the fact that he was armed and that the tracking devices were included in the money package given to the robber.

Four Special Agents (SAs) assigned to the Violent Crimes (VC) squad responded to the bank robbery. SA [redacted] Dallas Division's bank robbery coordinator and SA [redacted] responded in one vehicle and SAs [redacted] and [redacted] responded in their respective Bureau cars. Each member of the VC squad had previously received joint training with the DPD with the ETS tracking system utilized in area bank robberies. SA [redacted] bureau vehicle was equipped with an ETS receiver and he had received specialized training in its utilization. Additionally, each VC squad members' vehicle was equipped with DPD radios.

The three FBI vehicles proceeded northbound on U.S. Route 75 toward the bank robbery location. While enroute, DPD radio transmissions indicated that the ETS signal was in the vicinity of U.S. Route 75 and I-635. SA [redacted] ETS tracking receiver began picking up the signal. DPD units, including a DPD helicopter, advised that the signal was westbound on I-635 and the three Bureau vehicles proceeded in that direction.

b6
b7C

Based on the ETS signal, the DPD units and helicopter assessed that the ETS device was in a westbound vehicle that appeared to be a burgundy two-door Buick. At this point, no law enforcement vehicles were operating emergency equipment. The initial DPD marked unit broadcast its intention to commence a felony traffic stop on the Buick. SA [redacted] stated that he was following a DPD unit in the High Occupancy Vehicle lane and had activated his vehicle's emergency equipment. At that time, the DPD officer announced, via car radio, that the Buick was exiting I-635 onto a one way frontage road that paralleled the freeway. The two-lane road served as an access to exiting vehicles. Several DPD units continued behind the Buick onto the frontage road and commenced a traffic stop at which time the Buick stopped on the road.

The freeway was separated from the frontage road by a grassy median, approximately 15 yards wide. The first DPD unit stopped directly behind the Buick, slightly offset. The second DPD unit stopped behind the first and the third unit who had not exited on the frontage road pulled onto the grassy median at a position that was toward the rear of the Buick. As the traffic stop was initiated, the FBI vehicles pulled onto the shoulder of I-635 parallel to the frontage road. SA [redacted] stopped his vehicle on the shoulder of I-635, approximately three fourths of a car length ahead of the Buick. The second vehicle driven by SA [redacted] stopped behind SA [redacted] vehicle. SA [redacted] pulled onto the grassy median at a slight angle behind SA [redacted] vehicle, next to the third DPD unit.

b6
b7C

As the FBI vehicles were stopping, the SAs observed a white male, later identified as the subject Holmes, exit the Buick. Simultaneously, the first DPD officer exited his vehicle and took cover behind his vehicle door. The second DPD officer had established herself at the right rear of the first DPD vehicle with her weapon drawn. Holmes displayed a black pistol in his right hand, waving it around while gesturing with his left hand. There was a verbal exchange between Holmes and one DPD officer. The DPD officers heard Holmes screaming, "I'm going to kill you".

SAs [redacted] and [redacted] exited their vehicle, drawing their weapons, and took positions of cover behind their vehicle. SA [redacted] stated that he took a position of cover at the rear of the driver's side of the vehicle while SA [redacted] stated that she assumed a position of cover behind the open, right front passenger door. SA [redacted] stated that he exited his vehicle,

drew his weapon and assumed a position of cover at the front of the driver's side of his vehicle.

All of the SAs at the scene stated that they were aware that shouting took place between Holmes and the DPD officer; however, due to the numerous sirens and freeway traffic noise, the words were unintelligible. The SAs were aware that Holmes was waving what appeared to be a black semi-automatic pistol in his right hand. Holmes took several steps toward the first DPD vehicle and pointed the pistol at the first DPD officer. The DPD officer ducked down behind the door of his vehicle. According to the SAs at the scene, it appeared that the officer had been shot or gone down. Believing that the officer had been shot, the SAs and other DPD officers began firing at the subject. b6 b7C

SA [redacted] stated that he believed that he saw a puff of smoke come from the barrel of the subject's weapon and after hearing SA [redacted] and others fire, he fired twice at the subject.

According to SA [redacted] she believed that she observed something come off the barrel of Holmes' weapon at the same time she heard a gun shot. Fearing for the DPD officers in Holmes' line of fire, she shot twice at the subject. SA [redacted] also stated that it appeared that Holmes was moving toward his vehicle for cover and she then fired once more.

SA [redacted] advised that from his position of cover, he saw Holmes thrust his pistol toward the DPD officer. At the same time, it appeared to SA [redacted] that the first DPD officer had been hit. SA [redacted] fired once at the subject. Upon observing Holmes go to a sitting position on the ground in the doorway of his vehicle and fearing for the DPD officers, SA [redacted] fired two additional rounds.

SA [redacted] stated that upon exiting his vehicle he observed Holmes point his pistol toward the first DPD officer and it appeared that the pistol jerked. SA [redacted] saw the DPD officer appear to go down and fearing for his life as well as the life of the DPD officer, SA [redacted] fired once at Holmes. SA [redacted] stated that it appeared that Holmes turned toward his vehicle in an attempt to gain cover and at that point SA [redacted] fired two additional rounds at the subject.

After being fired upon, Holmes slumped to the ground with his upper torso leaning onto the driver's side floor board. Officers approached Holmes and determined that no further threat b6 b7C

existed. Once Holmes was disabled and the DPD officer appeared to be in control, the SAs holstered their weapons and SAs [redacted] and [redacted] advised the Dallas Division of the shooting incident via radio. Emergency aid was called. As Holmes was being secured, the SAs observed that the weapon being utilized by Holmes appeared to be a BB gun. The gun had been removed from the subject's hand by a DPD officer and placed on the pavement. b6 b7C

According to the SAs present, Holmes received numerous wounds to his legs and buttocks area and was also bleeding from the head. A private ambulance company arrived shortly after the incident and began treatment on Holmes. A Dallas Fire Department Paramedic Unit also responded and transported Holmes to a close-by hospital where he was pronounced dead.

An autopsy report listed the cause of death of Darrell Cleo Holmes as multiple gunshot wounds.

A subsequent grand jury report dated 7/22/97, returned a "no bill" for all law enforcement personnel involved in this shooting incident. Additionally, on 5/23/97, a representative from the Civil Rights Division, U.S. Department of Justice, declined prosecution in this matter.

On 8/12/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted], Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Supervisory Special Agent (SSA), Legal Advice and Training, Legal Policy, Office of the General Counsel; [redacted] Acting Unit Chief, Undercover and Sensitive Operations Unit, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted], Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted], Supervisor, Washington Field Office. The two non-voting members present were [redacted] Program Manager, Law Enforcement Training for Safety and Survival, Practical Applications Unit, Training Division; and [redacted] Inspection Analyst, Office of Inspections, Inspection Division. b6 b7C

To: Inspection Division From: Inspection Division
Re: 66-19157-12, 09/12/97

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

At the beginning of discussion of this incident, SIRG members viewed a news media tape provided by the Dallas Division regarding this incident. SIRG members unanimously concurred that the use of deadly force by the SAs involved in this shooting incident was justified and in accordance with the current deadly force policy.

The only issue regarding planning in this incident involved the fact that participants waited too long to take action. The Training Division (TD) representative opined that it was gratuitous that the subject had a BB gun and that he wanted to be killed by police.

Observations made by the group included the fact that the line-up of the SAs vehicles were in the most exposed position and that one SA was hiding behind a door which resulted in concealment at best. The SIRG representative from the TD, Practical Applications Unit advised that the unit is reviewing the current car stop package.

The second observation made by SIRG members dealt with the fact that no SAs were utilizing their ballistic protective undergarments noting that the agents had time to prepare for the situation. Emphasis was placed on the fact that each of the SAs were members of the VC task force and should have not only had their protective vests accessible, but should also have taken the time to put them on. The TD representative added that an initiative is underway to obtain completely concealable protective armor. Additionally, the TD representative advised that mental, as well as shooting incident, preparation is currently being taught during training class. SIRG members discussed the fact that the SAC, Dallas Division, had recognized that the SAs neglected to use protective armor and emphasized the danger that the SAs had put themselves in by not utilizing their vests. Although no administrative action was recommended by members of the SIRG, this discussion resulted in the

recommendation that the SAC, Dallas, re-emphasize to the SAs the importance of utilizing protective body armor.

**Set Lead 1:**

DALLAS DIVISION

AT DALLAS

That SAC, Dallas re-emphasize to SAs [redacted] and [redacted] the importance of utilizing their ballistic protective undergarments.

b6 b7C

**Details of the Shooting Incident**

The Baltimore Division opened a case based upon an arrest warrant for subject [redacted] who was wanted by Delaware authorities for First Degree Robbery, Possession of Narcotics and Second Degree Robbery. [redacted] was also wanted for several misdemeanor offenses within the state. The investigation of [redacted] was conducted by the Delaware Joint Violent Crime Fugitive Task Force (VCFTF) which was led by the Bureau. b6 b7C

[redacted] was arrested by VCFTF members on 3/5/97, in Wilmington. Having posted bond, he was released following this arrest. [redacted] failed to appear for his court date causing a warrant to be issued for his arrest, and the reinitiation of an Unlawful Flight to Avoid Prosecution Preliminary Inquiry.

On 6/6/97, at approximately 1:00 p.m., Officer [redacted] the Delaware Department of Corrections, Probation and Parole Division representative to the VCFTF, and SA [redacted] began to follow leads in an effort to locate [redacted] Search warrants had been obtained by Officer [redacted] earlier that week for a Delaware address as well as for [redacted] himself.

At approximately 1:15 p.m., Officer [redacted] and SA [redacted] drove past the Delaware address to determine if anyone was in the home. Unable to determine if anyone was in the home, Officer [redacted] made a call to the residence which was answered by a female believed to be the subject's mother. Officer [redacted] contacted the Wilmington Police Department via police radio and requested backup assistance prior to approaching the residence; however, the police dispatcher advised that no units were available to assist at that time.

Officer [redacted] and SA [redacted] decided to attempt to interview [redacted] parents. As they approached the residence, Officer [redacted] took a position at the front door of the house while directing SA [redacted] to the rear. This action was taken due to the fact that [redacted] had previously attempted to escape through the rear of this residence. Officer [redacted] identified himself to the father and was invited into the residence. [redacted] advised SA [redacted] via radio to come to the front of the house where he joined Officer [redacted] inside. b6 b7C

The residence was searched, however, the subject was not located. During the interview, [redacted] parents advised

that they had not seen their son in over a week. They did advise that the last time they saw [redacted] he had stated that he would not turn himself in to authorities. According to the parents, [redacted] had been seen with a female of Asian descent known to them as [redacted] They advised that [redacted] drove a green Ford Explorer type vehicle.

Upon completion of the interview, [redacted] and [redacted] discussed possible leads to follow in their attempt to locate the subject. Several minutes after leaving the residence with Officer [redacted] driving the Bureau vehicle, SA [redacted] was provided a photograph of the subject. [redacted] also advised SA [redacted] that he had previously arrested [redacted] and that the subject was both a drug user and mentally ill. b6 b7C

At approximately 1:40 p.m., while driving in the vicinity, Officer [redacted] observed a white male pedestrian who he believed to be [redacted] SA [redacted] noticed a green Chevrolet Blazer driven by a white female parked at the curb facing the Bureau car with its passenger door open. [redacted] was walking toward the vehicle as if he were going to enter the Blazer on the passenger side.

By the time Officer [redacted] had positively identified the pedestrian as [redacted] he had driven past the Blazer. Without commenting to SA [redacted] immediately turned the car around, however the residential street was not wide enough to accommodate the turn. Officer [redacted] stopped the Bureau vehicle at a diagonal angle behind the Blazer.

It appeared to Officer [redacted] that [redacted] was going to enter the right front passenger seat of the parked Blazer and he thought it necessary to apprehend the subject before he entered the Blazer in order to avoid a car chase. When Officer [redacted] first saw the subject on the sidewalk, [redacted] was approximately 35 feet from the Blazer. Officer [redacted] immediately exited the Bureau car, approached [redacted] shouted his name and said "you're under arrest." Officer [redacted] attempted to physically restrain [redacted] at the open passenger door of the Blazer. A struggle ensued and [redacted] fell into the front seat of the Blazer pulling Officer [redacted] with him. [redacted] shouted "go, go, go" to the driver of the Blazer and Officer [redacted] shouted "stop police, stop police." The driver began to accelerate with the lower half of Officer [redacted] body hanging out of the vehicle with his feet dragging on the ground. Officer [redacted] advised that as the vehicle accelerated, he tried to pull himself inside to stop the driver. He held onto [redacted] for b6 b7C

fear that if he fell onto the pavement he would be run over by the Blazer's rear wheels.

At the same time that Officer [redacted] exited the Bureau car to pursue the subject, SA [redacted] exited the vehicle taking a path around the rear of the car and moving toward the driver's side of the Blazer. SA [redacted] saw Officer [redacted] and [redacted] begin to struggle in the grassy area next to the sidewalk and in the Blazer's open passenger doorway. SA [redacted] got within three or four feet of the driver's side door of the Blazer and saw the female driver looking from side to side. SA [redacted] shouted a command to the driver later determined by witnesses to be "Stop FBI." At that point, SA [redacted] heard screaming from inside the vehicle and the driver "floored" the vehicle and accelerated away from the curb. b6 b7C

As the Blazer began to move away, SA [redacted] heard Officer [redacted] yelling "stop police, stop the car." As the Blazer moved away SA [redacted] saw two legs from approximately the knees down flailing around and being dragged down the street. SA [redacted] realized that this was Officer [redacted] and that he was either hanging on or stuck in the vehicle.

SA [redacted] believing that Officer [redacted] was in serious danger, began a foot chase. SA [redacted] advised that he knew that he had to make the Blazer stop in order to save Officer [redacted] life and he determined that the only way to accomplish this was to shoot the driver of the Blazer. SA [redacted] drew his Bureau issued Sig Sauer P-226 and fired three shots at the driver of the vehicle. Immediately following the third shot, the vehicle came to a stop. SA [redacted] believed that he had shot the driver.

While approaching the car, SA [redacted] saw Officer [redacted] stand up and remove [redacted] from the car and put him on the ground. SA [redacted] approached the driver's side of the car and saw that the female driver had not been shot, ordered her out of the vehicle and placed her on the ground. b6 b7C

With both subjects secured, the Wilmington, Delaware, RA as well as local authorities were contacted and notified of the shooting incident.

To: Inspection Division From: Inspection Division
Re: 66-19157-3, 09/10/97

On 8/12/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Supervisory Special Agent (SSA), Legal Advice and Training, Legal Policy, Office of the General Counsel; [redacted] Acting Unit Chief, Undercover and Sensitive Operations Unit, Criminal Investigative Division; [redacted], Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The two non-voting members present were [redacted] Program Manager, Law Enforcement Training for Safety and Survival, Practical Applications Unit, Training Division; and [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

During the discussion of this shooting incident, SIRG members unanimously concurred that the use of deadly force by SA [redacted] was justified and in accordance with the current deadly force policy. This discussion resulted in the recommendation that no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

b6
b7C

Two issues were raised by SIRG members during the discussion of this incident. The first issue related to the fact that the actions of Officer [redacted] resulted in SA [redacted] having to use deadly force. Additionally, it was noted that [redacted] actions were contrary to the instructions issued to task force members. The second issue involved the lack of sufficient personnel present during the execution of the search warrant.

To: Inspection Division From: Inspection Division
Re: 66-19157-3, 09/10/97

Members emphasized the fact that one person can not cover a back or a front of a location without being placed in a vulnerable position. SIRG members unanimously concurred that SAC, Baltimore, recognized these areas of concern and had implemented procedures to ensure that this situation does not recur.

**Set Lead 1:**

INSPECTION DIVISION

AT WASHINGTON, D. C.

That no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

Re: 66-19157-26, 11/24/1997

Details of the Shooting Incident

On 8/29/97, SAs [redacted] and [redacted] were on duty and conducting a security background investigation on North Roxbury Drive in Beverly Hills, California. At approximately 2:40 p.m., after completing their neighborhood investigation, the agents were returning to their Bureau vehicle parked north bound in front of 614 North Roxbury Drive. Both SAs observed a Hispanic male walking south on the sidewalk towards them. When the SAs were approximately seven feet from the passenger door of their vehicle, the subject walked past them and was to their rear. At that point, the subject yelled and demanded their wallets. As they turned around, the subject was holding a black colored small semi-automatic pistol. The robber demanded the agents' wallets and other property and stated that he would blow off their heads if they did not comply. Throughout the robbery, the subject continually pointed his weapon and threatened to kill them. Both SAs gave up their wallets, and SA [redacted] also surrendered the Bureau car keys and his gold chain necklace. b6 b7C

During the incident, SAs [redacted] and [redacted] talked to the robber in an effort to calm him as both agents moved slowly in different directions from the subject. SA [redacted] moved toward the rear passenger side of the Bureau vehicle while SA [redacted] slowly moved around the front of the vehicle. The robber continually swung his weapon back and forth between the two agents and continued to threaten and demand their property. While SA [redacted] slowly moved around the front of the vehicle, the robber demanded his fanny pack which contained his Bureau issued nine millimeter Sig Sauer pistol. SA [redacted] knowing that his weapon was inside the fanny pack, continued backing up moving around the Bureau vehicle until he was near the front driver's door. The robber followed SA [redacted] and moved to the front fender of the driver's side of the vehicle and again demanded his fanny pack. At that time, neither SA believed that the robber knew they were federal law enforcement officers. However, SA [redacted] realized that once the robber got his fanny pack which held his weapon, he would know they were law enforcement officers. SA [redacted] believed that once the robber became of aware of this that he would shoot him. At that point, SA [redacted], who was in fear for his life, drew his weapon when the robber's attention was momentarily diverted. SA [redacted] identified himself as the FBI and when the robber turned with his weapon in his hand, SA [redacted] fired one round at the subject. b6 b7C

The robber turned and ran north on North Roxbury Drive and both agents pursued him. After a short chase, the robber disappeared and no additional rounds were fired.

According to SA [redacted] statement, as he and SA [redacted] were returning to the vicinity of the Bureau vehicle, a citizen driving by stopped his vehicle and talked to SA [redacted] SA [redacted] got into the vehicle and left. After SA [redacted] had left, another citizen stopped and offered SA [redacted] the use of his cellular phone which was used to talk to the 911 operator who was already on the line with the owner of the phone.

SA [redacted] statement advised that as he and SA [redacted] were walking back to the area of the Bureau vehicle, a passing motorist stopped and stated that he would drive SA [redacted] around to look for the suspect; however, he would not give up his car. Neither agent recalled advising the motorist that they needed his car. It should be noted that in the motorist's statement, he advised an individual who later identified himself as an FBI agent stopped his car by holding up his hand. The motorist stated that he believed that was the person who said "FBI, we need your car". SA [redacted] accepted the motorist's offer since the robber had taken the keys to the Bureau vehicle. After several minutes, SA [redacted] realized that if he confronted the robber, the motorist could be in danger; therefore, he called off the search. At the point of SA [redacted] return to the scene of the incident, a Beverly Hills police officer had arrived and notification was made to the Los Angeles Division regarding the shooting incident.

b6

To: Inspection Division From: Inspection Division
Re: 66-19157-26, 11/24/1997

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that this shooting incident involved an intentional discharge of SA [redacted] weapon and the shooting was in conformance with the current deadly force policy.

The only issue raised by the group was the fact that SA [redacted] placed a citizen at risk and exposed the FBI to possible extensive civil liability had any injuries been incurred. This discussion resulted in the recommendation that SA [redacted] receive a letter of censure for using poor judgement in commandeering a citizen's vehicle and placing him in a precarious situation.

LEAD(s):

Set Lead 1:

OFFICE OF PROFESSIONAL RESPONSIBILITY

b6
b7C

AT WASHINGTON, D. C.

That SA [redacted] receive a letter of censure for his use of poor judgement in placing a citizen at risk and exposing the FBI to possible extensive civil liability.

Set Lead 2:

That no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

b6
b7C

**Details of the Shooting Incident**

The investigation into the drug activities of Mario H. Velez was opened on 11/4/96, and assigned to SA [redacted] in the North Platte Resident Agency (NPRA). Velez had long been believed to be the main source of methamphetamine in Lexington and North Platte, Nebraska. SA [redacted] developed a source who advised that Velez routinely imported multi-pound quantities of methamphetamines, cocaine and marijuana from Mexico to Nebraska via Garden City, Kansas. b6 b7C

Based on information provided by SA [redacted] source and a review of Velez' criminal history, SA [redacted] discussed the case with SA [redacted] of the Grand Island Resident Agency. SA [redacted] advised that he had a good undercover police officer to deal with Velez.

During November 1996, two drug purchases were made from Velez. On 11/8/96, SA [redacted] source introduced Velez to Grand Island Police Department Undercover Officer [redacted] who purchased one ounce of methamphetamine. Although the drug was tested and determined to be amphetamine, on 11/21/96, Officer [redacted] purchased one ounce of methamphetamine from Velez.

In December 1996, Velez moved from Nebraska to Kansas. SA [redacted] source advised that Velez fled because he believed that a warrant had been issued for his arrest. At approximately the same time he left Nebraska, Velez expressed concern to the source about [redacted] and asked the source to provide additional information about [redacted] and how the source met him. During another conversation between the source and Velez in June 1997, Velez again spoke of his suspicions about [redacted] claiming that he wanted to buy too much too soon. Velez also claimed that "a cop" had told him that [redacted] was a police officer. Velez did not return to Nebraska until September 1997.

On 9/24/97, the source advised SA [redacted] that Velez had moved back to Nebraska and wanted to reestablish contact with [redacted] On 9/26/97, Velez delivered samples of cocaine and heroin to Officer [redacted] and also agreed to deliver 17 ounces of black tar heroin and 35 ounces of cocaine. SAs [redacted] and [redacted] along with other members of the Tri-City Federal Drug Task Force (TCTF), began planning a scenario intended to result in a buy-bust arrest of Velez on 10/3/97. All law enforcement agencies participating in the planned arrest of Velez, including the FBI Agents, were members of the task force. b6 b7C

One of the first steps taken in preparing for the arrest of Velez was to rent a small single-family home in Alda, Nebraska. This home would provide the task force with complete control over the arrest scene and ensured it was a reasonable distance from other structures. Additionally, SA [redacted] contacted the Omaha Division to obtain approval for both aviation support and technical coverage during the arrest of Velez. ASAC Thomas W. Richardson arranged for this requested support and also advised two supervisors in the Omaha Division that an operational plan was needed for the arrest. b6 b7C

An operational and arrest plan was developed by SA [redacted] for the anticipated arrest of Velez. On 10/1/97, Omaha personnel traveled to Alda to install electronic monitoring equipment, including audio and video, in the house to be used during the arrest.

On 10/3/97, at 8:00 a.m., Officer [redacted] tried to contact Velez by phone and was instructed to call back between 2:30 and 3:00 p.m. Officer [redacted] called at approximately 3:00 p.m., and was advised to call at 5:00 p.m. During the 5:00 p.m. telephone call, Officer [redacted] spoke with Velez who agreed to meet Officer [redacted] at the house in Alda at 9:00 p.m. SA [redacted] subsequently telephoned ASAC Richardson and advised that the drugs had been ordered.

The arrest team was in place when Velez arrived at 9:00 p.m. Velez entered the house, observed the $50,000 "flash" money in Officer [redacted] possession, and said he did not have the drugs but he would get them and be back in approximately three hours.

Surveillance units followed Velez to a location in Sutton, Nebraska and remained at that location when Velez departed the area. The plan was to search the location after Velez' arrest. Velez returned to Alda just before midnight. With the arrest team in place, [redacted] let Velez inside the house. Velez looked around the house and went back to his car and retrieved a white plastic sack. Upon entering the house a second time, Velez paused to lock the door, setting the deadbolt. Officer [redacted] observed Velez lock the door and commented on it, intending to notify the arrest team that the door had been locked. b6 b7C

Officer [redacted] observed the drugs possessed by Velez and commented, "That's a lot of shit". As planned, the arrest team van moved close to the front door. At that point,

Officer [redacted] said "Bingo", and the arrest began. It should be noted that these were prearranged code words by the arrest team to indicate when Officer [redacted] viewed the drugs and when the deal was completed.

As the arrest team exited the van, Officer [redacted] pulled the screen door open and Deputy [redacted] began to kick at the door; however, the door would not give. Several arrest team members kicked the door with negative results. Subsequently two team members kicked the door simultaneously and as the door was opening, shots were heard coming from inside the house. b6 b7C

According to Officer [redacted] once he gave the signal to arrest and waited for the officers to enter, he and Velez were sitting on the couch when he heard the first kick at the door. He looked at the door and saw it give "a little bit" after the second kick. He got up, hoping to move closer to the door. Officer [redacted] looked at Velez and saw that he had pulled a gun and was pointing it at the door. Thinking Velez was going to shoot through the door, [redacted] said "No, don't do that." Officer [redacted] began moving toward the bedroom keeping his eye on Velez. Velez caught up to Officer [redacted] just outside the bedroom door, grabbed him by the shirt collar with his left hand and said, "No, it's you". Velez pushed Officer [redacted] through the bedroom doorway, bringing the gun up to his face. Officer [redacted] grabbed the barrel of the gun with his left hand while pushing Velez toward the bedroom closet. According to Officer [redacted] Velez kept pulling the gun out of his hand and pointing it at his head. Officer [redacted] pushed Velez up against the wall and reached into his waistband for his service revolver. He raised his weapon and shot Velez once in the back. When Velez did not drop the weapon and fall down, Officer [redacted] shot him again. Velez fell to the floor and Officer [redacted] ran from the house just as the door opened. b6 b7C

Officers entered the house and found Velez on the bedroom floor. His legs were underneath him and he was partially in the closet. According to two Deputies present, Velez was still alive and said, "Help me, I'm dying". Velez had brown and reddish foam coming from his nose and mouth. Officers on the scene immediately requested paramedics. Upon the arrival of the paramedics, Velez was declared dead.

On 2/11/98, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant

Director, Inspection Division; [redacted] Acting Chief Inspector, Office of Inspections, Inspection Division; [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Personnel Division; [redacted], Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; SSA [redacted], Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The two non-voting members present consisted of [redacted] Program Manager, Law Enforcement Training for Safety and Survival, Practical Applications Unit, Training Division, and [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

Although this shooting incident did not involve any shots fired by FBI personnel, the SIRG reviewed the incident since this was an FBI controlled task force. Prior to discussing this incident, SIRG members viewed a video tape provided by the Omaha Division. The discussion began with a unanimous decision by the SIRG members that the use of deadly force was justified in this incident. The video tape contained the drug transaction taking place; however, a prearranged plan had directed that the video camera be turned off once the transaction was completed. According to the statement of the individual operating the camera, the mission of the video equipment was to capture the drug transaction for court prosecution.

Two observations made by the members related to the video equipment being turned off before the completion of the

incident and the fact that the undercover officer had a can of beer on the table during the operation. This discussion resulted in a recommendation for the Criminal Investigative Division regarding procedures for the use of video taping during buy-bust arrests. The SIRG Chairman will address the use of alcohol during operations with the Special Agent in Charge of the Omaha Division.

The last issue addressed by SIRG members pertained to safety. The most serious safety issue was the fact that the subject was allowed to enter the house and lock the door. SIRG members unanimously concurred that the undercover officer should have manipulated the situation to preclude this from occurring. It was also recognized that although the arrest plan was good, operational control was neglected. Participants should have been in possession of a battering ram to ensure quick entry into the residence. Additionally, new agents were assigned to the task force without proper training. The last safety issue discussed was the fact that participants allowed the drugs and "buy money" in the same room. This will also be brought to the attention of the SAC.

**LEAD(s):**

**Set Lead 1:**

INSPECTION DIVISION

AT WASHINGTON, D. C.

That no administrative action be taken against any FBI employee as a result of their involvement in this shooting incident.

**Set Lead 2:**

CRIMINAL INVESTIGATIVE DIVISION

AT WASHINGTON, D. C.

That the Criminal Investigative Division, define and publish guidelines regarding proper protocol for buy-bust situations, in particularly addressing the issue of utilizing video equipment, when the equipment should be operational and define at what point the equipment should be shut down.

Re: 66-19157-4, 04/20/1998

Details of the Shooting Incident

On 10/21/97, at approximately 6:00 a.m., Birmingham Division Agents and members of the Division's Violent Crime/ Fugitive Task Force (VCFTF) were attempting to execute an arrest warrant on [redacted] at [redacted] in Birmingham. All members of the Task Force were wearing body armor with "FBI" clearly marked on the front. A local uniform officer was also with the Task Force and was wearing his official police uniform, body armor, and his marked police patrol car which was parked in front of the subject's residence. b6 b7C

As the arrest team members were attempting to execute the arrest plan, the subject fired gunshots at the team from a window on the left-hand side of the residence. SAs [redacted] and [redacted] returned fire as all team members sought cover. SA [redacted] fired two shots from a Bureau MP-5 and SA [redacted] fired two shots from his Bureau issued 10 millimeter Smith and Wesson, Model 1076. From a position of cover, a Task Force member utilized a vehicle public address system to call the occupant of the residence outside. [redacted] exited the residence unarmed and was placed under arrest. No injuries were encountered in the exchange of gunfire.

The residence was searched and a Baretta 9 millimeter semi-automatic handgun was found inside of a bedroom. The handgun was jammed with a live round preventing further firing until the jam was cleared. One AK-47 style weapon and an UZI style weapon were also located in the residence. [redacted] stated that he had fired at the Task Force members; however, he did not realize that they were law enforcement officers.

On 2/11/98, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Acting Chief Inspector, Office of Inspections, Inspection Division; [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Personnel Division; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; b6 b7C

To: Inspection Division From: Inspection Division
Re: 66-19157-4, 04/20/1998

[redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The two non-voting members present consisted of [redacted] Program Manager, Law Enforcement Training for Safety and Survival, Practical Applications Unit, Training Division, and [redacted] Inspection Analyst, Office of Inspections, Inspection Division. b6 b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that this incident involved an intentional discharge of the weapons of SAs [redacted] and [redacted] Additionally, a unanimous decision was reached that the use of deadly force was justified in this incident. This resulted in a recommendation that no administrative action be taken against SAs [redacted] and [redacted] b6 b7C

The majority of the SIRG agreed that the planning of this arrest was sufficient although sloppy. Participants never considered that this arrest could be dangerous, there was no indication in the plan of where each participant should be located and participants neglected to ensure that someone was covering the back of the residence.

The SIRG Chairman addressed one additional area of concern involving one SA interviewing another. Chairman Lusby emphasized that the desirous protocol is to have, at a minimum, an SSA present during the interview. Additionally, the Birmingham Division failed to submit signed sworn statements by the agents who discharged their firearms during this incident. Chairman Lusby advised that this concern will be communicated to the Birmingham Division management.

To: Inspection Division From: Inspection Division
Re: 66-19157-31, 03/12/1998

**Details of the Shooting Incident**

On the morning of 1/30/97, members of the Newark Division's Violent Crime Fugitive Task Force (VC/FTF), comprised of FBI Agents and Task Force officers, along with two other agents of the Newark Division and two detectives of the Roseland, New Jersey Police Department, attempted to arrest Michael Byrd. Byrd was wanted on a bench warrant issued by the Superior Court of Essex County New Jersey, for failure to appear to stand trial for murder.

Acting on a tip received from an anonymous caller, information was developed that Byrd drove a vehicle registered to his [redacted] who lived at [redacted] Montclair, New Jersey. Based on interviews and a consent search of the premises, a determination was made that Byrd was not at that location. [redacted] leading investigators to a residence in Elizabeth, New Jersey, [redacted] Agents corroborated the address, through subscriber information for the telephone number [redacted] as [redacted] Elizabeth, New Jersey. [redacted] provided directions to the address. b6 b7C b7D

Upon arrival at the residence, agents and officers surrounded the building while an entry team attempted to gain access by ringing doorbells for apartments on both the first and second floors. During the initial attempt to gain access to the building, agents posted outside the residence reported unusual activity in the second floor apartment, including the turning on and off of lights, opening and closing of windows, and an occupant attempting to push a bag through a screen that was forced out from within.

Agents were admitted to the building by a first floor tenant who was shown a photograph of Byrd and confirmed his presence in the second floor apartment. They proceeded to the second floor apartment, where they knocked and announced their presence. The agents received no response to their repeated demands to open the door and subsequently forcibly entered the apartment. Upon entry, two occupants were ordered out of a rear bedroom. These two individuals gave an indication to the officers present that Byrd was in the apartment.

Agents began to slowly and methodically clear the apartment, calling out to Byrd to show himself and to come out. They discovered the subject hiding under a bed in a rear bedroom and ordered him to come out. Byrd suddenly jumped up, knocking the mattress and box spring off the frame and moved to a far corner of the room, assuming a position that concealed his right hand. After repeated commands had been given by the agents to show his hands, Byrd whirled toward the agents in a threatening manner. Almost simultaneously, two shots were fired which caused agents to believe that Byrd had fired a weapon at them. Four agents and one Newark Police Detective fired a volley of rounds at Byrd, killing him instantly.

The Newark Division released a press statement, based upon initial reports from the scene, indicating that Byrd had fired two shots at the agents who returned fire. However, it was subsequently determined that Byrd was unarmed. Based upon this fact and the number of rounds fired, the Civil Rights Division, United States Department of Justice, in consultation with FBI Headquarters, the United States Attorney, District of New Jersey, and the Union County Prosecutor's Office, ordered that a criminal Civil Rights - Color of Law investigation be initiated.

On 2/12/97, an anonymous letter was forwarded by the Inspection Division to the Inspection Team in Newark. This letter alleged that Newark Division employees and management had engaged in a pattern of improper conduct in reporting and handling information pertaining to the shooting incident and in the operation of the VC/FTF. As a result of this letter, the criminal investigation was expanded to specifically address the alleged misconduct.

The administrative inquiry into the shooting death of Michael Byrd initially began on 1/31/97. However, the inquiry was preempted the same day by the initiation of a civil rights investigation opened by the Department of Justice. The Department of Justice review as well as an investigation conducted by the Union County District Attorney's Office, resulted in subsequent declinations of criminal prosecution for all agents and the police officer who fired their weapons during this incident. Subsequent signed sworn statements were provided in September 1997, by the agents involved in the shooting. These statements were provided after completion of the criminal investigation and the resuming of the administrative inquiry.

b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

Before the discussion of this shooting incident, SIRG member [redacted] recused herself from the discussion of this incident. Ms. [redacted] voiced her opinion that her presence may be considered a conflict of interest since she was serving as the Chief Division Counsel in the Newark Division at the time of this shooting incident. Based on comments from other SIRG members, Ms. [redacted] stayed through the discussion of the incident with the knowledge that she would participate in the discussion; however, would not vote on any recommended action.

b6
b7C

SIRG members held a lengthy discussion regarding this shooting incident and unanimously concurred that all law enforcement personnel intentionally discharged their weapons during this incident. Members further concurred that the use of deadly force by law enforcement personnel was justified.

recommendation was made by the Shooting Incident Response Team that the management of the squad could benefit by the creation of a coordinator position to supervise the day-to-day activities of the task force.

The last observation made by SIRG members was the inaccurate information provided in the initial phase of the investigation which required a criminal investigation. As noted in the report, the initial statement to the press issued by the Newark Division stated that Byrd fired one and possibly two shots at the Agents. However, subsequent investigation determined that the subject was not armed and did not fire any shots. A more prudent course of action would have been for the Newark Division to confirm the incident with the press but provide no details until the crime scene investigation had been concluded. After a thorough review of this shooting incident, SIRG members recommended that no administrative action be taken against any individual involved in this shooting incident.

It should also be noted in this communication that the allegations of improper conduct by Newark Division employees and management was investigated by the shooting response team. Based on a review of the statements of agents and other investigators present at the shooting incident, physical evidence obtained as well as statements provided by personnel of the Newark Division who participated in the investigation, the allegations were unsupported by fact and without merit.

## Details of the Shooting Incident

On 12/22/97, the New Orleans Division Special Weapons and Tactics (SWAT) Team executed a federal drug search warrant which was obtained on 12/12/97, at [redacted] in New Orleans. The residence was known to be occupied by [redacted] along with several other individuals, who were confirmed to be distributing large quantities of cocaine, methamphetamine, and marijuana from the location. Verbal authority was obtained from an Assistant United States Attorney on 12/19/97, for the arrest of [redacted], his brother [redacted] and a third subject at the residence. b6 b7C

Authorization to use the SWAT Team to effect entry and to secure the residence was granted by Special Agent in Charge (SAC) Charles Matthews. This authorization was given due to information that the residents of the house had been observed with weapons, the number of persons at the residence, and the complexity of the floor plan. SWAT Team members used a regularly scheduled training day to rehearse the entry of the residence on 12/19/97, and all participating personnel were verbally briefed by the on-scene commander and the SWAT Team Leader on 12/22/97.

At approximately 6:30 a.m., on 12/22/97, the SWAT Team entered the residence and immediately apprehended an armed subject as he attempted to flee the residence. SWAT members observed several weapons including shotguns in plain view. While attempting to clear a dark rear bedroom, and after clearing the corners of the room, SA [redacted] returned to the center and looked into the adjoining bathroom. There was no door to the bathroom, but rather draperies hanging as a partition. SA [redacted] perceived a figure with a handgun behind the drapes and fired one round with his Bureau-issued Sig Sauer 228. After the round was fired another team member asked SA [redacted] what happened and he advised that he saw movement in the bathroom. Subsequently, SWAT members removed two unarmed female occupants hiding in the bathtub. The two individuals admitted that they heard the announcements by the law enforcement officers; however, they were too scared to come out of hiding.

No injuries were sustained as a result of SA [redacted] firing his weapon. b6 b7C

On 2/11/98, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Acting Chief Inspector, Office of Inspections, Inspection Division; [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief,

Personnel Administration and Benefits Section, Personnel Division; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; SSA [redacted] Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The two non-voting members present consisted of [redacted] Program Manager, Law Enforcement Training for Safety and Survival, Practical Applications Unit, Training Division, and [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that the use of deadly force in this shooting incident was justified. The only observation made by the members was the fact that SAC Matthews recognized the need for additional training for SWAT Team members in the identification and recognition of a proper target in dimly lit, indoor circumstances. This mandatory training was set to be completed within 60 days of this shooting incident.

Re: 66-19157-67, 5/28/1997

**Details of the Shooting Incident**

On 1/28/97, Honolulu Police Department (HPD) officials contacted the SLTPD and requested their assistance in locating and apprehending Peter Scott Richards who was believed to be in South Lake Tahoe, California. Richards was charged with armed robbery in an indictment issued on 11/7/96, by the State of Hawaii and the HPD advised that if located, they would extradite the subject.

b6
b7C

At approximately 5:30 p.m., on 1/28/97, officers located Richards, his girl friend [redacted] and their four children in South Lake Tahoe. Richards refused to surrender and barricaded himself and the family in the residence. The subject subsequently allowed his girl friend and the four children to leave the residence and apparently in the confusion of the movement of his family, Richards escaped undetected.

During the early morning hours of 1/29/97, members of the SLTPD Special Enforcement Team entered the residence. Although Richards was not located, officers found explosives, black powder, ammunition, military handbooks on weapons and explosives, an SKS assault rifle, an M1 carbine rifle, a Rugar carbine rifle, a sawed-off .22 caliber rifle, military daggers, bayonets, knives, radio receiver, gas mask, loaded rifle magazines, black powder detonation cord, and other military and survival equipment.

At approximately 12:00 noon on 1/29/97, SA [redacted] who was assigned as the only agent in the South Lake Tahoe Resident Agency, received a telephone call from the SLTPD informing him of the fugitive investigation. SA [redacted] was requested to provide assistance in determining whether Richards was involved with violation of Federal law involving militia or terrorist activities. SA [redacted] responded to the SLTPD, viewed the seized evidence, and prepared to assist the SLTPD detectives in locating the subject.

b6
b7C
b7D

SA [redacted] and several detectives were preparing to depart the Police Department to conduct interviews when they learned that Richards' [redacted] had telephoned to inform the police that Richards had telephoned his mother and given her instructions to meet him. SA [redacted] joined four detectives and established surveillance along the main road in South Lake Tahoe. SA [redacted] accompanied by Detective [redacted] of the SLTPD, learned that other detectives had located Richards' mother

operating her Mazda pick-up on the main road in town. A surveillance of the mother's vehicle was established with SA [redacted] and Detective [redacted] in a Bureau vehicle, two other detectives in a second vehicle and Detective [redacted] in a third vehicle. Each participant observed a passenger in the Mazda pick-up; however, the passenger could not be positively identified as Richards. While continuing with a moving surveillance, investigators felt that they had been identified by the occupants in the truck and a SLTPD investigator called for a marked police unit to make a traffic stop. Prior to the arrival of the marked unit, the pick-up slowed to a stop in the traffic lane of a two lane road. SA [redacted] stopped behind the pick-up and he and Detective [redacted] exited the Bureau vehicle and began to approach the truck. Upon observing a struggle and hearing loud voices from the pick-up, they retreated to the cover of the Bureau vehicle. Detective [redacted] joined SA [redacted] and Detective [redacted] Richards suddenly exited the passenger side of the pick-up and pointed a .25 caliber pistol towards SA [redacted] and Detective [redacted] Investigation revealed that Richards fired at least once, striking the front drivers side window of the Bureau vehicle. Seeing only Richards' head and the hand which was holding the pistol pointed towards him and Detective [redacted] SA [redacted] fired four rounds from his MP-5 rifle. One of the rounds fired by SA [redacted] fatally struck Richards in the head. Detective [redacted] fired nine rounds from his .45 caliber pistol and Detective [redacted] fired two rounds from his .45 caliber pistol. Richards, who was wearing a protective vest, was shot five times including one wound to the head, one to the left forearm, two wounds in the right buttock and one wound to the right calf.

b6
b7C

b6
b7C

A physical examination of Richards after the shooting resulted in the location of a .22 caliber pistol and four loaded magazines in his pants pocket in addition to the .25 caliber pistol that he held. Richards was wearing a protective vest and evidence indicated that one bullet was stopped by the vest.

A search of the pick-up revealed a spent .25 caliber casing on the window of the truck, a 12 gauge shotgun loaded with five rounds and 11 rounds on the gun strap, a fully loaded and charged SKS 7.62 X39 assault rifle, and additional ammunition for those weapons.

Subsequent investigation determined that Richards, who was suffering from Acquired Immune Deficiency Syndrome, had told his girl friend and his mother that he was going to die and that he would take a police officer with him. Richards' mother

confirmed that on 1/29/97, while driving with Richards, they observed SA [redacted] and the SLTPD detectives and that Richards knew they were law enforcement authorities. Knowing that Richards was going to create an armed confrontation, she chose a place to stop which would not endanger innocent third parties. Prior to exiting the truck, Richards and his mother struggled when she attempted to keep him from exiting the vehicle with the pistol. Richards told her "I'm dead, I won't go to jail", prior to exiting the truck.

b6
b7C

It should be noted that subsequent to the shooting, SA [redacted] surrendered both weapons to SLTPD officers at their request. SA [redacted] spoke with his supervisor in Sacramento by telephone and advised him of the circumstances of the shooting. A shooting inquiry team comprised of investigators from the SLTPD, the El Dorado County District Attorney's Office, and the El Dorado County Sheriff's Department responded to the scene.

Investigators took taped recorded statements from Detectives [redacted] and [redacted] and requested the same from SA [redacted] After conferring with his supervisor, SA [redacted] consented to the interview. He also allowed a blood sample to be taken for blood/alcohol content.

In a letter dated 3/20/97, addressed to the Chief of Police, SLTPD, the El Dorado County Sheriff's Department, and the El Dorado County District Attorney's Office, the task force of local investigators assigned to the shooting inquiry concluded that SA [redacted] and the officers involved in the shooting fired their weapons at Richards only after being fired upon and in defense of their lives. Further, the officers involved acted without negligence and did not commit any crime as described in the Penal Code for the State of California.

b6
b7C

On 5/14/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Inspector-Deputy General Counsel, Legal Advice and Training, Legal Policy, Office of the General Counsel; Patrick J. Foran, Section Chief, Personnel Assistance Section, Personnel Division; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms

Training Unit, Training Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

**Observations and Recommendations of the SIRG**

b6
b7C

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that the actions of SA [redacted] and other law enforcement personnel involved in the shooting incident were appropriate and that the use of deadly force was in accordance with the current deadly force policy.

The only issue discussed by SIRG members regarding this shooting incident involved the lack of response taken by the Sacramento Division management. Members voiced concern that any office management would allow an SA involved in a shooting incident, especially one resulting in a death, to be left alone to fend for himself. Members also noted that management's inappropriate response to the situation resulted in SA [redacted] being interviewed by local authorities; local authorities taking possession of SA [redacted] weapon; and lastly, he was given a blood test, all without benefit of management oversight. SIRG members recognized that Sacramento's decision to wait until the next morning to provide on-scene response was based on the travel time to South Lake Tahoe. However, members unanimously agreed that this incident required immediate on-scene Bureau assistance and that Sacramento management should have immediately dispatched someone to the scene of the shooting. As a result of this discussion, the Special Agent in Charge of the Sacramento Division has been advised that the lack of adherence to proper procedures placed SA [redacted] in a position not deserved.

Re: 66-19157-23, 4/10/97

**Details of the Shooting Incident**

On 1/30/97, while conducting a RUO, an attempted narcotics sale between [redacted] and subject Joseph S. Riley, resulted in the attempted homicide of [redacted] by Riley. Based on this event, SA [redacted] fired four rounds from his .45 Sig Sauer into the upper torso of Riley resulting in Riley's death.

At approximately 5:53 p. m., Joseph Riley arrived at [redacted] motel room to supposedly conclude a narcotics purchase. Kansas City SAs and local officers were in an adjacent motel room waiting to arrest Riley. Upon entering [redacted] motel room, Riley immediately drew a revolver and shot [redacted] in the chest with the bullet exiting his shoulder. [redacted] fell to the floor and Riley fired a second time, missing [redacted] Prior to Riley's second shot, SA [redacted] of the arrest team unlocked his interior door and negotiated through two closed doors to gain entry into [redacted] room. After Riley's second shot missed, [redacted] began to get up causing Riley to move backwards and attempt a third shot. At that point, SA [redacted] challenged the subject and fired four rounds into Riley's upper torso. Upon being hit by the first of SA [redacted] rounds, Riley fired his weapon a third time striking [redacted] in the left hand.

b6
b7C
b7D

Riley was pronounced dead at the scene and [redacted] was transported to a hospital, treated, and discharged on 1/31/97.

Based on an electronic communication dated 3/11/97, Inspector-in-Place [redacted] advised that on 2/27/97, the Platte County Grand Jury at Kansas City, Missouri, returned a No True Bill absolving SA [redacted] of any criminal responsibility in the shooting death of Joseph M. Riley.

On 3/27/97, the SIRG discussed the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Inspector-Deputy General Counsel, Legal Advice and Training, Legal Policy, Office of the General Counsel; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Patrick J. [redacted] Supervisor, Washington Field Office. George M. Alznauer, Assistant Special Agent in Charge of the Richmond Division also attended this meeting of the SIRG. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division. b6 b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

After viewing a video tape of this shooting incident, the first item of discussion by SIRG members involved the use of deadly force. All members agreed that the use of deadly force in this incident was justified and in accordance with the current deadly force policy.

All comments by the SIRG regarding training and safety issues were positive. Members recognized and commended the Kansas City Division for its operational plan and procedures noting that both were addressed in an outstanding manner. Members also noted that the operational plan was rehearsed and that proper management oversight was provided on the scene. Lastly, SIRG members commended the actions of SA [redacted] during this incident.

To: Inspection Division From: Inspection Division
Re: 66-19157-43, 4/16/1997

**Details of the Shooting Incident**

On 1/31/97, at approximately 7:35 p.m. [redacted] entered the Chanhassen Bank in Chanhassen, Minnesota, displayed a handgun, made oral demands for money, and ordered employees and customers into a back room within the bank.

After taking control of the bank, the subject ordered the bank manager at gunpoint to remove money from numerous teller stations and provided a green plastic newspaper bag to hold the money. The subject then took a female hostage and departed the scene in the victim's vehicle with the victim driving.

b6
b7C

Due to the timely activation of the bank's alarm system and a call placed by the hostage to the 911 operator at the initiation of the robbery, Chaska, Minnesota, Police Department and Carver County Sheriff's Office personnel identified the vehicle and initiated surveillance.

During the surveillance, the hostage executed a 180 degree turn of the vehicle. As the vehicle came to a stop, [redacted] exited, fired two shots in the direction of the police vehicles, and fled on foot, with the hostage, toward a wooded area. After a short distance, the hostage was able to free herself and was rescued by responding law enforcement officials. The subject fled into a wooded area adjacent to several housing developments.

Law enforcement agencies throughout the area had responded to the scene, including the Minneapolis Division's Special Agent in Charge, the Assistant Special Agent in Charge, a violent crimes supervisor and other SA personnel. Also responding to the scene was the Minneapolis Special Weapons and Tactics (SWAT) Team leader and other SWAT Team members as well as an FBI hostage negotiator.

A command post was established and a search was instituted for the subject. With the assistance of a Minnesota State Patrol helicopter, and tactical teams of the FBI, the Minnesota State Patrol and the Eden Prairie Police Department, the subject was located and surrounded in a wooded area adjacent to Rice Marsh Lake.

FBI SWAT personnel were briefed by the SWAT Team Leader and the FBI policy on deadly force was reiterated.

A single exchange of gunfire occurred during the next several hours which did not involve Bureau personnel nor injuries to the subject or law enforcement officers.

At approximately 11:10 p.m., the subject began a verbal exchange with officers and a hostage negotiator was dispatched to the scene. The subject repeatedly refused to surrender and stated that officers would have to "come and get me."

At approximately 11:40 p.m., SA [redacted] a member of the Minneapolis Division SWAT Team on perimeter, observed the subject walking from the wooded area into the residential development. SA [redacted] clearly viewed the subject's silver handgun as he walked. SA [redacted] ordered the subject to freeze and to drop his weapon. After pausing, the subject dropped to his knees and then into a prone position, still holding the handgun. SA [redacted] moved toward the subject with two other SWAT team members. The subject stood and began walking into the residential area. SA [redacted] again ordered the subject to drop his weapon and the subject responded with obscenities telling the SAs to come and get him. As the subject moved through the clearing toward the residential area, SA [redacted] prepared to shoot; however, refrained from doing so due to concerns for the safety of persons inside nearby homes. A foot chase ensued with SAs [redacted] and [redacted] in pursuit. They were joined by an Eden Prairie Police Officer. After turning from a series of residential streets into a cul de sac, the subject paused in front of a driveway, raised his handgun to shoulder level and turned toward the SAs and officer who had taken stationary positions at the entrance of the cul de sac. SAs [redacted] and [redacted] again ordered the subject to freeze and when he did not comply, they and the police officer on the scene discharged their weapons with SA [redacted] firing first and SA [redacted] firing several seconds thereafter. A subsequent determination was made that SAs [redacted] and [redacted] fired two rounds each and the police officer on the scene fired four rounds from a 12-gauge shotgun. The subject fell to the ground behind a snow bank along the driveway's edge and was apprehended, handcuffed and his weapon was retrieved and rendered safe.

b6
b7C

b6
b7C

A wound was identified in the subject's lower left wrist for which he was immediately transported to the Hennepin County Medical Center for treatment.

The subject was interviewed on 2/3/97, and he admitted to the bank robbery, stating it was his intention to be "killed by the police during the robbery".

On 4/8/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Inspector-Deputy General Counsel, Legal Advice and Training, Legal Policy, Office of the General Counsel; Patrick J. Foran, Section Chief, Personnel Assistance Section, Personnel Division; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted], Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that the actions of the SAs throughout this incident were appropriate and that the use of deadly force was in accordance with the current deadly force policy. One member opined that based on the actions of the subject, deadly force could have been initiated earlier in the incident; however, all members agreed that a judgement call was made by the SA and that call netted positive results.

Two additional observations made during the discussion was the fact that small inconsistencies existed in individual statements made during the incident. Members concurred that the inconsistencies were minor and were a result of each individual telling what they observed in a different way. The second observation made by the SIRG was the fact that area residents who were interviewed after the incident stated that "a couple of hours" passed before law enforcement authorities canvassed to ensure that no injuries were sustained by individuals residing in

the area. Members agreed that SAC Minneapolis, should be aware of these statements to ensure that this does not recur.

**LEAD(s):**

**Set Lead 1:**

That no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in this shooting incident.

1 - Mrs. [redacted] Room 7861

**Details of the Shooting Incident**

At approximately 12:55 p.m., on 1/2/97, SA [redacted] and Task Force Officer (TFO) Sgt [redacted] of the Shelby County Sheriff's Office, conducted a spot check of a Memphis, Tennessee, address as a result of information provided by a Confidential Informant (CI). The CI reported that an individual living at the residence, [redacted] was a member of the Gangster Disciple street gang and was dealing in stolen vehicles. When SA [redacted] and TFO [redacted] passed the address they noticed a red Volvo 940 Turbo in the driveway. A check of the license on the Volvo with NCIC determined that the Volvo was listed as stolen. SA [redacted] and TFO [redacted] initiated surveillance on the Volvo and contacted SA [redacted], the case agent on a current Group II Undercover Operation (UCO) being worked jointly by the Memphis Division and the Memphis Police Department Auto Theft Unit. SA [redacted] and members of the UCO were apprised of the Volvo's location and were enroute to the address.

b6
b7C

During the time SA [redacted] and TFO [redacted] first observed the Volvo in the driveway and initiated surveillance, approximately 20 minutes had passed due to a computer problem in running the Volvo's license plate and obtaining a response that the vehicle was stolen. During this 20 minute time lapse, a white Chevrolet Caprice pulled into the driveway behind the Volvo and was located in that position when SA [redacted] and TFO [redacted] initiated surveillance on the stolen Volvo. Approximately 30 minutes after surveillance was initiated and prior to the arrival of other law enforcement personnel, SA [redacted] and TFO [redacted] observed two black males exit the residence with one individual getting into the Volvo and the other entering the Caprice.

When it became evident that the two individuals were starting the two vehicles in preparation to leave, SA [redacted] moved his bureau vehicle behind the Caprice blocking the exit of either car from the driveway. The driver of the Volvo immediately exited the vehicle and ran to the back of the residence followed closely by TFO [redacted] SA [redacted] exited his bureau vehicle, identified himself verbally to the driver of the Caprice and had his Remington 870 shotgun in his hands. SA [redacted]'s commands were ignored by the driver; therefore, SA [redacted] moved to a position adjacent to the driver's side of the Caprice, continuing to identify himself and commanding the driver to exit the vehicle. The subject continued to jockey the Caprice forward and backward in an attempt to exit the location.

b6
b7C

As soon as he was able to clear the back end of the Volvo, the subject rapidly accelerated and made a sharp turn which had the side of the Caprice heading directly toward SA [redacted] At that point, SA [redacted] fired one round of double 00 buck at the driver. Immediately following the discharge of the shotgun, the direction of the vehicle changed and the driver struck a utility pole and subsequently departed the area at a high rate of speed. No evidence was obtained at the crime scene indicating that the driver was struck by any of the shotgun pellets. b6 b7C

Subsequent investigation attempted to identify the driver of the vehicle. The individual to whom the license on the Caprice was registered was contacted and stated that the license had been on an old Caprice that he had previously owned and had totaled in an accident. The wrecked Caprice was forfeited to a salvage yard because the owner could not afford to pay the towing fee or repair the vehicle. Contact with the salvage yard indicated that the vehicle had been turned over to a scrap yard and it was unknown if the license plate was on the vehicle when it was transferred to the scrap yard. A determination was made that the scrap yard had crushed the vehicle and sold it for scrap; however, it was unknown if the license plate had been on the vehicle at the time it was crushed.

The owner of the residence was interviewed regarding the identity of the two individuals who had exited the house and departed in the Volvo and the Caprice. No information of value regarding the subjects' identities was obtained.

On 3/27/97, the SIRG discussed the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted], Chief Inspector, Office of Inspections, Inspection Division; [redacted] Inspector-Deputy General Counsel, Legal Advice and Training, Legal Policy, Office of the General Counsel; [redacted] b6 b7C [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Assistance Section, Personnel Division; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted], Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; and, [redacted] Supervisor, Washington Field Office. George M. Alznauer, Assistant Special Agent in Charge of the Richmond Division also attended this meeting of the SIRG. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

Re: 66-19157-19, 08/01/97

Details of the Shooting Incident

On 5/15/97, the International Bank of Commerce (IBC), in Angleton, Texas, was robbed at gunpoint by three black males, who were later identified as [redacted] and [redacted] The modus operandi of this robbery was similar to a 5/7/97, armed robbery of the Community State Bank in Boling, Texas, which had been assigned to SA [redacted] and [redacted] fled from Angleton subsequent to the IBC robbery; however, [redacted] was apprehended by the Angleton Police Department (APD). [redacted] confessed to the robbery and implicated [redacted] and [redacted] as the other two robbery subjects. During this confession, [redacted] advised that his brother [redacted] and [redacted] were armed and dangerous. Local authorities obtained arrest warrants for aggravated robbery for the two subjects who eluded capture. [redacted] subsequently agreed to cooperate with law enforcement by luring his brother [redacted] back to Angleton to pick him up believing that [redacted] had been successful in eluding law enforcement officers. Local authorities planned an arrest scenario utilizing a Special Weapons and Tactic (SWAT) team consisting of various local law enforcement authorities.

When informed of the bank robbery at the IBC, SA [redacted] volunteered to assist in interviews at the bank and left his office in his Bureau vehicle. Upon arrival at the bank, SA [redacted] observed SA [redacted] inside the bank conducting an interview with one of the tellers. SA [redacted] entered the bank and began an interview of another teller while local law enforcement personnel were processing the crime scene.

The agents were completing their respective interviews at the bank when an APD detective informed them that one of the suspects in the bank robbery may have been apprehended. The detective advised that the APD was going to transport the bank tellers to the police station in an effort to positively identify the suspect. SA [redacted] decided to go to the police station in the event that the suspect being held by the APD was involved in the IBC robbery and may also be able to provide information regarding the unsolved bank robbery assigned to him.

b6
b7C

While at the station, SA [redacted] learned that the suspect being held in custody was about to give a video taped confession regarding the IBC robbery.

SA [redacted] subsequently telephoned Acting Supervisory Senior Resident Agent (A/SSRA) [redacted] to discuss the similarities of the IBC robbery and other unsolved bank robberies in the area. A/SSRA [redacted] wanted to federally prosecute [redacted] his brother [redacted] and [redacted] She tasked SA [redacted] to contact Assistant United States Attorney [redacted] Southern District of Texas, for a prosecutive opinion. Neither A/SSRA [redacted] nor SA [redacted] was successful in contacting Mr. [redacted] At this point, a determination was made that this would be a local case and the FBI would not participate in any plan or arrest. Although not a participant in the planning or execution of the arrest scenario, SA [redacted] was in the general area awaiting the arrest of [redacted] so that he could participate in an interview regarding his unsolved bank robbery. b6 b7C

SA [redacted] was asked to ride with Officer [redacted] and [redacted] to transport [redacted] to a Chevron station where he would make a telephone call to lure his brother to the area. SA [redacted] verified with Officer [redacted] that he was not to be involved in the arrest or other overt action relating to the arrest. Officer [redacted] concurred with SA [redacted] statement which resulted in SA [redacted] leaving his Bureau vehicle parked at the APD. Also in the parked vehicle was SA [redacted] protective body armor and extra 9 mm magazines for his Sig Sauer 228 which was in his possession. .

[redacted] contacted his brother and arranged for a rendezvous in a deserted area on County Road 49 near the intersections of State Highway 288 and Business Route 288 in Angleton. During their conversation, [redacted] warned [redacted] that he was bringing his "Uzi" and would use it against law enforcement as well as [redacted] if this was a setup. b6 b7C

At approximately 11:00 p.m., on 5/15/97, an individual identified by [redacted] as his brother, [redacted] was driving a vehicle that was also identified as belonging to [redacted] The vehicle was observed traveling in the predetermined pickup area which was surrounded by the local SWAT team. Subsequently, shots were fired at the subject's vehicle by the local SWAT team. SA [redacted] heard the shots while observing a series of flashes and overheard law enforcement radio traffic confirming this information and the fact that the subject was fleeing the area. The exact location of the subject vehicle was not clear to SA [redacted] and Officer [redacted] However, by chance, the subject vehicle quickly entered a northbound lane of the same road occupied by the car being driven by Officer [redacted] with SA [redacted] and [redacted] as passengers. SA [redacted] suddenly

found their vehicle adjacent to the subject vehicle believing that it had just engaged in a firefight with the local SWAT team. The driver of the suspect vehicle began to purposely brake his vehicle in an apparent effort to get the police vehicle to pull up adjacent to it. This action could have provided the opportunity to expose the vehicle occupied by SA [redacted] to a broadside attack of automatic weapon fire. During the braking action, [redacted] was lying prone in the backseat, stating that his brother [redacted] was about to shoot. At the same time [redacted] made the statement, the driver's side window of the suspect vehicle lowered approximately three inches causing SA [redacted] to believe that the driver was about to shoot. SA [redacted] fired his weapon 14 times. Eleven rounds fired by SA [redacted] struck the subject vehicle in the general area of the driver's side without striking the intended target. The remaining three rounds, which were not recovered, were presumed to have struck the pavement or embankment in the vicinity of the vehicle.

b6
b7C

The subject vehicle stopped and the occupant, who was later identified as [redacted] the [redacted] brothers' uncle, emerged from the suspect vehicle and was placed under arrest for the local equivalent of Obstruction of Justice.

[redacted] subsequently admitted that he had knowledge that [redacted] and [redacted] and [redacted] went to Angleton with the intent to rob a bank. [redacted] was subsequently arrested on 5/20/97, following a chase and violent shootout with local authorities and admitted to six bank robberies.

On 7/9/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Acting Deputy Chief, Civil Rights Division, USDOJ; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Supervisory Special Agent (SSA), Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] SSA, Firearms Training Unit, Training Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; [redacted] Unit Chief, Transfer Unit, Personnel Division; and [redacted] Supervisor, Baltimore Division. The two non-voting members

b6
b7C

present were [redacted] Program Manager, Law Enforcement Training for Safety and Survival, Practical Applications Unit, Training Division; and [redacted] Inspection Analyst, Office of Inspections, Inspection Division. b6 b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members held a lengthy discussion regarding this shooting incident. The consensus of SIRG members was that the use of deadly force by SA [redacted] was justified since the "imminent danger" status was met.

The first observation made by SIRG members was the fact that SA [redacted] was not properly prepared due to the fact that his protective armor and extra ammunition were left in his car parked at the Police Department. Members noted that SA [redacted] was to be on the periphery of a tactical operation involving weapons and that he should have possessed both his body armor and additional ammunition. However, members also emphasized the fact that SA [redacted] probably exercised less diligent safety precautions due to instructions provided by management that he was not to participate in the planning or the actual arrest. Based on a consensus of the group, this discussion resulted in the recommendation that no administrative action be taken against SA [redacted] due to mitigating factors surrounding the incident. b6 b7C b7D

Additionally, members noted that [redacted] was placed in circumstances probably not appropriate. All members concurred that it would have been advisable to place [redacted] further away from the scene of the incident.

SIRG members noted that SA [redacted] was put in a precarious situation by being provided less than adequate instructions by management. Members also questioned the fact that management decided that this was to be a local arrest rather than a joint Federal/local action.

Re: 66-19157-38, 03/06/1998

**Details of the Shooting Incident**

On 5/19/97, FBI Agents and officers from the Phoenix Police Department and the Arizona Department of Public Safety were attempting to effect the arrest of Todd William Staskal on Federal bank robbery charges. Staskal was charged along with an accomplice, [redacted] in connection with the 4/18/97, robbery of the Bank of America in Phoenix. [redacted] was captured following the robbery; however, Staskal escaped arrest by law enforcement authorities. While attempting to elude authorities, Staskal kidnaped one of his girl friends, [redacted] later told the Phoenix case agent that Staskal told her that he was not going back to prison and would not be taken alive. She also advised that Staskal was armed with a 9 millimeter pistol. b6 b7C

SA [redacted] the case agent, sought the assistance of the Fugitive Task Force to assist in locating and apprehending Staskal. On 5/16/97, one of the task force members developed information that the 15 year old daughter of [redacted] identified as Staskal's wife or girl friend, was back in the Phoenix area. [redacted] also advised that Staskal had called her and her Caller I.D. indicated that the call originated locally.

Officer [redacted] located [redacted] who advised that Staskal was in the area and provided addresses where he may be staying. [redacted] also advised that Staskal was always armed and that he carried a weapon in a fanny pack and another behind his back. This information was confirmed by [redacted] boyfriend who also advised that Staskal had said he would not be taken alive. Staskal had also said that he would either force the police to kill him or kill himself rather than be captured. Officer [redacted] was also told that Staskal was attempting to obtain an automatic weapon and had discussed the possibility of attempting to break his accomplice, [redacted] out of jail. b6 b7C

On 5/19/97, while checking one of the residences furnished by [redacted] task force members observed a stolen white Mercury Sable that Staskal was supposedly driving. Shortly after observing the car, an individual matching the description of Staskal came out of the residence and entered the vehicle. Participants also noted that the individual was wearing a fanny pack and this information was relayed to other task force members via radio communication.

A moving surveillance was instituted and several task force members were able to get a clear look at the driver of the vehicle and confirmed that it was Staskal.

As the surveillance proceeded, Staskal turned into the parking lot of a shopping center in Glendale, Arizona. Upon exiting the shopping center parking lot, Staskal turned east on Bell Road heading toward downtown Phoenix. A decision was made to effect a non-compliant felony car stop.

Additionally, members felt it necessary to effect the car stop at that time for several reasons. They felt that Staskal was armed since he was observed wearing a fanny pack that the intelligence described as always containing a weapon; the task force members believed that Staskal was looking for a bank to rob; the subject made an eastbound turn toward downtown Phoenix which was more populated than the area they were located; all of the task force vehicles were in the immediate vicinity and configured in a way that would nearly surround Staskal's vehicle; and, the risk of the surveillance being detected increased as it continued allowing time for Staskal to prepare for a violent confrontation that the intelligence predicted.

Near the intersection of 67th Avenue and Bell Road, Staskal's vehicle and the task force vehicles were stopped at a red light. Lt. [redacted] of the Phoenix Police Department who was the senior task force member on the scene, gave the command to effect the arrest. Lt. [redacted] vehicle had Staskal's vehicle blocked at the passenger side, a Department of Public Safety Officer was directly in front of the subject's vehicle and the vehicles of FBI agents [redacted] and [redacted] were behind civilian vehicles directly to the rear and to the left of Staskal. Several of the task force members exited their vehicles with guns drawn and surrounded Staskal's vehicle.

Staskal raised his hands and looked around as if surveying the situation. He then dropped his hands, placed his vehicle in reverse, rammed into a vehicle behind him and lurched forward until he struck a truck traveling westbound. According to the task force members, at some point during this sequence of events, Staskal's hands went out of view and it appeared that he was reaching for the fanny pack that they had observed him wearing. b6 b7C

FBI SAs [redacted] and [redacted] who had positioned themselves at the driver's side of Staskal's vehicle near the front door, fired a total of 17 rounds. SA [redacted] fired six

rounds from his Sig Sauer Model 226 and SA [redacted] fired 11 rounds from his Smith and Wesson .40 caliber. Department of Public Safety Officer [redacted] who remained positioned near the driver's side door of his vehicle, fired one round of rifle slug from a Remington Model 870 shotgun. Staskal was struck by four .40 caliber rounds in the left side of the chest and abdomen and once in the left thigh by the rifle slug. He was pulled from his vehicle unconscious after the vehicle collided with the truck and was described at the scene as apparently dead. Staskal was taken from the scene by paramedics to the J.C. Lincoln Hospital where he was officially pronounced dead.

b6
b7C

Investigation determined that all law enforcement and civilian witnesses reported seeing clear markings reflecting the law enforcement status of the task force members. Witnesses also verified that they heard voice commands to the effect, "Police, put your hands up", shouted repeatedly to Staskal.

On 11/12/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; Francis A. Gallagher, Chief Inspector, Office of Inspections, Inspection Division; [redacted] Trial Attorney, Civil Rights Section, Criminal Division, USDOJ; Patrick J. Foran, Section Chief, Personnel Administration and Benefits Section, Personnel Division; [redacted] Supervisory Special Agent (SSA), Legal Advice and Training, Legal Policy, Office of the General Counsel; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted], Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division (TD); and, [redacted] Supervisor, Washington Field Office. The only non-voting member present was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
SEATTLE DIVISION
OCTOBER 20, 1996

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident was the result of an investigation into extortion, bomb threat, and Hobbs Act violations which occurred at the Bonneville Lock and Dam, North Shore Visitor Center, North Bonneville, Washington on Sunday, October 20, 1996. Bonneville Lock and Dam is operated by the U.S. Army Corps of Engineers. The Washington state side of the Bonneville Lock and Dam is located on Federal property in Skamania County. The Federal Government and Skamania County have concurrent jurisdiction over criminal matters occurring on the Washington state side of the Bonneville Lock and Dam. At approximately 4:00 pm, three tourists at the Dam turned over to a visitor center Ranger a small tape cassette player that they found in the telephone booth adjacent to the visitor center building. This tape cassette player had a handwritten note taped to it that read, "Play me". The message on the tape was a male voice stating, among other things, that there was a bomb in the building and threatening to blow up the Dam. The message further stated, "I want fifteen thousand dollars, two semi-automatic nine millimeter Uzis and I want a car with a female officer, unarmed and unwired.... You follow us, she dies. Like I said, I find a wire or an armed weapon on her, she will die and then the dam will blow. You got two hours my friends." The FBI was notified at approximately 5:00 pm and SA [redacted] Vancouver, Washington Resident Agency, responded to the scene, arriving at approximately 6:30 pm. SA [redacted] uniformed Oregon State Police Trooper [redacted], and

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

others listened to the extortion tape. At approximately 6:45 pm, while exiting the visitor center (which was closed) to examine the telephone booth where the tape cassette was found, SA [redacted] and [redacted] were confronted by an assailant (later identified as NATHANIEL WAYNE ENRICKY MILLIGAN). MILLIGAN pointed a silver-barreled rifle at SA [redacted] from a distance of about seven yards. The rifle, outfitted with a scope, resembled a Ruger, Mini 14, semi-automatic weapon (later identified as a Ruger .22 caliber rifle). The rifle was in MILLIGAN's right hand held against his waist. In his left hand, which he held up in the air, was what appeared to be a portable police radio or police scanner (this object was later identified as a Bearcat police scanner). MILLIGAN asked where his money was and stated he had the bomb. MILLIGAN told SA [redacted] that he had been watching them the whole time. SA [redacted] and Trooper [redacted] backed into the visitor center, under the pretext of obtaining the demanded items, leaving MILLIGAN outside in the dark. SA [redacted] and Trooper [redacted] alerted employees that there was a man outside with a rifle and a Dam employee called 911 to request assistance for the FBI. Trooper [redacted] watched the front entrance for MILLIGAN and also radioed his dispatch for assistance. Skamania County Sheriff's Units and Washington State Patrol began to respond. [redacted], Chief of Security at the Dam, led SA [redacted] down one level and out the back door, accidentally locking himself out. SA [redacted] moved around the area east of the visitor center to his Bureau automobile without seeing MILLIGAN. He obtained his Bureau shotgun and put on his protective vest and FBI baseball cap. He observed police cars responding to the front gate, which was locked. He called 911 by cellular phone to report his location, however, the police cars left the area before he could contact them. [redacted] walked around the area east of the visitor center and was confronted by MILLIGAN at gun point, at a distance of about fifteen to twenty yards. MILLIGAN ordered [redacted] to drop his gun. [redacted] told MILLIGAN that he was not armed. MILLIGAN then ordered him, "Go tell them to get the cars out of here. Hurry. Move." [redacted] entered the visitor center front door, followed by SA [redacted] and reported his encounter with MILLIGAN. SA [redacted] and Trooper [redacted] exited the visitor center in an effort to locate and isolate MILLIGAN on the grounds. SA [redacted] spotted MILLIGAN near the fish viewing building which is east of the visitor center. SA [redacted] and [redacted] worked their way towards that building. MILLIGAN moved around the fish viewing building where he spotted and orally challenged [redacted] at gun point at a distance of about thirty-six yards. MILLIGAN repeatedly ordered [redacted] to put down his weapon and come out from his position of concealment. SA [redacted] heard MILLIGAN's voice and moved along the west side of the fish viewing building towards the voice. SA [redacted] heard Trooper [redacted] say that he was putting down his weapon. SA [redacted] believed that MILLIGAN had disarmed [redacted] and that the Trooper was in imminent danger. MILLIGAN spotted SA [redacted] shadow and orally challenged him. SA [redacted] moved away from the building attempting to see MILLIGAN and was confronted by

b6
b7C

b6
b7C

MILLIGAN from a distance of about nine yards. MILLIGAN was holding the rifle with both hands, with the barrel pointed directly at SA [redacted]. Fearing that he would be shot, SA [redacted] fired one OO Buck round from his shotgun, striking MILLIGAN in the torso area. When MILLIGAN did not fall, SA [redacted] immediately fired a second round, a rifled slug. The second round also struck MILLIGAN in the torso area. MILLIGAN fell down and stated, "Why did you shoot me? I'm a manic depressive. There isn't a bomb." [redacted] handcuffed MILLIGAN and SA [redacted] called Skamania County 911 to notify them of the shooting and requested immediate medical emergency service. [redacted] rendered MILLIGAN's rifle safe, ejecting one live round from the chamber. The weapon was then observed to be a Ruger .22 caliber rifle with a loaded magazine. Three ambulance services and a Life Flight helicopter responded to the scene and provided on-scene trauma care. MILLIGAN was identified by a responding Skamania County Sheriff's Deputy, and acknowledged his identity. MILLIGAN died at the scene. SAC Seattle was notified and Shooting Inquiry initiated. MILLIGAN's mother in Montana and father in Portland, Oregon, were located and notified of his death. Security sweeps at the Dam and at MILLIGAN's residence revealed no actual bomb material. Investigation revealed that MILLIGAN, age 19, was a convicted sex offender and child molester, released from juvenile detention in February 1996. He had been residing alone in a loaned tent and trailer less than a mile east of the Dam. A search of this tent and trailer located paper, duct tape, and audio-cassettes consistent with the tape cassette player and note left inside the telephone booth at the visitor center. The rifle and the scanner in MILLIGAN's possession were determined to belong to an Oregon resident, [redacted] had allowed MILLIGAN to temporarily stay in a small travel trailer that [redacted] had borrowed from a third party. The rifle and scanner had been left in this trailer and were used by MILLIGAN without [redacted] knowledge or permission. The extortion demand cassette tape was later played for two of MILLIGAN's parole counselors, who positively identified the voice as MILLIGAN's. MILLIGAN left a recorded telephone message on the probation counselor's voice mail at 1:42 pm, on October 20, 1996, in which he talked about having a .22 caliber weapon and ammunition. A copy of pertinent 911 recordings was obtained from Skamania County, transcribed, and is consistent with witness reports. Autopsy revealed MILLIGAN's death was caused by loss of blood from two shotgun wounds. Direction and pattern of wounds corroborate SA [redacted] statement as to the position of MILLIGAN when shot. The Medical Examiner, Dr. [redacted] advised that wound paths would not be inconsistent with MILLIGAN holding an object or objects in his hands and that the wound path of the right index finger and hand would not be inconsistent with a wound that would occur if MILLIGAN was holding a weapon toward the direction from where the shot came, with his index finger extended around the trigger.

FD-204 (Rev. 12-1-95)

UNITED STATES DEPARTMENT OF JUSTICE
Federal Bureau of Investigation

Copy to: AD, INSD, ROOM 7129, ATTN: SIRG; FTU

Report of: AIIP [redacted] Office: HOUSTON
Date: November 15, 1996

Case ID #: 66-19157-19
89B-HO-46407

Title: SHOOTING INQUIRY,
REPORT OF SHOOTING INCIDENT,
HOUSTON DIVISION;
10/21/96;
ADMINISTRATIVE MATTER

Character: SHOOTING INQUIRY

Synopsis: On October 21, 1996, while conducting a surveillance of drug subject, [redacted] a Houston SOG team consisting of five SAs followed the subject to a local restaurant where he remained for approximately 2 ½ hours, primarily drinking at the bar. At approximately 8:45 pm, [redacted] was observed by one SA to fire twice into the opened restaurant door and then to proceed into the restaurant where several more shots were fired. It was later learned that [redacted] had shot and killed restaurant patron, Raul Flores Comacho. SOG team members were alerted to the shooting and began moving towards the restaurant. [redacted] then departed the restaurant and began walking easterly towards an adjacent bowling alley parking lot. One of the SOG team members, SA [redacted], in the interim, had positioned himself in the parking lot of a Diamond Shamrock Service Station east of the restaurant and north of the bowling alley. While traversing the parking lot, Orosco was challenged by an armed security guard and immediately fired upon the guard striking him on a bullet pouch on his belt. SA [redacted] exited his vehicle wearing body armor and took cover behind his open driver side door. [redacted] then fired at SA [redacted] who returned fire with five rounds, striking [redacted] once in the left leg above the knee. There are differing accounts regarding how many shots [redacted] fired at SA [redacted] SA [redacted] describes "several", however, only four shell casings were found in the vicinity to include the shots fired at the security guard. SA [redacted] also struck and

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

damaged two parked vehicles behind [redacted] as the subject moved in a west to east direction. Subject fled to an adjacent street where he was found unconscious between two residences. [redacted] was arrested by the Houston Police Department (HPD) and transported to the hospital. Inasmuch as the HPD had a homicide and an aggravated assault investigation to conduct contemporaneous with Houston's shooting inquiry, the HPD handled the immediate crime scene searches and maintains all evidence in these investigations. Subject was treated at the hospital for a through and through flesh wound to his left leg and was released to the custody of the HPD. Subject has been charged by the Harris County District Attorney with murder and aggravated assault. On October 23, 1996, [redacted] was charged with violation of Title 18, USC Section 111(a)(1); (b) via a signed complaint by U.S. Magistrate Judge Calvin Botley.

- P -

DETAILS:

b6
b7C

Surveillance:

On October 21, 1996, an SOG "red team" consisting of team leader SA [redacted] SA [redacted] SA [redacted] SA [redacted] and SA [redacted] began a 3:00 pm to 11:00 pm shift. They were assigned to conduct surveillance of [redacted] residing at [redacted] Houston, Texas. Surveillance was initiated at approximately 4:00 pm and at approximately 5:50 pm the team members observed [redacted] leave his residence and ultimately arrive at the Ostioneria Michoacan Restaurant at 50 Aldine-Bender Road at approximately 6:28 pm. This restaurant is within a short walking distance from [redacted] residence, however, he drove his black Ford Mustang, Texas license [redacted] and parked directly in front of the restaurant (See E-1 and E-2 for relative locations of subject's residence, restaurant, and SA positions upon subject's arrival at restaurant).

[redacted] spent almost 2 ½ hours in the restaurant, primarily drinking at the bar, according to witnesses and other information. At the time of his eventual arrival at the hospital following the shooting, [redacted] would register a .263 blood alcohol level, almost three times the level of legal intoxication in the State of Texas.

SA [redacted] was designated as having the "eye" on the restaurant door. He accomplished this by parking his bucar 204 feet west of the restaurant door so that his line of sight was parallel to the front facade of the strip center containing the restaurant. SA [redacted] from his location could not see into the restaurant but could monitor [redacted] coming and going (See E-7 and E-8 for SA [redacted] view).

At approximately 8:45 pm, [redacted] exited the restaurant carrying a black object in his right hand and walked to his vehicle. After a moment at the Mustang he returned to the restaurant with a handgun which SA [redacted] viewed through binoculars. SA [redacted] radioed the entire team that [redacted] had a gun and was re-entering the restaurant. After a few seconds, [redacted] exited the restaurant and fired two rounds into the lock and frame of the opened restaurant door, shattering its glass. With the door open, [redacted] would have been firing in the general direction of SA [redacted] SA [redacted] continued to radio these events to the team members as [redacted] re-entered the restaurant. According to SA [redacted] he heard 4 or 5 more shots fired inside the restaurant. He likewise reported this to team members. [redacted] was then observed leaving the restaurant and walking easterly towards the bowling alley parking lot and his residence.

b6
b7C

Actions of SA [redacted]

Prior to the shooting, SA [redacted] took a position at a Shell Service Station near the southwest corner of Aldine-Bender and I-45 North. Upon hearing from SA [redacted] on the radio that [redacted] had a gun and was firing inside the restaurant, SA [redacted] drove east on Aldine-Bender, past the restaurant, and parked at a Diamond Shamrock Service Station one-half block east of the restaurant and north of the bowling alley. SA [redacted] observed a crowd of by-standers moving towards the front of the restaurant and then suddenly begin running away towards the bowling alley. SA [redacted] then saw [redacted] whom he recognized from earlier observations, walking in his general direction. SA [redacted] observed that [redacted] was carrying a handgun and was walking in a west to east direction through the bowling alley parking lot. SA [redacted] then observed [redacted] fire his handgun at a security guard. SA [redacted] exited his vehicle and took cover behind his driver's side door. According to SA [redacted] immediately fired "several rounds" in SA [redacted] direction. SA [redacted] returned fire (estimated at four) from a distance of 77 feet but was unaware of whether he hit [redacted] as the subject continued to travel easterly through the parking lot and towards his residence (See E-9 through E-16). SA [redacted] re-entered his vehicle and drove in

b6
b7C

[redacted] direction hoping to cut-off his escape (See signed statements of SAs and E-45 through E-49 for movements of all SAs following announcement of shots fired by SA [redacted] was later found lying wounded between two houses on Coach Road.

b6
b7C

Statement of Security Guard [redacted]

[redacted] advised he was working as a security guard in the bowling alley parking lot on Aldine-Bender on October 21, 1996. He was in the west area of the parking lot talking to bowling alley customers when he heard two loud noises. He originally thought the noises were coming from the alley way behind some businesses in a strip center to the northwest and adjoining the bowling alley parking lot. He went towards the alley area to investigate the noise when several persons came running from the strip center and into the bowling alley parking lot. As people saw him, they shouted that a crazy man had a gun at the Mexican restaurant (Ostioneria Michoacan, 50 Aldine-Bender). They also indicated that the man had shot someone in the restaurant. As the crowd turned south and ran towards the bowling alley Torres noticed that a Hispanic male was running behind them and had a black semi-automatic pistol in his hand. This man moved away from the crowd at this point and started east in the bowling alley parking lot in what would be a direct line towards what would be Coach Road once he reached the east boundary of the bowling alley parking lot.

Realizing the Hispanic male with a gun was a suspect, [redacted] drew his revolver, he described as a .38 caliber with the brand "RG" stamped on it. [redacted] cocked his revolver and ordered the subject to "freeze". The Hispanic male immediately shot at [redacted] and hit him in his speed loader bullet pouch located on his left hip. [redacted] did not fire his weapon or attempt to fire his weapon. He ran behind some vehicles moving east in the parking lot parallel to and south of the movements of the subject. [redacted] advised that he is unsure of how many times the subject fired at him, but he believes he saw the subject fire his weapon at an individual in the Diamond Shamrock Service Station in the northeast corner of the bowling alley parking lot. [redacted] advised that he later learned that the man in the parking lot who was firing a weapon back at the subject from behind his own vehicle was an FBI Agent. He knew that the FBI Agent fired his weapon at the subject several times but was unsure of the number of times the FBI Agent fired. [redacted] advised the FBI car was pointed in a southeast direction. He stated that the FBI Agent quit firing his weapon at some point when the subject was directly south of the FBI Agent. [redacted] noticed at this point

b6
b7C

that the subject was dragging one leg, as if he had been injured. The subject kept running east and disappeared in the houses on Coach Road. [redacted] then saw several vehicles with emergency lights and men with FBI agency identifier jackets attempting to locate the subject near the intersection of Coach and Wagon Road (See E-50 for movements of security guard).

Other witnesses to shooting between SA [redacted] and [redacted]

Three other witnesses to [redacted] actions in the bowling alley parking lot were identified, detained, and interviewed by HPD officers. A review of the HPD statements of [redacted] and [redacted] determined that none of the statements addressed the exchange of gunfire between [redacted] and SA [redacted] These witnesses were recontacted by Houston but none could provide any information regarding the exchange. [redacted] advised, however, that at first he believed [redacted] was shooting in a southwesterly direction and then turned almost 180 degrees and began shooting in the opposite direction. During Houston's investigation four other witnesses were found and interviewed, [redacted] and [redacted] Only [redacted] advised seeing SA [redacted] firing his weapon at [redacted]. Witnesses were consistent in their observations of [redacted] firing his weapon first.

b6
b7C

Arrest of [redacted]

Following the shooting between SA [redacted] and [redacted] a search was conducted of the houses along Coach Road where the subject was observed fleeing. While SA [redacted] was explaining the sequence of events to arriving HPD patrol units on Coach Road he observed some movement between the houses. An HPD officer and SA [redacted] proceeded to inspect the movement and found [redacted] lying on his back behind an air conditioning unit adjacent to 110 Coach Road (See E-5, E-39, E-40, for location). He was placed under arrest by HPD and removed by emergency medical technicians who transported him to Ben Taub Hospital.

Statements of [redacted]

An attempt was made to interview [redacted] at Ben Taub Hospital immediately after the shooting. Given his obvious intoxication and nonsensical answers (birth date January 1, 1900) the interview was terminated.

On October 22, 1996, a video taped interview of [redacted] was conducted in Spanish by HPD (See translation of interview of

[redacted]. During this interview, [redacted] admitted shooting inside the restaurant, however, he claims not to remember killing the restaurant patron or firing at the security guard. He recalls being shot in the parking lot east of the restaurant but claims not to know by whom. Subject claims that when provoked to this level of anger he loses control of himself.

Injuries to [redacted]

b3
b6
b7C

Attending physician described the gunshot wound to [redacted] as a lateral or horizontal wound tract. It traveled either from the medial to lateral or vice versa direction and was a through and through wound. Both entrance and exit wounds were approximately 2" above the left knee to the frontal aspect away from the arterial paths. According to the doctor, this is commonly called a flesh wound and would not be considered immediately life threatening. No powder burns were indicated and in the doctor's opinion the injury was consistent with [redacted] having been injured by a gunshot from several yards away. The physician could not determine the entry or exit wound and could not determine the caliber of projectile causing the injury.

[redacted] were obtained via a Federal Grand Jury subpoena. [redacted]

Searches Incident to the Shooting:

As noted above, inasmuch as the HPD had a homicide and aggravated assault investigation contemporaneous to the FBI's shooting inquiry, the HPD Evidence Team took the lead and processed both crime scenes in the restaurant and in the parking lot. All evidence collected on the night of October 21, 1996 was taken by the HPD for their cases. Relevant photographs were taken by Houston's Evidence Response Team (ERT).

On October 22, 1996, in an attempt to account for missing shell casings from SA [redacted] weapon, a daylight search was made of the parking lot area and along the route driven by SA [redacted] following the shooting. It was surmised that inasmuch as three shell casings from SA [redacted] weapon were found in the windshield wiper well of his bucar, additional shell casings may have been lying on his hood and were subsequently thrown off in his pursuit of [redacted] This search was negative.

b6
b7C

Also on October 22, 1996 the facade of the AMF Houston

Bowling Lanes was searched for possible bullet impacts. A bullet hole was found in a boarded-up area on the west end of the bowling alley and a spent bullet was found inside (See E-41 through E-44). This bullet was processed, diagramed, and turned over to HPD. Ballistics report from HPD is pending.

On October 22, 1996, in a continuing attempt to locate casings from SA [redacted] weapon, the front fenders of SA [redacted] bucar were removed. A .9mm casing was found at the bottom of each side fender (See E-35 through E-38). These were also turned over to HPD. Houston surmises these casings fell through "weep holes" located at either end of the windshield wiper well. b6 b7C

Searches were conducted of the areas behind the spots were SA [redacted] identified as his first and last shot at [redacted] See E-12 and E-14). This search was negative for bullet strikes.

Vehicles Damaged:

During the shooting between SA [redacted] and [redacted] the following vehicles were damaged by SA [redacted]

A 1986 gray Chevrolet Blazer S-10, Texas license [redacted], Vehicle Identification Number (VIN) [redacted] registered to [redacted] Kingwood, Texas 77339.

Above vehicle suffered a bullet strike through the driver's side window, glancing off the inside windshield, and imbedding in the passenger side vertical windshield frame approximately 12" up from the vehicle hood (See E-21 through E-24).

A 1996 blue Dodge Ram 1500 Pickup, Texas license [redacted], VIN [redacted] registered to [redacted] Houston, Texas 77076. b6 b7C

Above vehicle suffered a strike to the driver's side door panel, near center, approximately 2 ½" below the window. Impact resulted in a shattered driver's side window (See E-17 through E-20).

A search by HPD's and FBI's Evidence Response Team failed to find any other bullet impacts on vehicles located in the parking lot. No citizens have come forward subsequent to the

shooting to identify vehicle damage. No persons were in the vehicles when damaged.

Weapons Involved:

During the shooting between SA [redacted] and [redacted] the following weapons were discharged:

[redacted] weapon:

.40 Glock, Model 22, Serial #AYL729US, with .40 Smith and Wesson, jacketed hollow point ammunition, manufactured by Federal. Magazine capacity of 15 rounds.

SA [redacted] weapon: b6 b7C

.9mm Sig Sauer P226, Serial #U445016, with Federal Premium brand, .9mm Luger 147 grain Hydra-Shok jacketed hollow point ammunition. Magazine capacity of 15 rounds.

Investigation by HPD and FBI revealed the following number of spent casings and live rounds located at the two crime scenes:

Restaurant:

2 fired .40 S&W casings on sidewalk near the entrance.
5 fired .40 S&W casings inside the restaurant.
1 unfired .40 S&W cartridge inside the restaurant.

Parking Lot:

2 unfired .40 S&W cartridges (See E-27 and E-28).

4 fired .40 S&W casings (See E-29 through E-32).

3 .9mm Federal shell casings in SA [redacted] bucar windshield wiper well (See E-33 and E-34).

2 .9mm Federal shell casings found in bucar fenders (See E-35 through E-38).

Subject [redacted] weapon was found at the extreme east side of the parking lot opposite the entrance to Coach Road (See E-1). The slide was in the lock back position and contained

an empty 15 round magazine (See E-25). Search of the area accounted for 14 spent shell casings and dropped live rounds from [redacted] weapon.

Following the shooting, SA [redacted] weapon was found to contain one (1) .9mm round in the chamber and eight(8) .9mm cartridges in the 15 round magazine. These nine (9) rounds in addition to the five (5) .9mm shell casings found on and in SA [redacted] bucar total 14 rounds. SA [redacted] advised he cannot recall exactly how many shots he fired and is unsure as to whether he "topped-off" his magazine. b6 b7C

A fired bullet was found by HPD in the parking lot approximately 54' north of the north curb of the bowling alley (No photo available, see the diagram in HPD report #138220796N for location). Ballistics report from HPD is pending.

[redacted] weapon, unfired cartridges, and shell casings are being maintained by the HPD. SA [redacted] weapon was test fired by HPD and returned to him the next day.

Training/Planning:

Two requests were drafted for SOG assistance on October 9, 1996 for ongoing surveillance of the main case subject and his associate, [redacted] (LNU). In the SOG request on [redacted] (LNU), it was noted that he was known to carry a firearm. Updated information regarding [redacted] was passed to the SOG as it was obtained by the substantive drug squad. Surveillance team integrity was maintained in that the same team that surveilled [redacted] during a controlled narcotics purchase on September 30, 1996 was also used in the planned surveillance of October 21, 1996. Adequate meetings and face-to-face discussions were held between drug SAs and SOG members. The pertinent ASAC was briefed on the morning of the shooting regarding planned surveillance of [redacted] b6 b7C

Houston SOG utilizes a team leader concept with one SA directing the surveillance activities of the team SAs. The SOG supervisor contacts substantive squad supervisors on at least a weekly basis to determine SOG needs and requirements.

During the evening of October 21, 1996, emergency procedures regarding 911 notification were carried out and the division Crisis Response Plan enacted to include on-scene oversight by the SAC, two ASACs, Chief Division Counsel, ERT, etc.

Protective body armor was utilized by all SOG team members and all team members qualify at firearms on a routine basis. SA [redacted] qualified at firearms as recently as October 8, 1996 and advised that once the shooting began "his training took over" and was automatic.

b6
b7C

Prosecutive Status:

Subject, [redacted] is currently being held without bond and has been charged by the Harris County District Attorney's Office with murder and aggravated assault.

On October 23, 1996, a federal criminal complaint was signed by U.S. Magistrate Judge Calvin Botley charging [redacted] with violation of Title 18, USC Section 111(a)(1); (b), assaulting a federal officer.

Report of: ASAC RICHARD A. MARQUISE Office: MEMPHIS
Date: November 21, 1996

Case ID #: 62A-ME-50779

Title: SHOOTING INCIDENT,
SA [redacted]
October 26, 1996,
MEMPHIS DIVISION

Character: ADMINISTRATIVE INQUIRY

Synopsis: At approximately 10:00 PM, 10/26/96, the FBI was advised that [redacted] a fugitive wanted for murder from the State of Virginia, had been in telephonic contact with his mother in Oklahoma from a telephone registered in Lakeland, TN. SA [redacted] determined that the Tennessee Bureau of Investigation (TBI) was also attempting to locate and arrest [redacted] for a murder committed in Nashville, TN, in October, 1996, and [redacted] was on the TBI's Top Ten Most Wanted Fugitives list. SA [redacted] located 5 other Special Agents who either lived in the area or had worked with him earlier in the evening on the arrest of several bank robbers, and met the TBI and the Shelby County Sheriff's Department (SCSD) in Lakeland, TN, to formulate an arrest plan. After initially going to another steel salvage yard, Sheriff's Deputies directed them to Surplus Steel in Lakeland. There are 3 main buildings located at Surplus Steel, and the consensus of the Agents was that [redacted] if there, was located in the trailer at the rear of the compound. Attempts were made for between 10 and 20 minutes, utilizing a public address system in vehicles, to call [redacted] or any other resident of the compound out of one of the 3 buildings. No one responded. Efforts to contact the telephone number at Surplus Steel did not result in anyone answering the telephone. Based on observing lights coming from one of

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

the buildings. SAs [redacted] and [redacted] along with TBI Agents [redacted] (ASAC) and [redacted] moved in an attempt to secure this outbuilding. As the 4 Agents moved to secure the first outbuilding, they noticed a young male in the building, in his 20s, who appeared to resemble the subject. As Agents attempted to direct him to surrender, he flipped onto his stomach and hid his hands. SA [redacted] attempted to talk this individual into surrendering and to show his hands. When [redacted] made a move with his hands from under the pillow and turned toward the direction where the Agents were, SA [redacted] fired approximately two rounds from his MP-5, and SA [redacted] fired two rounds from a shotgun, and ASAC [redacted] fired two rounds from his shotgun. Prior to the shooting ending, SA [redacted] who had ducked below the glass in the door, fired 4 more rounds through the door in the direction of [redacted] At that point they determined that [redacted] had been hit and SA [redacted] had wounds to his face and ear which were later determined to be from .00 buckshot, possibly from a ricocheting round. It was also determined that [redacted] gun had not been fired; however, an examination of the weapon indicated that a live round with an indented primer was under the hammer. The gun was located in the cabin on the floor after he was subdued and arrested by FBI Agents. Although [redacted] was transported to the Regional Medical Center in Memphis, he recovered from his wounds and was transported to Nashville on charges of murder. SA [redacted] has recovered from his wounds. None of the other Agents or officers on the scene were injured. The U. S. Attorney for the Western District of Tennessee is considering prosecution of [redacted] for assaulting a federal officer.

Re: 66-19157-33, 3/6/97

**Details of the Shooting Incident**

On 10/27/96, Supervisory Senior Resident Agent (SSRA) [redacted] received a phone call regarding fugitive Paul Douglas Harnum. Information indicated that Harnum was possibly in the Shreveport, Louisiana, area. SSRA [redacted] contacted a Dallas Office SA requesting additional information about the subject. A Dallas agent advised that Harnum had been traveling through the Dallas Division the past few days and that they had been tracking his cellular telephone in an effort to locate him. It was learned that Harnum had traveled to Denver and other East and Midwest locations before traveling to Dallas on 10/25/96, Tyler, Texas, on 10/26/96, and was believed to be in the Shreveport area.

Background information regarding Harnum was provided to SSRA [redacted] by the Dallas agent. Four agents were paged and requested to meet SSRA [redacted] at the office. The Shreveport Police Department, Bossier City Police Department, and the Louisiana State Police were notified of the possibility of Harnum's presence in the area. Investigation determined that Harnum was in the Shreveport area and agents were dispatched to began a search for vehicles matching the description of possible vehicles being used by the subject. The vehicle description included a Ford F-350 pickup that was alternately described as having a camper shell or a factory constructed camper compartment possibly bearing New Hampshire license plate CFA-254; however, information was also developed that Harnum may have obtained a different vehicle. Within several hours, agents identified two possible sites where Harnum might be located. One possible identified site was the Shreveport/Bossier City KOA Campground located in southwest Shreveport. SA [redacted] provided a photograph of Harnum to the manager of the campground who felt that the photograph resembled an individual who had checked into the campground in a recreational vehicle (RV) the previous evening and was lodged at a site on the campgrounds. Another witness indicated that the photograph did not resemble the individual lodged at the campground; however, she was certain that the individual at the campground was accompanied by a female in the RV. Based on additional information provided by SA [redacted] regarding the individuals at the campground, SSRA [redacted] instructed SAs [redacted] and [redacted] to maintain a discreet surveillance of the campground property.

b6
b7C

b6
b7C

During the surveillance of the campgrounds, SSRA [redacted] asked SA [redacted] to travel to his home and change into clothing that would make it appear that he was a manual laborer at the RV park. At this point, SSRA [redacted] formulated a three-part strategy. First, an operational Special Investigations Unit van containing a "jump out squad" of six officers would be sent into the north end of the RV park. SA [redacted] disguised as a manual laborer, was deployed to a surveillance position at the entrance/exit of the park. SA [redacted] was instructed to only participate in this surveillance function and not to become operational during any arrest strategy. This instruction was given because SA [redacted] was unable to wear his protective vest in the manual laborer role. SA [redacted] was instructed to take a portable radio in the event that communication other than the established signals was necessary. He was advised to adequately hide the radio from view.

b6
b7C

At approximately 4:00 a.m., surveillance was instituted on the motor home parked at site E-6 at the KOA Campground. An FBI "spotter" van was parked two spaces from the subject and a Shreveport Police Department (SPD) "jump van" with four Special Response Team (SRT) officers and a driver was located five spaces away. SA [redacted] was on foot as a "lookout" and SA [redacted] and Sgt. [redacted] were parked across from the campground. Other FBI and SPD personnel were stationed at various points as part of an outer perimeter.

At approximately 7:00 a.m., Harnum exited the motor home to walk a dog. He re-entered the motor home, exited again, and walked toward the KOA showers. As Harnum approached the "jump van" four SRT officers exited the van and attempted to arrest him. Harnum ignored their commands and pulled a .380 Colt semi-automatic pistol from a "fanny pack". Harnum ran between various camper sites and headed south and east towards a fence that formed the border of the campground with SRT members in pursuit.

b6
b7C

SA [redacted] and Sgt. [redacted] heard the radio traffic advising that Harnum was out of the motor home, however, there was no response from radio queries from the "spotter" van to the "jump van". At that point, SA [redacted] drove his car into the campground and stopped near the southeast corner. SA [redacted] exited the driver side of the vehicle and Sgt. [redacted] exited the passenger side. As Harnum continued running towards SA [redacted] and Sgt. [redacted] he raised his .380 Colt and pointed it at them.

Sgt. [redacted] fired first, striking a parked blue Chevrolet's bumper. SA [redacted] fired striking a parked RV and SRT member [redacted] fired striking another parked RV. SA [redacted] fired a second shot striking Harnum. The bullet entered behind Harnum's right ear and exited his left brow, ultimately lodging in a parked trailer. Harnum died immediately and fell face forward to the ground, dropping his weapon.

b6
b7C

A fire department rescue unit was requested and officers were called to preserve and process the scene. The female traveling with Harnum was removed from the motor home, interviewed, and released. It was determined that the female was a prostitute that had been picked up by Harnum at a rest area in Liberty City, Texas. After purchasing some crack cocaine in Kilgore, Texas, Harnum drove himself and [redacted] in the motor home to Shreveport.

On 1/16/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; J. C. Carter, Section Chief, Personnel Management Section, Personnel Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The only non-voting attendee was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force in this shooting incident was justified.

The second topic discussed by SIRG members related to training and safety issues in this incident. Members noted the fact that agents who were assigned only to surveillance duties ran to the area of fire and conflict. The SIRG iterated the fact that participants were at risk due to their lack of protective armor and the subject's known propensity for violence. Particularly noted was the fact that SAs [redacted] and [redacted] did not utilize protective body armor during this incident. Members also noted that managerial oversight was lax in this area due to the lack of protective armor use. The SIRG members particularly noted the fact that SA [redacted], who was posing in an undercover capacity, did not possess a firearm, did not utilize protective body armor, and although he had possession of a radio, he had shut it off. Members emphasized the fact that SA [redacted] should not have been present without equipment critical for his defense. SIRG members recommended that all SAs involved in this incident receive a letter of censure for their neglect of protective armor use. b6 b7C

Based on electronic communication dated 11/4/96, from the New Orleans Division to Inspector-in-Place Imfeld, FBIHQ was advised that agents in the New Orleans Division had been apprised of the Bureau requirements regarding the use of body armor in all arrest or high risk situations.

**LEAD(s):**

**Set Lead 1:**

That the Administrative Summary Unit (ASU), Personnel Division, (PD), forward letters of censure to SAs [redacted] and [redacted] for their neglect of utilizing protective body armor during this shooting incident.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
DENVER DIVISION
NOVEMBER 6, 1996

Character: ADMINISTRATIVE MATTER

Synopsis: Based upon information provided by a credible cooperating witness and his attorney, on 11/6/96, [redacted] was observed and audio recorded completing a felonious narcotics transaction by FBI Special Agents (SAs), Officers from the Aurora Police Department (APD), and members of the Metro Gang Task Force, Aurora/Denver, Colorado. [redacted] was permitted to re-enter his vehicle before an attempt was made to arrest him. When [redacted]s vehicle was blocked in its parking space by a police surveillance van, and clearly identified police and FBI officials attempted to place him under arrest, [redacted] began to aggressively maneuver his vehicle without regard for the safety of the law enforcement officials who surrounded the vehicle and ignored their orders for him to surrender. [redacted] vehicle, while moving rearward, collided into the police surveillance van after forcing a clearly identified police officer to flee from his location between the two vehicles. Following the collision, [redacted] immediately accelerated forward leaving approximately eight feet of skid marks while the vehicle was surrounded on its right, left, and rear by law enforcement personnel and parked vehicles, and an apartment building and a tree at its front. Simultaneously, 14 rounds were discharged from the weapons of Officer [redacted] (four rounds), Officer

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

(three rounds), and SA (seven rounds), causing non-life threatening injuries to subsequently complied with orders to extend his hands outside the drivers door of the vehicle at which time he was subdued and arrested. was found to be have had a Glock, Model G23 Semiautomatic Pistol, Serial Number AWX106, with a fully loaded magazine, within his reach in the passenger compartment of the vehicle. b6 b7C

Photographic, video, and other evidence, as well as the results of witness interviews, sketches, and official records, were reviewed to reconstruct the sequence of events leading to the arrest of at Aurora, Colorado, on 11/6/96, at approximately 3:00 p.m., and this shooting inquiry.

According to the report of Detective Denver Police Department (DPD), dated 11/8/96, captioned "Denver Police Department Narcotics Bureau," date of birth Denver, Colorado, was arrested by the DPD on 5/20/96 at his residence during the execution of a search warrant and the subsequent recovery of 157.3 grams of a controlled substance and two weapons. On October 14, 1996, District Attorney, Drug Court, Denver, Colorado, invited the DPD, through the Attorney for to interview regarding drug trafficking within the Denver, Colorado, area. and his attorney came to the DPD on 10/22/96 where reported to Detective that a person known to him as had steadily provided at Apartment Number 103, Aurora, Colorado. informed Detective had made 25 to 30 deliveries, every two week, for over one year and that always carried a gun. provided substantial information regarding " in the presence of his attorney, to ensure the arrest of in order to receive favorable consideration by the Drug Court, Denver, Colorado, upon his own sentencing. An agreement was reached whereas would call the DPD upon his next contact with b6 b7C

On 11/4 - 5/96 contacted Detective DPD, to report had contacted him and wanted to make a delivery. A decision was made to arrange for the transaction to take place on 11/6/96. On 11/5/96 Detective made arrangements for to work with

Officer [redacted] Narcotics Unit, APD. A telephone conversation took place between Officer [redacted] and [redacted] on 11/5/96 and a meeting was arranged for 11/6/96, during the morning. Arrangements were made to purchase nine ounces of cocaine and two ounces of methamphetamine from [redacted] on 11/6/96. [redacted] contacted Officer [redacted] at approximately 10:00 a.m. on 11/6/96, and provided details concerning [redacted] that he previously provided to Detective [redacted] including a history of prior deliveries, descriptive data, and information regarding weapons and vehicles utilized by [redacted] Immediately thereafter, Officer [redacted] and SA [redacted] FBI, Denver Division, traveled to [redacted] Aurora, Colorado, where they video taped and diagramed the building and neighborhood described by [redacted] A briefing was scheduled for 12:30 p.m. with the Metro Gang Task Force; buy money was obtained; and arrest and surveillance team assignments were discussed and made. Between 12:00 p.m. and 12:30 p.m. the Metro Gang Task Force briefing began and assignments were given. Appropriate management and other officials from within the FBI and the APD were notified and/or were present in the briefing as follows:

SA [redacted] Colorado Bureau of Investigation (CBI)

The surveillance video made at [redacted] Street was shown and diagrams of the area were utilized to make assignments and responsibilities clear. Vehicle descriptions and descriptive information regarding [redacted] were also provided. Plans included assignment of an undercover officer to cover [redacted] and establishment of audio and video surveillance to provide effective coverage of the drug buy and arrest. A subsequent meeting was arranged with the undercover officer, Investigator [redacted] APD, to arrange a system of codes to address safety issues and emergency changes. Uniformed Officers [redacted] and [redacted] APD, were given assignments to ensure an immediate uniform presence on the scene at the appropriate time. Other assignments, made by Sergeant [redacted] APD, were as follows:

Arrest Team

Officer [redacted] b6 b7C

Officer [redacted]

Officer [redacted]

SA [redacted]

Video Surveillance

SA [redacted] CBI

Equipment Operation (Monitoring)

SA [redacted]

Officer [redacted]

SSA [redacted]

All other law enforcement personnel were given surveillance and backup assignments.

Immediately after the briefing Officers [redacted] and [redacted] met with [redacted] near Mississippi and Uvalda Streets in Aurora, Colorado, where they searched [redacted] vehicle and person. Thereafter, [redacted] was equipped with a wireless transmitter. Officer [redacted] was also equipped with a wireless transmitter. b6 b7C

By 1:00 p.m. all law enforcement personnel were at their respective assignments and the Arrest Team was positioned to the west of [redacted] in an unmarked police surveillance van. An arrest plan had been discussed and approved. Other personnel were assigned to monitor routes into the area of [redacted] in anticipation of the arrival of [redacted]

Shortly after 3:00 p.m. Officer [redacted] by police radio, notified the undercover, arrest, surveillance, and monitoring teams that he had observed a late model, black, Chevrolet, pickup park in the north lot next to [redacted] and a Hispanic male exited the vehicle and entered the apartment building by the north door. The vehicle was parked facing south toward the north wall of [redacted], in the third parking space from the east side of the apartment building. One vehicle was parked in the first parking space (left of [redacted] vehicle); the second space was empty; and a vehicle was parked in the fourth space, on the right side of [redacted] pickup truck. The curb in front of the vehicles was approximately seven inches high and surrounded a rock/plant bed that uniformly extended 97 inches outward from the north and east walls of the apartment building (see the attached diagram marked Exhibit A). A tree with a trunk thickness of approximately six inches was growing between the northeast corner of the apartment building and the vehicle parked in first parking space (to the left of [redacted] vehicle). A stairway to the right of [redacted] vehicle extended outward from the north wall of the apartment building to within 33 inches of the curb where other vehicles were parked. b6 b7C

Within minutes of Officer [redacted] notification,

and after the aforementioned Hispanic male was observed to enter the single doorway on the north wall of [redacted] Street, Officer [redacted] from inside Apartment 103, by wireless remote transmitter, advised the suspect [redacted] had arrived and was entering the front door of Apartment 103. A drug transaction was completed during which [redacted] purchased 7 ½ ounces of a substance believed to be powered cocaine from [redacted] for $4,850.00, paid for with marked U.S. paper currency. Upon completing the transaction [redacted] departed from the apartment building through the same door Officer [redacted] and surveillance team members had seen him use to enter the apartment building. All participating law enforcement officers were notified that [redacted] had completed the drug transaction and was leaving the building. Sergeant [redacted] related this information directly to the Arrest Team signaling the Arrest Team to initiate the arrest of [redacted]. The Arrest Team moved the brown police surveillance van into position directly behind [redacted] vehicle as soon as [redacted] entered his vehicle. The driver's side of the police surveillance van was parallel to the rear bumper of [redacted] black Chevrolet . The two vehicles were separated by approximately five feet and four inches (see the attached diagram marked Exhibit B). Officer [redacted] was driving the police surveillance van while Officers [redacted] and [redacted] and SA [redacted] occupied the cargo area of the vehicle.

b6
b7C

As soon as the police surveillance van came to a stop, per the pre-discussed arrest plan, Officer [redacted] exited the drivers side door of the police surveillance van with his weapon drawn and placed himself between the police surveillance van and the rear bumper of [redacted] vehicle. Officer [redacted] was first to exit the cargo doors on the right side of the police surveillance van. He moved to his left to take a position at the left front of the police surveillance van covering the right side of [redacted] pickup. Officer [redacted] was second to exit the cargo doors on the right side of the police surveillance van. Officer [redacted] moved to his right to take a position at the left rear of the police surveillance van to cover the right, driver's side, of [redacted] pickup truck. SA [redacted] was last to exit from the cargo doors on the right side of the police surveillance van. He moved to his right to take a position to the left of Officer [redacted] in the area of the left rear of the police surveillance van. Movement by all Arrest Team Members began simultaneously. Officers [redacted] and [redacted] and SA

b6
b7C

[redacted] each repeatedly said in loud voices en route to and once established in their respective positions, "police," "stop," "put your hands up," and "freeze." Each Arrest Team member was wearing a dark blue police raid jacket with the words "POLICE" stenciled across the front in large white letters. Each Arrest Team Member had his weapon drawn and pointed in the direction of [redacted] vehicle. b6 b7C

Officers [redacted] and [redacted] and SA [redacted] observed [redacted] look to his right and rearward, and to his left and rearward, at the approaching law enforcement officers as orders were being given to him to surrender. SA [redacted] saw [redacted] place his left hand on the steering wheel and reach downward with his right hand. Officer [redacted] saw the back up lights on [redacted] vehicle come on and Officer [redacted] immediately began to move to safety as [redacted] vehicle began moving rearward toward the police surveillance van. Officer [redacted] moved to his right into the sights of the weapon possessed by Officer [redacted] who raised his weapon to allow Officer [redacted] to move to safety. Officer [redacted] moved forward on the right side of [redacted] vehicle as the vehicle collided into the police surveillance van and immediately accelerated forward with enough force to leave approximately eight feet of rubber tire acceleration marks on the pavement. At the time of impact against the police surveillance van Officer [redacted] was at the front of the right side door of [redacted] and began to move forward with the as the made a sharp turn to the left exposing the flat surface of the right front tire to Officer [redacted] Officer [redacted] began firing at the flat, treaded portion of the right front tire, expending a total of four rounds in rapid succession, while continuing to move forward with the accelerating vehicle. Simultaneously, Officer [redacted] discharged the first of three rapidly fired rounds into the cab or in the direction of the cab of the pickup occupied by [redacted] SA [redacted] who was stationed to the left of Officer [redacted] upon observing the aggressive actions of [redacted] and the vehicle [redacted] was operating, and upon hearing the first shot or shots, began firing seven rapidly expended rounds into the driver's side door, window, and frame of the operated by [redacted] The right front of [redacted] bounced approximately 12 inches above the elevation of the rest of the as the right front tire of the vehicle climbed over the curb while rapidly moving forward and in a southeasterly direction. The vehicle stopped abruptly b6 b7C

with aforementioned tree near the center of its front bumper and rocked backward. As the vehicle came to rest, with its front tires inside the rock/plant bed, rounds were being expended and the passenger side glass in [redacted] vehicle was observed to shatter. A flash of debris from the adjacent brick wall was observed as what appeared to be a round impacted against it (visible in the surveillance video recording of the incident).

[redacted] was being ordered out of the vehicle as Officers [redacted] and [redacted] approached Officer [redacted] position from Officer [redacted] right and Officer [redacted] approached the positions of SA [redacted] and Officer [redacted] from their left. [redacted] yelled he had been shot and followed instructions to opened the driver's door. [redacted] remained on the drever's seat until assisting officers pulled him from the vehicle and placed him in the prone position on the ground where handcuffs were applied. Each Arrest Team member thereafter removed himself to a secure area in anticipation of requests from management and investigative personnel. Lieutenant [redacted] Sergeant [redacted] and SSA [redacted] took charge of the scene ensuring appropriate medical assistance was summoned and the scene was properly secured.

Examination of [redacted] vehicle and the surrounding area disclosed five rounds penetrated the driver's side window of the vehicle from the left rear area (one bullet jacket from within [redacted] jacket was confirmed to have been fired form SA [redacted] weapon)(see the illustration marked Exhibit C), none of which exited the passenger compartment. One round penetrated the frame 3½ inches behind the driver's side window and nine inches from the top of the cab. The round passed through the passenger compartment, exited through the top front of the passenger side window, and impacted against the brick, north wall of the apartment building. Two rounds impacted in the outer door frame above the driver's side window. An additional four rounds impacted against the right front tire and rim of [redacted] vehicle and two additional rounds impacted against the north wall of [redacted] Street, one into the brick portion and one into the aluminum siding portion (confirmed to have been fired from SA [redacted] weapon by the FBI Laboratory). Fourteen impact points were identified and fourteen spent shell casings were recovered from the scene.

b6
b7C

b6
b7C

The locations of Evidentiary Items 20 through

23, 40 mm Federal casings, as noted in the APD evidence sketch (see illustration marked Exhibit D), are consistent with the witness statements and a review of the an arrest scene video tape, that indicate Officer [redacted] was initially located between the driver's side of the police surveillance van and the rear bumper of [redacted] vehicle. And, that Officer [redacted] moved to his right as [redacted] vehicle began to move rearward and took a position along the right side of the [redacted] vehicle where he fired four rounds into its right front tire. Officer [redacted] weapon was a Baretta .40 Caliber semiautomatic pistol that ejects spent shell casings to the right. b6 b7C

The location of Items One through Seven, 10 mm shell casings, on the APD Crime Scene Sketch (see illustration marked Exhibit D), are consistent with the statements of SA [redacted] Officer [redacted] and Officer [redacted] that SA [redacted] was standing to the left rear of the surveillance van when he fired seven rounds into or at the cab of [redacted] vehicle. SA [redacted] S&W Model 1076 semi automatic pistol ejects spent shell casings to the right and rear of the shooter. All of SA [redacted] 10 mm shell casings came to rest in an area at or north and east of the right rear corner of the police surveillance van.

The locations of Items Eight through Ten, .40 Caliber S & W shell casings, are consistent with the statements made by Officer [redacted] and SA [redacted] that Officer [redacted] was firing from a position at the left rear of the surveillance van. Officer [redacted] weapon, a Glock Model 23, .40 Caliber, semiautomatic pistol, ejects shell casings from its right side. These three shell casings were found in the proximity of the left rear tire of the police surveillance van.

Reviews of the photographs and sketches depicting injuries sustained by [redacted] reflected four wound areas to his upper torso and right lower arm. There was a large grazing type of wound at the front of the left shoulder joint. The direction of this elongated injury was consistent with a round penetrating the drivers side window of the vehicle from an area to the rear and left of the vehicle. b6 b7C

An entrance wound appeared just below the left armpit on the left upper torso. What appeared to be an

exit wound was located near mid chest, to the right of the left nipple. The latter two visible wounds were both elongated and are consistent with a bullet striking from the left rear, traveling through the torso from left to right. This is also consistent with a round entering the driver's side window from a position in the area of the left rear of the vehicle. The absence of injury to the left arm in this area suggests the [redacted] may have had his left arm raised, possibly on the steering wheel, at the time of the injuries. An entry wound was also located on the right forearm (no exit detected).

Review of an arrest scene video tape, made by SA [redacted] during the shooting incident, depicts a Hispanic male leaving a dark colored, Chevrolet, pickup that is parked next to what appears to be a Datsun pickup. The Datsun pickup is parked in the first parking space from the east side of [redacted] facing south toward the north wall of the building. The Hispanic male is observed to enter and exit [redacted]. The Hispanic male, later identified as [redacted] is observed entering a dark colored Chevrolet . Simultaneously, the police surveillance van was observed being driven toward and stopping behind [redacted] vehicle. The video disclosed what appeared to be the driver of the police surveillance van leaving the vehicle through the front driver's door (Officer [redacted] who was momentarily located between the police surveillance van and [redacted] vehicle. A second individual appears in the left front area of the police surveillance van (Officer [redacted] as the first individual moves to the right side of [redacted] vehicle. Simultaneously [redacted] vehicle began to move rearward. It also appeared the first individual [redacted] moved forward on the right side of [redacted] vehicle (toward the right front) as the moved rearward and struck the police surveillance van. As [redacted] vehicle moved toward the surveillance van, there appeared to be a white male wearing a dark jacket marked "POLICE," with the back of the jacket toward the video camera, moving into an area near the left rear of [redacted] vehicle. Although SA [redacted] could not positively identify the figure, the position of the figure is consistent with the position described for SA [redacted] by witnesses and is consistent with the position of shell casings expended from his weapon. The balance of the video recording is consistent with details set forth above.

b6
b7C

[redacted] through his attorney refused to be interviewed by the FBI. b6 b7C

[redacted] was charged in a six count Federal Grand Jury Indictment, on 11/8/96, with violations of the Federal Narcotics Statue and Assault on a Federal Officer. He was also charged with violation of Section 18-2-101, State of Colorado Criminal Code, Criminal Attempt to Commit First Degree Assault, and Sections 18-18-204 and 205, Distribution of Controlled Substance, Schedule II, on 11/6/96.

Report of: IIP [redacted] Office: Training
Date: December 11, 1996

Case ID #: 66F-19157-15

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
DETROIT DIVISION
NOVEMBER 20, 1996

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident was the result of an investigation by the Detroit Division of a $1.3 million robbery of a Michigan National Bank (MNB) van on the night of 11/13/96, in Dearborn, Michigan.

On 11/13/96, at approximately 10:53 p.m., Dearborn Police responded to a 911 call that a MNB guard had been shot at a branch of MNB on Michigan avenue in West Dearborn. Upon their arrival, police observed [redacted] black male, date of birth [redacted] standing next to a MNB van, over the body of a male victim (later identified as 26 year-old bank guard MATTHEW ANTHONY GIRARDIN). GIRARDIN appeared to have a single gunshot wound to the head. [redacted] told police at the scene that he was the driver of the MNB van and that GIRARDIN was his partner and passenger. [redacted] told police that he and GIRARDIN had left the main pick-up center with approximately $1 million, and that this bank was their first drop off. [redacted] stated that only GIRARDIN was armed inasmuch as [redacted] had only been on the job for three months and had not received clearance to carry a firearm. [redacted] stated that he had pulled the van up parallel to the ATM entrance with the passenger's side of the van being the closest. [redacted] stated that as he and his partner opened the doors to exit the van he heard a single gunshot, and he observed a black male on the passenger's side of the van holding a small handgun. Dearborn Police subsequently determined that $1.3 million

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

had been taken during the robbery/murder. Several witnesses saw a dark colored Ford pickup driving through the bank parking lot, as well as briefly parked behind the bank van. [redacted] was subsequently interviewed at the police station and related substantially the same account as he had at the scene with a few additions. b6 b7C

On 11/19/96, Dearborn Police took the videotape from the ATM to the Michigan State Police for enhancement of the video image. This tape showed numerous inconsistencies with [redacted] statements as to what actually occurred. The videotape showed [redacted] briefly talking to a second individual at the rear of the bank van, as well as [redacted] pulling something out of the passenger side of the van. Dearborn Police subsequently determined from the autopsy that GIRARDIN died from a point-blank, single gunshot wound to the head, and that the shot was fired from the left, or driver's side of the van. The bank van had numerous blood spatters in it, a slug was found on the floor of the driver's side, and a .32 caliber cartridge case was found under the victim's body. A state search warrant was obtained and executed at the home of [redacted] and his parents. During the search, [redacted] father stated that [redacted] cousin, COMMITT ROWSON, III, was [redacted] best friend. A vehicle registration search determined that ROWSON owned a maroon Ford Ranger pickup truck.

On 11/15/96, [redacted] father, [redacted], was interviewed and admitted to owning a .32 caliber handgun. When asked to produce the handgun, [redacted] went to the bedroom and found that the gun was missing. [redacted] had several loose rounds of .32 caliber ammunition which he provided to police. One of the .32 caliber cartridges had been ejected from this gun sometime in the past. This cartridge was subsequently compared to the cartridge case found under GIRARDIN's body and determined to have similar ejection marks.

Local charges for first degree murder, felony murder, and possession of a firearm during commission of a felony were filed against [redacted] and ROWSON on 11/15/96 and 11/17/96, respectively.

On the morning of 11/19/96, Detroit received a telephone tip regarding an associate of ROWSON, [redacted] who allegedly received money from ROWSON and purchased a car for him. Detroit Special Operations Group (SOG) conducted a surveillance of [redacted] residence, to include following two individuals in a Cadillac from [redacted] residence in Detroit to the Knights Inn on Dequindre Avenue, Warren, Michigan. It was b6 b7C

determined through investigation at the Knights Inn that ROWSON had previously stayed there; however, he was no longer staying at the motel. FBI Agents subsequently confronted [redacted] and obtained a consent to search his residence on the evening of 11/19/96. Subsequent to the search, [redacted] was interviewed at the Detroit FBI Office. During this interview, [redacted] admitted that ROWSON had advised him that he (ROWSON) and [redacted] referring to [redacted] had been involved in the robbery on 11/13/96. [redacted] further advised that ROWSON had given him some money from the robbery to purchase a car for him. [redacted] advised that he purchased a 1983 Chevrolet Caprice for ROWSON with the money ROWSON gave him. [redacted] also admitted that he had rented a room for ROWSON at the Knights Inn on Saturday evening, 11/16/96. [redacted] stated that ROWSON was in possession of a 9mm pistol, and he had also seen ROWSON with a small semiautomatic pistol. ROWSON told [redacted] that the small semiautomatic pistol had been given to him by his father. [redacted] also had seen ROWSON in possession of an Eddie Bauer bag which appeared to be full.

b6
b7C

On the morning of 11/20/96, SA [redacted] Acting Supervisor of Squad C-4, briefed SAC JOSEPH D. MARTINOLICH, JR. regarding the status of the investigation and the activities which occurred on 11/19/96. SAC MARTINOLICH and ASAC JOHN D. STAPLETON had received periodic briefings from SA [redacted] Squad C-4 and the case agent on this investigation, and SA [redacted] regarding the progress of the investigation since the robbery/murder on 11/13/96. Although ASAC STAPLETON is currently the Administrative ASAC, he was responsible for the Violent Crime and Major Offenders (VCMO) program for approximately six years in the Detroit Division and had been involved in this case due to the current VCMO ASAC, JOHN E. BELL, JR., being temporarily out of the Division on special assignment.

After briefing SAC MARTINOLICH, SA [redacted] requested the assignment of four additional agents to assist in conducting a neighborhood investigation within a five-mile radius around the Knights Inn. Acting ASAC RAY P. CHURAY subsequently assigned SAs [redacted] and [redacted] to conduct the neighborhood investigation. After being briefed at the Detroit Office regarding this assignment and providing these agents with a photograph and physical description of ROWSON, and the fact that he was considered armed and dangerous, the agents left the office at approximately 9:30 a.m., en route to the Knights Inn, to conduct the neighborhood investigation.

b6
b7C

At approximately 10:30 a.m. on 11/20/96, SA [redacted] received a call from [redacted] who advised that ROWSON had attempted to call him three times on the evening of 11/19/96. [redacted] provided a telephone number from the caller ID on his residence telephone. Investigation determined that the telephone number from which ROWSON was attempting to contact [redacted] was at the Red Roof Inn, 26300 Dequindre Avenue, Warren, Michigan. This motel is located across the street from the Knights Inn.

Upon learning of the aforementioned caller ID information, SA [redacted] contacted Squad C-9 (SOG) and requested a surveillance around the Red Roof Inn in an effort to locate ROWSON. SA [redacted] also contacted SA [redacted] and instructed her to advise SAs [redacted] and [redacted] to meet SA [redacted] at a strip mall near the Red Roof Inn. SA [redacted] then briefed SSA [redacted] Supervisor of the Violent Crime Task Force (VCTF), who subsequently sent SA [redacted] MICHIGAN STATE TROOPER [redacted] and DETROIT POLICE OFFICER [redacted] to the vicinity of the Red Roof Inn. (TROOPER [redacted] and OFFICER [redacted] are assigned to the Detroit VCTF). Upon SA [redacted] arrival at the staging area, SA [redacted] and he advised the agents and officers of the recent identification of the Red Roof Inn as a possible location for ROWSON. Present during this briefing were SAs [redacted] OFFICER [redacted] and TROOPER [redacted] SA [redacted] was advised by SA [redacted] team leader for the SOG team and a Detroit SWAT team member, that the SOG had established an outer perimeter around the Red Roof Inn.

b6
b7C

SA [redacted] sent SAs [redacted] and [redacted] to interview the manager of the Red Roof Inn in an effort to determine if ROWSON was staying there. The manager advised that he had not seen ROWSON, and a review of motel records determined that nobody had registered under ROWSON's name. SAs [redacted] and [redacted] also obtained computerized telephone records from the motel in an effort to identify the calls that ROWSON allegedly made to [redacted]

b6
b7C

As a result of this investigation, it was determined that all but six rooms at the Red Roof Inn could be eliminated as possible locations in which ROWSON was a tenant. Included in the six rooms which were still in question was Room 248.

At approximately 11:45 a.m., a possible look alike to ROWSON was interviewed at a nearby International House of Pancakes but was determined not to be ROWSON.

SA [redacted] subsequently instructed nine (9) agents and police officers to return to the initial staging area to develop a plan for checking the six remaining rooms. This plan called for SAs [redacted] and [redacted] to obtain housekeeping attire from the Red Roof Inn in order to pose as housekeeping personnel. SAs [redacted] and [redacted] would knock on the various doors and identify themselves as housekeeping personnel in an effort to lure the occupants to the door where they could be positively identified. If nobody responded to their knock, they would utilize a pass key, given to them by the Red Roof Inn management, in an effort to open the room door to identify any occupants. Assisting SA's [redacted] and [redacted] would be eight additional agents and police officers including SA [redacted] SA [redacted] discussed this plan with SA [redacted] who concurred with this approach. SA [redacted] had also been in contact with SA [redacted] who was in the office awaiting approval of the federal arrest warrant for ROWSON, regarding the developments at the Red Roof Inn and the plan to identify the occupants of the six rooms.

b6
b7C

Prior to implementing this plan, SA [redacted] was advised that an SOG team member, SA [redacted] had stopped a pizza delivery person who had been observed by the SOG departing the Red Rood Inn. This identification occurred at approximately 1:25 p.m. according to SA [redacted] The pizza delivery driver positively identified ROWSON as the occupant of Room 248, and further indicated that another individual was also in the room. The pizza delivery person provided a general description to include clothing being worn by both these individuals.

Based on this information, SA [redacted] developed an alternate plan which called for six (6) FBI agents, including himself, and two (2) Task Force officers to approach Room 248 in an effort to effect ROWSON's arrest. Based on previous investigation, SA [redacted] was aware that the room to the south of Room 248 was empty and that on the other side of Room 248 was a breezeway. In his interview, SA [redacted] stated that his concern at this point was that ROWSON would emerge from the room, armed, and attempt to injure or kill innocent parties or agents who were outside the motel room.

b6
b7C

According to SA [redacted] at approximately 1:40 p.m. he arrived at the Red Roof Inn with his arrest team, consisting of SAs [redacted], and TROOPER [redacted] and POLICE OFFICER [redacted] The team proceeded to the second floor balcony of the Red Roof Inn via the south stairwell and continued to walk in a single file line down the balcony towards Room 248. SA [redacted] stated that he had briefed the SOG, via the Bureau radio, prior to initiating this plan.

SA [redacted] stated in his interview that the SOG was utilizing channel A5, and Squad C-4 was utilizing channel A7. However, the interview of the SOG team leader, SA [redacted] disclosed that the SOG was utilizing A7 and Squad C-4 was utilizing A5. SA [redacted] was aware of the pizza delivery identification, via radio communication from SA [redacted] and he relayed this information to his surveillance team and advised them to maintain their perimeter position. SA [redacted] stated that he was not totally aware of the arrest plan details. SA [redacted] did not advise the Detroit Office of the pizza delivery person's identification of ROWSON or his new plan to effect ROWSON's arrest; however, SA [redacted] believed that SA [redacted] who was in the office, was monitoring the radio traffic.

SA [redacted] plan called for an attempt to use a pass key to gain entrance into the room. While en route to Room 248 from the south stairwell, the arrest team encountered a motel employee who provided a pass key. If the pass key plan failed, the agents planned to knock and announce their presence.

During the approach to Room 248, SA [redacted] noted that the curtains were open and the rooms empty for the two or three rooms to the south of Room 248. Based on interviews of the agents and officers directly involved, upon reaching Room 248 the agents assumed a crouched position in order to avoid being seen through the window of Room 248 in which the curtains were drawn. SAs [redacted] and [redacted] set up on the north side of the door to Room 248 along with OFFICER [redacted]. At the north side of the door, the agents and OFFICER [redacted] were joined by SA [redacted] an SOG team member. After the pizza delivery identification, SA [redacted] had proceeded directly to the Red Roof Inn, parked his Bureau car in the west side parking lot, ran up the stairs to the second floor breezeway next to Room 248, and peered around the corner, where he observed the arrest team approaching from the south. SAs [redacted] and [redacted] positioned themselves on the south side of the door nearest the door, and to the south of SAs [redacted] and [redacted] were SAs [redacted] and [redacted] and TROOPER [redacted] SAs [redacted] and [redacted] were crouched beneath the window to Room 248, and SA [redacted] who was not wearing a bullet proof vest, was positioned to the south of Room 248.

Once the agents and officers were in position, SA [redacted] signaled SA [redacted] to attempt to utilize the pass key. This attempt was unsuccessful because the door was apparently dead bolted. SA [redacted] then initiated the backup plan, knocking and announcing law enforcement presence and ordering ROWSON to emerge from the room with his hands up. According to SA [redacted] he

b6
b7C

knocked and announced, "FBI, open the door, police open the door, FBI, open the door." SA [redacted] stated that he banged on the door several times and may have said, "Open the door or it's coming down." b6 b7C

According to SA [redacted] approximately five to ten seconds after announcing their presence, the door to Room 248 opened and a black male, subsequently identified as [redacted] exited in a crouched position. [redacted] had a wild look on his face and his eyes were wide. As [redacted] exited the room, SA [redacted] scanned him in an effort to determine if he had a weapon. SA [redacted] yelled for [redacted] to get down on the ground. As SA [redacted] took control of [redacted] SA [redacted] moved towards the doorway in an effort to observe other individuals in the room. At this point, SA [redacted] heard three or four gunshots being fired from within the room. SA [redacted] was unable to observe anybody in the room, and he thought the gunshots were coming from the back of the room or possibly from the bathroom area. SA [redacted] stated he fired five or six rounds from his Sig Sauer, Model P-228, 9mm semiautomatic pistol, in an effort to suppress the fire that was coming from the room.

According to SA [redacted] he observed the door to Room 248 open and [redacted] standing at the corner of the door at the south side. SA [redacted] pointed his pistol at [redacted] and ordered him to get his hands up. SA [redacted] then opened the door all the way, observed [redacted] hands up, and at the same time did a quick cursory scan of the room. While having his weapon and vision focused on [redacted] he observed in his peripheral vision movement at the bathroom door. According to SA [redacted] he pointed his weapon away from [redacted] toward the bathroom door, at which time he observed a subject standing at the bathroom door who had assumed a shooting position. Simultaneously, he saw a muzzle flash coming from what appeared to be a semiautomatic pistol. SA [redacted] stated that he believed he heard three or four rounds go off, and he felt something go past his thigh and fragments hit his leg. He thought he had been shot. SA [redacted] stepped back from the doorway, and at this point all the other agents had taken cover. b6 b7C

From a position of cover on the north corner of the doorway, SA [redacted] assumed a low position and SA [redacted] assumed a high position, according to SA [redacted]. SA [redacted] stated he heard SA [redacted] fire a quick burst and then he (SA [redacted] began firing towards the area of the bathroom. SA [redacted] stated that he fired in this direction because this was the area where he last saw the individual who had assumed the shooting position. SA [redacted] stated that when he first saw this individual, he had come from

the bathroom. Although he did not see him return to the bathroom, SA [redacted] did a quick scan of the room prior to firing. SA [redacted] stated he fired approximately eight rounds. After firing, SA [redacted] returned to a position of cover, dropped his magazine and reloaded a fresh magazine. Although he still had ammunition remaining in the old magazine, SA [redacted] stated he did not want to fire to the lock-back position. After reloading, SA [redacted] took a low position and SA [redacted] took a high position behind cover on the north side of the door. SA [redacted] stated he looked behind him and saw SA [redacted] with a weapon aimed at the door. During this time, SA [redacted] recalls discussions and concerns about potential crossfire. The agents were also concerned that the subject would make a run toward the door. b6 b7C

After SA [redacted] and the other agents backed away from the door, SA [redacted] radioed the agents in the Red Roof Inn area that shots had been fired. SA [redacted] also radioed the Detroit Field Office that shots had been fired and requested assistance from the Warren Police Department (PD) (1:47 p.m. according to Warren PD incident report). SA [redacted] requested additional support and back-up, as well as emergency medical service support. SA [redacted] spoke to SAC MARTINOLICH, who was en route to the scene with ASAC STAPLETON, regarding the status of the scene. He advised SAC MARTINOLICH that he had requested emergency medical service, SWAT personnel, and Evidence Response Team personnel to the scene.

At the time of the shooting, SAs [redacted] and [redacted] were returning to the motel office to obtain housekeeping uniforms and a pass key for use in the original plan. SAs [redacted] and [redacted] were not aware of the new arrest plan. Upon hearing the shots fired, SA [redacted] instructed the motel manager to notify the Warren PD. b6 b7C

After the initial volley fired by ROWSON and the agents' return fire, the agents backed away from the doorway with the door remaining open. The agents and officer who had been on the north side of the door took a position along the concrete wall in the breezeway. The agents and trooper who had been on the south side of the door beneath the window retreated to the south. From that point forward, there was no noise or response to the agents' commands for ROWSON to exit the room. The door remained open during the ensuing standoff. The agents maintained cover of the doorway and attempted to call ROWSON out of the room.

Numerous attempts were made to contact ROWSON by hostage negotiators with negative results. After consultation with hostage negotiators, SAC MARTINOLICH arranged for several relatives of ROWSON to be brought to the scene in the event that these individuals were needed in the negotiations. Attempts to make contact with ROWSON in the room included telephone, voice commands, bullhorn with the telephone, and bullhorn without a telephone. Efforts were also made to ensure that ROWSON could not climb into the rafter area of the motel and come out into another room. Eventually, ROWSON's mother was brought to the scene and provided with a bullhorn in an effort to talk ROWSON out of the motel room. These efforts were terminated after receiving no response from ROWSON.

Finally, at approximately 4 p.m., a Michigan State Police dog handler sent in a dog to determine if ROWSON was still alive in the room. The dog's response upon entering and exiting the room indicated that there was not a live moving person in the room. Thereafter, the SWAT team entered the room and found ROWSON apparently dead in the bathroom. ROWSON was slumped against the tub with a semiautomatic pistol (in the cocked position) resting on his chest underneath his hand, but not in his hand. An emergency medical team entered and confirmed that ROWSON was deceased. At that point, the crime scene was secured.

According to the autopsy report of the Macomb County Medical Examiner, it was determined that ROWSON died of two gunshot wounds to the head. There was an entry wound under ROWSON's chin in which the bullet exited through the nose. It was later determined by FBI Laboratory examiners who conducted an examination of the crime scene, that this bullet traveled through the ceiling of the bathroom, continuing through the roof of the motel. This bullet could not be located. ROWSON also had a gunshot wound which entered the right temple area and exited the left head area. Bullet fragments, presumably from this wound, were recovered from the bathroom wall, and were identified by the FBI Laboratory as having been fired from ROWSON's pistol. The medical examiner certified the death as a suicide.

b6
b7C

The FBI Laboratory examinations of the scene, as well as bullets, bullet fragments, and cartridge cases recovered from the scene, determined that ROWSON fired six (6) shots, and SAs [redacted] and [redacted] fired seven (7) shots each. One bullet fired by ROWSON passed through the open doorway of Room 248, through the second floor balcony wall, and struck a parked car in the parking lot.. This bullet could not be found.

SAC MARTINOLICH was interviewed and advised that on 11/20/96, at approximately 1:10 p.m., he was in the office on the 25th floor speaking with SA [redacted] regarding the status of the investigation. He had earlier decided to reassign six agents to the investigation, which included two agents to handle other reactive crime matters which might occur during the day. During this briefing, SA [redacted] advised SAC MARTINOLICH that the investigation had focused on the Red Roof Inn where ROWSON had possibly frequented or made telephone calls from. SAC MARTINOLICH was not advised that the investigation to locate ROWSON at the Red Roof Inn had narrowed to Room 248 based on an identification made by a pizza delivery man, or that an attempt to make entry and arrest ROWSON was eminent. SAC MARTINOLICH stated that he is not normally notified of all arrests. He is notified prior to any high-profile arrests where there is a high propensity for violence. A few minutes later, a radio dispatch on a FBI Handi-Talkie, which was in the C-4 squad area, alerted SA [redacted] of the shooting at the Red Roof Inn. SA [redacted] or one of the squad agents immediately advised SAC MARTINOLICH.

SAC MARTINOLICH immediately initiated the Detroit Division's Crisis Management Plan, contacted the Chief Division Counsel to initiate the Agent Involved Shooting Plan, and proceeded immediately with ASAC STAPLETON to the scene. While en route, SAC MARTINOLICH received updates from the scene from SA [redacted] who was instructed to seal the perimeter at the scene. SAC MARTINOLICH also initiated a call-out of the Detroit Division's SWAT team and hostage negotiators.

Upon arrival at the scene, SAC MARTINOLICH directed SWAT personnel to review and expand upon the inner perimeter surrounding the motel, and he secured two motel rooms to be utilized as a command post. SAC MARTINOLICH instructed SSA [redacted] to enhance the inner perimeter, and once the inner perimeter was secured, to then further secure the secondary perimeter at the scene. A briefing was held with the Warren Deputy Police Chief who had arrived at the scene, and an emergency assault plan was developed with the hostage negotiators, SWAT team leader, Deputy Chief, and ASAC. SAC MARTINOLICH also toured the key areas of the scene, providing directions to agents and other personnel involved in the investigation. SAC MARTINOLICH, once at the scene, removed SA [redacted] from active participation in the crisis. Later, while at the scene, SAC MARTINOLICH spoke with SA [redacted] regarding the incident. SA [redacted] was instructed to leave the scene due SA [redacted] currently operating as an undercover agent in another investigation. Both agents were later provided assistance through the Employee Assistance Program.

ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
7/3/96
LITTLE ROCK DIVISION

Reference report of Assistant Special Agent in Charge (ASAC) William C. Temple, dated 7/15/96. b6 b7C

PURPOSE: This memorandum is prepared to furnish the analysis, comments, and recommendations of the Shooting Incident Review Group (SIRG) with reference to the captioned shooting.

RECOMMENDATION: That Personnel Division (PD), Administrative Summary Unit (ASU) forward a letter of censure to SA [redacted] for his violation of the deadly force policy. The letter of censure should include pointed language regarding SA [redacted] failure to wait for additional assistance or attempting the arrest on another day.

(CONTINUED - OVER)

Memorandum from D. R. Knowlton to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
7/3/96
Little Rock Division

DETAILS: On 8/20/96, the SIRG met to discuss the above-captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Chief Inspector David R. Knowlton, Office of Inspections, Inspection Division; Dana D. Biehl, Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Jessica A. Ginsburg, Acting Deputy Chief, Criminal Section, Civil Rights Division, USDOJ; Jeremiah W. Doyle, Jr., Section Chief, Global Section - NS-2, National Security Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Firearms Training Unit, Training Division; J. C. Carter, Section Chief, Personnel Management Section, Personnel Division; [redacted] Unit Chief, Budget Unit, Operational Support Section, Criminal Investigative Division; and, [redacted] Supervisor, WMFO. Non-voting attendees were: William D. Gore, Assistant Director, Inspection Division; [redacted] Inspector, Office of Inspections, Inspection Division; [redacted] Immigration and International Investigations, U. S. Immigration and Naturalization Service; and, [redacted] Inspection Analyst, Office of Inspections, Inspection Division. b6 b7C

## Synopsis of the Shooting Incident

On 7/3/96, SAs [redacted] and [redacted] were involved in a search for fugitive [redacted] near Shell Knob, Missouri. This search was in response to a lead furnished by the Milwaukee Division to Little Rock dated 5/29/96.

On 7/2/96, SA [redacted] traveled to Berryville, Arkansas, to cover an "America's Most Wanted" lead regarding fugitive [redacted] Based on the lead, SA [redacted] went to Langley's Floor Covering in Berryville. He determined that [redacted] had done work for this company and was scheduled to perform work for a competitor in Missouri the following day. [redacted] walked into Langley's Floor Covering while SA [redacted] was at the business. SA [redacted] was unarmed at the time and the owner of the company took [redacted] into the back of the business out of SA [redacted] sight. SA [redacted] walked outside and got the license tag number from [redacted] van. He went to his Bureau vehicle and armed himself with his Bureau issued Sig Sauer P-228 pistol. A short time later [redacted] left the business, got into his van and drove off. SA [redacted] loosely followed [redacted] and decided not to attempt an arrest at that time. According to SA [redacted] b6 b7C

the arrest was not attempted at that time because he knew that [redacted] was carried as "Armed and Dangerous", he was alone and did not know if [redacted] was armed at that particular time, the owner of the business asked SA [redacted] not to arrest [redacted] at his business, and SA [redacted] felt that he had good information where [redacted] would be the following morning and knew that he could obtain appropriate assistance to make the arrest at that time. SA [redacted] telephonically contacted SA [redacted] who had previously covered leads in the case. SAs [redacted] and Edenfield decided they would drive to Shell Knob, Missouri, the following morning to attempt to arrest [redacted] SA [redacted] made appropriate contacts within the Little Rock and Kansas City Divisions to obtain approval for traveling to Missouri.

Each SA drove his Bureau vehicle to Shell Knob during the early morning hours of 7/3/96, and arrived prior to 6:30 a.m. A surveillance began of a business known as Totally Home, which was the business where Rowe was supposed to work that day. At approximately 8:00 a.m., a female named [redacted] pulled into the parking lot of the business. SA [redacted] spoke with her and determined that [redacted] was a contract employee. SA [redacted] requested that [redacted] page [redacted] with instructions that if [redacted] called back she was to have him come to the business at approximately 10:00 a.m.

SAs [redacted] and [redacted] spoke with [redacted] who advised that [redacted] was supposed to be working at a job site in Viola, Missouri, located approximately five miles south of Shell Knob. The Agents, accompanied by Mr. [redacted] went to Viola, however, [redacted] was not at the job site. SA [redacted] remained at the job site while SA [redacted] accompanied Mr. [redacted] to a second business location on the south side of Shell Knob. At 8:59 a.m., [redacted] assistant walked into the showroom, which was occupied by other employees and customers, while SA [redacted] was in an inner office. Mr. [redacted] went into the showroom to meet [redacted] assistant and they left through the front door. SA [redacted] went to the front door of the business and observed [redacted] sitting in the driver's seat of his van. Mr. [redacted] came back inside and stated that they needed to go to the business' north location to get carpet tape. SA [redacted] followed their vehicles and called SA [redacted] on the Bureau radio and told him to get to his location as soon as possible. As SA [redacted] was parked approximately 500 yards away from the business location, SA [redacted] advised that he was enroute to this location but was blocked by trucks.

b6
b7C

b6
b7C

Memorandum from D. R. Knowlton to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
7/3/96
Little Rock Division

SA [redacted] retrieved his Remington 870 shotgun from the trunk, placed it in the vehicle seat beside him and continued his observation of [redacted] and two additional individuals at the business.

SA [redacted] observed the individuals preparing to leave the location, drove down a hill to the business, and blocked the exit of the van. [redacted] assistant was in the passenger seat and [redacted] was standing outside the business talking to Mr. [redacted] SA [redacted] left his vehicle with his shotgun and announced to [redacted] that he was with the FBI. [redacted] ran across the highway into a heavily wooded area behind another business. SA [redacted] chased him for a short time and then returned to his Bureau vehicle. He contacted SA [redacted] on the radio and advised that [redacted] had fled into the woods. SA [redacted] drove his car to the area where he saw [redacted] enter the woods and walked into the woods for approximately 150 to 200 yards but never sighted [redacted] SA [redacted] arrived on the scene and walked into the woods to join SA [redacted] They discussed the situation and decided to split up to search for [redacted] The search lasted for approximately five minutes when they met on a nearby road. At that time, they observed a pickup truck coming toward them from the northwest and also saw a man, believed to be [redacted] standing in the road directly in front of the truck. He was waiving his arms, apparently in an attempt to stop the vehicle. The driver went around [redacted] and did not stop. [redacted] turned and looked at the Agents and ran back into the woods. The SAs drove their vehicles to the area that [redacted] entered the woods. SA [redacted] stayed in this area while SA [redacted] proceeded back to the main highway where [redacted] initially entered the woods. SA [redacted] drove to a house located across the highway and asked the occupant to contact the Barry County Sheriff's Office for assistance.

b6
b7C

SA [redacted] entered the woods next to the house and walked approximately 200 yards carrying his shotgun. He saw a movement and observed [redacted] approximately 40 to 60 feet away. [redacted] turned and walked rapidly toward a convenience store and SA [redacted] followed him. When [redacted] realized that he was being pursued, he began running. SA [redacted] announced that he was with the FBI and advised [redacted] to stop. [redacted] made a slight turn around some of the undergrowth in the woods and as SA [redacted] made the same turn he lost sight of [redacted] and could not hear anything. Realizing that he was in a potential ambush situation, SA [redacted] fired one round of Federal 00 buck from the shoulder position into the thicket that he thought could be the potential ambush site. According to SA [redacted] the shot was not a warning shot as he

b6
b7C

was attempting to neutralize the subject who he perceived to be lying in wait for an ambush.

After taking the shot, SA [redacted] observed [redacted] coming up a slight ravine about 30 to 40 feet on the other side of the thicket. [redacted] ran across the highway to a convenience store and unsuccessfully attempted to steal two vehicles then ran to the front of the convenience store and entered a Chevrolet pickup with a boat in tow. As the truck sped off, SA [redacted] was running and was approximately 20 feet behind. He observed the head of a small child coming up in the cab through the rear cab window. He also saw a man run out of the store and jump on the rear bumper of the truck. The man managed to crawl into the bed and move forward to the cab, reached through the rear window and grabbed [redacted] by the throat or head. [redacted] struggled with the man and slowly came to a stop shortly before entering the highway. The man pulled the child out of the cab through the rear window and SA [redacted] ordered [redacted] out of the truck. [redacted] was placed under arrest and turned over to the custody of the Barry County Sheriff's Office.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

The first item discussed by SIRG members about this incident was the fact that it was an intentional discharge on the part of SA [redacted] Members pointed out that the "imminent danger" element contained in the deadly force policy was not present during this incident; therefore, the use of deadly force by SA [redacted] was not justified. Members recommended that SA [redacted] be given a letter of censure for his violation of the deadly force policy.

b6
b7C

The second issue discussed involved the safety of SAs during this incident. Members unanimously agreed that there was no urgency in arresting the subject on that particular day and that SA [redacted] could have waited for backup or could have obtained assistance from local law enforcement authorities in the area. The discussion centered on the fact that the area was unknown to the SAs involved and that solo arrests place law enforcement officers

in great jeopardy. It was also noted by SIRG members that a request was made for an agent in the Joplin, Missouri RA to assist; however, the office was too busy with applicant and other matters to lend assistance. Members reiterated the fact that since the location of [redacted] was known, the arrest could have been attempted on another day or at a minimum, SA [redacted] should have waited for other law enforcement personnel to arrive on the scene. b6 b7C

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
BUFFALO DIVISION
AUGUST 15, 1996

Character: ADMINISTRATIVE INQUIRY

Synopsis:

This shooting incident was a result of an investigation of a suspected bank robber and his accomplice wife who were suspected of committing bank robberies in the Syracuse, New York, area. The Syracuse RA out of the Albany Division had advised the Rochester RA, Buffalo Division that the suspects were casing banks in the Henrietta, New York area, which is a southern suburb of Rochester.

Over a period of years, the Syracuse RA had developed information that the subjects were the prime suspects in a number of bank robberies. The investigation involved up to nine bank robberies going back over a five year period.

The bank robberies committed by PETERSEN had become progressively more violent with subject PETERSEN, utilizing and firing a weapon on several occasions and using military smoke grenades to effect his escape on at least two occasions.

For several days prior to August 15, 1996, the Buffalo Office, Rochester RA, in close coordination with the Albany Office, Syracuse RA, had surveilled the subjects in the area of Henrietta, New York. The Buffalo SWAT team had been called out on four separate occasions

b6
b7C

in preparation for an anticipated arrest of the subject PETERSEN prior to his attempting another bank robbery. Surveillance units anticipated making the arrest of his wife and accomplice [redacted] who would be in a separate vehicle, some distance from the victim bank, and in two-way radio contact with PETERSEN.

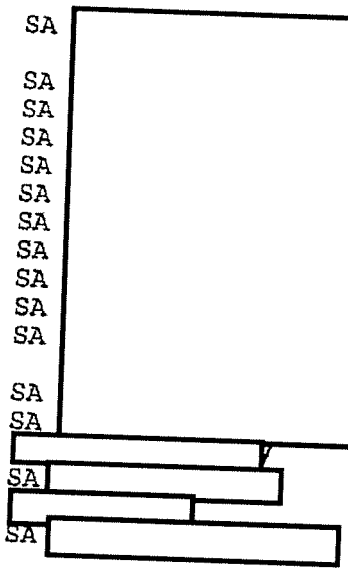
At approximately 10:00 AM to 10:30 AM August 15, 1996, SSRA [redacted] Rochester RA, received a call from the Syracuse RA alerting him that surveillance units were following the subjects and they appeared to be traveling back to Rochester's territory. SSRA [redacted] notified ASAC WOOLLEY, as SAC WOLFINGER was in San Diego for the Republican National Convention, and the SWAT and surveillance teams were alerted and briefed with the updated information. The SWAT Team practiced felony car stops while surveillance units monitored the subject's activities throughout the day. Preferable locations for making the felony car stop were identified and numerous briefings were held to plan the arrest, provide intelligence, and give instructions to all participants.

PETERSEN and his wife had been under observation for several days by the Rochester and Syracuse surveillance teams and specificaly observed throughout the day of August 15, 1996, preparing to rob a bank in the vicinity. These observations included seeing him place a stolen switch vehicle in a parking lot, changing license plates, dressing up in preparation for a robbery to include seeing him put on a bullet proof vest and a two way radio which he was known to have previously utilized. By monitoring his movements and observing his activities, enough probable cause was developed to arrest the subjects for attempted bank robbery.

The shooting incident occurred when the Buffalo SWAT team effected a felony car stop at approximately 4:30 PM and attempted to arrest subject RONALD ERIC PETERSEN while he was parked in a stolen van. Upon being confronted by the SWAT Agents, PETERSEN was non-compliant. After what was described as approximately one to one and a half minutes, during which he was observed looking around, claiming he couldn't hear the commands and lowering his hands after continuously being directed to keep them up, PETERSEN suddenly chose to rapidly accelerate his vehicle directly at several Agents positioned in front of the van. This caused the Agents to direct their fire at PETERSEN in order to protect themselves and/or their fellow Agents. The statements obtained, unanimously recounted that the shooting began almost instantaneously with the sudden movement of the van and that all the Agents began firing within moments of each other so that it was indistinguishable as to who fired first.

PETERSEN's van lunged forward 10-15 feet, then suddenly turned sharply, making almost a 90 degree right turn. The van traveled approximately 75 yards when it came to rest upon striking a brick wall of a building. It was estimated that the van was traveling at 30-40 mph when it hit the building. Approximately 87 to 89 shots were fired by the Agents. PETERSEN did not fire any of his weapons. Subject PETERSEN was pronounced dead on the scene, the cause of death was later determined to be multiple gun shot wounds.

The following is a list of Special Agents involved in the shooting and the weapons and number and type of rounds they fired:



| | | |
|---|---|---|
| SA | Remington 870 Shotgun 14" barrel | 2 gas ferret rounds |
| SA | H&K, MP-5 10 mm. | No rounds |
| SA | Sig Sauer 228 9 mm. | 3 rounds |
| SA | Sig Sauer 226 9 mm. | 1 round |
| SA | Sig Sauer 226 9 mm. | 6 rounds |
| SA | Sig Sauer 9 mm. | 14 rounds |
| SA | H&K, MP-5 9 mm. | 23 rounds |
| SA | Sig Sauer 228 9 mm. | 11-13 rounds |
| SA | H&K, MP-5 10 mm. | 6 rounds |
| SA | Sig Sauer 228 9 mm. | 5 rounds |
| | Remington 870 shotgun 14" barrel | No rounds |
| SA | H&K, MP-5 10 mm. | 12 rounds |
| SA | Sig Sauer 226 | 2 rounds |
| SA | Remington 870 shotgun 14" barrel (.00 buck) | 4 rounds |
| SA | Sig Sauer 228 9 mm. | No rounds |

b6
b7C

Total rounds fired 87-89 (does not include 2 gas rounds)

| | |
|---|---|
| 9 mm. | 65-67 rounds |
| 10 mm. | 18 rounds |
| .00 buck | 4 rounds |

All personnel utilized Bureau issued ammunition and all weapons functioned properly. All personnel were qualified with their respective weapons. All personnel were members of the Buffalo SWAT Team, alternate SWAT team members, or firearms instructors.

The ASAC was on the scene and immediately made appropriate notifications. Local law enforcement entities were also contacted as the New York State Police processed the scene and the Monroe County Sheriff's Department, New York, Bomb Squad responded when explosive devices were located in the van. PETERSEN's wife, [redacted] was arrested by surveillance personnel at another location without incident. Her subsequent interview confirmed that PETERSEN was about to rob a bank and was involved in several previous robberies. [redacted] also noted that PETERSEN was committed to resisting if confronted by law enforcement.

Search warrants were executed for all the vehicles, PETERSEN's residence and storage unit. Searches recovered a cache of weapons and explosives, as well as notebooks, maps, masks, license plates, and clothing linking PETERSEN to previous robberies. b6 b7C

[redacted] was arrested on one count of conspiracy to commit bank robbery. Pursuant to Rule 40 prosecution will be deferred to the Northern District of New York (Syracuse) from the Western District of New York (Rochester).

Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Jessica A. Ginsburg, Acting Deputy Chief, Criminal Section, Civil Rights Division, USDOJ; [redacted], Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; J. C. Carter, Section Chief, Personnel Management Section, Personnel Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted], Unit Chief, Policy Planning and Analysis Unit, Criminal Investigative Division; [redacted], Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted], Unit Chief, Firearms Training Unit, Training Division; [redacted], Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted], Supervisor, Washington Field Office. The two non-voting attendees were: SSA [redacted], Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and [redacted], Inspection Analyst, Office of Inspections.

## Details of the Shooting Incident

At approximately 10:45 a.m, on 9/6/96, SA [redacted] and his wife returned from the Department of Motor Vehicles in Lakewood, New Jersey, to a family home located at [redacted] SA [redacted] took his dog for a walk in the backyard. The dog was on a leash and upon entering the backyard SA [redacted] heard the neighbor's two Rottweiler dogs began barking and saw them run from the side of the neighbor's house. The larger Rottweiler was running towards the fence between the properties, ran up a woodpile next to the fence, jumped the fence, and charged snarling and baring his teeth at SA [redacted] and his dog. SA [redacted] drew his Bureau Sig Sauer P226 from his fanny pack holster and fired three rounds at the Rottweiler. The dog staggered about 30 feet and died.

b6
b7C

Appropriate local authorities were contacted and responded to the scene of the shooting, as did members of the Red Bank Resident Agency. All witnesses were interviewed and the scene was photographed. The deceased Rottweiler was removed to the Jersey Shore Animal Hospital.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational

standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

The SIRG unanimously agreed that this shooting incident involved an intentional discharge of SA [redacted] weapon and that the use of deadly force was justified.

LEAD(s):

## Details of the Shooting Incident

SA [redacted] was a member of an arrest team assigned to assist in the execution of an arrest warrant in Jersey City, New Jersey on 9/16/96. The arrest was part of "OPERATION NORLOCK", a multi-state undercover truck hijacking case involving 85 subjects.

SA [redacted] along with several task force members, was assigned to cover the rear of the Courtesy Truck Stop located on Duncan Avenue in Jersey City. After exiting their vehicle and proceeding to the rear of the building, SA [redacted] and his partner, Detective [redacted] of the Port Authority Police of New York and New Jersey, were confronted by two large dogs. One of the dogs lunged at SA [redacted] When the dog lunged at him, SA [redacted] fired two rounds from his Bureau issued Smith and Wesson 10mm semi-automatic pistol striking the dog at least once. The dog yelped, spun around and ran out of sight. The owner of the dog was subsequently located and advised that the dog did not die nor was medical attention provided to the animal as a result of being shot by SA [redacted]

b6
b7C

On 1/16/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted], Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; J. C. Carter, Section Chief, Personnel Management Section, Personnel Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted], Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted], Supervisor, Washington Field Office. The only non-voting attendee was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2)

provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified. The only observation made by the SIRG involved the fact that SA [redacted] fired two rounds from his weapon; however, only one round hit the lunging animal. Members noted that the second round was not located or documented in the shooting report, nor did the on-scene personnel ascertain if any persons were injured as a result of this shooting incident. The SIRG recommended that no administrative action be taken against SA [redacted] as a result of this shooting incident. b6 b7C

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
PHILADELPHIA DIVISION
MARCH 22, 1996

Character: ADMINISTRATIVE INQUIRY

Synopsis:

In February of 1994, [redacted] white/male, DOB [redacted] was arrested in a Landsdale Resident Agency (LRA) case involving the sale of 1,900 pounds of marijuana. He was convicted and is facing a long sentence.

In January of 1996, [redacted] the name JONATHAN M. CRAMER came up as having access to multi kilograms of cocaine. SA [redacted] was named the case Agent. b6 b7C b7D

On 1/30/96 [redacted] met with CRAMER at his (CRAMER's) office in Philadelphia and discussed the purchasing of cocaine from CRAMER. CRAMER discussed his sources and indicated that he had access to kilograms of cocaine.

On 2/13/96, [redacted] telephone conversation to CRAMER. CRAMER stated he would wait for [redacted] to come up with the money before he would contact his source for the cocaine.

On 2/14/96, [redacted] meeting with CRAMER at his (CRAMER's) home in Philadelphia. CRAMER appeared to be smoking marijuana and stated he was not clear on how much a kilo of cocaine sold for, since he hadn't bought one in two years. [redacted] stated that his sources would put someone on a train with the money to make the purchase. They discussed going to a hotel room to make the deal. CRAMER exhibited a GLOCK pistol and

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

stated that he just obtained it, for his protection. They discussed charging $30,000 for one kilo of cocaine. They then discussed doing the deal in CRAMER's home, rather then in a hotel. [redacted] suggested doing it in the food court at the 30th Street station in Philadelphia. CRAMER wanted to do it in a hotel room. They decided that [redacted] would take his money man from the train station to a hotel, and he would then go to CRAMER's house with the money. After checking out the quality of the cocaine, a price would be arrived at, and they would split the difference between the $30,000 and the sale price. [redacted] asked CRAMER (who had continued smoking marijuana during this time) to get "straightened out so you're not too confused here movin' around." [redacted] would advise CRAMER when they would do the deal.

On 3/11/96, [redacted] with CRAMER in his [redacted] car. The details were worked out for the Friday 3/15/96 drug buy to be conducted in a hotel room. CRAMER asked [redacted] numerous questions about [redacted] earlier arrest and why he is out. CRAMER indicated a lack of trust in [redacted] and told him that he carries a gun during drug transactions.

b6
b7C

During the week of 3/11-15/96, various meetings were held to plan the 3/15/96 buy/bust operation. They culminated in a written plan dated 3/13/96. This plan called for [redacted] to contact CRAMER and advise him that the $30,000 had arrived. CRAMER and [redacted] would then meet on 3/15/96 at 1:00PM and discuss the transaction. The conversation would be recorded, and they would be under surveillance. [redacted] would be instructed not to travel in any vehicle provided by CRAMER or anyone else. [redacted] would tell CRAMER that the money was at the 30th Street train station, and they had to take the cocaine there. CRAMER was to be further told that the courier's time was limited in that he had to board a train at 4:05PM en-route to Washington, D.C. The SA assigned to the money would not leave the public area of the train station for any reason. The subject, who was considered Armed and Dangerous, was to be arrested after the transaction was consummated. Due to the absence of SSRA [redacted], this plan was sent by SA [redacted] the acting SSRA, to ASAC BERNARD A. TOLBERT for approval. ASAC TOLBERT instructed SA [redacted] that the train station was a public place, and, therefore, he did not want the buy/bust to occur there. The arrest was to take place in a hotel room. It was decided that SA CHARLES L. REED would play the role of the drug purchaser and would carry the $30,000 of show money to the meet. [redacted] was advised to set up a meeting with CRAMER for early afternoon on 3/15/96 to be held in a room in the Holiday Inn. He did so, and it was set for 1:00PM.

b6
b7C

On 3/15/96, CRAMER called [redacted] in mid-morning and stated that he had a kilogram of cocaine to sell but not until 4:00PM. [redacted] said that was too late in the day, and the deal was going to fail. At noon, CRAMER called back and said he had another seller named [redacted] and they agreed to meet outside the MULBERRY RESTAURANT at 1:30PM. [redacted] advised SA [redacted] of this change. In addition to SA REED, eight other SAs participated in this meet. [redacted] and SA REED drove to the meeting spot in [redacted] car. SA REED got in the back seat and CRAMER in the front. SA REED showed CRAMER the money, which was in the same briefcase utilized by [redacted] in the 3/11/96 meet. At this point, CRAMER directed [redacted] to drive to GARGOYLES RESTAURANT. During the course of this meet, [redacted] believed he spotted surveillance and told his associate, [redacted] The deal then went from a kilo to only an ounce of cocaine. During the negotiations, CRAMER told SA REED, "I could rip you off very easily." SA REED later stated that he believed CRAMER was carrying a gun. SA REED declined the offer to buy less then a kilo and the deal terminated. On the way back to the assembly point, CRAMER called [redacted] up and offered to sell half a kilo of cocaine. [redacted] was instructed by SA REED to say no, that SA REED had to catch his train, and he would get back with him. At the assembly point, [redacted] was instructed to call CRAMER back to keep him interested in future deals. When CRAMER got on the line, [redacted] turned over the phone to SA REED. CRAMER stated that he had a kilo to sell and that he was at the train station. CRAMER then asked where he and [redacted] were. SA REED handed the phone to [redacted] who said they would meet at the train station's McDONALD'S. No meet was attempted.

On 3/17/96, [redacted] made an unrecorded call to CRAMER and told him that the reason they had not met at McDONALD'S was that [redacted] was nervous. [redacted] went on to say that he had to drive all the way home to Virginia.

b6
b7C

During 3/18-19/96, a series of meetings took place concerning how to proceed next in this case. SSRA [redacted] decided that more information needed to be gained as to CRAMER's cocaine sources. It was decided there would be a lunch meeting with CRAMER. The purpose of the meeting was to gather intelligence prior to deciding whether to proceed with the case or refer the investigation. At the meeting CRAMER was to be instructed not to carry a gun to any future meetings. Along with the CW, SA REED would attend the meeting in order to develop a direct relationship with CRAMER and ease the [redacted] out. [redacted] was instructed to set up a lunch meeting with CRAMER. The lunch date was set for noon on Friday.

On 3/22/96, SA [redacted] SA REED, and SA [redacted] met with [redacted] and went over the purpose of the meeting. A transmitter was placed on SA REED and [redacted] The same briefcase

that had been used by [redacted] on 3/11/96 and SA REED on 3/15/96 was given to SA REED with a NAGRA tape recorder concealed inside. It was decided that instead of lunch they would hold the meeting in a quiet spot to ensure a good recording and, for the same reason, SA REED would sit in the back seat with the briefcase sitting upon the drive shaft hump. The parking lot of the COMFORT INN was chosen. At this point, [redacted] with SA REED as a passenger, left in his car to pick up CRAMER. SAs [redacted] and [redacted] followed them.

b6
b7C

CRAMER was picked up by [redacted] at 2nd and Vine Streets in Philadelphia. SA REED moved to the rear right passenger seat and CRAMER got into the front passenger seat. [redacted] then proceeded to the predesignated parking lot at the COMFORT INN. SAs [redacted] and [redacted] followed them and parked behind the hotel out of eye sight, and attempted to monitor the conversations taking place in [redacted]'s car. CRAMER asked about the purpose of this meeting. When [redacted] attempted to answer, CRAMER cut him off and said to SA REED, "Maybe you ought to speak for yourself this time." SA REED replied that they were surprised when CRAMER showed up at the train station at the last meet. CRAMER then asked a series of questions regarding SA REED's cover story. SA REED admitted he did not have a Virginia driver's license but one from Pennsylvania. CRAMER then revealed his reason for suspicion by stating that at the 3/15/96 meeting, "the first thing that happened is [redacted] nickname) and I was supposed to meet and then all the sudden somebody who I've never met before (SA REED) is now in the back of the car. And you're telling me you have to go to Virginia. You don't have a Virginia license and you're not on the train to get to Virginia. Doesn't sound to me like your going to Virginia." SA REED countered with, "But you have to trust [redacted]" CRAMER replied, "I don't have any reason to...at this point. I haven't seen him with any product. I've never seen him with any money." CRAMER then asked to "frisk" SA REED to see if he was wearing a "WIRE." This conversation took place in the very first part of the meeting, and then the talk turned to drugs. They started talking about a future deal and then CRAMER asked to go somewhere in order to check each other for "wires." He asked SA REED if he had ever been arrested. SA REED replied no. CRAMER seemed surprised that SA REED had not been involved as a subject in the case in which [redacted] was arrested. CRAMER then inquired as to the ownership of the briefcase and [redacted] told him that it was SA REED's case. CRAMER apparently recognizing the case from the 3/15/96 meet, said to SA REED, "And there is not money in it this time?" Both [redacted] and SA REED replied "NO." CRAMER responded with, "So why are you bringing a case? I mean it strikes me as a little bit..." CRAMER then asked SA REED to open the case. SA REED replied that he would. Shortly thereafter, while

b6
b7C

apparently opening the case, SA REED announced his intention to arrest CRAMER. At this point, [redacted] exited his vehicle, and the gun fight occurred, unobserved by him.

SA [redacted] heard over SA REED's transmitter SA REED's arrest announcement but thought that SA REED was joking until he heard the gun shots. SAs [redacted] and [redacted] responded to the scene where they saw [redacted] walking towards the rear of his car. [redacted] stated that "they shot each other." SA REED and CRAMER were rushed to hospitals where they were pronounced dead.

b6
b7C

What led SA REED to attempt the arrest is unknown. A holster was recovered from the waist of CRAMER, and it is possible that CRAMER reached for his weapon a .40 caliber GLOCK Model 27 pistol with his right hand (CRAMER's dominant hand). The front seat would have obscured SA REED's vision of this movement by CRAMER. On the recording SA REED is heard shouting, "Hold it! Hold it! Get your hand (singular) up!" Based upon the recorded commands of SA REED, it is apparent that CRAMER was not compliant. SA REED warned CRAMER one last time before the gun fight.

The gun fight lasted approximately three seconds, and in that time, SA REED fired all five rounds from his .38 caliber SMITH and WESSON Model 60 revolver, and CRAMER fired three of the ten rounds he had in his pistol. Due to the short duration of the gun fight, it seems likely that both weapons had been drawn. SA REED's clip-on holster was found on the floor of the vehicle behind the driver's seat. It is unknown where SA REED was carrying his weapon. It is unknown who fired first. It is technically impossible to make that judgement from a NAGRA recording.

Based on witness accounts, a crime scene sketch and photographs, and an autopsy report and photographs, the following reconstruction of the events is suggested. CRAMER was firing from a low crouch in the front passenger seat, possibly between the gap in the front seats. Four bullets hit CRAMER. He was struck in the top of the left shoulder and the upper left arm, which indicates he may have been reaching or blocking with the arm. Two bullets struck CRAMER in the head. One was a split bullet which made two distinct wounds on the right side of the head. The other struck in the middle of the front crown of the head. The bullets struck CRAMER in a downward trajectory indicating that SA REED was firing from a slightly higher position.

SA REED appears to have moved from his earlier position, in the rear seat directly behind CRAMER, to the driver's side, possibly to get a better view of CRAMER. He was found lying across the back seat with his left leg raised in a defensive position. SA REED was struck by three bullets. One bullet struck SA REED in the left thigh, exited the thigh and entered his abdomen. One bullet entered the left side of the abdomen and lodged in his spine. One bullet entered the left side of the abdomen and passed through the heart. The bullets struck SA REED in an upward trajectory, indicating that CRAMER had been firing from a slightly lower position.

Both weapons were fired between one and two feet from entry of the bullets into the bodies. Both weapons were found, side by side, on the passenger side rear floor.

(CONTINUED - OVER)

Memorandum from D. R. Knowlton to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
7/2/96
Tampa Division

DETAILS: On 8/20/96, the SIRG met to discuss the above-captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Chief Inspector David R. Knowlton, Office of Inspections, Inspection Division; Dana D. Biehl, Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; Jessica A. Ginsburg, Acting Deputy Chief, Criminal Section, Civil Rights Division, USDOJ; Jeremiah W. Doyle, Jr., Section Chief, Global Section - NS-2, National Security Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Firearms Training Unit, Training Division; J. C. Carter, Section Chief, Personnel Management Section, Personnel Division; [redacted] Unit Chief, Budget Unit, Operational Support Section, Criminal Investigative Division; and, [redacted] Supervisor, WMFO. Non-voting attendees were: William D. Gore, Assistant Director, Inspection Division; [redacted] Inspector, Office of Inspections, Inspection Division; [redacted] Immigration and International Investigations, U. S. Immigration and Naturalization Service; and, [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

## Synopsis of the Shooting Incident

At approximately 3:15 p.m., on 7/2/96, SSA [redacted] traveled to the Zack Street News (ZSN) to purchase personal items after a day-long supervisors meeting. While in ZSN, SSA [redacted] observed Freddie Lee Williams arguing with the clerk over change due to him from a twenty dollar bill. Williams and SSA [redacted] had a short verbal exchange and Williams asked [redacted] "Why are you in my face?" SSA [redacted] advised Williams to stop causing trouble, go get a police officer, and settle the dispute. Williams departed the store telling the clerk he would get his money and the clerk would be sorry. b6 b7C

After approximately 30 seconds, Williams reappeared at the front door with a revolver held about waist high. He fired one round which struck SSA [redacted] in the right leg. SSA [redacted] drew his Bureau approved .357 Smith and Wesson revolver and fired two .38 rounds at Williams. One of the rounds struck Williams in the left chest area and he immediately slumped to the ground. Medical personnel, Tampa Police Department Officers and Deputy United States Marshals responded from the courthouse across the street.

Memorandum from D. R. Knowlton to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
7/2/96
Tampa Division

The Tampa Special Agent in Charge and the Assistant Special Agent in Charge were on the scene within 10 minutes of the shooting.

SSA [redacted] was taken to the hospital, treated for his gunshot wound to the leg, and released on 7/3/96. Medical tests show that SSA [redacted] was struck by a bullet which penetrated the fleshy part of his right leg, but did not injure joint capsules or enter the abdominal cavity. Williams was admitted to Tampa General Hospital and died on 7/8/96, of complications from the gunshot wound. Williams was struck in the left chest area by a projectile which struck and broke his collarbone, traveled downward through the upper lobe of his left lung and stopped just under the skin of his lower left back. The second round discharged from SSA [redacted] weapon was located across the street in a gutter.

Freddie Lee Williams was interviewed by the FBI prior to his death. He claimed to have been cheated out of $580.00 in winning lottery tickets held by the clerk at ZSN. Williams admitted that he was carrying a concealed weapon despite the fact that he was a convicted felon. He further admitted being angry after the clerk kept his lottery tickets and was returning to the ZSN with a gun to obtain his money or his lottery tickets. However, Williams advised that he had no recollection of his verbal dispute with SSA [redacted], his firing at [redacted] nor [redacted] shooting him. Witnesses to the incident confirmed that Freddie Williams shot SSA [redacted] and that SSA [redacted] returned fire only after being shot. b6 b7C

It should be noted that the Florida State Attorney declined prosecution in this case advising that SSA [redacted] use of deadly force was justified under Florida law.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that this shooting incident involved an intentional discharge of SSA [redacted] weapon and that the shooting was consistent with the deadly force policy and justified.

Memorandum from D. R. Knowlton to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
7/2/96
Tampa Division

The only observation made by SIRG members pertained to SSA [redacted] statement about his kicking the subject's gun. According to SSA [redacted] as he shot Williams, the subject fell back approximately two feet from where he was standing and landed on his back. The gun, which had previously been in the subject's right hand, landed approximately three inches from his opened hand. SSA [redacted] covered Williams with his weapon not knowing if he had been hit. [redacted] saw Williams' face and observed his open eyes and movement in his hands. At that point, SSA [redacted] kicked the gun away from the subject's hand and walked towards his head. While SIRG members fully concurred that SSA [redacted] followed proper procedures throughout this incident, a comment was made that the subject's weapon should have been secured and not kicked.

Bureau File #:

Title: SHOOTING INQUIRY,
REPORT OF SHOOTING INCIDENT,
INDIANAPOLIS DIVISION
JULY 2, 1996

Character: ADMINISTRATIVE INQUIRY

Synopsis: This shooting incident was the result of an investigation of two fugitives who had escaped from the custody of an Alabama Deputy Sheriff on 5/20/1996. An investigation had been opened on the disappearance of David James Graham Nichols, a British Army officer who was in the United States for two weeks of training, and who had been reported missing following his rental of a Hertz Rental Car in Denver, Colorado. The shooting occurred at approximately 1:15 PM on 7/2/1996, as Special Agents and other state and local law enforcement officers attempted to arrest [redacted] one of the fugitives. [redacted] exited a pickup truck following a felony vehicle stop. [redacted] failed to apply with commands to halt or stop, and three rounds were fired at him as he attempted to evade capture by fleeing into a heavily wooded area adjacent to where the truck stopped. [redacted] escaped capture for approximately one hour when a canine unit located him in these woods.

b6
b7C

On 6/27/1996, the Indianapolis Office of the FBI was advised that a Ford Taurus automobile rented by the Hertz Corporation in Denver, Colorado, had been located in a lake near Terre Haute, Indiana. An inventory search of this vehicle revealed items belonging to David James Graham Nichols, a Major in the British Armed Forces. Information was also developed that the Terre Haute Police had stopped a truck from which two individuals fled, and left behind extensive items of an evidentiary nature. Included in the items in this truck were the passport and many personal effects of David James

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

then positively identified as being one of the individuals they had just spoken with at the salvage yard.

At this time, SSA [redacted] was en route to the Terre Haute Resident Agency to meet at a staging area at the Indiana State Police Post, to brief the Indiana State Police and the Vigo County Sheriff's Office on the latest developments. SSA [redacted] was advised that a positive identification of subject [redacted] had been made. SSA [redacted] then requested that the SAC deploy the SWAT Team to the area for possible assault on the trailer where both subjects had been located.

SSA [redacted] also made arrangements for the Bureau airplane to conduct an aerial surveillance of the area, for the Indiana State Police to provide a helicopter, and for the Vigo County Sheriff's Office to provide a canine unit in the event a search would be necessary.

As all these plans were being put into motion, and as the SAC, ASAC, and SWAT Team were en route to the staging area at the Indiana State Police Post, SA [redacted] the Bureau pilot circling the area, radioed to all units that three individuals were leaving the salvage yard/trailer area, entering a pickup truck, and departing the area.

b6
b7C

This action by one or more of the subjects caused an immediate change in plans, and SSA [redacted] obtained all information about units available to respond, and access roads to and from the general area of the trailer and salvage yard.

At approximately 1:15 PM, SSA [redacted] decided to execute a felony car stop on the pickup truck driven by an individual known to be a boyhood friend of subject [redacted]. Based on observations by SA [redacted] it was believed that subject [redacted] was a passenger in this truck. Accordingly, SSA [redacted] and SA [redacted] took the lead in following this truck and initiated a felony car stop, with Detective [redacted] and Corporal [redacted] from the Marion County Sheriff's Office immediately behind them, followed by SAs [redacted] and [redacted]. Also at the scene was an Indiana State Police vehicle which had just passed the truck from the opposite direction. This Indiana State Police vehicle was occupied by Indiana State Trooper [redacted] and [redacted] the Chief Deputy of the Vigo County, Indiana Sheriff's Office. As the driver of the truck pulled the truck to the side of this narrow rural road, the passenger jumped out of the truck and immediately began running toward the cover of woods. This individual was immediately identified as subject [redacted] and ordered to halt and stop, with both police and FBI being named. Subject [redacted] failed to heed these commands, and Corporal [redacted] fired one round at subject [redacted] followed by SA [redacted] firing two rounds at subject [redacted] All three rounds missed [redacted] and he was able to

escape into the woods for approximately one hour. Subject [redacted] was later captured following a canine unit locating him and attacking him. No weapons were found on the person of [redacted] at the time of his arrest.

SA [redacted] fired two rounds from the personally owned Sig Sauer P228 Bureau approved weapon assigned to SSA [redacted] SA [redacted] had left his Bureau assigned weapon, a Sig Sauer P226, by mistake in the Indianapolis Office of the FBI in his rush to get to the site and deliver updated photographs of both subjects and deliver an undercover vehicle for possible use there. Corporal [redacted] fired one round from a Glock .40 millimeter weapon, which is the weapon assigned to him by the Marion County Sheriff's Office. b6 b7C

SSA [redacted] was on the scene at the shooting and in charge pending the arrival of SAC Alford and ASAC Ratliff. ASAC Ratliff arrived within five minutes of the shooting, while SAC Alford arrived approximately one-half hour later. Following the shooting, SSA [redacted] took possession of the weapon SA [redacted] had fired. SSA [redacted] later turned this weapon over to ASAC Ratliff, who, in turn, turned it over to SAC Alford. SAC Alford maintained this weapon in his Bureau vehicle until the next day, when he turned it into SA [redacted], the Principal Firearms Instructor for the Indianapolis Division.

Subject [redacted] evaded capture on 7/2/1996, but was arrested without incident on the next day, 7/3/1996, by the Indiana State Police and Vigo County Sheriff's Office, who received a tip from the driver of the pickup truck in which subject [redacted] had been riding the previous day, that subject [redacted] was sleeping in the back of a salvage vehicle at the salvage yard. Unlawful Flight to Avoid Confinement (UFAC) charges had been filed against those subjects, and were the basis for the arrest, coupled with the local warrants filed in Alabama. Federal kidnapping and/or murder charges will be filed either in Indiana or New Mexico, where it is believed that subject [redacted] and [redacted] killed British officer David James Graham Nichols. b6 b7C

It is noted that subject [redacted] following his capture on 7/2/1996, confessed to not only the escape from the Alabama State Prison, the commandeering of a truck, and flight to New Mexico, but also to the kidnapping and murder of British officer Nichols. [redacted] advised that he and [redacted] had fled to New Mexico, had run out of money, and nearly out of gas in the truck that they had stolen. They decided to wait at a rest stop north of Albuquerque, and to rob the next person who came into the rest stop. Although two vehicles came into the rest stop ahead of British officer Nichols, these vehicles did not stop. When Nichols entered the rest area, he got out of his vehicle, went to the trunk, opened the trunk and was getting something out of it when subjects [redacted] and [redacted] approached him with one of the

nine millimeters stolen from the Alabama Deputy Sheriff, and robbed him at gunpoint. They then threw him into the trunk of the vehicle, drove around for awhile before coming back to the rest area, and then took Nichols out of the trunk. They had him walk a short distance into some woods where, according to [redacted] then fired one round into the back of Nichols' head. After Nichols fell on the ground, [redacted] fired one additional round between Nichols' eyes. [redacted] then drug Nichols' body a short distance and tried to bury him by covering him up with rocks. Subject [redacted] tentatively has agreed to testify against [redacted] and is asking for leniency in not having the death penalty sought against him if he does testify and locates the body of Major Nichols for the FBI. This matter is being discussed between the United States Attorney's Office in New Mexico and Indianapolis. b6 b7C

Title:
SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
CINCINNATI DIVISION
JANUARY 18, 1996

Character: ADMINISTRATIVE INQUIRY

Synopsis:

This shooting incident was a result of an investigation of a multi-faceted investigation involving bank robberies and an Unlawful Flight to Avoid Prosecution (UFAP) warrant for [redacted] and his associate [redacted] The shooting incident occurred at 9:49 a.m. on 1/18/96, as Special Agents and Safe Streets Task Force members of the Cincinnati Division attempted to arrest [redacted] He left the residence at [redacted] Columbus, Ohio, and entered a van parked in the back yard near a garage. [redacted] failed to comply with commands to surrender, and moved from the driver's seat toward the back of the van. He was observed in a shooting position and approximately 46 shots were fired resulting in the minor wounding of [redacted]

During December, 1995, [redacted] and [redacted] were identified as prime suspects in the "BOMROB" major bank robbery investigation, Major Case #124. This investigation involved the robbery of 18 banks located in seven midwestern states. In these bank robberies, the robbers left behind improvised explosive devices and frequently deployed a military smoke grenade to cover their escape. [redacted] and [redacted] were both Federal fugitives based on UFAP warrants in the Atlanta Division. By teletype dated 1/5/95, FBIHQ notified all offices of the significance of this investigation and that [redacted] and [redacted] were possible suspects. It also set forth information regarding their possible involvement with white supremacy and militia groups and that they were armed and dangerous.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

The Atlanta Division also sent a teletype to these ices dated 1/5/95, advising that both individuals should be sidered armed and extremely dangerous. The teletype provided the lowing cautions: Vowed Not To Be Taken Alive; Utilizes Body or; Uses Police Scanners and Knows Federal and Police Frequencies; lizes Inert Hand Grenades as Booby Traps; Survivalist; White remacist; Skin Head Associate; Anti-Government; Anti-Military; i-Law Enforcement. All available background relative to their ntities and aliases was provided.

On 1/15/96, information was received by the Cincinnati ision leading to the location of [redacted] was identified surveillance units and he attempted to elude FBI Agents resulting a foot chase. He ultimately surrendered and was arrested. He was ed with a weapon at the time of his arrest. He agreed to perate and assist the FBI in locating [redacted] The Cincinnati SWAT m traveled to Indianapolis, Indiana, on January 16 and 17, in er to locate and arrest [redacted] was attempting to locate [redacted] though an involved network utilizing paging devices, however, meet never occurred January 16, or 17.

On January 17, at approximately 8:00 p.m., the estigation in Indianapolis was discontinued and Agents were patched to Columbus, Ohio. This was based on information [redacted] vided indicating that he had a "safe house" in Columbus, Ohio. He ovided a consent to search and advised that [redacted] was the only her person with a key to this "safe house." Agents and Safe reets Task Force (SSTF) members in Columbus, Ohio, located the sidence and determined that there were lights on and it was cupied by a lone white male. Additional information from [redacted] d investigation by the surveillance units determined that there was strong likelihood [redacted] was in the residence.

b6
b7C

Members of the SSTF and others maintained surveillance roughout the night. All SWAT Team members went to the Columbus RA d held a briefing upon their arrival after midnight on the evening 1/17/96. SWAT Team leaders personally surveilled the residence d formulated a plan and provided detailed instructions including adly force policy while Agents were in attendance. They met again e following morning at 6:00 a.m. and were updated relative to the tuation and again went over the plan for the arrest.

Throughout this planning, SAC THEODORE JACKSON and AC HENRY E. RAGLE, III, were aware of the progress and providing structions as needed. Due to the propensity for violence and tential for explosives in the residence, the decision had been made at [redacted] would not be arrested in the residence. The plan quired that [redacted] be arrested as he departed the residence to ter the van parked in the rear of the residence. The detailed plan t forth individual roles and responsibilities for all arrest team mbers with the primary objective of arresting [redacted] after he tered his van which was facing an alley south of the residence.

Agents would block the exits east and west and other Agents would position themselves at the back of residence to prevent [redacted] from returning to the residence. The following morning the arrest teams were in place at 7:00 a.m. The SAC and ASAC traveled from Cincinnati, Ohio, to be on the scene.

At approximately 9:45 a.m. [redacted] exited the residence and slowly proceeded to the van. SA [redacted] had a view of the backyard and provided radio instructions to arrest team members detailing the movements of [redacted]. After [redacted] entered the van, SWAT Team Leader, SA [redacted] ordered the Agents in the front of the residence to move in to prevent the subject from re-entering the residence. When those Agents were in place, he ordered all units to move in to effect the arrest. Four vehicles entered from the east and four vehicles entered from the west. Several Agents immediately exited the vehicles, took a position of cover, and ordered [redacted] to raise his hands and come out of the van. Several Agents noted the subject begin to comply and raise his hands, however, abruptly move his hands downward and rolled from the driver's seat into the middle of the van. As he reappeared, Agents observed a weapon in his hands. Immediately thereafter, seven FBI Agents and SSTF members fired into the van. This burst of approximately 46 rounds lasted less than ten seconds and ceased with no more shots being fired during the incident. Agents again commanded [redacted] to exit the vehicle and he reappeared with his hands up. He was bleeding from the face and complied with the commands to place his hands and then extend himself through the driver's side window. Deputy U. S. Marshal [redacted] approached [redacted] and placed him in handcuffs. He was pulled to the ground and searched without further incident. A .22 caliber Beretta handgun was found on the person of [redacted] at the time of his arrest. b6 b7C

The following personnel fired their weapons:

1. SA [redacted] - fired four rounds of buckshot from a 12-gauge Remington shotgun, model 870 magnum.

2. SA [redacted] - fired three rounds of "OO Buck" shotshell from a 12-gauge Remington shotgun.

3. SA [redacted] - fired two rounds from a 9mm Luger Sig Sauer pistol, model P226.

4. SA [redacted] - fired approximately 11 rounds from a 9mm Luger H & K submachine gun, model MP5-A3.

5. SA [redacted] fired 15 rounds from a .223 Remington caliber Colt rifle, model M-16A1.

6. DUSM/TFO [redacted] - fired six rounds from a .45 auto caliber Sig Sauer pistol, model P220.

7. TFO [redacted] - fired approximately five founds .n H & K, model MP 5 - SP.

All personnel used law enforcement-issued ammunition. .boratory examination determined all weapons functioned .ly. All had qualified with their respective weapon within the hree months with the exception of SA [redacted] SA [redacted] is a ied firearms instructor, sniper instructor, primary sniper for nd had won a Silver medal in the 1995 Ohio Police Olympics for :ipation in the M-16 combat course.

The SAC and ASAC immediately came to the arrest scene. ulance was called for [redacted] Agents maintained a state of did a search of the van finding additional weapons, however, :d no other suspects. They then turned their attention to a of the residence. [redacted] had indicated there were explosives bathtub, however, subsequently changed that statement. The us Bomb Squad was contacted, however, awaited a clearing search : Cincinnati SWAT team which was conducted without incident. us weapons, seven grenades and 13 pipe bombs were located in sidence. b6 b7C

The white van bearing Iowa license [redacted] was examined nt to a search warrant on 1/20/96. Among evidence obtained ne pipe bomb, one hand grenade (both exploded by the Columbus : Department for safety precautions), one 9mm Luger Taurus ., T99AF model, one .380 auto caliber Bersa pistol, model 383-A, ie .223 Remington SGW carbine, model XM15A1. FBI Laboratory .ation determined all were loaded and functioned normally when in the Laboratory. All had been fired since last cleaned.

[redacted] refused to be interviewed by the FBI. He did make ts to the media denying he fired any shots. Investigation at :ene and the FBI Laboratory failed to establish that [redacted] a weapon.

One witness who resided in the upstairs residence at inhard Avenue, alleged that excessive force was utilized during rrest. Subsequent interviews of two witnesses determined that legations were unfounded. None of the 21 Agents on the scene ted there was any resistance during the arrest of [redacted] has not alleged any brutality.

[redacted] was charged with assault of a Federal officer on 6 and is currently incarcerated without bond. The UFAP warrant smissed 1/19/96.

Bureau File #: 66-HQ-19157-65

Title: SHOOTING INQUIRY,
REPORT OF SHOOTING INCIDENT,
LAS VEGAS DIVISION,
3/21/96

Character: ADMINISTRATIVE MATTERS - SHOOTING INQUIRY

Synopsis: This 3/21/96 shooting incident occurred during a planned arrest of FBI subject [redacted] for whom a federal arrest warrant had been issued by the U.S. District Court, District of Nevada, the previous day. The arrest was to take place following an undercover purchase of drugs (the fifth such purchase in a series) orchestrated by an undercover police officer participating in this Weed and Seed Task Force initiative. Plans for the arrest of subject [redacted] were essentially finalized during the evening of 3/20/96, and were the subject of a thorough briefing of all personnel on the morning of 3/21/96. Agents and officers deployed at the scene of the planned arrest, the CASTAWAY'S CASINO parking lot, Las Vegas, Nevada, for the anticipated 11:00 AM arrest.

b6
b7C

Following the arrival of subject [redacted] the completed purchase of cocaine by the undercover officer and the signal given for the arrest of subject [redacted] FBI Agents and police officers converged in an attempt to block [redacted] vehicle and effect his arrest. Subject [redacted] then executed an extremely dangerous and aggressive driving maneuver, in the process striking both blocking vehicles, and FBI Agent [redacted] knocking him to the ground. [redacted] continued, driving directly into FBI Agent [redacted] sending him careening across the escaping vehicle's hood and smashing the vehicle's windshield before SA [redacted] was able to roll off during [redacted] rapid acceleration. As [redacted] vehicle sped through the CASTAWAY'S CASINO parking lot, three FBI Agents and two police officers fired at [redacted] who was crouched in the driver's seat. As [redacted] effected his escape onto Decatur Boulevard, both marked and unmarked units of the LAS VEGAS METROPOLITAN POLICE DEPARTMENT

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

(LVMPD) and FBI vehicles gave pursuit and attempted to locate [redacted] vehicle. [redacted] successfully eluded capture for the balance of that day.

On 3/22/96, [redacted] attorney, [redacted] surrendered [redacted] to the custody of the U.S. MARSHAL'S SERVICE in Las Vegas. Following negotiations with [redacted] attorney, [redacted] vehicle was recovered, impounded, and processed by the LVMPD. [redacted] received medical treatment for "cuts on his back and right hand and a cut on his left proximal elbow". Medical records for [redacted] reveal that he suffered "several scratches and superficial puncture wounds posterior back" and that "palpable buckshot is felt in the skin". Further, [redacted] experienced a "small puncture wound over the right thenar eminence (fleshy area below the thumb) and tenderness in the thenar muscle group". Regarding the elbow wound, a "full range of motion of the elbow" and "no evidence of joint involvement" were noted. [redacted] was given an antibiotic and recommended to seek follow-up care.

b6
b7C

During the planning and attempted arrest of subject [redacted] ASAC WALTER B. STOWE was acting in place of SAC BOBBY L. SILLER, who was out of the division. ASAC STOWE approved a verbal presentation of the arrest plan. The written arrest plan, approved by SSA [redacted] sets forth the authority to arrest [redacted] details [redacted] violent history and past attempt to flee during a prior arrest, and sets forth a thorough plan with individual and team assignments for the anticipated arrest of [redacted] The plan, and an all-hands meeting on the morning of the planned arrest, emphasized the FBI Deadly Force Policy and the requirement for participating personnel to wear appropriate body armor and identification. Participating personnel were so equipped, and issued verbal identification and commands during the attempt to arrest [redacted]

Interview and ballistics examination determined that SA [redacted] fired three rounds of service ammunition from his Bureau-authorized pistol, following SA [redacted] being struck and knocked to the ground by [redacted] vehicle. Following the shooting incident, SA [redacted] was treated by paramedics at the scene, determined to have only superficial injuries, and released.

b6
b7C

Ballistics examination determined that SA [redacted] fired one round of service ammunition from his Bureau-authorized pistol after having been struck directly by subject [redacted] vehicle. SA [redacted] was unaware that he fired a round, believing that he withheld firing for fear of hitting a police van. Following the shooting incident, SA [redacted] was taken to a medical facility complaining of multiple abrasions and lower back pain. Medical records indicate that SA [redacted] indicated he dug out metallic fragments from three areas in his right thigh. He was determined to have multiple abrasions on his upper extremities and puncture wounds in his right thigh. He was issued medication for pain, inflammation and possible infection, then released.

Interview and ballistics examination determined that SA [redacted] fired fifteen rounds of service ammunition from his Bureau-authorized Colt AR-15 A3 after [redacted] and SA [redacted] escaping vehicle struck SA [redacted]

Investigation determined that LVMPD Sergeant [redacted] fired two shotgun rounds (00 buck) and that LVMPD Officer [redacted] fired ten rounds of 9mm ammunition from his pistol.

Crime scene examination resulted in the recovery of spent shell casings and numerous bullet fragments. Crime scene examination and follow-up investigation determined that a round of undetermined origin struck a telephone line elevated on a telephone pole across the street from the CASTAWAY'S CASINO, disrupting telephone service in the area. Also, one round, determined to have been fired by LVMPD Officer [redacted] struck the rear right quarter panel of NORTH LAS VEGAS POLICE DEPARTMENT (NLVPD) surveillance van parked in the casino parking lot, intended to act as a backup blocking vehicle. b6 b7C

Ballistics examination of [redacted] recovered vehicle details numerous impact rounds of both known and undetermined origin.

Witnessing agents, officers and civilians interviewed. Two officers and one agent did not fire their weapons due to the fact that they did not have a clear, unobstructed line of fire.

Report of: IIP [redacted] Office: HEADQUARTERS
Date: March 14, 1996

Field Office File #:
Bureau File #: 66H-HQ-19157-24

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
KNOXVILLE DIVISION
MARCH 6, 1996

Character: ADMINISTRATIVE INQUIRY

Synopsis:

Approximately one month before this shooting incident, the Chattanooga Safe Streets Task Force consisting of four Special Agents, five local police officers and one Deputy U. S. Marshal, began working on the apprehension of [redacted] a Parole Violator. [redacted] an armed and dangerous fugitive, had previously served 17 years for bank robbery and was now wanted for numerous local armed robberies and aggravated assaults. b6 b7C

On March 6, 1996, at about 12:15 p.m., Task Force Officers spotted a U-Haul truck at a residence in Soddy Daisy, Tennessee, known, through informant information, to be frequented by [redacted] step-daughter and step-son drove off in the U-Haul truck at about 1:00 p.m. and the Task Force established a surveillance. The truck crossed into Georgia on I-75 and at about 2:30 p.m. parked in the "Flying J Truck Stop" south of Rossville, Georgia. Four Agents from the Rossville Resident Agency joined the surveillance. In hopes that [redacted] would meet the truck, an arrest plan was developed that focused on blocking and arresting [redacted] in the parking lot. All the participants continued the surveillance in their assigned locations.

At 6:20 p.m. a red 1986 Oldsmobile Calais with two occupants pulled into the space next to the U-Haul truck. The Oldsmobile was facing east and was parked driver door to driver door with the truck.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

SA [redacted] and Task Force Officer [redacted] drove by the Oldsmobile and positively identified [redacted] as the driver. At that point the signal was given to execute the arrest plan.

The blocking vehicles began moving into position. SA [redacted] pulled his vehicle in front of [redacted] vehicle and exited. He leveled his shotgun at [redacted] identified himself and advised [redacted] he was under arrest. [redacted] immediately began backing up in an easterly direction at a high rate of speed. He swung the car around, shifted into forward gear, and accelerated northward out the parking lot. At this point, however, he spotted two FBI vehicles coming at him, cutting off his escape. SA [redacted] had begun running east towards [redacted] car. [redacted] quickly braked and shifted into reverse and backed fishtailing and sliding in a wide arc, finally ending up backing west directly towards SA [redacted]

SA [redacted] asserted that he feared for his life. He thought he would be pinned against the U-Haul truck. He was also aware that the Agents behind him were in danger. He could not shoot the driver because the car sat so low his view was obstructed. Further, he did not know who [redacted] passenger was. As the car's right rear brushed against him, he discharged his shotgun into the right rear tire, in a last effort to stop the vehicle. The car did stop and then shifting into forward gear accelerated in a southeasterly direction. It was bumped twice by one of the Task Force vehicles, spun completely around and ended up heading south.

As [redacted] accelerated south, SA [redacted] the threat now diminished, moved towards him taking aim with his shotgun. On two occasions, a few seconds apart, he had a shot but refrained from firing because he did not want to endanger bystanders and [redacted] was no longer a threat to him. [redacted] did a 180 degree turn around a light pole island and headed north again for the parking lot exit. He was rammed twice by the vehicle driven by Deputy U. S. Marshal [redacted] and finally forced to a stop against a curb. [redacted] and his wife, [redacted] were pulled from the vehicle and arrested. A 9mm pistol was found on the vehicle's floorboard and a semi-automatic rifle in the trunk.

At the next Federal Grand Jury convened in the Northern District of Georgia, [redacted] will be indicted for AFO and Felon in Possession of Firearm. The United States Attorney is also considering charging him as an Armed Career Criminal.

A review of criminal history records for [redacted] disclosed that he has a criminal history dating to January 8, 1972, with convictions for burglary, larceny, armed robbery and bank robbery. There are currently outstanding warrants for parole violation, aggravated robbery, aggravated assault and five counts of armed robbery. There are warrants for aggravated robbery and carjacking outstanding on [redacted]

As [redacted] was running toward the woods, the driver and female passenger in the truck were removed from the vehicle, handcuffed and searched. An infant baby was also taken from the truck and secured in a safe location. A canine unit was immediately called in, along with a State Police helicopter, to conduct an aerial and ground search for [redacted]. After approximately one hour, [redacted] was found hiding under leaves and bushes. Detectives and SAs responded and arrested [redacted] without incident. b6 b7C

Following the arrest of [redacted] attention was turned to subject [redacted] who was believed to be hiding in the trailer. A decision was made to tighten the perimeter around the trailer and request FBIHQ approval for the insertion of CS gas. After approval was given for the insertion of gas, 10 canisters of gas were inserted into the trailer by the Indiana State Police. Approximately one hour later, the trailer was cleared, however, [redacted] was not located. A ground search was conducted until dark when SAC Alford called off the search due to the threat posed to SAs and detectives on the scene. [redacted] was found sleeping in the back seat of a salvage vehicle on the morning of 7/3/96, and was arrested without incident. b6 b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

The first issue discussed by the SIRG involved the application of deadly force used by SA [redacted] in this shooting incident. SIRG members held a lengthy discussion regarding this issue. The OGC representative presented the facts of this case as it relates to the current FBI deadly force policy. According to OGC, although the subject was fleeing from the arrest site, SA [redacted] had no on-the-scene sighting of a weapon and, therefore, had insufficient information to establish that he was in fact armed at that time. A DOJ representative opined that in this particular situation probable cause was justified, however, the "imminent danger" definition was not met. Conversely, other SIRG members initially believed that the use of deadly force was

b6
b7C

justified in this shooting. This decision was made based on the fact that the subjects had recently overpowered a correctional officer taking three weapons, had kidnapped and in all likelihood murdered a British Army officer. The subjects' propensity for violence in the past was also considered. It was also noted by SIRG members that the subjects were considered armed and extremely dangerous and that this information had been repeated several times during briefings.

Additionally, it was noted that the SAC, Indianapolis, and the Assistant Inspector-in-Place (who is also an attorney) reached different conclusions on the correct use of deadly force after reviewing the same set of facts now before the SIRG. The confusion in interpretation and practical application of the deadly force policy by the Agent, AIIP, SAC, and members of the SIRG was readily apparent.

Discussion also centered around scenarios provided in a training package on the new deadly force policy dated 11/1/95. Members opined that the creation of additional scenarios to include this type of incident could be beneficial to agent personnel in the future. The final consensus of the SIRG members was that the deadly force policy was violated in this incident although SA [redacted] believed that the use of deadly force was reasonable. As a result of this discussion, SIRG members recommended that additional scenarios be added or that current scenarios be fine-tuned to assure compliance with the deadly force policy. Discussion included the fact that scenarios cannot specifically address each shooting incident. This discussion resulted in the members recommending that the Director be advised of the findings of the SIRG, and of the recommendation that the OGC implement a review of the deadly force policy to ensure proper interpretation of the policy.

b6
b7C

Although no formal recommendations were made regarding training or safety issues, several observations were made by SIRG attendees. The first observation concerned the use of better communication to formulate an arrest plan and to implement a felony vehicle stop. Members concurred that a better plan could have been formulated to ensure a more successful stop of the vehicle. Members believed that the supervisor should have had more complete dialogue with all participants involved in the incident. The TD attendee also commented on his concern for the lack of attention provided to the crime scene. As indicated in the shooting report, there were several recollections of the number of rounds fired by individuals at the scene. The total number of rounds ranged from

b6
b7C

one to four. However, a search of the area resulted in the recovery of two shell casings from one weapon and no casings from the second weapon. Information provided indicated that the felony car stop took place on a gravel road with an area of very long grass and weeds and was surrounded by a heavily wooded area, none of which was conducive for retrieving shell casings. Although photographs were taken of the scene, there were no sketches or notations on the photographs, which limited their value to the SIRG.

Another observation made by SIRG members involved the request made to FBIHQ for approval to use CS gas. Members unanimously agreed that telephone contact with FBIHQ in this situation was unnecessary and certainly not required. Members reiterated the fact that the decision to use gas is a decision that is made by the SAC.

The last observation made by the SIRG resulted in the opinion that the use of deadly force was most likely reasonable in this incident, however, outside the deadly force policy. The TD representative emphasized that the surveillance of the subjects could have been continued until additional assistance arrived on the scene and that the car stop was implemented with minimum resources available.

b6
b7C

The last recommendation of the SIRG pertained to SA [redacted] neglect to be properly armed. As noted in the report, SA [redacted] left his Bureau assigned weapon in the Indianapolis Office by mistake. SA [redacted] sworn statement indicated that his weapon was in a fanny pack which he left under the mail slot on his desk. Members considered the fact that SA [redacted] had recently graduated from the Academy; however, noted that he violated two of the FBI's most basic firearms policies, i.e., SAs must be armed or have immediate access to a firearm at all times when on official duty unless good judgment dictates otherwise, and each SA is personally responsible for the security of weapons under his/her control. SIRG members recommended that SA [redacted] be given a letter of censure for his violation of the deadly force policy and his failure to be appropriately armed. It was also recommended that he be given additional training in the FBI deadly force policy.

Memorandum from [redacted] to Mr. Gore dated 9/17/96
Re: Administrative Inquiry
Shooting Incident
7/2/96
Indianapolis Division

b6
b7C

ADDENDUM: OFFICE OF THE GENERAL COUNSEL (OGC) 10/29/96 AAA:tdj

On 8/20/96, the SIRG met to discuss the above-captioned shooting incident, and differing views were reached concerning whether the use of deadly force in that instance was in compliance with the FBI's current policy. There was also a failure to reach a consensus opinion in the field office: the Assistant Inspector who directed the investigation indicated in the Observation Section of the report that the use of deadly force was justified; the SAC took the opposite position. As a result, recommendations were made by the SIRG that the Office of the General Counsel (OGC) revisit the policy and the current training package in an effort to eliminate the confusion that has developed concerning the use of deadly force against a fleeing felon.

For the record, it is our view that the deadly force policy was violated in the Indianapolis incident because of the failure to establish "imminent danger" to the Agents or others: (1) there was no on-the-scene or recent evidence that the subject was armed; (2) the facts indicate that the subject was fleeing into a wooded area to escape capture rather than seeking the tactical advantage of cover; and (3) given the presence of several vehicles available to the Agents during the time the subject was fleeing, a safer alternative was available to them than using deadly force.

Nevertheless, because of the difficulties being experienced in interpreting the policy and the training package, we are submitting to the SIRG, via this addendum, a proposed revision to a portion of the training package which we hope will more clearly illustrate the parameters of the policy as it applies to the fleeing fugitive. We have focused our attention on issues found to be troublesome in the Indianapolis case:

(1) Can a fleeing fugitive be presumed to be armed and dangerous based on past history, or is contemporaneous, on-the-scene evidence of a weapon required?

(2) Must the fugitive be fleeing to a specific position of cover, or is the fact that cover of some type is available sufficient.

**Details of the Shooting Incident**

This shooting incident was a result of an investigation of a suspected bank robber and his accomplice wife who were suspected of committing bank robberies in the Syracuse, New York, area. The Syracuse Resident Agency (SRA) had developed information that these two individuals were prime suspects in a number of bank robberies committed over a five year period. It was also known that the bank robberies committed by the subject, Ronald Eric Petersen, had become progressively more violent. Petersen had utilized and fired a weapon on several occasions and used military smoke grenades to effect his escape on at least two occasions.

The Albany Division had advised agents in the Rochester RA that the suspects were casing banks in the Henrietta, New York area. For several days prior to the shooting incident on 8/15/96, agents of the Rochester RA, in coordination with the Syracuse RA, had surveilled the subjects in the Henrietta area. The Buffalo Special Weapons and Tactics (SWAT) Team had been called out on four occasions in preparation for an anticipated arrest of Petersen prior to his attempting another bank robbery. Surveillance units anticipated making the arrest of Petersen's wife and accomplice, [redacted] who would be in another vehicle some distance from the bank. It was also known that [redacted] would be in two-way radio contact with Ronald Petersen.

On 8/15/96, at approximately 10:00 a.m., Supervisory Senior Resident Agent (SSRA) [redacted] of the Rochester RA received a call from the SRA alerting him that surveillance units were following the subjects. According to Syracuse agents, it appeared that the subjects were traveling into Rochester's territory. Due to the absence of SAC Wolfinger, SSRA [redacted] notified ASAC Virgil D. Woolley, Jr., of the situation. The SWAT and surveillance teams were alerted and briefed with the updated information. Throughout the day, the SWAT Team practiced felony car stops while surveillance units monitored the subjects' activities. Preferable locations for making the felony car stop were identified and numerous briefings were held to plan the arrest, provide intelligence, and give instructions to all participants.

b6
b7C

Petersen and his wife were observed for several days by the Rochester and Syracuse surveillance teams and were specifically observed throughout the day on 8/15/96, preparing to rob a bank in the vicinity. Petersen was seen placing a stolen switch vehicle in a parking lot, changing license plates,

dressing up in preparation for a robbery including the fact that he put on a bullet proof vest and possessed a two-way radio. By monitoring Petersen's movements and activities, enough probable cause was developed to arrest Petersen and his wife for attempted bank robbery.

The Buffalo SWAT Team effected a felony car stop at approximately 4:30 p.m., and attempted to arrest Petersen while he was parked in a stolen van. Upon being confronted by SWAT agents, Petersen was non-compliant and for a period of one to two minutes Petersen was observed looking around, claiming he could not hear the commands and lowering his hands after continuously being directed to keep them up. Petersen suddenly chose to rapidly accelerate his vehicle directly at several agents positioned in the front of the van. This caused the agents to direct their fire at Petersen in order to protect themselves and their fellow agents. According to all statements, the shooting began almost instantaneously with the sudden movement of the van and since all agents were firing within moments of each other it was unknown who fired first.

Petersen's van lunged forward 10 to 15 feet, suddenly turned sharply, and made almost a 90 degree right turn. The van traveled approximately 75 yards before hitting a brick wall of a building and stopping. Approximately 87 to 89 shots were fired by agents; however, the subject did not fire any of his weapons. Petersen was pronounced dead on the scene. Subsequently, the cause of death was determined to be multiple gun shot wounds.

The ASAC, who was on the scene, made appropriate notifications. [redacted] was arrested by surveillance personnel in another location and charged with one count of conspiracy to commit bank robbery. During an interview, [redacted] confirmed that Petersen was going to rob a bank and also stated that he was involved in several previous robberies. [redacted] further noted that Petersen was committed to resisting if confronted by law enforcement. b6 b7C

Search warrants were executed for all of the subject's vehicles, his residence and storage unit. Searches recovered a cache of weapons and explosives, as well as notebooks, maps, masks, license plates, and clothing linking Petersen to previous robberies.

To: Inspection Division From: Inspection Division
Re: 66-19157-6, 5/30/1997

This shooting incident was scheduled for discussion by SIRG members at its 10/8/96, meeting. Due to information needed by the SIRG and not contained in the original shooting report, a limited discussion of this shooting incident was held.

SIRG members noted the fact that all shots fired were intentional discharges by the SAs and members unanimously concurred that the use of deadly force was justified in this incident.

Training and safety issues discussed at the 10/8/96, meeting included the following facts: 1) SWAT Team members should have worn SWAT gear to ensure that the subject knew who controlled the situation; 2) the absence of command and control at the scene resulted in confusion to SAs; 3) the creation of a crossfire in a felony vehicle stop after numerous practice scenarios to avoid this situation; 4) standard protocol for felony car stops was not adhered to; 5) containment of the subject's vehicle was discussed but not accomplished; 6) the choice of weapons used in the incident was questionable; 7) the lack of coordination between the arrest and SOG teams; and, 8) the abandonment of the arrest plan without exigent circumstances contributed to confusion and left an escape route for the subject's vehicle. Members also noted that at least one SA was not advised of the arrest plan and therefore disregarded instructions.

Based on a request of the SIRG Chairman, further interview of ASAC Virgil D. Woolley, Jr., and Senior Supervisory Resident Agent [redacted] was conducted by [redacted] to clarify issues relating to the arrest plan and information provided to the participants about the arrest plan.

The SIRG met again on 10/25/96, to further discuss this shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Acting Deputy Chief, Criminal Section, Civil Rights Division, USDOJ; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; J. C. Carter, Section Chief, Personnel Management Section, Personnel Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Unit Chief, Policy Planning and Analysis Unit, Criminal Investigative Division;

b6
b7C

[redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted], Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office. The two non-voting attendees were: SSA [redacted] Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and [redacted] Inspection Analyst, Office of Inspections. b6 b7C

Members again began discussion of this shooting incident and again reiterated the fact that "command and control" were two elements missing in this incident. The SIRG Chairman advised that additional information was needed to conclude discussion of this incident and advised that specific information would be obtained from Buffalo and this incident would be discussed at a December SIRG meeting.

By electronic communication dated 11/4/96, the SIRG Chairman specifically addressed four areas that required clarification by the Buffalo Division. The first issue specifically addressed by the SIRG Chairman to the Buffalo Division was: (1) Were ASAC Woolley, SSRA [redacted] and SSA [redacted] armed and wearing protective vests? Buffalo responded that the three individuals were armed and that ASAC Woolley and SSRA [redacted] were wearing protective vests; however, SSA [redacted] admitted that he was not wearing his protective armor. SSA [redacted] acknowledged that all participants had been directed by the ASAC on several occasions to wear their protective vests and further, that he had reminded and directed the SAs involved in this incident to wear their vests. The original shooting report also indicated that SAs [redacted] and [redacted] did not utilize protective armor. This information resulted in the recommendation by SIRG members that SSA [redacted] SA [redacted] and SA [redacted] receive letters of censure for not wearing protective vests. b6 b7C

The second question pertained to the arrival time of the ASAC in Rochester after notification was made that the subject was under surveillance and was believed to be headed from Syracuse to Rochester. Based on the Buffalo Division's response, there was no delay in the arrival of the ASAC. Once notification was made to the ASAC, an immediate departure was made for Rochester.

The third issue requiring clarification was the previous issue discussed involving the lack of "control and

command". Based on a thorough response by the Buffalo Division, it was apparent that the ASAC was intimately involved in the decision making and the planning of this arrest and assumed appropriate command, control and operational oversight of the situation upon his on-scene arrival.

The last question pertained to the use of alternate SWAT members in the arrest of Petersen. The SIRG Chairman asked why alternate members were utilized in the arrest and asked Buffalo to define the level of training provided to the alternates. The Buffalo Division indicated that in an effort to have available two six-man teams, and with the absence of three full-time SWAT members, they utilized two First Office Agents (FOAs). One FOA had prior military experience and both SAs had trained at monthly SWAT training sessions for six months with the permanent SWAT Team members. The third alternate was a full-time member of the division's SWAT Team but had not attended basic SWAT training at the time of the shooting incident.

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

The SIRG met again on 12/30/96, to finish discussion of this incident. As previously mentioned, members had several lengthy discussions on this shooting incident. The first issue discussed involved the felony car stop attempted by the SWAT team. As noted by SIRG members, considerable emphasis was placed on avoiding potential crossfire during the planning stages for the felony car stop. However, SA [redacted] had positioned himself on the right side of the subject's van and SWAT agents and perimeter personnel were unaware of his location. Discussion also centered around the fact that although not part of the plan, SA [redacted] was attempting to assist the arrest team. Members noted that it appeared there was confusion about the arrest plan to all participants except SWAT team members which ultimately resulted in participation of other individuals not fully aware of the plan.

b6
b7C

The second issue related to the adequacy of planning in this incident. Members reiterated the fact that an absence of command and control at the scene resulted in confusion to SAs. It was noted that SA [redacted] was not aware of the arrest plan and did not know that this was intended to be a SWAT team arrest. SIRG members recognized the fact that SA [redacted] actions could have created crossfire problems; however, it was also recognized that his actions saved the day since he was credited with firing the shots that killed the subject. The following areas were identified by SIRG members as problems with the adequacy of planning: 1) containment of the subject's vehicle was discussed, however, never accomplished since the right flank was left open; 2) the felony car stop video was not adhered to and a suggestion was made by SIRG members that all SACs and Principal Firearms Instructors be reminded to view the film regarding car stops made after the Miami shooting; 3) a definite lack of coordination existed between the SOG and arrest teams; 4) although a single command structure was practiced during training exercises, this structure was not adhered to on sight; and, 5) a proper perimeter was not established to initiate a felony car stop. The Special Agent in Charge of the Buffalo Division is being advised of these issues for an in-depth review to ensure they do not recur.

b6
b7C

Members discussed the number of rounds fired during the incident and noted the lack of fire discipline by the SAs involved. Members recommended that the Training Division, incorporate appropriate training regarding fire discipline in connection with mandated quarterly firearms training.

The next issue involved the weapons used by participants initiating the car stop. Members noted the fact that no SWAT team member had slugs to use and that few shoulder weapons were available.

A short discussion was held regarding the continual problems with communications. A statement was made by participants that difficulty existed in radio communications. Specifically mentioned was the fact that two divisions were involved in the incident and there was only one common compatible channel with the Buffalo car-to-car channel having limited range and capabilities. This resulted in the recommendation of the SIRG that the Information Resources Division (IRD) determine the problem with the Buffalo car-to-car channel capabilities.

To: Inspection Division From: Inspection Division
Re: 66-19157-6, 5/30/1997

**LEAD(s):**

**Set Lead 1:**

That the Adjudication Unit, Office of Professional Responsibility forward letters of censure to SSA [redacted] SA [redacted] and SA [redacted] for their neglect in utilizing protective vests during this incident.

b6
b7C

**Set Lead 2:**

That the Training Division, Firearms Training Unit, remind all SACs and Principal Firearms Instructors to view the film regarding car stops made after the Miami shooting.

**Set Lead 3:**

That the Training Division incorporate appropriate training regarding fire discipline in connection with mandated quarterly firearms training.

**Set Lead 4:**

That IRD determine the problem with the Buffalo car-to-car channel capabilities. Upon resolution of the communication problem, IRD should follow-up information with the Buffalo Division and advise all field offices.

## Details of the Shooting Incident

At approximately 4:00 p.m., on Sunday, 10/20/96, three tourists at the Bonneville Lock and Dam, North Shore Visitor Center, in North Bonneville, Washington, provided a small tape cassette player to a visitor center Ranger. The cassette player was found in a telephone booth adjacent to the visitor center building. A handwritten note stating "play me" was taped to the cassette player. The message on the tape was a male voice stating, among other things, that there was a bomb in the building and threatening to blow up the Dam. The message further stated, "I want fifteen thousand dollars, two semi-automatic nine millimeter Uzis and I want a car with a female officer, unarmed and unwired....You follow us, she dies. Like I said, I find a wire or an armed weapon on her, she will die and then the dam will blow. .You got two hours my friends." The FBI was notified at approximately 5:00 p.m., and SA [redacted] responded to the scene at approximately 6:30 p.m. SA [redacted] Oregon State Police Trooper [redacted] and others listened to the extortion tape. At approximately 6:45 p.m., while exiting the closed visitor center to examine the telephone booth where the tape cassette was found, SA [redacted] and Trooper [redacted] were confronted by an assailant. The assailant was later identified as Nathaniel Wayne Enricky Milligan. Milligan pointed a silver-barreled rifle at SA [redacted] from a distance of approximately seven yards. The rifle, which was outfitted with a scope, resembled a Ruger, Mini 14, semi-automatic weapon, however, was later identified as a Ruger .22 caliber rifle. The rifle was in Milligan's right hand held against his waist. In his left hand, which he held in the air, was what appeared to be a portable police radio or scanner. This object was subsequently identified as a Bearcat police scanner. Milligan asked where his money was and stated that he had the bomb. Milligan also advised SA [redacted] that he had been watching them since their arrival. Under the pretext of obtaining the demanded items, SA [redacted] and Trooper [redacted] backed into the visitor center, leaving the subject outside in the dark. [redacted] and [redacted] alerted employees that a man was outside with a rifle and a Dam employee called 911 to request assistance for SA [redacted]

b6
b7C

b6
b7C

Trooper [redacted] watched the front entrance for the subject and radioed his dispatch for assistance. Skamania County Sheriff's Unit and the Washington State Patrol responded. [redacted] Chief of Security at the Dam, led SA [redacted] down one level and out the back door, accidentally locking himself out. SA [redacted] moved around the area east of the visitor center to

his Bureau vehicle and obtained his Bureau shotgun and put on his protective vest and his FBI baseball cap. SA [redacted] observed police cars responding to the locked front gate and called 911 by cellular phone to report his location, but the police left the area before he could contact them.

[redacted] walked around the area east of the visitor center and was confronted by Milligan at gun point from a distance of 15 to 20 yards. Milligan ordered [redacted] to drop his gun and Milligan advised that he was not armed. Milligan then ordered [redacted] to "Go tell them to get the cars out of here. Hurry. Move." [redacted] followed by SA [redacted] entered the visitor center front door, and reported his encounter with Milligan. SA [redacted] and Trooper [redacted] exited the visitor center in an effort to locate and isolate the subject. SA [redacted] spotted Milligan near the fish viewing building which is east of the visitor center and he and Trooper [redacted] worked their way towards the building. Milligan moved around the building where he spotted and orally challenged Trooper [redacted] at gun point from approximately 36 yards away. Milligan repeatedly ordered Trooper [redacted] to put down his weapon and come out from his position of concealment. SA [redacted] heard Milligan's voice and moved along the west side of the building towards the sound of his voice. SA [redacted] also heard Trooper [redacted] say that he was putting down his weapon. SA [redacted] believed that the subject had disarmed [redacted] and that the trooper was in imminent danger. At that point, Milligan spotted SA [redacted] shadow and orally challenged him. SA [redacted] moved away from the building attempting to see Milligan and was confronted by him from a distance of about nine yards. Milligan was holding his rifle with both hands with the barrel pointed directly at SA [redacted] Fearing that he would be shot, SA [redacted] fired one 00 Buck round from his shotgun, striking Milligan in the torso area. When Milligan did not fall, SA [redacted] immediately fired a second round, which was a rifle slug, again striking Milligan in the torso area. Milligan fell down and stated, "Why did you shoot me? I'm a manic depressive. There isn't a bomb."

b6
b7C

b6
b7C

Trooper [redacted] handcuffed the subject and SA [redacted] called Skamania County 911 to notify them of the shooting and requested immediate medical emergency service. The subject's weapon, which contained a loaded magazine, was rendered safe by Trooper [redacted] who ejected one live round from the chamber. Milligan was identified by a responding Skamania County Sheriff's Deputy. Ambulance and helicopter medical personnel responded and provided trauma care; however, Milligan died at the scene.

Security sweeps at the Dam and at Milligan's residence revealed no actual bomb material. Materials located at Milligan's residence included paper, duct tape, and audio-cassettes consistent with the tape cassette player and note left inside the telephone booth at the visitor center. The extortion demand cassette tape was subsequently played for two of the subject's parole counselors, who positively identified the voice as Milligan's. Milligan had also left a recorded telephone message on a probation counselor's voice mail at 1:42 p.m., on 10/20/96, advising that he had a .22 caliber weapon and ammunition. Further investigation revealed that Milligan was a convicted sex offender and child molester who was released from juvenile detention in February 1996.

On 12/30/96, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Chief Inspector, Office of Inspections, Inspection Division; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted], Acting Deputy Chief, Criminal Section, Civil Rights Division, USDOJ; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; Robert M. Blitzer, Section Chief, Domestic Terrorism Operations Section, NS-7, National Security Division; Charles L. Owens, Section Chief, Financial Crimes Section, Criminal Investigative Division; [redacted] Unit Chief, Employee Assistance Unit, Personnel Administration and Benefits Section, Personnel Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; and, [redacted] Supervisor, Washington Field Office. The only non-voting attendee was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that the use of deadly force by SA [redacted] was justified. Members noted the fact that

To: Inspection Division From: Inspection Division
Re: 66-19157-50, 1/9/97

SA [redacted] actions were appropriate and that the use of two shots in this shooting incident was warranted. The SIRG commented on the fact that SA [redacted] was appropriately armed and in control of the situation. The only observation made by the SIRG involved the submission of SA [redacted] weapon for examination. The Training Division representative indicated that weapons should be submitted for examination only when information is needed for forensic purposes.

**LEAD(s):**

b6
b7C

**Set Lead 1:**

That no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

**Details of the Shooting Incident**

On 10/21/96, while conducting a surveillance of drug subject [redacted] a Houston Special Operations Group (SOG) team consisting of five agents followed the subject to a local restaurant where he remained for approximately two and one half hours. At approximately 8:45 p.m. [redacted] exited the restaurant carrying a black object in his right hand and walked to his vehicle. After a moment at his vehicle, he returned to the restaurant with a handgun. [redacted] actions were viewed through binoculars by SA [redacted] who was one of the SOG members. SA [redacted] radioed the information to the entire SOG team. After a few seconds, the subject exited the restaurant and fired two rounds into the lock and frame of the opened restaurant door, shattering its glass. SA [redacted] continued to radio events to team members as [redacted] re-entered the restaurant and SA [redacted] heard four or five more shots fired inside the restaurant. SOG members were alerted to the shooting and began moving towards the restaurant. [redacted] departed the restaurant and began walking easterly towards an adjacent bowling alley parking lot. SA [redacted] had positioned himself in the parking lot of a Diamond Shamrock Service Station east of the restaurant and north of the bowling alley. While passing through the parking lot, [redacted] was challenged by an armed security guard. The subject immediately fired upon the guard striking him on a bullet pouch on his belt. SA [redacted] who was wearing body armor, exited his vehicle and took cover behind his open driver side door. [redacted] fired at SA [redacted] who returned fire with five rounds, striking the subject once in the left leg above the knee.

The subject fled to an adjacent street where he was found unconscious between two residences. [redacted] was arrested by the Houston Police Department (HPD) and transported to the hospital where he was treated for a wound to his left leg and subsequently released into the custody of the HPD. [redacted] was charged by the Harris County District Attorney with murder and aggravated assault.

On 1/16/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted], Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; J. C. Carter, Section Chief, Personnel Management Section, Personnel

Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted], Supervisor, Washington Field Office. The only non-voting attendee was [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

**Observations and Recommendations of the SIRG**

b6
b7C

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that the use of deadly force by SA [redacted] in this incident was justified. Members noted that SA [redacted] had a reasonable belief that the subject posed an imminent danger of death or serious physical injury to him and to other persons, the subject would flee if possible, and the subject had left the scene of a violent crime. Members commended the actions of SA [redacted] and agreed that if he had not incapacitated the subject more injuries would most likely have occurred during this incident. Additionally, SIRG members noted that each SOG team member was wearing protective body armor and unanimously agreed that the SOG team should be commended for being prepared for this event.

## Details of the Shooting Incident

On 10/26/96, at approximately 10:00 p.m., the FBI received information that [redacted] a fugitive wanted for murder from the State of Virginia, had been in telephonic contact with his mother in Oklahoma. Information was provided that the telephone being used by [redacted] was located in Lakeland, Tennessee. SA [redacted] determined that the Tennessee Bureau of Investigation (TBI) was also attempting to locate and arrest [redacted] for a murder committed in Nashville in October of 1996. [redacted] was also on the TBI's Top Ten Most Wanted Fugitives list. b6 b7C

SA [redacted] located five additional agents and met the TBI and the Shelby County Sheriff's Department (SCSD) to formulate an arrest plan.

[redacted] may be located at an address believed to be Surplus Steel. Upon arriving at the location provided by TBI, it was determined that Surplus Steel was approximately three miles away from their location. Participants traveled to the appropriate location and the SCSD deputies closed the highway which fronted the business. The location consisted of three buildings, including a trailer located to the rear. FBI and TBI agents believed that if [redacted] was at the location, he would probably be in the trailer.

For a period of 10 to 20 minutes, SA [redacted] and other individuals attempted to call individuals out on the public address system located in the law enforcement vehicles. Law enforcement officials received no response from inside any of the buildings or the trailer. Additionally, attempts to get someone to answer the telephone met with negative results.

SA [redacted] plan, formulated in conjunction with TBI officials, was to send FBI and TBI Agents to the back of the property to monitor activities in the trailer as the other two buildings were cleared. After it was apparent that no one was located in the first building, attention was turned to the second building. Because of lights coming through the window, it became obvious that someone was probably in the building. b6 b7C

Each of the agents who moved to clear the building was armed with a shotgun or an MP-5. SA [redacted] moved to the center of the building and both he and SA [redacted] observed an individual laying on a cot in the building. After calling in to the subject

and announcing their identity and the fact that if he was [redacted] he was to be arrested and was ordered to put his hands up. As this information was announced, [redacted] flipped onto his stomach, hiding his hands under a pillow by his head. As the agents continued to talk to him for several minutes, the subject made a motion toward them, bringing his hands from under the pillow. As the subject made these movements, FBI SAs [redacted] and [redacted] and TBI ASAC [redacted] fired rounds from their weapons resulting in [redacted] being wounded. At that point, they determined that [redacted] had been hit and that SA [redacted] had been wounded by a ricochet shotgun pellet to the face and ear. A determination was also made that [redacted] gun, which was located in the cabin on the floor, had not been fired; however, an examination of the weapon indicated that a live round with an indented primer was under the hammer.

b6
b7C

[redacted] was arrested and transported to the Regional Medical Center in Memphis. SA [redacted] was treated and released for a superficial wound to his face.

This shooting incident was planned for discussion at the 1/16/97, SIRG meeting; however, due to time constraints discussion was delayed until the SIRG met on 1/28/97.

On 1/28/97, the SIRG convened at Quantico to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; J. C. Carter, Section Chief, Personnel Management Section, Personnel Division; Steven W. Dillard, Section Chief, Global Section - NS-2, National Security Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office.

b6
b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations,

and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously agreed that this incident involved intentional discharges of weapons of all participants who fired. Additionally, members concurred that the use of deadly force was in accordance with the current deadly force policy. Members noted that the subject posed a danger to SAs and officers, verbal warning was given to the subject and the subject made movements as if he were getting a weapon from under a pillow.

Additionally, the SIRG commended SA [redacted] for his actions prior to and during this shooting incident. Particularly noted was his discipline and the fact that he asserted strong leadership and control of the situation. Members noted that a thorough arrest plan was prepared, discussed and adhered to by the participants. All members concurred that SA [redacted] should be commended for his actions. The SIRG also commented on the fact that all participants utilized protective body armor in accordance with Bureau policy.

b6

b6
b7C

**Details of the Shooting Incident**

Based upon information provided by a credible cooperating witness and his attorney, on 11/6/96, [redacted] was observed and audio recorded completing a felonious narcotics transaction by FBI agents, Aurora Police Department (APD) officers, and members of the Metro Gang Task Force.

[redacted] was permitted to re-enter his vehicle before an attempt was made to arrest him. As soon as the police surveillance van came to a stop, blocking [redacted] escape from his parking space, Officer [redacted] exited the driver's side door of the police surveillance van with his weapon drawn and placed himself between the police surveillance van and the rear bumper of [redacted] vehicle. Officer [redacted] exited the cargo doors on the right side of the police surveillance van first and moved to his left to take a position at the left front of the police surveillance van covering the right side of the subject's truck. Officer [redacted] was second to exit the van and moved to his right to take a position at the left rear of the police surveillance van to cover the driver's side of [redacted] truck, and SA [redacted] was last to exit the surveillance van. SA [redacted] moved to his right to take a position in the area of the left rear of the surveillance van. Officers [redacted] and [redacted] and SA [redacted] wearing police raid jackets with the words "Police" stenciled across the front and each having his weapon drawn and pointed in the direction of [redacted] vehicle, repeatedly said in loud voices, "police", "stop", "put your hands up", and "freeze".

[redacted] was observed looking to his right, left and rearward at the approaching law enforcement officers as orders were being given to him to surrender. [redacted] was observed placing his left hand on the steering wheel and reaching downward with his right hand. The back up lights came on in [redacted] vehicle and Officer [redacted] immediately began to move to safety as the subject began moving rearward toward the police surveillance van. While moving backward, [redacted] vehicle collided into the van forcing [redacted] to flee from his location between the vehicles. [redacted] immediately accelerated forward while surrounded on the right, left and rear by law enforcement personnel, parked vehicles, an apartment building and a tree at his front.

b6
b7C

b6
b7C

At the time of impact with the surveillance vehicle, Officer [redacted] was at the front of the right side door of the pick up and began to move forward with the accelerating vehicle.

As the truck made a sharp turn to the left, the flat surface of the right front tire was exposed. Officer [redacted] began firing at the flat, treaded portion of the right front tire. Officer [redacted] discharged three rounds in the direction of the cab of the subject's vehicle. While observing the aggressive actions of [redacted] SA [redacted] began firing seven rounds into the driver's side door, window, and frame of [redacted] vehicle.

[redacted] yelled that he had been shot and subsequently followed instructions to open the driver's door at which time he was subdued and arrested. [redacted] suffered non-life threatening injuries receiving four wound areas to his upper torso and right lower arm. Law enforcement officials took charge of the scene ensuring appropriate medical assistance was obtained and the scene was properly secured. [redacted] was found to have had a Glock, Model G23 semiautomatic pistol with a fully loaded magazine within his reach in the passenger compartment of the vehicle.

b6
b7C

Fourteen impact points were identified and fourteen spent shell casings were recovered from the scene.

On 1/28/97, the SIRG convened at Quantico to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; J. C. Carter, Section Chief, Personnel Management Section, Personnel Division; Steven W. Dillard, Section Chief, Global Section - NS-2, National Security Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted] Supervisor, Washington Field Office.

b6
b7C

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational

standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

SIRG members unanimously concurred that this involved an intentional discharge of weapons by law enforcement participants. Members also concurred that the use of deadly force was justified and within the current deadly force policy guidelines.

The SIRG recognized the fact that Officer [redacted] would have violated the deadly force policy by shooting at the tire of the vehicle; however, members noted that his actions were not within the realm of discussion by the SIRG.

Members agreed that although not very specific, an operational plan, procedures and tactics were in place and adequate for the circumstances surrounding this incident. This plan resulted in the confinement of the subject.

The only safety issue discussed by the SIRG regarded Officer [redacted] placing himself in grave danger by aligning himself between the surveillance van and the subject's vehicle. SIRG members iterated the fact that even with the best planning, one must continue to factor in human nature, i.e., individuals may abandon cover and put themselves in harms way. b6 b7C

Lastly, the SIRG members discussed the review of the Denver Division's crisis management plan. Members expressed a desire to have this plan provided to all offices for their personal review and planning.

**LEAD(s):**

**Set Lead 1:**

That no administrative action be taken against SA [redacted] as a result of his involvement in this shooting incident.

To: Inspection Division From: Inspection Division
Re: 66-19157-15, 4/3/1997

## Details of the Shooting Incident

On 11/13/96, at approximately 10:53 p.m., Dearborn Police responded to a 911 call that a Michigan National Bank (MNB) guard had been shot at a branch of the MNB in West Dearborn. Upon arrival, police observed [redacted] standing next to a MNB van, over the body of the bank guard who appeared to have a single gunshot wound to the head.

[redacted] advised police that he was the driver of the MNB van and that the deceased bank guard was his partner and passenger. [redacted] advised that he and his partner had left the main pick-up center with approximately one million dollars, and that this bank was their first drop off. [redacted] stated that only his partner was armed since [redacted] had only been on the job for three months and had not received clearance to carry a firearm. According to [redacted] he pulled the van parallel to the ATM entrance with the passenger's side of the van being the closest. [redacted] advised that he and his partner opened the doors to exit the van and he heard a single gunshot and observed a black male on the passenger's side of the van holding a small handgun. Dearborn Police subsequently determined that $1.3 million had been taken during the robbery/murder.

b6
b7C

On 11/14/96, Dearborn Police took the videotape from the ATM to the Michigan State Police for enhancement of the image. The tape showed numerous inconsistencies with [redacted] previous statements as to what actually happened during the robbery. The videotape showed [redacted] briefly talking to a second individual at the rear of the bank van, as well as [redacted] pulling something out of the passenger side of the van. Police subsequently determined that the bank guard died from a point-blank, single gunshot wound to the head, and that the shot was fired from the left which was the driver's side of the van. A .32 caliber cartridge case was found under the victim's body. Subsequent investigation lead to a search warrant being obtained and executed at the home of [redacted] and his parents. During the search, information was gathered from [redacted] regarding Committ Rowson, III, who was [redacted] best friend and also his cousin. A vehicle registration search determined that Rowson owned a maroon Ford Ranger pickup truck.

b6
b7C

On 11/15/96, [redacted] was interviewed and admitted to owning a .32 caliber handgun. When asked to produce the handgun, [redacted] went to the bedroom and found that the gun was missing. He had several loose rounds of .32 caliber ammunition

which was provided to the police. One of the .32 caliber cartridges had been ejected from his gun sometime in the past. The cartridge was compared to the cartridge case found under the deceased bank guard's body and determined to have similar ejection marks.

Local charges for first degree murder, felony murder, and possession of a firearm during the commission of a felony were filed against [redacted] and Rowson on 11/15/96 and 11/18/96, respectively. b6 b7C

On the morning of 11/19/96, the Detroit Division received a telephone tip regarding an associate of Rowson. The name of the associate was [redacted] and he had allegedly received money from Rowson and purchased a car for him. Detroit Special Operations Group (SOG) conducted a surveillance of [redacted] residence including following two individuals in a Cadillac from [redacted] residence in Detroit to the Knights Inn in Warren, Michigan. It was determined that although Rowson had previously stayed at the Knights Inn, he was no longer at the motel.

SAs subsequently confronted [redacted] and obtained a consent to search his residence on the evening of 11/19/96. After the search, [redacted] was interviewed at the Detroit Office. During the interview, [redacted] admitted that Rowson had advised him that he and [redacted] referring to [redacted] had been involved in the robbery on 11/13/96. [redacted] further advised that Rowson had given him some money from the robbery to purchase a car for him. [redacted] advised that he purchased a 1983 Chevrolet Caprice for Rowson. [redacted] admitted that he rented a room for Rowson at the Knights Inn on Saturday evening, 11/16/96. According to [redacted] Rowson possessed a 9mm pistol and he had also seen Rowson with a small semiautomatic pistol. Rowson told [redacted] that the small semiautomatic pistol was given to him by his father.

On the morning of 11/20/96, SA [redacted] b6 b7C Acting Supervisor of Squad C-4, briefed the SAC regarding the status of the investigation and the activities that had occurred on 11/19/96. After briefing the SAC, SA [redacted] requested the assignment of four additional SAs to assist in conducting a neighborhood investigation within a five-mile radius around the Knights Inn. Four agents were assigned to conduct the neighborhood investigation. After being briefed at the Detroit Office regarding this assignment and being provided a photograph and physical description of Rowson, and advised of the fact that he was

considered armed and dangerous, the agents left the office at approximately 9:30 a.m., enroute to the Knights Inn, to conduct the investigation.

At approximately 10:30 a.m., on 11/20/96, SA [redacted] received a call from [redacted] who advised that Rowson had attempted to call him three times on the evening of 11/19/96. [redacted] provided a telephone number from the caller ID on his residence telephone. Investigation determined that the phone number from which Rowson was calling [redacted] was located at the Red Roof Inn in Warren, Michigan, which is located across the street from the Knights Inn. b6 b7C

Upon learning this information, SA [redacted] contacted the SOG squad and requested a surveillance around the Red Roof Inn in an effort to locate Rowson. After calling the SOG squad, SA [redacted] requested four additional agents to meet SA [redacted] at a strip mall near the Red Roof Inn. SA [redacted] also briefed SSA [redacted], supervisor of the Violent Crime Task Force. SSA [redacted] subsequently sent one additional agent and two task force members to the vicinity of the Red Roof Inn. Upon his arrival at the staging area, SA [redacted] and SA [redacted] advised the other agents and officers of the possibility of Rowson being at the Red Roof Inn. SA [redacted] was also notified by the SOG team leader, SA [redacted], that the SOG had established an outer perimeter around the Red Roof Inn.

Two SAs were sent to interview the manager of the Red Roof Inn to determine if Rowson was staying in the motel. According to the manager, he had not seen Rowson and a review of motel records determined that no individual had registered under the name of Rowson. The agents obtained computerized telephone records from the motel in an effort to identify the calls that Rowson allegedly made to [redacted] A determination was made that all but six rooms in the motel could be eliminated as possible locations in which Rowson could be the tenant. b6 b7C

At approximately 11:45 a.m., a possible look alike to Rowson was interviewed at a nearby International House of Pancakes; however, a determination was made that it was not Rowson.

SA [redacted] instructed nine agents and police officers to return to the initial staging area to develop a plan for checking the six remaining rooms. The plan called for SAs [redacted] and [redacted] to obtain housekeeping attire from the motel in order to pose as housekeeping personnel. The SAs would knock on the

various doors and identify themselves as housekeeping personnel in an effort to lure the occupants to the door for a positive identification. If there was no response to the knock, the plan was to utilize a pass key, provided by the motel management, in an effort to open the room door to identify any occupants. The plan called for SA [redacted] and seven additional agents and police officers to assist SAs [redacted] and [redacted] in this task. SA [redacted] discussed this plan with SA [redacted] the SOG team leader. SA [redacted] had also been in contact with SA [redacted] who was in the office awaiting approval of the federal arrest warrant for Rowson, regarding the developments at the Red Roof Inn and the plan to identify the occupants of the six rooms. b6 b7C

Prior to the implementation of the plan, SA [redacted] was advised that an SOG team member had stopped a pizza delivery person who was observed by the SOG departing the Red Roof Inn. The pizza delivery driver positively identified Rowson as the occupant of Room 248 and also advised that another individual was in the room. He provided a general description of the individuals in the room as well as providing a description of the clothes being worn by these individuals.

Based on the information provided by the delivery person, SA [redacted] developed an alternate plan that called for six agents, and two task force officers to approach Room 248 in an effort to effect Rowson's arrest. Previous investigation had determined that the room to the south of Room 248 was empty and that on the other side of Room 248 was a breezeway.

At approximately 1:40 p.m., SA [redacted] arrived at the Red Roof Inn with the arrest team consisting of six SAs including himself and two task force members. The team proceeded to the second floor balcony of the motel and continued to walk in a single file line down the balcony towards Room 248. According to SA [redacted] he briefed the SOG, via the Bureau radio, prior to initiating this plan. b6 b7C

SA [redacted] was aware of the pizza delivery identification, via radio communication from SA [redacted] and he relayed this information to his surveillance team and advised them to maintain their perimeter position. According to SA [redacted] he was not totally aware of the arrest plan details. It was further determined that SA [redacted] did not advise the Detroit Office of the pizza delivery person's identification of Rowson or his new plan to effect the arrest of Rowson. According to SA [redacted] he believed that SA [redacted] was monitoring the radio traffic in the office.

SA [redacted] plan called for an attempt to use a pass key to gain entrance into the room. While enroute to Room 248, the arrest team encountered a motel employee who provided a pass key. It had been decided that if the pass key plan failed, the agents would knock and announce their presence.

During the approach to Room 248, SA [redacted] noted that the curtains were open and the rooms empty for the two or three rooms to the south of Room 248. Upon reaching Room 248, the agents assumed a crouched position in order to avoid being seen through the window. SAs [redacted] and [redacted] set up on the north side of the door along with Officer [redacted] and were subsequently joined by SA [redacted] an SOG team member. b6 b7C

After the pizza delivery identification, SA [redacted] had proceeded to the Red Roof Inn where he observed the arrest team approaching from the south. SAs [redacted] and [redacted] positioned themselves on the south side of the door.

At the point of everyone assuming their position, SA [redacted] signaled SA [redacted] to attempt to utilize the pass key. The attempt was unsuccessful because the door was apparently dead bolted. At that point, SA [redacted] initiated the backup plan, knocking and announcing law enforcement presence and ordering Rowson to exit the room with his hands up. According to SA [redacted] he knocked and announced, "FBI, open the door, police open the door, FBI, open the door". SA [redacted] stated that he banged on the door several times and may have said, "Open the door or it's coming down". b6 b7C

According to SA [redacted] approximately five to ten seconds after announcing their presence, the door to Room 248 opened and a black male with a wild look on his face who was subsequently identified as [redacted] exited in a crouched position. SA [redacted] stated that at the time [redacted] began exiting the partially opened door of the room, he opened the door all the way and quickly scanned the room. He observed movement at the bathroom door. SA [redacted] pointed his weapon away from [redacted] toward the bathroom door at which time he observed a subject standing at the bathroom door who had assumed a shooting position. At that time, he saw a muzzle flash coming from what appeared to be a semiautomatic pistol. SA [redacted] stepped back from the doorway and all agents took cover.

According to SA [redacted] at the time of [redacted]s exit from the room, he scanned [redacted] in an effort to determine if he had a weapon. SA [redacted] yelled for [redacted] to get down on the

ground and as [redacted] took control of [redacted], SA [redacted] moved towards the doorway in an effort to observe other individuals in the room. At that time, SA [redacted] heard three or four gunshots being fired from within the room. He was unable to observe anyone in the room and thought that the gunshots were coming from the back of the room or possibly the bathroom area. According to SA [redacted], he fired five or six rounds from his 9 mm semiautomatic pistol in an effort to suppress the fire that was coming from the room. SA [redacted] who had assumed a high position, stated that he heard SA [redacted] fire a quick burst and then he began firing towards the area of the bathroom. SA [redacted] advised that he fired in that direction because it was the area where he last saw the individual who had assumed the shooting position. b6 b7C

After SA [redacted] and other agents backed away from the door, SA [redacted] radioed the agents in the Red Roof Inn area that shots had been fired. SA [redacted] also radioed the office that shots had been fired and requested assistance from the Warren Police Department (WPD). SA [redacted] requested additional support and back up as well as emergency medical service support.

SA [redacted] also spoke to SAC Joseph D. Martinolich, Jr., who was enroute to the scene with ASAC John D. Stapleton. SA [redacted] advised SAC Martinolich that he had requested emergency medical service, SWAT personnel, and Evidence Response Team personnel to the scene.

At the time of the shooting, SAs [redacted] and [redacted] were returning to the motel office to obtain housekeeping uniforms and a pass key for use in the original arrest plan. It should be noted that these two agents were never informed of the alternate arrest plan. Upon hearing shots fired, SA [redacted] instructed the motel manager to notify the WPD. b6 b7C

After the initial shots fired by Rowson and the agents' return fire, the agents backed away from the doorway with the door remaining open. The agents and officer who had been on the north side of the door took a position along the concrete wall in the breezeway. The agents and trooper who had been on the south side of the door beneath the window retreated to the south. From that point forward, there was no noise or response to the agents' commands for Rowson to exit the room. The motel room door remained open while the agents maintained cover of the doorway and attempted to call Rowson out of the room.

Numerous attempts were made to contact Rowson by hostage negotiators with negative results. After consultation

with hostage negotiators, SAC Martinolich arranged for several of Rowson's relatives to be brought to the scene in the event that they were needed in the negotiations. Attempts to make contact with Rowson in the room included telephone, voice commands, bullhorn with the telephone, and bullhorn without a telephone. Efforts to talk Rowson out of the motel room were terminated after receiving no response.

At approximately 4:00 p.m., a Michigan State Police dog handler sent in a dog to determine if Rowson was alive in the room. The dog's response upon entering and exiting the room indicated that there was not a live moving person in the room. Subsequently, the SWAT team entered the room and found Rowson apparently dead in the bathroom. Rowson was slumped against the tub with a semiautomatic pistol in the cocked position resting on his chest underneath his hand. An emergency medical team entered and confirmed that Rowson was deceased and the crime scene was secured.

According to the autopsy report of the Macomb County Medical Examiner, it was determined that Rowson died of two gunshot wounds to the head. The medical examiner certified the death as a suicide.

On 1/16/97, the SIRG met to discuss the above captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted], Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted], Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; J. C. Carter, Section Chief, Personnel Management Section, Personnel Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted], Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted], Unit Chief, Firearms Training Unit, Training Division; [redacted], Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and, [redacted], Supervisor, Washington Field Office. The only non-voting attendee was [redacted], Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

To: Inspection Division From: Inspection Division
Re: 66-19157-15, 4/3/1997

**Observations and Recommendations of the SIRG**

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

Discussion of this shooting by the SIRG concluded that the incident involved the intentional discharge of weapons by law enforcement personnel and that the use of deadly force was justified and within the current deadly force policy guidelines.

SIRG members made several observations regarding the lack of basic actions by personnel involved in the incident. These actions included the lack of notification to local authorities, failure to share information between the arrest team members, no clear operational or arrest plan, lack of management oversight on the scene and, the neglect of one SA to utilize protective armor as well as other participants not wearing raid jackets to identify themselves as law enforcement officers. One representative concluded that if this incident had been a practice session, it would have been considered a failure. Members noted that the local authorities were notified subsequent to the shooting incident. Although numerous issues were identified, this discussion resulted in a recommendation that SA [redacted] be censured for his neglect in utilizing protective body armor.

Further discussion of this shooting incident was held by the SIRG on 1/28/97. The following voting members of the SIRG were in attendance: Chairman, Thomas Lusby, Deputy Assistant Director, Inspection Division; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; J. C. Carter, Section Chief, Personnel Management Section, Personnel Division; Steven W. Dillard, Section Chief, Global Section - NS-2, National Security Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; Richard A. Marquise, Section Chief, Operational Support Section, Criminal Investigative Division; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted], Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, b6 b7C

Laboratory Division; and, [redacted] Supervisor, Washington Field Office.

b6
b7C

A presentation was made to the SIRG by Inspector-in-Place [redacted] who conducted the shooting investigation.

SIRG members reiterated that adequacy of planning was lacking in this event. Particularly noted by the members was the fact that although the SAC and the ASAC were briefed about the possibility of the subject being at one location, they were not advised when a positive identification of the subject was made by the pizza delivery employee. Also noted by the SIRG were the following facts: 1) one first office agent wore no protective armor, 2) FBI identification was not visible, 3) one SOG member who joined the team had no idea of the arrest plan, and, 4) no contingency plan was made to use the SOG in this situation.

Members also discussed the fact that ASAC Stapleton advised that the SAC is not notified of all arrests being made; however, he is advised when a high profile case is involved or a propensity for violence exists. Additionally, attendees discussed the fact that policy dictates that if a propensity for violence exists the SAC should be on the scene or designate a management official to be present. Members noted the fact that no direction was provided on-scene, an acting supervisor was in control of the on-scene incident, and that no evacuation was made until shots had been fired. Discussion focused on the fact that although this incident did not involve a Safe Streets Task Force, individuals making arrests that are potentially dangerous on a routine basis become complacent and neglect to notify office management. SIRG members unanimously opined that although these instances occur, armored car robberies should always be considered dangerous and not routine. The SIRG emphasized that the SAC should ensure that the necessity for adequate planning when conducting arrests is emphasized to all personnel. Further, SAC Detroit should, when appropriate, ensure local law enforcement is notified prior to arrests being made. Members also agreed that in the future management should invoke a management crisis plan at an early stage during high profile, possibly violent instances.

To: Inspection Division From: Inspection Division
Re: 66-19157-15, 4/3/1997

**LEAD(s):**

**Set Lead 1:**

That no administrative action be taken against SAs [redacted] and [redacted] as a result of their involvement in this shooting incident.

b6
b7C

**Set Lead 2:**

That the Administrative Summary Unit, Office of Professional Responsibility forward a letter of censure to SA [redacted] for his neglect to use protective body armor during this incident.

**Set Lead 3:**

That SAC, Detroit, be advised of the necessity for adequate planning when conducting arrests, particularly when violent offenders are involved; reemphasize the use of ballistic body armor and raid jackets by FBI agents conducting arrests; the need for notification to local authorities, when appropriate, prior to making arrests; and, the need for management to invoke a management crisis plan earlier in high profile possibly violent situations.

Non-voting attendees consisted of [redacted], U.S. Marshals Service (USMS), Enforcement Division, Arlington, Virginia; [redacted] Inspection Analyst, Office of Inspections, and [redacted] Computer Specialist, Information Resources Division (IRD). A presentation regarding this shooting incident was provided by Inspector [redacted]. Since this shooting inquiry was a joint investigation with the USMS, one representative from the USMS was also present.

b6
b7C

## Synopsis of the Shooting Incident

This shooting incident was a result of an investigation involving bank robberies and an Unlawful Flight to Avoid Prosecution (UFAP) warrant for [redacted] and his associate [redacted]. The shooting incident occurred on 1/18/96, as SAs and Safe Streets Task Force (SSTF) members of the Cincinnati Division attempted to arrest [redacted]. The subject left his residence at [redacted] Columbus, Ohio, and entered a van parked in the back yard near a garage. [redacted] failed to comply with commands to surrender, and moved from the driver's seat toward the back of the van. The subject was observed in a shooting position and approximately 46 shots were fired resulting in the minor wounding of [redacted].

b6
b7C

In December 1995, [redacted] and [redacted] were identified as prime suspects in the "BOMROB" major bank robbery investigation. This investigation involved the robbery of 18 banks located in seven midwestern states. In these robberies, the robbers left behind improvised explosive devices and frequently deployed a military smoke grenade to cover their escape. Both [redacted] and [redacted] were Federal fugitives based on UFAP warrants in the Atlanta Division. By teletype dated 1/5/95, FBIHQ notified all offices of the significance of this investigation and that [redacted] and [redacted] were possible suspects. The teletype also contained information regarding their possible involvement with

white supremacy and militia groups and that they should be considered armed and dangerous. An Atlanta Division teletype dated 1/5/95, also advised that both individuals should be considered armed and extremely dangerous. The teletype provided the following cautions: Vowed not to be taken alive; utilizes body armor; uses police scanners and knows federal and police frequencies; utilizes inert hand grenades as booby traps, survivalist, white supremacist, skin head associate, anti-Government, anti-military, and anti-law enforcement.

b6
b7C

On 1/15/96, information was received by the Cincinnati Division leading to the location of [redacted] was identified by surveillance units and he attempted to elude FBI SAs resulting in a foot chase. He ultimately surrendered and was arrested and was found to be armed with a weapon at the time of his arrest. He agreed to cooperate and assist the FBI in locating [redacted] The Cincinnati Special Weapons and Tactics (SWAT) Team traveled to Indianapolis, Indiana, on 1/16 and 1/17/96, in an attempt to locate and arrest [redacted] attempted to locate [redacted] through an involved network utilizing paging devices, however, the meet never occurred.

On January 17, 1996, the investigation in Indianapolis was discontinued and SAs were dispatched to Columbus, Ohio. This move was based on information provided by [redacted] indicating that he had a "safe house" in Columbus. He provided a consent to search and advised that [redacted] was the only other person with a key to this "safe house." SAs and SSTF members located the residence and determined that lights were on and the residence was occupied by a lone white male. Information from [redacted] and investigation by the surveillance units determined that there was a strong possibility that [redacted] was inside the residence.

Members of the SSTF and others maintained a surveillance throughout the night. All SWAT Team members went to the Columbus Resident Agency and held a briefing upon their arrival after midnight on the evening of 1/17/96. SWAT Team leaders surveilled the residence and formulated a plan and provided detailed instructions including deadly force policy while FBI SAs were in attendance. They met again the following morning and were updated regarding the situation and again went over the plan for arrest.

b6
b7C

Throughout the planning, SAC Jackson and ASAC Ragle were aware of the progress and provided instructions as needed. Due to the propensity for violence and the potential for explosives in the residence, the decision was made that [redacted] would not be arrested

inside the residence. The plan required that he be arrested as he departed the residence to enter the van parked in the rear of the residence. The detailed arrest plan specified individual roles and responsibilities for all arrest team members with the primary objective of arresting [redacted] after he entered his van which was facing an alley south of the residence. SAs were to block the east and west exits and other SAs would position themselves at the back of the residence to prevent the subject from returning to the residence. The following morning the arrest teams were in place at 7:00 a.m. The SAC and ASAC traveled from Cincinnati to be on the scene. b6 b7C

At approximately 9:45 a.m., [redacted] exited the residence and slowly proceeded to the van. SA [redacted] had a view of the backyard and provided radio instructions to other arrest team members detailing the movements of the subject. After [redacted] entered the van, SA [redacted] ordered the SAs in the front of the residence to move in to prevent the subject from re-entering the residence. When those SAs were in place, SA [redacted] ordered all units to move in to effect the arrest. Four vehicles entered from the east and four entered from the west. Several Agents immediately exited the vehicles, took a position of cover, and ordered [redacted] to raise his hands and come out of the van. Several Agents noted that the subject begin to comply and raise his hands; however, he abruptly moved his hands downward and rolled from the driver's seat into the middle of the van. As he reappeared, Agents observed a weapon in his hands. Immediately, seven FBI Agents and SSTF members fired into the van. The burst of approximately 46 rounds lasted less than ten seconds. Agents again commanded [redacted] to exit the vehicle and he reappeared with his hands up. He was bleeding from the face and complied with commands to place his hands and extend himself through the driver's side window. Deputy U.S. Marshal [redacted] approached [redacted] and placed him in handcuffs. [redacted] was pulled to the ground and searched without further incident. [redacted] had, in his possession, a .22 caliber Beretta handgun at the time of his arrest. b6 b7C

The SAC and ASAC immediately reported to the arrest scene and an ambulance was called for [redacted] A search of the van was conducted with additional weapons being found; however, no other suspects were located. Subsequently, a search of the residence was conducted. [redacted] had indicated there were explosives in the bathtub, however, changed that statement. The Columbus Bomb Squad was contacted and awaited a clearing search by the Cincinnati SWAT team which was conducted without incident. Numerous weapons, seven grenades and 13 pipe bombs were located in the residence.

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
1/18/96
Cincinnati Division

The white van bearing Iowa license [redacted] was examined subsequent to a search warrant on 1/20/96. Among evidence obtained was one pipe bomb, one hand grenade, (both exploded by the Columbus Police Department for safety precautions), a .22 caliber Beretta handgun on his person, one 9mm Luger Taurus pistol, one .380 automatic caliber Bersa pistol, one .223 Remington SGW carbine, model XM15A1. The FBI Laboratory examination determined that all were loaded and functioned normally when tested in the Laboratory. Additionally, all had been fired since the weapons were last cleaned. b6 b7C

Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

Members of the SIRG unanimously agreed that deadly force was justified in this shooting incident and that the planning of the incident was more than adequate. The group recognized that the surveillance and arrest was fast moving, SAs and Task Force members involved in the incident had been working on the situation for three days, body armor was used due to the knowledge that the subject would possibly be heavily armed, numerous briefings were held with SAs to emphasize the danger involved with the situation, and that the incident basically went according to the arrest plan. It was also noted that proper verbal warnings were made to the subject prior to shots being fired. This resulted in the recommendation that no administrative action be taken against any Bureau personnel involved in this shooting incident.

According to SAC Theodore Jackson, he arrived in Columbus at approximately 7:45 a.m., on the morning of January 18, 1996. After receiving a briefing from ASAC Ragle, SAC Jackson was taken to the arrest site. After driving by the residence, SAC Jackson and ASAC Ragle attempted to contact the Bureau plane on the radio; however, were unable to do so. In order to make contact with the airplane, a return trip to the office was attempted to get a hand-held radio to assist in communicating with the plane.

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
1/18/96
Cincinnati Division

b6
b7C

Based on ASAC Ragle's statement, he and SAC Jackson stopped to confer with SWAT Team Leader [redacted] and SA [redacted]. At this time, recontact with the Bureau plane was attempted. SA [redacted] succeeded in contacting the plane which was overhead. An attempt was made to return to the office to obtain additional hand-held radios, when radio traffic indicated that [redacted] was exiting the residence which precluded the acquisition of additional radios.

Based on these statements, SIRG members recommended that the IRD contact the Cincinnati Division, determine the problem with radio communications between ground units and the aircraft, resolve the problem in order to eliminate any recurrence and advise all offices of the results. One SIRG member stated that the least expensive resolution to this problem may involve the use of planes with repeaters installed.

A lengthy discussion was held regarding the use of "body bunkers" by participants in this incident. One member emphasized that "body bunkers" are not only for SWAT personnel and that all SAs should be trained to use bunkers. According to one SIRG member, continuous training for body bunkers is necessary and is not available to SAs who are not SWAT Team participants. Therefore, the SIRG recommended that the TD encourage additional training regarding body bunker use to SSTF members, non-SWAT Team SAs as well as other task force participants.

The last issue resulting in a recommendation involved the use of an M-16 Rifle by one SA during this shooting incident. Members noted that according to the SA's statement, he last qualified with this weapon in August 1995. Therefore, the recommendation was made that all SAs be reminded that qualification is necessary for M-16 use.

Additional observations made by the SIRG included the following:

One participant possessed a weapon with five shots. Members unanimously agreed that this participant was under-armed and should have been more heavily armed. Additionally, it was noted that some SA participants in this incident did not know what ammunition was in the magazine.

The second observation by the SIRG involved the "boxing in" of the subject's vehicle during this incident. The TD representative advised that the van was not effectively "boxed in" and could have been driven out by the subject. Additionally, one

member added that perhaps an attempt could have been made to disable the vehicle to draw the subject outside of the van such as flattening the tire.

SIRG members also observed that at the time of arrest, several SAs and SSTF members gave oral instructions to the subject. All members concurred that the responsibility to designate a "spokesman" to order the subject to surrender should have been included in the planning.

The last observation of the SIRG was the inappropriate language used by one participant at the time of the arrest. It should be noted that this issue has been previously discussed during SIRG meetings, and the TD representative advised that the language issue will be addressed during Principal Firearms Instructors training.

Mr. Gore 6/13/96

## Synopsis of the Shooting Incident

On 3/6/96, at approximately 12:15 p.m., Task Force (TF) officers spotted a U-Haul truck at a residence in Soddy Daisy, TN. Information obtained from an informant indicated that this residence was frequented by [redacted] a parole violator being sought by members of the Chattanooga Safe Streets TF. [redacted] an armed and dangerous fugitive, had previously served 17 years for bank robbery and was now wanted for numerous local armed robberies and aggravated assaults.

[redacted] step-daughter and step-son drove off in the truck at approximately 1:00 p.m., and the TF officers established a surveillance. The truck crossed into Georgia and at approximately 2:30 p.m., parked in the parking lot of the "Flying J Truck Stop" south of Rossville, GA. Four Special Agents (SAs) from the Rossville Resident Agency (RA) joined the surveillance. Hoping that [redacted] would meet the truck, an arrest plan was developed that focused on blocking and arresting [redacted] in the parking lot.

At 6:20 p.m., a red Oldsmobile with two occupants pulled into the space next to the U-Haul truck. The Oldsmobile was facing east and was parked driver door to driver door with the truck. SA [redacted] and TF Officer [redacted] drove by the Oldsmobile and positively identified [redacted] as the driver. Once the identification was made, the signal was given to execute the arrest plan.

b6
b7C

The blocking vehicles began moving into position. SA [redacted] pulled his vehicle in front of [redacted] vehicle and exited. He leveled his shotgun at [redacted] identified himself and advised [redacted] that he was under arrest. [redacted] immediately began backing up in an easterly direction at a high rate of speed. He swung the car around, shifted into forward gear, and accelerated northward out of the parking lot. At that point [redacted] saw two FBI vehicles coming at him, cutting off his escape. SA [redacted] had started running east towards [redacted] car. [redacted] quickly braked and shifted into reverse and backed fishtailing and sliding in a wide arc, ending up backing west directly towards SA [redacted]

SA [redacted] thought that he would be pinned against the U-Haul truck and feared for his life as well as the SAs behind him.

b6
b7C

SA [redacted] could not shoot the driver because the car sat low and his view was obstructed. Additionally, he did not know the identity of the passenger in [redacted] car. As the car's right rear brushed against him, SA [redacted] discharged his shotgun into the right rear tire in a final effort to stop the vehicle. The car stopped and then shifting into forward gear accelerated in a southeasterly direction. The car was bumped twice by one of the TF vehicles, spun completely around and subsequently headed south.

As [redacted] accelerated, SA [redacted] moved towards him taking aim with his shotgun. On two occasions, SA [redacted] had a shot but refrained from firing because he did not want to endanger bystanders and at that point [redacted] was no longer a threat to him. [redacted] completed a 180 degree turn around a light pole island and again headed north for the parking lot exit. [redacted] was rammed twice by a vehicle driven by Deputy U.S. Marshal [redacted] and finally forced to a stop against a curb. [redacted] and his wife, [redacted] were pulled from the vehicle and arrested. A 9 mm pistol was found on the vehicle's floorboard and a semi-automatic rifle in the trunk.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

b6
b7C

The first observation made by the SIRG members was the unanimous conclusion that SA [redacted] violated the deadly force policy by attempting to disable a vehicle by shooting the tire. However, members felt that the violation was mitigated by factors unique to this particular shooting incident. Members opined that SA [redacted] who was in fear of his life as well as other SAs and TF members, took the only action that he believed could possibly stop the vehicle. Further, the SIRG noted SA [redacted] use of good judgement in not shooting the driver considering the fact that an unknown, possibly innocent victim occupied the vehicle. This discussion resulted in the recommendation that SA [redacted] be orally admonished for his violation of the deadly force policy while taking into account his good judgement for abstaining from additional gunshots. Additionally, the SIRG recommended that the

b6
b7C

deadly force policy be reiterated to SA [redacted] to ensure his understanding of the policy.

The second issue discussed by the SIRG involved training issues relating to this incident. Members noted that although an arrest plan was developed, the subject's car was not properly blocked. Therefore, SIRG members recommended that the TD develop training scenarios for vehicle blocks and ensure dissemination to all offices.

Although not part of a formal recommendation, SIRG members noted that protective body armor was not utilized by all SAs involved in this incident.

Re: Administrative Inquiry
Shooting Incident
3/21/96
Las Vegas Division

(2) That the Administrative Summary Unit (ASU), Personnel Division (PD) prepare and forward a letter of censure to SA [redacted] as a result of his involvement in this shooting incident. The letter should advise SA [redacted] that he is being decertified as a firearms instructor and is being prohibited from the Special Weapons and Tactical (SWAT) program pending the results of further review by the PD. Additionally, the PD should review the previous shooting incident involving SA [redacted] as well as the one he witnessed involving SA [redacted] During the incident involving SA [redacted], SA [redacted] continued a shooting demonstration after SA [redacted] seriously wounded himself and two spectators were slightly wounded. Thereafter, in consultation with the SAC, Las Vegas, determine if a fitness for duty examination is needed.

b6
b7C

(3) That the Assistant Director (AD), Training Division (TD) decertify SA [redacted] as a firearms instructor and remove him from the SWAT program pending the outcome of PD's review of SA [redacted] involvement in previous shooting incidents and discussions with SAC, Las Vegas.

(4) That the TD prepare and disseminate car blocking procedures including the fact that these procedures should be addressed during operations planning.

(5) That the AD, Inspection Division (INSD), provide instructions to all personnel responsible for the completion of shooting incident reports regarding the need for detailed information regarding field of fire during initial shooting inquiries.

b6
b7C

## Synopsis of the Shooting Incident

On 3/21/96, during a planned arrest of FBI subject [redacted] Las Vegas Division SAs were involved in a shooting incident. The shooting incident occurred as [redacted] attempted to flee the area to avoid his arrest.

b6
b7C

A federal arrest warrant had been issued for [redacted] by the U.S. District Court, District of Nevada, on 3/20/96. Plans called for the arrest of the subject following an undercover purchase of drugs. This drug purchase was the fifth purchase in a series which had been orchestrated by an undercover police officer participating in the Weed and Seed Task Force initiative. Arrest plans for [redacted] were essentially finalized during the evening of 3/20/96, and were the subject of a thorough briefing of all personnel involved in the arrest on the morning of 3/21/96. SAs and officers deployed at the scene of the planned arrest, the Castaway's Casino parking lot, Las Vegas, Nevada, for the anticipated 11:00 a.m., arrest.

Following the arrival of [redacted] the completed purchase of cocaine by the undercover officer and the signal given for [redacted]

arrest, FBI SAs and police officers converged in an attempt to block the subject's vehicle and effect his arrest. At that point, [redacted] executed an extremely dangerous and aggressive driving maneuver in which he struck both blocking vehicles and FBI SA [redacted] who was knocked to the ground. [redacted] continued, driving directly into SA [redacted] sending him careening across the escaping vehicle's hood and smashing the vehicle's windshield before SA [redacted] was able to roll off during [redacted] rapid acceleration. As [redacted] vehicle sped through the Castaway Casino parking lot, three FBI SAs and two police officers fired at [redacted] who was crouched in the driver's seat. As [redacted] attempted his escape onto Decatur Boulevard, both marked and unmarked units of the Las Vegas Metropolitan Police Department (LVMPD) and the FBI gave pursuit and attempted to locate the subject's vehicle. [redacted] successfully eluded capture for that day.

b6
b7C

On 3/22/96, [redacted] attorney, surrendered [redacted] into the custody of the U.S. Marshals Service in Las Vegas. Following negotiations with [redacted] vehicle was recovered, impounded, and processed by the LVMPD. [redacted] received medical treatment for "cuts on his back and right hand and a cut on his left proximal elbow". Medical records for [redacted] reveal that he suffered "several scratches and superficial puncture wounds posterior back" and that "palpable buckshot is felt in the skin". Further, [redacted] experienced a "small puncture wound over the right thenar eminence (fleshy area below the thumb) and tenderness in the thenar muscle group". Regarding the elbow wound, a "full range of motion of the elbow" and "no evidence of joint involvement" were noted. [redacted] was given an antibiotic and recommended to seek follow-up care.

During the planning and attempted arrest of subject, Assistant Special Agent-in-Charge (ASAC) Walter B. Stowe was acting in place of Special Agent-in-Charge Bobby L. Siller, who was out of the division. ASAC Stowe approved a verbal presentation of the arrest plan. The written arrest plan which was approved by Supervisory Special Agent (SSA) [redacted] sets forth the authority to arrest [redacted] details of [redacted] violent history and past attempt to flee during a prior arrest. Additionally, the written plan included a thorough plan with individual and team assignments for the anticipated arrest of the subject. The plan, and an all-hands meeting on the morning of the planned arrest, emphasized the Department of Justice Deadly Force Policy and the requirement for participating personnel to wear appropriate body armor and identification. Participating personnel were equipped

b6
b7C

with both body armor and identification, and issued verbal identification and commands during the attempt to arrest [redacted]

Interviews and ballistics examinations determined that SA [redacted] fired three rounds of service ammunition from his Bureau authorized pistol after being struck and knocked to the ground by [redacted] vehicle. After the shooting incident, SA [redacted] was treated by paramedics at the scene, determined to have only superficial injuries, and released.

b6
b7C

Ballistics examinations determined that SA [redacted] fired one round of service ammunition from his Bureau authorized pistol after being struck by [redacted] vehicle. SA [redacted] was unaware that he fired a round, believing that he withheld firing for fear of hitting a police van. SA [redacted] was transported to a medical facility complaining of multiple abrasions and lower back pain. Medical records indicate that SA [redacted] indicated he dug out metallic fragments from three areas in his right thigh. He was determined to have multiple abrasions on his upper extremities and puncture wounds in his right thigh. SA [redacted] was issued medication for pain, inflammation and possible infection, and released.

Interview and ballistics examinations determined that SA [redacted] fired 15 rounds of service ammunition from his Bureau authorized Colt AR-15 A3 after [redacted] escaping vehicle struck SAs [redacted] and [redacted] It was also determined that LVMPD Sergeant [redacted] fired two shotgun rounds (00 buck) and that LVMPD Officer [redacted] fired 10 rounds of 9 mm ammunition from his pistol.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

b6
b7C

The first issue discussed by the SIRG related to the application of deadly force by persons involved in this shooting incident. Members unanimously agreed that SA [redacted] use of deadly force was justified in this shooting incident. A lengthy discussion ensued regarding SA [redacted] firing his weapon.

Memorandum from [redacted] to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
3/21/96
Las Vegas Division

Members noted that SA [redacted] assignment involved the blocking of the subject's vehicle in order to prevent his escaping the scene. However, when SA [redacted] attempted to block the subject's vehicle, the subject reversed his vehicle and then started forward directly towards SA [redacted] SA [redacted] was struck by the vehicle, rolled across the hood and struck the windshield. He then rolled off of the hood and onto the pavement. Although his weapon was drawn, SA [redacted] saw a North Las Vegas Police Department van in the background and did not fire for fear of hitting the van or some of the other officers on the scene. Subsequent ballistic examinations determined that SA [redacted] did fire his weapon although he does not recall firing the shot. Based on the shooting incident report, SIRG members were unable to determine if SA [redacted] shot was an intentional shooting. SIRG members unanimously agreed that if the shot fired by SA [redacted] was intentional, the use of deadly force was certainly justified. As a result, the SIRG recommended that no administrative action be taken against SAs [redacted] and [redacted]

b6
b7C

The last issue regarding the use of deadly force pertained to the shots fired by SA [redacted] Members agreed that SA [redacted] shots were intentional and that deadly force was also justified. However, members were concerned about the type of weapon as well as the selection of ammunition used by SA [redacted] Although approval had been issued by the FBI Gunvault for the use of [redacted] Colt AR-15 A3 .223 caliber rifle with a 16 inch barrel, SIRG members agreed that this weapon was not appropriate for use in an urban, populated development. According to SA [redacted] SSA [redacted] was aware that [redacted] was going to be armed with this particular weapon because SSA [redacted] asked [redacted] during the pre-arrest briefing if Bureau approval had been received to use the weapon. Upon hearing that Bureau approval had been issued SSA [redacted] voiced no objections to [redacted] using the weapon. Members noted that the weapon selection should have been included in the planning of the arrest. Further discussion by SIRG members related to the ammunition used by SA [redacted] SA [redacted] loaded his weapon with 20 FBI issued Winchester .223 caliber rounds on top and left a combination of approximately eight 55 grain U.S. miliary issue ball and tracer rounds on the bottom. According to SA [redacted] the military rounds which were interlaced with tracer rounds in a belt had previously been issued by an FBI Principal Firearms Instructor for training purposes. All SIRG participants acknowledged that the tracer rounds are not FBI approved or issued. Members were concerned about the use of the ammunition especially taking into consideration that SA [redacted] is a certified FBI Firearms Instructor and a SWAT team member. Members also discussed the number of shots fired by SA [redacted] during this incident. Ballistics examinations

b6
b7C

Memorandum from [redacted] to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
3/21/96
Las Vegas Division

revealed that SA [redacted] fired 15 rounds of ammunition from his weapon within approximately four seconds. SIRG members opined that SA [redacted] could not have obtained proper target acquisition by firing 15 rounds within four seconds. As a result of this discussion, SIRG members recommended that SA [redacted] receive a letter of censure for using non-Bureau approved or issued ammunition and for the manner in which the rounds were fired. The SIRG further recommended that the PD review the previous shooting incident involving SA [redacted] as well as the one he witnessed involving SA [redacted] Thereafter, in consultation with the SAC, Las Vegas, determine if a fitness for duty examination is needed. Additionally, members recommended that SA [redacted] be decertified as a firearms instructor and be prohibited from SWAT team participation until the ASU review is completed.

b6
b7C

Members discussed the fact that the field of fire was not detailed in the shooting incident report. The SIRG recommended that the AD, INSD, ensure instructions are issued requiring that in-depth detail is captured during initial shooting inquiries regarding the field of fire.

All SIRG members agreed that the arrest and operations plan for the incident were adequate. SIRG members noted that the blocking of the subject's vehicle could have been improved, and recommended that the TD prepare and disseminate car blocking procedures including the fact that these procedures should be addressed during operations planning. The SIRG also noted the absence of a contingency plan for a car chase if one was needed and the fact that regular traffic was not controlled during the incident.

Although not a part of any recommendation, members discussed the fact that all officers participating in this type of situation should be properly identified. Specifically noted was the fact that SA [redacted] was dressed in black attire with his FBI badge on the left side of his belt. According to SA [redacted] the badge was visible when he was standing; however, more easily recognizable clothing indicating that he was a law enforcement officer was not used.

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
3/22/96
Philadelphia Division

[redacted] Inspection Analyst, Office of Inspections; and [redacted] FBI Honors Intern, Office of Inspections.

## Synopsis of the Shooting Incident

This shooting incident resulted in the tragic death of SA Charles L. Reed by Jonathan M. Cramer. Cramer had been introduced to SA Reed (acting in an undercover capacity) by [redacted] b6 b7C b7D

[redacted]

On 1/30/96, [redacted] met with Jonathan M. Cramer at Cramer's office in Philadelphia and discussed the purchasing of cocaine. During the recorded conversation, Cramer discussed his sources and indicated that he had access to kilograms of cocaine.

On 2/13/96, [redacted] telephone conversation to Cramer who stated that he would wait for [redacted] to obtain the needed money before he made contact with his source for the cocaine. b6 b7C b7D

On 2/14/96, [redacted] meeting at Cramer's home in Philadelphia. Cramer appeared to be smoking marijuana and stated he did not know the price of a kilo of cocaine since he hadn't bought one in two years. [redacted] advised that his sources would have someone on a train with the money to make the purchase. [redacted] and Cramer discussed going to a hotel room to make the deal. During this meeting, Cramer exhibited a Glock pistol and stated that he had just obtained it for his protection. They discussed the price of $30,000 for one kilo of cocaine and also discussed doing the deal in Cramer's house rather than a hotel room. [redacted] suggested that the deal be made in the food court at the 30th Street station in Philadelphia; however, Cramer wanted to complete the deal in a hotel room. At that point, a decision was made that [redacted] would take his money man from the train station to a hotel and then go to Cramer's house with the money. It was further agreed that after checking the quality of

Savage-1522

the cocaine, a price would be determined and they would split the difference between the $30,000 and the sale price. [redacted] asked Cramer, who had continued smoking marijuana throughout the meeting, to get "straightened out so you're not too confused here movin' around." This meeting ended with the agreement that [redacted] would advise Cramer when the deal would be completed. b6 b7C b7D

On 3/11/96, [redacted] met Cramer in his [redacted] car. [redacted] recorded the meeting. It was agreed that the drug buy would take place on 3/15/96, in a hotel room. During this meeting, Cramer asked [redacted] numerous questions about his earlier arrest and why he was out of jail. Cramer indicated a lack of trust in [redacted] and told him that he carries a gun during drug transactions. He stated "I'm worried about somebody being a cop....I carry a gun. So somebody tries to jump me (UI) they get shot."

Various meetings were held in the LRA during the week of 3/11-15/96, to plan the buy/bust operation scheduled for 3/15/96. The meetings culminated in a written plan dated 3/13/96. The plan called for [redacted] to contact Cramer and advise him that the $30,000 had arrived. The plan further called for a meeting between Cramer and [redacted] on 3/15/96, at 1:00 p.m., to discuss the transaction. It was planned that the 3/15/96 conversation would be recorded and a surveillance would be conducted. A decision was also made that Agents were to advise [redacted] not to travel in any vehicle provided by Cramer or anyone else. [redacted] would advise Cramer that the money was at the 30th Street train station and they had to take the cocaine to that location. Cramer was also to be advised that the courier's time was limited because he had to board a train at 4:05 p.m., enroute to Washington, DC. The SA assigned to the money was not to leave the public area of the train station for any reason. Cramer, who was considered armed and dangerous, was to be arrested after the transaction was consummated. b6 b7C b7D

Due to the absence of Supervisory Senior Resident Agent (SSRA) [redacted], SA [redacted] the acting SSRA, forwarded the plan to ASAC Bernard A. Tolbert for approval.

ASAC Tolbert instructed SA [redacted] that he did not want the buy/bust to occur in the train station since it was a public place. At this point, it was decided that the arrest was to take place in a hotel room. SA Charles L. Reed would play the role of the drug purchaser and carry the $30,000 of show money to the meeting. [redacted] was instructed to set a meeting with Cramer for

b6
b7C
b7D

early afternoon on 3/15/96, in a room at the Holiday Inn. The meeting was set by [redacted] for 1:00 p.m. on that date.

In mid-morning of 3/15/96, Cramer called [redacted] and stated that he had a kilogram of cocaine to sell, but it would not be sold until 4:00 p.m. [redacted] advised Cramer that 4:00 p.m., was too late in the day and the deal was going to fail. At noon, Cramer recontacted [redacted] and said that he (Cramer) had another seller named [redacted] and they agreed to meet outside the Mulberry Restaurant at 1:30 p.m. [redacted] advised SA [redacted] the case Agent, of this change. It should be noted that in addition to SA Reed, eight other SAs participated in this meet. [redacted] and SA Reed drove to the meeting spot in [redacted] car. Upon arrival, SA Reed moved to the back seat and Cramer sat in the front. SA Reed showed Cramer the money, which was contained in the same briefcase that [redacted] had used in his 3/11/96, meeting with Cramer. At this point, Cramer directed [redacted] to drive to Gargoyles Restaurant. During the course of this meet, [redacted] an associate of Cramer's, believed that he spotted surveillance and told his other associate, [redacted] The deal then went from a kilo to only an ounce of cocaine. During the negotiations, Cramer told SA Reed, "I could rip you off very easily". SA Reed declined the offer to buy less than a kilo and the deal terminated. On the way back to the assembly point, Cramer called [redacted] and offered to sell half a kilo of cocaine. [redacted] was instructed by SA Reed to say no, that SA Reed had to catch his train, and he would get back with him. At the assembly point, [redacted] was instructed to call Cramer in order to keep him interested in future deals. When [redacted] contacted Cramer on the phone, [redacted] turned the phone over to SA Reed. Cramer advised SA Reed that he had a kilo to sell and that he was at the train station. Cramer asked where SA Reed and [redacted] were located. SA Reed turned the phone over to [redacted] who said they would meet at the train station's McDonalds; however, no meet was attempted.

b6
b7C
b7D

Although not recorded, on 3/17/96, [redacted] telephonically contacted Cramer and told him that the reason they had not met at McDonalds was because "Chuck" was nervous. [redacted] further advised Cramer that he had to drive "Chuck" all the way home to Virginia.

During the days of 3/18-19/96, a series of meetings were held at the LRA to determine how to proceed with the case. SSRA [redacted] decided that additional information was needed regarding Cramer's cocaine sources. A decision was made to hold a lunch meeting with Cramer. The purpose of this meeting was to gather intelligence prior to making a decision whether to proceed with the

case or refer it to another agency. The plan included the fact that Cramer would be instructed not to carry a gun to any future meetings. Additionally, a decision was made that SA Reed would attend the meeting with [redacted] in an attempt to develop a direct relationship with Cramer and subsequently ease [redacted] out of the picture. [redacted] was instructed to set a lunch meeting with Cramer on Friday, 3/22/96, at noon.

On 3/22/96, SAs [redacted] Reed and [redacted] met with [redacted] to review the purpose of the meeting. A transmitter was placed on SA Reed and [redacted]. The same briefcase that had been used by [redacted] on 3/11/96, and again by SA Reed on 3/15/96, was given to SA Reed with a NAGRA tape recorder concealed inside. A decision was made to hold the meeting in a quiet spot instead of having lunch, to ensure a good recording. For this same reason, a decision was made that SA Reed would sit in the back seat with the briefcase sitting on the drive shaft hump. The parking lot of the Comfort Inn was chosen as the meeting place. At this point, [redacted] and SA Reed left in [redacted] car to pick up Cramer with SAs [redacted] and [redacted] following. b6 b7C b7D

Upon their arrival at 2nd and Vine Streets in Philadelphia to pick up Cramer, SA Reed moved to the rear right passenger seat and Cramer sat in the front passenger seat. [redacted] proceeded to the predesignated Comfort Inn parking lot. SAs [redacted] and [redacted] followed them and parked behind the hotel out of eye sight while attempting to monitor the conversations taking place in [redacted] car.

Cramer asked about the purpose of the meeting. When [redacted] attempted to answer, Cramer cut him off and said to SA Reed, "maybe you ought to speak for yourself this time". SA Reed responded that they were surprised when he (Cramer) showed up at the train station at the last meet. Cramer then asked a series of questions regarding SA Reed's cover story. SA Reed admitted to Cramer that he did not have a Virginia driver's license; however, he had one from Pennsylvania. At that point, Cramer revealed his reason for suspicion by stating that during the 3/15/96, meeting, "the first thing that happened is [redacted] nickname) and I was supposed to meet and then all of the sudden somebody who I've never met before (SA Reed) is now in the back of the car. And you're telling me you have to go to Virginia. You don't have a Virginia license and you're not on the train to get to Virginia. Doesn't sound to me like you're going to Virginia". SA Reed countered with, "But you have to trust [redacted] Cramer replied, "I don't have b6 b7C b7D

any reason to...at this point. I haven't seen him with any product. I've never seen him with any money". Cramer then asked to "frisk" SA Reed to see if he was wearing a "wire". This conversation took place in the first part of the meeting, and then the talk turned to drugs. The conversation included talk about a future deal and at that point Cramer asked to go somewhere in order to check each other for "wires". Cramer asked SA Reed if he had ever been arrested and SA Reed replied no. Cramer seemed surprised that SA Reed had not been involved as a subject in the case in which [redacted] was arrested. Cramer asked who owned the briefcase and [redacted] responded that it belonged to SA Reed. Cramer, apparently recognizing the case from the 3/15/96, meeting said to SA Reed, "And there is not money in it this time?" Both [redacted] and Reed responded "no". Cramer responded with, "so why are you bringing a case? I mean it, it strikes me as a little bit..." Cramer then asked SA Reed to open the case and SA Reed replied that he would. Shortly thereafter, while apparently opening the case, SA Reed announced his intention to arrest Cramer.

b6
b7C
b7D

According to [redacted] statement, he heard SA Reed opening the briefcase and then heard SA Reed say to Cramer that he was under arrest. [redacted] heard "pop, pop, pop", at which time he exited the vehicle. [redacted] looked inside the vehicle and observed Cramer slumped in the front seat bleeding and SA Reed slumped in the back seat.

SA [redacted] heard, over SA Reed's transmitter, SA Reed's arrest announcement but thought that SA Reed was joking until he heard the gun shots. SAs [redacted] and [redacted] responded to the scene where they saw [redacted] walking towards the rear of his car. [redacted] stated "they shot each other". SA Reed and Cramer were rushed to hospitals where they were pronounced dead.

b6
b7C
b7D

The reason for SA Reed attempting the arrest of Cramer is unknown. A holster was recovered from Cramer's waist and it is possible that Cramer reached for his weapon, a .40 caliber Glock Model 27 pistol with his right hand which was Cramer's dominant hand. The front seat would have obscured SA Reed's vision of this movement by Cramer. The recording revealed that SA Reed was heard shouting, "Hold it! Hold it! Get your hand up!" Based on the recorded commands of SA Reed, it is apparent that Cramer was not compliant and SA Reed warned Cramer one last time before the gun battle.

The gun fight lasted approximately three seconds with

SA Reed firing all five rounds from his .38 caliber Smith and Wesson Model 60 revolver, and Cramer firing three of the ten rounds in his pistol. SA Reed's clip-on holster was located on the floor of the vehicle behind the driver's seat. It is unknown where SA Reed was carrying his weapon and who fired first.

Cramer was struck by four bullets in the following areas: top of the left shoulder, the upper left arm, and two bullets in the head. SA Reed was struck by three bullets, one entering the left thigh, exiting the thigh and entering his abdomen, one entering the left side of the abdomen lodging in the spine, and one entering the left side of the abdomen passing through the heart. Both weapons were found, side by side, on the passenger side rear floor.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

The SIRG concluded that SA Reed made the ultimate sacrifice while using deadly force in accordance with current policy and procedures. His application of deadly force was done so in a heroic fashion and resulted in the death of his adversary. None of the recommendations or observations which follow in this memorandum are meant in anyway to degrade the memory of SA Reed who gave his life upholding his sworn oath as an SA of the FBI. His actions that fateful day were recognized by all members of the SIRG to have upheld the highest traditions of the FBI and his demise saddens each of the SIRG members.

From an operational standpoint, the SIRG noted that this incident culminated following numerous telephone calls and plans discussed with Agents, supervisors, ASAC Tolbert and SAC Reutter. Issues and observations in this regard were determined to best be addressed as training/safety issues.

The SIRG recognized that "hindsight is 20/20". Following such incidents, it is the duty of the SIRG to review the facts as presented and provide the Director with recommendations concerning

training and/or safety issues. After individually reviewing the voluminous report and thereafter discussing it in some detail, the SIRG noted that certain "danger signals" were emitted prior to this tragic event. While each of these danger signals may not have been significant individually, the cumulative effect of them may have indicated that chances of the successful culmination of a drug purchase could have been somewhat diminished.

Specific danger signals noted by the SIRG in the report included the following:

(1) There are numerous references to the subject being armed, including his own statement indicating his willingness to shoot if confronted.

(2) [redacted] knew and SA Reed suspected that Cramer was armed.

(3) Cramer was a known, heavy drug user, who was described by [redacted] as financially desperate, jumpy, nervous and suspicious.

(4) [redacted] admitted that he never saw the subject sell anything and did not trust him. b6 b7C b7D

(5) Cramer stated that he could easily "rip off" the UCA.

(6) Cramer was very aggressive questioning SA Reed about his cover story.

(7) Cramer told [redacted] that he was nervous about the sudden appearance of someone he had never met.

(8) Cramer specifically questioned [redacted] and the UCA about the briefcase containing the recording device.

The historical knowledge of Cramer as known by the Philadelphia Division, coupled with Cramer's own statements, is indicative of a subject whose motives and actions should be considered carefully.

The SIRG noted that SA Reed had not been certified as a UCA, nor was he required to be in this instance. The SIRG noted that SA Reed was an experienced Agent, however, his ability to

function in a role which he had no specialized training is unknown. What is known is that he had apparently not had the opportunity to avail himself of UCA training which offers valuable lessons and strategies to counter potential critical incidents.

The SIRG further observed that SA Reed did not possess false identification that could have allayed some of the suspicions of Cramer, nor did he possess indications of his train travel. Lastly, it was noted that a prearranged code word for imminent danger was not agreed upon by the participants prior to the meeting of 3/22/96.

Based on the above observations, the SIRG concluded and recommended that the administrative report prepared in this matter, including the transcripts of the recordings made, be carefully reviewed by the USOU, CID, and the USU, CIRG, for its training value.

Following a review of this matter, it is recommended that any "lessons learned" be disseminated to all undercover coordinators and thereafter incorporated in the training curriculum of UCAs, as well as new SSAs. The SIRG unanimously agreed that if this recommendation is approved, the USOU and the USU should present the findings bearing in mind the sensitivity of this matter.

The SIRG concluded that no FBI employees' actions were the direct cause or could be construed to have been a causal factor in the tragic death of SA Charles L. Reed. The SIRG also noted that the Coroner's toxicology report of Cramer found him to have been under the influence of opiates at the time of his death which could have influenced his behavior beyond the possible control of SA Reed.

The last issue discussed by the group resulting in a recommendation of the SIRG pertained to the equipment currently available for use in these types of situations. The Hartman briefcase, used to conceal the NAGRA recorder, is a distinctive looking brown cloth briefcase which had been used in the Philadelphia Division for at least 15 years. The velcro strip designed to hold the lid in place covering the concealed compartment was no longer functioning. An inch wide strip of silver duct tape was used to hold the concealed compartment closed. Cramer requested that SA Reed show him the inside of the brief case which eventually led to the arrest attempt and the fatal gun

battle. Members unanimously agreed that the brief case should have been in a condition to be shown. This discussion resulted in the recommendation that the IRD conduct a fieldwide survey to determine the serviceability of concealed recording devices currently in use. The IRD should review the results of this survey and thereafter take any action necessary to ensure that UCAs are equipped with the best available recording equipment.

b6
b7C

(2) That the OGC review the deadly force policy and the accompanying text and scenarios to determine if there are any circumstances when the policy would permit the use of deadly force against a subject fleeing for cover in cases where there is no contemporaneous evidence of a weapon and where the subject is not fleeing from the vicinity of a violent confrontation.

(3) That the OGC create commentary or a scenario as guidance to Special Agents (SAs) in applying the parameters of the "imminent danger" standard in cases where previously armed and dangerous individuals are encountered but no on-the-scene sighting of a weapon occurs. Guidance should also be provided in articulating the types of on-the-scene evidence that would support a finding of "imminent danger."

b6
b7C

(4) That the Administrative Summary Unit (ASU), Personnel Division (PD), forward a letter of censure to SA [redacted] for his violation of the deadly force policy and his failure to be appropriately armed.

(5) That the SAC, Indianapolis, be instructed to have the Chief Division Counsel provide SA [redacted] refresher training regarding the FBI deadly force policy.

DETAILS: On 8/20/96, the SIRG met to discuss the above-captioned shooting incident. The following voting members of the SIRG were in attendance: Chairman, Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Acting Deputy Chief, Criminal Section, Civil Rights Division, USDOJ; Jeremiah W. Doyle, Jr., Section Chief, Global Section - NS-2, National Security Division; Patrick J. Foran, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Firearms Training Unit, Training Division; J. C. Carter, Section Chief, Personnel Management Section, Personnel Division; [redacted] Unit Chief, Budget Unit, Operational Support Section, Criminal Investigative Division; and, [redacted] Supervisor, WMPO. Non-voting attendees were: William D. Gore, Assistant Director, Inspection Division; [redacted] Inspector, Office of Inspections, Inspection Division; [redacted] Immigration and International Investigations, U. S. Immigration and Naturalization Service; and [redacted] Inspection Analyst, Office of Inspections, Inspection Division.

b6
b7C

## Synopsis of the Shooting Incident

On 6/28/96, the Indianapolis Division Special Agent in Charge (SAC) Wayne R. Alford convened a meeting of all personnel who had been involved in responding to the recovery of a Ford Taurus automobile in a lake near Terre Haute, Indiana, on the evening of 6/27/96. As a result of an inventory search conducted of the recovered vehicle, a determination was made that the vehicle had been rented by David James Graham Nichols, a Major in the British Armed Forces, who had been in the U.S. for two training sessions in New Mexico and Texas. It also appeared from items

recovered from the vehicle, that Nichols had probably been kidnapped and possibly murdered, and that his attackers had taken his vehicle. Based on items found in the recovered vehicle, as well as a subsequent vehicle, it was believed that one or both of the subjects responsible for Nichols' abduction and possible murder were escapees of an Alabama State Prison.

b6
b7C

During this meeting, SAC Alford, Assistant Special Agent in Charge (ASAC) Floyd W. Ratliff, Jr., Supervisory Special Agent (SSA) [redacted], and SA [redacted] provided additional details concerning subjects [redacted] and [redacted] They had escaped by overpowering an Alabama Deputy Sheriff who was transporting both individuals from the jail to the courthouse. SSA [redacted] advised that the subjects had overpowered the Deputy, taken two nine millimeter semi-automatic weapons, the Deputy's 12 gauge shotgun, as well as the Deputy's uniform and police vehicle. [redacted] and [redacted] then commandeered a truck by stopping it with the police vehicle and uniform, and apparently drove the truck to New Mexico. Information was provided during the briefing that apparently [redacted] and [redacted] had encountered Nichols somewhere in New Mexico and had somehow obtained his passport, British currency, clothing, suitcase, and other personal effects.

During the weekend of 6/29-6/30/96, additional information about the subjects was developed by SSA [redacted] and SA [redacted] SSA [redacted] was told by an Alabama County Sheriff that [redacted] had been incarcerated on murder charges relating to his execution-style murder of an informant. Further information provided to SSA [redacted] involved the fact that [redacted] had told other inmates that he would escape from custody, vowed not to be taken alive, and that he would shoot it out with police, if necessary.

This information was provided to all SAs and detectives assigned to this matter in a 7/1/96, briefing in the Indianapolis Division. The information was also provided to those who were not present at the briefing but assisted in the pursuit and arrest of [redacted] on 7/2/96. In addition to these briefings, SSA [redacted] also provided on-scene briefings on 7/2/96.

b6
b7C

Information had been developed indicating that [redacted] and [redacted] were still likely in the Terre Haute area and were possibly hiding in a salvage yard located near Farmersburg, Indiana. On the morning of 7/2/96, SAs [redacted] and [redacted] acting in an undercover capacity, went into the

salvage yard and observed two individuals who they believed were subjects [redacted] and [redacted] Eventually the two individuals engaged in a conversation with the SAs about salvage auto parts. Based on this meeting, SAs [redacted] and [redacted] made a probable identification of both subjects. A subsequent review of updated photographs of the subjects by SAs [redacted] and [redacted] determined that these individuals were in fact the subjects. SSA [redacted] who was enroute to the Terre Haute Resident Agency, was also notified of the identification of [redacted] and [redacted] Additionally, the Special Weapons and Tactic (SWAT) Team was activated for deployment to the Terre Haute area. SSA [redacted] provided all intelligence data to law enforcement officers assembled to participate in the search and arrest of both subjects. b6 b7C

A plan was being devised to establish a secure perimeter around the salvage yard and trailer, and to have the SWAT Team make an assault on the area in order to locate and apprehend both subjects. This plan was eliminated at approximately 1:15 p.m., during an aerial surveillance, when Bureau pilot SA [redacted] observed [redacted] another white male and a white female entering a pickup truck and leaving the salvage yard/trailer area. SA [redacted] radioed this information to all units. In response to the information provided by SA [redacted] SSA [redacted] instructed three units to begin moving closer into the area where the vehicle was heading. Within minutes, three FBI vehicles were following the truck and a State Police unmarked vehicle was approaching the truck from the opposite direction. The State Police vehicle attempted to stop the suspect vehicle, however, the driver of the truck went around the police car. Subsequently, SSA [redacted] and SA [redacted] conducted a felony vehicle stop with lights and siren activated. Shortly thereafter, the driver of the truck pulled the truck to the side of the gravel road and as the truck was coming to a stop, the passenger jumped from the truck and began running toward a heavily wooded area. The passenger was immediately identified as [redacted] and was ordered to halt. b6 b7C

As the halt order was given, a Marion County Sheriff's Office Corporal fired one round from his service weapon at [redacted] Shortly thereafter, SA [redacted] fired two rounds at [redacted] as he ran from the truck to the cover of the woods. [redacted] was not hit by the gunfire and eluded capture for approximately one hour. It should be noted that the weapon fired by SA [redacted] was the personally owned weapon of SSA [redacted] In the rush of getting to the Terre Haute Resident Agency and the State Police staging area, SA [redacted] had left his weapon on his desk in the Indianapolis Division office space.

b6
b7C

## Synopsis of the Shooting Incident

On 11/1/95, SA [redacted] accidentally struck a deer with his Bureau vehicle. SA [redacted] was returning from Tyler, Texas, while on official business. While heading south bound on a farm road, two deer ran from the woods in front of SA [redacted] vehicle. SA [redacted] was unable to stop before one deer was struck in the hind legs, causing damage to his vehicle. SA [redacted] noted that the deer's hind legs were both broken; however, the deer was struggling to run.

Noting that the deer was in pain and due to the risk that the deer could struggle onto the road and jeopardize the safety of other drivers, SA [redacted] notified the Nacogdoches County Sheriff's Office (NCSO) to dispatch a Texas Department of Public Safety (DPS) Trooper, and requested that a Texas game warden be contacted for authorization to shoot the injured deer. Radio authorization from the NCSO was received by SA [redacted] to shoot the injured deer. SA [redacted] fired two shots from his Bureau authorized Sig Sauer P220 into the deer's head. The deer carcass was collected by the NCSO and an accident report was prepared by a DPS Trooper.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary. b6 b7C

Members of the SIRG noted that SA [redacted] took all of the necessary steps to resolve this incident. The SIRG unanimously agreed that SA [redacted] should be commended for his thorough actions, alertness, appropriate handling and resolution of this incident.

FD-204 (Rev. 3-3-59)

UNITED STATES DEPARTMENT OF JUSTICE
Federal Bureau of Investigation

Copy to:

Report of: SA [redacted] Office: OKLAHOMA CITY
Date: September 11, 1995

Field Office File #: 66-HQ-19157 Sub 35 Bureau File #:

Title: SHOOTING INCIDENT
OKLAHOMA CITY DIVISION
AUGUST 18, 1995

Character: ADMINISTRATIVE INQUIRY

Synopsis: On May 2, 1995, a local warrant was obtained by the Oklahoma Department of Corrections on [redacted] for Escape. It was determined prior to May 2, 1995, [redacted] was in violation of his release conditions concerning an 18 year sentence for drug violations. The U.S. Marshal's Metropolitan Task Force (Task Force), a formal task force composed of various members of both the local and Federal law enforcement communities, was attempting to locate and arrest [redacted] based on the outstanding warrant. Since its inception, the Task Force has successfully effected over 2,000 fugitive arrests. b6 b7C

On August 17, 1995, based upon source information provided by Special Agent (SA) [redacted] members of the Task Force and SA [redacted] formulated an arrest plan to arrest [redacted] with the aid of Oklahoma City Police Department (OCPD) marked Patrol Units. During the early morning hours on August 18, 1995, OCPD marked Patrol Units driven by uniformed officers attempted a traffic stop pursuant to the formulated arrest plan on the vehicle driven by [redacted] refused to stop and the OCPD units with sirens and lights in operation remained in pursuit of [redacted] through a residential area. Shortly thereafter [redacted] in attempting to turn the corner at Southwest 36th and Goff hit an

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

unoccupied pickup truck parked in the driveway of 3441 Southwest 36th. [redacted] exited the vehicle and fled on foot into the residential area. [redacted] ran along the chain link fence at the residence of 3441 Southwest 36th where SA [redacted] and Deputy Sheriff [redacted] a passenger in SA [redacted] vehicle, observed a weapon in his [redacted] right hand as he jumped the fence into the backyard of the residence. In pursuit in an attempt to prevent [redacted] from entering an occupied residence, SA [redacted] drove his vehicle through the fence and observed [redacted] fire his weapon towards SA [redacted] and [redacted] (See sketch item 5 representing a .40 caliber spent casing.) SA [redacted] wearing his ballistic garment and raid jacket, exited his vehicle and alerted all pursuing law enforcement personnel to [redacted] armed and dangerous status by yelling [redacted] had a gun. [redacted] had then jumped another fence heading towards the front yard of an occupied residence. SA [redacted] with his 9mm Sig Sauer, returned fire with three shots at [redacted] who was in full view of SA [redacted] as [redacted] was going around the corner of the house. (See sketch items 7, 8, and 9 representing spent casings from the 9mm.) OCPD Officer [redacted] was in the front yard and as [redacted] rounded the corner of the house going towards Officer [redacted] observed [redacted] appearing to crouch to the ground. Officer [redacted] had heard someone yell "gun" from the backyard of the residence and as [redacted] was crouching to the ground, [redacted] fired two shots from his 9mm Glock at [redacted] believing [redacted] was attempting to shoot at [redacted] from the crouched position. (See sketch items 2 and 3 representing spent casings from the 9mm.) It was then determined [redacted] had been hit by gunfire and an ambulance was called to the scene where [redacted] was subsequently transported to Southwest Medical Center for treatment. In addition to two OCPD marked Patrol Units and SA [redacted] and Deputy Sheriff [redacted] there were six other law enforcement officers of the Task Force that were involved in the pursuit of [redacted] in order to affect arrest. All witness accounts concerning the attempted stop and subsequent pursuit and shooting incident are consistent.

b6
b7C

b6
b7C

Oklahoma City Police Department established a crime scene perimeter to include the entire yard area of 3441 Southwest 36th. Both Special Agent in Charge BOB A. RICKS and Assistant Special Agent in Charge JAMES BOGNER were promptly on the scene.

A crime scene investigation was conducted jointly by the OCPD and the FBI Evidence Response Team (ERT) with SA [redacted]

[redacted] as the lead Agent of the ERT. During the crime scene investigation, one spent cartridge from a .40 caliber round was recovered in the area where SA [redacted] observed [redacted] fire his weapon. (See sketch item 5.) Three spent cartridges of 9mm rounds were found in the area where SA [redacted] fired his weapon (See sketch items 7, 8, and 9.) and two spent cartridges of 9mm rounds were found in the area where OCPD Officer [redacted] fired his weapon. (See sketch items 2 and 3.) A .40 caliber Ruger semi-automatic pistol was also recovered in the area where subject [redacted] fell after being shot. (See sketch item 16.) The .40 caliber Ruger was found with live rounds jamming the slide action portion of the handgun. (See photo of sketch item 16.) One spent 9mm round was found in a trash can at the corner of the residence where [redacted] was shot.

b6
b7C

SA [redacted] went to Southwest Medical Center and retrieved [redacted] clothing and another projectile believed to be a 9mm. SA [redacted] determined from Doctor [redacted] the attending physician in the emergency room, [redacted] sustained an entry and exit wound to the left forearm, an entry wound to the left side of the rib cage and an entry wound in the right buttocks.

Per letter, dated September 15, 1995, [redacted] District Attorney, Oklahoma County, completed his review of this incident and found SA [redacted] actions proper and justifiable. [redacted] has declined any prosecution of SA [redacted] and Officer [redacted] in this matter.

The fence of the residence at 3441 Southwest 36th was a four foot chain link fence approximately 12 years old in average to poor condition. The opening created in the fence section downed by SA [redacted] vehicle sustained minimal damage. The swing set in the backyard was bent due to being hit by SA [redacted] vehicle. Investigation revealed no pets were harmed during the pursuit, contrary to what was initially reported by the traffic report.

b6
b7C

It should be noted, AFO case is pending against [redacted] and it is anticipated that he will also be charged with possession of a handgun by a felon.

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
8/3/95
Buffalo Division

DETAILS: On 9/29/95, the SIRG, consisting of Chairman Wiley D. Thompson, III, Deputy Assistant Director, Inspection Division; Chief Inspector David R. Knowlton, Office of Inspections, Inspection Division; Karla Dobinski, Deputy Chief, Civil Rights Division, USDOJ; Edward R. Leary, Section Chief, Personnel Management Section, Personnel Division; [redacted] Unit Chief, Global Section - NS-2, National Security Division; Van A. Harp, Section Chief, Personnel Administration and Benefit Section, Personnel Division; Dana D. Biehl, Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted], Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Health Care Fraud Unit, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division [redacted] Supervisor, WMFO; and [redacted] Inspection Analyst, Office of Inspections, met to discuss the above-captioned shooting incident. b6 b7C

## Synopsis of the Shooting Incident

During the early afternoon on 8/3/95, SAs [redacted] and [redacted] were on duty in a Bureau car on the east side of Buffalo. Since SA [redacted] was a new SA, SA [redacted] had taken him to this area in order to familiarize him with the section of Buffalo in which most of the Division's Violent Crimes Career Criminal Task Force's gang related investigations take place. While in the vicinity of Gittere Street and Sycamore Avenue, the SAs overheard a partial Buffalo Police Department (BPD) radio call which indicated that officers had "him" trapped in the yards on Gittere Street. When this radio transmission was heard by the SAs, SA [redacted] believed that the BPD officers had a criminal suspect trapped in a yard. Knowing that BPD ordinarily only has two or three cars patrolling a precinct at any given time, SA [redacted] decided to respond to the area in order to render assistance to the BPD, if needed.

The SAs learned from BPD officers on the scene that the subject of the radio call was not a person. The officers advised that the subject was an adult Rottweiler dog that had bitten a child and was in the alley acting in an aggressive manner. SAs [redacted] and [redacted] remained at the scene of the incident while an attempt was made to capture the dog. b6 b7C

Unsuccessful attempts to capture the dog resulted in the Buffalo Dog Control Officers deciding to destroy it. Officers fired approximately four shots, and at least one and maybe more,

struck the dog; however, the dog was not subdued and escaped from the alley. The dog ran and eventually ended up in an alley on Sycamore Avenue. SAs [redacted] and [redacted] followed the BPD officers to this location in order to lend any necessary assistance.

As they arrived at the scene, the SAs exited the Bureau vehicle and took a position at the rear of the vehicle approximately 12 to 15 feet from a BPD precinct car in the alley. Raised voices could be heard from within the alley; however, neither SA was in a position to observe the ongoing activity in the alley. SA [redacted] also heard the sound of at least one gun shot from the alley. Both SAs heard someone shout a warning immediately before they observed the dog charge from the alley. b6 b7C

A large crowd of spectators had assembled on the north side of the street behind SA [redacted] As the dog exited the alley it headed directly for SA [redacted] and as the dog came within two to 10 feet of him, SA [redacted] fired a series of six shots at the dog. The last shot is believed to have struck the dog in the head as it was approaching SA [redacted]

Subsequent to the shooting, SA [redacted] overhead an individual talking with BPD officers claiming ownership of the dog. The individual claiming to own the dog was familiar to SA [redacted] as he was a suspect in a recent shotgun shooting incident in the area. As BPD officers explained to the individual that he needed to discuss the matter at the precinct house, he immediately disavowed ownership of the dog. The dog was removed from the scene by dog control officers.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary. b6 b7C

The SIRG unanimously concurred that SA [redacted] decision to employ deadly force in this incident was proper and in accordance with FBI policy. Additionally, members recommended that no administrative action should be taken against SA [redacted] as a result of his involvement in this shooting incident.

Title: SHOOTING INQUIRY
REPORT OF SHOOTING INCIDENT
LOUISVILLE DIVISION
SEPTEMBER 20, 1995

Character: ADMINISTRATIVE MATTER

Synopsis: On 9/20/95, ROGER A. FEIN, an FBI fugitive, was involved in a shoot-out with FBI Special Agents (SAs) from the Louisville Division and Police Officer [redacted] Jeffersontown Police Department, Jeffersontown, Kentucky. Police Officer [redacted] was critically wounded and remains hospitalized in serious condition. FEIN is deceased. FEIN was shot by Officer [redacted] and FBI SA [redacted] The preliminary findings of the Coroner, which the Coroner released to the media, indicate that FEIN died as a result of a self-inflicted gun-shot wound to the head, through the ear. Nonetheless, the bullet wounds delivered by Officer [redacted] and SA [redacted] were probably mortal. The official medical/autopsy reports are not completed. The medical reports for Officer [redacted] are not completed. Officer [redacted] will be interviewed when health conditions permit.

b6
b7C

On 9/16/95, the television series "America's Most Wanted" aired a show featuring FBI fugitive FEIN. The following Monday, 9/18/95, a Cooperating Witness (CW) who's identity is known to the FBI, contacted the FBI and spoke to SA [redacted] of the Lexington Resident Agency (LRA), FBI Louisville Division (LD). SA [redacted] interviewed the CW and showed photographs of FEIN to the CW. On 9/19/95, SA [redacted] advised Supervisory Senior Resident Agent (SSRA) [redacted] LRA, FBI LD, of the information provided by the CW. SSRA [redacted] knew of FEIN based upon previous FBI investigation of FEIN in the LRA territory. SSRA [redacted] conducted a comprehensive review of the information and physically inspected the area believed to be FEIN's residence. SSRA [redacted] assigned an SA to discreetly

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

surveil the area and telephonically advised Assistant Special Agent in Charge (ASAC) THOMAS W. MILLER of the information provided by the CW. SSRA [redacted] formulated a plan to positively identify and apprehend FEIN. SSRA [redacted] requested authority to utilize an FBI aircraft in the surveillance of FEIN and ASAC MILLER authorized the aircraft's use. ASAC MILLER offered assistance for the surveillance, but SSRA [redacted] declined the offer since eight (8) Agents were already available and assigned to conduct the surveillance.

SSRA [redacted] conducted a conference on 9/19/95 with the Agents participating in the surveillance of FEIN. Additionally, the CW returned to the LRA to further brief and assist the Agents who would conduct the surveillance of FEIN the following morning. b6 b7C b7D

On the morning of 9/20/95, the surveillance team met at a pre-arranged location for final briefings. The team was made up of SSRA [redacted] SA [redacted] SA [redacted] SA [redacted] SA [redacted] SA [redacted] SA [redacted], and SA [redacted]

Based upon SSRA [redacted] knowledge of the territory and visit near FEIN's residence the previous day, surveillance points were identified and assigned. These locations were confirmed the morning of 9/20/95.

[redacted] departed the residence earlier than usual that morning. SSRA [redacted] dispatched the surveillance team to their pre-determined surveillance points hoping to see and surveil FEIN as FEIN departed his residence.

Within a short period of time, SA [redacted] received a [redacted] and observed a vehicle earlier described by the CW as normally operated by FEIN. A moving surveillance of this vehicle commenced as instructed by SSRA [redacted]

The vehicle being surveilled had tinted windows. The tinted windows and poor weather conditions prevented any team member from seeing inside the cab of the vehicle. A determination could not be made if there was a male driving or more than one person in the vehicle. b6 b7C

A license plate number partially blocked by a bumper hitch was obtained and a computer check was requested from the FBI LD. This check determined that the plate did not match the vehicle.

The FBI vehicle driven by SA [redacted] had enhanced radio capability and was equipped with a cellular telephone. SSRA [redacted] therefore instructed SA [redacted] to coordinate the FBI surveillance with the Kentucky State Police (KSP). SA [redacted]

observed an antenna on the vehicle under surveillance and assumed that FEIN was equipped with a police radio scanner. SA [redacted] coordinated most communications with the KSP using a cellular telephone.

At a point in the surveillance it appeared that the subject was not involved in the routine activity described by the CW. SSRA [redacted] therefore decided to stop the vehicle and instructed SA [redacted] to request a KSP marked car to assist in the stop of the vehicle. The use of a marked KSP vehicle was expected to reduce a potential violent confrontation with FEIN. The request for such assistance was coordinated by SA [redacted] The coordination was frustrated by the fact that the surveillance moved from one KSP Post area to another requiring renewed explanations and communications further delaying the KSP assistance. b6 b7C

SA [redacted] a former KSP Trooper, clearly informed the KSP of the situation in progress. SA [redacted] described FEIN as armed and dangerous. SA [redacted] clearly indicated the unknown aspects of the surveillance. On two occasions, although effectively coordinating the requests for KSP assistance, SA [redacted] was indiscreet in conversation with the KSP. These indiscretions had no impact on this incident.

After approximately forty-five minutes of attempting to coordinate the KSP assistance, the surveillance moved into Jeffersontown, Kentucky. This area is on the cusp between a rural area and a more populated city center. The KSP dispatcher coordinated communications with the Jeffersontown Police Department who's officer, Police Officer [redacted] responded to the FBI surveillance team's request for assistance. Police Officer [redacted] came upon the surveillance from the opposite direction and made a U-turn to join in the surveillance. The surveillance team believed that this obvious traffic maneuver tipped FEIN to the surveillance of him.

Police Officer [redacted] pulled the police car next to SA [redacted] and SA [redacted] moving vehicle. Through an open window Police Officer [redacted] was informed of the situation. Police Officer [redacted] offered assistance and SSRA [redacted] ordered the vehicle stopped. The surveillance at the time was moving slowly past the Jeffersontown Police Department approaching an intersection. b6 b7C

Police Officer [redacted] attempted to stop FEIN's vehicle with the use of flashing lights and police siren. FEIN's vehicle continued moving into the intersection of Watterson Trail and Talonsville Road, Jeffersontown, Kentucky. After passing through the intersection, FEIN bolted from the vehicle he was driving. This vehicle continued moving. The vehicle came to a stop at a curb approximately one hundred feet down the roadway.

FEIN was firing a .9mm pistol while exiting the vehicle. In a combat position, FEIN fired upon Officer [redacted] as Officer [redacted] was still seated in the police car. FEIN fired at Officer [redacted] through the windsheild of the police car striking Officer [redacted] Officer [redacted] was wearing a ballistic protective vest. Officer [redacted] exited the police car and returned fire. Officer [redacted] shots hit FEIN. SA [redacted] who's vehicle was adjacent to Officer [redacted] police car shouted at FEIN and then shot FEIN. SA [redacted] probably shot twice and struck FEIN twice. SA [redacted] shots are believed to have brought FEIN down to the ground. Officer [redacted] was positioned at the rear of the police car, bent over the trunk. SA [redacted] provided immediate assistance and encouragement to Officer [redacted] SSRA [redacted] approached FEIN and positively identified FEIN from tattoo's on FEIN's body. SA [redacted] crawled to and cleared the vehicle FEIN had been driving. SSRA [redacted] accounted for the safety of all FBI Special Agents and personnel at the scene. SSRA [redacted] took charge of the scene and coordinated the crime scene investigation with the Jeffersontown Police Department officials on the scene. SSRA [redacted] telephonically contacted the FBI LD and advised ASAC MILLER of the shooting incident. Members of the FBI LD staff, including ASAC MILLER, responded immediately to the scene.

Title: SHOOTING INCIDENT
SA CULLEN MICHAEL BUTLER - DECEASED;
REGINA ANN BUTLER - DECEASED;
RUSSELL C. TERESI - DECEASED;
10/1/95, LAS VEGAS DIVISION

Character: ADMINISTRATIVE INQUIRY

Synopsis: During the course of this investigation, it was determined that SA Cullen Michael Butler had divorced Regina Ann Butler approximately ten and one-half years ago. Under the conditions of the divorce, SA Butler was required to pay alimony, child support for his two infant children, insurance and health premiums for the children, that Regina Ann Butler would keep possession of the house until such time that either Regina Ann Butler remarried, or when their youngest child graduated from High School, or turned eighteen years of age. Additionally, Regina Ann Butler would receive a significant portion (estimated at approximately 31%)of SA Butler's retirement/pension.

SA Butler had been making plans to retire from the Bureau in either December, 1995, or January, 1996. During the two previous weeks prior to this incident, SA Butler had discussed his retirement with other agents in the Las Vegas Division who also were planning on retiring. At no time during these discussions with other agents did SA Butler threaten to do bodily harm to his ex-wife.

On Sunday, October 1, 1995, SA Butler had been watching NFL football games on television and drinking beer. SA Butler had previous contact with his ex-wife, Regina Ann Butler, during the week, and on Saturday, September 30, 1995, concerning making a change in his pension or financing in the former family house, currently in Regina Ann Butler's possession. SA Butler contacted Regina Ann Butler and wanted her to either sell the house so that he could receive the $27,000.00 owed to him through the sale, or

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

not to receive a significant portion of his pension when he retired. Regina Ann Butler was a school teacher at Clark High School and would be receiving her own pension when she retired. Also, Russell C. Teresi had been living in Regina Ann Butler's house for over eight and one-half years. Regina Ann Butler and Teresi had no plans to marry, because if they did, the house would have had to have been sold and she would have lost her claim to her ex-husband's retirement benefits. Regina Ann Butler was requested to contact her divorce attorney to see if a change could be made in either the house or pension arrangements, thus allowing SA Butler to receive additional funds when he retired. SA Butler contacted Regina Ann Butler several times during the weekend, trying to obtain an answer.

SA Butler became more upset as the day went on, to the point that he told his current wife, [redacted] he would take care of the matter himself. [redacted] attempted to calm SA Butler, but a confrontation ensued and he locked her in the backyard of their residence. SA Butler then drove away, [redacted] then called [redacted] a Bureau employee, and [redacted] husband, [redacted] to drive her to Regina Ann Butler's house. SA Butler was seen by [redacted] inside of Regina Ann Butler's house, in the entrance way, yelling at Regina Ann and Russell Teresi. After a short period of time, [redacted] and [redacted] exited the [redacted] vehicle and walked toward the house. While they were walking toward the house, SA Butler drew his Bureau issued Sig P228. Several individuals yelled that he had a gun. Within a few seconds of drawing his weapon, SA Butler began shooting his ex-wife, Regina Ann Butler and Russell C. Teresi. Both died at the scene.

b6
b7C

SA Butler turned to [redacted] and indicated that he was going to the desert to kill himself. SA Butler left Regina Ann Butler's house in his personally owned vehicle, that he had originally driven to the house. Within one hour of the shooting, SA Butler's body was found by a security officer outside of the Spanish Hills housing development. SA Butler had driven to the end of Tropicana Avenue, exited his vehicle and fired one round from his Bureau issued Sig Sauer P228 into his right temple. The Bureau weapon was found next to the body.

LVMPD and Clark County Coroner's Office investigated both crime scenes and conducted a complete investigation in this matter. Photographs were taken by the LVMPD. Interviews were conducted by the LVMPD. Copies of all reports have been turned over to the Las Vegas Division. Photographs are being retained in the Las Vegas Division in 1A exhibits.

LVMPD and Clark County Coroner's Office have listed this matter as a double homicide and suicide. Their cases are closed regarding this matter.

Title: SA [redacted]
SHOOTING INCIDENT,
WASHINGTON, D.C.;
JUNE 22, 1995;
OO:WMFO

Character: Administrative Inquiry

Synopsis: On 6/22/95, captioned Special Agent currently assigned to Squad C-16, Washington Metropolitan Field Office (WMFO) was conducting a routine surveillance in the vicinity of the Eastside Nightclub located adjacent to WMFO on Half Street, S.W., Washington, D.C. With SA [redacted] on surveillance was Metropolitan Police Department-Washington, D.C. (MPD) Detective [redacted] currently assigned to the C-16 Safe Streets Task Force. Initial surveillance was from the garage area of WMFO. At approximately, 0300 hours on 6/22/95, SA [redacted] and Detective [redacted] (in a Bureau car) moved their surveillance location to the East side of R Street, S.W., Washington, D.C. facing Half Street, S.W. As the two sat in the Bureau vehicle observing vehicles leaving the Eastside Club, a vehicle was observed moving slowly down Half Street, S.W. When the vehicle was at Half and "R" Street, S.W., approximately 2-3 car lengths from SA [redacted] and Detective [redacted] they observed a black male running along side of this vehicle firing into the passengers side of the vehicle. SA [redacted] and Detective [redacted] exited their vehicle at which time SA [redacted] immediately identified himself and proceeded down the west side of Half Street, S.W. in pursuit of the black male who continued down the east side of Half Street, S.W. travelling in a northerly direction. The subject and SA [redacted] approached the dumpster located between "R" and "S" Streets, S.W. at which time SA [redacted] observed a gun in the subject's hand. SA [redacted] again identified himself and discharged his Bureau issued Sig Sauer P220 .45 caliber semi-automatic pistol eight (8) times. SA [redacted] proceeded to reload his pistol at which time SA [redacted] observed that

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

the subject was limping and no longer carrying the weapon. SA [redacted] ordered the captioned subject to get down. The subject complied and he was subsequently handcuffed by SA [redacted] and Detective [redacted] Detective [redacted] fired no shots during the incident.

[redacted]-juvenile, was struck by one (1) round in the left ankle and was transported by D.C. ambulance to D.C. General Hospital for a non-life threatening injury. Neither SA [redacted] or Det. [redacted] were injured during the incident.

During the shooting incident the vehicle that was being shot into by [redacted] proceeded northbound on Half Street, S.W., Washington, D.C. As the vehicle crossed Potomac Avenue, S.W. it crashed into the wooded area located on the corner of Half Street and Potomac Avenue, S.W., Washington, D.C. The vehicle then proceeded to catch fire and burn in the wooded area. A black male identified as Montey Fullard was dead on the scene from multiple gunshot wounds. The second occupant of the vehicle, [redacted] was uninjured.

A Smith & Wesson .357 with a six inch barrel was recovered adjacent to the dumpster located between R & S Streets, S.W. The weapon contained six spent shell casings.

The subject is described as follows:

Date: August 4, 1995

Field Office File #: Bureau File #: 66-19157-98

Title: SHOOTING INQUIRY
FBI TRAINING ACADEMY
QUANTICO, VIRGINIA
7/7/95

Character:

Synopsis:

On 7/7/95, 23 members of the 47 Special Agents (SA) trainees comprising New Agents Class (NAC) 95-12 participated in their second live fire training session under the direction of the Principal Firearms Instructor (PFI), SSA [redacted] SSA [redacted] was assisted in his instruction of the class by Firearms Instructors SSA [redacted], SSA [redacted] and Mr. [redacted]

b6
b7C

The instructors and the class initially met in the morning in the Gun Cleaning Room and then moved to the Range Classroom for instruction on sight alignment, trigger pull, and presentation of the weapon. Presentation of the weapon is described as the four positions in the movement of the weapon from the holster to the firing position. During the classroom instruction, lasting approximately 45 minutes, SSA [redacted] demonstrated these techniques utilizing a red-handled Sig/Sauer Model 226 with a working trigger as an instructional aid. SSA [redacted] stated that he preferred using the red-handled pistol rather than his empty service weapon because the audience feels more comfortable knowing that the weapon is deactivated and that he knows there is no chance for an accidental discharge. SSA [redacted] when not using the red-handled pistol for instructional purposes, maintained it in his holster. He did not have his duty weapon, a Sig/Sauer

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Model 228 with him in the classroom or at the range that day, but had it secured in the Firearms Training Unit (FTU) trailer near the range.

Upon completion of the classroom phase, the class moved to Range #1 for the live fire phase. SSA [redacted] as the PFI, supervised the firearms instruction from the tower while the other instructors walked the line. Between the courses of fire, SSA [redacted] left the tower and instructed the class about trigger pull and the presentation of the weapon using his red-handled pistol.

Upon the completion of their last course of fire, the instructors visually inspected each trainee's weapon to ensure that each weapon was safe and secure. The class was then instructed to proceed to the Gun Cleaning Room to clean their weapons.

SSA [redacted] advised that he then proceeded to the FTU trailer to drop off his instructional materials and to switch to his service revolver. Mr. [redacted] Firearms Instructor, who was assisting SSA [redacted] with NAC 95-12, advised he [redacted] returned to the FTU trailer following the morning instruction. Mr. [redacted] desk is next to SSA [redacted] and he observed SSA [redacted] switch guns, put his red-handled pistol away and put his service pistol in his holster. SSA [redacted] advised his weapon was loaded with ball ammunition because he had tested a target system the previous day using ball ammunition. Both SSA [redacted] and Mr. [redacted] left for the Gun Cleaning Room a few minutes later.

b6
b7C

At approximately 11:45 a.m., the NAC 95-12 SA trainees arrived in the Gun Cleaning Room and began cleaning their weapons. SSA [redacted] who had also arrived, noticed that several of the NAC 95-12 members were in the larger part of the Gun Cleaning Room and, since he knew a second much larger class was on their way, moved these trainees to the smaller portion of the room. NAC 95-10 consisting of 45 SA trainees arrived in the Gun Cleaning Room and began to clean weapons.

During the cleaning process, SSA [redacted] advised that it was his duty as the PFI to walk around among the students, offer advice and provide encouragement. SSA [redacted] although unable to recall specifically which students were involved in conversation with him, felt it beneficial to review the weapon presentation concept with them. SSA [redacted] advised that, thinking he had his red-handled pistol in his holster, drew the pistol and in a continuous motion, took

a firing position and pulled the trigger. He advised that he initially could not believe that the gun had discharged and did not realize that it was a live weapon until he heard the shot. Immediately after the discharge, he recognized the tritium night sight configuration on the gun as belonging to his service pistol, the Sig/Sauer 228 and not the red-handled Sig/Sauer 226 because he did not look at the weapon before he drew it from the holster. He advised he was not consciously aiming at anything because he was making an instructional point.

SSA [redacted], advised that he entered the Gun Cleaning Room at approximately 11:50 a.m. and was on his way to the Firearms Instructors locker room next to the indoor range. As SSA [redacted] approached the middle table of the 3 tables located in the smaller portion of the room, he noticed a Sig/Sauer 228 being held in a two-handed, fully extended position, aimed head high, back toward the center of the Gun Cleaning Room. He observed SSA [redacted] providing instruction to several students and within an instant of viewing the gun, heard the discharge, felt the concussion and saw the discharge vapor. At the time of discharge, it was being aimed lower than its previous head high position.

SA Trainee [redacted], a former police officer, and trained firearms instructor, was cleaning his weapon on the first table from the wall, on the post office side of the Gun Cleaning Room, facing the rest of the room. SSA Trainee [redacted] advised that SSA [redacted] was walking among the students and later stood between and slightly behind his and SA Trainee [redacted] position. He noticed SSA [redacted] had his weapon out of the holster, was extending the weapon in both hands and pointing the weapon toward the other side of the room. He also noticed that the weapon was not red handled but had black grips, a speckled finished and was the same gun SSA [redacted] normally carried. He continued to clean his weapon and heard a gunshot. He heard a gun hit the floor and saw SSA [redacted] run toward the center of the room. He looked down and saw SSA [redacted] weapon on the floor, and the magazine loaded with ball ammunition, had popped out of the pistol.

b6
b7C

SA Trainee [redacted] advised he was cleaning his weapon at the cleaning table most near the post office wall and was across the table and facing SSA [redacted] whom he observed demonstrate moving the weapon from a position close to the body to an outstretched arm position. This demonstration resulted in SSA [redacted] pointing the weapon at SA Trainee [redacted] right shoulder.

He observed SSA [redacted] demonstrating this motion more than once and then move the weapon in an outstretched arm position. He then saw the weapon discharge and saw the muzzle flash. He advised SSA [redacted] dropped the weapon to the floor and ran to offer assistance to an injured trainee.

SA Trainee [redacted] advised that while cleaning his weapon, he heard the sound of a gunshot. He squatted down and saw a female behind him was shot. While still squatting, he saw a gun bounce at SSA [redacted] feet. SSA [redacted] was observed to run to the female victim, then back to his gun lying on the floor. SA Trainee [redacted] advised he observed SSA [redacted] carefully pick up his gun, discharge the magazine, discharge the shell and holster the gun.

The projectile from SSA [redacted] weapon traveled approximately 31 feet across the Gun Cleaning Room and struck SA Trainee [redacted] in the left upper hip area, having passed through her belt, and then exiting her left hip area. The projectile then traveled approximately 7 feet and struck SA Trainee [redacted] in the right back area lodging in his abdomen.

SSA [redacted] advised that after the gunshot, he ran around the cleaning tables to render assistance to the injured SA trainees. When he determined that assistance was being given to them, he advised that he reached for his weapon to secure it but determined it was not in his holster. He returned to where he had been standing at the time of the gunshot and noticed his weapon on the floor. He has no recollection of how the weapon ended up on the floor but retrieved it, cleared it and took the weapon to the gun vault to secure it. b6 b7C

[redacted] a gunsmith/instructor advised that he was in the Gun Vault when he heard a gunshot in the Gun Cleaning Room. While other employees in the Gun Vault ran across to the Gun Cleaning Room, he remained at the door. He observed SSA [redacted] come out of the Gun Cleaning Room carrying a Sig/Sauer 228 pistol and a loaded magazine. Mr. [redacted] opened the door to the Gun Vault and SSA [redacted] entered and stated, "I've got to isolate this thing," and placed the pistol in Gun Bin #22. He was about to place the magazine in there also but stated, "can't keep ammo with the gun," and began unloading the magazine. Mr. [redacted] took the bullets, approximately 12, from SSA [redacted] and placed them in the blue container for live ammunition near the hallway door. SSA [redacted] placed the unloaded magazine in Bin #22 with the pistol and took Red Tag #22 with him and

went back to the Gun Cleaning Room. SSA later took the pistol and magazine from Bin #22 and left the red tag.

SSA advised she entered the Gun Cleaning Room and observed SSA standing by himself. SSA advised SSA that he was the one who had fired the shot and that it was a stupid mistake. SSA advised her that he had assumed that he still had the red-handled pistol that he had used earlier in the morning. SSA unloaded the two magazines he was carrying and gave all the bullets to SSA She then went to the Gun Vault and took possession of SSA pistol and empty magazine located in Gun Bin #22. She turned the pistol, empty magazine and bullets from his two extra magazines to Unit Chief

SA Trainees and were immediately assisted by FBI Academy personnel, including those with particular training in emergency medical response. SSA a firearms instructor who is also a nationally registered paramedic, upon hearing that someone had been shot in the Gun Cleaning Room immediately responded. SSA at first went to SA Trainee and, after determining that she did not have a major wound went to SA Trainee who he determined was going in to shock and needed advance life support. SA administered high-flow oxygen to SA Trainee and started an IV on him. SSA started a second IV on SA Trainee and placed mast trousers on him to maintain as much blood as possible in the upper torso. SA Trainee was transported via U.S. Park Police helicopter to the Washington Hospital Center for treatment.

b6
b7C

SA Trainee was transported via the FBI Academy ambulance to Potomac Hospital for treatment since her injuries were not considered to be life threatening.

Assistant United States Attorney Eastern District of Virginia, Alexandria, Virginia, declined prosecution in this matter since no fatality occurred; and there was no evidence developed indicating that there was any criminal intent on the part of SSA

SSA had been assigned to the FBI Academy as a firearms instructor since 6/28/92. His annual performance appraisal signed 11/5/93, documents that he committed a safety violation regarding a round

having been fired downrange by a student he was instructing while another student was downrange repairing a target. This was described by the team leader as "the most serious he had observed while at the Academy." He was rated Superior in this particular element on this appraisal. His annual performance appraisal signed 4/14/94, documents that "SSA [redacted] should place emphasis on following established protocols maintained by FTU (ie...the gun vault incident in which he left a loaded weapon which was found by a gunsmith)." He was rated Superior in this critical element on this appraisal.

SSA [redacted] routinely employed a red-handled weapon during his instruction. Other firearm instructors both used and avoid using red-handles.

SC PLEDGER, former Unit Chief of the Firearms Training Unit advised there is no written policy concerning red-handled weapons, although their use is encouraged when addressing a group/class of students.

No formal documentation was available concerning the firearms being carried in the FBI Academy prior to that published in a 4/27/95 memorandum. It was understood that the policy prior to this memo allowed for firearms instructors and HRT members to carry loaded weapons within the Academy with common sense dictating that they would not normally carry loaded weapons into instructional areas of the Academy. The 4/27/95 memorandum requires these personnel to carry loaded weapons in the Academy and was in response to security concerns arising in the wake of the OKBOMB matter. b6 b7C

It was found that SSA [redacted] was carrying 9mm ammunition used for training purposes rather than the ammunition required for duty purposes when this accident occurred.

The Assistant Director, Training Division, was tasked with documenting the emergency response that took place following this incident. Documentation provided reflects that there was not a significant delay in transporting SA [redacted] by helicopter to a trauma center. The U.S. Park Police helicopter pilots advised that the navigational coordinates they were initially given were inaccurate. This resulted in a 2- to 4-minute delay in transportation.

Title: SHOOTING INCIDENT
[redacted]
SAN DIEGO DIVISION
7/10/95

Character: ADMINISTRATIVE INQUIRY

Synopsis:

This inquiry was predicated upon information reported by SA [redacted] to the San Diego Division, at approximately 7:48 p.m., 7/10/95, that he had just shot a bank robbery suspect and his dog. b6 b7C

SA [redacted] is assigned to Squad 6, a VCMO squad, and is assigned to work bank robberies and other federal violations in the VCMO program. In a signed sworn statement he provided the following information:

On July 10, 1995, SA [redacted] recieved three complaint forms from the complaint agent regarding the [redacted] later identified as [redacted] SA [redacted] advised that he knew that the BIRDLEGS BANDIT was the suspect in twelve bank robberies in the Division, had displayed a weapon in two robberies, and had taken hostages at two bank robberies. The complainants provided information that the bank robber's photograph in the newspaper that day was an individual named [redacted] That the person in the bank robbery photographs drove a Nissan pickup truck and that the suspect was a customer at the Holiday Wine Cellar in Escondido, California, who frequented the Wine Cellar often between 5:00 p.m. and 7:00 p.m.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

SA [redacted] went to the Wine Cellar in hopes of obtaining the store video surveillance film for later viewing in attempts to identify the BIRDLEGS BANDIT. Subsequent to interviewing employees at the Wine Cellar and while still in the area he observed a Nisson truck in the parking lot that resembled the truck described by witnesses that was driven by the suspect. He observed the suspect in the Wine Cellar and called for backup from his Bureau car. He then observed the suspect exit the store and approached him in order to further identify him. SA [redacted] identified himself as an SA with the FBI and displayed his credentials to the suspect. During the course of conversation SA [redacted] obtained suspect's car keys. The suspect, upon learning that a backup was enroute, became uncooperative, entered his truck using a spare key, started the vehicle, and drove out, bumping SA [redacted] Bureau car in the process. SA [redacted] surveilled the suspect to the suspect's residence, at the same time attempting to get a backup by using the Bureau radio and cellular telephone. He followed the suspect into suspect's driveway and attempted to continue his interview to stall for time. The suspect became intimidating and a shoving match ensued with the suspect stating "Your going to have to kill me!" The suspect ordered his dog to "Sic him MAX, sic him!" When the dog was within one foot of SA [redacted] SA [redacted] fired one shot which disabled the dog. The suspect then hit SA [redacted] in the face with either his fist or a blunt object. SA [redacted], was dazed, but could feel the suspect advancing. At this point SA [redacted] drew his weapon again and shot the suspect one time. SA [redacted] then got one handcuff on the suspects wrist. The suspect continued to struggle with SA [redacted] and they slid down to a fence where SA [redacted] was able to get the other handcuff on the suspect. Then with the assistance of a neighbor, attempts were made to render first aid to the suspect who had been wounded in the chin and neck.

b6
b7C

SA [redacted] was transported to the hospital by SA [redacted] for treatment of a swollen and bruised face subsequent to briefing appropriate law enforcement personnel at the crime scene. [redacted] was transported to the hospital by ambulance.

Review of the evidence collected, crime scene photographs and sketches, interviews with employees at the Holiday Wine Center, interviews of the neighbors and other investigators support SA [redacted] statement. The weapon he used on 7/10/95 was his Bureau issue SIG SAUER, P226, serial number U447161.

Title:
ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
LOS ANGELES DIVISION
7/24/95

Character: ADMINISTRATIVE INQUIRY

Synopsis: On July 24, 1995, Special Agents (SAs) assigned to the Santa Ana Resident Agency of the Los Angeles Office of the FBI, and a deputy from the Orange County Sheriff's Office (OCSO), Santa Ana, California, were assigned to participate in a surveillance at the residence of KEVIN DUANE ARNOLD. ARNOLD was a federal fugitive wanted for Bank Robbery in violation of Title 18, United States Code, Section 2113 (a), from the Southern District of California, San Diego, California.

At Approximately 9:30 a.m., 7/24/95, Senior Supervisory Resident Agent (SSRA) [redacted] and SA [redacted] both assigned to the Santa Ana Resident Agency, conducted a briefing attended by SA [redacted] SA [redacted] and OCSO Deputy [redacted] During the briefing, the fact that ARNOLD was wanted for a San Diego Bank Robbery was discussed, as well as the fact that SA [redacted] was going to obtain a federal arrest warrant on that day from a United States Magistrate Judge, charging ARNOLD with 11 additional bank robberies committed in the Orange County area. SA [redacted] was also going to obtain a federal search warrant for ARNOLD's vehicle and residence, located at 21592 Cabrosa, Mission Viejo, California. SA [redacted] instructed SA [redacted] SA [redacted] and Deputy [redacted] to conduct the surveillance at ARNOLD's residence, in an effort to locate him pending the issuance of the additional federal arrest warrant and the search warrants. During the briefing, ARNOLD's background as a former police officer, who had been involved in

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

several department shootings was discussed, as well as the fact that during some of the bank robberies ARNOLD claimed to have a weapon. ARNOLD was to be considered Armed and Dangerous. All participants in the surveillance had conducted prior surveillances of ARNOLD at his residence and were aware of what he looked like, the vehicle he drove, and the fact that ARNOLD was married with small children. Consequently, both SSRA [redacted] and SA [redacted] wanted ARNOLD to be arrested away from his residence, to insure the safety of ARNOLD's wife and children.

At approximately 12:30 p.m., SA [redacted] SA [redacted] and Deputy [redacted] commenced their fixed surveillance at ARNOLD's residence in Mission Viejo. At approximately 1:30 p.m., there was movement at ARNOLD's residence. Both SA [redacted] and SA [redacted] drove by ARNOLD's home to investigate that movement. As they passed the house, both observed ARNOLD at the door. SA [redacted] stated that within seconds he heard over the two-way radio from Deputy [redacted] that ARNOLD had probably observed them, as ARNOLD came out into the street and watched them drive away. Within the next several minutes, Deputy [redacted] reported that ARNOLD had returned to his house, that he exited his house, and that he drove away in his blue vehicle. SA [redacted] stated that after a brief period of searching for ARNOLD, he used his cellular telephone to contact SA [redacted] who was obtaining the additional arrest warrant and the search warrants. SA [redacted] stated that he was instructed by SA [redacted] to arrest ARNOLD, if he was located. He was further instructed to attempt to arrest ARNOLD prior to him entering his home.

b6
b7C

Several minutes later, SA [redacted] observed ARNOLD driving his vehicle (a 1994 blue two-door, Ford Escort, California License 3GTZ579) in the parking lot at Portola Plaza, 27690 Margarita Parkway, Mission Viejo, California. SA [redacted] reported that information to SA [redacted] and Deputy [redacted] via his two-way radio. SA [redacted] requested SA [redacted] assistance at that shopping center. At that point, SA [redacted] informed SA [redacted] of SA [redacted] instructions regarding ARNOLD's arrest. He also informed SA [redacted] that he was approximately 30 seconds away. During this period of time, ARNOLD observed SA [redacted] and began yelling at him and pointing his finger at him in an animated fashion.

b6
b7C

At that point, ARNOLD moved his vehicle into a parking space and stopped. SA [redacted] stopped his vehicle to the front of ARNOLD's vehicle, but not quite perpendicular to it, approximately 20 - 25 feet away. ARNOLD exited his vehicle while yelling at SA [redacted] and taking an aggressive stance by the front driver's door. SA [redacted] exited his vehicle, drew his weapon and

pointed it at ARNOLD while moving to the driver-side front fender. SA [redacted] then yelled, "Stop, Police, put your hands up". ARNOLD replied, "Let's get this over with". ARNOLD refused to obey any of SA [redacted] commands and continued to yell in a belligerent manner. ARNOLD also made the statement, "No, we are going to handle this right now".

SA [redacted] then arrived on the scene and observed ARNOLD yelling and pointing his finger at SA [redacted] who was approximately 30 feet away. SA [redacted] stopped his vehicle somewhat perpendicular to ARNOLD's vehicle, 1 - 3 feet from where ARNOLD was standing by the front door of his vehicle. SA [redacted] observed ARNOLD briefly glance at him, but ARNOLD immediately returned his attention to SA [redacted] SA [redacted] then exited his vehicle, drew his weapon, described as a .45 caliber, Sig Sauer Semi-automatic, Model P220, bearing Serial Number G218365 and pointed it at ARNOLD. SA [redacted] then yelled, 'FBI! KEVIN, you are under arrest! Get down on the pavement". Those commands were repeated several times, but ARNOLD completely disregarded them. At that point, ARNOLD glanced toward SA [redacted] and yelled, "Fuck you! I am not going to do it". ARNOLD then attacked SA [redacted] who was approximately 25 - 30 feet away. Prior to reaching SA [redacted] SA [redacted] heard ARNOLD yell, "Tell my wife I love her".

b6
b7C

ARNOLD then reached SA [redacted] who was then located between his vehicle and ARNOLD's vehicle in a vacant parking slot to the front of ARNOLD's vehicle. At that point, a fight ensued between SA [redacted] and ARNOLD. SA [redacted] who followed ARNOLD, immediately joined in the fight. Both SA [redacted] and SA [redacted] initially had their weapons in their hands, making fighting difficult. ARNOLD made repeated attempts to obtain control of their weapons, but to no avail. Throughout the fight, ARNOLD continually refused to obey the SAs commands to surrender and submit to arrest. At one point, ARNOLD turned his back to the SAs and made a motion of reaching into the front of his pants, as if he was drawing a weapon. Both SA [redacted] and SA [redacted] stated that they were prepared to shoot ARNOLD at that time, but when he turned around he had no weapon in his hand. Frequently, throughout the fight, ARNOLD yelled, "Shoot me, Shoot me!" and "You are going to have to kill me". As the fight continued, it moved back toward the front door area of ARNOLD's vehicle. One time during this period, ARNOLD opened his driver's door, reached in and grabbed for something between the front seat and back rest. Both SAs again believed that ARNOLD was reaching for a weapon and were prepared to fire. However, once again, ARNOLD turned with empty hands. The fight then continued. Both SAs believed that they were fighting for their lives.

b6
b7C

At one point during this period, SA [redacted] was able to briefly return to his vehicle and use his two-way radio to call for Deputy [redacted] assistance. SA [redacted] then returned to assist SA [redacted] Shortly thereafter, ARNOLD broke free and ran back to his vehicle. He jumped in, grabbed his car keys off the front passenger seat and inserted the key into the ignition. By that time, SA [redacted] had run to the driver's side window, reached in with his left hand and arm over the top of the steering wheel in an effort to remove the car keys from the ignition. However, ARNOLD was able to start his vehicle and began backing up. As the vehicle began to move, SA [redacted] was unable to extract his left arm from the steering wheel area. SA [redacted] believed that his arm was either being held by ARNOLD, or it was trapped inside the vehicle. SA [redacted] was dragged by the rearward movement of ARNOLD's vehicle for approximately 30 - 40 feet at a speed SA [redacted] thought was very fast. SA [redacted] fearing for his life, reached into the front seat area with his right hand which was holding his weapon and fired one round into ARNOLD's chest. SA [redacted] left arm was immediately freed. He regained his footing and stepped away from ARNOLD's vehicle. ARNOLD then slumped over toward the passenger seat area, but the engine made a "revving" sound and moved forwards. ARNOLD's vehicle stopped upon collision with a 1995 Acura which was parked in a slot to the front of ARNOLD's vehicle.

b6
b7C

ARNOLD was removed from his vehicle by SA [redacted] and Medix ambulance personnel who were at the scene. Paramedics from the Orange County Fire Department responded to the scene and administered first aid prior to transporting ARNOLD to Mission Hospital with a gunshot wound to the chest. ARNOLD was declared dead shortly after arriving at Mission Hospital, Mission Viejo, California.

b6
b7C

Neither SA [redacted] nor SA [redacted] sustained any serious injury.

OCSO Homicide-Officer Involved Shooting Team and the Los Angeles Agent Involved Shooting Team responded to the scene. A joint investigation was conducted.

Neighborhood investigations were conducted at the shooting scene, along with witness interviews.

Photographs were taken of the crime scene area by both the FBI and OCSO.

OCSO conducted the crime scene investigation, accompanied by FBI personnel.

SSRA [redacted] notified ARNOLD's wife, [redacted] of his death, when he resisted arrest on the charge of federal bank robbery.

ARNOLD's vehicle was impounded by OCSO as part of the crime scene investigation, but was searched for items that were named in a federal search warrant by the FBI.

On 7/25/95, OCSO - Coroner's Office conducted an autopsy on ARNOLD. The FBI witnessed the autopsy.

OSCO and the Coroner's Office furnished the FBI their written reports regarding the shooting incident.

Report of: SSA [redacted] Office: LAS VEGAS
Date: August 21, 1995

Field Office File #: 62A-LV-26245 Bureau File #:

Title: SHOOTING INCIDENT
May 12, 1995
Las Vegas Division

b6
b7C

Character: Administrative Inquiry

Synopsis: [redacted] Executive Director, National Independent Bank Equipment and Systems Association (NIBESA), Park Ridge, Illinois sought the assistance of Special Agent (SA) [redacted] New York FBI in arranging for a demonstration of the various types of bullet resistant glass during their annual convention in Las Vegas, Nevada, May 11-12, 1995. SA [redacted] who has assisted the NIBESA in past demonstrations, identified SA [redacted] Las Vegas FBI Principal Firearms Instructor, who would be able to arrange for the demonstration. SA [redacted] obtained New York FBI management authorization (documented) for the FBI to participate in the demonstration.

SA [redacted] advised the demonstration plan would include a burning demonstration of the safes, and a firearms demonstration involving the shooting at the bullet resistant glass. The last event would be a shooting demonstration in which metal targets would be engaged, similar to demonstrations he witnessed in the past.

Ms. [redacted] made telephonic contact with SA [redacted] and discussed with the him shooting at the bullet resistant glass; she insists he was not asked to participate in any other demonstrations, specifically

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

shooting bullets at any safes or ATM machines.

Ms. [redacted] made the necessary arrangements for the shipment of the safes, ATMs and resistant glass to Las Vegas for the demonstration, and arranged for the one-day insurance policy for the demonstration.

SA [redacted] arranged with the Las Vegas Metropolitan Police Department (LVMPD) to utilize the police shooting range on May 12, 1995, arranged for the use of Bureau weapons and ammunition to be used during the demonstration, and coordinated the delivery of the safes, ATMs and resistant glass by the Lomanto Exhibit Services. SA [redacted] chose to use his personally owned bureau approved 30-06 rifle during the demonstration. SA [redacted] also provided the rifle ammunition which included military armor piercing rounds, and commercial 30-06 ammunition manufactured by Eldorado Cartridge Company located in Boulder City, Nevada. The commercial ammunition was all copper 180 grain Barnes "X" bullets.

b6
b7C

On the morning of May 12, 1995, SA [redacted] arrived at the firearms range, and met with SA [redacted] The safes, ATMs and glass had already been set up at the direction of SA [redacted] SA [redacted] had marked off an area approximately 77 feet from the target area using tape stretched between two speakers which had been placed on opposite sides of the range.

SA [redacted] used a wireless speaker to direct the mechanics of the safe burning demonstration. There were between 100 and 150 spectators. After the burn demonstration, SA [redacted] directed the spectators behind the tape area. SA [redacted] repeated to the spectators comments by SA [redacted]

b6
b7C

It was a decision made soley by SA [redacted] to include in the firearms demonstration shots fired at the safes. SA [redacted] positioned himself 40 to 50 feet in front of the safe located near the middle of the target line. SA [redacted] fired two rounds of armor piercing ammunition in rapid succession at the safe. SA [redacted] approached the safe to exam the bullet impact areas, and SA [redacted] who had heard some noise from the spectator area, walked over to the crowd. SA [redacted] observed that [redacted] had suffered a small crescent shaped wound to his shin area. First aid was administered, and [redacted] insisted he was all right. SA [redacted] advised it was common for individuals to receive minor splash back wounds.

At this time, neither SA [redacted] nor SA [redacted]

realized a second spectator had received a wound. SA [redacted] and SA [redacted] moved the spectators to the back of the range area, approximately 60 years from the target line and continued with the demonstration. SA [redacted] then fired one of the all copper bullets at the target. The bullet or a large fragment ricochetted back and struck SA [redacted] in the right anterior lower thigh. SA [redacted] was transported to University Medical Center for treatment.

SA [redacted] and SA [redacted] of the Las Vegas FBI Office were present to observe the demonstration. SA [redacted] asked if they would assist in competing the demonstration by firing rounds at the bullet resistant glass. The demonstration was concluded by SA [redacted] and SA [redacted] without any further incidents. b6 b7C

It was subsequently learned that Ms. [redacted] of Farmers Branch, Texas had sustained a ricochet wound to her neck. Both [redacted] and [redacted] received treatment at the Lake Mead Hospital, Las Vegas, Nevada. Ms. [redacted] was advised at the hospital that a piece of metal was still in her neck, but the piece would work its way out. Ms. [redacted] confirmed the piece did eventually come out.

Mr. [redacted] of Marquette, Michigan suffered an injury to his lower left calf muscle. Mr. [redacted] received medical treatment at the Lake Mead Hospital; he also was informed the fragment was still in his leg. Mr. [redacted] subsequently sought medical treatment at the Marquette General Hospital on May 22, 1995, and has been attended by a physician since that time. The fragment remains in his leg, and he continues to suffer pain. Mr. [redacted] advised he has not sought legal advise on the matter, however, made it known he felt compensation was due him for the hardships suffered as a result of the bullet wound. b6 b7C

A video taping of the event taken by NIBESA was of poor quality, and did not record the shooting event which resulted in the wounds suffered by Agent [redacted] Ms. [redacted] and Mr. [redacted]

Field Office File #: Bureau File #: 66-19157-3

Title: SHOOTING INCIDENT
BALTIMORE DIVISION
MAY 29, 1995

Character: ADMINISTRATIVE INQUIRY

Synopsis: In 1/95, in separate incidents, two Metropolitan Police Department (MPD) officers were shot and wounded in unprovoked attacks while on duty in full uniform. Based on a request from the MPD, WMFO Squad C-21, the Cold Case Squad, a task force, initiated an ITAR-MURDER investigation.

In 4/95, Prince George's County Police Department (PGCPD) Officer JEFFREY NOVABILSKI was shot and killed in an unprovoked attack as he sat in full uniform in his patrol car. Officer NOVABILSKI'S service weapon, a 9mm Beretta, was taken by his assailant. Two days later [redacted] was arrested by PGCPD and charged with this murder.

On 5/18/95, [redacted] met with PGCPD detectives and provided information regarding her association with RALPH MCLEAN. She said that for the past year she had a relationship with MCLEAN during which time he had physically and sexually assaulted her. An arrest warrant was issued for RALPH MCLEAN for assault. [redacted] furnished information which linked MCLEAN to the assaults on the MPD officers and to the murder of PGCPD officer NOVABILSKI.

On 5/25/95, technical surveillance was initiated via Cellular One and [redacted] on the cellular telephone utilized by MCLEAN. Early that evening, Agents from Squad

b2 b6 b7C b7E

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

C-21 and the WMFO SOG met in Northern Virginia to distribute descriptive data about MCLEAN and to set forth a plan of action should MCLEAN be located. Surveillance was discontinued that night in Fredericksburg, Virginia, and resumed at 5:00 a.m. the next morning. On 5/26/95, Cellular One provided information obtained by noting the cell sites being utilized by MCLEAN'S cell phone that he was traveling south towards Richmond.

On 5/27/95, an arrest warrant was issued in the District of Columbia for RALPH MCLEAN for the assault on a MPD officer. During that day, MCLEAN responded to page by [redacted] and in the ensuing conversation indicated that he thought she was cooperating with law enforcement authorities. That night the MPD assaults were profiled on "America's Most Wanted" but MCLEAN'S name was not mentioned. The following evening, 5/28/95, a television reporter related that an arrest warrant had been issued for RALPH MCLEAN for shooting the MPD officers and there was an outstanding PGCPD arrest warrant for the same individual which identified MCLEAN'S girlfriend as cooperating.

During the afternoon of 5/28/95, technical coverage indicated that MCLEAN was headed back north towards the Washington, D.C., area. Late that afternoon, a PGCPD detective notified a Squad C-21 Agent and advised that MCLEAN had contacted [redacted] and wanted to meet her that evening. SOG, C-21 Agents and Agents from the Technical Services Squad then met at the Springfield Mall in Northern Virginia. The case agents then explained to the participants that MCLEAN was to meet his girlfriend at a shopping mall, not yet identified and they planned to try to arrest him in an open area en route to the meeting. If this did not work, they would try to use the [redacted] MCLEAN'S location. He was to be surveilled to a safe area to make the arrest. If he was stationary for the night, SWAT would be activated. If a felony car stop was required, the SOG would handle it.

b2
b6
b7C
b7E

During that evening, the PGCPD detective with [redacted] advised that a meeting was planned by MCLEAN with [redacted] for the Tyson's Corner Mall. That was later changed by MCLEAN and [redacted] for the Beltway Plaza Mall in Greenbelt, Maryland. About a week earlier, [redacted] had told MCLEAN that she had a friend in the Greenbelt area and that would be a good place to meet. [redacted] was being operated solely by the PGCPD detectives and conversations between [redacted] and MCLEAN were being relayed by those detectives to C-21 Agents.

At about 6:00 p.m., C-21 SSA [redacted] had notified Southern Maryland Metropolitan RA (SEMRA) SSA [redacted] that MCLEAN was back in the area but that it was not

anticipated at that time they would be in PG County. At 10:40 p.m., [redacted] again contacted [redacted] and advised that the meeting place had changed to the Beltway Plaza Mall in SMMRA territory.

WMFO Agents had arrived in the Greenbelt area at about 10:00 p.m. Throughout the evening MCLEAN and [redacted] had continued conversations. At about 11:30 p.m., in response to a page, MCLEAN contacted [redacted] who indicated that she had not seen MCLEAN in the parking area of the Beltway Plaza Mall. At that time MCLEAN told [redacted] that he would meet her at the Shell Gas Station nearby. SA [redacted] and SA [redacted], both assigned to WMFO SOG, moved their vehicles to a parking lot in the Greenbelt Middle School, where they could observe the Shell Gas Station. Between 10:30 p.m. and 12:40 a.m., 5/29/95, two [redacted] vans had numerous activations regarding MCLEAN'S use of his cellular phone, however, [redacted] The activations did, however, indicate that MCLEAN was in the area of Greenbelt Middle School. This information was broadcast to all units.

b2 b6 b7C b7E

At about 12:40 a.m., Officer [redacted] Greenbelt City Police Department (GCPD), was notified by a fellow officer of suspicious vehicles in the area of Greenbelt Road and Kenilworth Avenue. In patrolling the area, Officer [redacted] observed SA [redacted] vehicle in the parking lot of the middle school. Initially, he drove past SA [redacted] car to obtain registration information. He turned around in the parking lot returning to the area of SA [redacted] SA [redacted] exited his vehicle, identified himself to Officer [redacted] by displaying his FBI credentials and asked Officer [redacted] to leave the area and inform other GCPD units of law enforcement presence in the area conducting a surveillance. Within about 10 minutes of Officer [redacted] departing the area, RALPH MCLEAN approached SA [redacted] vehicle, from the operator's side and fired 16 shots at SA [redacted] with a M-11.

b6 b7C

Upon hearing the automatic weapon fire, SA [redacted] who was positioned in a surveillance van, called for assistance, exited the van and observed MCLEAN running around the corner behind the Greenbelt Middle School. MPD Officer [redacted] who had been hiding in shrubbery across the street in the vicinity of the Shell Station, also saw MCLEAN fleeing. He broadcast the direction of MCLEAN'S flight. MCLEAN attempted to make his escape from the area of the school through a wooded area to get to his vehicle which was parked in an apartment complex nearby. This route was blocked by responding law enforcement officers who had quickly set up a perimeter. MCLEAN then fled west several hundred yards to the Beltway Plaza Mall parking lot. During this time, he made a diversionary 9-1-1 call and advised

emergency personnel that the assailant of the police officer drove away from the area in a black Maxima.

An FBI Agent from the SMMRA spotted MCLEAN moving from concrete pillar to concrete pillar in the parking area of the Beltway Plaza near the Caldor Store and requested assistance via the Bureau radio. The responding police officers and FBI Agents were fired upon by MCLEAN who had now moved to a place of hiding behind the wheels of a box trailer parked on the Caldor loading dock. FBI Agents and PGCPD officers returned fire. A total of 43 rounds were fired, 31 by three PGCPD officers and 12 by three FBI Agents. After receiving numerous non-fatal bullet wounds MCLEAN took his own life by shooting himself with the 9mm Beretta taken from Officer NOVABILSKI.

Six law enforcement officers fired their weapons as follows:

| Name | Weapon | Caliber | Estimated Rounds Shot |
|---|---|---|---|
| [redacted] (FBI) | H&K MP5 SN 62-332171 | 9mm | 8 |
| [redacted] (FBI) | S&W 1076 SN THC9805 | 10mm | 3 |
| [redacted] (FBI) | SigSauer P228 SN B118555 | 9mm | 1 |
| [redacted] (PGCPD) | Beretta 92F SN BER076268Z | 9mm | 15 |
| [redacted] (PGCPD) | Beretta 92F SN BER048960Z | 9mm | 11 |
| [redacted] (PGCPD) | Beretta 92F SN BER004799Z | 9mm | 5 |

b6
b7C

SA [redacted] was armed with a 10mm Smith and Wesson, Model 1076 pistol which was still holstered, and a 9mm H&K MP-5 submachine gun which was not fired. He was wearing his ballistic vest at the time of the shooting.

Details of this incident will be reported as delineated in the table of contents.

Title: SHOOTING INCIDENT
PHILADELPHIA DIVISION
PHILADELPHIA, PENNSYLVANIA
JUNE 1, 1995

Character: ADMINISTRATIVE INQUIRY

Synopsis:

A preliminary inquiry was initiated on 5/16/95, on "GLENN THOMAS, aka Glenn Gram, Keith Graham, Keith Thomas, Jahil Thomas, Shawn Thomas; UFAP - Aggravated Assault." The cas was based on information furnished by the Philadelphia Count District Attorney's Office. It was opened and assigned to [redacted] a member of the Philadelphia Office's Fugiti Task Force.

A review of this case showed that there were two "failure to appear" Bench Warrants outstanding against GLENN THOMAS. The first was issued on 2/27/95, and involved original charges of Theft, Receiving Stolen Property and two counts of violation of the Uniform Firearms Act. The second warrant, issued 3/31/95, involved original charges of Aggravated Assault (against two Philadelphia Housing Authority Officers); Recklessly Endangering Another Person; Resisting Arrest; and two counts of violation of the Uniform Firearms Act. Additional charges lodged against GLENN THOMAS involved a 12/8/94 arrest for, among other violations, Firearm Not To Be Carried Without A License, in the jurisdiction of the Upper Darby Township (Pennsylvania) Police Department.

b6
b7C

Clearly, GLENN THOMAS was known to have a history of violent criminal behavior which included significant armed hostility directed at law enforcement officers.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

On 6/1/95, SA [redacted] received perishable, "real time" information that GLENN THOMAS was located on Tackawanna Street in the Whitehall Housing Projects in Northeast Philadelphia. This information came from a former source of the Philadelphia Office who had been closed a few months prior. The source was in a position to know the whereabouts of THOMAS because he would see him periodically in the Whitehall Projects. On at least three other occasions, the source had been in contact with SA [redacted] regarding THOMAS' location. b6 b7C

[redacted] was able to respond. He immediately requested fellow members of the Task Force to assist him in apprehending THOMAS. He was successful in obtaining the assistance of six Agents/Officers. All six, located at several locations around the city, began to converge on the Whitehall location. Three of the Task Force members, notably SAs [redacted] and Detective [redacted] were delayed by heavy traffic. The others, SA [redacted] Sergeant [redacted] and Detectives [redacted] and [redacted] arrived at the housing project some blocks from GLENN THOMAS' reported location. Since there were four armed law enforcement officers present and the circumstances were exigent and very fluid, a judgment was made that an arrest could be made without waiting for the three Task Force members.

Prior to the arrival of SA [redacted] Detectives [redacted] and [redacted] drove through the Tackawanna Street area because the source had indicated THOMAS had an AK-47 automatic weapon in his automobile, a white Thunderbird.

The arrest plan was conceived and agreed upon by SA [redacted] and the Task Force members on scene. They would approach THOMAS and while doing so, utilize their vehicles and existing buildings to contain THOMAS as best they could should he attempt to flee. They planned to approach THOMAS and place their four Bureau cars in such a way as to block his egress. Since all the participants were driving individual cars, it was decided that Detective [redacted] would lead the way to THOMAS' location, followed by SA [redacted] Sergeant [redacted] and Detective [redacted]

Shortly after 4:30 p.m., Task Force members located THOMAS, precisely where the source had earlier indicated subject would be found. SA [redacted] and Detective [redacted] exited their vehicles a short distance from a group of Black males sitting on a pipe fence. These Black males, to include subject GLENN THOMAS, recognized the Task Force members as law enforcement and began fleeing the area. It appears either Detective [redacted] or SA [redacted] or both, immediately identified themselves by yelling "Stop - Police." They began to pursue THOMAS in a northerly b6 b7C

direction along Tackawanna Street. GLENN THOMAS was observed by SA [redacted] and Detectives [redacted] and [redacted] to have a handgun in his waistband. All three Task Force members observed THOMAS as he started to remove the weapon from his waistband. SA [redacted] fired one shot, fatally wounding THOMAS. THOMAS did not fire his weapon.

Detective Sergeant [redacted] did not participate in the foot pursuit because SA [redacted] and Detective [redacted] had exited their vehicles and initiated a chase of THOMAS prior to [redacted] leaving his automobile. Detective [redacted] exited his automobile and had taken a few steps to join the chase at which time THOMAS was shot. b6 b7C

One law enforcement officer fired his weapon in the attempt to apprehend THOMAS:

| NAME | WEAPON | CALIBER | NUMBER OF ROUNDS SHOT |
|---|---|---|---|
| SA [redacted] | Sig Sauer Model P220 Semi Automatic Pistol | .45 | 1 |

As a result of the shot fired by the law enforcement officer, GLENN THOMAS sustained a fatal gunshot wound to his head.

The Philadelphia Medical Examiner's report indicates a large projectile base and small bullet fragments were recovered from the body.

Details of this incident will be reported as delineated in the Table of Contents.

Title: SA [redacted]
SHOOTING INCIDENT,
ARLINGTON, VIRGINIA;
MARCH 20, 1995
OO:WMFO

Character: ADMINISTRATIVE INQUIRY

Synopsis:

On March 20, 1995, at approximately 12:45 p.m., a bank robbery occurred at the George Mason Bank, 4005 Wilson Boulevard, Arlington, Virginia. WMFO agents responded to the bank robbery and a joint investigation was initiated with the Arlington County Police Department. Witnesses advised that a lone male presented a robbery note to the bank teller and demanded money. The subject claimed to have a gun. The subject was given bank funds in the amount of $7,140.68 which he placed into a duffle bag and fled the bank.

Witnesses to the robbery described the subject as a black male, late twenties to early thirties, heavy set with a small mustache. The subject was described as being between 5'9" and 6'1" tall and weighing between 250 and 300 lbs. He is further described as wearing dark plastic sunglasses, baseball cap, a blue waist length jacket and blue jeans. He was carrying a blue duffle or tote bag over his shoulder.

At approximately 1:30 p.m., an officer of the Defense Protective Service (DPS) on duty at the Pentagon (approximately four miles from the bank robbery) observed an individual who fit the description of the bank robber. The subject was fatigued and sweaty and asked for directions to the closest metrobus stop. The officer furnished the subject with directions to the metrobus stop. The DPS officer radioed the DPS dispatcher and advised that a man fitting the

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

description of the bank robber was headed towards the Pentagon metrobus stop.

Shortly thereafter, uniformed DPS officers in marked police vehicles approached the subject and ordered him to stop. The subject drew a handgun from his waistband and fled on foot through the Pentagon's south parking lot toward Eads Street and the interstate 395 overpass (I-395). b6 b7C

Special Agent (SA) [redacted] was conducting a separate investigation at the Pentagon when the subject was observed. [redacted] had previously parked his bureau car in a secured parking lot at the Naval Army Annex. [redacted] secured his service weapon and his briefcase in the trunk of his Bureau vehicle. [redacted] was dressed in soft street clothes and felt the possibility of an accidental exposure of his service weapon within the Pentagon confines might cause undue concern to the workers and to the security force within the Pentagon. [redacted] and DPS investigator [redacted] travelled to the Pentagon in [redacted] unmarked government vehicle.

Numerous uniformed DPS officers along with [redacted] and [redacted] responded to Eads Street and the I-395 overpass. Upon seeing the responding officers, the subject turned and pointed his weapon directly at them. Four DPS officers fired upon the subject at this time.

The subject turned and ran up the I-395 exit ramp and continued fleeing across I-395. The DPS officers and [redacted] pursued the subject on foot. When Investigator [redacted] got to the top of the I-395 exit ramp, he became fatigued and motioned to the other officers to continue their pursuit. [redacted] acknowledged to [redacted] that he was physically okay and then gave his service weapon to [redacted]

[redacted] continued pursuing the subject across I-395 but realized the subject was increasing his lead. SA [redacted] stopped a vehicle that was getting onto I-395 from highway 110. [redacted] identified himself as an FBI Agent to the driver and requested his vehicle in order to continue pursuing the subject.

The subject crossed completely over I-395 and ran through the ground level parking garage towards the Double Tree Hotel. The subject was constantly pursued by DPS officers. [redacted] drove the commandeered vehicle to the rear of the Double Tree Hotel. The subject emerged from the parking garage area of the Double Tree Hotel and attempted to run past [redacted] identified himself and ordered the subject to stop. The subject pointed his weapon directly at [redacted] who was approximately twenty feet away from the subject, fired two rounds from [redacted] service weapon. b6 b7C

The subject continued to run approximately one half block and stopped in a grassy area near Eads Street. The subject had his back towards [redacted] A DPS marked cruiser with two uniformed

officers was approximately ninety feet in front of the subject. The subject again pointed his weapon at the uniformed DPS officers. Both DPS officers and [redacted] fired upon the subject. [redacted] was approximately one hundred and twenty feet from the subject at this time. The subject immediately fell to the ground and lost consciousness. He never regained conscious and died on March 21, 1995 at 11:47 p.m. (See exhibit #50)

b6
b7C

Autopsy reports revealed the subject had been shot twice, once in the left rear shoulder and the second wound was a through and through wound to the subject's neck (spine).

Arlington County Police Department's (ACPD) mobile crime unit located some bloody body tissue on a parked vehicle approximately fifteen feet in front of the subject and a spent bullet on Eads Street approximately forty feet in front of the subject. The FBI Laboratory, DNA Analysis Unit determined the DNA from the bloody body tissue and the DNA obtained from blood traces on the spent bullet was consistent with the subject's DNA. (See exhibit #52)

The FBI Laboratory, Firearms-Toolmarks Unit determined the spent bullet found on Eads Street had been fired from [redacted] service weapon. Additionally, the bullet recovered from the subject's left rear shoulder was also determined to have been fired from [redacted] service weapon.

b6
b7C

The FBI Laboratory results, Autopsy report and witness statements indicate [redacted] sixth shot, from approximately one hundred and twenty feet, was the round responsible for the through and through wound to the subject's neck. Two witnesses [redacted] and [redacted] stated the subject appeared to be suffering from a wound when he arrived at the grassy area near Eads Street. Indicating one of the two rounds fired by [redacted] from approximately twenty feet, was responsible for the wound to the subject's left rear shoulder. Although [redacted] fired upon the subject with the same weapon at Eads Street and I-395 overpass, there is no physical evidence or witness statements indicating one of his rounds hit the subject.

The subject was identified as James Harry Alexander, black male, Dob 9/4/66, FBI #192875EA6 and was wanted by the Washington, D.C. Police Department for burglary. Although Alexander's Stallard Arms 9mm pistol was determined to be operable by the FBI Laboratory, he never fired any rounds. Investigation determined Alexander was not responsible for the robbery at the George Mason Bank on this date.

The majority of this shooting incident was recorded on video tape by the DPS at the Pentagon. Two photographs were produced from the video, and are included in this report, showing Alexander pointing his weapon at the responding officers. The original video is in the possession of WMFO and can be made available upon request. (See exhibit #51)

On March 27, 1995, SSA [redacted] FBIHQ Employee Assistance Unit and SA [redacted] WMFO Employee Assistance Coordinator, conducted a critical incident stress debriefing with [redacted] and all of the DPS officers involved in captioned incident.

Memorandum from D. R. Knowlton to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
4/28/95
Cleveland Division

**DETAILS:** On 7/18/95, the SIRG, consisting of Chairman David R. Knowlton, Acting Chief Inspector, Office of Inspections, Inspection Division; Robert S. Conforti, Section Chief, Violent Crimes and Major Offenders Section, Criminal Investigative Division; Edward R. Leary, Section Chief, Personnel Management Section, Personnel Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted], Unit Chief, Firearms Training Unit, Training and Administration Section, Training Division; [redacted] Unit Chief, Undercover and Sensitive Operations Unit, Public Corruption and Civil Rights Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; and [redacted] Supervisor, WMFO, met to discuss the above-captioned shooting incident. b6 b7C

## Synopsis of the Shooting Incident

On April 28, 1995, SA [redacted] along with members of the Mahoning Valley Violent Crimes/Fugitive Task Force (MVVC/FTF), were conducting a fugitive investigation concerning [redacted] At approximately 1:30 p.m., members of the MVVC/FTF initiated a security perimeter around a residence at [redacted] Avenue, Youngstown, Ohio. As SA [redacted] and Officer [redacted] approached the residence from the rear, they noticed a large dog in the yard. SA [redacted] observed a wire fence that the dog was behind. On the southeast corner of the residence was a detached vehicle garage which SA [redacted] utilized for cover and concealment. As SA [redacted] approached the front northeast corner of the garage, he was attacked by the dog. SA [redacted] drew his service 10mm pistol and shot the attacking dog twice in the front facial area. The dog was immediately incapacitated. SA [redacted] directly advised the MVVC/FTF members that he had shot the dog and that everything was okay. Thereafter, the MVVC/FTF searched the residence for [redacted] with negative results. After the search, SA [redacted] immediately contacted the Youngstown Resident Agency to report the incident. b6 b7C

## Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the report dated 5/8/95, revealed that proper procedures were followed by SA [redacted] during this shooting

(CONTINUED - OVER)

incident. Appropriate officials as well as the owner of the dog were notified by SA [redacted]

b6
b7C

After a thorough review of the facts regarding this incident, it is the opinion of the SIRG that no administrative action should be taken against SA [redacted] as a result of his involvement in this shooting incident.

FD-204 (Rev. 3-3-59)

UNITED STATES DEPARTMENT OF JUSTICE
Federal Bureau of Investigation

Copy to:

Report of: SSA [redacted] Office: OKLAHOMA CITY
Date: February 28, 1995

Field Office File #: 66-HQ-19157 Sub 35 Bureau File #:

Title: SHOOTING INCIDENT
OKLAHOMA CITY DIVISION
FEBRUARY 1, 1995

Character: ADMINISTRATIVE INQUIRY

Synopsis: At 10:15 a.m., January 31, 1995, a then-unidentified white male, who was later identified as subject DAVID P. MILEWSKI (deceased), robbed COMMERCIAL FEDERAL SAVINGS AND LOAN. The subject, according to victim tellers, entered the bank, brandishing what was described as a silver or chrome .25 caliber automatic. The tellers, who were interviewed by FBI Agents, including SA [redacted], provided information indicating the subject appeared to be under a great deal of stress, being very nervous and scared. He was demanding and ordered tellers to get down on the floor. Subsequent investigation revealed the subject had made his get-away in a vehicle described as a white Cadillac.

b6
b7C
b7D

On the morning of February 1, 1995, information was received from Oklahoma County Sheriff's Deputy [redacted] to the effect that he, [redacted] identified as DAVID MILEWSKI, had robbed COMMERCIAL FEDERAL SAVINGS AND LOAN, on January 31, 1995. This identification, according to Deputy [redacted] was, in part, made because of the bank surveillance photograph displayed on television, subsequent to this robbery. [redacted]

B

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

FD-204

Synopsis (continued):

[redacted] MILEWSKI was currently residing at a residence located at 2501 South 102nd Street, Oklahoma City, Oklahoma, and the white Cadillac used in the robbery was parked in the garage of this residence. The informant further learned from the wife that the subject had a history of armed robberies. Deputy [redacted] information, after having been furnished to SA [redacted] was then shared with other FBI Agents, including SA [redacted] FBI Agents, accompanied by Oklahoma City Police Department (OCPD) officers, thereafter initiated a surveillance of the residence believed to be occupied by subject MILEWSKI. Surveillance Agents thereafter observed MILEWSKI exit the residence and go to a Corvette parked in front of the residence on two occasions, noting that MILEWSKI met the general physical description of the bank robber. By this time, MILEWSKI had been identified as having an arrest record, and efforts were being made to obtain an arrest photograph of MILEWSKI for the purpose of displaying to victim tellers, in an effort to obtain a positive identification.

b6
b7C
b7D

While efforts were being made to obtain this photograph for the positive identification, the garage door to the residence opened, and MILEWSKI was observed leaving the residence in the white Cadillac. FBI Agents, with OCPD officers, after following MILEWSKI for a short period of time, attempted to pull him over, utilizing emergency lights and siren. MILEWSKI continued to drive on a side street, accelerating, at which time it became obvious he was attempting to flee.

Following a 20-minute, high-speed chase, during which attempts to forcibly stop MILEWSKI failed, he was blocked in a car stop by Bureau Agents and OCPD officers. The stop was effected with the vehicle driven by SA CHONEY immediately in front of MILEWSKI's Cadillac. This stop was effected as the subject was proceeding west on Highway 152, toward the populated community of Mustang, Oklahoma, after subject had attempted to go the wrong way on streets, while being pursued at speed in excess of 90 mph. After the vehicle was stopped, SA [redacted] exited his vehicle and did not immediately observe the subject in the white Cadillac.

b6
b7C

FD-204

Synopsis (continued):

SA [redacted] at this point, thought the subject may have exited the Cadillac, however, he did not see the subject on foot, nor did he observe reaction of other Agents or police officers indicating the subject was on foot. SA [redacted] thereafter approached the subject vehicle with his .10 mm Smith and Wesson handgun drawn. As he approached the driver's side of the Cadillac, he observed MILEWSKI lying on the front seat, with his arms stretched out. SA [redacted] thereafter tapped on the windshield and ordered MILEWSKI out of his vehicle. At this point, he observed MILEWSKI with a gun in his right hand, and he was beginning to move the gun toward SA [redacted] SA [redacted] then fired three times through the windshield and still noticed MILEWSKI coming up with the gun. SA [redacted] then fired what he believed to be three more times. SA [redacted] then observed blood in the vicinity of MILEWSKI's head, as MILEWSKI slumped in the front seat of the vehicle.

b6
b7C

SA [redacted] was thereafter removed from the immediate scene of the shooting. SAC BOB RICKS, who had been attempting to catch up with the chase, arrived at the shooting scene, where he took command of the shooting investigation and removed SA [redacted] and other involved Agents from the scene.

b6
b7C

A crime scene investigation was thereafter conducted, under the direction of SA [redacted] Subject MILEWSKI was removed by Medical Examiner personnel from the vehicle, after being declared dead. During the crime scene investigation, seven spent cartridges from a .10 mm automatic were recovered outside the Cadillac. Two spent .25 caliber automatic cartridges were also found inside the vehicle, along with a .25 caliber semi-automatic pistol, located next to MILEWSKI's body. Also recovered at the scene was a total of $4,492.00 cash, including bait money identified as having been taken during the robbery of COMMERCIAL FEDERAL SAVINGS AND LOAN the previous day.

The medical examination of DAVID PAUL MILEWSKI, deceased, was conducted by [redacted] M.D., a medical examiner employed by the State of Oklahoma. Following the full autopsy, the Medical Examiner advised there was a wound to the chin which appeared to be self-inflicted but was not fatal. There was also a contact wound to the right temple, with a .25 caliber bullet lodged in the head. This wound, according to the Medical Examiner, was fatal and self-

FD-204

Synopsis (continued):

inflicted. In addition, there were two .10 mm wounds to the head, one to the right hand, and one to the left forearm. The pathologist ruled the cause of death as a gunshot wound to the head, and the manner of death was ruled as a suicide. All of the rounds fired by SA [redacted] were recovered in the autopsy or in a search of the interior of the vehicle.

Character: ADMINISTRATIVE INQUIRY

Synopsis:

This inquiry was initiated following the shooting of [redacted] white male, dob [redacted] by SA [redacted] on 2/27/95 at Springfield, Missouri. [redacted] was wanted for the armed robbery of a St. Louis, Missouri bank and the carjacking and kidnapping of three females on 2/24/95. [redacted] also raped one of the females and stole her vehicle which was used to facilitate two Springfield, Missouri bank robberies on 2/27/95. Although [redacted] did not display a weapon during the two Springfield, Missouri bank robberies, he did threaten to kill the victim tellers. [redacted] was confronted by SA [redacted] alone, in the parking lot of the REST HAVEN COURT MOTEL located in Springfield, Missouri at approximately 6:10 pm on 2/27/95. After [redacted] refused to comply with oral instructions and made movements towards SA [redacted] SA [redacted] fired one round at [redacted] then fled on foot and ran around the motel while continuing to turn toward [redacted] who fired an additional seven rounds at [redacted] [redacted] then stopped and submitted to arrest. [redacted] was shot one time in the left calf.

b6
b7C

During the inquiry, a signed sworn statement was taken from SA [redacted] FD-645s were signed by SAs [redacted], and SSRA [redacted] Signed sworn

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

statements were also taken from SAs [redacted] and [redacted] Interviews were conducted of witnesses located at the motel. A crime scene investigation was conducted by representatives of the SPRINGFIELD, MISSOURI POLICE DEPARTMENT.

- P -

DETAILS:

1. On Friday, 2/24/95 at approximately 4:30 pm, [redacted] white male, dob [redacted] entered the HEARTLAND SAVINGS BANK, St. Louis, Missouri, displayed a large handgun to the assistant manager and threatened to kill everyone in the bank. After obtaining the contents of two cash drawers, [redacted] departed the bank. Upon leaving the bank, a dye pack exploded and, as a result, [redacted] dropped the money and departed on foot.

2. Following the unsuccessful robbery of the HEARTLAND SAVINGS BANK, [redacted] confronted three women at the Keiner Plaza parking garage, St. Louis, Missouri, and forced the three women to drive him to Pontoon Beach, Illinois in a green Mercury Tracer station wagon which belonged to one of the three women. He ordered the three women out of the car in Pontoon Beach, Illinois and raped one of the three women.

3. On 2/27/95 at approximately 10:40 am, the GREAT SOUTHERN SAVINGS BANK, Springfield, Missouri, was robbed by [redacted] using a demand note. The note demanded that [redacted] be given U.S. currency in specified denominations and if the teller did not comply, [redacted] would kill the teller. After [redacted] departed the bank, the dye pack exploded. [redacted] dropped the money and fled the scene in what witnesses described as a jade colored station wagon. Surveillance photographs of [redacted] were taken at the bank.

4. At approximately 12:00 noon on 2/27/95, [redacted] checked into room 36, REST HAVEN COURT MOTEL, 2000 East Kearney Street, Springfield, Missouri. Information illustrated on [redacted] registration card identified [redacted] car as a Mercury Tracer.

5. On 2/27/95 at 3:30 pm, the FIRST CITY NATIONAL BANK, Springfield, Missouri, was robbed by [redacted] again using a demand note. The demand note instructed the victim teller to give [redacted] specified denominations of

U.S. currency, indicated that [redacted] had a gun, and that if the victim teller did not comply [redacted] would kill her. The demand note was written on a check belonging to [redacted] was identified as the owner of the green Mercury Tracer station wagon. [redacted] departed the bank in possession of $2,160 in U.S. currency and fled the scene in a green station wagon. A surveillance video tape of [redacted] was taken at the bank.

b6
b7C

6. At approximately 6:00 pm, SA [redacted] located the green Mercury Tracer station wagon in the parking lot of the REST HAVEN COURT MOTEL, 2000 East Kearney Street, Springfield, Missouri. At approximately 6:10 pm (dusk) and prior to the arrival of back-up special agent personnel, [redacted] left his motel room and began walking towards SA [redacted].

7. SA [redacted] knowing that: a) [redacted] was a fugitive wanted for the armed robbery of the HEARTLAND SAVINGS BANK, St. Louis, Missouri; b) [redacted] carjacked and kidnapped three women; c) that [redacted] robbed both the GREAT SOUTHERN SAVINGS BANK and the FIRST CITY NATIONAL BANK during which [redacted] threatened to kill the victim tellers through information written on demand notes that [redacted] provided to the victim tellers; d) that [redacted] was armed, dangerous, and mentally unstable; and e) that [redacted] was a danger to the community, SA [redacted] decided to effect the arrest of [redacted].

8. After [redacted] refused to comply with SA [redacted] oral instructions to surrender himself and after [redacted] made furtive movements towards SA [redacted] which led SA [redacted] to believe that he was in imminent danger, SA [redacted] aimed his pistol at [redacted] upper left thigh and fired one round. [redacted] then turned and ran. As SA [redacted] pursued [redacted] SA [redacted] fired approximately seven additional times at [redacted] in order to prevent [redacted] from obtaining a tactical advantage by obtaining cover which would have afforded [redacted] the opportunity to kill SA [redacted] and to prevent [redacted] escape. [redacted] finally stopped running and submitted to arrest. [redacted] was dressed in regular fitting jeans and a white short-sleeved t-shirt.

b6
b7C

9. SA [redacted] used his Bureau issued pistol, a Sig Sauer P228 (14 round capacity), serial number B177136, and 147 grain, 9mm hydra-shock ammunition to shoot [redacted]. Subsequent inspection of [redacted] pistol revealed that one live round was chambered and five live rounds remained in the magazine.

10. Per the Incidental Report of Officer [redacted] SPRINGFIELD, MISSOURI POLICE DEPARTMENT, regarding the crime scene investigation, it appeared that SA [redacted] fired his pistol at [redacted] two times in a northeasterly direction near the green Mercury Tracer station wagon. One bullet struck a Dodge Ram extended-cab truck piercing the rear passenger side and the other bullet struck the downspout of a rain gutter affixed to the northwest corner of the east wing building. Due to the height of these two bullets, [redacted] did not believe that these two bullets struck [redacted] One shell casing was recovered near the green Mercury Tracer station wagon. [redacted] further believed that SA [redacted] may have fired twice while pursuing [redacted] along the north side of the east wing building. The first indication that [redacted] had been struck by a bullet was blood found on two leaves located approximately 30 feet from the northeast corner of the east wing building. [redacted] followed the blood in a southeast direction through a parking lot located on the east side of the east wing building. The parking lot and east wing building are separated by a service road to the west of the parking lot and a section of grass to the west of the service road. [redacted] reported that the blood became more prevalent and the blood spatter increased as the distance grew. SA [redacted] fired two more times in the vicinity of a white Ford truck which was parked in the parking lot located just east of the service road. Two shell casings were recovered from the vicinity of the white Ford truck. Two additional shots were fired from a location on or near the service road. Two shell casings were recovered from the service road. Two bullet holes were found on the north face of the motel service building located just south and slightly east of the east wing building. It should be noted that [redacted] was not privy to SA [redacted] statement when he attempted to determine what happened at the scene.

b6
b7C

b6
b7C

11. Property damage known to date as a result of shots being fired by SA [redacted] includes: a) one bullet hole in the downspout of a rain gutter, b) one bullet hole which pierced the rear passenger side of a Dodge Ram extended-cab truck, and c) two bullets holes on the north face of the motel service building. The Dodge Ram extended-cab truck, bearing Missouri license [redacted], was determined to be registered to [redacted] Creighton, Missouri.

12. Dr. [redacted] Springfield, Missouri, advised that based upon his examination of [redacted] leg wound, the bullet entered the posterior portion of the calf of the left leg below the knee and to the inside of the leg. The exit wound appeared to be on the interior, or front, portion of the left leg below the knee and to the inside of the leg. The exit wound was slightly higher than the entrance wound and the bullet moved to the right from entrance to exit.

13. On 2/28/95, [redacted] was charged by a federal complaint in the Western District of Missouri, Springfield, Missouri, with two counts of bank robbery.

14. At 4:56 pm on 2/28/95, a search was conducted pursuant to a federal search warrant of the passenger compartment of the green Mercury Tracer station wagon utilized by [redacted] to facilitate the robberies of the GREAT SOUTHERN SAVINGS BANK and the FIRST CITY NATIONAL BANK. A black plastic ARS brand prop gun was found under the driver's seat of the station wagon. b6 b7C

15. On 3/1/95, ASAC JOSEPH S. BROSS met with Greene County, Missouri District Attorney [redacted] who advised that upon receipt of the SPRINGFIELD, MISSOURI POLICE DEPARTMENT's Report of Investigation he would render a prosecutive opinion. Mr. [redacted] received a copy of the SPRINGFIELD, MISSOURI POLICE DEPARTMENT's report on 3/8/95. He has no standing grand jury to hear these type of matters. Mr. [redacted] will provide the FBI with written confirmation of his prosecutive opinion.

16. On 3/1/95, five shell casings, one bullet, one metal jacket from a bullet, lead fragments from a bullet, gunshot residue kit - SA [redacted] gunshot residue kit - SA [redacted] gunshot residue kit - SA [redacted] six 9mm bullets, one Sig Sauer P228 pistol (serial number B177136), and magazines were forwarded by a representative of the SPRINGFIELD, MISSOURI POLICE DEPARTMENT to the MISSOURI STATE HIGHWAY PATROL, Criminal Laboratory Division, for analysis. On 3/9/95, [redacted] Criminalist, MISSOURI STATE HIGHWAY PATROL, advised that: a) the pistol functioned normally, b) one expended bullet was identified as having been fired from SA [redacted] Sig Sauer P228, c) one expended bullet jacket was identified as being fired from

SA [redacted] Sig Sauer P228, and d) five expended cartridge cases were identified as being fired from SA [redacted] Sig Sauer P228. On 3/10/95, [redacted] Criminalist, Trace Evidence, advised that the gunshot residue test conducted on SA [redacted] was inconclusive. [redacted] further stated that gunshot residue was not indicated on tests conducted on SAs [redacted] and [redacted]

Title: SHOOTING INCIDENT;
SA BRUCE EUGENE SCHULZ (DECEASED),
MARCH 8, 1995;
WASHINGTON METROPOLITAN FIELD OFFICE

Character: ADMINISTRATIVE INQUIRY

Synopsis: On March 8, 1995, [redacted] the wife of SA BRUCE EUGENE SCHULZ, got up at approximately 6:15 a.m., as she routinely did, and got ready to go to work. [redacted] walked to a bathroom, which is located adjacent to the second floor master bedroom of the residence, [redacted], Washington, D.C. As [redacted] walked to the bathroom, she noticed that SA SCHULZ was already up; that he was nervously pacing around; and that he was dressed only in his undershorts. It did not appear to [redacted] that SA SCHULZ had begun preparing to go to work.

b6
b7C

At approximately 6:42 a.m., while [redacted] was in the bathroom, she heard a gunshot and then ran to the master bedroom. [redacted] did not see SA SCHULZ in the bedroom, and she ran out of the second floor foyer, where she found SA SCHULZ laying on the floor. More specifically, SA SCHULZ was laying on his back with his arms outstretched, perpendicular to his body. It appeared to [redacted] that SA SCHULZ had a single gunshot wound to the left side of his head. In addition, a black revolver was laying on the floor near SA SCHULZ' extended left arm.

Upon finding SA SCHULZ, [redacted] immediately telephoned the METROPOLITAN POLICE DEPARTMENT (MPD) Emergency Services Unit (ESU). The 911 call was recorded at 6:43 a.m. ESU personnel told [redacted] to wrap the wound. MPD and Emergency Medical Technicians arrived at 6:47 a.m. and rendered further medical assistance to SA SCHULZ. SA SCHULZ was subsequently taken to the

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

GEORGE WASHINGTON UNIVERSITY HOSPITAL (GWUH) Emergency Room (ER). WMFO agents arrived at both the SCHULZ residence and the GWUH ER at approximately 6:55 a.m. At 6:59 a.m., SA SCHULZ was pronounced dead. It appeared that the cause of death was a single gunshot wound to the left side of his head.

The crime scene was secured and processed by the WMFO Evidence Response Team and the MPD Mobile Crime Unit. Because the [redacted] and due to the sensitive nature of SA SCHULZ' work assignments, [redacted] was asked to consent to a search of the residence. After obtaining consent, WMFO agents searched the residence and found nothing unusual that would be relevant to the administrative inquiry.

b6
b7C
b7E

Copies of documents pertaining to the collection and analysis of evidence recovered at the residence, MPD investigative reports and medical reports were obtained by WMFO. Interviews of [redacted] SA SCHULZ' associates at WMFO and SA SCHULZ' personal acquaintances, portrayed a troubled agent. It appears that SA SCHULZ had extensive debts and poor money management skills. On numerous occasions, SA SCHULZ told his wife that he was not adequately prepared for a new work assignment, which he had been given. More specifically, SA SCHULZ had concerns about his added responsibilities and sophisticated equipment, with which he was to familiarize himself. SA SCHULZ told [redacted] that he was a carpenter not an engineer.

SA SCHULZ' squad associates described him as troubled due to self-imposed pressure, new job expectations and poor investments in the real estate market. SA SCHULZ told his colleagues that he was afraid of being terminated from the FBI, if it was determined that he could not do his job, that he was seriously in debt and that he was a poor money manager. SA SCHULZ' friends also mentioned that he had made poor investments in the real estate market and that he was fearful of impending legal action against him by tenants of one of his rental properties.

Referenced HQ investigation, although still pending, has determined that several major improprieties concerning SA SCHULZ have been identified. The investigation had proceeded with polygraph examinations of other individuals involved, leaving only SA SCHULZ to be examined. SA SCHULZ according to squad associates, was aware that the other polygraphs had been completed and he was the remaining examinee. This investigation to date is of such scope that complete restitution is to be made by the estate of SA BRUCE EUGENE SCHULZ.

Credit reports showed that SA SCHULZ had depleted a joint savings account, which he had with his wife. SA SCHULZ also had taken out a substantial car loan and a significant first mortgage on a rental property. In addition, a first mortgage and an owner held

second trust note had also been obtained by SA SCHULZ for another property he and his wife were refurbishing.

The black revolver recovered from next to SA SCHULZ was identified as his Bureau issued SMITH and WESSON, Model 13-3, .38/.357 Magnum revolver, bearing serial number ACE 3034. The projectile which was recovered from SA SCHULZ' body was identified as a .38/.357 lead bullet. Furthermore, the bullet removed by Dr. [redacted] during the autopsy was identified as having been fired from SA SCHULZ' service revolver.

Memorandum from D. R. Knowlton to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
4/28/95
Cleveland Division

**DETAILS:** On 7/18/95, the SIRG, consisting of Chairman David R. Knowlton, Acting Chief Inspector, Office of Inspections, Inspection Division; Robert S. Conforti, Section Chief, Violent Crimes and Major Offenders Section, Criminal Investigative Division; Edward R. Leary, Section Chief, Personnel Management Section, Personnel Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training and Administration Section, Training Division; [redacted] Unit Chief, Undercover and Sensitive Operations Unit, Public Corruption and Civil Rights Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; and [redacted] Supervisor, WMFO, met to discuss the above-captioned shooting incident. b6 b7C

## Synopsis of the Shooting Incident

On 1/10/95, SA [redacted] along with other members of the Safe Streets Fugitive Task Force (FTF) participated in the execution of a city of Philadelphia search warrant at a residence located at [redacted] Philadelphia, Pennsylvania. This search warrant was being executed in an attempt to locate and apprehend [redacted] for which a local warrant existed for the robbery of a check cashing agency. [redacted] was also wanted for questioning by the FBI for the robbery of the Sun Federal Credit Unit.

As they approached the residence at approximately 6:50 am on the above date, they could hear dogs barking inside. After unsuccessful attempts to get someone from the inside to open the door, entry was obtained by using a battering ram. SA [redacted] along with three other members of the eight member entry team, were assigned to clear the first floor while the other four were assigned to the second. Upon reaching the second floor, the team encountered a Pitbull dog. A short while later the first floor team encountered a dog in the kitchen area. Unknown at the time, there was a rear stairway which led from the kitchen to the upstairs hallway. There was only one dog and it had gone from the upstairs to the kitchen via that stairway. b6 b7C

The owner of the dog, who had been located in one of

(CONTINUED - OVER)

the second floor bedrooms, was ordered to secure the dog. As he approached the dog from the upstairs hallway, the dog charged SA [redacted] and another member of the downstairs team who were in the kitchen. SA [redacted] fired two shots from his personally owned, Bureau approved 45 Cal. pistol and killed the dog.

b6
b7C

**Observations and Recommendations of the SIRG**

The review of the above-captioned shooting incident as documented by the report dated 1/18/95, revealed that proper procedures were followed by SA [redacted] during this shooting incident.

After a thorough review of the facts regarding this incident, it is the opinion of the SIRG that no administrative action should be taken against SA [redacted] as a result of his involvement in this shooting incident.

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
5/29/95
Baltimore Division

b6
b7C

The SIRG considered the strong statements made by Baltimore SAC McNally and Baltimore SSA [redacted] regarding this investigation being conducted by WMFO with a police department in Maryland without a continuous dialogue occurring with the Baltimore Division. Just prior to this incident, SSA [redacted] was notified at 10:40 pm that an arrest was being planned in his territory by WMFO without input from Baltimore Division SAs. As documented in the report, WMFO personnel had arrived in the Greenbelt, MD, area at approximately 10:00 pm having been directed there at approximately 9:30 pm. Neither SSA [redacted] or the reporting Baltimore SAs were provided with a photo of the suspect as had the WMFO Agents, although SSA [redacted] was provided with a description which was relayed by radio to the Baltimore Agents.

The SIRG recognized that WMFO deployed components from an operational squad, a makeup SOG Squad (including an Agent on TDY assignment to Quantico), technical resources, WMFO detectives, and PGCPD detectives in an extraordinary effort to arrest McLean. This deployment did not include a Supervisory Special Agent. The SIRG noted that SSA [redacted] "remained in the WMFO to act as the command post." It was obvious to the SIRG that SSA [redacted] was extremely busy providing briefings to SAC Megary, staying in telephonic contact with PGCPD detectives with the source, and directing the aforementioned components. When it was obvious that deployment was necessary into Maryland, SSA [redacted] did notify SSA [redacted] through the Baltimore Division switchboard. The SIRG noted that in SSA [redacted] statement that the Baltimore Division was called as a "courtesy" and was not being requested to provide assistance. "WMFO was prepared to provide all necessary manpower for this investigation." SSA [redacted] did subsequently leave WMFO to provide on-scene direction at approximately 12:15 - 12:30 am. While enroute, SSA [redacted] called him and told him he needed to come up with an operational plan. SSA [redacted] did not arrive on the scene until after SA Christian was murdered.

b6
b7C

After thoroughly discussing the above, Acting Chief Inspector [redacted] also advised the other members of the SIRG that SAC McNally had orally advised him that he and WMFO ADIC Crocker were working on a plan to ensure that both WMFO and Baltimore SAs were again apprised of the necessity of keeping each other informed of investigations that cross territorial boundaries and emphasizing that enforcement actions such as search warrants or arrests are the responsibility of the management officials in whose territory the activity takes place except for exigent circumstances.

(CONTINUED - OVER)

In summary, the SIRG concluded that no FBI employee should be subjected to administrative action as a result of their involvement in this matter. The SIRG recommended that the SAC Baltimore and the ADIC WMFO continue to pursue and implement a workable solution for operational procedures involving matters that cross territorial boundaries. Lastly, the SIRG arrived at the recommendation that the ADIC, WMFO, should review its operational procedures regarding command post situations, including the need for onsite ranking management presence and oversight as events dictate.

(2) That the Office of General Counsel address and clarify with all Chief Division Counsels (CDCs) under what specific circumstances, during administrative inquiries, individuals would be compelled to make statements.

DETAILS: On 8/30/95, the SIRG, consisting of Chairman Wiley D. Thompson, III, Deputy Assistant Director, Inspection Division; [redacted] Acting Chief Inspector, Office of Inspections, Inspection Division; Jeremiah W. Doyle, Jr., Section Chief, Global Section - NS-2, National Security Division; Van A. Harp, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, U.S. Department of Justice (USDOJ); [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted], Unit Chief, Health Care Fraud Unit, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and [redacted] Supervisor, WMFO, met to discuss the above-captioned shooting incident. b6 b7C

## Synopsis of the Shooting Incident

A preliminary inquiry was initiated on 5/16/95, on "Glenn Thomas, aka Glenn Gram, Keith Graham, Keith Thomas, Jahlil Thomas, Shawn Thomas; Unlawful Flight to Avoid Prosecution (UFAP) - Aggravated Assault." The case was based on information furnished by the Philadelphia County District Attorney's Office. It was opened and assigned to SA [redacted] who is a member of the Philadelphia Office's Fugitive Task Force.

Review of the case indicated two "failure to appear" bench warrants outstanding against the subject. The first, issued on 2/27/95, involved original charges of theft, receiving stolen property, and two counts of violation of the Uniform Firearms Act.

(CONTINUED - OVER)

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
6/1/95
Philadelphia Division

The second warrant, issued 3/31/95, involved original charges of aggravated assault (against two Philadelphia Housing Authority Officers), recklessly endangering another person, resisting arrest, and two counts of violation of the Uniform Firearms Act. Additional charges lodged against Glenn Thomas involved a 12/8/94, arrest for firearm not to be carried without a license and other violations, in the jurisdiction of the Upper Darby Township Police Department. b6 b7C

On 6/1/95, SA [redacted] received "real time" information by a former source of the Philadelphia Division who had been closed several months earlier, that Thomas was present at the Whitehall Housing projects. Additional information provided by the source indicated that Glenn Thomas was wearing a black tee shirt, green shorts, sneakers, was armed with a handgun, and was currently at Tackawanna and Fillmore Streets with three other black males. The source was in a position to know the location of Thomas because he saw him periodically in the Whitehall Projects. This source had also supplied SA [redacted] or other SAs in the Philadelphia Division with reliable information on at least three previous occasions resulting in arrests and/or convictions.

SA [redacted] was able to respond upon receipt of the 6/1/95, phone call from the source. He immediately requested members of the Task Force to assist him in apprehending the subject. He obtained the assistance of six SAs and/or officers. The six participants, located at several locations around the city, began to converge on the Whitehall location; however, three Task Force members were delayed by heavy traffic. The four other members, including SA [redacted] arrived at the project some blocks from the reported location of the subject. Since there were four armed law enforcement officers onsite and the circumstances were critical and very fluid, a judgement was made that an arrest could be accomplished without waiting for the three delayed Task Force members.

b6
b7C

Prior to the arrival of SA [redacted] two Task Force Detectives drove through the Tackawanna Street area because the source indicated that Thomas had an AK-47 automatic weapon in his white Thunderbird automobile. Attempts to locate the Thunderbird were unsuccessful. An arrest plan was conceived and agreed upon by SA [redacted] and the onsite Task Force members. The plan was to approach Thomas and while doing so, utilize their vehicles and existing buildings to contain Thomas, as well as possible, should

(CONTINUED - OVER)

he attempt to flee. The members planned to approach Thomas and place their four Bureau cars in such a way as to block his exit. Each Task Force member was driving a car and it was decided that Detective [redacted] would lead the way to Thomas' location, that SA [redacted] would be second, then Sergeant [redacted] and Detective [redacted] respectively, would follow. b6 b7C

Glenn Thomas was located shortly after 4:30 pm, by Task Force members in the exact place previously identified by the source. SA [redacted] and Detective [redacted] exited their vehicles a short distance from a group of black males sitting on a pipe fence. The black males, including Glenn Thomas, recognized the Task Force members as law enforcement officers and began fleeing the area. According to statements, either SA [redacted] and/or Detective [redacted] immediately identified themselves by yelling "Stop - Police." The pursuit of Thomas began in a northerly direction along Tackawanna Street. SA [redacted] advised that as he was chasing Glenn Thomas he saw his tee shirt raise up on the left side exposing a handgun which was silver and black. He distinctly recognized this to be the grip of a handgun and yelled "he's got a gun." SA [redacted] saw the subject grip the weapon with his left hand, adjust the grip, and begin to draw the weapon from his waist. Upon seeing the subject grip the weapon and begin to draw it from his waist, SA [redacted] fired one shot, inflicting a fatal gunshot wound to the back of the subject's head.

Detective [redacted] of the Major Crimes Fugitive Task Force, advised that he and SA [redacted] began pursuing Glenn Thomas and, while running, Detective [redacted] saw the subject lift his tee shirt with his left hand and draw a silver color gun from his waist band with his right hand. Detective [redacted] advised that Glenn Thomas then started to turn back towards SA [redacted] with the gun and, while Detective [redacted] was raising his weapon, he heard one gunshot and saw Glenn Thomas fall to the ground. The silver colored handgun that Glenn Thomas had drawn from his waistband fell to the ground next to him.

Detective [redacted] also a member of the Fugitive Task Force, and on the scene of this incident, advised that as he exited his car, he saw a black male running north on Tackawanna Street. This individual was wearing clothing matching the previously described clothing that the subject was wearing. While in the street, and with a station wagon parked between him and the subject, Detective [redacted] saw SA [redacted] and Detective [redacted] b6 b7C

(CONTINUED - OVER)

b6
b7C

chasing the subject. Detective [redacted] advised that he heard SA [redacted] yell, "Stop, Police" and saw the subject had run past the station wagon and in one motion, reached down with his left hand and was pulling up his shirt and began to pull a gun from his waist with his right hand as he was turning toward his right. As the subject was drawing the gun, Detective [redacted] heard a shot, saw the subject fall to the sidewalk and in the process the subject's gun dropped to the ground.

Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

Based on a review of the above-captioned shooting incident as documented by the report dated 8/10/95, members of the SIRG unanimously agreed that the use of deadly force by SA [redacted] was justified. It was further determined that no administrative action should be taken against SA [redacted] for his involvement in this shooting incident. The SIRG unanimously agreed that deadly force is justified when a fleeing felon, who is drawing a weapon, is running with his/her back to the law enforcement officer. Members noted that the subject was known to be armed and dangerous, a stop warning was issued by law enforcement officers on the scene, and that the officers had no responsibility to wait for the subject to turn around or draw his weapon before taking proactive action.

b6
b7C

The second phase of the discussion centered around the training and/or safety issues, as well as the adequacy of planning related to this incident. SIRG members acknowledged that although there may not have been a sit down planning situation for the arrest of Glenn Thomas, and that the planning of the arrest may have lacked some dimensions, it was adequate and reasonable under the circumstances. Members agreed that a thorough working relationship between Federal and state law enforcement officers must be developed due to the large number of Task Forces throughout the country and that Task Force officers should train with Bureau SAs. The Training Division representative advised that the 1995

(CONTINUED - OVER)

and subsequent budgets had street survival training for Task Force officers budgeted; however, due to the large volume of new SAs being trained, no resources are available for Task Force training for the next several years. b6 b7C

The remaining issue involved the statement of SA [redacted] advising that the FBI compelled him to provide his statement regarding this shooting incident. The Office of General Counsel member advised that employees are not compelled to give statements during the course of an administrative inquiry. Under these circumstances, a request for a voluntary statement is made. It was further noted that if a statement is compelled, an Advice of Rights Form should have been provided and the individual should be immunized. Office of General Counsel agreed to address all CDCs regarding the matter of compelled statements and voluntary statements.

It should be noted that during the initial discussion of this shooting incident there was no representative from the Civil Rights Division, USDOJ present. However, due to several questions brought up by SIRG members, a telephone call was made to the Philadelphia Division and this incident was discussed a second time. Before the second discussion of this incident, the DOJ representative had arrived; however, elected to remove himself from the discussion and recommendations due to the pending civil rights matter that was initiated by the DOJ following this incident.

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
6/22/95
Washington Metropolitan Field Office

DETAILS: On 9/29/95, the SIRG, consisting of Chairman Wiley D. Thompson, III, Deputy Assistant Director, Inspection Division; Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, USDOJ; Edward R. Leary, Section Chief, Personnel Management Section, Personnel Division; [redacted] Unit Chief, Global Section - NS-2, National Security Division; Van A. Harp, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Health Care Fraud Unit, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; [redacted] Supervisor, WMFO; and [redacted] Inspection Analyst, Office of Inspections, met to discuss the above-captioned shooting incident. b6 b7C

**Synopsis of the Shooting Incident**

On 6/22/95, SA [redacted] currently assigned to Squad C-16, WMFO, was conducting a routine surveillance in the vicinity of the Eastside Nightclub located adjacent to the WMFO on Half Street, Southwest (SW), Washington, D.C. Metropolitan Police Department (MPD) Detective [redacted] currently assigned to the Squad C-16 Safe Streets Task Force accompanied SA [redacted] on this surveillance. The initial surveillance began at the garage area of the WMFO; however, at approximately 3:00 am, SA [redacted] and Detective [redacted] moved their surveillance location to the East side of "R" Street, SW, facing Half Street. As they sat in the Bureau vehicle observing vehicles leaving the Eastside Club, a vehicle was observed moving slowly down Half Street. When the vehicle was at Half and "R" Streets, approximately two to three car lengths from them, SA [redacted] and Detective [redacted] observed a black male running along side of this vehicle firing into the passenger's side of the vehicle. SA [redacted] and Detective [redacted] exited their vehicle at which time SA [redacted] immediately identified himself and proceeded down the west side of Half Street, in pursuit of the black male who continued down the east side of Half Street travelling in a northerly direction. SA [redacted] shouted "Stop! Police! Drop the gun!" two or three times and at that same time SA [redacted] could hear gunshots. The subject then turned toward SA [redacted] and he could see that the subject had the handgun pointed at him. SA [redacted] discharged his Bureau issued Sig Sauer P220 .45 caliber semi-automatic pistol eight times. SA [redacted] proceeded to reload his b6 b7C

pistol when he observed the subject limping and no longer carrying the weapon. SA [redacted] ordered the subject to get down. The subject complied and was subsequently handcuffed by SA [redacted] and Detective [redacted] The juvenile subject was struck by one round in the left ankle and was transported by DC ambulance to DC General Hospital for a non-life threatening injury. A Smith and Wesson .357 with a six inch barrel was recovered adjacent to the dumpster located between "R" and "S" Streets, containing six spent shell casings. b6 b7C

The vehicle that was being shot into by the juvenile subject proceeded northbound on Half Street. As the vehicle crossed Potomac Avenue, it crashed into the wooded area located on the corner of Half Street and Potomac Avenue, SW. The vehicle proceeded to catch fire and burn. A black male, identified as Montey Fullard, was dead on the scene from multiple gunshot wounds. A second occupant of the vehicle was uninjured.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

The SIRG unanimously concurred that the use of deadly force by SA [redacted] was justified and in accordance with Bureau policy. However, according to records provided in the initial report, SA [redacted] had not officially qualified with his Bureau approved weapon since 10/14/94. SIRG members were concerned with this lack of routine qualifying; however, WMFO provided updated qualifying records indicating that SA [redacted] last qualified with his Bureau issued Sig Sauer P220 semi automatic pistol on 3/10/95. b6 b7C

Mr. Gore 11/3/95

ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
7/7/95
TRAINING DIVISION

Reference report of Inspector [redacted] dated 8/4/95.

PURPOSE: This memorandum is prepared to furnish the analysis, comments, and recommendations of the Shooting Incident Review Group (SIRG) with reference to the captioned shooting.

RECOMMENDATIONS: (1) That the Training Division (TD) adopt a uniform Bureau-wide policy regarding the utilization of red-handled weapons, and ensure all Principal Firearms Instructors (PFIs) are promptly apprised of the policy.

1 - Mr. [redacted] Room 7142
1 - Mr. Gore, Room 7129 (Enclosure)
1 - Mr. [redacted] Room 7116
4 - Mr. [redacted] Room 6012

b6
b7C

(CONTINUED - OVER)

(2) That in the event red-handled utilization is continued, the TD should consider completely coloring the weapon in a highly visible color.

(3) That the TD consider developing a mechanism to document and evaluate, with appropriate sanctions, firearms safety violations. Furthermore, it is recommended that this mechanism employ a method to accommodate an agency-wide review for trend considerations.

(4) That the TD review the policy as articulated by memorandum dated 4/27/95, regarding firearms instructors visibly carrying loaded firearms throughout the FBI Academy to determine if the policy should be modified.

(CONTINUED - OVER)

(5) That the TD review the emergency response to this incident to determine if improvements can be made in emergency response capabilities.

(6) That the Administrative Summary Unit (ASU), Personnel Division (PD) prepare and forward a letter of censure to Supervisory Special Agent (SSA) [redacted] for his inattention to standard firearm safety procedures. This letter should advise SSA [redacted] that he is being decertified as a firearms instructor for the remainder of his Bureau career. Additional penalties for SSA [redacted] should be determined by ASU, PD, based on past precedents, taking into consideration that SSA [redacted] was involved in two prior safety infractions not involving injury.

b6
b7C

(7) That the TD remove SSA [redacted] from the list of approved firearms instructors.

(CONTINUED - OVER)

b6
b7C

(8) That the PD, Employee Assistance Unit, ensure that any impairments with respect to SSA [redacted] carrying his weapon are resolved before he returns to an investigative assignment.

DETAILS: On 8/30/95, the SIRG, consisting of Chairman Wiley D. Thompson, III, Deputy Assistant Director, Inspection Division; [redacted] Acting Chief Inspector, Office of Inspections, Inspection Division; Jeremiah W. Doyle, Jr., Section Chief, Global Section - NS-2, National Security Division; Van A. Harp, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Attorney, Civil Rights Division, USDOJ; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Health Care Fraud Unit, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and [redacted] Supervisor, WMFO, met to discuss the above-captioned shooting incident.

b6
b7C

## Synopsis of the Shooting Incident

On 7/7/95, 23 members of New Agents Class 95-12 participated in their second live fire training session under the direction of SSA [redacted]

The class initially met in the morning in the Gun Cleaning Room (GCR) and then moved to the Range Classroom for instruction on sight alignment, trigger pull, and presentation of the weapon. Presentation of the weapon is described as the four positions in the movement of the weapon from the holster to the firing position. During the classroom instruction, SSA [redacted]

(CONTINUED - OVER)

demonstrated these techniques utilizing a red-handled Sig/Sauer Model 226 with a working trigger as an instructional aid. SSA [redacted] stated that he preferred using the red-handled pistol rather than an empty service weapon because the audience feels more comfortable knowing that the weapon is deactivated and he also knows that there is no chance for an accidental discharge. When not using the red-handled pistol for instructional purposes, SSA [redacted] maintained it in his holster. He did not have his duty weapon, a Sig/Sauer Model 228 with him in the classroom or at the range that day, however, had it secured in the Firearms Training Unit (FTU) trailer near the range. b6 b7C

When the class moved to the range for the live fire phase, SSA [redacted] supervised the firearms instruction from the tower while other instructors walked the line. Between the courses of fire, SSA [redacted] left the tower and instructed the class about trigger pull and the presentation of the weapon using his red-handled pistol. As the last course of fire was completed, the instructors visually inspected each trainee's weapon to ensure that each weapon was safe and secure. The class was instructed to proceed to the GCR to clean their weapons.

SSA [redacted] advised that he proceeded to the FTU trailer to drop off instructional materials and to switch to his service pistol. According to SSA [redacted] his weapon was loaded with ball ammunition because he had tested a target system the previous day using this ammunition.

As the trainees began cleaning their weapons, SSA [redacted] arrived in the GCR and noticed several of the NAC members were in the larger part of the GCR. He was aware that a second larger class was on their way to the GCR, and moved his group of trainees to the smaller portion of the room. SSA [redacted] advised that as the primary instructor, it was his duty to walk among the students and offer advice and provide encouragement during the gun cleaning process. While walking around and conversing with three or four of the students, SSA [redacted] felt it would be beneficial for him to review the weapon presentation concept with them. Thinking that he had his red-handled pistol in his holster, he drew the pistol and in a continuous motion, took a firing position and pulled the trigger. SSA [redacted] advised that he initially could not believe that the gun had discharged and did not realize that it was a live weapon until he heard the shot. Immediately after the discharge, he recognized the tritium night b6 b7C

(CONTINUED - OVER)

sight configuration on the gun as belonging to his service pistol and not the red-handled weapon. SSA [redacted] advised that he did not look at the weapon before he drew it from the holster and was not consciously aiming at anything because he was making an instructional point.

The projectile from SSA [redacted] weapon traveled approximately 31 feet across the GCR and struck SA Trainee [redacted] in the left upper hip area, having passed through her belt, and then exited her left hip area. The projectile then traveled approximately seven feet and struck SA Trainee [redacted] in the right back area lodging in his abdomen. b6 b7C

SSA [redacted] advised that after the gunshot, he ran around the cleaning tables to render assistance to the injured SA trainees. After determining that assistance was being provided, he reached for his weapon to secure it; however, determined it was not in his holster. As he returned to the area where the weapon discharged, he noticed his weapon on the floor. SSA [redacted] had no recollection of how the weapon ended up on the floor but retrieved it, cleared it, and took the weapon to the gun vault to secure it.

[redacted] a gunsmith/instructor advised that he was in the Gun Vault when he heard a gunshot in the GCR. While other employees ran to the GCR after hearing the shot, he remained at the door of the Gun Vault. He observed SSA [redacted] come out of the GCR carrying a Sig/Sauer 228 pistol and a loaded magazine. Mr. [redacted] opened the door to the Gun Vault and SSA [redacted] entered and stated, "I've got to isolate this thing," and placed the pistol in a gun bin. He was about to place the magazine in the bin but stated, "can't keep ammo with the gun," and began unloading the magazine. Mr. [redacted] took about 12 bullets from SSA [redacted] and placed them in the blue container for live ammunition near the hallway door. b6 b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

(CONTINUED - OVER)

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
7/7/95
Training Division

Based on a review of the above-captioned shooting incident as documented by the report dated 8/4/95, SIRG members agreed that the TD should review the policy regarding the use of red-handled weapons. This review should determine if modifications are needed and should include input from Field Firearms Instructors. Suggestions made by the SIRG ranged from the requirement that red-handled weapons be colored completely in a highly visible color to requiring the use of red-handled weapons at all times by PFIs. Members concurred that the TD should adopt a uniform Bureau-wide policy regarding the use of these weapons. This resulted in recommendations one and two. b6 b7C

The SIRG noted that SSA [redacted] had committed two other safety violations while assigned as a Firearms Instructor at the FBI Academy. In 1993, SA [redacted] was involved in an unintentional discharge by an SA with whom SA [redacted] was working. SA [redacted] and the SA were ahead of the firing line and roughly parallel to another SA in an adjacent lane who had been cleared to go forward to repair a target when the discharge occurred. All weapons were pointed in a safe direction and no injuries resulted. The 1994 incident involved SA [redacted] temporary storage of a loaded weapon inside the Gun Vault, an area where loaded weapons are prohibited. These violations were documented in two consecutive annual performance appraisals. While these safety violations were noted by the Firearms Training Unit, the SIRG observed that there currently was not a system in place to document and evaluate firearms safety violations committed by instructors to determine if a Firearms Instructor should be retained. This observation resulted in the third recommendation being made.

The SIRG recommended a review by the TD of the current policy that Firearms Instructors carry loaded firearms throughout the FBI Academy to determine if the policy should be modified. Discussion centered around the fact that the Academy is in an open area that could be susceptible to a terrorist or other violent attack. It is accessible to individuals other than the FBI, and it does not have the stringent security measures that most Federal agencies maintain. Therefore, a determination was made that SAs visibly carrying weapons in the Academy would provide a more secure environment for individuals on the grounds. The TD representative advised that some steps have already been taken to ensure that this situation does not recur. For instance, no active weapons are allowed in the gun cleaning area and lock boxes are available for storing weapons before entering prohibited areas.

(CONTINUED - OVER)

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
7/7/95
Training Division

Members of the SIRG discussed the emergency response provided by FBI Academy personnel immediately following this shooting incident. The group noted that both SA trainees were immediately assisted by FBI Academy personnel, including those with various levels of training in emergency medical response. SIRG members recognized the life saving medical care provided onsite by FBI Academy personnel. However, a recommendation was made that the TD review the emergency response to this incident to determine if improvements can be made.

SIRG members unanimously agreed that administrative action was mandatory for SSA [redacted] as a result of his lapse in judgment resulting in violation of routine weapons safety protocol. Members reiterated the fact that protocol requires that an individual never point a weapon at something if there is no intent to shoot. It was also noted by the SIRG that SSA [redacted] was involved in two prior safety infractions resulting in oral reprimands, documentation on his Performance Appraisal Reports, and lower performance ratings. The group was divided as to the severity of the action to be taken. Several members believed that a letter of censure and decertification as a Firearms Instructor would be ample punishment while others believed that more severe action, including suspension without pay, should be taken. Therefore, a recommendation was made that ASU, PD, determine the severity of the punishment for SSA [redacted] based on past precedent in similar cases. The SIRG unanimously agreed that SSA [redacted] should be permanently decertified as an FBI Firearms Instructor. b6 b7C

The last item for discussion relating to this shooting incident was the matter of SSA [redacted] fitness to carry his weapon. The majority of the members concurred that SSA [redacted] should be allowed to continue to carry his firearm. However, it was decided that the PD, Employee Assistance Unit, must ensure that any impairments with respect to SSA [redacted] carrying his weapon are resolved prior to his return to an investigative assignment.

Draft Report from W. E. Thompson, III to Mr. Gore dated 9/12/95.
Re: Administrative Inquiry Shooting Incident 7/7/95 Training Division

ADDENDUM: OFFICE OF THE GENERAL COUNSEL (OGC), 10/5/95, AAA:aaa

The purpose of this addendum is to set forth a view which dissents, in part, from the recommendations made in this case by the SIRG at its 8/30/95 meeting. After considerable discussion of the shooting inquiry into an incident occurring at the FBI Academy on 7/7/95, the SIRG made a number of conclusions, including the following: that the shooting was accidental, that certain procedural changes are required concerning firearms safety at the Academy, that SSA [redacted] the subject in this inquiry should receive a letter of censure and some type of administrative sanction to be determined by ASU, and that SSA [redacted] should no longer be a firearms instructor in any capacity with the FBI. The OGC concurs fully with these recommendations, but does not believe that they go far enough especially in view of potential exposure to liability. b6 b7C

In addition, at the request of the writer, the group considered, but did not recommend, a further sanction: that SSA [redacted] be denied the authority to carry his weapon, either on a temporary or permanent basis. It is my opinion that, under the circumstances presented here, the FBI's responsibility to exercise due care requires that this Agent should not be allowed to carry a weapon while on official duty. This opinion is based on the following rationale: (1) the Agent was the subject of two previous and recent firearms safety violations, one in 1993 and the other in 1994, both of which were serious enough to result in oral reprimands and lowered PARs; (2) the nature of the firearms discharge, i.e., after the Agent purposely pulled the trigger while his weapon was pointed at two other Agents, is so egregious that it seriously undermines the confidence that can reasonably be placed in his judgment in the future; and (3) but for the extraordinary emergency medical response, at least one of the victims of the shooting could have died from the wounds inflicted. b6 b7C

It is noted that Mr. [redacted] did not intend to harm either of the victims in this matter. However, in situations as aggravated as this shooting, it is prudent that the FBI's management exercise its prerogative to relieve this Agent of his weapon. This is especially true in light of the previously documented instances of carelessness and failure to observe safety precautions. In the event that this Agent has another mishap involving injury to others, it will be exceedingly difficult to explain why a more cautious approach was not taken. A lawsuit in such an event would be indefensible on the facts.

Draft Report from W. E. Thompson, III to Mr. Gore dated 9/12/95.
Re: Administrative Inquiry Shooting Incident 7/7/95 Training Division

(Cont.) Addendum: Office of the General Counsel (OGC), 9/22/95, AAA:aaa

b6
b7C

It is recognized that if this recommendation is approved, it will have a substantial effect on this Agent's career as an FBI Agent. While such an action will limit the type of work this agent will be able to perform, we do not believe that denial of weapons carriage will, as a matter of law, require that an Agent be removed from the 1811 series. Whether we wish to tolerate a situation in which we have a non-armed agent on the rolls is entirely a matter of policy. If he were left on the rolls as an FBI agent, we do not believe that this agent would be entitled to availability pay because he would not be a law enforcement officer within the meaning of 5 U.S.C. § 5545a

Recommendations: That SA [redacted] be permanently relieved of his Bureau issued weapon and that any and all prior Bureau approval for him to carry a personally owned weapon be rescinded.

APPROVED:

| | | | |

| Dir. | Crim. Inv. | Info. Res. | Training |
| Dep. Dir. | Crim. Jus. Info. Servs. | Inspection | Office of EEO Affairs |
| | Finance | Laboratory | |
| | Gen. Counsel | National Sec. | Office of Public & Cong. Affairs |
| | | Personnel | |

If this recommendation is approved, the Personnel Division should review the range of alternatives which it has available including allowing him to retain his 1811 status, withoutavailability pay, in the FBI; removal from the 1811 series and placement in another position within the FBI; removal from the rolls of the FBI; and if appropriate work to outplace him to another agency which has 1811 investigators who do not carry firearms.

(4) Shooting Incident Review Group Meeting, 9/29/95.

b6
b7C

ADDENDUM: SSA [redacted] Member, SIRG 10/4/95 WMJ:br

The purpose of this addendum is to (1) memorialize my concerns about the tone and accuracy of SSA [redacted] addendum, endorsed by the OGC, and (2) to place certain issues in proper context.

In paragraph two of the OGC addendum, SSA [redacted] refers to SA [redacted] being the "subject of two previous and recent safety violations".... In his memorandum to Acting Chief Inspector [redacted] dated 7/24/95, (tab #66, Shooting Inquiry Report), former Training Division (TD) Assistant Director [redacted] made the following comments about SA [redacted] safety record:

> **"The 1993 incident involved an unintentional discharge by an Agent with whom SA [redacted] was working.** SA [redacted] and the Agent were ahead of the firing line and roughly parallel to another Agent in an adjacent lane who had been cleared to go forward to repair a target when the discharge occurred. **All weapons were pointed in a safe direction and no injuries resulted.** The 1994 incident involved SA [redacted] temporary storage of a loaded weapon inside the Gun Vault, an area where loaded weapons are prohibited. SA [redacted] was orally reprimanded for both incidents which were also (1) documented, (2) noted on his Performance Appraisal Reports (PAR), and (3) resulted in lower ratings on both PARS."

b6
b7C

Regarding the accident on 7/7/95, SSA [redacted] states that SA [redacted] "purposely pulled the trigger while his weapon was pointed at two other Agents".... The unqualified use of the word "purposely" suggests that SA [redacted] intentionally pulled the trigger on what he knew to be a loaded weapon which, by logical extension, also suggests that he intentionally shot the two injured students. While it is clear that SA [redacted] pulled the trigger on his pistol, it is equally clear that he thought the pistol was the same, inert, "red handled" training weapon he had been carrying and using earlier. To suggest otherwise is preposterous.

SSA [redacted] further states that SA [redacted] "is now receiving professional counseling for an emotional disorder which he suffers, in part, as a result of the shooting incident." SSA [redacted] goes on to state in paragraph three that SA [redacted] "may not only be accident prone, but mentally unstable as well".... These remarks are inflammatory, totally unwarranted, and are not supportable by fact, particularly the deliberate and unfounded implication that he "suffers" from a "disorder" which predates the accident. b6 b7C

SA [redacted] is neither "accident prone" nor "mentally unstable". He has had one accident - the unintentional discharge of his weapon on 7/7/95. References to SA [redacted] mental stability are inappropriate and indefensible. The draconian sanctions proposed by SSA [redacted] are, therefore, based on a demonstrably flawed premise.

The FBI offers and encourages counseling and peer support for employees who have suffered some form of trauma, such as a shooting. SA [redacted] voluntarily attended a Post Critical Incident Seminar, as do virtually all employees who have been involved in a shooting incident. He has also received tremendous support from the Employee Assistance Unit, co-workers, and the students with whom he has worked, including the two students he unintentionally injured. Absolutely nothing can or should be inferred by SA [redacted] participation in this excellent program, the foundation of which is empathy, trust, and confidentiality.

While SA [redacted] credibility as an instructor has been indisputably compromised by this accident, his effectiveness as a Special Agent of the FBI has not. Former Assistant Director PHILIP describes SA [redacted] this way: "SA [redacted] has an extraordinary work ethic." His "hard work and devotion to duty continue to serve the TD with distinction." "His investigative and supervisory accomplishments before his assignment to TD were recognized with five incentive awards." "His tireless efforts, versatility, and competence as an instructor merited Exceptional ratings for all critical elements on his latest PAR, and numerous letters of thanks and commendation." b6 b7C

The recommendations of the SIRG, in my opinion, appropriately address the seriousness of SA [redacted] accident while also recognizing his significant and continuing contributions to the FBI.

Re: Administrative Inquiry
Shooting Incident
7/10/95
San Diego Division

DETAILS: On 8/17/95, the SIRG, consisting of Chairman Wiley D. Thompson, III, Deputy Assistant Director, Inspection Division; [redacted] Acting Chief Inspector, Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, U.S. Department of Justice (USDOJ); Jeremiah W. Doyle, Jr., Section Chief, Global Section - NS-2, National Security Division; Van A. Harp, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted], Unit Chief, Undercover and Sensitive Operations Unit, Public Corruption and Civil Rights Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and [redacted] Supervisor, WMFO, met to discuss the above-captioned shooting incident. b6 b7C

## Synopsis of the Shooting Incident

On 7/10/95, SA [redacted] received three complaint forms regarding the [redacted] later identified as [redacted] SA [redacted] knew that the bandit was the suspect in twelve bank robberies in the Division, had displayed a weapon in two of the robberies, and had taken hostages at two bank robberies. The complainants provided information that the bank robber's photograph in the newspaper that day was an individual named [redacted] that the subject drove a Nissan pickup truck, and that he was a customer at the Holiday Wine Cellar in Escondido, California. It was reported that the suspect frequented the Wine Cellar between 5:00 pm and 7:00 pm.

SA [redacted] went to the Wine Cellar hoping to obtain the store video surveillance film for reviewing to try and identify the [redacted] After interviewing employees at the Wine Cellar, while still in the area, SA [redacted] observed the suspect exit the store and approached him in order to further identify him. SA [redacted] identified himself as an FBI SA and displayed his credentials to the suspect and during the course of conversation, he obtained the suspect's car keys. However, upon learning that a backup was enroute, the suspect became uncooperative, entered his truck using a spare key, started his vehicle, and drove out, bumping the Bureau vehicle in the process. b6 b7C

(CONTINUED - OVER)

SA [redacted] surveilled the suspect to his residence while simultaneously attempting to obtain a backup using his radio and a cellular phone. He followed the suspect into his driveway and attempted to continue his interview, stalling for time, hoping that his backup would arrive. The suspect became intimidating and a shoving match ensued with the suspect stating "You're going to have to kill me!" SA [redacted] told the suspect, "No [redacted] I don't want to kill you, I just want to talk to you." The suspect then ordered his dog to "Sic him Max, sic him!" As the dog approached and was within one foot of SA [redacted] he fired one shot disabling the dog, decocked his weapon, and placed it back in the holster. The suspect hit SA [redacted] in the face with either his fist or a blunt object. SA [redacted] was dazed, however, he felt the suspect advancing. He drew his weapon, pointed the weapon at the suspect's chest, and shot the suspect one time ensuring innocent civilians would not be endangered by an uncontrolled round. As a struggle ensued between he and the suspect, SA [redacted] was able to get one handcuff on the suspect's wrist. Both of them slid down to a fence where the other handcuff was placed on the suspect. With the assistance of a neighbor, attempts were made by SA [redacted] to render first aid to the suspect who had been wounded in the chin and neck.

b6
b7C

Interviews with employees at the Holiday Wine Cellar, neighbors, and other investigators, support the statements of SA [redacted] SA [redacted] was transported to a hospital by another SA for treatment of a swollen and bruised face, and the suspect was transported to the hospital via ambulance.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

Members of the SIRG unanimously concurred with the use of deadly force in this shooting incident and agreed that the deadly force employed by SA [redacted] was within the FBI's deadly force policy. The SIRG concluded that appropriate steps were used by SA [redacted] in obtaining additional assistance and agreed that his actions that day were exemplary. It was further recommended that no adverse action be taken against SA [redacted] as a result of his involvement in this incident.

(2) That SAC, Los Angeles, during scheduled firearms training, reiterate to all SAs the importance of utilizing body protective armor.

DETAILS: On 9/29/95, the SIRG, consisting of Chairman Wiley D. Thompson, III, Deputy Assistant Director, Inspection Division; Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, USDOJ; Edward R. Leary, Section Chief, Personnel Management Section, Personnel Division; [redacted] Unit Chief, Global Section - NS-2, National Security Division; Van A. Harp, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Health Care Fraud Unit, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; [redacted], Supervisor, WMFO; and [redacted] Inspection Analyst, Office of Inspections, met to discuss the above-captioned shooting incident. b6 b7C

## Synopsis of the Shooting Incident

On 7/24/95, Special Agents (SAs) assigned to the Santa Ana Resident Agency (SARA), Los Angeles Division, and a deputy from the Orange County Sheriff's Office (OCSO), were assigned to participate in a surveillance at the residence of Kevin Duane Arnold. Arnold was a federal fugitive wanted for Bank Robbery from San Diego, California.

A briefing was conducted by Supervisory Senior Resident Agent (SSRA) [redacted] and SA [redacted] During the briefing, the fact that Arnold was wanted for a San Diego bank robbery was discussed, as well as the fact that SA [redacted] was going to obtain a federal arrest warrant on that day from a United States Magistrate Judge, charging the subject with 11 additional bank robberies committed in the Orange County area. SA [redacted] was going to obtain a federal search warrant for Arnold's vehicle and

residence. SAs [redacted] and Deputy [redacted] were instructed to conduct the surveillance at Arnold's residence in an effort to locate him pending the issuance of the additional federal arrest warrant and the search warrants. The briefing included information about Arnold's background as a former police officer who had been involved in several shootings as well as the fact that during some of the bank robberies Arnold claimed to have a weapon. Arnold was to be considered armed and dangerous. All meeting participants were aware of Arnold's appearance, his personal vehicle, and the fact that he was married with small children. SSRA [redacted] and SA [redacted] wanted Arnold arrested away from his residence to ensure the safety of his wife and children. b6 b7C

SAs [redacted] and Deputy [redacted] commenced surveillance of Arnold's residence in Mission Viejo, California, at approximately 12:30 p.m. Movement was noticed at the residence at approximately 1:30 p.m., and SAs [redacted] and [redacted] drove by the residence to determine what was taking place. As they passed the house, Arnold was observed at the door. SA [redacted] advised that within seconds he heard over the radio from Deputy [redacted] that Arnold had probably observed them and that Arnold came out into the street and watched them drive away. Within several minutes, Deputy [redacted] reported that Arnold had returned to his house, exited his house, and drove away in his blue vehicle. SA [redacted] stated that after a brief period of searching for Arnold, he contacted SA [redacted] via cellular telephone. SA [redacted] was in the process of obtaining the additional arrest warrant and the search warrants. SA [redacted] stated that SA [redacted] instructed that Arnold was to be arrested if he was located. Instructions were given to attempt to arrest Arnold prior to his entry into his home.

Several minutes later, SA [redacted] observed Arnold driving his 1994 blue two-door, Ford Escort in the parking lot at Portola Plaza in Mission Viejo. SA [redacted] reported this information to SA [redacted] and Deputy [redacted] and requested SA [redacted] assistance at the shopping center. SA [redacted] was advised of the instructions regarding Arnold's arrest, i.e., that he be arrested if located and that the arrest should be completed prior to Arnold's entry into his home. SA [redacted] advised that he was approximately 30 seconds away from the parking lot. Prior to SA [redacted] arrival, Arnold observed SA [redacted] and began yelling and pointing his finger at him in an animated fashion. b6 b7C

Arnold moved his vehicle into a parking space and stopped. SA [redacted] stopped his vehicle to the front of Arnold's approximately 20 to 25 feet away. Arnold exited his vehicle while

yelling at SA [redacted] and took an aggressive stance by the front driver's door. SA [redacted] exited his vehicle, drew his weapon, and pointed it at Arnold while moving to the driver-side front fender. SA [redacted] yelled, "Stop, Police, put your hands up". Arnold replied, "Let's get this over with". Arnold refused to obey SA [redacted] commands, continued to yell in a belligerent manner, and made the statement, "No, we are going to handle this right now". b6 b7C

SA [redacted] arrived on the scene and observed Arnold yelling and pointing his finger at SA [redacted] He stopped his vehicle one to three feet away from where Arnold was standing. SA [redacted] exited his vehicle, drew his .45 Caliber, Sig Sauer Semi-automatic, Model P220 weapon, and yelled, "FBI! Kevin, you are under arrest! Get down on the pavement". Those commands were repeated several times and were disregarded by Arnold. At that point, Arnold glanced toward SA [redacted] making a derogatory statement and attacked SA [redacted] who was approximately 25 to 30 feet away. Prior to reaching SA [redacted] SA [redacted] heard Arnold yell, "Tell my wife I love her".

Arnold then reached SA [redacted] and a fight ensued between the two. SAs [redacted] and [redacted] initially had their weapons in their hands, making fighting difficult. Arnold made repeated attempts to obtain control of the SAs' weapons, however, did not succeed. Throughout the fight, Arnold continually refused to obey the commands given by the Agents to surrender and submit to arrest. At one point, Arnold turned his back to the SAs and made a motion of reaching into the front of his pants, as if he was drawing a weapon. Both SAs stated that they were prepared to shoot the subject at that time; however, when he turned around he had no weapon in his hand. Frequently throughout the fight, Arnold yelled, "Shoot me, Shoot me!" and "You are going to have to kill me". The fight gradually moved toward the front of Arnold's vehicle. During this period, Arnold opened the driver's door of his vehicle, reached in and grabbed for something between the front seat and back rest. Both Agents believed that Arnold was reaching for a weapon and were prepared to shoot. However, Arnold turned with empty hands. b6 b7C

At one point as the fight continued, SA [redacted] was able to return to his vehicle and radio for Deputy [redacted] assistance. He then returned to further assist SA [redacted] Subsequently, Arnold broke free and ran back to his vehicle. He jumped in, grabbed his car keys off the front passenger seat, and inserted the key into the ignition. SA [redacted] ran to the driver's side window, reached in

with his left hand and arm over the top of the steering wheel in an effort to remove the car keys from the ignition. The subject was able to start his vehicle and began backing up. As the vehicle began to move, SA [redacted] was unable to extract his left arm from the steering wheel area. SA [redacted] believed that his arm was either being held by Arnold, or it was trapped inside the vehicle. SA [redacted] was dragged by the movement of Arnold's vehicle for approximately 30 to 40 feet at a fast speed. SA [redacted] fearing for his life, reached into the front seat area with his right hand which was holding his weapon and fired one round into Arnold's chest. SA [redacted] left arm was immediately freed. He regained his footing and stepped away from the vehicle. Arnold slumped over toward the passenger seat area, but the engine made a "revving" sound and moved forward. The subject's vehicle stopped when it collided with an automobile parked to the front of Arnold's vehicle.

b6
b7C

Arnold was removed from his vehicle by SA [redacted] and Medix ambulance personnel who were at the scene. Paramedics from the Orange County Fire Department responded to the scene and administered first aid prior to transporting Arnold to Mission Hospital with a gunshot wound to the chest. Arnold was declared dead shortly after arriving at the hospital.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

b6
b7C

Members of the SIRG unanimously agreed that the use of deadly force was justified in this shooting incident for several reasons. The subject involved in this incident was known to be dangerous; both SAs gave verbal commands and identified themselves as law enforcement officers resulting in the subject becoming aggressive and advising that he would not surrender; the subject was moving aggressively towards the SAs resulting in a struggle while attempting to disarm the SAs; and, the subject made gestures insinuating that he was going to obtain a weapon. SA [redacted] arm was inside the car and he was unable to remove it and felt that his life was in danger throughout this incident.

However, the SIRG had several observations regarding safety issues related to this shooting incident. The first observation involved the use of alternative methods of control that could be used by SAs during high risk arrests. One SIRG member advised that the possession, if available, of pepper spray or an ASP baton may have been beneficial to the SAs. The next issue involved the lack of body armor used by the SAs. Members agreed that emphasis should have been placed on the use of body armor during the planning of this incident taking into consideration the subject's prior history.

Members of the SIRG noted three issues relating to this incident that pertain to training and should have been realized by the participating SAs. The subject's vehicle should have been boxed in to avoid any movement by the subject, SAs should not involve themselves in hand to hand combat when only one hand is available, and an SA should not participate in a struggle with a firearm which can result in an accidental discharge and the chance of injury.

A lengthy discussion was held during the meeting regarding adequate on-the-scene personnel. One SIRG member noted that the Los Angeles Division advised that six SAs and one local officer were available to assist in the execution of the arrest and search warrants once they were obtained. However, prior to obtaining the warrants, the SSRA elected to only send two SAs and the local officer to locate and surveil the subject with orders that if the subject was located and knew he was being surveilled, he should be arrested if an attempt was made to flee. The SIRG member opined that the surveillance was a potentially dangerous situation, especially taking into consideration the arrest orders and felt that the SSRA did not assign adequate personnel to the surveillance. Chief Inspector [redacted] also identified other issues requiring additional information from the Los Angeles Division. It was the unanimous opinion of the SIRG members to further discuss this shooting incident at the SIRG meeting following receipt of the Los Angeles Division's response to these issues. b6 b7C

On 9/29/95, a teletype was sent to the Los Angeles Division from Chief Inspector [redacted] requesting that they respond to the following issues:

(1) Identify the date that the Federal arrest warrant was issued by the Southern District of California and when the Los Angeles Division was aware of its existence,

(2) Identify the steps taken to locate and apprehend the subject upon learning of the Federal warrant,

(3) The original report indicated that the SSRA, four SAs, and one local law enforcement officer were briefed regarding this matter with instructions that "if the subject appeared to be leaving the area or identified the fact that he was being surveilled, he should be stopped and arrested on the San Diego Division bank robbery warrant." With the knowledge of these facts, Los Angeles Division was requested to determine why more personnel were not assigned to clearly demonstrate superiority of manpower in a potentially dangerous situation, why the SAs assigned surveillance were using readily identifiable law enforcement-type vehicles, and to identify the plan to effect the arrest.

Lastly, a request was made that the Los Angeles Division determine why the decision was made to arrest the subject on that particular day if an arrest had previously been delayed for operational and/or tactical reasons.

The Los Angeles Division responded to these issues by communication dated 10/11/95, which resulted in further discussions by the SIRG members on 11/3/95. Based on the facts presented by the Los Angeles Division, the SIRG recommended that no administrative action be taken against employees involved in this shooting incident. However, SIRG members reiterated that the circumstances surrounding this incident indicated that this incident should have been considered more than a surveillance. Members felt that the planning was insufficient and that additional manpower was mandated.

b6
b7C

## Synopsis of the Shooting Incident

A local warrant was obtained by the Oklahoma Department of Corrections on [redacted] for Escape on 5/2/95. It had been determined that [redacted] was in violation of his release conditions concerning an 18 year sentence for drug violations. The U.S. Marshals Metropolitan Task Force, a formal task force composed of various members of both the local and federal law enforcement communities, was attempting to locate and arrest the subject on the outstanding warrant.

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
8/18/95
Oklahoma City Division

On 8/18/95, based on source information provided to SA [redacted] members of the Task Force and SA [redacted] formulated a plan to arrest [redacted] This plan included the use of Oklahoma City Police Department (OCPD) marked patrol units. During the early morning hours of 8/18/95, OCPD marked Patrol Units attempted a traffic stop on a vehicle driven by [redacted] This traffic stop was in accordance with the previously formulated arrest plan. The subject refused to stop and the OCPD units pursued [redacted] through a residential area. As [redacted] attempted to turn the corner at Southwest 36th and Goff, he hit an unoccupied pickup truck parked in a driveway at [redacted] exited the vehicle and fled on foot into the residential area. As [redacted] ran along a chain link fence, SA [redacted] and Deputy Sheriff [redacted] a passenger in SA [redacted] vehicle, observed a weapon in the subject's right hand. The subject then jumped the fence into the backyard of a residence. In an attempt to prevent the subject from entering an occupied residence, SA [redacted] drove his vehicle through the fence. At this time, [redacted] fired his weapon towards SA [redacted] and Deputy Sheriff [redacted] SA [redacted] exited his vehicle and alerted all pursuing law enforcement personnel that [redacted] had a gun. [redacted] had jumped another fence heading towards the front yard of an occupied residence. As [redacted] was going around the corner of the house, SA [redacted] fired three shots at the subject with his 9mm Sig Sauer. OCPD Officer [redacted] was in the front yard and as [redacted] rounded the corner of the house in the direction of Officer [redacted] appeared to crouch to the ground. Officer [redacted] had heard someone yell "gun" from the backyard and as the subject was crouching to the ground, Officer [redacted] believed that [redacted] was attempting to shoot at him from the crouched position. Officer [redacted] fired two shots from his 9mm Glock. It was then determined that [redacted] had been hit by gunfire and an ambulance was called to the scene. The subject was transported to the Southwest Medical Center for treatment of a non-life threatening wound.

[redacted], Oklahoma County District Attorney, completed his review of this shooting incident, and by letter dated 9/15/95, found SA [redacted] actions proper and justifiable. District Attorney [redacted] declined prosecution of SA [redacted] and Officer [redacted] in this matter.

b6
b7C

Prior to the discussion at the SIRG meeting on 9/29/95, Chief Inspector [redacted] identified additional information needed to ensure a complete review of this shooting incident. Specifically, Oklahoma City Division was asked to address the following issues: 1) the initiation of a UFAP preliminary inquiry

(PI), 2) the status of FBI SAs as Peace Officers in the State of Oklahoma and, 3) the existence of a memorandum of understanding for Task Force participation.

b6
b7C

Oklahoma City advised that no PI was initiated in this case. Based on source information provided to SA [redacted] the subject was believed to be going to a residence in Oklahoma City on 8/17-18/95. SA [redacted] had a confidential and reliable informant who had demonstrated reliability numerous times in the past. SA [redacted] role was only providing information to Deputy [redacted] who was assigned to the fugitive matter and was, therefore, unaware whether or not a PI had been initiated. SA [redacted] was not a participating member of the fugitive task force. He accompanied Deputy [redacted] for the purpose of providing "real time" information regarding [redacted] whereabouts based on information provided by SA [redacted] informant on 8/17/95. As the investigation developed into a car pursuit and eventual shooting incident, SA [redacted] believed that he was acting within the scope of his duties, i.e, he was present to provide "real time" informant information, he was present to protect the informant's identity, and he had information causing him to believe that [redacted] was in violation of a Federal Firearms Statute (Felon in Possession of a Firearm).

SAs of the FBI do not have peace officer status in the State of Oklahoma. One SA in the Oklahoma City Division, who is a full-time participant in the MFTF, is cross-deputized as an OCSO Deputy Sheriff. Except for this full-time participant, no other SAs routinely participate in the Task Force. An FBI SA in Oklahoma is authorized to effect arrests for violation of federal law, however, arrests for state/local violations can only be accomplished by a citizen's arrest.

ASAC Bogner advised that the Metro Fugitive Task Force is not a formally funded Safe Streets Task Force. It was initiated in 1992, under the direction of the U.S. Marshals Service (USMS). The FBI proposed that a formal Memorandum of Understanding (MOU) be signed by all participants; however, the USMS and the OCPD have never executed the MOU. The MOU would include the FBI, USMS, OCSO, OCPD, the Cleveland County Sheriff's Office, and the Oklahoma Department of Corrections.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide

the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary. b6 b7C

It was the unanimous decision of the SIRG that the use of deadly force in this shooting incident was justified, and that no action be taken against SA [redacted] as a result of this shooting incident. However, the subject of effecting arrests on non Safe Streets Task Forces was discussed. Members agreed that unless a UFAP preliminary inquiry has been initiated under guidelines established for Safe Streets Task Forces, the FBI should not be making arrests absent having state or local peace officer status. The SIRG recommended that the OGC and CID expeditiously research and provide written policy regarding FBI liability in effecting such arrests.

## Synopsis of the Shooting Incident

Roger A. Fein, an FBI fugitive, was involved in a shoot-out with Louisville Division SAs and Police Officer [redacted] of the Jeffersontown Police Department (JPD) on 9/20/95. Officer [redacted] was critically wounded during this shooting incident. Although Roger A. Fein was shot by Officer [redacted] and FBI SA [redacted] with probable mortal shots, the coroner's preliminary findings indicate that Fein died as a result of a self-inflicted gunshot wound to the head.

On 9/16/95, "America's Most Wanted" aired a show featuring FBI fugitive Fein. On Monday, 9/18/95, a Cooperating Witness (CW), known to the FBI, contacted SA [redacted] of the Lexington Resident Agency (LRA), Louisville Division. The CW was subsequently interviewed by SA [redacted] and was shown photographs of Fein. b6 b7C

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
9/20/95
Louisville Division

On 9/19/95, SA [redacted] notified Supervisory Senior Resident Agent (SSRA) [redacted] of the information provided by the CW. SSRA [redacted] knew of Fein based on previous FBI investigations in the LRA territory, and therefore, conducted a comprehensive review of the information and physically inspected the area believed to be the residence of Fein. SSRA [redacted] assigned an SA to discreetly surveil the area and then notified Assistant Special Agent in Charge (ASAC) Thomas W. Miller about the information provided by the CW. SSRA [redacted] formulated a plan to positively identify and apprehend Fein and then requested authority to utilize an FBI aircraft in the surveillance which was approved by ASAC Miller. Additional assistance was offered for the surveillance by ASAC Miller, however, was declined by SSRA [redacted] since eight SAs were available and assigned to conduct the surveillance. SSRA [redacted] held a conference with all participating SAs involved in the surveillance and the CW returned to the LRA to brief and assist the SAs conducting the surveillance of Fein. b6 b7C

Final briefings were held with the surveillance team on the morning of 9/20/95. Surveillance points were identified, assigned, and confirmed at this meeting.

Through communications with the CW, it was determined by the surveillance team that Fein's girlfriend, [redacted] departed the residence earlier than usual on the morning of 9/20/95. The surveillance team was dispatched to their respective pre-determined surveillance points anticipating seeing and surveiling Fein as he departed his residence. Within a short period of time, SA [redacted] received a telephone call from the CW and observed a vehicle described by the CW as normally being operated by Fein. A moving surveillance of this vehicle began based on instructions issued by SSRA [redacted]

The surveilled vehicle had tinted windows, and combined with the poor weather conditions, surveillance team members could not see inside the cab of the vehicle. At this point, the driver of the vehicle was unknown and it was also unknown if the vehicle contained any passengers. A license plate number was obtained and a computer check completed by the Louisville Division determined that the license plate did not match the vehicle. b6 b7C

SA [redacted] bureau vehicle had enhanced radio capability and was equipped with a cellular telephone. With this knowledge, SSRA [redacted] instructed SA [redacted] to coordinate the FBI surveillance with the Kentucky State Police (KSP). SA [redacted] observed an antenna

on the vehicle under surveillance and assumed that the subject was equipped with a police radio scanner. Using the cellular telephone, SA [redacted] coordinated most of the communications with the KSP.

At one point during the surveillance, it appeared that Fein was not following the routine activity described by the CW. Therefore, SSA [redacted] decided to stop the vehicle and instructed SA [redacted] to request a KSP marked vehicle to assist in the vehicle stop. The use of a marked KSP vehicle was expected to reduce a potential violent confrontation with the subject. b6 b7C

The request for assistance was frustrated by the fact that the surveillance was moving from one KSP Post area to another and this required renewed explanations and communications further delaying KSP assistance. SA [redacted] a former KSP Trooper, informed the KSP of the situation and advised that the subject was armed and dangerous.

After approximately 45 minutes of attempting coordination with the KSP, the surveillance moved into Jeffersontown, Kentucky. The area involved was between a rural area and a more populated city center. The KSP dispatcher coordinated communications with the JPD and Police Officer [redacted] responded to the FBI's request for assistance. Officer [redacted] came upon the surveillance from the opposite direction and made a U-turn to join in the surveillance. The surveillance team believed that this traffic maneuver by Officer [redacted] tipped Fein to the surveillance.

Office [redacted] pulled the police car next to the moving bureau vehicle of SA [redacted] and [redacted]. Through an open window, Officer [redacted] was advised of the situation. Officer [redacted] offered assistance and SSRA [redacted] ordered the vehicle stopped. At this time, the surveillance was slowly moving past the JPD and was approaching an intersection.

Officer [redacted] attempted to stop Fein's vehicle with the use of flashing lights and police siren. The subject's vehicle continued moving into the intersection of Watterson Trail and Talonsville Road in Jeffersontown. After passing through the intersection, Fein bolted from the vehicle while the vehicle continued moving. The vehicle came to a stop at a curb approximately one hundred feet down the roadway. As Fein exited the vehicle, he was firing a .9mm pistol. While in a combat position, Fein fired on Officer [redacted] through the windshield of the b6 b7C

police car as the officer was seated in the police car. Officer [redacted] exited the police car and returned fire hitting Fein. SA [redacted] whose vehicle was adjacent to Officer [redacted] police car, shouted at Fein and then fired shots. It is believed that SA [redacted] fired two shots and struck the subject both times taking him to the ground. Officer [redacted] was positioned at the rear of the police car bent over the trunk. Immediate assistance was provided to Officer [redacted] by SA [redacted] SSRA [redacted] approached Fein and positively identified him from tattoos on his body. SA [redacted] crawled to and cleared Fein's vehicle. SSRA [redacted] accounted for the safety of all FBI SAs and personnel at the scene, took charge and coordinated the crime scene, and telephonically advised ASAC Miller of the shooting incident. Louisville Division staff, including ASAC Miller, immediately responded to the scene.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

The SIRG unanimously concurred that this was an intentional shooting and that the use of deadly force was warranted, and no administrative action should be taken against any SA involved in this shooting incident. SIRG members agreed that the Louisville Division's planning was more than adequate with the use of eight SAs. However, the group made the observation that although the incident initially involved only surveillance of the subject, of the eight SAs participating in the surveillance, only four were wearing bullet proof armor. At least one SA recalled that SSRA [redacted] had instructed all personnel to wear their body armor on the day of this shooting incident. Therefore, the SIRG recommended that all SAs be reminded of the importance of wearing body armor during these situations.

b6
b7C

It was noted by the SIRG that media coverage of this shooting incident cast the FBI in an unfavorable position and that there seemed to be some misunderstanding by police officials regarding FBI procedures following shooting incidents. Although these situations were diplomatically handled by Special Agent in

Charge (SAC) Vernon D. Kohl, the SIRG identified other issues relating to this shooting incident and also discussed ideas expressed by SAC Kohl. SIRG members discussed the use of improper dialogue used by one SA, the upgrading of protective body armor used by SAs, the need for equipment to identify FBI vehicles during felony stops thereby eliminating the need for local marked police cruisers, and that emphasis be placed on all SAs being fully trained and familiar with conducting felony stops.

Although no formal recommendations were issued by the SIRG regarding these issues, the Training Division (TD) representative advised that the language issue will be addressed during Principal Firearms Instructors training. The TD will also research the issue of upgrading body armor currently being used by the FBI including the use of some type of FBI identification.

SIRG members had a lengthy discussion about the need for some type of Bureau vehicle identification for use during this type of incident. Suggestions included having additional lights on vehicles as well as some type of slap-on door decal that can be easily applied during emergency situations. However, one DOJ representative who is a former prosecutor, emphasized that the presence of local marked police vehicles seems to assist in prosecutions and tends to avoid some problems associated with felony car stops.

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
10/1/95
Las Vegas Division

DETAILS: On 11/3/95, the SIRG, consisting of Chairman Wiley D. Thompson, III, Deputy Assistant Director, Inspection Division; Chief Inspector [redacted] Office of Inspections, Inspection Division; [redacted] Trial Attorney, Civil Rights Division, USDOJ; Jeremiah W. Doyle, Jr., Section Chief, Global Section - NS-2, National Security Division; Van A. Harp, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Trial Attorney, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] b6 b7C Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Health Care Fraud Unit, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; [redacted] Supervisor, WMFO; and [redacted] Inspection Analyst, Office of Inspections, met to discuss the above-captioned shooting incident.

## Synopsis of the Shooting Incident

On Sunday, 10/1/95, while off duty, SA Cullen Michael Butler became hostile with his current wife, [redacted] who is a Computer Specialist for the Las Vegas Division. The hostility with the current wife stemmed over finances with his former wife. SA Butler and his former wife, Regina Ann Butler, divorced in 1985 after almost 17 years of marriage. Through divorce proceedings, Regina Butler received one half of SA Butler's benefits, including his pension. SA Butler was contemplating retirement in December 1995, or January 1996. As a result of the divorce, Regina Butler b6 retained the residence because of two small children now aged 15 b7C and 23. SA Butler was to receive approximately $27,000.00 from the sale of the house if she remarried or when the youngest daughter graduated from high school. Although the daughter is now aged 15, and not due to graduate from high school for three years, SA Butler had been contacting his ex-wife to either receive the money for his share of the house or not allow her to receive one half of his pension.

Regina Ann Butler had been living with Russell C. Teresi at the residence but did not marry because Mrs. Butler would be required to sell the house.

On 10/1/95, SA Butler locked his current wife in the backyard, advised he would take care of the problem, and left home in his personally owned vehicle. [redacted] contacted a

neighbor who is an FBI co-worker to obtain a ride to the former wife's residence. The neighbor's husband drove the three to the residence. Upon arrival, they found SA Butler inside the doorway of the house arguing with his former wife and Russell Teresi. [redacted] and her two companions exited the vehicle and approached the house to talk SA Butler into returning home. When the three were approximately 25 feet away, SA Butler drew his service weapon, a Sig P226. Several individuals yelled that he had a gun. At approximately 7:10 p.m., SA Butler fired approximately eight rounds from the gun at Regina Butler and Russell Teresi. Initial indications from the Las Vegas Metropolitan Police Department revealed that Regina Butler was shot five times and Russell Teresi was shot twice. Both individuals were pronounced dead at the scene.

b6
b7C

After the shooting, SA Butler made comments to [redacted] and her companions. The only comment that they could recall was that SA Butler said he was going to the desert to kill himself. SA Butler walked down the street approximately 10 yards and entered his vehicle.

At approximately 8:30 p.m., a security guard for the Spanish Hills housing development discovered the body of SA Butler laying outside the complex. SA Butler had fired one shot from his service weapon into his right temple and was pronounced dead at the scene.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

All members of the SIRG agreed that no indication of a problem was foreseen and therefore, no opportunity for Employee Assistance Program intervention was available. SA Butler was considered to be a successful SA with no indication of a problem. The SIRG had no recommendations regarding this incident.

Memorandum from [redacted] to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
2/1/95
Oklahoma City Division

DETAILS: On 7/18/95, the SIRG, consisting of Chairman [redacted] Acting Chief Inspector, Office of Inspections, Inspection Division; Robert S. Conforti, Section Chief, Violent Crimes and Major Offenders Section, Criminal Investigative Division; Edward R. Leary, Section Chief, Personnel Management Section, Personnel Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training and Administration Section, Training Division; [redacted] Unit Chief, Undercover and Sensitive Operations Unit, Public Corruption and Civil Rights Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; and [redacted] Supervisor, WMFO, met to discuss the above-captioned shooting incident. b6 b7C

## Synopsis of the Shooting Incident

On January 31, 1995, an unidentified white male, who was later identified as David P. Milewski, robbed Commercial Federal Savings and Loan. The subject, according to victim tellers, entered the bank, brandishing what was described as a silver or chrome .25 caliber automatic. The tellers provided information indicating the subject appeared to be under a great deal of stress, being very nervous and scared. He was demanding and ordered tellers to get down on the floor. A subsequent investigation revealed that the subject made his get-away in a vehicle described as a white Cadillac.

On the morning of February 1, 1995, information was received from an Oklahoma County Sheriff's Deputy that he had been contacted by an informant who had spoken to the bank robber's [redacted] The individual revealed that [redacted] identified as David Milewski, had robbed Commercial Federal Savings and Loan, on 1/31/95. This identification, according to the informant, was made because of bank surveillance photographs displayed on television after the bank robbery. [redacted] further advised the [redacted] that Milewski had visited [redacted] Milewski was currently residing at a residence located at 2501 South 102nd Street, Oklahoma City, Oklahoma, and the white Cadillac used in the robbery was parked b6 b7C b7D

(CONTINUED - OVER)

b6
b7C

in the garage of this residence. Additionally, it was learned that the subject had a history of armed robberies. FBI Agents and Oklahoma City Police Department (OCPD) officers initiated a surveillance of the residence believed to be occupied by the subject. Agents observed Milewski exit the residence and go to a Corvette parked in front of the residence on two occasions, noting that the subject met the general physical description of the bank robber.

While efforts were being made to obtain an arrest photograph of Milewski to display to victim tellers for a positive identification, the garage door to the residence opened and the subject was observed leaving the residence in the white Cadillac. After following the subject for a short period of time, FBI Agents, along with OCPD officers, attempted to pull subject over, utilizing emergency lights and siren. The subject then attempted to flee by accelerating.

Following a 20-minute, high-speed chase, during which attempts to forcibly stop Milewski failed, he was blocked in a car stop by Bureau Agents and OCPD officers. The stop was effected with the vehicle driven by SA [redacted] immediately in front of subject's Cadillac. The stop was effected as the subject was proceeding west on Highway 152, toward the populated community of Mustang, Oklahoma, after the subject had attempted to go the wrong way on streets while being pursued at a speed in excess of 90 miles per hour. After the vehicle was stopped, SA [redacted] exited his vehicle and did not immediately observe the subject in the white Cadillac. He thought the subject may have exited the Cadillac although he did not see the subject on foot nor did other Agent's reaction indicate the subject was on foot. SA [redacted] approached the subject vehicle with his .10 mm Smith and Wesson handgun drawn. As he approached the driver's side of the Cadillac, he observed Milewski lying on the front seat, with his arms stretched out. SA [redacted] tapped on the windshield and ordered the subject out of his vehicle. At that point, SA [redacted] observed Milewski with a gun in his right hand, and he was beginning to move the gun toward SA [redacted] SA [redacted] fired three times through the windshield and still noticed the subject coming up with the gun. SA [redacted] then fired what he believed to be three additional times. SA [redacted] then observed blood in the vicinity of the subject's head as the subject slumped in the front seat of the vehicle.

b7C

(CONTINUED - OVER)

Memorandum from [redacted] to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
2/1/95
Oklahoma City Division

b6
b7C

A medical examination of the deceased subject by Medical Examiner [redacted] M.D., revealed a wound to the chin which appeared to be self-inflicted but not fatal. The subject had a contact wound to the right temple, with a .25 caliber bullet lodged in the head that the Medical Examiner ruled as fatal and self-inflicted. Additionally, there were two .10mm wounds to the head, one to the right hand, and one to the left forearm. The pathologist ruled the cause of death as a gunshot wound to the head, and the manner of death was ruled as a suicide. All of the rounds fired by SA [redacted] were recovered in the autopsy or in a search of the interior of the vehicle.

**Observations and Recommendations of the SIRG**

The review of the above-captioned shooting incident as documented by the report dated 2/28/95, revealed that proper procedures were followed by SA [redacted] during this shooting incident.

After a thorough review of the facts regarding this incident, it is the opinion of the SIRG that no administrative action should be taken against SA [redacted] as a result of his involvement in this shooting incident.

Mr. Gore 7/26/95

Re: Administrative Inquiry
Shooting Incident
2/27/95
Kansas City Division

2. That the Assistant Director, Training Division, and the Office of General Counsel implement changes to the Manual of Investigative Operations and Guidelines (MIOG) specifically addressing FBI policy regarding shooting to neutralize subjects.

3. That SAC, Kansas City, reiterate current FBI instructional policy regarding the incapacitation of subjects through wounding, at scheduled firearms training.

DETAILS: On 7/18/95, the SIRG, consisting of Chairman [redacted], Acting Chief Inspector, Office of Inspections, Inspection Division; Robert S. Conforti, Section Chief, Violent Crimes and Major Offenders Section, Criminal Investigative Division; Edward R. Leary, Section Chief, Personnel Management Section, Personnel Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training and Administration Section, Training Division; [redacted] Unit Chief, Undercover and Sensitive Operations Unit, Public Corruption and Civil Rights Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; and [redacted] Supervisor, Washington Metropolitan Field Office; met to discuss the above-captioned shooting incident. b6 b7C

**Synopsis of the Shooting Incident**

On 2/24/95, [redacted] committed an armed bank robbery, utilizing a handgun. The same day, he used a handgun to commit an armed carjacking, during which three females were kidnapped, one of whom was raped by [redacted] On 2/27/95, he

(CONTINUED - OVER)

committed two additional bank robberies, threatening to kill the bank tellers if they did not comply with his demands for money.

On 2/27/95, subsequent to the bank robberies, SA [redacted] observed a vehicle that had been utilized by [redacted] during the 2/27/95 bank robberies, parked at a motel. He placed the vehicle under surveillance and called for back-up. Prior to the arrival of back-up Agents, [redacted] exited a motel room and walked directly towards SA [redacted] vehicle. SA [redacted] concluded that [redacted] had detected the surveillance, and decided to arrest [redacted] to prevent his escape. Believing [redacted] to be armed and extremely dangerous, and aware of [redacted] involvement in several violent felonies in the immediate past, SA [redacted] exited his vehicle, drew his weapon, identified himself, advised [redacted] that he was under arrest, and commanded [redacted] to freeze. [redacted] then advanced towards SA [redacted] who fired one shot, aiming at [redacted] thigh, in an attempt to disable, but not kill, [redacted] The shot missed, and [redacted] ran, repeatedly turning towards SA [redacted] from positions of cover. As SA [redacted] chased [redacted] SA [redacted] fired an additional seven rounds, one of which struck [redacted] in the lower leg. [redacted] surrendered to SA [redacted] after SA [redacted] cornered [redacted] trying to reach into his vehicle.

b6
b7C

## Observations and Recommendations of the SIRG

The SIRG found that SA [redacted] decision to employ deadly force against [redacted] was proper and in accordance with FBI policy. [redacted] was known to have committed several violent felonies in the immediate past, was believed to be armed, and began to advance towards SA [redacted] when SA [redacted] advised him he was under arrest. Further, [redacted] attempted to escape, behaving in a manner while being chased by SA [redacted] that SA [redacted] assessed as threatening.

The SIRG found that SA [redacted] decision to try and incapacitate the subject by shooting him in the leg was in violation of FBI procedure; however, this issue is not specifically addressed in the MIOG. SA [redacted] by not initially aiming at "center of mass" increased the possibility of a missed shot, which did occur. SA [redacted] failure to hit the subject with the first shot necessitated an additional seven shots being fired, during the subsequent foot chase, possibly exposing SA [redacted] and others to a dangerous situation.

b6
b7C

The firearms training given has in the past, and

(CONTINUED - OVER)

b6
b7C

currently continues to teach FBI Agents to shoot at "center of mass" or "for the most effective area". However, the SIRG determined that these instructions are not addressed in the MIOG or the Legal Handbook for Special Agents. It was the opinion of the SIRG that the instructional policy should be included in the MIOG.

## Synopsis of the Shooting Incident

On 3/8/95, the wife of SA Bruce Eugene Schulz awoke at approximately 6:15 am, and walked to a bathroom located adjacent to the second floor master bedroom of the residence at [redacted] Washington, D.C. As she walked to the bathroom, she noticed that SA Schulz was awake and nervously pacing around.

b6
b7C

At approximately 6:42 am, while [redacted] was in the bathroom, she heard a gunshot and ran into the master bedroom. [redacted] did not see SA Schulz in the bedroom, and she ran out of the second floor foyer, where she found SA Schulz laying on his back on

(CONTINUED - OVER)

the floor with his arms outstretched, perpendicular to his body. It appeared that SA Schulz had a single gunshot wound to the left side of his head. Additionally, a black revolver was laying on the floor near SA Schulz' extended left arm. [redacted] immediately telephoned the Metropolitan Police Department (MPD) Emergency Services Unit. After advising [redacted] to wrap the wound, MPD and Emergency Medical Technicians arrived at 6:47 am, and rendered further medical assistance. SA Schulz was subsequently transported to the George Washington University Hospital Emergency Room (GWUHER) and WMFO agents arrived at the residence and the emergency room at approximately 6:55 am. SA Schulz was pronounced dead at 6:59 am from what appeared to be a single gunshot wound to the left side of his head. b6 b7C b7E

The crime scene was secured and processed by the WMFO Evidence Response Team and the MPD Mobile Crime Unit. [redacted] was asked to consent to a search of the residence. After the consent was obtained, WMFO agents searched the residence and found nothing unusual that is relevant to this administrative inquiry.

Interviews of [redacted] and WMFO personnel, as well as personal associates portrayed a troubled agent. It appears that SA Schulz had extensive debts and poor money management skills. On numerous occasions, SA Schulz told his wife that he was not adequately prepared for new work assignments given to him, and he had concerns about his added responsibilities and sophisticated equipment with which he had to become familiar. Squad associates described SA Schulz as troubled due to self-imposed pressure, new job expectations and poor investments in the real estate market. He had also indicated to his colleagues that he was afraid of being terminated from the FBI if it was determined that he could not do his job, that he was seriously in debt and that he was a poor money manager. SA Schulz' friends mentioned that he has made poor investments in the real estate market and that he was fearful of impending legal action against him by tenants of one of his rental properties. b6 b7C

funds which SA Schulz was among several individuals w/access access to disappeared from ~~an~~ a covert account.

~~Although still pending, an OPR investigation determined several major improprieties concerning SA Schulz.~~ He was aware that polygraph examinations of other individuals involved were completed and his was the only pending polygraph.

(CONTINUED - OVER)

Credit reports showed that SA Schulz had depleted a joint savings account that he had with his wife. He had taken out a substantial car loan and a significant first mortgage on a rental property. Additionally, a first mortgage and an owner held second trust note had been obtained by SA Schulz for another property being refurbished by he and his wife.

The black revolver recovered near SA Schulz was identified as his Bureau issued Smith and Wesson, Model 13-3, .38/.357 Magnum revolver, bearing serial number ACE 3034. The projectile which was recovered from SA Schulz' body was identified as a .38/.357 lead bullet. Further, the bullet removed during the autopsy was identified as having been fired from SA Schulz' service revolver.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

The first recommendation made was done so after the Chairman noted the Inspection Division and Personnel Division were working on policy changes which would require notification to employees at the initiation of an OPR inquiry of the EAP services available to them. The second formal recommendation made was done so after it was determined by the SIRG that EAP training could be beneficial to all new support and SA supervisors. Such training is not being routinely done at this time.

It was further observed that it's uncertain whether formal EAP intervention would have prevented the suicide. That will never be known. However, in addition to the aforementioned recommendations, the SIRG concluded that SACs and ASACs should heighten their sensitivity awareness regarding the needs of employees who are notified that they are the subject of an OPR investigation and they should ensure that EAP availability continues to be emphasized at annual conferences.

Mr. Gore 7/31/95

Memorandum from [redacted] to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
3/15/95
El Paso Division

**DETAILS:** On 7/18/95, the SIRG, consisting of Chairman [redacted] Acting Chief Inspector, Office of Inspections, Inspection Division; Robert S. Conforti, Section Chief, Violent Crimes and Major Offenders Section, Criminal Investigative Division; Edward R. Leary, Section Chief, Personnel Management Section, Personnel Division; [redacted] Unit Chief, NS-2D Unit, Global Section - NS-2, National Security Division; [redacted] Unit Chief, Firearms Training Unit, Training and Administration Section, Training Division; [redacted] Unit Chief, Undercover and Sensitive Operations Unit, Public Corruption and Civil Rights Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; and [redacted] Supervisor, WMFO, met to discuss the above-captioned shooting incident.

b6
b7C

## Synopsis of the Shooting Incident

On March 14, 1995, Special Agents (SAs) of Squad 3, El Paso Division were briefed on current data collected regarding the potential whereabouts of [redacted] federal fugitive from Norfolk wanted for Unlawful Flight to Avoid Prosecution for Capital Murder and Attempted Capital Murder. During the briefing, Agents were advised of [redacted] history of violence and were warned that [redacted] was considered armed and dangerous; a flight risk; and SAs were not to take any chances during a confrontation with the subject. On March 15, 1995, several SAs of the El Paso Division were assigned to conduct surveillance of a business location where [redacted] was suspected to patronize. During the surveillance, the subject was observed by Agents talking on the telephone outside the Circle-K Convenience Store. SA [redacted] parked the Bureau vehicle adjacent to the store and the telephone booth. After SA [redacted] radioed their location to other Agents in the area, SA [redacted] and [redacted] decided to approach [redacted] at the telephone booth. When they opened the car doors, the subject ran across Stanton Street on Nevada Street in an easterly direction. SA [redacted] yelled [redacted] Stop FBI" and the subject was chased. SA [redacted] knew that [redacted] used the nickname [redacted] As SA [redacted] yelled at [redacted] the subject turned toward the SAs and at the same time SA [redacted] fell in the middle of Stanton Street. SA [redacted] thought that [redacted] had shot SA [redacted] and she

b6
b7C

(CONTINUED - OVER)

immediately drew her weapon firing one shot at the subject while running toward him. SA [redacted]s shot did not hit [redacted] who continued running and was seen by Agents climbing a fence leading to California Street.

b6
b7C

El Paso Police Department (EPPD) officers subsequently located [redacted] in a dumpster on California Street. The subject was arrested and transported to the El Paso County Detention Center by the EPPD.

Agents were assigned to search the scene where SA [redacted] discharged her weapon and attempt to locate the empty cartridge and a point of impact; however, neither item was found.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above-captioned shooting incident and weighed the facts given with the FBI's deadly force policy. The SIRG considered the fact that the subject was wanted for capital murder and attempted capital murder and had a history of violence. Also considered was SA [redacted] sworn statement that "I thought [redacted] shot SA [redacted] and I immediately drew my weapon firing one shot at [redacted], while running toward him." Her assessment was made after [redacted] turned towards her and SA [redacted] fell in the middle of the street. SA [redacted] firing at the subject at this point was determined to be within the deadly force policy by all the members of the SIRG. It was the opinion of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in this shooting incident. However, the SIRG recommended that the SAC, El Paso Division, reiterate the importance of wearing protective clothing during an arrest situation.

b6
b7C

## Synopsis of the Shooting Incident

On 3/20/95, at approximately 12:45 p.m., a bank robbery occurred at the George Mason Bank, 4005 Wilson Boulevard, Arlington, Virginia. WMFO agents responded to the bank robbery and a joint investigation was initiated with the Arlington County Police Department. Witnesses advised that a lone black male in his late twenties or early thirties, heavy set with a small mustache, 5'9" to 6'1" tall, weighing between 250 and 300 pounds presented a robbery note to the bank teller and demanded money. The subject claimed to have a gun. The subject was given bank funds in the amount of $7,140.68 which he placed into a duffle bag and fled the bank. The subject was described as wearing dark plastic sunglasses, baseball cap, a blue waist length jacket and blue jeans. He was carrying a blue duffle or tote bag over his shoulder.

At approximately 1:30 pm, an officer of the Defense Protective Service (DPS) on duty at the Pentagon (approximately four miles from the bank robbery) observed an individual who fit the description of the bank robber. The subject was fatigued and sweaty and asked for directions to the closest metrobus stop. The officer furnished the subject with directions to the metrobus stop and then radioed the DPS dispatcher and advised that a man fitting

(CONTINUED - OVER)

the description of the bank robber was headed towards the Pentagon metrobus stop.

Shortly thereafter, uniformed DPS officers in marked police vehicles approached the subject and ordered him to stop. The subject drew a handgun from his waistband and fled on foot through the Pentagon's south parking lot towards Eads Street and the interstate 395 overpass (I-395). b6 b7C

SA [redacted] was conducting a separate investigation at the Pentagon when the subject was observed. SA [redacted] had parked his bureau car in a secured parking lot at the Naval Army Annex and had secured his service weapon and briefcase in the trunk of the car. He was dressed in soft street clothes and felt the possibility of an accidental exposure of his service weapon within the Pentagon confines might cause undue concern to the workers and to the security force within the Pentagon. SA [redacted] and DPS Investigator [redacted] traveled to the Pentagon in [redacted] unmarked government vehicle. Numerous uniformed DPS officers along with Investigator [redacted] and SA [redacted] responded to Eads Street and the I-395 overpass. Upon seeing the responding officers, the subject turned and pointed his weapon directly at them. Four DPS Officers fired upon the subject. The subject turned and ran up the I-395 exit ramp and continued fleeing across I-395. The DPS Officers and SA [redacted] pursued the subject on foot. When Investigator [redacted] got to the top of the I-395 exit ramp, he became fatigued and motioned to the other officers to continue their pursuit. [redacted] acknowledged to SA [redacted] that he was physically okay and then gave his service weapon to SA [redacted]

SA [redacted] continued pursuing the subject across I-395 but realized the subject's lead was increasing. SA [redacted] stopped a vehicle that was getting onto I-395 from highway 110. He identified himself as an FBI Agent and requested the driver's vehicle in order to continue pursuing the subject. The subject crossed over I-395 and ran through the ground level parking garage toward the Double Tree Hotel. SA [redacted] drove the commandeered vehicle to the rear of the Hotel and the subject emerged from the parking garage area and attempted to run past SA [redacted] SA [redacted] identified himself and ordered the subject to stop. The subject pointed his weapon directly at SA [redacted] who was approximately 20 feet away and SA [redacted] fired two rounds from Investigator [redacted] service weapon. b6 b7C

(CONTINUED - OVER)

b6
b7C

The subject continued to run approximately one half block and stopped in a grassy area near Eads Street with this back towards SA [redacted] A DPS marked cruiser with two uniformed officers was approximately 90 feet in front of the subject who again pointed his weapon at the uniformed officers. DPS officers and SA [redacted] fired upon the subject who immediately fell to the ground and lost consciousness. The subject never regained consciousness and died on March 21, 1995, at 11:47 pm.

Autopsy reports revealed that the subject had been shot twice, once in the left rear shoulder and the second wound was a through and through wound to the subject's neck (spine).

The FBI Laboratory, Firearms-Toolmarks Unit, determined the spent bullet found on Eads Street had been fired from [redacted] service weapon. Additionally, the bullet recovered from the subject's left rear shoulder was also determined to have been fired from the same weapon. FBI Laboratory results, the autopsy report, and witness statements indicate that SA [redacted] sixth shot, from approximately 120 feet, was the round responsible for the wound to the subject's neck. Two witnesses stated the subject appeared to be suffering from a wound when he arrived at the grassy area near Eads Street.

The subject's Stallard Arms 9mm pistol was determined to be operable by the FBI Laboratory; however, he never fired any rounds. Investigation also revealed that the deceased subject was not responsible for the robbery at the George Mason Bank on 3/20/95.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

Members of the SIRG unanimously concurred with the use of deadly force in this shooting incident and commended the heroism displayed by SA [redacted] However, the group recognized the fact

b6
b7C

(CONTINUED - OVER)

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
5/2/95
Las Vegas Division

Synopsis of the Shooting Incident

On 12/15/94, SA [redacted] initiated a joint investigation with the Office of Special Investigations (OSI), U.S. Air Force (USAF), Nellis Air Force Base (NAFB), Las Vegas, Nevada, into the alleged drug trafficking activities of [redacted] a member of the USAF assigned to NAFB. On 7/25/94, [redacted] had been court martialed based on a civilian drug arrest and sentenced to 18 months custody, a bad conduct discharge, and a reduction in rank. b6 b7C b7D

OSI SA [redacted] advised SA [redacted] that [redacted] who at the time was incarcerated in the military jail on the base, had offered to sell controlled substances to a civilian prisoner lodged at the Federal Correction Institution located on NAFB. [redacted]

The U.S. Attorney's Office in Las Vegas had declined prosecution of [redacted] at the on-set due to the minimal amounts of controlled substances being distributed by [redacted] It was decided that [redacted] would be prosecuted by the military authorities. Two controlled drug purchases were made from [redacted] prior to his arrest on 5/2/95.

The third controlled drug purchase was to be made by the [redacted] at which time [redacted] would be arrested by OSI Agents.

OSI SA [redacted] briefed four other OSI Agents on the investigation and planned arrest of [redacted] The car wash at the NAFB was selected as the site for the controlled purchase of the drugs and [redacted] subsequent arrest. The car wash was selected to provide maximum cover for the SAs and was believed to be the most optimum site for the arrest. b6 b7C b7D

SA [redacted] advised all present that he did not want any hostage type situation, nor shooting. Based on his prior arrest for an unregistered firearm [redacted] statement that [redacted] had a weapon, it was believed that [redacted] would be armed. SA [redacted] specifically advised that there was to be no pursuit of [redacted] on or off the base. He advised that, if necessary, [redacted] could be arrested at a later date.

OSI Agents were to surveil the transaction and broadcast

(CONTINUED - OVER)

the activity over the radio. When the arrest signal was broadcast, OSI SAs were to effect the arrest, and SA [redacted] and SA [redacted] were to [redacted] b6 b7C b7D

The prisoner was taken to the car wash and the surveillance was initiated. Shortly after noon on 5/2/95, [redacted] was observed driving his vehicle up to the car wash. The OSI Agents on surveillance broadcast the transaction and the arrest signal was broadcast after completion of the transaction. OSI Agents drove towards [redacted] and exited their vehicle. Before the arrest could be effected, [redacted] sped from the area at a high rate of speed and exited the NAFB.

SA [redacted] with SA [redacted] in the vehicle, followed [redacted] at a safe distance while broadcasting on the Las Vegas Metropolitan Police Department (LVMPD) frequency their location, direction of travel, and a request for assistance to arrest [redacted] SA [redacted] lost sight of [redacted] near Charleston Boulevard and Oliver Street. SA [redacted] advised that they were in the general area of [redacted] residence. While driving on Oliver Street, SA [redacted] observed [redacted] vehicle stopped on Del Almo Street, facing south towards Oliver Street. SA [redacted] drove towards the vehicle and parked at an angle in front of [redacted] vehicle.

SA [redacted] exited the Bureau vehicle and took up a position, with his weapon drawn, adjacent to the driver's side window of [redacted] vehicle. SA [redacted] exited the vehicle, weapon drawn, and took up a position in front of the vehicle. SA [redacted] then realized that [redacted] vehicle had stalled and that [redacted] was attempting to restart it. SA [redacted] could see one of [redacted] hands on the steering wheel and the other attempting to restart the car.

SA [redacted] who was wearing a protective vest with "FBI" on the front, identified himself and ordered [redacted] to raise his hands. b6 b7C [redacted] was able to restart the vehicle and drove directly at SA [redacted] and SA [redacted] SA [redacted] did not know if SA [redacted] had been struck by the vehicle; however, he spun out of the way and fired one round from his Bureau weapon at the left rear tire of [redacted] vehicle which was speeding out of the area.

SAs [redacted] and [redacted] returned to the Bureau vehicle and attempted to locate [redacted] While driving east on Olive Street, they observed [redacted] vehicle partially in a driveway at [redacted] with the driver's side door open. [redacted] could not be located.

(CONTINUED - OVER)

LVMPD Officers arrived on the scene and assisted in the search for [redacted] who was arrested a short time later in a parking lot of an apartment complex near his residence. b6 b7C

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

The majority of the SIRG members concurred that SA [redacted] decision to employ deadly force against [redacted] was proper and in accordance with FBI policy. [redacted] was believed to be armed and fled in his vehicle behaving in a manner that SA [redacted] assessed as threatening.

The SIRG found that SA [redacted] decision to disable the subject's vehicle by shooting at the tire was in violation of FBI procedure. Experience has demonstrated that the use of firearms to disable moving vehicles is either unsuccessful or results in an uncontrolled risk to the safety of the officers or others. Therefore, the consensus opinion of the SIRG was that the SAC, Las Vegas should reiterate the current policy and reasons for that policy to all SAs in the division. The SIRG found that the MIOG does not specifically address the issue of disabling moving vehicles with firearms, resulting in recommendation number two being made. b6 b7C

b6
b7C

## Synopsis of the Shooting Incident

SA [redacted] New York Division, was contacted by Ms. [redacted] Executive Director, National Independent Bank Equipment and Systems Association (NIBESA), Park Ridge, Illinois, requesting assistance in arranging for a demonstration of the various types of bullet resistant glass during their annual convention in Las Vegas, Nevada, being held on May 11-12, 1995. SA [redacted] who had assisted the NIBESA in past demonstrations, identified SA [redacted] of the Las Vegas Division as the appropriate employee to arrange for the demonstration. SA [redacted] was aware that SA [redacted] was the Principal Firearms Instructor (PFI) in the Las Vegas Division. SA [redacted] obtained proper management authorization from the New York Division for the FBI to participate in the demonstration.

SA [redacted] advised that the demonstration plan would include a burning of the safes, and a firearms demonstration involving the shooting at the bullet resistant glass. The last event would be a shooting demonstration using metal targets, similar to demonstrations he had witnessed in the past.

b6
b7C

SA [redacted] was contacted by Ms. [redacted] and a discussion was held between the two about shooting at the bullet resistant glass. Ms. [redacted] insists that SA [redacted] was not asked to participate in any other demonstrations, specifically shooting bullets at any safes or Automatic Teller Machines (ATMs).

Arrangements were made by SA [redacted] to utilize the police shooting range on 5/12/95. Arrangements were also made for the use of Bureau weapons and ammunition to be used during the

demonstration, and he coordinated the delivery of the safes, ATMs, and resistant glass by the Lomanto Exhibit Services. SA [redacted] chose to use his personally owned Bureau approved 30-06 rifle during the demonstration. He also provided the rifle ammunition which included military style armor piercing rounds and commercial 30-06 ammunition manufactured by Eldorado Cartridge Company in Boulder City, Nevada. This commercial ammunition was all copper 180 grain Barnes "X" bullets. b6 b7C

On the morning of 5/12/95, SA [redacted] met with SA [redacted] at the firearms range. SA [redacted] had arranged for the safes, ATMs, and the glass to be set up and he had marked off an area approximately 77 feet from the target area using tape stretched between two speakers. With between 100 and 150 spectators present, SA [redacted] directed the mechanics of the safe burning demonstration. Once this demonstration was completed, SA [redacted] directed the spectators behind the taped area.

SA [redacted] decided to include a demonstration of shots being fired at the safes as part of his presentation. SA [redacted] positioned himself 40 to 50 feet in front of the safe located near the middle of the target line and fired two rounds of armor piercing ammunition at the safe. SA [redacted] approached the safe to examine the bullet impact areas, and SA [redacted] who had heard noise from the spectator area, walked in that direction. SA [redacted] saw that one spectator had suffered a small crescent shaped wound to the shin area. First aid was administered and the spectator insisted that he was okay. SA [redacted] advised the group that it was common for individuals to receive minor splash back wounds. At that time, neither SA realized that a second spectator had also received a wound. The spectators were then moved to the back of the range area being used, approximately 60 yards from the target line and the demonstration continued. SA [redacted] then fired one of the all copper bullets at the target and the bullet, or a large fragment of the bullet, ricochetted back and struck SA [redacted] in the right anterior lower thigh. SA [redacted] was transported to the University Medical Center for treatment. b6 b7C

SAs [redacted] and [redacted] were also present during this demonstration. SA [redacted] asked if they would assist in completing the demonstration by firing rounds at the bullet resistant glass. SAs [redacted] and [redacted] concluded the demonstration with no further incidents.

Another spectator, it was later learned, had sustained a ricochet wound to the neck. Both spectators received medical treatment at the Lake Mead Hospital in Las Vegas. The second spectator was advised by hospital staff that a piece of metal was in her neck; however, that the piece would work its way out. The spectator later confirmed that the metal piece did eventually work its way out.

It was also later learned that the first spectator suffered an injury to his lower left calf muscle. He received medical treatment at the Lake Mead Hospital and was advised that the fragment was still in his leg. On 5/22/95, he sought medical treatment at the Marquette General Hospital and has been attended by a physician since that time. The fragment remains in his leg and he continues to suffer pain. He also advised that he has not sought legal advice; however, feels that compensation is due him for the hardships he has suffered as a result of the bullet wound.

## Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

Members of the SIRG agreed that this incident was an intentional discharge resulting in unintentional injury. However, three major observations were surfaced by the SIRG regarding this incident. The first observation involved the purpose and planning of the demonstration itself. SIRG members did not understand how the demonstration served a "law enforcement" purpose and questioned the ethical responsibility of an SA participating in a manufacturer's demonstration of a product. Therefore, SIRG members asked for a legal opinion regarding SA [redacted] participation in this demonstration.

b6
b7C

The second observation of the SIRG pertained to SA [redacted] lack of proper SAC notification of the demonstration, his extreme use of poor judgement in continuing the presentation upon learning of the first spectator injury, and the fact that proper safety precautions were not adhered to by either

SA involved in the incident. Additionally, the ammunition used by SA was not Bureau approved.

Based on a statement of SSA SA advised him on 5/11/95, that he would be shooting at bullet proof glass at the LVMPD range on 5/12/95, and that the bank would be providing the glass. SA never advised his supervisor that this was to be a demonstration of any sort, or that any spectators would be present. Further, SA neglected to provide his supervisor with any written documentation relating to the demonstration, nor was the supervisor informed that an SA from the New York Division would also be present during the demonstration. Based on the information provided to him and the knowledge that SA was the PFI for the Las Vegas Division and frequently tested ammunition, weapons, or various training methods, no SAC approval was sought. The SIRG also noted that had SAC approval been sought, injuries may have been prevented. Additionally, SIRG members stressed that SA extreme use of poor judgement heavily impacted the health and well being of the spectators, and to resume shooting at the ATMs after learning of the first injury was "cavalier." The group emphasized the need for medical personnel to be on-site during these types of demonstrations. Taking into consideration each of the above violations and the use of extremely poor judgement by SA the SIRG concurred with the SAC's recommendation that he be removed as the Las Vegas Division's PFI. Further, members unanimously agreed that SA be decertified as a PFI and, at a minimum, be provided with a letter of censure. b6 b7C

The last observation and recommendation of the SIRG involved SA of the New York Division. Members noted that SA sought and received proper SAC approval for his participation in this demonstration. A concern existed among the group regarding SA neglect of taking action after learning of the first spectator injury. Therefore, the SIRG recommended that SA be given a letter of censure for his failure to provide appropriate safety oversight during this incident. b6 b7C

(CONTINUED - OVER)

(2) That the ADIC, Washington Metropolitan Field Office (WMFO) and the SAC, Baltimore Division, continue to pursue and promptly implement a workable solution for operational procedures involving territorial strategies.

(3) That WMFO management review its operational procedures regarding command post operations including the need for ranking management presence and oversight as the event dictates.

DETAILS: On 8/17/95, the SIRG, consisting of Chairman Wiley D. Thompson, III, Deputy Assistant Director, Inspection Division; [redacted] Acting Chief Inspector, Office of Inspections, Inspection Division; [redacted] Deputy Chief, Civil Rights Division, U.S. Department of Justice (USDOJ); Jeremiah W. Doyle, Jr., Section Chief, Global Section - NS-2, National Security Division; Van A. Harp, Section Chief, Personnel Administration and Benefit Section, Personnel Division; [redacted] Deputy Section Chief, Terrorism and Violent Crimes Section, Criminal Division, USDOJ; [redacted] Unit Chief, Firearms Training Unit, Training Division; [redacted] Unit Chief, Undercover and Sensitive Operations Unit, Public Corruption and Civil Rights Section, Criminal Investigative Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Firearms - Toolmarks Unit, Scientific Analysis Section, Laboratory Division; and [redacted] Supervisor, WMFO, met to discuss the above-captioned shooting incident. b6 b7C

(CONTINUED - OVER)

Memorandum from W. D. Thompson, III, to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
5/29/95
Baltimore Division

Synopsis of the Shooting Incident

Based on a request from the Metropolitan Police Department (MPD), Washington Metropolitan Field Office (WMFO), Squad C-21 (the Cold Case Squad), initiated an Interstate Transportation in Aid of Racketeering (ITAR)-Murder investigation. This request was based on two incidents that occurred in January 1995, where MPD officers were shot and wounded in unprovoked attacks while on duty in full uniform.

In April 1995, a Prince George's County Police Department (PGCPD) officer was shot and killed in an unprovoked attack as he sat in full uniform in his patrol car. During this incident, the officer's service weapon, a 9mm Beretta, was taken by the assailant. Two days later a subject was arrested by the PGCPD and charged with this matter.

On 5/18/95 [redacted] met with PGCPD detectives and provided information regarding her association with a subject named Ralph McLean. She indicated that for the past year she had a relationship with the subject during which time he had physically and sexually assaulted her. Based on this information, an arrest warrant was issued for Ralph McLean for assault. [redacted] also furnished information which linked Ralph McLean to the assaults on the MPD officers as well as the murder of the PGCPD officer.

Special Agents (SAs) of the WMFO initiated technical surveillance of McLean on 5/25/95. Early that evening, SAs of Squad C-21 and Special Operations Group (SOG) personnel met to distribute descriptive data about McLean and to establish a plan of action if McLean was located. Surveillance was discontinued that night and resumed in the early morning of 5/26/95. Information was obtained indicating that McLean was traveling south towards Richmond, Virginia. b6 b7C

An arrest warrant was issued in the District of Columbia for McLean on 5/27/95, for the assault on an MPD officer. During the day, McLean responded to a page by [redacted] and during the conversation he indicated that he thought she was cooperating with law enforcement authorities. The MPD assaults were profiled on "America's Most Wanted" on the same night; however, McLean's name was not mentioned. Subsequently, on the evening of 5/28/95, a television reporter related that an arrest warrant had been issued for McLean for shooting the MPD officers and that there was an

(CONTINUED - OVER)

outstanding PGCPD arrest warrant for the same individual that identified McLean's girlfriend as cooperating. b6 b7C

Technical coverage during the afternoon of 5/28/95, indicated that McLean was headed north towards the District of Columbia area. A PGCPD detective also notified a C-21 Squad SA that afternoon and advised that McLean had contacted [redacted] and wanted to meet her that evening. Based on this information, SOG, Squad C-21 SAs, and Technical Services Squad SAs held a meeting and were advised that McLean was to meet his girlfriend at a shopping mall, and they anticipated trying to arrest him in an open area while he was enroute to the meeting. If this did not work, plans were made to attempt to pinpoint McLean's location, surveil him to a safe area, and make the arrest. Plans included the fact that if McLean was determined to be stationary for the night, the SWAT would be activated and if a felony car stop was required, the SOG would handle that part.

During the evening, the PGCPD detective with [redacted] advised that a meeting was planned between McLean and [redacted] at a Virginia mall. The meeting area was later changed to the Beltway Plaza Mall in Greenbelt, Maryland. [redacted] had previously advised McLean that she had a friend in the Greenbelt area and that would be a good place to meet. It should be noted that [redacted] was being operated solely by PGCPD detectives and all conversations between [redacted] and McLean were being relayed to the SAs by those detectives. b6 b7C

At approximately 6:00 pm, an SA of C-21 notified the Southern Maryland Metropolitan Resident Agency (SMMRA) that McLean was in the area but that it was not anticipated that anything would occur in PG County. The SMMRA was advised at approximately 10:40 pm, that the meeting place had changed and that the Beltway Plaza Mall, the SMMRA's territory, would be used for the meeting. WMFO SAs arrived in the Greenbelt area at approximately 10:00 pm.

Throughout the evening, McLean and [redacted] continued conversations and at approximately 11:30 pm, in response to [redacted] page, McLean contacted [redacted] She advised him that she had not seen him in the parking area of the mall and McLean then advised [redacted] that he would meet her at the Shell Gas Station in the area. Based on this information, SOG SAs William Christian and [redacted] moved their vehicles to a parking lot at the Greenbelt Middle School in order to observe the gas station. Between 10:30 pm and 12:40 am, surveillance indicated numerous activations of b6 b7C

(CONTINUED - OVER)

McLean's cellular phone although the conversations were not long enough to pinpoint his location. However, it was determined that McLean was in the area of the Greenbelt Middle School and this information was broadcast to all units.

An officer of the Greenbelt City Police Department (GCPD) notified a fellow officer at approximately 12:40 am, of suspicious vehicles in the area of Greenbelt Road and Kenilworth Avenue. While patrolling the area, the GCPD officer observed SA Christian's vehicle in the parking lot of the school. The officer drove past SA Christian's vehicle to obtain registration information, turned around in the parking lot, and returned to the area of SA Christian's vehicle. SA Christian exited his vehicle, identified himself as an FBI SA, and asked the GCPD officer to leave the area and requested that other marked units be requested to keep clear of this area due to law enforcement presence conducting surveillance. Approximately 10 minutes after the officer departed the area, Ralph McLean approached SA Christian's vehicle from the operator's side and fired 16 shots with an M-11, killing SA Christian. SA Christian was armed with a 10mm Smith and Wesson, Model 1076 pistol which was still holstered, and a 9mm H&K MP-5 submachine gun which was not fired. He was wearing his ballistic vest at the time of the shooting. b6 b7C

While positioned in a surveillance van, SA [redacted] heard the automatic weapon fire, called for assistance, exited the van, and observed McLean running around the corner behind the school. An MPD officer who was hiding in shrubbery across the street in the vicinity of the Shell Station, also saw McLean fleeing and broadcast the direction of McLean's travel. McLean attempted to escape from the area of the school through a wooded area to get to his vehicle which was parked in an apartment complex nearby. The route was blocked by law enforcement officers who had quickly set up a perimeter. McLean fled west several hundred yards to the Beltway Plaza Mall parking lot. During this time, McLean made a diversionary 911 call and advised emergency personnel that the assailant of the police officer drove away from the area in a black Maxima.

An SMMRA SA saw McLean moving from one concrete pillar to another in the parking area of the plaza near a Caldor's Store and, by Bureau radio, requested assistance. McLean, who was hiding behind the wheels of a box trailer parked on the Caldor loading dock, fired on the responding police officers and SAs and they

(CONTINUED - OVER)

returned fire. A total of 43 rounds were fired, 31 by three PGCPD officers and 12 by three SAs. After receiving numerous non-fatal bullet wounds, McLean took his own life by shooting himself with the 9mm Beretta taken from the PGCPD officer who was killed in April 1995.

Observations and Recommendations of the SIRG

The SIRG reviewed the above synopsized incident with the intent to (1) evaluate the application of deadly force; (2) provide the Director with an evaluative analysis, observations, and recommendations for corrective actions from an operational standpoint (if any); (3) provide recommendations concerning training and/or safety issues and, (4) provide recommendations for administrative action if deemed necessary.

The SIRG concluded that no FBI employees' actions contributed to or in any way could be construed to have been a causal factor in the tragic death of SA William Christian, Jr. The predisposition of his killer was well documented. Unfortunately, his last law enforcement victim was SA Christian whom he chose to cowardly ambush as he did his other law enforcement victims.

The events that immediately transpired following the shooting of SA Christian were found to be logical and appropriate given the circumstances faced by the law enforcement officers. The SIRG concluded that the three SAs who fired a total of 12 rounds either at the subject or at a disoriented police dog did so in compliance with the FBI's deadly force policy. The SIRG concluded that no administrative action was warranted for those three SAs and accordingly, none is recommended.

As documented in the report, the hunt for the subject Ralph McLean was intense, and highly technical equipment was used in tracking him. The Washington, D.C., MPD and the PGCPD both wanted McLean captured for assaults/killings of their own officers. The SIRG recognized the inherent problems in command and control of joint operations with local law enforcement agencies. Compounding the inherent problems was the PGCPD's refusal to allow the FBI direct access to the source being used to lure the subject into the area. The SIRG also noted that the Baltimore Division has responsibility for relations with the PGCPD and clearly has responsibility for any FBI enforcement actions occurring in its territory.

Report of: IIP [redacted] Office: FBIHQ
Date: March 3, 1994

Field Office File #: Bureau File #: 66-19157-21

Title: SHOOTING INCIDENT
INDIANAPOLIS, INDIANA
JANUARY 31, 1994

Character: ADMINISTRATIVE INQUIRY

Synopsis: [redacted] and [redacted] were suspects in 15 bank robberies which had been committed in the Indianapolis metropolitan area. In nine of those robberies, two black males had entered the victim bank, and in the other six of those robberies, only one black male had entered the victim bank. In all of the robberies, handguns had been displayed and ski masks had been worn by the robbers. One or more stolen GENERAL MOTORS cars had been used in each of the 15 bank robberies.

b6
b7C

Both [redacted] and [redacted] were known to have lengthy criminal records, including violent action against law enforcement officers. For example, on 11/30/93, [redacted] was stopped for questioning by Indianapolis Police, and attempted to ram a responding police vehicle with the vehicle he was driving. He fled on foot and was eventually arrested after wrestling with two police officers. During January, 1994 [redacted] was stopped by an Indianapolis Police Officer. Police reports revealed that [redacted] struck the officer in the head and body, then drove away dragging the officer alongside [redacted] vehicle. While dragging the officer, [redacted] grabbed a gun from the seat of his car and temporarily escaped.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

The Indianapolis FBI conceived a plan of action to acquire sufficient probable cause to charge and arrest [redacted] and [redacted] for one or more of the 15 bank robberies believed to have been committed by them or for any future crimes they may be found to have perpetrated.

Notice and general concepts of the plan were provided on 1/26/94 to representatives of the Indianapolis banking community, during a meeting hosted by the SAC and other agents at the Indianapolis FBI Office. Details of the plan were discussed and formulated on 1/28/94 at a meeting of representatives of the FBI, INDIANA STATE POLICE, INDIANAPOLIS POLICE, and MARION COUNTY SHERIFF'S OFFICE, which occurred at the INDIANA STATE POLICE Post 52 in Indianapolis. b6 b7C

The FBI was documented as the lead agency, and Case Agent/SWAT Leader [redacted] presented a written Operations Order/Warning Order to SAC WAYNE R. ALFORD. The plan was approved by SAC ALFORD, and on 1/31/94, a briefing for involved personnel took place at the INDIANAPOLIS STATE POLICE Post 52. This was an "ad hoc" group and not subject to formal memorandum of understanding. Copies of the Operations Order/Warning Order were given to participants. The stated purpose was to conduct a physical surveillance of [redacted] and [redacted] "to develop additional probable cause so as to be able to federally charge one or both suspects with a past or future armed robbery and gun violation."

The plan specified that a bank robbery would be prevented if at all possible and if a specific bank were known to have been targeted for robbery, but that vehicle thefts would not be immediately interdicted unless accompanied by physical assault upon a person/victim.

The planned surveillances were to be conducted from 10:00 a.m. to 3:00 p.m., 1/31/94 through 2/4/94, by two ground teams, supported by INDIANA STATE POLICE and FBI aircraft. Ground Team "A" was led by FBI SA [redacted] and was assigned coverage of WARD and primary responsibility for any necessary arrest(s). Ground Team "B" was led by FBI SA [redacted] and was assigned coverage of [redacted] b6 b7C

After an 8:00 a.m. briefing, 1/31/94, the surveillance was initiated by the following personnel:

Team "A"

SA [redacted] FBI
SA [redacted] FBI
SA [redacted] FBI
Corporal [redacted], MCSO
Detective [redacted] MCSO
Detective Sergeant [redacted] ISP
Lieutenant [redacted] IPD
Officer [redacted], ISP

b6
b7C

Team "B"

SA [redacted] FBI
SA [redacted] FBI
Officer [redacted] ISP
Master Trooper/Investigator [redacted] ISP
First Sergeant [redacted] ISP
Sergeant [redacted] PD
Sergeant [redacted], ISP
Detective Sergeant [redacted] ISP

ISP Aircraft

Master Trooper/Investigator [redacted] ISP, Observer
Sergeant [redacted] ISP, Pilot

FBI Aircraft

SA [redacted] Pilot
SA [redacted] Co-pilot/Observer

By agreement of the air crews, the ISP plane was assigned to provide air support from the initiation of surveillance until 1:00 p.m., and the FBI plane from 1:00 p.m. until termination. The FBI aircraft and crew, although airborne at 1:00 p.m., 1/31/94, did not take part in the surveillance.

The surveillance was initiated at approximately 10:00 a.m., 1/31/94; however, it was determined shortly after 10:00 a.m. that [redacted] and [redacted] were together at [redacted] residence. Thus, Team "A" and Team "B" joined at the latter location.

b6
b7C

Loose ground surveillance, augmented by intense air surveillance, revealed that [redacted] and [redacted] conducted, together, some apparently personal errands during the

morning of 1/31/94. However, later in the morning, both men were observed in a stolen, gold 1986 Oldsmobile, hereafter referred to as the Gold Olds.

From 11:35 a.m. until 12:19 p.m., [redacted] and [redacted] were observed, in the Gold Olds, to pass by eight different banks, the last of which was the UNION FEDERAL SAVINGS BANK, 6714 Rockville Road, the ultimate robbery target.

At 12:39 p.m., [redacted] and [redacted] entered the parking lot of BEN DAVIS HIGH SCHOOL, and there were observed stealing a blue 1985 Olds Cutlass, hereafter referred to as the Blue Olds. b6 b7C

At approximately this point, SA [redacted] joined the surveillance. He had been working in the Indianapolis Office, but upon hearing of [redacted] and [redacted] activities, departed the office because he believed [redacted] and [redacted] were going to commit a robbery.

At approximately 12:45 p.m., [redacted] and [redacted] placed the Gold Olds in a residential area about three-tenths of a mile north of the UNION FEDERAL SAVINGS BANK, with the hood up, emergency flashers on, and the engine running.

At or about 12:46 p.m., [redacted] and [redacted] drove through the parking lot of the UNION FEDERAL SAVINGS BANK in the Blue Olds, however continued to drive to the rear of a nearby KROGER FOOD STORE, where one of them exited the vehicle briefly.

It should be noted that, at this point in time, the involved law enforcement personnel believed that [redacted] and [redacted] intended to commit a robbery, but none was certain as to the location of the robbery--the KROGER FOOD STORE, UNION FEDERAL SAVINGS BANK, or some other bank which had been studied on 1/31/94. b6 b7C

The majority of the ground personnel took positions near the Gold Olds at Daisy Lane and Heather Drive, and a smaller contingent remained in the area of the UNION FEDERAL SAVINGS BANK. The engine of the Gold Olds was turned off, and ignition wires were pulled from its engine by ISP Officer [redacted]

[redacted] and [redacted] departed the area of the KROGER FOOD STORE and then drove through the residential area adjacent to the UNION FEDERAL SAVINGS BANK. At or about 1:07 p.m., [redacted] and [redacted] entered and robbed the

UNION FEDERAL SAVINGS BANK by display of handguns, completing same in about one minute.

The fact of the armed robbery was communicated to all of the law enforcement personnel by radio, and within a very short period of time [redacted] as driver, and [redacted] as passenger, arrived in the Blue Olds at the location of the Gold Olds.

Both [redacted] and [redacted] exited the Blue Olds, moved to or toward the Gold Olds, and [redacted] was observed by numerous officers to be carrying a handgun. Numerous Agents/Officers began to converge upon [redacted] and [redacted], identified themselves verbally and by wearing of raid jackets with respective law enforcement agency logos boldly displayed, and ordered both [redacted] and [redacted] to submit to arrest through phrases such as "get down," "freeze," etc. [redacted] and [redacted] ignored the commands and reentered the Blue Olds, both in the front seat, with [redacted] as driver and [redacted] as passenger. b6 b7C

ISP Officer [redacted] had driven his unmarked police vehicle to a position behind the Blue Olds, and exited his vehicle with his shotgun, ordering [redacted] and [redacted] to stop. [redacted] shifted the vehicle to reverse gear and backed toward Officer [redacted] at which time Officer [redacted] fired one round of #4 shot from his shotgun into the right rear tire of the Blue Olds. [redacted] shifted the Blue Olds into a forward gear, began spinning the tires on the icy road, and drove off the road into a yard.

While the subjects continued their escape attempt, SAs [redacted] and [redacted] respectively, fired MP-5 (9mm) and 12-gauge shotgun (rifled slug) at [redacted] and [redacted] While SAs [redacted] and [redacted] were firing at the passenger side of the vehicle, ISP Officer [redacted] fired several shots from his 9mm Beretta at the left rear tire of the Blue Olds. ISP Officer [redacted] then drove from the east and collided with the Blue Olds in an effort to stop the vehicle. b6 b7C

During this period of time [redacted] sustained all of his wounds. While the Blue Olds remained in the grass of the yard at Daisy Lane and Heather Drive, [redacted] exited or was pushed from the Blue Olds and was taken into custody.

[redacted] moved into the driver's seat and continued his flight, and ISP Officer [redacted] ran along the left side

of the Blue Olds, jumped over [redacted] on the ground, and continued firing his 9mm Beretta into the driver's side area of the vehicle until his weapon was empty.

[redacted] was able to push ISP Officer [redacted] vehicle to the side and reenter Daisy Lane. As [redacted] began to move east on Daisy Lane, SA [redacted] fired a second rifled slug through the rear window of the Blue Olds at [redacted] SA [redacted] also fired additional rounds from his MP-5 at the rear of the Blue Olds.

b6
b7C

As the Blue Olds proceeded east on Daisy Lane, ISP Officer [redacted] also fired three 9mm rounds at the rear of the vehicle.

After the Blue Olds had traveled about one-half block east on Daisy Lane from Heather Drive, ISP Officer [redacted] drove west on Daisy Lane, directly at the Blue Olds, causing the Blue Olds to veer right or south and through a yard. At that point, ISP Officer [redacted] fired three 9mm rounds at the driver's side of the vehicle. These were the last shots fired. A short vehicle and foot pursuit ensued and resulted in [redacted] arrest.

A .38-caliber revolver, all of the money taken in the robbery, as well as a .380 Walther semiauto pistol were recovered at the scene of the original altercation with [redacted] and [redacted] The .38-caliber revolver was found on [redacted] person, and the .380 Walther was apparently dropped by [redacted] at or after the point at which he reentered the Blue Olds.

Six law enforcement officers fired their weapons in their efforts to apprehend [redacted] and [redacted] as follows:

| Name | Weapon | Caliber | Estimated Rounds Shot |
|---|---|---|---|
| [redacted] (ISP) (Heather Drive/Daisy Lane) | 12G/Shotgun | #4 shot | 1 |
| [redacted] (FBI) (Heather Drive/Daisy Lane) | 12G/Shotgun | Rifled Slug | 2 |
| [redacted] (FBI) (Heather Drive/Daisy Lane) | H&K MP5/SF | 147/HP 9mm | 18-20 |
| [redacted] (ISP) (Heather Drive/Daisy Lane) | Beretta | 9mm | 15-16 |

b6
b7C

[redacted] (ISP) Beretta 9mm 3
(Heather Drive/Daisy Lane)

[redacted] (ISP) Beretta 9mm 3
(Daisy Lane/Bauman Avenue)

Estimated total rounds fired:

| | | |
|---|---|---|
| (ISP) | Shotgun | 1 - #4 Shot |
| (FBI) | Shotgun | 2 - Rifled Slug |
| (FBI) | H&K MP5/SF | 18-20 - 9mm 147/HP |
| (ISP) | Beretta | 21-22 - 9mm |

Total Rounds: 42-45

b6
b7C

As a result of the shots fired by law enforcement officers, the following wounds were inflicted:

[redacted]
- gunshot wound to right eye;
- gunshot wound to left upper back, which exited the left upper chest;
- gunshot wound to left wrist/forearm area.

[redacted]
- gunshot wound to mid-upper right arm;
- gunshot wound to left, upper back;
- gunshot wound to left shoulder area;
- gunshot wound to left hand.

No rounds were recovered intact from their bodies.

Throughout the week of 1/31-2/4/94, [redacted] and [redacted] were receiving a variety of medical care, surgically and otherwise, at WISHARD MEMORIAL HOSPITAL, Indianapolis, Indiana.

Both [redacted] and [redacted] were charged in authorized Federal complaints with violations of Title 18, U. S. Code, Sections 2113 and 924(c), for the 1/31/94 bank robbery and use of weapons in the commission of same. Both declined interview.

b6
b7C

Details of this incident will be reported as delineated in the table of contents.

SA [redacted]
NO INJURY
4/1/94
CLEVELAND DIVISION

b6
b7C

Character: ADMINISTRATION INQUIRY

Synopsis: SA [redacted] of the Cleveland Division of the FBI was involved in a Bureau automobile accident when struck brookside by a deer.

On April 1, 1994, SA [redacted] had met an informant at the latter's residence to debrief him while taking him to lunch. Subsequent to the debriefing at a local food vendor, SA [redacted] and his informant were returning to the informant's residence to drop him off before proceeding back to the office. While driving along Ohio State Rt. 322 at approximately 12:30 p.m. in the afternoon, SA [redacted] saw a deer running across the field along the road only moments before it impacted the driver's side of his car causing damage to the rear door panel and shattering the window glass. SA [redacted] maintained control of the vehicle and brought it to a complete stop on the shoulder of the road. He then doubled back to the point on the road that the deer had run into the car and observed the deer lying in the ditch on the side of the road, badly wounded. Fearing that the deer would somehow struggle back into the road and jeopardize the safety of other drivers and concerned about the pain and suffering the animal was in, SA [redacted] elected to dispatch the deer with one shot from his service pistol to the deer's head. There were no witnesses to the incident other than SA [redacted] informant. Thereafter, SA [redacted] contacted the

Bureau File #:

Narrative of Offense: The criminal investigation which initiated the pursuit, and ultimately the July 29, 1994 shooting incident, is entitled [redacted]; CHARTER ONE BANK, 6555 PEARL ROAD, PARMA HEIGHTS, OHIO; 7/9/94; BR(A); OO: CV", file number 91A-CV-51378. [redacted] is also a suspect in eight other bank robberies in the Cleveland, Ohio area. b6 b7C

At the time of the shooting incident on July 29, 1994, [redacted], date of birth: [redacted] FBI #: [redacted] had been charged with bank robbery, in violation of Title 18, Section 2113(a), United States Code, and a warrant was issued by United States Magistrate Judge Patricia A. Hemann on July 12, 1994.

Participating in the apprehension of [redacted] were members of the Cleveland/Cuyahoga County Fugitive Task Force (FTF), which included Federal Bureau of Investigation (FBI) Special Agent (SA) [redacted] SA [redacted] SA [redacted]; Sergeant [redacted] Cleveland Police Department; and Deputy Sheriff [redacted] Cuyahoga County Sheriff's Office; as well as FBI Supervisory Special Agent (SSA) [redacted] and FBI SA [redacted] Acting on investigative information as to the specific whereabouts of [redacted] at approximately 12:01 a.m., on July 29, 1994, the FTF, under the on-scene supervision of SSA [redacted] attempted to apprehend [redacted] at [redacted], South Euclid, Ohio. Upon meeting near the scene, a plan was developed and specific assignments were made. All personnel were wearing protective vests and raid jackets. [redacted] and [redacted] were assigned to search the house and SSA [redacted] and [redacted] covered the outside. The arresting team, after announcing themselves, entered the house in search of [redacted] Upon searching a bedroom, [redacted] observed [redacted] jumping out of a first floor window and escaping on foot. Sergeant [redacted] attempted to pursue [redacted] through the open window and accidentally discharged his shotgun. As [redacted] escaped on foot through the backyard, FBI b6 b7C

Agents and law enforcement personnel pursued him. SA [redacted] while running across Suffolk Street, tripped on the curb while attempting to holster his weapon and accidentally discharged two rounds from his Sig Sauer 9MM pistol. As the pursuit continued, [redacted] was running in very low light conditions, through backyards and over fences. At one point, SA [redacted] was behind [redacted] and observed him pause by a fence, holding what appeared to [redacted] to be a weapon. [redacted] shouted "FBI" and when [redacted] did not stop [redacted] shot one round from his S&W 10MM pistol. [redacted] jumped over the fence and [redacted] pursued him and tackled him to the ground. [redacted] strongly resisted and [redacted] was immediately assisted by SA [redacted] and the other members of the FTF. [redacted] was handcuffed and transported to the Cuyahoga County Jail. There were no injuries as a result of the four discharges and no apparent property damage. No weapon was found on or near [redacted].

Title: SHOOTING INCIDENT
BALTIMORE DIVISION/SMMRA
SEPTEMBER 2, 1994

Character: ADMINISTRATIVE INQUIRY

Synopsis: This administrative inquiry was initiated upon receipt of information from SA [redacted] on 9/2/94 at approximately 1:30 PM, wherein SA [redacted] stated that during an arrest of a subject believed to be armed and dangerous, she fired two rounds from her FBI issued weapon. SA [redacted] assigned to Safe Streets Squad in the Southern Maryland Metropolitan Resident Agency (SMMRA) and a member of the arresting party, was chasing a wanted subject on foot when she observed the subject reaching into his pants. SA [redacted] thinking that the subject was reaching for a gun and was about to turn and fire, fired two rounds at the subject. Both rounds missed the subject as both the agent and subject were running over uneven terrain. The subject was thereafter arrested after a brief foot chase.

66F-BA-84396

DETAILS:

The Baltimore Division, in the Southern Maryland Metropolitan Resident Agency, had been conducting a joint investigation with the Prince George's County Police Department under 92D-BA-76761 entitled Violent Drug Gangs in the Southern Maryland Metropolitan Territory; ITAR - VIOLENT CRIME; OO: BA, code named operation HORNET. The focus of this investigation was to bring pressure on open air on crack markets being operated in Prince George's County, Maryland in an attempt to gather intelligence about drug trafficking in the Suburban Counties boarding Washington, DC.

On August 25, 1994 a federal search warrant was served at a Prince George's County residence under that investigation, seeking cocaine and firearms. A subject later identified as [redacted] fled the scene on foot. Previous informant information had reflected that [redacted] was always armed with a small caliber pistol and that he would hide it in his waistband or crotch. Informant information also reflected that [redacted] had been involved in a drive by shooting in Prince George's County several weeks prior to the search. SA [redacted] determined that [redacted] was wanted on drug trafficking charges in the state of Virginia, and initiated a preliminary inquiry under the Unlawful Flight to Avoid Prosecution category.

On September 2, 1994 SA [redacted] a Maryland State Police Sergeant and two other Special Agents stopped a vehicle in which they believed [redacted] was riding. While the subject was being questioned, he broke and ran with the agents in pursuit. As [redacted] was running into a heavily wooded area SA [redacted] observed [redacted] reaching into his pants and believing that he was about to turn and fire a handgun, SA [redacted] fired two nine millimeter rounds at [redacted] from her FBI issued weapon. OTT was not hit, continued running for a short distance and was apprehended by other agents.

b6
b7C

The following interviews were conducted regarding this incident.

Report of: SSA [redacted] Office: SAN JUAN
Date: October 28, 1994

Field Office File #: 66F-HQ-19157 SUB 48H Bureau File #: 66F-HQ-19157

Title: SHOOTING INCIDENT
SAN JUAN DIVISION
8/31/94

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis: During the morning hours of 8/16/94, San Juan Special Agent (SA) [redacted] was the victim of an attempted robbery at his residence. SA [redacted] was the [redacted] of San Juan's "Golden Trash" investigation (272A-SJ-30700) into several major money laundering organizations operating in Puerto Rico and the Caribbean. The first phase of the takedown of this case was carried out on 8/16/94.

Investigation established that SA [redacted] was at his residence in Dorado, Puerto Rico, preparing to leave for work at the FBI Office. At approximately 7:30 a.m., SA [redacted] notified SA [redacted] that he had encountered problems with starting his Bucar, which was parked on the street in front of his residence. He opened the hood to look at the engine and determine what the problem might be. After opening the hood and deciding to wait for one of the local security guards to give him a battery jumpstart, SA [redacted] headed back toward his house and sat in the porch area. While he was sitting down, he was accosted by a masked man pointing a revolver at him. The gunman had arrived riding a bicycle. The gunman ordered SA [redacted] to open the house. SA [redacted] unarmed and fearing that once inside the house the gunman would kill him, told the gunman that he did live there, however, he was staying at the residence

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

while visiting the island. The gunman asked if there was someone else in the house and if SA [redacted] could get inside, to which SA [redacted] responded that there was nobody there, he could not open the house, and the house was alarmed and the alarm would go off it he or the gunman attempted to enter. SA [redacted] advised the subject that the residence was occupied by a lady, who had probably gone to the grocery store. The gunman then decided that they would both wait for her to arrive. He ordered SA [redacted] toward the far end of the porch which is located on one side of the residence and where they would not be visible from the street. The gunman held SA [redacted] there for approximately one and one-half hours during which SA [redacted] noticed a large tattoo of a woman on one of the gunman's calves and that he had a second large frame revolver tucked under his shirt. The mask worn by the gunman was of a gray color and from a sweatshirt-like material sewn at the top and with two holes cut for the eyes. The mask extended below the gunman's chin, and he apparently attempted to conceal his real voice by biting on a piece of the mask as he spoke. The gunman seemed very cautious and kept more than an arm's distance from SA [redacted] at all times. He also kept SA [redacted] seated while he stood most of the time.

b6
b7C

After approximately one and one-half hours of waiting, while he asked SA [redacted] if there were money and jewelry inside the house, the gunman ordered SA [redacted] to open the door, even if the alarm sounded, and told SA [redacted] that if the alarm sounded and SA [redacted] did not silence it, he would kill SA [redacted] SA [redacted] walked to the front door, whereby the gunman came close enough that SA [redacted] was able to shove the arm with the gun up and away from himself. As he did so, the gunman fired one shot into the air. SA [redacted] was able to get inside the house and close the door behind him, proceeding then to get his Bureau weapon and return to the front door. As he did so, SA [redacted] was yelling at the gunman and looking through the windows toward the area where the gunman had been but he saw no trace of the gunman. SA [redacted] then opened the front door expecting that the gunman would have fled the area. As he opened the door, SA [redacted] saw that the gunman was standing on the same spot where he had left him and saw that the gunman was raising his revolver toward him. SA [redacted] attempted to back away from the door at the same time that he raised his weapon and fired several shots at the gunman. SA [redacted] does not recall if the gunman fired any shots at

b6
b7C

this point. SA [redacted] fired approximately two shots from inside his residence before the gunman started to back away and two more shots outside but directly in front of his doorway. SA [redacted] then lost sight of the gunman. He retrieved another pistol magazine from inside the residence before pursuing the gunman. SA [redacted] saw the gunman again after running past three houses adjacent to his own to the edge of a golf course. The gunman, riding his bicycle, turned around and fired at SA [redacted] SA [redacted] returned fire, firing approximately four rounds. The gunman continued on his bicycle through the golf course until he was able to exit through a hole in the perimeter fence leading to a street and disappearing from view.

b6
b7C

Upon receiving notification of the incident described above, the Criminal Assistant Special Agent in Charge, the Acting Supervisory Special Agent and the Reactive Squad agents responded to the residence. Liaison was initiated with the Police of Puerto Rico (POPR) at the scene and potential witnesses were located. Several neighbors and golf players reported hearing shots and seeing the cyclist leaving the area. A neighborhood investigation conducted near the area where the subject exited the golf course into the adjacent neighborhood of Mameyal developed information that a man riding a bicycle had been seen in the area at the time in question. This man was known to have a large tattoo on one of his calves and had been arrested previously by POPR for burglary. Neighbors identified this individual by a street name of [redacted]" Local POPR officers located a police officer from the area who knew of an individual named [redacted] Further inquiries located the suspect's residence where the family was interviewed and consent to search the suspect's room was obtained. A gray sweat pant was located, which had been cut around the mid-thigh area with a section missing, that would fit the description of the material used to make the gunman's mask. The suspect was located at his grandparents' home a few blocks away where several items of clothing fitting SA [redacted] description of the clothing worn by the gunman were located after consent to search was obtained. SA [redacted] viewed a tattoo on the suspect's left calf which he identified as the same as that seen on the gunman. A short distance away, SAs located a minor who had loaned his bicycle to the suspect the previous night. The bicycle was located and it fit the one described by SA [redacted] in detail. POPR took possession of the bicycle.

b6
b7C

The facts of this matter were related to AUSA [redacted] who instructed that, given the circumstances and SA [redacted] recent UCA work, investigation should continue. b6 b7C

The POPR and local DA determined that they had enough information and material evidence to hold the subject until a lineup could be conducted on 9/1/94. He was held overnight at the Bayamon Detention Center. The subject had been released from jail approximately 17 days prior where he was serving time for armed robbery. Preliminary record checks indicate no federal criminal record; however, several arrests and convictions locally for armed robbery, threats and weapons violations were found.

Several latent prints were lifted at the scene and will be analyzed to determine if they belong to the subject.

The subject has refused to cooperate in this matter. While at the grandparents' residence, he attempted to convince the grandparents not to grant consent to search the residence before he was removed by POPR.

On 9/2/94, a criminal complaint was filed against subject. [redacted] was charged with violation of Title 18, U.S. Code, Section 111. On the same date, an arrest warrant was issued for [redacted] b6 b7C

On 9/1/94, agents of the POPR, Criminal Investigation Corps (CIC), Bayamon, Puerto Rico, charged [redacted] in the Tribunal Superior de Puerto, San Juan, Puerto Rico. He was charged with violating four separate laws related to the assault of SA [redacted] The local magistrate remanded [redacted] into the custody of the local marshals and held him on $80,000.00 bond. [redacted] was then incarcerated in the Bayamon Judicial Jail.

On 9/6/94, [redacted] was arrested by agents of the FBI. U.S. Magistrate ARENAS, San Juan, Puerto Rico, ordered that he be detained without bond until his scheduled 9/20/94 preliminary hearing.

Subsequent to the arrest and indictment of subject [redacted], SA [redacted] has stated that it is possible subject is not the one who assaulted him. As a result, AUSA [redacted] stated on 10/25/94 that he will contact the local prosecutor to determine if subject pleads out in local court, the federal charges will be dropped. b6 b7C

Field Office File #: 62-A-DL-71228 Bureau File #:

Title: SHOOTING INCIDENT INVOLVING [redacted]
SPECIAL AGENT (SA)
DALLAS DIVISION
12/10/94

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis: This inquiry concerns a discharge of a firearm by SA [redacted] when he was confronted by a charging rottweiler dog.

Enclosed for the Bureau is the documentation that has been prepared regarding this matter.

SAC, Dallas determined, based upon policy and the details of the circumstances regarding this shooting incident that SA [redacted] was justified in firing his Bureau issued pistol at the charging dog.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

DETAILS:

On the night of Saturday, December 10, 1994, SA [redacted] was babysitting his children and the children of a neighbor at the residence of his estranged wife. Upon the return of SA [redacted] wife, he left the residence to return to his own residence. As SA [redacted] was walking to his personal vehicle, he was charged by a neighbor's rottweiler dog. SA [redacted] fired at the charging dog one time, striking the dog in the front chest and causing the dog to run away. b6 b7C

Immediately after the shooting of the dog occurred, SA [redacted] called the Dallas Office of the Federal Bureau of Investigation (FBI) and asked the office personnel to contact SSA [redacted] and notify him of the incident. This was immediately accomplished.

On December 11, 1994, SA [redacted] submitted a memorandum to the SAC, Dallas, detailing the shooting incident.

On December 14, 1994, [redacted] the owner of the rottweiler dog that was shot by SA [redacted] was interviewed. He confirmed that on the night of December 10, 1994, his dog was loose in the neighborhood and had been shot in the front left chest. [redacted] advised that he had the dog examined by a veterinarian on the same night that he was shot and the veterinarian confirmed that the dog had been shot in the front left chest with the exit wound just behind the dog's left shoulder.

Interviews conducted of the neighborhood residents on December 14, 1994, December 15, 1994, and December 20, 1994 determined that no one actually witnessed the actual shooting, but several persons advised that they had seen the rottweiler dog of [redacted] running loose in the neighborhood on the night of December 10, 1994.

On December 14, 1994, an interview of [redacted] determined that she had seen the rottweiler dog on the night of December 10, 1994, in the immediate area of [redacted] residence. Even though she did not witness the actual shooting, she saw the dog immediately prior to the shooting in an area where it could have confronted persons leaving from the front of the residence of [redacted] residence. b6 b7C

On December 20, 1994, an interview was conducted with [redacted] a neighbor of [redacted] She advised that she had previously seen [redacted] rottweiler dog chase a young boy and it is her opinion that the dog would have caused bodily harm to the boy had the dog not hooked its dragging chain around an object.

Therefore, based on the fact that SA [redacted] was confronted by a charging rottweiler dog, placing him in fear of

grievous bodily harm, he was justified in drawing his Bureau issued pistol and firing one time at the dog, striking the dog and causing the dog to run away, thus eliminating the threat to SA [redacted]

Title: SHOOTING INCIDENT
LOS ANGELES DIVISION
OCTOBER 13, 1994
ADMINISTRATIVE INQUIRY

b6
b7C

Character:

Synopsis: The events which led to this shooting incident began at approximately 12:30 am on 10/13/94 when [redacted] the 22 year old son of wealthy businesswoman, Mrs. [redacted] was abducted from his Riverside, California, residence by unknown individuals. Approximately 11 hours later, Mrs. [redacted] received a telephone call from her son and he stated that he was being held for a $300,000 ransom. Mrs. [redacted] subsequently contacted the Riverside Resident Agency (RIVRA) of the Los Angeles FBI and a kidnapping investigation was initiated.

Subsequent investigation confirmed that the victim, had in fact, been abducted from his residence and in a telephone call to his mother at 11:24 am on 10/13/94, [redacted] delayed the kidnappers' demands for a $300,000 ransom and told her that she would be contacted again at her residence that evening at 10:00 pm.

The Los Angeles Office kidnapping plan was activated and Assistant Special Agent in Charge (ASAC) RONALD L. IDEN, Associate SAC KATHLEEN MCCHESNEY and SAC CHARLIE J. PARSONS were notified. ASAC IDEN and Supervisory Senior Resident Agent [redacted] agreed that Special Operations Group (SOG) support would be provided, technical assistance, e.g., [redacted] and [redacted] trap/traces, pen register, etc., would be furnished and additional SA personnel would be deployed to the RIVRA. Mrs. [redacted] was

b7E
b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

instructed by SAs to tell the 10:00 pm caller that she was attempting to obtain the money and to call back the next day. On 10/12/94, an emergency Title III was obtained for [redacted] which had been utilized by the abductors, and a trap and trace was placed on [redacted]

At approximately 10:00 pm on 10/12/94, Mrs. [redacted] received a telephone call from an unidentified male who told her that the ransom should be paid on the next day and when she would be contacted with instructions between noon and 1:00 pm on 10/13/94.

[redacted] b3 b6 b7C

ASAC IDEN arrived at the RIVRA during the morning of 10/13/94 and met with SSRA [redacted] and SOG SSA [redacted] to devise a tentative operational plan.

At approximately 12:25 pm on 10/13/94, the victim telephoned his mother regarding the ransom money and he was told to call back in an hour. At approximately 1:15 pm, [redacted] called and relayed the kidnappers' instructions for the mother to take the money to a specific outside pay phone located at the Moreno Valley Shopping Center between 7:00 to 8:00 pm that evening, and await a call for additional instructions.

At approximately 6:00 pm on 10/13/94, SAC CHARLIE J. PARSONS, arrived at the RIVRA to assume on-scene command, and a final operational plan was drawn up.

Surveillance coverage of the public telephone at the Moreno Valley Mall would be furnished by 4 SOG teams, consisting of 24 SAs operating approximately 20 vehicles, with air support. b7E A drop package containing $300,000 in marked money, at [redacted] and a [redacted] had been prepared. It was recognized that due to the shopping center's layout, the access to freeways, as well as the semi-rural setting, it might prove difficult to follow the package and the subject, if the drop occurred at the shopping center. Accordingly, SAC PARSONS instructed that the SOG should follow the subject, but that he should be apprehended if there was the slightest chance that he might elude them. SAC PARSONS also made clear at this meeting that the decision whether to follow or arrest the subject would be made by SOG SSA [redacted] b6 b7C

At approximately 7:30 pm SAC PARSONS contacted SSA [redacted] on his cellular phone to again emphasize that SSA [redacted] was the agent designated "to make the call" to either follow or arrest the subject. SAC PARSONS stressed to SSA [redacted] that if he had any doubt as to the SOG's ability to follow this subject out of the area without losing him, that the subject should be stopped.

The surveillance plan provided that 1 SOG team would escort the mother to the bank for the ransom money, 2 SOG teams would assume primary surveillance of the mother from the bank and at the shopping center, and the last SOG team would serve as reserve or outer perimeter coverage.

SA [redacted], was hidden in the rear seat area of Mrs. [redacted] vehicle and was instructed to radio information to the SOG units after Mrs. [redacted] spoke with the kidnappers. At approximately 6:00 pm Mrs. [redacted] arrived at the mall and received a telephone call at the pay telephone. Upon her return to her vehicle, she informed SA [redacted] that the subject on the phone told her that she was to give the money to a man on a motorcycle wearing a white helmet, that he would come up to her for the ransom. She told the subject on the phone that the motorcyclist should go to the passenger side of the car as the money was heavy. b6 b7C

SA [redacted] told Mrs. [redacted] to make sure the motorcyclist went to the passenger side to prevent him from seeing SA [redacted] SA [redacted] relayed the SOG units that Mrs. [redacted] was to meet the subject on the motorcycle at the Great Western Bank. Mrs. [redacted] then stopped her vehicle in a parking area between the Great Western and the Wells Fargo Banks. As Mrs. [redacted] exited her vehicle she became entangled in her seatbelt and it took a little time to unhook herself. She walked around the vehicle to open the passenger door and pick up the bag of money; however, the passenger side was still locked. Mrs. [redacted] returned to the driver's side, picked up her car keys and again began to open the passenger side door. Apparently, Mrs. [redacted] movements made the motorcyclist suspicious and he drove from the parking area without making direct contact with her.

At this time SOG SA [redacted] began moving toward the Wells Fargo Bank and drove into the shopping center parking lot. As SA [redacted] drove past the banks, he observed the motorcyclist within several feet of the driver's side of Mrs. [redacted] vehicle and it appeared to him that the subject was talking to Mrs. [redacted] When SA [redacted] noted that the motorcyclist adjusted a bag on his shoulder, he radioed "He's got the bag. Are we going to take him?" SBA [redacted] responded that the subject should be arrested to prevent him from leaving the scene. b6 b7C

The motorcycle was now exiting the mall and stopped at a red traffic signal at Center Point Drive. SOG SA [redacted] who was also stationed in the vicinity of the Great Western Bank, heard the radio transmissions of SBA [redacted] and SA [redacted] and he pulled in behind the motorcycle, which was stopped at the red traffic light. At this time, SA [redacted] requested SA [redacted] to drive in front and block the motorcycle from exiting onto Center Point Drive. As SA [redacted] executed this

maneuver, SA [redacted] pulled behind the motorcycle, "nudged" it with his vehicle and the motorcyclist fell to the ground. Both SAs had expected the subject to remain on the ground; however, as they exited their vehicles, he began to run east on the curb along Center Point Drive. When SA [redacted] yelled "FBI, halt or I'll shoot", the subject turned towards him and although SA [redacted] "could not clearly see the subject's hands", he believed "they appeared to be reaching for something in the bag". SA [redacted] fired one shot from his 9mm Sig Sauer pistol and missed. SA [redacted] had now joined in the foot chase and although he does not recall seeing SA [redacted] he heard the command and the shot but did not know who had fired. SA [redacted] ran down Center Point Drive and yelled for the subject to stop and fired two shots from his 9mm Sig Sauer pistol which missed the subject. As the subject continued to run along Center Point Drive, SOG SA [redacted] attempted to drive in front of him and block his escape but he dodged around [redacted] vehicle and continued his flight.

b6
b7C

SOG SA [redacted] had stationed nearby on Frederick Street when he heard SSA [redacted] give the arrest command. As SA [redacted] drove onto Center Point into the westbound lane, he observed the chase and heard the shots. Because of the traffic median, SA [redacted] could not block the subject. SA [redacted] stopped his vehicle, pulled his Bureau issue Remington 870 shotgun from the roof mount and exited his vehicle.

SA [redacted] ran after the subject and commanded him to halt but the subject continued to run. SA [redacted] then fired one round of 00-buck and the subject immediately dropped to the ground. The subject was not wounded and was immediately taken into custody. When questioned at the scene, the subject, subsequently identified as [redacted] stated that he did not have the money but then denied involvement in the extortion and refused to answer any additional questions.

Upon SAC PARSON's arrival at the scene, he determined that although shots had been fired, there were no injuries and one subject was in custody. SAC PARSONS ordered the Los Angeles Shooting Team to be dispatched to the Moreno Valley Mall to process the crime scene. The photographs and other information initially obtained by the Los Angeles Office Shooting Team were subsequently turned over to the Shooting Incident Review Team from FBIHQ.

Additional investigation conducted by the Los Angeles Division resulted in the release of [redacted] and the arrest of [redacted] (brother of [redacted]), and [redacted]. All four subjects were charged with Violation of Title 18, U.S. Code Section 1951-Conspiracy to Obstruct and or Delay Interstate Commerce by Means of Extortion.

b6
b7C

A review of criminal history records for the four subjects disclosed that [redacted] has a criminal history dating to 7/24/93, regarding drug violations; [redacted] has no prior criminal history; and [redacted], has a criminal history dating to 9/8/88, for firearms violations.

Memorandum from D. R. Knowlton to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
11/21/94
New York Division

**DETAILS:** On 7/18/95, the SIRG, consisting of Chairman David R. Knowlton, Acting Chief Inspector, Office of Inspections, Inspection Division; [redacted] Unit Chief, Investigative Law Unit, Legal Advice and Training Section, Office of the General Counsel; [redacted] Unit Chief, Undercover and Sensitive Operations Unit, Public Corruption and Civil Rights Section, Criminal Investigative Division; Robert S. Conforti, Section Chief, Violent Crime and Major Offenders Section, Criminal Investigative Division; John Danna, Supervisory Special Agent, Washington Metropolitan Field Office; [redacted] Unit Chief, NS-2-D, Global Section, National Security Division; [redacted] Unit Chief, Quantico - Firearms Training Unit, Training Division, and Edward R. Leary, Section Chief, Personnel Management Section, Personnel Division, met to discuss the above-captioned shooting. b6 b7C

## Synopsis of the Shooting Incident

On November 21, 1994, SA [redacted] who was scheduled to work a 2:00 pm to 10:00 pm shift at the FBI Office in Manhattan, boarded a subway train to Manhattan. While on the train, he observed a passenger walking from the rear area of the car to the front area of the car displaying a sheathed long knife on his right hip. The passenger was muttering to himself, holding the handle of the knife in plain view, and continually pacing back and forth. SA [redacted] decided action needed to be taken fearing that the passenger might injure him or other passengers on the car. SA [redacted] stood, walked one or two steps away from the subject, drew his weapon, and pivoted to face the passenger and advised that he was a police officer. The passenger started to draw the knife from the sheath and charged towards SA [redacted] Fearing for his life, SA [redacted] fired one shot at the subject causing the subject to fall to the floor, face down, while losing control of the knife. On arrival at the first Manhattan stop, SA [redacted] requested that another passenger notify the conductor and subsequently asked the conductor to notify the Transit Police and Emergency Medical Services. The Transit Police arrived and took custody of the subject. All witnesses interviewed corroborated SA [redacted] account of the events. b6 b7C

## Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the report dated 1/6/95, revealed that proper procedures were followed by SA [redacted] during this shooting

b6
b7C

incident. SA [redacted] fired his weapon while fearing for his life as well as other passengers on the subway car.

After a thorough review of the facts regarding this incident, it is the opinion of the SIRG that no administrative action should be taken against SA [redacted] as a result of his involvement in this shooting incident.

Title: [redacted]
EL PASO DIVISION SHOOTING INCIDENT 3/15/95

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis:

DETAILS:

During the arrest of [redacted] in El Paso, Texas, Special Agent (SA) [redacted] discharged her weapon, on March 15, 1995. The following is a summary of events surrounding this incident:

On March 14, 1995, SA [redacted] briefed the agents of Squad 3, El Paso Division, on current data collected regarding the potential whereabouts of [redacted] and agents were briefed on [redacted] history of violence. SA [redacted] and SSA [redacted] briefed these agents that [redacted] was wanted for Capital Murder and Attempted Capital Murder from the state of Virginia. All agents were warned that [redacted] was considered armed and dangerous; a flight risk; and agents were not to take any chances during a confrontation with [redacted] Several agents of the El Paso Division of the FBI were assigned to conduct surveillance of a business location where [redacted] was suspected to patronize on March 15, 1995. SAs [redacted] and [redacted] were members of the surveillance team in the morning hours of March 15, 1995.

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

At approximately 9:00 am on March 15, 1995, SAs [redacted] and [redacted] received a message that [redacted] picked up money from a WESTERN UNION, 2310 N. Mesa Street, El Paso, Texas at 8:47 am. [redacted] was last reported to be walking south on Mesa Street. All four agents left their original surveillance site and proceeded to the vicinity of 2310 N. Mesa Street. SAs [redacted] and [redacted] located [redacted] at a telephone located on the corner of Nevada and Stanton Streets. When SAs [redacted] and [redacted] parked their vehicle, [redacted] started to run east on Nevada Street. SAs [redacted] and [redacted] gave chase. SA [redacted] yelled for [redacted] to stop, at which time he turned toward the agents. SA [redacted] fell in the middle of the street and SA [redacted] thought [redacted] shot SA [redacted]. SA [redacted] immediately drew her weapon and fired one shot at [redacted] while running toward him. SA [redacted] jumped up and ran with SA [redacted] toward [redacted] escaped through a residential area and he cleared several tall chain link fences. Within a short period, EL PASO POLICE DEPARTMENT (EPPD) was contacted for assistance in the apprehension of [redacted] was located and arrested by EPPD in a dumpster located on California Street. [redacted] was not impacted by SA [redacted] shot and no other point of impact could be located. No weapon could be located for [redacted] in the vicinity of his arrest and chase.

b6
b7C

-P-

ADMINISTRATIVE:

SAC El Paso recommends no action against SA [redacted] for discharge of her weapon. At the time of [redacted] arrest, all agents were warned that [redacted] was armed and dangerous with the potential for a hostile arrest. Additionally, no injuries were sustained during this incident.

Title: SHOOTING INCIDENT
NOVEMBER 22, 1984
WASHINGTON METROPOLITAN
FIELD OFFICES

Character: ADMINISTRATIVE INQUIRY

Synopsis:

On October 28, 1984, A/ASAC Kroger was committed in Washington, D.C. (WDC). During the ensuing investigation, the WDC Homicide Branch Detachment (MPD) [redacted] advised Kroger that [redacted] was a viable suspect.

On November 4, 1984, MPD homicide detectives interviewed [redacted] at the MPD headquarters (MPDHQ) building about his suspected involvement in the murders. The interview took place in an interview room that is located inside [redacted] During the course of the interview, [redacted] was allowed to use a locked bathroom [redacted] to prevent [redacted] from the homicide detectives. [redacted] a total of five hour interview, [redacted] and did so.

On November 13, 1984, [redacted] went to the third floor of the MPDHQ building [redacted] the Homicide Branch [redacted] approximately [redacted] as they were walking to the [redacted] in the CCTV in the [redacted] a [redacted] and his close friend, [redacted] were on their way to pick up a

voucher from a MPD detective, so that they would have money for the upcoming Thanksgiving holiday. LAWSON asked [redacted] for directions to the homicide office. [redacted] who understood homicide to mean the CCTF, indicated to LAWSON that he knew where the office was.

[redacted] and [redacted] then continued to walk to the CCTF office with LAWSON following them. As they passed the bathroom that is located across the hall from the Homicide Branch office, LAWSON asked whether they were passing the homicide office. LAWSON stated that he believed the office to be the homicide office, because he had been there before, and he also stated that he would go into the office to locate the way to the bathroom. At this time, [redacted] and [redacted] continued on towards the CCTF office and LAWSON, who is believed to have paused, followed behind them. While walking to the CCTF office, LAWSON advised [redacted] a matter that he had hidden under his shirt, and he stated, "This is going to shock."

b6
b7C

At approximately 3:15 p.m., the three males entered the CCTF office and passed SA GEORGE DIXON HARTMAN, who was seated at a desk in the main portion of the office. As they entered, [redacted] was ahead of [redacted] and LAWSON followed behind them. All three continued back to a partitioned-off, smaller area of the office, where MPD Sergeant (Sgt.) EDWARD J. DALY, SA [redacted] and SA MICHAEL JOHN HITSON were seated in a conversation. Sgt. DALY was seated behind a desk, SA [redacted] was seated on a couch to Sgt. DALY's left, and SA HITSON was [illegible] or near a computer terminal located behind a desk, across from Sgt. DALY.

[redacted] interrupted that conversation and started to talk to Sgt. DALY. At this time, LAWSON pulled the gun out from under his clothing and pointed it. LAWSON's gun was later determined to be a 9mm semi-automatic pistol Model M-11, which is known on the street as a "Mac-11". The gun has been specially modified to allow it to fire in the full automatic mode. As LAWSON fired the first shot, the projectile fired struck [redacted] on the left side of his face. [redacted] then ran into an adjoining interview room, closed the door, and dove over under a desk.

b6
b7C

LAWSON fired shot at Sgt. DALY, who was hit four times: once in the front of his right forearm; once in

the right portion of his rib cage with the bullet continuing through the right lung, the right pulmonary artery, and the aorta; once in the back, left side of his head; and once in the back, upper portion of his left arm.

LAWSON then turned to his left, toward where SA MILLER was. While turning, LAWSON fired two shots at [redacted], one bullet ricocheting off the floor and hit [redacted] in the right calf. [redacted] then entered the copy office and into an adjoining [redacted] where he was subdued by MMFO personnel. [redacted] was taken to the MMC General Hospital for treatment.

b6
b7C

LAWSON continued to his left and shot SA MILLER, who he did not see, [redacted] in the left side of his back, with the bullet continuing on to the back, and once in the left arm, with the bullet continuing on into his body, through the left lung, the heart, and the liver.

After shooting SA MILLER, LAWSON engaged SA [redacted] in a firefight, during which both men moved to opposite sides of the room. SA [redacted] was sitting on SA [redacted] when [redacted] shot SA [redacted] in the right upper [redacted] and one shot to the upper [redacted] which continued through the [redacted] heart, the liver, and into the left kidney. SA [redacted] also received a bullet wound to his right [redacted] grazed wounds. SA [redacted] momentarily lost consciousness and collapsed onto the floor as a result of his injuries.

b6
b7C

LAWSON then left the partitioned-off area of the office and returned to the [redacted] where SA MARTINEZ had been [redacted] SA MARTINEZ in a [redacted] shot twice in the [redacted] During the [redacted] SA MARTINEZ [redacted] causing [redacted] disabling [redacted] was hit [redacted] is believed [redacted] forearm and continued [redacted] through the heart, the [redacted] vena cava, and the right

lung. It is possible, however, unlikely, that the bullet caused the injury to the arm and a second bullet entered the chest.

SA MARTINEZ received a third wound that is believed to have been inflicted by her service weapon, and a fourth wound that was inflicted by her service weapon. These wounds are: a shot to the left side of her back and a shot to the right, front portion of the top of her head, respectively. Analysis of the crime scene suggests a scenario where SA MARTINEZ was shot in the arm and chest, she could no longer use her weapon and attempted to take the officer's, at this time, officer picked up SA MARTINEZ's weapon, shot her in the back, and then, from above, shot her in the head.

After shooting SA MARTINEZ, LARSON walked around a partition, back toward the area where Sgt. DALY, SA [redacted] and SA MILLER were. LARSON's body was later found just outside that area and it was determined that LARSON committed suicide by firing one contact shot, from SA MARTINEZ's weapon, into the right side of his head.

At this time, all remaining [redacted] personnel [redacted] office [redacted] [redacted] building [redacted] [redacted] [redacted] [redacted] then pulled SA [redacted] [redacted] MPD personnel were also [redacted] [redacted] was lying in front of the [redacted] and they pulled him out to the [redacted]. SA RUCKER was taken by [redacted] to the HUNTINGTON HOSPITAL CENTER (HHC), where he underwent trauma surgery. Sgt. DALY was flown by helicopter to [redacted], where he was pronounced dead on arrival.

b6
b7C

At the time that MPD personnel pulled Sgt. DALY and SA [redacted] [redacted] who was also in the [redacted] behind [redacted] [redacted] [redacted] [redacted]

directed out of the office and into the hallway. Efforts then turned to identifying others, who were still in the CCFF office. Pages were sent to SA MATTIMOE and SA MILLER, who both remained unaccounted for by their squad at WMFO. The agents' pagers could be heard by MPD personnel outside the office; however, neither agent responded. In this manner, it was determined that both agents appeared to still be in the CCFF office.

EMT personnel then saw SA MILLER laying on the floor behind a desk. Shortly thereafter, the EMT entered the office and found SA MATTIMOE, SA MILLER, and LAWSON unconscious. SA MATTIMOE and LAWSON were pronounced dead at the scene. SA MILLER was taken to the GEORGE WASHINGTON UNIVERSITY HOSPITAL by ambulance, where he was pronounced dead on arrival.

The crime scene was subsequently processed by the MPD Mobile Crime Unit and FBI agents from WMFO and FBI Headquarters. From the evidence collected, it was determined that SA [redacted] fired his weapon twelve times; that eight of nine rounds fired struck SA MATTIMOE's weapon; and that twelve rounds approximately twenty pounds from his weapon. SA MILLER and LAWSON, having not fired their weapons, [illegible]. All evidence was submitted to the FBI laboratory for analysis and crime scene interpretation.

Trauma surgery performed on SA [redacted] saved his life. SA [redacted] had one-third of his left kidney removed during initial surgery, and a steel rod was inserted into his right femur a few days later. SA [redacted] is expected to fully recover from his injuries.

A review of LAWSON's criminal history shows that he was arrested three times for [illegible] and once on gun charges. An FBI arrest record, dated September 30, 1980, shows that LAWSON was arrested along with four associates, including one [redacted] and one [redacted]. At the time of arrest, LAWSON and his associates were in possession of one bulletproof vest, one shotgun, a rifle, three pistols, a revolver, and fourteen cartridges of Teflon-coated ammunition. LAWSON was found guilty of the gun charges and subsequently served twenty-six months in prison. LAWSON was paroled on July 8, 1991.

b6
b7C

WMFO 667-HF-196703

A search warrant executed at Lemmon's residence after the shootout revealed writings that glorified the life of the supervisor and staff of the MPD Homicide Branch, and Explorer Unit glorified shooting officers and hanging police officers.

It should be noted that Lemmon's associates, [redacted] and [redacted] were [redacted] on February 27, 1995, [redacted] and [redacted] running a Fugitive [redacted] would have been charged in the murders. Investigation has determined that [redacted] and [redacted] were all members of the First and Kennedy Street Crew (gang) in WDC. WMFO has learned that [redacted] at two of the murder victims' funerals and [redacted] members of the gang believed that Lemmon was [redacted] when he was interviewed by the MPD. It is very possible that his actions were an attempt to eliminate ties with the gang. b6 b7C

The murder weapon used by Lemmon was an obliterated serial number [redacted] with the exception of one digit. [redacted] that the gun had been purchased [redacted] by one [redacted] in 1987. [redacted] on the MPD side, Detective [redacted] Homicide Branch, and [redacted] of the First and Kennedy Street Crew have been active both [redacted] and [redacted] were arrested on federal charges by the Fugitive Mobile Division and the BUREAU OF ALCOHOL, TOBACCO, AND FIREARMS on February 21, 1996.

[redacted]

[redacted] dated 3/11/94.

Title: [redacted]
SA [redacted] -VICTIM;
1/17/94

Character: SHOOTING INCIDENT-AFO

Synopsis: On January 17, 1994, at approximately 8:30pm, SA [redacted], was the victim of an attempted robbery. SA [redacted] had completed making a call from a public phone near a shopping center in Guaynabo, Puerto Rico, when he noticed a car approaching him slowly with its lights off. SA [redacted] continued walking towards his vehicle when the front seat passenger of the suspicious car announced "this is a robbery." SA [redacted] reacted by drawing his bureau issued pistol, a Smith & Wesson 10mm, model 1076, and fired at the assailant who had by now exited his vehicle. SA [redacted] fired at the assailant who reacted by attempting to flee in the vehicle. SA [redacted] continued to shoot at the suspect as he attempted to flee, in a vehicle SA [redacted] identified as a dark colored Datsun.

b6
b7C

SA [redacted] fearing that the assailants might return, immediately drove to his residence and called SSA [redacted] as well as the Police of Puerto Rico (POPR). Later that same evening, POPR Officers attempted to stop a vehicle (Datsun) traveling at a high rate of speed. The vehicle engaged the police in a high speed chase, but was eventually stopped. The POPR Officers found three subjects in the vehicle, two of which were injured. One suffered a gunshot wound to the jaw, the other was shot in his left hand. The vehicle also had 5 or 6 bullet

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

holes on the passenger side. All three subject were arrested, and identified as [redacted] and [redacted]

An interview of subject [redacted] was attempted with negative results. An interview of [redacted] however, resulted in a confession, wherein he implicated himself and the others in the robbery attempt. Subject [redacted] is a minor and was not interviewed.

b6
b7C

Interviews were obtained of the POPR Officers involved in the Felony car stop and subsequent arrest of the subjects. Immediately following the incident, SSA [redacted] notified the SAC as well as the ASAC, who was out of the Division but nevertheless called and apprised of the situation. At the request of the SAC, SSA [redacted] Duty Agent of the SIOC, FBIHQ, was called and apprised of the facts known at the time immediately following the incident.

A crime scene was conducted at the parking lot where the incident occurred, and six (6) FEDERAL 10mm shell casings were recovered. A bullet trajectory analysis was conducted on 1/29/94 of the vehicle involved with the assistance of the Laboratory Section, FBIHQ. All physical evidence obtained by the FBI has been appropriately handled and/or forwarded to the FBI Laboratory for examination.

On February 17, 1994, [redacted] and [redacted] were indicted by a Federal Grand Jury in San Juan, Puerto Rico, for Assault on a Federal Officer (AFO), Title 18 USC 111 (a) & 114. [redacted] is a minor and was not indicted at this time. However, it is anticipated that [redacted] will be indicted once his status as an adult is determined by the Court.

b6
b7C

On January 19, 1994, SSA [redacted] contacted SSA [redacted] Critical Incident/Peer Support Program Manager, Behavioral Sciences Unit, FBI Academy, to advise him of the incident and seek additional guidance relating to SA [redacted] needs as a result of this incident. SSA [redacted] scheduled SA [redacted] to attend the next critical incident Seminar during the week of April 11, 1994.

Title: SA [redacted]
ADMINISTRATIVE INQUIRY -
SHOOTING INCIDENT
ALBUQUERQUE DIVISION
JANUARY 26, 1994

Character: ADMINISTRATIVE INQUIRY

Synopsis: At approximately 6:00 p.m., dusk, on January 26, 1994, SA [redacted] Albuquerque Division, went to the residence of [redacted] NW, Albuquerque, New Mexico, in order to conduct an interview in conjunction with a bank robbery investigation. SA [redacted] had previously called the residence to set up an appointment for the interview. As he approached the house, he noticed a "Beware of Dog" sign on the front door of the residence, but did not notice any dog in the vicinity of the residence. After knocking, a dog began barking. SA [redacted] noticed the dog rise and began to run toward him barking. SA [redacted] stepped away from the dog and drew his service pistol and shot the dog once in the head when he was within striking distance.

b6
b7C

Interview of the dog's owner revealed that the dog is usually tethered; however, on the date of this incident, he had let the dog out after feeding him, without chaining him. The resident of the house where SA [redacted] was to conduct his interview, the grandmother of the dog owner, advised that she ran through the house to let the agent in when she heard the dog barking.

SA [redacted] assisted the dog owner in getting veterinary care of the injured canine.

Memorandum from [redacted] to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
1/17/94
San Juan Division

DETAILS: On 3/17/94, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Deputy Assistant Director Joseph C. Johnson, Office of Professional Responsibility, Inspection Division; Assistant Section Chief [redacted] Global Section, National Security Division; Unit Chief [redacted] Position Classification Unit, Personnel Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Unit Chief [redacted] Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted], met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

At approximately 8:30 p.m., on 1/17/94, SA [redacted] had just completed making a call from a public phone located outside a shopping center in Guaynabo, Puerto Rico. As he was returning to his personally-owned automobile, SA [redacted] noticed a suspicious-looking car with three occupants slowly approaching him. As the car came even with him, the occupant of the front passenger seat stated to SA [redacted] "This is a robbery." The subject then exited the vehicle. SA [redacted] drew his Smith & Wesson 10mm, model 1076, and fired at the subject. The subject then got back into the vehicle and the vehicle and its three occupants sped away. SA [redacted] continued to fire shots at the vehicle as it fled. b6 b7C

SA [redacted] reported the incident to officials of the San Juan Division as well as to the local police. A short time later, SA [redacted] was contacted by the Police of Puerto Rico, who advised that they had arrested three individuals in a car fitting the description of the vehicle described by SA [redacted] as having been used in the attempted robbery. SA [redacted] identified the vehicle as the one which approached him near the shopping center. Two of the subjects have been indicted by a Federal grand jury in San Juan, Puerto Rico, for Assault on a Federal Officer (Title 18, USC, Sections 111(a) and 114. One of those subjects admitted that at the time of the attempted robbery they had a handgun; however, they subsequently discarded that weapon after the failed robbery attempt. It is anticipated that the third subject will be indicted once his status as an adult is determined by the court.

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 2/17/94, revealed that proper procedures were followed by SA [redacted] during this incident. SA [redacted] fired his weapon after an attempted robbery in which at least one suspect had a weapon.

After a thorough review of all the facts regarding this incident, it was the unanimous opinion of all members of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in the above-captioned shooting incident.

Re: Administrative Inquiry
Shooting Incident
1/26/94
Albuquerque Division

DETAILS: On 3/17/94, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Deputy Assistant Director Joseph C. Johnson, Office of Professional Responsibility, Inspection Division; Assistant Section Chief [redacted] Global Section, National Security Division; Unit Chief [redacted] Position Classification Unit, Personnel Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Unit Chief [redacted] Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting.

b6
b7C

Synopsis of the Shooting Incident

On 1/26/94, SA [redacted] went to the residence of [redacted] in order to interview [redacted] regarding a recent bank robbery. [redacted] mother had reportedly attempted to exchange some burnt currency for new currency, which raised suspicion as to whether or not the money could have been burnt by an exploding dye pack. As SA [redacted] neared the residence, he noticed a "Beware of the Dog" sign on the front door; however, he did not see a dog. When he knocked on the door, a dog began to bark and ran towards him. SA [redacted] drew his weapon, and the dog continued to approach. When the dog was approximately two feet away, SA [redacted] fired one shot at the dog, which hit the animal in the head. The dog then turned and ran away.

The dog's owner, [redacted] then came out of the house. He and SA [redacted] took the dog for veterinary treatment. SA [redacted] apparently fired his weapon believing that the dog was about to attack him.

b6
b7C

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 2/3/94, revealed that proper procedures were followed by SA [redacted] during this incident. SA [redacted] fired his weapon believing that his life was in danger because of the dog which was coming toward him.

Memorandum from [redacted] to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
1/31/94
Indianapolis Division

DETAILS: On 3/17/94, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Deputy Assistant Director Joseph C. Johnson, Office of Professional Responsibility, Inspection Division; Assistant Section Chief [redacted] Global Section, National Security Division; Unit Chief [redacted] Position Classification Unit, Personnel Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Unit Chief [redacted] Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting.

b6
b7C

Synopsis of the Shooting Incident

On 1/31/94, Agents of the Indianapolis Division, along with state and local police, were involved in the surveillance of two bank robbery subjects who were believed to be responsible for at least 15 bank robberies in the Indianapolis area. The two subjects, [redacted] and [redacted] came under suspicion after a bank received some cash which had been sprayed with a "dye pack" and this discolored money was traced to one of the subjects. A plan was formulated, which called for a one-week surveillance of [redacted] and [redacted] The Agents and police officers who were to participate in the surveillance were briefed and given an operations plan prior to the initiation of the surveillance. On 1/31/94, the surveillance began. [redacted] and [redacted] were seen driving a gold Oldsmobile which had been reported stolen. Shortly thereafter, they were seen stealing a second car, a dark blue Oldsmobile, from a high school parking lot. Their general modus operandi during previous robberies had been to use stolen cars, with one being parked near the target bank and used as a "switch" car after the robbery. When [redacted] and [redacted] were seen parking the gold Oldsmobile along the side of a road near several banks, it was believed that they were about to commit a robbery. They were then seen driving the blue Oldsmobile to the Union Federal Savings Bank. At this point, several Agents and officers stationed themselves near the gold Oldsmobile, believing that [redacted] and [redacted] would return there. [redacted] and [redacted] robbed the Union Federal Savings Bank, fled in the blue Oldsmobile, and returned to where the gold Oldsmobile was parked. They exited the blue Oldsmobile and headed for the gold Oldsmobile. At that time, Agents and officers yelled at the

b6
b7C

(Continued - Over)

b6
b7C

two to freeze and identified themselves as law enforcement officers. The two subjects got back into the blue Oldsmobile and attempted to flee. During this time, the two tried to use their vehicle as a weapon and backed toward the officers and Agents. SAs [redacted] and [redacted] both fired shots at the subjects as the subjects were backing up their vehicle towards the Agents. The subjects eventually ran off the road and collided with a surveillance vehicle. Both subjects were injured by the gunfire; however, both survived their injuries. They were transported to a hospital and were both subsequently charged with bank robbery.

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 3/3/94, revealed that proper procedures were followed by SA [redacted] and SA [redacted] Both fired their weapons in order to protect their own lives, as well as the lives of their fellow officers and the civilian public.

b6
b7C

After a thorough review of all the facts regarding this incident, it was the unanimous opinion of all members of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in the above-captioned shooting incident.

Memorandum from [redacted] to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
2/1/94
Los Angeles Division

DETAILS: On 3/17/94, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Deputy Assistant Director Joseph C. Johnson, Office of Professional Responsibility, Inspection Division; Assistant Section Chief [redacted] Global Section, National Security Division; Unit Chief [redacted] Position Classification Unit, Personnel Division; Unit Chief [redacted], Investigative Law Unit, Legal Counsel Division; Unit Chief [redacted], Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting.

b6
b7C

Synopsis of the Shooting Incident

At approximately 7:30 on the morning of 2/1/94, several Agents of the Los Angeles Division, including SSA [redacted] and SA [redacted] met to formulate a plan for effecting the arrest of [redacted] a Federal fugitive wanted for murder. A plan was set, and preliminary assignments were made by SA [redacted] Surveillance was then set up in the area around [redacted] apartment. The plan called for the arrest of [redacted] whenever he departed the residence. Around 9:30 a.m., [redacted] exited the apartment for a brief amount of time, then went back inside. At that time, final assignments were issued, which called for the arrest of [redacted] the next time he exited the apartment. A short time later, [redacted] again came outside. The command to arrest him was then given, and Agents approached [redacted] while identifying themselves and ordering him to stop. [redacted] began to flee in a southerly direction toward where SSA [redacted] and SA [redacted] were located. SA [redacted] began to pursue [redacted] on foot, as he ran through back yards and jumped over several block fences. SSA [redacted] also set off in pursuit. At one point, while SA [redacted] was jumping over a fence, SSA [redacted] saw [redacted] stop and turn back towards SA [redacted] SSA [redacted] at that point thought that [redacted] was going to fire at SA [redacted] SSA [redacted] then fired two shots at [redacted] from his Bureau shotgun. [redacted] continued to flee and evaded the Agents. [redacted] was arrested later that morning with the assistance of a Los Angeles Police Department canine unit.

Memorandum from [redacted] to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
1/13/94
Jackson Division

DETAILS: On 3/17/94, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Deputy Assistant Director Joseph C. Johnson, Office of Professional Responsibility, Inspection Division; Assistant Section Chief [redacted] Global Section, National Security Division; Unit Chief [redacted] Position Classification Unit, Personnel Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Unit Chief [redacted] Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

On 1/13/94, the Jackson Division learned of a kidnapping incident involving three members of the [redacted] family. [redacted] his wife [redacted] and his daughter [redacted] were taken hostage inside their residence on the evening of 1/12/94 by a subject later identified as Kenneth Fay Neal. Neal demanded that the family pay him $750,000 or he would kill [redacted] On the morning of 1/13/94, [redacted] made the necessary telephone calls to have $750,000 wired to his bank account in Jackson. Neal took [redacted] in one of the family's cars, while [redacted] and [redacted] went in another car to the bank to pick up the money. Neal kept in phone contact with [redacted] by using the cellular phones in both cars.

While [redacted] and [redacted] were in the bank picking up the cash, bank officials questioned why such a large amount of cash was needed. [redacted] told them that her husband had been kidnapped and she needed the money for a ransom payment. The bank officials then contacted the Jackson Division. Jackson immediately sent Agents to the bank. Arrangements were made to have an Agent ride in the back floor of Mrs. [redacted] car when she went to deliver the ransom. Neal contacted Mrs. [redacted] via the cellular phone and instructed her where to meet him to deliver the ransom. The payment was made, and [redacted] and [redacted] were instructed to return home and wait for Mr. [redacted] release. Neal drove around for approximately 30-45 minutes with Mr. [redacted] still in the car. He then stopped, made a telephone call, and proceeded to the parking lot of a local convenience b6 b7C

(Continued - Over)

store. A woman was waiting for him there in another car. Neal exited his vehicle, placed the bags of money in the other car, and started to get in the car with the woman. Agents who had been following Neal yelled at Neal to freeze, and identified themselves as FBI Agents. Neal started to run, then stopped and pulled a weapon from his waistband. He fired one shot at SA [redacted] who was approximately seven feet away. The shot missed [redacted]. At that point SSA [redacted] SA [redacted] and SA [redacted] all fired at Neal. Neal fell to the ground and died at that location. The woman in the car who was not injured was identified as Neal's sister. She was unaware of the kidnapping and had merely responded to Neal's request that she pick him up at the convenience store.

b6
b7C

## Observations and Recommendations of the SIRG

b6
b7C

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 2/22/94, revealed that proper procedures were followed by SSA [redacted], SA [redacted] and SA [redacted] during this incident. All fired their weapons in order to protect their own life as well as the lives of their fellow Agents and the civilian public.

After a thorough review of all the facts regarding this incident, it was the unanimous opinion of all members of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in the above-captioned shooting incident.

Memorandum from [redacted] to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
3/28/94
Omaha Division

DETAILS: On 6/14/94, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Section Chief Edward R. Leary, Personnel Management Section, Personnel Division; Unit Chief [redacted] Office of Professional Responsibility, Inspection Division; Unit Chief [redacted] Investigative Law Unit, Office of the General Counsel; Unit Chief [redacted] Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted] Washington Metropolitan Field Office, met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

On the morning of 3/28/94, Agents of the Omaha Division were conducting a surveillance of [redacted] a suspect in a series of Omaha area bank robberies who also was named in a local arrest warrant. An anonymous tip had provided [redacted] identity as the robber, and indicated that he was about to commit another bank robbery. Agents set up surveillance of [redacted] residence at approximately 6:30 a.m. on 3/28/94. A few minutes before 9:00 a.m., [redacted] exited his residence and got into his vehicle. At this time, SAs [redacted] and [redacted] who were together in a Bureau vehicle, pulled their vehicle behind [redacted] vehicle and blocked it in the parking place. SA [redacted] approached the driver's side of Davis' car, and SA [redacted] approached the passenger's side. SA [redacted] identified himself and ordered [redacted] out of the vehicle. [redacted] did not comply, and SA [redacted] leaned over the hood of the car to look at [redacted] through the windshield, as the side windows were tinted a dark color. [redacted] started to move his vehicle forward, over a curb and onto the grass, while SA [redacted] was leaning over the hood. Believing that [redacted] was trying to run over SA [redacted] SA [redacted] fired one shot at [redacted] continued to move forward, and SA [redacted] fell off the hood of [redacted] car. SA [redacted] and SA [redacted] each fired one more shot at [redacted] however, he fled the area in his vehicle. The surveillance of [redacted] continued by other Agents, and he was arrested during a vehicle stop a short time later. b6 b7C

Las Vegas Division

DETAILS: On 6/14/94, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Section Chief Edward R. Leary, Personnel Management Section, Personnel Division; Unit Chief [redacted], Office of Professional Responsibility, Inspection Division; Unit Chief [redacted] Investigative Law Unit, Office of the General Counsel; Unit Chief [redacted] Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

During the late night hours of 2/19/94, Agents of the Reno Resident Agency, Las Vegas Division, were called to assist with the resolution of an incident on the Fallon Paiute Shoshone Indian Reservation, in which one individual was believed to have been murdered. Since the murder had occurred on an Indian Reservation, the FBI assumed lead agency control of the investigation. When Agents arrived at the scene, at approximately midnight on 2/19/94, Tribal Police and the local Sheriff's Department were already present. SSRA [redacted] was briefed on the situation and learned that William Taft Vannoy was inside his residence at 1330 Agency Road, and that Vannoy was believed to have shot Martin George. Vannoy's wife, [redacted] had safely fled from the house, and told the police that William Vannoy had been drinking alcohol and was armed with several weapons.

Agents and local law enforcement officers formed a perimeter around the residence. Attempts were made throughout the night and early morning hours of 2/20/94 to encourage Vannoy to surrender. Several times, [redacted] fired shots from inside the residence. At approximately 6:45 a.m., [redacted] appeared at a window and started firing shots at the law enforcement personnel. At this time, SA [redacted] fired one shot from his M-16. Although SA [redacted] indicated that he did not actually see Vannoy, he could see the muzzle flash simultaneous with the sound of the shots being fired from the residence. Sometime after this shot was fired, a fire started inside the residence. The fire department was called to extinguish the fire. During the b6 b7C

(Continued - Over)

b6
b7C

subsequent crime scene investigation, the bodies of Vannoy and George were found inside the house. Vannoy had apparently shot George the previous evening, and then shot himself after starting the fire. There was no indication that either Vannoy or George were hit by the round fired by SA [redacted]

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident, as documented by the administrative inquiry furnished to the SIRG, dated 3/17/94, revealed the proper procedures were followed by the individuals involved in this incident. SA [redacted] fired at William Vannoy after Vannoy had fired several shots at the law enforcement officers present.

After a thorough review of all the facts regarding this incident, it was the unanimous opinion of all members of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in the above-captioned shooting incident.

b6
b7C

Synopsis of the Shooting Incident

On 4/6/94, Agents of the Providence Resident Agent, Boston Division, were involved in the surveillance of subjects who were believed to be responsible for at least five recent bank robberies in the Providence area. Information provided by a source had identified these subjects as possibly being responsible for the robberies; however, the source had no direct knowledge of their involvement. For this reason, a task force had been formed, including the FBI, Providence Police Department, Cranston Police Department, Pawtucket Police Department, and the Rhode Island State Police. As most of the robberies had occurred on either a Monday or Tuesday, the task force regularly checked the residences of the subjects on those days. On 4/6/94, a Providence Police Department officer observed the four subjects in a Nissan Pathfinder, the tags of which did not match the vehicle. This information was passed to the FBI, and a meeting of the task force was called. During the task force meeting, word was received that the Dexter Credit Union had been robbed by four males. Members of the task force were dispatched to the residences of the four subjects to see if they would return to one of those locations. As SA [redacted] along with Providence Police Department Officers [redacted] and [redacted] approached the residence of subject [redacted] they saw the Nissan Pathfinder enter the parking lot. They followed the Pathfinder until it parked. SA [redacted] requested backup, then parked his Bureau vehicle at an angle behind the Pathfinder. [redacted] and [redacted] exited their vehicle and ordered the subjects out of the Pathfinder. The Pathfinder then backed up around [redacted] vehicle, narrowly missing the police officers. The officers fired shots at the Pathfinder. At this

b6
b7C

(Continued - Over)

b6
b7C

point, SAs [redacted] and [redacted] had entered the parking lot. SA [redacted] intentionally struck the Pathfinder with his vehicle, which brought the Pathfinder to a stop. A gun was observed in the hand of one subject, and this fact was relayed to the other officers and Agents. SA [redacted] fired four shots at the Pathfinder. When the Pathfinder stopped, subject [redacted] exited and fled the area on foot. He was apprehended a short time later. The other three subjects were arrested on the spot.

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 4/20/94, revealed that proper procedures were followed by the individuals involved in this shooting incident. SA [redacted] fired shots at the subjects in order to protect himself and other law enforcement officers from armed subjects.

After a thorough review of all the facts regarding this incident, it was the unanimous opinion of all members of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in the above-captioned shooting incident.

Memorandum from [redacted] to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
5/15/94
Miami Division

DETAILS: On 8/30/94, the SIRG, consisting of Acting Chairman [redacted] Office of Professional Responsibility, Inspection Division; Section Chief Edward R. Leary, Personnel Management Section, Personnel Division; Acting Section Chief [redacted] Violent Crimes and Major Offenders Section, Criminal Investigative Division; Unit Chief [redacted] Global Section, National Security Division; Unit Chief [redacted] Firearms Training Unit, Training Division; SSA [redacted] Employment Law Unit, Office of the General Counsel; and SSA [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting. b6 b7C

## Synopsis of the Shooting Incident

Early on the morning of 5/15/94, SSA [redacted] received a telephone call from his daughter, who stated that as she was returning in her vehicle to the family home, she observed a person lying in the driveway of the house. She assumed this person was attempting to steal her father's car. SSA [redacted] quickly got out of bed, dressed, armed himself with his personally-owned revolver, and went to the front door. He called out to an individual who was inside his (SSA [redacted] vehicle. This individual exited the vehicle and began firing shots as SSA [redacted] with one of the shots striking SSA [redacted] in the left foot. SSA [redacted] fired two shots in return, and took cover behind a retaining wall in his front yard. The subject fled, got into a car with four other subjects, and drove away from the scene. SSA [redacted] was transported to a local hospital and treated for the gunshot wound to his foot. b6 b7C

On 5/20/94, [redacted] was arrested for attempted theft and the shooting of SSA [redacted] and is being charged locally. On 5/23/94, two additional subjects in the get-away vehicle were arrested and charged with auto theft.

## Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 5/16/94, revealed that proper procedures were followed by

Houston Division

and SSA [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

On 5/18/94, SA [redacted] received information from a source that [redacted] a fugitive, was currently at a local blood bank, selling his blood. SA [redacted] requested the assistance of SA [redacted] and the two left in a Bureau vehicle for the blood bank. As the two approached the blood bank, they saw an individual meeting the description of [redacted] walking outside. They followed him for a few blocks, then stopped him under the ruse of questioning him about a bank robbery. After effectively stopping [redacted] SA [redacted] attempted to restrain [redacted] but he broke free. SA [redacted] returned to his Bureau vehicle, and SA [redacted] was given a ride by a private citizen to [redacted] vehicle. Both Agents then pursued [redacted] in [redacted] vehicle. When [redacted] ran between some houses, [redacted] and [redacted] followed on foot. [redacted] went along the west side of the house, and [redacted] went along the east side. [redacted] indicated that he heard what sounded like a gunshot, but when he got to the back of the house he saw only SA [redacted] asked [redacted] if he had fired a shot, and [redacted] responded by indicating that maybe the man who gave [redacted] a ride fired the shot. [redacted] eluded arrest at this time, but was apprehended later that afternoon.

Following press reporting that a shot was fired during b6 b7C the attempt to apprehend [redacted] SAs [redacted] and [redacted] were questioned by SSA [redacted] indicated that he heard what sounded like a shot fired, but he did not fire his weapon. SA [redacted] indicated that he, too, thought he heard a shot, but he did not fire. [redacted] and [redacted] were later interviewed by ASAC William Tucker, and both denied that they had fired their weapon. When an official inquiry was opened to determine whether a shot had been fired, SA [redacted] admitted that he had experienced an accidental discharge while scaling a fence in pursuit of [redacted] The bullet from SA [redacted] gun went into the wall of a neighboring house.

Memorandum from [redacted] to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
5/18/94
Houston Division

Observations and Recommendations of the SIRG

During review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 7/5/94, the SIRG expressed concern over the failure of SA [redacted] to report the accidental discharge he experienced. When they became aware of the accidental discharge, SAs [redacted] and [redacted] also failed to advise higher authorities of the incident. b6 b7C

After a thorough review of the facts regarding this incident, the SIRG concurred with the recommendations of SAC, Houston, that SA [redacted] receive a letter of censure, five days suspension without pay, six months probation, and be removed from serving as a firearms instructor; that SA [redacted] receive a letter of censure; and that SAs [redacted] and [redacted] each receive oral reprimands.

(2) That the Training Division address the tactics employed by the Birmingham Division during this incident, the deficiency in firearms training by SA [redacted] and the failure of arresting personnel to wear body armor.

(3) That SAC Birmingham reinforce to Agents in the Birmingham Division the importance of wearing body armor during an arrest situation.

DETAILS: On 8/30/94, the SIRG, consisting of Acting Chairman [redacted] Office of Professional Responsibility, Inspection Division; Section Chief Edward R. Leary, Personnel Management Section, Personnel Division; Acting Section Chief [redacted], Violent Crimes and Major Offenders Section, Criminal Investigative Division; Unit Chief [redacted] Global Section, National Security Division; Unit Chief [redacted], Firearms Training Unit, Training Division; SSA [redacted] Employment Law Unit, Office of the General Counsel; and SSA [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting.

b6
b7C
b7D

Synopsis of the Shooting Incident

On 7/18/94, Agents of the Birmingham Division became aware that Gary Chris Griffith, a federal fugitive, was possibly located in their territory. [redacted] Griffith, a plan was set in motion to locate him. Griffith [redacted] at a location near Wheeler Dam in Lawrence County, Alabama. SAs [redacted] and [redacted] went to this location in a Bureau vehicle. Captain [redacted]

(Continued - Over)

and Lieutenant [redacted] of the Alabama Bureau of Investigation (ABI) went in their vehicle. A uniformed Alabama State Police officer who was familiar with Griffith conducted a "drive-by" of Griffith's location to confirm that he was in fact present. When they were certain that Griffith was there, the FBI and ABI Agents went to the location to arrest Griffith. SAs [redacted] and [redacted] arrived at the scene and attempted to block Griffith's vehicle with their Bureau car. Captain [redacted] and Lieutenant [redacted] arrived at about the same time. As SA [redacted] exited his vehicle and walked toward Griffith's vehicle, Griffith attempted to run over SA [redacted] Griffith, at that point, also began firing a weapon at SA [redacted] SA [redacted] fell to the ground, but was not wounded. SA [redacted] Captain [redacted] and Lieutenant [redacted] all fired at Griffith, striking him several times. SA [redacted] then got up and fired his shotgun at Griffith. Griffith was pronounced dead at the scene.

b6
b7C

SAs [redacted] and [redacted] as well as the other officers, fired their weapons at Griffith after Griffith fired. All were attempting to protect their own lives as well as the lives of their fellow officers.

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the reports of the administrative inquiry furnished to the SIRG, dated 7/28/94 and 8/26/94, revealed that proper procedure was followed regarding the use of deadly force by Birmingham Agents. The SIRG expressed concern, however, over the tactics employed during the execution of this arrest. The SIRG also was concerned over the deficiency in firearms training by SA [redacted] and the failure of arresting personnel to wear body armor when entering into a known arrest situation.

b6
b7C

After a thorough review of all the facts regarding this incident, it was the opinion of the SIRG that no administrative action should be taken against any FBI employee as a result of this shooting incident. The SIRG recommends, however, that the Training Division address the tactics issue, as well as the firearms training of SA [redacted] and the failure of arresting personnel to wear body armor. It is also recommended that SAC Birmingham reinforce the importance of wearing body armor when effecting an arrest.

Doyle, Jr., Global Section, National Security Division; Inspector in Charge [redacted] Inspection Division; SSA [redacted] Firearms Training Unit, Training Division; and SSA [redacted] Washington Metropolitan Field Office, met to discuss the above-captioned shooting.

**Synopsis of the Shooting Incident**

SA [redacted] met an informant at his residence on 4/1/94 and was taking him to lunch in order to debrief him. While driving along Ohio State Road 322 the informant noticed a deer running perpendicular to the car. The informant shouted out, but at that point the deer had already run into the vehicle impacting the rear door panel and shattering the window glass. SA [redacted] indicated in his statement that he had seen the deer only moments before it ran into the car door. SA [redacted] maintained control of the vehicle and brought it to a complete stop on the shoulder of the road.

After determining that he and the informant had not been injured, SA [redacted] doubled back to where he had seen the deer enter a ditch. Both SA [redacted] and the informant agreed the animal was in pain, and could possibly struggle back to the road and jeopardize the safety of another driver. SA [redacted] elected to put the animal down with one shot from his service revolver to the animal's head.

b6
b7C

SA [redacted] immediately reported the accident to the local police and the Cleveland FBI office. A report was filed by the Geauga County deputy sheriff. As well, arrangements were made with the Ohio State Highway Department to dispose of the deer's body.

Memorandum from [redacted] to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
8/31/94
San Juan Division

b6
b7C

**DETAILS:** On 1/20/95, the SIRG, consisting of Chairman Robert S. Conforti, Section Chief, Violent Crimes and Major Offenders Section, Criminal Investigative Division; Unit Chief [redacted] Investigative Law Unit, Office of the General Counsel; Section Chief Jeremiah W. Doyle, Jr., Global Section, National Security Division; Inspector-in-Charge [redacted] Inspection Division; SSA [redacted] Firearms Training Unit, Training Division; and SSA [redacted] Washington Metropolitan Field Office, met to discuss the above-captioned shooting.

**Synopsis of the Shooting Incident**

SA [redacted] experienced trouble with his Bucar on the morning of 8/31/94. [redacted] contacted the office and informed his supervisor, SA [redacted], that he had experienced car trouble. [redacted] decided to wait and have one of the security guards jumpstart his car. While waiting for a security guard to pass by, [redacted] decided to take a run around the golf course. During the run [redacted] was always in eye contact with his residence and Bucar. At 8:00 a.m., [redacted] completed his run and decided to cool down by sitting outside on his patio. [redacted] heard a noise, similar to someone walking on the grass, turned around to see who it was, but did not see anyone. As [redacted] turned back around someone suddenly came from around the patio wall and pointed a gun at his head. The Unsub, later identified as [redacted], told [redacted] in Spanish to shut up and be quiet. [redacted] continued talking in Spanish stating, "do what I say or I will kill you."

b6
b7C

According to [redacted] carried a stainless steel, six inch, large caliber revolver pointed at his head. As well, [redacted] had a .357 revolver tucked away in his waistline. During this time, [redacted] asked [redacted] to open the door to the house, but [redacted] indicated the alarm was on, the house was not his, and he did not know the code/combination. They remained on the patio where [redacted] questioned Suarez regarding who resided at the residence, alarm system, code/combination, and if there were any valuables in the house. SA [redacted] advised [redacted] that he did not know the code, was a guest at the residence, but expected the lady of the house to return shortly. [redacted] decided to wait until the "lady" of the house returned.

(CONTINUED - OVER)

Memorandum from [redacted] to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
8/31/94
San Juan Division

[redacted] ordered [redacted] to bring his bicycle from the front yard to the patio area. He remained behind the patio walls, and kept his gun pointed at [redacted], while [redacted] moved the bike. SA [redacted] described the bicycle as a used white mountain bike. b6 b7C

Around 9:00 or 9:10 a.m., after waiting approximately an hour and a half, [redacted] decided not to wait any longer and asked SA [redacted] to open the front door. [redacted] told [redacted] that if the alarm went off, and he did not deactivate it, he would kill him. As he opened the door, [redacted] felt [redacted] standing right behind him. [redacted] stepped back and stuck his left shoulder into the midsection of [redacted] body. He then used his left arm and pushed [redacted] left arm into the air. At this point, [redacted] heard one shot fired from the Unsub's weapon. [redacted] ran inside and locked the door.

SA [redacted] retrieved his service revolver and shouted to [redacted] that he was coming outside. As [redacted] opened the door completely and stepped outside, he unexpectedly saw [redacted] standing in front of the door. [redacted] saw him raise his arm holding the firearm. SA [redacted] stepped back and fired two or four times.

[redacted] left running, while [redacted] closed the door and obtained a second pistol magazine. [redacted] returned to the front door, but [redacted] was no longer in sight. [redacted] saw that [redacted] bicycle was missing. [redacted] knew the Unsub had left the area down the street towards an open area of the residential neighborhood. [redacted] believes, however he is not sure, that he may have shot once, while in front of the neighbors yard, as the Unsub was turning the corner. As [redacted] himself turned the corner at the end of the street, he saw the Unsub riding his bicycle towards one of the first palm trees in the area. The Unsub stopped his bicycle and fired one shot at [redacted] stated he took cover near a concrete electrical pole and returned fire. [redacted] fired several shots at the Unsub, until he thought he had run out of ammunition. b6 b7C

[redacted] observed the Unsub pedal his bicycle towards the back of the residential area leading towards the fence line and hill. [redacted] returned back to his residence and obtained his shotgun, however the Police of Puerto Rico arrived and took charge of the incident. [redacted] advised that he contacted the San Juan Field Office to advise the office of the incident.

Subsequently, SA [redacted] identified the tatoo on [redacted] leg as the one he had seen on his assailant's leg.

**DETAILS:** On 10/14/94, the SIRG, consisting of Chairman Robert S. Conforti, Section Chief, Violent Crimes and Major Offenders Section, Criminal Investigative Division; Unit Chief [redacted], Global Section, National Security Division; Unit Chief [redacted], Investigative Law Unit, Office of the General Counsel; Supervisory Special Agent [redacted], Washington Metropolitan Field Office; and Special Agent (SA) [redacted], Firearms Training Unit, Training Division; met to discuss the above-captioned shooting.

## Synopsis of the Shooting Incident

On 9/2/94, SA [redacted] two other Special Agents and a Maryland State Police Sergeant (Sgt.) assigned to the Southern Maryland Metropolitan Resident Agency, and all participants in OPERATION HORNET (High Output Residential Narcotic Enforcement Team), were involved in a felony car stop. Two subjects were inside the vehicle. One of these individuals was believed to be [redacted] who was wanted on drug trafficking charges in Virginia. The subjects were removed from the vehicle and positioned spread-eagle against their vehicle. The individual believed to be [redacted] was given a cursory pat down for weapons by SA [redacted] As SAs [redacted] and [redacted] questioned [redacted] SA [redacted] indicated a "crotch" search should be conducted on the subject since previous informant information indicated [redacted] always armed himself with a small calibre handgun which he concealed in his waistband or crotch area. At this point, the subject bolted into the woods with SAs [redacted] and Sgt. [redacted] in pursuit. SA [redacted] called for the subject to stop. As [redacted] ran in the woods he kept his hands held out in front of him. SA [redacted] stated [redacted] hands did not swing at his sides, but were positioned in front of him, out of her line of sight. Fearing that [redacted] was reaching for a gun and would "wheel around" on them, SA [redacted] called for [redacted] to stop or she would shoot. While running, SA [redacted] fired one shot. The subject stumbled, but [redacted] did not believe she hit [redacted]. A second shot was fired by SA [redacted] approximately two seconds later. [redacted] disappeared into a thicket. [redacted] was observed by SA [redacted] as he exited the thicket into a clearing. [redacted] continued the chase. Sensing [redacted] was becoming tired, SA [redacted] commanded [redacted] to stop. Subsequently, [redacted] was ordered onto the ground and handcuffed by SA [redacted]

b6
b7C

(CONTINUED - OVER)

All officers and agents displayed their badges, which hung around their necks from chains. Their weapons were displayed and all wore Ballistic Protective Undergarments. As the subjects exited their vehicle the officers and agents identified themselves as "police." b6 b7C

**Observations and Recommendations of the SIRG**

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 9/09/94, revealed that proper procedures were followed by SA [redacted] during this shooting incident. SA [redacted] fired shots at the subject believing that her life and the life of other law enforcement officers were in danger.

After a through review of all the facts regarding this incident, it was the unanimous opinion of the members of the SIRG that no administrative action be taken against any FBI employee as a result of their involvement in the above-captioned shooting incident.

Doyle, Jr., Global Section, National Security Division; Inspector in Charge [redacted] Inspection Division; SSA [redacted] Firearms Training Unit, Training Division; and SSA [redacted] Washington Metropolitan Field Office, met to discuss the above-captioned shooting.

## Synopsis of the Shooting Incident

On 9/9/94, at approximately 5:35 p.m., during an arrest attempt, the subject of the arrest, Arlix Fuentes, was shot and killed. Fuentes, who was on the Florida Department of Law Enforcement's (FDLE) Ten Most Wanted List, was armed with and believed to have fired one time from a Colt .45 caliber Gold Cup pistol loaded with a magazine containing 6 cartridges.

During a surveillance on Funetes' girlfriend, and after she had picked up Fuentes, it was decided that a felony car stop would be made. Deputy United States Marshal [redacted] blocked the street with his vehicle. SA [redacted] who was armed with his personally owned 12 gauge, Remington 870 shotgun and a 9MM Sig Sauer semi-automatic pistol, Model 228, rammed his vehicle into the back of the subject's vehicle as the car stop was made. SA [redacted] indicated he saw both occupants inside the vehicle move forward and back during the impact. After the impact, [redacted] saw Fuentes again bend forward and move toward the door. As [redacted] stepped outside of his vehicle he leaned over the roof of the car with his Sig Sauer P-220 .45 pointed at the subject's vehicle. Although [redacted] heard shouts of "gun, gun, he's got a gun", he did not fire his weapon because fellow officers would have been caught in the crossfire. SA [redacted] stated he had racked his shotgun and felt the safety with his finger as he exited his vehicle. He heard someone yell "police, don't move. He has a gun" from his left. On his right he heard "police, police. He's got a gun. Gun, gun, gun." SA [redacted] heard two or three shots while the officers were shouting "police, police". He did not know where the gunshots originated,

b6
b7C

(CONTINUED -OVER)

but from the sound thought they came from the right passenger side of the Toyota. Fearing his life and the lives of the other officers were in danger, [redacted] aimed the shotgun and fired one round, which hit the subject in the head. b6 b7C

SA [redacted] FDLE, was carrying an FDLE issued 9MM Beretta when he approached the subject's vehicle from the right rear side. [redacted] observed Fuentes sitting in the right front passenger seat. [redacted] indicated that Detective (Det.) [redacted] Metro-Dade Police Department, and [redacted] Hialeah Police Department, were located to his right, approaching the vehicle from the right side. [redacted] said "police" was yelled several times. He heard someone say, "He's got a gun," followed by the discharge of firearms, from unknown persons. [redacted] fired toward Fuentes, approached the right side of the vehicle with Det. [redacted] and saw that the subject was neutralized. He observed what appeared to be an automatic pistol on the ground.

At the same time, Det. [redacted] who was carrying a 9MM Beretta, approached the right side of the subject's vehicle, while yelling "police, police, police." [redacted] opened the passenger side door and observed Fuentes holding a semi-automatic stainless steel or silver pistol. This was pointed at Fuentes' chest with Fuentes' hands on the trigger. [redacted] ordered Fuentes to drop the weapon, but instead Fuentes cocked the weapon and pointed it in [redacted] direction. [redacted] was not clear on how many rounds he fired, but thought it may have been three and Fuentes one round. [redacted] indicated he was a little confused since he was bitten by a K-9 as this was occurring. [redacted] stated he believed that Fuentes' female companion had shot him by mistake, while trying to shoot [redacted] As he pointed his gun at Fuentes' girlfriend she was being dragged out of the car by some of the other officers. b6 b7C

[redacted] stated he and [redacted] approached the subject's vehicle from the rear passenger side. While approaching the vehicle, a car came from their left side and hit the Toyota, which momentarily distracted him, but he continued approaching the vehicle. [redacted] stated the subject moved from a leaning forward position to a sitting position, which he believed was due to the impact from the collision. He observed the passenger holding a large Smith & Wesson pistol in his right hand and saw the left hand come up toward the weapon. [redacted] thought Fuentes may have been attempting to take the safety off of the gun.

(CONTINUED -OVER)

During this time [redacted] was yelling "Policia, Policia." As soon as he saw the gun, he screamed "gun" several times, while using his left hand to try and move [redacted] out of the line of fire since he was closer to the car than [redacted]. [redacted] continued trying to move [redacted] out of the way, saw the gun being turned toward them, and fearing he or his associate were going to be shot, opened fire. [redacted] said he saw Fuentes' weapon recoil in his hands. After the shooting stopped, [redacted] ran to the back of the Toyota, and looked around fearing that there was more than one person shot. As he was picking up the radio something flashed by [redacted] which is when the K-9 bit [redacted] was carrying a Glock model 19 during this shooting incident.

## Synopsis of the Shooting Incident

On 10/12/94, [redacted] the 22 year old son of wealthy businesswoman, Mrs. [redacted] was abducted from his Riverside, California, residence by unknown individuals. Approximately 11 hours later, Mrs. [redacted] received a telephone call from her son and he stated that he was being held for a $300,000 ransom. Mrs [redacted] contacted the Riverside Resident Agency (RIVRA) and a kidnapping investigation was initiated.

Investigation confirmed that the victim had been abducted from his residence and the victim, in a 10/12/94 telephone call to him mother, relayed the kidnappers' demands for a $300,000 ransom and told her that she would be contacted again at her residence that evening at 10:00 p.m. b6 b7C

After the Los Angeles Office's kidnapping plan was activated, Mrs. [redacted] was instructed by Special Agents (SAs) to tell the 10:00 p.m., caller that she was attempting to obtain the money and to call back the next day. At approximately 10:00 p.m. on 10/12/94, Mrs. [redacted] received a telephone call from an unidentified male who told her that the ransom should be paid the next day and that she would be contacted with instructions between noon and 1:00 p.m. on 10/13/94. It was subsequently determined that the call had been made from the victim's cellular telephone from somewhere near the Ontario Airport.

On the morning of 10/13/94, ASAC Iden arrived at the
(CONTINUED - OVER)

Re: Administrative Inquiry
Shooting Incident
10/13/94
Los Angeles Division

b6
b7C

RIVRA and met with SSRA [redacted] and SOG SSA [redacted] to devise a tentative operational plan.

At approximately 12:25 p.m., on 10/13/94, the victim telephoned his mother regarding the ransom money and he was told to call back in an hour. At approximately 1:15 p.m., the victim called and relayed the kidnappers' instructions for the mother to take the money to a specific outside pay phone located at the Moreno Valley Shopping Center between 7:30 and 8:00 p.m., that evening and await a call for additional instructions. SAC Parsons arrived at the RIVRA to assume on-scene command at approximately 6:00 p.m., and a final operational plan was drawn up.

Surveillance coverage of the public telephone at the Moreno Valley Mall was furnished by four SOG teams, consisting of 24 SAs operating approximately 20 vehicles, with air support. A drop package containing $300,000 in marked money, an [redacted] It was recognized that due to the shopping center's layout, the access to freeways, as well as the semi-rural setting, it might prove difficult to follow the package and the subject, if the drop occurred at the shopping center. Accordingly, SAC Parsons instructed that the SOG should follow the subject, but that he should be apprehended if there was the slightest chance that he might elude them. SAC Parsons also made it clear that the decision whether to follow or arrest the subject would be made by SOG SSA [redacted] SAC Parsons stressed to SSA [redacted] that if he had any doubt as to the SOG's ability to follow this subject out of the area without losing him, that the subject should be stopped.

b7E

SA [redacted] was hidden in the rear seat area of Mrs. [redacted] vehicle and was instructed to radio information to the SOG units after she spoke with the kidnappers. At approximately 8:00 p.m., Mrs. [redacted] arrived at the mall and received a telephone call at the pay telephone. Upon returning to the vehicle, she informed SA [redacted] that the subject told her that she was to give the money to a man on a motorcycle wearing a white helmet, that he would come up to her for the ransom. She told the subject on the phone that the motorcyclist should go to the passenger side of the car because the money was heavy. SA [redacted] radioed the SOG units that Mrs. [redacted] was to meet the subject on the motorcycle at the Great Western Bank.

b6
b7C

(CONTINUED - OVER)

Memorandum from [redacted] to Mr. Gore
Re: Administrative Inquiry
Shooting Incident
10/13/94
Los Angeles Division

Mrs. [redacted] exited the vehicle, after problems with her seatbelt, walked around to open the passenger door, determined the passenger door was still locked, returned to the driver's side, picked up her car keys and began to open the passenger side door. Apparently Mrs. [redacted] movements made the motorcyclist suspicious and he drove from the parking area without making direct contact with her.

SA [redacted] began moving toward the bank and drove into the shopping center parking lot. As he drove past, he observed the motorcyclist within several feet of the driver's side of Mrs. [redacted] vehicle and thought he was talking to her. When SA [redacted] observed the motorcyclist adjust a bag on his shoulder, he radioed "He's got the bag. Are we going to take him?" SSA [redacted] responded that the subject should be arrested to prevent him from leaving the scene.

As the motorcyclist exited the mall, he stopped at a red traffic signal at Center Point Drive. SA [redacted] pulled in behind the motorcycle. SA [redacted] requested that SA [redacted] drive in front and block the motorcycle from exiting onto Center Point Drive. As SA [redacted] did this, SA [redacted] pulled behind the motorcycle, "nudged" it with his vehicle and the motorcyclist fell to the ground. As the SAs exited their vehicles, the subject began to run east. When SA [redacted] yelled "FBI, halt or I'll shoot", the subject turned towards him and although SA [redacted] could not clearly see the subject's hands", he believed "they appeared to be reaching for something in the bag". SA [redacted] fired one shot from his 9mm Sig Sauer pistol and missed. SA [redacted] joined in the foot chase and although does not recall seeing SA [redacted] he heard the command and the shot but did not know who had fired. SA [redacted] ran down Center Point Drive and yelled for the subject to stop and fired two shots from his 9mm Sig Sauer pistol which missed the subject. Additionally, SA [redacted] attempted to drive in front of the subject and block his escape; however, he dodged around the SA's vehicle and continued his flight.

b6
b7C

SA [redacted] was stationed on Frederick Street when he heard SSA [redacted] give the arrest command. As SA [redacted] entered Center Point, he observed the chase and heard the shots. Since he could not block the subject due to traffic, SA [redacted] stopped his vehicle, pulled his Bureau issued Remington 870 shotgun from the roof mount and exited his vehicle. SA [redacted]

(CONTINUED - OVER)

b6
b7C

ran after the subject and commanded him to halt, but the subject continued to run. SA [redacted] fired one round of 00-buck and the subject dropped to the ground. The subject was not wounded and was immediately taken into custody.

## Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the report dated 12/7/94, revealed that proper procedures were followed during this shooting incident.

After a thorough review of the facts regarding this incident, it is the opinion of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in this shooting incident.

b6
b7C

## Synopsis of the Shooting Incident

On 11/22/94, BENNIE LEE LAWSON entered the Metropolitan Police Department (MPD) Headquarters building and walked to the office of the cold homicide case task force, which is comprised of MPD detectives and WMFO Agents. LAWSON entered the office behind a MPD Cooperating Witness (CW) and the CW's friend. He proceeded to a partitioned-off, smaller area of the office, where two WMFO Agents and MPD Sergeant HENRY DALY were engaged in conversation. Lawson then proceeded to pull a fully automatic pistol and begin firing, fatally shooting Sergeant DALY, who was seated at a desk, and SA MICHAEL JOHN MILLER, who was standing in front of the desk. SA [redacted] who was seated nearby on a couch, then engaged LAWSON in a fire fight. After critically wounding SA [redacted] LAWSON went to another part of the office and engaged SA MARTHA DIXON MARTINEZ in a fire fight. SA MARTINEZ shot Lawson twice, in the thigh, and was herself disabled by shots in the right arm and chest, causing her to drop her weapon. LAWSON, whose weapon had been disabled by SA MARTINEZ' gunfire, then recovered SA MARTINEZ' weapon and fatally wounded her with it, before fatally shooting himself.

b6
b7C

The CW was not injured, and the CW's friend was treated and released for a minor gunshot wound from LAWSON's weapon. Investigation determined that SA [redacted] fired 12 times, that SA MARTINEZ fired eight or nine times, and that LAWSON fired approximately 20 rounds. Neither SA MILLER nor Sergeant Daly fired their weapons.

DETAILS: On 1/20/95, the SIRG, consisting of Chairman Robert S. Conforti, Section Chief, Violent Crimes and Major Offenders Section, Criminal Investigative Division; Unit Chief [redacted], Investigative Law Unit, Office of the General Counsel; Section Chief Jeremiah W. Doyle, Jr., Global Section, National Security Division; Inspector in Charge [redacted] Inspection Division; SSA [redacted] Firearms Training Unit, Training Division; and SSA [redacted] Washington Metropolitan Field Office, met to discuss the above-captioned shooting.

## Synopsis of the Shooting Incident

On 12/10/94, SA [redacted] shot a Rottweiler dog in front of his former residence after the dog charged at him. SA [redacted] who is separated from his wife [redacted], was babysitting their two children. Upon arrival of his wife and her companion, the wife mentioned how they had been confronted by a Rottweiler, which was loose, and had been roaming the neighborhood. The dog had charged at the women as they exited from their vehicle and approached the residence.

When SA [redacted] departed the residence, he heard a dog snarling. The animal, which weighed approximately 75 pounds, was 40 to 50 feet away from [redacted]. The Rottweiler continued to bark and growl as it approached SA [redacted] At this point, SA [redacted] was approximately 40 feet away from the residence. It was too far to run back toward the residence and SA [redacted] could not enter his vehicle since it was locked and the keys were inside his pocket. Without warning, the dog charged at SA [redacted] Fearing that the dog would bite and was capable of inflicting serious injury or possibly death, SA [redacted] drew his Bureau issued Smith & Wesson 10MM, and from a distance of 20 to 30 feet fired one shot into the dog's chest.

b6
b7C

The local police department was contacted. Upon arriving at the scene, the officer requested SA [redacted] surrender his service revolver. The officer indicated SA [redacted] could possibly face criminal charges for discharging a weapon within the city limits, as well as being libel for the animal's veterinary bills.

A senior officer arrived at the scene and indicated SA [redacted] had a right to protect himself from the animal if it were in fact attacking him.

SA [redacted] overheard a neighbor comment that he hoped the animal had been shot and killed since it roamed freely throughout the neighborhood.

(CONTINUED - OVER)

Memorandum from [redacted] to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
12/10/94
Dallas Division

FBI Dallas was advised that the 180 grain projectile struck the dog in the chest and exited the shoulder. The dog survived this incident.

b6
b7C

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 12/22/94, revealed that proper procedures were followed by SA [redacted] during this shooting incident. Fearing that the Rottweiler would attack and inflict serious injury, SA [redacted] fired one shot into the animal's chest.

After a thorough review of all the facts regarding this incident, it was the unanimous opinion of the members of the SIRG that no administrative action be taken against SA [redacted] as a result of his involvement in the above-captioned shooting incident.

Field Office File #: 62A RH-42577 Bureau File #:

Title: SHOOTING INCIDENT
RICHMOND DIVISION
MARCH 26, 1993

Character: ADMINISTRATIVE INQUIRY

Synopsis:

Administrative inquiry initiated based upon a shooting incident which occurred at approximately 12:15 p.m. on 3/26/93. SA [redacted] is a 32 year old Special Agent who entered on duty with the FBI 4/4/88. She reported to the Richmond Division on 8/23/92, and has been assigned to Squad 3 (Drugs, Organized Crime, and Violent Crimes), since her arrival. On Friday morning, 3/26/93, Richmond SAs [redacted] and [redacted] accompanied by VIRGINIA STATE POLICE (VSP) Trooper [redacted] (a member of the Richmond FBI Fugitive Task Force), travelled to the Fort Lee United States Army Military Reservation at Petersburg, Va. The above personnel met with Criminal Investigative Division (CID) Investigator (Inv.) [redacted] SA [redacted] had been working with Inv. [redacted] on a Crime on a Government Reservation (CGR) - Murder for Hire case (70A RH-4256). In the process of working this case, the principal subject was arrested and incarcerated on unrelated charges. The potential victim had been interviewed by SA [redacted] and Inv. [redacted] While in the process of completing the CGR investigation, SA [redacted] noticed some inconsistencies in the information provided by Inv. [redacted] source, an individual using the name [redacted] After making appropriate NCIC inquiries, SA [redacted] determined that an individual by the name of [redacted] was wanted by New Jersey

b6
b7C

b6
b7C

authorities for multiple counts of drug violations. The purpose of meeting at CID Headquarters was to determine the true identity of [redacted] and if he in fact was wanted by New Jersey authorities, to effect his arrest. As a member of the Richmond Fugitive Task Force, Trooper [redacted] could execute a state warrant and have the subject held for New Jersey authorities. It is noted that no Unlawful Flight warrant had been issued relative to [redacted] Per previous agreement, Inv. [redacted] called his source into the CID office on the morning of 3/26/93. SA [redacted] explained to subject [redacted] that information had been received indicating that he could possibly be [redacted] wanted by New Jersey authorities for numerous violations of state drug laws. [redacted] assured the personnel in the CID Office that he was not [redacted] and that there was some mistake. SA [redacted] told [redacted] that after fingerprint comparisons, if it was determined that he was not the subject wanted from New Jersey, he would be allowed to go free. Trooper [redacted] after fingerprinting the subject, made a determination that his fingerprints, compared with the known prints of [redacted] indicated that the two were identical. At this point, Trooper [redacted] and another CID Inv. [redacted] commenced a pat down in preparation for a strip search of the subject, SAs [redacted] and [redacted] retreated from the area of the fingerprinting table to partially obscure themselves behind a partition. This was done to allow the subject privacy for the strip search. Inv. [redacted] left the room at this time. At this point, [redacted] became violent, abusive, and vigorously resisted arrest. A struggle ensued during which [redacted] climbed onto a desk, was pulled to the floor, rose again, climbed onto the desk, and attempted to climb over a portable partition to escape the arresting personnel and to get at SA [redacted] SAs [redacted] and [redacted] realizing that the subject was resisting arrest, and obviously had not been strip searched, moved around from behind the partition to assist in the securing of [redacted] During the scuffle, the partition was knocked to the floor, the camera was broken and numerous items of office equipment were strewn about the office. Trooper [redacted] was holding the subject's leg in an attempt to subdue him. SA [redacted] with handcuffs, attempted to secure the subject's one wrist. Both individuals were thrown clear by the subject and he proceeded toward SA [redacted] who at this point had drawn her service weapon, pointed it at the subject, and ordered him to stop. As the struggle ensued, [redacted] managed to escape the grasp of SAs [redacted] Trooper [redacted] and Inv. [redacted] proceeded toward SA [redacted] asking her repeatedly to shoot

b6
b7C

b6
b7C

him, because if he were returned to New Jersey authorities, he would be killed anyway. Realizing that the subject had escaped from all law enforcement personnel and was proceeding toward her, she became concerned for her personal safety and the safety of the others. SA [redacted] realized that this subject had an extensive criminal record and was becoming increasingly violent. She believed that if [redacted] were to grab her, he would wrestle her weapon from her and use it on either herself or the other law enforcement personnel. At this point, after repeated commands to stop, SA [redacted] discharged her nine millimeter Sig Sauer Model P226, Serial Number U367851. After firing her weapon, SA [redacted] observed that subject [redacted] immediately dropped to the floor, clutching his chest as though he had been shot. SA [redacted] later realized that [redacted] had not been hit and that the bullet struck a desk in the rear of the office. No one was injured or struck by this round. The Agents and another CID Inv., [redacted] who had just entered the room after the discharge of the weapon, subdued the subject, placing him in handcuffs and leg irons. The subject was immediately transported to the Petersburg, Virginia, CITY JAIL. [redacted] is a black male, date of birth [redacted] five feet seven inches, 140 pounds. He has FBI Number [redacted] has prior arrests for burglary, assault with a deadly weapon, disorderly conduct, sexual assault, and failure to appear. He had been convicted on the disorderly conduct charge, the remaining counts were dismissed. In regard to the charges resulting in the 3/26/93 arrest, [redacted] was wanted by the SUPERIOR COURT, Gloucester County, New Jersey, for multiple drug charges. He had been charged in a seven count indictment; three counts of possession, possession with intent to distribute, and distribution of cocaine, three identical counts regarding marijuana, and conspiracy. On 3/2/93, Assistant United States Attorney [redacted] Eastern District of Virginia, Richmond, Va., orally authorized the arrest of [redacted] for assaulting a Federal officer and resisting arrest. On 3/30/93, a complaint was filed in UNITED STATES DISTRICT COURT, Richmond, charging [redacted] with assaulting a Federal officer and crime on a Government reservation - assault on VSP Trooper [redacted]

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT
DETROIT DIVISION
3/2/93

Character: ADMINISTRATIVE INQUIRY

Synopsis: On 3/1/93, [redacted] advised SA [redacted] that [redacted] was an armed, "crack" addict who had committed four bank robberies in the Detroit area and was known to have stayed at the SUEZ MOTEL, Warren, Michigan. This source also described [redacted] car as a 1980 Dodge Diplomat, primer gray in color, bearing Michigan license [redacted]

On 3/2/39, SA [redacted] and SA [redacted] displayed a photo spread to victim tellers at the MICHIGAN NATIONAL BANK, 3461 S. Telegraph, Dearborn, Mi. one of whom positively identified [redacted] as the robber. SAs [redacted] and [redacted] then responded to a robbery at the FIRST OF AMERICA BANK, East Nine Mile Road and I-94, St. Clair Shores, Mi. where they met SAs [redacted] and [redacted] from the Mt. Clemens Resident Agency. Later that afternoon, SA [redacted] and SA [redacted] displayed a photo spead to a victim teller at the COLONIAL CENTRAL SAVINGS BANK, East Nine Mile Road, Warren, Mi. and she also positively identified [redacted] as the robber. SA [redacted] traveled to the SUEZ MOTEL, Warren, Mi. and determined from the motel manager that [redacted] was currently renting a room but had driven away a few minutes prior to SA [redacted] arrival. SA [redacted] radioed this information to SA [redacted] SAs [redacted] and [redacted] proceeded to the motel, met with SA [redacted] and

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

devised an arrest plan. SA [redacted] then telephoned SSA [redacted] who approved the arrest plan. When [redacted] returned to the motel, SA [redacted] and SA [redacted] attempted to arrest [redacted] as he exited his car. [redacted] however, put the car in gear and began driving for the motel exit. [redacted] appeared to have a "wild" look on his face to both SAs [redacted] and [redacted] When SAs [redacted] and [redacted] were unable to block the motel exit as previously planned due to traffic and radio problems, SA [redacted] positioned himself at the exit and ordered [redacted] to stop. In his panic to escape, [redacted] increased speed and headed straight at SA [redacted] At the last second, SA [redacted] jumped out of the way and simultaneously fired one shot toward the driver's side door. As he fired, SA [redacted] was afraid that either he would be killed, another Agent would be killed or an innocent pedestrian would be killed. Pursuing Agents discontinued the chase to prevent injury to innocent bystanders when [redacted] speed exceeded 100 miles per hour and he raced through several red lights.

b6
b7C

Four witnesses confirmed that SAs [redacted] and [redacted] identified themselves as they approached [redacted] car. It was the opinion of [redacted] and [redacted] that SA [redacted] was in jeopardy of being hit by [redacted] car. [redacted] saw the Agents approach [redacted] car but he did not witness the shooting incident because his view was obscurred. [redacted] claimed the Agents were never in front of [redacted] car, the car was never driven toward the Agents and in his opinion, the driver of the car was not trying to assault the Agents.

b6
b7C

[redacted] was arrested later that evening when he returned to the motel. In a signed statement given to SAs [redacted] and [redacted] following his arrest, [redacted] stated that during the FBI's attempt to arrest him earlier that day, he heard someone yell "FBI" but he did not see anyone around the entry way to the motel as he fled. When he was interviewed by SAs [redacted] and [redacted] was asked why he attempted to escape and run down arresting officers earlier in the day. [redacted] responded that his life was not worth living and he wanted someone to shoot and kill him. A search of [redacted] vehicle subsequent to his arrest failed to dislose a weapon which [redacted] allegedly carried or a bullet hole from SA [redacted] weapon.

b6
b7C

A criminal complaint and warrant to arrest [redacted] for violation of Title 18 USC Section 2113 (a) and 111 (a) (1) (b) was issued to SA [redacted] by United States Magistrate THOMAS A. CARLSON, Eastern District of Michigan on 3/3/93.

[redacted] is currently represented by counsel and is not available for additional interviews.

It is the opinion of Detroit's PFI that the shooting was justified and within Bureau policy.

On 4/19/93 AUSA [redacted] EDM, Detroit, Michigan advised that the original complaint charging [redacted] with Assault of a Federal Officer (AFO), Title 18, USC 111 was dismissed. [redacted] was subsequently charged in an information with three counts of Bank Robbery, Title 18, USC 2113 (a) and (d). b6 b7C

Title: SHOOTING INCIDENT
[redacted]
APRIL 16, 1993

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis: On 4/16/93, at approximately 12:45 A.M., SA [redacted] who was returning to his residence from conducting an investigation in support of San Diego Case (166E-SD-51058), was stopped by a group of individuals who appeared to need assistance.

SA [redacted] visually observed these individuals damage a vehicle directly in front of his, and then attempt to "carjack" his vehicle. One subject struck SA [redacted] vehicle with a pool cue stick in an attempt to break the window. SA [redacted] accelerated through the area but continued to observe this group assaulting the next vehicle. This vehicle was also damaged with a blunt object.

SA [redacted] contacted the Police Emergency Operator "911" and attempted to report this violence but the connection was "cut-off". SA [redacted] stopped his vehicle, and attempted to thwart this violence by stating in a loud, clear voice, "police-stop-put your hands up". Three subjects ran towards SA [redacted] who was standing near his vehicle and had his Bureau issued weapon drawn. The first subject continued to approach and had his right hand in his waist band. SA [redacted] thought that these men were armed with semi-automatic pistols and that they were going to begin shooting at him.

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

When the first subject was approximately 25 yards away, SA [redacted] fired a shot at the subject, but the shot missed. The magazine in the weapon of SA [redacted] was not properly seated and SA [redacted] attempted to fire again, but was unsuccessful. While the subjects continued to approach, SA [redacted] instinctively tapped the magazine and recharged the weapon. While releasing the slide, two rounds were immediately discharged from the weapon. Again, no injuries resulted. At this point the subjects retreated.

b6
b7C

SA [redacted] successfully contacted the police and provided descriptive information, which was corroborated by other witnesses, and arrests were made within the hour. SA [redacted] immediately reported the incident to his supervisor and cooperated fully with the Gang Unit of the San Diego Police Department.

Title: SHOOTING INCIDENT
MAY 20, 1993
NEWARK DIVISION

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis: On May 20, 1993, Newark Special Agent (SA) [redacted] fired one round from a Sig Sauer 9mm caliber pistol at fugitive [redacted] No one was injured and [redacted] fled in a stolen vehicle. This event was precipitated by the following:

[redacted] had six (6) outstanding warrants from the ESSEX COUNTY SHERIFF'S OFFICE and NEWARK POLICE DEPARTMENT, for charges of Assault and Possession of Stolen Property. As a result, a Preliminary Inquiry (PI) Unlawful Flight to Avoid Prosecution (UFAP) investigation was opened on [redacted] on May 16, 1993.

On May 20, 1993, SA [redacted] ascertained that [redacted] was driving a black Ford Mustang, with tinted windows, New Jersey License [redacted] which was a stolen vehicle. While conducting investigations to locate [redacted] SA [redacted] spotted a vehicle answering this description. SA [redacted] in his Bureau car, followed the vehicle and confirmed it was the stolen automobile [redacted] was allegedly driving. SA [redacted] radioed for assistance and continued to follow the vehicle. The subject vehicle came to a slow stop for a traffic light located at Fulton Street and Broad Street. SA [redacted] drove up directly behind the vehicle and radioed his position.

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

SA [redacted] decided to contact and arrest [redacted] SA [redacted] was completely familiar with [redacted] having previously successfully obtained [redacted] cooperation in apprehending his brother. SA [redacted] decided to attempt the arrest because he was aware that [redacted] had previously been involved in chases with the police and did not want to cause a high speed pursuit in the downtown Newark area.

SA [redacted] exited his vehicle with his weapon drawn and concealed by his leg from the occupant of subject vehicle. The subject vehicle began traveling in reverse at an angle towards SA [redacted] SA [redacted] jumped out of the vehicle's way and yelled "Stop"! SA [redacted] brought his pistol to arm level and fired one shot into the driver's side window. After he fired, the vehicle abruptly stopped coming at him and accelerated forward, turning left on Fulton Street. [redacted] was successful in his escape attempt.

b6
b7C

On May 21, 1993, a criminal complaint was filed and an arrest warrant issued for [redacted] for Assault on a Federal Officer.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT INVOLVING
SA [redacted]
KANSAS CITY DIVISION
MAY 21, 1993

Character: ADMINISTRATIVE INQUIRY

Synopsis: On 5/21/93, Special Agents of the FBI and state and county law enforcement officers attempted to arrest WILLIAM DALE JONES in Jefferson City, Missouri. JONES was the subject of an Unlawful Flight to Avoid Prosecution warrant issued in Orlando, Florida, on 1/4/91. During this attempted arrest, JONES utilized his pickup truck in an attempt to avoid arrest and in so doing he drove directly at SA [redacted], who was standing outside his Bureau vehicle. The Cole County Sheriff and his first deputy, both in uniform, had unsuccessfully ordered JONES to stop his attempt to drive from a parking lot and fired several shots at JONES' vehicle in order to disable it. SA [redacted] saw the sheriff and deputy firing their weapons but withheld fire from his own weapon until after JONES rammed his Bureau car in the attempt to hit SA [redacted] After being hit by the driver's side door of his car, SA [redacted] fearing that JONES would attempt to hit him again, opened fire with his Smith and Wesson 10mm, Model 1076, approximately five times. JONES' vehicle came to a stop a short distance away and JONES was observed to have received a wound to his head. JONES expired from this wound on 5/22/93. An autopsy performed on 5/24/93, determined that JONES had been hit with one round to the head. Ballistics examination of this round determined it to be a 10mm with no further identification able to be made.

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

SA [redacted] was the only shooter utilizing a 10mm. After being alerted on 5/20/93, to the fact that JONES was believed to be in Jefferson City, Missouri area, agents assigned to the three-man RA located in Jefferson City alerted local authorities. As additional information was received from the FBI in Tampa, Florida, on the 21st, plans were formulated to facilitate subject's arrest with the assistance of the Kansas City SWAT Team under the supervision of ASAC WILLIAM H. GENTRY and SSRA [redacted] Physical surveillance and SWAT deployment at a possible location for the subject during the evening of 5/20 and early morning of 5/21/93, failed to locate subject. ASAC GENTRY, SSRA [redacted] and SWAT personnel left Jefferson City, which is three and a half hours from Kansas City after this all night surveillance. Jefferson City personnel, including SA [redacted] conducted spot checks during the day of possible locations for JONES. These spot checks resulted in locating a pickup truck believed to be operated by JONES at his mother's residence around 3:30 p.m. on 5/21/93. Unable to conduct a full-scale surveillance of this vehicle, it was in and out of observation until such time as it was located at the JUNGLE BAR, 1009 Missouri Boulevard, Jefferson City, Missouri. SAs [redacted] and [redacted] were on the scene and assisted by Cole County Sheriff [redacted] Chief Deputy Sheriff [redacted] and Lt. [redacted] Missouri Highway Patrol. SA [redacted] remained in the Jefferson City Resident Agency to facilitate communications with the on-scene participants. Concern that JONES had a police scanner negated use of the county radio system and local officers did not have FBI communications; therefore, SA [redacted] was in telephonic contact with Sheriff [redacted], who had visual observation of subject's vehicle from a garage across the street from the JUNGLE BAR. When JONES left the bar and entered his pickup truck, [redacted] telephonically relayed this observation, made by SA [redacted] to the sheriff, who in turn proceeded to enter his vehicle and drive into the lot. Events surrounding the shooting then followed. On 6/2/93, Cole County Prosecutor ruled that in this instance the use of deadly force falls within the parameters established and allowed under both federal and state law.

Field Office File #: 62A-DE-70096 Bureau File #:

Title: SHOOTING INCIDENT
DETROIT DIVISION
5/25/93

Character: ADMINISTRATIVE INQUIRY

Synopsis:

On 5/25/93, SA [redacted] received source information as to the location of JULIUS BIGGS, a fugitive in a UFAP - Escape matter. The source advised that BIGGS had no weapon. Personnel of the Alliance Fugitive Task Force and the DPD were notified and BIGGS was located, with two other males, on the front porch of the residence at 9331 Pryor, Detroit, Michigan. Pursuant to the arrest plan, at approximately 6:00 p.m., FBI Agents, DPD Officers and a Wayne County Deputy Sheriff proceeded to the residence to arrest BIGGS. As SAs [redacted] and Deputy Sheriff [redacted] were exiting their vehicles, BIGGS walked through the front door into the house. [redacted] asked [redacted] one of the individuals on the porch, if JULIUS had a weapon and [redacted] said, "No." The door was locked and the Agents and officers knocked and identified themselves. [redacted] kicked in the door as they were in hot pursuit. Entry was made. [redacted] discovered stairs leading to a second level, saw a door at the top of the stairs move slightly and an

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

individual behind the door. [redacted] said, "Is that you, JULIUS?" He told him to come out and the individual replied, "Fuck you, I'm not coming out." [redacted] started up the stairs to arrest BIGGS and [redacted] saw a gun pointed down the steps from the door. [redacted] saw a muzzle flash, heard a noise and fell backwards down the steps. [redacted] thought [redacted] had been shot and fired one round with his personally owned, Bureau approved, S&W 4516-1, serial number TEH3307, up the steps. [redacted] advised another shot came from the top of the stairs and, after seeing the subject peek back and forth around the corner, he returned two more rounds toward the top of the steps. The three shots fired by SA [redacted] did not hit the subject. They then backed off and began to assist two females out of the residence. A single shot was heard from the upstairs area. BIGGS was found lying on the floor in an upstairs room, near a bed. A pool of blood was near his head and a blue steel .357 magnum was on the floor. [redacted] believes [redacted] actions prevented BIGGS from firing additional shots at him. DPD report set out. The report of the Wayne County Medical Examiner stated that BIGGS' death was caused by a contact gunshot (.357) wound of the head and the manner of death was a suicide. No other gunshot wounds were identified in the Wayne County Medical Examiner Report.

Report of: SSA [redacted] Office: NEW YORK
Date: June 22, 1994

Field Office File #: Bureau File #:

Title: SHOOTING INQUIRY
6/12/94
NEW YORK

b6
b7C

Character: ADMINISTRATIVE INQUIRY

Synopsis: Investigation at New York was initiated when SA [redacted] telephonically contacted his supervisor to advise her of a shooting incident in which he had been involved. He reported that he had discharged one round at a pit bull which had been released at him while he sat in his personally owned vehicle. No one had been injured as the result of the shooting, but SA [redacted] suffered slight injuries as the result of a physical attack by two individuals, just prior to the dog being released upon him.

Investigation reveals no wrongdoing on the part of SA [redacted]

In conducting this inquiry, SA [redacted] was interviewed, a copy of the New Brunswick Police Report was reviewed, SA [redacted] car and clothing w ere examined and the scene of the altercation was visited. SA [redacted] provided a sworn signed statement to FBI investigators and an audio taped interview to the local police. He cooperated with local police in identifying one of his attackers from a mug shot. This individual was arrested by local police for aggravated assault on Wednesday 6/15/94. A second subject has not yet been identified, but local police are trying to learn his identity through his nick name.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Details:

1. Signed Sworn Statement of SA [redacted]

On Sunday, June 12, 1994 at approximately 8:45 am SA [redacted] went to a public park near his home to play basketball. He played approximately six games of basketball before he decided to take a break.

During one of the games he encountered a dispute over a penalty which seemed to enrage two members of another team, and one of them said, "We can settle this another way." b6 b7C

When SA [redacted] took a break, he sat on the side of the basketball court for a short time. As he got up to leave, one of the two players from the earlier game approached him and threw a basketball at him. The second player from the earlier game came over and threw two or three punches at SA [redacted] face. Other players from the game came to SA [redacted] assistance and while they held the two at bay, SA [redacted] retreated to his car. As he was doing so, he heard the man who had punched him yell, "Get the dog. "

Soon after SA [redacted] arrived at his car, and was seated in the driver's seat, he heard a load noise at the driver's door window and the window broke onto his head and upper body. The man who had punched him reached into the car, opened the door and let the dog into the car. The other man was standing on the passenger's side of the car. SA [redacted] reached for his gun which was on the passenger's side floor in his gym bag. SA [redacted] exited the vehicle with his gun as the dog grabbed at his left foot. SA [redacted] pointed his weapon at the dog, and discharged one round at the dog. The dog and the assailants ran off.

SA [redacted] sought witnesses to the events and then telephoned the New Brunswick, NJ, police department using a public telephone at the parking lot. Police responded and took a report. SA [redacted] went to the Police Headquarters and was interviewed by a detective to whom he gave a audio recorded statement. He further identified one subject from a mug shot. This was the subject who punched him and who was in control of the dog. b6 b7C

2. Fd - 302 of SSA [redacted] and SSA [redacted]

SSA [redacted] and SSA [redacted] observed the damage to SA [redacted] personal vehicle within seven hours of the event. They additionally viewed a bloodied T-shirt and a damaged basketball shoe consistent with the altercation which SA [redacted] had described. They additionally visited the scene with SA [redacted] and verified the existence of the site and a layout consistent with SA [redacted] statement.

3. Police Report

The initial police report of P.O. [redacted] #[redacted] is consistent with the statement provided by SA [redacted] The police report notes that only one cartridge was recovered at the scene, and the weapon had twelve rounds in the magazine and one in the chamber. P.O. [redacted] had problems identifying witnesses at the scene. Some people there said they saw the victim [redacted] and someone else arguing, but could not say what happened.

b6
b7C

There is a supplemental report prepared by Det. [redacted] This statement is also constant with SA [redacted] sworn signed statement. Det. [redacted] assembled the photo spread which identified the subject, [redacted]

Memorandum from [redacted] to Mr. [redacted]
Re: Shooting Incident
Administrative Inquiry
7/17/93
Baltimore Division

DETAILS: On 9/30/93, the SIRG, consisting of Acting Chairman Joseph C. Johnson, Office of Professional Responsibility, Inspection Division; Section Chief Edward R. Leary, Personnel Management Section, Administrative Services Division; Section Chief Nicholas J. Walsh, Global Section, Intelligence Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; and Unit Chief [redacted] Firearms Training Unit, Training Division, met to discuss the above-captioned shooting.

b6
b7C

Synopsis of the Shooting Incident

On 7/17/93, Agents of the Southern Maryland Metropolitan Resident Agency, Baltimore Division, were involved in executing a plan to arrest [redacted] who was wanted for drug-related homicides in Prince George's County, Maryland. Information was developed which indicated that [redacted] was located at an apartment in Silver Springs. Surveillance of the apartment confirmed this information. Another male and a female were known to be in the apartment with [redacted] The other male was identified as [redacted] who was also wanted on murder charges in Prince George's County.

At approximately 12:30 p.m., the surveillance team saw someone close the drapes in the apartment, and believed that [redacted] and the others were preparing to leave. They planned to arrest [redacted] as he and the others attempted to get into their vehicle. The three subjects and a pit bull terrier exited the apartment, and [redacted] the female (later identified as [redacted] and the dog got into a White Chevy Geo. [redacted] was standing at the hatchback. SA [redacted] and SA [redacted] exited the surveillance vehicle. SA [redacted] identified himself as an FBI Agent and ordered [redacted] to stop. [redacted] fled the area on foot, followed by SA [redacted] SA [redacted] approached the driver's window and saw [redacted] and [redacted] inside the car. As he ordered them not to move, and the pit bull exited the rear window of the vehicle and approached him in a menacing manner. SA [redacted] jumped onto the roof of the vehicle, and the dog followed. At that point, SA [redacted] fired one shot at the dog, striking the dog in the hindquarters. The dog fled the area. SA [redacted] then got off the

b6
b7C

(Continued - Over)

car and told [redacted] and [redacted] to come out of the car. Both were arrested without incident. [redacted] was arrested by SA [redacted] and SSA [redacted] a short distance away.

b6
b7C

SA [redacted] apparently fired his weapon at the dog, believing that the dog was about to attack him.

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident, as documented by the administrative inquiry furnished to the SIRG, dated 8/5/93, revealed that proper procedures were followed by SA [redacted] during this incident. SA [redacted] fired his weapon as he believed the pit bull terrier was about to attack him.

After a thorough review of all the facts regarding this incident, it was the unanimous opinion of all members of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in the above-captioned shooting incident.

Character: ADMINISTRATIVE INQUIRY

Synopsis: At approximately 11:00 a.m., 8/12/93, SA [redacted] Denver Division, accompanied by District Attorney's Investigator [redacted] went to the residence of [redacted] Wellington, Colorado. The purpose of going to the residence was to serve a summons on [redacted] demanding his presence in U. S. District Court, Amarillo, Texas, at 9:30 a.m., 8/13/93. The residence is in a rural area with the nearest other home approximately one-half mile away. As SA [redacted] and Investigator [redacted] drove up to the front of the residence, [redacted] wife, [redacted] was in the front yard watering plants. Before either individual could exit the vehicle, [redacted] dropped the hose and ran into the residence. SA [redacted] exited the vehicle and posted a copy of the summons on the split rail fence directly in front of the front door of the residence inasmuch as personal service of the summons did not seem possible based on [redacted] actions. SA [redacted] then took three Polaroid photographs of the front of the residence and the posted summons and went to the front door and rang the bell and knocked on the door. No one responded and as SA [redacted] started walking back to the vehicle operated by Investigator [redacted] three dogs ran from the back of the house and began barking and growling in an aggressive and threatening manner towards

b6
b7C

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

SA [redacted] When the dogs did not respond to verbal commands to stop, SA [redacted] fired four rounds from his .357 revolver at the lead dog. He believes he hit the dog one or two times and the dog stopped and ran back behind the residence accompanied by the other two dogs. [redacted] nd [redacted] then left the scene. The dogs were seen in the back yard of the house with the most aggressive dog limping. Sheriff Deputies responded to the scene and decided not to request a Dog Warden to go to the residence because of possible altercations with Mr. and/or Mrs. [redacted]. The circumstances of the shooting of the dog as relayed by Investigator [redacted] were the same as the version of SA [redacted]

Memorandum from Chairman, SIRG, to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
9/10/93
Newark Division

b6
b7C

DETAILS: On 2/3/94, the SIRG, consisting of Chairman E. Michael Kahoe, Criminal Investigative Division; Unit Chief [redacted] Office of Professional Responsibility, Inspection Division; Section Chief Stephen W. Dillard, Global Section Intelligence Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Unit Chief [redacted] Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted] Washington Metropolitan Field Office, met to discuss the above-captioned shooting.

## Synopsis of the Shooting Incident

On the evening of 9/10/93, SA [redacted] assigned to the Newark Division, arrived in Washington, D.C., to visit with his young daughter at the residence of her grandmother (Mrs. [redacted]. As SA [redacted] was carrying packages from his vehicle to Mrs. [redacted] residence, he heard the sound of young girls screaming. He first believed the children were playing, but when the screams got louder he thought that someone was being hurt or attacked. He ran in the direction of the screams and saw a young girl, face down on the sidewalk, with a large dog on top of her. SA [redacted] yelled at the dog, and tried to distract its attention away from the child. He eventually distracted the dog long enough to pull the child away from the dog. The dog then lunged at SA [redacted] He attempted to fire his Smith and Wesson 9mm at the dog, but the safety was on. He took the safety off and, as the dog lunged again, fired one shot at the dog. The shot missed the dog and embedded in the ground. The dog then turned and ran away.

b6
b7C

SA [redacted] then returned his weapon to its holster, and carried the little girl to her home. He then called the Washington, D.C. Police and an ambulance. The next morning, he notified the Newark Division of the discharge.

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 9/20/93, revealed that proper procedures were followed by SA [redacted] during this incident. SA [redacted] fired his weapon fearing for his own life and to protect the life of a child which was being attacked by a dog.

After a thorough review of all the facts regarding this incident, it was the unanimous opinion of all members of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in the above-captioned shooting incident.

Title: ADMINISTRATIVE INQUIRY
SHOOTING INCIDENT;
SALT LAKE CITY DIVISION;
12/22/93

Character: ADMINISTRATIVE INQUIRY

Synopsis: On 12/22/93, at approximately noon, near Montezuma Creek, Utah, on the NAVAJO INDIAN RESERVATION, SA [redacted] date of birth [redacted] EOD 6/15/82, while making a felony FBI arrest, was attacked by two dogs. SA [redacted] fired one round from his Bureau issued SIG SAUER P226 at subject dog described as a thirty pound black and gray multi-breed female. Subject dog had attacked him and was in the process of repeating the attack. The distance between SA [redacted] and the dog was less than three feet. Neither SA [redacted] nor the dog were injured in the melee.

b6
b7C

SA [redacted] was backed up on aforementioned arrest (of [redacted] by two Navajo Criminal Investigators [redacted] and [redacted] and SAN JUAN COUNTY DEPUTY SHERIFF [redacted] Referenced law enforcement personnel met at the Montezuma Creek Resident Agency at approximately 11:00 a.m. on date of incident to plan the arrest. The officers departed the RA and arrived at the scene of the arrest (shooting incident) at approximately 12:00 noon. The two Navajo Police Officers were stationed in a back-up response mode approximately 100 yards from the scene of the shooting and were not in a position to observe the shooting. Deputy Sheriff [redacted] was standing about 15 feet from SA [redacted] He observed the two dogs run towards SA [redacted] and [redacted] fire one round at the black and gray dog.

Memorandum from Chairman, SIRG, to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
3/4/93
Chicago Division

DETAILS: On 5/6/93, the SIRG, consisting of Chairman E. Michael Kahoe, Criminal Investigative Division; Supervisory Special Agent [redacted] Inspection Division (Alternate); Section Chief Nicholas J. Walsh, Global Section, Intelligence Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Unit Chief [redacted] Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

On 3/4/93, as SA [redacted] was driving his Bureau car from his residence to the Chicago office, he noticed a male motioning for him to stop and help him. When SA [redacted] exited his vehicle, the man [redacted] indicated that he needed help in trying to rescue a young girl who was being attacked by two Rotweiller dogs. [redacted] tried to get the dogs to release the girl by swinging jumper cables at them, and SA [redacted] tried to frighten the dogs away. After repeated attempts to get the dogs to release the girl, the dogs turned away from her and began circling SA [redacted] When the dog on SA [redacted] left side made an aggressive move toward him, he fired one shot from his Sig Sauer P228 which struck the dog in the upper left part of its body. Both dogs immediately fled the area. The dog which SA [redacted] shot was later found dead a few blocks from the site of the shooting. Local police officers, who were called to the scene, located the second dog. A police officer shot and killed the second dog after that animal made a menacing move toward him. The young girl was taken to a hospital where she received treatment for her injuries and was reported to be in good condition. b6 b7C

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident, as documented by the administrative inquiry furnished to the SIRG, dated 3/17/93, determined that proper procedures were followed during this shooting incident. SA [redacted] fired his weapon in

## EXPLANATION OF EXEMPTIONS

### SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552

(b)(1) (A) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (B) are in fact properly classified to such Executive order;

(b)(2) related solely to the internal personnel rules and practices of an agency;

(b)(3) specifically exempted from disclosure by statute (other than section 552b of this title), provided that such statute(A) requires that the matters be withheld from the public in such a manner as to leave no discretion on issue, or (B) establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(b)(4) trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(b)(5) inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(b)(6) personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(b)(7) records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information ( A ) could be reasonably be expected to interfere with enforcement proceedings, ( B ) would deprive a person of a right to a fair trial or an impartial adjudication, ( C ) could be reasonably expected to constitute an unwarranted invasion of personal privacy, ( D ) could reasonably be expected to disclose the identity of confidential source, including a State, local, or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of record or information compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source, ( E ) would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law, or ( F ) could reasonably be expected to endanger the life or physical safety of any individual;

(b)(8) contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(b)(9) geological and geophysical information and data, including maps, concerning wells.

### SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552a

(d)(5) information compiled in reasonable anticipation of a civil action proceeding;

(j)(2) material reporting investigative efforts pertaining to the enforcement of criminal law including efforts to prevent, control, or reduce crime or apprehend criminals;

(k)(1) information which is currently and properly classified pursuant to an Executive order in the interest of the national defense or foreign policy, for example, information involving intelligence sources or methods;

(k)(2) investigatory material compiled for law enforcement purposes, other than criminal, which did not result in loss of a right, benefit or privilege under Federal programs, or which would identify a source who furnished information pursuant to a promise that his/her identity would be held in confidence;

(k)(3) material maintained in connection with providing protective services to the President of the United States or any other individual pursuant to the authority of Title 18, United States Code, Section 3056;

(k)(4) required by statute to be maintained and used solely as statistical records;

(k)(5) investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment or for access to classified information, the disclosure of which would reveal the identity of the person who furnished information pursuant to a promise that his/her identity would be held in confidence;

(k)(6) testing or examination material used to determine individual qualifications for appointment or promotion in Federal Government service the release of which would compromise the testing or examination process;

(k)(7) material used to determine potential for promotion in the armed services, the disclosure of which would reveal the identity of the person who furnished the material pursuant to a promise that his/her identity would be held in confidence.

Memorandum from Chairman, SIRG, to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
2/24/93
Birmingham Division

b6
b7C

DETAILS: On 5/6/93, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Supervisory Special Agent [redacted] Inspection Division (Alternate); Section Chief Nicholas J. Walsh, Global Section, Intelligence Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Unit Chief [redacted], Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting.

Synopsis of the Shooting Incident

On 2/24/93, Agents of the Birmingham Division along with local police and representatives of the U.S. Customs Service were involved in resolving a hostage situation in Homewood, Alabama. The hostage [redacted] had come to Alabama from Michigan for the purpose of buying automobiles from subjects [redacted] and [redacted] and [redacted] were apparently involved in the fraudulent sale of automobiles, as some of the titles appeared to have been altered. Upon picking [redacted] up at the local airport, he was transported to [redacted] apartment where he was tied up. [redacted] was allowed to talk to his superiors in Michigan, and was instructed to tell them that the sale of the automobiles was fine, and they should send the money for the cars down to Alabama.

b6
b7C

By the use of a pretext call, it was determined that [redacted] was in [redacted] apartment. In following through with their plan, Birmingham Agents, local police and the U.S. Customs Agents were waiting in the parking lot of the apartment. Immediately following the pretext call, Agents entered [redacted] apartment. At that moment, [redacted] and [redacted] both jumped from the second-story balcony to the parking lot below. SSA [redacted] who was assigned to remain in the parking lot watching the apartment, saw the subjects jump and ordered them to halt. [redacted] who apparently injured his foot as a result of jumping, stopped and was apprehended. [redacted] continued to flee, and when SSA [redacted] identified himself as an FBI Agent and ordered him to stop, [redacted] made a motion as if he were retrieving a weapon from the waistband of his pants. SSA [redacted] fired at [redacted] but missed. [redacted] continued running. SSA [redacted] did not fire

(Continued - Over)

Savage-1321

additional shots, as [redacted] had run through the doorway of another apartment building. SSA [redacted] feared that firing again might place other residents in danger. [redacted] was apprehended several days later in New Orleans. Both subjects were subsequently indicted on Hobbs Act-Extortion charges. b6 b7C

It appears that SSA [redacted] fired his weapon because he believed he was about to be fired upon by the subject [redacted] However, it is noted that two individuals who were interviewed as a part of this inquiry indicated they believed SSA [redacted] intentionally fired high and did not intend to hit [redacted] It is further noted that SSA [redacted] shot lodged in the roof of the apartment building, approximately 26 feet off the ground.

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident, as documented by the administrative inquiry furnished to the SIRG, dated 3/10/93, determined that SSA [redacted] was justified in the firing of his weapon in that it appeared the subject was in the process of drawing a weapon. The SIRG is somewhat concerned, however, about SSA [redacted] shot going so far over the head of the subject.

After a thorough review of all the facts concerning this incident, it was the unanimous opinion of all members of the SIRG that SSA [redacted] be afforded remedial firearms training.

Memorandum from Chairman, SIRG, to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
3/2/93
Detroit Division

DETAILS: On 5/6/93, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Supervisory Special Agent [redacted] Inspection Division (Alternate); Section Chief Nicholas J. Walsh, Global Section, Intelligence Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Unit Chief [redacted] Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted] Washington Metropolitan Field Office, met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

On 3/1/93, a Detroit source provided information that [redacted] was responsible for several recent bank robberies in the Metropolitan Detroit area. The source also indicated that [redacted] was a "crack" addict, was most likely armed, and often stayed at the Suez Motel in Warren, Michigan. SA [redacted] and SA [redacted] displayed a photo of [redacted] to some of the employees of the victim banks, who identified [redacted] as the robber. Although at the time there was no Federal arrest warrant for [redacted] SAs [redacted] and [redacted] had probable cause to arrest him as a result of the identification by the bank employees. SAs [redacted] and [redacted] along with other Agents from the Detroit office, devised a plan to arrest [redacted] at the Suez Motel. On 3/3/93, a Federal arrest warrant for [redacted] was issued by the U.S. District Court, Eastern District of Michigan.

On 3/2/93, the Agents went to the Suez Motel to await [redacted] arrival. As [redacted] pulled into the parking lot and exited his car, SAs [redacted] and [redacted] attempted to arrest him. [redacted] got back into his car and tried to flee. Other Agents tried to pull their cars into a position which would block [redacted] escape, but they were unable to do so because of traffic. SA [redacted] identified himself as an FBI Agent and ordered [redacted] to stop. [redacted] however, continued in his vehicle, which was headed toward SA [redacted] At the last minute, SA [redacted] jumped out of the way of [redacted]'s vehicle and fired a shot from his Smith and Wesson 9 mm at the driver's door. SA [redacted] believed that his life, as well as the lives of the other Agents and bystanders, were in danger. A chase ensued; however, [redacted] escaped. b6 b7C

(Continued - Over)

Later that evening, [redacted] returned to the Suez Motel where he was arrested without incident. [redacted] was charged with Bank Robbery and Assault on a Federal Officer (AFO); however, the AFO charges were later dropped.

b6
b7C

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 4/19/93, determined that proper procedures were followed during this shooting incident. SA [redacted] fired his weapon in an attempt to protect his own life and the lives of other Agents and bystanders.

After a thorough review of all the facts concerning this incident, it was the unanimous opinion of all members of the SIRG that no administrative action be taken against any FBI employee as a result of this shooting incident.

Memorandum from Chairman, SIRG, to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
3/26/93
Richmond Division

DETAILS: On 5/6/93, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Supervisory Special Agent [redacted] Inspection Division (Alternate); Section Chief Nicholas J. Walsh, Global Section, Intelligence Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Unit Chief [redacted] Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

During the period prior to 3/26/93, SA [redacted] has been involved in an investigation of a Crime on a Government Reservation - Murder for Hire matter along with the Army CID at Fort Lee, Virginia, and the Virginia State Police. A CID source, named [redacted] had provided information which led to the arrest of the subject of the Murder for Hire matter. However, during the course of the investigation, SA [redacted] believed that some inconsistencies existed regarding statements made by [redacted] SA [redacted] ran an NCIC check on [redacted] and found that one [redacted] was wanted in New Jersey for failure to appear regarding several drug charges. SA [redacted] believed that [redacted] and [redacted] were the same individual.

SA [redacted] along with SA [redacted] of the Richmond Division, went to Fort Lee, along with a Virginia State Trooper. At Fort Lee, the CID investigators called [redacted] in, indicating that they needed to ask him some questions. [redacted] appeared, where he met SA [redacted] and the others. SA [redacted] asked [redacted] if he were indeed [redacted] who was wanted by New Jersey authorities. [redacted] denied that he was this individual. SA [redacted] advised that they could clear the matter up easily by taking his fingerprints. [redacted] agreed to have his prints taken. A comparison of the fingerprints indicated that [redacted] was, in fact, [redacted] b6 b7C

(Continued - Over)

Savage-1328

After admitting his true identity, [redacted] asked them not to send him back to New Jersey, as he feared for his life. SAs [redacted] and [redacted] moved behind a partition so that the male officers could strip search [redacted] before taking him into custody. A scuffle ensued and [redacted] tried to escape. SAs [redacted] and [redacted] came from around the partition and assisted in attempting to subdue [redacted] SA [redacted] drew her Sig Sauer 9mm weapon and pointed it at [redacted] lunged at her, at which time SA [redacted] fired one shot. The shot missed [redacted] however, he fell to the floor at the sound of the gunshot and was then overpowered and handcuffed.

b6
b7C

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident, as documented by the administrative inquiry furnished to the SIRG, dated 4/8/93, determined that proper procedures were followed during this shooting incident. SA [redacted] fired her weapon believing that her life, as well as the lives of her fellow law enforcement officers, were in danger.

After a thorough review of all the facts concerning this incident, it was the unanimous opinion of all members of the SIRG that no administrative action be taken against any FBI employee as a result of this shooting incident.

Memorandum from Chairman, SIRG, to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
6/15/93
Springfield Division

DETAILS: On 7/21/93, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Deputy Assistant Director Joseph C. Johnson, Office of Professional Responsibility, Inspection Division; Section Chief Edward R. Leary, Personnel Management Section, Administrative Services Division; Section Chief Nicholas J. Walsh, Global Section, Intelligence Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Special Agent [redacted], Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

On 6/15/93, members of the Springfield VCDTF were involved in the planned arrest of two drug dealers, [redacted] and [redacted] in Cairo, Illinois. The VCDTF is composed of officers of the Illinois State Police, SAs of the Federal Public Housing Drug Task Force (under the supervision of the Cairo, Illinois, Police Department), and SAs of the Springfield Division. The SSRA of the Carbondale Resident Agency is the coordinator of the VCDTF.

[redacted] The arrest plan called for the arrest of [redacted] and [redacted] as they returned to Cairo from Chicago where they had picked up crack cocaine. The two were to be arrested as they exited the Interstate Highway passing through Cairo. The exit was in an open area with no buildings, which would prevent the subjects from endangering the public if they fled. The vehicle stop did not occur at the exit, and the car was stopped by Housing Task Force SAs [redacted] and [redacted] outside [redacted] residence. As the subjects got out of the car, [redacted] fled on foot. SA [redacted] fired three warning shots into the air in an effort to get [redacted] to stop. [redacted] was later arrested by VCDTF members approximately 200 yards away. b6 b7C

SA [redacted] fired the warning shots before any FBI personnel had arrived at the scene. He was advised by the FBI SSRA that FBI policy prohibited the use of warning shots, which he said he understood. He was also advised that the Cairo Police Department policy prohibited the use of warning shots, unless

(Continued - Over)

b6
b7C

deadly force was appropriate. The Cairo Police Department disciplined SA [redacted] by suspending him without pay for five working days.

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 6/28/93, revealed that a non-FBI member of a joint task force under the oversight of the FBI inappropriately discharged his weapon by firing a warning shot. The task force member was advised that this is against FBI policy, as well as against the policy of the local police department. He was subsequently disciplined by his own department.

After a thorough review of all the facts regarding this incident, it was the unanimous opinion of all members of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in the above-captioned shooting incident.

b6
b7C

Synopsis of the Shooting Incident

On 4/16/93, at approximately 12:45 a.m., SA [redacted] was returning to his residence after conducting investigation in connection with a case he was assigned targeting street gangs in the San Diego area. As he drove toward his residence, he noticed a group of individuals in the road ahead who were attempting to flag down the car in front of him. As this car slowed, the individuals approached the car and began to hit the car with their hands and other objects. The driver of this car sped away. As SA [redacted] approached the individuals, he tried to drive around them. However, one individual struck at SA [redacted] vehicle with a pool cue. SA [redacted] drove on ahead and watched the car behind him pass through where the individuals were standing. They also assaulted the third car. SA [redacted] called the police from his car phone and turned his car around, shining the headlights at the individuals. As they approached him, SA [redacted] got out of his car and drew his 9mm, Sig Sauer P-226, and identified himself as a law enforcement officer. The individuals continued toward him, and one put his hand to his belt as if he were drawing a weapon. At that time, SA [redacted] fired one shot. As he tried to fire a second and third shot, the weapon jammed. He hit the bottom of the magazine and pulled the slide to the rear, at which time the weapon immediately discharged two more rounds. The subjects ran down a nearby embankment and SA [redacted] called the police a second time. He then returned to his residence to await the arrival of the police.

b6
b7C

(Continued - Over)

After the police arrived and took his statement, SA [redacted] was asked to attempt to identify the subjects from a number of individuals the San Diego Police had apprehended near the scene. SA [redacted] positively identified four individuals. b6 b7C

SA [redacted] indicated that he fired his weapon because he fully believed that at least one subject was armed and about to draw a weapon.

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 4/23/93, revealed that proper procedures were followed by SA [redacted] during this incident. SA [redacted] fired his weapon after he had fully identified himself as an FBI Agent, and when he believed that at least one subject was about to pull a weapon from his waistband. b6 b7C

After a thorough review of all the facts regarding this incident, it was the unanimous opinion of all members of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in the above-captioned shooting incident.

Memorandum from Chairman, SIRG, to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
5/21/93
Kansas City Division

DETAILS: On 7/21/93, the SIRG, consisting of Chairman [redacted] Criminal Investigative Division; Deputy Assistant Director Joseph C. Johnson, Office of Professional Responsibility, Inspection Division; Section Chief Edward R. Leary, Personnel Management Section, Administrative Services Division; Section Chief Nicholas J. Walsh, Global Section, Intelligence Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Special Agent [redacted], Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted], Washington Metropolitan Field Office, met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

On 5/20/93, Agents of the Jefferson City, Missouri, Resident Agency learned that William Dale Jones, a fugitive from Florida, was possibly in Jefferson City. Agents conducted surveillance at a trailer occupied by Jones' brother and at Jones' mother's residence. A white pickup truck, believed to belong to Jones, was spotted outside the trailer. Because of Jones' reputation for carrying weapons and his escape from arrest in the past, the assistance of the Kansas City SWAT Team was requested. By the time the SWAT Team arrived late that night, however, the pickup truck was no longer at the trailer. The SWAT Team was sent back to Kansas City early on the morning of 5/21/93, after conducting surveillance of the trailer during the night.

Later that afternoon, the pickup truck was spotted at the residence of Jones' mother. Surveillance was established on the mother's residence. At approximately 3:50 p.m., Jones came out of the residence and departed in the truck. SA [redacted] followed Jones, but later lost him. The truck was then located in the parking lot of a local bar and assistance was requested from local law enforcement. SA [redacted] punctured the tire of Jones' truck in case Jones should try to flee the area before additional officers arrived. By this time, the local sheriff and a deputy had arrived and were at a location across the street; SA [redacted] was approximately a block away. Jones exited the bar and got into his truck. The sheriff and deputy approached the truck and told Jones to come out. Jones began b6 b7C

(Continued - Over)

backing his truck toward SA [redacted] vehicle, striking the vehicle and SA [redacted] The sheriff and deputy fired at the truck. After being struck, SA [redacted] fired his 10 mm, Smith and Wesson Model 1076, at Jones five times. Jones was struck and slumped over the steering wheel. He was removed from the truck and afforded medical attention at the scene. Jones was transported to the hospital where he died. b6 b7C

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 6/14/93, revealed that proper procedures were followed by SA [redacted] during this incident. SA [redacted] fired his weapon after Jones assaulted him with his vehicle. b6 b7C

After a thorough review of all the facts regarding this incident, it was the unanimous opinion of all members of the SIRG that no administrative action should be taken against any FBI employee as a result of their involvement in the above-captioned shooting incident.

Walsh, Global Section, Intelligence Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; Special Agent [redacted] Firearms Training Unit, Training Division; and Supervisory Special Agent [redacted] Washington Metropolitan Field Office, met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

On 6/3/93, members of the Cleveland Fugitive Task Force received information indicating that [redacted] a fugitive wanted for bank robbery in Akron, Ohio, was possibly located in Cleveland. Task Force members effected a plan to arrest [redacted] near a car dealership in Cleveland where, according to source information, he was going to pick up a car. [redacted] picked up an Audi at the dealership and, while leaving, he observed Task Force members following him. A high-speed chase ensued, ending when [redacted] ran into another vehicle. At that time, SA [redacted] and Deputy [redacted] Cuyahoga County Sheriff's Office, approached [redacted] vehicle. They saw [redacted] hands, in which he held a black weapon, exit the driver's window. Both SA [redacted] and Deputy [redacted] fired at [redacted] striking him several times. [redacted] was transported to the hospital where he recovered from his wounds.

[redacted] is charged with bank robbery, assault on a Federal officer, and use of a firearm during a crime of violence. b6 b7C

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 6/17/93, revealed that proper procedures were followed by SA [redacted] during this incident. SA [redacted] fired his weapon

Synopsis of the Shooting Incident

On 8/12/93, SA [redacted] and [redacted] an investigator from the District Attorney's Office, drove to the residence of [redacted] in order to serve a summons on [redacted] was one of several subjects in a Fraud By Wire/Mail Fraud investigation. [redacted] residence is located in a rural area outside Wellington, Colorado. As SA [redacted] and [redacted] approached the [redacted] residence, they saw Mrs. [redacted] outside watering some plants. When she saw SA [redacted] and [redacted] she dropped her garden hose and ran into the residence. SA [redacted] affixed the summons to a split rail fence in front of the residence, then went to the front door and rang the doorbell. No one answered the door and SA [redacted] could hear no noise inside the house. As he turned to go back to the vehicle, he noticed three dogs approaching him from the rear of the house. The lead dog was growling and acting in an aggressive manner. SA [redacted] tried to get the dogs away from him, but they kept approaching him. He then fired four rounds from his .357 revolver at the dogs, injuring the lead dog. The dogs then ran back toward the house, after which SA [redacted] and [redacted] departed. b6 b7C

SA [redacted] fired his weapon believing that his life was in danger because of the attacking dogs.

Leary, Personnel Management Section, Administrative Services Division; Section Chief Nicholas J. Walsh, Global Section, Intelligence Division; Unit Chief [redacted] Investigative Law Unit, Legal Counsel Division; and Unit Chief [redacted] Firearms Training Unit, Training Division, met to discuss the above-captioned shooting. b6 b7C

Synopsis of the Shooting Incident

On 5/20/93, SA [redacted] received information from a source regarding [redacted] who was wanted on six charges of Assault and Possession of Stolen Property. The Newark Division had also initiated an Unlawful Flight to Avoid Prosecution investigation regarding [redacted]. The [redacted] provided SA [redacted] with [redacted] stolen automobile which [redacted] was driving, and advised of an area of Newark where [redacted] was frequently located. SA [redacted] checked the license number of the automobile and confirmed that the vehicle was stolen. While driving his Bureau car in the area the source mentioned, SA [redacted] located [redacted] driving the car. He radioed for assistance and pulled his vehicle up behind [redacted] vehicle at a stop light. SA [redacted] was aware that [redacted] had previously fled to avoid arrest and, not wanting to cause a high-speed chase through Newark, SA [redacted] decided to arrest [redacted] while stopped at the light. SA [redacted] exited his vehicle and approached the driver's window of [redacted] vehicle. As he did this, [redacted] backed his vehicle in the direction of SA [redacted]. Believing that [redacted] was trying to run him over, SA [redacted] fired one shot from his 9mm Sig Sauer into the driver's window. [redacted] then put the car in gear and sped forward. SA [redacted] returned to his vehicle and pursued [redacted] but he was lost on the freeway. Investigation later resulted in the recovery of the car [redacted] was driving, but [redacted] was not located. b6 b7C b7D

SA [redacted] fired his weapon believing that his life was in danger, as [redacted] attempted to run him over with a vehicle.

Memorandum from [redacted] to Mr. [redacted]
Re: Administrative Inquiry
Shooting Incident
5/20/93
Newark Division

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 7/23/93, revealed that proper procedures were followed by SA [redacted] regarding his decision to utilize deadly force. The SIRG, however, questioned SA [redacted] judgment in deciding to attempt an arrest of [redacted] before assisting Agents could arrive on the scene. SA [redacted] decision to go ahead with the arrest alone put his life, as well as the lives of others, in potential danger.

b6
b7C

After a thorough review of all the facts regarding this incident, it was the opinion of the SIRG that SA [redacted] be counselled by SAC Newark regarding the appreciation of protecting his own life and the lives of bystanders.

b6
b7C

## Synopsis of the Shooting Incident

From 8:00 - 11:00 p.m., on the evening of 7/27/93, SA [redacted] attended a private dinner party at the Bar J Restaurant in Woodbridge, Virginia. While there, he met several work associates and friends who were also invited to the dinner, and struck up a conversation with [redacted] whom he had not previously known. At approximately 11:00 p.m., SA [redacted] asked [redacted] if she would like to accompany him to the Down Under Bar in Occoquan. She agreed, and they both left the Bar J Restaurant in their own vehicles. They spent approximately the next two hours talking and playing checkers at the Down Under Bar. SA [redacted] indicated that he had approximately two beers while at the Down Under and that he had two beers and a glass of wine at the Bar J Restaurant.

While [redacted] and [redacted] were at the Down Under, [redacted] approached them and engaged in conversation with them. [redacted] was not known to either [redacted] or [redacted] prior to this night. At approximately 1:30 a.m., on 7/28/93, [redacted] and [redacted] left the Down Under. [redacted] got into her vehicle, and SA [redacted] stood by the driver's window talking with her for a few minutes. While he stood there, he was approached from the rear by [redacted] A confrontation ensued, and [redacted] knocked SA [redacted] to the ground and began to hit him. SA [redacted] identified himself as an FBI Agent, and [redacted] then began groping SA [redacted] in an effort to locate him weapon. SA [redacted] grabbed his weapon and fired two shots, one of which struck [redacted] in the hip. [redacted] indicated that he feared for his life, believing that [redacted] would have shot him if he had managed to take control of the

b6
b7C

(Continued - Over)

weapon. The local police were called and responded to the scene. The Prince William County Commonwealth Attorney advised that he would decline prosecution against both [redacted] and SA [redacted] regarding this incident; however, both indicated that they believed SA [redacted] was being less than candid with them during their interviews of him. b6 b7C

SA [redacted] indicated that he identified himself as an FBI Agent prior to firing his weapon; however, [redacted] indicated that [redacted] did not identify himself as an Agent.

Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG revealed that proper procedures were followed by SA [redacted] regarding the deadly force policy. SA [redacted] fired his weapon believing that his own life was in danger. The SIRG is concerned, however, over the events which led to this shooting incident. The SIRG recommends that the Administrative Summary Unit review SA [redacted] conduct prior to the shooting incident, as well as the allegation of his possible lack of candor during the investigation conducted by local law enforcement. b6 b7C

## Synopsis of the Shooting Incident

On 12/22/93, SA [redacted] was involved in the planning and execution of the arrest of subject [redacted] was wanted on charges of assault with a deadly weapon, in that he had attacked his brother with a knife on the Navajo Indian Reservation. [redacted] met with a local Deputy Sheriff and two criminal investigators from the Navajo Reservation to plan the arrest of [redacted] When the four got to the reservation, the two Navajo criminal investigators remained approximately 100 feet away from [redacted] residence, in order to observe [redacted] if he should attempt to flee. SA [redacted] and the deputy approached the residence and began speaking with a woman who was standing outside. While they spoke, a yellow and white dog bit at SA [redacted] leg. Because of the boots he was wearing, the bite did not penetrate his skin. He brushed the dog away, and as he did, a black and gray dog lunged at SA [redacted] and attempted to bite his arm. The dog only bit SA [redacted] sleeve. The dog then lunged at SA [redacted] a second time. At this point, SA [redacted] drew his Sig Sauer P226 and fired one round at the dog. The dog was not hit, and both dogs ran away. Following this, [redacted] came out of a nearby residence and surrendered.

b6
b7C

## Observations and Recommendations of the SIRG

The review of the above-captioned shooting incident as documented by the administrative inquiry furnished to the SIRG, dated 1/7/94, revealed that proper procedures were followed by SA [redacted] during this incident. SA [redacted] fired his weapon to protect himself from the dog which was attempting to attack him.

MR. CHARLES SAVAGE
THE NEW YORK TIMES
1627 I STREET NORTHWEST
WASHINGTON, DC 20006

Subject: SHOOTING INCIDENT REVIEW TEAM REPORTS COMPLETED JANUARY 1, 1993 TO THE PRESENT.

FOIPA No. 1139615- 000

Dear Mr. Savage:

The enclosed document was received under the Freedom of Information/Privacy Acts (FOIPA), Title 5, United States Code, Section 552/552a, and is being released to you in its entirety. This is in response to your FOIPA request noted above.

Please note that the search cut-off date for your original request was November 12, 2009, prior to the completion of this report. Subsequently, you made an amended request via e-mail on July 8, 2010, and at that time, the report was still in draft form. The report was not finalized until September 2010. Nevertheless, consistent with the President's Executive Memorandum "Transparency and Open Government," 74 Fed. Reg. 4685, 2009 WL 166656, and the Attorney General's Memorandum for Heads of Executive Departments and Agencies regarding FOIA (March 19, 2009), we are making a discretionary disclosure and releasing this report to you in full.

You have the right to appeal any denials in this release. Appeals should be directed in writing to the Director, Office of Information Policy, U.S. Department of Justice,1425 New York Ave., NW, Suite 11050, Washington, D.C. 20530-0001. Your appeal must be received by OIP within sixty (60) days from the date of this letter in order to be considered timely. The envelope and the letter should be clearly marked "Freedom of Information Appeal." Please cite the FOIPA Number assigned to your request so that it may be easily identified.

Sincerely yours,

David M. Hardy

## EXPLANATION OF EXEMPTIONS

### SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552

(b)(1) (A) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (B) are in fact properly classified to such Executive order;

(b)(2) related solely to the internal personnel rules and practices of an agency;

(b)(3) specifically exempted from disclosure by statute (other than section 552b of this title), provided that such statute(A) requires that the matters be withheld from the public in such a manner as to leave no discretion on issue, or (B) establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(b)(4) trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(b)(5) inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(b)(6) personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(b)(7) records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information ( A ) could be reasonably be expected to interfere with enforcement proceedings, ( B ) would deprive a person of a right to a fair trial or an impartial adjudication, ( C ) could be reasonably expected to constitute an unwarranted invasion of personal privacy, ( D ) could reasonably be expected to disclose the identity of confidential source, including a State, local, or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of record or information compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source, ( E ) would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law, or ( F ) could reasonably be expected to endanger the life or physical safety of any individual;

(b)(8) contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(b)(9) geological and geophysical information and data, including maps, concerning wells.

### SUBSECTIONS OF TITLE 5, UNITED STATES CODE, SECTION 552a

(d)(5) information compiled in reasonable anticipation of a civil action proceeding;

(j)(2) material reporting investigative efforts pertaining to the enforcement of criminal law including efforts to prevent, control, or reduce crime or apprehend criminals;

(k)(1) information which is currently and properly classified pursuant to an Executive order in the interest of the national defense or foreign policy, for example, information involving intelligence sources or methods;

(k)(2) investigatory material compiled for law enforcement purposes, other than criminal, which did not result in loss of a right, benefit or privilege under Federal programs, or which would identify a source who furnished information pursuant to a promise that his/her identity would be held in confidence;

(k)(3) material maintained in connection with providing protective services to the President of the United States or any other individual pursuant to the authority of Title 18, United States Code, Section 3056;

(k)(4) required by statute to be maintained and used solely as statistical records;

(k)(5) investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment or for access to classified information, the disclosure of which would reveal the identity of the person who furnished information pursuant to a promise that his/her identity would be held in confidence;

(k)(6) testing or examination material used to determine individual qualifications for appointment or promotion in Federal Government service the release of which would compromise the testing or examination process;

(k)(7) material used to determine potential for promotion in the armed services, the disclosure of which would reveal the identity of the person who furnished the material pursuant to a promise that his/her identity would be held in confidence.

# Shooting Database Review

*An Overview of FBI-Involved Shooting Incidents From 1993-2009*

Federal Bureau of Investigation

Inspection Division
September 2010

VI. Animal Shooting Incidents 44

VII. Unintentional Discharges 58

VIII. Factoids 76

# I. Introduction

The intent of this report is to inform and educate the reader concerning a 17-year history of shooting incidents impacting the Federal Bureau of Investigation (FBI). In accordance with Department of Justice (DOJ) policy, all discharges of a firearm by a DOJ employee outside of training, or the discharge of a firearm by anyone during the course of DOJ-related official business must be reported. Since 1993, the Inspection Division (INSD) has been the entity within the FBI responsible for the overall management of FBI related shooting incidents. When a shooting incident was reported, executive management of INSD, working with the executive management of the division or field office where the incident occurred, determined whether a Shooting Incident Review Team (SIRT) was deployed. Typically, the decision to deploy a SIRT was based on the impact of the results of the incident. When a SIRT did not deploy, the responsibility for conducting and documenting the shooting inquiry was delegated to the field.

The role of the SIRT was to ensure an objective, thorough, and factual inquiry was conducted and documented. In addition, the SIRT, when appropriate, made recommendations.

Once a shooting incident report was complete, and declinations of local and federal prosecution against FBI Special Agents had been issued, the facts of the shooting incident were presented to the Shooting Incident Review Group (SIRG). The SIRG was composed of representatives from INSD, the National Security Branch, the Criminal Investigative Division, the Training Division, the Critical Incident Response Group, the Office of General Counsel, the Department of Justice, and other knowledgeable persons as needed. The SIRG typically met three to four times per year to review multiple shooting incidents, assess whether the actions of the shooters complied with the FBI Deadly Force Policy, and to identify and address other areas of concern (most commonly those related to command, control and communications, planning, training, and/or equipment).

A significant amount of information from shooting incident reports was captured, but the analysis that follows was limited by the reporting. Consequently, if certain data was not originally captured, it was not included in this report.

The shooting incident database will continue to be utilized to facilitate the analysis of shooting information involving FBI personnel and operations and to assist in identifying and publishing lessons learned.

# II. Methodology

The end result of each shooting inquiry, whether the inquiry was conducted by a SIRT or delegated to the division, was a shooting incident report. This report contained interviews of the people involved, results of forensic examinations, details of the use of weapons and equipment, and, often times, observations and findings of the investigative team. Shooting incident reports captured a significant amount of information regarding FBI-involved shootings. These reports were the source of all shooting incident information found in this analysis.

In 2009, INSD developed a database which was populated with historical data contained in shooting incident reports and where additional information from future shooting incidents could be captured. The shooting incident database was designed to capture data from all types of shooting incidents. All shooting incident reports from January 1993 through December 2009 were reviewed and pertinent information from each incident was entered into the database. During the review period, there were 493 separate shooting incidents for which a separate record was created in the database. The shooting incidents were reported by field offices, various FBIHQ divisions, and Legats. These incidents were categorized into three incident *types*: **Intentional Shootings**, **Animal Shootings**, or **Unintentional Discharges (UD)**.

A single shooting incident can involve more than one incident type. For instance, a shooting incident could involve a Special Agent discharging a firearm at a subject who poses an imminent threat, and at the subject's aggressive dog. In this shooting incident, both the intentional discharge at the subject and shots at the animal would be counted as separate shooting incident types. Four shooting incidents involved two different shooting incident types. These four shooting incidents are briefly described below:

- An Agent was attacked by an aggressive dog and then attacked by the

owner, a subject in a series of bank robberies. The Agent discharged his firearm at both threats (animal and intentional incident types).

- During a violent confrontation with a subject involving Agents and law enforcement officers (LEOs), Agents fired at the subject and at an attacking dog (animal and intentional incident types).
- Agents fired upon a violent subject. As the Agents moved forward to secure the fallen subject, an Agent had an unintentional discharge (intentional and unintentional incident types).
- As Agents and LEOs on a Fugitive Task Force attempted to take a subject into custody, an Agent and a LEO each had an unintentional discharge. Another Agent fired upon the subject he believed posed a threat (unintentional and intentional incident types).

The analysis of the data must be reviewed in light of several caveats:

- The data was not always complete. The historical shooting incident reports did not always include all information to complete all relevant fields in the database.
- Some shooting incidents involving FBI personnel were not the subject of INSD review procedures, including:
    - Employee suicides by firearm
    - Incidents where Agents engaged in clearly illegal conduct that was the subject of criminal investigation by other law enforcement agencies

The analysis presented is as accurate as the data available. For this reason, although INSD is confident the information that follows presents a reasonably accurate representation of 17 years of shooting incidents, readers should be cautious in attempting to draw conclusions based solely on the analysis of data provided.

# Part I

## Analysis Of Shooting Incidents

Part I provides the reader with an overview of the universe of FBI shooting incidents during the 17-year review period. The reader is reminded the data presented in this section was based on the data *available* within the shooting incident reports.

# IV. General Statistics

**Shooting Incident Types 1993-2009**

*Two terms are used to refer to shootings in this report: shooting incidents and incident types. A shooting incident is any single occurrence in which firearms were discharged. Incident types are categories applied to actions within a shooting incident. Incident types are described below.*

From 1993 to 2009, 493 shooting incidents occurred during which FBI Special Agents (SAs), FBI Employees, FBI Task Force Officers (TFOs), and Other Law Enforcement Officers (LEOs) working with the FBI discharged their weapons for non-training purposes. For the purpose of analysis, shooting incident types were categorized as an Intentional Shooting, an Animal Shooting, or an Unintentional Discharge. The definitions for each incident type follows:

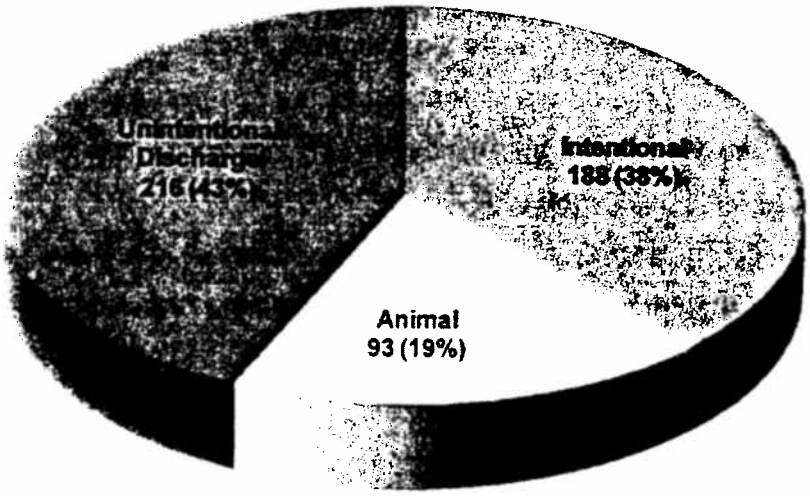
- Intentional Shootings entailed instances where a shooter deliberately and intentionally discharged a weapon; typically these occurred during a hostile encounter or an operation involving adversarial action.
- Animal Shootings were those instances where weapons were discharged to: stop dangerous or aggressive animals; euthanize seriously injured animals that posed a continuing threat or serious hazard; or humanely end an animal's suffering, typically when law enforcement action inflicted grievous injury to that animal.
- Unintentional Discharges were inadvertent or accidental discharges of one or more rounds without the intent of the shooter.

An incident type was assigned based on the type of shooting that occurred during a shooting incident. A single shooting incident could include multiple incident types. For instance, a shooting incident which involved multiple Agents firing upon a

violent subject posing an imminent threat would have been counted as one intentional shooting incident. However, if one of the Agents *also* fired at an attacking dog, the single shooting incident counted as both one intentional shooting incident type and one animal shooting incident type. During the review period, four shooting incidents occurred in which more than one shooting incident type occurred. Each shooting incident type was counted, resulting in 497 shooting incident types analyzed.

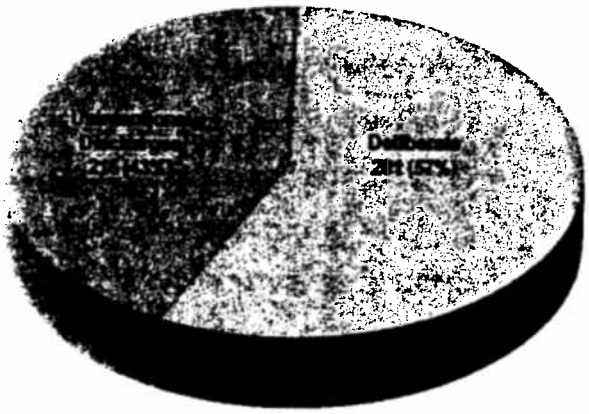
Of the 497 shooting incident types, there were 188 (38%) Intentional Shootings, 93 (19%) Animal Shootings, and 216 (43%) Unintentional Discharges. The following chart, Figure 4.1, reflects the breakdown of the incidents by type.

Figure 4.1 Breakdown of Incident Types



Unintentional Discharges accounted for the greatest proportion of the three incident types (43%). However, when Animal and Intentional incident types are combined (representing all incidents in which a weapon was *purposely* discharged), the largest proportion of shootings involved the *deliberate* discharge of a firearm (57%), Figure 4.1a.

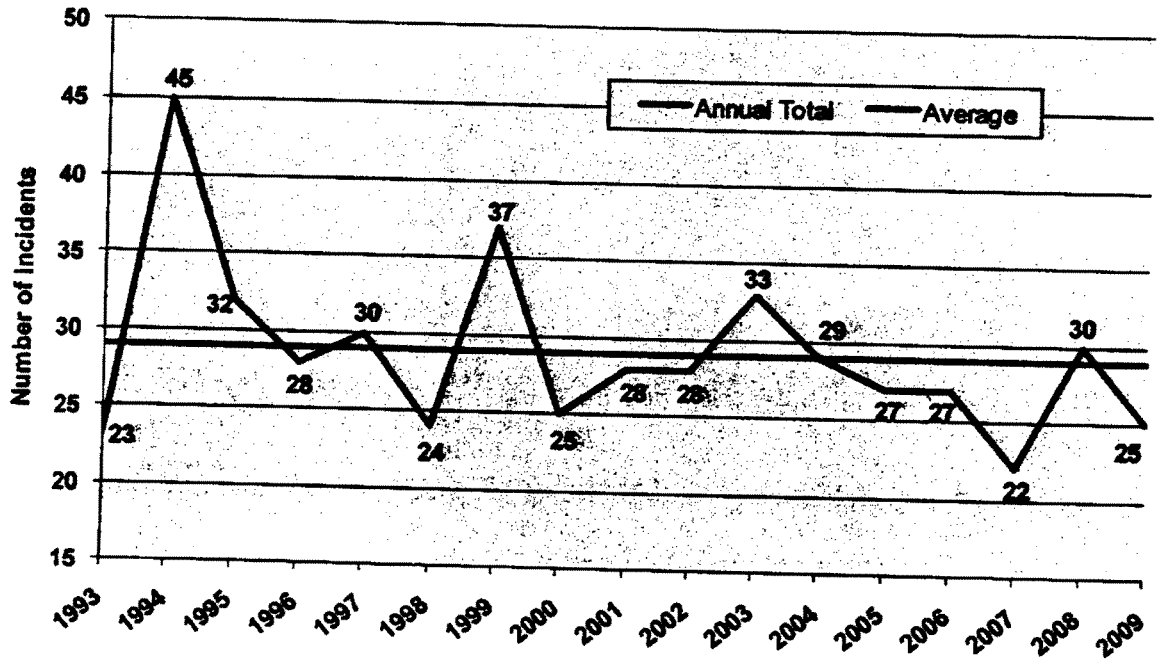
Figure 4.1a Deliberate Shootings



**Shooting Incidents by Calendar Year Compared to the 17-Year Average**

Figure 4.2 illustrates the total number of shooting incidents per calendar year compared to the average number of shooting incidents, 493, over the 17-year period. The average number of all shooting incidents per year was 29.0, depicted by the red line.

Figure 4.2 Shooting Incidents by Calendar Year



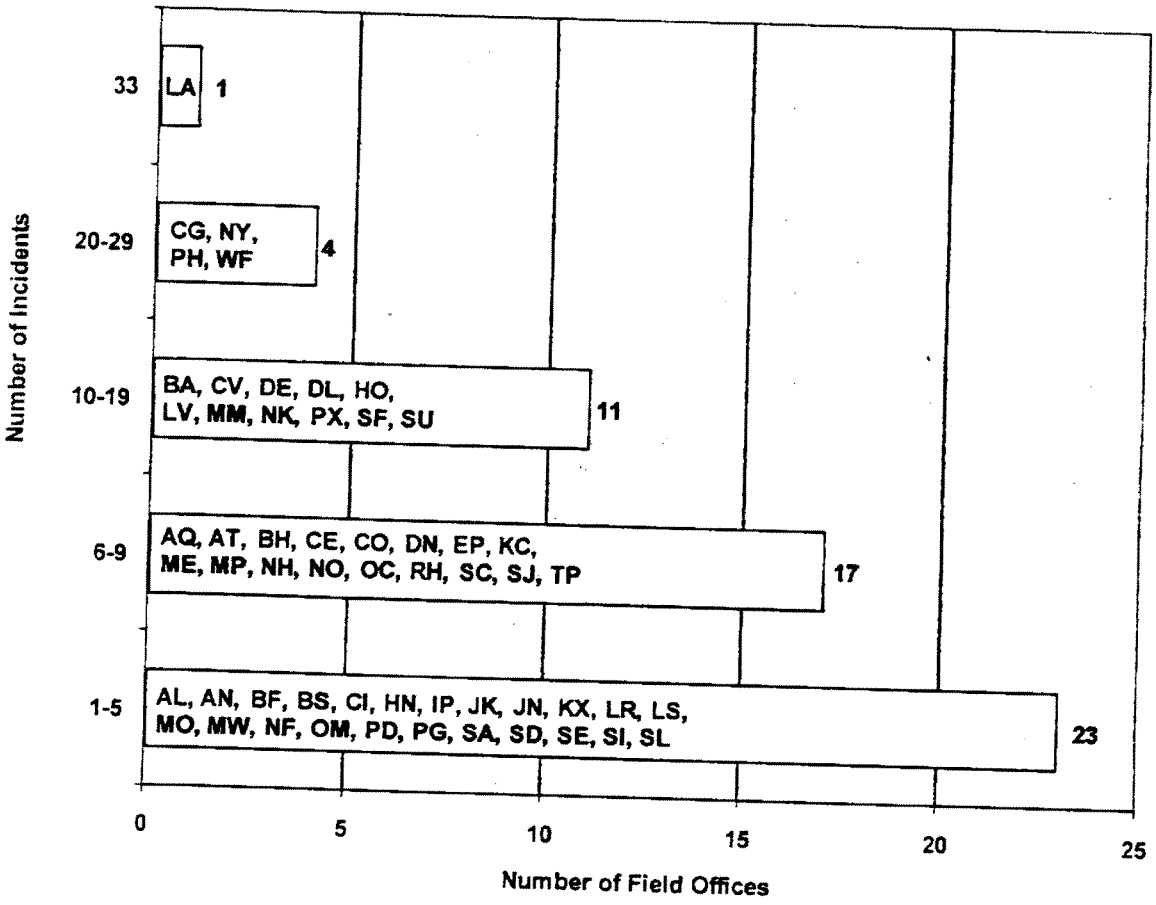
Shooting incidents with more than one incident type occurred in the following years:

1994 - intentional and unintentional incident types
1995 - intentional and animal incident types
- intentional and animal incident types
2000 - intentional and unintentional incident types

## Shooting Incidents by Field Office

There were 493 shooting incidents during the 17-year review period. Field offices reported 451 (91.5%) shooting incidents. FBI Headquarter divisions and Legats accounted for 42 (8.5%) shooting incidents. Figure 4.3 reflects the range of shooting incidents occurring in the 56 field offices, represented by the two letter identifier of the affected field office.

Figure 4.3 Shooting Incidents by Field Office



Every field office reported at least one shooting incident between 1993-2009. Twenty-three of the 56 (41%) field offices reported five or fewer events over the 17-year review period.

Table 4.1 displays the actual number of shooting incidents for each field office during the 17-year review period.

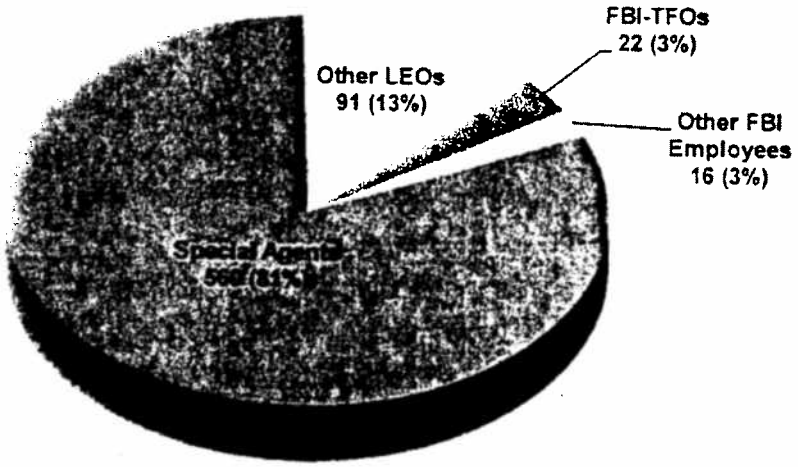
## FBI/LEO Shooters Involved in All Shooting Incidents

Figure 4.4 illustrates the number of FBI Employees and LEO shooters for all Intentional Shootings, Animal Shootings, and Unintentional Discharges. There were 689 shooters in four separate categories.

Figure 4.4 FBI/LEO Shooters Involved in All Shooting Incidents

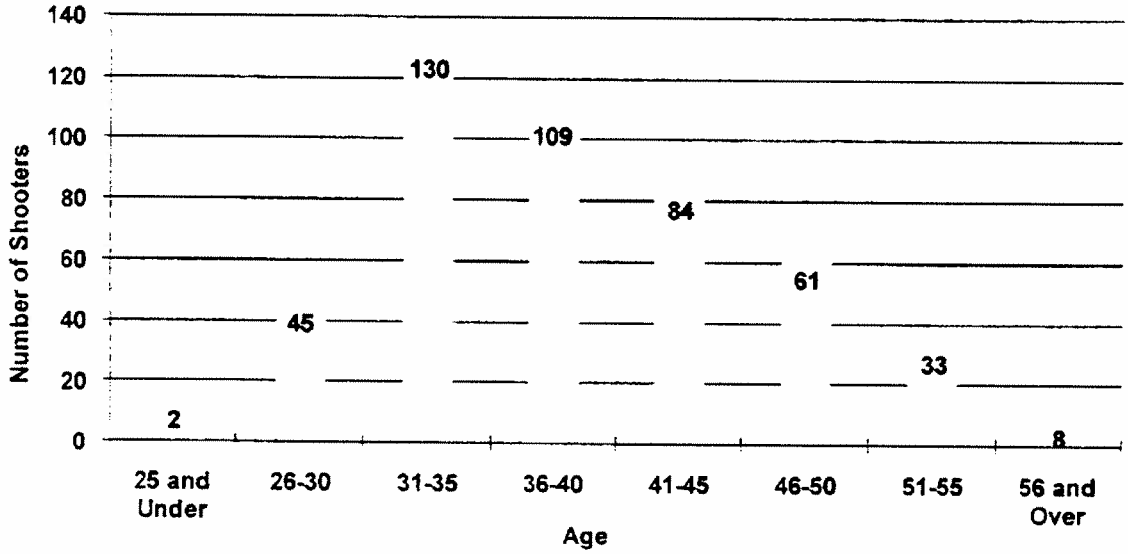


- Special Agents: FBI Special Agents, including supervisory or managerial personnel.
- Other LEOs: all other LEOs (local, county, state, and federal) not identified as TFOs.
- FBI-TFOs: all LEOs designated in the shooting incident report as an FBI TFO.
- Other FBI Employees: all non-Agent employees of the FBI (e.g., Laboratory Technicians, New Agent Trainees, and Law Enforcement Specialists/FBI Police Officers).

## Age and Time in Service of Shooters in Shooting Incidents

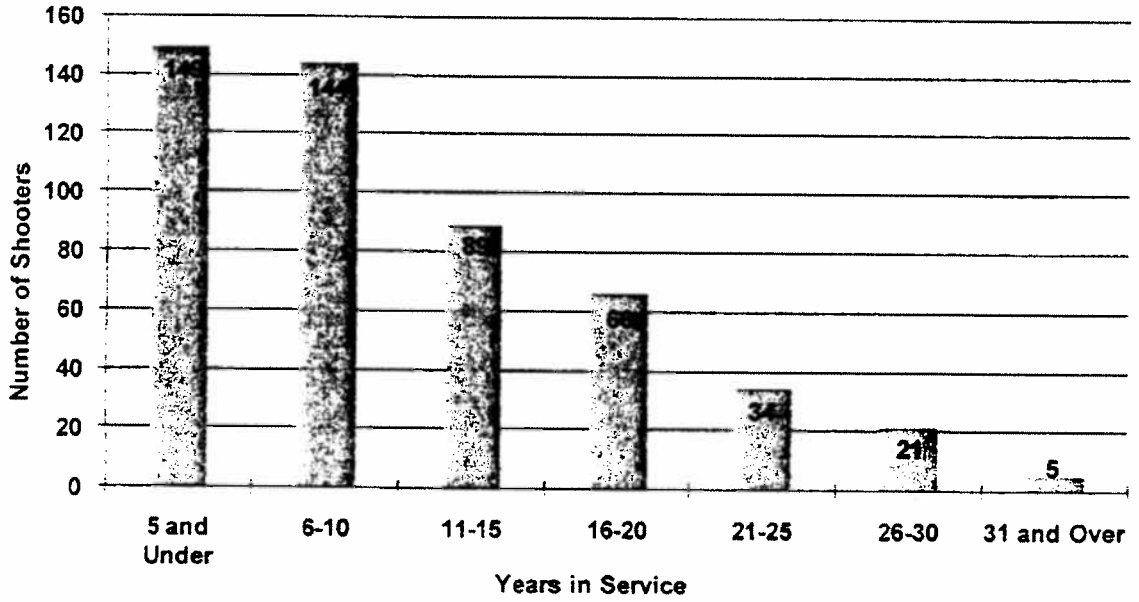
Age was available for 472 of the 689 (68.5%) FBI and LEO shooters. Figure 4.5 reflects the number of FBI/LEO shooters by age group at the time of the shooting.

Figure 4.5 Age of FBI/LEO Shooters



Time in Service was available for 508 of 689 (73.7%) FBI and LEO shooters. Figure 4.6 reflects the Time in Service of the shooters. Shooters with ten or fewer years in service accounted for 57.7% of the 508 shooters.

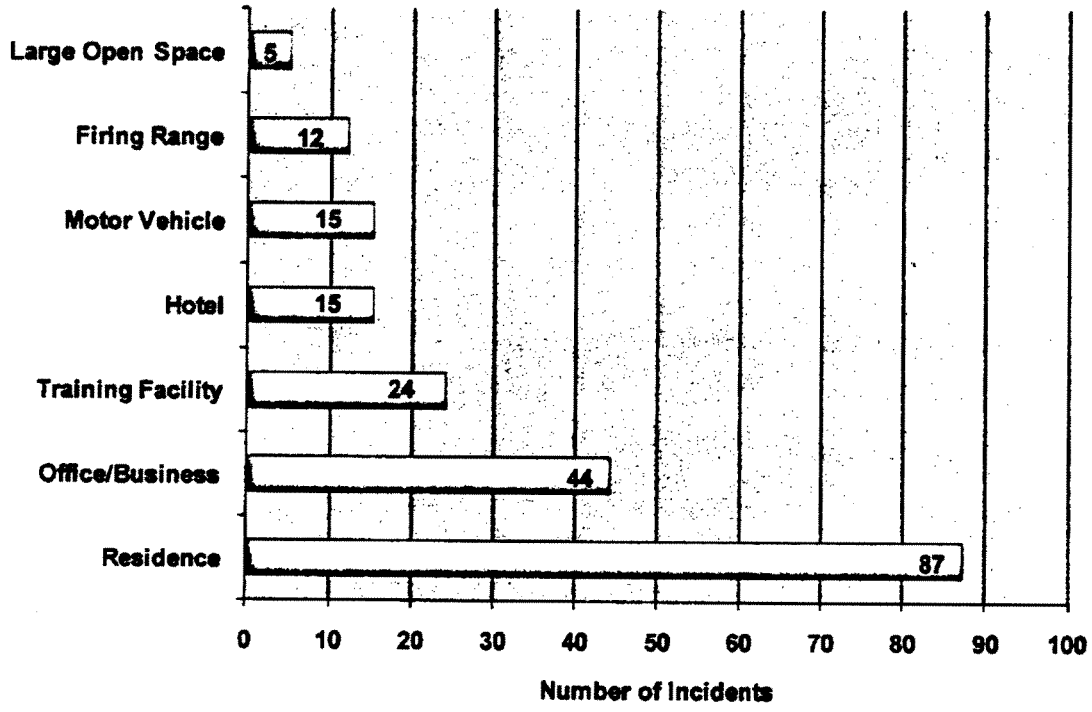
Figure 4.6 Time in Service of FBI/LEO Shooters



## Environment and Location of Shooting Incidents

Shooting incidents were categorized by the type of environment in which the shooter discharged his/her weapon (i.e., inside or outside) and then by the location. Of the 493 shooting incidents, there were 5 in which shooters discharged their weapons in two different environments, resulting in 498 environments. Of those in which location data was available, 202 incidents (40.6%) occurred inside and 288 incidents (57.8%) occurred outside (data was not available for eight shooting incidents). Figure 4.7 reflects the number of shooting incidents by location occurring in an inside environment.

Figure 4.7 Inside Environment—Shooting Incidents by Location

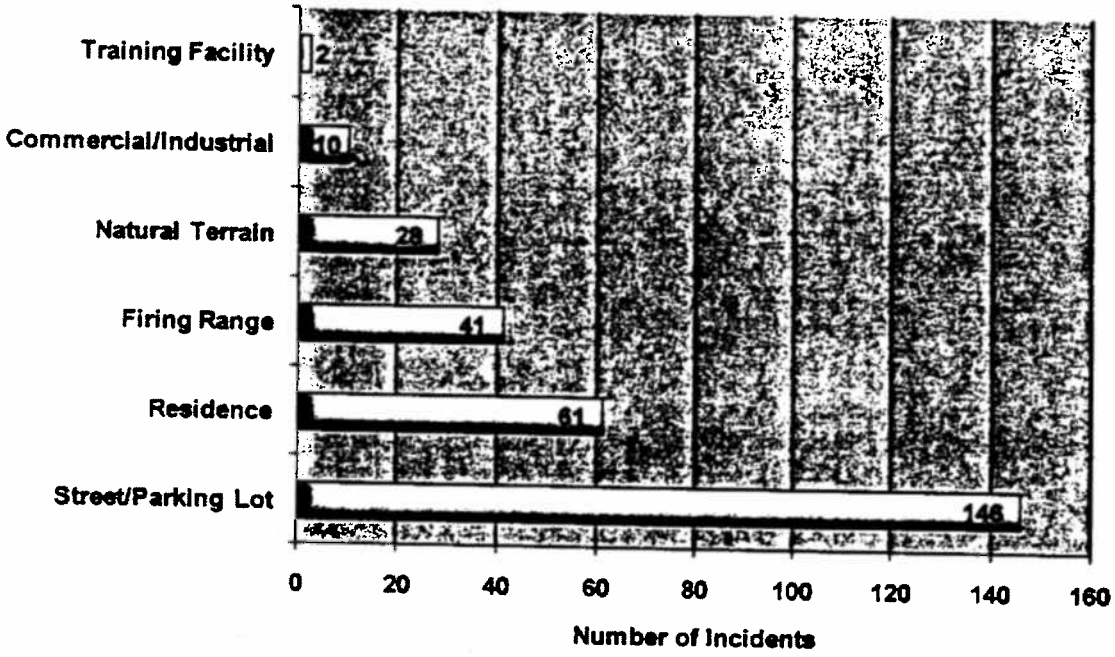


- Large Open Space: indoor parking garages, warehouses, indoor shopping malls, aircraft hangers, etc.
- Firing Range: includes law enforcement, military, and commercial ranges.
- Motor Vehicle: shooters inside a vehicle discharging a weapon either inside the vehicle or at a target outside the vehicle.
- Hotel: an establishment providing temporary lodging for a fee.
- Training Facility: any indoor law enforcement, military or commercial training facility, except indoor firing ranges.

- Office/Business: includes all commercial and government facilities where employees work or customers visit.
- Residence: single and multi-family homes, apartments, condominiums, and trailer homes.

Figure 4.8, reflects the number of incidents by location occurring in an outside environment.

Figure 4.8 Outside Environment—Shooting Incidents by Location

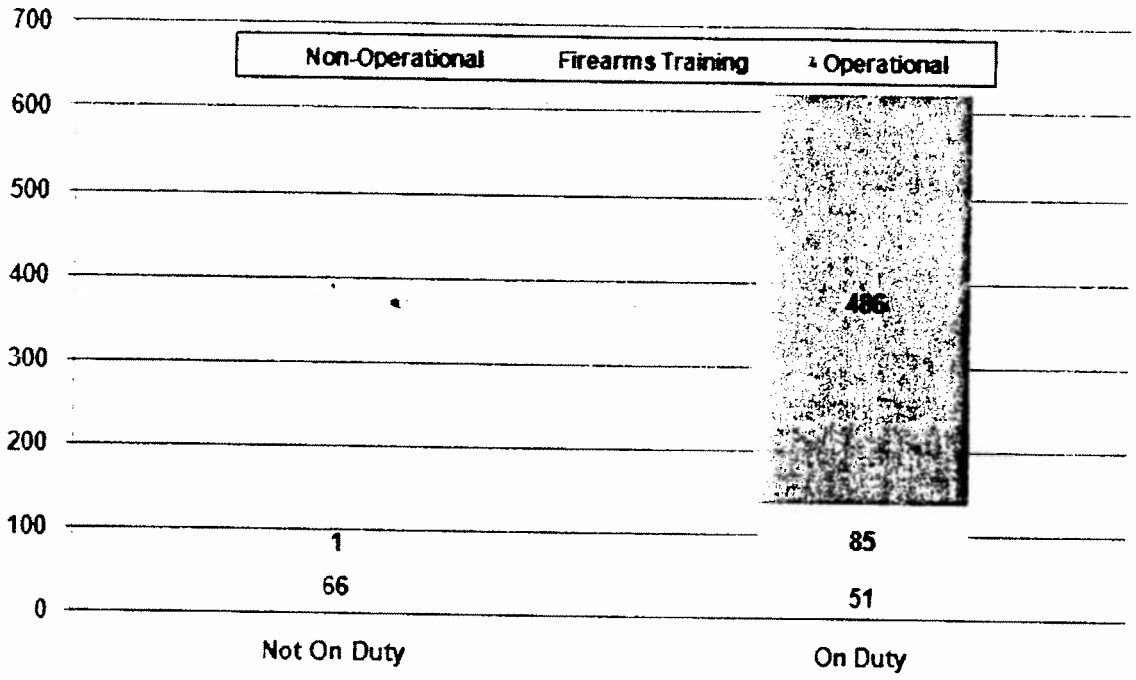


- Training Facility: any outdoor law enforcement, military or commercial training facility, but not outdoor firing ranges.
- Commercial/Industrial: most large, outdoor commercial facilities and areas such as rail yards, power stations, lumber yards.
- Natural Terrain: wooded areas, rural and farm land, and mountainous areas.
- Firing Range: includes law enforcement, military, and commercial ranges.
- Residence: the perimeter or yard immediately outside or in the vicinity of a residence.
- Street/Parking Lot: includes public space where vehicles routinely are driven or parked.

**Operational Status of Shooters in Shooting Incidents**

Figure 4.9 depicts the number of shooters by their operational status at the time of a shooting. Of 689 FBI and LEO shooters, 67 (9.7%) were not officially on duty when the incident occurred.

Figure 4.9 Operational Status of FBI/LEO Shooters



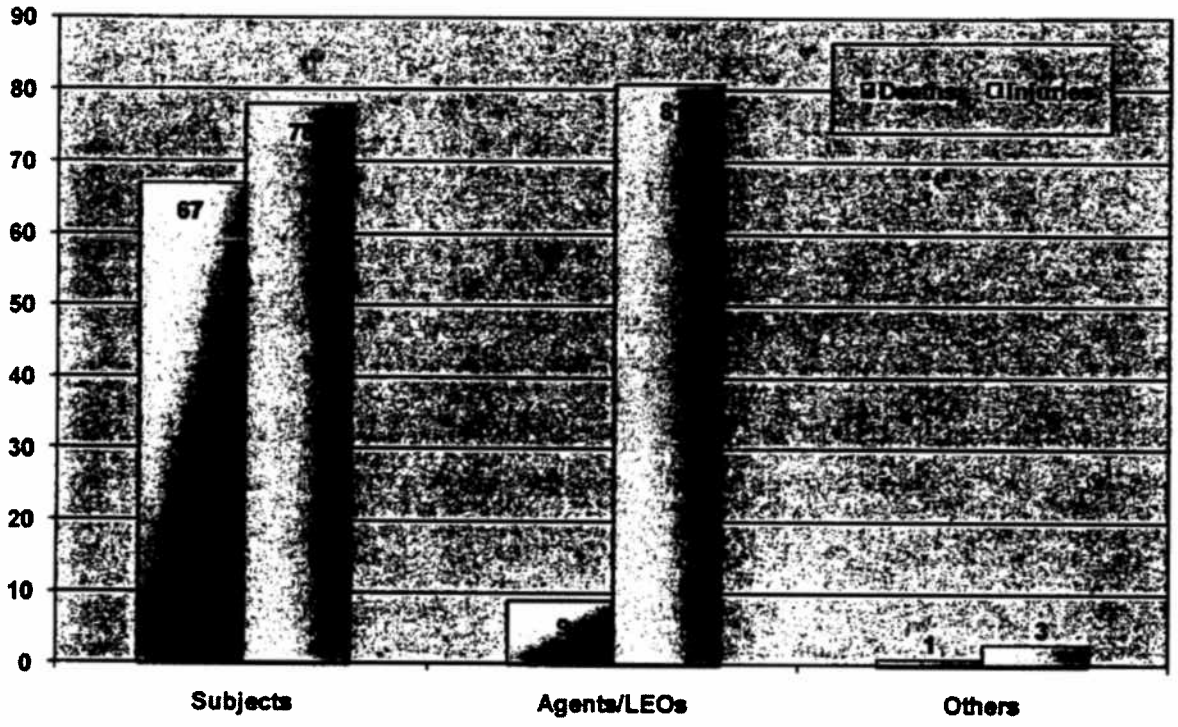
- Not On duty: time outside of planned or recorded work hours.
- On duty: planned or recorded work hours.
- Operational: any planned activity in which the shooter was acting in support of an investigation while on duty.
- Firearms Training: any qualification shoots or firearms training conducted at either an official FBI facility or any other firearms training site.
- Non-Operational: any unplanned situation in which the shooter was not acting in support of an investigation, either while on or off duty.

It should be noted law enforcement officers and TFOs are not required to report unintentional discharges when not in FBI space or on an FBI operation.

## Deaths and Injuries Resulting from Shooting Incidents

Figure 4.10 depicts the number of deaths and injuries from all shooting incidents (Further information regarding the "Others" category is provided in the Intentional Incident Shootings section). Although all deaths were caused by a firearm, injuries were caused by a mix of firearms and non-gunshot related actions (e.g., animals, blunt objects, or vehicles).

Figure 4.10 Deaths and Injuries Resulting from Shooting Incidents



# Part II

## Analysis by Incident Types

Part II is meant to provide the reader a more precise analysis of shootings by incident type during the 17-year review period. In Part II, each section addresses only that information pertinent to the respective incident type: Intentional, Animal, or Unintentional Discharge. The emphasis throughout Part II is on FBI Special Agents. It has been noted when this is not the case. The reader is reminded the analysis presented in these sections was based on the data *available* within the shooting incident reports.

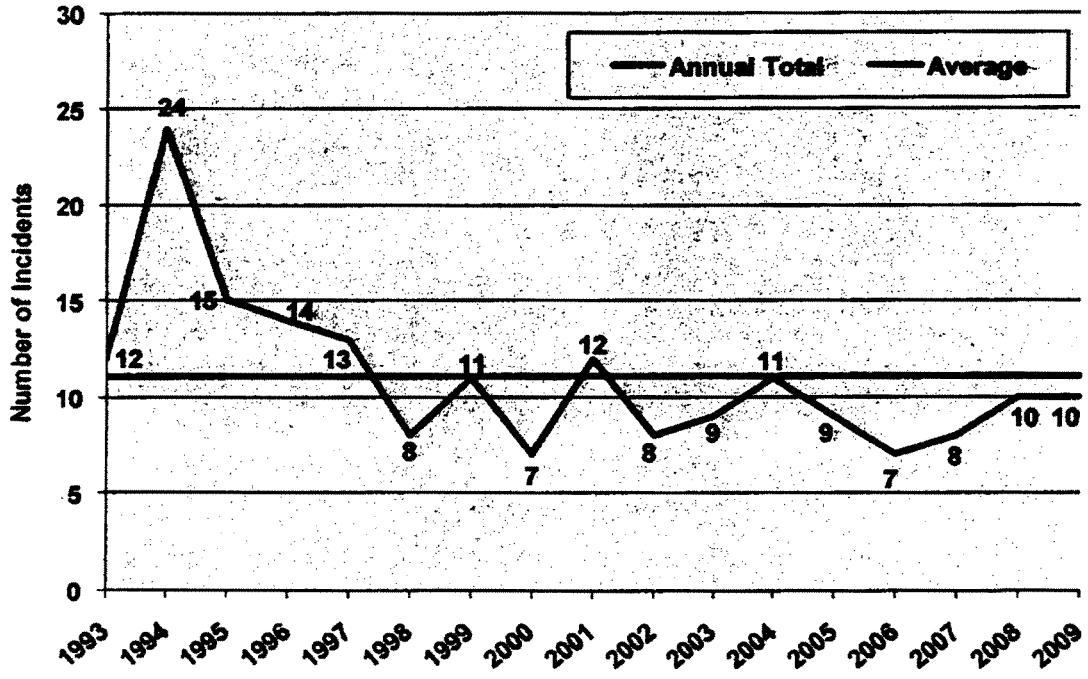
# V. Intentional Shooting Incidents

**Intentional Shooting Incidents by Calendar Year Compared to the 17 Year Average**

Intentional Shooting Incidents were defined as instances where a shooter deliberately and "intentionally" discharged a weapon; typically these occurred during a hostile encounter or an operation involving adversarial action.

Figure 5.1 illustrates the number of Intentional Shooting Incidents per calendar year, compared to the average number of Intentional Shooting Incidents over the 17-year period. The average number of Intentional Shooting Incidents per year was 11.1, depicted by the red line in Figure 5.1.

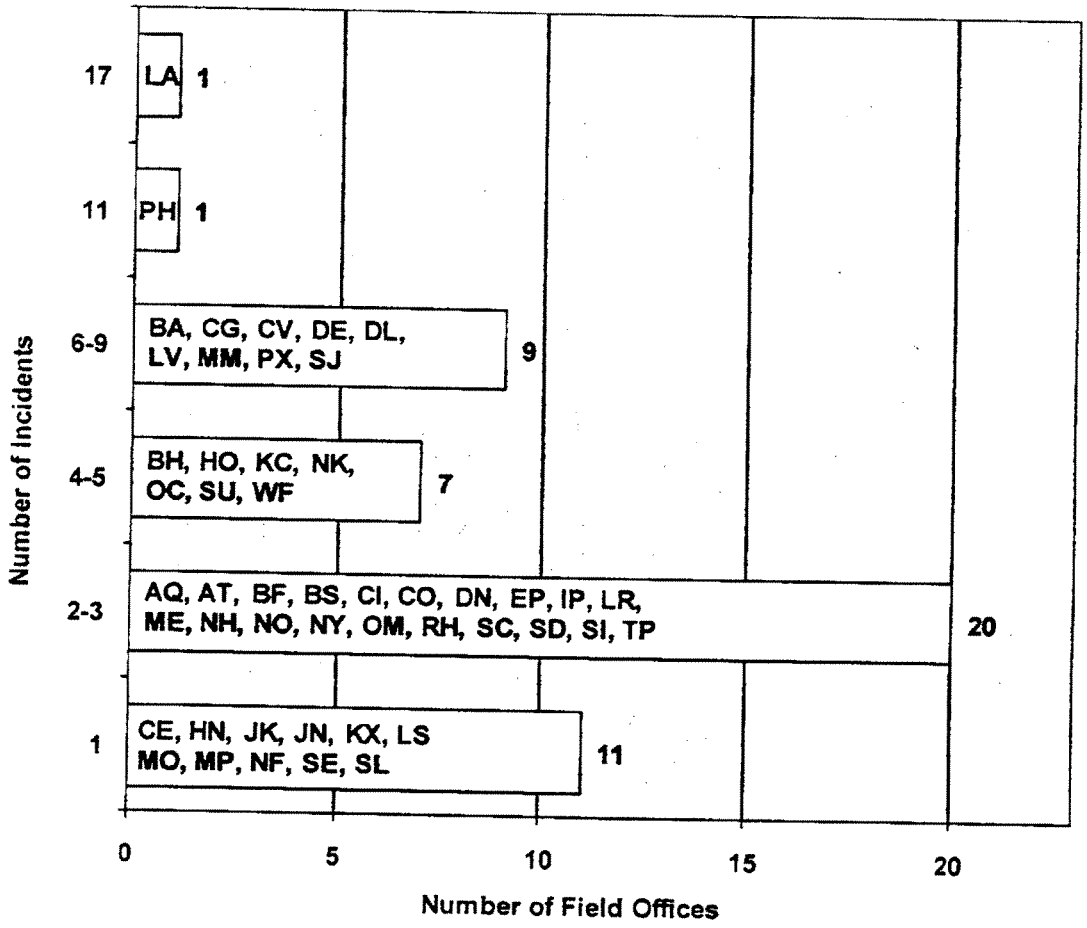
Figure 5.1 Intentional Shooting Incidents by Calendar Year



## Intentional Shooting Incidents by Field Office

There were 188 Intentional Shooting Incidents during the 17-year review period. Forty-nine field offices reported 184 (97.9%) Intentional Shooting Incidents. FBI Headquarters divisions and Legats accounted for 4 of the 188 (2.1%) shooting incidents. Figure 5.2 reflects the range of Intentional Shooting Incidents by field office, represented by the two letter identifier.

Figure 5.2 Intentional Shooting Incidents by Field Office



Thirty-eight of the 56 (67.8%) field offices had five or less Intentional Shooting Incidents reported over the 17-year review period.

Table 5.1 displays the actual number of Intentional Shooting Incidents for each field office during the 17-year review period.

Table 5.1 Intentional Shooting Incidents by Field Office

| [illegible] | [illegible] | [illegible] | [illegible] |
|---|---|---|---|
| Los Angeles | 17 | Richmond | 3 |
| Philadelphia | 11 | Sacramento | 3 |
| Detroit | 9 | Albuquerque | 2 |
| Baltimore | 8 | Buffalo | 2 |
| Chicago | 8 | Cincinnati | 2 |

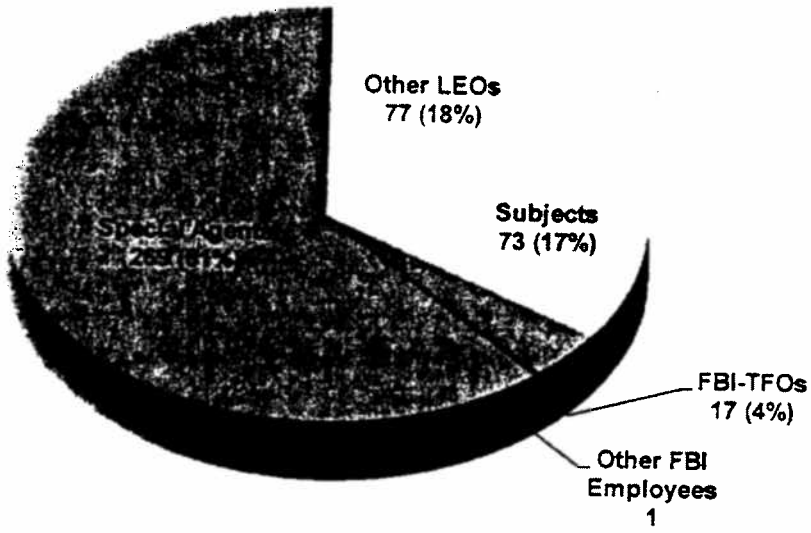
| New York | 3 | | |

## Shooters Involved in Intentional Shooting Incidents

Figure 5.3 depicts the titles of all shooters for all Intentional Shooting Incidents. During the 188 Intentional shootings, 269 Special Agents, 77 LEOs, 73 subjects, 17 TFOs, and 1 Other FBI Employee[1] fired a weapon.

Figure 5.3 Shooters Involved in Intentional Shooting Incidents



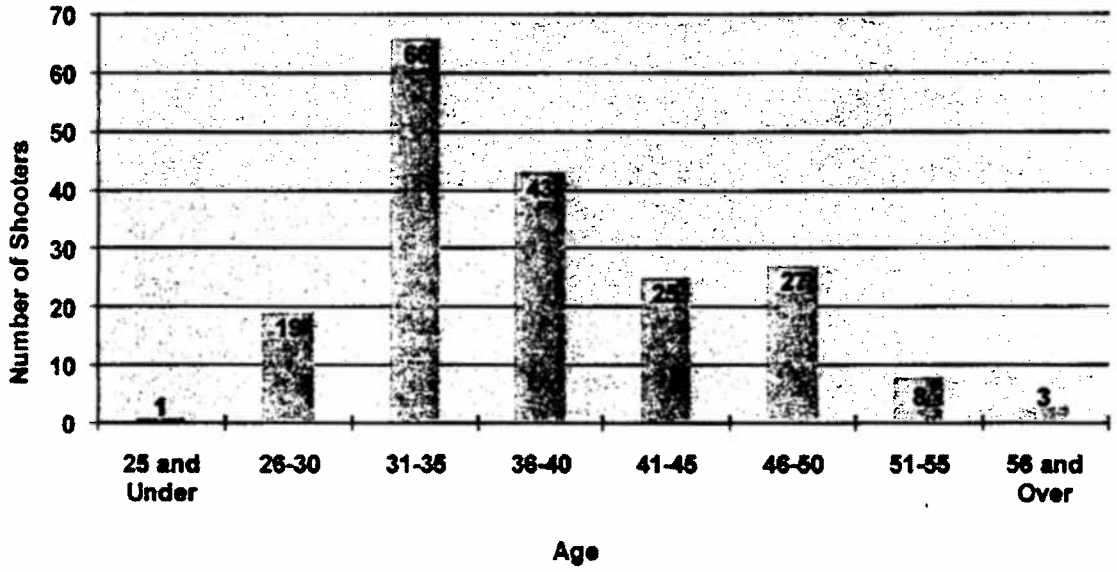
- Special Agents: FBI Special Agents, including supervisory or managerial personnel.
- Other LEOs: all other LEOs (local, county, state, and federal) not identified as TFOs.
- Subjects: subject of the investigation or subject of the intentional use of force.
- FBI-TFOs: all LEOs designated in the shooting incident report as an FBI TFO.
- Other FBI Employees: all non-Agent employees of the FBI (e.g., Laboratory Technicians, New Agent Trainees, and Law Enforcement Specialists/FBI Police Officers).

[1]One FBI employee, a small arms technician, was involved in an Intentional Shooting Incident. This individual fired a handgun at a metal locker out of curiosity as to what damage would result.

## Age and Time in Service of Agents Involved in Intentional Shooting Incidents

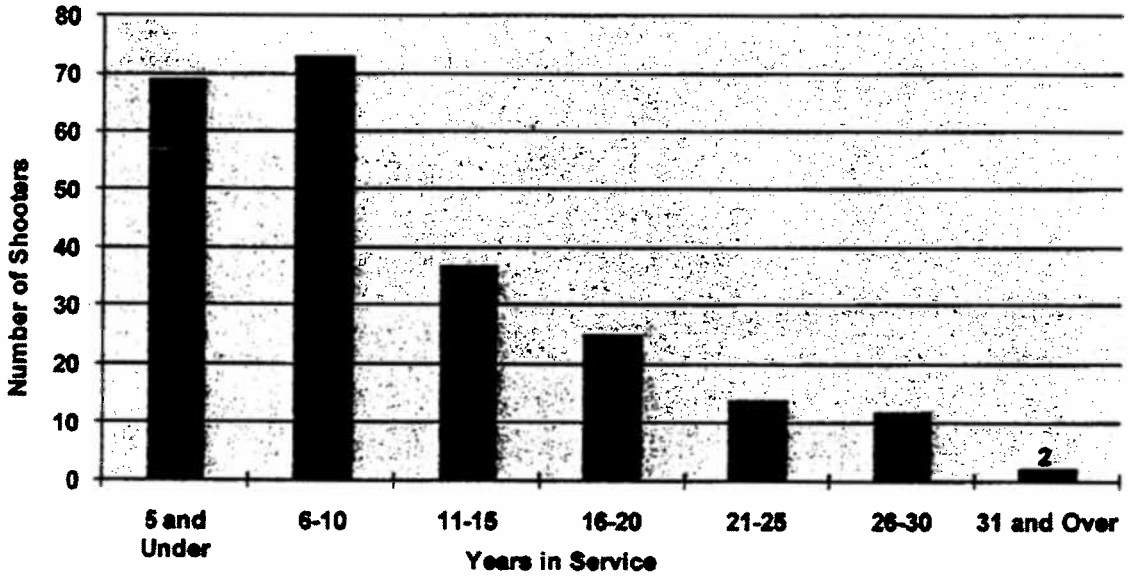
Age was available for 193 of the 269 (71.7%) Agent shooters. Figure 5.4 depicts the number of Agents by age group at the time of the shooting.

Figure 5.4 Age of FBI Agents Involved in Intentional Shooting Incidents



Time in Service was available for 233 of 269 (86.6%) Agent shooters. Figure 5.5 depicts the Agents' Time in Service at the time of the shooting.

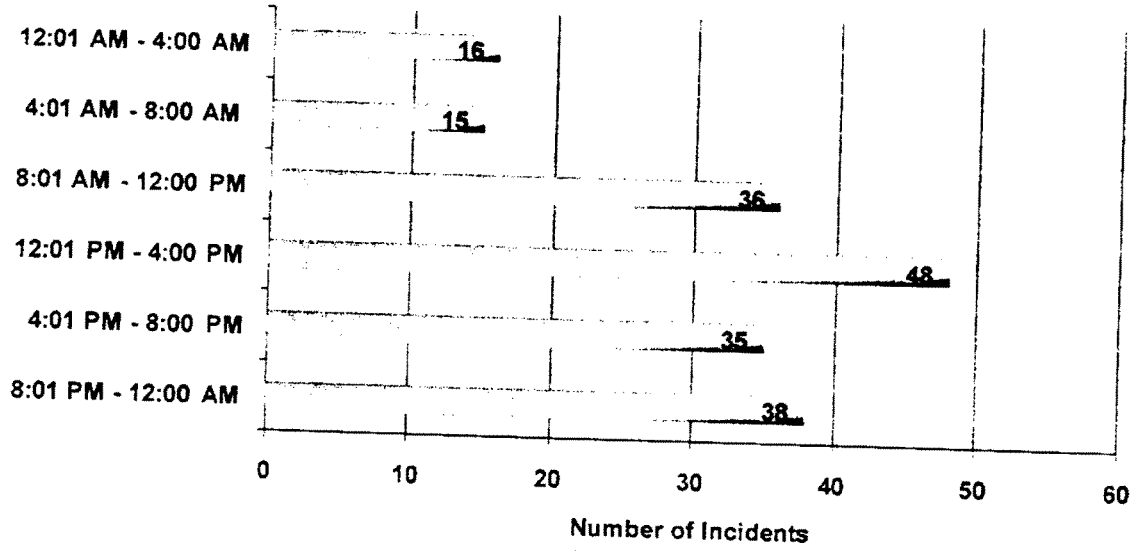
Figure 5.5 Time in Service of FBI Agents Involved in Intentional Shooting Incidents



## Intentional Shooting Incidents by Time of Day

Time of day was available for all Intentional Shooting Incidents. Figure 5.6 depicts the frequency of occurrence of Intentional shootings by time of day.

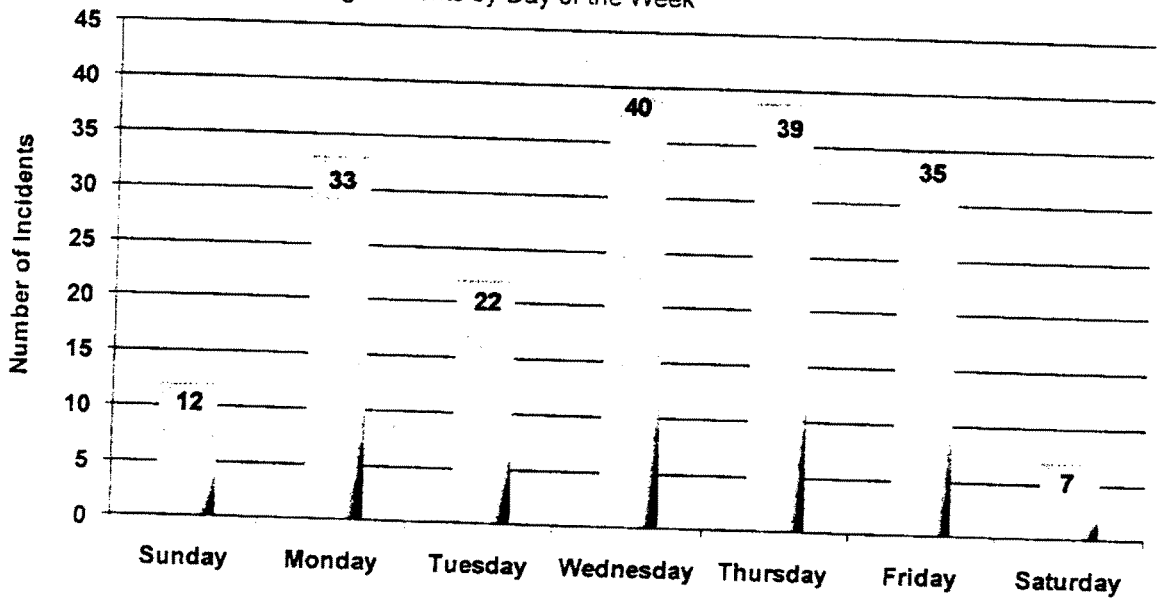
Figure 5.6 Intentional Shooting Incidents by Time of Day



## Intentional Shooting Incidents by Day of the Week

Day of the week was available for all Intentional Shooting Incidents. Figure 5.7 depicts the frequency of occurrence of Intentional shootings by day of the week.

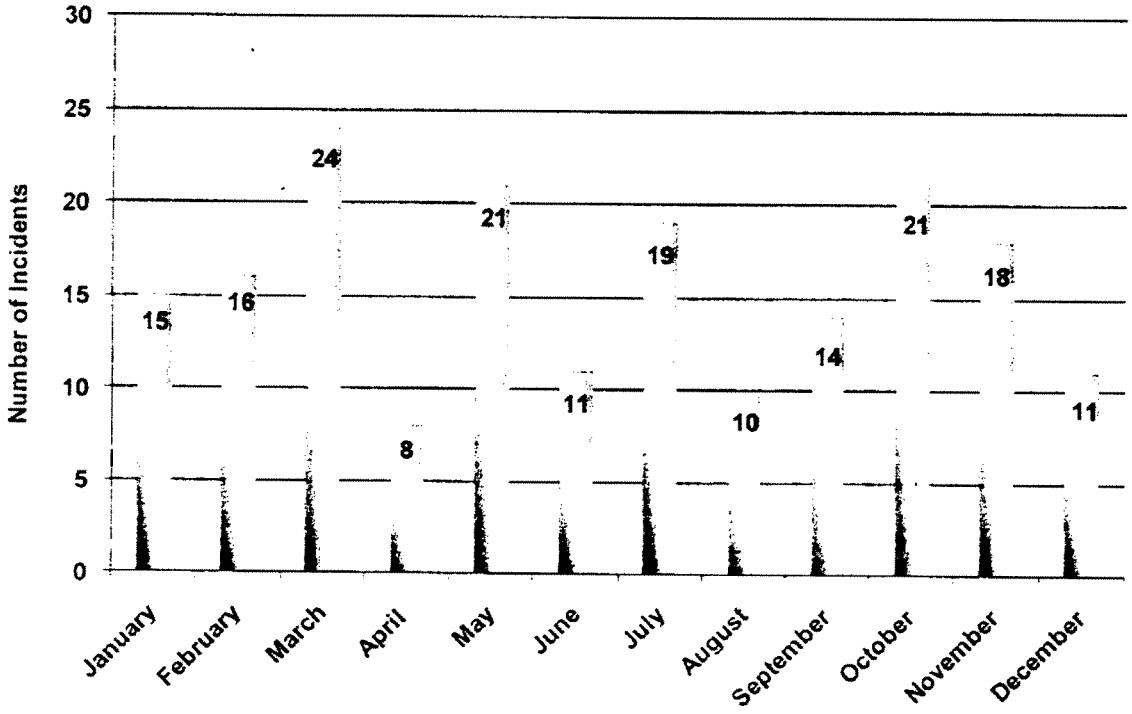
Figure 5.7 Intentional Shooting Incidents by Day of the Week



## Intentional Shooting Incidents by Month of the Year

Month of the year was available for all Intentional Shooting Incidents. Figure 5.8 depicts the frequency of occurrence of Intentional Shootings by month of the year.

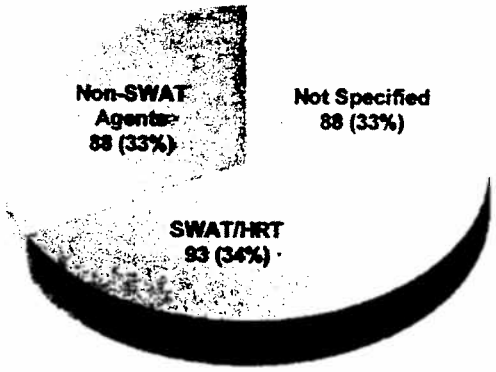
Figure 5.8 Intentional Shooting Incidents by Month of the Year



### SWAT vs. Non-SWAT Agents Involved in Intentional Shooting Incidents

In Figure 5.9 Agent shooters involved in Intentional Shooting Incidents were categorized based on whether they were SWAT/HRT Operators, Non-SWAT Agents, or Not Specified at the time of the incident.

Figure 5.9 SWAT vs. Non-SWAT Agents Involved in Intentional Shooting Incidents



- SWAT/HRT: any Agent who was an active member of an FBI SWAT team or HRT, but not necessarily involved in a SWAT or HRT operation at the time of the Intentional Shooting.
- Non-SWAT Agents: any Agent not assigned to SWAT or HRT at the time of the Intentional Shooting.
- Not Specified: Agents about whom there was insufficient information in the shooting incident report to make a determination.

### Number of SWAT Operations

Based on the data available in the shooting incident reports, there were at least 31 of 188 (16.5%) Intentional Shooting Incidents which occurred during SWAT operations.[2]

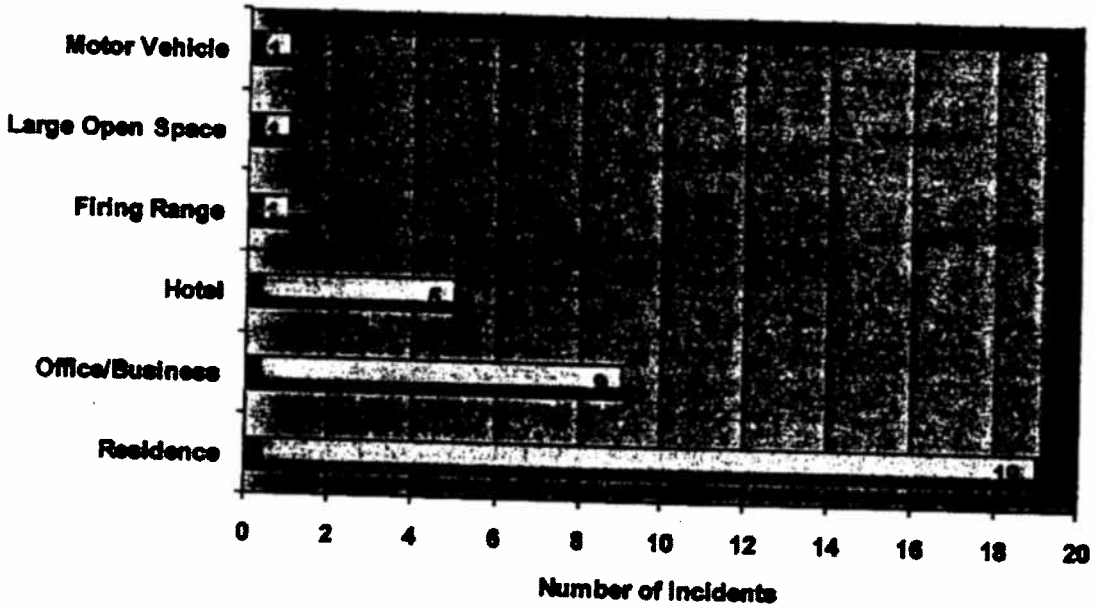
[2]This number should be understood to be a minimum number since it was not explicit in every shooting incident report whether the incident involved a SWAT team.

## Environment and Location for Intentional Shooting Incidents

Data for six of 188 Intentional Shooting Incidents were not available. In five shooting incidents, Agents and LEOs discharged their weapons in two different environments. There were 187 known locations and environments. Three Intentional Shooting Incidents occurred on a firing range and resulted in unintentional injuries.

Figure 5.10 depicts the number of Intentional Shooting Incidents by location occurring in an inside environment.

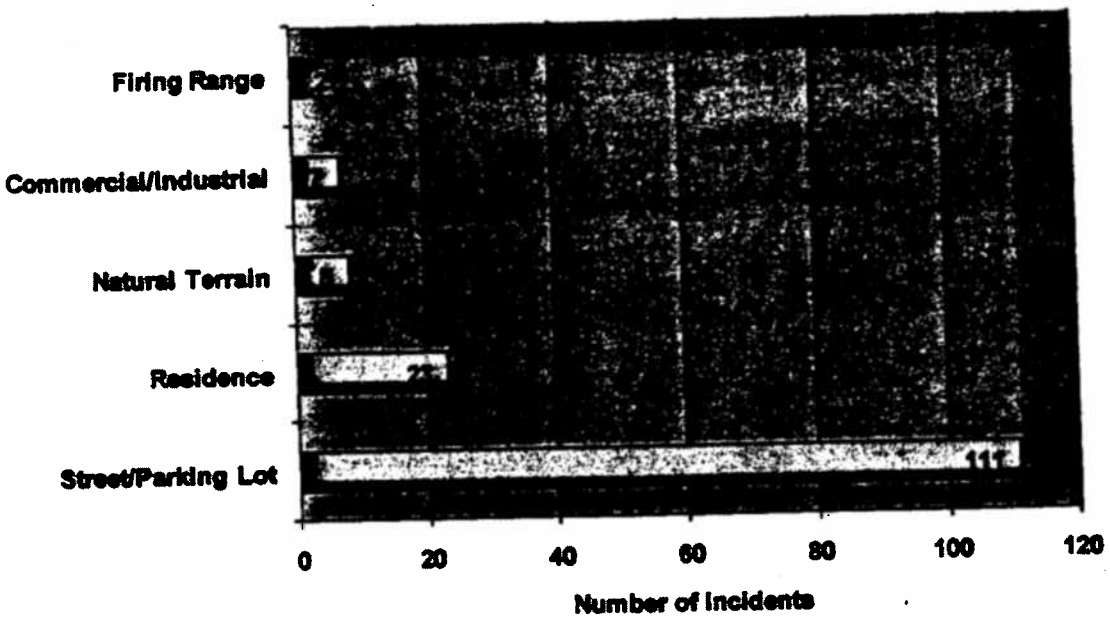
Figure 5.10 Inside Environment—Intentional Shooting Incidents by Location



- Motor Vehicle: shooters inside a vehicle discharging a weapon either inside the vehicle or at a target outside the vehicle.
- Large Open Space: indoor parking garages, warehouses, indoor shopping malls, aircraft hangers, etc.
- Firing Range: Includes law enforcement, military, and commercial ranges.
- Hotel: an establishment providing temporary lodging for a fee.
- Office/Business: includes all commercial and government facilities where employees work or customers visit.
- Residence: single and multi-family homes, apartments, condominiums, and trailer homes.

Figure 5.11 depicts the number of incidents by location occurring in an outside environment.

Figure 5.11 Outside Environment—Intentional Shooting Incidents by Location

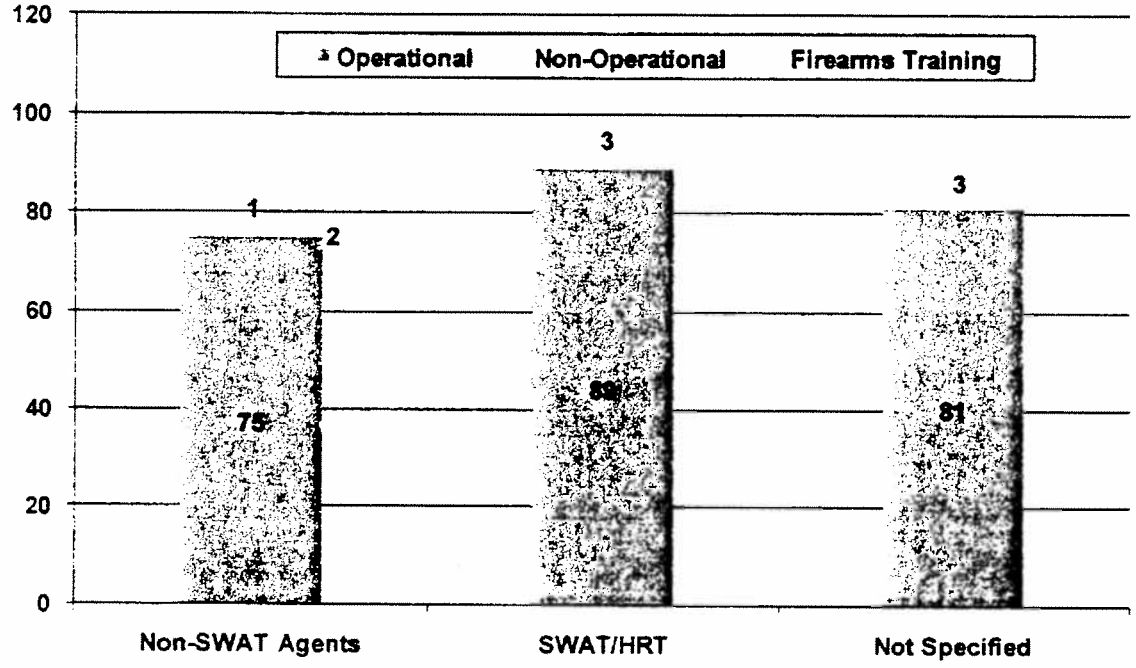


- Firing Range: includes law enforcement, military, and commercial ranges.
- Commercial/Industrial: most large, outdoor commercial facilities and areas such as rail yards, power stations, lumber yards.
- Natural Terrain: wooded areas, rural and farm land, and mountainous areas.
- Residence: the perimeter or yard immediately outside or in the vicinity of a residence.
- Street/Parking Lot: includes public space where vehicles routinely are driven or parked.

## Operational Status of Agents Involved in Intentional Shooting Incidents

Of the 269 Agents involved in an Intentional Shooting Incident, 15 (5.6%) were not on duty at the time of the incident. Figure 5.12 depicts the on duty type of activity of the remaining 254 (94.4%) Agents at the time of the shooting incident.

Figure 5.12 Operational Status of On Duty Agents Involved in Intentional Shooting Incidents



- Operational: any planned activity in which the shooter was acting in support of an investigation while on duty.
- Non-Operational: any unplanned situation in which the shooter was not acting in support of an investigation, either while on or off duty.
- Firearms Training: any qualification shoots or firearms training conducted at either an official FBI facility or any other firearms training site.

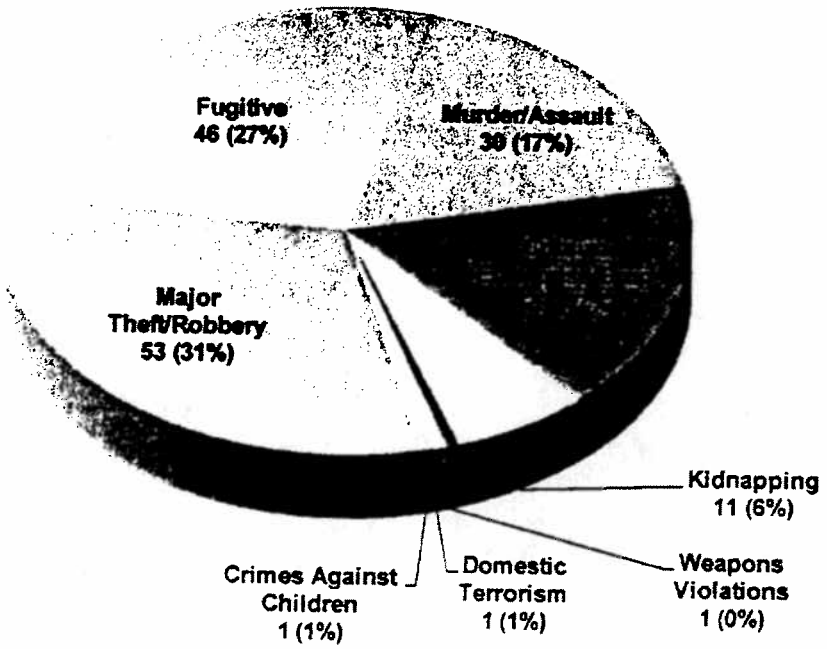
## Type of Violation in Which Intentional Shooting incidents Occurred

Sufficient data was available in 172 Intentional Shooting Incidents to identify the underlying nature of the crime or FBI classification under investigation when the shooting occurred. In some instances, the subjects in the database were subjects of FBI investigations. In these situations, the FBI classification was captured. In other situations, for instance, when an Agent was assaulted or robbed, the nature of the crime (i.e., assault or robbery) was captured.

For those incidents in which there were multiple crimes or violations, only the primary crime or violation was counted. For instance, regardless of the reason why a subject had become a fugitive (drugs, bank robbery, etc.) the primary reason Agents were searching for the subject was because the subject was a fugitive from justice.

Figure 5.13 depicts the types of violations resulting in Intentional Shooting Incidents. Each incident in which an Agent or LEO discharged their weapon counted as one incident even if more than one officer fired their weapons.

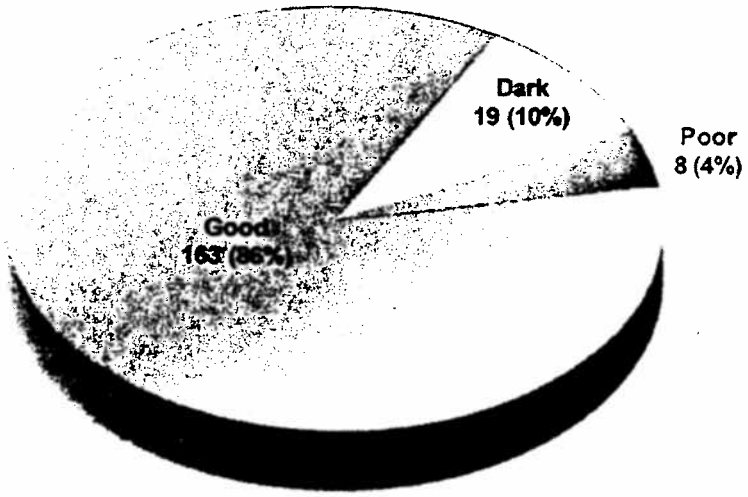
Figure 5.13 Type of Violations in Intentional Shooting Incidents



## Lighting Conditions During Intentional Shooting Incidents

Lighting conditions were captured based on the recollection of 190 of 269 (70.6%) Agent shooters involved in Intentional Shooting Incidents. Figure 5.14 reflects the lighting conditions per shooter at the time Agents discharged their weapons. No Agents discharged their weapons in more than one type of lighting condition.

Figure 5.14 Lighting Conditions During Intentional Shooting Incidents



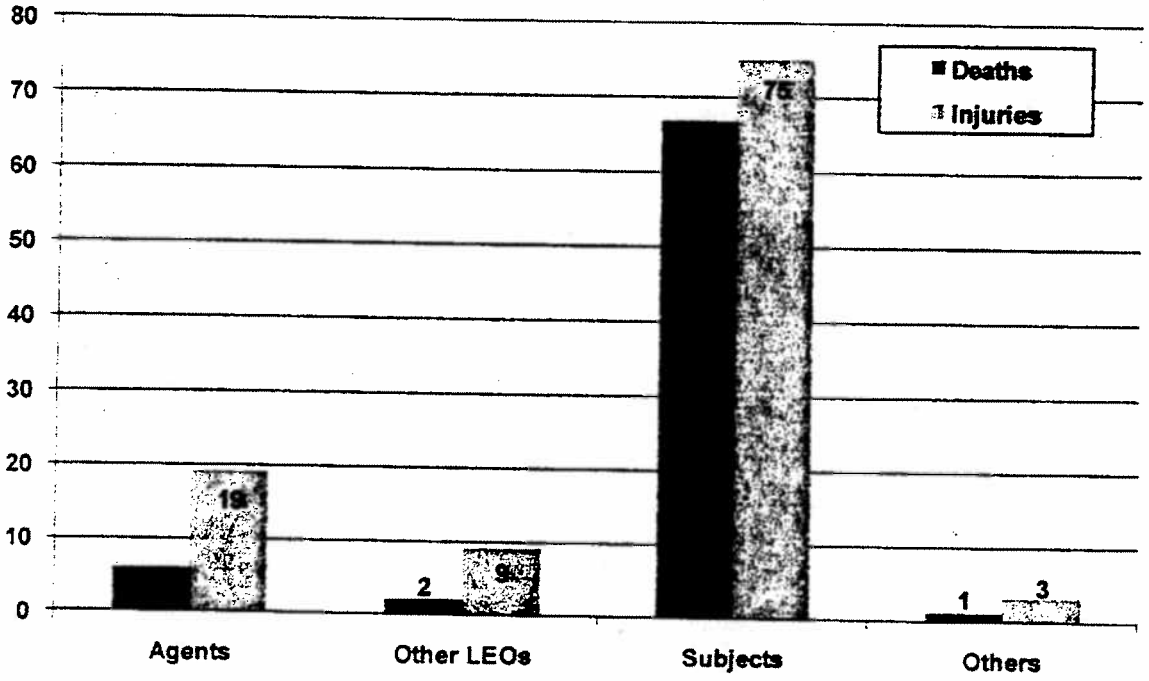
- Good: daylight. good artificial light, interior natural light, and flashlights.
- Dark: lighting at night or in a darkened room in which little or no additional light sources were available.
- Poor: backlight or silhouette, dawn/dusk, and limited or poor artificial light.

Of the 163 shooters reporting good lighting conditions, 12 (7.4%) shooters reported using a handheld flashlight or light mounted on their weapon.

## Deaths and Injuries Resulting from Intentional Shooting Incidents

Figure 5.15 illustrates the deaths and injuries resulting from Intentional Shooting Incidents.

Figure 5.15 Deaths and Injuries Resulting from Intentional Shooting Incidents

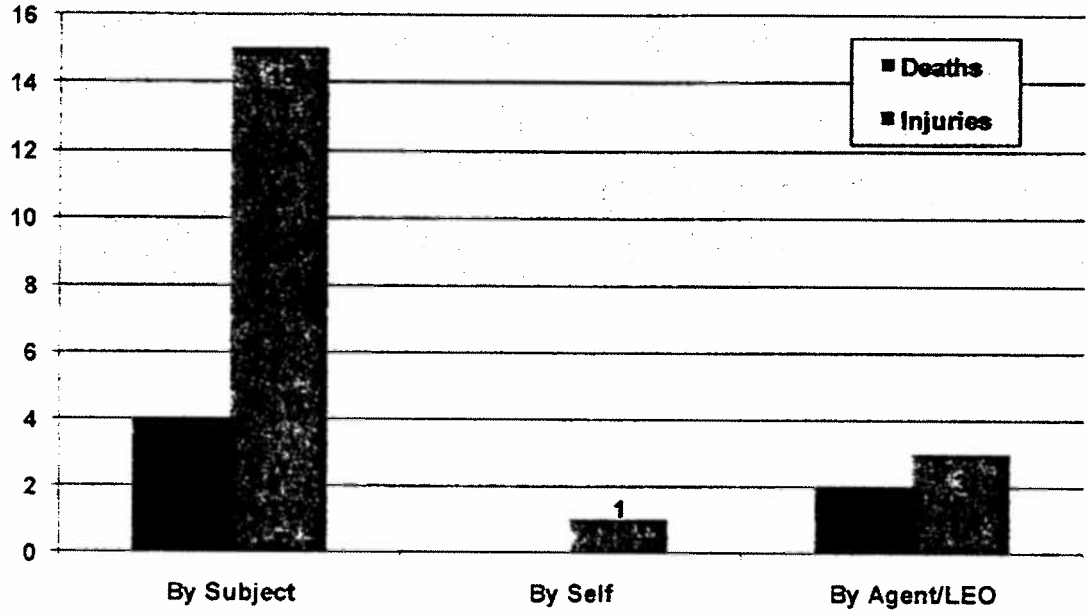


The four incidents in the "Others" category are described as follows:

- During a kidnapping investigation, an Agent fired his/her weapon into a vehicle as it was driven towards the Agent. The kidnap victim was in the vehicle and was struck and killed by the Agent's gunfire.
- A cooperator was shot and injured by a subject who attempted to rob the cooperator during a controlled drug purchase in support of an FBI investigation.
- During the surveillance of a violent subject, another individual was mistakenly identified as the subject. When Agents moved in to arrest the individual believed to be the subject, one Agent observed the individual make a furtive movement and, believing the individual was reaching for a weapon, fired, injuring the individual.
- When a violent subject attempted to use a vehicle as a weapon to evade arrest by Agents, an Agent fired at the subject, injuring another passenger in the vehicle.

Figure 5.16 reflects the *cause* of death or injury to Agents resulting from Intentional Shooting Incidents.

Figure 5.16 Causes of Agent Deaths and Injuries Resulting from Intentional Shooting Incidents



The Intentional Shooting Incidents in which 25 Agents were killed or injured are described below:

- Six Agents were killed: Two as a result of blue-on-blue incidents and four as a result of subject action.
- Ten Agents were injured by gunfire: Three as a result of blue-on-blue incidents and seven as a result of subject action.
- Eight Agents were injured by vehicles and/or blunt objects.
- One Agent accidently caused a self-inflicted injury when the Agent failed to hold an MP5 correctly when firing the weapon during training.

**Intentional Shooting Incidents Not in Accordance with FBI Deadly Force Policy**

Over the 17-year period of this review, there were 269 Special Agent shooters involved in Intentional Shooting Incidents. Of the 269 Agents, five (1.9%) were found by the SIRG to have discharged their weapons not in accordance with the FBI Deadly Force Policy. The five shooting incidents are described below:

- A subject who had already fired his weapon at Agents and other law enforcement personnel was walking erratically around his front yard as Agents and law enforcement officers established a perimeter. The subject repeatedly made movements towards the weapon which was lying on the ground close to the subject. One Agent, using a shotgun, fired one slug at the weapon to increase the distance between the weapon and the subject.

- An Agent was surrounded by a mob which had become aggressive in their actions. Fearing for his safety, the Agent fired one round into the air as a warning shot. There were no injuries.

- An Agent was chasing a fleeing fugitive when he lost sight of the subject. Believing the subject was lying in wait to ambush the Agent as he approached some bushes, the Agent fired his shotgun into the bushes. The fugitive was apprehended unharmed.

- Several Agents and law enforcement officers attempted to stop a vehicle carrying two fugitives. As the vehicle came to a stop, a passenger identified as one of the fugitives exited the vehicle and ran towards a nearby wooded area. An Agent fired at the fugitive. There were no injuries.

- While intoxicated, an Agent fired his weapon at an object. No other persons were involved.

**Summaries of Intentional Shooting Incidents Involving Special Agents**

The following summaries involving Special Agents were taken from the 17-year period. Summaries of incidents were chosen to provide examples of the varied situations under which Intentional Shootings have occurred.

Felony Car Stop

- A Violent Crimes Task Force (VCTF) obtained a local arrest warrant for a bank robber who had brandished a pistol and threatened to shoot a teller during a robbery. A written operations plan was prepared and approved, which did not include a contingency plan for a felony car stop. The subject had a criminal history which included violence and an attempt to use a vehicle as a weapon against firemen and a police officer while fleeing a traffic stop. The plan was for two Agents and four TFOs to arrest the subject outside of one of two residences the subject was known to frequent. Surveillance teams were established on both locations. The subject was observed exiting one of the residences and entering a vehicle. The arrest team began to formulate a plan via radio to conduct a felony car stop. The subject's driving pattern indicated to the surveillance team they had been identified. When the subject pulled the car to the side of the road, the order was given for the arrest team to execute a car stop. The arrest team exited their vehicles and ordered the subject to raise his hands. Initially the subject complied but, as a TFO approached the driver's side door, the subject lowered his hands and began to drive onto the curb. Another TFO had to quickly move to avoid being hit. As the vehicle continued to drive onto the sidewalk, members of the arrest team observed the subject lower his hands to his waist area. Believing he was reaching for a gun, one Agent fired six rounds from a Glock Model 22 towards the subject, striking him several times. The vehicle hit a fence and stopped. The subject was transported to a hospital for gunshot wounds and survived. No other persons were injured.

At Home

- An FBI Agent was preparing to depart for a SWAT operation from his home in the early pre-dawn hours. The Agent carried two gear bags from the residence, one of which contained FBI credentials and a bureau-issued Springfield pistol, and placed them next to the bureau vehicle which was parked in the garage. Leaving the roll-up garage door partially open, the Agent went to retrieve a drug detection dog from the backyard. As the Agent neared the backyard he observed a pickup truck, with at least two individuals in it, make a U-turn in the cul-de-sac adjacent to the home and drive back past the home. The Agent watched the truck closely as the home of

a neighbor had been recently burglarized. As the Agent returned to the garage moments later, he encountered three males inside the garage. The Agent drew his bureau-approved, personally-owned Sig Sauer P229 pistol and confronted the subjects. Two of the subjects ran toward the truck which was waiting on the street, while the third male became involved in a brief physical altercation with the Agent. The third male then ran towards the waiting truck with the Agent in pursuit. Giving commands to the subjects to exit the truck, the Agent reached into the cab on the driver's side in an attempt to remove the keys from the ignition. The driver put the truck into gear and steered toward the Agent while accelerating. Fearing he would be killed or seriously injured, the Agent fired six rounds in rapid succession, striking the rear window once, the tailgate three times, and both driver side tires, as the truck fled the area. No one was injured by the shots. The Agent sustained minor injures during the struggle. The subjects were apprehended several days later.

Search Warrant

- Agents and law enforcement personnel executed a federal search warrant on the residence of a subject who had been trading child pornography with an undercover law enforcement officer. No written operational plan was prepared, but a verbal brief was held at a local police station shortly before execution. The search team was advised that the subject had a criminal history and had served federal prison time for the illegal sale of stolen military weapons. As they approached the residence, the team was motioned towards the side door by an adult male believed to be the subject. Upon entering the residence, they met with the subject's wife and two children, but the subject could not be found. Upon climbing the stairs, the search team made contact with the subject, who was standing down a hallway in the master bedroom, with a pistol pointed under his chin. One of the officers removed the wife and two children from the residence as two Agents covered the subject with their weapons and began to negotiate with him to drop his weapon. During the negotiation, which lasted approximately 15-20 minutes, Agents maintained concealment as much as possible while trying to convince the subject to drop his weapon. The subject kept moving the position of the gun between his mouth and chin. He repeatedly commented that he would not go back to prison and the Agents didn't want him to commit "suicide by cop." After explaining their purpose was to execute only a search warrant for the computers, the subject's demeanor changed. He became quiet and moved closer to a window. The Agents suspected the subject was trying to position himself closer to an egress point. The subject's grip on his weapon changed and his body moved to what the Agents per-

ceived as a combat stance. The subject then moved the weapon away from his head towards the Agents. The Agents, fearing for their lives, fired on the subject. The subject quickly moved his weapon to his mouth and fired a round. The Agents, hearing this shot, believed the subject was shooting at them and fired again. The two Agents fired a total of seven rounds. The subject died as a result of the wounds he inflicted on himself and by the Agents.

Robbed at Gunpoint

- An Agent parked his/her Bucar a block away from his/her residence after work. The Agent secured the vehicle and began walking towards his/her residence carrying an MP5 in a case. Two unknown males were walking slowly towards the Agent. These males appeared to be displaying gang paraphernalia, which the Agent recognized from working gang violations in the area. The males slowed their pace as the Agent approached and physically stopped him as they passed. One of the males pointed a semi-automatic pistol at the Agent and demanded money. The Agent placed the bags on the ground and held his/her hands in front to show compliance. The Agent slowly reached for his/her wallet and handed it to the male holding the gun. The wallet did not contain any items identifying the Agent as a law enforcement officer. One male picked up the case with the MP5 while the other started checking the Agent's pockets while keeping the gun pointed at the Agent. The Agent was carrying a Glock Model 23 in a hip holster concealed under a jacket. Fearing the males would soon discover he/she was an FBI Agent and shoot him/her, the Agent drew the pistol and fired approximately six rounds at the male holding the gun, who fell backwards. The Agent turned towards the second male and fired three shots. The second male fell to the ground. The Agent then turned back towards the first male, who had the gun. The male was running down the street. The Agent moved into the street and commanded the subject to stop. The subject abruptly stopped and turned towards the Agent. The Agent, believing the subject was still armed and was turning to fire at the Agent, fired two rounds at a distance of approximately 25 yards. The subject fell to the ground. The Agent looked around for the second subject, but could not see him. The Agent sought the protection of cover by running to the opposite side of the street and crouching behind a vehicle. From behind the vehicle, the Agent continued to scan the street, but could not see either subject. The Agent reloaded his/her weapon and contacted the field office. A short time later, police officers responded and secured the scene. Both subjects were taken to the hospital for gunshot wounds.

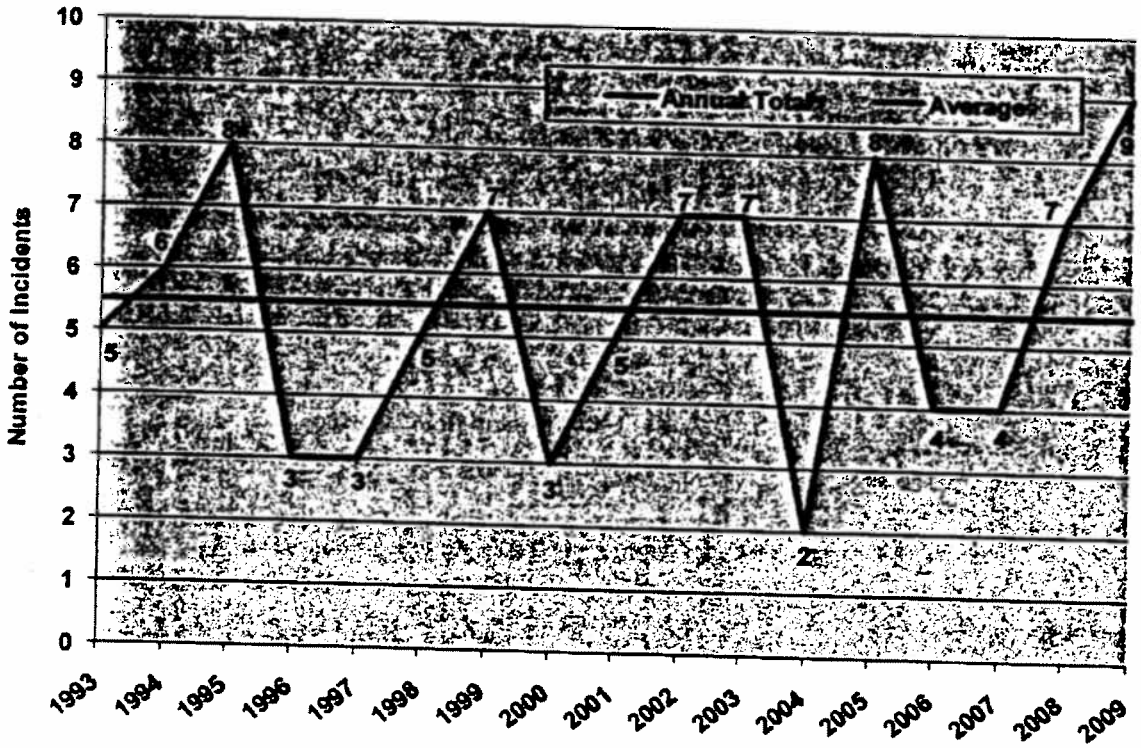
# VI. Animal Shooting Incidents

**Animal Shooting Incidents by Calendar Year Compared to the 17-Year Average**

Animal Shooting Incidents were defined as those instances where weapons were discharged to: stop dangerous or aggressive animals; euthanize seriously injured animals that posed a continuing threat or serious hazard; or humanely end an animal's suffering, typically when law enforcement action inflicted grievous injury to that animal.

Figure 6.1 illustrates the number of Animal Shooting Incidents per calendar year compared to the average number of Animal Shooting Incidents over the 17-year period. The average number of Animal Shooting Incidents per year was 5.5, depicted by the red line.

Figure 6.1 Animal Shooting Incidents by Calendar Year



## Animal Shooting Incidents by Field Office

There were 93 Animal Shooting Incidents during the 17-year review period. Thirty-five field offices reported 90 (96.8%) Animal Shooting Incidents. FBI Headquarter divisions accounted for 3 of 93 (3.2%) shooting incidents. Figure 6.2 depicts the range of Animal Shooting Incidents by field office, represented by the two letter identifier of the field office.

Figure 6.2 Animal Shooting Incidents by Field Office

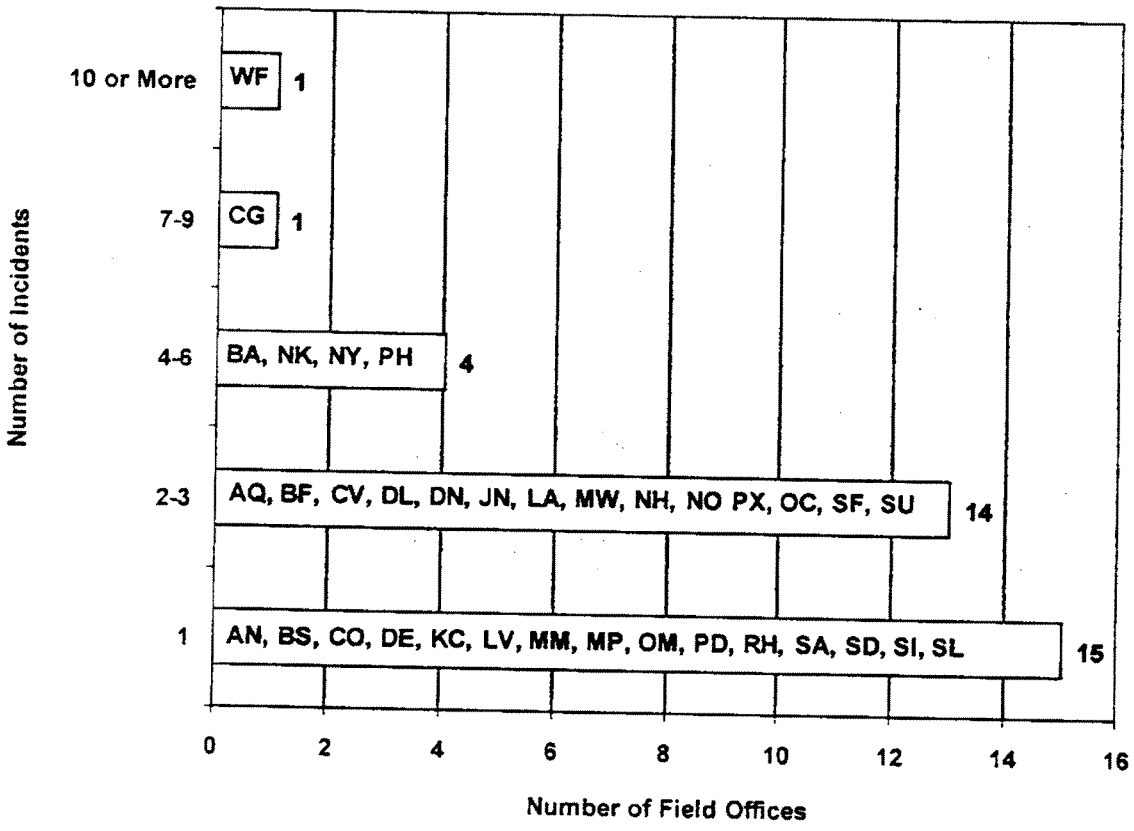


Table 6.1 displays the actual number of Animal Shooting Incidents for each field office during the 17-year review period.

Table 6.1 Animal Shooting Incidents by Field Office

| [illegible] | [illegible] | [illegible] | [illegible] |
|---|---|---|---|
| Washington Field | 12 | Phoenix | 2 |
| Chicago | 7 | Salt Lake City | 2 |
| Baltimore | 6 | Anchorage | 1 |
| Newark | 6 | Boston | 1 |
| New York | 5 | Columbia | 1 |
| Philadelphia | 4 | Detroit | 1 |
| Buffalo | 3 | Kansas City | 1 |
| Cleveland | 3 | Las Vegas | 1 |
| Dallas | 3 | Miami | 1 |
| Denver | 3 | Minneapolis | 1 |
| Milwaukee | 3 | Omaha | 1 |
| Oklahoma City | 3 | Portland | 1 |
| San Francisco | 3 | Richmond | 1 |
| Albuquerque | 2 | San Antonio | 1 |
| Jackson | 2 | San Diego | 1 |
| Los Angeles | 2 | Springfield | 1 |
| New Haven | 2 | St. Louis | 1 |
| New Orleans | 2 | | |

**All Animal Types**

Table 6.2 depicts the types of animals encountered in Animal Shooting Incidents. The column on the left lists the types of animal fired upon by Agents and LEOs. The column on the right depicts the total number of the type of animal. The animals were not necessarily injured or killed.

Table 6.2 Animal Types

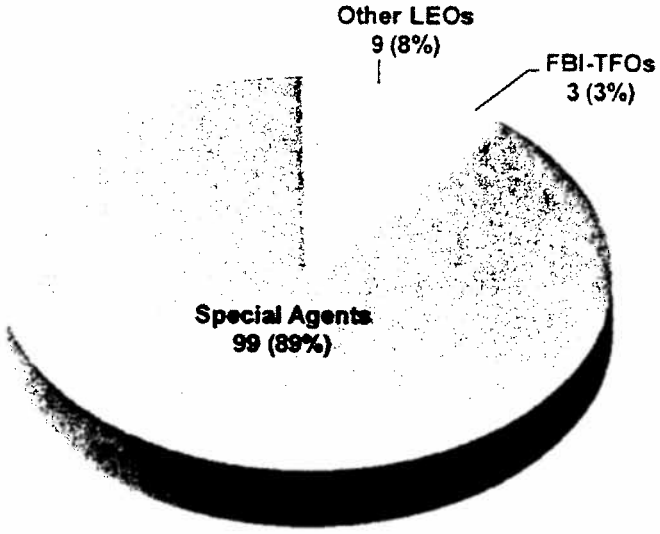
| Animal | Total |
|---|---|
| Dog | 85 |
| Deer | 9 |
| Fox | 1 |
| Horse | 1 |
| Moose | 1 |
| Raccoon | 1 |
| Skunk | 1 |
| Snake | 1 |
| Tiger | 1 |
| *Total* | *101* |

Aggressive dogs have been encountered in packs (two or more) in seven separate shooting incidents.

**Shooters Involved in Animal Shooting Incidents**

Figure 6.3 depicts the status of all shooters for all Animal Shooting Incidents. During the 93 Animal shootings, 99 Special Agents, 9 LEOs, and 3 TFOs fired a weapon.

Figure 6.3 Shooters Involved in Animal Shooting Incidents

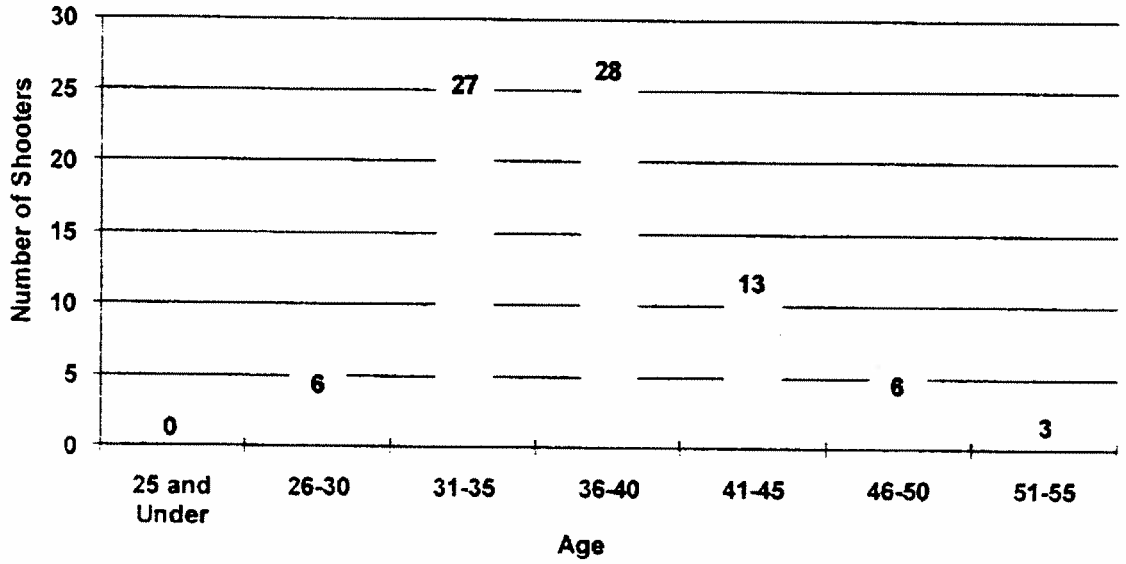


- Special Agents: FBI Special Agents, including supervisory or managerial personnel.
- Other LEOs: all other LEOs (local, county, state, and federal) not identified as TFOs.
- FBI-TFOs: all LEOs designated in the shooting incident report as an FBI TFO.

## Age and Time in Service of FBI Agents Involved in Animal Shooting Incidents

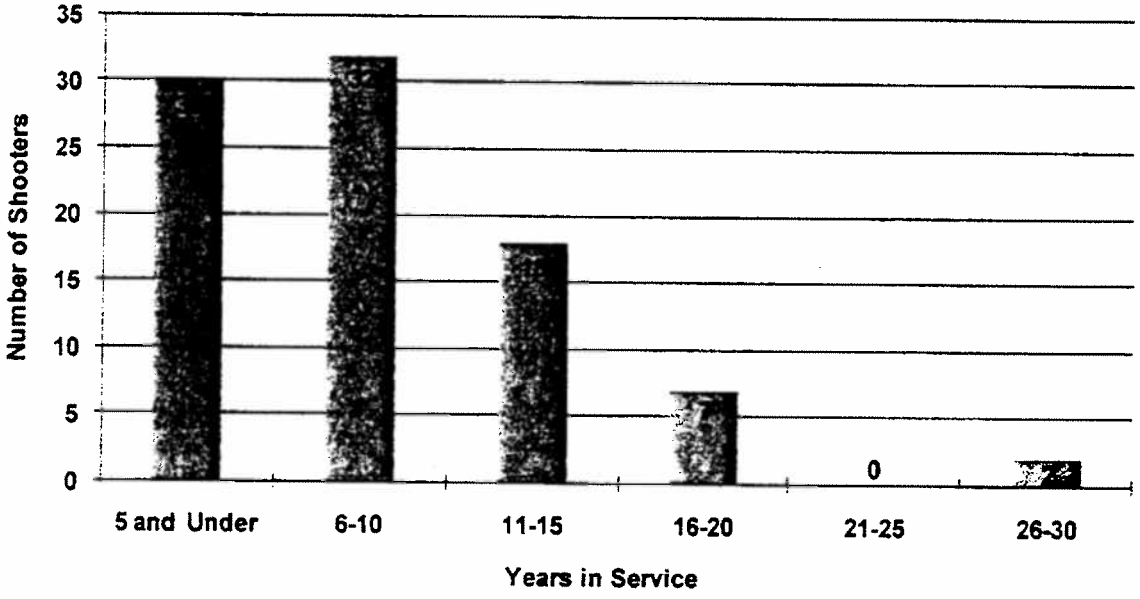
Age was available for 83 of the 99 (83.8%) Agent shooters. Figure 6.4 depicts the number of Agents by age group at the time of the shooting.

Figure 6.4 Age of FBI Agents Involved in Animal Shooting Incidents



Time in Service was available for 89 of the 99 (89.9%) Agent shooters. Figure 6.5 depicts the Agents' Time in Service at the time of the shooting.

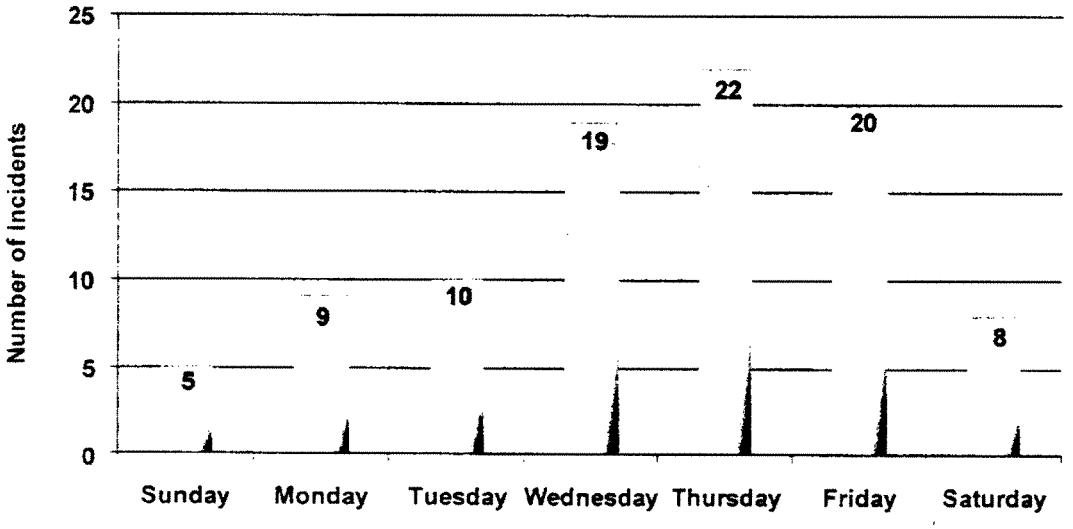
Figure 6.5 Time in Service of FBI Agents Involved in Animal Shooting Incidents



## Animal Shooting Incidents by Day of the Week

Day of the week was available for all Animal Shooting Incidents. Figure 6.6 depicts the frequency of occurrence of all Animal shootings by day of the week.

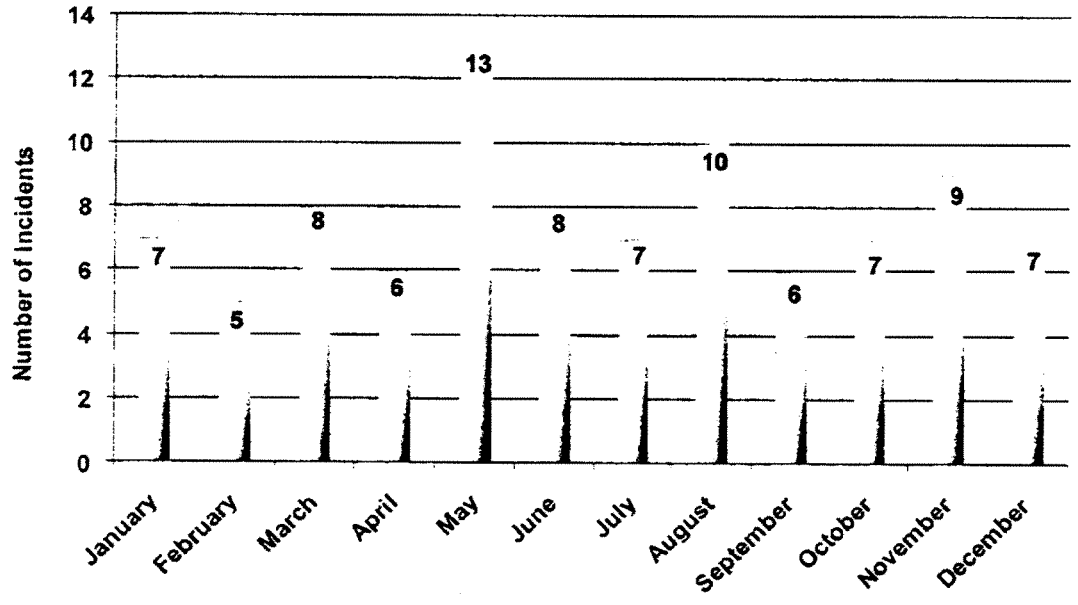
Figure 6.6 Animal Shooting Incidents by Day of the Week



## Animal Shooting Incidents by Month of the Year

Month of the year was available for all Animal Shooting Incidents. Figure 6.7 depicts the frequency of occurrence of all Animal shootings by month of the year.

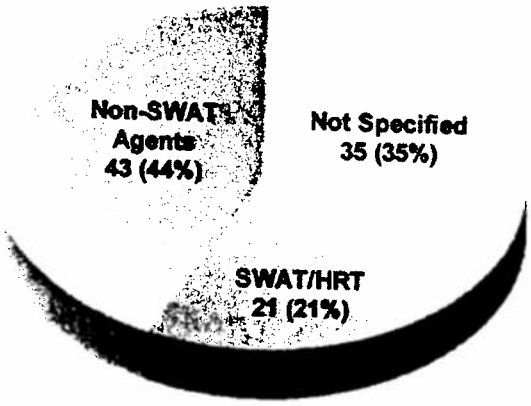
Figure 6.7 Animal Shooting Incidents by Month of the Year



## SWAT vs. Non-SWAT Agents Involved in Animal Shooting Incidents

In Figure 6.8, Agent shooters involved in Animal Shooting Incidents were categorized based on whether they were SWAT/HRT Operators, Non-SWAT Agents, or Not Specified.

Figure 6.8 SWAT vs. Non-SWAT Agents Involved in Animal Shooting Incidents



- Non-SWAT Agents: any Agent not assigned to SWAT or HRT at the time of the incident.
- Not Specified: Agents about whom there was insufficient information in the shooting incident report to make a determination.
- SWAT/HRT: all Agents who were active members of an FBI SWAT team or HRT, but not necessarily involved in a SWAT or HRT operation at the time of the incident.

## Number of SWAT Operations

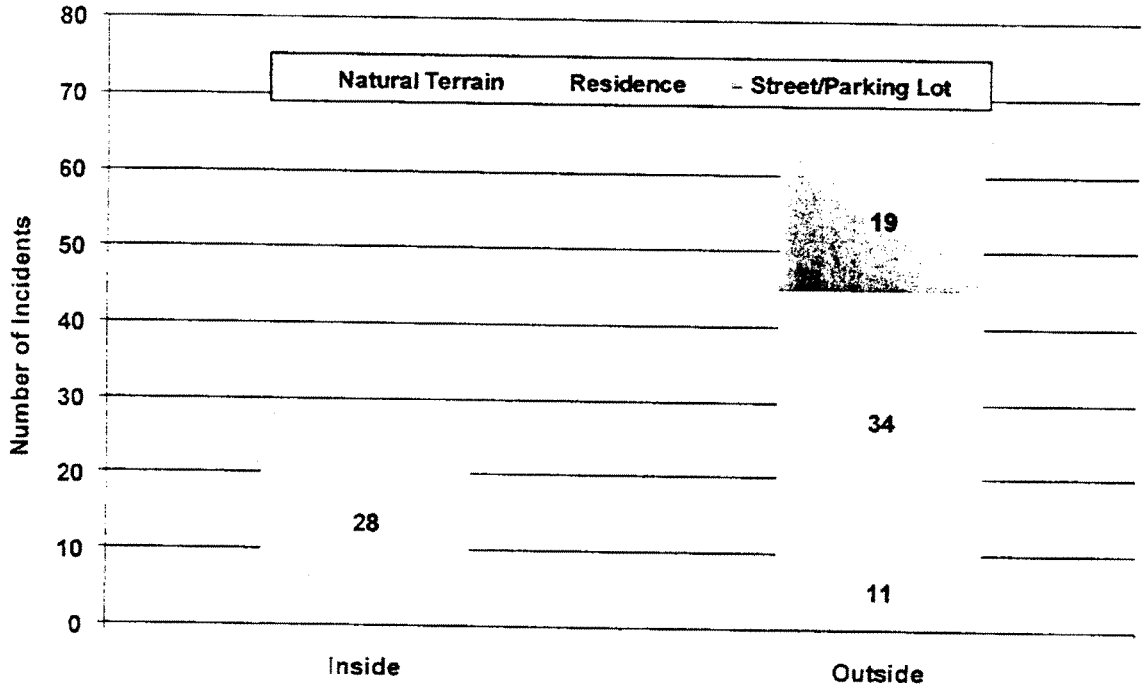
Based on the data available in the shooting incident reports, there were at least 4 of 93 (4.3%) Animal Shooting Incidents which occurred during SWAT operations.[1]

[1]This number should be understood to be a minimum number since it was not explicit in every shooting incident report whether the incident involved a SWAT team.

## Environment and Location for Animal Shooting Incidents

Environment and location information was available for 92 of 93 (98.9%) Animal Shooting Incidents. Figure 6.9 depicts the Environment (inside and outside) and Location for Animal Shooting Incidents for all animal types.

Figure 6.9 Environment and Location of Animal Shooting Incidents



Inside Environment

- Residence: single and multi-family homes, apartments, condominiums, and trailer homes.

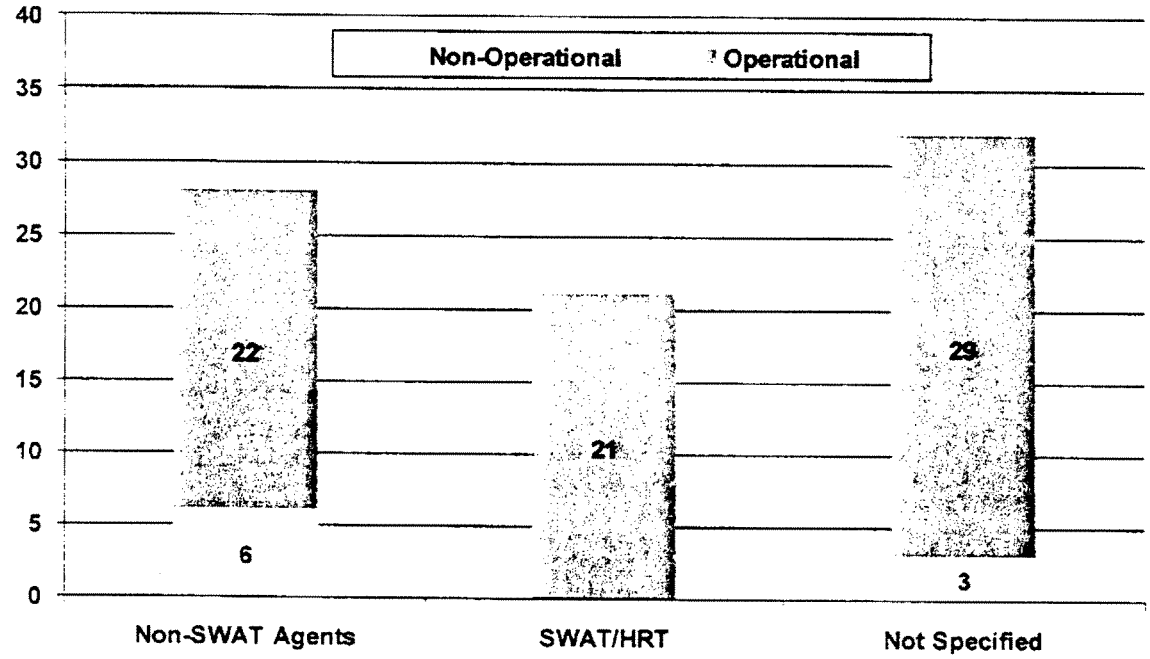
Outside Environment

- Natural Terrain: wooded areas, rural and farm land, and mountainous areas.
- Residence: the perimeter or yard immediately outside or in the vicinity of a residence.

## Operational Status for Agents Involved in Animal Shooting Incidents

Of the 99 Agents involved in an Animal Shooting Incident, 18 (18.2%) were not on duty at the time of the incident. Figure 6.10 depicts the on duty type of activity of the remaining 81 (82.6%) Agents at the time of the shooting.

Figure 6.10 Operational Status of On Duty Agents Involved in Animal Shooting Incidents



- Operational: any planned activity in which the shooter was acting in support of an investigation while on duty.
- Non-Operational: any unplanned situation in which the shooter was not acting in support of an investigation, either while on or off duty.

## Injuries Resulting from Animal Shooting Incidents

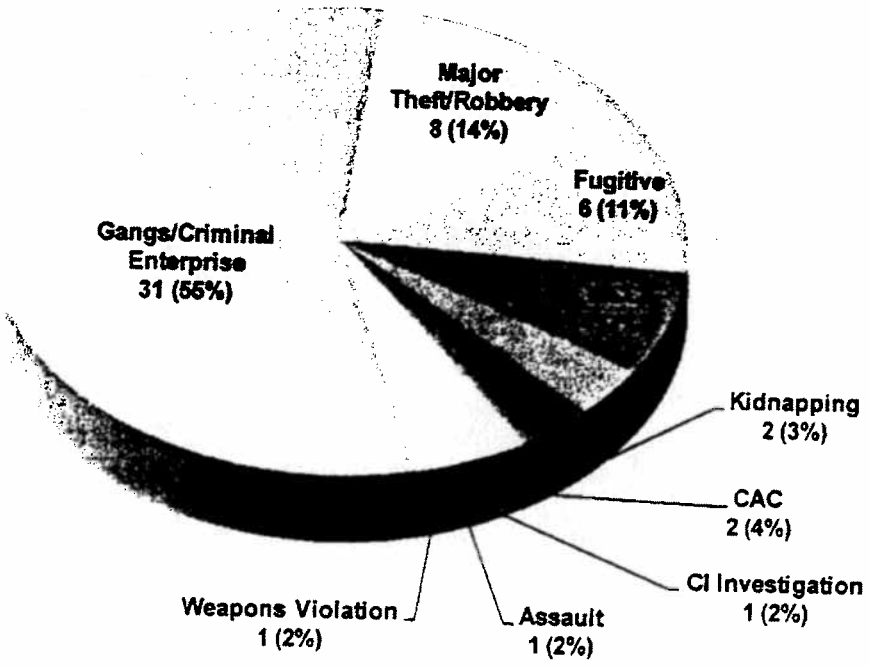
Of the 111 FBI and LEO shooters involved in Animal Shooting Incidents, seven shooters received injuries: One LEO and five Agents were injured by animal attacks and one Agent received a gunshot injury when another LEO fired at the attacking dog. There were no deaths of shooters resulting from Animal incidents.

## Type of Violation in Which Animal Shooting Incidents Occurred

Sufficient data were available in 58 Animal Shooting Incidents to identify the underlying nature of the crime or FBI classification under investigation when the shooting occurred. For those incidents in which there were multiple crimes or violations, only the primary crime or violation was counted. For instance, regardless of the reason why a subject had become a fugitive (drugs, bank robbery, etc.) the primary reason Agents were searching for the subject was because the subject was a fugitive from justice.

Figure 6.11 depicts the types of violations resulting in Animal Shooting Incidents. Each incident in which an Agent or LEO discharged their weapon counted as one incident even if more than one Agent/LEO fired their weapons.

Figure 6.11 Type of Violations in Animal Shooting Incidents



**Summaries of Animal Shooting Incidents Involving Special Agents**

The following summaries involving FBI Agents were taken from the 17-year period. Summaries of incidents were chosen to provide examples of the varied situations under which Animal Shootings have occurred.

- While driving to work, an Agent was stopped by an individual requesting assistance. The individual advised the Agent a young girl was being attacked by two dogs. The Agent and the individual attempted to rescue the girl, but the dogs quickly turned on and attacked the Agent. The Agent drew his/her weapon and fired one round, striking one of the dogs in the chest. The two dogs retreated; the injured dog died a short distance away.

- During the execution of an arrest warrant, a SWAT team breached the door to the target location. Immediately, a large dog exited the door and rushed towards the breacher. Another SWAT Agent fired one round into the dog's back from his/her Springfield Model 1911. The dog continued to rush towards Agents in the entry stack, resulting in another Agent firing one round into the dog. The dog fell to the ground and was euthanized by animal control personnel after the completion of the mission.

- An Agent was asked to assist in the location and capture of a tiger which had escaped from a local theme park. Several attempts had been made to tranquilize the tiger, without success. Fearing the tiger would make its way to a more populated area the decision was made to kill the animal. Because it was late evening and foggy, an FBI helicopter with the capability of Forward Looking Infra-Red (FLIR) was used to guide the Agent to the tiger. The plan was for the Agent, in communication with the helicopter and others, to flush the tiger towards a location where shooters would euthanize the animal. The Agent entered a clearing and observed the tiger enter the same clearing, moving towards the Agent's location. The Agent fired three slugs from a shotgun, hitting the tiger, but the tiger ran back into the surrounding wooded area. Through the use of night vision goggles, the Agent located the tiger in the wooded area. The tiger was stationary and, for officer safety, the Agent fired another slug, killing the tiger.

- An Agent stopped to assist two motorists who were trying to assist an injured deer lying in the median of the road. The Agent contacted the local sheriff's office and a deputy was dispatched to the scene. Before the deputy arrived, the deer attempted

to move into lanes of traffic. Fearing the deer would cause an accident, the Agent, with the assistance of an off-duty police officer, stopped traffic. Ensuring the area was safe, the Agent fired two shots from a shotgun, killing the deer. A short time later, the deputy arrived and coordinated the removal of the deer.

- A Task Force assembled to execute a search warrant on a single family residence in a drug investigation. An Agent and several Task Force Officers, including two uniformed officers, entered the residence and began to conduct a protective sweep to secure the site. A TFO approached a bedroom door and after discovering the door was locked yelled, "Police." The Agent approached the door and, fearing the subject was locked in the bedroom destroying evidence or arming himself, kicked at the door. The door opened and the Agent was immediately attacked by a large dog. The Agent tried to fend off the aggressive dog as the TFO, standing several feet away, fired one round from his 9 mm pistol, striking the dog. The dog continued to attack the Agent. The TFO quickly fired three more rounds, striking the dog in the chest and back. The dog continued to attack the Agent. A second TFO moved towards the dog and fired one round from his .45 caliber pistol. The round struck the dog in the chest, killing the animal. The Agent continued into the bedroom where the subject was located and secured. The Agent then realized he/she had been shot in the foot.

- During the execution of a search and arrest warrant at a residence in a drug investigation, two Agents and a police officer were tasked with providing perimeter security. Shortly after arriving at the residence and taking their positions on the perimeter, an aggressive dog approached the group. The dog growled and moved towards the perimeter team. One Agent, fearing the dog was going to attack, fired two rounds from his/her Glock Model 23. The officer fired one round. The dog was struck, but ran off and was not located.

- An Agent was waiting in a car in front of a friend's residence. The friend exited the residence, with two other individuals, leading a small dog on a leash. The Agent observed a large dog down the street rapidly approaching the friend's small dog. The large dog began behaving aggressively towards the small dog and appeared to the Agent to become more aggravated as the friend and two other individuals attempted to fend off the larger dog. Fearing the large dog was a threat and would attack, the Agent fired two rounds from his/her Glock Model 22, striking the dog. The injured animal was removed from the scene by local animal control authorities.

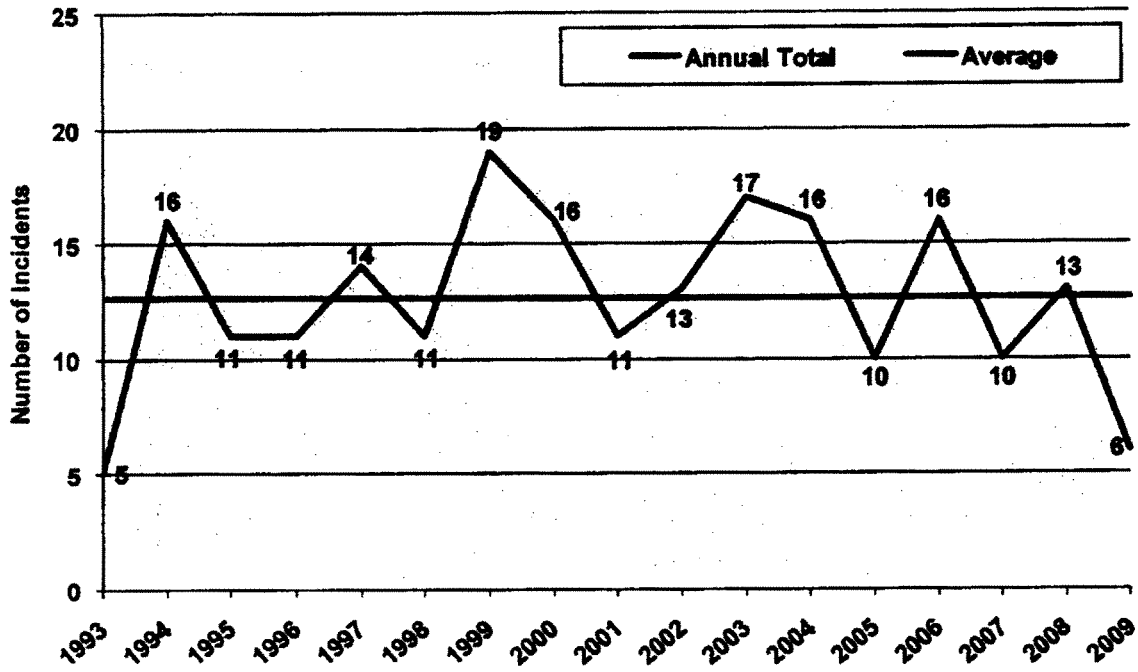
# VII. Unintentional Discharges

**Unintentional Discharges by Calendar Year Compared to the 17-Year Average**

Unintentional Discharges were defined as inadvertent or accidental discharges of one or more rounds without the intent of the shooter.

Figure 7.1 illustrates the number of Unintentional Discharges per calendar year compared to the average number of Unintentional Discharges over the 17-year period. The average number of Unintentional Discharges per year was 12.6, depicted by the red line in Figure 7.1.

Figure 7.1 Unintentional Discharges by Calendar Year



**A Note on Unintentional Discharges**

Any UD is unacceptable and poses a significant risk of harm. Considering Special Agents routinely handle and unholster weapons, there exists many "opportunities" for UDs. To put the annual average of 12.6 UDs per year in perspective, the opportunity for a UD needs to be considered. Opportunity includes, but is not limited to, the number of times Agents handle an unholstered weapon. Using a quantifiable event defines the opportunities available in which a UD could occur. The Pistol Qualification Course (PQC), the authorized firearms qualification session for all Agents, provides a known example during which Agents must unholster their weapons. Agents must pass the PQC four times annually. Pistols are drawn from holsters four times per PQC. For 2009, with an approximate Agent population of 13,360, pistols alone should have been drawn a minimum of 213,760 times. This minimum number does not account for the additional times throughout any given year in which Special Agents drew pistols or carried long guns, including: enhanced SWAT and HRT training, search warrant operations, arrests, and cleaning of firearms.

No UD is acceptable, but when placed into the context of the very broad calculations above, the numbers of UDs within the FBI were relatively very few.

## Unintentional Discharges by Field Office

There were 216 Unintentional Discharges during the 17-year review period. Fifty-one field offices reported 181 UDs. FBI Headquarters divisions accounted for 34 of 216 (15.6%) shooting incidents. Figure 7.2 depicts the range of UDs by field office, represented by the two letter identifier of the affected field office.

Figure 7.2 Unintentional Discharges by Field Office

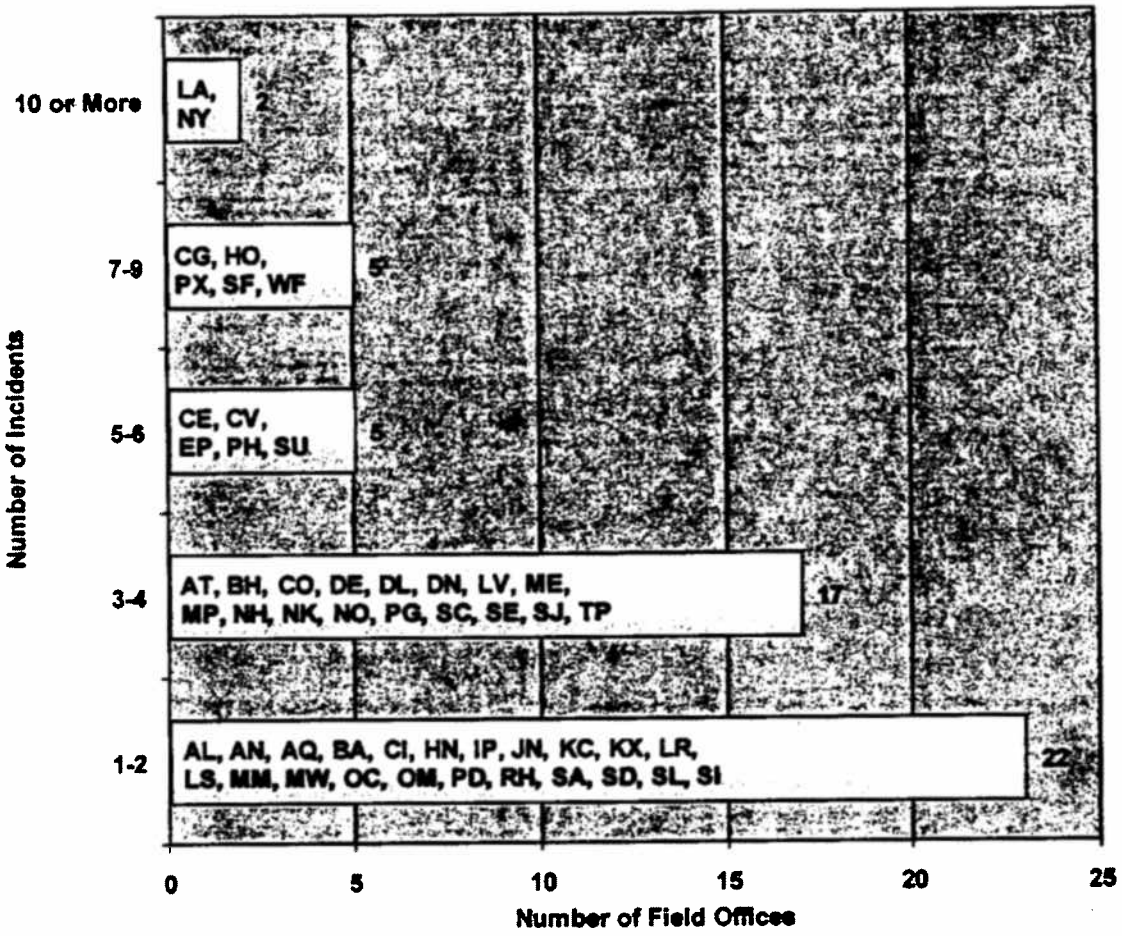


Table 7.1 displays the actual number of Unintentional Discharges for each field office during the 17-year review period.

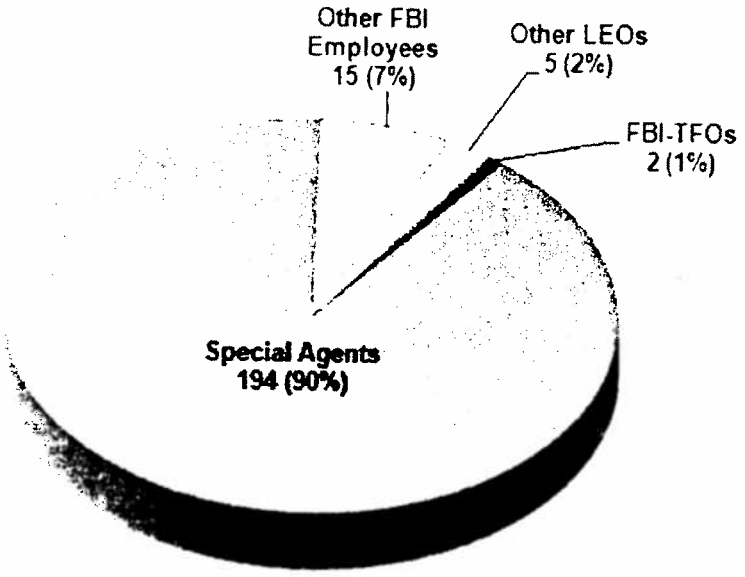
Table 7.1 Unintentional Discharges by Field Office

| FIELD OFFICE | Number of Incidents | FIELD OFFICE | Number of Incidents |
|---|---|---|---|
| Los Angeles | 14 | New Orleans | 3 |
| New York | 13 | San Juan | 3 |
| Houston | 8 | Seattle | 3 |
| Chicago | 7 | Albuquerque | 2 |
| Phoenix | 7 | Indianapolis | 2 |
| San Francisco | 7 | Kansas City | 2 |
| Washington Field | 7 | Little Rock | 2 |
| Philadelphia | 6 | Louisville | 2 |
| Salt Lake City | 6 | Miami | 2 |
| Charlotte | 5 | Omaha | 2 |
| Cleveland | 5 | Richmond | 2 |
| El Paso | 5 | San Antonio | 2 |
| Atlanta | 4 | San Diego | 2 |
| Birmingham | 4 | St. Louis | 2 |
| Dallas | 4 | Albany | 1 |
| Minneapolis | 4 | Anchorage | 1 |
| Pittsburgh | 4 | Baltimore | 1 |
| Sacramento | 4 | Cincinnati | 1 |
| Tampa | 4 | Honolulu | 1 |
| Columbia | 3 | Jackson | 1 |
| Denver | 3 | Knoxville | 1 |
| Detroit | 3 | Milwaukee | 1 |
| Las Vegas | 3 | Oklahoma City | 1 |
| Memphis | 3 | Portland | 1 |
| Newark | 3 | Springfield | 1 |
| New Haven | 3 | | |

## Shooters Involved in Unintentional Discharges

Figure 7.3 depicts the status of all shooters for all UDs. During the 216 UDs, 194 Special Agents, 15 FBI Employees, 5 LEOs, and 2 TFOs fired a weapon.

Figure 7.3 Shooters Involved in Unintentional Discharges

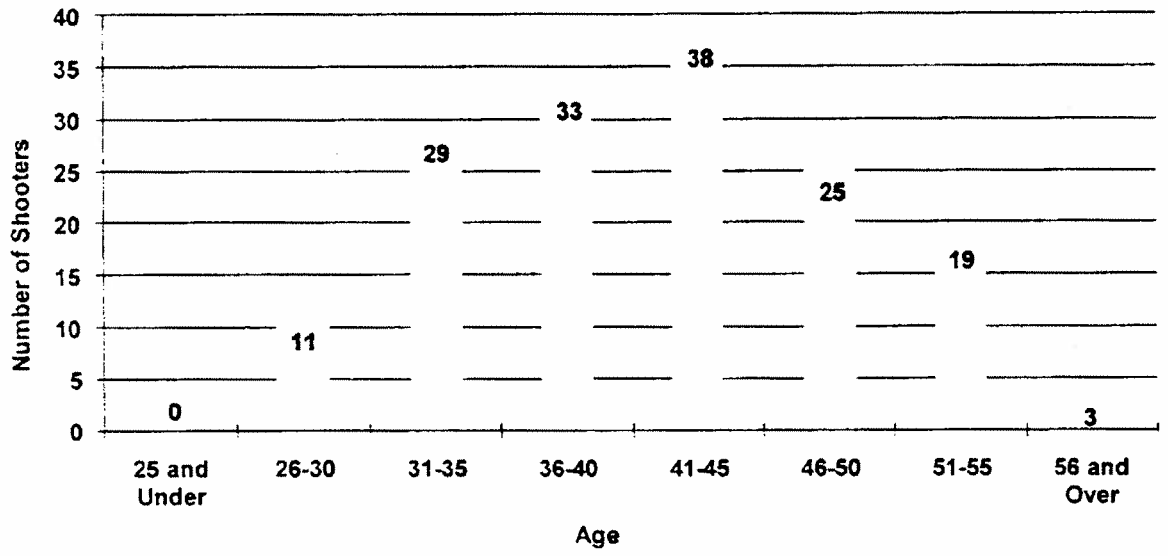


- Special Agents: FBI Special Agents, including supervisory or managerial personnel.
- Other FBI Employees: all non-Agent employees of the FBI (e.g., Technicians, New Agent Trainees, and Law Enforcement Specialists).
- Other LEOs: all other LEOs (local, county, state, and federal) not identified as TFOs.
- FBI-TFOs: all LEOs designated in the shooting incident report as an FBI TFO.

## Age and Time in Service of Agents Involved in Unintentional Discharges

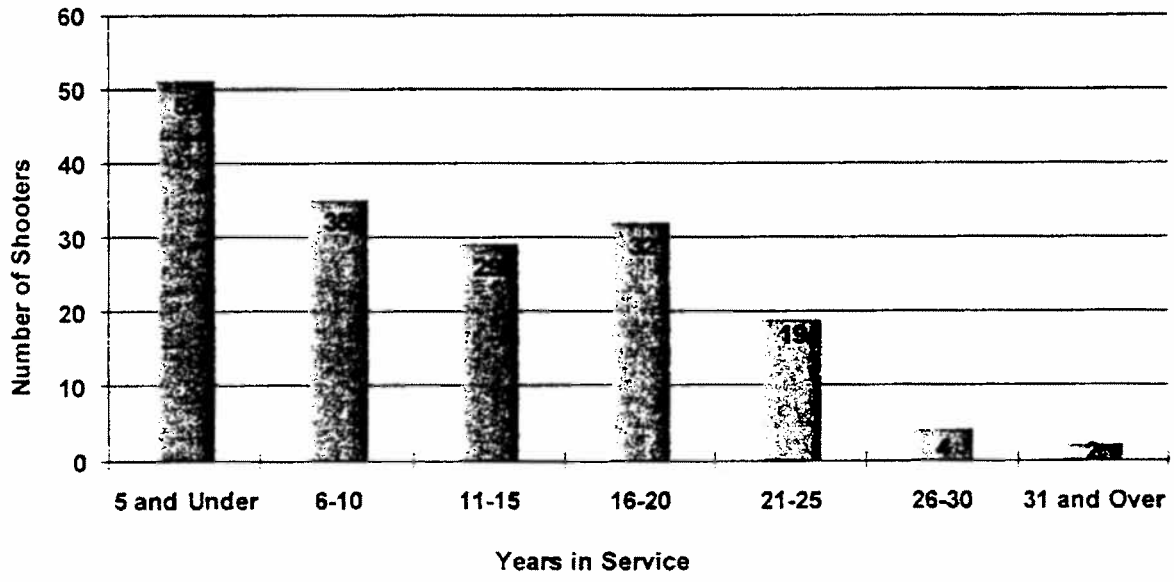
Age was available for 158 of 194 (81.4%) Agents involved in UDs. Figure 7.4 depicts the number of Agents by age group at the time of the UD.

Figure 7.4 Age of Agents Involved in Unintentional Discharges



Time in Service was available for 172 of 194 (88.7%) Agents involved in UDs. Figure 7.5 depicts the Agents' Time in Service.

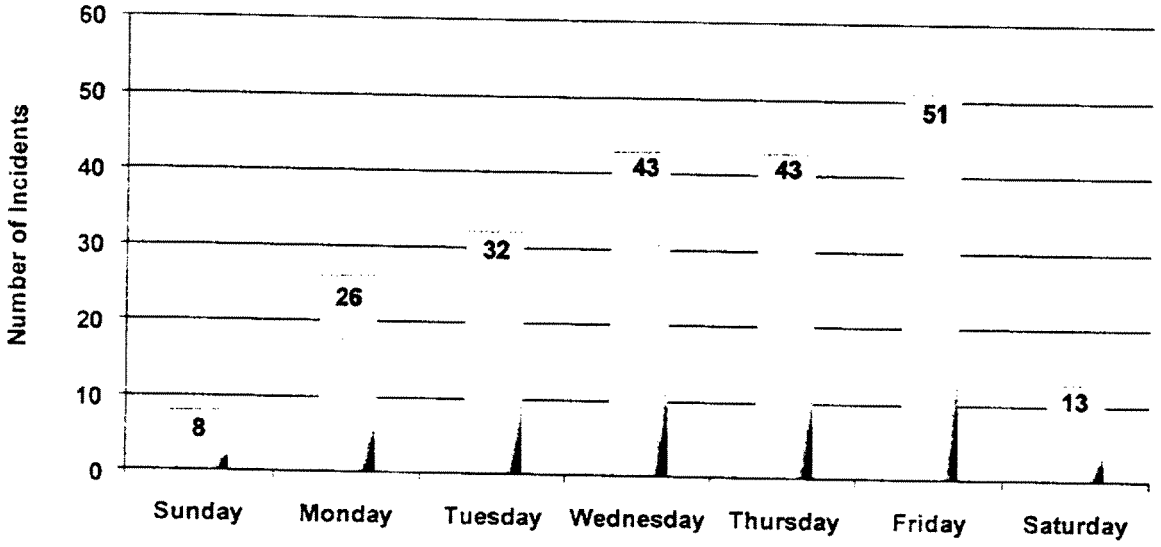
Figure 7.5 Time in Service of Agents Involved in Unintentional Discharges



## Unintentional Discharges by Day of the Week

Day of the week was available for all UDs. Figure 7.6 depicts the frequency of occurrence of all UDs by day of the week.

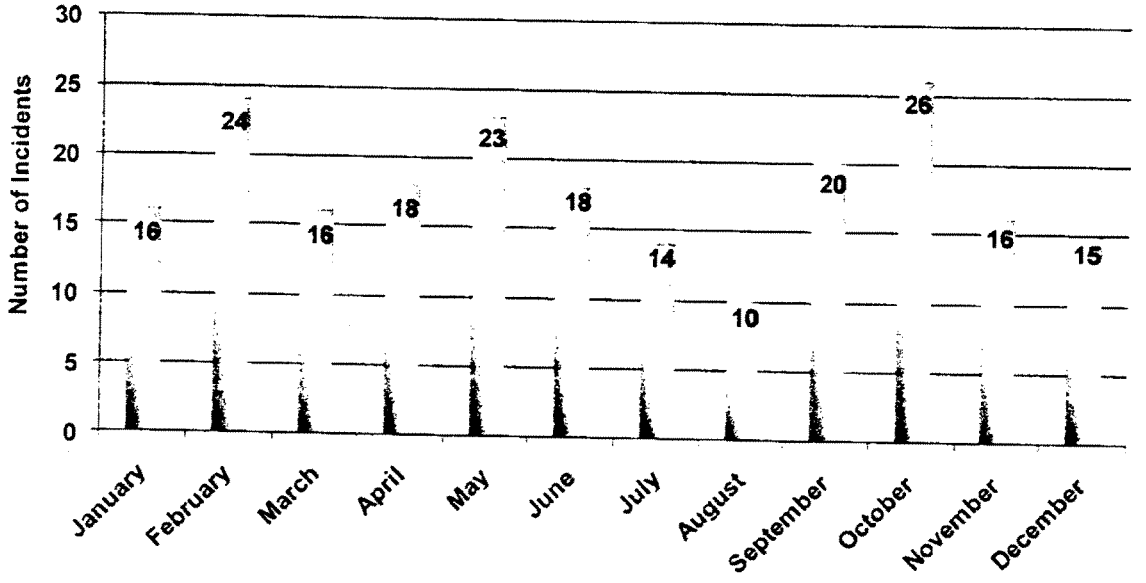
Figure 7.6 Unintentional Discharges by Day of the Week



## Unintentional Discharges by Month of the Year

Month of the year was available for all UDs. Figure 7.7 depicts the frequency of occurrence of all UDs by month of the year.

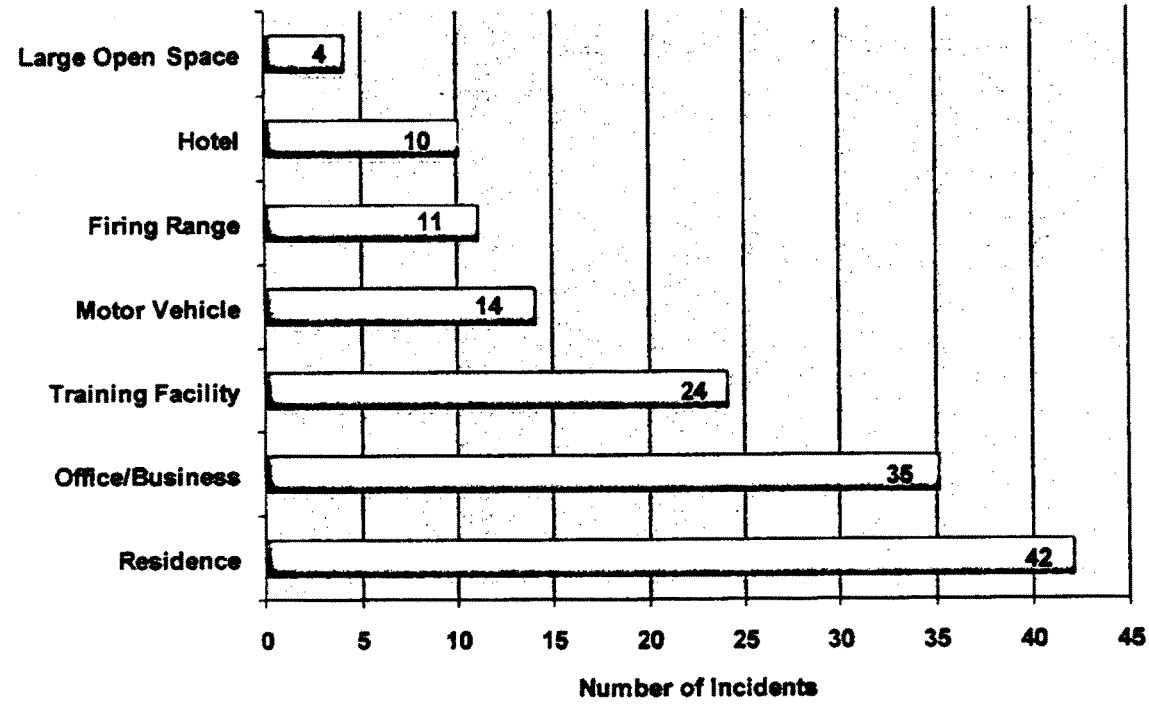
Figure 7.7 Unintentional Discharges by Month of the Year



## Environment and Location for Unintentional Discharges

Environment and location information was available for all UDs. Figure 7.8 depicts the number of UDs by location occurring in an inside environment.

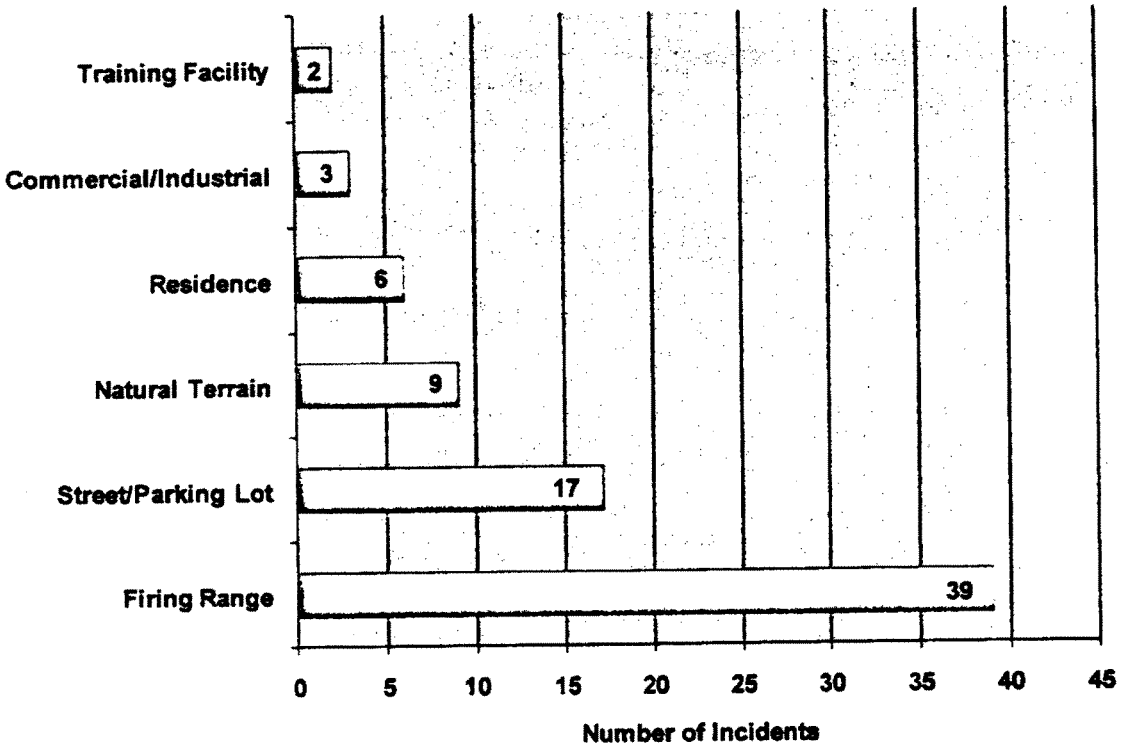
Figure 7.8 Inside Environment—Unintentional Discharges by Location



- Large Open Space: indoor parking garages, warehouses, indoor shopping malls, aircraft hangers, etc.
- Hotel: an establishment providing temporary lodging for a fee.
- Firing Range: includes law enforcement, military, and commercial ranges.
- Motor Vehicle: shooters inside a vehicle discharging a weapon either inside the vehicle or at a target outside the vehicle.
- Training Facility: any indoor law enforcement, military or commercial training facility, except indoor firing ranges.
- Office/Business: includes all commercial and government facilities where employees work or customers visit.
- Residence: single and multi-family homes, apartments, condominiums, and trailer homes.

Figure 7.9 depicts the number of UDs by location occurring in an outside environment.

Figure 7.9 Outside Environment—Unintentional Discharges by Location

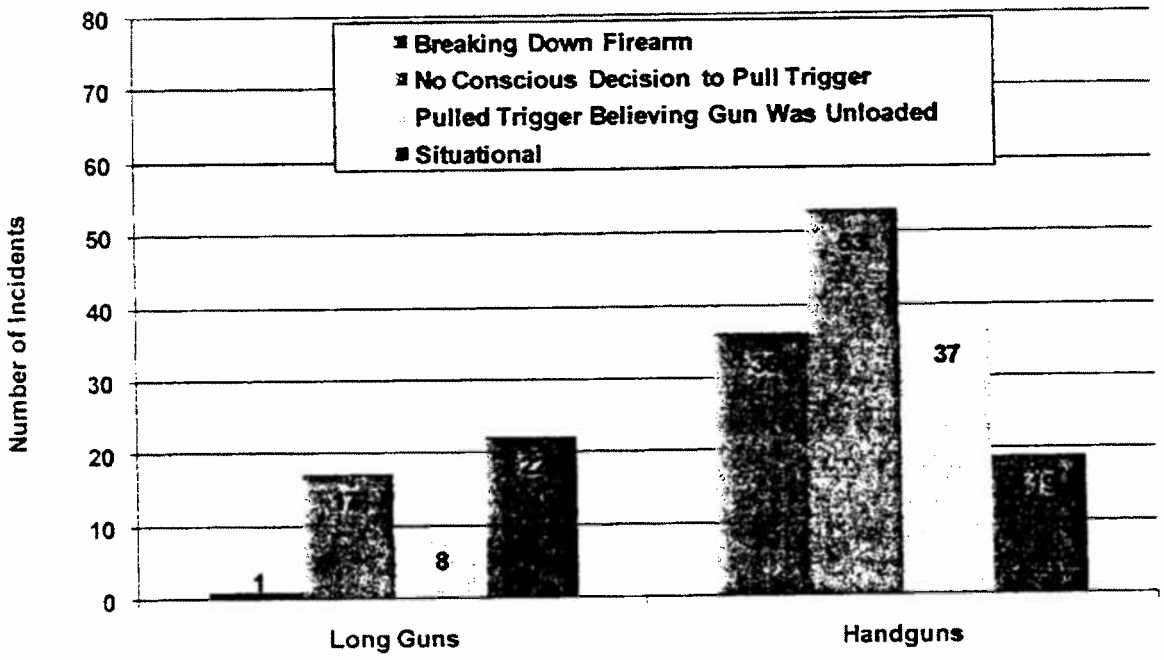


- Training Facility: any outdoor law enforcement, military or commercial training facility, but not outdoor firing ranges.
- Commercial/Industrial: most large, outdoor commercial facilities and areas such as rail yards, power stations, lumber yards.
- Residence: the perimeter or yard immediately outside or in the vicinity of a residence.
- Natural Terrain: wooded areas, rural and farm land, and mountainous areas.
- Street/Parking Lot: includes public space where vehicles routinely are driven or parked.
- Firing Range: includes law enforcement, military, and commercial ranges.

## Causes of Special Agent Unintentional Discharges

For the purpose of analysis, four categories were developed to capture the underlying cause of UDs. Figure 7.10 depicts the causes of UDs for Agents only. The chart further distinguishes between long guns (rifles, carbines, and shotguns) and handguns (revolvers and pistols).

Figure 7.10 Causes of Unintentional Discharges

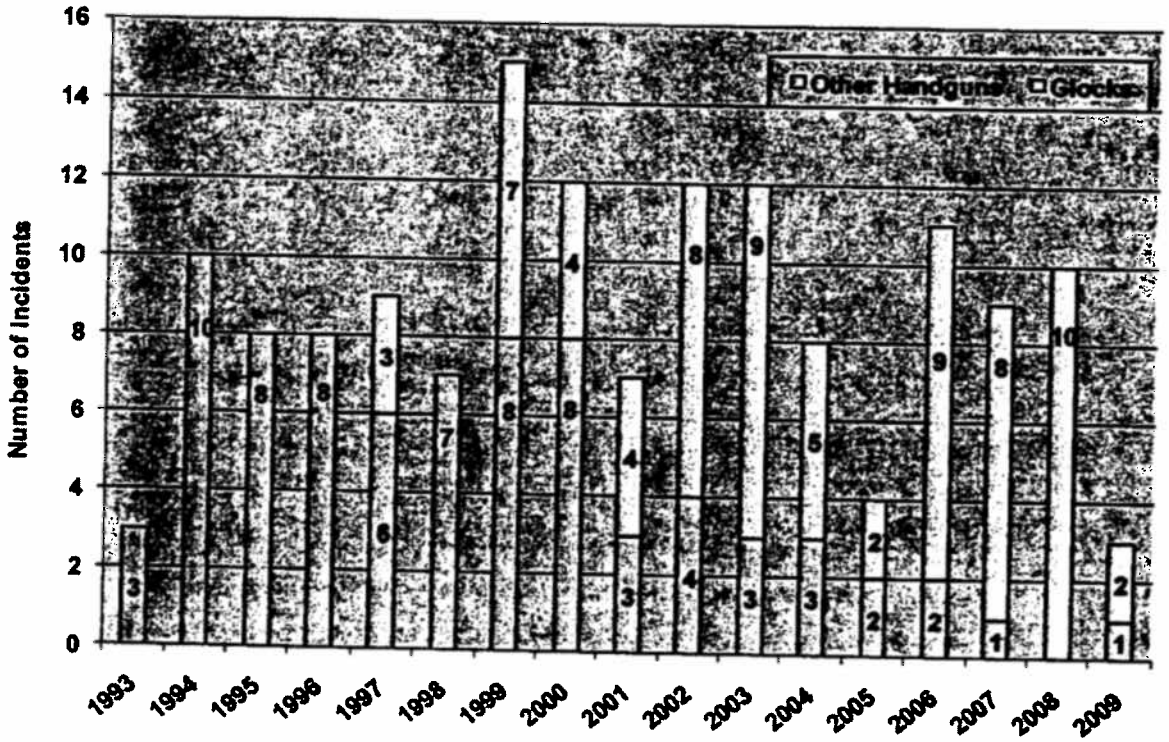


- Breaking Down Firearm: The shooter was intending to break down the firearm and did not intend to fire a live round (to include cleaning and safely storing the weapon).
- No Conscious Decision to Pull Trigger: The shooter did not recall pulling the trigger or could not explain how the weapon fired a live round.
- Pulled Trigger Believing Gun was Unloaded: Similar to Breaking Down Firearm, but for situations other than specifically doing so with the intention to disassemble the weapon (e.g., dry-firing).
- Situational: When some sort of outside stimulus caused the shooter to fire the weapon (e.g., hit by a vehicle).

## Unintentional Discharges by Handgun Types

In 1997, the FBI began an enterprise-wide transition to pistols manufactured by Glock. Figure 7.11 illustrates how the proportion of UDs involving Glock pistols has changed over time.

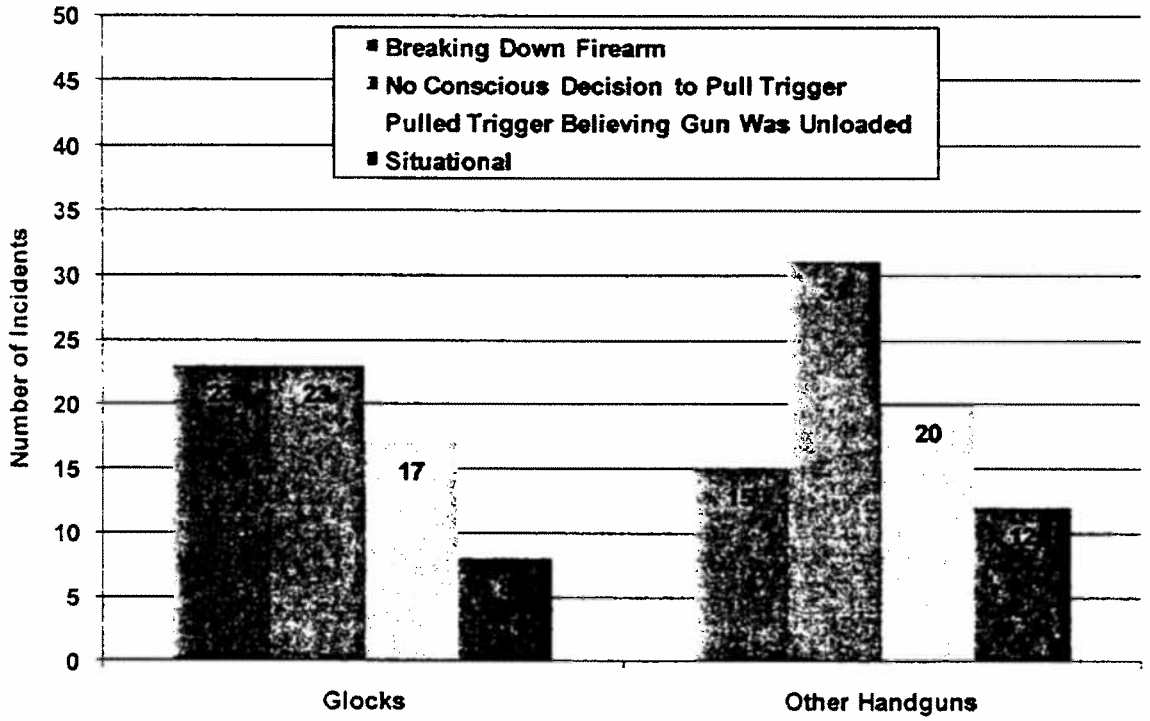
Figure 7.11 Unintentional Discharges—Glocks vs. All Other Handguns



A comparison to the Agent population helps put the above data into context. In 1994, the Agent population was approximately 9,780, the lowest number of Agents throughout the 17-year review period. There were ten UDs with handguns in 1994. In 2008, the Agent population was approximately 12,850, the highest number of Agents with the exception of 2009. There were ten UDs with handguns in 2008. Between 1994 and 2008, there was a population increase of approximately 31.4%. The proportion of UDs to Agent population in 1994 was 0.1% compared to 0.07% in 2008. As the Agent population has increased over time, UDs as a proportion of the population has decreased, despite the introduction of the Glock pistol.

Figure 7.12 illustrates the comparison of the causes of UDs between Glock pistols and all other handguns.

Figure 7.12 Causes of Unintentional Discharges—Glocks vs. All Other Handguns

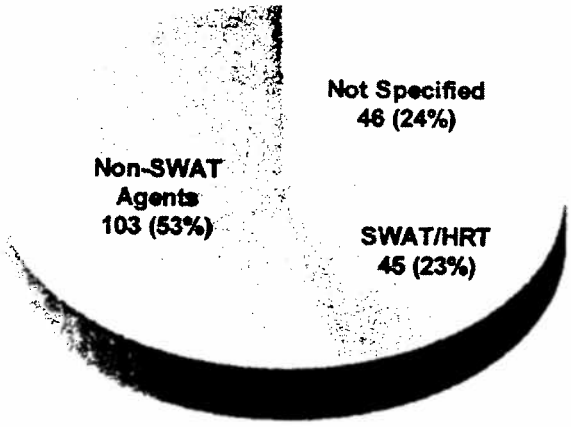


- Breaking Down Firearm: The shooter was intending to break down the firearm and did not intend to fire a live round (to include cleaning and safely storing the weapon).
- No Conscious Decision to Pull Trigger: The shooter did not recall pulling the trigger or could not explain how the weapon fired a live round.
- Pulled Trigger Believing Gun was Unloaded: Similar to Breaking Down Firearm, but for situations other than specifically doing so with the intention to disassemble the weapon (e.g., dry-firing).
- Situational: When some sort of outside stimulus caused the shooter to fire the weapon (e.g., hit by a vehicle).

**SWAT vs. Non-SWAT Agents Involved in Unintentional Discharges**

In Figure 7.13. Agent shooters involved in UDs were categorized based on whether they were SWAT/HRT Operators, Non-SWAT Agents, or Not Specified.

Figure 7.13 SWAT vs. Non-SWAT Agents Involved in Unintentional Discharges



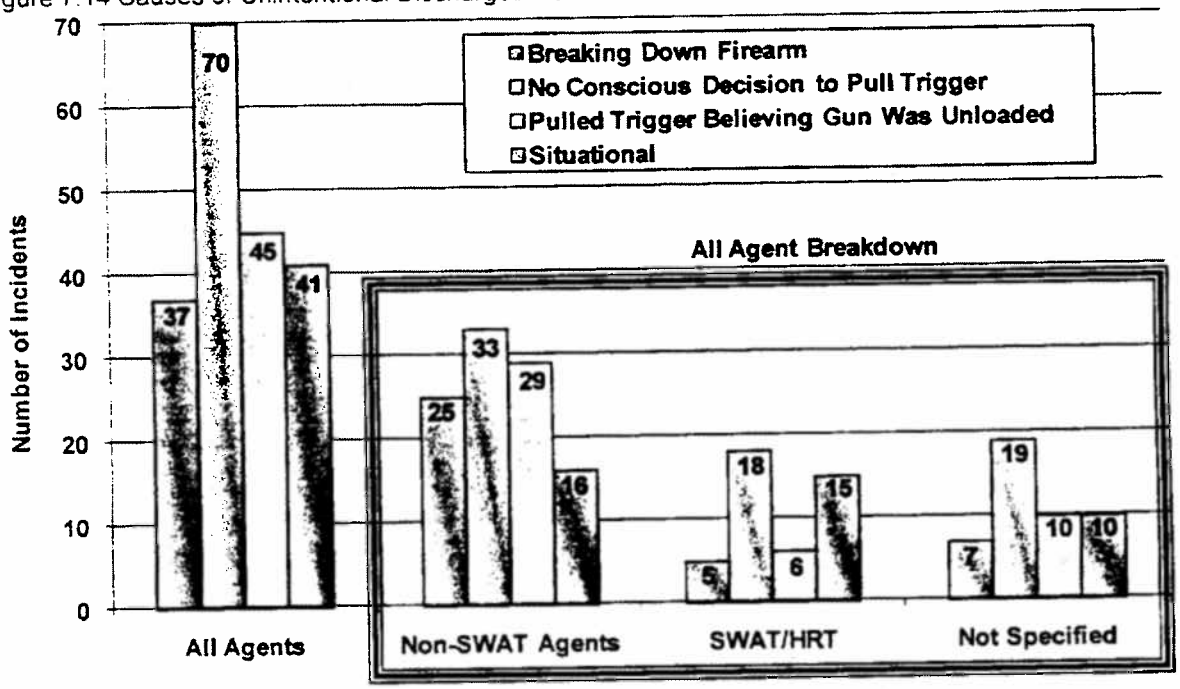
- Non-SWAT Agents: any Agent not assigned to SWAT or HRT at the time of the incident.
- Not Specified: Agents about whom there was insufficient information in the shooting incident report to make a determination.
- SWAT /HRT: all Agents who were active members of an FBI SWAT team or HRT, but not necessarily involved in a SWAT or HRT operation at the time of the incident.

In 2009, approximately nine percent of all Agents were SWAT operators, according to the SWAT Operations Unit (SOU). The demands of firearms training were much greater for SWAT and HRT operators than for Non-SWAT Agents. FBI SWAT teams conducted firearms training twice monthly until 2009, when the requirement was increased to three times per month. Additionally, SWAT teams were often deployed in field offices to handle a variety of operations, including arrests, protection details, and support for undercover operations. This increased the amount of time spent handling,

breaking down, and training with a firearm over that of a Non-SWAT Agent. Therefore, any conclusions drawn about the probability of a SWAT or HRT operator having a UD compared to a Non-SWAT Agent needs to consider these facts.

Figure 7.14 illustrates the comparison of the causes of UDs between SWAT/ HRT operators, Non-SWAT Agents, and Not Specified. The left side of the chart depicts the causes of UDs for all Agents. The three groupings of bars inside the box illustrate how the data for all Agents relates to the three personnel groups.

Figure 7.14 Causes of Unintentional Discharges—SWAT vs. Non-SWAT

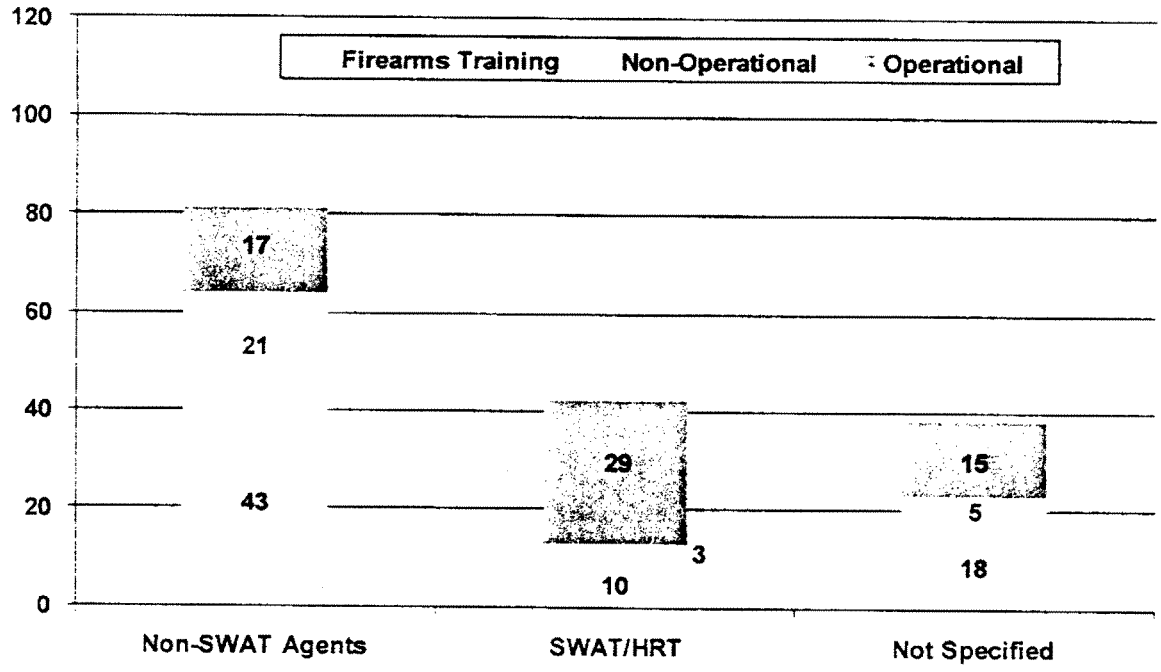


- Breaking Down Firearm: The shooter was intending to break down the firearm and did not intend to fire a live round (to include cleaning and safely storing the weapon).
- No Conscious Decision to Pull Trigger: The shooter did not recall pulling the trigger or could not explain how the weapon fired a live round.
- Pulled Trigger Believing Gun was Unloaded: Similar to Breaking Down Firearm, but for situations other than specifically doing so with the intention to disassemble the weapon (e.g., dry-firing).
- Situational: When some sort of outside stimulus caused the shooter to fire the weapon (e.g., hit by a vehicle).

## Duty and Operational Status for FBI Agents Involved in Unintentional Discharges

Of the 194 Special Agents involved in a UD, 33 (17.0%) were not on duty at the time of the incident. Figure 7.15 depicts the on duty type of activity of the remaining 161 (83.0%) Agents at the time of the shooting incident.

Figure 7.15 Operational Status of On Duty Agents Involved in Unintentional Discharges

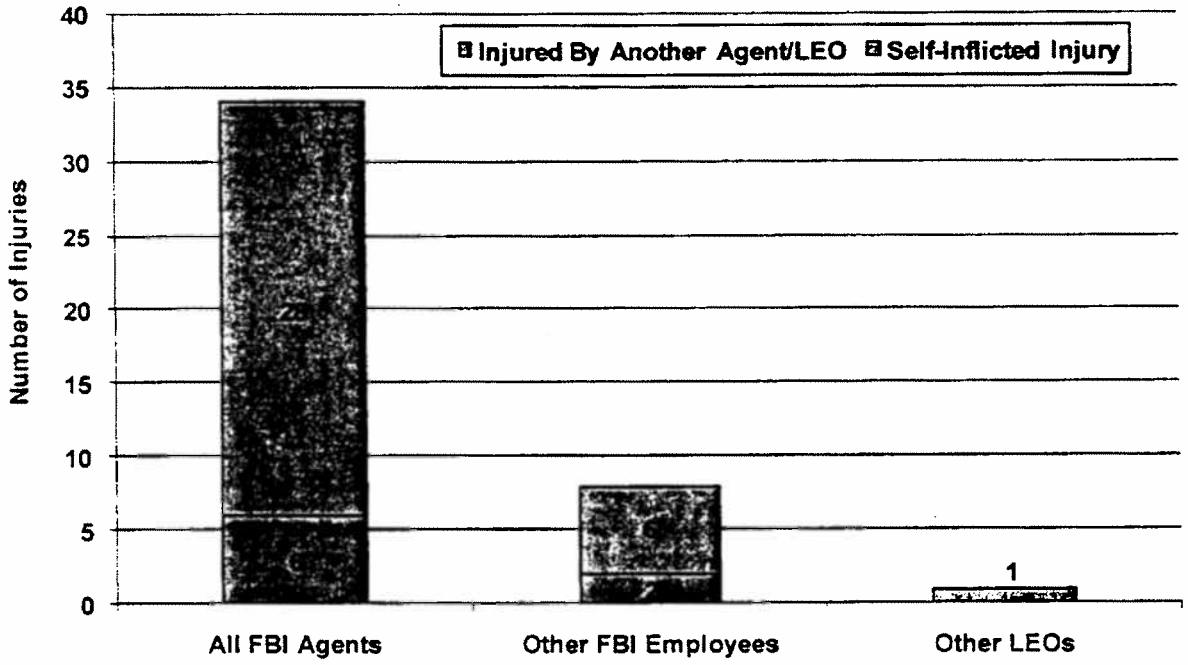


- Firearms Training: any qualification shoots or firearms training conducted at either an official FBI facility or any other firearms training site.
- Operational: any planned activity in which the shooter was acting in support of an investigation while on-duty.
- Non-Operational: any unplanned situation in which the shooter was not acting in support of an investigation, either while on or off duty.

### Injuries Caused by All Unintentional Discharges

Of the 216 UDs, 46 (21.3%) UDs resulted in an injury. The majority of these injuries were self-inflicted. Three subjects were injured by Agent UDs, which is not shown in the chart below. Figure 7.16 illustrates the injuries to Agents, LEOs, and Other FBI Employees caused by UDs. No deaths were attributed to UDs.

Figure 7.16 Injuries Caused by Unintentional Discharges



**Summaries of Unintentional Discharges Involving Special Agents**

The following summaries involving Special Agents were taken from the 17-year period. Summaries of incidents were chosen to provide examples of the varied situations in which UDs have occurred.

- Following a firearms qualification, an Agent decided to clean his/her Glock pistol at home. The Agent loaded the weapon, but engaged other Agents in conversation before leaving the range. The Agent then decided to clean the weapon at the range. Forgetting the weapon had been reloaded, the Agent pointed the weapon in a gun clearing barrel and pulled the trigger, discharging one round. No injuries were reported.

- During a felony car stop, an Agent exited a Bucar and gave verbal commands to the subject driver. Ignoring commands, the subject drove the vehicle towards the Agent. The Agent quickly moved to avoid being hit by the subject vehicle, but struck his/her extended gun arm on the door causing one round to be discharged into the subject's vehicle. No injuries were reported.

- Following the completion of a pistol qualification shoot, an Agent inserted a loaded magazine into his/her Glock pistol, but did not charge the weapon. Firearms training continued with the shotgun. After training was completed, the Agent retrieved his/her pistol. Forgetting he/she had earlier inserted a loaded magazine, the Agent pulled the slide and saw an empty chamber. The Agent released the slide forward, pointed the weapon down, and pulled the trigger, discharging one round. No injuries were reported.

- During the arrest of a fleeing subject, a pursuing Agent attempted to holster his/her pistol with one hand as he/she simultaneously reached for the subject with the other. As the Agent gripped the subject with one hand, the Agent's other hand tightened on the pistol, discharging one round. No injuries were reported.

- During a SWAT operation, SWAT Agents attempted to tear down a fence to gain entry to the target location. An Agent held an MP5 in his/her right hand with the safety disengaged, while using his/her left hand to pull down the fence. The Agent's right hand contracted and one round was discharged into the foot of a nearby Agent. The Agent was not aware he had discharged a round until it was discovered one round was missing from the magazine of the weapon after the operation.

- An Agent checked into a hotel room the night before a SWAT arrest. The Agent practiced dry-firing drills and completed function checks on two long guns and two pistols. Prior to retiring for the night, the Agent reloaded his/her Sig Sauer pistol and placed it on the night stand. Before climbing into bed, the Agent picked up the Sig Sauer pistol and, forgetting the weapon was loaded, aimed at the mirror in the room to conduct more dry-firing drills. The weapon discharged one round into the mirror. No injuries were reported.

- While driving his/her Bucar to assist in the surveillance of a Domestic Terrorism investigation, an Agent realized his/her personally-owned weapon was in the briefcase on the passenger seat. While continuing to drive, the Agent opened the briefcase, removed the pistol and attempted to place the pistol in the waistband of his/her pants. As he/she maneuvered the pistol into the waistband, the weapon discharged one round into the hip area of the Agent.

- An Agent was preparing to secure his/her Glock pistol with a trigger guard for the evening. The locking bar of the trigger guard was applied to the front of the trigger. As the Agent attempted to tighten the trigger guard, the pistol discharged one round. The Agent did not unload the weapon before applying the guard because he/she believed it would take too long to make the weapon usable if an emergency arose. No injuries were reported.

- While conducting surveillance on a residence, an Agent decided to begin disassembling his/her Glock pistol. The Agent ejected the magazine, but slid the magazine back into the weapon when the subject suddenly exited then re-entered the residence. The Agent turned his/her attention back to disassembling the pistol, and, believing the magazine had already been removed, pulled the trigger to remove the slide. The weapon discharged one round through the windshield and into a concrete structure. No injuries were reported.

- An Agent was providing a presentation on the FBI to middle school students. As part of the presentation on weapons used by the FBI, the Agent held a Smith and Wesson Model 13-3 aloft with the barrel pointed towards the ceiling. In order to demonstrate the rotation of the cylinder, the Agent pulled the trigger, discharging one round into the ceiling. The Agent had emptied the weapon before the presentation, but unintentionally left one round in the cylinder. No injuries were reported.

# VIII. Factoids

- Of the 188 Intentional Shooting Incidents, 73 (38.8%) incidents involved more than one Special Agent/LEO shooter. Forty-four of these 73 (60.3%) Intentional Shooting Incidents involved only multiple Special Agents firing weapons (no other LEO shooters).

- In five of the 188 (2.7%) Intentional Shooting Incidents, more than one subject discharged a weapon at law enforcement personnel.

- Of the 367 Special Agents who discharged a firearm in an Intentional or Animal Shooting Incident, 72 (19.6%) Special Agents reported making use of cover and/or concealment while firing their weapons.

- Of the 188 Intentional Shooting Incidents, there was an exchange of gunfire between Special Agent/LEO shooters and subjects in 58 (30.9%) incidents.

- Of the 367 Special Agents who discharged a firearm in an Intentional or Animal Shooting Incident, five (1.4%) were carrying a ballistic shield at the time of the incident.

- Of the 188 Intentional Shooting Incidents, ten cooperators (Confidential Human Sources) and seven Undercover Employees (UCEs) were known to have been *present at the scene* in 14 (7.4%) separate shooting incidents.

- Of the 188 Intentional Shooting Incidents, 29 (15.4%) were identified as SWAT operations and three (1.6%) were identified as HRT missions. Two of these shooting incidents involved both FBI SWAT and HRT operating on the same mission.

- The typical penalty received by Special Agents for an Unintentional Discharge: letter of censure, three days suspension, and remedial firearms training.
